DANA HALL SCHOOL

WELLESLEY, MASS.

THE DANA HALL SCHOOL was founded by the Misses Eastman in 1881. In consideration of the number of college applicants, the scope of the school was formerly limited to college preparatory work; but of late years, to meet the demand of those students who do not desire a college course, a General Course has been added, including more advanced work in Literature and the Languages, History, History of Art, and Science.

Dana Hall is essentially a Home School, the pupil being surrounded by such restraints, and such only, as are indispensable to the best results of mental work. We endeavor to combine thorough scholarship with general culture, and rather to en-

courage in the pupil an habitual self-control than to enforce a formal obedience. The government of the school is designed to establish relations of mutual courtesy and honor between teachers and scholars; and it has been found that where self-respect and an ability for self-restraint on the part of the pupils are assumed, reasonable regulations seldom fail to secure a careful observance.

Religiously, the school is in no sense denominational, but the Bible is read daily and studied in bi-weekly lessons. It is our aim to develop, on the basis of an educated conscience and a reverent spirit, a practical Christian character in every pupil.

For patrons of the school it may be of interest to know that the statistics of health for Massachusetts place Wellesley at the head of the list of all the towns in the Commonwealth.

The location of Dana Hall and its cottages is excellent, the ventilation of the houses is good, and the drainage perfect. A resident graduate nurse is in charge of the school dispensary, and an infirmary and a "Rest House" are connected with the school. To all the teachers and members of the official staff the health of every pupil is the object of constant and vigilant care.

In connection with Dana Hall there are thirteen detached cottages, and rooms are arranged for about two hundred and thirty resident pupils. All

The Library Room

household linen is provided by the school and is laundered without charge. The pupils' rooms are completely furnished, the double rooms having single beds and individual bureaus.

A school uniform is worn by all members of Dana Hall School. This may be ordered from John B. Simpson & Co., 914 Walnut Street, Philadelphia, Pa., at an expense of approximately fourteen dollars for the summer, and twenty-five dollars for the winter, uniform. For dinner at night, and for other occasions not requiring the school uniform, simple and inexpensive dresses should be provided. A full statement of the dress regulations will be sent to all parents at the time of acceptance of a pupil. At the beginning of the school year a formal dress inspection will be held, and pupils will be asked to return to their homes all garments which do not conform to these regulations.

Wellesley is on the Boston & Albany Railroad, but a half-hour's ride from Boston. The situation of the school — only five minutes' walk from the railway station and yet on the outskirts of the pretty college town — affords to an unusual degree the advantages of both city and country life. The students are encouraged to enjoy, to a reasonable extent, under proper chaperonage, the opportunities which Boston offers in music and art. The roads in the vicinity of Dana Hall are fine, and

quite safe for bicycle-riding, while the school grounds afford opportunities for tennis, field hockey, and basket-ball. The students of the school are eligible for membership in the Wellesley Golf Club on the payment of an annual fee of ten dollars.

The diploma of an accredited High School is accepted for entrance to the Senior Class of the General Course, and certificates from accredited schools for entrance to any class of either course. Special students are received without examinations or certificates.

The College Preparatory Courses in English Literature and Composition cover four years, the former work being based on the requirements adopted by the Commission of New England Colleges.

Beginning in September, 1919, Mount Holyoke, Smith, Vassar, and Wellesley Colleges have admitted students only by the new method announced in 1916, which entirely replaces admission by certificate and requires examinations of all candidates. The old plan of examination in all subjects is continued as an alternative to the new plan, which is fully described in the catalogues of all these colleges.

Lectures and Concerts of a high order are given at the school during the year.

In Chorus Music, Expression, and Gymnastic Training, class instruction is free to all.

Fire place in the Living Room

Pupils who repeatedly fail to pass our regular examinations are, at the teacher's discretion, dropped from the class. It is important that pupils be present at every school exercise, and no unapproved engagement is allowed to interfere with the duties of the classroom.

In order to avoid confusion with articles intended for Wellesley College, all trunks, mail, and express matter should be marked, "For Dana Hall."

Application for admission or for further information should be made to the Principal.

XI. SCIENCE

COURSE I.—*Botany*. Required of all Sophomores taking the General Course.

This course gives an acquaintance with plant life through observation and experiment, in field and laboratory. Representative types of plants are especially studied. The laboratory is equipped with simple and compound microscopes and illustrative charts. Text-book: Bergen's Essentials of Botany.

Recitations: three periods weekly.

Laboratory: two periods weekly.

Miss Castle

COURSE II.—*Biology*. A comparative study of a few representative species of common types of animals and plants, and simple experimental work in the determination of the functions of plant and animal structures. The laws of variation, natural selection, heredity, and evolution are studied and applied to facts observed in laboratory and field. Text-books:

Hunter's Essentials of Biology; Meier's Animal Study.

Recitations: three periods weekly.

Laboratory work: three periods weekly.

Miss Bartholomew

COURSE III.— *Anatomy, Hygiene, and Sanitation.*

A study of the structure and use of the different parts of the human body and their relation to the hygienic conduct of life. This course includes also a study of bacteria, yeasts, and moulds, and their application to the affairs of daily life and health. Text-book: Hough and Sedgwick, *The Human Mechanism.*

Recitations: three periods weekly.

Laboratory work: two periods weekly.

Miss Castle

COURSE IV.— *Physics.* This course meets the requirements for entrance to college. The laboratory is equipped with the apparatus needed for individual and class work.

Text-book: Millikan and Gale, *New Practical Physics.*

Recitations: five periods weekly.

Laboratory work: two periods weekly.

Miss Ellsworth

COURSE V.— *Senior Science: Astronomy and Physics.* The students in this course become familiar, through their own observations, with the constellations, the moon, the planets, and

the sun. These observations, supplemented by reading, are the basis of class discussion. The laboratory is equipped with a three-inch telescope, celestial globes, maps, etc. McKready's Star Book for Beginners; Ball's Starland; Serviss' Astronomy with the Naked Eye and Curiosities of the Sky; Barritt's Monthly Evening Sky Maps are used in this work.

In Physics, mechanics, light, magnetism, and electricity are studied. The object of this part of the course is to give the student a practical knowledge of these subjects through her own observations and experiments.

Recitations: four periods weekly.

Laboratory work: two periods weekly.

Evening observations in preparation of recitations when weather permits.

Miss Brown

XII. THE ART DEPARTMENT

The work of this department is based on the methods of the best-known art schools, and is under the constant personal direction of Miss Margaret Jordan Patterson (Pratt Institute), for several years a student in the principal art centers of Europe, and a pupil of Mr. Charles Herbert Woodbury, Mr. Arthur Dow, and of Castellucho, of Paris. Miss Patterson has exhibited in the Paris Salon and has

been constantly represented in all the principal art exhibitions in the United States, and has had the honor to be invited to send her work to the St. Louis Exposition and to the International Exposition at Rome.

Drawing and painting in oils, water-colors, pastels, pencil, and charcoal are taught from still life and nature. A course in design accompanies the course in drawing and painting to cultivate the sense of beauty. This correlates with the drawing course and every-day life in simple craft-work.

The studio is provided with casts from the antique, with many attractive objects for still-life painting, and with reproductions of works by great masters. By studying these reproductions the student learns to distinguish the fine qualities of drawing and painting, and thus gains fresh impulse and enthusiasm for her own work.

Opportunities for the study of composition, perspective, and for out-of-door sketching are provided for advanced students.

XIII. HISTORY OF ART

The courses in History of Art are designed not merely to give the student an acquaintance with masterpieces and a knowledge of the development of styles in architecture, sculpture, and painting, but to help her to understand and appreciate great works of art. The material available for these

courses consists of photographs and lantern slides, and a small but representative library. The classes have in addition frequent opportunity to study the collections of the Museum of Fine Arts in Boston as well as the paintings of the Public Library and the numerous special exhibitions held at the smaller galleries in Boston.

COURSE I.—History of Art. The course is planned to give a brief survey of the field of art, covering the development of architecture, sculpture, and painting from ancient times to the present day.

Four appointments weekly. *Miss Spencer*

COURSE II.—Architecture and Sculpture.

First Semester. Ancient architecture and sculpture, special attention being given to the noblest monuments of Greece and Italy. Early Christian art.

Second Semester. Architecture and sculpture in mediaeval and modern times, with special study of the finest works in the Gothic and Renaissance styles.

Four appointments weekly. *Miss Spencer*

COURSE III.—Painting. In this course the greater part of the year is devoted to the study of Italian painting. A briefer time is given to the principal schools in other countries. The lives and works of the great masters are

A Class in Gymnastics

studied, and the student learns to distinguish the styles of different artists and epochs, to analyze the composition of pictures, and to seek for the chief elements of beauty in each great work.

Four appointments weekly. *Miss Spencer*

XIV. DEPARTMENT OF MUSIC

In the General Course music is credited in the Freshman and Sophomore years, though not as a part of the regular program. Beginning with the Junior year, a course in Practical Music and one in Theory may together displace an elective, as Biology or History of Art. In the Special Music Course, for which the school diploma is granted, one, and exceptionally two, such combinations may be substituted for their equivalent in required work.

PIANOFORTE

The Piano Department has the exceptional advantage of the advice in all important matters of Mme. Helen Hopekirk, whose studio in Brookline has long been a distinguished center of musical instruction. Arrangements have been made for a few of the more advanced students to have their lessons with Madame Hopekirk at her studio. At the school, Madame Hopekirk will be represented by Miss Laura Henry assisted by members of the music faculty of Dana Hall.

THEORY

First Year.—Easy Rhythms; Simple dictation; Listening to form of eight-bar sentences; Folk Songs; Elementary Theory.

Every pupil makes an album of prints of famous composers and musicians, with short sketches of their lives. Selections are played from the work of each composer to enable pupils to gain some idea of the different styles of composition.

Two appointments weekly. *Miss Cox*

Second and Third Years.—Cultivation of an inner sense of melody and rhythm; explanation of the laws underlying these elements — their notation, signs, and descriptive terms; advanced work in Dictation, Rhythm, Sight Singing, Metronome Tempi, Transposition.

French system of Solfeggio with Immovable Do.

Text-books: Solfeggio, Books I and II; Theory of Music, Dannhauser; Folk Songs; Songs by classic and modern composers.

Two appointments weekly. *Miss Tetlow*

HARMONY I

Introduction to Harmony, including triads, intervals, etc.; use of Harmonic material through Dominant Seventh Chords and their Inversions; harmonization in four simple parts of figured and unfigured basses and originals.

Keyboard work includes cadences transposed into all keys.

Two appointments weekly. *Miss Tetlow*

HARMONY II

Continuation of Harmony I. Voices are led in a free and interesting manner with occasional introduction of non-harmonic tones; advanced keyboard exercises. Analysis is made of the harmonic background of music studied in other courses. Thus the study of Harmony has a direct and practical bearing on Instrumental and Vocal study.

Text-book: Spalding, Harmony.

This course meets the one unit college entrance elective requirement.

Two appointments weekly. *Miss Tetlow*

HISTORY OF MUSIC

A study of the unfolding of the art of Music from its historical and aesthetic side, with glimpses of the entire field of musical development, including the lives and works of the great masters.

Text-books: Hamilton, Outlines of Music History; MacDowell, Critical and Historical Essays; Pratt, History of Music, and other books of reference.

Note-books with illustrations are kept and a study made of the programs of the Boston

Symphony Orchestra, Chamber Music Concerts, and artists' recitals.
Two appointments weekly. *Mrs. Alexander*

APPRECIATION OF MUSIC

The aim of this course is to cultivate ability to listen intelligently. Emphasis is laid on themes, their development and arrangement from simple two-part through Sonata form. Music studied in other departments is brought to the class for critical analysis.
Two appointments weekly. *Miss Cox*

VIOLIN

The Violin Department is under the direction of Miss Jennie Preston Daniell. Pupils are grouped in ensemble classes with those of the Pianoforte Department for duets, quartets, and sonata practice. Orchestral rehearsals are held on Saturdays during January, February, and March. Special care is given to beauty of tone, purity of intonation, and interpretation.

VOICE

The Vocal Department is under the direction of Miss Priscilla White, leading representative of the late Miss Clara Munger.

Much attention is given to principles of posture to enable centralization of breath control for support and freedom of tone.

Vocal literature embraces songs from the Old Italian, German, French, and English schools, with selections from oratorios and operas.

Recitals are given twice a year. These are helpful in giving concert experience to pupils recommended as qualified by their teachers. Pupils who have had four years' training in the Music Course are required to give a short recital which shall include solos and an ensemble number.

XV. DEPARTMENT OF EXPRESSION

Of the four powers which constitute the child's endowment for the adventure of living:—the power to will, the power to think, the power to feel, and the power to express, the last two are emphasized in the training given in the Department of Expression.

The power to express has as its natural instruments the voice and the body. For both these instruments the ideal is poise, the release of the energy of expression from the resistance of the medium. To this end technical exercises are given for the establishment of freedom, and as a preliminary to the final work in drama, the voice and body are given constant training through the reading aloud of lyric and dramatic poetry and the presentation of studies in pantomime.

The power to feel finds release from the two abuses of indulgence and inhibition and is led

toward its ideal, the creative use of emotion. This is initiated through the unprejudiced study of character necessary to successful impersonation and through the understanding of human relations involved in all mastery of drama.

Shakespeare and the modern lyric drama, such as Maeterlinck, MacKaye, Yeats, and Drinkwater have given us, are used exclusively until a standard of speech, tone, and action has been established and some degree of reverence for the English language imparted. Finally, excursions are made into the field represented by Barrie, with the idea of carrying the ideals of expression into our everyday atmosphere. Thus the circuit is complete and a contribution made to the art of living which is the final test of the value of any subject.

TENACRE

THE JUNIOR HIGH SCHOOL

For the benefit of young girls who are not sufficiently prepared to enter the Freshman Class, three lower grades have been formed, in which a good foundation is laid in the following subjects: Reading, Writing, Spelling, English, Grammar and Composition, Arithmetic, Physical Geography, and the elements of one language, French, German, or Latin. These younger pupils, as well as the Freshman Class, live at "Tenacre," a beautiful estate

about ten minutes' walk from Dana Hall. Here an ideal home life is maintained for fifty young girls from ten to fifteen years of age. A catalogue will be sent on application.

PINE MANOR

THE GRADUATE DEPARTMENT OF DANA HALL

The Graduate Department of Dana Hall was opened in the autumn of 1911 in the interest of our own graduates who were not anticipating a College Course. The steady growth and development of

A Game of Hockey

this department have led to the present establishment of the Dana Hall Graduate School, called, from the first house of residence, "Pine Manor." With increased accommodations and an enlarged faculty this school is now meeting the growing demand of the graduates of Dana Hall, and of other secondary schools, for further academic work with Music or Art, or for training along the lines of Scientific Home-making. Two distinct courses of instruction are offered to such students.

A.— A GENERAL COURSE, including not less than four elective academic subjects, representing sixteen points, or a combination of academic subjects with Music, Art, or Dramatic Expression.

B.— A COMPREHENSIVE COURSE IN HOME-MAKING AND ALLIED SUBJECTS.
A catalogue will be sent on application.

XVII. DEPARTMENT OF PHYSICAL TRAINING

The aim of the department is to give harmonious development to all parts of the body, by means of systematic gymnasium work and outdoor sports. Before admission to the gymnasium or any of the outdoor sports each pupil is given a careful physical examination, consisting of body measurements, strength of heart, lungs, and general health.

From these recorded data and measurements special exercises are prescribed for pupils needing individual corrective work.

All work is done under the immediate supervision of the instructors, in order to prevent over-exertion on the part of pupils. No pupil will be excused from the required exercise without a physician's certificate.

Each pupil is expected to take at least two hours' exercise in the open air daily.

Pupils may take part during the year in the following sports, which are organized by the Athletic Association under the supervision of the director: in the autumn, tennis, field hockey, basket-ball, cross-country walks, riding and running; in the winter, indoor baseball, skating, snow-shoeing, and indoor athletics; in the spring, tennis, basket-ball, and archery.

The gymnasium work is based on the Swedish System, supplemented by movements with apparatus, including boom, stall-bars, jumping, military marching, and gymnastic games.

For Seniors and Juniors who have done satisfactory work a more advanced course is given, including aesthetic gymnastics and Indian clubs.

The result of each year's work is shown on the occasion of the annual Field Day, when the classes compete in marching for a cup which is given to the class which shows the greatest precision of movement and perfection of carriage.

EXPENSES

For Board and Tuition, \$1,500 (\$800 to be paid at entrance, September 12, 1922, and \$700 on the first of January). A deposit corresponding in amount to the probable or possible needs of the pupils should be made with the Principal. This is to meet emergency expenses, such as are required by the sudden summons of a pupil to her home, or such matters as are not expected to be defrayed by the small weekly allowance usually furnished pupils by their parents. In addition to this, the school requires for each pupil a gymnastic outfit, suit, shoes, etc., the total expense of which is \$20.00. This amount, also, should be on deposit at the beginning of the year, to meet promptly the bill for the same. Bookstore, laundry, music, and art bills are sent to parents at the close of each term.

No pupil will be received for less than one year, or for the remainder of the year in which she enters; and no deduction will be made for absences, or for withdrawal of a pupil before the end of the school year, except in case of permanent ill health, when the loss will be divided equally between the school and the parent.

It is assumed that parents or guardians who place pupils in the school accept the above terms.

For Tuition without Board, \$250.

For lessons in Vocal Music for the school year, two per week, \$200. This sum includes the use of piano.

For lessons in Instrumental Music, two per week, with use of piano, \$200.

For lessons in Drawing and Painting, for the school year, two per week, \$150; one per week, \$75. The lessons are one and one-half hours in length.

Vacation Board, \$21 a week.

Laundry, at usual laundry rates.

Infirmery fee, with care of trained nurse, \$3 a day. Special cases requiring exclusive service of a trained nurse, \$5 a day.

Checks should be made payable to the Dana Hall School.
