Cloudy a little rain.
Evening clear, cool.

This morning I
spent most of the time
as usual writing Xmas
letters.

In the afternoon I
went up to 80 Spaulm St
and made a long
call on Mary & George.

Glenn & Mrs. Elizabeth
Allen called this P.M.
while I was out much
to my disappointment.

This evening more
writing and some
reading.

Dr. Robinson told me over
the phone that it had been
about settled, as to Rhodora,
to bridge over the present
by pledges from willing
members. I feel that
this is the way. There should
be a larger list of subscribers.

Clear, cold.

Most of the day has been spent writing letters and planning to friends.

This morning, I drove with Lucy & they to Hart Sq. where I went to the Cosmos Press and arranged about the labels for Miss Purdie's Cakes.

Lucy went to a dressmaker and Lucy & I drove up to Waverley & Belmont for a turn of fresh air.

This evening I sat by the parlor fire and read from Fabre's "Glow-worm and other Beetles".

The story of the Glow-worm or Firefly. It is a very wonderful tale in every way and I shall enjoy the rest. I had a good talk with Mr. Sprague. He saw Gus this way & reports him as remarkably well.

I have written him.
Walter Deane would
be 22 yrs. old, Jan. 6.
It was a sad, sad death
and so unnecessary.

I had a letter to-day
from Dr. Brainerd in
re the *Viola blanda*.
He says I can settle it
with a compound microscope. 11

This P.M. Miss Brown slipped half
way down the front stairs & went to
the bottom. I rushed for my study & found
her spread out, head down, feet up!!
Great noise - she was only a little
funny, cool & bruised. She grabbed the
bannister part way!

At home as usual.

Read, worked on my Paris
cards from Jack Wright
wrote letters, finished
Fabre's Glow-worm and
other Beetles - It is a
wonderful account.

J. R. Churchill came
out at 6 P.M. and we
had a very good time,
talking and looking over
plants &c &c

I have been reading
the Laski Lampoon.
I think Laski should
leave the College,
but I do not think
the satire in the
Lampoon helps.

May Dexter and
Francis Johnson called
this P.M.

I wish my troubles
would hurry up & go.

Clear, very cold, -8° this Morn.

I spent the morning over Jack Wright's Paris cards and thoroughly enjoyed. They are almost entirely Victory Fete cards and bridges & the flood of January, 1919. There are, I know, almost no duplicates.

Miss Brown & I went in to Burton Holmes' 'Allies on the Rhine' at Symphony Hall. Porters to Garage to & from Harvard Sq.

The affair was very fine & instructive. The views were superb, interspersed with moving pictures. The views of the river, the castles, the vineyards along the Rhine & Moselle, the troops, the Stars & Stripes flying over Castle Ehrenbreitstein all were splendid.

Evening at home by the fire.

Country cold.

About the same as to
my right knee -

This M. I read the paper
thoroughly and also looked
"The Story of the Great War".
Simple & clear -

Rob Jackson & Arthur Nichols
called this morning. Good talk.

After dinner Prof. Emerton
called, soon followed by
Mr. & Mrs. Paton. I & home
by Paris cards to Mrs. Paton.
Soon Charlie Battheldeo
came with a pkg of plants.
He staid a while and as
all were leaving, Aldrich
Taylor & Marion called.
We had a very nice time
with them, they staid to
tea by the parlor fire. I gave
them their wedding gifts, a lace
handkerchief & set of Daylies, former
fr. the Evans to Mary. The latter (12) fr
Mary & Helen Wharf. They left at 4 P.M.

Cloudy & clear, mild.
At home to-day.

Wrote letters, read
and did some work
on Charlie Baldhead's
plants of S. New H.
George called this

long talk. He told
me about the meet-
ing at the Children's
Museum. There
is much real interest
in this undertaking
& it is endorsed and
aided by the City and
by Harvard University.
I miss the West Club

but hope to go to the
Shakespeare Club

morrow. I look forward
to that. I have
missed 2 meetings!!

 of strain in the knee.

Cloudy, cheerless.

At home as usual.

Worked on my Shakespeare records and the play for Feb. 17, casting & printing it and getting the notices ready for mailing.

This evening I took Jack Wright's cards (135) rec'd Jan. 23 and compared them with my collection. The history cards & the flood of Jan, 1919, of course are all new, and of the other bridge cards only 95 are duplicates, and probably 10 can be used to illustrate some building from a new point.

I am much pleased and shall write Jack

I am reading a history of the late Mas. by Usher. It is very simply & interestingly told. It has many illustrations.

Terrific snow storm
last night and all
through the day.

Traffic almost
stopped. Boston almost
isolated. Evening paper
full of it.

I, of course have
been at home -

I have written many
letters and read
much. I finished
Usheis' "The Story of the
Great War"; it is a
very good story indeed
clearly & interestingly
told. I recommend it.
I have enjoyed every
chapter.

I talked this evening with
J.R.C. He went to court
but not to Boston. Wise.
C.C. Sprague had not re-
turned home by the middle
of the evening. Knew a bit easier

Drifting snow, stopping in the
P.M. & turning to rain. Heaps
of snow, traffic practically
stopped everywhere. Nothing
like it since 1910.

I have of course kept
in the bank, giving up
the dinner at Louise's
& the Club in town.
I am very much disap-
pointed indeed.

I have spent the en-
tire day in my barbarian
land at work on my
Paris cards which I have
not touched for a good while.
I had a large number of
cards to sort, compare,
and separate and insert.
I have a good many
duplicates to dispose of.
I have added very many to
my collection which is now
very large - I shall finish
this work to-morrow.

Clearing, P.M. sunny, the
country buried under deep
snow. Wonderful sunset, the
trees sparkling with ice-bound
branches & twigs like diamonds.

This was in the south at 10 P.M.

At 12 midnight the moon was
approaching south -

At 3 A.M. I saw in the South

Charlie Batchelder called this
A.M. & told of the Friday Colubrid and

I named a bunch of plants.

George called this P.M. Texas.

I did quite a bit of work
on my Paris cards -

Duplicate cards often can be
used for two or more purposes -
a bride, a blog, a church, etc.

Clear calm, mild.

A wonderful day after the great storm.

This morning I took my first walk, not a long one. Stanley Parker called and I went over to his home close by & saw his aquarium & the snail that was giving birth to young. 13 had appeared little bits of fellows. Then I walked down Reeders Ave. & back. A beginning. My knee feels better.

After dinner Jennie C. called & a little later S. Parker came & I showed him the water plants in his "cup" & specimens in my beeb. He was much pleased & I showed him my beeb.

The rest of the day I have read and done much talking over the phone. I feel encouraged.

to Gray Herb. An Cambridge
Comman was a small
tractor at work crawling
about in a most interesting
manner - It was about
6 ft. long and a man sat on
a seat behind & guided it
over piles of dirt. A scraper
was fastened behind and it
took up loose dirt till full,
then it was hauled to a spot
& dumped. 2 men followed
& held the scraper.

Did some library work at
Gray Herb. Walked back

 I sat for an hour with
 Prof. & Mrs. W. Arthur Brooks
 91

It was very pleasant.
 Stars bright on way home

Cloudy, chilly.

I have been at home all day, studying with care and interest, Dr. Brainerd's work, received this morning, "Blackberries of New England". On the cover with his name is that of A. K. Peitersen. I never heard the name and Dr. B. does not use it in the work, but he refers to him as "the junior author" (p. 7.), and he uses the phrase "our, we," etc. If the very brief key works well, it will be a wonderful aid. The Matthews' illustrations are splendid. 12 spp only for New England (Gray was 25 spp + var), the rest hybrids with a key to them & illustrations. The work will create great interest. I have written Dr. Brainerd -

Cloudy with sun at intervals. 13 eclipses of the Sun this morning beginning about 9 AM. Rather too cloudy.

This morning I went over to the Club Hb. and finished the card cataloguing. Then I went over the bundle of plants from Mrs. F. L. Goodhue (born F. Thayer). I took them over from Lancaster, May 7/1919. There are 208 sheets all Lancaster - I shall have labels printed & they will be mounted soon.

This P.M. I worked at home over my plants. This evening I walked down to George Smith Nalls and made a very nice call on Leonard Harrabee. He is a strong fellow, a Freshman. I hope to see much of him. Then I went over to Randolph and called on Wollen but he was out.

funeral. The services were
Swedish. At least
70 people must have been
present. After the service
Mr. Lem stood at the
door and shook hands
with everybody. I also saw
Mrs. Lane & the girls -

Dear boy took me over
Christ Church which is
much changed for the better.

I rec'd today a bundle of
38 sheets of 1st plants

They are well some & as
addition: I have looked
all over and got the
names of practically all.
Of course nothing would
be new to my Herb

Clear, cold, windy.

This morning I worked on the mountain plants and have them mostly named up.

After lunch I went in to Rivinity Court to the sale for the Guild that Mildred Kennedy is Pres. I saw her and had a nice time. She introduced me to several of her friends. I bought some cake & cards.

Then home again. J. C. came out at 5 P.M. and we had a nice time before dinner.

Then we walked over to the Celale Herb. where we worked till nearly 10.

There were some 10 of us present. Dr. J. C. drove B. K. & me home.

Clear calm, cold.

This morning I walked
down to Studio Bldg (Child-
dress Mus.) & heard Prof.
Geo. H. Barton (10-12) give his 1st
Lecture on Dynamics & Structural
Geol. (Teachers Sch of Science)
It was very very interesting, but
I cannot attend the course
4 hrs. on Sat. for 4 wks.

Then I called on Mrs. Riddle
& found that paralytic had set
in with Dr. R. It is very very
sad. She is so brave - Oh,
that I could help her.
Then I called on Prof.
Houder & told him about
Campanula isophylla.

Then home - worked + recd.
Ad. Sprague came out to
dinner and brought me cones

At 12 M. Fred Carr & his chum, Cyril Macinot, both from Trinidad arrived and at 1 P.M. Rollin & Leonard Larrabee, Moore Greenman came, and we had a nice bounteous Thanksgiving dinner, with a big turkey, and everything connected with it. The boys were all bright and it was a most satisfactory occasion. Then we all sat round the fire in the parlor and had a good talk over the Harvard-Yale game 9-0, Trinidad & till 5 P.M. All voted the occasion a great success -

Cloudy, fine rain all day -

This morning I went to Mr. He and finished the Meyer plants, taking home a few to study. These I did this year.

My violets of last summer came back today from Dr. Brainerd. Nothing new, but I did not expect it. I named all as he did except one or two. I have entered them all in my journals in the days.

I called this morning on Mrs. Riddle. She is brave & hopeful. Dr. Riddle has moved a little the paralyzed foot & hand. The temperature is nearly normal with occasional bumps for a time.

skins and slides gave
a most interesting &
instructive talk on
the birds of Leuba, and
incidentally on the history
& growth of the island.
I enjoyed it extremely.

Clear with thin cloud
 Cool, cool & bracing -

This ~~the~~ after Xmas
 work, I walked to the
 Chas. R. Trust & Co's. and
 then to Mrs. Riddle's where
 I had a talk with her
 about her lace work. I
 have bought a piece and
 she wanted me to take another
 to see if I preferred it
 Mrs. Riddle is somewhat
 the same. Six mos. now!
 then home & lunch.

In the P.M. - more Xmas
 work on photos of me & the
 Hummingbird -

This evening, May 9
 went to Appleton Chapel
 to hear the Xmas Carols.
 Terrible crowd, but we got
 in to the front & stood.

It was a wonderful service
 the Carols were beautifully
 sung - very impressive.

Cloudy, chilly

this Am. at home
over Xmas presents.

Went to P.C. at
1 P.M. and arranged for
a new rug in place of
one to be paid. They

we touched at Thompsons

I went down to Dr.

Hughes and talked over
my trouble of Dec. 18.

He tells me not to
worry at all. The
trouble seems to be more
more a temporary ailment.

I feel right now any
way & hope always.

Home in late P.M.
Evening spent at
phone and over the
last Xmas cards
photos etc.

Pleasant work but
oh, so much of it.

11.15 P.M. to bed

Clear & cloudy mild.

This Am. I was busy as usual. I took papers to the mail (Horn Concord Ave) and then walked over to the Riddles & left things there. Good talk with Mrs. Riddle. Her husband about the same

This P.M. Took things. Went to the Smertons, Chapmans and Allees.

This evening I took George to the Grand Temple with the famous movie "Down East". It was an astonishing piece of work. The various country scenes were exquisite and the thrilling ice jams and breaks was astonishing. They were taken from the Con. River and Niagara. Dramatic in the extreme. Home late.

Clear cold.

This morning I walked
out to Dr. Emeton's
and left some wrapped
sprays for Clara. They
will be taken there to-morrow.

I spent a good while
to-day over my annual report
for the Shakespeare Club.

More Greenman came
up at 6 P.M. and we
had tea together and
then he & I went in to
Beacon Hill to see the
illuminations and to
hear the carols. The
moon was full and the
air calm and crisp
and the sight was very
fine and the carols
very interesting. We got
back by 9.45.

Miss B. & I walked out a bit
to see lights and had a nice
call on the Parkers. Fine aquarium.

WARREN A. LOCKE DIES IN CAMBRIDGE

Boston Herald, Jan. 17/1920.

Once Harvard and St. Paul's
Chorister and Organist

— Died Jan. 16 —

Warren A. Locke, for 31 years organist at St. Paul's Cathedral, who resigned from that position last Easter, died yesterday afternoon at his home at 59 Brattle street, Cambridge. He was born in Charlestown in 1847, graduated from Harvard in the class of 1869, and received the degree of A. M. three years later. For five years following his graduation from college he was master at St. Mark's School, Southboro. He then went abroad to study music, remaining in Germany four years. While there he was married to Miss Madeline Weidemann.

In 1888 he assumed charge of the music at St. Paul's Cathedral, and at the same time became organist and choirmaster at Appleton Chapel. He has also been director of the Harvard glee clubs, and for some time was co-director of the Harvard Anniversary Chorus. He was a member of the Harvard Musical Association and was one of the founders of the American Guild of Organists. He was also a member of the Harvard and Oakley Country clubs.

Mr. Locke is survived by his widow and three sons, Charles W. Locke, an instructor at the Middlesex school, Concord; Arthur W. Locke, instructor of music at Smith College, and Bradford B. Locke, associated with the Church Pension Fund, New York city.

FUNERAL OF WARREN A. LOCKE

 Conduct Services for Former Organist of
 St. Paul's Cathedral Jan. 19/1920.

Boston Transcript 1/19/20

Funeral services for Warren A. Locke, formerly for many years the organist of St. Paul's Cathedral, were held Sunday afternoon at that church and were at-

tended by many of the parishioners and friends. Bishop Lawrence officiated and assisting him was Dean E. S. Rousmaniere, D.D. All the staff of the Cathedral also were present. The music was in charge of Earl Weldner, by the special request of Mr. Locke, whose assistant Mr. Weldner had been for seven years. Before the service he played the allegretto from the Beethoven "Seventh Symphony" and Handel's "Largo" at the close of the service. The vested choir of the Cathedral sang as a processional "The Strife is O'er," and for the recessional "Ten Thousand Times Ten Thousand." For the anthem the choir sang "Souls of the Righteous," by Foster.

The pallbearers were Rev. Francis G. Peabody, D.D., William S. Hall, Dr. Robert M. Lawrence, and Henry G. Pickering, Mr. Locke's Harvard, '69, classmates; and Samuel J. Fowler and Albert M. Barnes.

Those acting as ushers, all personal friends, were Lyman G. Smith, chief usher; George A. Burdett, Herbert Darling, Edward S. Dodge, Courtenay Guild, M. A. DeWolfe Howe, Byron S. Hurlbut, Homer B. Richardson and Charles L. Moore.

The body was taken to the Cambridge Cemetery for burial.

WARREN A. LOCKE

Warren A. Locke, for nearly thirty years organist and choir-master of St. Paul's Church and Cathedral, passes away and leaves to the many who knew him the memory of a character of rare qualities and of an inspiring nature. An organist of accomplishment and catholic taste, a choir-master of gentle though firm nature, of a musical enthusiasm which aimed at high ideals of simplicity and good taste and shunned the ornate and the theatrical—these qualities and more marked him a musician of high purpose. But those of us—and we are many—who knew him well recall the memory of one simple in his life, upright in the living of it, warm and sincere in his friendships, tolerant of others, lovable in his nature. A man with many friends, he had absolutely no enemy. Man, who so easily condemns in criticism, finds in him nothing not admirable. And he, in turn, found only the best in others. When he could not speak good, he was silent. No individual can live seventy-two years on so high a plane and not inspire others to live a little better. So, not only as a musician who carried high the standard of church music, but truly as a man of God will he linger gladly in memory.

RECENT DEATHS

A NEW YORK BUSINESS MAN

John W. T. Nichols Was a Native of Cambridge but Had Removed to the Metropolis Thirty Years Ago

John W. T. Nichols, a former Boston business man, but for a number of years in business in New York city, died Sunday of heart disease at his home at 42 West 11th street. Mr. Nichols was a native of Brighton, and the son of the late George Nichols, a man of literary tastes and ability, and Susan Farley Treadwell. He was sixty-seven years of age, and during the early part of his life was in the dry goods commission business in Boston, removing about thirty years ago to New York, where he had long been connected with the house of Minot, Hooper & Co., which also has Boston quarters at 110 Summer street, and these local offices were frequently visited by Mr. Nichols in the course of business. He was an extensive traveler and had made several trips through Asia Minor and the Balkans.

Mr. Nichols was a member of the Union Club in Boston, and of the Merchants' Club, the Century Association, and the Explorers' Club in New York. He is survived by his wife, who was Mary Blake Slocum of Boston, and six children, all of whom reside in New York.

COMPTROLLER OF HARVARD

Frederick S. Mead, '87, Appointed to the
Position—Affairs at the University

Frederick S. Mead, '87, has been appointed comptroller of Harvard University in the place of Francis W. Hunnewell, '02, who has resigned to give his full attention to his duties as the secretary of the corporation. The position of comptroller includes the general supervision of the budget and expenditure of the university. Hitherto this position has been combined with that of one of the two secretaries of the Corporation, but as the affairs of the university are increasing noticeably every year, it was decided to create a separate position. Mr. Mead's appointment takes effect on Nov. 1.

As the editor of the Harvard Alumni Directory and the supervisor of the war records office of the university, Mr. Mead has been actively interested in the affairs of the university. He will continue in the latter position until next spring when it is expected the rolls of the Harvard war records will be completed. He will remain in his office at the Harvard Union during this year.

TO EAT COLONIAL DINNER AT HARVARD

Boston Herald / 1920
Dec. 9
 Gov. Coolidge Among Guests
 at Massachusetts Hall

A wholesome dinner of colonial days will be served to Vice-President-elect Coolidge, President Lowell and others who attend the bi-centennial of Massachusetts Hall, to be celebrated in that edifice Friday night. Massachusetts is the second oldest college building in the United States.

Scalloped oysters, Boston-baked beans, Virginia sugar-cured ham, boiled potatoes, pumpkin pie, suet pudding with hard sauce and crackers and cheese will be served. This is an attempt of the Harvard Memorial Society to duplicate to some extent a dinner of 200 years back.

The table will shine with old silverware given to the college from time to time since earliest days. The oldest piece in the display will be a big salt shaker given by William Harris, the brother-in-law of President Dunster, in 1644. There will also be a large cup given in 1700 by Lt.-Gov. Stoughton, who built the Harvard dormitory which bears his name, and a silver bowl which belonged to President Holyoke.

A number of graduates who lived in Massachusetts Hall in the days when it served as a dormitory are expected at the dinner. Prof. Edward Channing of the history department, President Lowell and Gov. Coolidge will speak. William C. Loring, who lived in the dormitory, will be toastmaster. Judge Robert Grant will read a poem composed for the occasion.

HALL AT HARVARD IS 200 YEARS OLD

Sunday Herald, Nov. 28/20

Dinner Dec. 10 to Celebrate
Massachusetts's 2d Centennial

Massachusetts Hall at Harvard, the second oldest college building in the country, is 200 years old to-day, and on Friday, Dec. 10, its second centennial will be celebrated at a dinner to be held in the building itself by the Harvard Memorial Society.

Vice-President-elect Coolidge will be present to represent the commonwealth, the building having been originally constructed from a grant made by the Province of Massachusetts. President Lowell will also speak, and Judge Robert Grant, president of the Harvard board of overseers and author of "The Chippendales" and other novels, will read a poem composed for the occasion. The toastmaster will be Hon. William Caleb Loring, '72, who roomed in the hall as a student.

All men who roomed in Massachusetts Hall when it was a dormitory, prior to 1870, are especially invited to subscribe to the dinner, as are all present and former members of the Harvard Memorial Society, at \$3 per person. Other graduates may also subscribe by applying to Hamilton MacFadden, 18 Francis avenue, Cambridge.

In 1720, when Massachusetts Hall was built, the graduating class of the college numbered 37, Cambridge was only a village, and there was no bridge to connect it with the town of Boston. The only college building in the United States which is older than Massachusetts Hall is the main building of William and Mary College in Virginia, which was put up in 1693 and has been thrice burned and rebuilt on the old walls.
