DISAPPROVED may (1) 4, 1948
不承認 昭和23年5月4日

february 5, 1948.

The Hon. Tetsu Katayama,
Prime minister.

Misao Ueda

Sir:

Re: Application for acknowledging a company official is not an official relation to Zaibatsu in accordance with Artidles5 of the Law to Kliminate the Controlling Influences of Zaibatsu Families.

I hereby submit an application for acknowledging that I am not an official representing Zaibatsu with reasons stated below.

Yours respectively,

K. Mayeda

Koretomo Mayeda,
Standing Director,
Nissan Nohrin Kogyo, K.K.,
Associate Company of Nissan Zaibatsu
No. 470, Eifuku-cho, Suginami-ku,
Tokyo.

1. Application in accordance with Item 2, Paragraph 1, Article 6 of the said Law.

Soon after graduating from Forestry College of Agricultural Department of Tokyo Imperial University in July 1916, I, Koretomo Mayeda, was employed as a personnel of Forestry Branch of Kuhara Kogyo K.K., (Kuhara Mining Co., Ltd.), later called Nippon Sangyo K.K.

In October 1921, I [illegible] manager of Tawau Rubber Estate, Tawau District, East Coast Residency, British North Borneo.

In March 1934, when the said Estate was established as an independent company, then called Nippon Sangyo Gomu K.K.(Nissan Rubber Plantation Co., Ltd.) and now called Nissan Nohrin Kogyo K.K., I was transfered to the new company and in August 1934, became the manager of Tawau Rubber Estate.

On May 1, 1936, at the meeting of the board of directors, a motion was made to recommend Koretomo Mayeda, who was a company personnel serving many years in the company and a technical expert on plantation, as a member of the board of directors and the director-in-charge of the said Estate.

And on May 20, 1936, at the fourth ordinary general shareholders meeting I was selected to the said post.

At the said meeting, neither Mr. Yoshisuke Aikawa nor Nippon Sangyo K.K., had to do with my being recommended but the promotion was done from the standpoint as a technical expert among employees.
It is quite clear that I was not in the side of representing Zaibatsu interest.

On February 26, 1941, at the meeting of the board of directors, I was selected as a standing director, which I hold now. Through these periods I had been in Tawau until I returned to Japan April 1946. Since January 1947, I have been assigned to the position of chief of General Affairs Division and since October 1947, to the position of Chief Match Division concurrently with the former.

In order to prove the above statement I shall attach the affidavit by the chairman and one of shareholders present of the general shareholders meeting at the time of my being elected as a director.

2. Application in accordance with paragraph 1, Article 7 of the said Law.

a. I am in no blood relation with Mr. Yoshisuke Aikawa as the copy of my census registration proves.

b. There was neither agreement nor acknowledgment between Mr. Aikawa and Nippon Sangyo K.K., and myself concerning my being elected as a director at the fourth ordinary general shareholders meeting held on May 20, 1936.

c. I had neither authority nor controlling power as the supreme representing director of the company because I had been responsible for the company simply as the director-in-charge of the said Estate.

d. I held no post of directorship of Zaibatsu concern.

January 27, 1948

Affidavit

Kenji Shimokobe, the chairman of the fourth ordinary general shareholders meeting of Nippon Sangyo Gomu K.K. (Nissan Rubber Plantation Co., Ltd.), later called Nissan Nohrin Kogyo K.K., at the office of the said company, No. 1, 2-chome, Marunouchi, Kojimachi-ku, Tokyo on May 20, 1936, and
Yoshifumi Hara, a shareholders present who signed and sealed on the minute of the said meeting as a representative of shareholders, hereby certify the following fact concerning the election of Koretomo Mayeda as a director of Nippon Sangyo Gomu K.K.

At the said meeting the chairman refered to the matter of increasing one director of the company and some shareholders present made a motion calling the chairman to designate the candidate for the said post.

Following the approval of the said motion, the chairman wished to nominate Koretomo Mayeda, who was then a company personnel of long years of service, the manager of Tawau Rubber Estate, a graduate of Forestry College of Agricultural Department of Tokyo Imperial University in 1916, as the technical official of the company.

This nomination of the said person was unanimously approved by the shareholders present at the said meeting.

K. Shimokobe — Kenji Shimokobe, the chairman of the fourth ordinary general shareholders meeting of Nippon Sangyo Gomu K.K.

Y. Hara — Yoshifumi Hara, a shareholders present.

No. 37, Nitani-machi, Meguro-ku, Tokyo.

CERTIFICATE

I hereby certify the following facts with regard to the relation between both Manchuria Investment Securities Co., Ltd. and Manchuria Heavy Industry Development Co., Ltd. and Nissan Nohrin Kogyo K.K., as far as I could judge from books, documented and other references which Closed Institutions Liquidating Commission takes custody of for the present:

1. Manchuria Heavy Industry Development Co., Ltd. had transferred from time to time the stocks of Nissan Nohrin Kogyo K.K. to Manchuria Investment Securities Co., Ltd. and by April 1943, the latter secured 31.8 per cent of the total stocks issued of Nissan Nohrin Kogyo K.K..

2. There was neither any written document with regard to the control of nominating officials of Nissan Nohrin Kogyo K.K. between Manchuria Heavy Industry Development Co., Ltd. or Manchuria Investment Securities Co., Ltd. and Nissan Nohrin Kogyo K.K., nor the former two companies actually controlled the affairs on officials of Nissan Nohrin Kogyo K.K.. Accordingly there was no fact that previous consents were given by the said two companies with respect to the assumption of officials of Nissan Nohrin Kogyo K.K..

Shoichiro Kobayashi

Testimonial

In regard to the control of personnel affairs of Nissan Kogyo K.K. (formerly called Nissan Rubber Plantation Co.,Ltd.), from the very begining of the establishment of the company, Mr. Kenji Shimokobe had taken full charge of the matters including selection of officials of the company. There has been no actual case where I had taken directly any part in or had given consent to any selection. There has never been an agreement written or otherwise as to the control of personnel affairs of the company between the company and myself or Nippon Sangyo K.K..

At the end of 1937, Nippon Sangyo K.K. became Manchurian Heavy Industry Development Co., Ltd., and I had to devote all my time for accomplishing my works there. The reason why I assumed the post of chairman of the board of directors of Nissan Norin Kogyo K.K. in 1937 and the advisor of the said company in February 1941, after retiring from the post of chairman, was simply that it was thought my continuance of office might give some credit to the company. My position in the company then was nominal and as a matter of fact, I had never attended board meetings. In these circumstances, I had nothing to do with the control or appointment of officials of the company.

Under such circumstances, it is a true fact that I neither nominated nor approved of the following officials of the company when they assumed their respective posts.

Name	Post	Date of Assumption	Date of Retirement
Koretomo Mayeda	Director	May 20, 1936	Still holding the post of standing director.
Yoshihide Shigematsu	"	May 21, 1942	"
Yoshio Hanaoka	"	Dec.27, 1939	Sept. 1942. Present post; President director of Japan Match Industry Co., Ltd.
Michifumi Kato	"	Dec.27, 1939	Sept. 1942. Present post; Standing director of Japan Match Industry Co., Ltd.

I hereby certify that the statement contained herein is true and correct.

(一) 明文の取極の有無

無し、

(二) 本人の役員としての就任の事情の詳細、特にその就任につき財閥又は財閥直系會社が關與した事實の有無

私の就任事情は別紙附屬書類に述べられてありますが、

私の立場から記述すれば次の通りであります。

終戰直後昭和二十年十月を以て住友財閥は完全に消滅したので、これに伴つて住友化學工業株式會社（現日新化學工業株式會社）一個から選任されていた主要役員は自發的に退任せられました。前後の後任者については全く別府化學工業株式會社の自主的立場から選任することなつたのでありますが、全社は設立後日

（貼付用紙一）

が幾く當時内部にはその適任者がなかつた實情にあり、一面尚全工場は復旧の途上にあつた關係から特に技術を主とした指導者を迎えることが強く要望される事態に當時、從來全社が技術上の援助を仰いでいた住友化學工業株式會社新居濱製造所内にその人を求めたのでありますが。

當時私は新居濱製造所に於て硫安肥料等の製造業務に携つていたのでありますが、別府化學工業株式會社は全社の必要とする指導者として私に嘱目し、社長に就任方を懇請してまいりました。

當時終戰後の食糧危機に直面し肥料の増産こそ民生安定の當面の急務とされて居りました狀況に鑑み、私としましては、大正八年北海道帝國大學農藝化學科卒業

後新居撰鑛造所に入所し爾來二十六年間全工場で体得した肥料工場運營に對する私の經驗と技術とが、別府化學工業株式會社の工場復旧を一日も早く完遂することに役立つならば、私として最も本懐とするところでありましたので、自ら進んであえて新居撰鑛造所の職を辭し、別府化學工業株式會社の懇請に應じて昭和二十年十一月十七日全社の社長に就任したのであります。以上のように私の就任事情は全く別府化學工業株式會社自体の技術的要請によるものでありまして、私は就任に際し、住友財閥の利益代表を意味する「住友役員内規」等を住友本社又は住友化學工業株式會社から手交されたことは勿論なく、その他これに類するような特命或は指示等を受けた事實も一切なかつたのであります。

11. At the time of your assumption of office as official, whether or not the arrangement that the previous approval be obtained from the Zaibatsu or the direct Zaibatsu affiliate regarding assumption of the position of official existed between the Zaibatsu Company where you served and the Zaibatsu or the direct Zaibatsu affiliates.

a. Whether or not the arrangement existed in writing.

None.

b. Details of circumstances under which you assumed the position of official; particularly whether or not the Zaibatsu or the direct Zaibatsu affiliate was concerned in approving your assumption of office.

The circumstances under which I was appointed are mentioned in the attached sheets. But its details on my part are as follows:

As the result of the complete dissolution of the Sumitomo Zaibatsu in October, 1945, the major executives elected by the Sumitomo Chemical Co., Ltd.(now, Nissin Chemical Co., Ltd.) retired voluntarily. Thereafter the exectives who took over those vacancies were appointed autonomously by the Befu Chemical Co., Ltd. However, there was no competent person within the company at that time because it was a short time since the establishment. On the other hand, the plant was on the way of rehabilitation and under these circumstances it was strongly hoped to have a technical leader. Thus a competent technician was sought in the Niihama Works of the Sumitomo Chemical Co., Ltd. In these days, I was engaged in the menufacture of ammonium sulphate fertilizer in the Niihama Works and was solicited by the Befu Chemical Co., Ltd. to be the president as a technical leader of the company. In the light of the urgent situation under which the increased production of fertilizer was keenly desired for the national stabilization in the face the food-crisis close on the keels of the Surrender, I resolved myself to contribute a bit of share towards the earliest possible rehabilitation of the plant of the Befu Chemical Co., Ltd. by availing my experience in the business management of fertilizer plant and technique which I had acquired during twenty six years of work in the Niihama Works since I graduated from University in 1919. Thus, I voluntarily retired from the Niihama Works to become

the president of the Befu Chemical Co., Ltd. on November 17, 1945. Under these circumstances, as I mentioned above, neither the "Regulations for Sumitomo Executive Personnels" represent-ing the interests of the Sumitomo Zaibatsu from the Sumitomo Holding Co., Ltd., nor, from Sumitomo Chemical Co., Ltd. have been delivered into my hands nor have I received any special orders or instructions in this connection.

11. At the time of your assnmption of office as official, whether or not the arrangement that the previous approval be obtained from the Zaibatsu or the direct Zaibatsu affiliate regarding assumption of the position of official existed between the Zaibatsu company where you served and the Zaibatsu or the direct Zaibatsu affiliates.

a. Whether or not the arrangemeut existed in writing.

WRITTEN ON ATTACHED SHEETS NO.1 AND NO.2

b. Details of circumstances under whicn you assumed the position of official; particularly whether or not the Zaibatsu or the direct Zaibatsu affiliate was concerned in approving your assumption of office.

WRITTEN ON ATTACHED SHEETS NO.1 AND NO.2

Re: Reasons for Application in Accordance with the Provisions as set forth in the First Clause of the Article 7 of the Law for Termination of the Zaibatsu Family Control, and the First Clause of the Article 4 of the Enforcement Regulations of the Same Law.

The Hon. Tetsu Katayama,
Prime Minister.

January 31, 1948.

Sir:

Since November 17, 1945, I have been the president of the Befu Chemical Co., Ltd. which was designated as one of the Affiliated Companies of the Sumitomo Zaibatsu in accordance with the provisions as set forth in the Article 2 of the Law for Termination of the Zaibatsu Family Control and in the Article 2 of the Enforcement Regulations of the same Law on January 7, 1948. Therefore, I am considered as a person within the category of the executives of the Zaibatsu Company in accordance with No.2 of the second clause of the Article 3 of the Law for Termination of the Zaibatsu Family Control.

However, my case is fitted to every paragraph of the First Clause of the Article 7, and therefore I hereby apply that you will see your way clear to exempt me from my falling under the category of executives of the Zaibatsu with the following reasons.

1. I have neither family relationship with the person designated as Sumitomo Zaibatsu nor have I been married with any of those on the same family register, nor am I their parent, son, brother and sister nor their life partner.

2. There has never been any agreement making it necessity for me to obtain the approval for my taking up the post of presidency for the Befu Chemical Co., Ltd. either from the Sumitomo Zaibatsu or from their affliated companies, and therefore I did not obtain any approval from any of them.

3. Entry in connection with this paragraph (Paragraph 3, Clause 1, Article 7) is omitted, because I come under the regulation of No.2, Article 3 of the same Law.

4. I never concurrently occupied a position of the executive of the affiliated companies more than four at the same time.

Yours very respectfully,

T. Matsui

Torata Matsui

President of the Befu Chemical Co., Ltd.

Present Address:

36, Nakao, Uozumi-mura,
Akashi-gun, Hyogo-ken.

The Befu Chemical Co., Ltd.

Re: Circumstances leading to the Establishment
of the Company and the Actual State of
Personnel Affairs regarding its Executives.

The state of affairs under which our company had come into existence is as follows.

In July, 1944, the present facilities of ~~sulphuric acid~~ Ammonium Sulphate plant of our company which had been constructed by the Taki Fertilizer Works, Ltd. in 1937 and were left idle at the time attracted the special attention of the authorities of the Navy, Munition, Agriculture, Commerce and Industry Ministries. Thus, according to the instructions issued by these authorities a new company was established to meet with the urgent demand for increased production of ammonia for the prosecution of the war under the joint management of the Sumitomo Chemical Co., Ltd. (at present the Nissin Chemical Co., Ltd.) and the Taki Fertilizer Works with techniques and funds from the former and investment in kind from the latter. During the above period, the management of the new company had admitted of no interference by plutocratic business performance or forcible purpose of the Sumitomo Chemical Co., Ltd.

For the company thus initiated under the circumstances as mentioned above the Sumitomo Chemical Co., Ltd. had no other way but to supply us with its techniques and funds and to take

part of its partial management in conformity with the instructions issued from the authorities. In January 1945, it was designated as a munition factory, accordingly the whole substantial controlling power as to its management was shifted to those who were responsible for its production according to the provisions of munition company law and the company had been managed only in conformity with directions of Ministry of Munition up to the Surrender. Immediately after the Surrender the Sumitomo Zaibatsu itself was thrown into a furious chaos until it was dissoluted in October, 1945 so that the control of the Zaibatsu on our company did not exist either periodically or substantially.

After all, our company was established by the request of the Ministry of Munition in ~~June~~ July, 1944 and had been managed in conformity with the directions of the Ministry during the War and was encountered with the Surrender soon after its establishment, and then the Sumitomo Zaibatsu disappeared. Under these circumstances, it has not admitted of any plutocratic control or such characters. Next mention is made as to the actual state of personnel affairs of the executives since the establishment of our company. The executives for the company were appointed temporarily by mutual understanding between the Sumitomo Chemical Co., Ltd. (new Nissin Chemical Co., Ltd.) and Taki Fertilizer Co., Ltd. in conformity with the opinion of the authorities.

Subsequently, on January, 1945 this company was designated

as a munition company and thereafter the personnel affairs were conducted in conformity with the regulations as set forth in the Munition Company Law. Following the Surrender, the Sumitomo Zaibatsu was dissected in October of 1945 and simultaneously the principal executives of the former Sumitomo Chemical Co., Ltd. voluntarily resigned the posts as executives of our company.

Henceforth, the succeeding principal executives were all appointed in accordance with our independent standpoint. However, in view of the fact that no competent executive personnels were available within our company due to the short period after its establishment and also the plant was on the way towards rehabilitating, superior technical supervisors were most urgently required for the company. With this aim, we turned to the Niihama Works of the Nissin Chemical Co., Ltd. the top-ranking company in its field to ask for appropriate personnels and were fortunate enough to get some who assumed the position of executives in our company. Hence, as can be seen from the above-mentioned, viz. the history of our company, the designation as munition company, and the dissection of the Sumitomo Zaibatsu following the Surrender, it is evident that our company has had no connections with the personnel affairs of the executives of neither the Sumitomo Head Office nor the Sumitomo Chemical Company.

Certificate

January 31, 1948

The Nissin Chemical Co., Ltd.

This is to certify that the relation between the Nissin Chemical Co., and the Befu Chemical Co., Ltd. are as follows:

1. Relation at the time of the establishment of the Befu Chemical Co., Ltd.

The Befu Chemical Co., Ltd. was established under the instruction of the Ministry of Navy, the Ministry of Munition and the Ministry of Agriculture and Commerce through the direct instruction in the name of the Chief of the Navy Aeronautical Head-quarters (Secret No. 11310 N.A.H. dated 5 Aug., 1943) with the purpose of attaining the increased production of ammonia by introducing the capital and technique of the Sumitomo Chemical Co., Ltd. to the then existing ammonium sulphate equipment of the Taki Fertilizer Works, Ltd.

Therefore, the truth is that the Nissin Chemical Co., Ltd. offered the technique and funds to the then existing equipment of the Taki Fertilizer Works, Ltd. according to the instruction of the authorities and was obliged to take part in the management of the Befu Chemical Co., Ltd. The executives of the Befu Chemical Co., Ltd. were elected from the both companies after the consultation with the Taki Fertilizer

Works, Ltd.

Since the designation of the Befu Chemical Co., Ltd. as a munition factory in January 1945, soon after its establishment in July 1944, the whole substantialcontrolling power as to its management has been shifted to those who were responsible to its production according to the provision of the Munition Company Law and the company had been managed only in conformity with the directions of Ministry of Munition up to the Surrender. As may be easily understand by the above statements, the Nission Chemical Co., Ltd. has no intention to exercise controlling power over the Befu Chemical Co., Ltd. as an ingredient of the Sumitomo Zaibatsu from the beginning of its establishment.

2. Relation of after the surrender.

Immediately after the Surrender, the Sumitomo Zaibatsu itself was thrown into a furious chaos until it was officially dissoluted in October, 1945. The Zaibatsu colours of the Nissin Chemical Co., Ltd. itself were faded away and its executives resigned, subsequently the executives of the Befu Chemical Co., Ltd. dispatched from the Nissin Chemical Co., Ltd. resigned in November 1945.

On the other hand, the Befu Chemical Co., Ltd. was then endeavoring to start the rehabilitate of ammonium sulphate plant by the technique and funds of the Nissin Chemical Co., Ltd. and superior technical supervi~~ons~~sors were most urgently required for the company. However in view of the fact that

no competent executive personnels were available within the company due to the short history of the company, the competent person who had engaged in the ammonium sulphate production for a long time in the Niihama Works of the Nissin Chemical Co., Ltd. were asked to be invited to the post of executives of the Befu Chemical Co., Ltd.

At that time the above-mentioned persons at Niihama Works voluntarily intended to accept the invitation of the Befu Chemical Co., Ltd. The Nissin Chemical Co., Ltd. unwillingly released them to the Befu Chemical Co., Ltd. thinking over their intention and the importance of the Befu Chemical Co., Ltd. at the time of food crisis.

Therefore the above-mentioned personnel affairs of the executives was not carried out by the Nissin Chemical Co., Ltd. but by the voluntary intention of themselves who moved to the Befu Chemical Co., Ltd. as the technical supervisors.

The Sumitomo Zaibatsu was declared to dissolve in October 1945, and the voting right of the Nissin Chemical Co., Ltd. over the shares of the Befu Chemical Co., Ltd. was trusted to the Holding Company Liquidation Commission in March, 1947. During that period the Nissin Chemical Co., Ltd. according to the Zaibatsu Dissolution Law, did not excercising controlling power over the Befu Chemical Co., Ltd. and only retained entirely nominal relation with it as a shareholder. As can be clearly seen from the above-mentioned fact, relation between the Nissin Chemical Co., Ltd. there has been no

intention on the part of Nissin Chemical Co., Ltd. to exercise controlling power over the Befu Chemical Co., Ltd. as a part of Zaibatsu since its establishment as well as after the surrender. The Befu Chemical Co., Ltd. has been managed as an independent company from the independent standpoint.

Secret Navy Aeronautical Head-quarters No. 11310

August 8, 1943.

From: Chief of the Navy Aeronautical Head-quarters

To : President of the Sumitomo Chemical Co., Ltd.

Re: Instructions concerning to the enlargement of the production equipments of Salt Mixture.

Your company is hoped to enlarge the equipments to keep the necessary capacity as mentioned below.

Following procedures should be taken, vif. the submission of the application for Permission in regard to the Temporary Fund Adjustment Law and other regulations, and application for the allocation of necessary materials along with the presentation of the enlargement plan by the end of September.

Note :

(1) Number of permission for enlargement works.

Navy Aeronautical enlargement No. 1269

(2) Necessary Capacity:

Capacity of Salt Mixture 10,000 T/Y

(Nitric Acid Soda: Purity above 96%)
(Chlorine : under 0.1%)

(3) Equipments

Reenforcement of ammonia synthesis equipments located in Taki Fertilizer Works and newly installment of nitric acid equipments and other necessary accessories in co-operation with the Taki Fertilizer Works, Ltd.

(4) Date of Completion.

1st Term 5,000 T/Y by the end of March 1944

2nd Term 10,000 " by the end of December 1944

(5) Allotment of principal materials.

Within 1,060 tons of steel to the whole works.

(6) Use of the enlarged capacity

To the Navy Aeronautical Head-quartors and Navy Aeronautical Technical Plant.

(Attached allotment table of principal materials)

Copies are sent to

*the Chief of Navy Aeronautical Technical Plant
*the Chief of the naval Supervising office in Osaka and Kobe district.
*Taki Fertilizer Works, Ltd.

No. 2243 Chemical Bureau 2243

June 8, 1944.

From: Chief of Chemical Bureau of the Ministry of Munitions.

TO : Teikichi Yoshida

President of Sumitomo Chemical Co., Ltd.

Re : Instructions concerning to Increasing Production of Ammonia at the Taki Fertilizer Works Ltd.

You are requested to do your best to increase production of Ammonia in co-operation with the Taki Fertilizer works as mentioned as Taki Fertilizer works, as a result of discussion with the Army, Navy, Ministry of Agriculture and Commerce in order of the enlargements and adjustments of the Munitions production.

Note :

(a) Date of Completions.
By the end of March, 1945.

(b) Necessary material (steel-666 Tons etc.) is to be allocated during the 2nd and 4th quarters in 1944.

(c) The promotion is to be made in co-operation of the Ministry of Munitions and the Ministry of Agriculture and Commerce.in

(d) The Taki Fertilizer Works should increase the ammonia production in cooperate with the Sumitomo Chemical Co., Ltd.

(e) The use of 10,600 tons of produced Ammonia is as follows.

1. 7,000 Tons:
for ammonium sulphate production of 25,000 tons.

2. 3,600 Tons is to be used for Nitric Acid production,
but the final decision will be made after the deliberation.

The Befu Chemical Co., Ltd.

Managing Director, Taki Ensei

Re: Circumstance leading to the Establishment of the Befu Chemical Co., Ltd. and the Actual State of Personnel Affairs regarding its Executives.

1. The circumstances leading to the establishment.

The Befu Chemical Co., Ltd. was established on 20 July, 1944. The motive by which the company had come into existence is as follows:

At that time, the present facilities of ammonium sulphate plant of our company which had been constructed by the Taki Fertilizer Works, Ltd. in 1937 attracted the special attention of the authorities of the Ministry of Navy, the Ministry of Munition, and the Ministry of Agriculture and Commerce. Thus, according to the instructions issued by these authorities, a new company was established to meet with the urgent demand of increasing the production of ammonia for the prosecution of the war by the especial intensification under the joint management of the Sumitomo Chemical Co., Ltd. (at present the Nissin Chemical Co., Ltd.) and Taki Fertilizer Works with technique and funds introduced from the former.

This is evident and clear by the instruction of the chief of the Nay Aeronautical Headquarters (Secret No. 11310 N.A.H. dated 5 August, 1943)

Then the Taki Fertilizer Works Ltd., consulted with the Sumitomo Chemical Co., Ltd. and started the joint management by the executives dispatched from the both companies according to the instruction of the authorities.

2. Actual State of Personnel Affairs regarding the executives.

The personnel affairs regarding the executives of the Befu Chemical Co., Ltd. is, as mentioned above, closely related to the establishment of it. After the consultation of Taki Fertilizer Works, Ltd. with the Sumitomo Chemical Co., Ltd. according to the instruction of the authorities, five executives were elected from each company from its own standpoint. I was elected and appointed to the managing director as an executive from the Taki Fertilizer Works Ltd.

Subsequently, on January, 1945 this company was designated as a munition company and thereafter the personnel affairs were conducted in conformity with the regulations as act forth in the Munition Company Laws till the repeal of this designation at the time of Surrender. The Sumitomo Zaibatsu was dissected in Oct., 1943 according to the Zaibatsu dissection decree and simultaneously the principal executives of the former Sumitomo Chemical Co., Ltd. voluntarily resigned the post of executives of our company. The Befu Chemical Co., Ltd. was forced to appoint the succeeding principal executives from its own independent stand-point. At that time, food cri-

sis, was at its worst condition and the production of fertilizer is urgent business for the stablization of the people's life. Accordingly the importance of the Befu Chemical Co., Ltd. as a chemical fertilizers maker increased more and more. On the contrary, the condition of ammonium sulphate production in the company was extremely bad. The able executives were expected to be invited from the outsides of the company in a view of the fact that no competent executive personnels necessary to the reconstruction and reinforcement of the equipments were available within the company due to the short history of the company.

With this aim, we searched the able men in the Niihama Works of the Nissin Chemical Co., Ltd., the top-ranking company in its circles and were fortunate enough to get some who assumed the position of executives in our company. This personnel affairs regarding the executives were considered independently by the Befu Chemical Co., Ltd. and there was no restriction or interference.

I am the executive from the Taki Fertilizer Works, Ltd. and have been the managing director since the establishment of the Befu Chemical Co., Ltd. I, hereby, certificate that the above statement is entirely correct and true.

Seki Chuei

(Attached Document)

No. 727

The Befu Chemical Co., Ltd.

1. Circumstances of appointment of each five officials from the Sumitomo Chemical Co., Ltd. and the Taki Fertilizer Works at the time of the establishment of the company.

Our Company was established under the instructions of the government and the naval authorities taking the joint management form of the Sumitomo Chemical Co., Ltd. and The Taki Fertilizer Works as the attached sheets No. 1, 2 and 3 show. And the personnel affairs were undertaken in accordance with these circumstances after the consulatation of both companies in which each five officials were elected. There was no agreement which decided the number, ratio and position of the officials from each company and personnel affairs were to be undertaken independently accoding to the progress of the company.

2. Change of officials' number after the establishment of the company.

In October, 1945, the Sumitomo Zaibatsu was dissoted and the main officials of Sumitomo Chemical side were retired. Since then the personnel affairs have been considered independently and the officials have been appointed considering not their lineage but their ability. Therefore it is natural that the number of them was changed accoding to the real circumstances of the company because the change of number was not decided at the time of establishment. At first sight

the present eight members can be classified formally into Sumitomo or Taki lineage by their personal history. But they are with same quality who are consolidated as officials of our company. And it is nonsence to say the ratio or position of the members from both sides.

3. Circumstances of appointments of Torata MATSUI to the president and Yutaka YAGI to the Maneging Director.

As mentioned above, the officials from the Sumitomo Chemical Co., Ltd. retired October, 1948 and thereafter the officials have been appointed independently by our company. At that time, superior technicism was wanted eagerly because the operating condition was dull and on the other hand, the rehabilitation works were necessary. But such technician could be found neigher in our company soon after the establishment, nor in Taki Fertilizer Works. Therefore, we turned to the Niihama Works of the Sumitomo Chemical Co., Ltd. which had supported our company in technical area. Then, Toreta Matsui was appointed to the President and Yutaka Yagi to the Managing Director.

These circumstances are shown clearly on the certification (Attached Sheet No.3) by Ensei Taki, the Managing Director who was the representative officials at that time and has been the standing executive representing the Taki Fertilizer Works. Toreta Matsui, and Yutaka Yagi were solicited to the present position by our independent standpoint with unanimous decision of the officials at that time.

Attached Minutes of Director's Meeting (Attached Sheet No.4) show that Torata Matsui was appointed to the President and Yutaka Yagi to the Managing Director by the mutual election on the special Directors' Meeting on November 17, 1945.

(Attached Sheet No. 1)

Jan. 30, 1948.

The Befu Chemical Co., Ltd.

Re: Circumstances leading to the Establishment of the Company and the Actual State of Personnel Affairs regarding its Executives.

The state of affairs under which our company had come into existence is as follows.

In July, 1944, the present facilities of ammonium sulphate plant of our company which had been constructed by the Taki Fertilizer Works, Ltd. in 1937 and were left idle at the time attracted the special attention of the authorities of the Navy, Munition, Agriculture, Commerce and Industry Ministries. Thus, according to the instructions issued by these authorities a new company was established to meet with the urgent demand for increased production of ammonia for the prosecution of the war under the joint management of the Sumitomo Chemical Co., Ltd. (at present the Nissin Chemical Co., Ltd.) and the Taki Fertilizer Works with techniques and funds from the former and investment in kind from the latter. During the above period, the management of the new company had admitted of no interference by plutocratic business performance or foroible purpose of the Sumitomo Chemical Co., Ltd.

For the company thus initiated under the circumstances as mentioned above the Sumitomo Chemical Co., Ltd. had no other way but to supply us with its techniques and funds and to take part

of its partial management in conformity with the instructions. issued from the authorities. In January 1948, it was designated as a munition factory, accordingly the whole substantial controlling power as to its management was shifted to those who were responsible for its production according to the provisions of munition company law and the company had been managed only in conformity with directions of Ministry of Munition up to the Surrender. Immediately after the Surrender the Sumitomo Zaibatsu itself was thrown into a furious chaos until it was dissoluted in October, 1945 so that the control of the Zaibatsu on our company did not exist either periodically or substantially.

After all, our company was established by the request of the Ministry of Munition in July, 1944 and had been managed in conformity with the directions of the Ministry during the War and was encountered with the Surrender soon after its establishment, and then the Sumitomo Zaibatsu disappeared. Under these circumstances, it has not admitted of any plutocratic control or such characters. Next mention is made as to the actual state of personnel affairs of the executives since the establishment of our company. The executives for the company were appointed temporarily by mutual understanding between the Sumitomo Chemical Co., Ltd. (new Nissin Chemical Co., Ltd.) and Taki Fertilizer Co., Ltd. in conformity with the opinion of the authorities.

Subsequently, on January, 1945 this company was designated

as a munition company and thereafter the personnel affairs were conducted in conformity with the regulations as set forth in the Munition Company Law. Following the Surrender, the Sumitomo Zaibatsu was dissected in October of 1945 and simultaneously the principal executives of the former Sumitomo Chemical Co., Ltd. voluntarily resigned the posts as executives of our company.

Henceforth, the succeeding principal executives were all appointed in accordance with our independent standpoint. However, in view of the fact that no competent executive personnels were available within our company due to the short period after its establishment and also the plant was on the way towards rehabilitating superior technical supervisors were most urgently required for the company. With this aim, we turned to the Niihama Works of the Nissin Chemical Co., Ltd. the topranking company in its field to ask for appropriate personnels and were fortunate enough to get some who assumed the position of executives in our company. Hence, as can be seen from the above-mentioned, viz. the history of our company, the designation as munition company, and the dissection of the Sumitomo Zaibatsu following the Surrender, it is evident that our company has had no connections with the personnel affairs of the executives of neither the Sumitomo head Office nor the Sumitomo Chemical Company.

(Attached Sheet No. 2)

Certificate

January 31, 1948.

The Nissin Chemical Co., Ltd.

This is to certify that the relation between the Nissin Chemical Co., and the Befu Chemical Co., Ltd. are as follows:

1. Relation at the time of the establishment of the Befu Chemical Co., Ltd.

The Befu Chemical Co., Ltd. was established under the instruction of the Ministry of Navy, the Ministry of Manition and the Ministry of Agriculture and Commerce through the direct instruction in the name of the Chief of the Navy Aeronautical Head-quarters (Secret No. 11310 N.A.H. dated 5 Aug., 1943) with the purpose of attaining the increased production of ammonia by introducing the capital and technique of the Sumitomo Chemical Co., Ltd. to the then existing ammonium sulphate equipment of the Taki Fertilizer Works, Ltd.

Therefore, the truth is that the Nissin Chemical Co., Ltd. offered the technique and funds to the then existing equipment of the Taki Fertilizer Works, Ltd. according to the instruction of the authorities and was obliged to take part in the management of the Befu Chemical Co., Ltd. The executives of the Befu Chemical Co., Ltd. were elected from the both companies after the consultation with the Taki Fertilizer

Works, Ltd.

Since the designation of the Befu Chemical Co., Ltd. as a munition factory in January 1945, soon after its establishment in July 1944, the whole substantial controlling power as to its management has been shifted to those who were responsible to its production according to the provision of the Munition Company Law and the company had been managed only in conformity with the directions of Ministry of Munition up to the Surrender. As may be easily understand by the above statements, the Nissin Chemical Co., Ltd. has no intention to exercise controlling power over the Befu Chemical Co., Ltd. as an ingredient of the Sumitomo Zaibatsu from the beginning of its establishment.

2. Relation of after the surrender.

Immediately after the Surrender, the Sumitomo Zaibatsu itself was thrown into a furious chaos until it was officially dissoluted in October, 1945. The Zaibatsu colours of the Nissin Chemical Co., Ltd. itself were faded away and its executives resigned, subsquently the executives of the Befu Chemical Co., Ltd. dispatched from the Nissin Chemical Co., Ltd. resigned in November, 1945.

On the other hand, the Befu Chemical Co., Ltd. was then endeavoring to start the rehabilitate of ammonium sulphate plant by the technique and funds of the Nissin Chemical Co., Ltd. and superior technical supervisers were most urgently required for the company. However in view of the fact that

no competent executive personnels were available within the company due to the short history of the company, the competent person who had engaged in the ammonium sulphate production for a long time in the Niihama Works of the Nissin Chemical Co., Ltd. were asked to be invited to the post of executives of the Befu Chemical Co., Ltd.

At that time the above-mentioned persons at Niihama Works voluntarily intended to accept the invitation of the Befu Chemical Co., Ltd. The Nissin Chemical Co., Ltd. unwillingly released them to the Befu Chemical Co., Ltd. thinking over their intention and the importance of the Befu Chemical Co., Ltd. at the time of food crisis.

Therefore the above-mentioned personnel affairs of the executives was not carried out by the Nissin Chemical Co., Ltd. but by the voluntary intention of themselves who moved to the Befu Chemical Co., Ltd. as the technical supervisors.

The Sumitomo Zaibatsu was declared to dissolve in October, 1945, and the voting right of the Nissin Chemical Co., Ltd. over the shares of the Befu Chemical Co., Ltd. was trusted to the Holding Company Liquidation Commission in January, 1947. During that period the Nissin Chemical Co., Ltd. according to the Zaibatsu Dissolution Law, did not excercising controlling power over the Befu Chemical Co., Ltd. and only retained entirely nominal relation with it as a shareholder. As can be clearly seen from the above-mentioned fact, relation between the Nissin Chemical Co., Ltd. there has been no intention on the part of

Nissin Chemical Co., Ltd. to exercise controlling power over the Befu Chemical Co., Ltd. as a part of Zaibatsu since its establishment as well as after the surrender. The Befu Chemical Co., Ltd. has been managed as an independent company from the independent standpoint.

Secret Navy Aeronautical Head-quarters No.11510

August 8, 1943.

From: Chief of the Navy Aeronautical Head-quarters

To: President of the Sumitomo Chemical Co., Ltd.

Re: Instruction concerning to the enlargement of the production equipments of Salt Mixture.

Your company is hoped to enlarge the equipments to keep the necessary capacity as mentioned below.

Following procedures should be taken, viz. the submission of the application for permission in regard to the Temporary Fund Adjustment Law and other regulations, and application for the allocation of necessary materials along with the presentation of the enlargement plan by the end of September.

Note:

(1) Number of permission for enlargement works.

Navy Aeronautical enlargement No. 1269

(2) Necessary Capacity:

Capacity of Salt Mixture 10,000T/Y

(Nitric Acid Soda: Purity above 96%)

(Chlorine : under 0.1%)

(3) Equipments

Reenforcement of ammonia synthesis equipments located in Taki Fertilizer Works and newly installment of nitric acid equipments and other necessary accessories in co-operation with the Taki Fertilizer Works, Ltd.

(4) Date of Completion.

1st Term 5,000 T/Y by the end of March, 1944

2nd Term 10,000 " by the end of December, 1944

(5) Allotment of principal materials.

Within 1,060 tons of steel to the whole works.

(6) Use of the enlarged capacity.

To the Navy Aeronautical Head-quarters and Navy Aeronautical Technical Plant.

(Attached allotment table of principal materials)

Copies are sent to

the Chief of Navy Aeronautical Technical Plant

the Chief of the naval Supervising office in Osaka and Kobe district.

Taki Fertilizer Works, Ltd.

No.2243 Chemical Bureau 2243

June 8, 1944.

From: Chief of Chemical Bureau of the Ministry of Munitions.

To : Teikichi Yoshida

President of Sumitomo Chemical Co., Ltd.

Re : Instructions concerning the increasing Irroduction of Ammonia at the Taki Fertilizer Works Ltd.

You are requested to do your best to increase production of ammonia in co-operation with the Taki Fertilizer Works as mentioned as Taki Fertilizer Works, as a result of discussion with the Army, Navy, Ministry of Agriculture and Commerce in order of the enlargements and adjustments of the Munitions production.

Note:

(a) Date of Completions.

By the end of March, 1945.

(b) Necessary material (steel-666 Tons etc.) is to be allocated during the 2nd and 4th quarters in 1944.

(c) The promotion is to be made in co-operation of the Ministry of Munitions and the Ministry of Agriculture and Commerce.

(d) The Taki Fertilizer Works should increase the ammonia production in cooperate with the Sumitomo Chemical Co., Ltd.

(e) The use of 10,600 tons of produced Ammonia is as follows.

1. 7,000 Tons:

   for ammonium sulphate production of 25,000 tons.

2. 3,600 Tons is to be used for Nitric Acid production, but the final decision will be made after the deliberation.

(Attached Sheet No. 3)

Certificate

January 31, 1948

The Befu Chemical Co., Ltd.

Managing Director, Taki Ensei

Re: Circumstance leading to the Establishment of the Befu Chemical Co., Ltd. and the Actual State of Personnel Affairs regarding its Executives.

1. The circumstances leading to the establishment.

The Befu Chemical Co., Ltd. was established on 20 July, 1944. The motive by which the company had come into existence is as follows:

At that time, the present facirities of ammonium sulphate plant of our company which had been constructed by the Taki Fertilizer Works, Ltd. in 1937 attracted the special attention of the authorities of the Ministry of Navy, the Ministry of Munition, and the Ministry of Agriculture and Commerce. Thus, according to the instructions issued by these authorities, a new company was established to meet with the urgent demand of increasing the production of ammonia for the prosecution of the war by the especial intensification under the joint management of the Sumitomo Chemical Co., Ltd. (at present the Nissin Chemical Co., Ltd.) and Taki Fertilizer Works with technique and funds introduced from the former.

This is evident and clear by the instruction of the chief of the Navy Aeronautical Headquarters (Secret No. 11310 N.A.H. dated 5 August, 1943)

Then the Taki Fertilizer Works Ltd., consulted with the Sumitomo Chemical Co., Ltd. and started the joint management by the executives dispatched from the both companies according to the instruction of the authorities.

2. Actual State of Personnel Affairs regarding the executives.

The personnel affairs regarding the executives of the Befu Chemical Co., Ltd. is, as mentioned above, closely reloted to the extablishment of it. After the consultation of Taki Fertilizer Works, Ltd. with the Sumitomo Chemical Co., Ltd. according to the instruction of the authorities, five executives were elected from each company from its own standpoint. I was elected and appointed to the managing director as an executive from the Taki Fertilizer Works Ltd.

Subsequently, on January, 1945 this company was designated as a munition company and thereafter the personnel affairs were conducted in conformity with the regulations as set forth in the Munition Company Laws till the repeal of this designation at the time of Surrender. The Sumitomo Zaibatsu was dissected in Oct., 1945 according to the Zaibatsu dissection decree and simultaneously the principal executives of the former Sumitomo Chemical Co., Ltd. voluntarily resigned the post of executives of our company. The Befu Chemical Co., Ltd. was forced to appoint the succeeding principal executives from its own independent stand-point. At that time, food crisis,

was at its worst condition and the production of fertilizer is urgent business for the stablization of the people's life. Accordingly the importance of the Befu Chemical Co., Ltd. as a chemical fertilizers maker increased more and more. On the contrary, the condition of ammonium sulphate production in the company was extremely bad. The able executives were expected to be invited from the outsides of the company in a view of the fact that no competent executive personnels necessary to the reconstruction and reinforcement of the equipments were available within the company due to the short history of the company.

With this aim, we searched the able men in the Niihama Works of the Nissin Chemical Co., Ltd., the top-ranking company in its circles and were fortunate enough to get some who assumed the position of executives in our company. This personnel affairs regarding the executives were considered independently by the Befu Chemical Co., Ltd. and there was no restriction or interference.

I am the executive from the Taki Fertilizer Works, Ltd. and have been the managing director since the establishment of the Befu Chemical Co., Ltd. I, hereby, certificate that the above statement is entirely correct and true.

Taki Ensei

(Attached Sheet No. 4)

Minutes of Meetings

Minutes of the Special Directors' Meeting.

(November 17, 1945)

The following resolutions were passed.

1. As the result of as mutual election, Mr. Tereta Matsui was appointed to the post of President and Mr. Yutaka Yagi to the Managing Director

2. The proposal to pay remuneration to retired officials were to be left to the discretion of the President.

3. The 3rd Regular Meeting of shareholders will be opened here from 10:30 a.m. November 30, 1940.

Subjects are as follows:

(a) Inventory and Balance Sheet as of September 30, 1945

(b) Business Report of 3rd Term, statement of profit and loss from April 1, 1945 till September 30, 1945 and disposition bill of profit and loss.

十一、本人の役員就任當時その勤務した財閥會社と財閥又は財閥直系會社との間に役員としての就任についての事前承認を必要とする旨の取極の有無

（一）明文の取極の有無

有り

（二）本人の役員としての就任の事情の詳細、特にその就任につき財閥又は財閥直系會社が關與した事實の有無

私は明治三十九年十九才の時山口縣玖珂郡和木村所在の藝陽抄紙株式会社職工として始めて製紙業に関係を持つて以来、同社が明治四十年土佐紙株式会社と合併後も引き續き勤務し、更らに同社が大正十四年日本紙業株式会社となつても、尚勤續し其の間に製紙に関する技術、販賣、經理の事務を全部習得し、遂に昭和九年日本紙業株式会社藝防工場長に累進したのであります。而て私は此の工場以外の職場に一歩も出ずに終始一貫して自分の身に適した半生の職場であります。此の藝防工場は実に私が年少就職した頃から実務に付いて、學問の方は義務教育の程度に止まり、單に身につけた技術と永年の經驗による事務處理の方法によつて工場經營をするのが精一杯であつて、重役に就任しても会社全般の運營に當るといふ株主の期待に副ふ事は出来ないから辭退する旨を當時の常務取締役大脇順路氏に申入れたのですが、重役に就任しても更に本社に於て社務を執るのではなく依然として藝防工場を經營せよといふ事なので就任したのであります。此の事は昭和二十年一月常務取締役に就任する時にも同様であつたのであります。尚これは昭和二十年金原祐之助氏が社長に就任の際、常務取締役として会社運營に當れといふ話のあつた際にも、前と同様の理由で辭退したのであります。

此の經過に明かな如く、又私自身保善社によつて役員に任命された等とは考へた事もないのであります。

一言も保善社より話もなく、又私自身保善社に出向いたりはないといふ事なので株主總会の選任を引受したのであります。

之れが私の役員就任當時の実情であります。

11. At the time of your assnmption of office as official, whether or not the arrangement that the previous approval be obtained from the Zaibatsu or the direct Zaibatsu affiliate regarding assumption of the position of official existed between the Zaibatsu company where you served and the Zaibatsu or the direct Zaibatsu affiliates.

a. Whether or not the arrangemeut existed in writing.

THE ARRANGEMENT EXIST IN WRITING

b. Details of circumstances under whicn you assumed the position of official; particularly whether or not the Zaibatsu or the direct Zaibatsu affiliate was concerned in approving your assumption of office.

IT WAS IN 1906 THAT I WAS EMPLOYED AS A WORKER BY THE THE GEIBO PAPER MANUFACTURING CO. LOCATED AT WAGI-MURA, KUGA-GUN, YAMAGUCHI PREFECTURE AT THE AGE OF NINETEEN. SINCE THAT TIME I HAD BEEN CONTINUOUSLY WORKING THERE, THE COMPANY BEING MERGED INTO THE TOSA PAPER MFG. CO. IN 1914 AND LATER INTO THE JAPAN PAPERWARE MFG. CO. IN 1925 AND BEING CALLED THE JAPAN PAPER INDUSTRY CO.

DURING THESE YEARS I LEARNED PAPER MANUFACTURING TECHNICS, SELLING METHOD AS WELL AS ACCOUNTING WORK AND MY POSITION BEING GRADUALLY PROMOTED, IN 1935 I WAS INSTALLED AS THE GEIBO FACTORY MANAGER. SINCE I WAS FIRST EMPLOYED, I HAD SPENT ALMOST A HALF OF MY LIFE IN THIS FACTORY. UP TO THIS TIME I HAVE NEVER CHANGED MY ORIGINAL DETERMINATION THAT I SHOULD DEVOTE MY WHOLE LIFE TO PAPER INDUSTRY ONLY AIMING AT THE IMPROVEMENT OF THE QUALITY OF PRODUCTS AND AT THE PERFECTION OF MY FACTORY MANAGEMENT.

DURING THE WAR-TIME, THE INTERFERENCE OF OUR MILITARY AND GOVERNMENT IN THE ADMINISTRATION OF THE FACTORY BECOMING MORE AND MORE FREQUENT THEY EVEN URGED US TO CHANGE A PART OF THE FACTORY BUILDING TO A MUNITION FACTORY. SO THAT, I ASKED THEM TO WITHDRAW THEIR REQUEST EXPLAINING STRENUOUSLY THE IMPORTANCE OF PAPER MANUFACTURING AND COULD SUCCEED IN MATERIALI-ZING MY WISH.

ON THE OTHER HAND, MY EFFORTS AT IMPROVING THE QUALITY OF PAPER COULD GAIN A FAVOURABLE COMMENT BOTH IN THE INDUSTRY AND AMONG THE CONSUMERS.
