Mirandy

All-America Winner for 1945

Armstrong Nurseries

ONTARIO, CALIFORNIA

A Good Start —

A garden of roses, made fragrant and colorful by masses of the "Queen of Flowers" in all her glorious stages, with each robust bush clothed in healthy, glossy, dark-green foliage, is no happenstance.

Of course proper care is important, but it is just as important to give yourself the right start by planting roses that you know are good.

Armstrong Roses

It is no miracle that "California Grown Roses from Armstrongs" are making dream gardens into realities for flower lovers all over America. Every Armstrong Rose combines 57 years of rose growing experience, the determination to grow the best roses in the world, a constant seeking for improved production methods, and a continuous search for the most vigorous and most disease-resistant rootstock. Finally, every variety has had to prove its merit under thorough test before it is offered to you.

The roses on the first three pages of this booklet have all been created through hybridization by the Armstrong Research Department. We are very proud of the praise they are receiving and the honors they have brought us.

Charlotte Armstrong

Since the day of her debut and her winning of the 1941 All-America Award, Charlotte Armstrong has won every important prize or award for a new rose. You will marvel, as we still do, at the beauty of the long streamlined carmine buds and the glorious open flowers of Spectrum Red or cerise. Few roses have such long sturdy stems and few will bloom more abundantly, regardless of the weather. From Maine to Southern California, Charlotte Armstrong is firmly established among the top roses of all time. Plant Pat. No. 455. \$1.50 each.

Mirandy

This gorgeous Armstrong rose won the All-America Award for 1945. Rich, dark, velvety-red buds open to many petalled flowers of lovely Chrysanthemum Red with a marvelous damask fragrance. Best in warm weather. Plant Pat. No. 632. \$2.00 each.

Show Girl

You will seldom see this new Armstrong rose without great, long, lovely, deep pink buds or magnificent many-petalled open blooms on long sturdy stems. Everyone likes the way it goes robustly about the business of producing quantities of those marvelous buds, with small regard for soil or climatic conditions. Plant Pat. No. 646. \$2.00 ea.

All-America Collection

Here is the cream of the world's new roses selected from All-America winners of the past few years: **Peace** (1946), **Mirandy** (1945), **Katherine T. Marshall** (1944), **Grande Duchesse Charlotte** (1943), **Charlotte Armstrong** (1941).

One each of the above five All-America Roses for \$8.00, prepaid. Ask for Collection No. 5.

Debonair

(Armstrong Research Dept.) A profusion of jaunty, perfect, yellow buds on one of the most handsomely foliaged and vigorous plants in roses. The high-centered opening flowers of substantial primrose yellow are exceptionally graceful, and have a delightful old-fashioned rose fragrance. Plant Pat. No. 677. \$2.00 each.

Sweet Sixteen

Dainty pink with tints of rose and a dash of gold—a soft rose complexion in the delicate colors of youth and beauty. The long, tight buds, half open blooms, and large-petalled flowers of this new Armstrong rose are magnificent in their perfection. You will enjoy plenty of the lovely flowers on long, straight stems. Plant Pat. No. 631. \$1.50 each.

Etoile de Hollande

Many consider this magnificent rose the best of the bright reds. The perfect buds open beautifully and cleanly into glorious flowers with incomparable fragrance, and each holds its brilliant color to the end. The bush is strong and healthy. A rose that actually has no serious fault. \$1.25 each.

Mrs. E. P. Thom

Morning after morning you can cut quantities of perfectly formed, clear canary-yellow buds on long, sturdy stems. The popular Mrs. Thom remains a favorite unchallenged by newer varieties. \$1.00 each.

Armstrong Big 10

A ten-plant rose garden, including only vigorous tested varieties sure to succeed. You will find no finer group of roses anywhere than these.
