Romyo Gate	Instructor of French language at the Military Prep Academy in Tokyo (5/25/41)
Kanji Goto	Director and Chief Electrician, Nippon Electric Power Co. (1940)
Kumahiko Hasegawa	President of Hsinking Engineering College (7/23/44). Metallurgical engineer at Ryojun Manchuria (1940).
(fnu) Hashiguchi	Professor, Hsinking Medical University, with 53 aides, was sent to Fushun to aid in combating cholera epidemic (9/16/43).
Yoshio Hashiguchi	Chief Engineer, Kawanishi Aircraft Co., Ltd., Kobe, Japan. (pre-war)
Kichiro Hashimoto	Professor at Matsuyama Higher College (6/5/44).
Marquis Masauji Hashisuka	Explorer and naturalist; Member, House of Peers (1941).
Hiroshi Hatanaka	President, Kobe College (1941)
Hisashi Hatakoyama	Recipient of Imperial Award for Meteorology (2/18/44).
Tatsukichi Hattori	Professor at Kyoto Fibre Industrial College. (6/5/44).
Dr. (fnu) Hiramatsu	Professor, Tokyo Jikei Medical College (1944)

Shigetome Hirata	An Engineer. Engaged in research for antimony ore for use in shipbottom paint. (8/30/44).
Kenzaburo Hirayama	Resident representative of Mitsubishi Electrical Engineering Co. at Westinghouse Electric., East Pittsburg. (8/16/44)
Teikichi Horita	Professor, Kyoto Fibre Industrial College. (6/5/44)
Okamoto Ichiro	President, Yamaguchi Higher Commercial School. (1940)
Funio Ide	Professor, Yokohama Economic College. (6/5/44)
Satoyasu Imori	Doctor of Science. Since 1930 has been attached to the Institute of Physical and Chemical Research. His experimentation includes work on radiation in relation to chemical change, glue chemistry, chemical research on batteries, asphalt and its chemical constituents, spectro-analysis, photographic science, turpentine, actium, chemical coloration, adsole, and a new solventine. In 1938, published article "The Geo-chemical Catalytic Action of Vanadium, Vanadium Content of Acid Earths, etc." In January 1944 was awarded Asahi Cultural Prize.
Kozo Imamura	Professor at Naga Higher School. (6/5/44)
Dr. Jikichi Inada (Iwata)	Former President of the Japan Medical Treatment Association. (7/12/45)
Baron Masatano Inada	Professor, Tokyo Agricultural College; Member of House of Peers (1941).
Mitsuyoshi Ino	Doctor of Engineering. Chief of Diesel Engine Designing Section, Mitsubishi Kobe Dockyard. (1940)
Sachihiko Inoue	Professor at Nagaoka Industrial College. (6/5/44)
Viscount Kyoshiro (Tadashi) Inoue	Former President of the Board of Technology (resigned 12/5/55); past president of the Mining Institute of Japan; local chairman of American Institute of Mining and Metallurgical Engineers. Was honorary advisor to Japanese Bureau of Information on Nickel, founded by International Nickel Co. in 1932.

Dr. Makoto Ishida	Of Yokkaichi. Presented 12th Health Service Award 4/28/44.
(fnu) Ishikawa	President of the Dyeing and Weaving Experimental Laboratory. Discovered a method of making wool from silkworm cocoons. Located in Aichi Prefecture. (1944)
Dr. Canada Ito	Specialist in Pulmonary diseases at How Life Sanatorium, Obuse, Nagano-ken.
Hiroo Ito	Doctor of Agriculture Science. President of the Tokyo Textile College. Received an Achievement Medal from the Dai Nippon Silk Yarn Association. (4/25/44).
Baron Ichiro Ito	Chief of Mining Research Institute; Member of House of Peers (1941).
Masao Ito	Attached to the Japan Iron Works. Decorated for development of high pressure pressing of light alloys. (12/6/44)
Ryokachi Iwani	Experimenting in production of new lubricant extracted from sea animals. (8/15/44)
Mosaku Iwasa	Attached to the Society for Prospecting Minerals by the Electrical Method. Decorated for research on electric mineral prospecting. (12/6/44).
Uichi Iwasaki	Professor of Sociology, Kwansai University. (1940).
Yoshiharu Iwasumi	Principal of the East Asia Agriculture and Forestry School. A well known agriculture expert. (4/3/44)
Matsunosuke Iwatake	Inspector, Central Research Laboratory of South Manchurian Railway. (1940).
Sadakiyo Izumi	Technical Expert, Military Aviation Department (1940); Lt. Col. (1942)
Shinjuro Jizaimaru	Professor of Korean School of Mines; discovered graphite deposits in northwestern Korea. (10/11/44)
Toyohiko Kagawa	Noted Japanese Religious leader.
Ryuichi Kajiki	Professor at Tokyo Foreign Affairs College. (6/5/44)
Masao Kambe	President, Kansai University (Osaka) (1941).

Hidesuko Kamiyo	President of Showa Medical College Tokyo (1940)
Heihachi Kamura	Professor of Chemical Engineering, Meiji College of Technology. (1940)
Naotsuna Kano	Former Professor of Yamanashi Technical College; appointed a Professor in the Army Military Administration Area, 6/14/44.
Kiichi Kanzaki	Dean, Commerce & Economics Faculty, Kwansai Gakuin. (1940)
Osamu Karajima	Connected with Sumitomo Communications Industrial Joint Stock Co. Received commendation for research and invention of an electrical wave weapon 5/20/44.
Goroku Karibe	An inventor of Choshi-machi, Chiba-ken. Extracted high grade lubricating oil from shark meal. (10/6/44)
Tatsuo Kariyone	Pharmacist attached to Tokyo Public Health Experimental Laboratory (1940).
Tetsuzo Kataoka	Asst. Engineer with Forestry Experiment Station, Mogami-gun, Yamagata-ken. Inventor of a new saw. (10/9/44)
Seiji Kato	Director, Nippon Dental College. (1940)
Yoshio Kato	Professor and head of the Electric Engineering Department, South Manchuria Technical College; Councillor, South Manchurian Railway. (1940)
Fujiro Katsurada	Director, Seamen's and Tropical Diseases Research Institute.
Toro Kawashima	Reported to have developed a new concentrated food for the Army (4/5/42)
Masao Kazuragi	Of Tokyo. Commended for distinguished services in the health field. (4/28/44)
Tachiro Kenokogi	Attached to Sumitomo Metal Industries. Decorated for making large castings of light metal alloys. (12/6/44)
Dr. Yonetaro Kikuchi	Head of Kaisei Hospital, Osaka. (1940)
Masao Kinoshita	Master of Science; Doctor of Engineering. As of 1940, was a professor at Tokyo Technical University and staff member of the Institute of Physical and Chemical Research.

Udo Kinsaku	Attached to Udo Industrial Laboratory (10-6-44)
Shinji Kishimoto	Research on the production of salt and phosphorus in Malaya (1942)
Dr. Katsuro Kitamura	Of Shizuoka; presented the 12th Health Service Award (2-28-44)
Ichitaro Kitawaki	Section Head, Tokyo Technical Research Lab. of Commerce and Industry Ministry (1940)
Zenjiro Kitazato	Director, Kitazato Research Institute (1940)
Takeshi Kiyoi	Professor at Port Arthur Engineering College (6-5-44)
Akira Kobayashi	Professor of Mechanical Engineering, Ryojin Engineering University(1940)
Masashi Kobayashi	Professor at Tokyo Foreign Affairs College (6-5-44)
Sub-Lt. (IJN) Takeo Kobayashi	Discovered method for making salt water drinkable (12-25-43)
Toshijiro Kobayashi	President, Kurume Higher Technical School (1940)
Yoshio Kobayashi	Doctor of Engineering; employed by Japan Steel Works; given award for outstanding achievement (3-10-44)
Naochiro Koide	Appt. Director of the Imperial Museum of Arts (9-7-44)
Seikichi Komatsu	Of Toyo Abrasives Co., Osaka. Completed manufacture of product superior to pre-war imported abrasives for grinding and polishing aircraft engine and other metal parts(6-12-44)
Dr. Gin ji Komaya	Head of Komaya Hosp., Shanghai(10-27-44)
Ryuta Komine	Member of planning department, Physical and Chemical Research Institute(6-15-44)
Dr. Yoshitake Komiya	Director of Shanghai Natural Science Research Institute (10-27-44)
Dr. Mantaro Kondo	Director Uehara (Ohara)Research Institute, Sent to Manchukuo to investigate Kaoling (12-18-42)

Makoto Kono	Professor at Mikone Econ. College (6-5-44)
Seizo Kono	President, Kokugakuin University (Tokyo) (1941)
Hideo Kotake	Chief Engineer for Kammon (Shimonoseki-Meiji) Tunnel
Susumu Kubo	Dean of Electrical Engineering Faculty and Professor of Hiroshima Higher Technical School (1940)
Dr. Takamori Kubo	Has done research in Manchukuo on Plague (8-21-44)
Iwao Kugimiya	Official in charge of the construction of the Kammon (Shimonoseki-Meiji) tunnel
Dr. Kenzaburo Kumagai	Head, Osaka Municipal Momoyama Hosp. (1940)
Taiso Kumagaya	Member of Japan Scientific Advance- ment Society. Decorated for research on tuberculosis inoculation (12-6-44)
Dr. Teruo Kumo	Arrived in Balikpapan to launch campaign against malaria (7-20-44)
Shinichi Kunitomi	Expert Meteorologist with Navy Ministry (1940)
Dr. Haryuo Kurihara	Lectured on subject "Medical Examina- tions of Youths Eligible for Military Service". (9-4-43)
Kyokei Kuroda	Appt. a Welfare Ministry Research Institute Engineer 1st class (3-29-44)
Kiyoshi Kurosawa	Professor at Yokohama Econ. College (6-5-44)
Yujiro Kususe	Technical Expert of Electrical Laboratory of Communications Ministry (1940)
Dr. Kenichi Kyuno	Head of Yokohama Municipal Juzen Hospital (1940)
Kotaro Maeda	Director, Yokohama Municipal Commercial College. Principal, Yokohama Muni. Com. School (1940)

Kotaro (Sogaku) Magami	Professor, Tokyo Higher Normal School; Lecturer Tokyo University of Letters and Science (1940)
Hideharu Magota	School-inspector Education Ministry (1940)
Kotaro Makami	Professor, Tokyo Higher Normal School (1940)
Takaharu Maki	Professor, Morioka Agric. and Forestry College (6-5-44)
Tomoo Maki	School Administrator; Executive Director Keio Gijuku (1940)
Tetsunosuke Marunouchi	Discovered Hyacinth Ore and was the recipient of an award. He was formerly a mine prospector in Iisaka-machi, Shinobu-gun, Fukushima Prefecture and prospected for this rare element in the area around Ishikawa-machi, Ishikawa- gun (4-27-44)
Tsuneyo Marusawa	Chemical Engineer; Director, Research Institute of South Manchurian Railway (1944)
Iwao Matsubara	Professor, Aoyama Gakuin College; Lecturer Tokyo Women's College (1940)
Hideo Matsuda	Doctor of Agriculture at Gifu Agricul- tural and Forestry College (1940)
Mamoru Matsuda	Professor at Tokyo School of Foreign Languages (1940)
Kenichi Matsui	Professor of Agric.; Director Chiba Higher Horticultural School (1940)
Dr. Taro Matsui	Professor, Manchuria Medical Univ. of South Manchurian Railway Co. (1940)
Kazuya (Katsuya) Matsumiya	About 50 years old; Christian; believed to have a degree from Columbia U. Taught Japanese and Japanese Sociology at U. of Calif. About 1938 operated an international language school in Tokyo. Executive Secretary of the School of Japanese Language and Culture.

Baron Honmatsu Matsumoto	Doctor; Professor of Medicine at Tokyo Medical College (1940)
Iwataro Matsumoto	Director, Tokushima Higher Technical School (1940)
Yoshio Matsumoto	Professor in insurance and colonial policy at Fukushima Higher Commercial School and head of Library of same (1940)
Akiichi Matsumura	Professor at Kyoto Industrial College (6-5-44)
Shonen Matsumura	Doctor of Agriculture and noted entomologist (1940)
Susumu Matsumura	Professor, Kyoto Higher Polytechnic School and dean of Mechanical Engineering Faculty of same. (1940)
Hidetoshi Matsunami	Of the Railways Technical Laboratory. Produced new type of fuel (4-2-44)
Thohio Matsuno	Professor of the Japan Pharmaceutical College which is to begin manufacture of a new medicine for treatment of amoebic dysentery (9-27-44)
Shizuma Matsuo	Technical air officer of aviation bureau; Superintendent, Osaka branch of Aeronautic laboratory and concurrently Superintendent, Osaka Airport, since 1938. (1940)
Dr. Shuzo Matsushima	Director, Kobe Municipal Institute of Hygiene (1940)
Sekio Matsushita	Head, Theological Dept. of Kwansai Gakuin Univ. (1940)
Tamaki Matsuoka	Member of the Science Institute in Hsinking. Developed a wind power generator (10-13-44)
Yuzon Matsuzaki	Professor at Shizuoka Higher School (6-5-44)
Shigekichi Mihara	Director of Society for International Cultural Relations (1940)
Dr. Daiso Minami	Head, Minami Stomach & Bowel Hosp. (1940)

Hideo Misu	Expert, Agricultural Experimental Station of Chosen Government; Lecturer at Suigen Agric. and Forestry College (1940)
Shunjiro Mita	Physician and educator; director of Iwate Medical College (1940)
Dr. (fnu) Mitamura	Tokyo doctor actively working on the problem of making a vaccine to combat Encephalitides (1944)
Kensuke Mitsuda	Head of Nagashima Aisei-en (State Leprosarium)(1940)
Eitaro Miura	Professor at Kyoto Fibre Industrial College (6-5-44)
Dr. Kinnosuke Miura	Court physician; Medical advisor Railways Dept.; Director, Tokyo Doai Kinen Hosp. Emeritus Professor Tokyo Imp. Univ. (1940)
Un-Ichi Miura	Professor of Medicine, Manchuria Medical Univ. (1940)
Dr. Shintarō Miwa	Head, Miwa Enjudo Hosp. Pres. Japan Physician Association, Tokyo.(1940)
Kiichi Miyake	Botanist (1940)
Tsutomu Miyake	Chief, Botanical Section, Central Research Institute of Taiwan Gov't. (1940)
Etsuo Miyamichi	Doctor of Pharmacy; President, Gifu Pharmaceutical College (1940)
Takenosuke Miyamoto	Engineer; technical director, China Affairs Board, since 1938 (1940)
Takumi Miyamoto	Of Manchukuo Engineering Works; invented a "high quality, freeze-proof lubricant" from Manchurian pine (6-24-44)
Sei Mizogami	Attached to the Broadcasting Corporation of Japan. Received commendation from Japan Electronic Association for his research in the field of electronics (5-20-44)

Yoshio Mizumachi Tsunekichi Mizuno	Educator; Director, Seinan Gakuin(1940) Director of Tokyo Science Museum (1940)
Ryujiro Mochizuki	Professor at Kobe Higher Technical School (1940)
Rear Admiral Shin-Ichi Moizumi	Director Naval Navigation School; member Naval Technical Council (1940)
Takeo Morimoto	Professor at Kyoto Fibre Industry College (6-5-44)
Shindo Morishita	Succeeded in producing a new lubricant extracted from seals near Sakhalin (8-15-44)
Yuzo Morita	Professor at Yokohama Econ.College (6-5-44)
Kiichiro Moriuchi	Professor; holder Jr. Grade of 4th Ct. rank and 4th Order of Merit; Professor, Hiroshima Higher Normal School and superintendent of primary school attached to above (1940)
Kakutaro Moroiki	Professor at Kumamoto Higher Tech. School and head of Electrical Engineering Faculty of same (1940)
Dr. (fnu) Motooka	Attached to the Motive Power Research Dept. of the Continental Board of Science in Hsinking. Reported to have developed at a cost of 2,000 yen a "small type hydroelectric dynamo" capable of furnishing "motive power" (10-10-44)
Fusaichi Mori	Of Farm Employment Shop in Ikeda, Azumi-gun, Nagano-ken. Invented a pilot's training wheel, apparently embodying some of the functions of a Link Trainer. (8-2-45)
Shigeru Mori	Technical expert, Hiro Arsenal (1940)
Seigo Morimoto	Professor of Science at Hiroshima Higher Technical School (1940)
Dr. Kiyoshi Morinaka	President, Manchuria Medical Univ. (1940)

Tatsuo Morito	Chief of Osaka Office of Ohara Social Problems Research Institute (1940)
Azuma Moriya	Social reformer; head, Tosei Home for Cripples and Nurses Training School. Director, Juvenile Dept. of Japan Christian Woman's Temperance Society. (1940)
Dr. Tetsuji Morohashi	Professor at Tokyo Bunrika Univ. Awarded the Asahi Cultural Prize for the compilation of a 15,000 page Sino-Japanese dictionary (1-14-44)
Akira Mukai	Educator; Professor, Chienkou Univ. Manchoukuo; head librarian of same; head material section of graduate school of same (1940)
Kyuzo Munagi	Educator; principal Fushun Tech. School; chairman, Fushun Kimamoto Kenjinkai (1940)
Uichi Murakami	Director, Kyoto Higher Polytechnic School (1940)
Shunsuke Muramatsu	Director, Kyoto Sericultural College (1940)
Genzo Murata	Principal of the Kamata Girl's Higher School (3-15-44)
Shiro Murata	Director, Nippon Shin Gakko (Theological School) (1940)
Yoshiatsu Murayama	Director, Kumamoto Pharmaceutical College (1940)
Kumazo Murozumi	Professor at Meiji College of Tech- nology and head Elec. Dept. of same (1940)
Naoji Mutawa	Chemist of the Ogawa Paper Mfg. Co. Invented a special insulator made from a mixture of Japanese paper fiber and glass fiber.
Chozo Muto	Doctor of Economics; emeritus Professor and lecturer, Nagasaki Commercial College; holder Knight 1st Class Royal Swedish Order of Vasa, Officer de l'Ordre d'Orange-Nassau Netherland (1940)

Ekizo Muto	Professor at Morioka Agric. & Forestry College (1940)
Kenjiro Nabeya	Professor at Morioka Industrial College (6-5-44)
Jun-Ichiro Nagahata	Aeronautical Expert of Navy; staff Aeronautical Research Institute of Tokyo Imperial Univ. (1940)
Shokai Nagomatsu	Director Kyushu Dental College (1940)
Dr. Mataro Nagayo	Granted rank of Baron. Considered dean of Japan's medical circle. President of Japanese Foundation of Cancer Research (8-15-41)
Tatsumi Nagiri	President, Keijo Dental College (1940)
Tachu Naito	Doctor of Engineering. President, Waseda Higher Technical School (1940)
(fnu) Nakada	Director of the Imperial Mines Development Research Laboratory. Inspected the Tokaihi nickel deposits (10-10-44)
Dr. Kiyoshi Nakagawa	Professor of Medicine at Kyoto Prefectural University of Medicine (1940)
Korenori Nakagawa	Director, Meiji College of Technology (1940)
Ichigoro Nakahara	Director, Japan Dental College (1940)
Kazutane Nikaido	Professor of Medicine, Manchuria Medical School (1940)
Kinzo Nakajima	Professor at Kumamoto Higher Technical School (1940)
Tokio Nakajima	Appt. Director of the Hygienic Laboratory of Mukden (4-20-44)
Takaji Nakamoto	Professor of Oriental culture, Dept. of History, University of Philippines (6-27-44)
Kiyoshi Nakamura	Ass't Head Research Dept., Oki Electric Company (1940)

Dr. Kenji Nakanishi	Of the Munitions Ministry Optical Research Laboratory in Osaka. Has been conducting a study of the chemical composition of a new type of optical glass and reported to have achieved brilliant results (7-25-44)
Sei-Ichi Nakano	Professor at Mukden Higher Agricultural School; head Veterinary Dept. and Farm of same (1940)
Mitsukaru Nakayama	A mathematician, Nippon Engineering Industries. One of five inventors selected as being "particularly excellent" in their contributions for this fiscal year, by the Nissan Society for the improvement of Inventions. His invention, called the 'Cubic Electric Ratio Equation Revolution Method' solves production problems in aircraft industries (10-26-44)
Ken Nakazawa	Former lecturer at Univ. of Southern Calif. spoke at meeting for "disclosing American brutality" (10-7-44)
Kazuo Nanbu (Nanhu)	Technical expert of Hokkaido. Made concurrently Director of Forestry Management for Hokkaido (7-8-44)
Dr. Rintaro Naoki	Engineer. Director of Office of Expansion of Water Power, Manchukuo (1944)
Hirao Narita	Professor and head of library at Hirosaki Higher School (1940)
Masanori Narita	Librarian, Manchuria Medical Univ. (1940)
Juichi Natsume	Director of Osaka Mechanics Training School of Commerce and Industry Ministry (1940)
Umekichi Nawa	Agriculturist; chief of Nawa Insects Research Institute; teacher of Training Institute of Technicians of Agricultural Ass'n., Gifu Prefecture (1940)

Kwanta Niimi	D.V.S.; veterinary Surgeon-Lieutenant-General (in the first reserve list); President, Nippon Veterinary School (1940)
Rear Admiral Masaichi Niimi	Director of Education Bureau of Navy (1940)
Tokuyo Nikaido	President, Japan Women's Physical Education College (1940)
Arata Ninagawa	Professor of Komazawa University; non-official staff, War Ministry (1940)
Tatsuo Ninagawa	Director, Toyama Higher School (1940)
Yukimichi Ninagawa	Educator; principal Sendai Commercial School; advisor Sendai Chamber of Commerce and Industry (1940)
Dengoro Nishida	Chemist; Director, Yokohama Electric Wire and Cable Works, Dai Nippon Densen K. K., Furukawa Electric Industry Co. (1940)
Hirotaro Nishida	Professor of Engineering and Director of Kiryu Higher Technical School; Chief Editor, Chemical Engineering Magazine (1940)
Dr. Kinichi Nishida	President, Mukden Medical School (1940)
Eizaburo Nishihori	Attached to the Tokyo Shibaura Electrical Works. Decorated for basic research on vacuum tubes and practical production (12-6-44)
Kuzo Nishikawa	Professor at Keijo Higher Technical School (1940)
Masaharu Nishikawa	Doctor of Science. As of 1930, was a laboratory head of the Institute of Physical and Chemical Research specializing in analysis of crystals and in the protons and molecules of electricity and engaged in work in the X-Ray field. Was Japanese representative to the International Convention of Physics held in London in 1934

Tatsusuke Nishimura	Attached to the Konishi Roku Photo Industry Co. Decorated for research on sensitivity of material with high retaining properties for ultra red rays (12-6-44)
Yoshio Nishina	Doctor of Science. In 1932 became head of the Institute of Physical and Chemical Research and is world famous for his experimentation. Noted for work on the Compton Effect, cosmic rays - their relation to weather conditions, and atomic nuclear physics. As of 1940, reported to be conducting experiments with the cyclotron and may be engaged in research relative to the use of nuclear forces for explosives. In April 1944, appointed chief of the newly established Electronic Bureau of the Transportation and Communications Ministry. As of January 1945, said to be a professor of the Institute of Physical and Chemical Science. Received at that time the Ashi Award for outstanding achievement in the fields of science and culture.
Yoshinori Nishizawa	Director of Matsuyama Higher School (1940)
Dr. Kuro Noda	Director of Mukden Red Cross Hospital (1940)
Seichiro Noda:	Professor of Engineering, Ryojun Engineering Univ. (1940)
Taeru Node	President, Doshisha Higher Commercial School; lawyer (1940)
Dr. Taiji Nojima	President, Oshima Leper Hospital (State Leprosarium) (1940)
Kanemori Nomaguchi	Chief Experimental Engineer for Toyoda Motor Co. (1941)
Denshi Nomura	Head of Nara Prefectural Library (1940)
Junji Nomura	President of New Southern College in Saigon. Former Professor in Imperial Univ. (3-7-44)

Dr. Seisaku Nomura	Head Tainan Hospital operated by Taiwan (Formosa) Government-General (1940)
Kaju Norisugi	Director, Tokyo Academy of Music (1940)
Senichi Nozaki	Of the Tokyo Shibura Joint Stock Electric Co. Received a commendation from the Nippon Electronic Association for his achievements in the field of electronic research (5-20-44)
Susumu Nukada	Educator, Director Toikoku Girl's Medical and Pharmacological College; head Nukada Internal Diseases Hospital (1940)
Saburo Numakura	Chief Regulation Section, Electric Research Laboratory of Communications Department (1940)
Takeshi Numazu	Attached to the Nakajima Airplane Co. Decorated for the manufacture and designing of special machine tools for airplane parts (12-6-44)
Shigemi Oba	Educator; President Yonezawa Higher Technical School (1940)
Ichiji Obikata	Professor of Engineering, Ryojun Engineering College (1940)
Kichinosuke Ochiai	Christian worker; principal of Central Theological College; head Religious Dept. (1940)
Yukio Odade	Agric. expert; director Sugar Industrial Lab. of Taiwan Gov't. (1940)
Dr. Sagio Ogata	Assistant Director of Ogata Hospital (1940)
Terutaro Ogata	Attached to Physico-Chemical Research Institute. Decorated for research work with special pigments (12-6-44)
Kohei Ogura	Director, Osaka Meter Experimental Laboratory of the Electric Association (1940)

Saburo Ogura	Professor of Forestry. Sericultural College (1940)
Tsutomu Ogura	Professor and librarian Ryojun Engineering College (1940)
Kametaro Ohara	Professor of Nagoya Higher Commercial School (1940)
Nagoji Ohata	Director of Students Council, Yokohama Industrial College (Appt.6-5-45)
Dr. Otohiko Oho	Former chief physician of the Taiwan Gov't. Hospital (1940)
Dr. Kuniharu Oikawa	Doctor; Pres. Heijo Medical College and head Heijo Hospital of Heian Nando, Korea (1940)
Kuniyoshi Ohara	Educator; director Tamagawa Gakuin (Private Institution)(1940)
Kanichi Ohashi	Engineer; Govt. Official; Chief 2nd Dept. of Electrical Experimental Station of Communications Dept. (1940)
Seiji Oikawa	Discoverer of sugar substitute, two thousand times as sweet as sugar obtained from (beefsteak) plants. It is called Palelotine. Oikawa has succeeded in removing its only defect of indissolubility in water. Price will be seven or eight sen per thirty grams (8-21-44)
Dr. Tatsuo Oinoue	Doctor; director Oinoue Med. Office since Feb. 1939
Wasaburo Oishi	Meteorologist; head Aerological Observatory (1940)
Makoto Oiwa	Professor at Ritsumeikan University. Head of Library at same (1940)
Oji Oka	Educator; director South Manchuria Technical College of South Manchuria Railway Co. (1940)
Shinroku Oka	Engineer; chief Research Dept. of Fushun Collieries (1940)

Doichi Okada Dr., School Sanitation Inspector,  
Tokyo Municipal Office; head,  
Okada Clinic for weak children  
(1940)

Hajime Okada Doctor of Engineering; Director of  
Industrial Department, Fibre  
Industry Experimental Laboratory of  
Commerce and Industry Dept. (1940)

Iyetake Okada Doctor of Science; Chief, Chemical  
Section, Shanghai Natural Science  
Research Laboratory of Cultural  
Undertaking Dept. of Foreign Office  
(1940)

Saburu Okada Inventor of a "secret weapon" high-  
performance radio receiving set  
(1-17-45)

Dr. Takematsu Okada Advisor to the Central Weather  
Observatory, Tokyo (7-6-44)

Dr. Tomihide Okada Relieved as Vice-Pres. of the Japan  
Medical Treatment Association  
(7-12-45)

Tsunesuke Okada Educator; President, 7th Higher  
School. (Zoshikan) 1940

Yaichiro Okada Professor of Science, Tokyo Higher  
Normal School (1940)

Masahito Okamoto Attached to Army Technical Institute.  
Received citation for work on high-  
angle gun (12-22-43)

Shigehisa Okano Architect; proprietor Okano  
Architecture Office; director  
Daiko Land Trust Guild (1940)

Count Nobutomi Okfi President, Tokyo Higher Technical  
School; Director Toko Gakuden;  
special staff South Manchuria  
Railway Co. (1940)

Dr. Jun Okimura Member of Manchukuo Institute of  
Scientific Research. Surveyed  
Hsingan mountains for mineral  
resources (7-17-42)

Jusuke Okochi Doctor of Engineering; Professor,  
Ryojun Engineering Univ. (1940)

Viscount Masatoshi Okochi

Doctor of Engineering. Member, House of Peers. With Institute of Physical and Chemical Research since 1918. Served with many Riken Companies. Laboratory work includes study of iron, electrolysis, production of magnesium metal, action of cutting tools. In 1943 became Cabinet Advisor; April 1944, was noted as inventor of great magnesium furnace. July 1944, appointed Councilor to Board of Technology. In December 1944, given citation for services as inspector of Electronic Weapons Administration. March 1945 appointed adviser to the Munitions Industry.

Dr. Mitsugu Okoshi

Director of the South Manchuria Railway's Peking Clinic (1940)

Dr. Tsurukichi Okumura

Dentist and Educator; Professor and Dean of Tokyo Dental College (1940)

Bunkichi Omi

Director of the Imperial Institute for Foreign Languages, Tokyo. Received an Italian decoration (1-27-45)

Ichiro Omori

Educator; Director, Kumamoto Higher Technical School (1940)

Dr. K. Omura

Member, Continental Scientific Council (3-13-43)

Takuichi Omura

Former President of the So. Manchuria Railway Co. Appointed President of the Continental Science College 1-20-45. 73 years old; connected with South Manchuria R.R. for almost 50 years; played part in development of railways and defense of country; discussed second Five Year Plan (7-20-43)

Dr. Ryozo Ono

Head, Ono Surgical Hospital, Minato Hospital, Kizugawa Hospital (1940)

Dr. Yoshikazu Ono

Dr. of Internal Medicine; Director, Kanotakata Health Consultation Centre (Nakano, Tokyo) and Namamugi Clinic (1940)

Hirosuke Onodera

President, Tohoku Pharmaceutical College (1940)

Isenosuke Onodera	Professor, Morioka Agricultural and Forestry College (1940)
Kichinosuke Onuki	Chief, Research Section, Imperial Hemp-dressing Co.; Director, Manchuria-Japan Flax Weaving Co. (1940)
Kokichi Oshima	Professor of Agriculture, Hokodate Higher Fishery Institute (1940)
Shimjiro Ota	Received first place in the group award for engineers, given in a National Technical Skill Improvement Contest under the joint auspices of the Dai Nippon Laborers' Patriotic Service Association and the Public Engineers and Construction Assn. at Nakajima Aviation Co., Ltd. (5-6-44)
Haruo Otaguro	Chemist in factory of former Oji Paper Company, Kyoto; carried on successful research in obtaining butanol from bark of mulberry trees, for use as fuel in aircraft (7-15-44)
