FRIDAY, DECEMBER 9, 1910

IF YOU WERE BUYING EYES

What would you get? The best of course. Follow the same plan in buying glasses. Have them fitted properly, then buy a frame or mounting such as you can afford. Fitting glasses for children is my specialty. No drugs. No danger. Satisfaction guaranteed.

BERT K. KERR, Optometrist
31 E. Santa Clara St. San Jose.
Formerly the PRATT-KERR OPTICAL CO.

The W. C. T. U. will meet with Mrs. Newcomb on Wednesday, December 14th, at 2:30 o'clock. A full attendance of members is requested as there is important business to come before the meeting.

J. H. Neff has a variety of choice fruit and vegetables.

Ladies' hair work, working up combings. MRS. A. W. ADAMS, Dillon Ave.

A system of bookkeeping for farmers. Call and see at the Press Office.

WANTED—Orders for engraved cards, wedding invitations, etc. The Press Office.

Don't send your magazine money out of town. Call at the Press office and get a catalogue. We can give you good service at the lowest price.

For Sale—Choice young canary birds. MRS. A. W. ADAMS, Dillon Ave.

FOR SALE—A fine, thorough-bred White Leghorn Rooster, 20 months old, Baldwin stock. Price \$3.00. Enquire at Press office.

Campbell High Wins First Debate

Local Team Scores Against Palo Alto 56 to 44. Lose at Palo Alto by 3 Points

A big crowd attended the debate at the High school last Saturday night. It was the first debate in the series of the Santa Clara Valley Debating League. The local school was represented by Geo. Beaver, Jr., and Byrona Bennett, with Russell Downing as alternate. The question was, "Resolved, That the Measures Taken by the White Citizens of the South to Retain their Political Supremacy are Justifiable." Easton Carter acted as chairman of the meeting and the judges were Hon. John E. Richards, and Attorney Herbert Jones, of San Jose, and Dr. F. W. Knowles, of Los Gatos. The high school orchestra furnished some good music and the class yells added enthusiasm.

W. C. T. U. Reception

The W. C. T. U. reception given in honor of the teachers in the public schools of Campbell, the pastors of the different churches, the editor of the Press, and friends, was a pleasant occasion. The home of Mr. and Mrs. C. H. Whitman, where the guests were most cordially entertained, was tastefully decorated with chrysanthemums and white lilies. Long tables were spread in the dining room and the room adjoining. Over sixty people sat down to enjoy the banquet prepared in honor of the guests. The place cards were very appropriate, being white cards tied with a bow of white ribbon.

After the banquet the following toasts were given, Miss J. A. Marshman acting as toast mistress:

Our Guests, Mr. C. H. Whitman.
Our Hostess, Prof. Smith.
Our Future Citizens, the Boys, Rev. Atkinson.

Interpretations of Scientific Temperance Instruction, Mrs. Sarah E. Ayres, San Jose.

Value of Prize Essay Work and How Best to Interest Pupils in it, Prof. Graves.
Might have Beens of Campbell, Rev. Marshman.

Co-operation Between Parents and Teachers, Mr. John Duncan.
Progress in Our Schools, Prof. Snow.
Progress from a Medical Standpoint, Dr. Cooper.

Schools, Old and New, Mr. Righter.
Musical numbers were given by Miss Myrtle Arnot, Mr. Adams, and Miss Charlotte Davis.

A Splendid Lecture on China

Rev. John F. Wilson was the leader at the Countryman's Club last Tuesday night. He gave a two-hour talk on his missionary experiences in China, supplemented with a fine collection of photographic views of his own collection. We have heard many missionary lectures, but will say unhesitatingly, this address of Mr. Wilson's before the Club last Tuesday evening was the most interesting and instructive lecture on China that we ever heard.

Grigsby-Coates Wedding

We neglected to mention in last week's paper the marriage of Mrs. Mary Adelaide Coates to Mr. John Wortel Grigsby, of Napa. The ceremony was performed by Rev. John F. Wilson at Hotel Manx, San Francisco, Nov. 26th. The couple were in Campbell all last week greeting friends and saying goodbye. On Saturday they left for their future home at Napa. Mrs. Grigsby is well known and has many friends here. Mr. Grigsby is a prominent business man of Napa.

Local and Personal

Don't forget to go to the big Philo-sophia entertainment on Dec. 16th. See the program in today's paper.

Robert Scholz and Will Finnimore came home from O'Connor Sanitarium last week, after recovering from typhoid fever.

The Campbell Farmers Union Packing Co. yesterday shipped a carload of prunes to Philadelphia. From the city they will go by boat.

The standard used by Rev. Atkinson for his stereopticon instrument last Sunday evening was made for him as a Christmas gift by Mr. J. A. Greene.

Mr. and Mrs. J. D. Sawyer attended the district convention of the Fraternal Aid, at Santa Rosa, Monday. They went up Sunday and came back Tuesday. Mrs. Sawyer was a delegate from the local lodge. Mr. Sawyer is treasurer of the district.

Rev. L. D. Rathbone delivered a very interesting lecture at the Congregational church last Sunday evening on "The Immigrant." It was illustrated by many fine stereopticon views showing what the immigrants must experience as they come through Ellis Isle and pass examination by Uncle Sam's men.

Rev. Geo. E. Atkinson will go to Los Gatos Saturday evening and act as one of the judges at the debate between the Los Gatos and San Jose High schools. On Dec. 17th he will journey to Redwood City to sit in judgment between Palo Alto and Redwood City's debaters. At the latter place they will deal with the "Initiative and Referendum."

The members of the Cave of Adullam are trying to get as many old papers and magazines as possible, which they are going to sell to the paper mill at Antioch. The proceeds will go into the new club house fund. Save your magazines, papers, etc., and give them to the boys when they make you a visit. Mr. Carter, chairman of the soliciting committee, reports that he has \$200 pledged toward the new club house in only seven pledges. Those who have already contributed towards the fund are Rev. G. E. Atkinson, Mrs. J. F. Duncan, I. W. Snow, C. B. Miracle, Dr. C. N. Cooper, Mrs. Lydia Sadler, and J. F. Smith.

New Bank Building

The handsome new building of the Bank of Campbell is rapidly nearing completion. The workmen are now at work on the interior and the installation of counters, fixtures, and vault doors, will be accomplished, possibly, by January 1.

At a meeting of the bank directors last Saturday evening, a contract was tendered to the Safe, Vault and Protection Co., of Los Angeles, for complete steel vault, vestibule, and door linings, electrically protected throughout, and equipped with automatic time lock.

It is with pride we call attention to the fact that this bank, with the very latest equipments of steel lined vaults and doors, all to be electrically protected, will rank second to none in the efficiency of protection for its funds and securities.

Engineer E. W. West demonstrated before the board with a full working model of the new 1911 system, now being manufactured by his company, showing conclusively the absolute protection afforded by electrically protecting their already very strongly built steel lined vault and doors, from attack. Stopping the bank burglar before he gets started means absolute protection.

PEN SLIPS

A pay-roll every week in the year.

A friend from Indiana recently wrote the editor of the Press that they had two feet of snow fall in twenty-four hours.

The excellent articles published in the Press recently by Professor Smith, C. H. Whitman and J. Fablinger were copied in part in various other newspapers, including the San Jose Mercury.

The Improvement Club will meet next Monday night with the new president, John F. Wilson, at the wheel. Let's all be there and lend a hand in the efforts to bring that factory to Campbell.

A very peculiar co-incidence happened at the debate at the high school last Saturday evening. The three judges, each sitting in different parts of the room and not having an opportunity to compare results, gave in a score of 56 to 44 points. Also, Rev. G. E. Atkinson and Judge Farley marking independently attained the same result.

The Press of Nov. 25 contained an article taken from the San Jose Mercury regarding a meeting of the Orchard City Grange, a portion of which is as follows: "A resolution was adopted asking the San Jose Chamber of Commerce to co-operate and use its influence to get the Western Pacific Railroad Co. to build its road to San Jose and Campbell. The very poor service rendered the fruit growers in the Campbell district by the Southern Pacific Co. was the leading cause for this action."

As the editor of the Press did not write the article, he is not entitled to the blame he has been receiving for such an unfair criticism of the Southern Pacific Co. Upon investigation we find that of all the fresh fruit shipped out of Campbell during the season only about 20 percent is shipped by the growers and the balance by Geo. E. Hyde & Co. and Henry Booksin. It was to accommodate the latter firms that the afternoon freight was held over until 6 p. m., which was a great advantage in various ways. If that arrangement inconvenienced the growers in any way the railroad company was not aware of it. In fact, the company claims that no reasonable request has ever been made and put to the company in proper form by the shippers at this station but what has been granted.

During the past busy season from September 15 to October 15 when great quantities of fresh and dried fruit was being shipped to eastern markets and there was such a scarcity of cars all over this part of the state, Campbell shippers suffered no inconvenience to speak of. It is further claimed that Campbell had better car service than any point on the division from San Francisco to Santa Cruz and Santa Barbara.

Not knowing just what grounds the growers may have for complaint, we have only taken up the matter from the standpoint of the Southern Pacific Co. Much more might be said of what they have done for this community. For instance, making this a terminal point, running a third rail out from San Jose, running a Sunday fruit train when it was asked, etc.

Shall We Have a County Technical School?

Considerable interest has been created in the organization of a Technical School for Santa Clara County. That the advisability of such a movement might be properly considered, D. T. Bateman, County Superintendent of Schools, has called a meeting for Saturday, Dec. 17, at 2 p. m., at the old Normal Hall, of the county school trustees and others. Judge J. E. Richards will be present.

Fine Concert

Campbell people enjoyed something out of the ordinary in the way of entertainment last Monday night at the Congregational church. The Country Woman's Club have a reputation for doing things well when they undertake anything. The concert was in aid of the Free Reading Room which the Club maintains for the betterment of our people. The program as printed in last week's paper was carried out in full, and every number was fully appreciated by a large audience. The following took part on the program: Mrs. Mignon Judson McDonald, mezzo-contralto, of San Francisco; Mr. W. E. Johnson, baritone, San Jose; Miss Emelyn A. Beattie and Mrs. E. C. Merrill, piano, of Campbell.

Haven't You Been Expecting

TO START A BANK ACCOUNT? Been trying to save an amount sufficient to "make a good start?"

The "small purchase temptation" makes it very hard to accumulate any certain sum when you keep your money in your pocket or around the house—probably that has been YOUR trouble.

This bank accepts deposits of \$1.00 and up—why not come in and open an account with us NOW—let the bank help you save—it is the only safe way.

SUMMARY OF PAST WEEK'S COAST NEWS

Interesting Events Among Our Neighbors in the Far West Reviewed.

What Has Transpired on the Border of the Broad Pacific From Alaska to Mexico.

Berkeley.—The Berkeley City Council went on record as opposed to the further use of voting machines in elections held in this city.

Santa Rosa.—The four-year-old son of Tony Brown fell into a ditch near the family home at Hessel station and was drowned. The child evidently slipped from a foot-bridge.

Santa Cruz.—The propagation of king salmon, one of the best fishes of Alaskan waters, at the Brookdale fish hatchery, is unquestionably a success, although results were not obtainable until this year.

Napa.—The hearing of the suit for \$5000 damages brought by C. L. Teale and Mrs. Annie Teale of Calistoga against the Southern Pacific Company came to an end when the jury awarded the plaintiffs \$2500 damages.

Los Angeles.—Ernest Brecht, a farmer, dropped dead in the Los Angeles Pacific depot while trying to board a car for the Santa Monica races. Excitement caused by contending with the crowd brought on heart failure.

San Francisco.—Warrants were sworn to before Police Judge Weller for the arrest of 18 dealers in tobacco and cigars, charging them with violating section 308 of the penal code which provides against selling tobacco to minors.

Fresno.—A million dollar merger of the principal independent raisin packers is being formed here to combat the United States Consolidated Seeded Raisin Company, known as the "raisin trust." The independents are being led by A. L. Hobbs, president of the Fresno County Chamber of Commerce.

Salem, Ore.—Compilation completed here of Oregon hop dealers from all parts of the Willamette valley, estimate the 1910 Oregon hop crop at 92,000 bales. The actual list shows 89,200 bales with 81,700 sold and 7500 in the growers' hands. Railroad figures show that 55,000 bales have been shipped out of the State.

Sacramento.—Severely poisoned by eating toadstools in mistake for mushrooms, seven members of the family of William Campana were found writing in agony. Campana and his son, Willie, aged nine, were the most seriously affected and there is still danger that the elder man's case may prove fatal. The others will recover.

Stockton.—The retail price of potatoes has reached \$2.25 a sack, the highest figure known in many years at this particular season. Though there is a good sized supply on hand. It is claimed that the market has been cornered and most of the crop of over 60,000 sacks produced on the islands west of here is being sold for fancy figures.

Sacramento.—Declaring the Missouri Valley Bridge and Construction Company unfair in the wages paid to carpenters, engineers, pile drivers and concrete workers on the Northern Electric bridge at the foot of M street, the Sacramento Building Trades Council has called off all union labor. Between 250 and 300 jobs throughout the United States may be called out, affecting more than 10,000 workmen.

Sacramento.—An association of hop growers of California through which the middleman, who has been getting the profits of the product, will be done away with will be formed at a meeting soon to be held here. Leading hop growers decided that an association should be formed by selling the product direct to the users. The present system is to sell through middlemen at 9 cents a pound, and he sells to the brewers at 25 cents.

Sacramento.—The Pullman Car Company, which for the last three years has refused to pay its State taxes and is fighting these payments in the courts, paid State Controller Nye \$36,684.62, representing the first and second installments for the current year of 1910. This is taken as an indication that the Pullman company will abandon its contest against paying the 1907, 1908 and 1909 taxes and will pay up. The back taxes and penalties amount to about \$100,000.

INTERNAL REVENUE BUREAU TELLS TALES OUT OF SCHOOL

With 91,000,000 People in the Country
Few With Very Great Thirst.

Washington.—The United States has just passed through a banner year for drinks, smokes and oleomargarine. Here is the nation's record for the twelve months ended June 30, as it shows in the figures of the Internal Revenue Bureau:

163,000,000 gallons of distilled spirits—30,000,000 gallons more than the year before.

59,485,111 barrels of fermented liquors—an increase of 3,000,000.

7,600,000,000 cigars—160,000,000 more than 1909.

6,800,000,000 cigarettes—an increase of 1,000,000,000.

402,000,000 pounds of plug, fine cut, cube cut, granulated or sliced smoking or chewing tobacco, or snuff—4,000,000 more than the year before.

141,862,282 pounds of oleomargarine—50,000,000 pounds increase.

Lavish Funeral Displays Discouraged.

Johnstown, Pa.—The Ministerial Association has taken up the task of reforming funerals in this city. The members will decline to officiate at Sunday funerals except in cases required by the Board of Health, and they urge upon all bereaved persons that they have carriages only for the pall bearers and those closely related to the deceased. Lavish floral displays are discouraged, and the general tendency of the ministers' appeal to the public is to make funerals as private as possible, instead of a demonstration. A committee of ministers has been appointed to aid undertakers and cemetery associations in the reform.

Christian Science Discoverer Dead.

Boston.—Mrs. Mary Baker Glover Eddy, discoverer and founder of Christian Science, died at her splendid mansion on Beacon street, in Chestnut Hill section of the city of Newton, Sunday, December 3, aged 89 years. Death was due to an attack of pneumonia, from which the aged woman suffered about a week or ten days, according to the opinion of Medical Examiner George L. West of Newton Center, who was called and viewed the body.

Starts Fire With Kerosene.

Bisbee, Ariz.—Jesse Wells threw a quantity of oil on some live coals in order to start a fire for breakfast at a camp house twelve miles east of here. An explosion followed and Wells ran out, a human torch. He died soon afterward from his burns. Herbert McCutcheon, who tried to assist Wells, was also badly burned, but will recover.

Refer Ordinances to People.

Berkeley.—A petition to refer to the people an initiative ordinance passed by the city council and held to modify the charter was filed by F. W. Richardson. The document contained more than 700 names and prevents the initiative ordinance from becoming effective until after the people have voted on the proposed law at the next city election.

New Trial for Telephone Manager.

San Francisco.—The Supreme Court has entered a minute order reversing judgment in the conviction of Louis Glass, vice-president and general manager of the Pacific Telephone and Telegraph Company, in trial four years ago, and remanded the cause for new trial in the Superior Court.

Girls Have a Night Out.

Oakland.—Marian Hill, aged 15; Melba Dixon, 16, and Adalene Reabon, 14, escaped from the Beulah Heights Training School for Girls and were captured early the following morning at Fourteenth street and Broadway by Patrolman Poulter. They were returned to the school.

Professor Receives Gold Medal.

London.—American Ambassador Reid accepted, on behalf of William Richards, professor of chemistry at Harvard, the Davy gold medal awarded to the professor by the Royal Society in recognition of his researches in the determination of atomic weights.

Wells-Fargo Express Money Recovered.

Muskogee, Okla.—The iron safe containing \$16,000 stolen from the substitution of the Wells-Fargo Express Company here last week, was found under the porch of an abandoned house and all the money recovered. Three men are under arrest.

Priests Must Resign.

Rome.—The official bulletin of the Holy See publishes a papal decree forbidding ecclesiastics to occupy administrative posts. Where now held they must be resigned within four months of the date of the decree.

Hotel for Girls Without Homes Tips Not Permitted

New York.—A new hotel will throw open its doors this week. It is not only a hotel where working girls, or girls without homes, can obtain room and board cheaply and in safety, but it is also a hotel where tips shall be unknown. The qualifications for admission are few; the girls shall be neither tipplers nor tipsters.

Forty-three have already registered in the new Virginia hotel, which is the outcome of a movement to provide cheap and comfortable living quarters for the working women of this city.

It has been established by Miss Virginia Potter, neice of Bishop Potter; Mrs. Henry Olshheimer and other influential women. Three houses were purchased for \$75,000, and converted into one. Contributions of \$25,000 have been received from Mrs. Russell Sage and from the late Morris K. Jessup.

There are large and tastily decorated

reception and reading rooms in the hotel, besides the pleasant sleeping rooms, whose color scheme is blue and white. The dining room, where the food will be served by experienced waitresses, resembles that of any small hotel. All these comforts can be obtained from \$3.50 to \$6 per week.

The private rooms are already engaged, and the prices are \$5 and \$6 for these; if two people room together each may pay \$1 less. There are, in addition, large and pretty dormitories, in which they are four beds. The charges for these is \$3.50 a week.

The Virginia hotel is in no sense a home, and will have no more restrictions than any good family hotel would have. Nor is it a charitable organization, for it is the purpose of the managing committee to make it pay for itself. Most everybody connected with the hotel appears satisfied.

Trend of Population is Toward the Pacific Coast

Washington.—California has gained nearly one million in population in the last ten years. According to statistics of the thirteenth census the figures are given as 2,377,549. This is an increase of 892,496, or 60.1 per cent over 1,485,053 in 1900.

No State in the Union has shown such a marvelous percentage of increase of population of the figures already give out, and only one State, New York, has shown a greater increase in the number of inhabitants.

The figures prove that the trend of population toward the Pacific is even greater than had been. As far as they have been made public they show the highest rate of gain in the East to be 26 and 25 per cent in Rhode Island and New York, while such States as Vermont and New Hampshire have in-

creased but 3 and 4 per cent in the last ten years.

The average rate of gain in the Middle West States is in the neighborhood of 12 per cent. The average rate of gain on the Pacific Coast is more than five times as great.

From the figures now available it is known that California has passed Minnesota, Iowa, Tennessee, Mississippi, Alabama and Virginia in the last ten years in population. Thus is the extreme West coming into her own and closing up the gap that had separated her from the other parts of the country on the basis of relative density of population.

This means that in the readjustment of the representation of the States in Congress the power of the Pacific is making itself more manifest.

Winners of California Grove to Run Farm Jointly

Chicago.—The three men who tied in the guessing contest for the five acre California orange grove at the great land show refused all plans for narrowing the ownership down to one. Each, together with his family, was infatuated with the idea of a fruit farm in the Paradise of the country and refused to buy or sell. Consequently the California Improvement Company has issued a joint deed to the following: D. L. Lanhill, R. T. Bacon and George W. Walker. It is the intention of the owners to appoint one of their

number a resident manager, and the others will spend their winters on the farm. They hope to acquire enough adjoining land to provide all three families with means for a livelihood.

The management of the land show suggested various schemes, including the cutting of a deck of cards, matching pennies, drawing straws or guessing at a number, but the three men were firm and said they would prefer even one-third of the farm to taking any chances of losing, so California is assured of the acquisition of three additional families.

Chinese Stowaways Caught as They Come Ashore

San Francisco.—A blind rush through the darkness along the seawall, culminating at China Basin with the crackle and ping of a fusilade, attended the spectacular capture late Sunday night by inspectors of the United States custom service of a band of 15 Chinese being smuggled into the country. Government officials, thinking that the capture reveals but a small part of a widespread plot for the smuggling of Chinese, are giving the affair a thorough investigation, the peculiar circumstances surrounding the case lead-

ing to a fear that there has been on the part of some of the inspectors either connivance or the grossest negligence.

The theory, backed by facts and observation, is that the Chinese were stowaways in the Pacific Mail liner Manchuria, which came into port Sunday afternoon. This, the officers of the steamship deny. Luther C. Steward, commissioner of immigration at this port, who recently took the place of Hart North, has ordered his first assistant, H. Edsell, to make a complete investigation.

Large Apple Growers Warned Against Overproduction

Tacoma, Wash.—The commission men are discouraging the planting of apple orchards in Touchet valley and the neighborhood fruit sections, is the claim of E. M. Harris, a nursery stock dealer. Scores of large orders for apple trees are being cancelled because the commission men have circulated reports to the effect that the present rapid growth of the apple industry will result in an overproduction within a few years. Many who intended to set

out orchards in the spring near Dayton have given up the idea.

A large number of orders, including one order for a proposed 160-acre orchard, have been cancelled by the cry of overproduction sent out by the commission men. Nevertheless scores are ordering trees, one house taking orders for \$800 worth of apple sprouts last week. The cry of overproduction is also lessening the number of new orchards being planted in the Yakima and Wenatchee valleys.

Wanted for Assault.

Sacramento.—Governor Gillett issued a requisition upon the Governor of Oregon for the return of "Curley" Pratt, who is under arrest at Medford, Ore., and who is wanted in Chico for an assault upon Jessie Ballien, committed August 18.

Oranges East by Water.

Los Angeles.—Growers and packers of citrus fruits foresee a possible revolution of transportation methods as the result of an experiment to be made on the 12th inst., when the first oranges ever shipped east by water will leave San Pedro.

CALIFORNIA MANUFACTURES HER OWN SCHOOL BOOKS

Great Saving By Buying Royalties and
Printing by State.

Sacramento.—California is the only State in the Union that has the distinction of manufacturing its own text books for public schools, says the report of State Superintendent of Public Instruction Hyatt, sent to the Governor, giving a review of the plan, showing the unique system and stating problems to be solved. After telling how the plan came into existence following the failure to utilize home-made books from local authors, Hyatt goes on to tell of purchasing the latest books by buying royalties from the publishers and making books at much less cost than would otherwise occur. The saving on the new advanced geographies alone has been \$22,340.60. He also shows how it is impossible to change the books in less than four years, and some are not altered in less than twenty years.

Gasoline Put Up in Solid Form.

New York.—Fuel for automobiles in solid form is one of the joys which the near future holds, according to advices received here from abroad. The "solidified petrol" is the invention of a Roumanian doctor. It is said to have many virtues. Among other things, it burns without smell or smoke, its cost is two-thirds that of the liquid, it eliminates the use of a carburetor, is safely portable in a wooden box or even wrapped in paper, affords complete combustion, is of greater smoothness than the liquid, will develop greater power and is easily convertible into liquid. It may be used for ship engines, lamps and other purposes.

Muddle of Three Mikes

Spokane.—While a man answering the description of Mike Gilroy, a Butte miner, lies murdered at Baker City, Ore., and another who carries Gilroy's union card and claims his name is under arrest there for the crime; the real Mike Gilroy is living quietly in a hotel in this city. The victim was identified on descriptions from Pat Gilroy of Butte, a brother. "I have heard nothing of this murder," said Gilroy. "My card was stolen three months ago."

Money Involve County Charges.

Quincy, Cal.—John W. Ellis, aged 82, is dead, and Henry Talbert, aged 78, is in the county jail charged with murder as the result of a quarrel over a debt. Both were inmates of the county hospital. The two fought at the door of the assembly hall and Talbert plunged the knife into Ellis' heart. Talbert claims he stabbed Ellis in self-defense.

"Repressa," New Name for Prison.

Sacramento.—If a bill under preparation is made a law by the legislature, Folsom prison hereafter will be known as "Repressa." The residents of Folsom have complained that they don't want their town known as the prison town and have induced their assemblyman to prepare a bill asking that the prison be labeled Repressa.

Assemblyman Johnson Resigns.

Sacramento.—Assemblyman Grove L. Johnson, representing the Seventeenth assembly district in Sacramento county, and father of Governor-elect Hiram Johnson, resigned his office. He sent in his resignation to Governor Gillett, and the Governor accepted it. His term expired on January 1.

Discontent Among Brazilian Officers.

Jasiro, Brazil.—The discontent among the officers, those in the army as well as the navy, is increasing. Their unrest affected several regiments. A lieutenant who blamed the President while discoursing at the burial of the murdered naval officers will be arrested and court martialed.

Kindergartens for China.

Washington.—Chang Yuan Chi, Chinese Commissioner of Education, is in Washington inspecting his schools. He visited one of the kindergartens, with which he expressed his delight. It is his purpose, he said, to introduce kindergartens into China.

New Assistant Postmaster-General.

Washington.—Announcement was made by Postmaster-General Hitchcock of the appointment of James J. Britt of North Carolina to be the Third Assistant Postmaster-General, vice A. L. Lawshe, who resigned that office some time ago.

Tug Sunk, Three Drowned.

Sault Ste Marie, Mich.—Three of the crew of the tug General were drowned when the tug was sunk in a collision with the Canadian Pacific steamer Athabasca off Lime Island, in St. Mary's passage.

WORLD'S NEWS OF THE WEEK SUMMARIZED

Adventures of the Children of Mother Earth Related in Condensed Form

Comprehensive Review of Passing Events in Every Quarter of the Terrestrial Globe.

Jefferson City, Mo.—Prohibition was defeated in Missouri at the recent election, according to official announcement, by 218,125.

Colorado Springs, Colo.—Ralph Dart, 22 years old, a chauffeur, accidentally shot and killed himself at a ranch 17 miles south of here while hunting.

Annapolis.—The twenty-fourth case of typhoid fever developed at the naval academy when Midshipman K. C. Woodward of the first class was admitted to the naval hospital.

Colfax, Iowa.—San Francisco has been selected by the General Federation of Women's Clubs as the place of meeting of the next biennial session, to convene in June, 1912.

Paris.—Parliament has asked the Government to contribute 8,300,000 francs to the sufferers by the recent flood. This includes 5,000,000 francs for the wine growers whose crops were ruined.

Franklin, Pa.—By a decree of court Miss Elizabeth Hill, 44 years old, became the adopted daughter of Thomas O'Connor, 65 years old. Miss Hill was left an orphan when four years old, and has lived with the O'Connors since.

Stettin, Germany.—The German steamer Berlin, from Sunderland for this port, has not been reported for 17 days and is supposed to have been foundered in the North sea. The Berlin carried a crew of 17 men and a cargo of coal.

Rockport, Mass.—George Tufts, former cashier of the Rockport National Bank, who recently was indicted for the larceny of about \$8000 from the bank, committed suicide by shooting himself. He was out on bail pending an examination as to his sanity.

Portsmouth, N. T.—Chief Carpenter Joseph Fletcher of the Portsmouth navy yard, who was a member of the disastrous Greeley Arctic expedition, was found dying in a bath tub at his home with a razor wound in his throat. He died a short time afterward. He was 64 years of age.

White Plains, N. Y.—A slip of a girl stood in the dock in the Supreme Court and pleaded to a murder charge. The prisoner was Rose Picchione, charged with killing her husband, Frank Picchione, at their home in New Rochelle on October 14th. She is 17 years old and exceptionally pretty. The girl pleaded not guilty.

New York.—Mathew Dolan, 18 years old, is dead, and Thomas Cathours, a 19-year-old chum of Dolan, is under arrest here charged with murder as the result of a quarrel over a wo-cent loan. The two were employes in a downtown restaurant. After their quarrel Cathours, according to the police, stabbed Dolan with a carving knife.

Trenton, N. J.—Wills left by Rev. Amzi L. Armstrong and his wife, the victims of the double murder at Dutch Neck on Thanksgiving eve, have been found. There is no mention of John Sears, the confessed slayer of the aged minister and his wife, who claims to have committed the deed in order to get the money left him in their will.

Binghamton, N. Y.—Dorris Hitt, well-to-do farmer, who drove his family from their home at Morris, N. Y., at the point of a shotgun last week and who was held in the jail there pending the arrival of an attendant to bring him to the insane asylum in this city, escaped commitment as a lunatic by setting fire to his bed in the jail. He was burned to death.

Phoenix, Ariz.—The legislative principal of the recall was written into Arizona's constitution as the measure was originally drawn, applicable to all elective officers of the new State. The long expected assault was made on the proposition, but the opposition apparently had greatly weakened during the past month and was able to muster only eleven votes of thirty-five cast on final passage in favor of it.

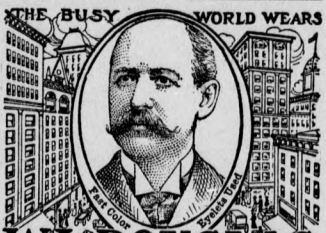

Greeley, Colo.—For burying alive the infant child of their daughter, Charles and Rosena Georgi have been found guilty of murder in the second degree and sentenced to from eight years to life in the State penitentiary. Both admitted on the witness stand that they had buried the few hours' old babe in the back yard of their home, declaring that they believed the infant dead. Thirty-six hours after interment the child's body was exhumed and found still alive. Death followed soon after.

Years of Suffering

Catarh and Blood Disease - Doctors Failed to Cure.

Miss Mabel F. Dawkins, 1214 Lafayette St., Rose, Wayne, Ind., writes: "For three years I was troubled with catarh and blood disease. I tried several doctors and a dozen different remedies, but none of them did me any good. A friend told me of Hood's Sarsaparilla. I took two bottles of this medicine and I was as well and strong as ever. I feel like a different person and recommend Hood's to any one suffering from catarh."

Get it today in usual liquid form or chocolate tablets called **Sarsatabs.**

W.L. DOUGLAS
\$3, \$3.50 & \$4 SHOES FOR MEN & WOMEN
BOYS' SHOES, \$2.00, \$2.50 & \$3.00
W.L. Douglas \$3.00, \$3.50 and \$4.00 shoes are positively the best made and most popular shoes for the price in America, and are the most economical shoes for you to buy.

Do you realize that my shoes have been the standard for over 30 years, that I make and sell more \$3.00, \$3.50 and \$4.00 shoes than any other manufacturer in the United States, and that Dollar for Dollar, I guarantee my shoes to hold their shape, look and fit better, and wear longer than any other \$3.00, \$3.50 or \$4.00 shoes you can buy? Quality counts, and quality has made my shoes what they are - The Leaders of the World.

You will be pleased when you buy my shoes because of the fit and appearance, and when it comes time for you to purchase another pair, you will be more than pleased because the last ones wore so well, and gave you so much comfort.

CAUTION: Name genuine without W.L. Douglas and price stamped on bottom. TAKE NO SUBSTITUTE. If your dealer cannot supply you with W.L. Douglas Shoes, write for Mail Order Catalog.

W. L. DOUGLAS, 145 Spark Street, Brockton, Mass.

PILES

"I have suffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. In the course of a week I noticed the piles began to disappear and at the end of six weeks they did not trouble me at all. Cascarets have done wonders for me. I am entirely cured and feel like a new man." George Kryder, Napoleon, O.

KIDNEY TROUBLE CAUSES LUMBAGO

Remarkable Story About Great Remedy

I cannot refrain from writing to say that your Swamp-Root has benefited me greatly. Last year I had a severe attack of lumbago. Was bad for a long time, and on seeing your advertisement, I decided to give it a trial. I did so and in two weeks was cured. I gave a bottle to a poor woman who could scarcely walk. She came to me in four days to tell me she was all right and most thankful. I had another attack last November and was so bad that I could not rise from my chair without assistance and could hardly lace up my boots. I at once sent for more Swamp-Root and after taking two bottles, I am more than glad that I am well again. My age being seventy-three, I am the more convinced of the excellence of Dr. Kilmer's Swamp-Root.

Yours very truly,
HENRY SEARLE,
1410 Arch Street, Little Rock, Ark.

Letter to Dr. Kilmer & Co., Binghamton, N. Y.

Prove What Swamp-Root Will Do For You.

Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder. When writing, be sure and mention this paper. For sale at all drug stores. Price fifty-cents and one-dollar.

A Marvelous Acre.

What is considered the most wonderful acre in the world is in Glenn County and was once a tiny fraction of a great wheat field. Samuel O. Cleek bought it nearly 30 years ago. There was no water for it, but Mr. Cleek put down two wells and found water enough for his acre. Every foot of that acre is in use. Here is an inventory:

Cottage and veranda, 30x30 feet; barn and corral, including two chicken houses, 75x75 feet; two windmill towers, 16x16 feet; garden, 46x96 feet; citrus nursery, 90x98 feet, containing 400 budded orange trees; a row of dewberries along the fence, 100x2 feet; four bearing apricot trees, two oak trees, six fig trees, ten locust trees, one paradise tree, four bearing bread trees, thirty rose bushes, 20 geraniums, 12 lemon trees, a lime tree, eight bearing orange trees, five pomgranite trees, six beds of violets, 6x2 feet each, one patch Japanese bamboo, one bed calla lilies, four prune trees, six cypress trees, 14 stands of bees, four huge grapevines, one bed of sage, one large garden and flower seed bed, beside honeysuckle and other rare and beautiful plants and shrubs.

This is probably the best example of what an acre can do that has ever been worked out in America. This acre has not only supported Mr. and Mrs. Cleek, but they have long been able to put aside several hundred dollars yearly.

The size of the acre depends upon the farmer who owns it.

When Frank O'Brien Was Shot.

Mr. M. O'Rourke, himself a faithful soldier in the cause of the south, tells the Register the following story of the late Frank P. O'Brien, mayor of Birmingham, who died last week:

"It was at Washington, N. C., and we were under the fire of the Yankee gunboats. Frank P. O'Brien, who was standing by my side, was struck and fell in a heap. I stooped to see what I could do for him. There was apparently a serious wound directly over his heart, where his coat was cut to pieces. I opened the coat and felt inside, finding first a note book, that was washed into pulp. Underneath, however, there was no break of the skin, the book having taken the force of the piece of shell that had hit him. Frank was clean knocked out. After a little he revived.

"Mike, I am dying," he said.

"No, Frank," said I, "you are not hurt."

"Yes, I am," replied Frank. "I'm dying. Tell them that I died like a true Irishman."

"But he got up pretty soon, and lived to fight another day—a good many other days."—Mobile Register.

One Difference.

"A city woman has been visiting us," writes the farmer's wife, "and while she tells us that she is having a perfectly lovely time, she has one complaint to make. 'Since all the farmers have cream separators,' she said, 'you can't slip into the cellar and cream off the milk the way you used to.' But since separators have come into such general use you can slip into the bank and skim the cream off a mighty attractive looking bank account."—Live-stock Dairy Journal.

Highest Good in Life.

The highest good is found in the way of doing good, giving what we have, our best selves, to others. Let a man seek efficiency in his business, let him seek leadership in his profession, let him seek enriching some other lives. This is the myth that preserves to us all that we gain and performs all, while selfishness is the moth that breeds decay and death.

EVERY WOMAN WILL BE INTERESTED.

There has recently been discovered an aromatic, pleasant herb cure for woman's ills, called Mother Gray's AUSTRALIAN LEAF. It is the only certain regulator. Cures female Weakness and Backache, Kidney, Bladder and Urinary troubles. At all Drugists or by mail 50 cents. Sample FREE. Address the Mother Gray Co., Le Roy, N. Y.

Better Look Outside.

If you want to make the best of your life, don't spend much time in looking within and wondering if your feelings are all right. Look outside instead, and see what you are doing for others, what you are saying about other people, how you are behaving to those around you. If you are behaving kindly and truly to your neighbor you will not go far wrong.

Spurious Superiority.

Dr. Johnson said of a certain Mr. Kendrick: "Sir, he is one of the men who have made themselves public without making themselves known." That is to say, all his fame rested on attributes he did not own, but possessed only as the jackdaw in the fable stuck the peacock's feathers in his tail.

Giving Him Full Information.

A member of an eminent St. Louis law firm went to Chicago to consult a client. When he arrived he found that he had unaccountably forgotten the client's name. He telegraphed his partner, "What is our client's name?" The answer read: "Brown, Walter E. Yours is Allen, William B."

Merely a Question of Comfort.

"Now, doctor," complained a bilious patient, "my great trouble is elephants—pink ones. Not that I object to elephants, you understand. I like them—but they do crowd one so."—Success Magazine.

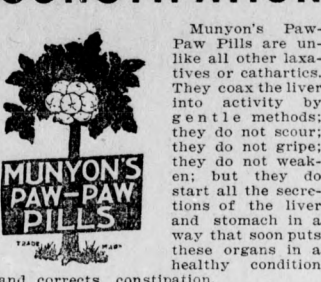

The Reward.

He that minds his own business will be asked to mind the business of others.—Life

Virtue in True Lives.

True men and women are all physicians to make us well.—Bartol.

CONSTIPATION

Munyon's Paw-Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weaken; they enrich the blood instead of impoverishing it; they enable the stomach to get all the nourishment from food that is put into it.

These pills contain no calomel, no dope, they are soothing, healing and stimulating. They school the bowels to act without physic. Price 25 cents.

Pasteur's Revenge.

In that one of the hundred best books Vallery-Radot's "Life of Pasteur" we read the story of his misery. It is nothing to say that the war nearly broke his heart. But it broke neither his faith nor the straight line of his work. Only a sort of rage possessed him to redeem and console France by working for her. "Henceforth," he said, "every one of my books shall have written on it these words, Revenge, revenge, revenge." And this was his revenge, to set the name of France in the honors list of science higher than ever; to give the rest of his life to her service, and to wear himself out for her sake.

The Clean Slate.

Are you one of the girls who are given to moping, to looking fearfully into the future, or to lamenting the past? There is no surer cure for these unhappinesses than to cultivate the clean-slate habit, which is carried out in this way: Live a day at a time, and start each morning with a fresh record to be made, which must not be muddled with the blurs of yesterday nor the possible blots of tomorrow.

To Frustrate Burglars.

The largest type burglar-proof safe is built to withstand the gas "cutting burners" used so effectively by many crooks, and revolves, when it is closed, by means of an electric motor.

Much Governed.

"Why do you call up at that box, my man?"
"To learn what new laws have been passed since I went on duty," answered the policeman.

Fifty thousand tons of soot are taken from London's chimneys yearly.

Destroying Pocket Gophers.

It has been estimated that in some places as much as ten per cent of the crop of grains or grasses has been lost through injury from pocket gophers. The term "gopher" is used in many different ways in different parts of the country, so we must make distinctions.

The pocket gophers live almost entirely under the ground. They are light brown or yellowish in color, the front feet are fitted with long claws especially for digging, and the skin on either side of the head is folded into deep pockets. Ground squirrels, of which there are several kinds, are often called gophers. These little animals are rather slender and very active. They are often seen running about the fields.

The pocket gophers are quite easily killed with poisons. The United States Department of Agriculture gives the following formula for this:

Dissolve one ounce of strychnia sulfate in a pint of boiling water. Add a pint of thick sugar syrup. Scent this mixture by adding a few drops of oil of anise. Steep a half bushel of corn in hot water and allow it to soak over night. After this, drain it, and allow to soak for several hours in the poisoned syrup.

Many mounds are commonly made in the fields by one gopher and are connected by one runway. The laterals leading to the mounds are commonly filled with loose earth. Select the freshest mound and follow the soft earth back till the main runway is reached. Push the poisoned grain well back into the runway and close the opening in such a way as to prevent dirt from clogging the runway. This may be done by first putting in a handful of grass and covering with earth.

In territories where the gophers are numerous, the co-operation of neighbors is desirable. Attention should also be given to waste lands, since these are sources of infestation.—Orchard and Farm.

RED CROSS SEALS FOR RICH AND POOR.

In a Western city, a well dressed gentleman stepped up to one of the tellers' windows in a bank over which hung the sign, "Red Cross Christmas Seals for Sale Here," and, after talking about the seal, and the purpose for which it was being sold, asked for ten dollars' worth. A little, ragged

newsboy who came into the bank to sell his newspapers, and who had stood listening to the story of the seal, stepped up, after the gentleman had gone, and laid a penny upon the counter and said, "Gimme one of those stamps; my mother died of it—and my sister's got it."

CLOSING OUT

500,000 rolls of fine Wall Paper at 3 cents per roll and up. Paint \$1 per gallon. Write for free samples of wall paper and color card of paints. J. L. Ash, 473 McAllister street, San Francisco. Mention this paper.

The annual production of nitrate of soda by Chile is 1,000,000 tons.

"Why do you call up at that box, my man?"
"To learn what new laws have been passed since I went on duty," answered the policeman.

Fifty thousand tons of soot are taken from London's chimneys yearly.

A Doubtful Member.

In Miss Wood's kindergarten class there were eight pupils, four girls and four boys. One of the boys, however, had not yet reached the estate of knits not to mention trousers. Accordingly when little Susan Phelps was asked by a visitor to tell how many boys and how many girls there were, her confused reasoning went as follows:

"There's eight, one, two, three, four, five, six, seven, eight, Miss Elliott," she replied. "And if he's a girl," she pointed at one who wore dresses in stead of manly garb—"why, there's five girls, and one, two, three boys. But if she's a boy, there's one, two, three, four girls, and one, two—four boys. She's really a boy, you know Miss Elliott," she confided, in conclusion.—Youth's Companion.

Sand Grains Travel Far.

The travels of grains of sand have long been a matter of scientific record. Years ago it was established that particles picked up on the coast of Pas de Calais had their origin in the rocks of Brittany, from 120 to 180 miles distant. Another standard fact is the discovery on the coast of Denmark of chalk dust which undoubtedly came from the cliffs of Normandy.

The Belgian government is selling its regular postage stamps at slightly more than their face value, the additional revenue going for the building of a sanatorium for consumptive working women.

Pettit's Eye Salve First Sold in 1807, over 100 years ago; sales increase yearly; wonderful remedy; cured millions weak eyes. All druggists or Howard Bros., Buffalo, N. Y.

Legend of the Cypress Trees

Tell me your tradition hoary,
Grand old Cypress Trees,
Dwelling on this promontory
By the sunset seas;
Whisper the delicious story
Of dim centuries!

This is not your place primeval,
Not your native clime;
Hither borne in medieval
Unremembered time,
By some western wave's upheaval;
Make the legend mine!

From the vast and velvet branches
Of a patriarch tree;
Mingling with the song and dances
Of the restless sea,
Freighted with its fragrant fancies,
Came the tale to me.

Long ago from far Benares'
Grove of cypress wood
Went a band of missionaries,
Devotees of Buddha;
Bound to build new sanctuaries,
For the spread of good:

Sailing by a course uncharted,
Wandering, but not lost,
This small band of noble hearted,
Long on ocean tossed,
By the law of Karma guarded,
Gained this rocky coast:

Here the pious exiles landed,
Built here a shrine,
Seeds of sacred cypress planted,
For the grove and sign
Of their mystic creed commanded
In its books divine.

Found the fair land all unhaunted
By the forms of men,
Rested in its vales enchanted
For a space, and then
Urged by purposes undaunted,
Set to sea again.

Through the centuries' slow transition
Since they sailed away,
We have kept the sweet tradition
Treasured to this day;
Kept the faith which finds fruition,
Still in far Cathay!

And, in all our somber glory,
Guard a sacred shrine;
Cluster round this promontory,
As in olden time,
To repeat the fragrant story,
Which, today, is thine.

JOHN E. RICHARDS.

Campbell people feel proud of the work of the two local debating teams which scored a total of nine points over the Palo Alto debaters last Saturday night. While Palo Alto High school had a much larger number of students from which to select their champions, Campbell proved to have the quality and training which bring success. As the last ten years have proven in the lives of the alumni, Campbell Union High School is a good place to get the early training for life's work. The faculty is to be congratulated on the success of its students, and the whole community is to be congratulated on having so efficient a principal and corps of teachers to train its youth.

With no little pleasure we present for first publication the poem "Legend of the Cypress Trees," by Hon. John E. Richards, Judge of the Superior Court of California. Mr. Richards has not only attained an enviable position among his fellows at the bar, but is one whose keen intellect and broad sympathies have made him a man of authority along many lines. He is much interested in "outdoor art," as the above verses indicate. This is one more added to his large contribution of nature poems. Judge Richards delivered an eloquent address before the California Bar Association in Los Angeles last Wednesday on "Oratory, The Lost Art of Our Profession." The address was published in yesterday's Mercury and is good reading.

The editor had a call this week from Rev. G. G. Walter, a former neighbor in The Willows. Mr. Walter is celebrating his 85th birthday today. He is a superannuated Methodist minister but still continues work in the pulpit. Every Sunday morning Brother Walter preaches a new sermon at the little chapel on Lincoln Avenue. Although somewhat deaf and unable to read a text without a magnifying glass, his mind and memory are clear and vigorous and his sermons are a real spiritual feast to the members of the congregation. Mr. Walter is the youngest of four living brothers; the other three being 87, 90, and 93 years of age. Four others, three sisters and one brother, died at the following ages, respectively, 79, 79, 82 and 86. Brother Walter lives alone in his little cottage on Brace avenue. Being unable to further enjoy his fine library of choice books, he has assigned it to the Epworth League of Willow Glen church to become a permanent fixture in the community after he is gone. Besides hours of happy meditation, he spends much time at work with his fruit, vegetables and chickens. He certainly enjoying a happy old age, though he has never experienced the joys and sorrows of matrimonial life. Just how many—if any—of these 85 years he owes to this fact we do not know; but we sincerely hope that none of the young (?) girls of Campbell who may read this article will allow their aching hearts to disturb the peace of our good friend.

An Appropriate Christmas Gift

You no doubt are wondering what to give your friends for Christmas

There is nothing so fitting, so nice, so appreciative, as a subscription to some one or more good magazines. It is a genial and pleasant remembrance of the donor, twelve or more times a year, besides it is within the means of every purse. See us about it at once. We take subscriptions at cut rates and meet any club offer made by out of town agencies or publishers. We will be pleased to serve you.

THE DICK CO.

The Czar.

"Czar," "kaiser" and "Caesar" mean about the same thing, czar and kaiser doubtless being derived from Caesar. After the twelfth century the Russian annalists gave the title of czar to the mongrel princes of Russia. In general, however, the rulers of the various Russian provinces were called grand dukes till the sixteenth century. Ivan IV., crowned in the year 1547, was the first independent Russian prince who assumed the title. From this time the Russian monarchs called themselves czars of Moscow and after the conquest of Little Russia and Smolensk, "czars of all the Russias."—New York American.

The Youth's Companion Calendar for 1911

The publishers of the Youth's Companion will, as always at this season, present to every subscriber whose subscription (\$1.75) is paid for 1911 a beautiful calendar for the New Year. The picture panel reproduces a water-color painting of an old-time garden in a flood of summer sunshine, with a background of Lombardy poplars through which one catches a glimpse of distant hills. The picture being in 12 colors the tones of the original are faithfully produced.

He Had.

The kind hearted man had given the panhandler a nickel.
"Haven't you got anything smaller?" asked the panhandler.
"Well, here's a dime; that's smaller," answered the good natured man, displaying the coin for a moment and walking away.—Buffalo Express.

China Furnishes Iron to America.
Although it is a fact not generally known, a considerable portion of the iron melted in the cupolas of the Pacific coast plants comes from Chinese furnaces, and in all probability the future will see an advance in the number of shipments of this metal. Much iron ore will also be drawn from Mexico and Cuba.

Special Introductory Offer

To introduce The Pacific Monthly to new readers, The Pacific Monthly will be sent to you for six months for 50 cents in stamps.

The Pacific Monthly is a beautifully illustrated monthly magazine containing stories by Jack London, Stewart Edward White, George Sterling, Harvey Wickham, Adelaide Soule and many other noted California writers. It is a fearless and independent exponent of the people's interests and is not the tail of anybody's kite. It contains strong and forceful articles by C. E. S. Wood, Wm. Winter, Rabbi Wise, John Lathrop, Edward P. Irwin and other writers who are working for a better standard of citizenship. It tells the real story of the progress and development of the West without bias. A powerful serial of particular interest to Californians begins in the December issue.

Send 50 cents in stamps for six months' subscription. Address, PACIFIC MONTHLY, Portland, Oregon.
