EIGHTY-SEVENTH ANNUAL REPORT OF THE NORTH CAROLINA BOARD OF PHARMACY

MEMBERSHIP

The report this year begins with a note of sadness, since it must be recorded that on December 6, 1967, a well-loved and highly respected member of the Board, Frank W. Dayvault, died. He will be long remembered for his unselfish dedication to duty during his several terms of continuous service on the Board, which began April 29, 1952.

Pursuant to the provisions of G. S. 90-55, the Board elected Jesse Miller Pike of Concord to fill the unexpired term of Mr. Dayvault, which ends April 28, 1972. Mr. Pike was commissioned by Governor Dan Moore on March 7, 1968, and immediately assumed the duties of office. Mr. Pike is well qualified both educationally and by experience for Board membership and is well known by the pharmacists of the State for his professional leadership. The Board considers itself fortunate in having a person of Mr. Pike's capabilities to serve on the Board.

MEETINGS

There were ten meetings of the Board held during the year. Examinations were held at the March and September meetings. All meetings were held at the office of the Board, 109 Church Street in Chapel Hill. With two exceptions, there was 100% attendance of the members at all of the meetings.

OFFICES

There has been no progress made toward the solution of the office space problem that has been previously reported. The Board occupies its same location at 109 Church Street in the Institute of Pharmacy.

PHARMACIES AND PHARMACISTS

The shortage in the supply of available pharmacists to properly service existing pharmacy facilities remains critical. In

1965 the U. S. Public Health Service reported that there was a ratio of 38 pharmacists per 100,000 population in North Carolina (the lowest in the continental United States). Based on a survey of the applications for the renewal of pharmacist licenses for 1968 in the State, a more accurate ratio is established as 36 pharmacists per 100,000 population. Although there was a net gain of 57 pharmacists on the active roster, the number of pharmacists in actual practice remained static, with a slight loss. The total number in full- or part-time practice in community and hospital pharmacies is 1822. There was a loss of 17 in the number in community practice, and a gain of 16 in the number of pharmacists who practice full-time in hospitals. Fifty-eight of the pharmacists in community practice also practice part-time in hospitals and nursing homes.

Fifty-three pharmacists died during the year. This is the largest number of pharmacist deaths in a single year on record.

This is the second year in a row that there has been a reduction in the percentage of increase in the number of pharmacists in the State (and, as noted above, there has been a slight reduction in the number in practice). This situation, while of considerable concern to those who desire to employ pharmacists, is not one for alarm. The failure to show our accustomed percentage of increase this year simply represents a plateau caused by the exceptionally high death rate this year and the adjustments to the change from a four- to a five-year educational program. A general upturn is expected in the percentage figures beginning with the examinations this fall. Even so, the pharmacist situation in North Carolina is such that we must continue to increase our recruiting efforts to and beyond the capacity of our school to admit students until such time as our long-standing deficit in pharmacist manpower is eliminated.

The total number of pharmacy permits outstanding on April 30, 1968, was 1145. This is an increase of 31 over the number registered on this same date last year. This increase has been accounted for by the additional registration of pharmacy facilities in hospitals and nursing homes. There was a decrease of five in the number of community pharmacies during the year. There was also a shift in the ratio of independent to chain stores. There was a decrease of 18 in the number of independent pharmacies, and an increase of 13 in the number of chain drug stores during the year. These changes seem to indicate a trend of a course that is beginning in North Carolina that has been underway in other areas of the country for some time.

The program of registering the pharmacy facilities in hospitals and nursing homes continues in a highly gratifying manner. It is expected that the registration phase of this program will be substantially completed during the ensuing year. Plans are presently underway for the development of the second phase of the program, which will concern itself with improving procedures and practices in these institutions, with particular emphasis on the team approach to patient care and to better ways to further insure drug safety. The plan is to develop this phase of the program as a continuing one under the auspices of the School of Pharmacy. It is anticipated that the school will build this program as an extension or continuing education function which can, hopefully, be integrated in an appropriate way with the school's program in institutional pharmacy.

PRESCRIPTIONS

Six hundred thirty-four community pharmacies reported filling a total of 16,500,000 prescriptions during the year. This is an average of 25,951 per pharmacy. (Hospital pharmacies were not included in the calculations, since it is difficult to differentiate between prescriptions and "medication orders" for in patients.) This figure was 23,500 last year. If the average number of prescriptions per pharmacy this year is projected for the 1030 community pharmacies, it is found that slightly less than

26.72 million prescriptions were filled in the State last year.

LEGISLATION

In the 1967 session of the General Assembly, Section 90-67 of the General Statutes, dealing with revocation of the pharmacist's license, was completely revised and modernized. The revised act, in addition to revocation, provides for denial and suspension as well and makes these actions applicable to pharmacy or drug store permits. The grounds for action were made more realistic in terms of modern conditions. The passage of this legislation gave the Board the tools it has long needed for the speedy solutions of many of the problems coming before it. At the same time, individual rights are preserved through proper mechanisms for appeal to the courts.

LAW ENFORCEMENT

Sixteen cases involving the violation of the pharmacy laws (including Uniform Narcotic Act and the Barbiturate and Stimulant Drug Act) have been handled administratively before the Board. These cases were as follows:

Class X Narcotic Irregularities	1
Pharmacy Practice by Unlicensed Persons	9
Conviction for Violation of FDC Act	2
Narcotic Addiction	1
Narcotic Irregularities	1
Selling Barbiturate Drugs without Prescription	1

The majority of the above cases were disposed of through the filing of affidavits of compliance, voluntary commitment to hospital for treatment, letters of censure, etc. In one case a pharmacist's license was suspended indefinitely. In another case the pharmacist's license was revoked with the revocation order stayed on suitable probation.

NEWS-BULLETIN

The long-standing approach of the Board of Pharmacy to its law enforcement responsibilities has been one of education and prevention, as you are aware. This year the Board has put additional effort

behind its educational program through the development of the *News-Bulletin*. This organ goes to all pharmacies in the State and thus reaches some outlets that are not otherwise covered by our local publications. The purpose of this effort is to be informative. The Board sincerely hopes that it is reaching its objective. As stated in the first issue, comments and suggestions will be welcomed. The Board is anxious to make the *News-Bulletin* as useful to you as possible, so if you have suggestions, please let the Board office know about them.

PHARMACY INTERNSHIP

For more than 20 years we have acquired by reciprocity just under 50% of the pharmacists registered each year. The basic rule of reciprocity provides, among other things, that in order for an applicant to be eligible for reciprocal registration to a given state he must have met all of the requirements of that state at the time he was registered by examination in the state from which he applies. For many years the National Association of Boards of Pharmacy has sought to influence the establishment of uniform requirements in the several states to the extent it could do so with propriety.

For almost 20 years the educational standards have been made pretty much uniform as a result of the accrediting activities of the American Council on Pharmaceutical Education. The requirement of practical experience, however, instead of becoming more uniform, has become more diversified from state to state. This fact is beginning to cause serious problems in reciprocal exchange of licensure for most of the states.

Beginning last year the National Association of Boards of Pharmacy (of which all Boards of Pharmacy in the United States are either members or associate members, and in which several provinces of Canada hold associate membership) embarked on a program that is designed to effect voluntary compliance by all member Boards with uniform standards of practical experience, or internship. Quantitative standards have already been established and will become effective in 1972. (Inci-

dently, these are the same as North Carolina's present standards, which in fact were used to establish the national standard.) The next step in the national effort toward standardization is to establish minimum requirements for the qualitative aspect of internship. Some progress has been made on this more difficult problem. Three identifiable elements of the qualitative standards have been accepted by the Joint Committee on Internship of the American Association of Colleges of Pharmacy and the National Association of Boards of Pharmacy. Briefly, these are: (1) use of the *Preceptor's Guide*, which was developed several years ago, and with which many of you are familiar; (2) use of a uniform minimum set of forms, reports, etc., for internship registration, progress reports, affidavits of experience, etc. (the matter of the utilization of a notebook will be left to the individual states); and (3) the formation of a Tripartite Committee on Internship in each of the states. This committee is to be composed of representatives from the Pharmaceutical Association, the school (or schools) of pharmacy, and the Board of Pharmacy in each state. The duties of this committee, while not yet fully defined, will be to engage in any and all such activities as will improve the internship program in each state. It is expected that these activities will include efforts to provide as many opportunities for students to gain experience as possible and perhaps organize a placement service, recommend programs to assure the widest experience exposure possible for the students, foster preceptor seminars, etc. It is expected that the Tripartite Committee will engage in very much the same kind of activities as those presently undertaken by the N. C. Academy of Practical Instructors in Pharmacy. The responsibility has been placed on the Boards of Pharmacy in each state to see that this committee is organized in their respective states.

In the past the Board has employed a field representative when available to call on interns and preceptors during the summer months to answer questions and assist in other ways where he could to make the internship exposure a meaningful and sat-

isfying experience both to the student and to the pharmacist. For the past several years the Board has been unable to secure the services of a suitable person for this purpose. We are pleased to announce that this year Mr. Claude Paoloni, who is now a member of the faculty of the School of Pharmacy, will undertake this work during the summer months. The fine work that Mr. Paoloni has been doing in our State for many years is well known. We know that he will make the same kind of valuable contribution to our internship program.

NEW TRENDS

Earlier in the report there was identified what appears to be a trend toward a change in the types of pharmacies in the State. This is not the only change that is occurring in pharmacy's environment. Social developments in this country during the past several years seem to have firmly established the right of every individual to have quality health care without regard to his ability to pay for it. Without question, this will be interpreted to include pharmacy services. Further, the implications are that not only is our present *system* for the delivery of health services inadequate to meet present and future needs, but that the functions of the pharmacist must also be expanded. The demand is urgent for the profession to examine immediately these developments, assess its position in them and make adequate and suitable plans to assure its future. Whether or not all future needs can be met within the present framework of statutes regulating the practice of pharmacy will depend on the accommodations of the prevailing attitude of our pharmacists toward accepting and meeting these needs under circumstances to which they are unaccustomed. Obviously, the Board of Pharmacy is not a proper instrument through which the course of pharmacy practice should be directed. Without doubt, however, it will be called upon to make decisions which could markedly influence that course. The hope is that the profession will move forward to meet these new challenges and will solve the problems before they develop. A good capability for doing this has been demonstrated with the

Welfare Prescription Program and to a lesser extent with the Hospital Program. Urgent needs remain to be met in the Mental Health Program, the Nursing Home Program, the emerging O.E.O. Program, Planned Parenthood, etc. Your Association is doing a fine job in seeking out ways to meet this new dimension in health care as well as the changes that will occur in our traditional patterns of practice. But its efforts will be only as fruitful as the support which each of you give to them. No one questions the fact that you pharmacists are busy people. But unless adequate attention and effort are given to these and other programs now, ten to twenty years hence you may very well find that you are no longer such busy people.

There are doubtless some who tend to be depressed by these new developments, feeling that the security of their tradition is being challenged. This apprehension is not without some basis in fact, but there is also another side to the picture. There are many new areas in which the pharmacist is beginning to function and new challenges are being identified. Last year at a conference on Health Education Planning in Pharmacy, Medicine and Nursing, Dr. Edward Pellegrino, Director of the Medical Center at Stony Brook, New York, outlined the conclusions of the conference relative to its findings for pharmacy. He said:

"I would like now to turn to the specific recommendations of the conference with regard to the role of the pharmacist.

"These can simply be listed:

- (1) The pharmacist as the community advisor, educator, provider, and coordinator of drug services.
- (2) The pharmacist in the drug information center in the hospital.
- (3) The pharmacist as the coordinator and participant in research in the side effects, utility and effectiveness of drugs.
- (4) The pharmacist in the poison control center.
- (5) The pharmacist in the continuing education of the nurse, the physician, and the other health professionals.

- (6) The pharmacist as an advisor in the selection of drugs and in their prescription.
- (7) The pharmacist in the discharge interview.
- (8) The pharmacist as an anesthetist and in inhalation therapy.
- (9) The pharmacist in administering and prescribing drugs.

"These functions arise from patient needs and the complexity of therapeutics. As you begin to examine them, it will be clear that they may change our conceptualization of pharmacy."

Obviously, these new areas of practice will not develop overnight. There are, however, places throughout the country where some of these are now established facts. What is happening is only the beginning of what can be expected for the future. Thus it appears that pharmacists of the future will continue to be busy people.

EXAMINATIONS

In September, 1967, forty candidates qualified for admission to the examination; thirty-five passed and were registered. They are as follows:

EIGHTY-SEVENTH ANNUAL REPORT

Donald Lemar Esbin, April 30, 1968 from
Pennsylvania

Re: Annual Report 1967-1968

Gentlemen:

During the year 1967-1968, it has been my pleasure to serve the Board of Pharmacy as its attorney and I wish to submit here-with in summary my activities in this role.

For each of the regular meetings, I have been present to advise with the Board as to legal matters, and I have spoken to the applicants for licenses on the subject of the pharmacy laws of North Carolina. During the course of the meetings of this year, in disciplinary actions, I have participated as attorney for the Board in the development of facts arising out of these proceedings and then advising the Board as to the legal effect of such facts.

I have counseled with representatives of the National Board of Pharmacy and representatives of other State Boards of Pharmacy and I have been invited and plan to attend the meeting of the National Boards of Pharmacy in Miami to deliver a seminar paper at one of the sessions.

It has been both a professional and personal pleasure to work with the Board and its staff during this past year, and I sincerely trust that my efforts on the Board's behalf have been satisfactory to the Board and its staff.

Very truly yours,
BAILEY, DIXON & WOOTEN

To Members of the
North Carolina Board of Pharmacy

In Re: Annual Report

I submit herewith my report for the period May 1, 1967 to April 30, 1968 inclusive. The following inspections and investigations were made:

Retail Pharmacies	818
Special, including investigations	78
Class 4 and 5 (Narcotics permits including grocery stores)	49
Drug Manufacturers and wholesale houses	5
Miscellaneous	7

I assisted the Board of Pharmacy in conducting examinations for licensure on two occasions during the report period. I have attended all meetings of the Board of Pharmacy.

It may be of interest to the Board to review the following activities:

(a) During the report period, a total of 34 days work were devoted to investigations involving only 6 drug stores.

(b) During the report period, I have attended two one day seminars conducted by Bureau of Drug Abuse Control for local law enforcement agencies and attended a one week training program conducted by that agency.

Respectfully submitted,
Lloyd E. Davis, Inspector

RALEIGH, N. C.

May 20, 1968

To The Officers & Members of the
North Carolina Board of Pharmacy:

Gentlemen:

As requested, we have audited the financial records of Mr. H. C. McAllister, Secretary & Treasurer of the North Carolina Board of Pharmacy, for the period from May 1, 1967 to April 30, 1968, and the attached statement of Cash Receipts & Disbursements presents a Summary of Operations for the fiscal year.

All Receipts entered on the Cash Book were in agreement with duplicate receipts on file and were properly deposited in the bank. Disbursements for the fiscal year were made for apparently proper purposes and are supported by signed, paid checks, received bills, etc.

The Balance on Hand at April 30, 1968 consists of the following:

CASH IN BANKS:

North Carolina Nat'l. Bank	\$ 65,140.22
Central Carolina Bank & Trust Co. (Savings) .	12,983.00
	\$ 78,123.22

INVESTMENTS:

U. S. Treasury Bonds (2½%)	5,000.00
TOTAL BALANCE APRIL 30, 1968	<u>\$ 83,123.22</u>

The Cash In Banks was reconciled and verified. The five U. S. Treasury Bonds, 2½%, of \$1,000.00 each, were inspected.

The fidelity bond for the Secretary & Treasurer, in the amount of \$5,000.00, has been continued to October 1, 1968. A fire insurance policy of \$5,000.00 on office equipment, has been extended to January 1, 1970.

The records, as heretofore, are in splendid condition and no difficulty was experienced in the verification thereof. We acknowledge the assistance rendered and courtesies extended during the progress of the examination.

Respectfully submitted,
R. L. Price
Certified Public Accountant.

List of Drug Stores

Revised May 1, 1968

The number preceding the name of the drug store indicates the permit number of that store. Addresses for each store are listed where given. Person listed immediately following drug store was certified as pharmacist in charge (or permitted physician) on the application for the renewal of the permit. “*” denotes drug store operated under physician's permit. “***” denotes “limited service” institutional permits.
