

L. & N.W. Railway Memorial.

MR. R. WYNN OWEN, Architect.

A fine site has been allocated for the L. & N.W. Railway War Memorial in the centre of Euston-square, facing the station entrance. The obelisk is to be built of Portland stone with bronze figures representing the Services. The cross and wreath at the summit of the obelisk show an effective and original treatment, and no doubt the finished result of the whole will be generally approved.]
