Dominion—Her Kingdom of Dreams.
Variety—Broken Blossoms.
Columbia—Hearts Asleep.
Romano—Trixie from Broadway.

VOL. 55. NO. 113 VICTORIA, B. C., THURSDAY, NOVEMBER 13, 1919 EIGHTEEN PAGES

CONFERENCE OF ALLIED POWERS IS PROPOSED

CITY WITHIN HALF MILLION DOLLARS OF HER LOAN OBJECTIVE

Total Last Night \$4,499,056, Just \$550,944 Below Necessary \$5,000,000; \$170,000 Daily Needed During Last Three Days

Investments amounting to \$271,200 made yesterday, brought Greater Victoria within approximately half a million dollars of her Victory Loan objective. The official total last night stood at \$4,499,056, which is \$1,299,056 above the city's quota and just \$550,944 below her \$5,000,000 objective. In other words, during the three last days of the drive, including to-day, Victorians must invest a daily average of about \$170,000 if final success is to be achieved. The heads of the loan organization declare that this will be done, but they are unanimous in asserting that the city will have to strain every nerve in the process.

"We shall reach the \$5,000,000 mark by Saturday night," Brigadier-General Clark, Island Loan Chairman, stated this morning. "But the city will have to invest to the limit, every man will have to get behind the button, people will have to pay their taxes in bonds, as they can do, by the way, in all Island municipalities. We are getting the money all right, but the number of subscribers is not large enough. Unless apathy manifests itself during the last three days there is no possibility of us falling down in the drive."

All But Three Points "Over."
With the exception of three, all of the sixteen up-Island districts have passed their quotas. The total for the Island districts last night stood at \$1,007,460, or \$179,560 more than their combined quota. Unos Bay and Cumberland passed their quotas yesterday. Unos Bay had invested up to last night \$12,150 or \$1,150 more than the quota. Cumberland exceeded her \$44,000 quota by \$17,000. The Cumberland loan organization expects to secure \$40,000 from the Japanese and Chinese of the district. In fact, F. M. McGregor, Island organizer, is confident that all Island districts will reach their quotas by tonight.

A message received last night from P. R. Fleming, who is raising the West Coast for idle dollars, states that the settlement from Fort Newnorth north will have subscribed \$60,000 by Saturday night.

STARS AND STRIPES ON THE BOSPHORUS?

Moreton Frewen Foresees Mandate Over Constantinople

"Since I reached the United States I am inclined to think that a treaty that country might be induced to accept a mandate over Constantinople, after the uncertainties created by the Presidential election next November are over." This opinion is expressed by Moreton Frewen, the well-known British authority on the tariff and economic questions, who is visiting in Victoria. Mr. Frewen, who has just come here from Prince Rupert, has spent some time in the United States, and is crystallizing his views on current political issues in a series of letters to the British press. He stated that the opinion expressed by the late W. T. Stead to the former Czar that the United States might be induced to accept the custody of this storm centre may be an accomplished fact after a time when public opinion has been diverted from national to international issues again. The occupancy would have to be arranged, in his opinion, without the alliances which appear to be so strongly assailed in the League of Nations plan.

For World's Peace.
"Thoughtful men," he said, "representative of the great interests—chiefly perhaps members of the Republican Party, have said to me in the last few days, 'We see that you control of Gibraltar and Malta, of Adeu and Hongkong, makes for world's peace, as also does our grip of Panama and even our overseas settlements at Honolulu and Manila, and that in none of these cases is there for us or for you any "entanglement" (Concluded on page 4)

PRINCE OF WALES CALLS ON WILSON

Goes to White House For Informal Visit With President

Prince Goes to Washington's Tomb and Decorates War Heroes

Washington, Nov. 13.—The Prince of Wales, as one of the last acts of his official visit in Washington, will see President Wilson late to-day. He expects to call at the White House for an informal visit with the President and Mrs. Wilson. President Wilson probably will entertain his royal guest while sitting in an invalid's chair.

A trip to Mount Vernon by motor this afternoon was another event on the day's programme. At the tomb of General George Washington, Prince Edward will pay homage to the memory of the man who led the forces of the American colonies when they gained their independence from the mother country, Britain, over which the youthful Prince is destined to reign. Vice-President Marshall and Secretary Lansing were among those in the party to accompany him.

The only formal function arranged was the conferring of decorations on eighty officers and enlisted men of the American army and navy and seven nurses at the Belmont Home, the Prince's residence here, this morning.

RANEY ONTARIO ATTORNEY-GENERAL

Prohibitionist and Social Reform Lawyer Accepts Drury's Invitation

Toronto, Nov. 13.—W. E. Raney, K. C., of Toronto, a well-known Prohibitionist and Social Reform lawyer, has been offered and has accepted the portfolio of Attorney-General in the Drury Provincial Government.

Nickle Declines.
Toronto, Nov. 13.—Personal circumstances which he cannot at present adjust, caused W. F. Nickle, K.C., M. P. of Kingston, to decline the Attorney-Generalship of Ontario, when offered to him by Premier-Designate Drury.

Mr. Nickle in an interview stated that Mr. Drury had asked him to accept the portfolio. "I gave it careful consideration from every angle," he said, "but personal circumstances that cannot at present be adjusted forced me to decline his offer."

He went on to say that he had been most impressed with the evident desire of Mr. Drury to promote efficiency and economy in the new Government and to advance the interests of the people. He had nothing but sympathy and goodwill for the new Premier.

WESTMINSTER CLEARINGS.
New Westminster, Nov. 13.—The bank clearings here for the past week were \$552,495.

Lenine Hinting at Operations Directed Against India Now

London, Nov. 13.—Nikolai Lenine, the Russian Bolshevik Premier, has sent a letter to the Turkestan Communists, in which he says that the restoration of communication between Soviet Russia and Turkestan "opens the way for a struggle against universal imperialism headed by Great Britain."

The message is interpreted here as a hint at operations in the direction of British India.

SUPREME COUNCIL TO SEND A FIRM NOTE TO ROUMANIA

Paris, Nov. 13.—The Supreme Council to-day discussed the note to be sent to Roumania in response to Roumania's recent note. The Allies' reply, it is forecast, will be firm in tone and will be forwarded to Bucharest within two days.

The report received from Sir George Clerk, Allied Commissioner to Budapest, was considered as showing that political conditions in Hungary were much improved and that there were indications of a coalition Government being organized shortly in Budapest with which the Peace Conference could deal.

NO NEW ADVANCE IN BANK RATE

Financiers in London Believe Rumors Current Not Well Founded

London, Nov. 13.—Strong rumors of another advance in the bank rate, which were current on the Stock Exchange here yesterday and to-day, weakened gilt-edged securities and recently active speculative issues. Nevertheless the belief prevailed in Lombard Street that no further advance would take place in view of the serious effect upon legitimate trade, though the rumors were accompanied by gossip that the United States was putting pressure to bear upon the authorities in an endeavor to check speculation while such a huge debt is owing to the United States.

The six per cent. rate admitted has not been effective in checking speculation or in bringing as much money as had been anticipated in Treasury bills, because would-be investors of the latter are waiting to see if the rumors crystallize.

COMMERCE BOARD SITS IN TORONTO

Will Consider Clothing Prices; Will Sit in Hamilton Tuesday

Ottawa, Nov. 13.—The Board of Commerce will sit in Toronto tomorrow, Saturday and Monday next. On Tuesday there will be a sitting at Hamilton, where further investigation of clothing prices will be taken up.

On Friday the adjourned case of the Canadian Laco-Phillips Co. will be taken up here. This company alleged that the Canadian General Electric Company, which has a monopoly on the sale of drawn tungsten wire, is a combine. Both firms have their offices in Toronto.

On Saturday morning the Board will take up for further consideration the prices of clothing, boots and shoes, while on Monday morning the screening case, dealing with the export of screenings from the elevators at Fort William and Port Arthur to the United States, will be heard.

Bavarian Citizen Guard of 220,000 400,000 Objective

Berlin, Nov. 13.—The newly-organized Citizen Guard of Bavaria now numbers 220,000. According to the Tagliche Rundschau, it is proposed to increase it to 400,000.

VANCOUVER BANK CLEARINGS.

Vancouver, Nov. 13.—The bank clearings here during the past week were \$13,687,783.

COMPANY TO WAIVE PRIVILEGE CLAUSE

C.P.R. Must Forego Demand; Government Would Aid City's Own Bridge

There will be no further negotiations between the Victoria City Council and the Canadian Pacific Railway Company in connection with the Johnson Street bridge unless the latter agrees to waive its demand for special rights. Complete elimination of the clause in the proposed agreement seeking to prevent the use of the structure for freight cars other than those of the C. P. R. is the only condition on which the City Council will agree to re-open the subject for discussion.

This was the general attitude manifested as the result of a conference which took place in Premier Oliver's office this morning and participated in by His Worship the Mayor, Ald. Sargent, City Engineer Preston, the Premier, Hon. John Hart, Minister of Finance; H. C. Hall, M. P., and George Bell, M. P. P.

Dutch Ship Struck Mine; Twenty-Two Persons Drowned

Amsterdam, Nov. 13.—The Dutch steamship Zann struck a mine off Terschelling and twenty of the crew and two of the passengers were drowned by the capsizing of a boat.

Club of Campaigners of War in Terminal City Wrecked; Fight

Vancouver, Nov. 13.—As a result of a free-for-all fight which occurred about 10.30 last night, the club of the Campaigners of the Great War here was wrecked and Maurice O'Donnell was taken to a hospital suffering from laceration of the right arm and hand.

ATTEMPT MADE ON LIFE OF M. CLEMENCEAU'S SECRETARY

Bordeaux, Nov. 13.—An attempt was made early this morning to assassinate Georges Mandel, Premier Clemenceau's chief confidential secretary, who is a candidate on the Nationalist ticket in the Department of Girondet.

TWO AUSTRALIAN AIRMEN KILLED

Douglas and Ross Were Leaving England for Australia

Non-stop Record Set Up by the American Sea-plane N.C.-4

London, Nov. 13.—Lieut. R. M. Douglas, of the Australian Flying Corps, and Lieut. J. S. L. Ross, his navigator, who started from Hounslow to-day for a flight to Australia, were killed shortly after they began their journey. Their aeroplane crashed near Surbiton, in Surrey.

Lieut. Douglas and Ross were the Australian entrants in the reliability flight from England to Australia for the Australian Government's prize of \$50,000. Several British aviators also have entered the contest. A condition of the flight is that the distance of 11,500 miles must be covered within thirty days.

The Hounslow aviation field was the scene of another start for Australia yesterday. A dispatch last night told of the departure of Capt. Ross Smith, a British aviator. Smith has several long flights to his credit. In 1918 he flew from Cairo, Egypt, to Baghdad, Asiatic Turkey, and later from Cairo to British India.

Made a Record.
Washington, Nov. 13.—Piloted by Lieut.-Commander Read, the naval seaplane N.C.-4, which made the first trans-Atlantic flight, recently established a new non-stop record for that type of craft when carrying twelve passengers, it flew from Pensacola, Fla., to Memphis, Tenn., 535 nautical miles; the Secretary of the Navy announced to-day.

The total flying time was nine hours and thirty-three minutes, about ten minutes less than the flying time made by the N.C.-4 on its flight from Punta Delgada to Lisbon in the trans-Atlantic trip.

Austrians Are Not Given Welcome in Okanagan District

Kelowna, B. C., Nov. 13.—Twenty-seven Austrians and Hungarians who sought to settle in the Okanagan have decided to return to their former homes at Horizon, near Weyburn, Sask. The party was refused permission to stop off at any point in the Okanagan district by an organized picket of returned men who guarded the gangplank whenever the Okanagan steamer stopped.

Club of Campaigners of War in Terminal City Wrecked; Fight

Vancouver, Nov. 13.—As a result of a free-for-all fight which occurred about 10.30 last night, the club of the Campaigners of the Great War here was wrecked and Maurice O'Donnell was taken to a hospital suffering from laceration of the right arm and hand.

ATTEMPT MADE ON LIFE OF M. CLEMENCEAU'S SECRETARY

Bordeaux, Nov. 13.—An attempt was made early this morning to assassinate Georges Mandel, Premier Clemenceau's chief confidential secretary, who is a candidate on the Nationalist ticket in the Department of Girondet.

ALLIED LEADERS WILL DEAL WITH RUSSIAN AND OTHER PROBLEMS

Lloyd George Says Questions Peace Conference Has Not Settled Will be Considered at International Conference Soon

London, Nov. 13.—Mr. Lloyd George declared in the House of Commons to-day that no person at any time on his behalf, or with his knowledge, had interviewed Bolshevik representatives in order to learn whether negotiations for peace might be opened, and upon what terms.

The Prime Minister announced that it was proposed to call at an early date an international conference at which Ministers of the Allied and Associated Powers might consider the various problems which the Peace Conference as yet had found itself unable to settle, among which was the problem of Russia.

Referring to the so-called peace advances by the Bolsheviks, Mr. Lloyd George said the Allies had always declined to take action on communications purporting to come from hostile countries through irresponsible agencies, and he thought it inadvisable to depart from this practice.

He admitted that Bolshevik troops were rapidly approaching Omsk. Admiral Kolchak was still there, however, and the fate of the place would only be decided as the result of the battles that might be fought shortly in front of the city.

Russia.
The settlement of the Russian problem, said Mr. Lloyd George, was most essential to the reconstruction of the world. The conditions in that country, he declared, were a contributing cause to the prevailing high prices. Likewise, he said, the German reactionaries already were using the present strife in Russia to strengthen their influence.

Negotiations.
Helsingfors, Nov. 13.—Peace negotiations between the Estonians and the Bolsheviks will begin Saturday, it was announced here to-day. The Lithuanians will not participate in the negotiations.

Safe Conduct.
Helsingfors, Nov. 13. via London, Nov. 13.—George Tchitcherin, the Bolshevik Foreign Minister, sent a wireless message to M. Pelp, the Estonian Foreign Minister, demanding guarantees of safety for the Dorpat conference. M. Pelp replied, assuring Tchitcherin of safe conduct and immunity from arrest for the delegates.

It is expected the Bolshevik representatives will arrive at the Estonian lines from Pakov Sunday. They will be met there and escorted to Dorpat.

LOCKOUT GROWING IN EXTENT IN SPAIN

Employers' Federation Expects 300,000 Men Will Be Idle

Madrid, Nov. 13.—The Spanish Federation of Employers is making still further efforts to develop the lockout of employees in Spain. The president of the Federation announced that there would be 300,000 men out of work at the end of this week.

Newspapers assert the Government is to take measures to avoid a general lockout and the consequent general strike which the workers are threatening in response to the tactics of the employers. Public order continues to prevail in Madrid.

Eight Hours.
The official Gazette yesterday published a notice that not more than the legal eight hours daily shall be worked except in cases of emergency, and then only after a wage agreement has been reached between the men and the employers.

At Barcelona.
Barcelona, Nov. 13.—Delegates of the employers and workmen last night signed a definite agreement calling off the lockout which had paralyzed industry here for a week.

PROCLAMATION AND LIQUOR IMPORTS

Importation Into Provinces as Soon as Peace Proclaimed

Ottawa, Nov. 13.—Persons who are desirous of restocking their wine cellars and wish to import liquor for that purpose would be well advised to wait for the formal proclamation of peace before doing so. Although to all intents and purposes peace has been concluded, it was stated at the Department of Justice yesterday afternoon that it would not be safe to assume that the prohibition Order-in-Council had lapsed. The Canadian statute provides that war shall be deemed to exist until formal proclamation by the Governor-General in The Canada Gazette. This probably will follow the proclamation of peace by the King. When His Majesty will issue his proclamation is not known, but as three of the great powers and Germany have now ratified the treaty, it should not be long delayed.

Manitoba. Winnipeg, Nov. 13.—As soon as peace is officially proclaimed, importation of liquor into Manitoba will be legal, J. N. Maclean, administrator of the Manitoba Temperance Act, announced yesterday afternoon. He stated that he had found a clause in the Act which can be invoked to prevent export of liquor from this Province. With regard to the attitude of the Provincial Government, Hon. E. Brown stated that it is the policy to have the people express their wish through a referendum, but that it is unlikely that such referendum would be submitted at the time of the elections next Summer, as the issue might cloud party platforms.

TO WINNIPEG.

Winnipeg, Nov. 13.—A special dispatch received here from Sidney, Australia, states that American Consul-General J. I. Brittain has been transferred to Winnipeg in place of F. Ryder, who is to leave the Winnipeg American consulate-general for Vancouver. Mr. Brittain sailed from Sydney, Tuesday, November 11, on the steamship Ventura, bound for San Francisco. Previous to his leaving a farewell banquet was given Mr. Brittain, which was attended by the Chief Justice of New South Wales, the Lieutenant-Governor and the Premier of the state and many other prominent citizens.

EARL BRASSEY DIES IN LONDON

Succumbs to Injuries Received When Struck by a Cab

London, Nov. 13.—Earl Brassey, who was knocked down by a cab a few days ago, died here to-day from his injuries.

Earl Brassey (Thomas A. Brassey) was created Earl in 1911. He retired from the West Kent Yeomanry, in which he was Lieutenant-colonel, in May, 1914.

Earl Brassey held posts in Government Departments for a number of years, having been editor of The Naval Annual since 1900, assistant private secretary to Earl Spencer, when First Lord of the Admiralty, and assistant secretary to the Royal Commission on Opium in 1894.

AMERICANS IMPORT MANY LUXURIES

New York, Nov. 13.—Unprecedented prosperity is indicated in statistics from the office of the Collector of the port of New York which show an increase in luxury imports of 125 per cent. over a year ago.

Duties on twenty-seven articles on the luxury list ranging from toys to ostrich feathers totalled \$7,984,440 for the three months ended September 30 and that despite a liberal exemption on dutiable goods allowed to returning soldiers.

The demand for necessities also has increased, but not to the same extent. The total revenue for the three months amounted to \$224,548,782.

Liver Trouble and Heartburn

All liver diseases of whatever character are diseases of the highest importance and demand close attention. The liver is the largest and one of the most important organs of the body. Its duty is to prepare and secrete bile, and serve as one of the filters of the body, cleansing it of all impurities and poisons. Therefore when the liver gets out of order it is the starting of trouble in nearly every part of the body.

Keep the liver active by using Milburn's Laxa-Liver Pills and you will have no heartburn, constipation, biliousness, sick or bilious headaches, dull, yellow eyes, brown blotches, sallow complexion, coated tongue, jaundice, catarrh of the stomach, or the painful protruding internal or bleeding piles.

Mrs. John Kadey, Chipman, N. B., writes: "I have used Milburn's Laxa-Liver Pills for some time and can recommend them to any one suffering from heartburn and liver trouble. I tried other remedies, but they only relieved me for a short time. I always recommend Laxa-Liver Pills to all sufferers as I think they are a valuable remedy."

Milburn's Laxa-Liver Pills are 25c a vial at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SHORTAGE OF FUEL IN SASKATCHEWAN

Saskatoon, Nov. 13.—So acute has the fuel problem become in many sections of Saskatchewan that farmers are burning scrap lumber, fence posts and even old boots, to save their families from freezing.

At Kerrobert and other points along the C. P. R., not a pound of coal is available. The present condition recalls that of 1909, when a similar famine existed.

PILES

Do not suffer each day with itching, bleeding Piles. No surgical operation required. Dr. Chase's Ointment will cure you; see a box at dealers, or Edman, Bates & Co., Limited, Toronto, Ontario box free if you mention this paper and enclose 3c stamp to pay postage.

FINNISH AGENTS AND LABOR CONFERENCE

British Oppose Admission of Finnish Delegates at Washington

Washington, Nov. 13.—The delegates to the International Labor Conference yesterday debated the question of admitting representatives of Finland throughout the session without reaching a decision. Speaking on behalf of the British Government, Sir Malcolm Delevingne served notice that in case of favorable action by the Conference on Finland's admission, an appeal would be taken to the permanent Court of International Justice. The court has not yet been organized but is provided for in the treaty of peace. Sir Malcolm opposed the admission of Finland on the ground that it would read into the treaty a meaning not intended by the powers which signed it. The purpose of the treaty to bind the labor organization and the League of Nations together would be defeated, he maintained, if the membership of the two bodies were not identical.

H. H. STEVENS AND RETURNED SOLDIERS

Vancouver, Nov. 13.—"I do not think it is in the best interests of the nation that the proposals of the Great War Veterans' Association, or the proposition to pay a flat money gratuity, should be entertained or accepted by the Government," said H. H. Stevens M. P., addressing a meeting of the G. W. V. A. in the association rooms last night.

He does not think the issuing of a gratuity by the Dominion Government would solve the problem of the re-establishment of returned soldiers," said Mr. Stevens. "I am of the opinion that the great problem of the effective and most beneficial re-establishment of the returned men will be solved by careful application to the problem in detail, such as has already in various phases, been undertaken by the Government."

RUMOR SIR L. GOULIN PLANS TO RETIRE

Quebec, Nov. 13.—With the announcement by the Quebec Government that the next session of the Legislature will open on December 10 has come a renewal of the rumor that Sir Lomer Goulin has announced his resignation.

It is generally conceded here, even by the Liberals, that Sir Lomer Goulin will shortly retire from leadership in the Province of Quebec, but whether or not he told his cabinet yesterday when he would withdraw was not divulged by any of the members.

When spoken to by newspapermen and asked directly if there was any truth in the story of his resignation, the Premier is said to have replied: "No, the session has been called."

It is known that Sir Lomer will leave for Europe after the session, and he may resign before he leaves.

GRAND FORKS FARMER ACCIDENTALLY KILLED

Nelson, Nov. 13.—When George A. S. Bell, a prominent farmer of Grand Forks, failed to return from a hunting trip on the North Fork of Kettle River, his wife organized a search party of neighbors. The party heard a report of a gun and found Bell's body with the top of the head blown off, the theory being that he had stumbled in the dark. Deceased was a retired British naval officer and had lived in the district for ten years. He leaves a widow and five children. A verdict of accidental death was returned by a coroner's jury.

WILLIAM RYRIE DIES IN TORONTO

Toronto, Nov. 13.—William Ryrie, president of the Ryrie Paper Company, also head of the Hylop Company, Limited, manufacturers and importers of automobiles, was found dead in his apartment here this afternoon. He was a bachelor and was sixty-two years old. His death was due to heart failure, he having suffered with heart trouble for some time. The deceased was a brother-in-law of Ryrie, president of the Ryrie Brothers, Ltd., jewelers.

AMERICANS IN MEXICO.

Washington, Nov. 13.—Secretary Lansing, in a statement yesterday afternoon designed to make clear Government attitude on the question of the responsibility of Mexico for the safety of Americans in that country, declared it was "the privilege as well as the right of this Government by diplomatic intervention to see to it that justice is accorded its citizens and their rights given proper protection."

Mr. Lansing explained that he issued this statement because some newspapers in connection with the kidnapping of William O. Jenkins, American Consular Agent at Puebla, had made it appear that Americans in Mexico had no greater rights to protection than Mexicans.

BUILDING IN WINNIPEG.

Winnipeg, Nov. 13.—E. H. Rodgers, Building Inspector, estimates that the building permits in Winnipeg next year will total \$10,000,000. This year the permits will run close to \$3,000,000. The total for 1918 was \$2,000,000.

OPERATION WAS NOT NECESSARY

"Fruit-a-tives" Restored Her To Perfect Health

153 Papineau Ave., Montreal.
"For three years, I suffered great pain in the lower part of my body, with swelling or bloating. I saw a specialist who said I must undergo an operation. I refused."

"I heard about 'Fruit-a-tives' so I decided to try it."
"The first box gave great relief, and I continued the treatment. Now my health is excellent—I am free of pain—and I give 'Fruit-a-tives' my warmest thanks."

MME. F. GAREAU.
50c a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

H.M.S. RENOWN LOST TWO OF HER CREW

New York, Nov. 13.—William Franklyn and John Laight, able-bodied seamen of the crew of the British battleship Renown, were lost at sea last Sunday morning while the ship, Refown, ploughing through a gale, was coming here from Trinidad to take the Prince of Wales home.

Midshipman Richard Knight was taken from the big battleship to the Presbyterian Hospital with both legs broken as a result of tempestuous weather.

Shortly after the ship had run into the gale, Midshipman Knight, with a crew of four, hastened to make fast some of the movable gear of the ship. While they were working a heavy sea swept over the bow and jammed them against the breakwater, fracturing the midshipman's legs and carrying Laight overboard.

A lifeboat was lowered, manned by a crew of fourteen. As this boat reached the water it was capsized by another huge wave, and its occupants were thrown into the sea. General quarters were sounded and a port side lifeboat was lowered. All of the crew of the first lifeboat except Franklyn were rescued.

Children's Coughs Quickly Cured

It is very hard to keep the children from taking cold. They will run out of doors not properly wrapped—play too hard and become overheated—get their feet wet—kick the bed clothes off at night.

There is nothing so good for children's coughs, colds, croup, whooping cough or bronchitis as Dr. Wood's Norway Pine Syrup. It is so pleasant to the taste the youngsters take it without any fuss, and at the same time its promptness and effectiveness in loosening the phlegm, and healing the lungs and bronchial tubes are such that the cough is checked before any serious trouble can possibly develop.

Mrs. Harold Acker, Lake Pleasant, N. S., writes: "I have three children, the eldest eight years and the baby ten months old. They all had a bad cough. I knew of quite a few persons who had used Dr. Wood's Norway Pine Syrup with good results so I got three bottles. I am glad I did so as it is a sure cure for coughs and colds. A home where there are children should never be without it. I highly recommend it to those who need a quick cure."

Price 25c and 50c at all dealers. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

PEOPLE INSIST ON THE BEST SUGAR

Ottawa, Nov. 13.—On account of complaints regarding the sugar shortage, the Canadian Trade Commission telegraphed thirteen representative boards of trade and wholesale grocers' associations of Canada stating that yellow sugar was available for immediate delivery.

The replies have shown no evidence of a sugar famine, but some objection was made to the proportion of yellow sugar offered.

It would appear that the problem is one of high living rather than high cost of living. The Canadian Trade Commission is convinced that the clamor for more sugar is due largely to people insisting on getting all white sugar to the practical exclusion of yellow.

FUNERAL OF HAASE HELD IN BERLIN

Berlin, Nov. 12.—Via London, Nov. 13.—The body of Hugo Haase has been cremated. Haase's death occurred after an operation necessitated by wounds received at the hands of an assassin. The funeral will take place Thursday from the Reichstag building.

Oscar Cohen has been named as chairman of the Independent Socialist Party to succeed Haase.

CARDINAL'S DEATH.

Rome, Nov. 13.—Pope Benedict yesterday expressed great regret over the death of Cardinal von Hartmann, Archbishop of Cologne, with whom the Pontiff worked incessantly during the war to alleviate the sufferings of the Belgian people and also those of British and French prisoners.

VICTORY BONDS—National Prosperity Insurance.

MORE GARDENERS NEEDED IN CANADA

Toronto, Nov. 13.—The Canadian Horticultural Association has become alarmed at the lack of facilities for training gardeners in Canada and passed a resolution here yesterday recommending the establishment of special facilities for the practical and scientific training of men in horticulture and that all horticultural associations in Canada be requested to name representatives to a national council with a view to formulating plans for the adequate development of horticultural interests in this country.

STRIKE OF PRINTERS.

Rome, Nov. 13.—No newspapers were published in Naples yesterday, the printers having gone on strike. The men had asked an increase of fifty per cent. in their wages and when this was refused a strike was declared.

BY GOLLY! IT'S A SHAME!

Why Don't You Take "Cascarets" for Your Liver and Bowels and Feel Cheery, Fit and Fine?

Cascarets end biliousness, headache, colds, and constipation so gently you're never even inconvenienced. There is no gripping and none of the explosive after-effects of cathartics like Calomel, Salts, sickening Oil or cramping Pills. Why don't you take Cascarets and get rid of the bowel and liver poison which is keeping you miserable and sick? Cascarets cost little and work while you sleep.

BOYS THRILL TO ADVICE GIVEN BY ROTARY SPEAKERS

One Thousand at Armories Show Their Enthusiasm for Citizenship Programme

The big steel-raftered roof at the Armories last evening had a hard job to keep itself from being raised clear off when 1,000 teen-age boys cheered and whistled and applauded and yelled themselves hoarse over the programme the Rotary Club put on to inaugurate its work for a keener, more active, public-spirited and better boyhood in Victoria.

So enthusiastic did the boys wax over each item that Jack Scott, president of the Rotary Club, who presided, occupied almost half the total time of the meeting in getting them quietened. He could barely speak at the end of the meeting. Between speeches and during the prolonged and noisy ovations the hall was filled with flying paper darts, aimed at the chairman and fifty members of the Rotary Club who occupied seats on the platform. School teachers and members of the club took to pacing the aisles to keep down the discharge of ammunition and to minimize the length of the ovations. To have done this work completely would have taken one Rotarian to each boy.

A special collection of songs was sung, one of the most popular being the foregoing chorus to the tune of "John Brown's Body."

The singing was led by Herbert Kent with Ernest J. Down at the piano. The cadet band of the University School played during the evening, the feature of which performance was the manipulation of the drumsticks by the base drummer.

Seep Be Men, Says General.
"It is only a matter of a few years before you are men," said General Sir

Arthur Currie. "You will be the teachers, members of Parliament, soldiers and sailors of Canada. Play the game now and you will know how to play it then."

"The boy is father to the man. If you are intelligent boys you will grow into intelligent men. If you are manly boys you are most likely to grow into manly men."
"We want men with brains and character. Take advantage of your school and study hard. I was always looking for men of brains, intelligence and character to advance in France. The boy who advances himself in school will be the man who progresses. If you are working in the store or shop study your job."

Fate of Bullies
"Canada has just come out of the biggest war in the world's history. How did it begin, boys? Austria played the part of a bully and she suffered the fate of all bullies. She was also a tool of Germany. She acted a mean part and she suffered a proper fate. Germany was preparing for this war for years. She was hypocritical, and pride cometh before a fall. Germany did fall. The British Empire soon became the centre of Germany's enemies and won the war. Canada played a great part in the Empire's achievements. How did they do it? They were physically strong and vigorous. That is the first thing I want you to do. Get the habits of health and keep clean. Don't smoke cigarettes. In the trenches men had to suffer many hardships of dampness, cold, lice and many other things which demanded strong men."

A Captain's Bravery
General Currie told of the bravery of Capt. Learmouth at Hill 70, when the Germans used liquid fire. Exposed to bullets and the fire he jumped on the parapet shouting "Men of the Second Battalion, hold this trench for Canada."

When Capt. Learmouth was wounded he refused to allow anyone to carry him out, saying that no one must leave the trench. When his battalion was in great danger he knelt with his men and prayed.

"Capt. Learmouth was a brave man," continued the General. "I want to tell you boys that men in the war lived near to their Maker. It is not an unmanly thing to pray. I want you boys to grow up God-fearing boys, and if you do I think you will grow up a proper monument to our dead soldiers. There are many ways in which you can erect a monument to the dead, but the kind of monument I want to see erected in memory of our dead is the kind and sweet character of a more God-fearing Canada."

Training Boys for Sea
Lieut. Hotham told of the work of the Boys' Naval Brigade in training boys for the profession of the sea.

"The sea now is a healthy occupation in which you get well paid," he said. "When our ships go to sea, let us see that they are manned by good Canadians properly instructed. In peace times we need sailors. If we are efficient in peace we will be ready for war."

The Scout Ideal
Col. John Hall spoke for the Boy Scout movement, which he explained was founded on a three-fold promise which all members have to make.

"The scouts promise to do their best, to do their duty to God and King, to help other people at all times and to obey the scout code," said the Colonel. "The scout is always loyal to his King and country, to his parents, to his employer and to those under him. His duty is to be useful and helpful. The scout is the friend of all and the brother to every other scout, no matter what the social position of the other scout may be. The scout is clean in word, thought and

MRS. F. C. SISSON OF VICTORIA TALKS TO OTHER WOMEN

Tells About Her Restoration to Health By the Use of Tanlac

"It has become a habit for me to recommend Tanlac, it has built me up and helped me so much," recently stated Mrs. F. C. Sisson, of 541 Rithet Street, Victoria, B. C. "My daughter is taking the medicine, too," she continued, "and she is getting as much benefit from it as I did."

"For six months before I took Tanlac I felt so bad and worn out that I could hardly put one foot before the other. I was so nervous I would toss all night long and in the morning I felt like I hadn't had any rest at all. I had no appetite and even the sight or smell of anything to eat would sometimes nauseate me. I just had to force myself to sit down at the table and eat a few bites and nearly every mouthful tasted so badly I could hardly swallow it. I had no energy at all, and it was a burden to even dress myself. I simply dragged out the day from morning till night feeling so tired and listless I dreaded to move out of my tracks. My housework was like a drudgery, and I couldn't take an interest in anything. I was so tired out all the time. I was beginning to be alarmed about myself for I just got weaker and weaker all the time."

"I had learned about Tanlac by reading how much good it had done others and sent down town for a bottle. I began to improve right away, and have gained strength every day on the four bottles I have taken. I have gained a lot of weight, too, and am hungry all the time. I can eat anything with the finest relish and never feel any had after effects. I sleep sound and want to be working all day long."

"Tanlac has been a great boon for me, and was just what I needed, and I hope other tired, worn-out women will take it, too, for I believe it will do them lots of good."

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas—Advt.

deed. It is a magnificent training for citizenship."

Mr. Thrift Popular
George Bushby, known in the schools of the city as Mr. Thrift, asked all boys who belonged to the "Thrift Family" to show their hands. Every boy put up at least one hand and most of them two.

Harry Charlesworth, principal of George Jay School, declared that "it is a fine thing for the Rotary Club and the business men of Victoria to take such an interest in the school boys of the city." He asked the boys of Victoria to back up the men in their efforts to further the welfare of the boys and assured them that the teachers in turn would back them up.

Like a Relay Race.
"Life is something like a relay race," said Harold Cross, of the Y. M. C. A. "There are laps to it. We have first one to twelve years, which is childhood; then thirteen to twenty, which is boyhood; and from twenty on, which is manhood. Each one of these laps means a great deal in the race of life. I wonder whether you are missing any opportunities to help you make the man of twenty-one. Some fellows are living lives to-day that will handicap them in the later laps of life."

He urged them to take up an all-round programme of development, such as the Y. M. C. A. offers, to develop their bodies and manhood and citizenship.

Better Advantages Now.
"You should take advantage of all your opportunities to learn, boys," said Mayor Robert J. Porter. "I want to impress that on you children. When I was a boy at school I didn't have all the advantages that you have. Boys, you are living under better conditions than we had when we were young. I want you to promise that you will make the very best of your opportunities and when you go to school you will make the best efforts to learn."

Church Aid to Boys.
"The Rotary Club is trying to assist and help boys to make the most of their lives," said the Rev. F. A. P. Chadwick. "The church has a message for you boys. Every boy wants two things. He wants to be happy and he wants to be successful in life. So we ask all boys to come under its influence. I ask you this evening to join a church and to become good members of that church."

"Great Czar of Saanich."
There was great interest manifested and boys climbed on the top of the seats to see what was coming when Mr. Scott announced that the next to appear on the programme was "the great Czar of Saanich." There was another outbreak of cheers when Reeve C. B. Jones, of the neighboring municipality, came forward. He told the boys that a big automobile excursion was being arranged for them to go to Saanich, when they will chop down trees and lay the foundations for a great building which will be the headquarters for a camp.

"Boys will be given a ride to the country and will be given a good dinner prepared by the camp fire—good pork and beans," he said. The latter part of the announcement was met with more shrill cheers and applause, that took the chairman a couple of minutes to bring to an end. Dr. Rayner, who is at the head of the boys' work department of the Rotary Club, said "every one of you

boys has in you that which will make men of you some day."

He then told of the \$50 victory Bond prize offered for the best motto by the boys of Canada turned in by a Victoria boy. Ushers distributed cards which were filled in by the boys, to give the club a boy census of the city.

AN AMERICAN DEATH.

Charlottesville, W. Va., Nov. 13.—Senator Martin, Democratic leader in the United States Senate, died here yesterday, after an illness of several months. He was seventy-two years old.

MEDICINES USED BY MONKS

It is claimed that Monks of ancient days knew of more than three hundred species of medicinal plants used in general for medicines by these religious orders. While centuries have passed, with all the advance made in medical science, many of our most successful remedies are to-day made from the roots and herbs of the field, like that good old-fashioned remedy, Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been relieving women from some of the worst forms of female ills, and is now considered the standard remedy.

OUR COAL RESOURCES.

During the recent strike in the bituminous coal mines of the United States apprehension was felt in some quarters in Canada over the effect the trouble might have upon this country. The Dominion imports nearly 13,000,000 tons of bituminous coal from its neighbor every year, and in the case of a prolonged strike this source of supply would be seriously restricted. If the dispute had spread to the anthracite mines in the United States the consequences for Canada would be still more embarrassing, since the Dominion imports nearly 23,000,000 tons of this kind of coal per annum across the border.

This partial dependence of Canada upon the United States for fuel is a glaring anomaly in view of the Dominion's coal resources. Arthur V. White, Consulting Engineer of the Commission of Conservation, says Canada is one of the greatest coal storehouses in the world. It has, he says, reserves of nearly 1,000,000,000 tons of semi-anthracite, 315,000,000 tons of bituminous, and 10,000,000,000 tons of sub-bituminous coal and lignite.

Mr. White urges that these be energetically developed so that the country may be absolutely guaranteed against fuel shortages which have now become an annual custom in some parts of the country. Until this has been done central Canada, which has the greatest proportion of the Dominion's population, will continue to be dependent upon imports of coal from the United States. The question of transportation, of course, is a vital factor in the distribution and supply of coal to the Canadian people, but, as The Toronto Globe points out, a large part of the transportation system of Canada is under the control of the Government and can be readily made available for the mobilization of the Dominion's coal resources. It must surprise not a few people in this part of the country to learn that Canada imports nearly 40,000,000 tons of coal of both kinds from the United States every year.

AWAY OUT.

Discussing the Canadian Northern Railway on Vancouver Island The Citizen, of Ottawa, recently remarked: "The notorious Island Railway is about as much use to Canada as the Saguenay Railway and the Newmarket Canal."

We have no doubt The Citizen thinks Vancouver Island itself is "about as much use to Canada as the Saguenay Railway and the Newmarket Canal," for otherwise it never would have been so contemptuous towards a section of the Government railway system which is bound to become an important factor in Island development. It evidently is unaware that the Government is bound by contract with the people of this Province to complete the Canadian Northern undertakings on this Island, or if it is aware of it, it evidently does not think so little a thing as a covenant should affect its zeal for economy—economy everywhere else than in Ottawa.

The cost of completing the line on Vancouver Island would be a mere drop in the bucket in comparison with the many millions the Government has expended on the Canadian National railroad in the East, and to which The Citizen appears to be blessedly oblivious. It is a small sum even alongside the cost of the new building on Parliament Hill in Ottawa which will be greatly in excess of actual present needs and probably the needs of the country for several generations, but which The Citizen's passion for economy never seems to touch. There are many millions spent annually in Ottawa which could be saved to the country if the Government would reduce the administration services there to a business basis and cut out the tons of deadwood which encumber them. Why does The Citizen not advocate the application of economy to these conditions with which it must be more familiar than it is with Vancouver Island?

BEEF GOING "TO SEED."

It seems but a short while ago since the hue and cry went up and down the land after additional sources of food supply. The humble potato preened itself in a new found importance. Huge profits appeared to be possible by conversion of garage into pig sty. Vacant lots became transformed and the householder purveyed to himself all the green vegetables required for his family. The general response in British Columbia was magnificent. Beef apparently followed the lead and has become plentiful. Sad to relate, however, little relief has resulted by way of reduced prices.

At yesterday's session of the Western Canada Livestock Union now in convention here Mr. David Strachan, superintendent of the Sanitarium Farm at Tranquille, let the cat out of the bag. He told his fellow stockmen that the absence of an open market in British Columbia at the present time eliminated competition altogether and left the cattleman with the choice of two packing houses as an outlet for his product at any price the two concerns in question chose to offer. He declared that ranchers have at this time a great deal of fat stock for sale but an influx of Alberta stock—consequent upon feed conditions in that Province—had glutted the market to such an extent that buyers could not cope with the supply offering.

One result of this condition, Mr. Strachan declared, was the necessity imposed upon the British Columbia stockman of keeping his stock,

feeding it on excessively high-priced feed and suffering serious loss. He warmly advocated a co-operative marketing system by which means the cattle could be graded on a principle similar to that followed out in respect of grain or wool. But because the condition alluded to by Mr. Strachan and other British Columbia cattlemen was one peculiar to this Province, the Union felt unable to deal with it by reason of the fact that it, as a body, represented four western Provinces. In the meantime the two packing houses realize that the day when all British Columbians turn vegetarian is afar off. Is there no remedy at hand for the British Columbia stockman, independent of Union action as a whole?

LIGHTS SHOULD BE DIMMED

Motoring at night has no terrors for the motorist as far as mechanical management is concerned, thanks to the evolution of the headlight, which turns darkness into daylight. But this evolution has certain disadvantages which amount to grave danger to both motorists and pedestrians, to which attention cannot be called too strongly. When two cars are approaching one another the occupants of both should dim lights, not only from a sense of courtesy and consideration, but as a very necessary measure of precaution. Many motorists require no prompting to do it, but many, unfortunately, do. There is no regulation requiring this to be done, as far as we are aware, but there should be and it should be sternly enforced. This is required by public safety as much as the regulation governing the speed of cars.

THE MENACE OF BOLSHIEVISM.

Before the Canadian Club in Toronto recently Louis Tracy, the well-known British novelist, declared that the menace of Bolshievism was perhaps a greater menace against humanity than even the menace of Monarchical Germany. The latter, he said, could be defeated in the open on the field of battle, the other only could be met by argument, by education and tuition. And the pity of it was that "most of us, too taken up by our own personal concerns, do not devote the time necessary to go down into the market place and enlighten those whom we might meet and make wiser."

Centralia has had its taste of the cult and Washington has made up its mind about a programme to deal with it. Like a green bay tree, Mr. Tracy said, Bolshievism has flourished in Russia. Sections of France, too, were ripe for the doctrine. The novelist declared that he did not come as an alarmist, however, because he believed that the monster could be crushed. Moreover, the crushing process can be aided by a common policy of co-operation between Canada and the United States on this continent.

And if conditions in the former Russian empire are the I. W. W. ideal of a re-awakened world, then there should be no difficulty in chartering ships to take all the exponents of Bolshievism at present on this side of the Atlantic to the happy hunting ground of its own fashioning.

THE GERMAN INQUIRY.

The inquiry which is being held in Germany is not concerned with the causes of the war or the conduct of the German leaders from William Hohenzollern down which led to the war. It is an investigation into the reason why those leaders did not lead Germany to victory, or to extricate her from the pit she had dug for herself with at least some of the loot she had found there. Hence, it will be noted, Bethmann-Hollweg, former Chancellor, has been subjected to a grilling examination of the policy which failed to make Germany's military position secure, particularly in antagonizing the United States and other original neutrals. He is being called to account for his failure to utilize the republic as an agency for effecting a German peace, after it was discovered in 1916 that a German victory by arms was impossible.

The inquisitors do not want to know why Germany went to war, because they know it already, and would not dream of permitting their court to reveal that knowledge to the world. They only want to know what men were responsible in Germany for the loss of the war, so they may parade them before the public as men who failed, not as men who dishonored themselves and their country and perpetrated a vast crime against civilization.

But whatever the inquiry may disclose we may be sure no proceedings will be taken against any of the culprits. Ebert and his Majority Socialists were too intimately associated with German policy before and after the war to condemn anybody either for precipitating the struggle or for losing it. Nor is the court likely to compel the appearance before it of Hindenburg and Ludendorff, if these two soldiers persist in their refusal to be witnesses. They may blurt out something the court does not want the German people or the outside world to hear.

THE GOOD OLD OLYMPIC.

Sir Bertram Hayes, captain of the Olympic, which, with such remarkable success, went her way back and forth across the Atlantic throughout the entire period of the war, in spite of all the enemy could do to intimidate her or destroy her, well deserves the honors which the city of Toronto has tried to pay him during his visit here. The Olympic performed splendid service during the war. She came and went in fine defiance of the worst the enemy could do. She transported 200,000 troops, nearly half of them Canadians, was attacked ten times by the enemy, sank three submarines which sought to destroy her, and in every way this ocean liner carried herself through the war in such a manner as to add something to those great traditions of the sea which Britons so rightly value. Toronto is a city far from the Atlantic coast, and most of our people never saw the Olympic, nor even the ocean on which she travels. But Toronto is fond and proud of that great ship, and through the long years of war watched and waited for news of her coming, and for reports of her safe arrival on the other side, and in course of time felt a pride in the record she was making. There was a reason. Thousands of our young men sailed on her to the war and on her returned. The name of the Olympic became in this city a household word. As an outstanding representative of those indomitable men of the merchant marine who carried on all through the war, Toronto is glad to honor the captain of the Olympic.

West Coast	60,000	
Total	\$1,007,550	

Applicants Too Few.

While the city's total so far is most satisfactory to the Loan organization, the number of subscribers—about 5,500—is subject of complaint. It is stated by the loan chiefs that there are 40,000 people in Victoria who have not purchased bonds. Among these, it is felt, there are large numbers who can afford to subscribe, but who hesitate either because they do not understand the details of the loan, or simply because they have given the matter no thought. "I find in my canvass hundreds of men, who are earning big wages and who say they cannot afford to buy a \$50 Victory Bond when they could buy it at the rate of \$5 a month," one of the most successful loan salesmen told a Times representative this morning. "And I know that many of them have several hundred dollars tucked away in saving accounts earning 3 per cent. when they could, by investing in bonds, nearly double this figure—and with the best security obtainable. There is no use, a man who, under ordinary circumstances, is earning \$150 a month telling a canvasser that he cannot buy. The canvasser knows better. We have the greatest trouble, too, with people who have not made up their minds on the subject and who always want us to call again. This all takes time, and keeps the loan from getting 'over.'"

Canvass C. N. R.

A team of bond salesmen under H. E. Webb left this morning for a trip over the C. N. R. Island line. They were accompanied by Messrs. D. O. Lewis and Cooke, of the Railway Company, whose assistance and co-operation is much appreciated by the Loan organization.

Lieut. Charman came into the Victory Loan Headquarters at 9:15 this morning with seven applications, five of which he had secured from one patriotic family. This is a record for the campaign for early morning activity.

Sergeant-Major Hillierby and the crew of the Dugout are very grateful to the Singer Sewing Machine Company for their kindness in sewing on the numerous Honor Crests which the Dugout has earned in addition to the Prince of Wales' Honor Flag. Messrs. Jones & Ransome volunteered to buy Victory Bonds with the entire takings of their business for Thursday, Friday and Saturday.

Win Bond Prize.

Much rivalry was shown by the respective teams of canvassers who were selling Bonds on Tuesday night, during the street dance. The two leading teams, both made up of returned men, were constantly sending spies into the enemy's camp to find out how many applications had been secured. Much camouflage was indulged in, both sides concealing the exact figures until the final count was made, when Captain MacLagan's team nosed out Sergeant-Major Hillierby's Dugout team by three applications only. The prize was awarded Captain MacLagan yesterday.

The Grand Lodge I. O. O. F. is subscribing \$14,000 to the Victory Loan.

ATTEMPT WAS MADE TO MURDER GUARD

and guard the city's entrances to seek out alleged I.W.W. Representatives of the executive committee of the state American Legion organization have wired J. J. Sullivan, Seattle delegate to the Legion convention at Minneapolis, stating the Centralia shooting "was largely due to the failure of the Federal Government to prosecute or deport men preaching sedition."

The Washington men asked the Minneapolis convention to adopt a resolution asking the Government to take immediate steps to enforce laws for suppression of the I.W.W.

Seattle Labor

Seattle's Central Labor Council last night adopted a resolution denouncing violence but asking that labor refrain from criticizing the action of the I.W.W. in firing on the parade. The resolution placed the blame for the outrage on the heads of what it termed the "lawless business element of Centralia."

Federal, state and county officials of Washington, assisted by former service men, to-day continued to search for alleged members of the I.W.W. Deportation of some of the radicals at Centralia was planned by Henry M. White, Immigration Commissioner.

Bolshevik Claims

London, Nov. 12.—Between November 3 and November 10, according to a Bolshevik wireless message received here, the Reds captured four entire regiments of Admiral Kolchak's troops and two divisional staffs. The message says that all officers who refused to surrender were shot by their own soldiers.

Allied Commission

London, Nov. 12.—The Inter-Allied Commission to the Baltic States at its first sitting at Koenigsberg, it is learned here, invited Colonel Avasoff-Bermond's chief of staff and the commanders of independent attachments to attend discussions at Tilsit. The Commission promised the officers safe conduct.

Bolshevik Hold Ishim.

Omsk, Nov. 6.—Delayed—The town of Ishim, eighty miles north of Petropavlovsk, has been occupied by Bolshevik troops. They have crossed the Ishim River and advanced from twenty-five to fifty miles on an irregular front to the town of Tokushi, on the Kurban Railway.

Tokushi is 150 miles due east of Omsk.

"Wear-Ever"

—Aluminum Kitchen Ware That Wears

To have every utensil in the kitchen of "Wear-Ever" Aluminum should be the aim of every housewife. "Wear-Ever" utensils are so strong and durable that they will outlast several enamel or tin ones. Food cooked in "Wear-Ever" utensils is more appetizing, and because aluminum holds heat much longer than ordinary metals, less fuel is required—another decided economy. Here are some of the "Wear-Ever" prices:

- Saucepans, \$3.50 to \$1.30
- Preserving Kettles, \$8.45 to \$2.60
- Tea Kettles, \$8.15 to \$5.70
- Double Boilers, \$5.40 to \$2.55
- Fry Pans, \$2.90 to \$1.25
- Puttling Pans, \$1.80 to .85c
- Cake Pans, 65c to .50c
- Muffin Pans, \$1.60 to \$1.10
- Pie Plates, 65c to .45c
- Soup Strainers, \$1.50 to .80c
- Measure Cups \$1.55
- Dippers, \$1.05 to .60c
- "Wear-Ever" Cleanser .25c

FARMERS IN CANADA'S POLITICAL FIELD

Winnipeg, Nov. 12.—J. J. Morrison, delegate to the Canadian Council of

COMPANY TO WAIVE PRIVILEGE CLAUSE

(Continued from page 1.)

Would Withhold Contribution. Premier Oliver made it quite clear to the delegation that the Government of British Columbia would withhold any assistance which would give to the Canadian Pacific Railway Company—or any other concern—controlling privileges over the city's portage of the proposed bridge. He contended that its maintenance should be perfectly clear so that any situation which might develop could be dwelt with from time to time.

Government's Conditions.

Of considerable importance to the city, however, was the Premier's assurance this morning that in the event of the separate bridge project going through he would recommend to the Provincial Executive that the Province's contribution towards the cost of construction, already authorized by statute, be applied in the same manner as intended for the originally proposed joint structure. Mr. Oliver offered one stipulation: The Government would have to be satisfied that the public interest would be just as effectively served by the city's own bridge as it would have been by the joint viaduct.

ACCIDENTALLY KILLED

Peterboro, Ont., Nov. 12.—Ellas Kerton was fatally injured and William McDougall was seriously hurt when the belt on one of the elevators of the Quaker Oats Company's plant broke, hurling the occupants down several stories.

A BEDTIME STORY

UNCLE WIGGILY'S SNOWBALL.

Copyright, 1919, by McClure Newspaper Syndicate. (By Howard R. Garis.)

After school, on the day when Uncle Wiggily had made such a nice, slippery slide in front of the hollow stump school, the animal boys and girls had lots of fun on the little hill. And even the next day, Johnnie and Billie Bushtail, the squirrel; Sammie and Susie Littletail, the rabbits, and all the others came so early to slide before their lessons that not one of them was late for school.

"This is fine!" said the lady mouse teacher, as she called the class to order. "I wish Uncle Wiggily would make slides for you all winter!"

But the bunny rabbit gentleman couldn't do this, of course. He had to go to the store for Nurse Jane, head for adventures and things like that.

One day, when the first slippery frozen-water slide which Mr. Longears had made was worn out, Jackie Bow Now, the little bumpy dog boy, came barking to Uncle Wiggily's hollow stump bungalow one morning.

"Come on out, Uncle Wiggily! Come on out!" barked Jackie.

"What's the matter?" asked the bunny, as he hopped out in such a hurry that his pink nose twinkled first on one side and then the other. "It's snowing!" barked Jackie. "It's the first good snow storm this

winter, Uncle Wiggily! Come on out and we'll make snowballs!"

"Dear me, Wiggily! You don't mean to tell me you're going out and play in the snow at your age!" cried Nurse Jane.

"I'm not much older than I was when I made the slide!" laughed the bunny. "I guess it won't hurt my rheumatism much to go out and play with Jackie in the snow."

So Uncle Wiggily went out. As Jackie had said, it was snowing hard, and the puppy dog chap and the bunny made snowballs and tossed them at one another. Of course the balls were not very hard, so it did not hurt to be hit by one.

"I wish I didn't have to go to school!" barked Jackie, as the last bell rang, and he had to grab his books and run. "I wish I could stay home like you, Uncle Wiggily. You don't have to study!"

"I used to when I was your age," said the rabbit gentleman. "Now you run along to school, Jackie. When you come out I may have a surprise for you!"

"Oh, Uncle Wiggily! What kind?" asked the little doggie boy.

"You'll see when you come from school," was the answer. So Jackie ran along, and then Uncle Wiggily skipped about in the snow, wondering what kind of a surprise he could make. He made a snowball in his paws, and then he dropped it. The snowball rolled a little way along the path, and, as it tumbled, it grew larger.

"Oh, I know what I can do!" said Uncle Wiggily. "The snow is soft and sticky. It will be very easy to make a big ball by starting with a small one and rolling it around in the woods. I'll do it! That will be my surprise for Jackie."

No sooner said than done. Uncle Wiggily made a snowball about as large as his head. He started rolling it in soft and sticky snow, and everywhere the snowball was rolled it picked up more snow, which stuck to it.

Finally the ball was twice as large as the bunny, and it was all he could do to push it along.

"I'll roll it to the top of the hill where I made the slippery slide," thought the bunny.

The white snowball grew even

Mrs. E. O. Raymer and Mrs. W. D. Livingstone, of Winnipeg, are the guests of Mrs. W. J. S. Waugh for a few days.

Under the auspices of the Victoria Amateur Swimming Club a military five hundred party is to be held at the Carter Hall, opposite the Alexandra Club, on Friday evening at 8 o'clock.

On Tuesday the Rev. T. W. Baynes solemnized the marriage of William Knox Burns, of Vancouver, to Theima Georgina Mills, of Victoria. They were attended by Mr. and Mrs. A. Clegg. After a honeymoon in the Sound cities they will make their home in Vancouver.

The funds of the Esquimalt Chapter, I. O. O. E. were substantially augmented by a silver tea held at the residence of Mrs. R. H. Wood, in the quarters at the Navy Yard yesterday afternoon. The tea arrangements were charming and to add to the attractiveness of the affair a musical programme was given by Mrs. McPherson, Miss Edith Johns, Miss Moore and the hostess. A sale of work was also conducted during the afternoon, the proceeds realized from the sale of the many dainty articles adding materially to the financial success of the undertaking.

Among the Victorians who attended the first annual ball of the Vancouver Shrine Club on Tuesday evening were Mr. and Mrs. L. D. McLean, Mrs. Marie Sweeney, Mr. and Mrs. I. E. Harbur, Mr. and Mrs. J. M. Miller, Mrs. A. H. Hayward, Mrs. E. T. Dohron, Mr. and Mrs. C. S. McWhinnie, Mr. and Mrs. J. McColl, Mr. and Mrs. J. B. Black, Miss Ethel Black, Mrs. H. T. Reid, Mrs. J. E. Laidlaw, Mr. and Mrs. J. E. Brown, Mr. and Mrs. C. M. Holston, Mr. and Mrs. A. Z. DeLong, Mr. and Mrs. Peter Wright, Mr. and Mrs. W. H. Hawley, Miss Grace Macpherson, Miss Elworthy, Mr. D. E. Brown. About 500 people were present, and the red and white shrines mingled with many striking gowns worn by the ladies made the scene a gay one. The ballroom looked extremely well, the decorations of an original kind being the Shrine emblem at the east end of the ballroom, and on either side of the lights depicting various Masonic emblems.

The event of the month in Winnipeg social circles was the marriage of Miss Alice Houghton, daughter of Mr. and Mrs. Andrew C. Houghton of this city, to Robert Archer-Houlton, which took place at noon on Wednesday in Holy Trinity Church, Captain Rev. A. W. Wood, rector of St. Margaret's read the nuptial service. The bride wore a gown of bridal satin, draped with silk net, embroidered with lovers knots and crystals, and a train of satin caught from the right shoulder by a bow of lovers knots and pearls. The veil was mounted by a fan-shaped crown of pearls, and she carried a shower of bridal roses, Miss Dorothea Houghton, sister of the bride, was bridesmaid. Charles Neel was best man and was assisted by Andrew Vanneck, brother of Lord Huntingfield. The bride is a descendant of De Houghton of Houghton Towers, Lan cashire, and on her mother's side of Simon Fraser, grandson of the

larger as Uncle Wiggily rolled in to the top of the hill. There the bunny stopped to rest for a moment. Below, at the bottom of the hill, was the hollow stump school, with the animal boys and girls inside, waiting for recess.

Pretty soon, as Uncle Wiggily stood near the big snowball at the top of the hill, the bell rang. Out trooped the children, the lady mouse teacher and all.

"Oh, look at Uncle Wiggily's big snowball!" barked Jackie. And then, just in fun, Jackie threw a little snowball at the rabbit gentleman. Uncle Wiggily laughed, and dodged and twisted to one side. As he did, he happened to give the big snowball a shove, and down the hill it rolled. Faster and faster it went.

"Look out, children!" cried the lady mouse teacher.

The animal boys and girls jumped, leaped and scrambled out of the way, and what do you think the big snowball did? Why, it rolled right into the doorway of the school, and there it stuck. And the ball was so big that it took the rat janitor all the rest of the day to shovel it away. So neither the lady mouse teacher nor the children could get back in school to study their lessons. And weren't those children sorry? Oh, my yes!

And after Uncle Wiggily's big snowball was dug away, which was too late for any more school that day Jackie barked:

"Are you going to make another one to-morrow, Uncle Wiggily?"

The bunny gentleman said he guessed not. And if the croquet ball doesn't roll over the prior rug and get a tack in its paw, I'll tell you next about Uncle Wiggily and the painter.

Women's Canadian Club.—At the meeting of the Women's Canadian Club to be held in the Empress Hotel on Tuesday afternoon next, November 18, the chief item on the programme will be a parliamentary "drill" to be conducted by Mrs. Spofford. For the benefit of the uninitiated it is explained that a "drill" consists of an instruction and demonstration in parliamentary procedure and the conduct of a meeting.

It was a little argument between two ladies in Shoreditch High Street.

"There is one thing no one can say about you," said one of the combatants; "no one can ever call you two-faced."

"No, they can't neither," snapped the other.

"No; if you had two faces you would never be seen out with the one you are wearing now," was the rejoinder.

Then hostilities became more furious.

Celebrate Armistice Day by Buying a VICTORY BOND.

eleventh Lord Lovat, the famous explorer of the British Columbia River which bears his name. The bridegroom is the youngest son of the late Colonel and Lady Alice Archer-Houlton, daughter of the twenty-fifth Earl of Crawford, of Hallyburry place, Essex, England. The bride couple left later via Vancouver for California. They will make their home in Kelowna, B. C.

For the past eighteen months, G. D. Christie, the well-known merchant of this city, has gone out to Resthaven Hospital every Tuesday evening, rain or shine, for the purpose of giving an exhibition of moving pictures, under the auspices of the Y. M. C. A. As the hospital is now closing down, patients have shown their appreciation of Mr. Christie's generosity in devoting so much of his time to their entertainment, by presenting him with a luminous-faced wrist-watch. The presentation was made at the hospital on Tuesday evening, Captain McKenzie, the Officer Commanding, voicing the gratitude of the patients and staff to Mr. Christie.

One of their series of enjoyable silver teas was given by the Women's Auxiliary to the G.W.V.A. yesterday afternoon at the rooms, 512 Furt Street, many friends of the organization attending the event. The hall was attractively decorated with autumn leaves and berries. At the door Mrs. Wallace collected the admission money, Mrs. Spavin having charge of the refreshments. Mrs. Hampton and Mrs. Morry were general conversers, and Mrs. Lewis had charge of the musical programme, among those who took part in the little entertainment being Mrs. Patterson, accompanied at the piano by Miss King. There was a well-particized table of home cooking superintended by Mrs. Donaldson, the cakes, home-baked scones, pies, etc., all having been donated by the members of the Auxiliary in order that the complete proceeds from the stall might be turned into the general funds.

PRIZES ARE WON BY PUPILS FOR ESSAYS ON LOAN CAMPAIGN

Misses Rice and Bullock-Webster Take First Place With Compositions

THOROUGH KNOWLEDGE OF LOAN IS DISPLAYED

In the Victory Loan Essay Competition which has been proceeding in Victoria schools during the loan drive, Gweneth Rice, aged eighteen years, of St. George's School, and Barbara Bullock-Webster, of St. Margaret's, have gained first places, and will receive prizes given by Brigadier-General Clark, Island Loan Chairman. A second place has been secured by Elsie Taylor, aged fifteen, also of St. Margaret's.

Following is the prize essay written by Miss Rice:

Every nation that was engaged in maintaining the freedom of Europe has been more or less crippled in the struggle. Belgium was partially incapacitated early in the war by the inroads of the enemy, and had to rely largely on their ally, the United Kingdom, to pay the expenses of the war.

After spending many million dollars a day on her share of the fighting for four years, and lending large sums of money to other countries, Great Britain is financially weakened, and cannot help her impoverished colonies, among which is our beloved Dominion of Canada. This, then, is our opportunity to show that she is a worthy daughter of the great Motherland.

"Our glorious dead," and those, their comrades, who have been spared, have proved to all the world what Canada can do in a time of stress like the four ghastly years through which we have just passed. Now the reaction has set in, and we who have stayed at home, must show that we, too, can fight, and wage a financial war which will help the country to advance and become more glorious year by year. To give us, the individuals, a chance to play our part in this campaign the 1919 Victory Loan has been floated.

Canada, our great Dominion in the New World, is, in a sense, an emblem of the future. The nation that has held the world in awe for about three centuries has now extended to a new land of endless resources and varied beauty, and we, her inhabitants, are responsible for helping her through this time of difficulty and strain, to the time when she will be able to make the most of her opportunities—to enlarge the grain industry particularly, and make her a rich commercial land, supplying the Motherland, her sister colonies, and foreign countries with bread.

Already Canada has helped Great Britain with food and supplies for which she cannot pay, and for once the order has been reversed and British troops have large sums of money to Canada.

But consider the situation if this had not been so. Owing to the patriotism of the Canadians who stayed at home, production has steadily increased, and we are now able to export more grain and dairy produce than formerly. Our chief customer for these things is Great Britain, but if Canada does not continue to lend her money she will be unable to continue buying the things we produce, with the result that the rationing in the British Isles will become more strict, and there will be large quantities of food which she cannot sell and cannot use herself.

Discussing the subject of the 1919 Victory Loan from a purely selfish point of view, we see, then, that Canada would lose heavily if she could not obtain enough money to lend Great Britain, and we should all share in the common ruin. It is, moreover, no sacrifice to buy bonds;

the interest is good, and it is a perfectly safe investment.

Surely there is not a man or woman in the Dominion who is blind to the advantages of this new national loan! Even those who look only for the commercial advantage must be persuaded by its absolute safety to buy bonds, and we, who love our country, we must subscribe our last cent to help the reconstruction of the Empire.

Miss Webster's Essay.

Miss Bullock-Webster's essay is as follows:

Buy Victory Bonds and help Canada! That is the cry which is echoing and re-echoing from shore to shore of the vast Dominion of Canada at the present day.

The purposes of the Victory Loan are briefly as follows:

- To rid Canada of existing obligations;
- To provide for soldiers' Gratuities as already voted;
- To pay the cost of the Soldiers' Land Settlement, and Civil Re-establishment;
- And for commercially re-constructing the Dominion of Canada and developing its natural resources.

Every war has been followed by depression, and the only way to escape it was by the flotation of loans. The cost of bringing our soldiers home is enormous, they must be supported until they are discharged, the wounded and sick in the hospitals must have an allowance, and the staffs of the hospitals themselves must be paid. "And how is it to be done?" comes the question. The answer is "The Victory Loan."

Every man, woman and child in Canada is asked to lend, not to give out of charity, but to lend to the best of his or her ability, money in the form of a Victory Bond, towards paying off the country's debts. The bonds are valued at \$1,000, \$500, \$100 and \$50, and may be sold at any time. Figures of former loans show that there is a ready market for Victory Bonds, and that they have sold above par.

The war is now over, by that we mean that actual hostilities have ceased, but there is much to be done, if the country is to start in afresh free from debts and obligations.

The amount estimated for this purpose is approximately \$300,000,000, but Canada aims at reaching the \$500,000,000 mark. The soldiers when discharged must begin life anew—leaving as they did, homes, business, farms and other vocations, they now return to find their places filled by others. From the Victory Loan of 1919 must come money which will continue the splendid work of vocational training, which is fitting Canadian soldiers, unable through the effects of their great service to Canada and the Motherland to find ready employment.

From the Victory Loan of 1919 money must be raised for further advances to Great Britain and our Allies for the purchase in Canada of the products of her farms, forests, fisheries and factories. Britain is at present financially embarrassed; she must have food for her own people, and Canada is the greatest source of her supply.

Buying Victory Bonds is an excellent investment, for where a bank only gives three per cent on the money loaned, the Dominion of Canada pays five and a half per cent, semi-annually. And how safe it is! Seeing that there is the whole of the mighty Dominion as security for that five and a half per cent.

It is also important to note that no money will pass out of Canada, and for this reason the Government wants Canadian money from Canadian people. For if Americans for instance were to invest their millions in Victory Bonds, vast sums of money should have to be paid out to the United States as interest, thereby

placing Canada on a comparatively low financial basis.

The Government of Canada has promised so much to the soldiers, and how is she to keep her pledge if she is not supported by every Canadian? There is no other means for providing this money save through the Victory Loan. Lying or dead, our boys believe our word. They could not have endured all they did, had they not trusted their country's promises. Now is the time to repay them. Not all our money, all our wealth of the land could compensate for their noble sacrifice, but the Victory Loan of 1919 is as the Prince of Wales so aptly expressed it, "the great bridge between war and peace."

The message of the brilliant Canadian soldier-poet who made the supreme sacrifice, is as true to-day as when the guns were booming over

BOYS' SHIRTS

For when he's "dressed up" and when he's at work. The right kind of shirt for each occasion and EVERY Shirt a good wearing one.

Two countrywomen were arguing on the matter of thrift.

"D'ye see that purse?" demanded one, with a triumphant air. "It's the one I bought when I was married, twenty years ago, and it's as good as new yet."

"That's nothing!" sneered her friend. "You know my husband John?"

"Of course I do. What about him?"

"Well, he's my first husband, and you've had three. Don't you preach thrift to me!"

What do you Pay for your Beaded Blouses?

Save from \$2.00 to \$5.00 Buy Your Blouses Direct from the Maker

A Georgette Crepe Blouse of superior quality is one of the most economical blouses you can buy, for few materials wear better. A Georgette of other than first-class quality, at any price, is a poor investment.

If you have previously purchased the "better" Georgettes you are no doubt accustomed to pay from \$15.00 to \$20.00.

You can buy the same type of blouses in a D'Allaird Store at from \$8.50 to \$15.00. Isn't this saving of from \$2.00 to \$5.00 worth investigating?

You eliminate the middleman when you buy D'Allaird Blouses, for they are made in D'Allaird Factories and sold exclusively in D'Allaird Stores.

See the delightful new beaded and embroidered copies of New York models at from \$8.50 up.

STOCKMENS SAID O'CONNOR SHOULD BE LOCKED UP

Denounce Commissioner As "Crazy" and Killing Livestock Industry

NOT ENOUGH PORK FOR CANADA NEXT YEAR

Attacks on High Cost of Living Commissioner O'Connor, and the Board of Commerce, are ruining the livestock industry of Canada were made here to-day at the convention of the Western Canada Livestock Union.

Strong Language.
"The Government saw fit to appoint a Board of Commerce, and they should be locked up," said J. D. McGregor, of Brandon. "Anybody who has been connected with the administration of who has been at Ottawa knows that he is the rankest kind of a four-flusher. He advertises himself in the papers. As a matter of fact, he didn't do anything himself but had a lady and when she left him he was left high and dry."

Has Unsettled Business.
"He has unsettled the whole livestock conditions all over Canada. We should be in a position to act quickly if some organization was there to deal with him that man would be caught and put away where he couldn't do any harm."

No Pork Available.
"In our country I don't think there will be sufficient pork for our own use next year, let alone all we want for export. A man is a fool who would attempt to feed high priced food to pork with a man like that loose on the public."

Delay Was Damaging.
"Our organization this year has been laboring under a handicap in not having a Minister of Agriculture who has been able to do anything for the last seven or eight months," said H. A. Craig, Deputy Minister of Agriculture for Alberta. "Mr. Crerar was wanting to resign for some time, and when Dr. Tolmie took his place he had to face an election, and that disturbed him. If Dr. Tolmie had been at Ottawa, on the job that man who has been running loose at Ottawa would not still be loose."

Mr. Craig said that with two livestock unions, one in the East and the other in the West, and with a Minister of Agriculture at Ottawa able to do things, the livestock men need no other organization such as the proposed Canadian National Livestock Council.

Lawyer as Dairyman.
Miss Cora Hind, agricultural editor of The Manitoba Free Press, said that a lawyer had been appointed as the head of the dairy council. She added that complaints were pouring into her editorial desk about this man "who doesn't know anything about dairying."

Too Much Duplication.
E. L. Richardson, declared that he might've just as well quit western dairymen unions, active in their own spheres, should get together at any time to deal with problems concerning the whole of the Dominion, instead of asking for the creation of a new expensive organization.

Only Sense of Duty.
Vehement protests were made against the inadequate salaries paid experts in the agricultural departments of the Dominion and Provincial Governments. Assurances were made that good men in the government service were soon offered better salaries to go elsewhere. It was said that the efficient officials who remain in the government service stay there only because of their sense of duty.

The union decided not to organize actively at present the Canada National Livestock Union, but is at all times ready to co-operate with the Eastern Canada Livestock Union.

Pig Raising.
Failure in pig raising because stock raisers have built piggeries that are too good and modern, was taken up by W. C. McKillop, superintendent of Dominion Experimental Stations at Brandon, who examined the question of cost and maintenance of high class premises.

Acids in Stomach Cause Indigestion.
Create Gas, Sourness and Pain. How to Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try having aside all digestive aids and instead get from any druggist a few ounces of Bismarck's Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bismarck's Magnesia (in powder or tablet form—never liquid or milk)—is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

DATES SET TO HEAR PLEAS FOR REVENUE

Hon. John Hart Has Arranged For Victoria and Vancouver Sitings

For the purpose of inquiring into the existing and potential sources of municipal revenue in accordance with the programme already outlined by him, the Hon. John Hart, Minister of Finance, and officers of the Department over which he presides, will sit in Victoria on November 20 and 21 next at which representations will be heard and the matter discussed in the light of information supplied by the various municipalities by means of questionnaires.

November 24 and 25 are the dates set for sittings in Vancouver and immediately afterwards arrangements will be made for the Minister and his officials to hold similar gatherings in the Central and Southern sections of the Province. Details as to time and place of these sittings, however, will be announced in a few days. In possession of all the information the Minister will take the matter before the Provincial Executive for action.

NEWS IN BRIEF

Women's Auxiliary to Great War Veterans.—The regular meeting postponed from Friday, 14th, to Friday, 21st, owing to the President's illness.

General Meeting of all members of the Foundation Swimming Club. Thursday evening at 8 o'clock, Foundation Club House.

Dr. Hermann Robertson, surgeon, having returned to Victoria after four years military service overseas, has resumed his practice in the Campbell Building, Douglas and Fort Streets.

To Attend Horse Show.—The McCleave family will leave on Friday with a string of fifteen horses for the Portland Horse Show, November 17 to 22.

Gets Decree Absolute.—In the Supreme Court this morning Mr. Justice Murphy granted a decree absolute in the divorce petition of Davis vs. Davis, in which the husband is the petitioner. J. S. Brandon appeared for Mr. Davis, and the application was undefended.

Garden City Institute.—On Wednesday afternoon at the home of Mrs. Roy Smith, the members of the Garden City Women's Institute listened to a very interesting talk given by Mrs. Spofford on the Work of the Provincial Executive of the National Council of Women. Mrs. Spofford pointed out that all women's organizations were represented on this body and all had a voice in affairs. Stating that a provincial body would be able to obtain a more lasting good for the community, co-operation was urged upon the women by the speaker, who advised the keeping ever before them of the interest of the community which was for the general good and the advancement of the race. Mrs. Birckett gave a report of the Institute convention and also of the meeting of the Local Council of Women. After votes of thanks were given to Mrs. Spofford and the hostess, the meeting adjourned and a delightful tea was served.

TO DISCUSS CLAUSE
City Council Delegation Will Wait Upon Acting Minister of Lands This Afternoon.

To discuss the clause in the housing agreement which sets three calendar months as the time limit in which Victoria may take its \$180,000 allocation, a delegation from the City Council will meet Premier Oliver in his capacity as Acting Minister of Lands and Major J. W. Clark, Superintendent of B. C. Soldier Settlements, at the Premier's office this afternoon.

As already explained the majority of the Aldermen require to take a longer time in the process of drawing out the various amounts that will be absorbed in Victoria as the contemplated construction programme unfolds itself in practical shape. On the other hand the Government argues that nothing is to be gained by stretching the period. It is understood to be likely, however, that the clause will be modified somewhat.

APPOINTMENTS
Premier Oliver Gasseted as Acting Minister of Lands During Mr. Pattullo's Absence.

Included in the list of appointments made during the week ending at noon to-day—official notification of which will be made in this day's issue of the British Columbia Gazette are the following:

Justice of the Peace: James Putnam Yee, M. D., of Victoria. To be Notaries Public: Robert

Corsets in Many High-Grade Makes Are Offered Here

WOMEN who look for and demand the utmost in corset style and corset comfort will appreciate the service offered in our corset department. This splendid service, backed by the up-to-date models gathered here, ensures perfect satisfaction.

FROLASET FRONTLACED CORSETS
These corsets will meet the demand for exceptionally high grade front lacing models. They are offered in styles to suit all figures and will give greatest satisfaction in every way to the wearer. Prices, **\$5.50 to \$18.50.**

LILY OF FRANCE CORSETS
A back-lacing corset of exceptional merits, a special feature being their back-flattening effects. They are strong, well made, and are worn with absolute ease and comfort, **\$6.75 to \$20.00** a pair.

NEMO CORSETS
Nemo Marvelace, Wonderlift, and 'Self-reducing' models are particularly desirable for women with full medium and stout figures. They are the direct result of careful designing, with a special regard to the requirements of medium and stout women, **\$3.50 to \$8.50.**

WARNER'S RUST-PROOF CORSETS
Represent the utmost in corset value. They are fashionably designed and are strongly made with guaranteed rust-proof boning.

Ladies' Wool Gloves
Wool Gloves, in black and white. Splendid quality, well made; **50¢ and 60¢** a pair.

All Wool Cashmere Hose \$1.25 Pr.
Women's All-Wool Cashmere Hose, in black; sizes 9 to 9½ only, **\$1.25** a pair.

Fancy Ribbons Are Here in Wide Assortments
Just such ribbons as one would choose to make into fancy bags, pin cushions and the thousand and one little novelties that are so numerous at Christmas time.

Dresden Ribbons are featured in delicate and rich colorings in various widths, at prices from **45¢ to \$2.50** a yard.

Fancy Striped and Plaid Ribbons shown in splendid colorings in 4½ and 5½-inch widths, from **45¢ to 75¢** a yard.

Phones 1876, First Floor 1877, Blouses, Lingerie and Corsets 1872
Sayward Building, 1211 Douglas St.

OBITUARY RECORD
The funeral of Sarah Ann Herbert, who passed away at 857 McClure Street, on November 10, took place yesterday afternoon at 1:45 o'clock. Fifteen minutes later service was conducted at St. Barnabas Church by the Rev. N. E. Smith. The hymns sung were: "Jesus, Lover of My Soul," and "Jesus Meek and Gentle." The casket was covered with many beautiful flowers. The pall bearers were: H. W. Davies, W. Putnam Yee, M. D., of Victoria. To be Notaries Public: Robert

FAMOUS EDITOR.
Sir W. Robertson Nicoll, editor of The British Weekly, entered the other day upon his sixty-ninth year and the thirty-fourth year of his editorship. He is now the senior editor in all London. As is well known, The British Weekly began its existence under his editorship, and it is commonly believed that it had a very precarious and discouraging existence for the first few months of its history. Together with the editor, the writers who helped first to lift The British Weekly into prominence and an assured place were J. M. Barrie and

STOP CATARRH! OPEN NOSTRILS AND HEAD
Ely's Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief.

Ah, how good it feels. Your nostrils are open, your head is clear, no more hawking, snuffing, blowing, no more headache, dizziness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.

ROTARIANS TO FIND PROPER INDUSTRIES

Industrial Committee Appointed to See What Victoria is Best Suited For

"I have appointed an industrial committee which has been instructed to investigate the various community shipbuilding schemes and see if they can be made a financial success. If these schemes are not practicable, then let us find out what industry can be successfully operated here. There must be one. Let's find it! As soon as the shipbuilding stops we will want to know what we are going to do. I have appointed this committee to see what can be done. This statement was made by J. F. Scott, president of the Rotary Club, at the weekly luncheon to-day. He named Frank Giolma, M.P.P., as the chairman, and the following members: F. L. Edwards, W. H. P. Sweeney, Thomas Walker, George McGregor and A. T. Purser.

Grove Smith Speaks
J. Grove Smith, Dominion Fire Commissioner and a Rotarian from Ottawa, spoke for a few minutes and advocated the immediate adoption of measures to restrict the tremendous fire losses in this province. In 1918, Mr. Smith stated, the fire losses in this province amounted to \$2,000,000, or \$5.25 per capita, which was higher than that of any other province of Canada or any part of the world. He hoped that the citizens would support the campaign commenced by the British Columbia Government for better protection from fires.

Will Have Christmas Tree
The Rotary Club decided to hold its annual Christmas tree and will commence work immediately on securing presents and arranging the entertainment for the poor. President Scott urged the members to take this matter to heart and make the Christmas tree a great success and also to make sure that the people who were the recipients of gifts were entitled to them.

The Rotary Convention
J. D. O'Connell, chairman of the conference committee, which is arranging for the annual northwest conference of the Rotary Club, to be held in this city during April next, gave some details of the plans already formulated. The guests are expected here on a Sunday, and plans are be-

ING MADE TO GIVE THEM AN AUTOMOBILE RIDE AND HAVE ROTARIAN SERVICES HELD IN THE CHURCHES IN THE EVENING.

On Monday the conference will open and at the luncheon to be held the principal speeches will be made. In the evening the visitors will be entertained to a novel show in the Royal Victoria Theatre, after which a dance will be held in the Empress Hotel. On Tuesday the conference will proceed during the day and at 6 o'clock in the evening a big banquet will be held. A ball has been arranged for the evening in the Empress.

E. J. Down reported on the progress made by the entertainment committee: Lester Patrick on the registration committee, and George I. Warren on the automobile committee. Mr. Warren notified every Rotarian that his car would be at the disposal of the delegates during their stay in the city.

The music at the luncheon to-day was provided by James Hunter, and a quartette composed of L. D. Rines, Frank Brown, E. Williams and Lieut. Webb.

EXPENSE REDUCTION WOULD MAKE POSSIBLE TECHNICAL EDUCATION
According to a statement made at the School Board meeting last night by Alderman Sargent, Chairman of the City Finance Committee, if the Board could reduce its miscellaneous expenditures from \$83,000 to \$75,000 a start with technical education could be inaugurated in Victoria. The preliminary expenditure in the inauguration of such education, he stated, would cost \$7,750.

If Thin and Nervous Try Bitro-Phosphate

While excessive thinness might be attributed to various and subtle causes in different individuals, it is a well-known fact that the lack of phosphorus in the human system is very largely responsible for this condition. It seems to be well established that this deficiency in phosphorus may now be met by the use of Bitro-Phosphate which can be obtained from any good druggist in convenient tablet form. In many instances the assimilation of this phosphate by the nerve tissue soon produces a welcome change—nerve tension disappears, vigor and strength replace weakness and lack of energy and the whole body loses its ugly hollow and abrupt angles, becoming enveloped in a glow of perfect health and beauty and the will and strength to be up and doing.

CAUTION.—While Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

GROWING NUMBER OF OIL CONCERNS NOTED

Texas Oil Venture Capitalized at \$100,000 in This Week's List

During the week ending at noon to-day certificates of incorporation have been issued by the Registrar of Joint-Stock Companies in respect of the under-noted concerns, official notification of which will be made in this day's issue of the British Columbia Gazette:

Texas Oil Venture, Limited, public, authorized capital \$100,000; registered office of the company, Vancouver.

Marsh-Bourne Construction Company, Limited, private, authorized capital \$250,000; registered office of the company, Vancouver.

Nash Motor Sales, Vancouver, Limited, private, authorized capital \$10,000; registered office of the company, Vancouver.

Gilroy-McKay Lumber Company, Limited, private, authorized capital \$100,000; registered office of the company, Port Alberni.

Colombia Realty, Limited, private, authorized capital \$40,000; registered office of the company, Victoria.

Dominion Medicines, Limited, public, authorized capital \$150,000; registered office of the company, Vancouver.

Telegram Publishing Company, Limited, private, authorized capital \$25,000; registered office of the company, Kamloops, B. C.

Maddison Salvage Corporation, Limited, private, authorized capital \$10,000; registered office of the company, Vancouver.

The Bankers Trust Company, Incorporated in Quebec, is now registered under the Trust Companies' Act to do business in British Columbia; head offices, Montreal and Vancouver.

Puyallup Valley Brokerage Company, Incorporated in the State of Washington, is now registered to do business in British Columbia; head offices, Puyallup, Washington, and Vancouver, British Columbia; authorized capital \$50,000.

A lady with her hand in a sling explained to a friend that the damage was due to reckless drivin'g. "Of your motor-car?" asked the friend. "No," said the sufferer; "of a nail."

DOMINION

The entire aggregation of actors and camera men at work upon "Her Kingdom of Dreams," starring Anita Stewart and which is playing at the Dominion Theatre, suspended operations recently to celebrate a noteworthy event.

Larry Williams, head porter for Marshall Neilan's enterprises for the last five years, walked into the studio wearing a broad grin and dressed in his overseas uniform.

According to Miss Stewart, Neilan had never been so happy during the years she had known him.

Larry's job has been returned to him and Neilan's clever sub-title writers are trying to figure out a long and high-sounding title for the returned soldier.

VARIETY

"Broken Blossoms," a tragedy of China and the London slums, is now appearing at the Variety Theatre. The theatre was crowded, the opening being distinguished by the presence of Miss Lillian Gish and Richard Barthelmess, who play leading parts in the drama. Applause was generous. At the conclusion of the film, Mr. Griffith was called before the curtain.

Mr. Griffith's attention to details is emphasized at the very door of the theatre, where the incoming crowd is greeted with the odor of incense. In the foyer is an enshrined Buddha, with blossoms trailing everywhere. The interior is also lavishly adorned with blossoms.

The drama opens with a gorgeous prologue, a temple scene portrayed by actors in person, that suggests powerfully the tragic nature of the play. "Broken Blossoms" is adapted from "The Chink and the Child," a story by Thomas Burke. It begins amid the quiet of a Chinese garden and end in

AMUSEMENTS TO-DAY

Royal Victoria—Comedy, "Our Boys," in aid of Friendly Help and V. A. D. funds.

Pantages—Vaudeville.

Variety—D. W. Griffith presents "Broken Blossoms."

Dominion—Anita Stewart in "Her Kingdom of Dreams."

Columbia—Bessie Barriscale in "Hearts Asleep;" William S. Hart in "Mr. Nobody," and serial, "The Red Glove."

Romano—Margarita Fisher in "Trixie from Broadway," Harold Lloyd comedy, and Ruth Roland's serial, "The Tiger's Trail."

There's Nothing Like

Zam-Buk's soothing and healing power. Zam-Buk has been our household balm for fourteen years, and we could not do without it, says Mr. George A. Kilburn of Swan Lake, Man.

For eczema and skin troubles of all kinds Zam-Buk has no equal; also for old sores, ulcers, abscesses, boils, pimples, blood-poisoning, piles, cuts, burns, bruises and scalds.

All dealers of Zam-Buk Co., Toronto. 50c. box, 3 for \$1.25.

Zam-Buk

the slums of London, a story throughout of pity and death.

With Miss Gish and Mr. Barthelmess in the cast are Donald Crisp, Edward Fox, Norman Selby and George Beranger.

The musical accompaniment includes original compositions by Louis F. Gottschalk, and is as effective as all Mr. Griffith's efforts to provide appropriate music for his dramas.

ROMANO

Delightful and varied as have been the costumes in which vivacious Margarita Fisher has gladdened our eyes in the past, she has never had an opportunity to parade upon the screen quite such a fascinating array of feminine apparel as in "Trixie from Broadway," her very newest photoplay, beginning a three-day showing.

At the gay "chow party" in a famous Broadway cafe, she appears resplendent in a wonderful evening gown of iridescent sequins, all sparkle and glitter, with lovely sinuous lines and a huge double row of broad velvet ribbon looped at the back with an artful simplicity that makes every woman in the audience yearn for a sketch. It does seem a shame to cover such a creation with a wrap, but still, when it's such a handsome one as the ermine cape into which Miss Fisher nestles, there are certain compensations.

Ruth Roland's serial, "The Tiger's Trail," will be an added attraction on the week-end programme at the Romano.

PANTAGES

Dancing and jazzing it up on the piano, violin and drums, Slatko's Midnight Rollers, dancers and their own jazz band, present a whirlwind of excitement and pleasure to close the bill at the Pantages this week. Kings of male singing harmony and comedy are the Bison City Four. They have a comic little act in the characters of a tramp, a bartender, a policeman and an Italian fruit vendor. In the intervals in the act they break into song. They close with an imitable kimona number. Charles Lindholm and company present a ridiculously risible farce dealing with the adventures of a Minnesota farmer in search of a matrimonial paper wife. Dainty Sonia de Calve is perhaps the prettiest to the eye of any who have come to Pantages way in a long time, and she has a splendid voice and plays the violin superbly. And Mabel Naynon's birds is a symphony in brilliant coloring and remarkable training as the opening feature of the current programme.

COLUMBIA

"Hearts Asleep," Bessie Barriscale's latest production for Exhibitors Mutual, has all the elements of an excellent photoplay—humor, pathos, romance, mystery, atmosphere, dramatic action. An unusual story acted by a splendid cast makes this

"Get the 'Arena' habit—there's health in it. Make skating the family doctor."

picture well worth seeing. It was produced by B. E. Features, Inc. It will be shown at the Columbia today, commencing a three-day showing.

The theme is one which will interest all, rich and poor, the society women and the shoptgirl, the millionaire and the man who has no income tax to pay.

It resolves a pertinent and much-discussed subject in a satisfactory way. There is a love-story—the romance of a girl of the slums and a wealthy bachelor; how a girl who had lived among crooks all her life went straight in spite of every temptation, and eventually proved herself superior in character to the society girl who had all the advantages of wealth, birth and social standing.

William S. Hart will also be presented on the Columbia screen in a two-reel drama, "Mr. Nobody," together with an episode of the serial, "The Red Glove," featuring Marie Walcamp.

SPARKLING COMEDY

STAGED LAST NIGHT

Local Artists to Be Congratulated on Production of "Our Boys" at Royal Victoria

Before a fair audience in the Royal Victoria Theatre last night a new company of local artists staged the amusing English comedy, "Our Boys." It proved to be a very bright and entertaining work, and merited a far larger patronage, especially in view of the worthy auspices under which it was held. The performance will be repeated this evening, and it is hoped that the theatre will be crowded as the proceeds will be devoted to the Friendly Help Society, which will be in need of extra funds with the approach of the Christmas season, and the Voluntary Aid Detachment, whose conspicuous services in the past are worthy of support.

A very promising young actor, Richard Day, appeared last night in the role of Fabul Champneys, the limp, languid and ambitious son of Sir Geoffrey Champneys. Mr. Day subjected himself to this difficult role in a very delightful manner. His mannerisms, pointed speech and immaculate dress enabled him to give an exact interpretation of this amusing type of Englishman. Mr. Day's love-making in the second act with Mary Melrose (Mrs. F. S. Booth) the poor cousin, was the feature of the evening. He outlined his only qualifications as a husband, a fair billiard player, a good rider and a smoker, and while under the influence of a sudden and overwhelming admiration for the beautiful poor girl, he proposed, then repented and when his mind was in great turmoil flung himself on his knees and delivered an enticing and heart-stirring proposal as any maiden could wish to hear.

"Our Boys" is the work of H. J. Byron and the story is known to everyone. It works around the old, staid and unjust demand of ambitious fathers to make their children marry according to the dictates of the parents and not according to the desires of the hearts of the contracting parties. In this case, as in most others, the two sons, although threatened with being cut off with a shilling, chose the course of all independent young men and leave the old home. They attempt to make their way in London, but things go badly. Finally the girls, who cherish the love of the boys, arrive unexpectedly at the uncomfortable quarters of the struggling writers. The aunt, Clarissa Champneys, admirably played by Mrs. Horace Hamlet, has arrived previously and left her hat on the table in the living room. This is the first object detected by the girls. The suspicious feminine mind immediately conjuring some act of impropriety, and they depart hurriedly. However, everything works out satisfactorily in the end. There is a great reconciliation. Fathers and sweethearts create forgiveness, which is readily forthcoming.

R. T. Ward as the ignorant but wealthy retired butlerman, Perkyn Middlewick, provoked much amusement with his "hs" and his knowledge of butter. The heavy part of Sir Geoffrey Champneys was well handled by T. Edward Clark. Miss Bobbie Stevens, the slavey, made a great hit. Her imitable style has made her a great favorite in this role. S. T. Hankey as Charles Middlewick was a little too dramatic. Miss Ora Pearson as the heiress, and Mrs. F. S. Booth, as her poor cousin, Mary Melrose, executed their work with great skill and fascinating manners.

CITY SCHOOLS WILL

HAVE DENTAL CLINIC

Dr. Mason Appointed by the School Board as Head

To ensure the establishment of a dental clinic in the city schools next year, and in order to make the necessary provision in the preliminary estimates for 1920, the Board of School Trustees last night passed a resolution appointing Dr. Mason to take charge of the clinic when organized. This appointment is conditional on the amendment of the Provincial Legislature of the school act to authorize the School Board to

To the Women Who Decide the Home Tooth Paste

All Statements Approved by High Dental Authorities

Note How Teeth Discolor

Men's teeth in particular. Note how tartar forms.

Note how children's teeth decay—and perhaps your own—despite the daily brushing. Every woman knows that old methods of teeth cleaning are inadequate. Every dentist knows it.

The reason lies in that slimy film. You feel it with your tongue. It clings to teeth, enters crevices and stays. And the tooth brush doesn't end it.

That film is what discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Thus most tooth troubles are now traced to film.

Dental science, after years of searching, has found a way to combat film. Dental authorities have proved this beyond question. Now the method is embodied in a dentifrice called Pepsodent. And we offer to all a 10-Day Tube to show every home what it does.

You Must Remove the Film

Pepsodent embodies an efficient film combatant. It is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to day by day combat it.

Pepsin must be activated. The usual method is an acid harmful to the teeth. So this way long seemed barred. But science has discovered a harmless activating method. Five governments have already granted patents. Convincing tests show that this method solves the great film problem. And it brings a new era in teeth cleaning.

See for yourself what it does. Send the coupon for a 10-Day tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten as the fixed film disappears.

Those results show that film can be combated. The teeth can be protected and kept clean. Compare the results with the methods you now use, for your sake and your family's sake. This film question is a vital one. Cut out the coupon now.

Free
A 10-Day Tube of Pepsodent to show you its effects. Send coupon.

Note the Glitter
when the film is gone. This ten-day test will be a revelation.

expended money for dental clinic purposes—a measure which is practically assured for next session, according to Trustee Aitken and former Trustee Dr. Lewis Hall.

In supporting the scheme for the establishment of the clinic, Dr. Lewis Hall pointed out that unless the Board took immediate steps to appoint a dentist and make provision for the work in the estimates, the matter would be no further advanced than in the past year and previous year. He voiced the opinion that cities had as much right to appoint school dentists as they had to ap-

point medical health officers and school nurses. In any case it is a purely technical point and easily remedied.

The Board decided that Dr. Mason's appointment should date from January 1, 1920, and that the salary should be \$2,400 per year.

Reality Men Meet—At a meeting of the local Real Estate Exchange yesterday in the Belmont Block, President C. T. Cross announced that there was a great improvement in business and a reorganization was

necessary. It was, therefore, decided to place the organization on the pro-war basis and extend its operations to include many new realty men recently started in business. Until January 1 all men actively engaged in legitimate business will be allowed to become members without payment of the \$100 entrance fee. Two delegates will be sent to the convention to be held in Vancouver next Monday, F. B. Pemberton and Alfred Carmichael being those selected. Members were appointed to canvass the city for increased membership.

For Marriage Dowers BUY VICTORY BONDS.

Elks' Smoker.—Arrangements have been completed to make the Elks' smoker to-night one of the best that has ever been held by the club. In addition to the musical programme, Dean Quinlan will give a fifteen minute talk on social problems. The following will contribute to a very interesting programme: Ingledew, Waude, J. Holman, J. Davies, Alf Adams, J. O. Dunford, A. Hill, Geo. Swain and others.

Homeward Bound.—The British Columbia Returned Soldier Commission, Parliament Buildings, has been advised by telegram from the O. C. Clearing Service Command, Quebec, that the following party from the B.S. Minnedosa left there on November 11 for this district. For Victoria—Pte. W. H. Porter, F. N. Porter, 988 Redfern Street; Pte. S. Troughon, G. P. O.; R. S. M. L. R. Wilson, c/o Bank of Commerce.

Who ever saw a second-hand VICTORY BOND?

Dance at Sooke Friday.—The second of the series of dances to be held this winter at the Sooke Harbor Hotel will take place on Friday next, 14th and Major Nicholson promises an even better one than the opening dance. The same Jazz band is engaged and a good supper will be provided.

The Public is warned that an individual is soliciting houses to house cash donation for the Protestant Orphanage, and is hereby notified that this is unauthorized and illegal.

"Quaker Pictures."—A lecture with this title, profusely illustrated with limelight views, is to be given at the Friends meeting house, Fern Street (off Fort) to-morrow (Friday) evening at 8 o'clock sharp. The lecturer is J. H. Theobald, of England, who is paying a brief visit to the city. Free admission.

Band Concert.—The Victoria Labor band will give a concert in the Pantages Theatre Sunday evening at 8.30. Come and enjoy a nice popular programme and join in the community sing, which will be a feature. Collection in aid of the band funds.

Enjoyable Dance.—Residents of Saanich enjoyed a dance at the Agricultural Hall last night, which was arranged by the Ladies Guilds of St. Stephen's and St. Mary's Churches. The proceeds will go toward the erection of some new building at the St. Stephen's rectory.

Bank Clearings.—Bank clearings in Victoria for the week ending November 13 amounted to \$2,542,029, compared to \$1,692,581 on a corresponding date last year.

Airman's Tribute to Late Officer.—At the funeral of the late Lieut. Blayne Scott, M.C., D.F.C., yesterday afternoon a beautiful wreath bearing the simple inscription "Well Done, Blayne" was dropped from an aeroplane which flew over the gun-carriage bearing the remains to their final resting place. The machine which was piloted by Lieut. Brown, M. C., and Carrying Lieut. Gordon Campbell as passenger, accompanied the cortege to the cemetery, flying at a low altitude all the way.

HEALTH OFFICIALS WARN THE PUBLIC

In View of Existence of 'Flu They Advise Prompt Treatment of Every Case of Cold

When the 'flu epidemic swept the country last year it was generally agreed by medical men that there would be a recurrence of the attack this winter. So far it has not swept with the violence of last year but there is hardly any large community in which it is not present to some degree.

In view of the ever present danger of the disease breaking out health authorities are everywhere advising the public to observe extraordinary precautions. One of their first advice is to treat all cases of colds as dangerous, the conditions in such cases being similar to those in the first stages of 'flu.

For the treatment of colds there is no preparation equal to Grip Fix, which may be secured at any drug store. It is not a patent medicine but a treatment which would be approved by your family physician. The drugs it contains are stated on every box and cover just the drugs needed in such cases. Grip Fix is not a new preparation as it has been in use for many years, doing wonderful work during last year's 'flu epidemic. It comes in convenient capsule form and when buying it be sure to get Reid's Grip Fix as there is nothing "just as good." It sells for 15 cents per box and is worth its price over and over when a cold appears. On sale at all druggists.

PLANNING FOR A TRIP IN FIVE YEARS TIME

Before the war the average woman and girl looked forward to the time when she could have her "trip abroad." Just how many thousands have had to forego that trip in the past five years it would be impossible to estimate, while many more thousands who little anticipated any such indulgence, have been across the sea and back again.

Now, with the war behind us, again we dare to wonder when the "trip overseas" (as we now say more naturally than the "trip abroad") will be realized.

While many historic things have been destroyed by the ravages of war, there is an interest much more personal now, not only in England, but in France, in Belgium and Italy. Have not Canadian men fought for those lands? Has their blood not stained the fields of battle? And does not Canada very really own a part of that country where white crosses and avenues of maple leaves mark the place where Canadians fought and died?

Thus once more women begin to save their money for the day when they may set sail.

Does it occur to you that Victory

Bonds bought now will help you to achieve your desire? And does it occur to you how appropriate it would be that these Victory Bonds, bought by you now to help bring home the men who fought, and to establish them in civil life, should eventually make it possible for you to go over there and see where those same men actually lived and fought during the four long years of war?

Take Victory Bonds then to make your trip possible to lands now so sacred to Canadians.

Take Victory Bonds because you are wise thus to save your money by investing it.

Take Victory Bonds because the men who fought, and because Canada needs your money in the meantime to pay as far as possible in money the debt of honor owed to those men.

Take Victory Bonds because the "tight little islands" that you may visit in five years need to borrow your money.

And dear women of Canada, take Victory Bonds, as many as you can, because you know it is the only loyal thing to do at this time, when time, place and victory are not ours until our duty is done.

HELPING COUNTRY BY HELPING THEIR CHURCH

A way by which people can help both their country and their church has been put into practice by several requests received for Victory Bonds, which the purchaser intends to present to his church in connection with the financial appeal of the church's forward movement. Some, realizing the needs of the church in the reconstruction era, but who are unable to make a large donation, are taking advantage of the monthly instalment plan to buy a bond for the purpose. Such purchasers have the double satisfaction of knowing that they are helping both their church and their country in a practical way.

BONDS TAKEN IN PAYMENT OF TAXES

Brigadier-General Clark, Island Victory Loan Chairman, has asked The Times to make it clear again to the public that Victory Bonds will be accepted in payment of taxes by the following: City of Victoria, municipality of Oak Bay, municipality of Saanich, and by the municipalities on the Island. If persons are reserving moneys for paying taxes, in the General's opinion, they cannot do better than invest same in Victory Bonds and then turn them in to the above municipalities when paying taxes.

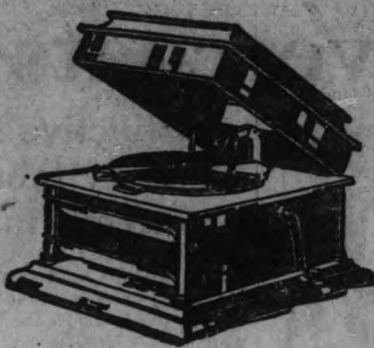

Maquerade Dance.—Saanich Hall, Saanich, under auspices of North and South Saanich Agricultural Society, on Wednesday, November 19, Dancing 8.30. Heaton's orchestra.

62nd Re-Union.—A meeting of former members of the 62nd Battalion will be held in the G. W. Y. A. rooms at 8 o'clock to-night for the purpose of discussing plans for a re-union of the men who served in the battalion, such re-union to be held to be held in the near future.

Junior Conservatives.—The Junior Victoria Conservative Association was formed last night at a meeting held in the senior quarters in the Arcade Building, President H. M. Grahame addressing the gathering, and explaining its purpose. W. A. Brethour was elected president and R. S. Greig secretary, and the following committee was formed: Miss Gladys Reynolds, Messrs. W. Reynolds, A. H. Haggard and A. Sellick. A meeting of these officers will be held in the rooms next Tuesday night to deal with a draft of the constitution and by-laws.

Many Car Accidents.—Saanich Road just this side of Royal Oak was the scene of a number of accidents, all occurring within a few minutes, when no less than five cars were engaged in a general mix-up. A Chinaman driving a truckload of vegetables, towing the latter into a Studelaker, the latter into a Studelaker, a Ford car came along and hit the wreckage and lost a wheel; a few minutes later another Ford came spinning along, skidded into the mud and lost a wheel; the last to join the list of mishaps was a McLaughlin used by the S. C. R. the car ripping off both wheels on the left side as it grazed a number of poles. No one was injured in any of the accidents.

B. C. PHARMACISTS MEET

Members of Provincial Council Here in Semi-Annual Meeting.

The Council of the B. C. Pharmaceutical Association opened its semi-annual meeting at the Empress Hotel to-day and spent the morning receiving and discussing communications and dealing with applications for registration. The financial report showed that the organization is in good standing.

Those attending the session of the council which is private are: A. Galloway, of Kamloops; John A. Buckham, M. P. P., of Golden; Russell H. McDuffee, of Vancouver; Thomas H. Robinson, of Vancouver; Fred Williams, of Victoria; W. L. Ker, of Victoria, and Joseph H. Emery, registrar.

Young Ladies of First Presbyterian Church will hold their annual bazaar in the schoolroom of the church on Saturday, November 15, from 3 to 9.30 o'clock. Supper will be served at 6, and musical numbers rendered during the evening.

Going to Honduras.—Rev. Arnold Stackhouse, Anglican missionary for a number of years on the West Coast of the Island, who has been a guest at the Dominion Hotel, is on route to his new mission field in Honduras, Central America.

General Currie at Nanaimo.—Nanaimo will have as a visitor to-day General Sir Arthur Currie, who will be given a public welcome at the Dominion Theatre this evening, the ceremonies in connection with the reception commencing at 8 o'clock sharp. Mayor McKenzie will preside, and during the course of the evening, in addition to addresses by General Currie and J. B. Warnicker, a programme of vocal and instrumental selections will be rendered, among the artists taking part being Donald Hyslop, Norman Carter and Miss Jean Patterson, while the Victory Choir will render a number of choice selections. Currie's orchestra has been engaged for the occasion.

HOW NOW SET FOR RE-ESTABLISHMENT MEETING SATURDAY

The mass meeting of citizens and ex-service men in connection with re-establishment problems will be held at the Drill Hall, Bay Street and Douglas Streets, on Saturday, November 15, at 8 p.m.

The question of re-establishment is not one which belongs exclusively to the returned men; it is a matter of vital importance to the public and to the Dominion. Unless the general public turn out en masse to learn the essential points connected with this great question the meeting will be a failure.

To Attend Horse Show.—The McCleave family are leaving on Friday with a string of fifteen horses for the Portland Horse Show, November 17 to 22.

DID YOU EVER USE SLOAN'S?

Keep It Handy to Promote Prompt Relief From Rheumatic Pains and Aches.

WHEN you know what Sloan's Liniment will do, as thousands of men and women the world over know, you, too, will keep it handy. You will use it for those "twinges of rheumatism," for relieving that lame back, muscle stiffness and soreness, aches, all sorts of external pains, and exposure after-effects.

Only takes a little, applied without rubbing. Soon penetrates, scattering the congestion, bringing merciful relief to the throbbing, jumping part.

Three sizes—35c., 70c., \$1.40. Any druggist has it. If not, we'd like to know his name. Made in Canada.

SPORTING NEWS

Hockey-Rugby Billiards Boxing

Patrick Makes Greatest Catch of Hockey Season in Landing Norman Fowler as Net Guardian

Greatest Goalie in the Game Will Be Between the Sticks for the Aristocrats This Year

The guardian of Victoria's destinies in the Pacific Coast hockey tilt wore a smile of jubilation this morning. The few fans assembled in the office to gather a little advance dope on the 1918-19 season shared the jubilation, for when Patrick opened this morning's mail he extracted a piece of parchment on which was appended the signature of the best net guardian in the national game—Norman Boswell Fowler. Norman Boswell was the handle awarded by proud parents before they knew that their son was to become an idol of the sporting fans and become plain "Heck."

King of Them All.
The news that "Heck" will protect the Victoria hemp is the brightest bit of information handed out from the local boss's office. Happy Holmes and Hughie Lehman are in a class by themselves, but "Heck" is undoubtedly phenomenal. It was with regret that Lester Patrick had to part with the services of such a capable goalie as Tommy Murray, with whom he and the fans were perfectly satisfied. In competition with anyone but Heck Fowler, Tommy would have caught a place on the local septette, but Fowler has won the reputation of the master man of all the goal tenders. Those who have seen Fowler in action believe that the local net never had a more cap-

able man in front of it than it will have this season.

Went to Siberia.
About the time Victoria was ready to open last season Heck was wearing khaki. He went overseas with the Canadian Siberian Expeditionary Forces, and when the boys came back from what some of the veterans describe as the worst trip of the whole war, he made for his home in Saskatoon. It was the Saskatoon postmark that the letter received by Lester this morning bore, and Heck mentioned incidentally that he had received some "tempting offer" to play with the amateurs in that section.

He wrote, however, that he had decided to take a lay off from the printing business which he runs in partnership with Fowler Senior and play hockey. Heck is only twenty-four years of age, but is old in hockey experience. He has the confidence of the oldest veteran in the hockey game, the opening games or the crucial battles towards the end of the season find Heck as self-possessed as if he were carrying on his regular duties of typesetting instead of performing before thousands of excited fans.

An Immediate Star.
"Heck" Fowler after his season with Saskatoon played with Regina, and other small Canadian cities until 1916, when Lester Patrick induced him to try the professional game and to come to the Pacific Coast Hockey Association.

As goalkeeper for the Spokane in 1917 he was an immediate star. He was hampered by weak playing in front of him but nevertheless made an excellent showing and when the season opened in Seattle the first move of the Seattle management was to grab the great Heck.

It is self confidence that has made Fowler the great goalkeeper he is. He has had a hockey stick in his hand most of his life. He was born twenty-four years ago in Peterboro, Ontario. As soon as he could run and skate he began playing hockey. As soon as he could read and write he began setting type. So he had either a hockey stick or a printer's stick in his hand much of the time.

DUNDEE AND GORMAN FIGHT TO A DRAW

Prettiest Exhibition of Season Seattle Fans Verdict

Seattle, Nov. 13.—The prettiest exhibition of the season was the verdict of the fans, and a draw was the verdict of the referee to-night when Jimmy Dundee, a flashy 128-pounder from the south, and Joe Gorman, the rugged Portland boy, fought a whirlwind match at the Crystal Pool. Dundee proved a master workman at the ring game. His footwork was perfect. He danced in and around the roped enclosure, outboxing the Spaniard and piling up a lead for five rounds. And then Portland Joe came out of his den and made the going so interesting for the southerner in the final session that a draw decision was the unanimous verdict.

Billy Wright celebrated his return to the game by earning a decision over Eddie Hammond in the semi-final.

Jimmy Clark, of England, and Mike Pete boxed an exciting four-round draw.

Joe Coffey proved to be a nice worker, the southerner defeating Jimmy Duffy after an interesting contest.

George Eitzel won his second bout, handily beating Charley Davidson in a good scrap.

FAMOUS YACHTSMAN SAW SHAMROCK UNCOVERED

New York, Nov. 13.—Shamrock IV, Sir Thomas Lipton's America's Cup challenger, was put overboard at South Brooklyn yesterday and to-day will be towed to City Island, where she will be hauled up for the winter and next April fitted out for the cup races which are expected to be held in July. Sir Thomas saw his racer uncovered for the first time in five years.

MEETING IS CALLED TO ARRANGE SUNDAY SCHOOL SPORT EVENTS

A meeting of the Sunday School Athletic Association is called for Thursday evening at 8 o'clock in the Y.M.C.A. Building.

Each Sunday School in the city is entitled to two delegates and as there is important business to come up it is urged that a large number of schools be represented at this meeting.

The Sunday School Basketball season opens on the first Wednesday in January, and it is the intention to run Senior, Intermediate and Ladies' teams. Competition is expected to be keen this season as there are already many entries in view.

A thrifty man thinks and plans—plans to buy Victory Bonds.

WANT ALDERMAN ON SPORTSMAN'S TICKET

Cricketers Are First in the Field with Announcement

An alderman nominated by the sportsman of the city and running on a sportsman's ticket was the ambition put forward by the cricketers at the adjourned annual meeting of the Victoria and District Cricketers Association held last night.

Since the sportsmen approached the council some time ago through the local body of the British Columbia branch of the Amateur Athletic Union of Canada, the idea was born and discussed in an unofficial manner. The idea of nominating a candidate and carrying the issue to the polls on a straight sportsman's ticket found favor with a lot of the sportsmen of the city.

Some have even gone so far as to mention men likely to run as the sporting alderman. The aldermen came in for severe criticism at the cricket meeting last night, and their alleged indifferent attitude with regard to sport aroused some hot comments. P. C. Payne, president and Secretary Tucker were appointed to make inquiries as to the support that would be received for an alderman to represent sport.

Several names have been mentioned in sporting circles as likely representatives although none as yet as far as can be learned have been definitely asked to stand. The name of Jack O'Brien has been freely mentioned. Percy Payne has also been frequently referred to as a possible candidate should the idea be carried out. Harry Boyd, secretary of the local board of the B. C. A. A. U., George I. Warren, and Billy Davis are among the other sportsmen whose names have been mentioned.

PAYNE IS AGAIN CRICKET PRESIDENT

Re-elected at Adjourned Annual Meeting Held Last Night

With J. C. Barnack finding it necessary to withdraw from the presidency of the Victoria and District Cricket Association to which he was elected at the annual meeting a few days ago, P. C. Payne, the retiring president was unanimously chosen for the position he had only just vacated at the adjourned annual general meeting last night.

Many matters for the good and welfare of cricket came up for consideration, and it was decided that next season the qualification for winning the bowling prize should be a minimum of forty wickets. It was also decided that all second innings scores should count in the averages next season. Regarding transfers a decision was reached that any player applying for a transfer to another club must receive endorsement to the effect that he is in good standing with the club he is leaving.

It was resolved that clubs playing under the rules of the V.D.C.A. be requested to report to the Association any players leaving the ground before the close of a league match without the consent of the captain of their side, also players not turning up when selected by their club committee and giving no adequate reason, it being deemed by the Association that it was in the best interests of cricket that this be done.

Resolved, that the Association wishes to go on record that it is in the best interests of cricket that all clubs of the V.D.C.A. should field eleven men for matches, or else give satisfactory reasons for not doing so to the league executive, which will then have power to deal with the offending club, and that the rule regarding the allowing of only one substitute be strictly adhered to by all club captains.

Messrs. Booth, Oliver and Edwards were appointed a committee to endeavor to arrange for better playing facilities next season. Mr. Booth and Mr. Lethaby spoke on the matter, and it was suggested that if possible a common club ground should be provided where some of the experts of the game would be on hand at practice nights to give a few pointers to the younger players.

Messrs. Tucker, Bancroft, (Vancouver), Quanton and J. Matson were appointed a committee to arrange the Great War Challenge Cup tournament next year.

The secretary was instructed to write to Shanghai, Hongkong, New York, Philadelphia and the M.C.C., cordially inviting any cricketers intending to visit Victoria to get into touch with the V.D.C.A. secretary.

WILDE IMPRESSES U. S. FIGHT FANS

Will Meet All Comers in His Division and Give Weight to Others

New York, Nov. 13.—Jimmy Wilde, world's flyweight champion, is open to all comers in his division.

The little British fighter, on his arrival here yesterday, said he was willing to give ten pounds to any opponent, and would meet Joe Lynch, Pat Moore, or any fighter selected for him.

A group of the boxing fraternity which met him at the pier was much impressed with the champion. He is a mile of a man, built more along the lines of a jockey than a fighter, but he pronounced himself in fighting condition, and he looked it.

With him were his wife and two children. His primary intention in coming to America was for a pleasure trip, he said, but he declared his willingness to mix in a little business with his visit.

Wilde has a tentative engagement to open the new international Sporting Club here early in February. His opponent is to be selected by Tex Rickard.

CALGARY CURLERS ARE THE FIRST TO OPEN

Calgary, Nov. 12.—Calgary curling club shattered all records for early curling in this city when eight rinks playing on keen ice, participated in the opening competition of the season. In previous years local curlers considered themselves lucky if they could get on the ice the first week of December. This is believed to be the first curling in Canada this winter.

With the Soccer Men—Saturday's Games

The ex-Sergeant lost his motion at the soccer league meeting, the intermediate league, delegates failing to receive full support from representatives of the senior clubs.

Telfer had a motion before the house to rescind a clause which made it possible for an intermediate player showing senior league form to be transferred to the senior league on a majority vote of the delegates.

The benefit soccer game Armistice Day for a Victoria West player was a financial success. The proceeds amounted to \$152. Thanks were extended to the sporting public, referees, teams, and the Foundation organizations for the use of the ground.

Senior league games were drawn up as follows:

Yarrowes vs. North Wards, at Beacon Hill, upper ground; referee, Payne.

G.W.V.A. vs. Comrades, at Jubilee Hospital; referee, Jones.

Army and Navy Veterans vs. Founda-

SNOW IS DRIVING DEER FROM HILLS

One Party of Eight Got Fourteen at Cowichan Last Week

Snow in the mountains is evidently driving the deer to seek sanctuary at lower levels, according to reports of the success of hunters. In the vicinity of Cowichan Lake last week one party of eight Ladysmith hunters secured fourteen deer. "Deer are hanging around the hotel as in the times when it was permissible to sell venison here," writes Dad Jones, the veteran hunter. Deer are more plentiful than they have been all season, and most of the hunters have reason to be delighted with their luck.

"Dad" added another to his list of panthers Monday. Sunday night a message was brought to him that a panther had been seen in the vicinity and he immediately went out in search of the animal with his bloodhound. He managed to tree it, but it was too dark to take a shot and he had to return home without success. The following day he went out again with a bloodhound and a collie. For seven miles the hound was able to coldtrack the panther, and eventually treed it. The hunter gives no measurements, but used as he is to getting the big ones he described this particular panther as huge.

THE LIGHTWEIGHT TITLE

Calgary, Nov. 12.—Charlie McCarthy, who disputes the lightweight championship title held by Clonie Tait, is matched to box Harry Anderson here November 27.

McCarthy, if he defeats Anderson, will claim the championship by default.

Tommy Gibbons, of St. Paul, and Mickey King, of Australia, will box fifteen rounds here the same night, for the Cruiserweight championship of the world.

AGAIN TO TEACH BOXING FREE TO AMBITIOUS BOYS

Free Classes and Tournaments Are on the Cards For Winter

The Executive Committee of the V. I. A. A. Boxing Club, in conjunction with the Executive Committee of the Victoria Amateur Boxing Club have decided to resume the free boxing classes for the school boys of the city of Victoria and district. These classes were inaugurated last year by the V. I. A. A. in the Duck Building gymnasium, and proved to be very popular with the boys of the city. As many as twenty couples were receiving instructions under the supervision of capable instructors.

Prominent amongst the young boxers developed through this free instruction are Frank Matthews, public school and newboys champion; R. Wood, Hugh and A. Burnett and many others. These boys appeared before the public on several occasions and made a big hit with the fans. Commencing next Tuesday evening and again on Thursday evening, classes will be conducted at the V. I. A. A. gymnasium at Victoria West, when instruction will be given to those boys who have registered their names with Superintendent Davies, of the V. I. A. A., at 641 Fort Street, who will issue cards to each boy which will admit him to the classes.

Through the Winter.

It is the intention of the two clubs to carry on these classes all through the winter months, several well-known boxers, including W. H. Davies, Al. Davies and Harry Boyd, have volunteered their services in connection with this movement, and it is their wish that every boy in the city of Victoria may sooner or later become acquainted and proficient in the many art of self defence. The membership of the first class will be limited to fifty, and a waiting list will be kept and as soon as a boy is considered sufficiently advanced his place will be filled from the waiting list.

GAMES IN THE Y.M.C.A. BASKETBALL LEAGUES

Two more games were played on the Y. M. C. A. Wednesday evening, one game in each division.

The B Division game started at about 8 o'clock and was between the First Presbyterian and Dormitories. This game was won by the First Presbyterian with a score of 25-10.

The Dormitories, although having several men on the team who were new to the game, put up a good showing. Their biggest handicap was their inability to score their shots, but with some more practice they will be able to run their scores somewhat higher than in this game.

The A Division game was between the Whisbangs and High School. This game was a different game altogether from the first one, and judging from the sudden increase of the number of spectators about the time the second game was due to start others had counted on a good game. The High School team managed to keep the game sated away pretty well from the start. The Whisbangs showed great gameness and played consistently the whole game, the final score being 44-27.

AMATEUR RING STARS MATCHED FOR FRIDAY

Bob McLernan Presents P. N. A. Champions at Foundation Tournament

A wire received this morning by Bob McLernan contains the information that Chet McIntyre will bring over four additional boys from Tacoma to add to the already fine card of events for the Foundation Boxing Tournament at the Clubhouse tomorrow night. The four boys will probably be matched among themselves when they arrive in the city. With several P. N. A. champions from across the line matched against the best men Victoria can produce the tournament will take on the nature of an international competition, and the fight fans should not be disappointed. With the Victoria men who won P. N. A. laurels recently also in action, it should prove a gathering of the stars of the amateur game in the Northwest.

Dutch Hill, of the Foundation, who holds the P. N. A. 125-lb. title, will try conclusions with Murphy, of Tacoma. Charlie Martin is coming especially over from Tacoma, where he is at present, to meet Kenneth Moffat, the Tacoma High School boy, who carried off the 135-lb. P. N. A. title on July 1.

Stanton, the old Y. M. C. A. boy and lately of the Foundation, is traveling from Seattle to take part in the competition. He is matched against Morgan, the Ladysmith star, who has collected the scalps of most of the 158-lb. boys of the district. This bout is expected to be one of the best of the evening.

Another scrap which should hold the interest of the fans is that between Grant, the P. N. A. 158-lb. champion, and Geo. Skinner, of Vancouver. This is Grant's first visit to Victoria, but he is well known on the other side as a hard-hitting, clever boxer and his debut here will be watched with a great deal of interest.

SALT LAKE BOY DRAWS WITH COAST CHAMPION

Salt Lake City, Nov. 12.—Tommy O'Brien, Pacific Coast lightweight champion fought a six-round draw here to-night with Pat Gilbert, a local boy.

EMPRESS HANDICAP.

In the third round of the Empress Hotel billiard handicap, Sale (o. 100) won from Baker (o. 75) by 38 points, and Smith (r. 25) won from Watson (o. 75) by 55 points.

The first game in the semi-final round will be played to-night at 8 o'clock, when Milligan (o. 25) will meet Olson (r. 75).

The other semi-final games will be played on Monday evening between Sale (o. 100) and Smith (r. 25).

IMPOSE HEAVY FINES FOR KEEPING LIQUOR

John W. Meldram and N. Nelson, of Jubilee Hotel, Each Fined \$100 in Police Court

Charged with keeping liquor in a building other than a private dwelling house John W. Meldram, proprietor of the Jubilee Hotel, and N. Nelson, the bartender, were each fined \$100 in the Police Court this morning by Magistrate Jax. Meldram pleaded guilty to the charge. Nelson protested his guilt, but in the witness box he was subjected to such a grilling by City Prosecutor Harrison that the magistrate concluded that the accused was equally guilty with Meldram.

Sergt. Boulton and Constable R. Forster visited the Jubilee Hotel on Saturday morning, November 8, to conduct a search for liquor. They failed to find anything in the bar, but during the visit Nelson appeared at

MANILA IS BRINGING HUGE ORANGE CARGO

J.S.K. Liner Has 781 Tons of Japanese Fruit For Discharge Here

Seven hundred and eighty tons of Japanese oranges comprises part of the cargo on board the Osaka Shosen Kaisha liner *Manila Maru*. The consignment is for the Christmas trade and marks the first large shipment to be forwarded across the Pacific from Nippon this season.

The entire Canadian consignment of oranges will be discharged at Victoria according to wireless advices received by R. P. Rihet & Co., local agents for the Japanese transportation concern. The through cargo also includes an additional large shipment of Japanese oranges for United States consumption during the festive season. The oranges to be landed here will be distributed right across the Canadian continent.

All told the *Manila Maru* reports 1,343 tons of general merchandise for discharge at this port. This is the largest cargo that has been consigned here by an O. S. K. liner in many months. The *Manila Maru* reports that she will arrive in quarantine at daybreak on Monday and she may be expected to come alongside the ocean docks about 9 a. m. She carries ten Japanese steege passengers for Seattle. Thirty-six bags of Oriental mail will also be put ashore here.

Owing to the unusually heavy local freight the *Manila Maru* will be here discharging all day Monday. From this port she will go direct to Seattle.

CHANGE OF NAME.

The Government has granted permission to W. Y. McCarter, of Victoria, to change the name of the gasoline vessel *Surprise*, which he purchased from foreigners, to that of *Waterfall*.

ALASKA S.S. COMPANY INVADERS NEW FIELD

New Steamer Service Will Be Operated Between Seattle and Baltimore

Seattle, Nov. 13.—Marking the re-summation of the domestic commerce that flowered between Seattle and the Atlantic Coast, via the Panama Canal, before war period conditions brought a halt to the gigantic movement, the Alaska Steamship Company will establish a Seattle-Baltimore service the latter part of the month.

News of the big steamship corporation's decision to enter the intercoastal trade via the canal was obtained from Vice-President and General Manager R. W. Baxter.

Will Use Two Ships.

"We have decided to establish an intercoastal service, via the canal, between Seattle and Baltimore, with the steamships *Valdez* and *Juneau* as a starter," said Mr. Baxter. "Both vessels are now in the Atlantic, the *Juneau* having entered that ocean more than a year ago and the *Valdez* following her last March. The *Valdez* has been in European waters and the *Juneau* has been running on the Atlantic Coast."

"The *Valdez* is now coming back from Europe and will go to Baltimore to start the new service, loading in that port for Seattle the last week of November, and then sailing for the Pacific Coast. The ports of call on the Pacific Coast will include San Diego, Los Angeles and San Francisco, as well as Seattle, the home port. With the two vessels, we shall begin the new service with a sailing every forty-five days from Seattle and the same from Baltimore."

To Establish Agency.

The *Juneau* will load in Baltimore for Seattle forty-five days after the departure of the *Valdez* from that port at the end of the month. The two vessels will give the Alaska Steamship Company its first intercoastal service. The company several times has sent ships through the canal with full cargoes, but never as a regular proposition.

Booking of the cargo for the *Valdez*'s first voyage from Baltimore will be handled in the Maryland port by the agents of the Thorndyke-Trenholm Company of Seattle; but the Alaska Steamship Company will have its own agency established in that port by the time the *Juneau* is ready to load there for Seattle. Preliminary steps for the establishment of the agency already have been taken.

The company operates a great fleet of passenger and freight carriers in the Seattle-Alaska routes. With its intercoastal service established, it will be in a position to handle cargoes from Alaska direct to ports on the Atlantic seaboard, when conditions warrant, thus bringing the great northern territory into the commercial sphere of the Panama Canal.

The Government has granted permission to W. Y. McCarter, of Victoria, to change the name of the gasoline vessel *Surprise*, which he purchased from foreigners, to that of *Waterfall*.

The Government has granted permission to W. Y. McCarter, of Victoria, to change the name of the gasoline vessel *Surprise*, which he purchased from foreigners, to that of *Waterfall*.

MARINE ENGINE WAS CAUSE OF DISPUTE

Yancouver, B. C., Nov. 12.—Arising out of the sale of a second-hand marine gasoline engine, an appeal case was heard yesterday before the Court of Appeal here. The case which is from Victoria is one in which Fitzherbert Bullen sold a marine engine out of his launch to Sol. Cameron for \$850. The dispute is over a question of warranty as to whether the engine was in good running order when sold to Cameron. The judge in the lower court held that there was no warranty and Cameron is appealing against this decision.

OCTOBER FISHING WAS REMUNERATIVE

Pack For Two Districts Valued at Over a Million Dollars

Returns from two out of three of British Columbia's fishing districts for last month give a total fish catch of \$1,347,343. District No. 2, extending from Cape Caution north to the Alaskan boundary, comprising the rich fish producing waters of the Skeena and the Neas, is not included in the above figure.

Ninety per cent. of the October fish pack from districts Nos. 1 and 3 is made up of salmon.

A substantial decrease is noted when a comparison is made with the same period of a year ago, the difference due principally to the falling off in the salmon catch in district No. 1. In October, 1918, omitting the returns from northern waters, the provincial fish pack reached a total of \$2,030,243. Salmon caught in district No. 1 contributed \$1,189,000.

In October of this year salmon caught in the same area netted the fishermen \$936,132. The disappointing salmon run on the Fraser for this season is blamed for the depreciation.

Vancouver Island.

District No. 3, embracing practically all the waters surrounding Vancouver Island, has been handicapped during the past month by lack of sufficient rainfall, and Inspector E. O. Taylor points out that the salmon are unable to ascend to their spawning grounds, the water in the streams being too low. The salmon season was therefore brought to a close earlier than usual. Five fishermen were drowned in the district during the time covered by the report, one at Alert Bay and four off Nitinat bar on the west coast of Vancouver island.

From district No. 3 103,325 cwts. of salmon were caught during October, 1919, the catch being valued at \$525,625. Richards rank next with a total of \$31,074. Of this variety, 24,614 cases were canned for shipment. Cod contributed \$4,500; herring, \$2,037; halibut, \$2,048, and clams \$4,000. Flounders, skate, bass, and eels were netted in comparatively small numbers. A small quantity of soles were also caught.

Fraser River.

District No. 1, comprising the Fraser River fisheries, and extending from Howe Sound to the international boundary, gives a total fish catch of \$772,170. The salmon pack is valued at \$696,183, reports Inspector A. P. Halladay. Nearly 70,000 cwts. of this variety were caught in October, and of the catch 43,810 cases were canned. The cod fishing contributed 2,90 cwts., the value of which was \$22,054. A trifle more than \$25,000 of halibut were caught during the same period. The herring catch was valued at \$6,872; the soles at \$15,990; and the crabs at \$4,801.

The salmon fishing is practically over for this season along British Columbia's long coast line, and already in October last the run of salmon was falling off as compared with the previous September. In the latter month in the two districts under consideration the salmon pack was valued at \$1,622,203. Last month it was \$1,347,343.

CANADIAN RAIDER IS CHARTERED TO LOAD FOR MELBOURNE

Vancouver, B. C., Nov. 13.—S. S. Canadian Raider, which is nearing completion at Wallace Shipyard, has been secured on charter by the Canadian Trading Company and is to be used to carry a consignment of 2,500,000 feet of lumber to Melbourne. This is the first Canadian National steamer to be chartered to private interests on this coast. With prospects of the Canadian Raider and the Canadian Importer, now completing at Coughlan's yards, being launched at the first of the year, the management of the National steamers offered one of the ships for charter.

Lieut.-Colonel W. R. Dockrill, of the Canadian Trading Company, signed for the ship on Tuesday.

The Canadian Trading Company have also chartered the five-masted schooner *Blanca*, recently launched in Seattle. She will load 2,000,000 feet of lumber for South Africa at Chemainus and Genoa Bay within a few days.

WHERE SHELLS LANDED FROM BIG BERTHAS

The 123 pieces within the environs of Paris where the shells from the German "Berthas" landed are shown in an interesting map published first by the French journal *Excelsior*, and recently forwarded by Thomas Cook & Son to all their agents. The positions of the bombarding ships are of interest, as the map shows a decided concentration of the fire on the centre of the city, while the outskirts, although liberally bespattered with stragglers, were not so thoroughly covered. During the fierce bombardment by these monsters 256 persons were killed and 620 wounded.

The map shows a strip of heavy batteries extending from the northern limits to the centre of the city. Among the better known sections struck are the Tuilleries, the Hospital Villain, Jardins de Luxembourg and Rue de Invalides.

According to George P. Harrison, the general manager of Thomas Cook & Son, who returned to New York from a trip through the devastated areas of France and from the war-affected sections of England, this year, the marks of the raids by air and by the "Big Berthas" are still deplorable.

SUNKEN SHIPS RAISED

It is claimed that the British Government has raised 440 sunken ships during the past four years, which, together with their cargoes, are valued at \$225,000,000.

How to Kill Dandruff So It Won't Return

By a Specialist.

That the dandruff germ is responsible for nearly all the diseases to which the scalp is hetic, as well as for baldness and premature gray hair, is a well-known fact. We appreciate, therefore, the importance of any agent that will destroy its power. For this reason it is a pleasure to give herewith the prescription which, a famous scalp specialist, states he has found, after repeated tests, will completely destroy the dandruff germ in from one to three applications. It will also almost immediately stop falling out a new hair-growth after years of partial baldness. This prescription can be made up by any chemist, and will put it up for you—3 ounces Bay Rum, 3 ounces Lavender de Compogne, one-half drachm Menthol Crystals. Mix thoroughly, and after standing an hour it is ready for use. Apply night and morning, rubbing into the scalp with the finger tips. If you wish it perfumed, add 1 drachm of your favorite perfume. While this preparation is not a dye, it is unequalled for restoring gray hair to its original color.

FLEET MADE GOOD HAUL OF WHALES

Manager Says Season Just Closed Compares With Last Year

"We have had a very fair season," said S. C. Ruck, manager of the Consolidated Whaling Corporation, today, in discussing the whaling operations this year. The catch compares favorably with that of last year.

The biggest catch of the British Columbia stations went to the Kyuquot station which has a persistent habit of making the premier haul from year to year. Rose Harbor was second with Naden Harbor running third in point of catch. Harpooning was particularly brisk around Akutan, on the Aleutian coast, the record catch going to the Northern station. The station at Grays Harbor also did well this year.

Whaling operations were continued about two weeks longer than was the case last year and mammals were being taken right up to the time the vessels were ordered to return. All the steam whalers are now back in port and the crews have been paid off. The whalemeat cannery at Kyuquot was not operated this season, but according to the local manager, it is planned to run the plant at full blast next year. The company intends to develop the whale-canning industry and inquiries for the food product have been made by French and Italian interests. The Orient also offers a good market for canned whalemeat.

Twelve Perish in English Channel; Vessels Collide

Dover, Eng., Nov. 13.—Twelve lives were lost when the French barque *Colbert* was run down in the English Channel off Portland by the British steamer *Duneric*. The barque sank in two minutes. Two survivors saved by the *Duneric* have been landed here.

SNOWSTORM STOPS SHIPBUILDING IN BRITISH SHIPYARDS

London, Nov. 13.—Shipbuilding work on the Clyde, the Tyne and the Tees, was virtually stopped to-day by a heavy snowfall, which also seriously affected the mining districts of Wales. The storm extended as far south as the Isle of Wight. London was slightly sprinkled by the fall.

STEAMSHIP TONNAGE

The following countries are credited with increases in steamship tonnage since the war began: British Dominions, 1,863,000 tons; United States, with seagoing vessels, totalling 9,773,000 tons, an increase of 7,746,000 tons over 1914; France, with 1,962,000 tons; a decrease of 2,547,000 tons is credited to the United Kingdom and 1,888,000 tons to Germany.

BOUND TO VANCOUVER

The steamship *Grace Dollar* sailed from Portland on Tuesday for Vancouver, B. C., via Bellingham.

THE WAY TO TAKE AN OBJECTIVE IS TO TAKE IT—BUY VICTORY BONDS.

GALICIA TO TAKE JANUARY SAILING

Well-known Harrison Carrier Again Fixed For Victoria Route

The next Harrison Direct Line carrier to be dispatched from the United Kingdom for the North Pacific Coast will be the British steamship *Crown of Galicia*, which has already made one voyage out here since the termination of the war.

Balfour, Guthrie & Co., agents for the Harrison Direct Line, have been notified that the *Crown of Galicia* will clear from Liverpool and Glasgow early in January.

The steamship *Architect*, of the same fleet and which was here last month, is now at Seattle loading 60,000 cases of canned salmon, milk and fruit, as well as lumber and other general cargo.

The *Architect* is expected to get away from Puget Sound to-morrow for San Francisco, where she will complete her cargo for the return voyage to the United Kingdom.

V. C. MAN IS FIRST OFFICER OF LINER EMPRESS OF FRANCE

The Canadian Pacific Ocean Services liner *Empress of France*, formerly the *Alsatian*, which is again in the trans-Atlantic service, has an excellent record for her credit.

During the war she was operated as an auxiliary cruiser. Her first officer is Lieut. R. N. Stuart, V.C., D.S.O.

The auxiliary steamship on which he was engaged during the war performed considerable service, and two V.C.'s were awarded, one for officers and one for the crew, each party having to elect the individual to whom it was to be given, the officers unanimously electing Lieut. Stuart.

STEAMER LADY EVELYN IS REPORTED ASHORE ON EASTERN COAST

Halifax, Nov. 12.—Word has been received by C. H. Harvey, agent of the Marine Department here, that the steamer *Lady Evelyn* was stranded on a reef near Pictou Island. The *Lady Evelyn* was formerly a Government vessel, and is now owned by a French company which purchased her last spring and which operates her between Pictou and the Magdalen Islands.

MUST TAKE WHAT PACKERS OFFER

Meat Market Glutted; Stockmen Want Co-operative Marketing System

A co-operative marketing system along the lines adopted by the Canadian Wool Growers' Association will not be sought at present by the Western Canada Live Stock Union, it being decided at last night's session of the convention here that no action would be taken.

The discussion arose over the unsatisfactory marketing conditions in this Province, and the Union took the stand that as it was a situation affecting only British Columbia, it would be hardly fair for representatives of the four western provinces to approve the adoption of a scheme that might not suit the interests of all.

David Strachan, superintendent of the Sanitarium Farm, Franquille, said there was no open market in the Province at present and practically no competition, cattlemen having to sell to either Burns or Swifts at what price the latter chose to offer.

Meat Awaits Buyers.
Ranchers, he said, at this time have a great deal of fat stock for sale, but what with the great influx of stock from Alberta consequent upon feed conditions in the latter province, buyers cannot cope with the supply of offering. Some of the stockmen, said Mr. Strachan, have as much as ten carloads of stock on hand, but cannot sell on account of the market being glutted. In consequence of the high price of feed the stockmen must continue to feed this stock at serious loss. The speaker believed a co-operative marketing system would alleviate matters.

E. C. representatives also objected to the spread of between one and two cents paid by buyers to producers for prime heifers and steers. This matter also was one affecting this Province only, it being noted that the spread in price was even greater in the East.

Inferior Feed.

The inferior quality of bran, shorts, feed, flour and other livestock feeds, the products or by-products of grain, occasioned by the lowering of the quality of such feeds through their adulteration with useless and harmful weed seeds and other adulterants, was the subject of a resolution which was unanimously passed by the meeting, the resolution asking that this matter be taken from the department now handling it and placed under the Department of Agriculture, which has, in its seed branch, the necessary equipment for the desired analysis and inspection, and that a new act be passed setting standards for all commonly sold classes of feeds.

A resolution was passed compelling the Dominion Government on its present system of livestock market reports through the agency of the Canadian Press, and expressing the hope that the system would be made to include prices and market conditions of feed for stock.

S. H. Hutton, agriculturist and livestock superintendent for the C. P. R. Natural Resources Department gave an interesting address on silos and their importance in the livestock industry in meeting the feed situation and he saw no reason why the Union should not embark upon a silo building campaign, which could be made to double the value of lands, increase herds and add vastly to the wealth of the country.

And His Family Medicines

MOST people first knew Dr. Chase through his Receipt Book. Its reliability and usefulness made him friends everywhere.

When he put his Nerve Food, Kidney-Liver Pills and other medicines on the market they received a hearty welcome, and their exceptional merit has kept them high in the public esteem.

Take Dr. Chase's Kidney-Liver Pills for example. There is no treatment to be compared to them as a means of regulating the liver, kidneys and bowels and curing constipation, biliousness, kidney disease and indigestion.

One pill a dose, 25c a box at all dealers, or Edmanston, Bates & Co., Ltd., Toronto.

DISCUSS SALE OF HORSES FOR FOOD

Livestock Union Wants Market Opened Up in Europe For Canadian Horses

The opportunity of Canadian breeders securing a market in Europe for the horses of Western Canada to be used as food was considered at the afternoon session of the Western Canada Livestock Union here yesterday, when a resolution passed last year requesting the Department of Agriculture to secure such a market was brought up.

It was stated by the chairman that there were some 50,000 horses of little or no value in Western Canada. If a market could be secured for them overseas they would represent an asset and mean a tremendous saving in feed. In spite of the failure of the Government to do anything, the fact was that a firm in Calgary on Saturday last had received the first order for "500 horses salted," for the Belgian Government or interests there.

"I hope," the chairman observed, "that this is the commencement of the exodus of the unneeded horse here." The chairman heard the report that the Belgian Government wanted to let a contract for 20,000 small horses for food purposes, an order which was supposed to have gone to a Western Canadian firm of packers. He had been told here, however, that there had been some difficulty over the details of the contract. At any rate, apparently, the matter had gone awry.

The delegates were keenly interested in an address by Dan M. Johnson, supervisor of the administration of the Dominion Livestock and Poultry Act, at Winnipeg. In describing what the Act, which was brought into being chiefly through the efforts of the Union, had done for the industry, Mr. Johnson pointed out that for the first time accurate quotations of actual sales of cattle made were now available for the public through the press, instead of prices given out by packers who published only what they saw fit.

The afternoon session was devoted for the most part to resolutions passed at the last annual meeting at Brandon. In respect to these resolutions other resolutions will be brought down to-day.

In regard to the resolution urging upon the Federal Minister of Agriculture to seek to have removed the embargo of present enforced against the admission of Canadian cattle into the United Kingdom, H. S. Arkell, Dominion Livestock Commissioner, who had visited the United Kingdom recently, said there is a growing sentiment in Great Britain in favor of this movement, but action taken by leading agricultural show authorities, coupled with that by various interests adverse to a change, has decided the authorities for the moment against making any change. They were induced to take that stand at present on account of the feed situation there, claiming a change now will upset the producing conditions. But the British authorities have conceded the point to this extent that any action that is taken will be based not upon the question of disease— that objection has been disproved—but upon the ground of economic policy. In my judgment the weight of opinion in Great Britain is growing in favor of the removal of the embargo due to the fact that labor wants it, they need the increase in

SEEK TO ABOLISH HOME LESSONS

School Board Will Consult Department of Education on Matter

The subject of home lessons was discussed at some length at the meeting of the Board of School Trustees last night, and the Board, on the motion of Trustee Deaville, seconded by Trustee Aitken, adopted a resolution to take steps towards the abolition of home work for pupils attending the graded schools. In this connection a special committee will interview the provincial Board of Education with a view to obtaining an amendment of the School Act to this end.

Overworked Pupils

Citing the clause in the Act which gave the teachers discretionary powers in the matter of homework, Trustee Deaville averred that this power had in many cases been abused. He knew of many instances where children had been ruined physically and mentally through being overloaded with home lessons after working hard

at school in the day.

"Who does the homework?" (Trustee Aitken: "The parents.") "Exactly," continued Mr. Deaville, "and I contend that that is not teaching. Five hours a day is sufficient for any child to study. I know many business men who consider themselves done to death if they have to spend five hours a day in their offices. It is not only a matter of health, but the children lose heart when they are so overworked." Mrs. Andrews pointed out that the present curriculum made it necessary that the children should have home lessons. (Trustee Deaville: "Yes, to help the teachers out.") But she deprecated the fact that many children were penalized by the teachers if they do not do their home lessons or if they made confidants of their parents on the subject of the severity of the work.

Soldier-Teachers' Salaries

Considerable time was given by the board to the consideration of the question of the salaries of returned soldier-teachers, the matter of whether overseas experience should count as teaching experience in computing salaries being the stumbling-block. A resolution passed at a previous meeting, in which the trustees decided to consider overseas experience as teaching experience in fixing salaries, was rescinded on the motion of Trustee Deaville, Trustees Mrs. Andrews and Mrs. Spofford opposing the motion.

Favors Dancing

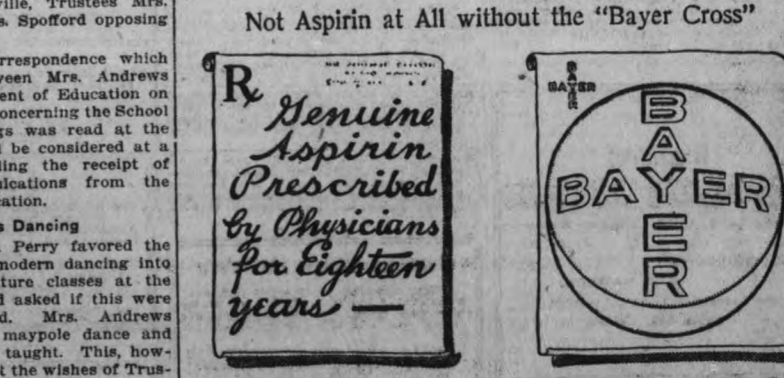

Voluminous correspondence which has passed between Mrs. Andrews and the Department of Education on various matters concerning the School Board proceeding was read at the meeting, but will be considered at a later date, pending the receipt of further communications from the Minister of Education.

Favors Dancing

Trustee R. W. Perry favored the introduction of modern dancing into the physical culture classes at the High School, and asked if this were already included. Mrs. Andrews stated that the maypole dance and the minuet were taught. This, however, did not meet the wishes of Trustee Perry, who was of the opinion that modern dancing might well be taught, not necessarily for the boys and girls to dance together, but from the viewpoint of physical culture. The matter will be considered later.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" identifies the contains proper directions for Colds, only genuine Aspirin—the Aspirin Headache, Toothache, Earache, Neuritis, Joint Pains, and Pain generally. Always buy an unbroken package of "Bayer Tablets of Aspirin" which a few cents. Larger "Bayer" packages, There is only one Aspirin—"Bayer"—You must say "Bayer" Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monacaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

BUNIONS NO JOKE

Not to the man who has to move about, but a slight application of "Putnam's" softens the thickest tissue and cures the bunion quickly. Just as good for warts, lumps, and callouses is Putnam's Painless Corn Extractor. Use no other, 25c. at all dealers.

Coughs and Colds Mean Restless Nights

which sap the vitality. Danger lurks in every hour a cold is allowed to run. Assist nature to bring your children quickly back to health and strength and avoid serious complications by the prompt use of Gray's Syrup—over 60 years in use. Always buy the Large Size.

DEMAND DISMISSAL OF COMMERCE BOARD

Stockmen This Afternoon Criticize Acts of New Body

Dismissal or reorganization of the Canadian Board of Commerce was demanded by the Western Canada Livestock Union at its meeting at the Empress Hotel this afternoon.

"This Board has gone about with the idea that the farmer is the profiteer," said J. D. McGregor, of Brandon. The resolution to be sent to Sir Robert Borden said "this meeting of the Western Canada Livestock Union expresses disapproval of the actions of the Board of Commerce..."

SAY DRESSMAKERS NEEDED IN CANADA

Report of Women Who Investigated Presented in Parliament

London, Nov. 13.—Miss Girdler and Miss Hott, delegates appointed by the Overseas Settlement Committee to inquire concerning openings for women from the United Kingdom, presented a long report which came before Parliament yesterday.

Regarding domestic service, they spoke of the mischief caused by agents telling emigrants that labor-saving devices are in general use in Canada, which, they said, is a complete mistake.

Every woman should be interviewed by a selected committee of women on behalf of the Overseas Settlement Committee and the Canadian Commissioner of Immigration.

They finally spoke of the harm wrought by the undesirable type of women emigrants in former years. Prejudice was freely expressed by Canadian ladies against young women of the domestic service class from the United Kingdom.

GOVERNMENT WILL CONSIDER PROPOSALS FOR IRELAND SOON

London, Nov. 13.—The Cabinet is about to take up consideration of the proposals of the Cabinet Committee on the subject of Ireland. It was learned from an authoritative source that the Government is much impressed by the publication of what purported to be the Government's plan for the settlement of the Irish problem.

ONTARIO CABINET ANNOUNCED TO-DAY

Drury Succeeds in Forming Ministry For Ontario Province

Toronto, Nov. 13.—Official announcement of the members of the new Ontario Government was made this morning. Following W. F. Nickle's declination of the Attorney-Generalship, Premier Designate Drury announced that W. E. Raney, K. C., of Toronto, had been selected for the post.

Ernest C. Drury, United Farmers of Ontario, Barrie, Premier and President of the Council (Liberal); W. E. Raney, K. C., Toronto, Attorney-General (Liberal); Manning W. Doherty, defeated U. F. O. candidate, Peel, Minister of Agriculture (Conservative); Beniah Bowman, U. F. O. M. P. P.-elect for Manitoulin, Minister of Lands and Forests (Liberal); Harry Mills, Labor M. P. P.-elect, Minister of Mines; Walter F. Rolfe, Labor M. P. P.-elect, Hamilton West, Minister of Health and Labor; R. H. Grant, U. F. O. M. P. P.-elect, Carleton, Minister of Education (Conservative); H. C. Nixon, U. F. O. M. P. P.-elect, North Brant, Provincial Secretary (Conservative); Peter Smith, U. F. O. M. P. P.-elect, Perth, Provincial Treasurer (Liberal); F. C. Biggs, U. F. O. M. P. P.-elect, North Westwood (Liberal); and Colonel D. Carmichael, U. F. O. M. P. P.-elect, Ministers without portfolios.

600 SMALLPOX CASES IN QUEBEC PROVINCE

Montreal, Nov. 13.—Three hundred cases of smallpox are scattered throughout the province of Quebec, all of a non-virulent character. This number is not above the ordinary, said Dr. J. A. Beaudry, of the Board of Health, yesterday.

INFLAMED GUMS—CAUSE OF LOOSE TEETH

Pyrithia is undoubtedly a vital danger to both gums and teeth. Tender gums indicate it, and with it come loosening teeth. As imprudently, at first, the gums recede from the normal gum line. They inflame. They present many tiny openings for millions of bacteria to attack the unenameled tooth base. A tooth-base decay quickly follows. Even if the cavity be filled and the tooth saved, the gums continue to recede. Remember, too, that inflamed and bleeding gums act as so many doorways for disease germs to enter the system—infecting joints or tonsils—or causing other ailments.

Forhan's FOR THE GUMS. Moncton, N. B., Nov. 13.—With returns not up to Tuesday night, the eastern and trans-continental divisions of the Canadian National Railways have taken \$1,472,559 in Victory Bonds, and 59 per cent. of the total number of employees have become bondholders.

SPEAKS OF AVIATION IN THE DOMINION

Sykes, British Aviation Controller, Says Canada Has Big Future

London, Nov. 13.—(Reuter's)—Within the British Isles the short distances, the completeness of railway communication, fog and the variability of the weather combine to limit air transport, but there exist in Canada great opportunities for the development of civil aeronautics, in the opinion of Maj.-Gen. Sir F. H. Sykes, Controller-General of Civil Aviation in the United Kingdom.

"It has been said that the cultivable and habitable parts of Canada," said Gen. Sykes, "are divided from each other by great barriers of nature, wide and irreclaimable wildernesses or manifold chains of mountains. To-day advantage can be taken of aircraft as a means to extend the influences of railways, and it will produce an impetus in every branch of Canadian commerce. For aeroplanes and flying boats the possibilities in Canada for successful exploitation are largely free from physical restrictions."

"As an introduction of the manner in which aircraft may assist ordinary commercial intercourse and provide the means of developing virgin lands where neither railways nor telegraphs have yet penetrated, an air route employing either land or water aircraft might be established to link up Quebec with the Lake Superior terminus of the Canadian Pacific Railway, whence services might radiate to Winnipeg and thence over the intervening 1,500 miles to Vancouver and Victoria, and to many parts of the Western provinces."

"With the development of civil aircraft transport, and as new towns spring up in Canada, there will be the advantage that aerodromes can be planned in their very centre instead of perforce having to be located outside, as is the case with existing cities in older and more settled countries."

"Apart from postal, passenger and light goods traffic," continued Gen. Sykes, "many other possible uses for the aeroplane exist in Canada, such as prairie fire and herding patrols, timber location and general survey work. In the United States, fifty-six forest fires were discovered by aeroplanes, flying from three stations, during six weeks' work."

Regarding map-making, Gen. Sykes said: "The system of map-making by photographs taken from aircraft, which was evolved for military purposes during the war, is capable of superseding the costly and slow method of trigonometrical survey in general use at the present time. Very little of the Dominion of Canada has yet received exact detailed topographical survey and many years would be occupied in making a map of the whole country even with the use of aircraft. It is, however, probable that discoveries of minerals, timber, etc., made during the course of such work would more than pay its cost. The aerial photographs from which maps are compiled will be studied carefully and disclose in detail unsuspected and valuable details—although of a very different nature—"

"Canada, in common with all other parts of the Empire, also will be benefited by the establishment of overseas aerial connection with other Dominions. For this purpose, no doubt, flying boats and airships will be employed. In setting up a worldwide system of air communication, the British Empire will be enormously assisted by its many outlying parts, which, as refuelling bases, transfer points and as wireless and meteorological stations, will form useful links in the chains established. Across Pacific. "Who will guarantee that within the next decade airships will not have developed to the point that the passage of the Pacific between Canada and Australia will be a practical proposition, and who that in conjunction with the solving of the problem of trans-Atlantic air traffic, and the institution of an air route across Canada, she may not become one of the main links in the Imperial air system?"

"Perhaps to the general public the limitations of aviation are more apparent than its potentialities, and its appeal stronger as a novel form of 'joy-riding' than as a proposition of practical utility. But there is no doubt that air communication under commercial conditions can to-day be made reliable and attractive to business men as a sound aid to trade. That fact is gradually being confirmed by the results of the various services, as yet small, which have made their appearance between England and the Continent, in the United States and in France."

ITALIAN SUCCESS. Tripoli, Nov. 13, via London, Nov. 13.—The arrival here to-day of the Italian super-dreadnought Giulio Cesare was the occasion for an enthusiastic manifestation of friendship

THERMOGENE CURATIVE WADDING (Vandenbroeck's Process) For Grippe, Colds and All Aches and Pains. A quick, clean, comforting relief. What Thermogene is—A light, dry, fleecy, medicated wool that has supplanted the old-style, messy, uncomfortable poultice and plaster. What Thermogene does—It actually generates heat the instant it is applied to an afflicted part. It acts upon the blood vessels through the skin and directly attacks the trouble at its source—dispelling all soreness and inflammation. When to use Thermogene—The moment you feel chill or cold striking through your system—apply Thermogene to arrest its development. Don't wait! How to buy it—Your nearest drug store has Thermogene in handy boxes—all ready to apply—full directions enclosed. Invented by Vandenbroeck, the famous Belgian chemist. British-made by The Thermogene Company, Limited, Hayward's Heath, England. Sales Agents for Canada: HAROLD F. RITCHIE & CO. Limited 10 McCall St., Toronto 50

as those which were taken from aircraft on active service.

A Great System. "Canada, in common with all other parts of the Empire, also will be benefited by the establishment of overseas aerial connection with other Dominions. For this purpose, no doubt, flying boats and airships will be employed. In setting up a worldwide system of air communication, the British Empire will be enormously assisted by its many outlying parts, which, as refuelling bases, transfer points and as wireless and meteorological stations, will form useful links in the chains established. Across Pacific. "Who will guarantee that within the next decade airships will not have developed to the point that the passage of the Pacific between Canada and Australia will be a practical proposition, and who that in conjunction with the solving of the problem of trans-Atlantic air traffic, and the institution of an air route across Canada, she may not become one of the main links in the Imperial air system?"

Why Not Be Distinguished by Sound Wholesome Teeth

Seldom do you find people of prominence in the business, social or professional world with ugly, offensive teeth. As a rule, when one has made his mark in the world, the very training on the road that leads up to success points the way also to personal efficiency—good health and sound teeth.

Rather than be burdened with teeth that are a nuisance, instead of a comfort, have your teeth that are not sound made so. The work, if carried out in this office, will be scientifically performed, and you won't find our charges high.

You are privileged to pay as you can—a little at a time.

The Hardened Grouser was in the club smoking-room and was having his innings.

"It's a vile country," he growled. "A fellow can't afford to live because of the income-tax, and he's afraid to die because of the death duties! If only the Government would play the game straight—"

"Oh, I think they're straight enough," interrupted an M.P. who was present.

"Straight!" repeated the Grouser, in a tone of withering scorn. "Yes, you're all straight—so much so that if any one of you were to swallow

INCREASED EXPORTS TO SOUTH AMERICA

United States is Sending Larger Cargoes to Latin Americas

Published reports to the effect that South American buyers of merchandise from the United States were cancelling orders seem to have been at least grossly exaggerated, according to official reports of the export trade to that continent. Exports to South America in the calendar year 1919, says a statement by the National City Bank of New York, will exceed those of any earlier year by more than \$100,000,000.

The largest total ever shown in any full calendar year in exports to South America was that of 1917 and amounted in that year to \$311,893,000, and as the total of any earlier year in the calendar year 1919 is \$337,746,000, and running at the rate of more than \$30,000,000 a month, it is quite apparent that the total exports to South America in the full calendar year 1919 will approximate \$425,000,000 as compared to the former high record of \$311,893,000. In the single month of September, the latest for which exact figures are available, the total is \$32,461,000 compared to \$24,792,000 in September of the preceding year, while for the nine months ending with September the total is \$337,746,000 compared to \$226,279,000 in the same months of last year.

South American Exports Large.

In fact, the exports to South America show a much greater gain proportionately than those to any other part of the world except Asia. For the month of September the exports to Europe show but a slight gain, those to North America a fall-off, those to Oceania a reduction, the only continents to which the exports show a material gain being South America and Asia. To South America the increase for the single month is about \$8,000,000, and to Asia about \$26,000,000. The total to South America for the full calendar year will apparently be about three times as much in value as in the year before the war.

Cotton goods, tin plate and manufactures of iron and steel are the more important of the articles in which the gain to South America has occurred. Of bleached cotton cloth, for example, the total exports to South America have grown from 2,000,000 yards in 1914 to 23,000,000 yards in 1918; of cotton cloth "dyed in the piece" from 4,000,000 yards in 1916 to 35,000,000 in 1918; and another group of colored cottons "dyed in the yarn" shows a similar growth, from less than 5,000,000 yards in 1915 to 33,000,000 yards in 1918.

Tin plates exported to South America in the fiscal year 1914, all of which preceded the war, amounted to 1,000,000 pounds and in 1918 to 142,000,000 pounds; iron sheets and plates increased from less than 4,000,000 pounds to more than 14,000,000; galvanized iron from 13,000,000 pounds to 37,000,000; cast iron pipes from 5,000,000 pounds to 37,000,000; wire nails from 3,000,000 pounds to approximately 10,000,000, and mining machinery from \$282,000 in 1915 to \$1,795,000 in 1918.

NORMAN ARMSTRONG AWARDED MONS STAR

Lance-Corpl. Norman Armstrong, of Herbyton Avenue, as briefly stated yesterday, has been awarded the Mons Star. The decoration was forwarded to local military headquarters with a letter expressing the appreciation of the Minister of Militia and Defence, the Hon. Colonel Bennett, A.A.G.: "I beg to enclose herewith the marginally named decoration (Mons Star) awarded by His Majesty the King, recently received from Militia Headquarters for presentation. In forwarding this decoration the Hon. the Minister of Militia desires to express to you his appreciation of your gallant conduct, to which the General Officer commanding this district wishes to add his own congratulations."

The atmosphere of prisons breeds animals.—Sir Robert Wallace.

END THAT COUGH!

Peps will end it! Simply dissolve Peps tablets in your mouth. The fine force vapors which are thus released are breathed down to the remotest parts of the air passages and lungs, soothing and healing the inflamed membranes and bringing quick relief from that irritating and exhausting cough.

Mrs. Luther Brown, of Wilson's Beach, N.B. writes: "For two years I was troubled with a very bad cough. At night it became worse and I coughed incessantly and could not sleep. I tried every remedy I had ever heard of, but nothing did me any good until I used Peps. Even the first few tablets gave me relief. I continued their use, with the result that my cough has entirely disappeared."

These breathable Peps are also unequalled for colds, sore throat, bronchitis, catarrh, asthma and chest and lung troubles. 50c. box, 3 for \$1.25. All dealers of Peps Co., Toronto.

MANY INQUIRIES RESPECTING ISLAND

Victoria and Island Development Association Has Many Inquiries

Rooms are in demand to meet the requirements of the many visitors who are now reaching Victoria daily from prairie points. The Victoria and Island Development Association's offices are called upon to a very great extent to solve the problem of filling the wants of the visitors, and the consequence is that the office is busy. A long list of addresses where rooms may be secured has been prepared by the Association, but rooms are snapped up so quickly that the visitors have to do a great deal of scurrying around to get placed at all. Inquiries from prospective visitors are coming in rapidly, and interest in Victoria and Vancouver Island is increasing wonderfully. Men in the medical profession, clergymen, teachers, business men, farmers, and in fact people in every walk of life are writing for information respecting the climate, living conditions and opportunities here. All information is supplied promptly by the local publicity department.

A correspondent from Calcutta, India, asks for a supply of general information regarding Victoria and Vancouver Island, "especially from the point of view of those who have lived the greater part of their lives in India, and are looking for a country to retire to where living is cheap and conditions congenial."

"Many eyes are turned toward Vancouver Island," says the above correspondent, who asks for a supply of literature descriptive of Victoria and the Island, which, he says, he will be glad to distribute among the many friends in India which he says are anxious to come here to live.

CUT THIS OUT

OLD ENGLISH RECIPE FOR CATARRH, CATARRH, DEAFNESS AND HEAD NOISES

If you know of someone who is troubled with Catarrh of the Ear, head noises or ordinary catarrh cut out this formula, read it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England, catarrh of the ear is a constitutional disease, and a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

Sprays, inhalers and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear, which frequently means total deafness, or else the disease may be driven down the air passages to the lungs, which is equally as dangerous. The following formula, which is used extensively in the damp English climate, is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climatic conditions.

Secure from your druggist one ounce of Parmit (Double Strength). Take this home and add to it a quarter pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing ear troubles. Closed nostrils should open, breathing become easy and hearing improve as the inflammation in the ear and mucous surfaces of the system are reduced. Parmit used in this way acts directly upon the blood and mucous surfaces of the system and is a tonic action that helps to obtain the desired results. The preparation is easy to make, costs little and is pleasant to take. Every person who has catarrh or head noises or is hard of hearing should give this treatment a trial.

POLICE.

"I believe I have the shingles, Doc."

"Keep it dark."

"Whaddye mean—dark?"

"Thirty-two bundles were stolen from Jones's lumber yard the other night."
