# HEAVY VOTE CAST IN ELECTION IN U. S. TO-DAY

## Majority in Republic Predict Re-election of Coolidge

### J. CARL PENDRAY ENTERS CONTEST FOR MAYORALTY OF VICTORIA NEXT MONTH

**Gives His Affirmative Reply to Delegation To-day; Both Aldermen Sargent and Christie Are Expected to Enter Race for Head of Municipality; Other Names for Aldermen.**

J. Carl Pendray, president of two local manufacturing companies, and well known president of the Victoria and Island Publicity Bureau, has accepted the invitation of many influential friends, and will be a candidate for the mayoralty next month. Mr. Pendray made his intentions known to a large deputation that waited on him this morning.

It is expected now that his announcement is formally made that a decision will be reached among the aldermen who are anxious to enter the field, and that either Alderman Sargent or Alderman Christie, perhaps both of them, will also be in the contest. It is understood that Alderman Harvey will be a candidate for re-election as alderman as he will not oppose Mr. Pendray for the mayoralty, it is understood.

### BALDWIN NOW IS MAKING HIS CABINET LIST

**Resignation of British Labor Government Was Accepted By King To-day**

**Leader of Party Which Won Election Formally Accepted Invitation**

London, Nov. 4.—Stanley Baldwin, Conservative leader and former Premier, agreed to form a new Cabinet to-day when called to Buckingham Palace by King George. The King had previously accepted the resignation of the Cabinet of Ramsay MacDonald, Great Britain's first Labor Government.

### BRAZILIAN NAVY REBELS SEIZE SHIP AND STEAM AWAY

**Reports Received in Buenos Ayres Tell of New Uprising**

Buenos Ayres, Nov. 4.—Reports which reached here from Brazil to-day, asserted revolutionary trouble had broken out in the Brazilian navy. The crew of the battleship, Sao Paulo is said to have rebelled, taken possession of the vessel and left for an unknown destination.

### MANY SOLDIERS APPOINTED TO CIVIL SERVICE

**Administrative Staff of Province Totaled 1,310 at End of Fiscal Year**

The Civil list of British Columbia on March 31, 1924, was made up of 922 men, 277 women and forty-one juniors, a total of 1,310, according to a report laid before the House to-day by Hon. William Sloan, Provincial Secretary. Of the men, 401 were returned soldiers as compared with 366 on January 31, 1922. The preference in appointment granted to returned soldiers is steadily increasing the proportion of their number employed in the Civil Service. A large number of these are men with disabilities, over twenty being amputees. An interesting feature is that dealing with appointments. The permanent appointments in the year totalled 194, twenty-seven being made (concluded on page 2)

Mr. Pendray was approached by a most representative gathering, after petitions had been circulated yesterday. These petitions presented to him were influentially signed by leading citizens. To them, after they promised to take charge of his campaign, he gave an affirmative answer.

**CANDIDATE'S VIEWS**  
"I am not ambitious for municipal honors; but I am ambitious for the welfare and prosperity of Victoria, and so in view of the persistent and increasing demands of very large number of my fellow citizens that I should do so, I have decided to offer myself for Mayor at the coming municipal elections," he said later to The Times.

"My chief object will be to remove the burden of excessive taxation that is at the present time stifling the city, and I shall, to obtain this end, strive to so handle the city's reverted lands that the millions now sunk in them will be realized to the benefit of the property owners. If I can turn this liability into an asset, and as a business man I believe I can, I feel that I shall have very materially helped Victoria along the road to real prosperity.

"My general policy will be a business administration, economy with efficiency, and I shall have no stone unturned in my efforts to help start industries which will provide lucrative and steady employment for our citizens.

"I should like to say a word with regard to the grant for the Victoria and Island Publicity Bureau. I never approved of the suggestion made in some quarters to raise a mill rate for the purpose of starting industries which would provide lucrative and steady employment for our citizens.

Mr. Pendray indicates that his campaign will be brief.

**TRUSTEE P. R. BROWN**  
Trustee P. R. Brown, on being asked as to whether he considered running for the aldermanic board, stated that while he had been approached on the matter by a number of young men, he had not definitely made up his mind, but was giving very serious consideration to the idea. Mr. Brown has served three years on the School Board, and says if he should run for the council, he would probably continue both offices until his school term should expire, as there are still some outstanding school necessities that he feels it is his duty to bring to completion. ### Militiamen Keep Order While Vote Is Taken in Illinois

Herrin, Ill., Nov. 4.—Seventy-five National Guardsmen, some with fixed bayonets, patrolled Williamson County to-day to prevent threatened clashes between Ku Klux Klansmen and their opponents. Heavy voting was reported with no semblance of disorder. At each precinct outside of Herrin two militiamen were stationed to keep the crowds moving. Citizens said that with military protection they were hopeful there would be no trouble.

### Train Hit Bus at A Blind Crossing And Eleven Killed

Newport News, Va., Nov. 4.—Only four of the fifteen persons in a bus struck by a Chesapeake & Ohio passenger train late yesterday at a blind crossing in Northampton remained alive to-day, and only one of these, an infant, was thought to have a fair chance to recover. Eight were dead before rescuers arrived, and three others died shortly afterwards.

### BEWARE OF FALSE ECONOMY, COLLEY WARNS; COURAGEOUS DEVELOPMENT B.C.'S NEED

**Kamloops Member Urges Inauguration of Recall System and Legislation to Curb Orientals in Agriculture; Finds Industries Growing and Future of Province Bright; Forecasts Sweeping Administration Changes.**

Warning against "false economy" which would create stagnation, and pointing with keen satisfaction to the development in many lines of industry in British Columbia in the last year, J. R. Colley, Liberal Member for Kamloops, told the Legislature, in opening the debate on the Speech from the Throne to-day, that the great need of this Province is courageous development.

"We must beware of a false economy," he said. "Economies can create stagnation. We want an economy that will create reproduction works thus creating wealth to this young province with so great a future is our need. The Government must function and not become dormant. Proper expenditures are justified to build up our country. What we require is a greater faith in our Province, and a still greater faith in our own products. If the people of this Province will demand British Columbia products first—watch B.C. grow!"

With faith in its own future, British Columbia, Mr. Colley urged, should have a greater faith in its publishing men. He deplored the scandalizing of politicians. "I look on this side and with pleasure see members that I have had a long business connection with in municipal life, also long business connections," he said.

"Again I look on the other side of the House and I see the very same applies. Am I to lose that confidence in my associations with you? Am I to believe that you are taking your seat in this assembly to hinder legislation of benefit to this Province? I think not."

**RECALL SYSTEM URGED**  
Speaking of confidence in public men Mr. Colley came out flatly for the inauguration of the recall system in British Columbia.

"A government," he said, "is what the individual member makes it, and if a member is not rendering his constituents proper service he should be recalled. If a member wants to be recalled, he can render great service by giving (concluded on page 2)

### IDENTIFICATION OF CHINESE HELD BY POLICE IS SOUGHT

**Jang Sing, Suspected of Having Murdered Lew, in Vancouver Cell**

**Was Arrested in Victoria Yesterday; Police Believe Crime Solved**

Vancouver, Nov. 4.—Held as the suspected murderer of David Lew, Chinese broker, who was shot to death at Pender and Carrall Streets here on the evening of September 24, Jang Sing, or Chong Sing, fifty-four, arrested in Victoria yesterday by Chief Fry of Victoria, in company with Detective J. Risti of Vancouver, will face a number of witnesses to the tragedy in a police lineup at police headquarters here at 2 p.m. to-day.

Police say that one identification has already been made, but to complete (concluded on page 2)

### UNKNOWN WOMAN SWEPT OVER NIAGARA FALLS LAST NIGHT

Niagara Falls, Ont., Nov. 4.—No clue to the identity of a woman who is reported to have gone over the American Falls last night has been found by the police. An Armenian out for a walk heard a woman screaming and ran to the edge of the falls. He saw a woman in the current just above the falls and tried to catch her with a boat-hook, but failed. She was swept over the falls. He said she looked to be about fifty years of age and was dressed in dark blue clothes.

### Ontario Chinese Jailed and to be Deported Shortly

Chatham, Ont., Nov. 4.—Fines of \$200 and costs and six months in jail, with deportation to China at the expiration of their respective terms, were the sentences imposed last night on Jungo Lee and Charlie Sing, two Windsor Chinese convicted of violation of the Opium and Narcotic Act.

### U.S. SENDING MORE AUTOISTS TO CANADA THAN TRAIN TOURISTS

Washington, Nov. 4.—There are now more tourists crossing from the United States to Canada by automobile than by train, according to officials of the Customs Department.

### J. P. BABCOCK TO BE ONE OF CANADA'S REPRESENTATIVES IN PACIFIC HALIBUT INQUIRY

J. B. Babcock, Deputy Commissioner of Fisheries for British Columbia, will be one of Canada's two representatives on the International Halibut Commission which will shortly commence an exhaustive investigation into the depletion of the halibut fisheries of the North Pacific Coast. Announcement of Mr. Babcock's appointment reached here to-day from Ottawa. The other Canadian on the commission will be W. A. Found, Director of Fisheries for Canada.

That the Provincial Government is well pleased with Mr. Babcock's appointment was indicated by Hon. William Sloan, Commissioner of Fisheries, who has been urging the Federal Government to give this Province representation on the Commission.

"I am pleased the appointment has been made," said Mr. Sloan. "British Columbia is the only province in the Pacific halibut fishery and it is fitting and proper that the Province should be ably represented on the International Fisheries Commission created by the Halibut Treaty that has just been exchanged in Washington, D.C."

**CONCERNS PROVINCE**  
"The halibut question more largely concerns this Province than any other state or province on this coast. The bulk of the halibut catch is marketed through our ports. Some a decade have exceeded the landings at all other ports. The halibut fishery is one of our greatest, but it is one of our greatest, and the importance of the halibut as a food fish and the imminent danger that the supply may become diminished, if not exhausted, in the waters facing the (concluded on page 2)

Melbourne, Nov. 4.—(Canadian Press Cable via Reuters)—Amateur wireless messages have been exchanged for the first time in the past day or so between Australia and the United States.

### L. Watts Doney Died In North Vancouver; Sat as Magistrate

North Vancouver, Nov. 4.—After a short illness, Police Magistrate L. Watts Doney died at his home here yesterday afternoon. A little over a week ago he was seized with a severe attack of heart trouble.

### EARTHQUAKE WAS FELT IN THE CITY

A slight earth tremor of local origin was felt at the Gonzales Hill Observatory at 3.19 this morning and generally throughout the city and Gordon Head district. A record was made on the instruments at the observatory. The tremor was probably of local origin and in the direction of the Straits of Juan de Fuca, says Napier Denison.

### CANADIAN COMMITTEE TO REPORT ON ST. LAWRENCE CANAL DEVELOPMENT SOON

Ottawa, Nov. 4.—The next important step in the St. Lawrence Canal project will probably come in the near future when correspondence now in progress between Canada and the United States is concluded. It will consist in the calling of a meeting of the Canadian National Advisory Committee to determine the questions which will be submitted to the Joint Engineering Board. On the report of this latter body will depend to a great extent the decisions of the two governments in regard to embarking on the project.

The present correspondence between the two governments has arisen as a result of the report of technical officers of the two countries in regard to the diversion of water at Chicago by the sanitary board of that city. They agreed that the Joint Engineering Board on the St. Lawrence waterways should consider this diversion, which is a diversion from the watershed of the St. Lawrence River. The United States Government then advanced the view that if the diversion of water at Chicago was to be considered, the (concluded on page 2)

### FAVORABLE WEATHER AND PUBLIC INTEREST LEAD TO BIG VOTE IN U.S. CONTEST

**Millions Cast Ballots for Presidential Candidates; Keen Interest in Decisions in Several States Also Witnessed; Coolidge Expects to Win 350 Votes in Electoral College; He, Davis and La Follette Will Receive Telegraphic Returns To-night.**

New York, Nov. 4. (Canadian Press)—Ideal weather favored the voters of the United States for their quadrennial presidential election in nearly every state of the country to-day and this, together with the keen interest in local political battles in many states, served to bring out what promised to be a very heavy vote.

The presidential result is regarded by the majority of political observers as a foregone conclusion. Even some of the leading Democratic papers this morning conceded that the election of Calvin Coolidge was a probability. The remarkable interest demonstrated by a heavy early vote is therefore attributed largely to the keen state contests that have been waged on local issues in many sections of the country.

President Coolidge expects a vote in the Electoral College of at least 350 and a Republican working majority in the House of Representatives.

There are 531 members of the Electoral College. Thus 266 votes are needed to elect.

The election returns to-night will be received by President Coolidge in the White House, Washington, by John W. Davis at the home of Frank Senator Robert M. La Follette in the L. Polk, New York City, and by State Capitol in Madison, Wisconsin.

**LARGEST ELECTORATE**  
Washington, Nov. 4.—The largest electorate that ever cast a vote in any nation undertook to-day the task of unraveling the most puzzling tangle in the modern political history of the United States.

With three major candidates in the field for President, with the full membership of the House to be chosen, with thirty-four Senators and thirty-four Governors to be elected and with thousands of lesser officers to be selected, the ever-increasing millions of qualified voters of the nations began their march to the polls at dawn and throughout the length and breadth of the land, under generally fair weather conditions. They continued all day to record their will.

**MUCH ORATORY**  
Four months of fervid oratory, recriminations, accusations, predictions and warnings were stored in the thoughts of the voters as they marked their decisions on their decisions on a long list of candidates. Ringing in their ears were the final pleas of the three major aspirants for the presidency. The Republican and Democratic standard-bearers, Calvin Coolidge and John W. Davis, (concluded on page 2)

### MAN KILLED WHILE PEOPLE WERE VOTING

**Shooting Affray Near Polling Place in Chicago; Man Was Wounded**

Chicago, Nov. 4.—One man was shot and killed, another probably mortally wounded and a third, Claude Maddox, was seriously wounded by a revolver fight outside a polling place where voters were balloting to-day. The slain man and one of the wounded were not identified, the latter being unconscious in dying condition when taken to a hospital.

Election officials and police said they did not know whether the shooting had anything to do with the election or not.

According to police reports, Maddox and the other two victims were in an automobile when another car drove up alongside and its occupants, four men, opened fire on them.

### SLAIN MAN WAS ONCE CONNECTED WITH A BAND OF GANGSTERS

Chicago, Nov. 4.—One man was shot and killed, another probably mortally wounded and a third, Claude Maddox, was seriously wounded by a revolver fight outside a polling place where voters were balloting to-day. The slain man and one of the wounded were not identified, the latter being unconscious in dying condition when taken to a hospital.

### U.S. ATTITUDE ON LOANS TO FRANCE

Washington, Nov. 4.—The attitude of the administration on a private loan to France, it was said to-day at the White House, would be dictated by the general policy of giving approval to those loans used in restoration and refinancing distressed countries.

Loans used in reproductive efforts, it was said, would be given approval, as would those for the installation of new monetary systems. Loans to be used only for financing military organizations would not be looked on with favor.

### POLLING BOOTH WAS DESTROYED BY FIRE

**Ballot Boxes in One of the Chicago Subdivisions To-day Were Ruined**

**Armed Guards at Polling Places in Suburbs of City**

Chicago, Nov. 4.—Several disorderly incidents marked the early hours of voting to-day in Chicago. The voters crowded the polls early. Fair weather was reported throughout the state. Chief interest was in the fight for Governor—between Governor—Lee Small, Republican, and Governor—L. Jones, Democrat, and in bitter contests for several state offices.

A fire of mysterious origin broke out in a real estate office, used as a polling place, destroying the ballot boxes and booths.

**THAN WAS KILLED**  
A shooting affray occurred near another polling place, one man being killed.

In Williamsburg, where factional politics threatened trouble, squads of National Guardsmen are on duty at the polls.

In Cicero, a Chicago suburb, where several shootings marked the primary election, deputy sheriffs are on guard at the polls, which will close at 6 p.m.

**WORKER WAS BEATEN**  
Chicago, Nov. 4.—Nathan Feinstein, national chairman of the Forty-sixth Ward, was found bleeding in the street near the thirty-first precinct polling place to-day, the result of having been slugged, Mrs. Engler, a La Follette worker, reported to the Cook County headquarters of the La Follette Independent forces.

Mrs. Engler took Feinstein to a hospital and then returned to the polling place to reinforce the only other La Follette worker on duty there.

### RECORD VOTE IN NEW YORK STATE

**Over 3,000,000 Ballots Expected To-day in the Smith-Roosevelt Contest**

Torchlight Parades in Streets of Big City Closed the Campaign

New York, Nov. 4.—Clear, cool weather and general interest in the contest for Governor between Governor Alfred Smith, Democrat, and Theodore Roosevelt, Republican, led to predictions of a record vote of more than 3,000,000 in New York State to-day. There are more than 3,855,000 on the lists, a total greater by 275,000 than the registration for the presidential election four years ago.

The red fires of hundreds of torchlight parades burned in New York streets last night as the campaign drew to a close.

**FINAL APPEALS**  
Governor Alfred Smith, in a driving finish against his Republican opponent, concluded his campaign with a final appeal to the voters of his own district on the Lower East Side.

Col. Roosevelt likewise chose home territory, addressing meetings at Glen Cove and Oyster Bay.

Governor Smith and Col. Roosevelt each reiterated supreme confidence (concluded on page 2)

SLEEP WAS STRANGER TO E. E. BRADSHAW

Toronto Man Was Near Nervous Breakdown When He Took Tanlac.

Edison E. Bradshaw, painting and decorating contractor, 159 Blecker St., Toronto, Ontario, Canada, is another grateful beneficiary of the Tanlac treatment.

"Before I took Tanlac I was suffering seriously from nervous prostration. I was so nervous I could not sleep, the slightest exertion made my heart palpitate, and my breathing difficult. Burning pains in my stomach tortured me for hours at a time, dizzy spells disturbed me, and my blood seemed out of order.

"With my second bottle of Tanlac I began to feel relief all around. With the seventh bottle my stomach is all right again, my heart action is normal, my nerves are steady, and, in fact, I feel like a brand new man."

some time to the local grievances that exist in this province which do exist under any Government.

"The Kamloops member also urged that the Government take measures to meet the Oriental situation and prevent the further penetration of Orientals into the agricultural industry. He commended the reduction of fishery licenses issued to Orientals, but added:

"Some consideration must be given regarding the exclusion of the Oriental from the leasing or owning land. This phase of the situation is seriously affecting the agricultural people of this Province in a competition that is hopeless to fight against; that although agriculture is in a healthy situation so far as the production of crops is concerned, not all our farmers are in a healthy financial situation.

ASSIST FARMERS

"Some assistance might be given rural districts by an equalization of the school tax. A general school tax throughout all districts and not confined to one district alone is needed; also taxes payable in the Fall instead of in June would assist. Some simple method should be devised whereby country children, having passed elementary school, would be enabled to take up high school education without residing in the cities."

ORIENTALS DECREASE

Striking figures to show how the Orientals are being forced out of industry generally in this Province were quoted by Mr. Colley.

"The percentage of Orientals in the lowest of the districts in the past six years," he stated, "in 1918 they formed 20.37 per cent. of our male industrial workers. Last year they had fallen to 13.83 per cent. In 1919 the percentage declined from 39.82 in 1922 to 35.95 in 1923. In the logging branches there has been a slight increase. A reduction of 15 per cent. has been made in licenses for Orientals on British Columbia coast. Thus 449 Orientals in 1922 have been cut from 1,000 in 1923. Licenses to Japanese for salmon fishing were reduced from 1889, two years ago, to 1,192 in 1923."

FINANCES SOUND

Mr. Colley found nothing to cause alarm in the financial condition of the Province. "Some of the honorable members now present will recall that in 1916 when the Provincial Government first took over the reins of power, that the Provincial bond house valued their Eastern bond house a letter stating plainly that owing to the state of the finances of this Province they could not handle the British Columbia bonds without a large depreciation and commission," he pointed out. "Contrast the difference in 1922—the same bond house writes to the Provincial Government and congratulates them upon the wonderful financial standing of British Columbia, at the same time remarks that our bonds now stand at a premium in the world market."

NOT SINCERE

"I must request for lower taxation—but notice a still stronger demand on the Government for increased expenditure," Mr. Colley remarked. "The question arises are we sincere in our demand for lower taxation? I am afraid not."

Mr. Colley denied emphatically that outside capital was afraid to invest in British Columbia on account of high taxation in this Province. He instanced the construction of large grain elevators in Vancouver by Spira Limited, an example of the faith which big business has in the future of the Province. He pointed also to the recent quick sale of B. C. Electric Railway Company's bonds.

Development of the grain movement helps the interior as well as the coast. Mr. Colley asserted that the service which builds up the coast builds up the whole Province—to illustrate further, my own city, Kamloops, a railroad centre. Our railroads, prior to this great movement of grain were mostly laid off in winter, but with the advent of this grain movement, they were soon complaining of too much work and could not even book rest. What builds up the coast, builds up the interior, and finally the whole of British Columbia helps to build up our Dominion—why, by an all-Canadian route for Canadian grain products. To explain further, we hope we have witnessed for the last time that humiliating spectacle of the toll of \$30,000,000 that our wheat has to pay for handling, able to take from the handling of British Columbia grain in United States ports loss, and no wonder they shouted "Buffalo, who is this man Oliver?" We wish him success in his continued efforts.

DRASTIC CHANGES

Mr. Colley forecast drastic changes in the civil service to reduce costs. "I expect the Budget Speech will deal very fully with this matter, but stating what departments will be abolished, and showing some considerable curtailment of expenditure," he said.

He added that many changes in the liquor administration also were under consideration, "the desire being to have the liquor business removed as far as possible from political influence."

Mr. Colley urged the early construction of the Trans-Provincial Highway.

"That the Government print all text books used in the public schools was another of Mr. Colley's proposals. This system, he said, would produce cheaper books and use British Columbia paper and labor."

"I consider," said Mr. Colley in conclusion, "that the affairs of this Province require no cause for despondency. It is a pleasure to me to note the calibre of the members on both sides of the House. What we require is more courage and optimism on our part and on the part of the people. To get behind the Government and assist it in a wise policy of development should be the wish of all. Finally bringing about a greater prosperity, a more contented people in this the greatest and best Province in this great Dominion."

northwest coast of North America, has aroused our special interest in the abundance and distribution and in all the facts of its life-history. Fishermen and dealers are aware of the best-known halibut banks in Hecate Strait, which formerly yielded the greatest return to our fishermen, are no longer productive. The halibut banks are now brought from distant banks in the open sea.

MUST BE SAVED

"It is beyond question that, if this important food supply is not to be seriously reduced, some protection must be extended to the species. The question is on all fours with the fur seal and the sockeye salmon questions. It is international in character, and a Provincial or State question—from the fact that both the Canadian and the United States fleet engage in the fishery make their catches beyond territorial limits.

"Because neither Canada nor the United States alone could handle successfully the question, and because the fishery can only be preserved by joint and uniform regulations controlling Canadian and United States fishermen, it became necessary for the Dominion and the United States to watch the efforts made to bring about that treaty with interest and concern and, when occasion served, to urge their passage. It is a move in the right direction and I hope it may lead to the signing of another treaty dealing with the halibut fisheries of the Frater.

WELL QUALIFIED

"Recognizing the importance of having the Province fittingly represented on the Halibut Commission I took the matter up with the Hon. Mr. Durney, Minister of Marine and Fisheries for the Dominion, on his recent visit here and requested his appointment of my friend, Mr. Babcock as a member of the International Fisheries Commission. Mr. Babcock is eminently qualified to represent the Province and the Dominion on that commission. He has been the technical fisheries officer of the Provincial Fisheries Department since 1901. Under his direction conducted the only scientific study of the life of the Pacific halibut that has produced data of value to the fishery. He is a member of the only records yet produced which afford a reliable basis for the question. During the time when the question of uniform action for the protection of the halibut in the Dominion and the United States governments, the only publications disclosing essential facts in the history of the species and the conditions of the halibut banks of the North Pacific were those issued by the B. C. Fisheries Department and which were edited by Mr. Babcock.

REMAINS IN SERVICE

"I am well pleased with the action of the Dominion Government in signing the treaty and the appointment of Mr. Babcock. His appointment is a guarantee that the halibut fishery will be well looked after. He will continue in the service of the Province as my assistant."

Mr. Babcock recognized authority on the food fishes of the Pacific Coast. He was the executive officer of the California Fishery Commission and has since retained his position as a member of the Dominion Government by appointment to Royal Fisheries Commissions to investigate the fisheries of Western Canada and the Pacific coast and to act as an adviser to the Canadian-American International Fisheries Commission. He has conducted investigations disclosing the life-history of Pacific salmon, oysters, and clams.

In 1902 Mr. Babcock inaugurated the work of inspecting the spawning areas of the spawning period and issuing forecasts of the results of each season's spawning and its effect on future runs. Annual reports reviewing conditions on the fishing and spawning areas of the Fraser River and calling attention to the practices that would exterminate the runs of sockeye to that river. His special bulletin "The Fraser River Salmon Situation" gives the history of the depletion of the Fraser and outlines measures for its restoration.

PREDICTION FULFILLED

Referring to his work on the Fraser, Dr. C. Gilbert, Ph.D., chair of Zoology of Stanford University and the leading authority on the salmon of the Pacific, has this to say: "No other sockeye salmon stream has received such close and discriminating study as the Fraser. Through the annual inspection has been made of the spawning beds of the entire Fraser River watershed, and predictions of runs have been made. It is a matter of record how consistently these predictions have been fulfilled. Mr. Babcock has long been a champion of natural and hatchery propagation of salmon and trout, and has the distinction of having been the first to discover that in natural propagation of salmon and trout only those eggs that become embedded in sand and gravel shortly after being hatched and produce swimming fish."

Mr. Babcock was born in St. Paul, Minnesota in 1880 and became a British citizen in 1914. During the war he was a member of the executive committee of the Victoria Red Cross Society. He is an ardent fisherman, a big game hunter, a photographer and a traveler.

AEROPLANE CARRIED A MAN STOWAWAY

(Continued from page 1)

Anglers, Que., Nov. 4.—Anxious to see his wife and children, a man chose a means of getting out of the Rouyn field which was as dangerous as it was unique and which, had not fair weather prevailed, might have resulted in his arriving home in a condition which would have caused his family more sorrow than joy. Pilot Gedevel, of the Laurentide air service, on taking off from Rouyn yesterday morning, found that his machine was exceedingly ill-heavy and that he could only with difficulty manage to fly level. On his arrival here he reported a leak in the hull. His search revealed a man's cap and gloves, and numerous cigarette butts. Eventually he found the leak was a human one and that the air service had carried its first stowaway.

# Energy for Men in Fry's

A DAILY cup of FRY'S Cocoa will do wonders in giving that energy of body and clearness of mind, you need for a good day's work.

To read the analysis of FRY'S Cocoa is ready to believe the claims of Dr. Andrew Wilson, F.R.S.E., Dr. Robt. Hutchison and many other scientists, that it is the nearest thing to "liquid energy" that exists in the world to-day. Food for every department of the human body, and Nature's kindest stimulant for heart and nerve-theobromine—is found in FRY'S. Tea and coffee are mere flavours but FRY'S is a complete food.

FRY'S has that delicate "chocolate" flavour that comes only from a blend of the choicest cocoa beans and the experience of 200 years.

Remember: "Nothing will do but FRY'S."

### TERROR STRUCK, TEAM RACED HOME

Exciting Experience Sayward Family in Thursday's Gale

Special to The Times  
Sayward, V.I., Nov. 1.—During the terrific storm of Thursday night, when the gale which swept across Vancouver Island was raging at its height, one family was caught in the perilous fall of crashing timbers. Returning from a visit to neighbors, the party was passing through a stretch of timber, to right and left were to crash the forest monarchs, and the father, realising the menace to the family, hustled the children out of the wagon. He unhitched the team, the horses terror-struck making a dash for their stable. Barely had they left the wagon when a large number of trees were torn from their place, crashing across the highway. The wagon was in a few minutes completely buried by the upturned trees. The storm lasted until 2 o'clock in the morning. The cyclone swept across the valley, driving families from the shelter of their homes, fires in the stoves, and lamps being extinguished lest a conflagration should overwhelm the settlement. It looked as if nothing could save the buildings, which swayed and rocked in the fury of the storm. Much clearing of roads became necessary, and houses were felled by nature than the settler could have done in years of work. In some places a clean sweep of timber has occurred. This storm exceeds in its damage the hurricane which devastated the valley on December 17, 1923, when the worst storm in the memory of the oldest inhabitant visited the district.

According to P. Duff, traveler for a Victoria house, who was trapped in the same storm, and is now at Campbell River, he had a very narrow escape. In one angry burst of the storm three trees fell on the roadway, two ahead, and one behind the car, the foliage of one brushing the front of the automobile. Abandoning the car, Duff walked eight miles to Campbell River to seek shelter.

### CHANGES IN BY-LAW OF COWICHAN SOCIETY

Special to The Times  
Duncan, Nov. 3.—The annual general meeting of the Cowichan Agricultural Society was held on Saturday afternoon. The president, Major Grigg, presided. About fifty members were present. The President gave a report of the year's work. It was shown that the Society had improved substantially in every way during the past year. Legislation is allowed for on the balance sheet for the first time and this is a source of great gratification to the directors. A. H. Peterson, chairman of the finance committee, presented the annual balance sheet, which was adopted without comment. The next and most important business on the agenda was to hear and consider amendments to the by-laws which will be the new constitution of the society. The amendments, which were read by J. V. Copeman, dealt with membership, fees, officers and directors, duties of secretaries, secretary-treasurer, general management of the society, and some date to be known as the Cowichan District Agricultural Committee, and the question of allowing other societies to become affiliated with the Cowichan Agricultural Society. The date, time and place of the annual meeting in the future were raised, and this will be noted on all the next meeting. On the motion of Mr. Geo. Townsend, all the directors and officers were re-elected. Mr. C. W. O'Neill was appointed auditor. A vote of thanks was tendered unani-mously to Major Grigg for the ability and energy which he has shown in carrying out the work in the past year. Major Grigg wished all the directors to be included in this, and carried out his duties at all times.

### CORROBORATION OF STATEMENTS SOUGHT

J. O'Grady Remanded in Vancouver on Murder Charge Till Nov. 11

Mrs. Violet Carr Made Deposition Before She Died of Mercurial Poisoning

Vancouver, Nov. 4.—John O'Grady, private detective agency operator, charged with the murder of Mrs. Violet Carr, who died in the Vancouver General Hospital last Thursday as a result of mercurial poisoning, was remanded to November 11 when he appeared in police court yesterday. The remand was granted at the request of the prosecution, W. Mackay, city prosecutor, stating more time was necessary to seek corroboration of the dying deposition of the woman, which involved O'Grady. Frank Lyons, counsel for the accused, objected to the remand, and pointed out that his client was held in jail, and if remanded was made at once, bail might be secured, as he stated, the murder charge was of the flimsiest nature. Magistrate H. S. Shaw held with the prosecutor and granted the remand. The courtroom was filled with a large crowd of friends of the accused man.

### Black Smallpox in Minnesota Has Killed Sixty During Year

Minneapolis, Minn., Nov. 4.—A black smallpox epidemic in this city since October 1, and approximately 115 cases have been reported, according to health officials here. The disease was classified by Dr. P. Cheney, secretary of the state board of health, as "malignant or hemorrhagic smallpox." According to last reports, the total number of deaths throughout this state was given as sixty since last January out of a total of 288 cases. The disease is believed to have been introduced into Minnesota by an itinerant laborer who came from Western Canada. St. Louis County, Duluth, at last reports had suffered twenty-six deaths since January.

### FINES IMPOSED IN VANCOUVER CASE

R. Crosby and James Leader Before Magistrate on Liquor Label Charges

Vancouver, Nov. 4.—Robert Crosby and James J. Leader were each sentenced to a fine of \$100 and costs and in default of payment two months in the common jail yesterday on charges of forging liquor labels. Leader pleaded not guilty, but after a summary hearing was found guilty. Crosby pleaded guilty to the charge of forging a trade mark, that used by Hiram Walker & Sons on whiskey.

### Renewed Proof of the Friendship of France and Poland

Paris, Nov. 4.—To show that Franco-Polish relations have in no way been modified by France's recognition of the Russian Soviet Government Premier Herriot has decided to raise the French legation in Warsaw to the rank of an embassy, says The Petit Parisien. The Polish Government, apprised of this intention, showed the liveliest satisfaction, the paper adds and will reciprocate as regards its legation in Paris.

### AGED MAN VOTED IN UNITED STATES

Flint, Mich., Nov. 4.—Theodore Canright, ninety-three, who voted for Lincoln and who has cast his ballot at every presidential election since, kept up his record this year, though he fell at his home yesterday and was so seriously injured he was unable to go to the polls to-day. City Clerk King was notified and, making an exception, sent an absentee voter's ballot to the old man.

### HAMILTON INQUIRY SUBJECT OF REPORT

Judge Condemns Political Appointments in Ontario City; Some Salaries Low

Hamilton, Ont., Nov. 4.—Methods of engaging officials for civic duties for many years, says Judge Gaudet, "has been one associated with influence, political or otherwise, rather than for special and particular qualifications for service." The report comments on the low salaries paid to H. S. Forbes, cashier in the city treasurer's office; Ernest King, clerk in the tax office; and Thomas G. Fisher, clerk in the city accountant's office, all of whom were implicated in the scandal, and states the system and recommendations at the City Hall invited and encouraged dishonesty. Judge Gaudet describes as the outstanding defect the lack of proper auditing.

### WHIST DRIVE

Ladysmith, Nov. 3.—The Royal Order of Moose, which held such a successful whist drive a couple of weeks ago, are planning another to be held on Armistice Night, November 11. For this event the services of a sleight-of-hand artist have been secured, which will make it even more interesting. In addition to this event the usual musical turns will be put on, and it promises to be one of the best whist drives held this season.

### LADYSMITH

A juvenile masquerade dance was held here on Friday under the auspices of the local Chapter I.O.G.E. and a splendid time was enjoyed by both young and old. The program was most varied, but this year's dance was far superior to any one yet put on. The greatest praise is due the local chapter for their hard work, the hall being prettily decorated in Halloween colors, and a splendid supper provided. The local members have been teaching the children for the past few weeks, their marches and dances for the evening's performance. At 10 o'clock the youngsters left the floor to make way for the adults and a very successful dance was held until 2 a.m. The prize winners for the children's masquerade were: Girls ten years and under—Best Halloween Character, Hazel Francis; Best Comic (as girl), Raymond Battie; Flower Girl, Isabel Francis; Original, Doris Travis; Nursery Rhyme, Edith Walters. Boys ten years and under—Best Halloween Character, La Verge Steele; Best Comic, Albert Burt; Original, Tom Wilkinson; Nursery Rhyme, Gordon Ross. Girls eleven to eighteen years—British Empire Representative, Hilda Atkinson; Halloween Character, Eva DeWilde; Comic, Freda Wanless; Original, Mammie Mann; Fancy Dress (Butterfly), Eliza Wilson. Boys eleven to eighteen years—British Empire Representative, Netta Burke; Halloween Character, Howard Kemper; Comic (Old Bill), Harry Carnell; Original, Mary Taylor; Fancy Dress, Figue Rosvall. Special prize to Miss Theima Lundahl.

Miss Irene Moore, of Canadian Fairbanks Morse staff, Victoria, visited her sister, Mrs. A. Battie Jr., Sea View Apartments, over the week-end.

Mothers especially like it for children as it takes the place of internal medicines.

### Local Druggists Have Modern Remedy for Colds

A Vaporizing Salve which is Rubbed Over Throat and Chest for Colds. When Vicks VapoRub, the "external" method of treating sore throat, bronchitis, deep chest colds, or croup, is applied over throat or chest, the ingredients are released as vapors by the body heat. At the same time Vicks acts as a counter-irritant, stimulating the skin, and thus helps the vapors to break up the inflammation. Colds are usually relieved overnight.

## BISHOP OF HONAN TO SPEAK ON CHINA

### Eminent Anglican Divine to Arrive From Orient Wednesday

Bishop William Charles White of Honan, China, who has been in mission work in China for the past twenty years, including fifteen years in charge of the Honan diocese, will arrive in the city on Wednesday and at 3 o'clock that evening will address a public meeting in the Anglican

Memorial Hall. Bishop White will speak on the Chinese problem, a subject upon which his long experience and profound study of Oriental matters permit him to speak with authority and conviction. Another interesting speaker at the same meeting will be Miss Loretta Shaw, who is just returning to Japan after a long furlough, to resume her missionary work in that country. Miss Shaw will speak on the Japanese problem, with which she is fully familiar. The Bishop of Columbia will take the chair.

## Novel Halloween Party Aided Funds St. Columba Church

A Halloween party with a further objective than the mere celebration of this popular anniversary was the one given by four ladies of Oak Bay last Friday evening in the schoolroom of St. Columba Church. Some time ago each member of the Ladies' Aid Society of that church was requested to take one dollar as talent money and to multiply it as her talents might justify. While some merely employed their talents inordinately to good purpose, these four ladies, Mrs. S. V. Bowers, Mrs. W. T. Gelling, Mrs. E. Althoff and Mrs. Charles Hudson, wisely decided to pool their capital and talents and make them serve a three-fold purpose, namely: to raise a considerable sum for the society, to give their friends an opportunity to spend a delightful evening, and to demonstrate their own ability as hostesses. Tiny aprons were sent to all those known to be interested in the welfare of St. Columba Church, together with an invitation to this party, the apron to constitute the card of admission and the apron pocket to contain one penny for each inch of the guest's waist measurement. Seldom has such a large and appreciative audience gathered in the schoolroom of St. Columba Church. The programme, not previously announced, was one of constant and agreeable surprises. There was a Punch and Judy show by Mr. Farmer and his son, piano solos by Mrs. Campbell, Miss Kathryn Albut and Miss Aileen Carruthers, a black-face skit by Stanley Bowers and Arthur Scott, a singing contest by four quartettes of young ladies, led by Mr. Gelling, Mr. Bowers, Mr. Burnell and Mr. Mallett; a suit-making contest by ten young girls, male guests served in aprons by Miss Grace Adam, apple bobbing and other games. After bountiful refreshments had been served, the National Anthem was sung, and all guests departed with expressions of appreciation of a most delightful evening.

## Get Rid Of Irritations By Using Cuticura

Bathe freely with Cuticura Soap and hot water to cleanse and purify. Dry lightly and apply Cuticura Ointment to sores and heels. Nothing better for all eczemas, rashes, pimples, itchings and irritations. Cuticura Talcum also is ideal for the skin.

## Thrifty Women Use Laundry Service

Once a woman was called thrifty who did all the baking, all the preserving, all the sewing and all the washing. She was thrifty if she saved from morning until night, the week around.

The saving woman of to-day is the woman who gets all the work done economically and still has time for recreation or improving family life.

Our FAMILY LAUNDRY SERVICE is the solution of the unpleasant washday problem. Just phone and let us explain.

### ATTENDS OPENING OF LEGISLATURE

#### Political Hostesses Entertained at Informal Parties Yesterday

The formal opening of the Legislature yesterday afternoon was accompanied by the eclat associated with this picturesque ceremonial. From an early hour the galleries were filled with an interested throng of spectators and seats on the floor of the assembly chamber were almost at a premium, so great was the demand for accommodation.

#### TEA-PARTIES

At the close of the brief but impressive ceremony, a number of political hostesses entertained a tea in the palm court of the Empress Hotel, which bore an unwonted air of social bustle and activity. Among those who entertained were Mrs. T. Tooley, Miss Kathleen Ross, Mrs. Neill (Nanaimo), Mrs. Booth (Nanaimo), Miss Winch (Hazelton), Mrs. Walter Scott, Mrs. Fisher (Vancouver), Mrs. Thomas, Mrs. W. M. Ivel, Mrs. H. P. Colley (Kamloops), Mrs. Gerrie Smith and Miss Smith, Mr. and Mrs. Garnet Gibson, Dr. and Mrs. Rothwell (Westminster), and Mrs. J. L. Beckwith, and Mrs. W. H. Sutherland, whose guests included Dr. and Mrs. T. W. McPherson, Mr. and Mrs. John Hart, Mr. and Mrs. H. C. Hall and Miss Rose Haggen, Mr. and Mrs. J. R. Colley, wife of the Minister of Finance, reserved her entertaining until the evening when she gave a dinner party at her home on Victoria Avenue in honor of Mrs. J. B. Pattullo of Vancouver, her guests including Mrs. J. B. Pattullo, Mrs. T. D. Pattullo, Mrs. W. H. Sutherland, Mrs. A. M. Manson, Mrs. W. H. Sutherland, Mrs. M. Ross, Mrs. Walter Scott and Mrs. Duncan Ross.

#### After spending the week-end in Victoria as the guest of Mrs. Norman Rant at the Angela, Mrs. Don Charlton returned to her home in Port Angeles yesterday.

#### Mrs. McConnell, who has been spending the summer at Cowichan and on Victoria Avenue in Victoria, is in the city with Mr. and Mrs. Barton, Esquimalt.

#### Mrs. J. R. Colley, wife of the member for Kamloops, arrived in the city on Saturday to attend the formal opening of the Legislature, and will be returning to her home in the interior to-morrow.

#### Mr. and Mrs. J. J. White, "Winola," Sidney, B.C., announce the engagement of their younger daughter, Magdalene Eileen, to Mr. John W. McDaniel of Seattle, Washington, the wedding to take place shortly.

#### Mrs. McE Smith, who has been visiting in Port George and on her return home in Vancouver, returned to Victoria on Saturday and is the guest of her son-in-law and daughter, Mr. and Mrs. W. W. Campbell, Brown, Linden Avenue.

#### A marriage of much interest in Victoria took place on Saturday, November 1, when Agnes, younger daughter of Grace and the late Joshua Kingham of Victoria, became the bride of George T. G. Coventry, Mr. and Mrs. George Phillips, the Misses Woodward (Vancouver), Dr. and Mrs. J. B. Pattullo (Westminster), Dr. and Mrs. T. W. Barrett, Dr. and Mrs. McPherson, Mrs. J. Patrick, Mrs. Warnock, Rev. A. K. and Mrs. McMinn, Rev. Father Wood, Mr. C. W. Bradshaw, Mrs. R. Taylor, Mrs. E. C. Hayward, Mr. and Mrs. J. B. Clearburn, Miss Lottie Bowron, Mrs. Tyrell, Godman, Mrs. Higgins, Mr. and Mrs. W. H. Hargrave, Mr. H. E. Young, Mrs. W. M. Ivel, Mrs. J. R. Colley (Kamloops), Mrs. V. Odium and many others.

#### The ladies' auxiliary of the Y.M.C.A. held a very successful Halloween party in the dining room of the Empress Hotel, Woodstock Avenue, on Friday. **EFFORT TO START WOOLEN INDUSTRY**

**Concession From City Sought By Ex-Service Men**

Concessions to start a woolen industry in Victoria were sought from the City Council last night by two ex-Service men through H. W. Hart, who wrote a long letter to the mayor and aldermen on the subject. The request was referred to the industrial and reverted lands committees for report, the mayor remarking that it was a proposition well worth looking into and was one which might lead to the employment of a number of returned men.

The concessions sought were the free use of a suitable building, tax exemption, and free water for a reasonable period while the projected business is being established.

H. W. Hart explained that W. F. Godwin and E. B. McLean were unable to measure up to the exacting

**STANDARDS OF PHYSICAL FITNESS DEMANDED BY EMPLOYERS OF LABOR**

Standards of physical fitness demanded by employers of labor. Both men and women had had experience in the work and had exhibited specimens at the Willows Fair and at the Island Arts and Crafts Exhibition, receiving prizes for their exhibits.

H. T. Eldred, an expert textile designer of long and varied experience, will be associated with the venture, and will provide the practical and technical knowledge necessary to assure success.

Several machines are owned by the trio, and it is hoped that \$500 will be raised to meet operating expenses. The public will be invited to subscribe the capital. Each subscriber will be given a certificate which will be honored as soon as business will permit, the repayment being in goods manufactured by the firm.

**MAN TO BE TRIED**

Cobourg, Ont., Nov. 4.—William J. Crossen, gamekeeper on the estate of William J. Crossen, Baltimore, was yesterday indicted before Mr. Justice Wright on charges of having murdered B. A. McCrodon, Toronto, and the shooting of Edward Rowe of Hamilton Township with intent to do grievous bodily harm.

**VITAL SUBJECTS TO BE DISCUSSED BY BOARDS OF TRADE**

Convention at Kamloops November 13, 14 and 15 Have Important Agenda

Subjects which are of vital importance to the economic life of British Columbia are on the agenda for the convention of the Associated Boards of Trade of British Columbia at Kamloops, November 13, 14 and 15. Chamber of Commerce directors were notified at their meeting yesterday.

"In the past our conventions have been outstanding events in the business and industrial life of this province," W. L. Macken, president of the Associated Boards, wrote. "An organization concerned chiefly with the economic life of the communities in which we function, Boards of Trade are looked upon to lead in the matter of material development."

Victoria will have two resolutions before the convention. One calls for a policy of reforestation of devastated timber areas for the protection of the supply of the Province. The Government is urged to take action in this direction and the press is asked to co-operate by stressing the necessity for conservation and reforestation.

The other resolution calls upon the Provincial Government to expend a large portion of money collected through the gasoline tax and motor licenses on roads in the district in which the money is collected.

Accounts passed by the finance committee in the sum of \$9,024 were ordered paid. Matters arising out of the Co-operation fire were dealt with, including a decision that articles and furniture stolen in the removal of the furniture in the Co-operation fire will be investigated by the police board. Some jewelry and a case of home-made wine are said to have been taken.

A letter from the city solicitor asking Esquimalt to support the move to collect poll tax from returned men other than pensioners met some criticism. The matter will be referred to the Union of Municipalities. The city will be told.

**FUNDS FOR PALESTINE**

Toronto, Nov. 2.—Toronto Jewish youths yesterday celebrated the anniversary of Balfour Day at a mass meeting in connection with the campaign for a "quarter of a mile of quarters" to the fund for the rebuilding of Palestine.

**ESQUIMALT HEARS OF LABORATORY**

Bill For Close on \$2,000 First Intimation of Its Operation

A bill for \$1,738 for laboratory services from 1922 to date, presented to the Esquimalt Council by the Jubilee Hospital last night, occasioned surprise. Nothing had been heard of the laboratory service before, reflected the council, yet a bill was presented for presumably Esquimalt patients.

An explanation by Dr. McCallum that the work of the laboratory was largely the examination of social diseases did not help to pacify the council. The letter accompanying the account suggested that an Esquimalt did not pay for the laboratory services, as was the case in other municipalities, that it would have to pay on the basis of services rendered. The problem was left with the reeve and Dr. McCallum to investigate and report.

**TO ENFORCE LAW**

Following complaints made in connection with sewerage homes throughout the district the council decided to issue an order that all house-owners must comply with the by-law calling for connection to the sewer in inhabited dwellings. Thirty days' notice goes with the ultimatum.

The loan of the corporation's powder expert to blow stumps off the Bullen Park area was asked by Councilor Nicol. There was talk of clearing there now, he said, but powder would speed up the work. The request was granted.

Before proceeding to other business, Reeve Lockley left the chair to answer criticism by Councilor Pomeroy published in a letter to the press. If a member of his council saw fit to take that course, said the reeve, he should be sure what he said thus openly was correct. The reeve then dealt with the letter, which he said was a misconstruction of fact. The council had been unanimous over the War Memorial Park project and Councilor Pomeroy drew \$300 a year as councillor to watch the interests of the people all the year round. If the councillor's view was subject to change at election time that was an expression of inconsistency.

The Bullen Park by-law was then given first and second readings.

**PREMIER SPOKE TO REGINA AUDIENCE**

6,000 Heard King Last Night Deal With Senate Reform And Other Subjects

Regina, Nov. 4.—Premier King addressed an audience of 6,000 in the Stadium here last night.

After explaining how he had secured representation for every province in Canada in the Dominion Cabinet, Mr. King declared the Progressives had honorably kept their promise to support his administration, which had been true to its policies and endeavored to carry them out, but something more was needed.

The Progressives, instead of holding critically aloof, should get together with the Liberals to discuss the problems of the country and to help to arrive at solutions, he said.

The people who said that by having a so-called solid bloc at Ottawa they could secure reforms they needed, were making the greatest mistake, "There is a change they will remain so solid that nobody will ever think of them," declared Premier King.

**REFORM OF SENATE**

Discussing the Senate, Premier King said the Federal Government was determined to have a measure of reform similar to that adopted in Great Britain could be brought about in Canada, it would see to it that such a bill was brought in. It was his belief that when a bill was passed by the House of Commons at two successive sessions it should become law regardless of the Senate.

**HUDSON BAY RAILWAY**

Mr. King said the Government was proceeding with the construction of the Hudson Bay Railway and as far as the finances of Canada would permit the work would continue. The Government did not wish to see the project prejudiced by having large appropriations submitted to the House of Commons which would arouse opposition to the road. He urged the people of the prairies to have patience with regard to this and other matters.

"We will be as ready to do what is right and what is in the interests of all parts of Canada," he said. "Give us your co-operation, I should not be doing my duty if I pledged my colleagues to any policy. It is not as the Melghen administration was, a one-man government. It is a government representative of all Canada."

**FREIGHT RATES**

Regarding the Crow's Nest Pass freight rates, Mr. King said his lips were to some extent closed as he would shortly have to sit in judgment on the appeal made to the Privy Council. As far as railway rates were concerned, however, he could say the Parliament of Canada would never surrender to any body the full right to say the last word on all that affected the welfare of the people.

Regarding the Crow's Nest Pass freight rates, Mr. King said his lips were to some extent closed as he would shortly have to sit in judgment on the appeal made to the Privy Council. As far as railway rates were concerned, however, he could say the Parliament of Canada would never surrender to any body the full right to say the last word on all that affected the welfare of the people.

TATJANA MOVES INTO DRYDOCK

Tugs of Pacific Salvage Company Towed Vessel to Esquimalt To-day

In the tow of two tugs, the freighter Tatjana left her berth alongside the old Chemical Company's wharves and proceeded to Esquimalt this morning.

Officials of the Pacific Salvage Company's office stated this morning that the dock would be pumped dry by 3 o'clock this afternoon, and the first gangs would go to work on the Tatjana in drydock to-morrow morning.

It was learned this morning, however, that cutters have already been working on the Tatjana at the Victoria Machinery Depot, which has the contract for the repairing of the vessel.

Work has started on the hull of the vessel, and the interior of the vessel will be ready for its new frames as soon as the other work catches up to it.

The first of the outside hull of the Tatjana to-morrow, when the Victoria Machinery Depot's workers will be cutting frames away while the ship lay at the Chemical Company's old wharf.

It is expected that the vessel will be ready for its new frames as soon as the other work catches up to it.

The vessel takes on approximately 500,000 feet of lumber from local mills. Canadian Winner left last night at 11.30 o'clock to complete cargo at mainland points.

Seattle, Nov. 4.—The Ss. Alameda is scheduled to arrive here from Nome to-day, according to advices received by the Alaska Steamship Company.

The steamer Cordova, in the same service, arrived in Nome yesterday. It was declared by the company that the steamer Cordova is not to be withdrawn at present and is to continue weekly voyages out of Seward until early in December.

In the coastwise service of the McDermick Line the steamship Dalry Gray, on her first visit to this port, and the Ss. Adair, after discharging and loading here, shifted yesterday to other Puget Sound ports for Saturday.

Included in the cargo brought here by the steamship Filicetes, of the Blue Funnel Line's transoceanic service, was a shipment of 3,500 bags of silk.

MARU CUTS DAY FROM SCHEDULE

Toyama Maru, of N.Y.K. Fleet, Making Good Time Towards This Port

Will Arrive To-morrow Night With Valuable Cargo and Mail

The Toyama Maru, racing through heavy weather, but favored by winds, will cut a day from her schedule when she arrives here to-morrow night.

A wireless message stated this morning, according to A. H. Hebb, agent of the Victoria for the Nippon Yusen Kaisha, of which line this vessel is a unit.

Apparently, although there has been heavy weather on the Pacific for the past several weeks, and all mariners report high winds and mountainous seas, the Toyama Maru is making excellent time.

Capt. Evans Jones of the Philoctetes, which docked here yesterday morning from the Orient, said that the Toyama Maru will probably run into heavy weather throughout the entire voyage.

Capt. K. Teramoto, commander of the Toyama Maru, took his ship out of Yokohama on October 23, and has been making the best possible time across the Pacific.

In addition to a large and valuable cargo, the Toyama carries a number of passenger and seventy-one bags of mail for this port.

Kingsley Navigation Company Maintains Fast Schedule Lately Set

The steamship Rochelle of the Kingsley Navigation Company arrived in Victoria at 4.30 a.m. to-day and unloaded approximately fifty tons of general cargo for Victoria from the Southern California ports, according to an announcement made by King Bros. after the vessel's departure at 8.40 a.m.

The Rochelle, with her oil tanks full, has a considerable quantity of this fuel for the James Island plant, which also carries fifteen tons of glycerine for use in various manufactures.

The steamship E. G. Kingsley of the same line leaves San Francisco to-day.

The Kingsley, too, has freight for Victoria. She will probably carry a larger amount than does the Rochelle, for the latter vessel carried a bulky cargo for other points than Victoria, and not so much tonnage as usual for this port.

HAS BEEN ACTIVE FIGURE MEDICAL LIFE OF PROVINCE FOR FORTY-FIVE YEARS

With the retirement on superannuation of Dr. G. I. Milne as medical officer of immigration, one of the best known citizens in British Columbia, and the senior medical practitioner in the province, retires from active service.

His happy relations with department officials, with the Customs department, and with the transportation companies were alluded to by him in acknowledging the presentation of a token of appreciation from the staff of the Immigration Department here yesterday morning.

Dr. Milne was born April 19, 1850 at Garmouth, Morayshire, Scotland, where his father, Alexander Milne, was a merchant.

Dr. Milne came to Canada when he was seven years of age, and settled at Meaford, Grey County, Ontario.

Here he was educated and later proceeded to Toronto, where he graduated in medicine in 1880 at the University of Toronto.

One of a family of six sons, two brothers had already preceded him to Victoria, one being the late A. R. Milne, so widely known to the earlier generation as Collector of Customs.

The young doctor trained across the United States by easy stages, coming to Victoria from San Francisco, and immediately began practice.

When he reached here there was a population of only about 6,000 people, with about half a dozen physicians, including well known names like J. C. Davie, Hon. J. S. Helmecken, and others familiar in the life of British Columbia.

He first set himself to work with other doctors to secure a legal organization for qualified medical men. Eventually after considerable discussion, he had the satisfaction of seeing the first medical act passed by the Legislature, and under its provisions a medical council was set up, of which he became the treasurer and registrar, holding office for twelve years. This year it is believed he is the senior medical practitioner of British Columbia.

AS HEALTH OFFICER

In 1884 he became city health officer of Victoria, and it fell to him to organize the fight against the smallpox epidemic of 1892.

He held the position of health officer for a great many years, and in fact did not retire from actual practice of his profession until he entered the government service in 1904.

HIS PUBLIC WORK

The first public office Dr. Milne held in this city was that of school trustee, entering the board in 1887.

In 1889 the echo of the separate school issue, shortly to sound in Manitoba, reverberated through the city, reaching Victoria. It occupied attention at the by-election which took place that year for Victoria city in the Legislature, in which he was defeated by a small majority.

In 1890 came the general election in which Dr. Milne was elected one of the opposition members from the city, supporting the late Robert Beaven. He was in opposition to the Robson and Theodore Davie administration through the life of that legislature, which continued until 1894.

In 1896 he was associated with the Hon. W. L. Bennett, then proprietor of The Times, in which Dr.

Montreal is Still First Grain Port

Montreal, Nov. 4.—The port of Montreal established a new record in October by exporting more grain and dispatching more vessels than in any other month of its history. It is announced by Dr. W. L. McDougall, president of the Harbor Commission, that the port handled 25,000,000 bushels of grain last month and freight set a new high mark for itself and for all other ports, he said.

"The very satisfactory amount of grain traffic handled during October makes it safe to reaffirm prediction of some months ago that Montreal's grain exports this year would total around 170,000,000 bushels," he said.

and owns a considerable quantity of Oak Bay property. His beautiful home on Dallas Road is one of the finest overlooking the harbor.

Dr. Milne, on his retirement, intends to devote himself to his personal interests. He retires in excellent health, a fact he attributes to a careful life and regular diet, clearly to devote himself to his personal interests. He retires in excellent health, a fact he attributes to a careful life and regular diet, clearly to devote himself to his personal interests.

PRESIDENT ARRIVES ON THURSDAY WITH MUCH LOCAL CARGO

Bringing Nearly 200 Tons For Victoria, and Silk For Eastern Cities

Wireless reports from the President Jefferson announced here at dusk in the quarantine station on Thursday morning at 8 o'clock, said W. N. Allen to-day, agent for the Admiral Oriental Line in this city. The reports were received early this morning and confirm the suspicion that the Jefferson was experiencing heavy weather.

Word was received here also of the departure of the President Jackson. This ship leaves Seattle before noon to-day and leaves Victoria at 5.30 o'clock this afternoon. She will take on about fifty passengers here.

The Jefferson's inbound cargo is also heavy, and she carries a large consignment of silk worth several millions of dollars. She will drop 170 tons of cargo here, thirty-five passengers and sixty-three bags of mail.

Four Children
Are Rescued From
Flames by Firemen

Four young children had a narrow escape from death in a burning home at 533 Connaught Street, Victoria West, this afternoon. The children of Mr. and Mrs. A. Jones were in the house alone when flames started in the kitchen.

Firemen called by Earl Brown of 513 Connaught Street arrived in the nick of time. The house was full of smoke and the children, including a baby, were panic-stricken. They were unable to make their way out of the bungalow on which the flames had got a good hold and firemen battered their way through the roof and carried the children to safety.

DR. CLEM DAVIES
EULOGIZES RADIO
AS HOME DELIGHT

Kiwianians Hear Victoria's Broadcasting Pioneer Outline Value of New Art

Rev. Dr. Clem Davies was the chief speaker at today's Kiwanian Club luncheon at the Chamber of Commerce discussing radio in its relation with the home.

He referred to educational aspects of radio and its aid to the poor, pointing out that a boy of fourteen can make, at small expense, a set reaching across half of the continent, putting him in touch with much information of educational value, such as lectures on English and similar subjects.

Just at the time when the home was breaking up, when the farmer was finding isolation almost insupportable, the radio came. It is the most efficient invention of the age, he said, touching upon entertainment features.

Unity is also promoted by radio, Dr. Davies said, asserting that men are basically inclined to work when they are bridging themselves, on broad-mindedness.

Understanding between residents of Canada and the United States was being promoted, he said, by both nations being aired on the radio, arousing sympathy and understanding on both sides of the line.

Fire Service
The religious value of radio was stressed by the speaker, who said that homes separated from church by as much as thirty years, surprising the hearers with sympathetic exposition of modern ideas and causing a great increase in church membership and a new growth of religious life among the people.

When we started our church radio in Victoria, people asked, "where will you get your support?" I knew that would come later, and we have also found that fears that radio would keep folk from church have also been unfounded, declared Dr. Davies.

Scholarship Presented
Harold Blackett, second year student at Victoria College, was presented with the Kiwanian annual scholarship by President S. J. Willis, after being presented to the board by Kiwanian E. Howard Russell, registrar of the college.

Fred Stone of California earned his B. A. degree with a number of vocal solos.

OBITUARY
David Jones, a resident of Victoria for the past twenty years, passed away yesterday at a logging camp at Port Haney, where he had been employed for some time. The late Mr. Jones was born in Brecknock, Wales, fifty-six years ago. The remains will arrive in court this afternoon and will be buried in the B.C. Funeral Chapel, from where the funeral will be held on Thursday at 2 p.m. Interment will be made in Ross Bay Cemetery.

Henry Andrews, a veteran of the South African war, passed away last evening at his home, 29 Belmont Road, Saanich. He was born in Romney, Hants, England, fifty-eight years ago, and had been resident of Saanich for thirteen years. The late Mr. Andrews held the South African and Indian medals for service and was a respected member of the British Campaigners' Association. The funeral will be held from the B.C. Funeral Chapel on Friday at 2 p.m. Interment will be made in Ross Bay Cemetery.

The remains of the late Mrs. Frances Jane Webb were laid at rest in the family plot in Ross Bay Cemetery this morning. The cortege left the B.C. Funeral Chapel at 11 a.m. and proceeded to St. Andrew's Cathedral where Rev. Father Wood conducted Mass and funeral services, and gave an impressive address, eulogizing the late Mrs. Webb.

There was a very large and beautiful floral tribute was mute testimony to the respectability of the late Mrs. Webb was Mrs. M. C. McCall, A. Y. Rother and A. Henderson.

Funeral services for the late Owen Thomas were conducted by the Rev. A. de B. Owen at the B.C. Funeral Chapel this morning at 11 o'clock, in the presence of a few old friends and a representative number of the society. The pallbearers were: Capt. H. Paxton, Messrs. F. H. Warrington, C. Redpath and J. E. B. B. Interment was made in Ross Bay Cemetery.

Councillor Kirkham and Clerk R. F. Sewell represented the Saanich Council and F. G. Alhusen represented the dissenting subscribers. F. Patterson, general superintendent of the telephone company, also visited the City Hall.

ARREST MADE
IN DAVID LEWIS
MURDER CASE

Sudden Coup by Vancouver Police Takes Victoria's Chinatown by Surprise

Jang Sing, Taken on Murder Warrant, Hurried to Vancouver

Sleeping peacefully in bed two doors away from the city police station, Jang Sing was arrested yesterday in a sudden coup by the Vancouver City Police. Jang Sing was charged formally with the murder of David Lewis on a warrant carried by Detective Joe Ricci of the Vancouver force, and taken on the afternoon boat to that city yesterday.

The entire movement was made without the knowledge of the Victoria police save Chief Fry, who was bound to secrecy beforehand. Reports from factional sections in Chinatown were that a warrant had been made known. The accused was smuggled out of the city by the first boat manned to the Vancouver wharves, and was safely in Vancouver before Victoria's Chinatown was well aware of his apprehension. Not even the Provincial Police knew of the affair until Jang Sing was under lock and key in Vancouver.

On his way to the police station yesterday Chief Fry was accosted by a strange man in a car. It was Detective Ricci. The chief jumped in the name and address of the accused. Chief Fry led the way straight to the premises in rear of the Sam Hop store, at the southeast corner of Government and Pigeon Streets, and within 100 feet of the city police station.

Chief Fry, closely followed by Detective Ricci, pushed his way in unopposed and found Jang Sing in the store to sleeping quarters in the rear. Here the two officers came upon Jang Sing in bed. The man has been asleep but sat up when they entered.

He was arrested with a struggle, and was on his way to the police station before he had recovered from his obvious surprise.

At the station Sing was acquainted with the warrant for his arrest on the charge of murdering David Lewis and accepted the situation with Oriental calm. He was lodged in the cells without even the desk sergeant knowing on what charge he was held on his identity.

SOUGHT RELEASE
Within an hour scouts were out in Chinatown scurrying hither and thither with the news. Counsel was engaged, but failed to secure a writ of habeas corpus. Sing was hustled on to the Vancouver boat in secrecy and was clear of the port before news of his arrest had reached the city.

It is typical of Chief Fry that he went unarmoured and without a moment's hesitation to effect the arrest of a man alleged to have been the slayer of David Lewis, and it is largely due to his personal efforts that the arrest was made without trouble in a community where feeling runs high over a killing that is said to have been the outcome of a long dispute.

The Vancouver police goes the credit of uncovering the whereabouts of the man accused of the crime. In this the Provincial police aided by the Chinese settlements up and down the coast. Cumberland, the scene of the murder of the Chinese ticket agent out of which arose the damage account in which the late David Lewis was awarded posthumous damages in high and low after David Lewis fell to an assassin's automatic on September 24 last.

Few killings had aroused greater divergence of feeling in Chinatown of the Pacific Coast. The late David Lewis, according to his friends, had incurred enemies in the gambling and underworld of the city. He was in Nanaimo at the time he was shot down the stairs of the Peking Cafe and his body was hurried to the city and buried in the centre of a band of friends.

IDENTIFIED
Three of the Chinese who witnessed the killing, it is asserted, accompanied Detective Ricci to Victoria yesterday and later alleged to have been instrumental in the killing. Their presence in the city was carefully concealed and they were hurriedly out of town after the arrest quietly out of town after the arrest had been effected.

Jang Sing, assert the police, was at one time a member of a Victoria Chinatown club, which has more than once made its appearance in the city police court. His arrest was followed shortly by the appearance of a local lawyer apparently briefed by any proceedings here, however, apart from the legal arrest of the man on the Vancouver warrant and his immediate transfer to Vancouver.

How long Jang Sing has slept within sight of the city police station, his slumbers broken only by the steady tramp of patrolmen changing reliefs under his window, is not known. The fact remains he was taken after awakening from a refreshing sleep, almost before he had got coupled something less than sixty seconds, his entry of the chief and Detective Ricci being as unobstructed as it was unexpected. Counter action feared by the Vancouver officer did not materialize.

To The Times this morning Superintendent McMullen, head of the Provincial Police, stated that he had not been officially informed of the development in the David Lewis murder case. It was a Vancouver city police coup, he stated, adding that the matter had been left in the hands of the force outside of assistance from the up-Island points.

To-day in Chinatown little knots of people converse in doorways and hurry along. There is less loitering on the street and an air of suppressed excitement about the place. There is no disturbance, however, and despite what may be passing underneath, the surface is as quiet and phlegmatic as usual.

The apprehension of the local authorities that trouble might follow the arrest is based, it is understood, upon the suggestion that the whereabouts of Jang Sing was quietly imparted

\$2,000 IS NEEDED
FOR WAR MEMORIAL

Amount Necessary to Let Contract for Pedestal to Victoria Firm

The sum of \$2,000 is still needed for the War Memorial Fund. The campaign offices have been removed to 1105 Government Street, where the attractive window display and the miniature of the proposed monument to the war's dead has attracted considerable attention. A final drive to-day, and it is hoped that the money needed will be raised without the necessity of a door to door canvass. It is hoped to let the contract to a Victoria firm, but this cannot be done until another \$2,000 has been subscribed.

Already the subscription list is among the most representative ever obtained in this city, but there are still many who will no doubt take the opportunity of showing their respect for those who fell in the Great War, and at the same time make certain that the contract will be let to a Victoria firm.

# BASEBALL, BOXING, HOCKEY, SPORTING NEWS, SWIMMING, GOLF, COUGARS PLAY LATEST HOCKEY GAME HERE CHRISTMAS DAY

## Schedule Of W.C.H.L. Finally Made Public

Twelve Games Will be Played Here With Seven Slated for Saturday Nights; Vancouver Maroons Oppose Cougars in Opening Game; Victoria Team Will Assemble and Train in Winnipeg; Local Arena to Open on December 20

Victoria's first hockey game is set for Christmas Day. This news was received this morning when the schedule of the Western Canada Hockey League was released by President E. L. Richardson, of Calgary.

Vancouver will oppose the Cougars in the opening game and two days later Regina will appear in the second game.

The schedule, which has been eagerly awaited by the fans for several weeks, came to light today after Kenny McKenzie, boss of the Edmonton Eskimos, had placed his signature to it.

The schedule contains many interesting items and Lester Patrick, manager of the Cougars, released several important announcements with it this morning.

All the moguls have had their tongues more or less tied until the schedule was released. Now they will be able to talk about their plans for all they are worth.

**A DIFFICULT JOB**  
The drafting of the schedule proved a difficult job owing to the extensiveness of the territory covered by the league and the desire to give every team a square shake.

President Richardson was assisted in drawing up the schedule by Frank Patrick, of Vancouver, and Lloyd Turner, of Calgary.

Owing to the fact that Victoria must start the season away from home, Manager Patrick has decided to assemble his team in Winnipeg. He will summon his players to report there between November 15 and 25 and he intends to leave the city on Sunday next to make preliminary arrangements for training.

**TWO GAMES IN WINNIPEG**  
The schedule calls for Victoria to play two games in Winnipeg, the first with Calgary on December 8 and the second with Vancouver on December 11.

Immediately after those games the Cougars will make their first swing around the prairie circuit, playing games in Saskatoon, Edmonton and Calgary, returning home in time for the opening display on Christmas Day.

The Cougars will remain here until January 15 when they will start off on their second jaunt around the prairies. While at home here the Cougars will meet in addition to Vancouver and Edmonton, Calgary and Saskatoon, on their return from their second trip.

**CHANGE IN NIGHTS**  
Friday will no longer be the favorite night for hockey games here. It has been replaced by Saturday.

When it became apparent to Manager Patrick that there would be a change in the night he decided to hold out for Saturday in view of the fact that many local fans had expressed themselves in favor of this night and also to the fact that it would give the many up-land fellows a chance to see the games without having to take a day off.

Seven of the games will be played on Saturday nights, with but one on Friday, three on Thursday and two on Wednesday.

Vancouver and Regina will each play three times during the season, while Calgary, Edmonton and Saskatoon will each appear twice.

**GAMES CLOSE TOGETHER**  
The games will not be at week intervals this year. In some cases there are two games a week, while in one case, on the second visit of Regina, there will be a game on Friday and another on Saturday.

## Teams Are Ready For Opening of Big Hoop Season

James Bay Methodists' and Metropolitans in Feature Game Here To-night

Four Divisions Have Games Scheduled; Senior Girls in Exhibition Match

Everything is in readiness for the opening of the Sunday School Basketball League this evening at the new Christ Church Memorial Hall. The game is expected to be a great one and there should be plenty of excitement before the curtain drops next March.

The James Bay Methodist senior men are reported to have shown speed in early practices and will be in good shape to meet the Metropolitans in the big game this evening.

Four divisions of the Sunday School Basketball League will open their schedule of games to-night and all games should be exciting.

**AXIOMS WANT TITLE BACK**  
The "Axioms," intermediate girls, will meet the Harmony five and a great battle is expected in the "Axioms" endeavoring to regain the championship which they lost last season and will endeavor to secure early lead.

To-night's games are as follows: 7:30 p.m.—Intermediate "B" boys; Christ Church vs. Greys. 7:15 p.m.—Senior men; James Bays vs. Metropolitans.

10 p.m.—Intermediate girls; Axioms vs. Harmony. 8 p.m.—Senior girls; Met. vs. Christ Church (exhibition).

The following games will be played on Saturday evening, Nov. 8: Intermediate girls—Congregational vs. Metropolitans.

Intermediate "B" boys—St. Andrew's vs. Belmont. "A"—St. Mary's vs. Belmont.

Senior girls—Fidels vs. Christ Church.

**Vincent Richards Retains His Title As Mexican Champ**

Defeats Howard Kinsey in Finals and Also Wins Doubles With Ray Casey

Mexico City, Nov. 4.—Vincent Richards yesterday retained the title of Mexican champion by defeating Howard Kinsey in the final event of the international tournament which has been in progress since last week.

The score was 2-6, 6-2, 7-5, 6-4. Vincent Richards of New York, and Ray Casey, California singles champion, won the men's doubles.

**KINSEY SHOWS FORM**  
Reversing the form which he displayed yesterday morning, when with Robert Kinsey he lost the doubles final to Richards and Casey, Kinsey got off to a brilliant start in and won the first, second, fourth, sixth, eighth and ninth games.

He apparently had recovered from the slight illness which virtually put him out of the competition in the morning.

Against Kinsey's steady and strong service, his superb back court game and a deceptive top spin ball, Richards was slow in getting started.

## More Different Nationalities Have Held Featherweight Title Than Any Other Group; Seeking a New Champion

By JOE WILLIAMS  
New York, Nov. 4.—For the first time since 1914, when Young Corbett and Terry McGovern moved up simultaneously to the lightweight division, the featherweights are without a champion.

A Jewish boy, one Abraham Attell, claimed the vacant title then, was matched with Harry Forbes, won by a knockout in five rounds, and was recognized as the champion.

Two Jewish boys are now claiming the title recently outgrown by Johnny Dundee, portly spaventi addict, of Meriden, Conn., emigrant from Russia.

The other is Danny Kramer of Philadelphia, hard-boiled product of the Quaker town street corners.

Mr. Rickard has been crying eloquently in his consomme because of a dearth of logical opponents. Let him have the next featherweight champion.

**KRAMER HARDER HITTER**  
Wise eggs in Tin Ear Alley say Kramer will beat Kaplan. Kramer mingled with the lightweight, too.

Kaplan showed up Pal Moran worse than Benny Leonard did, and he bounced enough punches off Johnny Shugrue's noble pan to earn the decision.

**HERE'S ONE SURE BET**  
You are reasonably safe in making a wager that the name of the next featherweight champion will begin with "K."

Kilbane was the last "K" to hold the title and Kilby was in some respects, a great little champion. This writer never saw, for one thing, anybody with a better one-two punch.

The featherweight division has been represented at the top by more different nationalities than any other fighting group.

George Dixon, probably greatest of all featherweights, was a negro. Little Chocolate they called him, and he held the title on three different occasions.

Billy Plimmer and Ben Jordan were both English born.

Kilbane was emphatically Irish. At-tell, Welsh, Criqui French and Dundee Italian.

## Colwood Golfers Starting Play For Club Title Nov. 9

The qualifying rounds for the club championship will be played on November 9, over thirty-six holes. The first and second rounds of eighteen holes will be played on November 10, and the third round and semi-finals on November 16.

The conditions under which the championship will be played are as follows: An entrance fee of \$1 will be charged, and entries will close at 5 p.m., November 7.

Time of starting to be drawn, first couple to leave the tee at 8:45 a.m. Cards to be turned in on completion of each eighteen holes.

The first thirty-two to qualify for the match play stage. The defeated sixteen of the first round to form the first flight. Further flights or sixteen each will be formed from the remainder.

The prizes will be as follows: Champion—Championship cup for one year and a miniature permanently. Runner-up—A cup. Low medalist A cup. Winner of each flight—A cup.

## National Hockey League Announces Players Signed

Six Clubs Have Good Lineups And Will Soon Get Down to Training

Toronto, Nov. 4.—Players signed up or claimed by the six National Hockey League teams to date are: St. Patricks—Roach, Stuart, Noble, Andrews, Speyer, Holway, McCaffery, Corbeau, Adams, Dye and Arbour.

Ottawa—Ironstone, George Boucher, Clancy, Hitchman, Hooley, Smith, Nighbor, Cy Denney, Campbell, Finnigan and probably Frank Boucher.

Wanderers—Benedict, Gerald Munroe, Dunc Munroe, Dutch Cain, Fred Lowery, Sammy Rothchild, Canton Scott and Broadbent.

Calgary, Nov. 4.—President Fred Johnson of the Calgary Tigers, announced the sale of "Billy" Holmes, versatile Brandon amateur, to Frank Patrick, owner of the Vancouver Maroons. This deal has been hanging fire for some time, but has been finally closed.

The Brandon star was signed by Lloyd Turner a year ago, and after training with the Tigers and taking the first swing around the Coast circuit, requested that he be allowed to remain with the Wheat City team another winter, and this was granted.

The Tiger management announces that negotiations are still pending for the purchase of Jimmie Frisk, member of the Seattle Met, although there is but little hope of getting him, as it is understood that both Holmes and Frisk are to be turned over to either the new Montreal club or Boston of the N.H.L.

St. John, N.B., Nov. 4.—Edgar Wade, Marysville hockey star, has been signed by the Canadiens, of the National Hockey League, it is stated.

## On Second Thought

Young Stribling has returned to his books and we suspect the most important one is his chequebook.

A Mexican heavyweight has arrived in New York. You can tell he is a Mexican heavyweight because his reservation calls for a room without bath.

Dundee is known as the Indian rubber man of the ring. Well, he's managed to stretch his career out longer than most of 'em.

They say no chain is stronger than its weakest link. The office boy wants to know if the same logic applies to country sausage.

Any hardened sport observer will tell you there are times when a yellow streak has considerable to do with a losing streak.

## Tony Rego, Former Victoria Catcher, Is Here on Visit

Peppery Little Backstop, Who Was Idol of Boys Here, is Now With Browns

Tony Rego, former catcher for Victoria in the old Pacific Coast League, arrived back in town yesterday with his wife and two children.

Rego was in Victoria in 1921 and since that time has made an enviable showing in the coast and major leagues.

After leaving this city he joined the Los Angeles club in the Pacific Coast League and played a season with them and was then sold to St. Louis in the American League.

During last season Rego caught a number of games along with Hank Severid, who is the Browns' first-string catcher. Towards the end of the season Tony caught every game that Urban Shocker, St. Louis' star hurler, took part in.

He caught Shocker in a double header against Chicago in which the hurler chucked up a double victory.

Tony expects to have a great season next year and he thinks that Sisler will be back in his old form. Tony stated that Sisler is a great manager and that there is absolute harmony in the St. Louis team.

Washington's great hurler, Tony stated that he was the fastest ball pitcher in the American League. Tony caught in only one game against the Browns in which he was pitched by Johnson.

After a great battle St. Louis won the game. Rego stated that he didn't think Johnson would get out of the major leagues for a time, but if he did go to the Coast League he would be good to win thirty-five games in a season.

## Brentwood Defeats Makeshift Rugger Team From 'High'

Owing to the fact that only ten players of the Victoria High School were able to appear in the Victoria-Brentwood game between Brentwood College second team and the V.H.S. was called off. Brentwood in order that the spectators might not be disappointed the High School picked up five substitutes and decided to play.

Play throughout was very even, with neither team having any advantage over the other. With five minutes to go, Brentwood broke through Victoria's defence and scored the only touch down of the game. The try was not converted.

Smith played a very good game for the winners, while Skillings and Little did some fine work for Victoria.

The Victoria High School senior Rugby team will play an exhibition game with the University School, and as these teams have never met before a hard game is anticipated.

## TWO RIOTERS IN PERSIA EXECUTED

Washington, Nov. 4.—Execution by the Persian Government of Seyid Hussein, ringleader of the mob which murdered United States Vice-Consul Imbrie in Teheran, was reported officially yesterday to the State Department. Another man was executed for the crime at the same time.

Washington, Nov. 4.—Henry Ford looks for the election of President Coolidge to-day.

"I think Coolidge is on the side of production, service and prosperity, and have no doubt that he will be decisively elected."

**WESBROOK WINS TITLE**  
Los Angeles, Nov. 4.—Walter Wesbrook, former Canadian net star, defeated Harvey Simons, strong contender in the recent national championships, 6-4, 6-8, 6-2, in the final men's singles match of the Los Angeles county tennis tournament here yesterday.

## English Horse Is Best Two-year-old In U.S. This Year

Master Charlie Picked up For \$1,000 Wins \$95,025 as Juvenile This Season

Louisville, Ky., Nov. 4.—Master Charlie, imported colt belonging to W. Daniels, Chicago stockman, by winning the Kentucky Jockey Club stakes at Churchill Downs Saturday, took the lead of the season's two-year-olds.

With the addition of this rich feature to his former winnings, he topped the juveniles with \$95,025 to his credit.

Mothergoose, the H. P. Whitney filly, is second with \$72,755. Then follow Singlefoot with \$32,000 and Sunnyman with \$20,175.

Several others earned more than \$20,000. Master Charlie was imported from the paltry sum of \$1,000. He is by Lord Archer from Bachelor's Choice by Bachelor's Button.

This is the first time in the recollection of turfmen that an imported colt has headed the two-year-old winners in America.

## Canadian Wrestler And American End Long Bout in Draw

Spokane, Nov. 4.—Jack Taylor, Canadian heavyweight champion, and Dan Kolloff of St. Louis, Mo., wrestled two hours to a draw here last night each securing a fall. Kolloff took the first fall after twenty minutes and fifteen seconds after Taylor had been the aggressor most of the way.

In the second bout Taylor applied several toe holds, finally throwing his stool to the referee, who called the building by the police.

## Trying to Arrange International Golf Match For Ladies

New York, Nov. 4.—The Women's Eastern Golf Association has appointed Mrs. Dorothy C. Hurd, present champion, now in England, a committee of one to interview officials of the Ladies' Golf Union of Great Britain regarding a women's international team match between teams of the United States, Canada and Great Britain.

## Old Country Football

London, Nov. 4.—In the London professional soccer club charity fund games between Clapton Orient and Tottenham Hotspurs, at the end of the ninety minutes' period the score was tied, 1-1. Extra time was ordered. The Orient scored a goal but the match was finally abandoned before full time was reached, owing to the bad light.

In the London Challenge Cup re-played game to-day, Brentford defeated Crystal Palace, 2-0.

**Other Results**  
Chelsea, 1; Cambridge University, 10.  
London Caledonians, 1; Charlton, 2.  
Cambridge University, 14; Swansea, 5.  
Oxford University, 17; Edinburgh University, 3.

**GAINED DECISION**  
Youngstown, O., Nov. 4.—Jackie Nichols, St. Paul, featherweight, won the newspaper decision over Ernie Goszeman, Milwaukee, after a fast 12-round bout here last night.

**UPLANDS GOLF CLUB**  
The ladies' monthly medal competition of the Uplands Golf Club, played on Sunday, was won by Miss Maxwell with a net score of 84.

## "SUNDOWN," GREAT PICTURE OF WEST, NOW AT CAPITOL

"Sundown," First National's powerful spectacular feature, opened last night at the Capitol Theatre. Since the advent of motion pictures there have been but few that really can be called "great." "Sundown" is one of them and can rightfully take its place beside "The Birth of a Nation," "The Four Horsemen," "Intolerance" and "The Covered Wagon." There is no one big moment. No clash of physical forces is depended upon to lift the film from the ordinary run of celluloid drama—yet it is so far ahead of the usual "big feature," in entertainment value and for its inspiring and emotion-stirring qualities that there is no comparison. The simplicity and the humanness of "Sundown" are its principal charm. One is gripped with the intensity of the drama that it pictures. And there are thrills, too. These

when the huge herd stampedes and the homesteaders are caught in the path of onrushing maddened cattle, and again when the cattle and their owners are entrapped by fire.

An ideal cast has been entrusted with the telling of this soul-stirring story. Bessie Love is most capable and captivating in the part of the city girl who finds herself homeless when the stampeding cattle wreck her little prairie home. Roy Stewart is an ideal Westerner, shy, diffident, yet romantic. Hobart Bosworth is all that could be desired in the stern role of the principal cattle owner, who is ever conscious that he is being forborne from the country he helped pioneer. Excellent comedy relief is supplied by Murray, the famous movie comedian, who plays the part of a chuck wagon driver, a past master in the art of profanity.

Other well-known players in the well-balanced cast are Charles Selton, Charles Crockett, Wilfred North, Jere Austin, Hal Wilson and Margaret McWade.

## PLENTY OF REAL BASEBALL SEEN IN "HIT AND RUN"

There is enough real baseball in "Hit and Run," Universal-Gibson special attraction that had its opening yesterday at the Columbia Theatre to justify the dyed-in-the-wool fan taking along a score card; there is enough fun in it to afford joy to anyone who never has seen the national pastime in professional functioning—what more can be said to establish the qualifications of this, the most recent vehicle of Hoot Gibson's versatility?

Screen fans have come to look forward to the assurance that Gibson is appearing in a story written, in part at least, by Edward Sedgwick, who also is the director of Gibson's pictures, and this assurance is forthcoming in the present instance for Sedgwick aided by Raymond L. Schrock who has collaborated in other Gibsons, conceived this logically ludicrous story—ludicrous in intended parts only.

Incidental to the story there is some of the finest baseball atmosphere ever shown on any screen. Opening games of the Pacific Coast League were made the background of some of the action, and Sedgwick's realistic treatment of the ball player, is sufficiently enamored of the game to be generous with footage in cases where real ball players are playing real baseball regardless of the presence of moving picture cameras.

## RUPERT HUGHES SHATTERS MORE FILM TRADITIONS

Rupert Hughes has shattered movie traditions in "True as Steel," which is being presented at the Playhouse Theatre. There isn't a villain in it!

Furthermore the picture doesn't end with the hero and heroine in a half-nelson. There are no mob scenes. There are no enormous sets. No one gets married, murdered, assaulted, rescued, beat up, seduced. There are no train wrecks, automobile accidents, storms, fires or pistol shots. In all the eight reels of the picture, no one is thrown into prison for a crime he did not commit. No mortgages are foreclosed, daughters driven out by a cruel parent, or crooks regenerated.

In other words, Hughes has attempted to write of real characters, living ordinary lives.

Aileen Pringle, Huntly Gordon, Norman Kerry, Cleo Madison, Louise Fazenda, William H. Crane, William Haines, Raymond Hatton, Jean Haskell, Lucien Littlefield, and others, make up the cast of this strange picture.

## GILLINGWATER IN STRONG ROLE WITH COLISEUM PICTURE

"A Chapter in Her Life," adapted from Clara Louise Burnham's famous novel, which thousands have read, will interest all of its readers as it appears upon the screen, because it carried a greater message than in the printed word. "A Chapter in Her Life" is showing at the Coliseum Theatre this week, as a Universal-Jewel attraction. The cast is of all-star calibre, directed by Lois Weber, foremost feminine director.

Claude Gillingwater, famous on both stage and screen, plays the chief masculine role, as Evringham, Sr., a doughty old figure, that readers of the book love. Jane Mercer, eleven-year-old "find" of Miss Weber's, plays the title role in the picture.

Robert Frazer, Mae Murray's leading man in many pictures, Jacqueline Gadsden, Frances Raymond, Evelyn Thatcher, Ralph Yarney, Beth Rayon, Vernon Steele and Fred Thomson handle other roles.

In order that the inspiring element of "A Chapter in Her Life," which has revived hope in thousands in the printed word, would be retained in the picture, Miss Weber wrote her own screen continuity.

## "THE BORDER LEGION," ZANE GREY STORY, FEATURING MORENO

A Zane Grey story and Paramount picture, featuring Antonio Moreno and Helene Chadwick, couldn't be anything else but first class entertainment. And that's just what one finds in "The Border Legion" at the Dominion Theatre. Here is, perhaps, the finest story by the most popular author in America to-day, made into one of the most unusual screen vehicles shown in many a long day. The story deals with a band of conscienceless outlaws, known as the

## MEIGHEN WILL SPEAK IN CITY FRIDAY NIGHT

Rt. Hon. Arthur Meighen, leader of the Conservative Party in Canada, will speak here at the Panjange Theatre on Friday night. Announcement of Mr. Meighen's intention of coming to Victoria after campaigning in the Yale by-election was made in a telegram received yesterday by Harry R. Savage, president of the Victoria Conservative Association, from Hon. S. F. Tolmie, Conservative organizer, who is with his chief in the interior campaign.

Border Legion, who rode the South of Idaho in the days when the West was the West. It's a fast-moving action-romance, with appealing love scenes, raid, fights and big scenes galore—and, too, that "something" which prevents its being classed as "just another western."

The entire picture was filmed on locations personally selected by the author.

William Howard directed the picture and George Hull wrote the screen play. Alvin Wyckoff handled the photography.

Here's the fifth big Paramount triumph in a row for Zane Grey. The others? "The Call of the Canyon," "The Last Man," "The Wanderer of the Wasteland."

HAROLD TAYLOR

(cellist) who will perform the symphonic music at the concert to-night in the Empress Hotel Ballroom.

## Symphony Orchestra To Give Concert

The debut of the newly formed symphony orchestra under the direction of Prof. L. Turner will be made this evening, when a programme of exceptional merit will be presented in the Empress ballroom. Prof. Turner is recognized as a master in orchestral music and orchestral conducting, and it is believed that this venture will prove a credit to his ability along these lines, and it is hoped that the merited support will be forthcoming from the large music-loving public of the city. The full programme follows: March, "From the Crusader Suite" (Grieg); overture, "Semiramide" (Rossini); violin solo, "Andante" (Symphony Espagnol—Lalo), Miss Dorothy Francis. Miss Gladys Shrapnel at the piano; symphonic poem, "Finlandia" (Sibelius); vocal solo, "She Alone Charmeth My Sadness" (Gounod), Mr. Handley Wells. Mr. Ronald Rimes at the piano; "Suite L'Arlésienne" (Bizet); cello solo, "Symphonic Variations" (Baellmann), Mr. Harold Taylor. Mr. Christopher Wade at the piano; selection, "Tonhauer" (Wagner); "God Save the King."

This concert will be broadcast by remote control by Fletcher Brothers from their radio studio through station CFTY.

## KING AND QUEEN WILL SEE MOVIE

London, Nov. 4.—King George and Queen Mary will pay their first official visit to the movies next Monday when they will witness a performance which depicts the attack of the British blue-jackets on the German stronghold at Zeebrugge during the Great War.

## ANTIQUA DOLLS TO BE EXHIBITED

### Doll Shoppe to be Held Under Social Service League

Dolls of all ages, shapes and sizes will be on sale or exhibition at the Doll Shoppe which is to be held at 1417 Douglas Street on December 4, 5 and 6, and it is expected that all the little girls of the city will gather around like the proverbial flies around a honey pot.

In addition to dolls for sale, there will be a most interesting exhibit of dolls which charmed little owners many years ago. Some of these dolls are of great antiquity, including several over a hundred years old.

The Doll Shoppe is being arranged by the Social Service League, which organization is doing commendable community work by assisting in the rehabilitation of individuals and families who are in straits through illness, unemployment or other causes. The work is carried on largely through the generosity of the public and it is hoped that the venture will be liberally supported.

Tea will be served during the afternoon, a superfluity still will be run, and candy and home cooking will also be on sale.

A request is made that those willing to donate dolls for the sale of any size—will communicate with Miss Peggy McBride (phone 2440), who stresses the hope that interested friends will assist in dressing the dolls. Also anyone possessing dolls of particular interest or age, are asked kindly to loan them for the exhibit.

## YOUR HEALTH

### WHY A BABY'S CRY REALLY MAY BE IMPORTANT

By Royal S. Copeland, M.D.

It is remarkable at what an early age a baby will learn little tricks. I have observed an infant who would cry and then stop long enough to listen for approaching footsteps. You must watch out, dear mother, or you will encourage your youngster in the development of bad habits. Better let him cry until he finds out you won't yield to his whims.

If the baby is perfectly healthy and is wearing a knitted band, it is safe to let him cry for half an hour or so. You will be tempted to take him up, but when you once begin to humor him, you are breeding trouble for yourself and developing ill-temper in him.

When a young child awakens with loud screaming, it is due to bad dreams, or "night terrors," as they are called.

You see, there is much to be learned from the cry of a baby. Your baby will have its own little

ways, but usually they will not be able much from the average.

My advice to the young mother is to have the family doctor look the baby over at intervals of a month or so to make sure that he is all right. Do not hesitate to get experienced advice. If you live in a city and are too poor to go to a doctor, go to one of the baby health stations that are established by every board of health.

Unless it is due to temper or bad habits, the cry of a baby is a matter of importance. You must make sure just what its significance really is.

Needless to say, when the baby cries on being lifted or on beginning nursing, there is some condition which requires attention.

The point I have tried to make is that the mother must learn to recognize crying that has a physical foundation. In this case, whatever is responsible must be located and removed.

For the other kind of crying, if the habit is persisted in, the parents themselves must take the blame. It takes a lot of patience and self-sacrifice to be a parent. Little babies are very trying sometimes, but in the long run they are a precious possession, and all the sacrifices will be found well worth while.

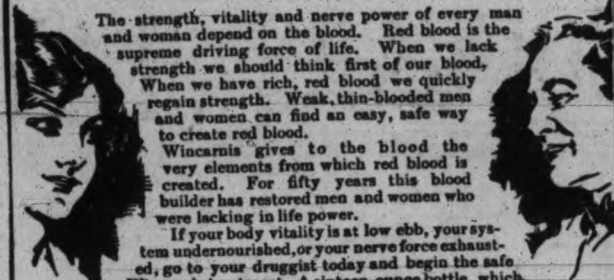

## TYPOGRAPHICAL UNION LEADERS CONFERRED

Indianapolis, Nov. 4.—Representatives of eighteen locals of the International Typographical Union and of four mailers' union locals conferred here yesterday with James M. Lynch, newly-installed president of Typographical Union, and members of the executive council on conditions left in the wake of the recently ended strike for a forty-four-hour week in commercial printing shops.

Efforts to reclaim shops, which began non-union in the course of the three-year strike will be concentrated in certain large cities, in which the strike was not entirely successful, Mr. Lynch said.

The new union administration will undertake to reach an arbitration agreement with the American Newspaper Publishers' Association. The last administration failed to negotiate such an agreement.

## STRENGTH AND VITALITY CREATED BY RED BLOOD

The strength, vitality and nerve power of every man and woman depend on the blood. Red blood is the supreme driving force of life. When we lack strength we should think first of our blood. When we have rich, red blood we quickly regain strength. Weak, thin-blooded men and women can find an easy, safe way to create red blood.

Wincarnis gives to the blood the very elements from which red blood is created. For fifty years this blood builder has restored men and women who were lacking in life power.

If your body vitality is at low ebb, your system undernourished, or your nerve force exhausted, go to your druggist today and begin the safe Wincarnis treatment. A sixteen-ounce bottle, which is a fourteen-day Wincarnis treatment, is sold by all leading druggists for \$1.50.

Wincarnis is so effective that only three tablespoonful a day need be taken. Try Wincarnis at once and see the strength that just a few days will bring.

## Parents Jailed For Cruelty to Child

Dauphin, Man., Nov. 4.—Retributive justice exacted its penalty for cruelty to a helpless child when Alexa and Catherine Leclaire were convicted here yesterday on a charge of ill-treating their young step-daughter. Leclaire was sentenced to fifteen months in jail while his wife was given twenty-three months in the detention home.

Evidence was given to the effect that the Leclaires had repeatedly beaten the child unconscious, while on one occasion the girl was harassed to a sled and compelled to

pull other children of the family for twelve miles.

VICTORIA STOCKS

Stocks on the local market were quiet again to-day, conditions having again reached a stage of expectancy. A message was received from the North to-day that Dunwell is now within fifty feet of hitting the ore body in No. 4 tunnel, and that in the No. 4 tunnel so far it has reached the duplications of No. 3. The hitting of this ore body is looked forward to because its certainty will add some \$10,000,000 to Dunwell's value.

Persons who are buying and holding the stocks of the leading properties up there are really in the position of betting for big profits that Dunwell, Terminus and Glacier will encounter their ore bodies as expected.

Prices on the local market to-day were firm, as follows:

Bushy tall, the squirrel, gathering nuts beneath a tree.  
"Why aren't you at school, Johnnie?" asked Uncle Wiggily.  
"Why are so many of you children out of school?"  
"Cause it's election," chattered Johnnie. "Don't you know you have to vote for Uncle Butter to be mayor of Woodland-to-day? And to-night we animal boys are going to make a big bonfire and have a lot of fun."

Along came Uncle Butter.

"Cause Uncle Butter is going to be elected."  
"Oh, I almost forgot it was election," said Uncle Wiggily. "Well, that goat gentleman is a good friend of mine, so I will vote for him."  
"And then will you help us make a bonfire?" asked Johnnie.  
"To be sure I will," answered the rabbit gentleman. "It's been a long while since I jumped through the smoke of a bonfire. I'll help make one."

Nurse Jane wanted to know. "Are you going to play golf?"  
"I am going to vote and you must also vote, for ladies can do that now," explained Uncle Wiggily.  
"After that I am going to make a bonfire."  
That evening when election was over and Uncle Butter had been made mayor of Woodland, Uncle Wiggily hopped to the open place in the forest, where the pile of wood and leaves was all ready to start the bonfire. None of the animal boys were yet there.

"I'll play a jolly little joke on them," said Uncle Wiggily. "I'll put some ears of popcorn inside the pile of wood and leaves and later in the evening I'll take them out and the boys can have popped corn."  
But just then along came Uncle Butter. He and Uncle Wiggily sat down on a stump to talk about the election. And while they were talking up came the animal boys, who started the bonfire. Up blazed the leaves and dried wood. And Uncle Wiggily was so busy sowing of popcorn that he forgot all about the bonfire and ate them.

"Bang! Bang! Bingity-bang-bang!" went the popping corn. The white kernels, bursting flew out of the bonfire and some hit Uncle Butter on his nose.  
"Oh, some one is shooting at me! Some one is shooting! Come on, Uncle Wiggily! Let's run!" bleated the goat.  
"Run! Run!" cried the animal boys.  
"I don't run. It's only popping corn!" cried Uncle Wiggily with a laugh. "I forgot to tell you about it. No one is shooting. It is only the corn popping."  
Then Uncle Butter and the boys were no longer afraid. They caught the bursting kernels of corn as they popped in the bonfire and ate them. It was a jolly election fire. Uncle Wiggily bleated Uncle Butter. And the animal boys cried: "Hurrah! And if the potato mash we take from the egg beater to the movies instead of playing tag with the gold fish, I'll tell you next about Uncle Wiggily and the lame ant."

"You have only to let Blake find you there alone in Julie's apartment," Anna rushed on. "I can help you. We can manage somehow to make it appear in a bad light. Blake will be easy to convince. He is quite simple in some ways. One more disillusioning touch and he will be through with Julie forever. She will have to take you, and I—"

Latour wrenched himself from her grasp. With a single stride, he reached the door and opened it.  
"Good afternoon, Mademoiselle." He bowed low, with a homage that was acutely ironical.  
Anna stared at him blankly, for a moment uncomprehending.  
"Good afternoon," he repeated pleasantly, but the knuckles were white on the hand which held open the door.  
"You fool!" burst from Anna. "Don't you realize that Blake is still in love with Julie, that once he gets to her, you'll lose her forever?"  
"Good afternoon," was the suave reply. There was nothing left for Anna.

## Zionists' Dream of Their Own Nation In Palestine Begins to Show Actuality

Jerusalem, Nov. 4.—How successful is the Jewish experiment in Palestine, says:  
"Will the Zionists' dream of a nation all their own, reviving the language and literature and religion of ancient Israel be fulfilled?"  
Leaders of the movement are confident it will. Much already has been done.

"Eighty-two farm colonies have been established on 200,000 acres of land brought under cultivation," says P. H. Kisch, Zionist executive in Palestine. "Wheat, sesame, rye, tobacco, cotton, oranges and olives are produced."  
"Denuded mountains are being reforested, a million trees having been set out."  
"Yet some who have gone to Palestine say that progress is not rapid enough."

PEOPLE TOO POOR  
Rabbi H. Werner, who has spent a considerable part of his life in Cincinnati, says:  
"The Zionist movement is very good for the Jews. But it is moving too slowly."  
"The Jews now coming to Palestine are too poor. And many of them have Socialistic tendencies."  
"We need more private enterprises, more individual initiative. If rich Jews would come and promote business and agriculture, it would be far better for us."

"Those who have come in are mostly too weak to make the movement a success by themselves. We have to bring everything here from Europe."  
"All countries must help us. The League of Nations must set up our Jewish state. Nothing would do so much for the peace of the world."  
NEED AMERICAN JEWS  
Then there is Louis Weinberg, former president of the Weinberg Baking Company of Cincinnati.  
Weinberg, at sixty, came over a year ago, married a Russian Jewess and bought a house. Since then he has acquired considerable other property.  
"We have no little business. We have no coal, no wood. We have no manufacturing."  
"This country needs electrical power. Without it little can be done in an industrial way."  
"Land is constantly growing in value. Fortunes can be made easily in real estate transactions."  
"I have bought, rebuilt and remodelled property here. To-day I am making 10 to 12 per cent on my original investments. Other Jews can do the same."  
FORTUNES AWAIT THEM  
"The Jews from the United States could invest a little money here and

Temporary dwellings on one of the Zionist farm colonies in Palestine. Many of the new arrivals still are living in tents.

make fortunes in two or three years." At the present time, it is estimated no more than 200 Jews are entering Palestine monthly. A few months ago the number was considerably larger.  
The Zionist fondly expects the British guarantee of "national home" means the establishment of an independent Jewish state.  
But a high British official had only this to say:  
"The British Government, at the moment, does not contemplate setting up a Jewish state. The Jews are free to talk as they please."  
Yet much already has been done toward the fulfillment of the Zionists' hopes.

ONE LANGUAGE ONLY  
New towns are springing up and old towns are being transformed. Tel Aviv, near Jaffa, is said to be the one all-Jewish city in the world.  
A great new city is springing up outside the walls of old Jerusalem. The Zionists call it "New Jerusalem."  
Educational aims are outlined by Gershon Agronsky, in charge of publicity in Palestine, as follows:  
"Our school system will range from the kindergarten to the university. The old classical Hebrew will be the language taught in all of them."  
"Already the tongue of David and Isaiah is again being spoken in the homes and in the markets. No longer is it good form for a Jew

over here to speak another language. Our university is about ready to open with one or two departments functioning. More will be added from time to time.  
"Our schools are the hope of the future."

### THE LAST CARD

When Anna was shown into Latour's studio, she found the young Frenchman standing by the window scanning an evening newspaper in the waning light.  
At sight of Anna, he tossed it aside and came forward with a courteous greeting.  
Anna wasted no time in preliminaries. She was desperate. She couldn't afford to let a single minute slip. Visions of Blake throttling the truth out of Jimmy Phillips—Anna knew quite well that Jimmy's story had been a base prevarication—all these flashed and tortured her.  
"Monsieur Latour," she began abruptly, "I have come here to make you a rather curious proposition. Though we have met only a few times, I think we understand each other quite well. We each want something that is denied us. By combining our forces, I sincerely believe that we can each attain our heart's desire."  
Latour's politely blank expression disconcerted her. She had thought to see comprehension dawn in his eyes. He should have made it clear for her. Instead, he wore a mask, an apparently imperturbable mask.  
Anna forced herself to go on calmly.  
"I refer to the affair of Julie Blake and the unfortunate happening at her apartment last night. I see that you have read the papers, the motion picture on the crumpled sheets which he had discarded at her entrance.  
Still that mask-like look. He merely bowed assent. She didn't know him well enough to read the danger signals in this calm, the chill blankness of his gaze. Even Julie had never suspected the fury of passions that could rage beneath that mask-like exterior.  
"Monsieur Latour, I know that you are in love with Julie."  
A flicker of irony crept into the dark eyes.  
"Mademoiselle honors me with her suspicions," he bowed ceremoniously.  
"Let's not quibble," said Anna impatiently. "You want Julie and I want her former husband. He and I were childhood sweethearts. Julie stands in our way though she doesn't know it, and John Blake himself doesn't realize it. He thinks he loves her. She is ruining his life. She must be removed once and for all before it is too late. If you can persuade her to marry you, she will divorce Blake as soon as the Senatorial elections are over."  
A tinge of color had crept up under the smooth olive of Latour's

**E. L. BERRY HERE**

Is Pioneer of Delta: Hopes for Better Communication With Victoria

Expressing the hope that the time would come when there would be the old association between Victoria and the lower Fraser Valley, E. L. Berry of Ladner was in the city yesterday, renewing acquaintance with old friends.

Mr. Berry states that owing to the improved communication between

Ladner by ferry and conveyance to Vancouver, the whole of the lower river trade has gone to that city. There ought, he thinks, to be a larger movement of freight across to here as was formerly the case.

Business has not been too good in the Delta recently, and some improvement in the situation is urgently sought. The famous Delta potatoes are an early crop, he says, and it will be necessary if farmers are to retain their standing that the growers introduce a variety which will be suitable for keeping longer.

**THREATENS DAMAGE SUIT AGAINST CITY**

Latest Development in Milk Vendor's Quarrel With Council

Concerted Effort to Break Down Health Enforcement, Woodward Says

A threat of a damage suit against the city for \$20,000 for alleged willful and malicious actions of officials was the latest development in the quarrel of James Donegan with the City Health Department.

The threat contained in a letter received from J. A. Aikman, acting for Mr. Donegan and another letter from E. MacQueen asking for an inquiry following a conviction before Magistrate Jay for selling milk without a license led Alderman Woodward to declare there was a concerted action to break down the health department efforts to enforce the sale of pure milk.

"SCURRILOUS"  
"The more notice we take of the health department and the less of these birds the better," he said. "They are complaining against the actions of the health officers in enforcing the health laws and we should uphold the officers. As far as the last letter is concerned it is a tone and scurrilous attack in which he is afraid to come out as a man and shoulder the blame and places it upon his wife."

The letters were received and filed.

The letter from J. A. Aikman, solicitor for Mr. Donegan read: "I am in receipt of a letter from the clerk of the municipal council dated October 30, in which he informs me that my letter to you of October 23 last has been received. I thank you for the courtesy of acknowledgment, but allow me to say that such action on your part shows your utter inability properly to attend to city affairs."

"What do you care for the ratepayers' money? As shown by your actions it is quite apparent that with all your protestations at election time about economy, immediately you are squandering the city's money for the purpose of getting the support of one element or another of the voters."

I am instructed by Mr. Donegan to demand from you the sum of \$20,000 damages for willful and malicious actions on the part of your officials presumably under your Milk By-law which is so unreasonable that I do not hesitate to say the Supreme Court will declare it ultra vires.

City Solicitor H. S. Pringle reported that it seemed to be in order to receive and file the communication.

The Victoria British Israel Association will meet on Thursday evening next in Room 5, Surrey Block, Yates Street, 8 o'clock. Rev. Dr. Sippell will deliver an address on "The Gates of Empire." All are welcome.

**APPROVE COUNCIL'S AID TO INDUSTRY**

Native Sons Would Grant Concessions to Manufacturers

Native Sons of Canada, Victoria Assembly No. 1, endorsed the action of the council in seeking powers to grant concessions to bring industries to Victoria in a letter read at last night's council meeting.

"I have been instructed to inform you," the secretary, L. A. Campbell, wrote, "that our assembly is in accord with any action you may take to encourage industries in the city, or in the giving of any concessions in your power to any manufacturer who wishes to become established here, especially if you have a guarantee that only white labor will be employed."

The clerk was instructed to inform the assembly that this is in accordance with the policy of the City Council.

**TO MAKE SLAUGHTER HOUSE SANITARY**

City Halts Action For a Week to Await Developments

City Solicitor H. S. Pringle's report on an alleged insanitary slaughter house in an unorganized district of Vancouver Island was held over for a week by the City Council last night. This action was taken in view of the fact that the owner of the slaughter-house had expressed his willingness to meet the demands of the health department.

"I am of the opinion that the council had full power to prohibit the bringing into the city or selling any meat from the slaughter-house, and that such action would be warranted in view of the medical health officer's report on the slaughter-house," the solicitor said. "I may say," he added, "that identification of the article sold is not a matter with which the council need concern itself, but which would necessarily be left with the medical health department."

Alderman Woodward took exception to the latter point, but in view of the owner's reported willingness to improve the slaughter-house the matter was held over for a week to see what progress he made in this direction.

A report was also received from Dr. H. E. Young, secretary of the Provincial Board of Health, stating that the attention of his department was not called to the matter until articles had appeared in the newspapers. Instructions had been given the owner and there had been no evidence of neglect.

**COUNCIL DECIDES VETERANS SHOULD PAY POLL TAX**

Would Eliminate Exemption For Invalidated Men Now Recovered

Returned soldiers who came back from the war medically unfit, but have now recovered, should in future be called upon to pay poll tax, the City Council decided last night, and the city solicitor will be instructed to press for amended legislation accordingly.

Solicitor H. S. Pringle presented suggested amendments which exempted only those ex-Servicemen in receipt of a pension.

"In this connection," he reported, "I may say that as a result of conversations with and information obtained from some returned soldiers the proposed amendment appears to meet with approval."

The matter was brought up through a letter from a resident of Saanich who sought to have his property connected with the Northwest sewer. He offered to pay for such service and pointed out although a resident of Saanich he spent \$3,000 to \$4,000 a year in Victoria and thus indirectly contributed to the taxes. He did not think he should suffer through a quarrel between Victoria and Saanich.

These sewer problems should go to arbitration through Provincial Government legislation, Alderman Todd thought, and in the particular instance of the northwest sewer the City of Victoria had nothing to fear. If the application before them, the writer appeared willing to do everything reasonable if the connection with the northwest sewer was supplied, and he favored the chairman of the finance committee, Alderman Ker, and the engineer interviewing him with the object of making arrangements for the connection.

**CONTINUE EFFORTS FOR GONZALES BAY**

City Council Committee Will Confer With Saanich and Oak Bay

The City Council will continue its efforts to secure a change in the name of Foul Bay and Foul Bay Road by the substitution of "Gonzales" for "Foul." A communication was read at last night's meeting from the clerk of the Oak Bay Council stating that members were not in favor of a change in the name.

Alderman Woodward thought Oak Bay had no serious objection to the change, but thought they should have been consulted sooner. Saanich also had an interest in the matter, he pointed out and on his suggestion a committee consisting of Aldermen Ker, Woodward and Marchant was named to confer with the two municipalities in an effort to secure their co-operation in effecting the change.

**PROTEST**

Post No. 3 Native Daughters of British Columbia filed a protest with the Council on the change of name, "because these old names carry with them the history, association and romance of the early days of the province."

**GIVES EXPLANATION OF TAX INCREASE**

G. B. Johnson Paid \$45.84 in 1919 and \$191.13 in 1924

A report on a complaint of G. B. Johnson that the taxes on his property on Dallas Road East of Moss Street had been raised from \$45.84 in 1919 to \$191.13 in 1924 was made by the City Assessor William Scowcroft and City Treasurer Edwin C. Smith.

The report showed that the assessed value followed: 1919, \$1,500; 1920, \$1,500; 1921, \$1,500; 1922, \$1,425; 1923, \$1,380; 1924, \$1,310. Assessed value of improvements in the same years were \$4,500, \$4,500, \$4,500, \$7,500, \$6,800. Taxes for those years were \$45.84, \$44.56, \$49.06, \$95.33, \$159.87, \$191.13.

The change in assessed value and the taxation of improvements at 32 1/2 per cent for the years 1924 and at 50 per cent for the years 1923 and 1924 had the effect of raising the taxes above those of 1919, the report stated.

**WOULD ARBITRATE SEWER PROBLEMS**

Aldermen Favor Plan Which Would Force Hand of Municipalities

If Victoria cannot reach a satisfactory decision with Saanich over the municipality's payment to the northwest sewer it should go to arbitration, Alderman Todd declared at last night's council meeting.

The matter was brought up through a letter from a resident of Saanich who sought to have his property connected with the Northwest sewer. He offered to pay for such service and pointed out although a resident of Saanich he spent \$3,000 to \$4,000 a year in Victoria and thus indirectly contributed to the taxes. He did not think he should suffer through a quarrel between Victoria and Saanich.

These sewer problems should go to arbitration through Provincial Government legislation, Alderman Todd thought, and in the particular instance of the northwest sewer the City of Victoria had nothing to fear. If the application before them, the writer appeared willing to do everything reasonable if the connection with the northwest sewer was supplied, and he favored the chairman of the finance committee, Alderman Ker, and the engineer interviewing him with the object of making arrangements for the connection.

While favoring Alderman Todd's suggestion, Alderman Marchant thought it was only during the day when a settlement would be reached. He was in favor of a conference being held between the city and municipalities on the subject. He thought Provincial legislation should provide mandatory or compulsory powers to an arbitrator to say when the connection should be made. The city would never get satisfaction from Saanich on the northwest sewer. As long as it were put to the voters that municipality whether it should stand its share of the sewer cost it would be defeated every time.

Alderman Woodward claimed that he could not agree with Alderman Marchant's argument that to provide the connection would delay the settlement, because to refuse the connection might mean the outbreak of an epidemic which might spread to the city.

**UNITED WESTERN PROTEST ON CROW'S NEST SUGGESTED**

Winnipeg Board Protests Finding of Railway Commissioners

Winnipeg Board of Trade's protest against the majority judgment of the Board of Railway Commissioners on the Crow's Nest Pass Act was discussed by the directors of the Victoria Chamber of Commerce yesterday. The judgment is of serious concern to Western Canada, a letter before the directors stated, and a united protest by Western interests was advocated.

A resolution passed by the Winnipeg Board was enclosed. There was no justification for the decision of the Board of Railway Commissioners repealing the Crow's Nest Pass Act, and cancelling the agreement. It was stated, "The injustice of it is intolerable, and we request the Governor-in-Council to immediately rescind the judgment of the Railway Commissioners ordering the railway companies to withdraw the tariff schedule of rates bearing date July 7, 1924, made pursuant to the Crow's Nest Pass Agreement, and that the railways be ordered to put into effect immediately reduced rates from and to other stations, to the extent necessary to remove any discrimination of the schedules."

**ELECTRIC LIGHTS**  
A request for a street lamp at the corner of Cecilia road and Lane Street, made to the City Council last night was referred to the electric light committee.

**TO REPORT**  
A proper approach to property along Laurel Lane was asked for by L. M. More. A petition for the installation of a light had previously been before the council, but difficulties in the way of complying with the request had been found. The Engineer and electrician were instructed to report on the matter.
