SMALL GERMAN PARTY HAS AMBITIOUS PLAN

Body of Nine Men Trying to Put Trans-Siberian Railway Out of Commission

London, March 13.—A small party of Germans in China is reported to have undertaken one of the most striking adventures of the war in the east. A dispatch to Reuters from Peking describes the exploits of the Germans, nine in number, who escaped from Tsing Tau after its capture by the Japanese and traveled nearly 3,000 miles overland in an effort to tie up Russia's trans-Siberian railroad. The dispatch says the party is headed by Captain Rabe von Pappenheim, German military attaché at Peking.

The eight men with whom he set forth made their way out of Tsing Tau and managed to procure Chinese passports, ostensibly for the purpose of going on a hunting expedition in the interior. They started away several weeks ago and not a word was heard from them until recently.

It now appears that the Germans procured twenty boxes of burden and a large supply of explosives and pushed northward into Manchuria. They are now known to be between Buchatu and Tsitsihar, in Manchuria, along the line of the Russian trans-siberian railway. Their object, the Peking message says, is to put the Russian railway out of commission by blowing up tunnels.

Russian soldiers are pursuing the Germans.

Japan has been forwarding arms and ammunition to Russia over the trans-Siberian railway, and it might be assumed that the object of the Germans was to cut off this source of supply.

THREE NAMES ADDED TO LIST OF WOUNDED

Death Roll of Canadian Expeditionary Force Now Totals 179; About 200 Wounded

Ottawa, March 13.—The death roll of the first Canadian contingent, including the Princess Patricia's, has now mounted up to 179. Of these 58 have been killed in action, while 101 have died of disease or accidents. The total number of wounded is almost up to the 200 mark.

During the present week alone the casualty lists received here have totaled so far 64 men killed or wounded in the Patricia's and 43 in the other Canadian regiments. The casualty lists of the past six days show 18 men of the Patricia's killed or died of wounds and 46 men wounded, while among the other Canadian regiments there are 13 deaths and 20 wounded.

The following casualties among the members of the Canadian expeditionary force were announced last night:

First Battalion—Slightly wounded: Lieut. Frederick Pitt, admitted to No. 14 general hospital, gunshot in shoulder. Next of kin, Mrs. F. Pitt, South Chatham, Ont.

Third Battalion—Severely wounded: Private Russell C. Bacon, admitted to No. 14 general hospital, Boulogne, gunshot wound in brain. Next of kin, Mrs. E. Bacon, Aurora, Ont.

Divisional train C. A. S. C.—Wounded: Corporal R. Frank, admitted to No. 3 general hospital, La. Treport, gunshot wound in arm. Next of kin, Mrs. J. Frank, Whitby, Yorks, Eng.

GOVERNMENT URGED TO ADOPT MEASURES TO TAKE OVER WHEAT AND COAL SUPPLIES SUGGESTED AT LONDON MASS MEETING

London, March 13.—Under the auspices of the Workers' War Emergency National committee, Arthur Henderson, M. P., presiding, a mass meeting was held here to discuss the prices of food and fuel. A resolution urging the government to commandeer the stock of wheat in the country at a fair price for re-sale to the public was adopted. The price of these re-sales should not exceed 40 shillings per quarter, it was held.

The meeting also urged action to control more ships to bring wheat from Argentina, Russia and Canada, and to guarantee a fixed price for the 1915 crop.

James Andrew Seddon, chairman of the British Trades Union congress of 1914, addressing the meeting, advanced the argument that if the government had acted the same way with wheat as it has with sugar, there would have been no increase in its price. The speaker ascribed inflated prices to three causes: First, inaction on the part of the government; second, gambling in the wheat markets of the world, and third, "the criminal exploitation and robbery by the shipping ring in this country."

DECLARES CANADIANS ARE THE BEST SHOTS

Ottawa, March 13.—At the annual meeting of the Dominion Rifle association, held here last night, no action was taken regarding the holding of a Dominion association shooting competition this year, and it is stated there probably will be no meet. That matter was left to the executive of the association for decision.

Lieut.-Col. A. P. Sherwood, of Ottawa, chief commissioner of the Dominion police, was elected president of the association, in succession to the late Col. Burland, of Montreal, who died in London last October, while there on Red Cross duty. The vice-president elected to represent British Columbia was Lieut.-Col. J. Duff-Stuart, of Vancouver.

In an address on target shooting and its benefits, Major-General Sam Hughes said thirteen Canadian regiments at the front were better shots than any other thirteen regiments in the world. Regarding the Ross rifle, he cited as proof the fact that it is all right the fact that the government was negotiating for a million, the British taking 500 and Canada 200 a day.

HOW BOY SCOUTS HELP IN THE MOTHERLAND

Diary of One Stationed on Coast Outlines Duties Performed

London, March 13.—The diary of a Boy Scout, published in a Manchester newspaper, is an interesting piece of juvenile literature and describes more clearly than has heretofore been done some of the work the scouts are doing.

"H— and I have complete charge of sixteen miles of coast," the young adventurer begins in telling of his life in an isolated bungalow on the North Shore on the lookout for hostile cruisers and aircraft or the signaling of spies. He tells of sleeping on the table on a pile of overcoats until midnight, when the two boys went on duty.

Some paragraphs from the diary read:

"The lookout box in which I am now writing is a small place, about five feet by eight, with windows on three sides which look out to the sea. It has a stove, cupboard, various telephones, signals, revolvers, rifles, clocks, telescopes, etc." H— now has the revolver round his waist. He is, of course, on duty outside. He comes in every few minutes, passing remarks on the night.

"Friday—It is now midday, and H— and I have just come off duty. We have had a very interesting morning. Two government patrol boats have passed quite close to us, also two tugs towing a big salvage crane, which in turn was towing a derelict. Life here is great; you have no idea how important and 'bossy' we feel when on watch, because even the soldiers come to us every hour to know if we have any messages or orders. The dug-outs, trenches and guns along the coast are simply glorious; really I'm in my element. We are on very good terms with the soldiers—so good, in fact, that when we said it was a bit cold in our bungalow the lieutenant asked for blankets, and the men, I believe, offered fifty, ten of which were accepted. I have now four blankets and a great coat, also a ground sheet and camp bed, and I really sleep as well here as I do at home, the only difference being that I find no difficulty in getting up when called at all hours of the night or day. We get a 26-hour rest, or 'stand-off' (nautical expression), every fifth day.

"I have charge of the log and it practically takes up all my spare time, because we are on twelve hours and off twelve. But the log book promises to be a very interesting volume when completed if I keep up on the same lines as I have begun. Yesterday morning I had the job of cleaning all the rifles, revolvers, sword-sticks, and leather work for the coastguards, and got complimented on the way in which I did it, so I suppose I always shall have the job. This is the advantage (?) of being thorough workman. (Please tell father this.)

"This is a flat and uninteresting coast, although the surf on the reefs, of which there are plenty, makes a very pretty picture. It is a fine place for landing 'Germbuns' if they knew where to come; but all the nice landing places are jolly well guarded. Yesterday two of my fellow 'mud-diggers' came back in a very excited and breathless condition and said they had found a mine washed ashore. It turned out to be an old boiler off a ship."

SAYS OFFICERS ARE NOT THE BEST BUYERS

London, March 13.—Rt. Hon. Walter Long, in a long criticism of war office methods generally in the House of Commons yesterday, deprecated the employment of professional soldiers as horse buyers. Canadians had told him, he said, that the British war office was a gold mine to the Canadians by the way in which they were buying horses at prices of all proportion to their value. Officers were not the best buyers, and there were enough of them in Canada and the United States buying horses to officer a division of the army. Why could not civilian officers be used for that purpose, and these officers be set free for the work of fighting?

SHIPPED GUNCOTTON. LANDED AT VALPARAISO.

Chicago, March 13.—A trunkful of guncotton, declared to be the property of Dr. Herman Bodenheimer and believed to have been shipped from New York on a passenger train for San Francisco, is being sought by federal agents in connection with their investigation of the case of Bodenheimer, arrested in St. Louis on a charge of having unlawfully transported explosives. The agents said the trunk contained enough high explosives to wreck a train or a railway station.

NEW MANAGER NAMED FOR C. P. R. TELEGRAPHS

Montreal, March 13.—James Kent, manager of C. P. R. telegraphs, is retiring to be succeeded by John McMillan, of Winnipeg, according to a statement issued yesterday. Mr. Kent, who has been in the C. P. R. service for 29 years, has been allowed to relinquish work at his own request, it is stated, and has been granted leave of absence for an extended period. He was born in Montreal on January 15, 1854, and has spent his entire career in the telegraph business, having entered the C. P. R. service in 1888.

CREW AND PASSENGERS OF GUADELOUPE LANDED

Buenos Ayres, March 13.—The Diario announces that the British steamer Churchill arrived yesterday at Fernambuco with the crew and 146 passengers of the French steamer Guadeloupe. The Guadeloupe was sunk near the Island of Fernando de Noronha, in the South Atlantic, 125 miles off the east extremity of Brazil, to which country it belongs, by the German auxiliary cruiser Kronprinz Wilhelm. The Guadeloupe sailed from Buenos Ayres on February 13 for Bordeaux.

Cured Fifteen Years Ago of Piles and Eczema

By Using Dr. Chase's Ointment—Certifies That the Cure Was Permanent.

Some people have tried so many doctors and so many treatments in their search for cure for piles and eczema that they find it difficult to believe there is an actual cure.

The strong point about Dr. Chase's Ointment is that it not only brings relief promptly, but brings about actual and lasting cure.

In 1897 Mr. R. Ketcheson, 28 Dourbo street, Peterborough, Ont., wrote as follows:—"I was troubled for thirty years with itching piles and eczema. I could not sleep at night, and when I got warm the itching was terrible. Eczema covered my legs down to the knees, perfectly raw. I have tried every preparation I could hear of. Seeing Dr. Chase's Ointment advertised, I procured a box, and this Ointment effected a complete cure."

On Sept. 25, 1912, Mr. Ketcheson wrote as follows:—"I received a letter from you to-day, saying that you found on file a statement made by me 15 years ago. I have always given Dr. Chase's Ointment a good name since it cured me, and shall tell you how it came to use it."

"I had suffered for many years from eczema and piles, and had tried doctors and everything I could hear of in vain. Reading about Dr. Chase's Ointment, I purchased it at once, and was soon completely cured. That was fifteen years ago, so there can be no doubt of the cure being a permanent one. I have met a great many people who have been cured by Dr. Chase's Ointment."

Dr. Chase's Ointment, 50 cents a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

A man who lives right, and is right, has more power in his silence than another by his words. Character is like bells which ring out sweet music, and which, when touched accidentally even, resound with sweet music.—Phillips Brooks.

Before the war the chemical industry in Germany was very prosperous. The 308 joint stock companies in 1912 commanded a paid-up capital of £23,210,000, with reserves amounting to £9,929,000. The average dividend, 13.35 per cent, was the highest in all branches of trade except insurance.

PHOTOGRAPHED JUST BEFORE THEY LEFT FOR FRANCE

A group of Victoria boys who left here with the first contingent, and are now reported in the firing line. The picture was taken at Salisbury just before leaving for France, the building in the background being their hut on Lack Hill. The following are shown: Back row (left to right)—Bill Gardner, McGregor, Kirk Leigh, Yard, Hardman, Hodder, Sol, and Brown. Centre row—Schlosser, Shaw, and Molloy. Front row—Harvey, McKenzie, McPherson, Denny, Forsythe, Paul, Tanner, F. Ricketts, Campbell, Mann, L. Ricketts, and McMilleau.

branch of the United Service Tobacco fund held a meeting on Thursday afternoon, when the secretary-treasurer (Miss G. I. King) reported that the fund had in hand \$60. It was decided to forward this sum at once to the Overseas club, London, England, as a gift. With the exception of a small sum, which will be sent to addresses given by subscribers, the whole of this amount will be forwarded to the Canadian troops now at the front. The \$25 contributed by the regimental football club will be forwarded to the 30th battalion when they go to the front, from the Overseas club, London. The sum of \$29 has been collected from the six collecting boxes placed by the fund at the Wiltshire camp, the post office, and the B.C. Electric Railway office.

Since its inauguration the United Service Tobacco fund has forwarded to England the sum of \$250. All the money has been collected in Victoria and district, and has been devoted entirely to the tobacco fund, all the clerical work in connection with the fund being done gratis.

The secretary has received word from subscribers to the fund that they are now receiving acknowledgements from the soldiers at the front. One subscriber reported that he had received his twenty-five cents back from the Overseas club, as the committee in London could not find the party to whom the packet had been addressed. This demonstrates the business-like way in which the fund in London is worked.

The above fund is still open. Subscriptions may be handed either to the ladies of the committee, Mrs. George Jay, Mrs. W. J. Topper, Mrs. W. G. M. Rolston, or to the secretary-treasurer, Miss King, who will be found at the Belgium Relief Fund rooms on Fort Street, postal address, box 1497, Victoria. All subscriptions from now on will be devoted to Canadian troops.

**MRS. LYON'S
ACHES AND PAINS**

Have All Gone Since Taking Lydia E. Pinkham's Vegetable Compound.

Terre Hill, Pa.—"Kindly permit me to give you my testimonial in favor of Lydia E. Pinkham's Vegetable Compound. When I first began taking it I was suffering from female troubles for some time and had almost all kinds of aches—pains in lower part of back and in sides, and pressing down pains. I could not sleep and had no appetite. Since I have taken Lydia E. Pinkham's Vegetable Compound the aches and pains are all gone and I feel like a new woman. I cannot praise your medicine too highly."—Mrs. AUGUSTUS LYON, Terre Hill, Pa.

It is true that nature and a woman's work has produced the greatest remedy for women's ills that the world has ever known. From the roots and herbs of the field, Lydia E. Pinkham, forty years ago, gave to womankind a remedy for their peculiar ills which has proved more efficacious than any other combination of drugs ever compounded, and today Lydia E. Pinkham's Vegetable Compound is recognized from coast to coast as the standard remedy for women's ills.

In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health—many of them openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound; and in some cases that it has saved them from surgical operations.

There is one very sad thing in old friendships, to every mind that is really moving onward. It is this: that one cannot help using his early friends, as the seaman uses the log, to mark his progress. —O. W. Holmes.

**Farewell Exhibitions of
THE GREAT DRAMA**

Now Commencing in the Old Victoria Theatre

Part One of the Photo Drama of Creation will be exhibited to-day at 3 and 8 p.m. for the last time. Parts 2, 3 and 4 will be exhibited on Monday, Tuesday and Wednesday.

Part one contains the remarkable motion pictures of the Deluge, including the famous pictures of Creation.

Sunday evening at 7.30 a special lecture will be delivered on "The Divine Plan of the Ages as Revealed in the Scripture."

Scenes from where the wonderful "Abydos Tablet" was discovered, cut in solid rock sixty feet below the surface. The reproduction shown in the Drama is taken from the copy in the British Museum. It corroborates the Genesis account from Adam to Noah.

SATURN AND EARTH COMPARED
The Valian theory of Cosmogony absolutely corroborates the great creative days or epochs of Genesis.

THE EXODUS FROM EGYPT—PART 2
The moving picture film of the exodus is one of the finest moving picture scenes ever exhibited, fully 1,000 persons participate. The entire film is hand-colored. The court of the Pharaohs and the slayings are magnificent, while the death of the Egyptian first-born and the final exodus is enacted with great realism.

To-day will be the last time Part I. of the Photo Drama of Creation will be exhibited in Victoria. Every one who has not seen this part of the drama should avail themselves of this, their last opportunity. It will be exhibited at 3 and 8 p.m. Any one who has lost faith or is sceptical of the Bible account should visit the drama and have their faith strengthened in the words of the Lord.

Atheistical scientists and evolutionists are silenced by its presentation, and the Bible testimony is vindicated by the scientific presentation as shown in the Drama. The seven great creative days or epochs of Genesis are corroborated by the "Valian Theory of Cosmogony," and the history of the deluge is also substantiated. According to scientists, at the time of the deluge the last great wing or canopy of water which had been held off from the earth by centrifugal force, broke, precipitating thousands of millions of tons of water upon the earth, which not only accounts for the deluge, but also for the ice age, and for the animals which are found to this day frozen solid in the ice in the Arctic regions. A picture of a mastodon thus discovered in Siberia is shown in the Drama.

PART II. MONDAY.
In the part, two moving picture films of great beauty are exhibited. The exodus film ranks high in its class. The stagings are luxurious, about 1,000 people participate in its production, conveying a vivid description of the exodus to the mind's eye.

The film of the Prophet Elisha raises the dead Shunamite's son is one of great beauty and pathos. Many eyes are dimmed as this touching film is displayed on the canvas. The colorings on both these films are excellent and lend much to their beauty and realism.

The film dealing with King Saul, the witch of Endor and the defeat of the Israelites contains many and important lessons.

LECTURE SUNDAY
The lecture on Sunday evening at 7.30 on "The Divine Plan of the Ages" will be of special interest. The great plan of salvation will be harmonized from Genesis to Revelation. All are welcome. Seats are free. No collection is taken.

IN THE LODGE ROOM

Monday—Victoria Lodge No. 1. General relief committee.
Tuesday—Vancouver Encampment No. 1.
Wednesday—Columbia Lodge No. 2. Thursday—Dominion Lodge No. 4.
Victoria Lodge No. 1.
The degree team of the lodge conferred the second degree last Monday evening, and will confer the third degree on Monday evening next. The entertainment committee has announced an interesting debate for the last Monday evening in the month, and it is hoped there will be a large attendance.

General Relief Committee.
The regular semi-monthly meeting of the committee will be held on Monday evening next.
Colfax Rebekah Lodge No. 1.
It was decided by the lodge last Tuesday evening to send a degree team to New Westminster this year to compete for the banner in the competitions to be held during the sessions of the grand lodge in June. When it is remembered that Colfax lodge was beaten by about half a point at the competitions here last summer, the chances are the local team will be victorious in the coming competitions. There is splendid material in Colfax lodge, and no doubt the team captain will visit the mainland with a team as good as, and perhaps better, than that which took part in the last competitions. This lodge conferred the degree of Rebekah last Tuesday evening upon several candidates. The entertainment committee has announced a whist drive for the next meeting, which will no doubt be largely attended.

Columbia Lodge No. 2.
The whist drive held by the lodge last Wednesday evening provided a very pleasant evening's entertainment for those who attended. The first degree will be conferred next Wednesday evening, and it is hoped all members of the team will be present.
Dominion Lodge No. 4.
The second degree will be conferred in the lodge next Thursday evening, and all members of the degree team are requested to be present.
Canton Victoria No. 2.
The regular meeting of the canton was held last night, and after the routine business was disposed of, the members spent some time in drill practice. The canton is contemplating sending a team to New Westminster during the grand lodge session to take part in the competitive drill. If the competition is held this year, Bro. E. Tuck has been appointed A. A. G. by Col. F. Dillabough.

Home Again.
Bro. N. L. Dunn, P. G., of Columbia Lodge No. 2, has returned to the city after spending the past few months in Phoenix, Ariz. Bro. Dunn has returned completely reatored to health, and is receiving congratulations from all the members upon his recovery from his illness.

I. O. F.
Court Harmony No. 444.
As some important matters will be discussed at the meeting of the court on Tuesday evening next, there should be a large attendance. Two of the most important matters are notices of motion, one dealing with the question of dues, and the other relative to night of meeting. The meetings of the court are now held in the K. of C. hall, Fort Street, at 8 p. m.

THE KNIGHTS OF COLUMBUS.
Victoria Council No. 1295, Knights of Columbus, held their regular meeting on Thursday last. Much important business was disposed of, after which the debate in connection with the mock parliament was continued, and much interest created by the line of argument advanced by both sides of the house. The members decided to attend church in a body on Sunday next at the 9.30 o'clock mass.

The subdued lighting of the London streets was responsible for an amusing incident the other night on the top of a crowded motor-bus—one of those which, for some unknown reason, have one seat on the upper deck half the usual length. A rather portly passenger mounted the steps, and seeing a gap in the row of passengers' heads made for what he imagined to be the vacant place. His surprise when he found himself seated on the floor, and his subsequent altercation with the inoffensive conductor, vastly amused his fellow-passengers.

TOBACCO FOR CANADIANS

Friends Should Support Funds for the Supply of Extra Comforts for Troops.

A letter recently published might lead its readers to the belief that a sort of favoritism was being shown in distributing tobacco among the English and Canadian troops at the front. The fact is that there are many tobacco funds in England and but comparatively few in Canada, so that while the English friends are sending through a steady stream of smoking supplies to the front, the Canadian troops are depending on spasmodic contributions. The only way in which to secure the addition of this comfort for the soldiers from Canada is for the friends here to organize funds as they have done in England, and generously support those already established.

The committee of the Victoria

OXO CUBES

within sound of the guns
How OXO CUBES helped Princess Patricia's Regiment to make their Christmas dinner

An interesting letter from a sergeant in the above regiment:—

"At last we are where we wanted to be, and are contented with our little lot. We had a fairly good Christmas dinner, which consisted of bully beef and biscuits, and whatever we could forage. My friend and myself did not do so badly, as we had one carrot, one-half turnip, two leeks, one onion, TWO OXO CUBES and twelve ounces of bully beef, with three hard biscuits, all mixed up and boiled in a beef tin. To-day we had our Christmas pudding, one-half pound to a man, one pound tin of jam between four men, and a small bottle of wine, also between four men. We are all in good spirits, and also within sound of big guns."

[Reprinted from the "Montreal Gazette", Jan. 7, 1915.]

Winter weather is OXO CUBE weather. What could be more invigorating and sustaining than a steaming, delicious cup of OXO, which gives that rich, strengthening beef-nourishment the body needs to withstand cold and fatigue?

OXO CUBES beat all the old ideas for food-quickness. Simply drop an OXO CUBE into a cup of hot water—stir—and it's ready. A daily cup of OXO is an excellent safeguard against colds and La Grippe.

THAW ACQUITTED. New York, March 12.—Harry K. Thaw was acquitted to-day of conspiracy in escaping from the Matteawan asylum on August 17, 1912.

TRADING AT WINNIPEG; WHEAT DULL AND QUIET. Winnipeg, Mar. 12.—Trading in futures on the wheat market was dull and quiet.

BANK OF MONTREAL. ESTABLISHED 1817. BOARD OF DIRECTORS: H. V. Meredith, Esq., President. Bankers in Canada and London, Eng., for the Canadian Government.

POWERFUL GUNS OF FLEET CREATED HAVOC

Eye-Witness Describes Bombardment of Forts at Entrance to Dardanelles

AIR WAS RENT BY DEAFENING NOISES

Athens, March 12.—The first real eye-witness story describing the bombardment of the Dardanelles forts by the allied fleet was brought here by a man from Tenedos island, who, from Mount lices, saw the battleships pour their fire into the strongholds.

The sight was a most magnificent one, he said. At first the fleet ranged in a semi-circle some miles out to sea from the entrance to the straits. It afforded an inspiring sight as it came along and took up its positions, and the picture became most awe-inspiring when the guns began to boom.

The bombardment at first was slow, the shells from the various ships screaming through the air at the rate of about one every two minutes. The gunners' marksmanship was excellent, and with strong glasses I could see huge masses of earth and stone being thrown high up in the air.

Through it all I could see they were getting homes with their shots. They fired as they went in. They sped right under the guns of the shore batteries, which could no longer resist the temptation to see what they could do.

The position and the number of the enemy's batteries had been directed as a result of this brilliant little piece of work, and soon the Turkish guns were under a hail of the most deadly shells ever known.

Later he was able to observe subsequent stages of the bombardment from a still nearer point. What he saw while on an island of the Rabbit group was still more interesting. When in the early part of the bombardment the allies successfully dealt with the entrance of the works, several ships were able to enter the straits and on the broad sheet of water inside were carrying on the work of destroying the batteries farther up the arm of the sea.

Princess von Buelow, the German ambassador, is continuing his active propaganda, the purpose of which is to induce Italy to stand by Germany.

IMEN FOUGHT WITH SPLENDID SPIRIT

British and Canadians Inflicted Heavy Losses on Germans at Neuve Chapelle

Paris, March 12.—The bombardment with which the British preceded their attack on Neuve Chapelle was particularly effective, telegraphs the Matin's correspondent at Arras.

The Germans lost very heavily in the fighting for the British and Canadians fought with magnificent bravery.

The battle continued on Thursday as fiercely as ever. The British do not disguise their confidence in their ability to make a prompt clearance to the northward.

ITALY PREPARED TO MEET DEVELOPMENTS

Government Remains Silent Regarding Possible Concessions by Austria

Rome, March 12.—The Italian government continues to maintain silence regarding the negotiations reported to be under way with Austria concerning territorial concessions.

There are persistent reports in Rome that Austria has refused absolutely even to discuss the possible cession of Trieste and gives only a small part of the province of Trent.

It is apparent to close observers that the situation for Italy is daily becoming more complicated. The argument is being made with persistence that she must soon reach a definite decision as to what course she will follow.

The possible forcing of the Dardanelles by the allied forces of the allies is regarded here as a prelude to the partition of Turkey. It is imperative, according to this faction, that Italy have a voice in any such political division, but this she could not expect if she entered any agreement with the Teutonic allies concerning Trent and Trieste.

Princess von Buelow, the German ambassador, is continuing his active propaganda, the purpose of which is to induce Italy to stand by Germany.

NEWSPAPER FOOTBALL. London, March 12.—Chelsea to-day defeated Newcastle United by the score of one goal to nil in a fourth round replayed English Football association cup.

ANOTHER AEROPLANE REPORT. Ottawa, March 12.—There is a report that three aeroplanes were seen yesterday afternoon at Kingston by a large number of residents.

WILL SEEK TO CLOSE EXPENDITURE BY-LAW

Now That Asphalt Plant is Ready, Opportunities for Work are Limited

At the meeting of the city council on Monday the aldermen will make another attempt to close up the expenditure by-law.

It is a strange comment on the swinging of the pendulum of public opinion that after years of agitation for a municipal paving plant, the city has at last secured a plant, and now it is almost impossible to get permission of owners to effect any local improvement work.

TURKS ARE THROWN BACK BY RUSSIANS

Czar's Forces Capture Whole Battery in Armenia, Near Black Sea Coast

Tiflis, March 12.—An attempt on the part of the Turkish army operating in Turkish Armenia to drive back the Russian force which has advanced westward along the shore of the Black Sea from Batum, has met with defeat.

Reverses also have been sustained by the Turkish forces in Northwestern Persia. They were compelled to retreat a considerable distance in the districts of Khoi and Dilman.

MOVE HOSPITAL HILL ON INDIAN RESERVE

Men Get One Week's Employment; Followed by New Batch

About one hundred and twenty-five men are employed by the provincial government on the old Songhean reserve. They began work last Monday and will stop work when time is up this afternoon.

ATTEMPTED SUICIDE OFF OUTER WHARVES

Well-Dressed Man Changed His Mind After Entering Cold Waters of Strait

Leaping from the end of Pier 2 into the waters of the strait, a well-dressed man yesterday attempted to commit suicide, but as a result of smart action by men on the dock and the crew of the tug Edna Grace, aided and abetted by a change in the attitude of the man's mind, the attempt was frustrated.

TRAINING FOR OFFICERS

Three Men Go From C. M. R. Here to Vancouver; Appointments Gazetted. Three men have gone from the C. M. R. at the Willows to Vancouver to train as officers for the 11th regiment.

COMOX LIBERALS ADOPT CANDIDATE YESTERDAY

Courtesy, E. C. March 12.—A convention of Liberal delegates, representing all parts of the Comox district, was held last night in the Knights of Pythias hall.

POLLING IN VANCOUVER

Vancouver, March 12.—This is mayoral election day in Vancouver. Up to noon the vote was about sixty per cent of the electors.

DEATH ENDS LONG PERIOD OF SERVICE

Washington, March 12.—Colonel W. H. Crook, disbursing officer of the White House, who was President Lincoln's bodyguard and who has been intimately acquainted with every president since 1866, died to-day at his home here.

FRECKLES

February and March Worst Months for This Trouble; How to Remove Easily. There's a reason why nearly everybody has freckles in February and March, but happily there is also a remedy for these ugly blemishes.
