For less than 10 of a variety add 5c to the 10 price. Less than 5 add 10c.

WE are strictly growers and do not buy any stock. Everything we offer is grown right here in New Brunswick.

Our roses are 2 year field grown, budded on JAPANESE MULTIFLORA, the best stock for the greater part of the U. S. It positively will not "sucker."

We winter our roses in unheated sheds with the roots in the ground and the tops in the air. This makes a hardy top for spring planting. Whenever possible, we favor Fall planting.

Roses require a good deal of moisture, even when dormant, and much trouble can be traced to lack of water. After you receive your roses, if it is intended to sell them dormant, they are best heeled in deeply, protected from wind and severe temperature changes and kept shaded and well watered.

TERMS

Cash or references from unknown parties.

Packing free when cash accompanies the order, otherwise, at cost.

All shipments made at purchaser's risk. All orders taken subject to crop failure or conditions beyond our control.

Complaints, if any, must be made promptly on receipt of shipment.

We give no warranty, expressed or implied, as to description, quality, productiveness, or any other matter, of any roots, bulbs or plants we sell. If the purchaser does not accept the goods on these terms, they are at once to be returned.

(Larkspur)

Delphiniums

We have been making these plants a specialty and can offer fine field grown plants. Buying the best seeds from different sources and careful selection of our own is giving us constant improvement in the size of the flower and the length of spike. Early Fall is the best time to plant.

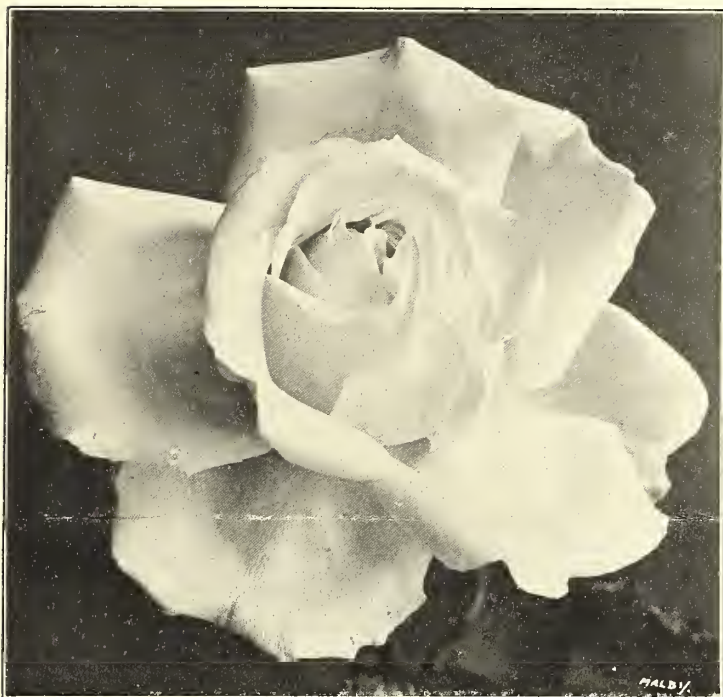

BELLADONNA, Pfitzer's Improved Strain, a really worthwhile improvement over the ordinary. The plants grow taller and the flowers and spikes are larger.

	Per 10	Per 100
Clumps	\$2.00	\$15.00
Strong Field Grown, 2 yr.	1.25	10.00
BELLAMOSUM , dark blue form of belladonna	1.25	10.00
CHINENSIS , gentian blue, dwarf everblooming	1.00	8.00
CHINENSIS ALBA , white form of above	1.00	8.00

Hybrid Delphiniums

All shades of blue. These are from seed of a number of different much advertised strains and the mixture contains a large percentage of fine individuals. They grow in height from four to six feet. This class of delphinium is becoming very popular and the hollyhock strains in particular have caused a great deal of comment.

Strong 2 yr. plants	1.25	10.00
