BRITISH FIRMS WILL BE AIDED IN GETTING INTO GERMAN MARKET

Government Is Preparing to Resume British Consular Service in Germany, Says London Daily Mail; An Ambassador to Germany Soon

London, July 12.—Great Britain is preparing to resume her consular service in Germany soon and to give every facility for British firms to distribute goods there, says The Daily Mail.

It is expected that Germany will send a Charge d'Affaires here, and that no German ambassador will be named for some time.

Travel in German will be restricted, the newspaper says, but bona fide commercial travelers will be given facilities to go anywhere they desire.

Paris, July 12.—The German delegation at Versailles was informed today in a letter from the Peace Conference that the ratification of the treaty of peace by Germany had been accepted and that the raising of the blockades was about to take place.

A French Government decree regarding the blockade will appear in Le Journal Officiel to-morrow.

New York, July 12.—Germany is in the market for enormous quantities of copper, it is understood. Refined copper was quoted at 21 cents a pound by one of the leading selling agencies here to-day.

E. AND N. EXTENSION IS RECOMMENDED

Associated Island Boards of Trade Urge Construction Northward

Nanaimo, July 12.—Extension of the Esquimalt and Nanaimo Railway to the northern end of Vancouver Island; construction of some twenty-two miles of road to open up the Sayward district to settlement.

Other matters dealt with included terminal freight rates for all points on the Esquimalt and Nanaimo Railway between Nanaimo and Victoria.

The convention also decided to petition the Provincial and Dominion Governments to render all assistance possible, especially in the way of land-clearing machinery, to the soldier settlement at Merrville.

The officers elected are: Hugh Savage, Duncan, President; John Stewart, Ladysmith, Vice-President, and T. E. Booth, of Nanaimo, Secretary-Treasurer.

WOMAN SUFFRAGE IS PLANNED IN HOLLAND

Amsterdam, July 12.—The first chamber of the Dutch Parliament has adopted a motion to introduce woman suffrage in Holland. The vote was thirty-four to five.

SHIP IS REPORTED WRECKED OFF CHILE WITH LOSS OF LIFE

New York, July 12.—Cable advices received here to-day from Valparaiso, Chile, reported a heavy snow and sheet storm sweeping the southern part of South America. An unidentified ship off Valparaiso was reported wrecked with probable loss of life.

TWO MARSHALS WILL LEAD VICTORY PARADE IN PARIS

MARSHAL FOCH MARSHAL JOFFRE Paris, July 12.—An official note announces that Marshal Joffre will accompany Marshal Foch at the head of the Victory Parade over the entire route in Paris on July 14.

It is pointed out that it will give satisfaction to Marshal Joffre's friends, who were indignant that his name had been left off the original official programme.

ATROCITIES IN KOREA ARE CHARGED AGAINST JAPANESE

New York, July 12.—A report of alleged Japanese atrocities in Korea was made public to-day at the headquarters of the Presbyterian Church in America. It is a result of investigations by representatives in Korea of the Presbyterian Church in the United States following the imprisonment of some of its missionaries by the Japanese authorities.

The report, several thousand words in length, is described by the Presbyterian Church in its introduction as follows:

"The American newspapers are already full to overflowing with the reports of atrocities in Korea. The origin and causes of these are of immense importance, but in this article those subjects can not claim our attention. Knowing that another Belgium is on the world's hands, it becomes necessary that the facts be stated by someone, and that these be held to form the base of constructive reformation later on. This article is written with this idea in mind.

OPPOSES LONDON AS SCENE OF BIG TRIAL

Shorter, Editor of Sphere, Suggests Ex-Kaiser Be Tried in Washington.

Montreal, July 12.—"With regard to the extradition of the ex-Kaiser," said Clement K. Shorter, the well known Londoner, editor of The Sphere, and a director of The Tatler, who is staying at the Ritz-Carlton Hotel here for a day on his return journey to London.

Touching on the general political outlook in the United Kingdom, Mr. Shorter said that it was not possible to gather from the newspapers the general trend of things in the United Kingdom, but he was perfectly satisfied in his own mind that in the next Government, when an election does come, whether it be in one year or

TITLES ABOLISHED IN POLAND BY ORDER OF NATIONAL DIET

Warsaw, July 11.—Via London, July 12.—The Polish Diet voted to-day that all titles should be suppressed. In future there will be no decorations, except military orders, and no titles, except university degrees. No one may wear a foreign decoration without having received special permission from the Diet.

Rumor Now Current Hazen May Go Back Into Ottawa Cabinet

St. John, N.B., July 12.—Frederick reports the revival of a rumor that Sir J. D. Hazen will resign the Chief Justiceship of New Brunswick and succeed Hon. F. B. Carvell in the Borden Government.

New Company Plans to Establish Aerial Services in Canada

Ottawa, July 12.—The Canadian Aero Company, Ltd., with a capital of \$50,000 and head office in Stratford, Ontario, has been granted incorporation. The company is authorized to establish, equip, maintain and operate services of aircraft of all kinds for the carrying of passengers, mails, express and freight between such points as may be determined upon by the company, both within and outside of Canada.

Charles Rock, Actor, Dies in London at Age of Fifty-Three

London, July 12.—Charles Rock, the well-known English actor, died in London to-day.

Charles Rock made his first appearance on the stage in 1885 and in 1892 appeared with John, now Sir John, and remained with him six years. Rock's reputation was based on his interpretation of character parts in various plays from 1894 to 1912.

ALBERT VICKERS DIES IN ENGLAND

Ex-Chairman of Vickers, Ltd., Succumbs; Nearly Eight-One Years

London, July 12.—Albert Vickers died at Eastbourne to-day.

Albert Vickers formerly was chairman of Vickers, Ltd., one of Britain's greatest manufacturers of steel products and also of aeroplanes. Mr. Vickers was active in sports, taking particular interest in motorboat racing, shooting and fishing. He was born September 1, 1833.

Mr. Vickers had been decorated with the Order of the Rising Sun of Japan and was made a Knight of the Grand Cross of the Order of Naval Merit of Spain.

LIST OF SAILINGS AND SOLDIER PARTIES ARRIVING.

Revised to Noon, July 12. The C. P. R. special 1237, from the Empress of Britain, with 3 officers and 62 other ranks for this district, left from Montreal at 3.30 p. m. on July 11.

Enver, Talaat and Djemal Condemned to Death in Turkey

Constantinople, July 11.—Via London, July 12.—Enver Pasha, Talaat Bey and Djemal Pasha, the leaders of the Turkish Government during the war, were condemned to death to-day by a Turkish court-martial investigating the conduct of the Turkish Government during the war period.

Enver and his two leading associates in the Young Turk Government fled from Turkey several months ago and their whereabouts are unknown. David Bey, former Minister of Finance, and Aluha Metza Kiazim, former Sheik-ul-Islam, were sentenced to fifteen years at hard labor.

The court-martial acquitted Rifaa Bey, former president of the senate, and Hachim Bey, former Minister of Posts and Telegraphs.

ITALIAN CONCESSION AT TIENTSIN ASKED

Request Laid Before Peace Conference; Balfour Confers With Clemenceau

Paris, July 12.—The Italian delegation has sent a note to the Peace Conference, asking that Italy be given a concession at Tientsin, China, it became known to-day.

The Italian request was placed on the programme for the afternoon meeting of the Council of Five.

Other matters which the Council will consider include certain reports in connection with the question of trade with Bolshevik Russia.

Paris, July 12.—The Allied Commissions dealing with reparations and the occupation of the Rhineland held meetings this afternoon under the presidency of Louis Loucheur, French Minister of Reconstruction.

Balfour and Clemenceau. Paris, July 12.—Rt. Hon. Arthur J. Balfour, the British Foreign Minister, was in conference with Premier Clemenceau at the latter's office this morning.

BIG FIELD FOR CANADIAN GOODS

Sir Clifford Sifton Says Demand in Europe Gives Opportunity

Montreal, July 12.—The "feeling for Canada is very friendly abroad and, of course, there is a general admiration for the record of our soldiers during the war," Sir Clifford Sifton said in an interview here last night.

Questioned in regard to the matter of Imperial preference, Sir Clifford was of the opinion that steps in this direction are progressing favorably.

Of Canadian trade prospects abroad, he pointed out that there is a tremendous demand for goods of all kinds all over Europe and the great difficulty is to get the goods. The demand is for all manner of staple manufactured goods, wood products, clothing, hardware and foodstuffs.

GREEK TROOPS ARE DRIVING THE TURKS IN ASIA MINOR

Salonica, July 12.—The Greek army operating south of Smyrna is driving the Turkish forces there rapidly backward, forcing them to abandon guns in their flight, according to a statement issued by Greek army headquarters. The Turks left the bodies of more than eighty Greek women and children in a mutilated condition behind them, the communication declares.

Salonica, July 11, via London, July 12.—Arguing that Bulgaria should be compelled to disarm, newspapers here state that the forces now with the Bulgarian colors are approximately three times the size stipulated in the armistice agreement. It is said that the troops are concentrated in the Balkans.

R-34 IS TO COME TO ANCHOR AT A POINT IN NORFOLK TO-MORROW

Bad Weather Conditions Prevent Landing in Scotland; Airship Is Expected to Come to Earth at Pulham Before Noon To-morrow.

London, July 12.—Because of adverse weather conditions in Scotland, the big dirigible R-34, which was off the coast of Ireland to-day, has been advised by the Air Ministry to land at Pulham, Norfolk. The airship is expected there before noon Sunday.

Pulham, Norfolk, July 12.—The weather was too unfavorable to-day to permit the dirigible R-33 to go out to meet the R-34 as was intended and escort the Atlantic flier home.

London, July 12.—The British dirigible R-34, on her return flight from the United States, was approximately 360 miles west of the Irish coast at 11 a. m. Greenwich time to-day (3 a. m. Victoria time), according to a message received by the Wireless Press. Her position at that hour was given as 52 degrees, 55 minutes north latitude, and 19 degrees, 20 minutes west longitude.

FOOD PRICES IN GERMANY FALLING

Government's Action and Raising of Blockade Are Having Effect

Berlin, July 11.—Via London, July 12.—In view of the impending raising of the blockade the Government's recent action in reducing the prices of foodstuffs is forcing food traffickers to get rid of their hidden supplies. As a result, a sharp decline in prices is reported from all centres in Germany, the most marked decreases being in the Rhineland zone of occupation, where they have fallen from thirty to sixty per cent.

As stock in the occupied territory apparently exceed the demand, large quantities are being shipped to Berlin, where good prices still prevail. Berlin probably will be the last city to enjoy price reductions, as much of the city's supplies must be shipped long distances.

It is reported from Weimar that the Government will exercise active control of incoming raw materials and exports. The latter part of the programme is meeting with vigorous opposition in commercial and industrial and export circles, where it is maintained that personal initiative will be more successful abroad than Government control.

WILL RUSH WORK ON SHIP PLATE MILL

Dominion Steel Corporation Will Begin Delivering to Government by January

Montreal, July 12.—Following the announcement by Hon. C. C. Ballantyne, Minister of Marine, yesterday that a new contract had been entered into between the Dominion Government and the Dominion Steel Corporation for delivery within five years of 250,000 tons of ship plates at the price of \$3.65 a hundred pounds, Mark Workman, president of the company, stated that work on the big mill at Sydney would be resumed immediately.

"Pending the outcome of the recent negotiations," said Mr. Workman, "the Government requested us last spring to discontinue building operations, which was instantly done. Now that the contract has been signed we will rush the plate mill to completion, and I expect that we shall be rolling by the first of next January. The price of \$3.65 a hundred pounds agreed upon between the Government and the corporation is satisfactory to us and I believe it to be satisfactory to the Government."

Changed Conditions. The observation that a reduction of fifty cents a hundred pounds seemed a substantial one, Mr. Workman said: "That is true, but we are facing changed conditions from those existing when the original contract was drawn up last year."

At the new price of \$3.65 the contract represents a saving to the national treasury of approximately \$2,500,000. The new mill, which is to be constructed with a view to taking care of domestic requirements for steel plates in addition to the needs of the Government, will cost in the neighborhood of \$5,000,000, it is stated.

MEXICO REPORTED CONFISCATION IN

Property of a British Oil Company Has Been Seized

Washington, July 12.—Confiscation by the Mexican Government of the property of the Scottish-Mexican Oil Company, a British company with several American stockholders—the actual confiscation under the Carranza decree, which has been the subject of protests from Great Britain, Holland, France and the United States—was reported yesterday to the State Department.

The property of the Scottish-Mexican Company, it was said, now was being operated by the Mexicans, who have brought in a 30,000-barrel oil well on the land. The British Government, it was learned, has taken up the matter of seizure with the Mexican Government.

EDOUARD D. BILLY DIES IN FRANCE

New York, July 12.—The sudden death in Paris of Edouard D. Billy, former Deputy High Commissioner of France in the United States, was announced in a cable message received here to-day from Andre Tardieu.

SPOKANE AND JITNEYS

Spokane, July 12.—A public mass meeting to discuss a resumption of the scheme of issuing licenses to "Jitneys" has been called by the City Council for July 25.—Since the six-cent fare for street cars was established, there are no "Jitney" licenses have been issued.

## GOVERNMENT AGENT KILLED IN SEATTLE

Men Who Were Preparing  
Fraud Charged With F. A.  
Dowsey's Death

Seattle, July 12.—That F. A. Dowsey, a Government secret service agent, came to his death here on May 2 last by foul play, after his pockets had been rifled of documents which would have aided in the prosecution of perpetrators of an alleged gigantic fraud against the Government, is the theory Government agents are working on here in an investigation of Dowsey's death. The alleged fraud, it is stated, involved several million dollars. Details and names have yet not been revealed.

The Government investigators, it was announced, believe the alleged crime was deliberately planned at the instigation of men who feared exposure of their business operations would bring "heavy" prison sentences. They did not reckon, however, it is pointed out, with the daily reports of Dowsey's investigation which he was filing.

The coroner's jury's verdict as to the cause of Dowsey's death—apoplexy—it was admitted, was rendered at the request of the Federal authorities to permit of further investigation. Dowsey's death occurred on the day before he was to file his final report to Washington, D. C.

After the inquest, Dowsey's body was shipped to Manhasset, N. Y., where his widow and two children are said to reside. A second autopsy was later ordered. It was said, by the dead agent's brothers, a Dr. Dowsey, of Great Neck, L. I., and James Dowsey, of New York.

## GREAT MEDICAL COLLEGE PLANNED IN NEW YORK

New York, July 12.—Plans to make New York a world medical centre by the erection of a \$40,000,000 medical college were announced here yesterday by Dr. Royal Copeland, Commissioner of Health, after a meeting of prominent physicians and surgeons, at which the New York Association for the Advancement of Medical Education and Medical Science was organized.

ASTHMA REMEDY**

WHEN BURNED SMITS AN AGONY WHICH PROMPTLY ALLAYS IRRITATION.—A TRIAL WILL CONVINCED YOU OF ITS MERITS.

## MILITARY ACTION AGAINST HUNGARIAN COMMUNIST FORCES

Paris, July 12.—Marshal Poch and representatives of Czechoslovakia and Jugoslavia were before the Supreme Council of the Peace Conference yesterday for a discussion of the movement of the Hungarian Communist Foreign Minister, against Czechoslovakia and Austria, and the advisability of combined military action against them.

The different representatives were asked to confer with their Governments to find out to what extent they are ready to participate in military operations against Bela Kun's forces. No decision will be reached until their reports are received.

London, July 12.—An Exchange Telegraph dispatch from Copenhagen quoting Budapest advices says the mission sent to Moscow by Bela Kun, Hungarian Communist leader, has returned after a long conference with Lenin and Trotsky.

Bela Kun has received a letter from Lenin saying Hungary is to be the base of Bolshevik propaganda against the Western European powers. The mission is said to have obtained several million counterfeit British and French bank notes, to be used in furthering the propaganda.

## LONDON NEWSPAPERS OPPOSING TRIAL OF EX-KAISER IN LONDON

London, July 12.—Predictions that the project to bring the former German Kaiser to trial in London will be abandoned are growing in view of the almost unanimous opposition of the newspapers of all parties. Virtually all the leading papers, with the exception of the Northcliffe press, are denouncing the plan.

The Northcliffe papers have taken no stand in the matter, but print many letters from prominent persons opposing the trial. The influential weekly reviews all oppose or deride the project.

Mr. Hon. Walter Runciman, a former member of the Cabinet writes: "Feeling in this country is justifiably bitter against the ex-Kaiser. Indeed, it is so bitter that the public might take the law into their own hands and lynch him."

The Saturday Review says: "It is a mistake of want of tact to hold the trial in the world's capital. London is the wrong place to hold the trial because the English are the chief enemies of the Germans, and the Kaiser is the symbol of German aggression against the Allies. The trial should be held in some neutral city."

The New Statesman says: "Let us hope that the Dutch Government will cut the knot for us, by reinstating the last of the Hohenzollerns in the hearts of his disillusioned countrymen."

## SWITZERLAND AND LEAGUE OF NATIONS

Paris, July 12.—If Switzerland does not adhere to the League of Nations within two months after the League is in operation, The Intransigent says it understands, the seat of the League will not be maintained at Geneva.

Switzerland, the newspaper says, declared officially that if Germany is not admitted to the League without excessive delay, Switzerland will leave the League, if she has entered it. The Allied Powers have replied to this declaration, it is stated, but the reply has not been made public.

## Every Wage Earner Should Answer Question Himself or Herself

WHAT DOES THE FUTURE  
HOLD FOR YOU IF HEALTH  
GIVES WAY

In dollars and cents, what is the worth of the brawn of your arm; what is the value of the staying power that permits continuous labor—what are they worth to you?

Suppose you did something so foolish as to reduce your strength, vitality or judgment one half, and it were impossible to get them back—how much would you pay to regain the lost portion?

When you let yourself run down, you reduce your chances for success in life—if sleeplessness comes you score lower still—should appetite or digestion fail, you are stared in the face by physical bankruptcy.

Don't let it go so far, take Ferron's, it has cured thousands and it will cure you; it builds up bodily strength, makes muscles like steel, replaces Spring tiredness by energy and new life force. Ferron's rebuilds sick folks because it contains the strengthening elements that every run-down system requires.

Especially before the hot weather comes, everyone needs a purifying tonic—Ferron's fills the bill exactly—nothing known that juvenates and uplifts so fast.

At once the appetite improves. You feel well and arise next morning feeling fit and fine.

Headaches disappear, weakness gives way to the vigor that only Ferron's can supply. Try it, results are guaranteed, 50c. per box or six for \$2.50 at all dealers or by mail to any address if price is remitted to the Cattaraugus Co., Kingston, Ontario.

## WADE DEFENDS CONDUCT OF CANADA'S TROOPS IN BRITAIN

Ottawa, July 12.—F. C. Wade, Agent-General of British Columbia, follows Sir Hall Cairns in the defence of the Canadian troops and their conduct in the United Kingdom, and commences a letter in The Times by criticizing that paper for describing the Winnipeg prisoners as Canadian revolutionaries, when only one was a Canadian. He shows that other soldiers besides the Canadians have been guilty of rioting and contends that it is unfair to speak of Canadians as though they were the sole offenders.

As for the hope expressed by The Times that Englishmen will not forget what Canada accomplished in the war, Mr. Wade says that it is not fair to any Britisher to imply that he would be capable of such ingratitude.

## MRS. ARTHUR ELIOT COMMITTED SUICIDE

London, July 12.—Mrs. Arthur Eliot, who was found shot to death in her home here on Wednesday last, committed suicide while of unsound mind. This verdict was reached yesterday at the coroner's inquiry into her death.

The Earl of March, chief witness at the inquest, testified that Mrs. Eliot had consulted him regarding the actions of her husband, Captain Arthur Eliot, a dramatist and grandson of the late Earl of St. Germans.

Mrs. Eliot, better known as Mabel Atherton, was the divorced wife of Colonel Thomas Atherton. The Earl of March, in his testimony said Mrs. Eliot had told him her husband was making his home with his stepdaughter—the daughter of his former wife—and that he refused to return to their home.

## BOLSHEVIK AGENTS AT WORK IN MONTREAL

Montreal, July 12.—Bolshevik agents are at work in this city and through the medium of the I. W. W. are carrying on a campaign to gain support among the returned soldiers. The I. W. W. have formed an industrial council of affiliated organizations, acting on the principles of radical Socialism, and are endeavoring to secure the allegiance of all leagues which may be formed by the war veterans.

## FARMERS AND DOMINION LIBERAL CONVENTION

Winnipeg, July 12.—No representative of the Canadian Council of Agriculture will be sent to the National Liberal Convention at Ottawa in August, it was decided yesterday after a lengthy discussion on the matter at the annual convention of the Council here. The invitation was given full consideration.

The fact that farmers' organizations have never been connected with any political party was given as the reason for declining the invitation. A memorandum dealing with the farmers' platform will be sent to the convention, however.

A message was received from R. C. Henders, M. P., stating that he would be unable to attend any of the Council's sessions at the present time on account of other business.

## PRINCE OF WALES IN QUEBEC AUGUST 21

Quebec July 12.—It was announced here yesterday that the Prince of Wales will visit Quebec on August 21. It is understood that Quebec will be signally honored by being the first city on this continent which he will visit, as he will probably cross on an ocean liner destined for this port.

It is planned to welcome him at the Provincial Parliament Buildings, where the Prince will be presented to him by Premier Gouin and Mayor Lavigne. There will probably be a ball at the Parliament Buildings to mark the presence of the Royal visitor.

## SIR HAMAR GREENWOOD A BRITISH OFFICIAL

London, July 12.—Sir Hamar Greenwood has been appointed Under-Secretary of Foreign Affairs and Parliamentary Under-Secretary of the Board of Trade in succession to Sir A. Steel-Maitland, who resigned because he was dissatisfied with the delay in tackling overseas development. Sir Hamar has made rapid strides in parliamentary popularity.

## WINNIPEG HAS NEW CHIEF OF POLICE

Winnipeg, July 12.—Acting Chief of Police Newton has been appointed permanent Chief of Police of Winnipeg. The Winnipeg city police force is to cost \$725,000 for the 1919-20 financial year, if the City Council approves estimates made by the finance committee yesterday afternoon. These estimates allow for 210 men, as at present, together with nineteen more men to come back from overseas, and \$225,000 spent on the special force enrolled during the strike.

With the police estimates settled, the finance committee was able to fix on a probable tax rate. It was agreed, tentatively, that the rate would be twenty-three mills on the dollar.

## MUNICIPAL MARKETS URGED IN STATES

Denver Colo. July 12.—With a declaration that "the high cost of living, the high cost of dying, the high cost of justice and the outrageously high cost of everything is the paramount issue in the world to-day," the convention of the Brotherhood of Locomotive Firemen and Engineers here late yesterday adopted a resolution urging the establishment of municipal markets and cold storage houses to deal in necessities and thereby eliminate the profits of the middleman. The resolution attacked "the big packers," alleging control of food products.

## TO PARIS.

Washington, July 12.—Under-Secretary of the State Department, will sail for Paris July 21, to become head of the American peace delegation, succeeding Secretary Lansing, who is expected to return to the United States July 23.

### CONDITION OF CROPS ON PRAIRIES STATED

Majority of Canadian National Railway Station Agents Optimistic

Toronto, July 12.—Detailed crop reports by station agents in the area served by Canadian National Railways between Port Arthur and the Rocky Mountains for the week ending July 5 do not indicate serious damage to the crops except in a few isolated cases.

They show that the lines in the central district, which lie largely in Manitoba, are through areas where the crop situation is excellent. In the areas served by the lines in the prairie district, rain is reported from practically every point and crop conditions have improved as a result. There is need of rain reported in some sections of the western district. It should be remembered that the railways do not serve the southwestern corner of Saskatchewan or the southern portion of Alberta.

In all 238 agents reported. Of these, 102 state rain has fallen in their districts, while thirty-six, mostly in the western districts, indicate a need of rain in the areas contiguous to their stations. There are only nine points out of the 238 reporting where the agents seem to be well satisfied that the grain crop is almost a failure. There are seven points where the growth is said to be retarded on account of drought. A great majority of the agents are optimistic that the rains which have fallen will be sufficient for the needs of the growing grain. Special reports made to the management of the Canadian National Railways show that there has been sowing to grain along the territory served by the C. N. R. in the central district 1,965,237 acres, in the prairie district 6,774,800 and the western district 3,109,900, a total of 11,850,937 acres. Of this total 7,341,925 acres are in wheat, 3,164,175 in oats, 1,007,530 in barley and the remaining acreage in rye and flax.

### GERMANS WILL NOT ELECT THEIR JUDGES

Weimar, July 11.—Via London, July 12.—(Associated Press).—Owing to the strong opposition shown toward the projected tobacco monopoly, the tax commission finally voted to postpone action pending further Government investigation. The national assembly has rejected the proposal of the independents to establish popular courts with judges elected by the people.

Stettin, Germany, July 11.—Via London, July 12.—(Associated Press).—The prospect of the blockade being raised has brought great activity to the ports all along the Pomeranian coast. Numerous small vessels are arriving from neutral ports with food cargoes, which they are offering against gold and silver.

### MAYORALTY FIGHT IN CITY OF WINNIPEG

Winnipeg, July 12.—There will be at least two opponents against Mayor C. F. Gray if he seeks re-election next December, it is stated in civic circles. Labor men also declare that at least two candidates will be nominated. W. H. Carter, president of the Greater Winnipeg Board of Trade, is one of the men mentioned in labor circles. Alderman John Queen is given as a probable early choice. That the labor men purpose contesting every seat and will start their campaign at once, is admitted by labor men.

### STRIKE VOTE AMONG U. S. STEEL WORKERS

Washington, July 12.—Executives of twenty-four affiliated international unions of workers in steel, at a meeting here yesterday, adopted a resolution recommending that a strike vote be taken among their members. Action on the strike vote will be taken at a conference of the international union presidents at Pittsburgh July 20.

Representatives of the unions said the object of the strike, if voted, would be to enforce recognition of the union and of collective bargaining by the steel industry, which always has operated an "open shop" basis.

### SIX SOLDIERS ARE KILLED IN VIRGINIA

Alexandria, Va., July 12.—Two officers and four enlisted men were killed and twelve enlisted men were injured, none seriously, near here early to-day when an army motor truck plunged over the side of a bridge while turning to avoid a passing military patrol wagon. Eighteen men were returning in the truck to Camp Humphries, Va., from Washington.

### SASKATOON DISTRICT GETS NEEDED RAIN

Saskatoon, July 12.—Early this morning a steady rain fell in this district. The rain was badly needed throughout the district.

### ITALIAN PROBLEM.

Rome, July 12.—Tommaso Tittoni, Minister of Foreign Affairs, was loudly applauded when he announced to the Chamber of Deputies yesterday that it was his belief the negotiations going on in Paris would lead to a settlement in the course of the next week. He hoped by that time, he said, to tell the country everything.

### DESPAIR IN TURKEY.

Paris, July 12.—The reply of Premier Clemenceau as President of the Peace Conference to the claims of the Turkish mission which visited Paris created a feeling of despair in Turkey, according to advices from Constantinople. The Grand Vizier, the message adds, is likely to resign.

### CONTRACT FOR STEAMERS.

London, July 12.—(Reuter's).—The Times says it learns that before leaving for Australia, Rt. Hon. William M. Hughes, Prime Minister of Australia, contracted with Vickers, Limited, for three large cargo steamships for the Commonwealth Government. The capacity of the ships is to be 300,000 cubic feet, of which 400,000 cubic feet is to be insulated.

## WILSON'S FLY PADS

Kill them all, and the germs too. 10c a packet at Druggists, Grocers and General Stores.

### TEAMSTERS' UNION IN VANCOUVER HAS NAMED NEW LEADERS

Vancouver, July 12.—With a brand new executive and a newly-elected secretary-treasurer, the Vancouver Teamsters' and Chauffeurs' Union, one of the heaviest losers in the recent general strike, announces that it has "cleaned house," and is now endeavoring to regain some of the ground lost in the strike.

Of the former list of officers only F. J. Hallett remains, as business agent. The new officers are: President, H. Mills; vice-president, J. Blackwood; secretary-treasurer, J. Hartley; recording secretary, H. Mel-drum; business agent, F. J. Hallett; trustees, F. Charters, J. Shaw and E. G. McCulloch.

The action of the union in removing the old executive is presumably in line with an edict given it by the Carriage Association, that no negotiations would be entered into with the union until it had "cleaned house." It is doubtful, however, if the new slate compiled by the union will meet with favor in the eyes of the Carriage Association, according to statements made by some of the members of the Association, who regard the result of the union's election as displaying no very evident desire to meet the wishes of the employers. This fact is borne out, one employer declared, by the fact that the newly-elected president of the union stated at Thursday's meeting of the Trades and Labor Council that the Teamsters' Union probably would throw in its lot with the One Big Union.

### MAYOR OF WINNIPEG SAYS BEEF MUST BE LOWERED IN PRICE

Winnipeg, July 12.—That the price of beef will come down within the next few days "or there will be something doing very soon," was a statement made by Mayor Gray yesterday afternoon. He said he believed prices had gone their limit and that "if the profits made by the packing houses during the war were shown it would be a revelation."

He thought Ottawa would take immediate action to see that the price of beef is reduced.

"Many times during the strike deputations complained bitterly about the cost of foodstuffs, especially meat," added the Mayor, "and much of the burden of their complaint was justified. With six weeks' enforced idleness and the best portion of their earning season gone, the bulk of the masses must have cheaper food; otherwise we are only laying up trouble for ourselves next winter."

### STOLE OWN CHILD.

Wenatchee, Wash., July 12.—Harry Emmons, of New Westminister, B. C., came to Leavenworth and stole his two-year-old child from his wife's possession, bringing it to Wenatchee himself. The couple have been estranged for several months.

Emmons was arrested, charged with kidnapping, but released upon returning the child and promising to leave his wife alone.

## AT LAST!

Finds Cure for Rheumatism After Suffering Fifty Years

Now 83 Years Old; Regains strength and Laughs at "URIC ACID"

Goes Fishing, Back to Business, Feels Fine! How Others May Do It!

### HOW IT HAPPENED.

"I am eighty-three years old and I doctored for rheumatism ever since I came out of the army over fifty years ago. Like many others, I spent money freely for so-called cures, and I have read about 'Uric Acid' until I could almost taste it. I could not sleep nights or walk without pain; my hands were so sore and stiff I could not hold a pen. But now I am again in active business and can walk with ease or write all day with comfort. Friends are surprised at the change."

### HOW OTHERS MAY BENEFIT.

These statements may seem strange to some folks, because nearly all sufferers have all along been led to believe in the old "Uric Acid" humbug. It took Mr. Ashelman fifty years to find out this truth. He learned how to get rid of the true cause of his rheumatism, other disorders, and recover his strength from "The Inner Mysteries," a remarkable book that is now being distributed free by an authority who devoted over twenty years to the scientific study of this trouble. If any reader of the Times wishes a copy of this book that reveals startling facts overlooked by doctors and scientists for centuries past, simply send a postcard or letter to H. P. Clearwater, 223 D Street, Hallowell, Maine, and it will be sent by return mail without any charge whatever. Cut out this notice and you forget it. If not a sufferer yourself, hand this good news to some afflicted friend.

PROPORTIONAL REPRESENTATION.

Sir Robert Borden intimated in the House of Commons recently, that a conference would be called during the autumn by the Speaker to consider proportional representation for parliamentary elections in Canada.

Unfortunately for the recommendation, the political and parliamentary mind at Westminster at the time was distracted by the great issues of the war and the provision of the franchise bill designed to carry it into effect was defeated in the House of Commons by a small majority.

Mr. Asquith's experience is probably the experience of all Government leaders who have operated under similar conditions. Although instability of government may not necessarily follow too large a majority inefficient government very often does.

THE ADVISORY COUNCIL.

Now that the Advisory Council to the Department of Industries has been selected it should be possible for the Province to get early benefit from the special legislation placed on the statute books at the recent session of the Legislature.

Much can be done towards a greater development of the industrial life of the Province by a careful administration of the Act, and although the statutory powers of the Department are limited to the expenditure within the present fiscal year of \$2,000,000, if a few months of experiment warrants it there will be no difficulty in persuading the Legislature to sanction the spending of more money next year.

MORE GERMAN HUMOR.

When the League of German Men and Women commenced its advertising campaign and published its platform at Weimar during the earlier days of the National Assembly it quickly disclosed its patronage.

JOHN BULL AND GERMANY.

According to The London Daily Mail Great Britain is preparing to resume her consular service in Germany soon and is arranging to give every facility for British firms to distribute goods there.

reached during the abnormal conditions of war, were impractical on their face except as a weapon of actual warfare, for it was clear that if Germany was to be forced to make reparation for the damage she had done she would have to be allowed to develop her trade.

The truth, of course, is simply that every late belligerent must get all the trade it can to avert post-war collapse. Lord Robert Cecil stated in the House of Commons a few days ago that Europe was on the verge of a financial disaster of incredible magnitude.

THE FALLING MARK.

Under the title of "The Falling Mark," a well-known London financial writer sounds a warning note lest too much importance be placed on the spasmodic rise and fall of German exchange.

The writer to whom we have referred looks for Germany's inevitable appearance, sooner or later, as a factor in international commerce in spite of her adverse exchanges and he has the following to say in relation to her competition in international trade:

The explanation of this apparent contradiction is simple, for obviously an article which can be produced in Germany for marks 100 will only cost the foreign buyer the expense of purchasing marks 100, and with a depreciated mark exchange this expense is reduced to the extent of the depreciation.

On the basis of the foregoing argument it would appear to be emphasized that the fall in the external value of the German mark during the war resulted principally from trade conditions, while this writer does not regard the tremendous adverse exchange conditions as evidence of German bankruptcy.

Whether the present system of "education" obtaining among the Mennonites in Manitoba is to be retained or not will be decided by the Privy Council and the test case will begin next Wednesday.

The report of the Federal Trade Commission of the United States on the power and ramifications of the meat trust probably will cause an overhauling of Uncle Sam's anti-trust law and the machinery for enforcing it.

It is a great pity that in the findings of the Cost-of-Living Committee no reference appeared to the nutritive value of the nut. The morning paper, however, brings out the suggestion that bulk for bulk the nut is richer in nutritive material than any other natural article of food.

Washington, July 12.—A decrease in sugar cane acreage in the United States this year to 509,000 acres, in last year's total of 577,000 acres, is shown in reports of field agents of the Bureau of Crop Estimates, it was announced today by the Department of Agriculture.

Next season's Coal order now gives you the double advantage of economy and freedom from worry.

BRITISH FIRMS WILL BE AIDED IN GETTING INTO GERMAN MARKET

Washington, July 12.—Steamship lines to Hamburg and Bremen, Germany, will be established as soon as cargoes are available at American ports, the United States Shipping Board announces.

Berlin, July 11.—Via London, July 12.—In connection with raising of the blockade, it is stated that the importation of necessities, such as footwear and clothing, will be made freely, but the Cabinet intends to admit luxuries and raw materials only to the extent thought advantageous from the economic viewpoint.

ITALIAN CONCESSION AT TIENTSIN ASKED

Paris, July 12.—(French Wireless)—The Senate decided to entrust the ordinary Committee on Foreign Affairs with the task of preparing a report on the Tientsin concession.

Paris, July 11.—Debate in the Chamber of Deputies on the bill to ratify the peace treaty with Germany probably will begin August 1. It is expected the debate will consume ten or twelve sessions of the Chamber, so that the Deputies may ratify the treaty about August 15.

Referring to the League of Nations, he said the French Government must endeavor within the League's organization to secure the adoption of the amendment proposed by Leon Bourgeois to establish a military and naval staff in the League.

Deputy Henri Fata declared before the committee that the peace treaty with Germany, so far as the military provisions are concerned, is a "war treaty, not a peace treaty."

Washington, July 12.—A decrease in sugar cane acreage in the United States this year to 509,000 acres, in last year's total of 577,000 acres, is shown in reports of field agents of the Bureau of Crop Estimates, it was announced today by the Department of Agriculture.

LESS SUGAR CANE IN UNITED STATES

Washington, July 12.—A decrease in sugar cane acreage in the United States this year to 509,000 acres, in last year's total of 577,000 acres, is shown in reports of field agents of the Bureau of Crop Estimates, it was announced today by the Department of Agriculture.

ATROCITIES IN KOREA ARE CHARGED AGAINST JAPANESE

Men Beaten to Death. Preliminary police examination of Koreans suspected of complicity in the revolutionary movement are said in the report of the investigations to include "every human refinement in brutality," men being beaten to death and women subjected to nearly every possible form of shameful treatment.

One such victim, "a slender, timid, Christian youth," nineteen years old, employed by a shoemaker, was arrested with a wealthy Korean, both charged with circulating The Independent News, a revolutionary publication.

A signed statement by a United States citizen resident in Korea, dated April 22, 1919, said: "The examination of women who have been arrested for their activity in the independence movement is the most disgraceful and humiliating possible."

In conclusion, after publishing what are alleged to be violently anti-American articles from certain Japanese newspapers, the report of the investigators says: "It is unnecessary to say more. These articles speak for themselves."

OPPOSES LONDON AS SCENE OF BIG TRIAL

four, there will be a large addition to the Labor Party. "I think it possible that Mr. Lloyd George may be Prime Minister of some quiet different combination than at present, say in three or four years' time," he said.

"Personally I am very anxious that Mr. Lloyd George should get to work on a solution of the Irish question. He has shown some apparent insincerity in the past, and one of his friends told me that he hated the Irish. Another friend of his assured me just before I left England that directly Mr. Lloyd George returned from the Peace Conference he intended to concentrate all his energies on that question."

SEVEN RUSSIANS GOT INTO VERMONT FROM MONTREAL YESTERDAY

St. Johnsbury, Vermont, July 12.—What is believed to have been an attempt to smuggle undesirable aliens across the Canadian border into this country was frustrated yesterday when seven Russians were arrested here by United States immigration authorities.

PEACE ILLUMINATION OF LONDON MAY BE ABANDONED; DISPUTE

London, July 12.—The elaborate plans for the illumination of London on peace night, July 19, may have to be abandoned. The Union of Electrical Workers, owing to the employers' refusal to grant an increase of wages, refusing to grant a cessation of work on the projected illuminations.

TWO KILLED IN AIR.

Little Rock, Ark., July 12.—Lieut. T. J. Lenthall, of San Francisco, and Chaplain R. H. O'Dowd, of Brooklyn, Fla., were instantly killed today when a plane piloted by Lieut. Lenthall was struck by another machine from Eberhart Field.

Mutual Aid

PRINCE Kropotkin, in his charming book entitled "Mutual Aid," has shown by many illustrations how the different species of animals and birds defend themselves by mutual association, how they share their food and their comforts so that ALL may be benefited: Without "mutual aid" they would perish.

The struggle for existence is rendered successful by mutual association, many species remaining alive for ages, prosperous and happy, in spite of all enemies, because they are united for mutual aid—for attack and defence. Every colony of beavers, for example, is an organization for mutual aid.

The Mutual Life of Canada, whose emblem is the beaver, is probably the finest illustration conceivable of the benefits of mutual aid in human life. More than sixty thousand Canadian homes are to-day protected against the contingency of death and the company comes instantly to the aid of any bereaved household, within the circle of its membership.

Have you adopted Mutual Aid? The Mutual Life of Canada WATERLOO ONTARIO FRED M. MCGREGOR, District Manager 203-204 Times Building, Victoria, B.C.

## A BEDTIME STORY

### Uncle Wiggily and the Wazzezy Bug

Copyright, 1918, by McClure Newspaper Syndicate (By Howard R. Garis.)

"Uncle Wiggily, how would you like a baked bean?" asked Nurse Jane Fuzzy Wuzzy, the muskrat lady house-keeper, one morning, as the rabbit gentleman was out in front of the hollow stump bungalow, giving his automobile a drink of gasoline.

"Thank you, I think I should like a baked bean cake almost as much as some strawberry tarts," answered Mr. Longears.

"Then if you'll get me the beans I'll bake them and make the cake," said the muskrat lady to the rabbit gentleman.

"With pleasure!" he answered, and as soon as he had sprinkled a little pepper on the hot sausage tines of his machine to make it go faster, away started Uncle Wiggily, over the fields and through the woods.

It did not take him very long to reach the nine and ten-cent store, where they sold beans for making chocolate cakes, and Uncle Wiggily bought a large bagful—I mean a bag of beans, not a bag of cakes, though you can sometimes do the last, especially if you are going on a picnic.

Uncle Wiggily was on his way back to the hollow stump bungalow with the beans when, all of a sudden, he saw something blue flit down out of a tree and flutter to a place beside him on the auto seat.

"At first Uncle Wiggily thought a bit of the sky had fallen into his auto, but when he took a second look he saw that it was a blue bug.

"Hello, my friend!" called Uncle Wiggily to his visitor. "I am glad to see you!"

"Thank you," spoke the blue bug. "Some folks are glad to see me and some aren't. I'm not friendly with everyone."

"I hope you'll be friendly with me," went on Uncle Wiggily. "The red Wozzy Bug was my friend, and so was the White Wazzezy Bug. And now I hope that you, the blue chap—"

"I'm the Wazzezy Bug," spoke the blue chap. And since the red and white bugs were friends of yours, I'll be your friend also. Then you'll have red, white and blue friends, just like your barber pole rheumatism crutch."

"Thank you—so I will!" said Uncle Wiggily. "But my friend the red Wozzy Bug was so fuzzy like that he

could tickle the Bazooka and drive him away. And my friend the white Wazzezy Bug could buzz around so swiftly that he made the Bazooka dizzy and drove him away from getting my mouse."

"Now my dear blue Wazzezy Bug," went on the rabbit gentleman, "far be it from me to suggest that we are going to meet the Bazooka again today, but if we should, could you do anything to him—say like tickling him or making him dizzy?"

"Alas, no!" sadly answered the Wazzezy Bug. "I am not at all smart like my red and white friends. So if you don't want to give me a ride in your auto, I'll fly out."

"But, Tut! I wouldn't hear of such a thing!" cried Uncle Wiggily. "I just wanted to know. You are welcome to ride in my auto as long and as far as you like. But I was just wondering what you could do in case anything should happen."

"The Wazzezy Bug thought for a moment. Then he smiled and said: "Well, I am blue, like the sky, and also like the bluebirds. And blue is a happy color, it is said. There is blue in the flag, blue in the sky and bluebirds bring back your happiness, I have heard."

"True enough!" cried Uncle Wiggily in his jolly voice. "And happiness is a great thing in this world. If we can only be happy always, why—"

"And just then the auto struck a big stone, out bounced the bag and the beans were spilled all over the road.

"There goes my cake!" cried Uncle Wiggily sadly. "Oh, dear! This is too bad! I'll never be able to pick up all those beans, they are so scattered. What shall I do?"

"Oh, ho! Let me do it!" cried the Wazzezy Bug. "I forgot to mention one other thing. Besides being of a bright blue color, I also have strong pinching jaws. I didn't like to speak of them for fear you'd be frightened. But I can fly around and pick up every bean in very short time."

Surely enough, down buzzed the Wazzezy Bug, and in about a minute he had picked up every one of the scattered beans and had put them in Uncle Wiggily's tall silk hat, since, the bag was broken.

"There you are!" cried the blue Wazzezy Bug.

"Thank you!" said Uncle Wiggily.

"I hope you'll be friendly with me," went on Uncle Wiggily. "The red Wozzy Bug was my friend, and so was the White Wazzezy Bug. And now I hope that you, the blue chap—"

"I'm the Wazzezy Bug," spoke the blue chap. And since the red and white bugs were friends of yours, I'll be your friend also. Then you'll have red, white and blue friends, just like your barber pole rheumatism crutch."

"Thank you—so I will!" said Uncle Wiggily. "But my friend the red Wozzy Bug was so fuzzy like that he

## Social Personal

Mr. and Mrs. Donnelly, of Courtenay, are staying at the Empress Hotel.

Dr. and Mrs. T. H. Crawford, of Calgary, are guests at the Empress Hotel.

Lieut. Gerald H. Sedger is expected home on Monday's boat from Vancouver.

James Rodger, the well-known Montreal merchant, who has interests in British Columbia, is in the city on a periodical visit.

Mr. and Mrs. J. C. Comfort, and Mrs. William Mellor, of Philadelphia, are staying at the Empress Hotel.

Mr. and Mrs. M. C. Franks, of Akron, Alberta, are guests at the Empress Hotel.

Mr. and Mrs. James B. Borden, of Philadelphia, arrived in the city yesterday.

Mrs. Horace D. Hume and the Misses Hume, of Vancouver, are among the recent arrivals at the Empress Hotel.

Mr. and Mrs. C. G. R. Kilpatrick, of Vancouver, are spending a few days in the city, as guests at the Empress Hotel.

Mrs. H. S. Sprott has gone over to Vancouver and is a guest at Alisa Lodge for a few days.

Among the artists who will assist at the "J" Unit Chapter concert on July 13 are Mrs. McDonagh, Miss Lily Christie, Miss Melba Lehman and Mr. Webb.

Mrs. Stratton, wife of the Hon. J. R. Stratton, of Toronto, who has been the guest of Mr. and Mrs. J. T. McDonald, of Terrace Avenue, left on last night's boat for the mainland on her way home to Toronto.

A musical evening will be held at the home of Mrs. J. Sears, 924 Empress Avenue on Tuesday evening next, commencing at 8 o'clock, in aid of the funds of the Ministering Circle of the King's Daughters. Home made candy will be served during the evening. The proceeds will be devoted to the Circle's work for the B.C. Protestant Orphanage.

The following artists will assist in the programme to be given under the auspices of the Women's Auxiliary to the Great War Veterans' Association at the rooms on Monday evening next: Miss Carter, Mrs. Gould, Comrade Welsh, Mrs. Spavin, Mrs. Meeson, Comrade Ingledew and P. O. Edwards. Miss Carter will officiate as accompanist and Mrs. Ridgard will furnish the music for the dancing to follow the musical programme.

The "Timber Wolves," the men of the 163rd Battalion, C. E. F. have arranged to hold a dance in the ballroom of the Alexandra House on Wednesday evening next. Dancing will commence at 8.30 p. m. and continue till one o'clock. A buffet supper will be served in the Club cafe during the evening. Tickets for the event may be obtained at the J. M. Whitney Company, Jewelers and O'Connell's, Ltd., clothing. Men wearing the hospital blue will be honored guests at the affair, which promises to be very enjoyable.

Miss Pauline Rose, formerly superintendent of the hospital in Nanaimo, and who left with No. 5 Base Hospital unit in August, 1918, is expected to arrive in the city shortly after four years' war service. Miss Rose was placed in charge of Manor House Hospital, near London, upon her arrival in England, and later became attached to No. 5 Base Hospital at Salonica. After many months of service in Salonica, she returned to England to rest and shortly afterwards was sent to Don-ellens, France, the hospital to which she was attached there being subject to air raids by the enemy. While in France Miss Rose had conferred upon her the Royal Red Cross of the second order. In the spring of 1919 she again returned to England and took charge of a hospital at Shorecliffe.

### The Oldest Man Living

If asked about his corns would say they didn't bother him because he always used Putnam's Corn Extract. For fifty years "Putnam's" has been the favorite because painless and sure. Try only "Putnam's," 25c. at all dealers.

## IDA M. TARBELL AT CHAUTAUQUA

COMES DIRECT FROM PEACE CONFERENCE

One of the most important lecture announcements of the year is that Ida M. Tarbell, America's most famous woman publicist and journalist, is to address Chautauqua audiences on the fourth night of the assembly. This distinguished woman has just returned from France, where she was the special correspondent at the Peace Conference for a syndicate of prominent metropolitan papers. Her lecture at Chautauqua will deal with her observations at this epoch-making event under the title of "The United States at the Peace Conference."

"Like the bluebird, you have brought back my happiness to me. Now I can have my baked bean cake." And the Wazzezy Bug was happier than ever. So the circus balloon doesn't fly away with the lollipop stick and leave the penny whistle to roller skate all alone with the jumping rope. I'll tell you next about Uncle Wiggily and Sallie Waters.

### NURSES' CLUB

Miss English Places Before Graduate Nurses' Association Proposal to Start Home.

At a meeting of the nurses of the city, called under the auspices of the Victoria Graduate Nurses' Association last night, Miss English, a returned nursing sister, presented a scheme under which she proposes to start a Nurses' Club. While prepared to start the venture on her own initiative, Miss English stipulated that the proposed nurses' registry be placed in her charge, and asked for the co-operation of the nurses.

Owing to the smallness of the attendance at the meeting, no definite decision was reached and a committee was appointed to interview other nurses of the city with a view to ascertaining their opinions on the advisability or otherwise of accepting the scheme proposed by Miss English.

## Women's Tweed Coats

Regular \$25.00, Sale Price \$12.75

AN opportunity for women who require a practical coat for year-round wear to secure one at a substantial saving in cost. The models in question are made from a heavy Donegal tweed, and are designed in a neat style with convertible collar, double cuffs and fancy pockets.

## YESTERDAY'S LINEN SHOWER A SUCCESS

Many Donations of Linen and Cash For Sailors' Club, Esquimalt

Considerable addition to the linen stock at the Sailor's Club, Royal Naval Institute, Esquimalt, was made under the aegis of a shower held at the Club yesterday afternoon. "Mother" Hanna, as the matron is affectionately known to the sailors who frequent the institution, arranged the event and to her capable management much of the success of the affair was due. The donations amounted to about 150 towels, 98 pillowslips and \$23.70 in cash. The visitors on arrival were welcomed by Mrs. A. Thomson, president of the Ladies' Guild of the Navy League, the donations being received by the Home Committee comprising Mrs. L. Travis, Miss-Pooley and Miss McDonald. Afternoon tea was served under the direction of Mrs. Hiscocks, Mrs. Moore and Miss Travis. During the afternoon, Miss Ora Pearson entertained the visitors with a number of amusing recitations, which created much laughter.

Women and Peace Celebrations.—The women's organizations of the city have been invited to assist in the peace celebration on July 18. In this connection the regents and members of primary and junior I. O. D. E. chapters have been requested to attend a meeting of the Municipal Chapter, to be held on Monday at 11 o'clock in the I. O. D. E. headquarters to discuss tentative plans. The Great War Next-of-Kin will hold a special meeting in the United Service Club on Monday afternoon at 2.30 to consider plans for the celebration.

## Minister's Estimate of Value of Minerals Last Year Has Been Exceeded

Mineral Production for 1918 Aggregated \$41,782,474—Colliery Sales at Advanced Figures Offset Loss on Metalliferous Output—Mr. Sloan's Report

When the Hon. William Sloan tabled his preliminary review and estimate of mineral production for the year ending December 31, 1918, the figures presented to the Legislature anticipated a turnover of \$41,083,093. And in the complete annual report just fresh from the Government printing presses the actual total value is shown to reach \$41,782,474. It will therefore be seen that the Minister's early estimate for the year under review differed very little from the final figures, which show an advantage to the Province over the estimated figures of a little more than \$700,000.

While the value of mineral products for the year 1918 falls approximately \$250,000 below that of the banner year of 1916, there is an increase in 1918 over the preceding year of \$4,772,082.

**Production by Metals.**

The following details show the respective quantity and value of the various metals and miscellaneous products represented by the 1918 figures: Gold, placer, 16,000 ounces, value: \$320,000; gold lode, 164,674 ounces, value: \$3,493,812; silver, 3,498,172 ounces, value: \$3,215,870; lead, 43,899,661 lbs., value: \$2,328,107; copper, 61,483,754 lbs., value: \$15,143,444; zinc, 41,772,916 lbs., value: \$2,399,940; coal—long tons—2,302,245 tons, value: \$11,511,225; coke—long tons—188,987 tons, value: \$1,322,769. Miscellaneous products, value: \$1,038,202. Total, \$41,782,474.

**Production by Years.**

Included in the introduction to the report proper are two tables showing the gradual development of the mining industry in British Columbia. Table one includes the total production for all years up to and including 1918. The total value of the various metals produced during that period is given as follows: Gold placer, \$75,436,103; gold lode, \$97,121,786; silver, \$46,539,631; lead, \$42,294,251; copper, \$145,741,069; zinc, \$13,273,058; coal and coke, \$1,871,147,652; building stone, bricks, etc., \$28,849,372; miscellaneous—minerals, etc., \$651,703. Total, \$637,253,581.

Table two cites at greater length the production during the years from 1853 to 1918. Prior to that date, from 1853 to 1892 inclusive, production is lumped and the total given within the period named as \$81,090,069.

**Coal Industry Gave Lead.**

Under the heading of Progress of Mining the Minister in his report draws attention to the fact that as the value of production of metalliferous mines this year is only slightly greater than that of the year preceding, the great increase made was almost entirely attributable to the products of the coalfields. This is accounted for, but an increased output of coal amounting to 152,270 tons and a proportionate increase in coke of 25,962 tons. There is also taken into account the several advances in the price of coal raised on account of the exigencies of war and other apparently uncontrollable factors which, combined, have increased the value of colliery products this year by \$12,823,994 or an increase over the preceding year of \$4,349,651.

Mr. Sloan is encouraged by the increase in the combined value of products from the metalliferous mines of the Province, which passed the 1917 mark under adverse conditions by \$625,804. The combined output of placer and lode gold of \$860,622 is in itself an important showing when the increased operating costs are taken into account.

Mention is also made of the fact that the high cost of labor and supplies, especially powder, has made the cost of new development extremely high, in spite of which, however, a very considerable amount of new work has been undertaken. Even the epidemic of Spanish influenza comes in for reference in the Minister's introductory observations wherein it is shown that the scourge which passed through British Columbia caused serious dislocation of the various working forces throughout the mines and smelters of the Province. Naturally production was considerably curtailed on this account.

**Precious Metals.**

Dealing with the various metals mined during the year under review the following particulars give comparisons of production for the years 1917 and 1918:

Gold: Boundary-Yale, 1917, 60,010 ounces, 1918, 55,353 ounces; Rosland, 1917, 24,290 ounces, 1918, 33,745 ounces; Skeena—1917, 4,905 ounces, 1918, 4,018 ounces; Coast (southern), 1917, 2,793 ounces, 1918, 5,565 ounces; Lillooet, 1917, 1,092 ounces, 1918, 2,473 ounces; Nelson, 1917, 2,521 ounces, 1918, 7,155 ounces. All others 1917, 2,012 ounces, 1918, 2,367 ounces; total 1917, 114,523 ounces, 1918, 164,674 ounces.

The following figures show the details of silver production during 1918: Slovan and Slovan City, 1,873,236 ounces; Skeena, 416,618 ounces; Fort Steele, 261,497 ounces; Alnsworth, 225,699 ounces; Windermere, 225,581 ounces; Nelson, 156,738 ounces; Southern Coast, 116,425; Windermere-Golden, 91,784 ounces; Omineca, 34,125 ounces; Trail creek, 47,203 ounces; all others 1918 ounces. Total, 3,498,172 ounces.

**Lead, Copper and Zinc.**

The following are the details of lead production during 1918: Fort Steele 18,695,565 pounds; Slovan, 14,575,379 pounds; Alnsworth, 6,196,262 pounds; Windermere-Golden, 2,852,219 pounds; Nelson, 1,511,166 pounds; all others, 252,879 pounds. Total 43,899,661 pounds.

The following are the details of copper production for 1918: Skeelton Division, 30,190,606 lbs.; Southern Coast District, 18,475,013 lbs.; Boundary-Yale District, 9,940,123 lbs.; Trail Creek Division, 1,654,536 lbs.; Omineca Division, 643,843 lbs.; all others, 573,811 lbs.; total, 61,483,754 lbs.

The following are the figures on zinc production during 1918: Fort Steele, 26,794,806 lbs.; Slovan, 14,107,682 lbs.; Omineca, 313,112 lbs.; Alnsworth, 640,991 lbs.; all others, 6,326 lbs.; total, 41,772,916 lbs.

**Coal and Coke.**

Each month complete details have been published in these columns regarding coal production in this Province, and while great care has been taken in the final report to present concise details of coal production during 1918 it will suffice here to give the total summary. The gross production of coal was 2,518,724 long tons, of which 1,684,721 tons were made into coke, leaving a net production at 2,302,245 tons. These figures show an increase compared with 1917 of 180,999 tons gross and 152,270 tons net. The quantity of coke made was 188,987 tons, or an increase of 29,962 tons as compared with 1917.

While the year 1918 shows considerable increase in the net quantity of coke produced, the mines of Vancouver Island fall a little short of the amount standing to their credit in 1917. In 1917 the mines of that island produced 1,684,721 long tons and in 1918 1,666,211 long tons. Both in the Nicola-Similkameen and Crow's Nest mines there is shown a considerable increase for 1918 over 1917.

**How to Look and Feel—Bright in Hot Weather**

When depressed by the heat and you want to rest up for the afternoon or evening, just bathe the face in a lotion made by dissolving an ounce of pure powdered saxolite in a half pint of witch hazel. You will find this more refreshing than an hour's rest.

As a wrinkle-remover the saxolite lotion is remarkably successful. Its action is almost magical. The deepest furrows, as well as the finest lines, whether due to age, illness, weather or worry—are immediately affected. Enlarged pores are reduced, flabby skin is drawn in, facial contour is improved wonderfully. The simple ingredients of course can be had at any drug store, and you need not hesitate to try the lotion, as it will not harm any skin in the least.

**WAR SERVICE GRATUITY**

Supplementary Order in Council For Payment to Men Not in Actual War Theatre.

The major in charge of the A. D. P. S. office here requests The Times to publish the following notice:

"Last December an Order-in-Council was passed granting war service gratuity to officers, N. C. O.'s and men of the Canadian Expeditionary Force. Those men who were discharged prior to the date of the armistice, November 11, 1918, and had not seen service in an actual theatre of war were not entitled to this gratuity. An amendment to this Order-in-Council has now been passed, which will benefit the following:

(a) Those who were overseas and returned to Canada, and who were discharged prior to November 11, 1918.

(b) Those who have served one year or more in Canada.

The officer in charge is desirous of meeting personally all applicants who are requested to call at his office for application forms and further information.

Those officers, N. C. O.'s and men who are unable to make a personal call at the office and who are obliged to make application for the necessary forms by mail it is to be understood that in their letter of application they should state distinctly:

(a) If they had any dependents in receipt of separation allowance immediately prior to discharge.

(b) If they had any dependents in receipt of the married men's allowance (if serving in the active militia), and if so to state the relationship."

**FAIRIES**

Some people do not believe in fairies, but a trial with our feed will convince them that magic results are obtainable.

An Entirely New Method of Putting a Stop to Falling Hair

It is a method founded on the diagnosis of many skin specialists, that dandruff on the scalp is the direct cause of falling hair. Cure the dandruff, stimulate the roots and the condition of the hair immediately improves. This new method takes the form of a cream to be applied to the scalp before retiring at night. It is the rediscovery of an old Indian remedy, and is named—

**MAHAQUA**  
TRADE MARK  
FOR THE HAIR

WILD root-juices—exactly as the Indians used—are the curative, active ingredients of this cream. A few applications and dandruff will begin to disappear; hair will stop falling, and the scalp glow with a sensation of added healthfulness. There is no such thing as failure associated with the use of MAHAQUA. Scores of British Columbia men and women have already tried it and told us of almost unbelievable results. It only requires a trial.

For the man or woman whose hair has been affected by the "flu" it is unequalled. Sold in 50c jars.

For Sale by All Good Department Stores, Drug Stores and Hairdressing Parlors.

**FINAL TOUCHES FOR REALTY CONVENTION**

Committee to Meet Tuesday; Officials Banquet at Seattle To-night

Final touches are being put on the plans for the reception of the big delegation of real estate men from all parts of the western provinces and states who are due here next Thursday and will go to the convention immediately. The session of the Inter-State Realty Association here will last for three days, and some of the officers will arrive in the city in advance of the convention.

A meeting will be held at 314 Pemberton Building on Tuesday evening commencing at 8 o'clock, to which all who are interested in the Victory Convention are invited. It will be an important meeting and members of the local association are asked to bring their wives in order that arrangements may be made for a committee to entertain the late visitors. Tuesday's meeting will be the final one before the convention meets.

Officers and members of the executive committee of the Inter-State Realty Association, en route to the convention at Victoria, will be the guests of the Seattle Real Estate Association at a banquet to be given in their honor at six o'clock this evening at the Army and Navy Club, Seattle.

The officers and executive committee of the organization will hold a meeting in Victoria on Wednesday in advance of the convention and several delegates from Portland and other cities will be in Seattle over Sunday, reaching Victoria early in the week.

E. L. Lambuth, president of the Seattle Real Estate Association, will preside, and E. S. Goodwin, of Seattle, president of the Inter-State Realty Association will be one of the guests of honor.

**ARTIST'S EXHIBIT**

Many Visitors Yesterday to Charming Collection of Water Colors by Miss L. M. Smith, of Boston.

Miss L. M. Smith, of Boston, a visiting artist, held an exhibition of water-colors at the Empress Hotel yesterday afternoon, and many lovers of art took the opportunity of viewing—and in many cases—purchasing specimens of her work.

While all of her work revealed an exquisite delicacy combined with refreshing originality, Miss Smith was at her happiest in marine effects. Particularly beautiful were several sketches of the harbor at Gloucester, Massachusetts, the artist having caught the soft diffused atmosphere of the evening hours and the reflection of the "after-glow" with striking effect. Turnersque in its hazy delicacy yet warmth of color was a sunset scene off the coast, the brilliant rays of the dying sun casting a glow upon the sails of the fishing craft in the foreground.

Victoria's beauty was revealed in several lovely little sketches, one showing a glimpse of the snow-clad Olympics through a setting of golden broom in Beacon Hill Park, Lynn Valley, North Vancouver, also furnished the inspiration for a strong yet delicate impression of turbulent waters dashing over a rocky bed and veiled with a canopy of lacy trees against the cloudy sky. The cold serenity of moonlight over the water made the scene at Hering Cove, Nova Scotia, a charming symphony of greys and blues.

Miss Smith left this afternoon for Vancouver, where she has taken a studio in the Birk's Building for a few days, for the purpose of augmenting her collection of British Columbia views.

# MUSIC IN THE HOME

## Thoughts on Music

1. Music is a necessity; NOT a luxury.
2. Every child has an inherent right to music.
3. Unity through music is a means to civic improvement.
4. Patriotism is developed by music.
5. Spirit of comradeship is induced by music.
6. Music is most useful in constructive work.
7. Music tends to encourage a higher form of citizenship.
8. Music is a curative for mental, moral and physical ailments.
9. Music is the universal language.

Music in Its Highest Form Is Re-Created Only Through the New Edison Phonograph

## UPHOLDING BANNER OF CHORAL MUSIC

Music Is Enhanced When Associated With Words

Not long ago there appeared an article setting forth the alleged superiority of instrumental music as against vocal music. It claimed a place of somewhat exclusive pre-eminence for orchestral music. It was convincingly written and many of the points were well taken. Having read the one side of the story it is interesting to hear the other. The side of vocal music is strongly championed in an address by Dr. P. C. Lutkin, Dean of Music at Northwestern University.

After years of study and teaching of and familiarity with the best of piano, organ and orchestral music, Dr. Lutkin expresses himself as follows: "It is considered by many that instrumental music owes its greatness to the fact that it is hampered by no text or fixed programme. This may be true, but with all its vast import there is a certain lack of definiteness to wordless music. It means one thing to one sensitive soul and something different to another. It even assumes different meanings to the same person at different times. Its overwhelming effect at times is doubtless due to the instinctive feeling that we cannot entirely sense its ultimate significance.

"When music is set to words all the vagueness vanishes and the experienced and responsive listener has a positive guide to the intent and purpose

of the music, for it is the task of the composer to enlarge and enhance the meaning of words through the peculiar power of music. The art of music is frequently referred to as the language of the emotions and is said to begin where speech ends. These statements are no exaggeration. This expressive power is so great that good music can enable the most commonplace words and, unfortunately the reverse is equally true, that poor music can be little the most worthy of texts. The saving grace in the situation is the fact that inferior composers are rarely attracted by good verse, they gravitate to their natural level and so, as a rule, the irrelevant and cheap gospel hymns are linked to the jags and straggling tune and the verse of the street is sung to the tune of the street.

"When we turn to the masterpieces of choral art the interested and intelligent student cannot but observe the high quality of the texts that are chosen for musical settings. Palestrina wrote masses which consist of petitions for mercy, ascriptions of praise, declarations of faith, all couched in noble and dignified terms. Bach also wrote masses, and in addition, innumerable motettes or anthems set, of course, to texts embracing the lofty thoughts and the fine diction of the Bible. Handel, who was a contemporary of Bach's gave to the world his massive oratorios on biblical texts, which for grandeur have never been excelled.

"Beethoven's Mass in D is one of his monumental works, and in the finale to his Ninth Symphony he turns to the great poet, Schiller, and his Ode to Joy for an inspiring text to bring his greatest symphony to its massive climax. The choral ending is introduced by a recitative implying that the tones of the orchestra were not sufficient for complete musical expression, but that there was an impelling necessity to add the human voice—that greatest of all instruments. Thus Beethoven adds his testimony to the contention that vocal music has in it a quality which is not to be attained by instruments."

## REHEARSAL FOR PEACE FESTIVAL

Some Reminders For Musicians Who Will Participate on Saturday

A rehearsal for the large Peace Festival chorus will be held in the First Congregational Church on Sunday evening at nine o'clock, and a cordial invitation is extended to all singers. It is expected to make this feature of next Saturday's celebration a notable one.

Attendance at the rehearsals is necessary.

JACKSON HANBY Who will conduct Peace Musical Festival here.

The committee wishes all members of choir, Ladies' Musical Club, Choral Society, Arion Club and other similar bodies to co-operate. Admission to the rehearsal place at the festival will be by ticket, which will be given only to those who attend rehearsal.

All singers having copies of Jackson's Te Deum or the Hallelujah Chorus are requested to bring them to rehearsal, as these selections will be taken by the large chorus.

In order to make the gathering partake of a community sing character, vocalists are requested to sing in a popular key, so that the audience may join in the choruses. Some of them will be "Ride Britannia," "Land of Hope and Glory," "Long Long Trail," "O Canada," and the hymns "Praise God" and "Oh God Our Help."

The Salvation Army Band will assist.

## MUSICAL SUCCESSES

Students of Mme. Kate Webb Achieve Notable Success in Recent Examinations.

Madame Kate Webb's pupils gained many successes in the recent exams of the Associated Board of the Royal Academy of Music and Royal College of Music, London, Eng. (Examiner Prof. Algron H. Lindo).

The following is the list of successful students:

- Singing.**  
Licentiate of the Associated Board (solo performer of the Concert Standard), Kate Francis Ede.  
Local Centre, Intermediate Grade, Mrs. Mildred Morton.  
School Examinations—Lower Division, Nelly Livesey (Distinction), Margaret Fletcher and Margaret Goulay; Primary Division, Dorothy Bishop, Maude Worthington, Amy Livesey and Ivy Walkem.
- Theory of Music.**  
Local Centre, Rudiments, Mrs. Mildred Morton, Merle North, and Nelly Mylan.  
Grammar of Music—Division III, Gladys Gareche; Division II, Evelyn Wheeler, Hilda Roberts; Ellen McKay, Margaret Goulay and Lorna Lewis; Division I, Aileen Raymond and Nelly Livesey.

## ART AND SCIENCE IN PIANO PLAYING

Artistic piano playing is a combination of art and science. The art of expressing emotion in tone and the science of tone production together is technique. Expression is produced by variations in force, speed and tone color; and by the use of the above easily grasped rule, the student will begin to develop the most important of all musical faculties—that of tonal realization. He will be forced to listen to his own playing and form the habit of attention, which in all good players has been brought to a high degree of perfection.

Always listen to the tone produced. Never bring harsh, disagreeable sounds from the piano which result from stiff arms and key hitting. The keys should be depressed and the tone drawn from the strings by touch, not by blows. All good music is the expression of human emotion, which can be reproduced only by the corresponding tone color.

When playing a Chopin Nocturne, try to tell the listener a sad story—to reproduce in tone some sorrowful event in your own life, or, better still, your conception of the sorrows in the life of the composer. The gentle, whispered sounds which can be drawn from the strings by a caressing touch are full of meaning, and they will reach the heart of the hearer where a louder sound will not.

When playing a quick, bright piece, make the fingers express happiness.

## WHAT ABORIGINES THINK OF MODERN WHITE MAN'S MUSIC

Opinion From Little Known Land; Song at Top of Voice

"Until they have been educated to it and understand the intricacies of modern music, Eskimo as a rule do not like civilized music," says E. W. Hawkes. In a recent publication on the Labrador Eskimo, prepared for the Geological Survey of Canada. Mr. Hawkes proceeds, "They say there are too many notes too much noise, that the tone is confusing, and that they prefer the simple rhythm of their native songs."

"The Eskimo have a keen appreciation of music, and not unpleasant voices, which have been turned to good account by the Moravian missionaries. One is considerably surprised in stepping into a mission service to hear the Eskimo congregation singing their native hymns to Bach's grand old chorals in perfect harmony and with deep feeling and evident emotion. The men have deep rich bass voices, but some of the women's voices are rather shrill. Nathaniel, the choir leader at Nain, has composed an anthem in four parts, showing that the Eskimo are not incapable of constructive work in music. The Moravian Mission Eskimo also show an aptitude for civilized musical instruments, and there is a well balanced band at both Nain and Okkak. The organist, Jeremiah at Nain, the Moravian headquarters, is a musician of no mean ability. He can play classical selections on the pipe organ and any band instrument. The Eskimo have a good ear for music and will catch an air after it has been sung once or twice to them, and repeat it with great gusto and evident feeling for the rhythm. Rhythm is the foundation of their native drum and dance songs, and it is not so remarkable that they excel in it, as it is that they are able to catch the entirely foreign time of the complicated music of civilization.

"The Eskimo music differs from civilized harmony in having a pentatonic scale, and in the constant reiteration of a note or phrase, particularly in their a-ya-ya-ya chorus. A drop of an octave or a shift into another key is not uncommon in the same song. The time is 2-4, formed on the double drum beat, which the voice accentuates in the music. The body, with odd jerking of the arms and legs, and the feet, answers the roll of the drums in the dance. The women stand with feet together and sway the body from the hips, and wave their hands. (In some sections, as in north Greenland, the men start with feet together while dancing and singing.) The song is delivered at the top of the voice, the idea seeming to be that the more noise the better is the music. The men's songs are interspersed with shouts, which women have soft cradle-songs which they sing to the babies in the hood while they are swaying them to sleep. These are more melodious than the Eskimo the young girls have a curious type of song, which they perform among themselves as a sort of game or amusement. It is called "throat-singing" and is a series of guttural ejaculations, which they attribute to the Raven."

## STUDENTS' RECITAL

Pianoforte Selections Rendered at Concert of Miss Griffin's Pupils

Rondo—From Concerto in D Minor... Mozart First Piano—Miss Lillian Styan. Second Piano—Miss B. Griffin.

## MADAME CLARA BUTT ON ART OF SINGING

Famous Contralto Gives Excellent Advice to Aspirants to Vocal Fame

Victoria aspirants to vocal fame will doubtless glean much valuable information from the advice contained in the following article by Madame Clara Butt, the famous contralto, in a recent issue of "Tit-Bits."

"Many qualities go to the making of a successful singer, and there is one failing which has probably been the cause of more disappointing vocal efforts and careers than any other. I refer to self-consciousness.

"Have you ever noticed how pleasantly some people sing or hum to themselves when they imagine they are not overheard, compared with the indifferent, or even unpleasant, manner in which they perform at private parties or publicly? I am afraid thousands of our people who possess a certain amount of musical ability become self-conscious about it, with the result not only that their gift loses half its attraction, but their voices actually deteriorate.

**Be Natural.**  
"Self-consciousness acts as an impediment to the voice, because it brings about contraction of the muscles of the throat. Young singers, anxious to display their vocal powers, brace themselves up. For singing, however, the muscles of the throat should be relaxed, as they are when persons sing naturally and quietly to themselves.

"Never mind your audience. Don't think of it. Allow the song to carry you away, so that you sing easily and naturally.

"To acquire perfect control over the throat muscles, so that they may be relaxed at will, is one of the most difficult points in voice training. And one of the most common mistakes made in this respect is in over-practice. The muscles of the throat are among the most delicate of the whole body, and I am convinced that it is a fatal error to overtax them, especially during the early stages of the voice, by too much practice.

**Take Care of Your Health.**  
"Personally my training was very gradual, and the greatest care was taken not to impose too much strain on the throat at first. I am very confident that a number of short practices of ten or fifteen minutes' duration, with intervals of rest between, are better than a few long periods.

"There is a tendency, too, among singers to pay little attention to general health. It must be the object of all singers to take the greatest care of their health. At the same time, general exercise, though essential to health, can be overdone. Live a healthy life and avoid much exercise. It is easier to sing when the rest of the body has not been over-tired.

"Again, the mind plays a prominent part where the voice is concerned. Try to avoid over-anxiety. Amateurs often make the mistake, through over-anxiety, of over working their voices just before a concert, with the result that they are not at their best when on the platform. It is a good plan to relax the body and the voice before singing in public. I have always kept this clearly before my mind. Rest before you sing, in order that when you go on the platform you may give your audience of your best.

**Avoid Shouting.**

"Avoid shouting. Many amateur singers seem to think that the louder they sing the more powerful will their voice sound and the farther will it carry. This is not so. It is mere shouting that carries, but tone. Shouting destroys much of the carrying power and all the sweetness of tone, and at the same time strains and spoils the voice. A good full tone, coupled with clear enunciation, will enable a singer's voice to be heard as far off as is necessary.

"This question of enunciation is most important. Amateur singers should, from the first, take the greatest care to sing their words clearly—not to mumble them, as is so often done. It is a curious thing, but none the less true, that many amateurs—and even some professionals—although they can speak English correctly and clearly, cannot sing it correctly.

When to Practice.  
"Referring again for a moment to the danger of over-tiring the voice, I am a great believer in the quiet study of a song, away from the piano, and without actually singing at all. One can learn a great deal as to the most effective way of singing a song by running through it with the music in front of one, or even by simply thinking carefully about it without the music at all.

"In singing, as in everything else, experience teaches better than any amount of instruction. When you have discovered how to manage your voice, regulate your practice accordingly. Some may be best suited by morning practice, others by afternoon practice. In my own case, I put in most of my practice between the hours of eleven and one each morning.

"In conclusion, I cannot insist too strongly upon the necessity for hard work and perseverance. Too many amateurs imagine that the 'gift' is everything. But though the gift is indispensable much application and hard work are necessary before it can be made use of to the best advantage."

## LEAVES MILLIONS TO MUSICAL FOUNDATION

Wealthy American's Bequest of \$5,000,000 to Assist Musical Compatriots

The most remarkable bequest in music's behalf that has been made in America and probably in the world came to light a few days ago when the will of Augustus D. Juilliard, president of the Metropolitan Grand Opera and Real Estate Company, was filed for probate. After providing in sums of \$100,000 for each of a few surviving relatives and a few institutions, he left the bulk of his estate, in a sum estimated at about \$5,000,000, for the establishment of the Juilliard Musical Foundation. This plans to assist with funds, ambitious and musically gifted Americans who require training either at home or abroad; to give musical entertainment—operas, concerts and recitals—gratis to the public at stated intervals and to assist, if need be, the Metropolitan grand opera in the establishment of even higher musical standards. The formation of this charitable institution is to be begun at once, according to the terms of the will.

## WORLD'S GREATEST BOY SOPRANO

Delbert Fradenburg to Sing at Interstate Realty Convention Here

Delbert Fradenburg, a boy soprano who has been hailed by Eastern critics as the "world's greatest boy soprano," is to sing at each evening session of the Inter-State Realty Convention commencing Thursday evening next. This boy singer sang at Aberdeen, Washington, recently, at a banquet given in honor of Chas. M. Schwab, the American steel magnate, and after hearing him Mr. Schwab was so delighted that he designated him "the greatest juvenile singer in the world" and presented him with \$100. Master Fradenburg is being brought to Victoria at great expense by the Grays Harbor Bell Board.

The incorporation of the Vancouver Symphony Society having been completed, the first statutory meeting was held this week when the mantle of the presidency fell to Fred Beecher, well known as a musician and as a supporter of music in Vancouver. His election was most popular. The vice-presidents are P. G. Shalcross and Mrs. B. T. Rogers, and the treasurer, Julius Griffith. L. W. Thomas, an indefatigable worker, was elected honorary secretary. Messrs. Hillwell, Moore and McLaughlin will be the honorary auditors.

## VIOLONCELLO

MISS MAUDE SCRUBY, A.R.C.M., L.R.A.M., Receives Pupils. Ensemble Classes. CONCERTS. ORGAN RECITALS. CONCERTS ARRANGED. Address: 521 Burdett Ave., Victoria, B. C. Telephone 534.

## HAWKINS & HAYWARD

Electrical Quality and Service Stores.  
1607-Douglas Street, Opposite City Hall, Phone 643.

### Regents and Members of Primary and Junior Chapters, I. O. O. F., are requested to attend a meeting at the headquarters on Monday at 11 a.m. to arrange Peace Day plans.

### Esquimalt Red Cross—The Esquimalt branch of the Red Cross sent a cheque for \$51 to headquarters last month, representing donations received for the month of June. The statement of the treasurer, Mrs. Bessonet, is as follows: Receipts—Lieut. Commander P. C. Musgrave, subscription for April and May, \$3; Yarrows, Ltd., monthly subscription, \$40; Mrs. C. E. Pooley, machine motor, \$10; total, \$55.

### Street Flooding—The Streets Committee of the City Council last night instructed the City Engineer to try to secure the co-operation of Saanich in improving the condition of the open ditch on Tolmie Avenue, close to the Canadian National Railway station on Alpha Street. The cost of laying a permanent surface drain on the site of the ditch would be about \$2,400.

### License Fee Complaint—A letter was received by the City Council last night from R. S. Day, stating that the delegates to the B.C. Hospitals convention were greatly concerned over the action of the police in demanding that light hospital supply houses which had shown and sold hospital supplies at the convention contribute \$50.00 each to the city under penalty of being summoned if they failed to comply. "It may prevent the holding of future hospital conventions in our city," wrote Mr. Day. "While ignorance is no excuse for breaking a municipal by-law, it seems to me that when reputable firms come in a perfectly open manner to such a convention and they are found breaking a municipal enactment it would be courteous to advise them and if they repeat the offense to summon them." The Council decided to inform Mr. Day that it could not discriminate.

### Insist on Banquet—The Board of Trade yesterday afternoon was unanimously of the opinion that a banquet and the presentation of an illuminated address was the only fitting and popular manner in which the appreciation of the people of Victoria could be shown to Dr. Tolmie, M.P., and J. C. McIntosh, M.P., for their successful efforts to secure the Esquimalt drydock, to be built by the Dominion Government. The committee was asked to make further efforts to see if accommodations for a banquet could be obtained, the obstacle in the way being the crowded condition of the hotels and the shortage of waiters. The suggestion of a picnic was considered out of the question.

### High Cost of Living—The Board of Trade yesterday tabled the resolution passed by the Vancouver Board of Trade relative to the high cost of living, and which demanded that the Government should prohibit export of foods except the surplus over what the people of Canada required. The resolution also asked for Government control of food depositories. The special committee of the Board appointed to deal with such matters will be given the opportunity of bringing in further recommendations in the matter. Beaumont Boggs regretted that the Vancouver Board had gone so far as to approve denying the Old Country food at this time, after the sacrifices the people there had made during the war.

### Bad Breath? Don't Be Offensive Removes the Cause

Follow This Advice and Your Breath Will Soon be Sweet and Pure

The bad part of Bad Breath is the fact that nearly every case shows considerable trouble from indigestion, belching gas, bloating, piles or some form of stomach misery. Oftener than not a pimply face, a sluggish constipated condition is the true cause of many a man's failure in life.

By aiding digestion and building up the weak muscles of the stomach and bowels, DR. HAMILTON'S PILLS completely overcome constipation and all forms of stomach illness.

"I was terribly run down with stomach trouble that arose through neglected constipation, writes Mrs. P. D. Quigley, from Washburn, P. O. I simply couldn't half digest my food, I had dreadful headaches, piles and a low muddy skin. The effect of DR. HAMILTON'S PILLS was phenomenal. I have gained in weight, have a clear skin, no more headaches, I eat well, sleep well and enjoy my meals. My health is no need to be in failing health when cure is so sure, so easy, by taking Dr. Hamilton's Pills of Mandrake and Butternut, 25c. per box, at all dealers. REFUSE A SUBSTITUTE.

### VOLONCELLO RECITAL

Second of Summer Series at Christ Church Cathedral—Programme.

Music lovers and all who appreciated so highly the violoncello and organ recital given by Miss Maud Scruby and Dr. J. E. Watson several weeks ago at Christ Church Cathedral in the quiet of the evening hour following the cathedral service of choral evensong, will be glad to know that a similar recital is announced for tomorrow night. The regular evening service will begin at 7.30, the preacher to-morrow night being the Very Rev. G. S. Quinton, and the recital will follow immediately after the service.

In addition to instrumental selections by Miss Scruby and Dr. Watson, a vocal solo will be contributed by Miss Ada Wise, accompanied by the Cathedral organist.

The Programme.  
The programme for the evening's recital includes the following numbers:  
1. Recit. and Allegro con brio: Mendelssohn.  
2. (a) Largo. (from Sonata in G minor): Marcello.  
3. Abide With Me: Liddle (sung by Miss Ada Wise).  
4. Old English Air (violoncello and organ).  
5. Triumphant March from Alfred Prout.

### ARTIFICIAL LIMBS FOR MAIMED VETERANS

Dr. Jones Explains Workings of Orthopaedic Branch to Audience Here.

Most of the troubles of the Orthopaedic Branch of the Department of Soldiers' Civil Re-Establishment, Dr. P. Jones told the audience at the Crystal Theatre last evening, like those of all artificial limb manufacturers, had been centred round the question of artificial arms.

The artificial legs, Dr. Jones stated, are being very general satisfaction, and we have been assured that they are among the best in the world.

The speaker, who is touring in the interests of the branch, explained how it came into being to supply an urgent need, its object being to supply ex-members of the forces with orthopaedic and surgical appliances for life, and to keep them in repair. As a returned man himself, Dr. Jones stated that the aim was being carried out, and that the Government was honestly endeavoring to give the men something better than any artificial limbs in use before the war.

He explained the working of the Toronto factory, with illustrations by moving pictures, and stated that the branch had now fourteen sub-branches, and would open more as needed.

Dr. Jones explained that complaints nowadays were almost at a minimum, and therefore the officials felt they must be giving satisfaction with a difficult class of work.

Since the branch started 2,326 artificial legs have been made, 1,993 artificial arms, 10,750 minor appliances, 3,387 pairs of orthopaedic boots, and 2,499 major repairs have been executed. During the month of May, 1919, 298 artificial legs were delivered, 121 artificial arms, 692 minor orthopaedic appliances, 428 pairs of orthopaedic boots, and 574 repairs effected.

Concluding his lecture Dr. Jones stated: "We find that the amputation as a rule is the cheeriest individual in the world and now that we are equipped to give them good service, I can assure them that they are approaching a day when most of their troubles will be over, and they will reap the reward of their patience and cheerfulness during the days when our branch was still in its infancy."

Dr. Jones, who was well received, will return to the city shortly to meet men who desire the service of the branch. Later he will make a tour of Vancouver Island.

### University Returned Soldier Students

The University of British Columbia has decided means whereby those students in Applied Science, who enlisted during their University course or during their matriculation year and have intentions of proceeding in the fall, may resume their studies during the summer months. This provision has been made at the suggestion of returned soldier students who are desirous of completing those studies which were interrupted by enlistment, so that regular courses may be continued without undue difficulty.

Grocery Staff's Picnic—At the joint picnic of the staffs of Kirkham's Limited and the People's Groceries held at the Esquimalt Lagoon, about 100 persons attended and the affair was one of the most successful of its kind held this season. Miss Dodge, Gus Meehan and Messrs. S. Kirkham and H. Lester were largely responsible for the success of the picnic. Local whole-salers contributed good things for the outing. Winners of the sporting events were as follows: 75 yards race for men—1. D. Black; 2. S. Kirkham; 75 yards race for ladies—1. Miss M. Hughes; 2. Miss L. Hodgson. Fat men's race—1. A. Brockhurst; 2. Mullin. Stout ladies' race—1. Miss Campbell; 2. Mrs. Nixon. Thread the Needle Race—1. Miss M. Hughes and A. Johnson; 2. Miss L. Hodgson and G. Meehan. 50 yards swim—1. S. Kirkham; 2. G. Meehan. Tug-of-war—Won by Mr. Smith's team.

Mrs. J. Toden, M. G. 408 Jones Building, has removed her orthopaedic gymnasium to 1525 Prospect Road, Oak Bay Avenue, at her new Nature Cure Home, "Yeum."

### Something New—!

It is so delightfully easy to entertain when you have a Victrola in the house. Let the conversation turn to music—any kind of music—and your Victrola will charm with its clear, natural rendering of all that's best in the realm of music.

The Victrola is always up to date, for every day "something new" is created on

and trucks, "no where else has its aid been more keenly appreciated or more extensively made use of, than by the sales organizations of thousands of business houses the country over. "Before the advent of the automobile as a dependable means of travel, the salesman who covered any amount of territory looked to the railroads for his chief means of conveyance. When the train schedules held little promise, he substituted for the aforesaid mode of travel the electric railway lines when available and when not, the time honored horse and buggy. "So it is little wonder that when we look at the salesman of a few years ago, we instantly conjure a mental picture of a rather tired and travel-stained individual whose chief pastime seemed to be that of eternal waiting. In hotel lobbies as well as in railroad stations, he became an accustomed fixture always waiting, waiting, waiting.

"When the 'horseless carriage' with all its advantages became a practical reality, then the new era of sales efficiency dawned. The salesman became instantly independent of time-wasting railroad schedules. For the first time in his experience as a salesman, he was able to 'make' those virgin spots hitherto inaccessible. And from the moment he left the office until he returned, every minute of his working day was utilized in a directly constructive manner. "To-day, even the most remote rural districts are being thoroughly covered, quicker, comfortably and at a lower cost with automobiles by sales representatives of hundreds of nationally known concerns as well as countless smaller firms, all of whom are able to accomplish from three to five times as much work with half the effort and labor."

Very often in cleaning spark plugs by hand the point of the plug is broken. A good way to avoid this is to stick the plug in the ground, insert a down, fill it with gasoline and touch a match to it. After the gasoline has burned out the plug will be found entirely clean of soot.

## TRUCK MARKET IS EXTREMELY ACTIVE

### Jameson, Rolfe & Willis Selling Large Number of Giant Trucks

Jameson Rolfe & Willis local distributors for Studebaker and Gray Dorr passenger cars and Giant trucks, report great activity in the truck market and several of the Giant trucks have been disposed of to local concerns in the past few days. Kirk & Company, coal dealers and carriage company are the latest buyers and they have secured from Jameson, Rolfe & Willis two trucks of 3 1/2 ton and 2-3 ton.

"Those who are contemplating the purchase of a Giant truck would do well to refrain from delaying putting in their order," said R. J. Jameson this morning. In explanation of this word of advice, Mr. Jameson said that a shortage in the delivery of all trucks

## ASHTON'S LIMITED ARE MAXWELL AGENTS

### Premises Are Extended to Include Full Garage and Sales-room Accommodation

Ashton's Limited, 406 Bay Street, are now the local distributors for the Maxwell touring cars and commercial trucks. The Maxwell favorite is the 1 1/2 ton truck. A large shipment of cars and trucks is now on the way here from the factories in Windsor, Ontario.

The members of the firm are all very well known in this city. Great improvements have been made in the Bay Street premises to accommodate the business, and a salesroom 90 feet by 55 feet has been provided. The equipment also includes battery recharging, radiator repairs, oxy-acetylene welding and a full line of accessories will be carried. Gasoline and oil stations are provided. Both floors of

## ARMY TRUCKS WILL BE USED ON ROADS

### The United States Distributes 20,000 Among Various States For Service

In connection with the vast programme whereby various States across the border will receive aid in road building and improvements, additional assistance will be rendered through the decision of the United States War Department to distribute 20,000 trucks for good roads work.

Advantages of the first 5,336 army trucks have been made. Most of them will be distributed to States east of the Mississippi. Later Western states will receive shipments from Western points, thereby balancing up the quotas and equalizing, as near as possible, the freight charges, which is the only item of expense to be borne by the state, excepting, of course, operation and upkeep expense.

Value \$45,000,000. The trucks turned over to the bureau of public roads, department of agriculture, are part of the 21,000 which were recently declared surplus by the War Department, and are valued at \$45,000,000 and include 11,000 new and 10,000 used vehicles, ranging from two to five-ton capacity, all in serviceable condition. They must be used for good roads work and will be apportioned to states, only upon request of the state highway department, on the basis of the financial aid under the federal road act.

The five states receiving the largest allotment of the trucks already assigned are: Texas, 221; New York, 273; Pennsylvania, 259; Illinois, 240; and South Dakota, 190.

In keeping with the War Department's decision to turn over all available material needed for its work, to good roads building, several hun-

dred tractors, formerly used for hauling heavy guns, will be transferred to the department of agriculture, as soon as an inventory has been completed.

Test Made in Ohio. Aside from their economic value—including lowering of food prices, enhancing property values, bringing the farmer closer to the city and to his neighbor and stretching the business radius of towns and cities—the building and maintenance of good roads could be more than financed by the saving to the operators of automobiles and trucks.

A test conducted in Ohio recently to determine the saving in gasoline from running over a good road as compared with gas consumption over bad, medium-grade roads disclosed a surprising difference. With five new army standard "A" trucks with seven different types of road service, showed a gain of six miles per gallon of fuel between the best and worst types of roads. All the trucks were empty during the test. The trucks loaded showed that the poor road took seven times as much gasoline per mile as the good one.

Saves Gasoline. The test results showed an average of 5.73 miles per gallon over a dirt road in good condition, 14.8 over fair gravel, 9.39 over good gravel, about the same over fair bituminous macadam and good brick roads, 11.74 over extra smooth brick and 11.73 over good concrete.

The saving to the motoring public in gasoline alone would amount to millions of dollars annually. Perhaps equal to this would be the saving in tires, which is considered as an important item of car upkeep as is gasoline. Calculating the saving in wear and tear on the mechanism of cars and trucks and also the item of time lost by poor roads, adequate highways are undoubtedly a sane investment.

A plan to promote traffic safety in Denver, Colorado, by means of motion pictures is being worked out by Commissioner of Safety Alexander Nisbet. He intends to prepare a special film showing how the most common accidents are caused, illustrating the purposes of the most important traffic rules, and showing the right and wrong way for both vehicles and pedestrians to deal with traffic conditions. The city will supply the film to all the moving picture theatres in the city.

## THE LATEST THING IN CARS.

Mrs. Glider—My husband bought such a beautiful Rembrandt for me last time he was on the continent.

Mrs. Brooklands—Really, dear, how perfectly sweet of him! But I thought that wasn't allowed now. What horse power is it?

It is very important that regular inspections should be made of the leather coverings or "boots," which protect the universals and other parts. Flying stones or sticks are apt to destroy these boots, permitting the lubricant to leak out and give entrance to dust and dirt. Look them over once a month anyway.

Very few motorists realize the importance of planning ahead for the repairs and adjustments that may become necessary on their cars. Of course there are emergency repairs that cannot be foreseen, but by far the greater proportion of the work done on a car in a repair shop might just as well have been done last week as this week.

Probably, had proper arrangements been made, it could have been done better and frequently at considerable less expense.

using the Timken features had been brought about as a result of the strike in the Timken factories. While production was again assuming normal proportions, there was a possibility that some of the dealers might be hung up for deliveries, especially those who are meeting with a heavy demand for trucks, as is the case in British Columbia and other points on the Pacific coast.

The Giant trucks are equipped with Timken bearings, Timken worm drive and Timken axles. "Look about you and see how many Giant trucks are in use on the streets of Victoria. It will tell its own story of the popularity gained by these machines in this city," said Mr. Jameson, who explained that the trucks in use here are put to work engaged in freighting to outside points, they have been converted into busses and they are engaged in city and farm work.

"We still have a supply of trucks on hand, but the sales are going, it is impossible for us to say whether or not we will be long in a position to meet the demands that are now being made upon us for Giants," said Mr. Jameson. Business generally is good, the firm reports, the sales of new and used cars keeping up well.

## MOTOR SPEED LIMIT IN ONTARIO RAISED

### Automobile League Wins Point Fought For After Many Years

After several years of unremitting effort the Ontario Motor League has succeeded in securing the recognition of a higher speed limit by the Ontario Legislature. A number of other important amendments have been made in the motor vehicles act in the Province of Ontario. The new speed law reads as follows:

"No motor vehicle shall be driven upon any highway within a city, town, village or police village at a greater rate of speed than twenty miles per hour; nor upon any highway outside of a city, town, village or police village at a greater rate of speed than twenty-five miles per hour, nor at a street intersection or curve where the driver of the vehicle has not a clear view of approaching traffic at a greater rate of speed than ten miles in a city, town, village or police village, or twelve and one-half miles outside of a city, town, village or police village, but the council of a city, town or village may by bylaw set apart any highway or any part thereof on which motor vehicles may be driven at a greater rate of speed for the purpose of testing the same, and may pass bylaws for regulating and governing the use of any such highway or part thereof for such purpose."

Provision is made increasing the penalty for reckless driving whereby anyone found guilty of this offence may be fined not more than \$50 or one week's imprisonment, or both. The penalty increases for subsequent offences.

All motor vehicles must be equipped with mufflers and there must be no contrivances for releasing such muffler from the seat of the vehicle. All commercial cars are required to be equipped with mufflers.

One of the most interesting sections reads: "When loss or damage is sustained by any person by reason of a motor vehicle on a highway, the onus of proof that such loss or damage did not arise through the negligence or improper conduct of the owner or driver of the motor vehicle shall be upon the owner or driver."

## HALF SOLE FOR TIRES IS ON SALE

Local Agency Established For Handling Gates Products

"We do not aim to resurrect the dead but we do aim to preserve the living," is the way O. G. Jones, traveling expert for the Gates Rubber Company of Denver, Col., explained how the Gates Half Sole principle worked out in his headquarters in Seattle, and during his visit to Victoria this week A. McGavin, 1009 Blanshard Street, was appointed local distributor of Gates products.

Making a start only eight years ago as a local concern in Denver, the Gates Company's plant now covers an area of five acres and its dealers extend to all points in Canada and the United States, in which countries there are now sixty travelers attending to the demands of the vast trade that has been built up in that short time, and which has necessitated the building of five new units this year to the already large factories.

Mr. Jones explained that the Gates Half Sole for tires is more than a retreat and it makes the tire puncture proof as well as making it virtually a new tire. "Naturally, the operation proves a great deal cheaper than buying new tires, otherwise we would not be in business," he said.

The Gates factories manufacture fabric and cord standard tires and tubes. They are also the largest fabric manufacturers in the world and hundreds of thousands of these are sold to the Ford people. The concern is also a large producer of a special line of halters. "You see, we also supply the automobile's competitor with goods," said Mr. Jones, who left Thursday for Vancouver en route to Seattle.

Mr. McGavin is greatly pleased at securing the local agency for Gates products, which he says have gained such an enviable reputation in the United States that their ready sale in Victoria is assured.

## Better Spark Plugs For Every Purpose

There is yet to be found a type of motor, a condition, use or industry, where spark plugs are required, that has not been served successfully and efficiently with Champion Spark Plugs. In aeroplanes, where dependability marks the balance between safety and death. In high and low powered motor cars. In low speed tractors with heavy load. In gas engines on farm or in factory. In speedy motor-cycles or motor boats, and in the slower moving trucks, with ever-changing load and road conditions, a "plus service" is rendered by

## Dependable Spark Plugs

This "plus service" is the result of ten years of constant study and experiments which produced the "Champion" No. 3450 Insulator. This insulator has demonstrated its ability to withstand shock, vibration and quick temperature changes to a degree that makes it practically indestructible.

Our patented Asbestos Lined Gaskets are another exclusive feature that cushion the insulator, absorb heat expansion and eliminate compression leaks. When you see "Champion" on the insulator "that's the plug" that will give efficient service under any condition that the motor itself will withstand.

Dependable service, satisfaction and economy are "built in" qualities of every "Champion" and are backed by our guarantee of "Absolute satisfaction to the user or full repair or replacement will be made."

Sold wherever Motor supplies are sold

## MAXWELL CHAMBERS HAS NEW MANAGER

C. C. Hanch Served as Chief of Automobile Products Section of War Board

Looking forward to an uninterrupted era of demand for automobiles and with the purpose of developing one of the strongest manufacturing organizations in America, the Maxwell Motor Co., Detroit, has just acquired the services of C. C. Hanch as general manager of all Maxwell-Chalmers interests.

In leaving the Studebaker Corporation after serving a period of years as treasurer, Mr. Hanch comes to Maxwell-Chalmers equipped with all the executive leadership and automobile knowledge necessary to make the Maxwell-Chalmers companies one of the most formidable institutions in the commercial world.

For 15 years he was general office manager and treasurer of the Nordyke-Marmen Co. at Indianapolis, going to Studebaker in 1915. June of last year through the courtesy of the Studebaker Corporation, he became chief of the automobile products sec-

## GOODYEAR'S HELP IN THRIFT SCHEME

Big Tire Concern Plays Patriotic Part in Canadian Financing

Away back in the early days of Canada's history the only practical means of thrift lay in the determination to do without something that was not an absolute necessity. It's no reflection on the spirit if the people to say that they were hoarders therefore, since that was their only means of saving.

During the great world war however, Canadians learned the real meaning of thrift—spending wisely.

To-day the Canadian Government is promoting thrift societies. One plan is to have business houses of all kinds form local societies for the purpose of affording the individual employees an opportunity to loan his savings (even if they be as low as 25c per week) to the Government. This money which the individual invests promotes progress in Canada and therefore incidentally rebounds back to the individual. On the other hand the individuals who subscribe in this way to thrift or war

## POWER ATTACHMENT HAS ADVANTAGES

Norman Hirst Explains Interesting Features of Equipment For Ford Cars

"You can pull yourself out of a mud-hole, you can saw your winter's wood, you can fill your silo or your barn, operate your chopping machine, in fact, you can do anything with our little Ford power attachment that an 8 to 10 horsepower stationary engine will do for you," said Norman Hirst, while giving a Times representative a demonstration of what the new Ford attachment, for which he is distributor, can accomplish.

"You will notice that this little affair takes up very little room and is hardly noticed on the car, yet the amount of useful work it will do is something amazing if you only had the opportunity to apply it to some of the purposes for which it is specially adapted. One of the great advantages of this equipment is that you can take your power to your work. You drive along in your automobile and whenever and wherever the notion takes you, turn from pleasure to work, or

tion of the War Industries Board and the same energy, leadership and tremendous results be accomplished for Uncle Sam in the wartime capital will make him an asset of incalculable value to the Maxwell-Chalmers factories and dealers.

Mr. Hanch has been a successful leader in co-operative activities of all kinds and in addition to having served as the first president of the Indianapolis Chamber of Commerce, the new Maxwell chief was president of the Indianapolis Manufacturers' Association, chairman Indianapolis Freight Bureau, vice-president Automobile Board of Trade, vice-president National Association of Manufacturers for the State of Indiana and for the past few years secretary and director of the National Automobile Chamber of Commerce.

One of Mr. Hanch's most successful accomplishments was the initiating of the movement and serving as chairman of the committee that effected the cross-licensing patent agreement among American automobile manufacturers.

Since the armistice Mr. Hanch has been in Europe representing the National Automobile Chamber of Commerce and has been in sight of conditions here and abroad augmented by his versatile experience and familiarity with all the ins and outs of the automobile industry points to the greatest forward leap in the history of the Maxwell-Chalmers companies.

Ashton's Ltd., Bay Street, are the local agents for the Maxwell-Chalmers.

Each branch organizer gets the employees in his branch to request the paymaster to insert thrift stamps in his pay envelope.

Each organizer has always some stamps on hand ready for sale.

Each member of the accounting staff agrees to buy one thrift stamp for each error made.

Each organizer tries to sell a thrift stamp to each employee who is late in the morning.

Each branch society competes for first place in "The Goodyear Family News" page.

Each organizer promotes the idea of exchanging the interest on war bonds as they fall due.

Already the Toronto branch of The Goodyear Tire & Rubber Co. alone has thirty-three subscribers out of a total of thirty-five employees. Altogether these thirty-three employees have agreed to buy 724 thrift stamps subscribing \$185 per month in this way.

If the average for the whole of the people were as high imagine the progress Canada would make during the next decade.

from work to pleasure. In fact, with this attachment work now becomes a pleasure and it can be done without any wear and tear on your car," continued Mr. Hirst.

Mr. Hirst announces that owing to the fact that he has been able to get a better contract from the manufacturers it is now possible for him to make a \$5 reduction in the price of the power attachments. He explains that some people have the idea that they are cumbersome affairs and therefore wish to repeat that the apparatus weighs only sixty pounds. It is run directly off the engine and therefore saves the wear and tear on the transmission resulting from rear-wheel power drive.

In addition to the ordinary mechanical automobile repairing plant, Mr. Hirst specializes in remedying electrical troubles, starters, generators, magnets and so forth. He operates a full battery charging and repair plant.

Twenty-eight interstate highway associations have so far qualified for membership in the Associated Highways of America. They represent about 69,000 miles of marked highways, reaching to nearly every part of the United States, to the borders of Canada and Mexico and to the coast.

Undoubtedly the jack is one of the most difficult tools in the car's equipment in the matter of carrying it. If it is carried loosely in the tool box, it is so heavy that it is likely to break something, and yet it must be so located that it can be got at easily when needed. In many cases it is a good plan to carry the jack strapped to the running boards or the foot board.

On cars that have pressure feed systems, operated by means of the exhaust gas, the car owner should make a periodic examination of the feed strainers and other cleaners through which the gas passes on its way back to the tank. If a car is in continual use or is using excessive amounts of oil and gasoline the dirt accumulated in the strainers will naturally be heavier and the inspection should be made more often.

Designers, However, Are Reluctant to Enter Into Details

A great deal of anticipatory interest is being evinced in the new Overland car. While it is known that the car embraces radical departures from conventional automobile design, and innovations that are absolutely new to motor car engineering, no definite information can be elicited from the officers of Willys-Overland, Limited. It is known, though, that the car was designed by engineers who have hitherto been responsible for some of the world's best and most highly-priced automobiles, and that its production in Canada is in the hands of Mr. J. G. Ferrin, chief engineer and assistant general manager of Willys-Overland, Limited, who Henry Ford declared to be the greatest automobile engineer in the United States. However, Willys-Overland, Limited, say that in quality of design and performance the Overland will set a new criterion in light car values.

Thomas Pimley is the Victoria agent.

**BY DAY AND NIGHT**

Mr. Rennie, of Rannieservice, Was Busy When Times Man Called.

A visit was paid to the Rennie service plant at 1717 Cook Street recently where it was found that things were extremely busy. Mr. Rennie's staff, and it is a considerable one, was hard at work on various repairs and Mr. Rennie himself, as usual was hard at work.

"We have to keep going day and night to keep up with the work," explained Mr. Rennie. "We are doing a considerable business in used cars these days and two used Fords in one afternoon is the half day's record for this week," he continued.

Rannieservice is prepared to go out at any time and to any place to render assistance to disabled cars, said Mr. Rennie, who also deals extensively in used motor cycles.

**WE'VE BEEN EATING SAWDUST.**

When any food commodity is, in the language of the markets, "short," it is better to go without it rather than buy a substitute, which is generally a delusion and snare.

What crimes have been committed of late in the name of our old friend, the egg? One "egg substitute" foisted on the unsuspecting housewife would serve as an excellent blackbeetle exterminator, since it is mostly sulphate of lime, generally known as plaster of Paris, and many similar preparations are nothing more than corn starch colored with aniline dye.

**Costly Sawdust.**

And fat "substitutes"! A certain preparation is sold for taking the place of lard, generally used on baker's tins to prevent the bread sticking. Now, this stuff, stripped of all disguise, is finely-ground sawdust at 15 cents a pound!

Think again, we have "lard substit-

**NEW OVERLAND CAR WILL BE BEAUTY**

Designers, However, Are Reluctant to Enter Into Details

utes" which when you come to analyze them, prove to be preparations of nut oils, with water, boric acid, and salt added. The water may be 14 or 16 per cent, and is uncommonly dear at 15. 6d per pound.

**Bad Bargains.**

But the biggest ramps of all, perhaps, are certain of the "sugar substitutes" with which the market has been flooded. Not long ago a particular standard preparation of sugar was "floated" under a high-sounding name, and found a ready sale until consumers became suspicious. They might well be. For the stuff, having regard solely to its sweetening properties, cost them about 2s. 7d. per pound.

And, lastly, what about the sweetening tablets which have become so popular? They are supposed to be composed wholly of saccharine, but this is seldom the case. Sometimes, too, the quantity of that commodity is so small as to be negligible, and even then it may be a practically insoluble form.

**FREE AUTO PARKS PROVE BIG ASSET**

Motorist From California Speaks of Advantages of Latest Tourist Scheme

The establishment of free camping sites for motorists in various suitable locations throughout the Pacific Northwest in proximity to the numerous highways is a matter that is rapidly gaining the attention of municipal governments and already a large number of these locations have been set apart in the State of Oregon, to the immense delight of motoring tourists. The auto park is now recognized as a particularly valuable asset to any community, and a great convenience to motorists. In some places sites have been set apart and small buildings erected with gas stoves, wash basins, baths, toilets, reading rooms and other features.

George H. Post, of Fresno, California, a recent visitor to Victoria during an extended automobile tour of the Pacific Highways, including Vancouver Island and the Georgian Circuit, speaks very highly and enthusiastically of the scheme. He was greatly impressed with the beauty of the scenery in and about Victoria, placing special emphasis on the sunken gardens at R. P. Butchart's home, which he characterized as the most wonderful and the most beautiful on the coast.

"Victoria and Vancouver Island has ample opportunity and possesses every facility for establishing a system of auto parks," said Mr. Post, who quoted to The Times representative the following editorial on the subject of auto parks printed in one of the Portland daily newspapers:

"While urging the need of aeroplane landing fields let us remember that there are more than 70,000 automobiles

**MILLION DOLLAR PLANT FOR RUBBER COMPANY**

A special telegram to The Times received this morning from the Canadian Consolidated Rubber Company, Limited, states that the company has decided to spend immediately the sum of \$1,000,000 on a new tire plant at Kitchener, Ontario, for the purpose of substantially increasing the output of the plant.

In Oregon, that roads are being improved in every direction and that some good sized towns have not yet provided automobile camping parks.

"The tent roll on the running board is more the rule than the exception to-day with the through traveler. If he finds a clean park in which to pitch his home for the night he goes on with a kindly feeling for the place. Generally, too, he leaves some dollars behind with the local merchant. In the absence of a camping park he stops elsewhere. It may be in the nearby town that has one or it may be along the road in some farmer's field.

"An automobile camping park should be more than one in name. A vacant lot full of rocks and bumps designated as a camping spot does more harm to the community than good. It should be ample in space, attractive in appearance, water should be available and it should be kept clean and orderly.

"Availability of such spots to the tourist promotes greater travel, which in turn promotes a more general acquaintance among the people, a better knowledge of the state and a spirit of co-operation in worthy activities that have nothing to do with automobiles or travel. Many Oregon towns have already made adequate provision. The others should fall in line."

**STILL SIMONIZING DESPITE DOG DAYS**

Owners Think Enough of Cars to Keep Up Their Appearance, Says W. H. Hughes

"Though the dog days are here we still keep on Simonizing at the same old stand," says W. H. Hughes, Bates Street Simonizing Station expert.

Mr. Hughes insisted that The Times representative should "Come in" to see the difference Simonizing made in the appearance of an automobile. In the shops were several cars on which the men were working, but one in particular attracted attention by reason of the fact that half of it was dull and poor-looking while the other half had the brilliancy of a brand new car.

"You can judge for yourself what Simonizing does for a car," said Mr. Hughes, "and we welcome all automobile owners who are interested in our method. For a clean, hard finish there is nothing like it and we are willing to rely on the merit of our service to increase our business."

"Though this is a season of the year when owners dislike losing the use of their cars for even a short period, they find that Simonizing takes so little time and with such good results that there has been no dropping off in the amount of work required of the Simonizing Station," says Mr. Hughes.

**HUPMOBILE RIGHTLY CLAIMS NEW NAME**

"The Comfort Car" Could Be Aptly Applied, Says R. E. McMorrans, Local Agent

"Comfort is so pronounced in the newest model Hupmobile that it has really merited the title of 'The Comfort Car,'" said R. E. McMorrans, local Hupmobile and Briscoe distributor in discussing car features this morning.

Mr. McMorrans continued: "Everything about it typifies comfort. The deep, soft upholstery—real leather over real curled hair—the whole supported by very deep resilient springs of the finest steel and an air cushion, is a combination said to be the easiest riding seat on the market.

"The tip of the seats is luxurious. The tonneau is roomy. The back of the tonneau seat is unusually high, affording the maximum of comfortable support. In the driving compartment we have plenty of room—more room, we believe, than in any other car of approximate wheelbase on the market. As you sit in the driver's place the steering wheel comes just right; you don't have to reach up for it—and yet it doesn't pin you to the seat or hinder your getting under it.

"The gear shift lever will delight every one. It is twenty-four inches long, of the cane type, and its large, comfortable knob is always just where your right hand naturally falls from the wheel. This is an exceptional feature. The foot levers are adjustable to suit any driver, and they do their work with a long easy throw. The clutch lever is especially soft operating.

"The hand brake is in easy reach, yet out of the way, and operates at a touch. Its powerful leverage makes it operate with rare ease. A child can steer this Hupmobile. The instrument board carries ignition and light switch, speedometer, ammeter, oil pressure gauge—all within easy reach and lighted at night by an incandescent bulb operated by an independent switch. Rubber pads attached to the clutch and brake pedals under the toe board protect the driving compartment from dust and from hot air from the motor.

"There are many other things that I might mention, but it would take too long to enumerate them," said Mr.

**GOVERNMENT BUYS BIG FEDERAL TRUCK**

Revercomb Motor Company Delivers Heavy Type Machine; Railway Buyers

The Revercomb Motor Company numbers among its recent sales of Federal trucks a huge three and a half-ton machine that has been delivered to the Provincial Government for use on road construction. The big Federal is now engaged in hauling sand and gravel and other road material in connection with the improvements which are being carried out on the Island Highway.

Revercomb's were appointed distributors for Federal trucks only a short time ago, yet a large number of sales have been made and Mr. Revercomb puts this down solely to the popularity which the Federals have gained on their merits.

Even the railways now use trucks to increase their earnings and on this subject Mr. Revercomb says:

"In California the San Diego and Southeastern Railway have purchased several Federals to operate as feeders to their business. It is a significant fact that the successful work done by trucks for the express companies and the U. S. Government mail service has turned the attention of the railroads to them as an adjunct to their systems.

"The San Diego and Southeastern have discovered that more goods will move to and from their terminals, cars are held less time, freight handlers can handle more goods if they have trucks to assist them.

"The Tennessee Iron, Coal & Railroad Company in Alabama, purchased one or two Federals to haul their products which are so greatly needed by the steel industry. The immediate results of this first purchase was the ordering of eight more big three and a half-tonners.

"The Michigan Central Railroad has purchased Federals to assist in keeping car and engine repairs and other supplies at their Detroit yards.

"The Boston Albany Railway have a Federal which has done away with hired trucking in Springfield, Mass., which used to cost about \$15 per month. In addition to doing this work, however, this Federal has released one engine which was necessary to haul materials between Springfield and West Springfield.

"Thus, in these days of fast freight moving the truck has directly made it possible for the R. & A. to have one whole train more than previously.

"This Federal also is credited with saving shippers in Massachusetts considerable demurrage on warehouse freight.

"Other roads, too, are coming to the truck as the solution of many of their yard and terminal difficulties."

**NASH QUAD TAKES BIG SHOVEL IN TOW**

Steam Monster Weighing 22-Tons Pranced Along at a Good Pace

People stopped and stared the other day when Loney Brothers' big steam shovel which has been operating at Spencer's building and has just completed digging the big excavation for the new addition to the Departmental stores, was seen proceeding along the city streets at a good rate of speed in tow of a powerful Nash Quad truck driven by J. E. Eve, Sales Manager, for the Shell Garage, local distributors for Nash passenger cars and trucks.

The big steam shovel, though powerful enough while working in its own element, is no "speed artist" when it comes to moving from one job to another. In fact, it travels at the rate of about a quarter of a mile an hour. It took two hours to make the journey from its yard on Blanchard Street to Spencer's block.

When the shovel was commissioned by Palmer Brothers, who have the Government contract for rebuilding the highway from Craigflower Bridge to Parson's Bridge, the question of the time which would be lost in taking the machine all that distance loomed up as one of considerable importance.

The Shell Garage people were appealed to, and Mr. Eve undertook to transfer the shovel, to its new work with dispatch. He mounted to the seat of one of the Nash Quads and proceeded to the scene of action. Without any delay whatever he hitched on to the steam shovel and started off at a good round pace or, in other words, at the rate of about ten miles an hour. Occasionally he looked behind to see if the shovel was coming along alright, but when the monster began to shriek its whistle he stopped to find out what the trouble was all about. He was politely informed that he had better travel a little slower as there was such a possibility as shaking the boilers to pieces.

In good time the shovel was delivered safely at its destination but the point of this story lies in the fact that the machine which the Nash Quad had in tow weighed 22 tons.

**UNSYMPATHETIC.**

"Boo-hoo, boo-hoo."

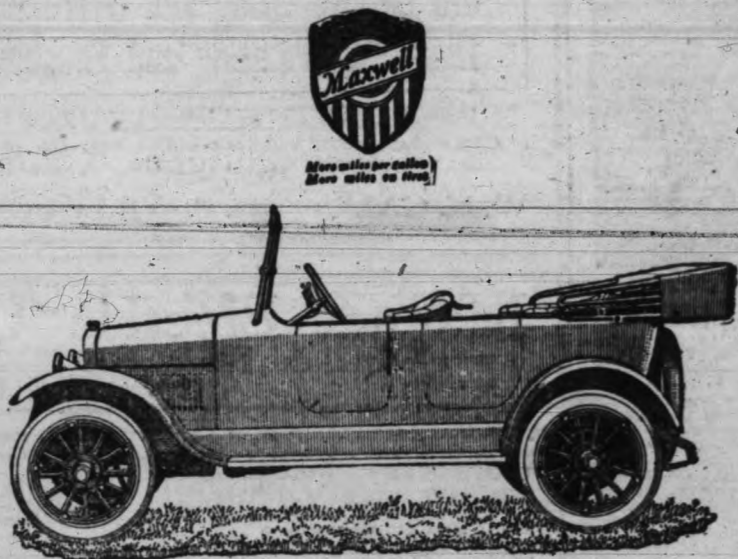

"Someone in distress," thought the kind lady.

"Boo-hoo, boo-hoo, boo-hoo-o-o."

She hurried forth to the scene of the catastrophe, and was touched to find a little lad crying over the misfortune of an elderly gentleman who had slipped on a banana, and was sitting on it, collecting his scattered faculties together.

"Good little boy," she exclaimed, patting him on the head. "I'm glad you feel sorry for the poor gentleman, and didn't laugh when he fell down and hurt himself. But you must try and dry your tears, for he isn't hurt badly."

"No, he ain't, boo-hoo-o-o, worse luck," retorted the whimperingurchin, "I was active. I was he was; it was vint actively."

**Maxwell: advanced by fine engineering**

**FIVE** decided improvements have been made in the Maxwell. One makes it look better. Another makes the electrical unit far more efficient. A third makes the enginerun sweeter, steadier, and gives it advanced economy. A fourth adds a comfort in seating. A fifth produces increased durability in the top.

You get a Maxwell now with the famous Hot Spot and Ram's-horn and you find a rare delight in more power and more mileage at the old-time cost.

MAXWELL MOTOR CO. OF CANADA, Limited, WINDSOR, ONT.

**ASHTON'S LTD.**

Distributors Opp. Victoria Machinery Depot 406 Bay Street

But it isn't a new model Maxwell. For this car is merely the chassis of five years ago with all the advances made in fine engineering.

This is the original chassis Model of which 300,000 have been built to date—300,000 all alike basically, but each one better than the previous one.

Thus you get a sound, safe, extremely reliable car, refined to a degree, and at the same time you get the new improvements. The price is \$1395 f.o.b. Windsor.

REV. J. P. WESTMAN IS BACK AT NELSON

Has Been Field Secretary For Sunday School and Young People's Work For 8 Years

Rev. J. P. Westman, who is returning to Nelson as pastor of Trinity Methodist church, has arrived in Nelson.

For the past eight years Mr. Westman has been field secretary for Sunday school and young people's work in British Columbia and Alberta.

During the past eight years Mr. Westman also developed the Canadian standard efficiency tests work for boys and the Canadian girls in training work for girls.

Mr. Westman was pastor of Trinity Methodist church until eight years ago when he resigned to take up the work of Sunday school work and young people's secretaryship.

He was born in Hiddulph township, Ontario, and graduated in theology from Victoria college, Toronto, in 1899.

It was Mr. Westman who in 1906 originated the summer school idea in British Columbia. It was also who opened the first forum, at Mount Pleasant church, for the discussion of problems of various kinds.

Mr. Westman was also the first to introduce gymnasiums and clubs in churches in British Columbia, inaugurating those at Centennial church, Victoria, at Mount Pleasant church, Nanaimo, and at employing a paid Sunday school secretary to give his whole time to the work.

DEBATE ON WOMEN IN PRIESTHOOD Miss Maude Royden, City Temple Minister, Pleads Woman's Cause

The ordination of women for the priesthood was debated by the Rev. A. V. Magee and Miss Maude Royden, the woman minister at the City Temple, at the Church House, Westminster, London, recently.

The Rev. A. V. Magee spoke from the point of view that there are fundamental principles which forbid the admission of women to the priesthood.

Miss Royden said there were many women and girls who were shy of going to Sunday school, when in difficulty because of the danger of being told they were flirting.

Famous Northern Diocesan to Tour Alaska

DR. ROWE, BISHOP OF ALASKA

ing from the New Testament she sought to prove that the commission of Not the unity of uniformity, for our fellowship embraces the most diverse types; but that unity which comes from mutual respect, and love for a common cause.

BISHOP ROWE TO MAKE TOUR AGAIN Famous Divine Will Venture Into Vigorous Wilderness of Unknown North

Juneau, Alaska, July 8.—Far away from the "Anglican" church in isolated interior and coast points of Alaska will be visited this summer by two Episcopal officials, Rev. Peter Trimble Rowe, Bishop of Alaska, and Archdeacon Hudson Stuck, dean of the Yukon.

The ensign of the cross has been planted by these two men at many points in this Northland, from the south to Point Barrow, the "corner of the continent," and around the coast fringing the Arctic.

Rev. Dr. Rowe is known to his friends as "The Bishop of All Outdoors." He has been laboring in Alaska since his appointment as bishop in 1896, several years before the gold rush drew thousands there in search of wealth.

Archdeacon Hudson Stuck, writer, tourist, mountain climber and authority on matters Alaskan, makes his home at the Episcopal mission and hospital at Fort Yukon, Alaska, just inside the Arctic circle.

The launch Pelican has carried Bishop Rowe and Archdeacon Stuck over the waters of nearly every inland river in Alaska. The two will use the launch on their inspection trip this year.

VALEDICTORY REMARKS OF REV. E. J. BOWDEN

"The fellowship of the past two years draws to a close, and the active work of your minister, in Victoria, ceases at the end of the current month, says Rev. E. J. Bowden, pastor of the First Unitarian Church, who leaves Victoria shortly, in his monthly bulletin.

"These years of service will be fruitful in happy and tender recollections. The very restrictions of our church life have had their compensations; our tiny group has developed the intimacy of a family; church has been in a true sense a home; and there has never at any time been the least danger that the individual would lose his identity in the crowd.

"Then, too, the constancy and loyalty of our members have been remarkable. There are seats in our church which are never vacant without the best of reasons. Such persistence is the best possible proof of interest and appreciation, and an unfailing inspiration to any minister.

"While the high hopes of the installation service of 1917 have not been fulfilled, and the church has not made visible progress commensurate with its ideals, yet it is certainly stronger to-day than then, and more fully equipped to carry on its work.

"And we have been able to maintain that complete unity of spirit which is

above all, the sign of a healthy organism. Not the unity of uniformity, for our fellowship embraces the most diverse types; but that unity which comes from mutual respect, and love for a common cause.

ANGLICAN SUMMER SCHOOL NEXT WEEK Attractive Programme Has Been Arranged For Gathering of Clergy

The Anglican church has completed arrangements for holding a summer school along the lines of that so successfully carried out last year. St. George's School, Rockland Avenue, will be taken for next week. Proceedings will commence with a "welcome" meeting on Monday, at 8 a. m., when the Bishops of Columbia, New Westminster and of Victoria, Hong Kong, will speak.

While the school is intended primarily for members of the Anglican church, a welcome will also be given to members of other Christian bodies who may wish to attend.

The daily programme will be as follows: 7.45 a. m.—Holy Communion. 8.45 a. m.—Breakfast. 10 a. m.—Lecture on Missions, Rev. T. C. Kennedy, Vancouver. 11 a. m.—Lecture on Sunday School work, Rev. R. S. Mason, of Toronto. 12 noon—Devotional address, Rev. H. T. Archibald. 2 p. m.—Group conferences on Sunday school and W. A. work. 3 to 5 p. m.—Recreation. 6 p. m.—Supper. 7 p. m.—Evensong. 7.45 p. m.—Address on Social Service work.

Dr. H. H. Gowen. The programme will include a series of lectures on Japan by the Rev. J. C. Kennedy, who will open his addresses at 10 o'clock on each of the four days of the session. At 11 o'clock each day Rev. R. S. Mason will speak on Sunday School work, while group conferences on W. A. and Sunday school work will be held from 2 till 3 p. m. daily. In the evening sessions lectures on social service topics will occupy the first part, to be followed at 9 o'clock by Dr. Gowen, who will lecture on various phases of "The Book of Ezekiel."

An especial feature to all those interested in the religious education of the young will be the group conferences on Sunday school work, to be conducted each day from 2 till 3 p. m. The first day the topic will be "The Child, the Boy, the Girl," Wednesday—Religious Education Through (a) The Home; (b) The Sunday School; (c) The Church. Thursday—Training for Christian Service (a) "Missions"; (b) "Social Service"; (c) "Citizenship"; (d) "The Ministry"; and Friday—The Spiritual Aim and Goal, The Spiritual Life of (a) The Child; (b) The Teacher; (c) "The School."

Wash That Itch Away There is absolutely no sufferer from eczema who does not feel immediately that wonderfully calm, cool sensation that comes when the Itch is taken away. This soothing wash penetrates the pores, gives relief to the itching, and cures the itching skin diseases.

BAPTISTS DISCUSS CHURCH AND LABOR "Constructive Democracy in Industry as Necessary as Political Democracy"

One of the most important reports presented to the recent convention of the Baptist Church of British Columbia was that of the social service committee, which was read by Rev. H. S. Bagnall of Nelson. This report dealt with such matters as social reconstruction, child welfare, gambling, the social evil and prohibition.

"We are convinced that the only factor capable of bringing about desirable social reconstruction in the definite and constructive application of the principles of Jesus to national, industrial, commercial, economic and personal relations of life. We can not better express our view of the church's responsibility in this crisis than to quote the declaration recently made by the Federal Council of the churches of Christ in America, or the demand of the hour upon the Christian church. 'A more effective proclamation of fundamental principles, a new sense of world responsibility animating all departments of church life; a resolute effort to understand what a Christian social order in America should be and to ensure it; and a swiftly increasing co-operation among the churches.'

Industrial Democracy. "That the teachings of Jesus are those of essential democracy, and express themselves through brotherhood and the co-operation of the groups. We deplore class struggle and declare against all class domination, whether of capital or labor. Sympathizing with labor's desire for a better day, and an equitable share in the profits and management of industry, we stand for orderly and progressive social reconstruction instead of revolution by violence.

"That an ordered and constructive democracy in industry is as necessary as political democracy, and that collective bargaining and the sharing of profits and management are inevitable steps in its attainment.

"That the first charge upon industry should be that of a wage sufficient to support our standard of living. To that end we advocate the guarantee of a minimum wage, the control of unemployment through government labor exchanges, public works, land settlement, social insurance, and experimentation in profit-sharing and co-operative ownership.

Tribute to Women. "We recognize that women played no small part in the winning of the war. We believe that they should have full political and economic equality with equal pay for equal work, and a minimum eight-hour day. We declare for the provision of adequate safeguards to insure the mental as well as physical health of the mothers and children of the race.

The report commends the work of the Child Welfare League and urges that moving pictures should be taken out of the commercial world and used as a part of the educational system. It also recommends the organization of

THE DESTINY of MAN

—or— What Lies Beyond the Grave

Speaker: S. J. Withers

Princess Theatre

Sunday, July 13

7.30 p. m.

All Welcome No Collection

Office workers should use Lifebuoy Soap. Think of the hundreds of dusty, germ laden things you must touch every day! Think of the danger to your skin. You need the best soap—and more—the best disinfectant. You get both in LIFEBOUY HEALTH SOAP. Its healing, soothing oils and grateful disinfectants thoroughly cleanse and disinfect—particularly useful for bruises, cuts, wind sores, etc. The carbolic odor in Lifebuoy is a sign of its protective qualities, vanishing after use. LEVER BROTHERS LIMITED, TORONTO, ONT.

# ORANGEMEN HOLD CELEBRATIONS TO-DAY

Parade and Speeches in Vancouver; Similar Programme in Toronto

Vancouver, July 12.—Over forty lodges were represented in the Orangemen's parade here to-day in commemoration of the "Glorious Twelfth." There were twenty lodges from this city, five from South Vancouver, ten from New Westminster and district, and eight from Vancouver Island, as well as some visitors from Blaine. It is estimated that about 1,000 took part in the parade. The programme at the park included speeches by Rev. A. D. Archibald and Rev. M. A. Baker, William H. Brett, Provincial Grand Master, being in charge of the proceedings. The celebration was the first held by the Orangemen here since 1912.

At Toronto. Toronto, July 12.—Orange Toronto celebrated the "Glorious Twelfth" with considerably more enthusiasm than had been shown during the years of the war. Early estimates were that from 8,000 to 15,000 men and women took part in the parade to Exhibition Park, where the speakers included Lieut. Gen. Sir Sam Hughes, in addition to local Orange leaders. There were 600 returned soldiers, some in uniforms, but most of them in civilian clothes, in the parade.

## THREE WIRE-TAPPERS HELD IN NEW YORK

New York, July 12.—John McSherry, describing himself as a salesman, and alleged by the police to be a member of a gang of "wire-tappers" who are credited with having floored victims out of \$1,000,000 in Buffalo, was arrested here to-day. McSherry's arrest followed that of Charles Drucker and William Jarvis. One of the principal victims of the Buffalo gang was Michael Connolly, a Montreal contractor who claims to have lost \$125,000 betting on a horse race in a bogus poolroom in Buffalo last December. A man arrived here yesterday from Buffalo with \$120,000 cash ball for Drucker and Jarvis, but after his arrival all three prisoners were ordered held in \$100,000 bail each and they are still in jail.

# STEEL STOCKS LED STRONG MARKET

New Buying Developed Following Yesterday's Reaction

(By Burdick Bros. & Brett, Ltd.)  
New York, July 12.—Well informed steel circles are expecting the current quarter earnings of the steel companies to be favorable, the reaction of yesterday was a signal for renewed buying in the group. U. S. Steel, Bethlehem Steel and Crucible Steel rapidly made up losses and closed at top figures for the season. Oil stocks showed improvement with prospects for betterment of the Mexican situation. Equipment stocks were strong, earnings are said to be far ahead of last quarter. Good buying of Pressed Steel Car is reported from Equipment circles. The only disturbing feature was the threatened strike of the shipworkers.

## RE-SALE PRICES IN UNITED STATES

Washington, July 12.—Renewed recommendation that manufacturers be permitted by law to fix and maintain re-sale prices, subject to review by a disinterested agency, was made by the Federal Trade Commission to-day in a special report to Congress. Existing laws which have been interpreted by the Supreme Court in the case against Colgate & Company and in the other test cases to prevent fixing of re-sale prices should be amended, the Commission believes, with a view to removing the present complexity in the business world, to promote the efficiency of manufacturing and commercial institutions and to serve the interests of the consuming public.

## The LOGICAL WAY

Looking at the question in a purely logical way, there is no reason for paying exorbitant prices for undertaking services. When we are called upon to take charge of obsequies, we bring tact, taste and skill to the task. And the same motive which impels us to do the very best we can also prevents us from taking advantage of the occasion to impose unnecessary expense upon the family we serve.

## COAL OUTPUT OF AUSTRALIA UNDER GOVERNMENT CONTROL

Melbourne, July 12.—Regulations have been passed under the War Precautions Act, putting under control of the Prime Minister of the entire coal output of the Australian Commonwealth. The measure empowers the Australian Federal Government to fix wages and conditions of employment in the mines and establish the price of coal.

Acting-Premier Watt, in announcing the new regulations, pointed out that the step had been taken in order to avoid a strike of the miners in New South Wales, through which the output of that state would have been stopped and many of the industries of the Commonwealth paralyzed.

**WHALEN PAPER CONCERN**  
Montreal, July 12.—The Whalen Pulp and Paper Mills have negotiated the underwriting by the Royal Securities Corporation and Peabody, Houghtaling & Company, of Chicago, of \$1,500,000 six per cent. first and refunding mortgage bonds of the company.  
The total bonds outstanding, including the new issue, are \$2,500,000, secured by specific mortgage on assets exceeding in value \$15,400,000.

## BIRTHS, MARRIAGE, AND DEATHS

**DIED**  
McFARLAND—On the 11th inst., at the Royal Jubilee Hospital, Joseph McFarland, aged 74 years; born in Ireland, a resident of this city for the past 7 years, late residence 31 Moss Street, formerly of McLeod, Alberta. He is survived by a nephew, Andrew Fitzpatrick, of this city.  
The funeral will take place Monday, the 14th inst., at 2 1/2 o'clock, from the Grand Funeral Chapel, and 15 minutes later Mass will be celebrated at St. Andrew's Cathedral by Rev. Father Leterna. Interment Ross Bay Cemetery.

**ST. JOHN RAILWAY.**  
Fredericton, N. B., July 12.—The St. John Valley Railway will be completed by the contractors so as to be handed over to the Dominion Government for operation as part of the Canadian National Railways before August 1, the date which was set some time ago, according to a statement made by Hon. W. P. Jones, president of the St. John and Quebec Railway Company and representative of the New Brunswick Government in the construction.

**ROYAL VICTORIA**  
It's a long way from London to Los Angeles, and a long step from "stock" actress to leading woman for Dustin Farnum, but neither was too long or too difficult for pretty Winifred Kingston once she set her ambition to work. Miss Kingston is the charming and lovable heroine in "The Light of Western Stars," which will be the attraction at the Royal Victoria again to-night. Born in London, Miss Kingston was educated in Scotland, France and Bel-

The Stage.  
Royal Victoria—Dustin Farnum in "The Light of Western Stars."  
Columbia—Priscilla Dean in "The Wildcat of Paris," and "The Lure of the Circus."  
Romano—Louise Huff in "Heart of Gold."  
Dominion—Mary Pickford in "Captain Kidd, Jr."  
Variety—Alice Joyce and Harry Morey in "Within the Law."  
Pantages—Vaudeville.

**BABY GOLDBERG.**  
**Thought she would not live.**  
The New Commercial Hotel, Hamilton, Canada.  
July 27th, 1916.  
I am enclosing you a photograph of my little girl Helen. Her life was undoubtedly saved by Virol. She weighed eight pounds at birth, but she did not thrive and when five months old her weight was seven pounds. She was in Grant Avenue Hospital in this city, suffering from a complication of meningitis and pneumonia and we had simply given up hope that she would live. The doctor then put her on Virol and the immediate improvement was so remarkable that the Virol feeding was continued and I am perfectly satisfied that she owes her present condition of splendid health to your wonderful food.  
Yours very truly,  
**GEORGE GOLDBERG.**

attraction because of her rare beauty and talent and her wide popularity with discriminating photoplay patrons has the role of Collette, a sort of a queen of crooks. The picture deals with her exploits in recruiting the notorious apaches of Paris for the government of which she had been an internal enemy so long. There is another side to the story, however, in the sacrifice which she makes to save from shame the fiancé of a man whom she (Collette) loved, but who did not love her in return.  
**ROMANO**  
All the dressmakers in this city are especially invited to see "Heart of Gold" while this new World Picture, starring Louise Huff and Johnny Hines, is being shown at the Romano to-day. The dressmakers will be particularly interested in this production because of the fact that the action of the play revolves around a big national-wide contest to secure the best design for a dress. Miss Huff is seen in this production in the role of Annie Wilks, a remarkably appealing role. Johnny Hines is seen in the role of Mike Monahan, her sweetheart. Other important roles are handled by Anthony Merlo, Grace Burton, Barney and other well-known film favorites. The story told in "Heart of Gold" is exceedingly interesting and novel. It is told in a snappy, attention-grabbing manner that is pleasing and delightful.

Yes, you can easily get rid of that Constipation by using  
**"RIGA"**

A Comedy in Two Parts.

gium. Her stage career commenced with "stock" from which she rose rapidly in her determination to make a distinguished success. Coming to this country her resolution was rewarded when she secured a leading role with Henry Miller. Transferring her artistic affections to the screen Miss Kingston scored successes in support of Dustin Farnum in "The Square Man," "The Virginian," and other pictures, and now appears with the United Picture Theatres of America's popular actor in his latest success, "The Light of Western Stars." In the role of "Majesty," the young actress portrays one of the most engagingly appealing characters ever written by the popular Western author, Zane Grey. Miss Kingston is a skillful athlete as well as an accomplished scholar. In fishing, riding and shooting she early acquired a proficiency which in addition to being healthy recreation has stood her in good stead in the practical equestrian demands made upon her in her role in "The Light of Western Stars."

**DOMINION**  
Once before has Mary Pickford played a Scotch role—in "The Pride of the Clan," one of her most popular Arctcraft pictures. In "Captain Kidd, Jr.," her new photoplay which will be shown at the Dominion to-morrow and all this week, she is again Scotch, but transplanted from the heather to somewhere in America, as the granddaughter of Angus MacTavish, keeper of a curio and bookshop where the buried treasure, which is the basic idea of the story, is first talked about. And Mary is said to be the most winsome, close-fisted, lovable and at the same time irritating little person you would find from one coast to the other. She keeps Jim Gleason, engaged in writing a novel, dangling till the very end. And she is a demon at a trade—so that when the book with the secret plan of the buried treasure appears, she is one of the foremost in arranging for the search which takes them to Cabbage Centre—and there-

**PANTAGES**  
Laughs galore will be the rule at the Pantages during the coming week, for the new programme of vaudeville will be a continuous round of fun and surprises.  
The 1919 Song and Dance review, a conglomeration of comedians, pretty girls, singers and dancers, featuring Kathryn McConnell, Ford Hamford and Toots McConnell, is a dazzling exposition of gorgeous costumes, beautiful scenery and pretty misses.  
Joseph Greenwald and Company will offer comedy playlet entitled "Lots and Lots of It," which will remind many of Calgary in the palmy days of the real estate boom.  
Bert Melrose, the International Comedian, will amuse with his inimitable pantomime and his famous Melrose fall.  
Myers and Weaves have without a doubt one of the most up to date novelties in vaudeville; they extract music out of the most commonplace tools and instruments that is the cause of much comment.  
Betty Brooks, billed as The Gladstone Girl, has a repertoire of dainty singing numbers.  
Amoros and Obey will present a combination of singing, dancing, acrobatics and comedy.  
**JUST IN TIME.**  
A gossiping old rustic the other day entered the local purveyor's establishment, and in the course of a lengthy discussion on the usual village topics inquired what had become of the butcher's pony, as he hadn't seen it lately.  
"E died yesterday," observed the man of choice and steaks, feelingly.  
"E 'adn't been well for some time; but what can I do for you, Giles?"  
"Well, O! did want some sausages," replied the old bumpkin, slowly, but with a suspicious glance at the long hanging strings of the bags of mystery exposed for sale. "O! think O'll take summat else this mornin'."

**CHAUTAQUA**  
**Seven Big Joyous Days**  
A Solid Week of the Best Music, Entertainment and Lectures that the Country affords—Edison-White quality. A Bigger and Better Programme than ever this year and the whole week is yours for the price of a Season Ticket.

**RED HOT JULY DAYS**  
**HARD ON THE BABY**  
July—the month of oppressive heat; red hot days and sweltering nights, is extremely hard on little ones. Diarrhoea, dysentery, colic and cholera infantum carry off thousands of precious little lives every summer. The mother must be constantly on her guard to prevent these troubles, or if they come on suddenly to fight them. No other medicine is of such aid to mothers during the hot summer as is Baby's Own Tablets. They regulate the bowels and stomach, and an occasional dose given to the well child will prevent summer complaint, or if the trouble does come suddenly will banish it. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.  
**HOW TO GET A JOB.**  
Don't start out with the idea that your best plan is to impress a prospective employer with what you consider you are worth.  
He doesn't want to know.  
He wants to know what you can do. It is his job to place a value on you.  
When an employer sees that you are not studying yourself so much as whether you can fit a niche in his business, and show him a profit on the venture, he will, in nine cases out of ten, "snap" at you and give you a chance.  
An applicant for a job, however, will fail if he goes into the office of an employer with an "I'm the-one-man-in-the-town-for-this-job" sort of air; dwells on his worth at his last place; considers that his experience is worth more, and that his real object in seeking a new berth is to try to better himself.  
That sort of attitude doesn't ring true. An employer is suspicious of the man who talks about bettering himself, naturally concluding that such a man will think more of that than of bettering the business.  
No, go slow. In other words, don't throw your weight about. Speak in all right in small doses now and again, and at the right time.  
And don't forget that to dash off a letter in stereotyped form in reply to an advertisement is waste of ink and paper. A hurriedly-written letter is usually a bad letter. It simply goes into the wastepaper-basket of the employer, who, above all things, wants care and accuracy.  
As Mr. Herbert Casson, the business specialist, says: "There must be something in your letter or your looks to attract favorable attention. It may be a flower in your buttonhole, or a neat, stamped, self-addressed envelope, for a keen eye will notice. You must make an employer want you more than he wants your wages. Go to him as one who wishes to help him with his business, not merely as one more name for the pay-roll."  
And when you have got the job, don't forget that that is only the first step. As long as you live, you must be looking for a better position than the one you have. As Mr. Casson truly says: "You can only get promoted by becoming too large for the job you already have." In his opinion, promotion depends upon the following ten-quali-

ties: keenness, quickness, skill observancy, courtesy, study, friendliness, reliability, loyalty and health.  
"In general, I might say that employers have three tests by which they measure the fitness of an employee.  
"What?—What does he do? What is the quality of his work?  
"How much? What is his output?  
"How? How does he do his work? What is his disposition.  
"So before you go hunting for a job, take stock of your abilities. Apply these tests to yourself, and see what you lack. Very likely you need a bit of reconstruction—most of us do."

after the tale is one of the most engrossing, amusing and whimsical character.  
On the stage this play by Rida Johnson Young was a great success. In the films with Mary Pickford in the lead it seems destined to create ever a greater furor, to judge from the reports emanating from the studio where it was recently completed by William D. Taylor. Frances Marlon adapted the comedy to the screen.  
A wonderful cast supports "Our Mary" Louise MacFadden is the leading man. "Captain Kidd, Jr." is a complete departure from the previous Arctcraft offerings, starring America's Sweetheart, and it should prove a welcome attraction for every kind of audience.  
Other attractions on the new Dominion programme include a remarkable Arctcraft picture, and here the Screen Trees Grow, and a snappy comedy, "In and Out," providing much entertainment.

**BELIEVE 1920 WILL BE GREATEST SPORTS YEAR IN CITY'S HISTORY**

**ALL ATHLETIC CLUBS ARE BUSY SIGNING ON NEW MATERIAL—Track Meets Will Be Revived—City's Colors Will Be Seen in Every Championship Meet in Northwest**

Predictions are now being freely made by directors of various branches of sport that 1920 will be the greatest year of athletics that this city has ever known. All the clubs are now organizing on very energetic lines, and while they do not propose to make any brilliant showing this season they are confident that a whole lot of new talent will be tearing around after new records next summer. It is interesting to note that the officers of the clubs are lining up any men who look as if they would develop into an athlete, and there is no doubt but that this scheme will result in the discovery of many new stars.

The Y. M. C. A. proposes to get back into its old stride and has secured an assistant physical director A. G. H. Martinson, a veteran of the war, and a former track man of Vancouver. Martinson will devote a great deal of his time to developing new men for the cinder track. Before the war the Association developed several brilliant sprinters and runners and a large amount of silverware was collected at outside meets and brought here. People would like to see the old track meets inaugurated once more.

**TO DEVELOP ROWERS.**  
The James Bay Athletic Association, while specializing in rowing, will not devote its entire attention to shell-work. It proposes to develop track meets with enterprising results. Practically every league organized in this city, in the rowing branch the Bays promise to become more formidable than ever. A number of the older oarsmen are now working out and Dan O'Sullivan is breaking in a bunch of novices who give promise of being just about as good blade-swingers as ever-saw in a boat. Next year will see the Bays entered in every regatta on the coast and it is safe to predict that their cabinet of silverware will be further ornamented.

**THINK JONES' ENTRY INTO HOCKEY A JOKE.**  
Frank Patrick Says Con Has Not Applied For Franchise; Portland Wants Team

Vancouver, July 12.—The fact, if it be a fact, that Con Jones, former Vancouver lacrosse player, has entered into the Montreal hockey, as intimated in a press report from the eastern metropolis, was news to Frank A. Patrick, president of the Pacific Coast Hockey Association. Mr. Patrick said the newspaper despatch was the first he had heard about Mr. Jones' application for a franchise in the coast hockey circuit. A formal application was made Mr. Patrick said it would receive the consideration of the league at its annual meeting, which will probably be next November.

**Winter Sport Will Boom.**  
This winter Victorians will be able to witness some of the fastest soccer games that have been played in this city. In the senior, intermediate and junior leagues strong teams will be entered. Before the war broke out the standard of football played in this city was very high. The storm in Europe, however, broke up every team and since then the play has been mediocre. Rugby football will also be back on its pre-war basis this winter. Amateur hockey teams will be greatly strengthened with the return of a number of brilliant puck-chasers. Lacrosse, which is going very strong this year in the B. C. League, promises to be keener between local teams next season. The Foundations have collected a nifty aggregation of stick-handlers for the provincial championship and are well on their way to that honor, but in the city series the game is not going well. A lot of the boys are back, but as the season is well on they do not feel like turning out. They will be all coveting about next spring.

**May Have Pro. Bll.**  
There is a possibility that Victoria may have a professional ball team next year. The Northwestern League will be reorganized and the capital will certainly be represented. If a team of ball-players can be gathered together like the Tyees of this year, pro ball will be good any time in this city. Every other branch of sport will be entered to by the clubs next year and Victorians can look forward to a great year. The colors of this city will be seen in every championship meet in the Northwest.

**ESQUIMALT GUN CLUB WILL SHOOT TO-MORROW**

To-morrow morning, commencing at 11 o'clock, the Esquimalt Gun Club will hold its second shoot for the club trophy at the club grounds on Admirals Road. The shoot will consist of twenty singles and five pairs.

**YANKES RELEASE PLAYERS**

Cleveland, Ohio, July 12.—The release to the American Association team of two players by the New York American League Club is announced by Manager Huggins. Outfielder Halage to St. Paul and infielder Jones to Toledo.

**LACROSSE**

American League	Won	Lost	Pct.
Chicago	44	25	.638

The results of Thursday night's games in the Intermediate Baseball League were as follows:

North Wards	Won	Lost	Pct.
Victoria West	12	3	.800
Crusaders	11	3	.786
Reliables	6	3	.667
Gorge	5	3	.625
Beacons	4	3	.571
Crusaders	3	3	.500
Reliables	3	3	.500
Civil Service	0	9	.000

**LOOKING THINGS OVER**

**Pearl Old Tyrus Has Hit the Skids.**  
When Tyrus Cobb's name failed to appear in the batting averages of the American League last week everyone wondered what had happened to the Georgian Peck. Cy simply couldn't see the apple and he slipped from first place to a lowly position. The averages to-day, however, show that Ty has succeeded in getting back into the limelight, but there are four regulars blocking his way to the top rung. Roger Peckinpugh, the Yankees' shortstop, is setting a pace that even Cobb, with all his speed, will have a hard job to keep up with. The Detroit outfielder has led the American league in hitting for so long that the fans will welcome a new hero. Every star has his day, and by the way this chap Peck is facing the pill it looks as though Mr. Cobb is for once going to be beaten out for the premier honors. Peck has hit safely in thirty-one consecutive games. Joe Jackson, Veach and Flagstead are all ahead of Cobb in the averages.

**People Will See Real Diving at P. N. A. Meet.**  
Fancy diving is a real art, and an art which few people really understand. Many persons are apt to mistake the style of a champion diver in what may seem a desire to pose and exhibit a beautiful figure. This is entirely wrong. At the P. N. A. championships to be held at the Gorge next Saturday Victorians will be privileged to witness two of the finest lady divers on the Pacific Coast. They have been highly coached in the art of diving. Generally a diver is judged from his position in the air and the amount of splash made on entering the brine. These are two essentials, but other points must be considered. Stomping on the springboard is not tolerated. Fancy divers eliminate this by posing on the float. When they step on to the board they have complete control of their bodies and will gracefully to the take-off, where after a further pose they spring lightly. The position in the air counts a great deal. The symmetry of the body, legs, arms and feet is all important. This is where the lines of a perfect physique accentuate the beauty of a dive.

**France's New Lady Tennis Champion.**  
The tennis world is greatly interested in the new star who hails from France. During the recent tournament at Wimbledon Suzanne Lenglen sprang into fame by winning the ladies' singles and the next day added another triumph coupled with an American girl, by capturing the ladies' doubles. Miss Lenglen is only twenty years of age and she is described as one of the fastest of her sex ever seen on an English court. A brilliant future is predicted for her by Old Country authorities and next year may see her over in this country clearing up the many stars who are annually springing up.

**MANY LOCAL WATER STARS ENTER GALA**  
Great Preparations Being Made For Finest Swimming Meet Ever Held in Northwest

Some of Victoria's entries in the big P. N. A. swimming gala on Saturday next will be as follows:  
Audrey Griffin—50 and 100 yards dashes for ladies; plunge for distance; 100 yards back stroke, and 100 yards breast stroke.  
Mrs. Martin—100 yards breast stroke.  
D. Grubb—50 and 100 yard dashes; 100 yard breast stroke and 100 yard back stroke.  
Buck Calder—Back and breast strokes.  
George Devereau—Plunge for distance and breast stroke.  
Goddard—Breast stroke.  
Wenger—Breast stroke.  
Fryer, Matthews—50 and 100 yard dashes.  
Vivian Dominey—50 and 100 yard dashes.  
Lawrence, ex-220 yard Canadian Champion—Plunge for distance.  
The Victoria polo team will consist of the following: Goal, Irving Blythe; backs, F. Lawrence and Stan Warr; half-backs, Ernie Worth, forwards, Harry Boyd, D. Grubb and George Devereau.

**Construct Special Tanks.**  
Great preparations are being made by the Arrangement Committee of the Victoria Athletic Association in regard to the tanks in which the swimming championship events will be contested next Saturday afternoon at the Gorge. Special large tanks have been constructed at a considerable expense. A great number of logs have been procured and they are being dovetailed together so that the course will be perfectly rigid and will not be affected by tidal conditions.

**Are Carrying Burden.**  
Williams, Clotte and Faber are carrying the burden for the Gleason gang, with only occasional assistance from Shellenbach, Kerr and Danforth. Huggins is able to thrum Quintin, Shawkey, Shore and Schneider into the fray in regular order, and he has to fall back on Russell, Mogridge, O'Doul and Nelson, any one of whom would be welcomed with a brass band by about seven other clubs.

**Best Arrangements Possible.**  
The V. I. A. management feel that as this event is probably the biggest aquatic meet that has ever been held in Western Canada it is incumbent upon them having the utmost care taken upon them to have all arrangements and conditions on a par with the best that could be produced by clubs on the other side of the border.

**League Baseball**

**Daring Dive.**  
One of the stunts has named one of his dives as a two-and-a-half back somersault, which is considered to be one of the most difficult acrobatic feats ever performed and unless the diver is perfectly fit and has a considerable distance from the board to the water is absolutely correct this dive might result in very serious consequences for the person attempting same.

**Daring Dive.**  
The high diving tower which was blown down at a recent gala is being reconstructed under the supervision of Al Davies and James McCall. Special timbers have been prepared for the lower portion to prevent a repetition of the last mishap, and it is the intention to raise it up as far as possible so that one or two spectacular dives may be added to the programme.

**Daring Dive.**  
The high diving tower which was blown down at a recent gala is being reconstructed under the supervision of Al Davies and James McCall. Special timbers have been prepared for the lower portion to prevent a repetition of the last mishap, and it is the intention to raise it up as far as possible so that one or two spectacular dives may be added to the programme.

**SIDNEY WINS TO-DAY'S LACROSSE BY DEFAULT**

Owing to the inability of the Nationals to field a full team the lacrosse which was to have been played at Sidney this afternoon will go to the Sidney team by default. The Nationals tried to get a team together, but they have been laboring under difficulties ever since the season opened. The Nationals are scheduled to play Victoria West on Wednesday night and may turn out to give the league leaders a tussle.

Wincarnis gives New Health to all who are Weak, Anaemic, Nervous, Run-down

DON'T let your life be clouded by indifferent health. Don't let ill-health steal your good looks. Don't remain weak, or anaemic, or nervous, or run-down. Don't suffer needlessly. Get well the Wincarnis way—the quick, sure and safe way to new and vigorous health.

Anemic, Nervous and Run-down. Because Wincarnis quickly brings back your old-time vigor—gives a sparkle to your eyes—and causes the roses back to your cheeks. You look well—feel well—eat well—sleep well—and can revel in the new health and new life Wincarnis creates. But, remember, that only Wincarnis can give you this new and vigorous health. Imitations only waste your money and disappoint you.

Remember that Wincarnis is not a new untried preparation. Wincarnis has an unvaried reputation of nearly 40 years standing. Begin to get well now. Buy a bottle to-day. Sold only in two sizes—\$1.00 and \$1.75.

Ask your Doctor. Get it at your Druggist's.

A combination of Extract of Beef, Extract of Malt, Iron and Manganese, Glysters, Phosphates of Calcium, Potassium and Sodium with a specially selected wine, A Tonic, Restorative, Blood-builder and Nervous Food. Prescribed by the Medical profession for Anemia, Debility, Sleeplessness, Brain Fatigue, Nervousness, Languor, Fidelity, La Grippe, Menstrual Irregularities and Convalescence from any illness.

In two sizes: \$1.00 and (extra large bottle) \$1.75

DISPUTE AS TO WHEN WILLARD WAS LICKED

Referee and Timekeeper Disagree; Pecord Says Dempsey Won in Third Round

Toledo, Ohio, July 12.—Disagreement between Oliver Pecord and W. Warren Barbour, referee and timekeeper, respectively, of the Willard-Dempsey championship bout here July 4, became public to-day when Pecord announced he had received a letter from Barbour in which Barbour declares the bout ended in the fourth round.

On the day following the bout Pecord announced in his official capacity that the affair ended in the third round as the towel was thrown into the ring before the bell sounded for resumption of hostilities in the fourth. According to the Barbour letter the bell rang for the fourth round before the token of defeat appeared on the score.

Pecord said that in his reply to Barbour he will adhere to his original ruling on the ground that as the referee heard no bell and as neither boxer nor their handlers gave any indication of hearing the fight technically stopped at the conclusion of the third round.

Referee Pecord is receiving letters from all over the country asking him for his opinion as to which round the fight terminated.

LOCAL TENNIS PLAYERS DO WELL IN TOURNEY

Victoria tennis players engaged in a successful tourney with the South Cowichan Tennis Club at Koksilah yesterday and won 17 matches out of 24. The winners were as follows:

Men's Singles. H. G. Garret beat N. T. Corfield, 6-2, 6-4. A. M. D. Fairbairn beat F. L. Kingston, 6-2, 6-2. D. M. Gordon beat E. Stilwell, 7-5, 6-3. Y. Westwood beat R. Barkley, 10-8, 6-3.

Ladies' Singles. Miss Lawson beat Miss Pegg, 6-4, 6-1. Miss Idiens beat Mrs. Hutchinson, 6-1, 6-4. Mrs. Rickaby beat Mrs. Kennington, 6-4, 5-2.

Men's Doubles. Garrett and Fairbanks lost to N. Corfield and Kingston, 3-6, 6-1, 6-2. Gordon and Westwood beat Stilwell and E. Corfield, 1-6, 5-6, 6-0.

Ladies' Doubles. Miss Lawson and Miss Idiens beat Mrs. Hutchinson and Miss Pegg, 6-2, 6-4.

Mrs. Fairbairn and Mrs. Rickaby

beat Miss Hayward and Miss Geoghagan, 6-2, 6-1. Mrs. and Miss Leeming beat Mrs. Kennington and Miss Maitland, 6-2, 6-1. Mixed Doubles. Mr. and Mrs. Fairbanks beat Miss Maitland and Corfield, 5-7, 6-1, 6-1. Miss Lawson and Garret beat Miss Hayward and Kingston, 6-2, 6-1. Miss Idiens and Gordon beat Miss Pegg and Stilwell, 9-7, 7-5. Miss Leeming and Westwood beat Miss Geoghagan and Hayward, 6-0, 6-1. Miss Bradford and Ridewood lost to Miss Stilwell and E. Corfield, 6-4, 6-2. Mr. and Mrs. Leeming lost to Mrs. Hutchinson and Barkley, 6-1, 6-3.

COLONEL BOYLE WINS THE EDMONTON SWEEP

Three-Year-Old Ran One Mile in Fast Time; Katie Todd Sprang Surprise

Edmonton, July 12.—Yesterday was "Travelers' Day" at the fair and the Knights of the Grip began with a monster parade along Jasper Avenue, headed by Lieut.-Governor Brewster. Crowds from the country were again large and the last day's horse racing was watched with keen interest.

To-day automobile daredevils have the track, and the drivers are after the Canadian national record for the mile and the world's half-mile dirt track record for 7 1/2 miles.

In the horse races Katie Todd sprang a surprise, taking the last heat of the 2 1/2 trot after running third and fourth in the previous heats apparently without a chance. The first two heats went to Red Star. Both horses are entered by Dompier of Brandon.

The Edmonton sweepstakes went to Col. Boyle in easy style. The summary is as follows:

First race—2 1/2 trot purse \$300: Red Star, A. McKillop, Calgary, 1 1 4 Katie Todd, A. McKillop, Calgary, 4 3 1 Dean Swift, B. Dompier, Brandon, 3 2 2 Tom Carlyle, Hunter, Roseman, 2 4 3 Time, 1:13 1/2, 1:13 1/2, 2:16.

Second race—4 1/2 furlong, two-year-olds: Min McLeod, Franklin, McLeod, first; Little Miss, J. Bernard, Calgary, second; George Pearson, C. E. Archer, Edmonton, third. Time, 54 1-5.

Third race—5 furlong, Western Canada, bred horses, 3-year-olds: Ben Royal, J. C. C. Bremner, Bremner, first; Play Me, Ed. Adams, Calgary, second; Skookum, C. E. Archer, Edmonton, third. Time, 1:00 3-5.

Fourth race—Scratched. Fifth race—1 mile and 70 yards: The Edmonton sweepstakes, 3-year-olds: Colonel Boyle, George Addison, Lethbridge, won; Joe S. D. P. McDonald, Cochrane, second; Chandler, R. Stralendorff, Millarville, third. Time, 1:1 1-5.

Sixth race—1 mile, selling, purse: Bonnie Buck, R. Emmert, Connor's Creek, won; Royalty, O. Rice, Edmonton, second; Lady Dunbar, Stralendorff, Millarville, third. Time, 1:45 1-5.

TRACK STAR SAYS HE CAN BUST HIS RECORDS

Gary, Ind., July 12.—A new era of athletics is upon us. Jess Willard, ex-heavyweight champion of the world, is the father of five children. Johnny Kilbane, the featherweight champ, is head of a good-sized family, though his home recently was saddened by the loss of a little daughter. And then there is Jole Ray, famous track star.

Quite frequently stars of the ring are men of family, but very rarely do you find a star of the track or field a victim of Cupid's wiles.

But Jole Ray is Ray broke all records after he was married. He was a mighty good athlete before. Now he is running better than ever.

Jole loves the game. He is married and father of a pretty little three-year-old daughter, and they live in a modest little house. But inside that house is a collection of medals, cups and plaques—evidence of Ray's prowess—that easily are worth \$14,000. There are 600 medals worth about \$9,000, and 38 huge silver trophies worth \$3,200.

Two weeks after he was married he set a new mark in the mile, doing it in 4:14 3-5. Then followed victory after victory.

Ray is now 24. He seems to be getting better each year. He says he can better every mark he has set.

Ray does not smoke, chew or drink. He lives a clean life, and he's the champion of them all.

Ray's records are as follows: 1,000 yards ..... Time 2:13 2-5 3-4 mile ..... Time 3:04 2-5 1 mile ..... Time 4:14 3-5 1 1-2 miles ..... Time 6:45 2 miles ..... Time 9:11 1-5 3 miles ..... Time 14:33

Holds all Central A. A. U. records from 1-2 to 10 miles. Has won the Central A.A.U. 6 1-2 mile cross-country race every year since 1912.

Holds the Senior National A.A.U. mile record. Holds the Junior National A. A. U. 5 mile record.

Table with columns for Temperature, Max, Min, and locations: Barkerville, Portland, Ore., Seattle, San Francisco, Cranbrook, Penikese, Grand Forks, Kaslo, Edmonton, Qu'Appelle, Winnipeg, Toronto, Ottawa, Montreal, St. John, Halifax.

BOECKH'S RUBBER SET BRUSHES. IMPORTANT JUDGMENT BY COURT OF APPEAL. THE action brought against the BOECKH COMPANY, LTD., to prevent their using the descriptive words "RUBBER SET" on, and in connection with their Brushes, has been dismissed with Costs against the Plaintiffs by the unanimous judgment of the Court of Appeal, which affirms the judgment of the Trial Judge, the Honorable Mr. Justice Masten.

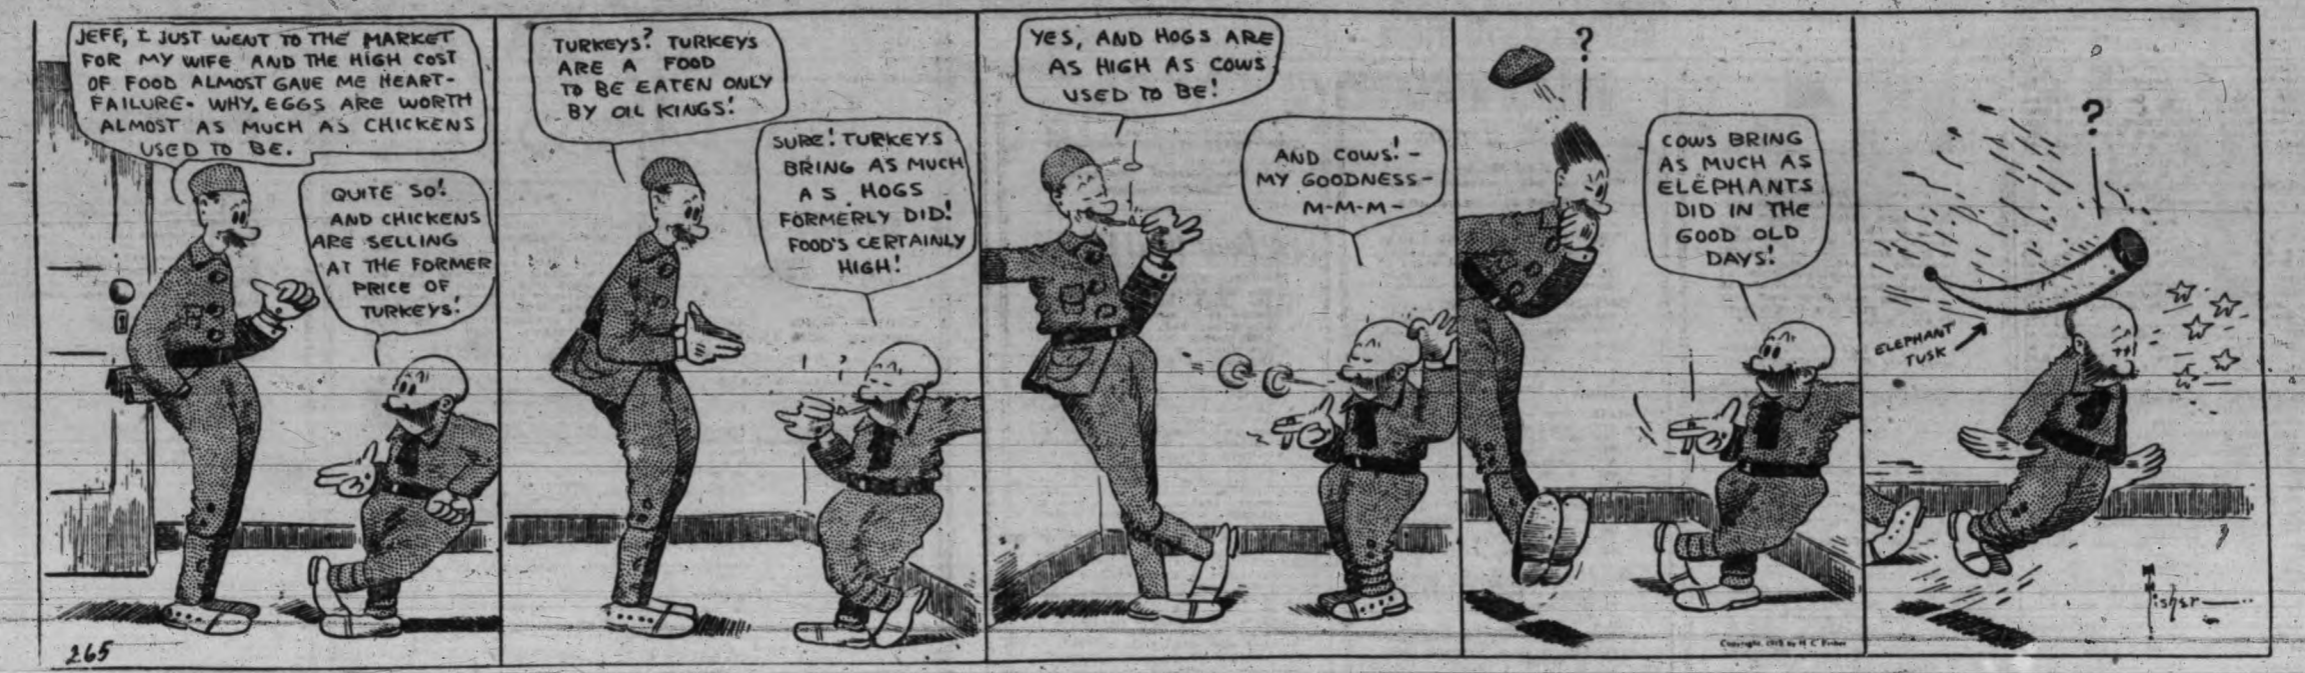

BAD FOR THE FLIES. "I have here," said the long-haired young man, "the plans of a new self-filling, two-gear, upright, baby-garden fly-extinguisher." "Let me see," said the weary Invention Clerk.

There's a Great Difference Between Home-Made and Baker's Bread. While both seem alike, there's one thing that you know is different—and that's the taste. And, that taste is there for some reason—home-made bread is richer in gluten. Gluten is the nourishing, body-building part of the wheat—of the utmost importance to the welfare of the growing child.

# Frontenac Takes to Water in Fine Style

### Tenth Ship of French Contract Successfully Launched From Foundation Company's Point Ellice Plant Last Evening—Most Advanced of Fleet

Historically named, the good ship Frontenac, tenth of the fleet of twenty 3,000-ton wooden steamships to be disposed of by the construction plants of the Foundation Company for the French Government, was successfully launched last evening at Point Ellice.

Owing to the vagaries of the tides the vessel was not released from the ways until 5 o'clock, thirty minutes after the scheduled hour. When the signal was given by Superintendent Joe McKay that the water was sufficiently high to float the big hull the release was promptly effected and the trim vessel glided gracefully down the ways towards her element. Simultaneously with the first movement

during the course of the construction programme. Smart Transfer. Record time was made in transferring the Frontenac from the Upper Harbor basin to the Ogdén Point outfitting plant. In charge of Capt. T. J. Jackson and in tow of the tug Spray and Swell, with the Dorothy assisting, the big-hull was towed to Ogdén Point, where she was berthed exactly an hour and a quarter after getting clear of the launching ways. The next hull to be launched on this contract is scheduled to take to the water from the Point Hope yard next Friday. The last of the twenty vessels will be afloat by the latter part of October.

Forceful Blow. The sponsor delivered a blow of such force that the champagne container was shattered beyond all semblance of recognition and flying pieces of glass slightly lacerated the lady's right hand, the glove being pierced. First aid was rendered by Dr. W. J. C. Tomalin and Miss Muriel Grimmer, who were among those present as the guests of the sponsor. The sponsor smilingly watched the newly christened ship take to the water in splendid style.

Presentation Made. As the drifting hull was picked up by waiting tugs, Edward E. Jenkins, assistant Northwest manager of the Foundation Company, who was in charge of the launching ceremony, stepped forward and expressing a few complimentary phrases on the success of the event, presented the sponsor on behalf of the Foundation Company and the French Government with a handsome gold vanity case upon the face of which was engraved "From the good ship Frontenac to her sponsor, July 11, 1919." The Foundation Band played patriotic and popular selections during the ceremony.

Employees Interested. The employees of the Point Ellice yard knocked off work at 4:30 o'clock and the boys stayed around to witness the splendid product of their labors go afloat.

The ship cut the water to the strains of "The Marseillaise" and her debut was signalled by the customary vocal and mechanical noise.

The French Government was represented by A. O. J. Francis, French Consul, Mr. and Mrs. Griffith R. Hughes, B. C. Nicholas, Capt. Percy Beasley, Mr. and Mrs. S. C. Ruck, Mr. and Mrs. A. C. Burdick, Captain and Mrs. J. W. Croup, Dr. and Mrs. W. J. Tomalin, Mr. and Mrs. C. H. Winterburn, Captain and Mrs. W. J. Stephens, Mr. and Mrs. H. Barnett, Captain and Mrs. W. H. Whitley, Captain and Mrs. T. J. Jackson, George H. Wayton, Mr. and Mrs. M. G. Winters, Mr. and Mrs. E. W. Condit, Mr. and Mrs. W. R. Dale, Mr. and Mrs. John Gaskin, Miss J. McKenzie, Mr. and Mrs. H. P. Hodges, Miss E. Bruce, Mr. and Mrs. Alex. Inglis, Mr. and Mrs. R. Towler, Vancouver; Miss Muriel Grimmer, Mr. and Mrs. Ronald Kenyu, Vancouver; Mr. and Mrs. R. Struthgen, Mr. and Mrs. B. F. King, Mrs. Ethel M. Meyer, Mr. and Mrs. F. Moriarty, H. Wilson, Mr. and Mrs. W. Clark, Mr. and Mrs. C. F. Earle, Mr. and Mrs. W. E. Adams, Captain and Mrs. W. H. Logan, Mr. and Mrs. J. S. H. Matson, Mr. and Mrs. C. F. Campbell, Mr. and Mrs. George Grant, Mr. and Mrs. E. F. Cook, Mr. and Mrs. Lincoln Smith, Mr. and Mrs. L. Collins and Mr. and Mrs. E. E. Ewers.

Ship at Ogdén Point. After the launching ceremony the Frontenac was picked up by tugs and towed to the Ogdén Point outfitting plant in the Outer Harbor.

In point of construction the Frontenac is the most advanced of any of the ships yet sent afloat.

Practically the whole of the bridge structure and midship housework is complete.

The mechanics have just to "drop" the engine and boiler into the vessel and she will be ready for her trials.

It is considered probably that an outfitting record will be made on the Frontenac.

Speedy Construction. The keel of the Frontenac, then officially known as Hull 220, was laid on March 25 of this year. Thus 104 days elapsed from actual keel-laying to date of launching, which, exclusive of Sundays and holidays, averages out at eighty-eight working days covering construction operations. This, it is officially stated, is the second fastest time made for a single ship

## STRIKE AT CANADIAN VICKERS CALLED OFF

### Laborers Returning to Work at Montreal Monday; Iron-workers Negotiating

Montreal, July 12.—The strike at the shipbuilding plant of the Canadian Vickers, Ltd., which caused 1,600 employees to be idle for over five weeks, has been called off as far as the laborers of the Marine Federation are concerned. The 1,700 or 1,800 thus concerned will resume work Monday morning, the vote being 73 per cent. in favor of accepting the amended offer of the company. The new schedule is to be retroactive to April 1, so that the concessions asked by the workers in this connection have been granted.

The other 1,700 on strike, chiefly boilermakers and iron shipbuilders, are still negotiating with the company, but it is believed they will also reach a settlement.

## NIAGARA WILL BERTH FROM SOUTH TO-NIGHT

The Canadian-Australasian liner Niagara, Capt. J. T. Hollis, is due to berth at the launching ways to-night from Auckland. The liner, which is bringing in a large list of passengers from the Antipodes, should come alongside the Outer Docks about 8:30 p. m.

## COPPER SALVAGED FROM MARIPOSA IS BEING SENT SOUTH

Vancouver, July 12.—The first shipment of salvaged copper ore from the wreck of the S. S. Mariposa left Sumner Strait yesterday on board the Redondo. It is being sent to Tacoma smelter. The Mariposa was carrying 1,100 tons. This shipment consists of 350 tons. The salvage workers have not yet been able to examine the hull of the sunken ship sufficient to determine whether she will be worth salvage.

Smithson: "Come with me to the Zoo!"  
Fimleton: "No, thank you; I'll stay at home. My eldest daughter does the kangaroo walk, my second daughter talks like a parrot, my son laughs like a hyena, my wife watches me like a hawk, my cook is cross as a bear, and my mother-in-law says I'm an old gorilla. When I go anywhere I want a change."

## Will Dock To-night From Australasia

The C. P. O. S. liner Empress of Japan, Capt. W. Dixon-Hopcraft, R. N. R., which is running a day ahead of her schedule, is expected to make this port on Tuesday from the Orient.

## BOY BURNED AT QUARANTINE STATION

Willie Woodward, ten-year-old son of Mr. and Mrs. George Woodward, of 582 Toronto Street, was this forenoon seriously burned about the face and arms by an explosion at the William Head quarantine station.

The little fellow, who was spending his holidays at William Head in company with his father, while playing around the station this morning thoughtlessly attempted to explore with a lighted match a 40-gallon gasoline tank located on the Government property.

An explosion resulted and the boy sustained painful burns about the face and right shoulder. Immediate aid was rendered by the doctor at the quarantine station and the lad was rushed to the city by his father and Capt. Everall, and taken to St. Joseph's Hospital for treatment.

He is now in the hands of Dr. Fraser and is reported to be progressing satisfactorily.

## MANY SHIPS ARE AFFECTED BY STRIKE ON ATLANTIC COAST

Philadelphia, July 11.—Thirty-four ships of the United States Shipping Board's fleet and privately-owned boats flying the American flag now at this port, loading or discharging cargoes, are affected by the strike of union firemen, oilers, waterenders and coal passers. The strike was called on Wednesday. The strikers claim two shipping firms have accepted their terms.

## WEAK MOTHERS REGAIN HEALTH

Through the New Block Dr. Williams' Pink Pills Actually Make. No mother should allow nervous weakness to get the upper hand of her. If she does worry will mar her work in the home and in her body and mind. Day after day spent amid the same surroundings is enough to cause fretfulness and depression. But there are other causes as every mother knows. The nervous system is run down. A change would benefit her jaded system, and rest might improve her blood so as to give the nerves a better tone. But rest and change are often impossible, and it is then that all worn out women should take a short treatment with Dr. Williams' Pink Pills, which make new blood, rich with the elements on which the nerves thrive. In this way these pills restore regular health, increased energy, new ambition and steady nerve. There is a lesson for other women in the case of Mrs. Harry P. Snider, Wilton, Ont., who says: "Five years ago my twin babies were born, and I was left very weak and very miserable, hardly fit to do anything. The doctor gave me medicine, but it did not help me. Then I tried another doctor, but with no better results. One day I went home to my mother, telling her how miserable I felt, and that the doctor's medicine had not done me any good. Mother asked me why I did not try Dr. Williams' Pink Pills, and as I was glad to try anything that might help me, I got three boxes when I went back home. By the time these were used there was no doubt they were helping me, and I got three more boxes. But I did not need them all, for by the time the fifth box was used, I was entirely cured, and never felt better in my life. Now when I hear people talk about feeling weak or miserable I always recommend Dr. Williams' Pink Pills, and tell what they did for me, and in similar cases I shall continue to recommend them." At the first sign that the blood is out of order take Dr. Williams' Pink Pills, and note the speedy improvement they make in the appetite, health and spirits. You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## ASIA TOUCHED ROCK IN VANCOUVER HARBOR

### Big C.P.O.S. Liner Had Enforced Stay at This Port

As the giant Canadian Pacific Ocean Services liner Empress of Asia was clearing Vancouver harbor yesterday on route to the Far East via this port she grazed a submerged reef in Burrard Inlet and sustained a few dented plates on the port side. Capt. Barney Johnson was the pilot in charge of the bridge when the Asia left Vancouver. Capt. W. Davison, R.N.R., commander of the liner, as a precautionary measure, flashed a wireless message to the Pacific Salvage Company and when the big liner arrived at the Outer Docks late yesterday afternoon the salvage steamer Alaskan with diving equipment was alongside.

### ST. MICHAEL'S HAS NINTH PRIZE-GIVING

Picturesque Event at Mrs. Rattenbury's Yesterday; Entertainment Varied

Staged in the lovely grounds at the home of Mr. and Mrs. Rattenbury, Beach Drive, yesterday afternoon, the ninth annual prize-giving of St. Michael's School for Boys, attracted its usual large gathering of parents and interested friends. In addition to the formal distribution of prizes by Dean Quinlan, the pleasing programme included recitations and scenes from Shakespearean plays and a fine exhibition of drill, each item evoking considerable applause from the admiring onlookers.

**Drill Awards.**  
Major Nelson, assisted by Messrs. Tunnard, Spurgeon and Dexter, three returned officers, officiated as judges of the drill, which included various Swedish and military exercises culminating in the formation of an effective pyramid. The three cups presented by Mrs. Symons, wife of the headmaster, were awarded as follows: For Seniors, to H. Beck; for Juniors, A. Powell; for "Midgets," Kyrie Symons.

In a brief address to the gathering, Mr. Symons gave a short account of the growth of the school, which now consisted of three masters and fifty-nine boys, as compared with two masters and fifteen boys two years ago.

**Varied Entertainment.**  
The dramatic part of the entertainment was opened by Forms 1 and 2 with recitation of French rhymes, followed by Form 3 with Latin and English. Forms 4 and 5 respectively presented scenes from "King Lear" and "The Merchant of Venice," with excellent effect. Those taking part in "King Lear" were as follows: Lear, J. Connell; Gonzill, W. Winter; Regan, L. Scott-Moncrieff; Cordelia, J. Langley; Kent, R. Hennell; Gloucester, J. Wolfenden; Burgundy, J. Gurney; France, J. Dallain. The parts in the scene from "The Merchant of Venice" were allotted as follows: Portia, Ian Stirling; Shylock, G. Hennell; Duke R. Jones; Antonio, H. Powell; Gratiano, A. Hodgins; Salanio, D. Duke; Nerissa, E. Martin.

**Sports Progress.**  
The games master, Mr. Milton, reported on the sports progress at the school. The second annual sports meeting was a great success, competition being very keen in all classes, the Senior championship being won by E. Money and the Junior by G. Hennell. Thanks for cups donated in this connection were due to several friends, and to Mr. Ross and Mr. Townsend for the loan of a playing field.

**Prize List.**  
The following is the prize list:—  
Form 5—First, presented by Commander B. S. Hartley, won by L. Hyndman; Mathematics, presented by G. P. Napier, won by G. Hennell; French, presented by Dr. E. M. Fearcar, won by R. Scott-Moncrieff; Latin, presented by D. B. McConnan, won by C. Walker; English, presented by Very Rev. Dean Quinlan, won by E. Money.

Form 4—First, presented by Mrs. Slingsby, won by R. Hennell; Mathematics, presented by Lady Aglen, won by A. Powell; French, presented by Lt.-Col. Hodgins, won by L. Scott-Moncrieff; Latin, presented by J. H. Hinton, won by J. Wolfenden; English, presented by Mr. Henderson, won by J. Langley.

Form 3—First, presented by P. F. Curtis, won by L. Hinton; Mathematics, presented by Hon. Mr. Justice McPhillips, won by I. Kennedy; French, presented by Mrs. Gurney, won by C. Dupont; English, presented by Commander L. Backler, won by W. Redpath; Latin, presented by T. N. Hibben, won by D. McConnan.

Form 2—First, presented by A. J. Dallain, won by A. Farrer; Arithmetic, presented by Major Spurgin, won by J. Russell; French, presented by Rev. R. Connell, won by M. Payne; Latin, presented by J. Martin, won by E. Symons; English, presented by Mrs. Hole, won by C. Tunnard.

Form 1—First, presented by Mrs. A. R. Hennell, won by T. Gurney; Arithmetic, presented by Dr. and Mrs. Stirling, won by A. Case; Languages, presented by H. H. Beck, won by L. Backler; English, presented by Mrs. J. R. Redpath, won by F. Barclay.

**Special Prizes.**  
Essay—Form 5, presented by Mrs. Monckton Case, won by E. Money; Form 4, presented by Kyle Symons, won by W. Winter; Form 3, presented by Mrs. Meredith Jones, won by W. Redpath.

Writing—Form 2, presented by Mrs. Farrer, won by P. Homer; Form 1, presented by W. W. Wolfenden, won by L. Backler.

Conduct (Open)—Presented by Mrs. Kyrie Symons, won by I. Stirling. Industry (Open)—Presented by A. D. Muskett, won by I. Dallain. Best "Spir"—Open, (decided by vote) of the boys, presented by Mrs. S. Morley, won by H. Beck.

**Cups.**  
Drill—Seniors, presented by Mrs. Kyrie Symons, won by H. Beck; Juniors, presented by Mrs. Kyrie Symons, won by A. Powell; "Midgets," presented by Mrs. Kyrie Symons, won by Kyrie Symons.

Best Bowling Average—Presented by Sam Scott, won by A. Powell. Best Batting Average—Presented by W. H. W. Reade, won by E. Money. Junior Cricket—Presented by E. Money, Capt. of games, won by K. Symons.

Three "Victor Luderum" Cups will be decided at Easter Sports.

### SPECIALIST SAID HE MUST OPERATE

She Took "FRUIT-A-TIVES" Instead, And is Now in Perfect Health.

MME. F. GAREAU.  
153 Papineau Ave., Montreal.

"For three years, I suffered great pain in the lower part of my body, with swelling or bloating. I saw a specialist, who carefully examined me and gave me several tonics to take, which did not help me. Then he told me I must undergo an operation. This I refused to permit.

"I heard about 'Fruit-a-tives' and the wonderful results it was giving because this medicine is made from fruit juices, so decided to try it.

"The first box gave great relief; and I continued the treatment, taking six boxes more. Now, my health is excellent—I am free of pain and swelling—and I give 'Fruit-a-tives' my warmest thanks."

MME. F. GAREAU.  
99c. a box, 6 for \$3.50, trial size 25c. At all dealers or sent by Fruit-a-tives Limited, Ottawa.

### OIL CONCESSION TO BE CONSIDERED

Board of Trade Told of Possibilities in Peace River District

Whether the Government of British Columbia should grant a very extensive prospecting license in the Peace River district to the D'Arcy Exploration Company, and accept a royalty of 12 1/2 per cent on whatever output the company might succeed in obtaining, or whether the Province should hold these rights, prospect the territory at its own expense and keep control of the entire output, was the question upon which the Board of Trade, at its regular quarterly meeting yesterday afternoon, was asked to express an opinion. It was decided to refer the matter to the council for consideration.

Charles F. Law explained the objects of the D'Arcy Company, which he said was backed by the British Government. If oil were found they were prepared to pipe it to the Pacific Coast, where it would be available for naval and mercantile vessels. It was the object of the British Government, he said, to develop as extensively as possible the oil resources within the British Empire. He explained that the D'Arcy Company was a subsidiary of the Anglo-Persian Company, which had made such a success of the Persian oil fields after three other big companies had failed in the field. Before commercial oil was brought in, \$1,000,000 was spent and then 350 miles of pipe line were constructed over mountain ranges 5,000 to 6,000 feet in elevation.

Mr. Law said the main objects for consideration in the matter were that:

1. It is an Imperial matter.
2. There is no cost to the Province.
3. The royalty of 12 1/2 per cent is the maximum received by the United States Government from federal oil lands in developed oil fields.
4. The royalty payable to the British Columbia Government will exceed by 300 per cent the royal collectible under the ordinary regulations now in force.
5. The Province has no money to go into the oil business, and should not take any risk in what is known to be a most hazardous undertaking.

**Would Spend Millions**  
6. The total expenditure which will be made in British Columbia, including the cost of pipe line from Peace River to the Coast, if oil is found in large quantities, will be \$25,000,000.  
7. There is no reserve on surface rights, except such as may be required for ordinary drilling operations and laying pipe lines.  
8. The extension of the Pacific Great Eastern Railway to the Peace River would be assured.  
9. A general development of British Columbia, Peace River district would follow and contribute to the financial relief of the Province by finding business for the P.G.E.  
10. The total acreage sought to be controlled does not exceed one per cent of lands in the Peace River district.  
11. The company is willing to be limited to the selection of ten per cent of the lands requested.

Mr. Law explained that there were 25,000,000 acres of land east of the Rockies, which contained one of the greatest coal areas in the world. Many thousands of dollars had already been spent in exploring and prospecting for oil, but indications were not discovered until the fall of 1916. Development of oil fields in Alberta had not yet proved successful. He reviewed the history of oil developments in Western Canada and spoke of the great financial benefit which would accrue to the Province if the scheme were permitted to go ahead.

George Bell, M.P.P. for Victoria, asked Mr. Law why his company had not taken up prospecting rights under the Government regulations. Mr. Law replied that neither his company or anyone else could do so as the Minister of Lands had closed the area in question for prospecting and had secured an appropriation of \$50,000 to send Prof. Gwillim to investigate the

A limited supply to each customer. —Basement

district, which meant that the Government was merely doing again what had been done forty years ago by Prof. Dawson. This, he said, had been done after his proposition had been put before the Government. He considered the Government would be well advised to accept the safer and more advantageous proposition of his company.

Some men earn their living by selling taffy and others by giving it away.

THE WRONG NOISE.  
"John, wake up," cried his wife in the middle of the night. "There's a man downstairs. I'm sure I heard him yawn just now."  
"Oh, no, my dear," comfortably whispered John. "That wasn't a man yawning. You heard the rubber stamp stretching itself."
