It is in the form of an agreeable paste, and is taken i such a manner as to render it "tasteless," by being wrapped up in a w fer pr pared for that purpose, a sufficient number of which will be delivered with the medicine. But the greatest advantage which it possesses, is, that invariably produces a radical cure of the disease in a few days, without affecting the most delicate constitution, owing to its containing the slightest particle of mercury

Before the Agent would offer it to the public in this country, he has had its efficacy tested by several of the most respectable physicians in the city of New York Their success has fully justified the declaration, that it is the best medicine they ever used, and they have in con acquence, generously consented to be referred to as to the truth of this statement.
