## RUSSIAN FORCES ABOUT TO TAKE HALICZ

### FRENCH BITE INTO LINE EAST OF MEUSE; ALLIES HOLD ALL GAINS IN REGION OF SOMME

#### German First Line Trenches on Front of Mile Northeast of Verdun Taken; Germans Beaten Off by British and French North and South of Somme River, London and Paris War Offices Announce

Paris, Sept. 7.—French troops yesterday evening captured German first line trenches along a front of one mile northeast of Verdun, between the Vaux-Chapitre wood and Chenois, taking about 250 prisoners and 10 machine guns, the war office announced this afternoon. The French troops maintain their firm hold on the Hospital Farm, southeast of Le Forest, north of the Somme. The enemy only suffered heavy losses when he made a powerful attempt last night to retake the position.

The text of the statement follows: "North of the Somme German troops made a powerful effort to dislodge us from the Hospital farm, but were dispersed with heavy losses. South of the Somme German troops made several attacks against our new positions southeast of Belloy-en-Santerre and south of Barleux. All these attacks were stopped. The enemy suffered great losses. Four hundred prisoners taken south of the Somme have been counted up to now.

From Aisne Front. "The German troops beaten back yesterday by our infantry in the region east of Chilly, south of the Somme, belonged to a Saxon division, which had been transferred hurriedly from the Aisne front.

"On the right bank of the Meuse (Verdun front) yesterday our troops attacked the German organizations on the front between the Vaux-Chapitre wood and Chenois. The entire front line of enemy trenches fell into our hands on a length of about 1,500 metres. We took about 250 prisoners and ten machine guns."

Hold Leuze Wood. London, Sept. 7.—British troops beat off German troops in hand-to-hand fighting last night when the latter attempted to regain possession of the Leuze wood, a short distance northwest of the outskirts of the town of Comblès, north of the Somme, the war office reported to-day.

The text of the report follows: "Under cover of darkness the enemy made a counter-attack against our positions in the Leuze wood, near Comblès, north of the Somme. After hand-to-hand fighting the enemy was driven back, leaving two officers and seventeen men prisoners in our hands.

"The fighting at Ghinchy continues. There was considerable artillery activity on both sides during the night and this morning the enemy used gas and lacrymatory shells."

### AT POINTS ON SOMME FRONT ENEMY HAS ONLY HASTILY-BUILT TRENCHES; RESULT OF HIS DAY-BY-DAY LOSSES

Paris, Sept. 7.—At a number of points on the Somme front the Germans now are holding their line with trenches hastily built during the past few weeks, the triple barrier of what were alleged to be impregnable trenches, with their blockhouses and underground dugouts, having passed into the hands of the French forces as a result of the gradual, steady two-months' push, and General Foch's artillery now is playing on improvised defences of a much less formidable character, according to officers who have returned here from the region of the Somme.

This applies as yet to only small dispersed sections of the front, but these are being extended rapidly in the new advance. Thus sufficient proof has been afforded that the "steel wall" with which the Germans have protected their western front, can be completely smashed with a pulverizing gunfire such as the French have concentrated on the Somme front.

The latest figure of prisoners taken by the French and British exceeds 8,000.

### BRUSILOFF KEEPS ENEMY UNCERTAIN

#### Austro-Germans Baffled by His Plan of Attacks Here and There

Petrograd, Sept. 7.—The strategy Gen. Brusiloff is using in his great offensive against the Austro-Germans in Galicia and the Carpathians is based on the principle of suspension of attack as soon as it begins to meet a really serious resistance, and a rapid concentration for a thrust in a fresh direction. New movements are developed without warning here and there along the whole front and the enemy is left in uncertainty as to the points of real danger. Thus the Austro-Germans dare not stiffen their line at one point at the expense of another.

Profound secrecy is maintained. General Brusiloff and the general staff alone know what the plans really are. (With Their Own Medicine. A recent attack at a point some 20 miles southeast of Vladimir-Volynski, Volhynia, was attended by a dramatic incident. During the artillery preparation the Austro-Germans were treated liberally with the new Russian gas shell. The enemy's fire suddenly was silenced. The Russian troops, pushing forward, found the trenches tenanted only by dead—grimly grotesque figures lying or leaning, evidently killed instantly by the deadly fumes from the shells.

To-day, interest in Paris centres upon Comblès, north of the Somme, which is expected to fall shortly. The British still are working around north of the town, while the French are pressing on from the southeast.

The capture of Ommécourt, in the loop of the Somme, was effected in 40 minutes, all the defenders who had remained in a group of houses being bayoneted. The German machine gun section was smothered without a single rifle shot being fired. The remainder of the garrison, half a battalion, vainly tried to retreat along the Clercy road. French colonial troops cut them off, compelling them to surrender after a short struggle. Fifty undamaged machine guns and a heavy battery, of which three guns were intact, composed the principal booty taken in Ommécourt.

Between Barleux and Chauvines, south of the Somme, the Germans still are counter-attacking with desperate fury. Yesterday they employed 40,000 men for the purpose, according to a French staff officer, but could make no impression on the new French positions.

### Report of Fall of Halicz, Galicia, Will Come at Any Moment

Berlin, Sept. 7.—After heavy fighting with Russian forces in the sector southeast of Lemberg, eastern Galicia, the Austro-German forces have fallen back in the sector between the Zlota Lipa and Dniester rivers, the war office announced to-day.

### HALICZ, GALICIA, IN FLAMES, BEING SHELLED BY RUSSIANS; GAINS IN THE CARPATHIANS

### PASSES TAKEN BY ROUMANIAN TROOPS

#### Points on Roads Leading to Hungary Wrested From the Enemy

### GUNS, MACHINE GUNS, MUNITIONS, CAPTURED

Bucharest, Sept. 7.—Roumanian troops have occupied the Gyergyó, Ditra and Orsova Passes, on the north and northwest frontier of Roumania, says a statement issued by the war office to-day. Seven guns, a number of machine guns and important ammunition stores were captured from the Austrians.

The German and Bulgarian forces, having received numerous reinforcements, continue to attack with great violence the Roumanian fortress of Turtukai, on the Roumanian-Bulgarian border southwest of Bucharest. The garrison of the fortress is ceaselessly counter-attacking, the statement adds. The losses of both sides are said to have been serious.

#### Enemy on Point of Losing Town About 60 Miles Southeast of Lemberg; Railway Lines Held by Czar's Troops; Yesterday Russians Captured Over 5,645 Prisoners, Guns and Materials

Petrograd, Sept. 7.—Russian guns are bombarding the town of Halicz, Galicia, about 60 miles southeast of Lemberg, says an official report issued to-day. The town is in flames.

Russian troops have occupied the railway lines from Halicz to Semikovitze and the Wodniki.

In the fighting in Eastern Galicia yesterday the Russian forces took more than 5,600 more prisoners.

The text of the statement follows:

"In the region of Halicz, Galicia, our troops occupied the railway lines from Halicz to Semikovitze and to Wodniki. They are bombarding with heavy and light artillery the town of Halicz in which the enemy still is stubbornly holding out. The town is now in flames.

"In that region yesterday we captured a total of 45 officers and 5,600 men, including 22 German officers and about 2,000 men, and 5 Turkish officers and 655 men. The captures of guns and materials are being counted.

"In the Carpathians our advance continues."

### ADMITTED GERMANY'S WEAKNESS AT SEA

#### Bethmann-Hollweg Told Federal Council Submarine Poor Weapon Against Britain

London, Sept. 7.—According to definite information received at Bern from Germany, says a dispatch to the Wireless Press, Dr. von Bethmann-Hollweg, the German imperial chancellor, upon being questioned at the August meeting of the federal council as to why he had yielded to the demands of the United States regarding the unrestricted torpedoing of ships on the high seas, replied emphatically that the value of the submarine was exaggerated by the adherents of wholesale torpedoing.

The chancellor said that insistence on unrestricted submarine warfare would cause war between Germany and the United States, and that the results of unlimited torpedoing would not justify such a policy. Elaborating this point, the chancellor is quoted as saying that Germany could not effectively blockade Britain, nor cut off Britain's food supply.

### £500 FOR HEROIC BRITISH AVIATOR FOR HIS ZEPPELIN

London, Sept. 7.—William Bow, a shipbuilder, has forwarded a cheque for £500 to Lieut. William Robinson, the young aviator who brought down one of the zeppelins which attempted to raid London on Saturday night.

### MILITARY EXPERTS IN FRANCE ARE CONVINCED GERMAN GENERAL STAFF IS FINDING FINAL TASK TOO GREAT

Paris, Sept. 7.—The German general staff is encountering increasing difficulty in finding sufficient reserves with which to maintain its dispositions on the various fronts. Von Hindenburg takes over the post of the head of the German general staff at a time when its problems are very great and growing, and when it finds questions of the profoundest import to Germany to be decided for which it can find no parallel in the early stages of the war. It is on new ground and the course it will follow under von Hindenburg's leadership is being watched with the keenest interest by observers here.

Information has reached Paris that since his appointment, von Hindenburg has been unable to remove a single division from the 120 that are stationed on the western front. The battle is making a tremendous drain on the reserves posted in the depots immediately behind the lines, and many regiments have had to be sent to the rear for rest and reorganization after being mauled cruelly in the counter-attacks.

### ELECTORS OF THE CAPITAL EXPRESS CONFIDENCE IN LIBERAL LEADER AND HIS COLLEAGUES ON THE CITY TICKET

#### Magnificent Gathering Greets Speakers in Victoria Theatre; Mr. Brewster Asserts That His Attorney General Must Abandon Private Practice; Falsehoods in Handbills Nailed

One of the most magnificent demonstrations of popular feeling in support of a political party that has ever been seen here was that afforded at the Victoria theatre last evening, when the house was crowded in every part to hear the Liberal candidates in the capital. It left no shadow of a doubt as to how the election is going here. In itself, and especially when contrasted with the Bowser meeting in the same place ten days earlier, it displayed a deep-seated and unflinching determination to get rid of the Bowser government at once. The sentiment of the people was expressed in clear and unmistakable manner, and their cheers ran through the house time and again as condemnation of the government or declarations of Liberal policy were uttered.

The theatre was not nearly large enough for the crowds that sought admission. Long before eight o'clock the orchestra and parterre were filled and as the time wore on the balcony and gallery seats were taken up. The boxes were crowded with all the chairs they would accommodate, and on the platform were placed a hundred or more people. Even with all this there were over three hundred people turned away up to half past eight, and still they were coming from every direction.

Electors of every shade of opinion were in the house, but it was apparent before the meeting had progressed very far that they were one in their attitude toward the government and their intention to wipe it out of power on September 14. From start to finish there was not one dissentient voice raised. On the contrary, every statement of the speakers was cheered or applauded, and the expressions of detestation of actions of the premier and his supporters were as emphatic as they were frequent. The absolute unanimity of the audience was a striking feature. Probably never before in the political history of the city has a gathering of this size been so strongly and undeniably one in its viewpoint of men and affairs.

H. C. Brewster, leader of the party, was given a rousing welcome on this first appearance at a public meeting in the capital since his return from a tour of the province, in the course of which he was received with enthusiasm everywhere. For some moments the audience cheered when he rose to speak and throughout his speech he was applauded often. His references to the manner in which the great north country is strangled by the speculation, with the aid and connivance of the government, and the few settlers who have braved conditions are terrorized by the patronage system made a deep impression upon his hearers.

In the course of his speech Mr. Brewster made it plain that in a Liberal government such a condition as the coupling of private practice with public duty will not be permitted for a moment. The attorney general in his administration will have to sever his connection with whatever legal firm he is a member of at the time of taking office. This definite statement of the coming premier was received with cheers.

Not long before this statement was made by Mr. Brewster some strong references had been made by Charles McDonald, Vancouver, to the highly immoral un-British position occupied by Mr. Bowser as solicitor for men and interests which were supplicants for governmental consideration. "Public duty and private interest should never clash," said Mr. McDonald; "because when they do private interest has the victory and public duty sinks into the dust. That is what we complain of in the case of Mr. Bowser."

The leader's three colleagues on the ticket here made short and effective speeches, and all had a reception of the warmth and spontaneity of which there was no question. In their

### AMERICANS RECEDE IN MATTERS OF RETALIATION FOR MAIL-SEARCHING AND FISH TO U. S. THROUGH CANADA

Washington, Sept. 7.—Conferees on the emergency revenue bill to-day struck out the Phelan amendment to empower the president to retaliate against citizens of belligerent nations which interfere with United States mails. The argument which prevailed in the conference was that it might work great hardships to Americans in foreign countries by counter-retaliation.

### TISZA HAS ADOPTED STRONG-ARM PLAN

#### Hungarian Independence Party and Supporting Parties Gaining Upper Hand

London, Sept. 7.—A dispatch from Zurich states that on account of the violent opposition with which the Hungarian government is meeting in parliament, measures have been taken to end the session if the situation should become more aggravated. Premier Tisza, the dispatch says, informed the leaders of the opposition parties that he had procured from Emperor Francis Joseph a decree proroguing parliament, and that he would take the decree with him to every sitting and promulgate it if the attacks of the opposition should become too violent.

From this and other dispatches it is plain that there is in Hungary to-day the most menacing crisis that has developed since the war began. Tisza's government narrowly escaped being overthrown in the Diet last Tuesday, and apparently its existence has been so threatened since that the Vienna government, which is in hard straits, is prepared to take very extreme measures to prolong its tenure of office.

The principal of the three opposition parties is the Hungarian Independence party, of which Count Karolyi is the leader. It had been attacking the government violently of late.

### PROSPECTUS OF NEW CANADIAN WAR LOAN

Ottawa, Sept. 7.—The prospectus of the second domestic Canadian war loan, which has been under preparation for the past fortnight, will be published in the newspapers throughout Canada some time next week.

Paris, Sept. 7.—An official statement on the operations on the front in Macedonia issued to-day says: "There was intermittent cannonading on the front as a whole." A British cruiser beat down the fire of Bulgarian batteries on the lower Struma, the statement adds.

DECLARES CANADIAN TROOPS KNEW NO FEAR

German's Letter Describes One of Their Last Fights on Ypres Salient. London, Sept. 7.—An echo of the fierce fighting on the Ypres salient comes to the Canadians, now near the Somme, from the famous French Iron Division, which held the line on the Canadian left when the Canadians first went to the salient, but which was relieved by colonial troops the day before the first gas attack, and has just been in terrific fighting which ended in a considerable gain on the right of the Somme position. Coming back to a well-earned rest, the men from Division heard the Canadians were somewhere near and one of its officers looked the Canadians up, bringing a letter his men had captured from an officer of the 125th Prussian battalion. The German evidently had had no chance to post it. Avoiding the German censorship, it described the terrific attack which resulted in the recapture by the Canadians of the last great crater on Hill 60 early in August. The German officer wrote: "Half our regiment was wiped out by the frightful artillery fire. We thought we could never remain; then still heavier guns concentrated on our makeshift trenches. We were getting ready to retreat, when suddenly the Canadians sprang out of the very ground at our feet. They were devilish, possessed with a mad spirit and knew no fear. They bombed the few of our men who stood their ground, then bayoneted many others as they fled through the barrage of the British artillery. "So utterly demoralized were some of our men who came through that they refused to march when we were ordered to our new position, which we knew would be on the Somme." The bringing of the letter by the French comrades of the Canadians was a delicate compliment that is appreciated by a certain Montreal regiment which was holding the position just before Langemarck, and which also happened to make the particular attack described in the prisoner's missive.

GOVT. OF HUNGARY IS ABOUT TO FALL

Censored Dispatch From Budapest Indicates That Discontent is Growing. Budapest, Sept. 7, via Berlin and London, Sept. 7.—An attempt by the opposition party at to-day's session, of the Hungarian Diet to shake Premier Tisza's position failed in spite of the extremes to which the opponents of the government resorted. When the session was over Count Tisza had weathered successfully one of the worst attacks ever made on his administration. Count Tisza started to address the House on the advent of Roumania into the war and the storm broke. Immediately the party of the extreme left began to attack with calls of derision and demanding his resignation. Opposition members shouted "Tisza resign." "You allowed yourself to be fooled by Roumania." "You don't belong in a minister's chair." "We have no use for a helpless government." "Why was Transylvania not fortified?" "You are wrecking the country, and many other exclamations of demerit. Meanwhile the Speaker was ringing the bell for order, and the object of the bitter attack calmly stood surveying his opponents and continuing his speech whenever the tumult had sufficiently subsided. When the left finally had exhausted itself, the government party gave Count Tisza a thunderous ovation. The premier explained to the House that the government had done its best in Transylvania militarily, having put trust, however, in statements made by the Roumanian government, whose troops, he said, crossed the border before the declaration of war was handed to the government in Vienna. Count Tisza reviewed the relations of the dual monarch with Roumania, which he said had been terminated by Bucharest "by a perfidious act." Fooled Them. "Roumania's conduct not only fooled us, but the diplomatic and military circles of our allies as well," the premier declared. "We all knew that Roumania was arming and nearly ready, and the allied general staffs prepared a mutual plan of action on the Bulgarian, as well as the Hungarian, border. I admit that the Roumanian attack occurred before these preparations had been completed. Nobody regrets more than I that thousands of our people along the border suffered from the sudden raid of the Roumanians, and I pray God that Roumania will meet its just fate." At this part of the speech the House quieted down. Toward the end of the session, Count Apponyi, Count Andrássy and Count Karolyi, the leaders of the opposition, took up the question of Roumania's declaration of war, denouncing the conduct of the Roumanian government as "perfidious" and "treacherous," but insisting however that Premier Tisza's government had failed to take the necessary precautions and demanding its dissolution. The end of the session left the opposition still clamorous and dissatisfied, so that another adjournment of the Hungarian diet is not improbable, considering that the Hungarian government is thought to be unable to change the military situation now. The above dispatch, carefully censored, of course, by the Austro-Hungarian authorities to make the crisis appear as mild as possible, indicates that the forces arrayed against Tisza's government are growing in strength. The sessions of the Hungarian diet were noted for their disorderliness, not to say violence, even in peace times, when the disturbances frequently became so pronounced that books and ink bottles were hurled across the floor by opposing parties, but the crisis on Tuesday seems to have been the most serious and threatening that has developed since the war began. Count Karolyi is leader of the party known as the Hungarian Independence Party, the members of which are working for the assumption of complete control of its own affairs by Hungary notwithstanding the claim of Austria that the war demands unity of action between the two parts of the dual monarchy. This party has been growing rapidly of late, the menace of the Russian drive, and now the menace of the Roumanian drive, adding many to its numbers.

FRENCH DROVE ON SOUTH OF SOMME

Gains Near Belloy, at Berny, at Vermandovillers, Between Chaumes and Chilly. Paris, Sept. 7.—The following official statement was issued last night: "North of the Somme there was a violent artillery duel, but no infantry action. "South of the Somme in the afternoon we successfully renewed our offensive and carried several German trenches southeast of Belloy. "In the course of a vigorous infantry attack against the village of Berny-en-Santerre we carried the greater part of the village and advanced as far as the southern section of the park. Between Vermandovillers and Chilly there was especially stubborn fighting. We carried the northern portion of Vermandovillers, as far as the road running from the village of Estrees. "Further south, in the region between Chaumes and Chilly, we captured more trenches and pushed our first line as far as the outskirts of Chaumes and along the railroad between Chaumes and Roye. "The number of prisoners captured during the day seems large, but there is no definite information yet. "On the right bank of the Meuse (Verdun front) the artillery fire was intense at the end of the day in the Vaux-Chapiret wood sector. On the rest of the front the day was comparatively quiet." British Report. London, Sept. 7.—The following official communication was issued last night: "Severe fighting continues at Ghinchy, north of the Somme. Fifty more prisoners were captured to-day. Nineteen machine guns were captured or destroyed since Sunday by the corps on our right flank. "A large enemy party emerging on Courcellette was caught by our artillery to-day and scattered. Numerous enemy working parties were taken under our shell fire and dispersed. The enemy artillery was active against portions of our front near Thierval. "North of Arras and between La Bassee canal and Richebourg we carried out successful bombardments. "Yesterday our aeroplanes continued their usual successful co-operation. One of our patrols encountered and drove off a hostile patrol of thirteen machines. One of our machines is missing." DANISH CONSERVATIVES AND SALE OF W. INDIES. Copenhagen, Sept. 7.—Representatives of the four political parties in the Danish parliament met yesterday and heard the Conservatives propose that a coalition cabinet, a committee of 30 members, 15 from each House, be appointed to reconsider the sale of the Danish West Indies to the United States. The Conservatives proposed further that the committee should make a report and that the convention with the United States should be submitted to a plebiscite under the new constitution. The proposals also provided that if more than half are against it the United States shall be informed the convention cannot be ratified.

U. S. STORES TROUBLE REGARDING SUBMARINES

Washington, Sept. 7.—To the proposal of the entente powers that neutral nations accept the principle that all submarines are vessels of war, the United States has dispatched a reply which, it is understood, holds to the principle that the characteristics of each individual submarine must govern the case. At the same time advices to some of the diplomats here announced that Norway, Sweden and Spain had forbidden their harbors to merchant submarines on the ground that they were "indistinguishable" from war craft. The reply of the United States, it was officially stated, was in the form of a memorandum and not a formal note. Copies were sent to each of the entente governments. To the contention in the entente memorandum that it is difficult, if not impossible, for warships to distinguish between armed and merchant submarines, the American reply is understood to point out that it is equally difficult to distinguish sailing merchant vessels which may have masked batteries. SALONICA FRONT. London, Sept. 7.—An official communication issued last night said of the operations on the Macedonian front: "On the Struma front there have been patrol encounters east of the Struma between Orlik and the Kamarian bridge. "On the Doiran front enemy artillery shelled our positions for three hours."

UTMOST DEPRESSION IN HUNGARIAN DIET

London, Sept. 7.—The sitting of the Hungarian Diet at Budapest last Thursday, when Premier Tisza explained the necessity of depicting Transylvania of troops in order to bring the Russian offensive to a standstill, telegraphs the Reuter correspondent at Berne, Switzerland, was marked by the utmost depression. All the members were attired in deep mourning. Owing to the difficulties of the internal situation, the correspondent adds, the Hungarian minister of education has ordered all schools in Hungary closed until November 1.

ENGINEER KILLED NEAR WINNIPEG LAST NIGHT

Winnipeg, Man., Sept. 7.—Engineer Charles Moore, of Transcona, was killed instantly when the engine of passenger train No. 10 on the Grand Trunk Pacific from Winnipeg to Toronto left the tracks 12 miles east of Winnipeg. Brakeman Barrett and Fireman Stewart were injured slightly. None of the passenger coaches left the rails and no passengers were injured. Traffic was resumed this morning. Officials ascribe the accident to heavy rains which undermined the tracks. Haynes absolutely guarantees all watch repairs.

FLIGHT FROM BUFFALO TO VALCARTIER CAMP

Ottawa, Sept. 7.—The Curtiss Aeroplane Company of Toronto has applied for and received from the militia authorities a permit for a flight from Buffalo to various points in Eastern Canada. An aviator will fly from Buffalo this week to Toronto and Camp Borden, and thence to Ottawa and Valcartier.

REPORT OF ANOTHER ZEPPELIN DAMAGED

The Hague, Sept. 7.—A zeppelin, badly damaged, landed near Mons, after the raid on the eastern counties of England last Saturday night, and was dismantled and its parts shipped to Germany, according to advices received here. Several of the crew were suffering from shrapnel wounds. The sales of Noblemen Cigars have more than trebled during the past three months. Have you tried one lately?

INCREASE OF RIGHTS OF JEWS IN RUSSIA

London, Sept. 7.—London Jews, says the Daily News, are interested in the statement made by M. Milukov, a Russian statesman, that a bill will be introduced in the Duma conferring equal rights upon the Jews and removing the existing educational restrictions. Should the bill be passed, Russian Jews would be able to live anywhere and follow any profession. It is realized, however, that the bill, though supported by the Russian Progressives, will meet with considerable opposition in the Duma.

BREAD PRICE WILL BE HIGHER IN THE STATES

Chicago, Sept. 7.—Members of the Association of Master Bakers from all over the United States conferred to-day at the Hotel Sherman to decide the advisability of raising the price of bread throughout the country. The recent rise in the price of flour, which is said to have threatened small bakers with bankruptcy, is given as the reason for the consideration of a change in the selling price of the commodity.

## GENEROUS DONATIONS COME FROM WINNIPEG

\$11,000 More Sent to the Belgian Relief Committee at Montreal

Winnipeg, Sept. 7.—Between June 23 and August 5 inclusive the Winnipeg sub-committee of the Belgian Relief Committee of Canada raised \$11,000. This was only a continuation of the excellent work done previously in this city.

Winnipeg, the centre of the western country, which has profited so much through the full crops of the last two seasons, has not been slow in appreciation of the fact that out of the fullness of its revenue it owes something to that country which is now on the verge of starvation as a result of its determined stand against the enemies of Canada and the empire in the first days of the war.

Winnipeg, like all other parts of Canada, will get this money back, as every cent of money contributed for Belgian relief is spent in Canada by the Belgian Relief Committee. Money is of no use in Belgium—food is the great necessity. The food is purchased in Canada, so donations are of the "bread cast upon the water" type.

The contributions made in Winnipeg have been forwarded to the Belgian Relief Committee office, 59 St. Peter street, Montreal, under whose careful administration \$2.50 is made to provide food for a Belgian family one month.

## MURDER AND SUICIDE AT BAKER, OREGON

Baker, Ore., Sept. 7.—Mrs. Mary Davis, who was killed last night by Harvey Shoemaker, who then committed suicide, was the victim of the latter's jealousy, according to George Howard, who was arrested to-day as a witness. Howard told the police that he was calling on Mrs. Davis last night when Shoemaker entered the room and began shooting.

## INFANTILE PARALYSIS.

New York, Sept. 7.—The health authorities to-day reported another increase in infantile paralysis. There were 51 new cases, an increase of 8 over yesterday, and 28 deaths, a rise of 5.

There had been an accident on the worst railroad in the country. The sole survivor of the wreck was sitting up in his hospital cot, swathed in bandages.

"I suppose you're going to sue the company for damages," said the friend at his bedside.

"No," said the damaged one. "I shall do nothing of the kind.

"Why not?" You've certainly got a clear case against them."

"Clear case nothing! Any intelligent jury in the world would bring in a verdict of contributory negligence. I ought to have known better than to travel on the blamed line."

## BURIED CHILD; TWO OTHERS DROWNED

Heavy Burden of Suffering of North Vancouver Soldier and Wife

Vancouver, Sept. 7.—The waters of English Bay claimed their first victims this summer, when under tragic and distressing circumstances Jackie and Robert Palliser-Bosumworth, aged 6 and 4 years, were drowned about 6 o'clock yesterday afternoon when they got over their depth in a hole worn in the sands by the current of water from the surface sewer which empties into the bay about 50 yards east of the pier. The parents of the dead children are Corporal and Mrs. J. W. Palliser-Bosumworth, St. George's avenue and St. James road, North Vancouver.

The terrible shock to the parents is increased by reason of the fact that the funeral of a three-months-old infant daughter took place to Mountain View cemetery only the day before.

Corporal Palliser-Bosumworth, now stationed at Vernon, had come to the city on leave to attend the funeral of his little one. He had taken his wife to the beach for a change of scene and environment as a relief from her grief over the death of her baby.

The father had gone into the bathroom to get his bathing suit and the mother was visiting with friends nearby when the little boys, who were in bathing attire, wandered down to the water's edge and commenced paddling in the sand near the outlet of the surface sewer.

The bodies were removed to Harroun Brothers' undertaking parlors, where an inquest was held to-day.

A little girl is now the only child left in the family.

## FAIR AT DUNCAN SEPT. 20 AND 21

Annual Event Promises to Be Marked Success; Dog Show Also

Duncan, Sept. 7.—The catalogue for the annual fair, to be held in Duncan on the 20th and 21st inst., by the Cowichan Agricultural Society, is quite as full as in former years.

In conjunction with it the Cowichan dog show will be held under Canadian Kennel Club rules. J. W. Creighton, of Victoria, will judge, and George Tinto, secretary of the Seattle club, will attend the show. Already there are over a hundred entries from Victoria, Vancouver, North Vancouver, Nanaimo and the Sound cities and from these centres from 50 to 100 trophies and prizes already have been offered.

On the 13th, the date on which the entries close, a dog catalogue will be printed containing prize lists and trophies and will be sent to exhibitors. The president of the dog show committee—P. W. Anketell Jones, and the secretary, W. A. McAdam, are most enthusiastic with regard to the promised success of the coming show.

As an inducement to handlers who bring 10 dogs or more from points north of Duncan, from Vancouver or from the States or 20 dogs or more from Victoria, special cash prizes are offered by the society.

Horses and Sheep.

In the section of the agricultural show for horses a good number of entries already have been promised, mostly by local breeders. The estate of the late Captain Watson is sending its usual very splendid Clyde saddles, which have taken prizes wherever they have been shown. The Vancouver Island Flockmasters' Association is helping with the show and a large number of entries in the Shropshires, Southdowns and Oxford is promised. A wool grading exhibit by the Dominion government conducted by T. R. Arkell, chief of the sheep and goat division, livestock branch of the department of agriculture, will be of great interest.

Word has been received that the French re-mount officers, purchasing horses for the French army, will be in Duncan on the 20th and 21st and the Agricultural Society is making arrangements to have them inspect the available horses on the show grounds.

Negotiations are in progress to secure a band for the day and it is hoped that the railway company will revert to its old custom of running excursion trains from various points to Duncan on the 21st.

## Best Liniment of All Destroys Every Pain But Never Burns

"How thankful we are to get hold of such a wonderful household remedy as Nerviline," writes Mrs. E. P. Lamontagne from her home near Westaskwin, Alberta. "In this far-away section, far away from a doctor or druggist, every family needs a good supply of liniment. Nerviline is the best of all. It destroys every pain, but never burns. We use Nerviline in a score of ways. If it's rheumatism, aching back, pain in the side, sciatica or stiff neck—you can laugh at them if you have lots of Nerviline handy. For sprains, toothache or cramps, I don't think anything could act more quickly. For a general all-round pain remedy I can think of nothing more valuable and speedy to cure than Nerviline."

The above letter is convincing—it tells how reliable and trusty this old-time remedy is. Nerviline for forty years has been a household word in Canada. Scarcely a home in Canada you can find without Nerviline. Every community has its living examples of the wonderful curative properties of Nerviline which will cure pains and aches anywhere in the joints or muscles. It's penetrating, soothing, warming and safe for young and old to use. Get the large 50c family size bottle; it's the most economical. Small trial size 25c at any dealer's anywhere.

## TRAIN BANDITS BEING HUNTED IN ARIZONA

Douglas, Ariz., Sept. 7.—Six masked bandits, who last night held up the Golden State Limited of the Rock Island line near Apache, 40 miles east of Douglas, early to-day were being tracked by a sheriff's posse organized immediately after the holdup. The attempt at robbery was a complete failure.

The bandits, after six attempts to blow open the safe of the express car, abandoned the job and disappeared on cow ponies. The passengers were not molested. One shot was fired at the mail clerk as he closed the door and locked himself in the car.

Two of the robbers boarded the tender at Apache and covered the engineer with revolvers, and after the first three cars were detached, were joined by four companions awaiting at a camp fire nearby.

## SPEECH BY GARY PLEASES JAPANESE

States and Japan Able to Co-operate in China, Says Tokio Times

Tokyo, Sept. 7.—Expressions of satisfaction regarding the speech of Ellery H. Gary last Tuesday night are voiced by the press. It is evident here that Japan is deeply interested in the nature of the general policy of the United States toward China, and more particularly whether the government would support the participation of American capitalists in the five-powers reorganization loan.

The Times fears the existence of efforts to convince Americans that the United States has an enemy in Japan regarding China, with Japan determined to thwart American enterprises.

"There is no reason why both nations cannot co-operate," the Times asserts.

## ANOTHER TRANSPORTATION STRIKE IN NEW YORK

American Metropolitan Proceeds From One Thrill to Another Quickly Nowadays.

New York, Sept. 7.—A million or more residents of New York left their homes this morning not knowing whether they would ride to work or walk. The first test of the strike declared last night by the union employees of the elevated and subway railways came with the morning rush hours on the main arteries of travel between the two ends of Manhattan Island.

Several instances of elevated trains being bombarded with stones and bottles thrown from roofs were reported to the police shortly before 2 o'clock. Police entered the buildings and chased from the roofs gangs of men said to have been seen carrying missiles.

At 9 o'clock the Interborough Rapid Transit Company reported that express and local trains were running on normal schedule on both subway and elevated lines and with but few changes from the regular crews.

When the workers of the city started for their places of employment, the Amalgamated Association of Street and Electric Railway Employees, which is conducting the strike, had been unable to tie up the subway and elevated lines, but had succeeded in crippling some of the most important surface lines. With the aid of nearly 3,000 strikebreakers and under police protection, the Interborough Rapid Transit Company was running its trains on the subway and elevated lines on almost normal schedules.

The strike of the Interborough employees has spread, however, to the cars of the New York Railway Company, which operates all save two of the important surface lines in the boroughs of Manhattan and the Bronx. Approximately 18,000 employees are affected. The immediate cause of the strike is the refusal of the Interborough Company to release the men from an agreement to seek no further improvement in working conditions for a period of two years after the advance in pay which the men received last month. Behind these demands, however, is a contest over the unionization of street car workers of the city, among whom the Amalgamated Association has gained a strong footing only during the past few months. The union employees of the Interborough Company voted to strike at 9.30 o'clock last night.

In response to the railway companies' appeal for protection, thousands of policemen were released from patrol duty to-day and made available for strike duty.

## As Business Gets Better

WEEK AFTER WEEK, it behooves every man and woman who wants to get his or her full share of returning prosperity to be sure that no opportunities for profitable enterprise are overlooked. DON'T FORGET THE LITTLE THINGS which often lead to big ones. Many a man has passed by opportunities he thought too trivial for attention, while others by the expenditure of only a few cents on the same opportunities have started forces moving which resulted in thousands of dollars profit. Many a "Want Ad" in the Times, apparently insignificant, has resulted in successes far greater than we even dreamed of.

HERE ARE SOME OF THE THINGS A TIMES "WANT AD" can do for you:

- RENT OFFICES
- RENT STORES
- RENT APARTMENTS
- SELL BUSINESSES
- EXCHANGE PROPERTIES
- SECURE CAPITAL
- FIND PARTNERS
- RENT VACANT ROOMS
- SELL HOUSEHOLD GOODS
- SELL AUTOMOBILES
- SELL STORE AND OFFICE FIXTURES
- SELL DOGS AND OTHER PETS
- FIND LOST ARTICLES
- SECURE COMPETENT HELP

THESE ARE JUST A FEW OF THE MANY USES YOU CAN MAKE OF A "Want Ad" THERE'S HARDLY A FAMILY IN VICTORIA WHO CANNOT take advantage in some way or other of the tremendous power of TIMES "WANT ADS" to render service in the affairs of every-day life. Give the matter a little thought and you will see how a Times "Want Ad" can help you.

THAT FERRY.

May we remind our political opponents that they have only seven days in which to make an illuminating announcement regarding that "modern first-class passenger and freight" ferry, the contract for which was alleged to have been given to a Quebec firm because the Canadian Northern Pacific was in a great hurry to have the vessel in operation by July? Surely we ought to have some kind of a roof-bath on this most interesting subject! A week ago the Canadian Northern management told us about the bridge at Kamloops, the terminal at Vancouver and the rails it was proposed to lay "in the direction of Alberta," assuming, of course, that they can find the right-of-way. But nothing was said about the ferry boat—two months overdue. Perhaps this choice morsel is being kept for the last—a sort of political dessert. We should hear something in a day or two.

CHARACTERISTIC.

The machine has now begun to circulate dodgers thoroughly in keeping with its methods. One of these precious emanations of Bowerism, we observe, draws attention to the fact that some of the government candidates are in khaki while none of the opposition candidates is in uniform. This sort of campaign stuff is no less contemptible than stupid. Its imputation of disloyalty to those who dare to oppose Bowerism is too low to dignify with an answer, but it serves to illustrate the character of the organization which is trying to obtain five years more lease of power and the unmeasured desperation of its tactics. One would imagine that prudence alone would restrain the machine from adopting that line of campaign, especially in view of the well-known fact that even the army has been embarrassed by it, through the agency of R. F. Green, who had to leave a government of this province a few years ago in consequence of the notorious Kaian Island transaction.

We would suggest to Mr. Bower's friends, however, something much more useful and advantageous to the province as well as to the country's cause than contemptible imputations of disloyalty to their opponents, and that is investigation and action in connection with the interests of von Alvensleben, the von Reventlows, the von Buolows, the von Mackensens, and the other members of the Potsdam warband in this province. Why is it that these alien enemies, the arch-exponents of frightfulness, the promoters of the Lusitania and Zeppelin massacres and the gas at Ypres, from which Canadians were the principal sufferers, are allowed to retain their interests in British Columbia as securely as if this were German soil? These investments were made through von Alvensleben, an intimate of the German emperor, who, it is reported, was slated for the governorship of British Columbia in the event of a German victory. Why has nothing been done? Germany has confiscated the investments of the allies within her boundaries. What is von Alvensleben's pull anyway? He owns the Dominion Trust a million dollars. Did the firm of Bower, Reid & Wallbridge never know of that interesting fact? Perhaps the next dodger the machine will issue will explain the mystery which enshrouds the security of the investments of the baby killers of Scarborough in British Columbia.

The jury which sat upon the notorious case of Sir Rodmond Roblin and his ministers, charged before the courts of justice with conspiracy to defraud the public, could not agree upon a verdict of guilty, but it came very near reaching a unanimous vote. In the case of Sir Rodmond there were three dissentients; in the case of his confederates there was but one. In another notorious case tried in Victoria, also bearing a political complexion, a similar failure of justice occurred. The forlorn agent of Bowerism is at large and busy working in the interests of the system which benefits and shields him against the consequences of his criminality. But while the courts of justice failed in both these cases to convict, there is another court which operates more certainly and in which unanimity of the jury is not necessary to conviction and punishment. The higher court has given judgment in Manitoba. It will record its verdict in British Columbia one week from to-day.

The Bower organ, whose sense of duty to its country is measured in terms of money practically pilfered from the public treasury, contends that it is disloyal to criticize the administration of the militia department and condemn the scandalous transactions which have been perpetrated therein and are being perpetrated to-day within the limits of this district. MOTHERHOOD—1916
The night comes down and the wind is chill,
(Are both of my boys asleep?)
Daylight tinges the distant hill,
(Why is it I cannot weep?)
A passing lad and a whistled tune,
(France is so far away!)
Roses bloom and the month is June,
(The heat is the worst, they say.)
The list was long in the morning's news,
(They are so young to die!)
Which strong heart will the bullets choose—
(Where will his body lie?)
Boys go clattering down the street
(Which will come back to me?)
I hear the tramp of the soldiers' feet,
(Dear God! That such things be!)
What will they buy with the blood of men?
(Hearts break, but they do not die,)
Victory, Honor—and War again!
(Dead faces turned to the sky.)

SERES GARRISON REACHES KAVALA

Greek Troops Throw Bulgarians Out of Two Forts There

Salonica, Sept. 7.—Col. Christodoulos, with the Greek troops who were in garrison at Seres 45 miles northeast of Salonica, has succeeded in making his way to the seaport of Kavala, on the Aegean sea, where he is reported to have seized two forts despite the opposition of the Bulgarian troops which had occupied them.

It was reported from Greek sources at Salonica last week that the entire force of about 2,000 men under Col. Christodoulos, which had left Seres to resist the Bulgarian invasion of Macedonia, had been captured by Bulgarians.

With Allies Athens, Sept. 7.—Some of the Greek soldiers stationed at Salonica have joined the allied forces under Gen. Sarraill and are fighting the Bulgarians. The movement was led by Gen. Sembrankis with the 11th Division, and similar units followed the leadership of the 11th under Lt. Col. Conventis and Major Tsolakopoulos.

CELEBRATE MARNE IN FRANCE ON SUNDAY

People Throughout Republic Will Commemorate Great Victory of 1914

Paris, Sept. 7.—A great national celebration of the Battle of the Marne, which began on September 6, 1914, is to be held throughout France on Sunday next, September 10.

It had long ago been suggested that France should commemorate at least one other of the vital incidents in her history besides the taking of the Bastille on July 14. The Feast of Joan of Arc, which the Roman Catholic church celebrates, was proposed as the desirable occasion, but the hostility of a small body of anti-clericals prevented the carrying out of this project.

The first anniversary of the Marne was celebrated by the local and private initiative of cities, towns and communes. This year the national government is taking the lead in the celebration. The reason is that until this year, the government had not decided to lend its official sanction to the celebration.

September 10 has been chosen this year for the commemoration because that date, two years ago, marked one of the most hotly contested phases of the great battle, also because it is a general day of rest, and the general public can take part in the ceremonies without detriment to the nation's interests.

BRITISH STEAMSHIP SUNK; MEN MISSING

Plymouth, Eng., Sept. 7.—The British steamship Torriva, of 5,026 tons gross, has been sunk. Nineteen members of the crew have been landed. No news has been received of the other sailors making up the crew.

Inflammatory Rheumatism Permanently Cured

NEW BRUNSWICK LADY GIVES FULL PARTICULARS OF HER RECOVERY

There are many types of rheumatism, but none worse than inflammatory. It was this kind that almost killed Mrs. Edw. Warman, of Kent Jct., N.B. Every known remedy she tried, different doctors gave their advice, but the disease increased.

With such officers and men as those whom he was addressing, his majesty said he was ready to face any enemy. Rotterdam, Sept. 7.—The small Norwegian steamship Rilda has been sunk. The crew was saved. The Rilda, built at Preston in 1882, was of 131 tons gross, and 144 feet long.

ROUMANIANS IN ONE WEEK GOT OVER 1,000 SQ. MILES IN HUNGARY

Zurich, Sept. 7.—According to Austrian admissions, the Roumanians in one week captured more than 1,000 square miles of territory from Hungary.

TURKS BEING DRIVEN IN OGNOTT REGION

Grand Duke's Forces Inflicting Great Losses; a Turkish Offensive Checked

Petrograd, Sept. 7.—An offensive movement undertaken by Turkish forces along the Euphrates west of Erzingan, in Turkish Armenia, is said by the war office to-day to have been repulsed.

In the region of Ognott, where stubborn fighting has been under way, Russian forces are driving the Turks from their strong mountain defenses. According to statements of prisoners, the Turkish troops have suffered great losses. The commander of the 30th Turkish Division was killed. The commander of the 2nd Turkish Corps, Fatih Paaha, was killed or seriously wounded, and the commander of the 12th Turkish Division was wounded.

ALLIES' SUPERIORITY NOW VERY GREAT

If Offensive on Somme Stopped Now Munition's Would Pile Up

With the British army on the Somme front, Sept. 7.—The British feel that their night work in this last offensive is over, with the exception of the taking of Ginchy. For more than two months now their fighting has been one to get on the high ground over the broad commanding front.

WHEAT AT CHICAGO SAGGED, THEN ROSE

GERMANS LOSING THE NOYON SALIENT

Enemy Cannot Counter Foch's Tactics North and South of Somme

Paris, Sept. 7.—The smashing blow which General Foch has delivered north and south of the Somme in a week have transformed the pointed wedge in the German line into a square block, which will hammer General von Gallwitz's defenses till Combes, Peronne, and Bapaume fall and retreat by the Germans from the Noyon salient is a military necessity imposed by the allies independently of Hindenburg's new strategy.

The secret of the whole French successes this summer is the magnificent use being made of the innumerable heavy guns and the mountains of shells which Munitions Minister Thomas budgeted for the end of last year. The production only recently reached the proportions which the general staff calculated as necessary to roll back the Teuton armies with a minimum loss and to defeat the counter-attack with gunfire.

LORD SHAUGHNESSY COMING TO COAST

Pres. of C. P. R. Will Be Accompanied by Party of Directors

CONSERVATIVES TALK AT VICTORIA WEST

Bridge Question Occupies Considerable Attention From Candidates

Naturally in Victoria West the harbor bridge scheme is a question of primary importance, and three of the speakers at the Conservative gathering at Semple's hall last evening...

The minister of finance announced the commencement of arbitration proceedings to-day for the land wanted at the eastern terminus of the bridge. He also pointed out that the delays in starting had resulted in the non-construction of the new building for the marina department...

Following this Mr. Donnelly spoke of the candidates for the city of Victoria. There was Leonard Tait, the liverman, who was in the employ of Mr. Matson, owner of the Colonist...

Dealing with the candidature of Mr. Foster, who was at the front, Mr. Donnelly asked what would Mr. Bowser do if he were elected with a majority of four only, and those four fighting at the front. Would he resign his position or would he recall the officers from the trenches...

Mr. Brewster is leading a solid body of men who are determined to turn Mr. Bowser out of office, declared the speaker. "We want a good healthy opposition for in that way it is possible to get the best sort of government."

"Sir Richard McBride started out thinking he could handle McKenzie & Mann, but McKenzie & Mann hiked off to London where he is to-day living on the fat of the land, broken in health."
