## IMPROVEMENT FOR DOUGLAS

### SIDEWALKS WILL BE 20 FEET IN WIDTH

Some Interesting Business Transacted at Meeting of Streets Sewers, Bridges Committee

As a result of a decision reached at last evening's meeting of the streets committee, it was decided that the sidewalks on Douglas street will shortly possess advantages as a business thoroughfare beyond any other in the city, for it was determined to re-align the width of the cement sidewalks on the section from Humboldt to Fisgard, making them a uniform 20 feet.

City Engineer Smith presented a recommendation to this effect and the same was adopted, after a brief debate.

Mayor Morley and a number of the aldermen opposed the idea, being of the opinion that 20 feet was too great a width, but they were in the minority, and a motion to agree to the recommendation of the engineer carried.

As Douglas street is to be paved with wood blocks, all the wires placed underground and a row of ornamental lights placed on either side of the thoroughfare on the section mentioned, it can be seen that with these fine wide pavements which will now be added as a part of the scheme of improvement, this street will present a very striking and attractive appearance.

The city engineer recommended that a steel lining be placed in the creosote tank at the station at the foot of Telegraph street, estimating the cost of the same at \$300. The tank had developed some leakage, and repairs were necessary at once. There was some debate as to the best method of effecting the repairs, but finally the matter was left in the hands of the engineer, with power to act.

The application of Herbert W. Lees to be permitted to moor a boat-house and landing stage in front of the causeway was refused, the members of the board being agreed that no concessions whatever should be granted to private parties.

The necessity for extensions to the sewerage system caused some discussion, there being several applications before the board. It was finally decided that the system should be carried through Richmond avenue to Rockland avenue, the owners paying the cost, getting a refund out of the next sewerage loan.

Application from H. A. Munn relating to the city's occupancy of a small piece of land adjoining the railway bridge for the temporary foot-path recently built, was referred to the city solicitor for report. A dispute having arisen respecting the amount of money which should be paid Mr. Munn for the use of the property, he informed the board that it was his intention to take steps to secure the removal of the obstruction.

Miss Beatrice M. Booth, who resides on Belleville street, between Government and Douglas, wrote complaining of the manner in which the care and upkeep of the thoroughfare was being neglected. In particular she wished to know why the street could not be flushed at night, so as to abate the dust nuisance somewhat. The letter aroused some discussion, and it was finally decided to leave the matter in the hands of the engineer, who was requested to have the business streets flushed systematically after nightfall.

The presentation of a voluminous report on a variety of subjects by the acting city solicitor caused some of the aldermen to remark that they feared the solicitor would be presenting a big bill for his services to the city some of these days.

(Concluded on page 11.)

## RAILWAY COMPANIES

### WILL BE PROSECUTED

#### Interstate Commerce Commission Will Enforce Ruling Regarding Hours of Operator

(Times Leased Wire.)

Chicago, May 14.—The interstate commerce commission, through its secretary, Edward A. Moseley, has notified various railroad companies that the commission will not recognize the decision of Judge Grosscup, of the Circuit Court of Appeals, in the sixteen hour labor law case. The railroads likewise were served with a notice that the commission will prosecute eleven railroads that follow the decision.

Judge Grosscup's decision was to the effect that the railroads had a legal right to work telegraph operators more than 13 hours in day offices when the work is performed on "split tricks."

The commission insisted that 13 hours of work per day continuous or split was too much, and that such hours made the operator liable to mistakes, which might endanger the lives of railroad passengers.

## EMPIRE DEFENCE

(Special to the Times.)

London, May 14.—Major T. A. Brancey, in the Naval Annual, favorably alludes to the recognition by the colonies that the burden of the defence of the Empire is becoming too heavy for the British taxpayers, and says an imperial flag under one control is the best and most efficient plan.

## COUNCIL AND THE RESERVE

### MAYOR MORLEY HAS PREPARED STREET PLAN

Question Will Likely Be Discussed at Length at Monday Evening's Meeting

It is likely that the proposed settlement of the Songhees reserve question will form the leading topic for discussion at Monday evening's meeting of the city council. The matter was gone into in an informal way at last evening's meeting of the streets, sewers and bridges committee, when Mayor Morley exhibited a plan for a sub-division of the reserve which he had had drawn in the engineer's office. The members of the committee discussed the plan at some length, but made no recommendation respecting it.

Mayor Morley briefly outlined the nature of the present negotiations looking to a settlement of the reserve question, as the case had been presented to him by Senator Riley. In the plan which had been drawn at his suggestion, he had made provision for a union depot and truckage accommodation for all railways that might be seeking an entrance to Victoria. This depot was shown on the plan at a point on the reserve almost directly across from Johnson street. Adjacent to the depot site also were a couple of small parks, which his worship thought would be a good feature of the scheme.

Ald. Bishop heartily favored the plan, which he thought was a good one, but other members of the committee thought the matter too important to be gone about so hastily.

Ald. Mable expressed the opinion that the city had really little or no jurisdiction over the reserve, therefore it was a waste of time to lay out plans for a subdivision.

Ald. Raymond was not prepared to go quite that far, but he was of the opinion that the plan as drawn was faulty in many respects, and he would therefore have to withhold approval of it.

Despite the fact that this action on the part of the mayor in getting a plan of streets drawn was done at the instance of Senator Riley; despite the fact that the latter gentleman has stated in an interview in the Times that he had had conferences with Premier McBride and H. D. Helmcken, K. C., on the matter, and that both those gentlemen have heartily concurred in the scheme of settlement, a morning contemporary denies that any negotiations whatever are in progress. The Times made an attempt this morning to get a statement from Mr. Helmcken on the matter, but he said he regarded the communications which had been made to him as confidential.

## FATALLY INJURED

### IN AUTOMOBILE RACE

#### Car Plunges Through Fence and One of Occupants is Pinned Beneath Wreckage

(Times Leased Wire.)

Brighton Beach, May 14.—Dashing along at great speed, W. Endicott and Mechanician McGrunder, were thrown from the machine No. 5 near the grand stand here to-day. Both men were injured.

The accident occurred in the thirteenth hour of a 24-hour automobile race being held here. The machine was at a turn of the home stretch when it skidded and crashed through a fence.

Endicott escaped with a wrenched leg, but refused to retire from the race. McGrunder was more seriously hurt. He probably will recover, according to physicians.

William E. Brady, mechanic of the Marlon car, driven by Anderson in the 24-hour automobile race at Brighton Beach track, died early to-day at the Coney Island hospital from injuries received when the car plunged through a fence. The big racer turned over three times in its wild leap and Brady was pinned beneath the wreckage. Anderson was not injured.

At noon, Pool, in a Simplex, led with 140 miles. Dearborn, in a Fiat, was second with 73 miles and Mulford, driving a Stearns, was a close third with 72 miles.

## FISHERIES ARBITRATION

### R. Venning Will Act in Advisory Capacity to Canadian Council

Ottawa, May 14.—George Simpson, of the Commons Hansard staff, Mrs. Simpson, and Miss Ida Boyce, also of the staff, left yesterday for The Hague. Mr. Simpson and Mrs. Simpson will make a stenographic report for the Canadian council in the fisheries case. Expert stenographers will also be employed by the American side. R. Venning, chief clerk of the fisheries branch of the marine department, who is an authority on all matters connected with international fishery treaties and regulations, will leave on the 20th for The Hague to act in an advisory capacity to the Canadian council.

## MISSION WORK IN WEST

London, May 14.—The archbishop's Western Canada fund now amounts to £19,000, three hundred pounds of which has been granted for railway mission work in the diocese of Qu'Appelle, under Rev. D. E. Edmondson and £1,000 to the Bishop of Athabasca for the purchase of mission sites.

THE EVOLUTION OF VICTORIA.  
EASTERN VISITOR—"Why, I thought this was a quiet old place!"

## TO PLACE WIRES UNDERGROUND

### SOME PROGRESS WITH AN IMPORTANT SCHEME

#### Text of Proposed Agreement Property Owners and Corporation Shall Make

Some progress is being made in furtherance of the scheme for placing all wires underground in the business section of the city. Forms of the proposed agreement between the corporation and the various property holders involved in the proposition have been distributed, and it is understood that a number have already been signed.

Ald. Mable, chairman of the electric light and telephone committee, is working energetically on behalf of the scheme, and he hopes to have it up at an early meeting of the council.

The form of agreement which is being distributed reads as follows: "Whereas it is desirable in order to insure public safety and improve the appearance of the streets in the city of Victoria, and the values of properties upon such streets, that all poles and wires of electric light, power, telephone and telegraph companies should be removed out of view, but in order to carry out this idea it is necessary to have arrangements with property owners for the placement of such poles and fixtures as may be found necessary upon privately owned property.

"Witnesseth: That in consideration of the premises and the sum of one dollar now paid to the said grantor, by the said city, the parties hereto agree as follows:

"The city may at any time place such poles, wires, attachments, conduits or fixtures upon, over, under or across the property, as may be found necessary in the distribution or operation of the services above mentioned, and may at all times have free ingress and egress thereto for the purpose of maintaining and keeping in operation and of protecting the fixtures and property herein referred to, and the city shall pay the said grantor any damages caused by the said property by the placement of such poles, wires or fixtures thereon, and thereafter after any alteration replace such property as nearly as possible in the same condition as it was before such alteration, and this agreement shall run with and be binding upon the land in question at all times.

"In case the grantor alters any existing structures, builds or rebuilds upon said property the necessary expense connected with the temporary placing of such poles, wires or fixtures during the time such alterations or building operations are being carried on shall be borne by the city and also shall all expense connected with the permanent replacement of such poles, wires or fixtures thereafter upon the premises.

"This agreement shall endure to and be binding upon the heirs, executors,

## NO SPORTS ON VICTORIA DAY

### COMMITTEE DECIDES TO ABANDON EVENTS

#### Indians Give Notice That They Cannot Take Part in Regatta So Soon After Funeral

The Victoria Day celebrations have been abandoned owing to the death of King Edward VII. The celebrations committee met last night at the city hall and came to the conclusion that it would be right to abandon the celebrations, which would follow so closely on the funeral of his late Majesty. The Empire Day festivities in Great Britain have been postponed, and the following formal resolution was passed by the committee last night unanimously: "That the Victoria Day celebrations in Victoria be abandoned out of respect to the memory of the late King Edward VII."

Secretary McCallum brought to the notice of the general committee the fact that the Indians, who were to have taken part in the Indian canoe races at the Gorge regatta, were averse to competing owing to their respect to the King's memory. The canoe races being one of the big attractions the committee felt, from this point as well as others, that the regatta had better be abandoned.

All subscriptions which have been received will be returned to the donors and the city will bear any out-of-pocket expenses incurred in the preparations as far as these have gone to the present time.

## SAYS METHODISM IS NOT HOLDING ITS OWN

### Sir Robert Perks, Addresses Meeting in London on His Recent Visit to Canada

(Special to the Times.)

London, May 14.—Speaking at a meeting in the Wesleyan hall yesterday in reference to his recent visit to Canada, Sir Robert Perks said he could not help noting that Methodism there was not holding its own. He had found the old pioneering method of Methodist fathers practically abandoned and the Methodist church in Canada had become mere isolated congregations.

THE CZAR OF RUSSIA.

## DUKE OF CONNAUGHT AS GOVERNOR-GENERAL

### Hon. Sydney Fisher Says Appointment Would Prove Popular in Canada

(Special to the Times.)

London, May 14.—Hon. Sydney Fisher, in referring to the governor-generalship of Canada, said that some Canadians might fear that a royal prince would not be as accessible as a governor-general should be in a democratic country like Canada, but as a matter of fact the Duke of Connaught had shown himself very accessible when in Canada, and there would be no possible cause for doubt that such an appointment would certainly be flattering to Canadian pride.

The form of agreement which is being distributed reads as follows: "Whereas it is desirable in order to insure public safety and improve the appearance of the streets in the city of Victoria, and the values of properties upon such streets, that all poles and wires of electric light, power, telephone and telegraph companies should be removed out of view, but in order to carry out this idea it is necessary to have arrangements with property owners for the placement of such poles and fixtures as may be found necessary upon privately owned property.

"Witnesseth: That in consideration of the premises and the sum of one dollar now paid to the said grantor, by the said city, the parties hereto agree as follows:

"The city may at any time place such poles, wires, attachments, conduits or fixtures upon, over, under or across the property, as may be found necessary in the distribution or operation of the services above mentioned, and may at all times have free ingress and egress thereto for the purpose of maintaining and keeping in operation and of protecting the fixtures and property herein referred to, and the city shall pay the said grantor any damages caused by the said property by the placement of such poles, wires or fixtures thereon, and thereafter after any alteration replace such property as nearly as possible in the same condition as it was before such alteration, and this agreement shall run with and be binding upon the land in question at all times.

"In case the grantor alters any existing structures, builds or rebuilds upon said property the necessary expense connected with the temporary placing of such poles, wires or fixtures during the time such alterations or building operations are being carried on shall be borne by the city and also shall all expense connected with the permanent replacement of such poles, wires or fixtures thereafter upon the premises.

"This agreement shall endure to and be binding upon the heirs, executors,

## MANY BOODLERS ARE CONVICTED

### EX-COUNCILMEN OF PITTSBURG SENTENCED

Former Cashier of Bank Also Sent to Jail for Offering a Bribe

(Times Leased Wire.)  
Pittsburg, Pa., May 14.—A. A. Vilsack, former cashier of the German National bank, to-day was sentenced to serve eight months in jail and pay a fine of \$5,000. Vilsack was indicted in the recent graft investigation and pleaded nolo contendere. He was convicted of having offered a bribe to the conclusion of the city to secure the passage of an ordinance naming the bank as a depository for city funds.

Ex-Councilman Charles Stewart, one of the alleged "big six" and one of the prime movers in the alleged scheme to obtain money from banks in return for naming them as city depositories, was sentenced to serve eight months in jail and was fined \$500.

Besides Stewart, William Brand, president of the common council; Jos. Wasson, president of the finance committee; John F. Klein, former councilman, and William Ramsey, president of the German National bank, have been convicted and are now serving terms in the penitentiary.

Ex-Councilman Hugh Ferguson was sentenced to-day to serve eight months in jail and pay a fine of \$500.

Dr. W. H. Webber was sentenced to serve six months in jail and pay a fine of \$500.

Ex-Councilman P. D. Kearns was sentenced to serve four months in jail and pay a fine of \$250.

Ex-Councilman Morris Einstein was sentenced to serve six months and to pay a fine of \$250.

An attempt to block the graft prosecution here was begun to-day when charges of perjury were filed against Johnny Klein, chief witness for the prosecution. Those placing the charges hope to discredit the testimony of Klein, which involved many indicted men.

Klein was brought from the penitentiary to be present in court. On his return to prison he said, airily: "I'm going home. I want to be on hand to welcome the rest of the boys when they arrive."

Vilsack, Einstein, Webber and Kearns were taken to jail immediately. Ferguson and Stewart were granted stays on appeals.

## PREMIER MORRIS IMPROVING

London, May 14.—Sir Edward Morris, premier of Newfoundland, was taken ill yesterday, but is reported better to-day.

## OBJECT TO CANADA'S IMMIGRATION LAWS

### Emigration Societies in the Old Country Seek to Have Restrictions Removed

(Special to the Times.)

London, May 14.—The question of the English emigration to Canada is receiving particular attention just now owing to Canada's stipulation that assisted emigrants must be willing to work on the land.

Sir Clement Kintock Cooke, M. P., chairman of the emigration board, is working assiduously to have this restriction removed, believing that it is depriving the Dominion of many artisans who though assisted in their passage to Canada, will eventually prove desirable inhabitants of that land.

"My great desire is to see labor exchanges throughout the British Empire," he said. "This will tend to do away with starvation and settle the unemployment question. Through these exchanges men would learn where there was demand for their services. Desirable workmen could be assisted."

The Morning Leader continues its campaign against the Canadian emigration regulations and states that the Canadian Northern railway recently engaged 25 men through the central unemployed body who are now unable to sail to Canada. It gives other alleged "hard cases" and concludes "As Mr. Dooley once remarked, the colonial hand across sea is seemingly extended for the purpose of giving the Old Country a nasty one under the chin."

## NEW LINES IN COLORADO

### Report That Railways Will Spend Fifty-four Million Dollars

Denver, Colo., May 14.—New railroad construction work, to cost the estimated total sum of \$54,000,000, will be begun in the very near future on several lines in Colorado, according to official announcement made here.

The plans include the construction of more than 200 miles of new road by the Burlington, 120 miles by the Denver & Rio Grande, 84 miles by the Colorado & Southern, 100 miles by the Union Pacific, 40 miles by the Denver, Laramie and Northwestern, 200 miles by the Southern Pacific and 250 miles by the San Luis Southern.

## ANGLO-JAPANESE EXHIBITION

London, May 14.—The Anglo-Japanese exhibition, which was to have been opened last Thursday by King Edward and Queen Alexandra and the president of the exposition, opened to-day without any ceremony attending.

## THE FUNERAL OF KING EDWARD

### THIRTY-TWO COUNTRIES WILL BE REPRESENTED

Street Cars in London Will Remain Stationary for 15 Minutes on Friday Next

(Special to the Times.)  
London, May 14.—Altogether thirty-two countries will be represented in the royal funeral procession, including eight kings and emperors, four ruling princes and eight queens. Among the mourners who will participate in the procession both on Tuesday to Westminster hall and on Friday to Paddington station will be the Queen Mother and Princess Victoria. The time of the actual funeral services, it is now stated, has not been fixed.

The moment the body of the King leaves Westminster hall all cars on the tramway systems of London will come to a standstill, remaining stationary for fifteen minutes. It is announced that the period of mourning will extend to June 17th, and from that date until July 29th half mourning.

The Duke of Connaught has taken a last look at his brother, King Edward's body is now lying in the throne room of Buckingham palace.

It is announced that Lord Strathcona, along with Hon. Messrs. Aylesworth and Fisher, will represent Canada at the funeral.

In a drizzling rain early to-day mounted artillerymen left St. John Wood barracks to traverse the route to be taken by the procession on Tuesday from Buckingham palace to Westminster hall. A small cortege numbering sixty-eight horses called at Chelsea barracks for a gun timber on which was placed a canopy coffin.

A message from the Australia parliament to the King says: "By a coincidence, which we trust will prove a happy augury for Australia, Your Majesty was proclaimed King upon the same date as that on which Your Majesty, as the Duke of York, nine years ago, opened in person the parliament of the Commonwealth, which thus entwined another strand among those crimson threads of kinship of the peoples of Great Britain and the Dominion overseas."

The wreath presented by British Columbia will be comprised of magnolias, lilacs and orchids.

It is announced that messages of condolence from Canada now number 67.

When Col. Roosevelt arrives here on Monday morning he will have dropped the role of a private citizen and so will be accorded the honors due to the special American ambassador to the funeral of King Edward. King George to-day designated two aides-de-camp to attend upon the American ambassador during his stay in England. These are Lord Dundonald, formerly commander of the Canadian militia, and Commander Charles E. Cunningham Graham. The aides-de-camp will meet Mr. Roosevelt at Lonsborough and accompany him to London.

The demand for seats to view the funeral procession are extraordinary. Offers of £100 for windows are reported as common, while it is stated that Offers of £100 for windows are reported for all the windows of a house with a commanding position on Piccadilly which has been declined. Numerous tickets for seats to view the procession have been sold to applicants in Montreal and Toronto.

Officers Warned to Keep Close Watch for Unusual Deflections of the Needle

## COMET MAY INTERFERE WITH SHIPS' COMPASSES

### Officers Warned to Keep Close Watch for Unusual Deflections of the Needle

(Times Leased Wire.)  
Portland, Ore., May 13.—In a government bulletin issued by the hydrographic office, which has just been received here, fears are expressed that the close approach of Halley's comet to the earth, beginning next Monday and lasting until Thursday, may seriously interfere with ships' compasses and wireless messages. The bulletin says in part:

"It is possible that during the approach and recession of Halley's comet unusual electro-magnetic phenomena may occur. Electro-magnetic waves may be sent up by electrical discharges or meteoric particles, in which case disturbances would be observed in the receiving apparatus of wireless installations. The maximum effect will be observed between the 18th and 20th of May, and particularly on May 18th.

"It is requested that wireless operators pay particular attention to static effects during this period, and note any disturbances. The occurrence of anything unusual should be reported to the watch officer with details of time, size, direction and duration. The operator, hearing unusual noises in the telegraph, should note the time and see whether there were any meteoric disturbances at that time; also the ship's head, and the direction of the antenna at the same time.

"As the compass may also be affected, a close watch should be kept for unusual deflections of the needle, noting their exact time, amount, whether periodical.

# HUNTING OF ELK OR WAPITI PROHIBITED

Order-in-Council Passed Ordering Closed Season for Next Three Years

There will be a closed season on Vancouver Island for the next three years for elk or wapiti, commencing from September 1st, 1910.  
The present issue of the B. C. Gazette contains the order and the increase of the district over which elk is protected. Formerly the elk or wapiti could be shot on the northern portion of the Island, but under the new order the whole of Vancouver Island is included in the closed period for three years. The order issued is as follows:  
That that portion of order in council which prohibits the hunting, killing or taking of elk or wapiti on Vancouver Island and south of the following described line, namely: "Commencing at the mouth of the Little Qualicum river, thence following that stream westerly to its junction with the Alberni road, thence following the Alberni road to the Alberni Canal," be and is hereby revoked. And it is further ordered that the hunting, killing, or taking of elk or wapiti on Vancouver Island shall be and the same is hereby prohibited for a period of three years from the 1st day of September, 1910, to the 1st day of September, 1912.

# BABY ECZEMA SKIN IRRITATIONS

Splendid Results Obtained by Using DR. CHASE'S OINTMENT, the Greatest of Healers.

Thoughtful mothers are forsaking pore-clogging and unsanitary powders for the use of Dr. Chase's Ointment and find there is no treatment so effective for chafed and irritated skin, scalded head and eczema.  
This ointment makes the skin soft and smooth and ensures healthful natural action of the pores of the skin.  
A trial of Dr. Chase's Ointment is usually enough to convince anyone that there is nothing like it as a beautifier of the skin and as a means of overcoming painful and annoying itching skin diseases.  
It is so pure and clean, so delightfully soothing and healing, and so pleasant to use that it soon finds a permanent place in every home where its merits become known. Sixty cents a box, all dealers or Edmondson, Bates & Co., Toronto. Write for a free copy of Dr. Chase's Recipes.

—Where are the best buys? Answer on Page 17.

Henry Smith, representing the citizens of Stewart, and J. Fred Ritchie, government engineer, waited upon Premier McBride yesterday afternoon to ask for a grant of \$20,000 for necessary public works in the new city at the head of Portland Canal. Of this sum \$20,000 is required for sewers and other works for the protection of public health, and \$10,000 for sidewalks and streets. The premier promised an early answer.

# FORMER GOVERNOR AND FAMILY ARRESTED SAYS COAST LINE IS GRADUALLY RISING

Are Accused by Customs Officers With Conspiring to Smuggle Goods Into U. S.

New York, May 11.—Frank W. Rollins, former governor of New Hampshire, and now a banker, with Boston offices, his wife, Catherine, and his son, Douglas, were charged yesterday in the sworn statement of a customs officer with conspiring to "smuggle into the United States wearing apparel and jewels without paying duty legally due thereon."  
Mr. Rollins and his son were arraigned late yesterday before a federal commissioner and released in \$2,000 bail. Neither would talk for publication.  
Mrs. Rollins was so prostrated that she took to her bed in a hotel immediately on landing from the Lusitania, and her presence was not required before the commissioner. She will answer to the charges against her as soon as she has recovered.  
The Rollinses were first-class passengers on the Lusitania, which arrived here yesterday from Liverpool. They brought nine trunks, on which Mr. Rollins declared only a woman's fur jacket, valued at \$800. The examination of their baggage had been only partly completed when Inspector Cassidy stepped to the desk of Deputy Collector Rasciwicz and whispered something in his ear. The deputy collector thereupon summoned Mr. Rollins to him and said: "It is my duty at this point to advise you that anything which is dutiable and which you fail to declare may be seized and that arrest can follow any action reasonably to be construed as attempted smuggling. Any statement you care to make, now, supplemental to your declaration, I am willing to accept. It might be well for you to talk with your family and find out if there is anything they have failed to declare. I am telling you this because I do not want to do you an injustice."  
Mr. Rollins bowed and consulted with his wife and son. When he returned he said, according to the customs officers, that his wife had emitted inadvertently to declare a cheap necklace, a bracelet, three gowns, two suits and minor sundries.  
Foxhall Keene, who was also a passenger to-day on the Lusitania, was notified by inspectors that he had failed to declare sundries brought from England said to be worth \$100. Mr. Keene said the omission was an oversight, and that he would be glad to pay the 60 per cent duty. His explanation was accepted.

Geologist Makes Statement Regarding Series of Earthquake Shocks Reported in West

Seattle, Wash., May 11.—Professor Henry Landes, head of the geological department of the University of Washington, and one of the best known geologists of the west, said yesterday that the series of earthquake shocks along the western coast of North and Central America, was caused by the gradual rising of the coast line, which has been going on for centuries. A slight earthquake shock was registered by the university seismograph Thursday.  
"The earthquake shocks themselves are caused by the faulting of the rocks," said Prof. Landes. "There are changes of level going on along the entire coast from Alaska to California. In many places in California and Washington there are evidences that the land has risen in very late times. Consequently the sea has receded, leaving old beach lines above the present ones, which are easily recognizable. In the vicinity there are fractures in the underlying rocks."  
The seismograph records two or three shocks a week, but most of these are so slight that they are rarely felt.

# WASHINGTON MEN WIN INTERESTING DEBATE

Washington Representatives Defeat Victoria Law Students in Free Trade Arguments

Gen. E. Hoover and G. Ross Chamberlin, representing the University of Washington, defeated D. S. Tait and J. E. Sears, the champions of the Victoria law students, in a most interesting debate on "Free Trade vs. Protection" at the Carnegie library last evening. The visitors argued in favor of free trade for the States, while the local men upheld protection as being the best policy for our neighbors.  
Judge Lampman presided, and Rev. E. G. Miller, Hon. D. M. Stewart and W. Blakemore acted as judges. The subject was: "Resolved, that free trade would be more beneficial to the United States than a system of protective tariffs." The usual rules of debate were rigidly adhered to, each speaker being allowed twenty-one minutes, while seven minutes was given for a reply.  
The quality of the debate was reflected in the summing-up of the judges, who considered that there was nothing to choose between the competing teams in the matter of delivery. The decision was given to the Washington men on the merits of their arguments, which were adjudged more convincing than those of their opponents.  
Interest in this annual debate has been greatly stimulated by the action of Lieut.-Governor Paterson in donating a shield for yearly competition. This shield will be held by the Washington University next year.  
There was a good attendance, several visitors from the other side being present. The visiting university representatives were entertained at supper in the Poodle Dog restaurant last evening.

**INQUIRY INTO HULL DISASTER**

**COMPANY SHOWED LACK OF CAUTION**

**Coroner's Jury Would Prohibit Powder Factories in Cities, Towns or Villages**

Ottawa, May 14.—The inquest on the victims of the explosion at the General Explosive Company's works at Hull on Sunday was continued last night. The inquiry was held upon one victim, Antoine Servant, and the verdict was that:

"He came to his death as a result of being struck by a stone hurled by an explosion of nitrate at the magazine of the General Explosive Company, of Montreal, Ltd., at Hull. Without holding the said company criminally responsible, we consider it guilty of certain imprudence in storing a quantity of detonators in close proximity to their magazine, and also in not having a regular watchman on the premises; and we recommend the government of this province to make such amendments to the law as will secure the greatest safety to the public, and that in no case shall factories or stores be allowed within cities, towns or villages."

The manager of the works, A. E. Levesque, stated that all the buildings were sheathed with metallic siding and roofing, with every precaution taken against fire. Five water barrels were also always full of water. The detonators were stored 15 feet from the magazine. There were about 12,000 caps in store, amounting to about 20 pounds of fulminate of mercury. The manager described how he had shown that the nitrate could not possibly be accidentally discharged at the hearing before Judge Rochon, when the city of Hull tried to have the works removed. He stated that the fire might have been first started by some Swedish matches which he had in a drawer in his office. He thought mice might have set these off by rubbing them, if thought the first explosion was caused in the mixing house.

**ECZEMA IS CAUSED BY IMPURE BLOOD**

**It is Banished by Dr. Williams' Pink Pills Because They Make Good Blood**

Ask any doctor and he will tell you that eczema is caused by impurities in the blood; that nothing can cure it that does not reach the blood—that outward applications are worthless. That is the reason why Dr. Williams' Pink Pills have always proved so successful—they act on the blood, and in acting on the blood they banish those eruptions and pimples, relieve the irritation and itching and give perfect health. They have cured thousands of cases where poor blood has resulted in disease. Among those they have cured is Mrs. James Wilkins, Aylmer, Ont., who says: "I suffered a good deal with eczema and did not get anything to help me until I took Dr. Williams' Pink Pills. These freed my blood of all impurities and gave me speedy relief. I am, therefore, naturally very enthusiastic in praise of these pills." "A medicine that can make rich, red blood will cure anaemia, rheumatism, eczema, neuralgia, indigestion, heart palpitation, the ills of girlhood and of womanhood and a host of other troubles—simply because these troubles are the result of bad blood—that is why they always cure the above troubles and bring the glow of health to pale cheeks. Sold by all medicine dealers or direct at 50 cents a box or six boxes for \$2.50. From The Dr. Williams' Medicine Co., Brockville, Ont.

**JOE. CANNON'S VIEWS.**

"Good Business Man Better Off Than a Poor Politician," Declares Speaker.

New Haven, Conn., May 14.—"Politics is no business," according to an interview attributed to Speaker Cannon, printed in the Yale News. Cannon is quoted as saying: "To a bright young man who has anything in him, a college course is not necessarily fatal to success. That is my view of it."

"The common school system, the high school course, gives the average individual at least a fair equipment for practical success in business or in the various callings that men follow who live by the sweat of their faces. That is about all that the average would utilize."

"There is always a question as to whether the average student will survive the spoiling effects of a college course."

"The human animal on the average, is not worth his salt if he is incapable of making his own way. The greater rewards come in business, not politics. A good business man is much better off than a poor politician. The business man has better chance for advancement and better remuneration."

**CONDEMNED MAN SLOWLY STRANGLLED**

**Horrible Scene Marks Execution of Prisoner Convicted of Wife Murder**

Spokane, Wash., May 14.—A special to the Inland Herald from Walla Walla yesterday says: The thirteenth hanging at Walla Walla penitentiary, which occurred on Friday the thirteenth, was one of the most gruesome executions ever witnessed by prison officials. For twenty minutes after Richard Quinn dropped through the trap with the rope about his neck and the black cap over his face, he hung swaying back and forth, pleading with his executioners to draw him up and spring the trap again, so that his agony might be ended.

Quinn was a man of abnormal strength, and the muscles of his neck, automatically stiffening when the rope drew tighter about him, prevented his upper spine from being broken, and the man slowly strangled to death. The condemned prisoner maintained his bravado to the last, and refused any religious attendance. Early this morning he ate a hearty breakfast and walked briskly to the scaffold. As the cap was adjusted to his head he said to his jailers: "Before Almighty God and man I am innocent, save for an accident. Well, good-bye boys, I'm going out." The trap was sprung at two minutes past 5, and the man's body shot to the length of the rope, where it hung writhing in agony. Realizing his predicament, Quinn shouted: "Oh, my God, this is awful. Haul me up, boys, and drop me again. Hurry, take me back and let me drop again." The man's cries were distinct for several minutes and then became less loud and finally wavering, as unconsciousness came to relieve his sufferings. He was pronounced dead at 12.2. Warden Reed was absent from the city, and Captain Smith officiated at the execution. Quinn was convicted of having murdered his wife in Everett, Wash. He insisted that her death was accidental.

**CHARGES TAFT WITH BAD FAITH**

**Democratic Representative Scores President of U. S. and Attorney-General Wickershaw**

Washington, D. C., May 14.—Charges of bad faith on the part of President Taft and Attorney-General Wickershaw, in connection with the Ballinger investigation, were made yesterday in the house by Representative Harrison of New York.

The charges were made when Harrison withdrew his resolution calling on the attorney-general for original memoranda and other documents in connection with the preparation of Wickershaw's summary of the Glavis charges.

Harrison, a Democrat, presented the resolution after the Ballinger investigation committee had refused the request of Attorney Brandeis for these papers. The resolution created a sensation in the house and Republican regulars openly criticized the committee for having made it appear as they alleged, that the committee might be trying to shield some one. The resolution was expected to come up next Monday, Harrison, however, saved the regulars some embarrassment by withdrawing the resolution. His action was based on the fact that the attorney-general had admitted the fact which the documents called for were expected to prove, mainly that the summary was prepared after the date which it bore. Harrison said that the attorney-general had admitted that the summary had not been written September 11th.

Wickershaw's conference with Taft over the Glavis charges is alleged to have taken place on that day. Wickershaw's admission that the document was not prepared on that date was one of the most serious admissions ever made by a cabinet officer, Harrison said. The confession, Harrison said, amounts to a conclusion that the president and the attorney-general had agreed to furnish misleading information.

"The attorney-general," said Harrison, "offers a startlingly tame excuse, and I doubt whether the country will receive it with even respectful consideration."

**WILL CONTEST ENDS.**

Oakland, Cal., May 14.—Mrs. Joseph Boardman and her young daughter are in possession of the million-dollar estate left by her husband who died seven years ago. Since then the question of division has been in the courts. The will contest was settled by Judge Wells' decision in favor of the widow and her child, dividing the estate evenly between them.

Boardman left four wills giving his fortune to Oakland charities. He had been declared mentally incompetent before his death and the wills were denied probate. The estate was appraised at \$2,000,000, but the advance in real estate has so increased this to more than a million. The will contest has been before the courts several years.

The strength of the territorial force increased during 1909 by 1,241 officers and 7,984 non-commissioned officers and men.

VICTORIA DAY.

The action of the celebration committee in deciding that all public festivities shall be suspended on the "Queen's Birthday" of this year will, we believe, be generally commended.

The title of this trifling article must not be read too literally. It has reference to the experience of a minister of the Gospel, who, possibly, after the manner of his kind and of many others of a different kind, think too lightly of the grinding toll of journalists on daily newspapers.

A CANADIAN PERVERT.

Donald McMaster, K. C., did not seem so very different from Canadians of the normal type when he was a more or less prominent figure in the public life of this country.

PERSONAL.

T. E. Everett, of Halifax, N. S., is a visitor to the city. Mr. Everett arrived yesterday with the intention of staying a very short time.

Hon. Dr. Young went over to Vancouver yesterday afternoon. He returns to-morrow, and on Monday will take the oath of fealty to King George V.

Mr. Justice Morrison will preside at the Nansimo assizes, which open on Tuesday. Deputy Attorney-General Maclean will be crown prosecutor.

Mrs. Thos. Redding, of Victoria West, who has been seriously indisposed by an attack of pleuro-pneumonia, is, by many friends will be pleased to learn, recovering as rapidly as can be expected.

J. Heyland, of Telegraph Creek, was a passenger from the North on the Princess Royal. He is here on business and will return home shortly.

Joseph Clearhouse has just returned from Montreal, where he has been completing his third year at McGill University.

Captain Smith, a Puget Sound pilot, is in the city to-day waiting for the steamer Chatham, which is expected to-morrow.

half come from if not out of the pockets of the eaters of bread? And where would the still larger amount, the British millers would be enabled to collect upon wheat grown and ground in the United Kingdom as a result of the equalization of prices come from and go to? It would also come out of the pockets of the people and into the pockets of the millers.

HE CAME TO MOCK AND LEFT TO FRAY.

The title of this trifling article must not be read too literally. It has reference to the experience of a minister of the Gospel, who, possibly, after the manner of his kind and of many others of a different kind, think too lightly of the grinding toll of journalists on daily newspapers.

"The earth was without form and void, and darkness was on the face of the deep. And the spirit moved upon the face of the waters."

"Never shall I criticize newspaper men more. I shall pray for them: they shall have my heart's forgiveness henceforth and forever, the hardest worked, shortest lived, brain-workers on this watery old world of ours."

While this confession is flattering to the pride of journalists, says the Star it is quite likely that the reverend gentleman was carried to extremes by the novelty of his experience.

Nor is there any reason why he should cease to criticize the newspapers; what he ought to learn from practical experience is to remember their limitations.

Many ex-aldermen of the city of Pittsburg have been convicted of graft and sent to jail, but the question arises, will the hoodlers be kept in after they are put in? Experience answers, "no."

The only Pittsburger of means known to be serving time is Harry K. Thaw, and Harry is only in because personally he has been shorn clean by the lawyers.

Mrs. Thos. Redding, of Victoria West, who has been seriously indisposed by an attack of pleuro-pneumonia, is, by many friends will be pleased to learn, recovering as rapidly as can be expected.

J. Heyland, of Telegraph Creek, was a passenger from the North on the Princess Royal. He is here on business and will return home shortly.

Joseph Clearhouse has just returned from Montreal, where he has been completing his third year at McGill University.

Captain Smith, a Puget Sound pilot, is in the city to-day waiting for the steamer Chatham, which is expected to-morrow.

## Columbia WOOD HORNS

Made of finest quartered oak, seasoned, reinforced, three-ply veneer.

The Columbia, "No. 2" Wood Horn, Price \$12.00

The Columbia Symphony Wood Horn is everything that a Graphophone horn should be and that no other wood horn can lay claim to. It combines true acoustic qualities and natural tone with symmetry, strength, durability, perfect design and finish. Its method of construction is wholly unique. It is not veneer yet it has all the unbreakable qualities of three-ply cross-grain laid veneer. It is to all intents and purposes one solid piece of wood and far stronger than one piece of wood could be.

### THE MOST POSITIVE GUARANTEE COVERS THESE HORNS.

If they warp, pull apart or split, they will be immediately replaced. They are interchangeable with all other Columbia Horns on all Columbia tone-arm machines. Price in either mahogany or quartered oak \$30; spruce \$25.

### MACCABEE LADIES

#### HOLD CONVENTION

Distinguished Members of the Order Will Attend Meetings Here-Next Week

The Ladies of the Maccabees of the Victoria hives are working most energetically to have everything in readiness for the reception and entertainment of their visiting sisters, who will arrive in this city on Wednesday next. Besides the guest of honor, Miss Bina M. West, the national secretary of the order, who, with her party, will arrive on Wednesday's boat from Seattle, delegates to the convention will be present from Comox, Nanaimo, Rosedale, Greenwood, Grand Forks, Westminister, Nelson, Revelstoke, New Westminster, Vancouver and other points, for the Maccabee ladies in this province number almost one thousand.

Although the Ladies of the Maccabee would preferably have postponed their public meetings owing to the death of His late Majesty—King Edward VII, it was impossible to do so, but they will attend the memorial services in a body, and at the public meeting in the Victoria theatre, which is being held on the evening of May 20th under the patronage of his worship the mayor, reference will be made by the different speakers to the bereavement which the British nation has suffered. Miss West will be accompanied by her mother, and Dr. Ella Field, the supreme medical examiner for the West, and Mrs. Kemp, the provincial commander for British Columbia, has already secured rooms at the Empress for the party, who will be met at the boat by a reception committee consisting of Mrs. Kemp, Mrs. Vincent, Mrs. R. S. Day, Mrs. W. M. Jackson, Mrs. Ernest Hill, Mrs. Kirk, Mrs. Spofford, and others.

Mrs. Kemp left on last night's boat for her home in Vancouver, but will return on Monday.

#### SUCCESSFUL ARTIST.

Local Lady Paints Fine Picture of One of Beauty Spots Around Victoria.

There is in the window of the Victoria Book & Stationery Company an oil painting of "West Bay," Victoria harbor. It is rather a large canvas, and the work is of special merit, both in coloring and technique being far above the average work of local artists. In the bottom left hand corner is the name of the artist, Muriel Collis. This is probably the same Miss Collis who two years ago had one or two very promising things in the art department of the hall, and of whom the Times then prophesied that she would be heard from later. If so, the present work is certainly a fulfillment of that prophecy. There are all too few artists who make a specialty of British Columbia scenery. The tendency is too much to copy scenes of the old land instead of launching out into this great new field, which resembles nothing that the old masters ever saw. British Columbia, with her many phases of forest, mountain, lake and sea, needs another interpreter, and it is to be hoped that Miss Collis will continue her studies and give to the world at large some of the beauties which people here enjoy at first hand.

#### LOCAL TRUST COMPANY.

A new company has just been incorporated in this city called the Canada West Trust Company, Limited, the object being to handle a trust and high-class financial business and to assist in the development of the city of Victoria and Vancouver Island. At a meeting of the shareholders held on Thursday, D. C. Reid was elected president, W. O. Wallace, vice-president, and A. E. Forbes secretary-treasurer. The board of directors consists of W. K. Houston, of W. K. Houston & Co.; Jas. A. McNair, capitalist, Vancouver; W. O. Wallace, director Island Investment Company, Limited; J. W. Givens, manager The Alberta Grain Company, Vancouver; H. Farrant, manager Island Invest-

LACROSSE TEAMS DRAW LAST GAME

THREE GOALS EACH IN EXHIBITION GAME

Cloverdale and North Ward Teams End Series With Equal Points

The lacrosse exhibition series of the Victoria city league teams was brought to a conclusion last night at Royal Park by a drawn game between Cloverdale and North Ward, both of which have previously defeated the Victoria West team. The score was three goals each side.

AUSTRALIAN BOXER IS KILLED IN BOUT

Ruptured Blood Vessel of Brain in Fight for Amateur Championship Title

Sydney, N. S. W., May 13.—In a boxing bout yesterday for the amateur light-weight championship of Australia, Edward Clebourne was knocked out in the second round and died as the result of a ruptured blood vessel in the brain. His opponent is a popular amateur boxer, named C. Robertson, who has been arrested and will be held by the police following the coroner's inquiry.

PROFESSIONAL OR OTHERWISE

MERRICK'S RULING OPENS CONTROVERSY

Interference in Cricket Deemed to Be Unwise and Will Meet With Strong Opposition

The question whether, according to President Merrick's ruling, cricketers will come under the rules of amateurs in the Canadian Athletic Union has created controversy in the east, and is awakening considerable interest in Western Canada.

SPORT NOTES

The twelve acres of land, which the Victoria Golf Club purchased four years ago, is now being ploughed and will be sown with grass seed. The usual attention is being given to the links.

As far as Victoria is concerned there is no chance of the cricket club coming under the direction of the B. C. A. A. U., which is the western affiliation of the Canadian amateur union. The Victoria clubs have all along played independently of the amateur union, and while they have, as all over the English speaking world, played amateur and professional, there has never been any quibble before as to amateurs playing with professionals.

The ruling delivered only goes to show that the amateur union is decidedly at fault in trying to legislate for cricket and football what is proper for cricket and football, but not for other sports. The only solution of the amateur-professional trouble throughout Canada is the handing of each sport into unions independently of each other, and having each sport controlled by its own organization.

The ruling delivered only goes to show that the amateur union is decidedly at fault in trying to legislate for cricket and football what is proper for cricket and football, but not for other sports. The only solution of the amateur-professional trouble throughout Canada is the handing of each sport into unions independently of each other, and having each sport controlled by its own organization.

What the North Ward boys think of Aid. Russ Humber would fill three volumes, and the boys would not be satisfied unless it was all printed on gold leaf. Russ certainly is the father of that North Ward Athletic Club.

That new runner Davidson showed Moore the high school boy, clean heels over a mile this week. Moore beat John P. Sweeney, the Island mile champion, and the latter is feeling his wisdom teeth to see if it is time to retire.

August 2nd is the date of the Dominion Rifle Association meeting at Ottawa. There will be over \$11,000 in prize money. Colonel John Tilton, of Ottawa, for the fourteenth time, has been elected president of the executive council.

George Gray, the young Australian billiard player, is to pay a six months' visit to England, arriving in October. He is only 16 years of age, and has a marvellous record. He holds the Federal record, with a break of 528. This was made in Melbourne on a standard table in 1908. In 1909 he made a break of 545, this being then his record, of which number 445 points were made off the red ball in September of last year, playing against Lindner.

Now that President Merrick, of the C. A. A. U., has decided that men who have taken money for refereeing football matches are professionals, the B. C. A. A. U., if it does its duty, will have to find out all about the refereeing at matches last year in Victoria. The professional list is growing. It will soon be a novelty to see an amateur under B. C. A. A. U. and C. A. A. U. rules.

The Y. M. C. A. meet was fixed for May 21st last night, as previously announced. The entries will be received up till the night of 20th. There are forty entries in the hands of the secretary at the present time. A silver cup has been presented by H. E. Beasley for the boy making the greatest aggregate at the meeting.

They say Friday the 13th is unlucky. Well, neither the North Ward or Cloverdale lacrosse teams will say so after the game last night. Three goals all. Still Julian blames the date for the crack he gave McGregor over the head.

R. Poirer, president of the Victoria Swimming Club, has resigned and last night Tom Dalziel was elected in his place. Frank Crompton is captain of the swimming team and E. Crompton is captain of the polo team. The Junior camp will be inaugurated at the July Y. M. C. A. camp.

The Victoria Cricket Club and the University School team are playing a match this afternoon on the hospital ground. Cricket scores for publication must be in by 9 a. m. Monday.

Percy Hornsby, an Australian, who arrived in Victoria on the last boat from Australia, and is now at the Hotel Quinte, Vancouver, challenges any billiard player to a match from 500 to 1,000 at English billiards for any reasonable stake. A chance for some of that Empire Hotel bunch.

The officers elected for the Victoria Terrier Club are: Honorary president, George Gillespie; honorary vice-presidents, the presidents of the Victoria and Vancouver Kennel Clubs and Messrs. W. Blakenmore and J. S. H. Matson; president, T. M. Foote; vice-presidents, C. B. Thompson and D. B. MacLaren; secretary-treasurer, Tweed Pearce; committee: F. Muriel, R. Hanson, G. Florence, W. H. Catterall, J. Wallis, A. Stonor, G. H. Grant and F. Turner. The club will give special prizes to the value of \$10 at the Duncan show. The secretary's address is P. O. box 929.

The Merchants Bank of Canada. Established 1864. Capital Paid Up \$6,000,000. Reserve Funds \$4,800,000. Victoria Branch. R. F. TAYLOR, Manager.

CRICKETERS. Just now we are showing an exceptionally fine line of Cricketing Goods—new arrivals from England. Everything needed is to be found here for this best of English game. Prices right. Come in and see. No trouble to show goods; you're welcome any time. J. R. COLLISTER, Successor to John Barnsley & Co. Gunsmith, Etc. 1321 Government St. Tel. 663.

JUNIORS WISH TO FORM BALL LEAGUE

Are Anxious to Try Skill on the Diamond—Many Teams Would Enter

Pupils, under 16 years of age, attending the day schools of this city, are desirous of forming a junior baseball league. Five teams have signified their intention of entering if the league can be organized. The five teams are: Corrig College, High School, South Park, Olympics and Breadnoughts, the last two nathel representing the North Ward population. If this division for the young ones is formed several other teams would undoubtedly enter.

Every season the boys attending school have had a soccer league and the various institutions have been represented in it, but they have never had a baseball league. As the ball game has become so popular they would like to try their skill on the diamond.

The school teachers, who arrange the football schedules, could call a meeting and make all necessary preparations for the baseball league. Some interesting games would be seen if this division is formed, as the youngsters take a keen interest in all their matches and enter each one with the determination to win.

In this city at the present time the ball-tossers are broken into the game in the intermediate league. If the junior division is formed the players will learn the game early, and when they are ready to enter the higher leagues they will know something about baseball. Victoria will also be able to get together a better senior team when the young ones in the junior league are old enough to compete.

—Where are the best buys? Answer on Page 17.

"A Most Valuable Food"

At a time when the preparation of artificial foodstuffs is receiving more attention than ever before, and when new forms of easily assimilable fat to take the place of cod liver oil are being frequently brought to the notice of the medical profession, it is desirable that some of the older forms of administering natural fats should not be lost sight of. Among natural fats, butter easily takes first place for nutritive value, and when combined with a suitable soluble carbohydrate, a most valuable food is produced.

The BUTTER-SCOTCH which Messrs. Callard & Bowser (Duke's Road, Euston Road, W. C.) have prepared for fifty years, is such an article, which has the great advantage of being palatable, so palatable in fact that children are more likely to need restriction from excess than any preceding to take it. This BUTTER-SCOTCH is stated to contain 11 per cent of fat and 22 per cent of sugar, and the results of an analysis which we have made recently of a specimen, instantly confirm these figures; further chemical examination of the fat extracted showed it to be genuine butter fat. This confection can therefore be recommended not only as a harmless sweetmeat, but also as a very useful addition to the diet of the invalid. In all the principal candy stores in Victoria.

McLAUGHLIN BUICK CARS are the best medium priced Automobiles in the world. Comfort, Reliability and Economy are fully exemplified in McLAUGHLIN BUICK CARS. They are quick to start, quick to respond to the wheel or lever, in fact McLaughlin Car is the motor car for the man of action. Their light weight and flexibility means ease in operation and long life. Let us demonstrate one for you.

WESTERN MOTOR & SUPPLY CO.

New Premises, 1419 Broad Street. R. P. CLARK, Mgr. Tel. 663.

AYER'S HAIR VIGOR. Ingredients: Sulfur, Glycerin, Quinine, Salicylic Acid, Chloride. Show this to your doctor. Ayer's Hair Vigor just as promptly destroys the germ that causes dandruff. It removes every trace of dandruff itself, and keeps the scalp clean and in a healthy condition. Does not color the Hair.

SERVICES IN KING'S MEMORY FRIDAY FIXED AS DAY OF MOURNING

Capt. Wolley to Deliver an Address on Occasion in Front of Parliament Buildings.

Friday next, May 20, has been proclaimed a day of general mourning throughout the British Empire for the death of King Edward, an extra of the British Columbia Gazette setting forth the fact in these terms: "Whereas Friday, the 20th day of May, has been fixed for the obsequies of His late Majesty, King Edward the Seventh; and, whereas, the said day has, by His Excellency the Governor-General, been proclaimed as a day of mourning, to be observed by all persons throughout the Dominion of Canada; and, whereas, it is considered advisable to appoint by proclamation, the said 20th of May as a public holiday; "Now, therefore, we have thought fit, by and with the advice of Our Executive Council, to appoint the 20th day of May instant to be a public holiday, to be observed as a day of general mourning within our province of British Columbia."

The public memorial service in Victoria will be held on the same date on the lawn in front of the legislative buildings. It will be of non-sectarian character and will be attended by His Honor, Lieutenant-Governor Patterson, Premier, Mr. E. G. Campbell, members of the cabinet and Mayor Morley and members of the board of aldermen. The band of the Fifth Regiment will be in attendance and will render the musical programme. The staff of the military district and squads representing the army and navy, and militia forces will be in attendance. The memorial address will be delivered by Capt. Clive Phillips-Wolley. All the ministers of different denominations are to be asked to attend and participate in the services, which have been tentatively arranged for 3 p.m.

On the day appointed for King Edward's funeral service will be held at Christ church cathedral, commencing at 11 a.m. The members of the Executive Council, Premier, members of the government, officers of the army and navy and others have been invited to attend.

At the regular meeting of Victoria Aerie, Ancient Order of Eagles, a resolution of sympathy on the death of the King was passed and the hall was ordered draped with mourning for a period of 30 days. The president and a committee were appointed to attend the memorial service to be held in front of the parliament buildings.

TAX IMPROVEMENTS IN NORTH SAANICH

Deadlock in Council Yesterday Over Proposition to Exempt Them—Billiards to Pay.

The North Saanich municipal council met yesterday morning as a court of revision on the assessment roll, submitted by Clerk R. B. Brethour. There were present Reeve Sangster, Councilors Ego and Brethour.

Some lots owned by the Roman Catholic church were reduced \$100 each, as were also some held by Samuel Fairclough and J. Critchley, J.P. The latter was not satisfied with the decision arrived at by the court and intimated that he would appeal to the Supreme court.

After these few changes were made in the roll it was adopted, the total assessment being practically \$800,000. The court then adjourned.

At 2 p.m. the council again met in regular session, all the members being present with the exception of Councilor McKenzie, who is attending the Methodist conference at Nelson. His absence caused a deadlock in the deliberations. It all occurred over the question whether a tax should be placed on billiard parlors otherwise.

Councilors Ego and Brethour were strongly in favor of exempting improvements from taxation. Reeve Sangster said he believed in the principle, but it would not work out favorably in that municipality, as this inaction has for some time past been a source of complaint to the public.

The reeve repeatedly suggested that someone move a motion exempting improvements, but no one did so, and this inaction has for some time past been a source of complaint to the public. Councilors Ego and Brethour were afraid to bring the matter to a vote, for in the event of the reeve and Councilor Hewitt voting for the taxation of improvements the vote would be a tie, and under the Municipal Charter Act the question would be negative.

Councilor Hewitt also spoke in favor of the question, but those in favor were afraid to rely on his voting accordingly. Later he talked in favor of calling for tenders to grade certain streets in Sidney, and then voted against that course. That question was negative, the reeve voting against, giving as a reason for his course that the council had not struck a rate.

Reeve Sangster's by-law to amend the revenue by-law, which provides for rates on billiard parlors, was again introduced, and the reeve stated that he was now in favor of taxing the building instead of each table. The amount was placed at \$5 every six months, the by-law was read a first and second time, and will be finally adopted at the next regular meeting of the council.

The time was extended for receiving applications for road foreman, some accounts were passed for payment and the council then adjourned.

A MIDNIGHT FIRE. Residence of Captain Gose at Esquimalt Lagoon Destroyed.

Fire, which was discovered at 2 o'clock this morning at the residence of Capt. Gose, at the Esquimalt lagoon, completely destroyed the house and threatened for some time, several nearby buildings. Capt. Gose, who is keeper of Esquimalt light, was on duty, and Mrs. Gose, who was alone in the dwelling, had a narrow escape. Awakened by the crackling of the flames she rushed to the stairs to find her escape in that direction cut off. She was forced to jump from a window, fortunately sustaining only slight injuries.

A strong southwesterly wind was blowing, and by the time the neighbors had been aroused it was found impossible to save the house. Although fire-fighting facilities were not to hand a strenuous and successful effort was made to prevent injury to adjoining houses.

The residence and contents were valued at about \$2,000, part of which is covered by insurance.

PLAN DEVELOPMENT WORK. Experienced Ontarians Propose to Clear Land in Vicinity of Railroads for Farming.

With the intention of developing farming land alongside the railways of British Columbia the Estcott brothers, of Ontario, who have had much experience in this business, are now looking over the ground. They are in Victoria to-day and will make several trips to points on the E. & N. road and the lower part of the Island looking for prospects.

They plan to purchase land adjoining or in the vicinity of railroad lines, either operating or building, and to cut the merchantable timber for this, afterwards seeding the land to clover and selling it with the stumps standing, for farming purposes.

INDIAN UPRISING IN NEW MEXICO

TROOPS SENT TO SCENE OF TROUBLE

Redskins Terrorize White Women and Children and Drive Away Stock of Settlers

(Times Leased Wire.) Santa Fe, N. M., May 14.—Two companies of New Mexico National Guardsmen are being rushed to-day to Beranica, where they will take horses to the ancient Taos Indian pueblo to quell an uprising among the Indians.

Sherrif Elizandro Quintano notified Governor Mills from Beranica that the situation had gone beyond his control, and requested that the militia be sent. The Indians are said to be armed with bows and arrows, and have committed many acts of destruction, cutting wires and driving away the stock of settlers, and terrorizing white women and children.

Reports from the scene of the uprising state that a band of the redskins assaulted Mrs. L. S. Meyers, wife of a ranchman, and a small child. The stock of the Meyers ranch was driven into the mountains, and the ranch property devastated.

The trouble is said to have had its origin when Meyers fenced in lands claimed by the Indians. Additional trouble arose when the federal census enumerators appeared among the Pueblo dwellers.

Governor Mills is holding additional militia in readiness to dispatch to Beranica if necessary. Communication Severed. Santa Fe, N. M., May 14.—Later—Telephone and telegraph wires into Taos, N. M., the Pueblo Central to the district where Pueblo Indians are on the war path, were cut to-day.

Sixty picked men of the territorial guard were dispatched last night in a special train, but owing to lack of communication, their whereabouts are unknown. The fear is expressed here that the presence of soldiers may incite hitherto peaceful Indians to join the tribesmen already in revolt.

BURGLAR KILLED BY POLICEMAN. Officer Wounded in Duel With a Robber Found Trying to Break Into House

(Times Leased Wire.) San Francisco, Cal., May 14.—Policeman William T. Maguire probably will recover from the wound in the abdomen received early this morning in a duel with an unknown burglar, whom he succeeded in killing. It is believed the bullet is lodged in the muscles of the back and not the intestines, as at first was thought by the physicians.

The police believe the dead burglar, who was about 35 years of age, was an experienced housebreaker and contemplated a series of burglaries in this city, as addresses of several wealthy citizens were found in his effects.

Maguire was one of three policemen who responded to the sound of a police whistle on Gough street, blown by Geo. Martin, who discovered the burglar entering his residence. The officers cornered the man in a back yard and opened fire. The robber emptied his own gun, wounding Maguire before receiving a bullet through the heart.

CUMBERLAND MINE DISASTER. Whitehaven, England, May 14.—A storm of protest was raised to-day when Lord Londesborough, owner of the Wellington mine, decided that there was no hope of saving the 37 entombed miners and ordered the mine sealed by the authorities until the fire dies out.

The police had difficulty in restraining the families of the entombed men from attacking the mine owner.

MEMORIAL SERVICE. Edmonton, May 14.—Details have been completed for a monster parade here on the day of King Edward's funeral. All the military, including 500 soldiers, and 2,500 school children, will be in line, and a special memorial service will be held, at which a huge orchestra and chorus will assist. Local Daughters of the Empire have received a wire from Queen Alexandra thanking them for offers of condolence.

CONSERVATION OF RESOURCES. Seattle, Wash., May 14.—Henry S. Graves, chief forester, succeeding Charles Pinchot, is due to arrive in Spokane to-day. He left Seattle at 7:30 last night after a very busy 10 hours in Seattle.

Yesterday afternoon he was banqueted at the Rialto Club by prominent lumbermen of the city. There, in a twenty-minute speech, he reiterated the statement made in Portland that he was rigorously following the policies laid down by Mr. Pinchot.

ANOTHER TOWN REPORTED DESTROYED

Scores of Persons Believed to Have Perished in Earthquake in Costa Rica

(Times Leased Wire.) Port Limon, Costa Rica, May 14.—The town of Santiago was destroyed by yesterday's earthquake and scores are believed to have been killed, according to to-day's advices received here.

Cartago was shaken and some of the graves containing victims of the last quake were opened, adding danger of pestilence. Light shocks were felt to-day but it is believed the worst is over.

Cartago is to be rebuilt, earthquake-proof. Washington, D. C., May 14.—Seismographs at the weather bureau, Georgetown university and at the coast and geographic survey observatory, at Cheltenham, Md., recorded earthquake shocks of 48 minutes' duration early to-day. The tremors were unusual because of the alternating directions.

NEGRO MUST GO BACK TO OKLAHOMA. Sheriff Secures Extradition of Jas. Chapman, Wanted in Connection With Murder

(Times Leased Wire.) Edmonton, May 14.—Extradition was granted this morning to Sheriff Fox, of Stillwater, Oklahoma, for the negro, James Chapman, who is charged, in company with Mrs. Matthews, of Edmonton, with being responsible for the murder of James Matthews last year in Stillwater, Oklahoma.

Sheriff Fox has had a hard fight to secure extradition, his first application being refused on the grounds of insufficient evidence. Further depositions were secured from Stillwater and on the strength of these the application for extradition was granted to-day.

The application to extradite Mrs. Matthews will be heard Monday. Sheriff Fox believes an attempt will be made to lynch Chapman before he succeeds in getting him back to Stillwater. Chapman has been staying in the city for some months boarding with Mrs. Matthews. He at first made a confession of murder, but later denied the story saying that he only told it to implicate Mrs. Matthews with whom he was in love and who had deceived him.

YOUNG FRENCH AVIATOR KILLED. Losses Control of Machine and Knocks Over Derrick, Which Fractures His Skull

Lyons, May 14.—Chauvette Michelin, a young Frenchman, met a tragic death here yesterday while competing in the races of an aviation meeting. Shortly after leaving the ground in an Antoinette monoplane, Michelin seemed to lose control of the machine, which bumped into a telephone booth and then knocked over a derrick, which struck the aviator, crushing his skull.

When the spectators saw what had happened they wrecked the barriers which were built to keep the crowds from the aviation field, and rushed to the spot where the monoplane was lying. Michelin was still in the seat of the machine. He was quickly taken to a hospital, where his skull was trepanned. He died shortly after the operation.

Michelin was only 23 years old. To an assistant who wished him good luck as he rose yesterday, the young aviator said: "No more aviation for me after this meeting, I have had enough."

SUSPECTED ROBBERS TAKEN. Phoenix, Arizona, May 14.—Sheriff Carl Hayden and a posse arrived yesterday with the Maricopa train robbers. Ernest Woodson, the youngest, emerged from an arroyo in which they were hidden near the Vikol mine when Hayden's automobile appeared. He demanded water, and was told that he was under arrest. The youth was so famished that he paid no heed, only appealing for water again, and again, and drinking almost a gallon. He and his brother, Oscar, both in their teens, were too weak after their eighty mile desert ride to make a fight.

RACE WITH DEATH. Los Angeles, Cal., May 14.—Racing at the bedside of her son, who is ill in Paris, Mrs. Belle Fulton, of Los Angeles, is speeding across the continent to-day in an effort to catch the liner Lusitania, which sails from New York next Wednesday morning.

Last evening Mrs. Fulton received a cablegram saying her son, Robert Fulton, is dangerously ill of typhoid fever. Immediately she prepared to rush to his side and, accompanied by Mrs. Geo. Mitchell, her mother, started within two hours for New York on a Santa Fe limited train.

BANKER'S APPEAL. New York, May 14.—Judge Holt to-day in the federal court dismissed a writ of habeas corpus sued out by attorneys for Frank N. Hottel, the indicted Pittsburgh banker. The writ prevented Hottel's extradition to Pittsburgh.

The court, however, granted Hottel a stay pending an appeal to the United States court of appeals.

ICE ICE ICE Phone 2044 - Phone 2045 The following are our present routes, but later on we will make daily deliveries to every part of the city: EVERY MORNING—City and James Bay district. FINANCING CANTON-HANKOW RAILWAY. Financiers Have Reached Agreement and Work Will Be Commenced at Once. (Times Leased Wire.) Washington, D. C., May 14.—After protracted negotiations, the leading financial groups in the United States, Germany, Great Britain and France have reached an agreement on the financing of the Canton-Hankow railroad, according to reports received here to-day. All that now remains to be done is the arrangement of certain unimportant details before the temporary agreement is finally adopted. The loan is to be negotiated for the Chinese government and the work of construction of the railroad will begin at once.

FOR SALE—Wardrobe, at \$4.95 and chests of drawers, \$6 and \$7. At Butler's, 21 to 22 Yates. m17

OBITUARY RECORD

William Winchester, a deckhand on the steamer "Charmer," is supposed to have been drowned last night, having fallen off the boat while she was on her way to Vancouver. The deceased was last seen by several of the crew entering the lunch-room just as the steamer passed British Ledge. He has resided in this city for some time and is survived by a brother, who also lives here. For several years he has been engaged on local steamers.

The remains of the late Alexander Gilmore were laid in their last resting place at Ross Bay cemetery yesterday afternoon. The funeral took place from the residence, Ellice street, from where the cortege proceeded to the cemetery. Rev. Dr. Campbell, assisted by Rev. D. McRae, conducted the services, which were of an impressive nature. The attendance of sympathizing friends was very large and a deputation from the Masonic lodge, of which order the deceased was a valued member, attended the funeral. The floral tributes were numerous and testified to the esteem in which the late Mr. Gilmore, who was one of Victoria's old timers and business men, was held.

The funeral of the late William Stanford took place this afternoon at 2:30 o'clock from the Hanna chapel. Rev. H. A. Carson conducted the services. Several of the friends of the deceased attended the funeral and many flowers were presented. Interment was made in Ross Bay cemetery.

The drawing for the piano to be raffled as a benefit will be held to-night in Eagles hall, and 8:30 under the supervision of the press.

The meeting of the Ladies' Auxiliary of the Y. M. C. A., which was to have been held on Monday afternoon, May 23rd, has been postponed until the following Monday, when the ladies will meet at the home of Mrs. R. Wescott, at the Gorge.

A bundle of effects belonging to the four men who were recently drowned near Nootka on the west coast, has been picked up on Hesquith beach. The bundle contains nothing of value. No trace of the three bodies which have been missing since the tragedy has been found.

The drawing for the piano to be raffled as a benefit will be held to-night in Eagles hall, and 8:30 under the supervision of the press.

The meeting of the Ladies' Auxiliary of the Y. M. C. A., which was to have been held on Monday afternoon, May 23rd, has been postponed until the following Monday, when the ladies will meet at the home of Mrs. R. Wescott, at the Gorge.

## A WORD OF WARNING

### Don't buy medicine — unless you have to

IMAGINARY ailments are the source of many serious cases of sickness. It's so easy to develop our fretful fancies into alarming symptoms—through carefully planned advertising. Sensitive folks—lots of them—may imagine themselves ill to-day—to-morrow they will be really sick. Do not hand over your hard-earned cash for mysterious and (so-called) miraculous compounds. Few people know what's in these cure-all patent medicines. Your doctor does not know—the makers seldom know and very often do not care. But such patent compounds are so cleverly advertised that ordinary folks can very readily imagine themselves ill when there is absolutely nothing the matter physically. Therefore we say do not buy medicine unless you have to. Before you pin your faith to the curative properties of any advertised medicine simply ask your druggist if he knows its ingredients. Take our advice—if you are really sick, yet not sick enough to call a doctor—buy

**Nyal's**  
FAMILY  
REMEDIES  
LOOK FOR THE DANDELION COLORED PACKAGE

remedies compounded by a house with a solid reputation of over half a century. The formulas of Nyal's Remedies are exceptionally good and such as are in daily use by medical practitioners. Your family physician may learn their ingredients—we know what's in them and YOU can know what's in them too. Nyal's people have nothing to conceal about their remedies—all reputable druggists know every formula. Isn't it worth while to know the ingredients of the medicine you take—to know positively that the remedy you are taking is the most suitable for your immediate needs? We recommend Nyal's Family Remedies because we believe in them—know them to be good, and because we intend to be in the drug business right in this town for a good many years to come.

N.B.—Remember there's a specific Nyal's Family Remedy for almost every specific illness and every Nyal's Remedy is compounded of the best and purest drugs money can buy.

## MAGIC BAKING POWDER

TALK No. 6

### Does not contain Alum

NO baking powder that contains alum is fit to put in your home baked food. Alum lessens the flow of the gastric juices, causing indigestion and irritation. The heart and nervous system are also affected by alum, and it is pronounced unfit for any food by all food experts.

MAGIC insures pure food for your household. MAGIC makes delicious, healthful bread, biscuits and pastry. You have the assurance that your baking is sweet and wholesome when it is used.

MAGIC is a medium priced baking powder and the only well-known one made in Canada that does NOT contain alum.

Full Pound Cans, 25c. Insist upon MAGIC—Nothing is "just as good."

Made in Canada

E. W. Gillett Co. Ltd. Toronto, Ont.

FREE COOK BOOK If you have not received a copy of Magic Cook Book, send name and address on postal card and this valuable little book will be mailed free of charge.

Bible class, 2.30 p. m.; evening service, 7 o'clock. Rev. James Moyes, missionary from Thibet, will tell of his labors among the Thibetans.

## A New style Gas range

### Double cooking top; no "stooping" necessary while cooking or baking

Model H is a new 1910 style of gas range. It will soon achieve great popularity. With Model H you can cook a meal with the greatest ease and convenience. You will never be crowded for room. The cooking top is double size—equal to eight burners and a simmering burner. And just note the convenient location of the baking and broiler ovens. No "stooping" is necessary when putting in or taking out pies, cakes, steaks, etc.

The broiler and drip pans are smoothly coated with white enamel. You can wash and clean them as thoroughly as you can an enamelled sauce pan. You can change the oven from a circulating to a direct action oven by simply moving a slide.

Be sure and see Model H at the nearest McClary agency. Also look at the other seven styles of McClary Gas Ranges. Each style can be supplied with or without two burner extension, oven thermometer, water heater, reservoir, high shelf, high close, and canopy top. Can be changed from artificial to natural gas in a few minutes.

McClary Gas Ranges are up-to-date in every particular. Your money cannot buy bigger value.

London, Toronto, Montreal, Winnipeg, Vancouver, St. John, N. S., Hamilton, Calgary.

### Oil Situation in California

Money is being made in the oil fields of California. Any company getting land in the proven districts, and with honest management, will make money for its stockholders. Brad Oil Co., Limited, is one of the companies that have been fortunate in getting 50 acres in section 15, Midway, in line with the large producing wells. It is a Canadian Co., organized under the laws of B. C., head office, Vancouver. Honest men are managing it. They are down 500 feet on their first well. A small amount of shares can be secured at \$5.00, cash, balance monthly payments. We recommend this company. BEECH'S BROKERAGE, 347 Pender St., Vancouver, B. C. Phone 523, or W. O. WALLACE, Phone 1152.

READ THE TIMES

## OBJECT TO SAIL IN POOR COMPANY

### SOME MEN OF EVERETT GRIGGS MAKE PROTEST

Locked Watchman Up and Came Ashore Last Night to Complain to Shipping Master

Three men from the six-masted barque Everett G. Griggs appeared before the shipping master this morning and objected to sailing on the boat, their plea being that while they were good sailors the other men aboard the vessel were not. They objected to sailing with men who were not professionals.

The men were not to have been allowed to come ashore but last evening at a suitable time they managed to lock the watchman up and, taking a ship's boat, rowed to land. They did not desert, in the ordinary sense of the word, for they are still in town and are being kept in the barque, but they object to being sent back to work with men whom they allege do not know their business.

There are two reasons why the men will have to return to their ship apparent to the ordinary observer. One is that they have taken the usual advance note from the captain which they have spent in board blankets and clothes. This they cannot repay. The other reason is that men are very scarce everywhere in the North Pacific, and it is not easy to get other men to take their places.

In the meantime Captain Sterling is in the hospital and the barque, which was to have sailed to-day, will not get away until next week.

### NOTICE TO MARINERS

W. E. Boeing, of 338 Central Building, Seattle, Washington, U. S. A., has reported that the islet in the entrance to Theodosia arm, British Columbia, is connected with the southern shore by a reef which covers at about two-thirds tide. Position of islet: Lat. N. 50 deg. 3 min. 45 sec. Long. W. 124 deg. 43 min. 10 sec. N. to M. No. 29 (70) 6-4-10.

The day beacon described in Notice to Mariners No. 97 (244) of 1904 is now located on Tom Island, 1-4 mile westward of James point, and not on the extremity of James point as stated therein. Lat. N. 53 deg. 32 min. 32 sec. Long. W. 123 deg. 36 min. 4 sec. N. to M. No. 29 (71) 6-4-10.

### SURVEYOR PROMOTED.

Gray Donald Leaves Work at Campbell River to Become Assistant Water Commissioner.

Among those who arrived from Campbell River via Vancouver, was G. Gray Donald, who has been in charge of the surveys being made for the Campbell River Power Co. He is leaving the service of that company in order to enter the office of the Provincial water commissioner as assistant. The surveys will be continued by Gore and McGregor of this city.

Mr. Donald brought an interesting little companion with him from Campbell River in the form of a tiny bear cub. This little fellow was packed in a box about twice the size of a cigar box, and on his arrival at the wharf was transferred to a chicken coop, where he was the centre of attraction to passers by and loungers.

### BRITAIN THE FASTER.

Montreal, May 14.—The Empress of Britain, the Canadian Pacific Railway Co.'s first Empress from the St. Lawrence this year, which sailed from Quebec May 8th, has started the season by lowering the record held by her sister ship, Empress of Ireland, over the Cape Race route, by one hour and a half. The Empress of Britain arrived at Liverpool yesterday at 2.30 p.m.

## THE SIGN OF THE SEVEN DEVILS

Not long ago, a noted physician wrote to a professional friend, saying: "I would rather see a patient with almost any other disease enter my consulting room, than one afflicted with the seven devils of Indigestion and Dyspepsia." That doctor knew what a dyspeptic, destructive indigestion is; how it poisons the blood, starves the nerves, takes the vitality out of man or woman when once it seizes on them. He did not seem to know that Mother Seigel's Syrup cures Indigestion. Yet we have testimony in writing from tens of thousands who have proved that it does cure. Read the statement of Mr. A. Lemieux, of Chamblord, Lac St. Jean Co., P. Q. Mr. Lemieux says, January 9, 1909:

"It gives me great pleasure to testify to the value of Mother Seigel's Syrup. It has restored me to health after suffering over three years from Indigestion, or Dyspepsia. I had pains after meals, headaches, sleeplessness, bad breath, and a constant sense of a patient with almost any other disease enter my consulting room, than one afflicted with the seven devils of Indigestion and Dyspepsia." That doctor knew what a dyspeptic, destructive indigestion is; how it poisons the blood, starves the nerves, takes the vitality out of man or woman when once it seizes on them. He did not seem to know that Mother Seigel's Syrup cures Indigestion. Yet we have testimony in writing from tens of thousands who have proved that it does cure. Read the statement of Mr. A. Lemieux, of Chamblord, Lac St. Jean Co., P. Q. Mr. Lemieux says, January 9, 1909:

The \$1 bottle contains 2 1/2 times as much as the 50c size.

## STEAMER HEATHER LEFT THIS MORNING

Major Wood, Left Behind in Victoria, Will Leave Later—Lunched With Premier

United States lighthouse tender Heather left this morning with Captain Elliott, U. S. N., Mrs. Elliott and party aboard. The steamer arrived yesterday with a party including Major and Mrs. Wood, and as the officials are well known here they took the occasion to spend a social time in the city. Major Wood and Captain Elliott yesterday lunched with Premier McBride at the Union Club, they being old friends of the premier's. Major Wood did not join the steamer this morning, but is leaving on the Princess Charlotte this afternoon for Seattle en route to his home in Portland. The Heather will arrive a day or two later.

Captain Elliott has charge of all the coast from California to the Aleutian Islands. The Heather has been engaged in buoy work since the middle of April between the Columbia river and Dungeness. A trip was then made to Vancouver, where a couple of days were spent and the visit to British Columbia concluded this morning. Major Wood is loud in praise of the Heather which, he says, is one of the finest sea boats he has ever been on.

## SEALS TO BE MARKED ON PRIBYLOFF ISLANDS

Five Hundred Males Will Be Allowed to Escape From the Annual Slaughter

(Times Leased Wire.)  
Washington, May 14.—Marked in a manner so they can be easily recognizable, 500 three-year-old male seals are to be allowed to escape the yearly slaughter on the Pribiloff killing fields this year, to supply breeding adults in the future. This number will be marked each year and protected from the killers.

The seals are not to be slain under any circumstances. The government experts will choose the most perfect seals in the herds as breeders. According to Secretary Nagel to-day, W. J. Lambkey will have charge of the work, and he will take stringent measures to see that the chosen seals are allowed to live.

## BABY CRIED CONTINUALLY

Mrs. Eugene Gagnon, L'Islet Station, Que., says: "I believe Baby's Own Tablets the best medicine in the world for little ones. I have given them to my baby for colic, constipation and sometimes for breaking up a fever, and I have never known them to fail in giving prompt relief. Before I began the use of the Tablets my baby was very thin and cried continually. Since then she has grown splendidly and is plump and healthy. I also gave the Tablets to my four years old child who suffered frequently from convulsions and they made a permanent cure. When I have Baby's Own Tablets in the house I feel safe, and I advise other mothers also to keep them on hand." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## MOVEMENT OF VESSELS

(Times Leased Wire.)  
Seattle—Arrived: Str. Watson from Sound ports; str. City of Puebla from San Francisco; str. Dolphin from Skagway. Sailed: Str. Governor for San Francisco; steam schooner Lucy Neff for Everett; Nor. str. Herm for Everett; str. Watson for San Francisco; str. Dirigo for Skagway.

San Francisco—Arrived: Bark Perth from Hilo; str. George W. Elder from Astoria; str. Queen from Seattle. Sailed: Str. Sala for Hamburg via Victoria; str. Rose City for Portland; str. Centralia for Grays Harbor.

Tacoma—Arrived: Br. str. Baron Ogilvy from Port Hadlock. Sailed: Str. A. B. Johnson for San Pedro; str. Philadelphia for San Pedro.

Portland—Arrived: Str. Falcon; str. Rosecrans; str. Jim Butler; str. Anacostia from San Francisco. Sailed: Santania and str. Rainier for San Francisco.

## FISHERMAN DROWNED.

Boat Upset When Running Rapids on Kennedy River Near Clayoquot.

(Special to the Times.)  
Clayoquot, B. C., May 14.—Jacob Flovieta, a fisherman employed at the Clayoquot Sound Cannery here, was drowned in Kennedy River rapids yesterday afternoon. He and Alfred Yester were running the rapids with a load of salmon for the cannery when the trap struck a rock and broke up. Flovieta managed to reach shore but Yester's body was not found till several hours afterwards. A pram is a Norwegian boat used for running rapids.

United States lighthouse tender Heather was in port yesterday for a short time conferring with the local department of marine.

German barque Elisa Lihn, loaded with lumber for Antofagasta, has been in the Royal Roads throughout the week waiting for crew. She will probably get away early next week.

## SEVEN HUNDRED PEOPLE ARRIVE

EMPRESS OF CHINA HAS RECORD LIST

Andrew Weir on Board—Gaekwar of Baroda Coming From Japan On Next Empress

With about seven hundred passengers aboard, of whom 575 were Chinese, the steamer Empress of China arrived in port this morning. Most of the Orientals were returning from celebrating the new year at Hongkong and other South China points, and a great many will be sent through in bond to Mexico, Jamaica, and Eastern points. A good many will pay the head tax, the revenue from that source being unusually large this month.

The voyage was a pleasant one. Two days before arriving the saloon passengers had been enjoying a big dinner and dancing was just commencing when word of the King's death was received by wireless. At once the festivities ceased and the ship put on a mournful aspect.

Prominent among the passengers to this port were Mr. and Mrs. Andrew Weir. They were met on the dock by Frank Waterhouse, Andrew Gillespie and David Baird. When seen by a Times representative Mr. Weir said that he had nothing to say for publication just yet. He would be staying here a few days and before he left he might have something to tell the people in connection with his steamer. He had been making a leisurely trip to Australia, the Philippines, Singapore, China and Japan, and he would spend some time on the coast. Trade in the Orient he found was looking up and the prospects for the future on this ocean were very good. Mr. and Mrs. Weir are at the Empress hotel.

Prominent and picturesque among

ANDREW WEIR.

Owner of the Weir Steamers, Bank Line, Australian Mail Line and a Large Fleet of Freighters.

The passengers between Hongkong and Yokohama was His Royal Highness the Gaekwar of Baroda, who, with the Maharaja and a numerous suite, is now visiting the Emperor of Japan. He is continuing his voyage to Victoria on the Empress of India, the next C. P. R. steamer to arrive here. He has an English lady for governess to his children and takes his automobile with him. He is the ruler of a state which has an area of 5,000 square miles, with a population of about 2,000,000.

Other passengers on the steamer were P. G. Benson and Mrs. Benson, English people travelling who are here looking for bear. Mr. Benson will spend some weeks in British Columbia and before he leaves he is hoping to be able to bag at least one of the great grizzlies of the northern mainland. Lieutenant-Commander Hon. R. O. B. Bridgeman is the son of the Earl of Bradford, on his way home; Otis F. Cato, an American naval officer returning from Manila; D. Fuller, the organist of Hongkong cathedral, on his way to England; Lieutenant Hallfax, a naval man from Hongkong; Major Oldham, of the Royal Field Artillery, on his way home after a term of service in India; Captain J. C. An, an American naval officer; and H. P. Wilkinson, the crown advocate of Shanghai.

Many of the passengers on the steamer were people who had made their fortunes out of rubber, which has been boomed to the limit during the past few months. There has been excitement all down the China coast, extending as far as the Straits Settlements, and fortunes have been made and will be lost.

News was brought from China that the recent disturbances at Chang-sha were not the direct cause of the anti-foreign sentiment, but were brought about by the rise in price of rice. The price advanced about two-thirds within a few days, and the result meant something akin to ruin to a great many of the poorer classes, who can only sufficient to purchase enough rice to sustain life at ordinary rates. It is true that there is in the country a cry of "China for the Chinese," but the disturbances cannot be attributed to that.

The Empress remained in port long enough for the passengers to visit the bank, one or two of the local institutions being kept open for the express purpose of accommodating passengers. Five then proceeded to Vancouver, where her bulk and other freights will be discharged.

## NOT SOLD.

Seattle, Wash., May 14.—W. M. Ostrander, of the Jensen and Ostrander Steamship Company, to-day denied that the steamers Ella and Erna had been sold. The Ella shifted to Bremerton this morning, where the Erna already is. Both steamers will await further orders there, according to Mr. Ostrander.

"I have instructions from the owner of the ships, M. Jensen of Hamburg, to discharge the crews and lay both vessels up," he added.

## RIVAL COMPANIES COME TO AGREEMENT

Temporary Arrangement for G. T. P. to Dock at Johnson's Wharf, Vancouver

A dispatch from Vancouver states that the Grand Trunk Pacific Railway Company have made arrangements with the C. P. R. for them to use the Johnson's wharf at that city in exchange for certain concessions at Prince Rupert. Some of the C. P. R. officials were much opposed to granting anything, but a temporary arrangement has been made, and it is probable that this may assume a more permanent character later. The officials of either company were recently in Prince Rupert looking over the ground together, and they reported to their headquarters with the above result.

## SHIPPING GUIDE

### OCEAN STEAMSHIPS

Vessel	From the Orient	Due

### FERRY SERVICE

Victoria-Vancouver.  
Steamer leaves here at 5 p. m. daily except Mondays, arriving at Vancouver at 7.30 p. m.; steamer leaves here at 1 a. m. daily, arriving at Vancouver at 7 a. m.  
Steamer leaves Vancouver daily except Wednesdays at 10 a. m., arriving Victoria at 1 p. m.; steamer leaves Vancouver at 1.30 p. m. daily, arriving here at 6.30 p. m.

### FOR SAN FRANCISCO

Ship Elginshire will be here sometime before Tuesday next to load lumber at the Michigan & Puget Sound Company's mill. Her skipper was in the city to-day.

### MARINE NOTES

The Princess May expected to be liberated from William Head this evening and she will sail later, with passengers and freight for Skagway.

### TO THE KLONDIKE

Blue Funnel liner Keemun is expected from Liverpool and the Orient tomorrow, with a very large freight and a number of Chinese passengers.

## "PACKARD'S" Combination Shoe Dressing

of course, it's the only dressing that will put on a shine like that. Shines so, too. A shine or two a week, with a rub every morning, keeps my shoes like new. Makes them wear better, too. A combination of a bottle of cleaning liquid and a tin of polishing paste. Best for all black shoes—Roses for browns or tans.  
At all Dealers—15c and 25c.  
There's a Packard Dressing to suit every leather.  
L. H. PACKARD & CO., Limited.  
MONTREAL.

## TIMES WANT AD. PAY

RANCHER FALLS TO DEATH OVER PRECIPICE

Wagon Drops Two Hundred Feet in Raging Torrent Near Edgewood

Nakusp, May 14.—News has just reached Nakusp that Frank Jordan, brother of the postmaster merchant and president of the board of trade here, N. W. Jordan, has lost his life near Edgewood, fifty miles south of Nakusp.

On Tuesday the deceased was in this town procuring supplies for the Jordan ranch at Fire Valley, leaving that day for home on the south bound steamer. Reaching Edgewood he walked some miles to Fire Valley, and early next morning hitched up his team to drive to Edgewood to draw in his supplies to the farm. At one place the road follows a very narrow, almost perpendicular stretch, with a high embankment above and a raging creek below, which forms into a waterfall of nearly two hundred feet in depth.

It seems that a small landslide had fallen down the embankment from above, narrowing the already limited roadway, causing the hind wheels of the passing wagon to slip over the precipice below, taking with it the wagon box and the unfortunate driver into the raging torrent below.

The team, with the front wheels, ran along to Edgewood driverless, when a search was immediately begun, and the marks of the catastrophe were plainly visible. There was absolutely no chance of saving his life, and the body is yet undiscovered.

Deceased was about 35 years old, married, and had lived in Seattle. He was well known along the Arrow lakes.

ELECTRIC LIGHT.

System Will Shortly Be Installed by Merritt Light & Power Company.

Merritt, May 13.—Merritt will shortly have an electric lighting system all its own as a result of the enterprise of several local business men. A plant costing \$15,000 will be installed which will be modern in every respect. An effort will be made to secure power from the mines at Middleboro for the present and it is generally anticipated that successful arrangements can be brought about with the Nicola Valley Coal & Coke Co.

At a meeting of the recently organized Merritt Light & Power Company it was the opinion of members of the concern that an electric lighting system should be installed as expeditiously as possible.

The matter of installing a water-works system is also under consideration though it is unlikely that active steps will be taken in this department for some time.

MESSAGE OF CONDOLENCE.

New Westminster, May 13.—"The united lodges of the Sons of England of the cities of New Westminster and Vancouver assembled in the far west of the Dominion of Canada desire to convey to the sorrowing relatives of the late King Edward VII. their deep sympathy in the loss sustained not only by them, but by the whole Empire, and pray God that He may soften the blow and protect our beloved Queen Mother and the royal family in their sad bereavement."

The above resolution, signed by District Deputy Towler, of the S.O.E.B.S., was cabled to His Majesty, King George V.

The resolution was adopted at the regular meeting of the society, which there were about sixty present, including forty who came over on a special car from Vancouver. The visitors represented the five Vancouver lodges and so the resolution can be said to represent the whole body of Sons of England in the two cities.

DEFINITE GAINS FROM COW TESTING.

A. W. Haine, of Dewdney, B. C., writes to the dairy and cold storage commission of the department of agriculture at Ottawa as follows:

"When we joined the cow testing association in 1908 we had 21 cows, aged between 4 and 7 years, with an average yield of 3,800 pounds milk. In 1909 our cows averaged 4,200 pounds milk. We have 16 pure bred and 5 grade Holsteins. I would not think of stopping weighing and testing our milk, as I feel satisfied that if a dairyman looks well to the care of his herd, and weighs and tests, his herd is bound to improve, and the bred men take more interest in their work. We commenced dairying 8 years ago with the intention of bringing our cows up to an average of 6,000 pounds milk each, which we did in about 5 years."

Such statements as the foregoing should prove inspiring to every dairyman. A fairly high standard of 6,000 pounds milk was reached in 5 years, and an increase of 23 per cent. has been added to that. Mr. Haine will probably be up to 10,000 pounds per cow soon. One particularly interesting feature of cow testing is that ideals are realized and then those still higher are sought for, again with satisfactory results.

KING MUST NOT VIOLATE LAW.

Honolulu, May 13.—If King Chulalongkorn of Siam, stops at Honolulu en route to the United States, he may be arrested by order of United States District Attorney Breckons for violating the Edmunds anti-polygamy act, which is strictly enforced in Hawaii. The king will be accompanied by his forty wives, according to an announcement from Siam. The district attorney says the fact that it is a king that violates the law would not prevent him from causing the arrest.

—You'll be glad you read Page 17.

"THE FOURTEEN MISTAKES OF LIFE"

London Judge Advises His Hearers to Spread All Sunshine Possible

His Honor Judge Rentoul has to be heard. It is almost impossible to report him. He is, as everyone who has listened to one of his inimitable addresses knows, so wise and witty, so discursive and anecdotal, and above all so human, that his obiter dicta, like himself, defy compression, says a London exchange. Of the scores of gentlemen who, at the Great Eastern hotel, under the auspices of the Guild of Freemen of the city of London, listened to his honor's discourse on "The Fourteen Mistakes of Life," it is safe to say that many of them, if not all, would disagree as to which was the outstanding bon mot or the best anecdote related. But they would all agree that the address was very enjoyable, and marked from beginning to end by laughter and applause, and more than once, by something akin to tears.

When I was in the House of Commons," said the judge, "I found the only way to understand its multifarious rules was to break them, one by one. So, in the same way, the way to learn the practice of the courts in the most telling manner is to ignore it."

It was on this principle that he ventured to speak about the fourteen mistakes of life. He had committed them all. First of all, it was a mistake to set up our own standard of right and wrong and to judge others by it. As Dr. Parker said, we each gathered to gether a bagful of prejudices, and we called them facts. Each standard was created by diversity of tastes. Imagine us all with similar taste in the matter of female beauty! Diversity of taste was inevitable. No two blades of grass were alike. No two fingers' prints. To set up a religious or political standard and expect other people to act up to it was not only merely arbitrary; it was foolish. What is politics? Pure vanity. One adhered to and liked a particular political party, not because you agreed with it, but because "it" agreed with you. Yet the Procurator had continued to be applied by nation to nation; party to party; and religious sect to religious sect. Most people today were of opinion that in the Crimean war we should have taken the part of Russia, and not of Turkey. But the only man who thought so, or at least said so publicly at the time, was John Bright. The second mistake was to try to measure the enjoyment of others by your own.

What was a bore? A man who insisted upon talking about himself when you wanted to talk about yourself. It was a mistake to have no rule without an exception. What was the exception to the rule that a man must be present when he is shaved? Again, it was a mistake to look for judgment and experience in youths, to endeavor to mould all dispositions alike, not to yield in trifles, to assume perfection in

our own actions, to worry ourselves and others about what could not be remedied or to neglect to alleviate or make allowance for the infirmity of others. It was a mistake to suppose that everything was impossible that we had not seen or could not do ourselves, or to believe only that our finite minds could grasp. Above all, it was a mistake to live only for the present when any moment could not be too well used in illustrating his points. Judge Rentoul remarked that it was sometimes advantageous to remember that the men who were "down" to-day might be "up" to-morrow, but it was nobler to remember that the man who was "down" to-day was "up" yesterday. The great orator Burke was once called upon to address a political meeting a short time after one of the rival candidates suddenly died; and the opening sentence of his speech was, "What shadows we are, and what shadows we pursue." And so it was. The race for votes and honors and power was all very well. Not should they sneer at it. Let them join in it. But let them all remember the beautiful statue of snow which Michael Angelo made at the bidding of the Medici Prince. So it was that the greatest triumphs melted away for us. After all, the greatest happiness as we could around us and minimize as much misery.

THE JUNE SMART SET.

The Baroness Von Hutten, whose "Pam" established for herself a unique place in the hearts of thousands of readers, introduces her admirers to a new and equally delicious character, "Jenny," in the June Smart Set. This latest novel of the Baroness Von Hutten's, which is published complete in this number, is a story of New York City. Ellen Duval contributes a short story, "The Strategist," that tells of a problem of life that was worked out in a very shrewd manner. "Twenty Minutes" is a brilliant bit of conversation between a husband and wife on the question of woman's suffrage. "A Bottle of Quene," by T. D. Pendleton, is a story of a wine with a mysterious property. Edward Marshall writes a unique war story, "For the Girl Back North." Helen Tompkins contributes "The Highest Price." Carl Holliday, in "The Gentle Art of Osculation," draws a fanciful picture of the history and development of the kiss throughout the ages. Other features of this issue are a one-act play by Edmund Elliott Shepherd, and verse and sketches by Theodora Garrison, Arthur Stringer, Nancy Byrd Turner, Elizabeth Payne, Jacques Wilmarth and others.

REVELSTOCK'S NEW SCHOOL.

Revelstoke, May 13.—Messrs. Foote and Praddall have been awarded the contract for the new school by the trustees. The contract calls for the starting of the construction of the new school at once. R. Tapping tendered his resignation as member of the board of school trustees. The matter was laid over till next regular meeting.

EASTERN SECTION OF TRANSCONTINENTAL ROAD

Work Has Been Started on Last Link Between Nipigon and Abitibi

Ottawa, May 14.—The Transcontinental Railway Commission has been advised that work has been started on the last link of the eastern section, between Nipigon and Abitibi. The delay was due to the difficulty in getting plant and supplies in. Before a start could be made conventionally it was necessary to advance construction to that point. It was stated yesterday at the commission meeting that all of the steel on the eastern section will be down by the end of next year, but that the work will not be completed until 1912. The line between Winnipeg and Superior Junction will be in regular operation this fall.

It was stated yesterday at the commission meeting that all of the steel on the eastern section will be down by the end of next year, but that the work will not be completed until 1912. The line between Winnipeg and Superior Junction will be in regular operation this fall.

NO HOSPITAL FOR HIM

Saved Just in Time.

Mr. Lewis MacPherson, of Dunvegan Inverness County, Cape Breton, had been suffering tortures from his Kidneys and Bladder, which were terribly inflamed. Finally his doctor could do nothing more for him and advised him to go to the hospital.

A neighbor, who had used Gln Pills—but read Mr. MacPherson's letter. "It affords me more than ordinary pleasure to convey, not only to yourselves, but also to all sufferers from Kidney and Urinary Troubles, the instant and complete cure that Gln Pills effected in my case."

"I suffered untold misery even when under treatment from the best doctors for over ten months, and nothing seemed to do me any good or relieve my painful condition. My trouble was inflammation of Kidneys and Bladder."

"I finally determined to take my doctor's advice and go to the Victoria hospital at Halifax for treatment. Two days, however, before my intended departure for the hospital a neighbor called and, happening to have a Gln Pill in his pocket, insisted on my taking it. I did so, and six hours after taking it, the results and benefits I derived were simply nothing more or less than miraculous. Instead of going to hospital I sent for a box of Gln Pills, with the result that I am a cured man. I recommend Gln Pills to every one suffering from Kidney Trouble."

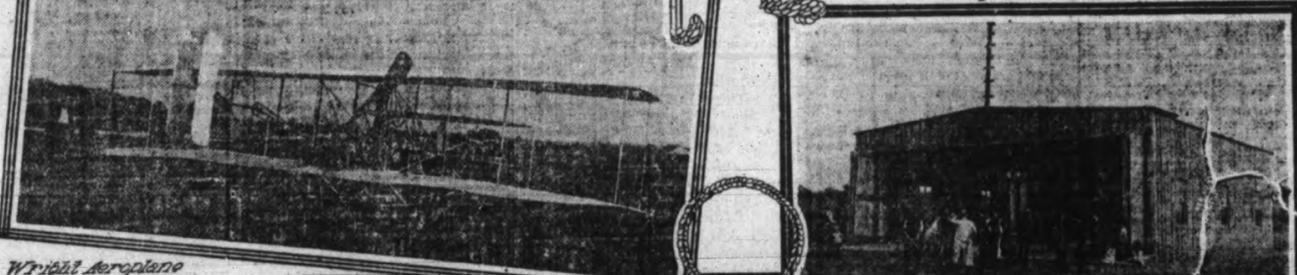

LEWIS MACPHERSON. It is just as we say, you see — Gln Pills do cure Kidney and Bladder Troubles when all else fails. Take them on our positive guarantee of relief or your money back. Dealers everywhere have Gln Pills at 50c. a box, 4 for \$2.50. Sample sent free if you write National Drug & Chem. Co., Limited, Dept. V. T., Toronto.

2 in 1 SHOE POLISH. Means foot comfort. It keeps leather soft and pliable—makes shoes last longer. Does not contain any Turpentine, Acids, or other injurious ingredients. Brilliant and lasting—one rub does the trick. ALL DEALERS 10c. THE F. F. DALLEY CO., LIMITED, Hamilton, Ont. and Buffalo, N.Y.

Victoria West. A FIVE ROOM MODERN HOUSE, with over half acre of ground, right on arm of the water. This is a comfortable home, as well as a good speculation. Price \$3,900. LANGFORD STREET—Corner, with five large lots and six room modern house. Property all under cultivation. Price \$3,500. Trackage. 165 FT. FRONTAGE ON THE TRACK by 117 FT. DEEP, with \$3,000 house. Price \$12,000. Marriott & Fellows. PHONE 945 619 TROUNCE AVENUE. ADVERTISE IN THE VICTORIA EVENING TIMES.

TEACHING THE ARMY TO FLY (The New U.S. Government Aviation Field at College Park)

by Waldon Hawcett

Wright Aeroplane Just before Flight College Park, Md.

Located between Washington and Baltimore, directly on the line of railroad connecting these two cities, is a tract of land which is just now in the public eye and is likely to have even greater prominence in the future. This level expanse is the new aviation field of the United States government and it is here that Wilbur Wright—best known of the two famous brothers who first conquered the air—recently instructed the first of the young American army officers who are to be entrusted with the flying machine which Uncle Sam purchased from the Wrights, at a cost of about \$20,000.

The present prominence of the government's new aviation field arose first from the fact that the wizard Wright, while primarily devoting his time and energies to teaching two chosen army officers how to fly, incidentally carried on interesting experiments in several lines and has broken enough world's records to last the average aviator a lifetime. Wilbur Wright and his pupils have on several different occasions driven the sky craft at greater speed than has been attained by any other aeronaut in the history of the world; have made turns with the machine in smaller circles than were heretofore dreamed possible; have to their credit new exploits in starting flights without the use of the usual starting mechanism, and have successfully raced the cloud dipper against express trains on the railroad adjoining the aviation ground and intruded in other novel experiments.

So much for the events that have focused attention upon the slice of farmland that has suddenly put the hamlet of College Park, Maryland, "on the map" for the newspaper readers of two hemispheres. Equally significant are the prospective happenings that are likely to give this locality even greater prominence in the future. It is proposed that the government aviation field, and such adjoining property as may be necessary, shall be made the scene of the great international aviation meeting which will be held in the United States next year—probably in the spring. When, at the first great aerial free-for-all, recently held in France, Mr. Glenn Curtiss, an American, captured first honors in the most important races he, in effect took away to America the great aeronautic trophies. When European aviators, in the autumn of last year, had the earliest opportunity to attempt to recover

Lieut. Lahm and Lieut. Humphries

the coveted prize they must, perforce, come to the present titleholder, Curtiss, to try for the blue ribbon of the air. This means that the contest will be held at some point in the United States, and it seems probable that College Park will be selected.

Uncle Sam has expression to be proud of his latest acquisition, for the aviation field at College Park is the first specially designed aeronautic rendezvous provided by any government in the world. This is all the more remarkable when it is taken into consideration that for more than half a decade past some of the leading European powers, and notably France and Germany, have been giving nearly more attention to all branches of aeronautics than has this government. However, until the War Department recently took steps to provide a special aviation field, no nation had thought it necessary to provide a specially prepared practice ground for the aerial acrobat. One—and all they did just as Uncle Sam did until recently—made use of a military parade ground in some convenient location.

When United States Army aeroplane No. 1 was first delivered to the War Department, the unofficial tests were all conducted at Fort Meyer, Virginia, where

the trophies of the army's dirigible balloons No. 1 had previously been carried on Fort Meyer, which is located just across the Potomac River from Washington, D. C., is very convenient to the seat of government and this is an important requisite in a government aviation field, for the powers that be at Miss Columbia's capital wish to keep in very close touch with all that is done in military aeronautics. That, however, was almost its only recommendation. The country around Fort Meyer is rough and broken; there are many trees and more buildings than are welcomed by a nervous aviator seeking a place to alight. The Wright brothers registered objections to the locality when they were putting the new machine through its paces to prove that it met government requirements, and when the authorities decided to accept the machine at \$50,000 provided the Wrights would teach two army officers how to operate it, they advised some more suitable scene for the schooling.

After canvassing various sites the officers of the Signal Corps, who have the matter in charge, finally selected the one at College Park. Here the government has a large field of several hundred acres, under lease until next spring, and can purchase the property, if it should be deemed desirable. Similarly adjoining property can be obtained if it is desired to expand the aviation field. Climatic conditions and the wind records of this locality are such as to indicate that experiments in flying can be carried on during the greater part of the year. There is much work ahead if the military authorities carry out their present programme with reference to aeronautics. The instruction of the two premier army aeronauts—Lieutenant Lahm and Lieutenant Humphries—by Wilbur Wright was but a beginning. Those two officers in turn are to teach their brother officers of the Signal Corps how to manage aeroplanes aloft, and when a number of the officers have qualified as aeroplanists there will be entered upon an important series of experiments designed to develop and improve the standard type or aeroplane with special reference to military uses.

The government's new aviation field is not calculated to greatly impress visitors. There are no grandstands or refreshment booths for the spectators, no vendors of programs or field glasses and none of the other incidentals that might be looked for at the scene of a history-making spectacle. A sign, erected by the management of a trolley line, and bearing the inscription "To the Airship" is the only indication that anything out of the ordinary is afoot in a humdrum little community. All this is quite in accord with the wishes of those in charge of the aviation field. None of the "stars" of Uncle Sam's school of applied aeronautics desire to have visitors. They receive courteously the callers who do make their way to the aerial outpost—and many distinguished men make pilgrimages to the aeroplane station—but they would be just as well satisfied if they could be left to conduct their (English experiments in solitude. The vast throngs that attend the official aeroplane flight at Fort Meyer were always a source of uneasiness to the Wrights, who are ever nervous lest someone be hurt during their flights, and the likelihood of immunity from crowds was one of the chief arguments in favor of the selection of the present aviation field.

As for the aviation field itself, it is simply a good-sized tract of very level ground from which the small trees and underbrush have been removed. The blasting of stumps went on even after the aeroplane flights had commenced. There are no large trees on the field and there are few buildings anywhere in the vicinity. The field has not the soft turf of the average well-

The First Aeroplane Squad of the U.S. Army

kept lawn; indeed, its grassy coverlet is not equal to that of the ordinary pasture, but this is not a handicap, for the aeroplane is equipped with runners and when the machine alights these slide over the ground, unimpeded by small stones or other minor obstacles. At one side of the field is the starting tower of the aeroplane with a starting rail which can be laid in any desired direction from the tower, according to the direction of the wind. When a flight is to be made the aeroplane is placed on this rail, supported on either side by wheeled rests. Ordinarily it is made to shoot down the rail—that is, given its initial impetus by the release of a weight of several hundred pounds which has previously been hoisted to the top of the skeleton-like starting tower. During the flights at College Park, however, the army aviators have several times dispensed with the use of this weight and have sent the flyer along the rail and thence into the air merely by means of the swiftly revolving propellers at the rear of the flying machine.

The only building thus far erected by the government at its new aviation field is the frame structure which serves at once as a shelter for the aeroplane and a temporary barracks for the enlisted soldiers comprising the Aeroplane Squad, whose duty it is to look after this precious machine. The officer aviators have found boarding places in the village, near the aviation field, so as to be close to the scene of activities at all times. This is well-nigh essential, for even the experienced aeroplanist cannot predict in advance with any certainty when a flight can or cannot be made. A delicate apparatus mounted on the aeroplane, shed registers the velocity of the wind at all times and a sudden shifting of the breeze may result in flights at short notice or the equally sudden postponement of planned ascensions. Many of the instruction flights at the College Park field are made early in the morning or at sundown and this circumstance makes it convenient for the aviators to be domiciled near the aviation headquarters.

For use in time of war. The Aeroplane Detachment represents one branch of the newest and most interesting section of the United States Signal Corps, namely the aeronautical division. The other arm of this service, known as the balloon detachment, was created something like two years ago, for, be it known, Uncle Sam has been experimenting with spheroid and dirigible balloons for a longer period than has been covered by the investigation of the practical side of aeroplaning. The aeroplane detachment was organized only a few months ago, when it was decided that the war department would purchase one or more of the Wright machines and include them, henceforth, among our standard utensils of warfare. The young men of the aeroplane detachment do not make flights in the newly acquired machine. That exciting duty is reserved for commissioned officers of the Signal Corps. However, the enlisted men of the squad do everything imaginable with the aeroplane except to fly it. They keep it in repair; bring it out of the shed when a flight is scheduled; start the motor, and finally move the mechanical bird back into its house after a flight has been concluded. As has been said, these soldier specialists make their home on the aviation field. They have sleeping quarters in the aeroplane building and in the rear are tents, where the special cook of the squad cooks and serves meals to the boys. Incidentally these young men are all practicing telegraphy, for it is planned that once the United States Army officers have thoroughly mastered aerial navigation they will inaugurate a series of highly important experiments in wireless telegraphy via war balloons and airships.

THE WISDOM OF SILENCE. (Success Magazine.) The late Judge Silas Bryan, the father of William J. Bryan, once had several hams stolen from his smokehouse. He missed them at once, but said nothing about it to anyone. A few days later a neighbor came to him. "Say, judge," he said, "I heard few had some hams stolen 'other night." "Yes," replied the judge, very confidentially, "but don't tell anyone. You and I are the only ones who know it." Scrubbing brushes should always be hung up when not in use.

# HOMES

- FOUL BAY—Close to car, six room modern bungalow, with one acre of ground, close to and facing the water. Price **\$5,750**
- OAK BAY MUNICIPALITY—50x132 feet lot, with five room modern house, well finished. Price.....**\$3,150**
- JAMES BAY—60x130 feet, with ten room modern house, hot water heat throughout. Price.....**\$6,300**
- PANDORA AVENUE—Good location. Lot 100x145, with modern well finished house, seven large rooms. Price **\$8,000**
- HEYWOOD AVENUE—Fine seven room house, facing park. Large lot. Price.....**\$5,000**
- RICHMOND AVENUE—163 ft. frontage by 113 ft deep, five room house. Price.....**\$4,000**

### IMPROVEMENT FOR DOUGLAS

(Continued from page 1)

Ald. McKedown reassured these members, however, by remarking that Mr. Mann had stated that he would do all the work necessary at 25 per cent. below regular legal rates, until such time as the new solicitor should assume office.

Ald. Sargison raised the question of the manner in which the streets are being left by the B. C. Electric Railway Company, after having been torn up by that company to do certain work.

Ald. Hunter remarked that he knew the company was taking rock off Gorbally road and carrying it down to the gas works.

Ald. Sargison complained of the condition in which the company had left certain streets in James Bay. He favored the council compelling the company to use a road roller to effect necessary repairs. The engineer will look into the matter.

C. H. Topp, of the firm of Gore & MacGregor, presented a bill for \$175, fees for attending as witness in the action brought by W. Gilphart against the city. This was referred to the city engineer for report.

### NO AGREEMENT IN

#### HYDE MURDER TRIAL

Jury Reports That There is No Prospect of Early Verdict Being Reached

(Times Leased Wire.)

Kansas City, Mo., May 14.—When the jury, which is hearing the evidence against Dr. B. C. Hyde, charged with the murder of Col. Thomas H. Swaine, filed into court to-day it was announced that no verdict had been reached by them.

According to courtroom report, four jurymen were voting out for acquittal of the defendant, two others for murder in the first degree, with life imprisonment as punishment instead of hanging. The remainder were believed to be in favor of murder in the second degree.

The defendant slept soundly during the night and appeared to-day fresh and smiling. Mrs. Hyde visited the

# DO YOU WANT TO MAKE A 2,000 Per Cent. Profit?

## Investment in Coal Stock at First Cost Makes it More Than Possible--Some Plain, Sane Facts as to Canadian Northern Coal and Coke as a Safe and Promising Investment that Your Own Common Sense Will Endorse.

If you were offered a reasonable opportunity to make 2,000 per cent profit on the amount invested, would you consider the opportunity worth investigation?

In placing before you the stock of the Canadian Northern Coal and Coke Company, Limited, I will give you reasons that may appeal to an investor as practical and worthy of consideration. While all investments in mining stock are attended with a certain amount of risk, much depends upon the motive behind the formation of the company. If its object, as unfortunately has been the case, is primarily for the promoters to profit by the sale of the stock, the shareholders may receive a profit, but not in proportion to the amount invested.

Again, in considering investment in a company, the capitalization is another essential feature. Some companies are capitalized to such an extent that it would almost require a mountain of gold or a sea of oil to pay the shareholders a profit.

There is no disputing the value of the bituminous coal of British Columbia, inasmuch as within our boundaries is contained the only supply for the future of the entire Pacific seaboard. The recent investments in coal in this province by the world's greatest financiers speak for themselves.

It is not difficult to see that the time is rapidly approaching when all, or practically all of the available coal areas will be taken up and if not developed held for high prices by speculators.

Therefore opportunities for securing an investment at the FIRST COST should be investigated closely by far-sighted investors.

The property of this company consists of 27 square miles (17,280 acres) on the main line of the Canadian Northern railway. The filed location line of the Grand Trunk Pacific Railway from Tete Jaune Cache to Vancouver also passes through the property, thus giving competitive transportation by two transcontinental railroads.

The company has been incorporated with a capital of \$125,000, of this it is estimated \$35,000 will remain in the treasury.

A practical investor compares the capital to the value of the assets of a company. This capital represents an investment on a value of \$5 per acre. This amount will place the property in the position of a proven coal area on which a value of \$100 per acre would not be considered unreasonable in view of the fact that coal lands have sold for more than double this price and which is acknowledged to be far below their true intrinsic worth.

The property has been thoroughly examined and reported on by an expert engineer. Considerable money has been expended upon the preliminary development work so that investment in the company while it is not yet on an absolutely assured basis, still an investment can be made with every reasonable prospect of making a very remunerative return on the amount of money invested, which on the basis outlined above would give a profit of 2,000 per cent.

When these shares were placed upon the market a little over a week ago assurance was given that the machinery would be ordered and work on the property begun at once.

The machinery was ordered at a meeting of the directors held on Wednesday, May 11, and the diamond drill and other machinery will be shipped and placed in operation as quickly as possible.

The shares that are being sold are treasury shares for the purpose of providing additional funds for this work and the money will ALL BE SPENT ON THE PROPERTY. The object of the company is solely to develop the property. There are no salaries paid to the officers or directors; the affairs of the company are conducted on a basis that will be appreciated by any business man.

The amount of shares is limited and they have been largely subscribed for. This will be your last opportunity to obtain an interest at the first cost in one of the largest and best commercially located coal areas on the Pacific.

It is not necessary to attempt to blind any man's judgment by tales of fabulous wealth as to the true merits of investment from a business standpoint, but if any man will consider the immense fortunes that have been made from coal he will seriously consider before he neglects the opportunity to at least make further enquiries into the proposition that is now offered, perhaps for the last time.

It will be necessary to either call, phone or write to this office as there are no canvassers employed. The stock has largely been sold through the shareholders themselves. The officers of the company are:

The officers of the Canadian Northern Coal and Coke Company, Limited, are as follows:

- PRESIDENT**  
M. B. Carlin, Esq., Capitalist, Victoria, B. C.
- VICE-PRESIDENT**  
D. W. Hanbury, Esq., of Hanbury, Evans & Co., Vancouver and Victoria, B. C.
- SECRETARY-TREASURER**  
H. G. Ashby, Esq., of Messrs. Croft & Ashby, Vancouver, B. C.
- DIRECTORS**  
M. B. Carlin, Esq., Capitalist, Victoria, B. C.  
D. W. Hanbury, Esq., of Hanbury, Evans & Co., Vancouver and Victoria, B. C.  
S. MacLure, Esq., Architect, Victoria, B. C.  
Henry Croft, Esq., Consulting Engineer, Victoria, B. C.  
A. G. McDonald, Esq., Mine Owner, Kamloops, B. C.
- SOLICITORS**  
Messrs. Elliott & Shandley, Victoria, B. C.

Shares, while they remain, will be sold at the original price of 25 cents each, fully paid up and non-assessable, on terms of half cash, balance in three months.

### GULF ISLANDS WILL HAVE BIG FRUIT CROP

#### Provincial Deputy Minister of Agriculture Advises Careful Cultivation of Orchards

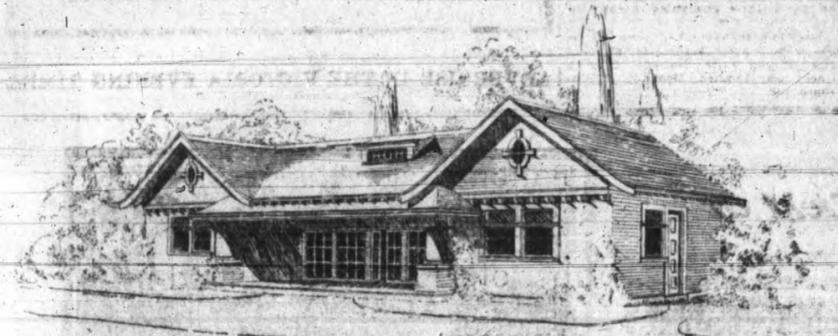

That the outlook for a record fruit crop on the Gulf Islands is most promising is the statement made by W. E. Scott, provincial deputy minister of agriculture, on his return from a trip of inspection. There has been no dam-

age to the trees, which are laden with blossoms, from frost, and although the spring has been a fairly dry one, careful cultivation of the soil will conserve sufficient moisture to insure heavy returns.

Mr. Scott says that Vancouver Island and many of the islands in the gulf are splendidly adapted to the growing of fruit, and expresses the opinion that scientific cultivation, such as is practiced in the Island fruit districts, will result in large and profitable crops.

—Page 17 for money-makers.

Wm. Dunford & Sons are built right.

### TENNIS CLUB PAVILION

The Victoria Lawn Tennis Club has commenced building the new pavilion at the tennis courts on Cadboro Bay road, a building permit having been issued this morning.

The plans are drawn by H. G. Griffiths and the contractors are Nelson Benneck and Sons. The club house will cost \$2,000, will be provided with four rooms, and will be comfortably furnished. There will be a central hall, a social room and two dressing rooms. The tournament will be held during the first week in August.

### FRENCH CUSTOMS IS FIFTY YEARS BEHIND

### Present Minister of Finance is In- stituting Sweeping Reforms in the Service

All who travel know the discomforts of the douane. Wherever frontiers have to be crossed, there lie in wait for the harmless passenger regiments of severe officials. He is driven into a musty custom house. The doors are locked, and frequently guarded as well by soldiers with bayonets fixed. Everyone is assumed to be a criminal until he can prove that he is not.

Perhaps it is night. The shade is drawn over the lamp in the carriage roof. Along the seats weary forms, mysterious in the darkness, are stretched out in fantastic attitudes. After much shifting about they have at last dropped off to sleep. For a blessed interval they are oblivious of the rattle of the train. Their aching bones, which yearn for the accustomed softness of bed, have ceased to torture them. They seek nothing of the long hours of travel still before them, of the waking in a dim dawn and a frowzy atmosphere. Silence is broken only by the sound of regular breathing. The travellers are at peace, writes

"A Traveller," in the London Daily Mail.

Suddenly their repose is rudely broken. The door flies open. The light is abruptly turned on to their indignant faces as they raise themselves on their elbows to discover the cause of the intrusion. Uniformed officials stand in the doorway. They are the minions of the customs. "La visite de la douane," they say, gruffly; or, if they are German, they merely grunt out, "Zollrevision."

Sometimes they are content to examine the hand-luggage in the compartment. Even this is bad enough. Everything has to be taken down from the racks and offered to their suspicious gaze. "Open here," the command. "Undo those parcels." "Unlock that bag." Of course they find nothing. Any intelligent dog could have seen at a glance the character of the travellers, who are tourists on pleasure bent. They are going to spend their money in the country. Does the country, in the person of its custom house officers, treat them considerately on that account. Not a bit of it. It delights in making them as uncomfortable as it can.

Often it forces them to get out of the train, carry all their belongings to the douane (owing to the scarcity of porters at two in the morning), and remain there, locked in, for half an hour. If there are a great many of them there is a struggle at the counters so which a football match is gentle by comparison. Coming out of the channel

boats, too, on the French and Belgian side, there is generally a regular fight in the custom house. Everyone is anxious to be attended to first. Heavy bags are flung on to the counter over nervous old ladies' heads. Excited people rush about sticking their bundles of umbrellas into everyone they meet, or lacerating the shins of those who are not quick to jump out of their way with the sharp edges of metal-shod hat-boxes.

The method of the custom house officers is one which betrays a sinister distrust of human nature. "You have nothing to declare?" they ask in insinuating tones. "Tobacco, cigars, brandy?" In tones which thrill with honesty you reply that you have nothing at all, and you inwardly congratulate yourself upon getting off so easily. Naturally you expect him to take your word. But you little know the nature of the animal. "Ben!" he says vindictively; "ouvrez-moi ca." And open it you must, although you know that once the contents are turned over you will never get them packed into the same space again.

Nor is there any certainty as to how they will treat you if you have anything dutiable to declare. Some French officials let matches pass freely. Others fall upon them with the utmost rigor. At Chiasso I have been allowed to take half a pound of tobacco into Italy. At Modane I have been treated like a pick-pocket for having half an ounce. Usually on the Austrian frontier a few cigars and cigarettes are admitted without cavil. Yet once at the custom house of Innsbruck an official demanded eight groden (8s 8d) duty on quite a few which I had honorably declared. I refused to pay it. I told him he could keep them. He shook his head and broke them up solemnly before my eyes.

Well, in future—in France, at any rate—all these rigors and indignities of the douane are to be softened. M. Georges Cochery, the new minister of finance, has evidently suffered at the hands of douaniers himself. He has just issued a circular to customs officers for which all who travel owe him the warmest thanks. "The arrangements for the examination of luggage (he says) have not been properly revised for fifty years past. They ought to be brought into harmony with the present conditions of rapid travel.

The examination conducted by customs officers at all hours of the day and night, among passengers tired and exhausted by long journeys, demands the greatest professional skill and tact. It must be carried out as considerately as possible and intelligently adapted to new habits.

The plan of examining hand-luggage in the trains and having the big luggage sent under seal to Paris and examined there might be further extended, so as to obviate the necessity of obliging passengers to get out in the middle of the night, their luggage in their hands, and go into the customs hall.

Furthermore, it should be considered whether passengers disembarking from steamers cannot be spared the delays caused after loading due to customs formalities by the examination of luggage either at the starting point or on board.

"I have confidence (concludes the finance minister) in the initiative and activity of the customs department; I am sure it will respond to my appeal, and will do all it can to strike a balance between the serious financial interests entrusted to its care and the modern demand for comfortable and quick travel."

As to the serious financial interest of which M. Cochery speaks, it is, of course, necessary to take measures to prevent smuggling. But, as a rule, the examination of the luggage of those who are obviously tourists is quite perfunctory. The other night, on the eastern French frontier, the officers woke us up, but just as one was about to examine our bags another came along the corridor and told him a funny story. They passed along together laughing, and we were omitted altogether. Almost always one can escape openly anything by addressing the officer very politely and calling him "monsieur" with a deferential air. If we wanted to smuggle we could do it with ease.

There is an obvious answer to this. The examination is perfunctory because those who are obviously tourists are not likely to want to smuggle. Very good. Then, if that is the case, why not abandon so annoying and silly a farce? Why not arrange that travellers arriving at any important station and intending to cross a frontier could have a label attached to their boxes and bags which would frank them right through? The customs officers about still have the right to require the opening of any package they had reason to suspect. But a very great amount of delay and trouble would be saved.

At present our own customs officers are models of politeness and good sense. I saw one in a channel boat last week sticking his little labels on to all the hand luggage without even asking its owners whether they had anything to declare. They seem to tell at a glance whether the traveller is "all right." I suppose I have crossed the channel ten or twelve times a year for a long while past, and I have never found them anything but considerate and tactful. Our customs, however, are at present a small matter. When we get tariff reform the duties of the officers will be far more difficult—unless some plan such as M. Cochery suggests can be hit upon for saving passengers' time and sparing them from the annoyances of the present system. It is a problem which might well be discussed by a small international customs officials' conference. They might at all events hit upon some expedient which would save us from being so roughly awakened out of one uneasy slumber, so difficult to recapture, in the middle of the long, limb-racking night.

### TOBACCO HABIT.

Dr. McTaggart's tobacco remedy removes all desire for the weed in a few days. A vegetable medicine, and only requires touching the tongue with it occasionally. Price 2s.

### LIQUOR HABIT.

Marvelous results from taking his remedy for the liquor habit. Safe and inexpensive home treatment; no hypodermic injections, no publicity, no loss of time from business, and a cure guaranteed. Address or consult Dr. McTaggart, 25 Yonge Street, Toronto, Canada.

# The TIMES Granted Honor Marks in Circulation

The Association of American Advertisers (New York City) has examined and certified to the circulation of this publication. Only the figures of circulation contained in its report are guaranteed by the Association.

No. *DeLoe* Secretary.

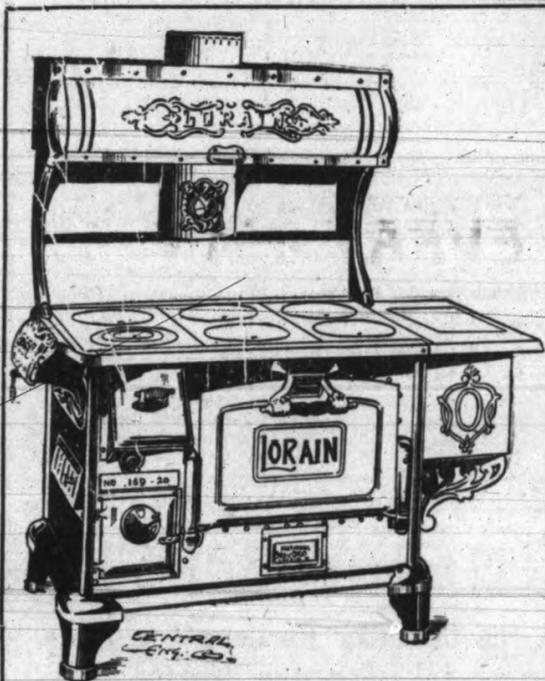

**THE TIMES** HAS RECEIVED  
from the head office  
of the Association of  
American Advertisers, a handsome certificate, confirm-  
ing and authenticating its circulation statement for the  
year just closed.

THE ASSOCIATION OF AMERICAN ADVERTISERS is  
composed of most of the national advertisers of this  
continent—firms which are interested above all others in  
ascertaining the exact number of subscribers served by  
each of the newspapers of America.

Alex. W. Costigan, one of the expert actuaries for the  
Association, visited Victoria the last week of the year,  
and spent two or three days in examining the circulation  
records in the Times Office. His exhaustive examina-  
tion extended to press count, paper invoices, returns,  
etc., each being checked carefully and compared. As a  
result the Times has been accorded HONOR MARKS and  
a place among the limited number of daily newspapers  
whose circulation claims are verified and guaranteed by  
the A. A. A.

This certificate is accepted even before the sworn  
returns of publishers by the national advertisers, being  
made by experienced and thorough investigators, whose  
only object is to obtain the facts for their employers.

All advertising contracts made with the Times are  
based on this proved circulation in a constituency where  
the purchasing power of the unit is greater than any-  
where else in Canada.

## "LORAIN" STEEL RANGE

### The TOP is Right.

The flues and lids are extra heavy and well braced with ribs to prevent warping.

### The FIRE BOX is Right.

It is particularly heavy and is ventilated which gives it long life. Remember, the fire box is the heart of a range.

### The OVEN is Right.

It is made in one piece, cannot buckle. It is air and soot tight, consequently a perfect baker.

### The LEGS are Right.

They lift the range off the floor, air can circulate. There is no place underneath for dirt and bacteria.

### The DOUBLE SHELF is Right

The upper one is twelve inches wide and runs the full length of range. Below is the six-inch, full length tea-shelf

### The POUCH FEED is Right.

Fuel can be supplied or the fire stirred without having to move steaming hot, cooking vessels.

### The NICKEL WORK is Right.

We studied long to make it so. It is plain and smooth, easily kept clean, and is rich in appearance.

### The FULL LENGTH TEA SHELF is Right.

It gives an extra six-inch shelf in addition to the warming closet. It is low and handy—conveniently so.

### The CLOSET is Right.

It is roomy. The door is well balanced, weighs but a feather in operation, absolutely noiseless.

### The RESERVOIR is Right.

It is the up-to-date contact principle. It has no dampers to affect the oven draft. Water is always hot.

### It's ALL, all Right.

Right in material. Right in workmanship. Right in price.

COME AND SEE IT.

### TEACHERS' INSTITUTE ELECTS ITS OFFICERS

#### Decide to Hold Only Three Meetings a Year in Future, Instead of Four

Officers for the coming year were elected at the annual meeting of the Teachers' Institute, held in the Carnegie Library hall yesterday afternoon. E. Campbell presided in the absence of Principal Willis. The officers-elect for the coming year are: Hon. president, E. B. Paul; president, Ernest Campbell; vice-president, Miss Burris; secretary-treasurer, T. H. Miller; executive committee, in addition to the above, Misses Keast and Jesse and Messrs. A. Campbell and H. B. McLean.

An important change was made in the constitution of the institute. It was felt that now that Superintendent Paul was holding regular meetings of the teachers of the different grades, at which teaching methods were discussed much better than in the institute, and as it was usually difficult to get a programme for the first meeting, it was decided to cut the number of meetings down to three a year. These will be held in November, February and May. Mrs. Oscar Lucas gave a violin solo, which was so acceptable that a second selection was demanded. Mrs. Helmsken sang most delightfully, and H. F. Pullen gave a talk on birds and their nests, illustrating the same with about eighty pictures, which were projected by W. Ritchie.

Votes of thanks were passed to the retiring officers and those who took part in the programme.

### KNIGHTS OF COLUMBUS.

Local Council Adjourns Regular Meeting in Token of Sorrow.

At the regular meeting of Victoria Council, No. 1,256, Knights of Columbus, held on Thursday evening, the following resolution was adopted:

"Whereas the unexpected and deplorable death of our late beloved sovereign, King Edward VII., has plunged the entire universe into the deepest mourning, and called forth expressions of the most poignant grief from every part of the globe;

"Therefore, be it resolved, that Victoria Council, No. 1,256, Knights of Columbus, now assembled in regular meeting, do now adjourn in token of our deep sorrow and profound regard for the beloved memory of his late Majesty."

—You'll be glad you read Page

### INCREASING ACTIVITY NEAR PORT ALBERNI

#### Big Hydraulic Plant on China Creek—Power Station Projected for the City

Interest in Port Alberni is stimulated by the news of great activity on China Creek, in the neighborhood of the town. Prospectors have been set to work on the creek by a Nōme syndicate and will examine the placer possibilities during the coming summer. It is stated that the syndicate will erect a hydraulic plant, to cost over \$250,000, if the indications warrant it.

A. E. Waterhouse, of Seattle, has applied for a record on the Sprout river of 600 inches, with the intention of erecting a power plant to supply electricity to Port Alberni, and Colin Murray, also of Seattle, is seeking a record of 100 feet a second on China Creek, two miles below the Duke of York Hydraulic Company's workings.

W. D. McCombe, who arrived from Port Alberni yesterday, and is staying at the Empress hotel, says that the town is growing at a surprising rate. Property values are increasing every day, as the E. & N. railway track comes nearer. Mr. McCombe said that construction work is being pushed as fast as possible and that it was generally anticipated that the line would be at the lower end of Cameron lake by the end of September, which means that only 20 miles will then intervene between the construction gangs and the town.

### What Other People Think

#### AN EXPLANATION.

To the Editor:—I would esteem it a great favor if you would kindly insert a few lines respecting the case that has been given great prominence. Firstly, I did not lay any charge whatever against my husband, although pressed very much to do so, the facts of the case being that we had a few words at home, as he had been drinking. I wanted him locked up to sober up. I tried hard to get him released early next morning (Sunday), but was told I could not, but quite likely he would be out early Monday morning. The slight injury I received to my head was caused by falling over a chair when running out of the house, which has left a slight scar that can hardly be seen.

MRS. MARY LASH.

#### FEAR.

To the Editor:—So much is being said now about the dire calamities that are likely to happen this year on account of Halley's comet taking its usual seventy-five-year outing, that I should like to express a few of the thoughts that will naturally occur to a student of New Thought.

Fear has been the bane and curse of all peoples in all ages. Even in the early days of Christianity the fear of the Lord overtaking them if they forgot Him for a minute held thousands in a deadly thrall which nothing could shake. And what is fear? It is the dread summing up in your imagination of something which is going to happen to you or yours. It is the awful suggestion of your mind to your inner consciousness that something of which you can only just realize the outer enormity is waiting to clutch and lay you low.

Now fear is a very real thing to be reckoned with. To it is attributable more than half of all the ills that flesh is heir to. To it is attributable more than half of all the failures we see of human beings trying to make good. They want to do it, they intend doing it, but they are afraid they cannot. Hence they cannot.

Now a word as to how this works out in ordinary life.

All life is divided into planes. We, humanity, are in one or the other, according to where we are; we look upon life from different angles. To you it is all rosy, full of pleasures; to me, blue ruin (whatever that may be) stares me in the face. Now it is not a question of means. Some of the poorest people are the happiest; some of the richest the most miserable; it is just a question of which plane you have ascended for since youth.

If a friend says: "Isn't it a lovely day?" and says it in a witty, delicious tone, as if she were announcing the death of a relative, you know at once that she is right in the plane to catch all the doleful, dour things that are coming. To all hate, vengeance and malice, to all disease, sickness and distress she opens her mind, by the very trend of her thoughts and they find a harbinger in her.

To those whose minds are free from fear, who are above petty nastiness, who dwell in the heights, evil, sickness, calamity passes them by. Rebuffs they will get, but not those that make any material difference.

It is only the little god of fear that can make you suffer. And how ridiculous you would feel if you knew it was your own thought force that was making you suffer all you do suffer.

And now as Halley's comet approaches the fear thought will have full sway and in thousands of cases will control and multiply upon itself, so it behooves us

who know that thoughts are things that we "come out from among them," and create only those thoughts that uplift and build for peace and prosperity.

Of course about it.

Let us look for great things instead of calamities and we shall get them. A great King has passed, a greater has come to the throne. Great prosperity for the West. Great questions to be settled amicably. "Set your mind on things above," good things, pure things; make your bodies real living temples of the living God (not decayed abodes), and the peace of God can enter in and dwell with you. "Fear you will recognize sickness as sin and abolish it and enjoy life to the uttermost. Remember, God has given you the blessed privilege of choice. See that you do not abuse it."

GEORGINA SEYMOUR KENT.

#### OPENING OF THE "KINOSCOPE"

At the Victoria theatre on Monday evening next, the Kinoscope motion pictures and vaudeville will open to the general public for the first time, and will be continued throughout the entire summer. The programme for Monday is a very interesting and attractive one, and should please the most critical. It provides both amusement and instruction, the tone of the whole performance being refined and elevating. A careful selection of picture subjects is made from among the latest productions of the best filmmakers in Europe and America. Comedy, dramatic, travel and educational subjects blend in just the right proportions to hold the interest of the public.

The vaudeville turns will be for the most part musical and are being selected with great care from the best American circuits, and will include the latest vocal and instrumental attractions. The latest popular songs will be rendered by a first class operatic singer.

A specially interesting feature on

## P. R. BROWN, LTD.

### STORES & OFFICES TO RENT

Phone 1076.

1130 Broad Street.

P. O. Box 428.

Monday will be a set of royal pictures, consisting of the latest photographs of his late Majesty King Edward VII., Dowager Queen Alexandra, King George V. and Queen Mary, views of the mourning drapings on the principal buildings in the city, and a complete set of pictures taken on the occasion of the visit of Their Royal Highness the Duke and Duchess of York (the present King and Queen) to

Victoria in 1901. This subject is most appropriate one at the present time, when the thoughts and sympathies of the whole empire are centered on the royal family, and will certainly appeal to the pride and patriotism of the citizens of Victoria.

For the young folk, "The Wizard of Oz" will prove a source of wonderment and delight, it being a remarkably fine film, the subject and special music most fascinating to both old and

young alike. "A Naval Review at Spithead" is another feature film of special interest at this time. Some of the finest scenery on the California coast is shown in "Saved From the Tide." "The Kinoscope" orchestra will render selections suitable to the different subjects during both afternoon and evening performances. The performance is continuous and the public can drop in at leisure and spend a pleasant hour as inclination dictates.

# PORT ALBERNI

# The Real Estate Mart—Some Offerings

## PARKDALE LOTS

\$200 EACH MONTHLY PAYMENTS \$200 EACH

The clearest proof that Parkdale lots are the cheapest buy in the city is the fact that they are selling so rapidly. Every buyer says so. Very nearly three-quarters of them are sold, and the highest lots are yet for sale. Contractors are at work putting the streets through the property. A Vancouver buyer said that the only thing that made him hesitate was the fact that they were so cheap. You will say the same when you see them.

## Pemberton & Son

614 Fort Street

## BARGAINS

LINDEN AVENUE, between Rockland avenue and Richardson street, large lots, 160x60. Only two left. **\$2,250**

225 Campbell St.

THE OPPORTUNITY OF THE KING SUPPRESSED ARTICLE IN CONTEMPORARY REVIEW

Writer Declared His Majesty Failed to Grasp Meaning of Political Situation

The London correspondent of the New York Times wired his paper as follows: I have been able to obtain a copy of the Contemporary Review containing the article reflecting on King Edward VII. which caused the original May edition to be withdrawn for correction.

The article, which was entitled "The Opportunity of the King," had the place of honor in the Contemporary. The most striking points made by the reviewer follow:

"We respect our Kings because we have found them useful and the moment we cannot exploit them as useful for our purposes we can get rid of them. The institution, altogether apart from the individual temporarily representing it, is regarded as a national asset of the first value.

"The prolonged period of retirement in which the public duties of the crown were sacrificed to the performance of the home rites of widowhood, was succeeded by thirty years during which Queen Victoria re-established and re-habilitated the monarchy, which she bequeathed to her son. It was a glorious heritage, but by its very splendor it entailed serious responsibilities on the nation, accounted for a whole generation, to enjoy the convenience of a crown used as a balance wheel of state, is not likely to brook a roi faincant on Victoria's throne. It is this which at once affords Edward VII. his opportunity and threatens him with serious damage.

"In foreign affairs his Majesty the King has more than fulfilled the highest expectations of his loyal subjects. As an unwarlike commissioner for peace he has exerted enthusiastic emoluments from so stern a Republican as Andrew Carnegie and an unwilling tribute of civility from the subjects of other monarchs. The paean of praise which has rewarded his efforts in the cause of peace would have been quite universal had it not been for the unworthy suspicion in certain quarters that there was an anti-German edge to his missionary zeal; and that he desired not so much the peace of Europe as to ring around Germany with a league of iron, binding the Germans over to keep the peace even against their will.

"In domestic affairs the King has so far played no conspicuous part. That is not to be imputed to him as a fault. He may indeed be congratulated upon it as a mark of special favor.

"Until the fatal day when the majority in the House of Lords conceived the idea of invading the domain in which the House of Commons had reigned supreme for centuries there were no difficulties in his domestic affairs calling for his intervention. Despite the fierce disputes that have raged between the parties the constitution had gone smoothly as on greased castors. So admirable was the equilibrium of the state that when power passed from one prime minister to another the King could, with difficulty, be persuaded that the occasion necessitated his presence in London.

Gifts For The Bride To Be

With June close upon us, the thought of presentations for the June Bride must soon be acted upon.

From such an immense stock as ours, coupled with C. & M.'s values, your selection can undoubtedly be made easy, whether on what to give or the price to pay.

Challoner & Mitchell 1617 Government Street, Victoria, B. C.

show that before it is closed the resources of the constitution will have to be drawn upon to the uttermost if the collision between the two contending forces is not to culminate in violence and bloodshed.

Compared With His Mother. "No dispassionate observer will deny that in falling to avert this collision the King, whether through misfortune or fault, disappointed the expectations of the nation. The institution of the monarchy is maintained in order to avert precisely the conditions of crisis in which the nation finds itself to-day, lightly or wrongly, the public believes that the crown and the influence of the crown should be sufficient to ward off the perils threatened by the violent conflicts of contending parties.

"The King's first duty is to see that the King's government can be carried on. It clearly cannot be carried on if the two houses of parliament are at loggerheads, if the peers refuse to vote the supplies granted by the Commons, and if, as a consequence, the whole constitutional machine is brought to a standstill.

"Confidence in the crown as an honest broker between the parties received a rude shock when it was made evident that the King was unable to prevent openly said that if the late Queen Victoria had still been on the throne the catastrophe would not have overtaken us. There is perhaps some justice in this reflection, although even Queen Victoria might have found her counsel less potent than of old when it had to be addressed to protectionists hungry for prey.

Failed to Grasp Situation. "This brings us to the consideration of the question as to how it was that the King failed, where the people believe that his mother would have succeeded, in averting a collision, the inevitable consequences of which are only now beginning to be perceived. It is possible that the King, like his advisers lacked the high quality of imagination necessary to enable him to grasp all that was implied in the beginning of the reactionary revolution.

what influence he had in his own fashion to induce the leaders of the opposition to desist, ere it was too late, from challenging so serious a combat. "But at this point we lay our finger upon the most serious element of weakness in the whole case. The King has many good qualities. No one is more tactful; no one is more kind-hearted; he is a capital sportsman, and in foreign affairs he possesses a fine instinct which seldom leads him wrong. Yet his very geniality and good-fellowship deprive him of much of the awe with which the late Queen was regarded.

Criticism of His Entourage. "The divinity that doth hedge a King wears somewhat thin in the atmosphere of the dinner party and the race course. His Majesty is a man of the world, going freely into society, but not even the most servile courtier could say that either as Prince or King he surrounded himself with men who were influential in either house of parliament. Those who shared his valuable councils may be the wisest of his counsellors, but to the great political world they have been unknown.

"With the doubtful exception of Lord Esher, who has one of the sanest heads in Europe, none of those who constitute the entourage of the King count for anything in politics. Of the chiefs of our old nobility it is comparatively rare to find any among those whom his Majesty delights to honor, nor is it libelous to assert that his ministers, whether Liberal or Tory, have never found in him that garnered store of rich experience, ready to pole which would have added to the political acumen of all his ministers, most influential of all servants of the realm.

"The King, in short, has neither the strong character, firm, resolute determination, nor the keen interest in political men and political measures which would have added to the influence always appertaining to the throne the immense, undefinable weight of a commanding personality.

"The essential feature of the constitutional monarchy as it was evolved during the late reign was that everything it lost in substance was regained in influence. It underwent an evolution which somewhat later awaits the House of Lords. Its right to the veto has gone forever, but its opportunities of influence, especially influence in the beginning of things, have far more than made up for the sacrifice of the trappings of authority. But it follows from that evolution that the authority of the crown in the future will depend more upon the personal character of the man or woman who wears it.

"A wise king, judicious, far seeing, absolute, and energetic, might easily, without violating any constitutional limitations, be the most powerful man in the realm; but a king, indolent, indifferent, and given to self-indulgence, would soon be a mere cipher in the state over which he continued to reign but which he no longer tried to rule.

"The trouble from which we are now suffering is that, whether from the defect of his qualities or from some other cause, his Majesty was unable to bear upon the leaders of the peers to induce them to recede from the adventurous course to which they were impelled from the scaffold of Birmingham and its sounding board in the press. Hence the present trouble.

"It is evident that the same cause which prevented the King from attempting to bring about a solution, King Edward will not find it easier to compose the quarrel than he did to prevent it. The only hope is that the very extremity of the danger may arouse him to unworldly action, for it is not merely the House of Lords that is at stake, but the monarchy itself is on trial—and the issue will show whether the King will be able to maintain, or rather to restore, the confidence of his lieges in the beneficent influence of a crowned peace-maker."

"The reviewer then outlined the situation which the King had to face, and said it was one which would put his capacity to a harder test than any to which it had been exposed. "In fact," he went on, "in dealing with the contending factions the King will need sure instinct, shrewd judgment, and the prayers of all his subjects. It would be a useful exercise for the moment if each of us was to try to think himself into the King's place and envisage the situation from his point of view.

"To begin with, the King has an enormous advantage in the position which he occupies on the throne. For one-half of his reign his ear has been given to Unionists, for the second half to the Liberals. Not even the most unscrupulous partisans has suggested a doubt as to the absolute impartiality with which he has held the balance between the parties.

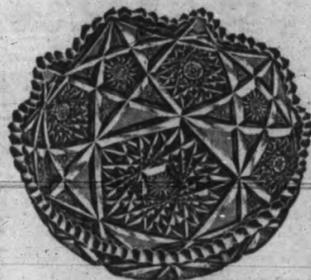

Strong in the Nation. "To the country at large he is still enjoying the glories that surrounded the Queen, his mother. He is the M. P. for the whole United Kingdom, to whom all men turn as their representative in the highest affairs of state. He is pre-eminently the representative of the great non-political classes who look to him to see that the machinery of government is kept running, and that no excess of party passion shall be allowed to endanger the empire or to arrest the smooth working of everyday life.

"To the masses he is a good sportsman, who can be relied on to see fair play. As King he is the permanent crowned referee in the great football matches that are constantly being played at Westminster, an umpire whose word is law, the supreme embodiment of the practical genius of our constitution.

"The King has no authority to compel, but he has ample opportunity to persuade, and he has behind him a power which every politician respects and fears. The nation expects him to arrange some settlement, and it will go ill with the party which stands convicted before the public of thwarting his well-meant efforts. The King therefore starts with immense advantages, and he has behind him a power which every politician respects and fears. The nation expects him to arrange some settlement, and it will go ill with the party which stands convicted before the public of thwarting his well-meant efforts. The King therefore starts with immense advantages, and he has behind him a power which every politician respects and fears. The nation expects him to arrange some settlement, and it will go ill with the party which stands convicted before the public of thwarting his well-meant efforts.

Sympathy With the Liberals. "That the King as a true sportsman must sympathize with the wrath of the Liberals who, by the rules made,

CHARMING NEW CUT GLASS

WE have just received a big shipment of dainty cut glass which we are offering at remarkably low prices. If you are looking for something nice for a wedding gift—and something that won't work too great a hardship on your pocketbook—we offer these new pieces of beautiful cut glass as a happy solution of the problem.

Visit the first floor-to-day and see these latest additions, and we believe that you'll agree with us that the values are remarkably good. There's quite a variety of pieces and patterns, and the price range is broad, too. Pleased to have you inspect these.

We don't expect this glass to remain long at these prices, so we suggest an early visit—to-day would be the best time.

Window Display of Summer Furniture

See What We Offer in Reed and in Camp Furniture

Of course you are interested in Summer Furniture—or you'll soon be. Then see the display of summer furniture in the Broughton street windows. We are showing some very interesting creations in reed, rush and rattan furniture especially desirable for summer use.

These chairs are invitingly cool in appearance, and they are most comfortable, too. The ideal chair for porch or lawn use, and chair style that'll do good service inside the home when the summer season is passed. There's a big choice of styles this year, and they are priced at right prices—we have never offered such excellent values.

See window show, then come inside and let us show you more.

"Gold Medal" Camp Furniture is the Best Kind

Try Gold Medal camp furniture, when you go camping this summer—it's the ideal sort. Light, compact, strong, easily "packed"—it's the right sort if you must "transport" the outfit on your back.

We show a complete line of camp stools, camp chairs, camp beds, camp tables, camp baths, etc. We would greatly appreciate an opportunity to show you these, and we welcome a visit to our fourth floor—where they are shown. See some samples in the windows.

Summer Floor Coverings in Plenty Here

This establishment offers you a great selection of Summer floor coverings. Matters not whether you wish something for the town house or for the summer camp—you'll find the right thing here. See our China and Japan matings at, per yard, 30c and 25c.

You Must See These New Pieces

Pardon us for again referring to the new Bedroom Furniture, but yesterday's arrivals are so unusually nice that we must call your especial attention to the display now awaiting your inspection on our third floor.

It has never before been our good fortune to show such a magnificent assortment of bedroom furniture. The choice is broader, the styles better and the values greater than ever before. We list but a few of the new arrivals here. Come in and see some genuinely handsome bedroom furniture.

Marriott & Fellows Phone 645 619 Trounce Avenue

are doomed never to have an Inning owing to the lack of a majority in the House of Lords, goes without saying. His political instinct also must convince him that nothing, and no more, is the danger for the stability of the throne than for one-half the people of the three kingdoms—and that the most active, most energetic, and most turbulent half—be forever excluded from all chance of sharing in the responsibilities of government."

The reviewer concluded unless some compromise be found which the leaders of the two parties could be induced to accept, there seemed to be no way of escape from a period of turbulent anarchy in which more constitutional machinery would of necessity be broken that could never be replaced.

"To avert such a catastrophe," he went on, "the nation looks to the King, and everything will depend upon the wisdom, courage, and resolution which are displayed in the first great crisis of his reign. The opportunity is great, and fortunately the constitution provides us in the King a personage sufficiently exalted to appeal with the authority of a great position to the rival factions.

"The occasion is one which calls imperiously for a compromise which will avert an early dissolution, which every politician dislikes, and which the nation as a whole absolutely detests. Of course, if Mr. Balfour or Lord Lansdowne are either unwilling or unable, owing to the unreason of their extremists, to accept any change which would secure to the Liberals the same privilege that the Conservatives possess

Advertisement for British Reliability featuring a woman in a long dress and hat. Text: characterises every garment sent out from Noble's workrooms. Not merely in the style, finish, material, and value of every 'Noble' model guaranteed, but money is at once refunded should any dissatisfaction arise when your purchase reaches you. # THE IMPROVEMENTS IN GOLF LINKS PARK

ARE NOW BEING VIGOROUSLY CARRIED OUT AND WHEN THEY ARE COMPLETED THIS WILL BE

## The Most Desirable and Picturesque Subdivision on the Coast

The time to select your lots is NOW, before the improvements are completed and the prices advanced.

VICTORIA has a world-wide reputation as a city of beautiful surroundings, probably no other city can compare with it in this regard.

### An Investment in This Property Will Win Out

**BECAUSE—**

- It is the kind of property you cannot get again.
- It is the kind of property that people of means will select for beautiful homes.
- It is the kind of property that people will appreciate when it is once sold, and they will then pay almost any price for it.

Many Charming Pieces of Property in Victoria and vicinity have been subdivided for residential purposes, but none so far opened up to the seeker after Picturesque Sites for Artistic Homes can compare with this property.

THESE MAGNIFICENT BUILDING SITES ARE SHELTERED FROM THE PREVAILING WINDS. HAVE GREAT NATURAL BEAUTY. COMMAND THE FINEST VIEWS ON THIS CONTINENT AND ARE IN A DISTRICT THAT IS SECOND TO NONE AROUND VICTORIA FOR RESIDENTIAL PURPOSES.

OAK BAY is without doubt the most picturesque of all its environs. For natural beauty and expanse of view it is without a peer on this continent

### The People of Oak Bay Are Almost Free From Taxation

The Municipality of Oak Bay has no Tax or improvements and only one per cent on land. There are no cities on the Coast with a less taxation than 2¼ per cent. on the value of property. In Victoria it is 2¼ per cent. on the land and on half of the value of improvements.

Supposing you have a lot worth \$1,800 and a house costing you \$3,000; the taxation in the city would be about \$75.00, while in Oak Bay it would be not more than \$15.00. At the same time there are all conveniences of electric light, water, tram service, etc. equal to those in the city.

INVESTORS CAN DOUBLE THE MONEY IN THIS SUBDIVISION IN A VERY SHORT TIME. THOSE SEEKING SITES FOR MODERN BUNGALOWS MUST inspect this property if they do justice to themselves.

REMEMBER THAT THE BEAUTIFUL GOLF LINKS will be a velvety green lawn in front of this property for at least fifty years.

Acre and a half, One Acre, Half Acre, and Town Lots for sale on easy terms of payment.

Call and Ask For Booklet. We Have an Office on the Ground or let us know, and we will gladly take you out and show you the property.

Pen-Angle Hosiery Is Seamless. Like This Not Like This. THINK how much more comfortable Pen-Angle Hosiery must be than the kind with the horrid seams you are now wearing.

2 Pairs Free for any pair that fails. We guarantee the following lines of Pen-Angle Hosiery to fit you perfectly, not to shrink or stretch and the dye to be absolutely fast.

Read that guarantee over again carefully, for we want to impress it indelibly upon your mind, because it is the most liberal the fairest and a square-hosiery guarantee given anywhere.

Exclusive Process. The reason for Pen-Angle superiority is due to the exceptional quality of the cashmere and cotton yarns we use.

Reinforced Feet. They reinforce the feet, heels and toes—the places that get the hardest usage—without you ever being aware of any extra thickness.

For Ladies. No. 1700—'Lady Fair' Black Cashmere hose. Medium weight. Made of fine, soft cashmere yarns.

For Men. No. 2424—Medium weight Cashmere half-hose. Made of 3-ply Botany yarn with our special 'Everlast' heels and toes.

Pen-Angle Hosiery. PENMANS, LIMITED, DEPT. PARIS, CANADA. Includes a logo with 'WARRANTED NOT TO SHINK OR STRETCH'.

ROBIN HOOD FLOUR IS DIFFERENT. IMPRESS UPON YOUR MIND THESE TWO SPECIAL FACTS. Robin Hood Flour must satisfy you in two fair trials or you can have your money back.

DINNEFORD'S MAGNESIA. The Physician's Cure for Gout, Rheumatic Gout and Gravel. The Universal Remedy for Acidity of the Stomach.

THE EMPIRE TOAST 'THE KING-GOD BLESS HIM' Harold Begbie's Pretty Picture of the Ritual of British Unity—A Reminiscence of Victoria.

The interest of all British dominions in the late King lends new interest to one of the finest articles on the enthusiastic loyalty of his overseas subjects, written by Harold Begbie.

When I was a child and knelt on a big hassock in the rectory pew of a Suffolk church, I used to wonder, while the priest read the prayer book, whether the dear, sad-faced lady in a widow's cap, whose picture hung in our nursery above the grey rocking-horse, knew that my father was praying for her good health.

Ritual of Unity. How often I have raised my glass in London to the toast of his Majesty, and murmured like a schoolboy repeating his lesson the concordant affirmation, 'The King—God bless him.'

But, here in Canada, not in a church, but at the disordered table of a banquet far away in the west, with the accents of a deep cool pine forest stealing into the candles through the opening of a tent, I find my wonderment following the ancient trail of a faraway childhood.

My thoughts go back over the long journey from Quebec to the city of Victoria. Scarce has a day passed but in some city or village we have stood to drink the loyal and ancient toast. Not only in the proud club houses and hotels of prosperous cities, but in little lakeside hamlets, in new-built prairie towns, and in the midst of the Rocky mountains.

My thoughts go back over the long journey from Quebec to the city of Victoria. Scarce has a day passed but in some city or village we have stood to drink the loyal and ancient toast. Not only in the proud club houses and hotels of prosperous cities, but in little lakeside hamlets, in new-built prairie towns, and in the midst of the Rocky mountains.

When I caught sight of her, he mutters, 'I felt my jaw grow stiff, and my heart stop beating. I could not breathe. I believe I went white as death.' God Lord, I shall never forget it. I believe I cried, she looked so little crumpled up in her big carriage. Her face was like old ivory.

PUBLIC NOTICE

Unclaimed land warrants issued to members of the Red River Expeditions of 1870, 1871, 1872 and 1873, and to members of the North-West Mounted Police. NOTICE is hereby given that warrants, entitling in each case the grantee or his assigns to a free grant, without actual residence or settlement duties, of a quarter section of Dominion lands, containing 160 acres, of the class open to homestead entry in the Province of Manitoba, Saskatchewan or Alberta, which were issued some years ago by the Department of the Interior for services rendered in connection with the Red River Expeditions of 1870, 1871, 1872 and 1873, or for service in the North-West Mounted Police to the persons hereinafter named, have not yet been delivered owing to the fact that they have not been applied for by the grantees and that their addresses are not known to the Department.

Table with columns: No. of Warrant, Name of Warrantee, Rank, and Battalion. Lists names of various individuals and their military or police affiliations.

Department of the Interior, Ottawa, 7th April, 1910. P. G. KEYS, Secretary.

Mrs. J. A. Griffiths, Richardson street, will not receive again until the fourth Wednesday in September.

Mrs. Wm. Baylis returned from the Old Country on Thursday night, after spending six months there on an extended tour.

Victoria Council of the Knights of Columbus have decided to hold their postponed dance on Friday evening, June 3rd. The committee in charge had set an earlier date, but owing to the death of His Majesty it was decided to postpone it. The original invitations will hold good for this date.

The kind invitation from Mr. and Mrs. James Middleton, 1255 Pandora avenue, was accepted by the Young Ladies' Philathes Class and the Young Men's Baraca Bible Class of the First Baptist church, where they gathered on Wednesday night to hold their regular monthly business meeting. After the business was disposed of the evening was spent in a social way, followed by refreshments prepared by the ladies, which all enjoyed. The president, in a few well-chosen words, thanked Mr. and Mrs. Middleton for the kindness shown them, and after a friendly hand-clasp all started for home feeling happier than when they came.

Preparations for the convention of the Ladies of the Maccabees, which commences in this city on Thursday, May 19th, are nearing completion. The ladies of the local branch are working hard to make this event a big success. Delegates from the various other branches throughout the province will attend this conference. It is the intention of the committee of management to complete all business on Thursday so that all the delegates may be able to attend the memorial services to be conducted out of respect for the late King on Friday. It may, however, be necessary to hold a short session in the morning to complete the transaction of business. On Friday evening a meeting will be held in the Victoria theatre. This meeting will be of a memorial nature. The sessions of the convention will all be held in the Foresters' hall, Broad street.

**The Evening Chit-Chat**  
BY RUTH CAMERON

"Be noble, and the nobleness that lies in other men, sleeping, but never dead. Shall rise in majesty to meet this own."

I heard two newspaper men talking about their experiences in the profession the other day. One said: "The more I see of men the more I like dogs. The sort of half-baked, cranky, hypocritical, over-reaching men and women I've met since I've been in this business makes me ashamed of being human. I've a good mind to go on a long ocean voyage and see if I can't get shipwrecked on a desert island."

The other said: "I guess you've had bad luck. I didn't know there were so many obliging, well educated, interesting people in the world so I've met since I took to newspaper work."

Now I disagree with what the second man said on one point. I don't think the first man had had bad luck at all.

I have an idea he simply got exactly what his own mental attitude called forth, very much what he gave.

I don't believe most of us realize to what a large extent we get what we expect of the world.

"Courtesy begets courtesy," says someone. "The surly man finds a world of disagreeable, discomfiting people; how good everyone in the world is," rejoices the kindly soul.

And yet it's the very same world.

And that isn't true of courtesy alone, by any means.

Suspicion begets dishonesty, trust begets honor, ill temper and impatience beget ill temper, and impatience, hypocrisy begets hypocrisy, and an overreaching disposition begets the desire to overreach, and so on down the infinite line of vices and virtues.

When Judge Lindsey has to send one of the boys whom he tries in his famous juvenile court to jail, he gives the boy the money necessary for fares and sends him absolutely alone, and unwatched to the prison. Sometimes the boy has had to travel many miles to his destination, and yet had though this test is, I believe it is in but three cases in over one hundred, that the judge's attitude of trust has failed to rouse in the boy an answer of trustworthiness that carried him straight to his prison cell.

Elbert Hubbard writes, in description of his wife:

"Her mental attitude brings out the best in each, so in her presence the boor becomes gentle, and the loud and coarse moderates their voices and arra on their good behavior. She carries with her an aura in which vulgarity cannot thrive nor pretense flourish."

I think this is one of the highest compliments a man or woman could receive.

Are you a cynic? Do you find most of the world deceitful and self-seeking?

If you do, suppose, instead of being proud of your cynicism, you remind yourself that the world the mirror life shows you, is only a more or less accurate reflection of the little world within you.

For "Life, like a mirror, doth but show The moving shows that pass in view; Give to the world the best you have— The world its best will give to you."

Ruth Cameron

**PRACTICAL FASHIONS**

Fascinatingly dainty and smart are the summer gowns now exhibited, and material and coloring alike seem symbolic of the season. It may be the contrast of the diaphanous fabrics with the furs and heavy dark cloths of the winter that makes all summer materials so attractive, and so much more in keeping with the light sunshine and warm days.

Never were there so many exquisite-ly fine light-weight materials as are to be seen this spring. Voiles de soie, marquisette, lace and net of all kinds and descriptions line the counters of the dress-makers and gowns made of these materials are in the lead at all the openings at the fashionable dress-makers. There are plain and figured effects and a marvelously wide range of colors, with ingenuity and knowledge of how to combine the colors is taxed in the utmost to evolve the most extraordinary effects. "Scarcely practical" is the first criticism against the sheer materials—too fine and too soft—but like the gowns of old-time fiction so fine that they could be passed through a wedding ring, these gowns often wear far better than those of heavier and apparently stronger fibre. In truth, the amount of wear that can be given without apparently any effect is most surprising, oftentimes far more than to a foulard or satin.

Checks, fine shepherd plaid checks in black and white, gray and white, and every color and white, are delicately used in appearance, and are most fashionable. Sometimes black satin is used to trim them, but not too much of any such contrast. Laces and embroideries are fashionable trimmings for the figured voile de soie, but are not used too lavishly, and are always, as in gowns, subordinated to the rest of the gown. A band around the skirt is of plain color, lace or embroidery, and a touch of the same is in the broad belt and on the sleeves, but every effort is made to keep the light, cool appearance. This does not apply in every case, for there are one or two models on which a lot of black is to be noticed—a broad girde or band around the skirt, and two long sash ends of black velvet or satin. But this may be taken as an example that the exception proves the rule, for the majority of the smart gowns are all in the soft tones of color.

Not every woman, and in fact, not one woman in a thousand, is so situated that when the summer wardrobe has to be planned she can buy just what she likes regardless of cost. While it is never a wise plan to accumulate really a lot of half-way gowns just because they are cheap and a careful reckoning of past expenses generally furnishes the information that for the price of three half-way ones one good one could have been purchased, it is quite essential to comfort in summer weather to have several gowns, and consequently just what to choose in accordance with income is a grave question.

This year there must be more time and thought expended, but not necessarily more money, in solving the problem. Never were there so many sales of summer materials at reasonable prices, and if a good color be chosen the cost of the material will not be excessive. Then the choice of the model to copy and the painstaking supervision of the inexpensive dressmaker or seamstress will secure a satisfactory result. All one-piece gowns are fashionable, but so also is the three-piece costume, the pretty, simple waist with coat and skirt.

Voile de soie gowns, plain and figured, are by no means too difficult to attempt. Combined with Liberty satin or silk, or with a band of embroidery, made without any deep knowledge of dressmaking and at a small expense,

only again it must be stated that while large sums of money need not be spent a large amount of time and thought must be allowed for. The skirt must hand well, but that problem can be dealt with by first making a skirt of muslin, fitting it perfectly and then ripping it apart and using it as a pattern for the material of the gown. And, he it remembered, no gown will look well unless made on a perfect-fitting skirt and waist lining. With these

**Take Care of Your Health**

is one of those ordinary every-day admonitions that are so rarely observed. Health, the most valuable, is often the most neglected of all earthly blessings. It is not until a man experiences a sensible decline of his vital powers that he begins to bestow any really serious thoughts upon the matter. So long as he is free from pain and inconvenience he is usually content to let things drift, with the inevitable result that diseases, which might have been easily dealt with at an early stage, are allowed to attain alarming and dangerous proportions. This is particularly the case with regard to Stomach and Liver derangements. So little is the importance of sound, healthy digestion understood or appreciated that it is usual to disregard common symptoms of disorder, and not until actual pain or weakness is established is the matter seriously attended to. This is indeed surprising when we remember how largely the Stomach and Liver determine the health of the entire body, and even more remarkable when we recall the fact that the digestive organs can be maintained in perfect health by an occasional dose of BEECHAM'S PILLS. If your Stomach, Liver, or Bowels are out of order Beecham's Pills will put them right, and if they are in order Beecham's Pills will keep them right.

Those who fight the world's battles, the men in the turret of a Dreadnaught, or on a swaying beam two hundred feet above the earth, must have nerves of steel to win.

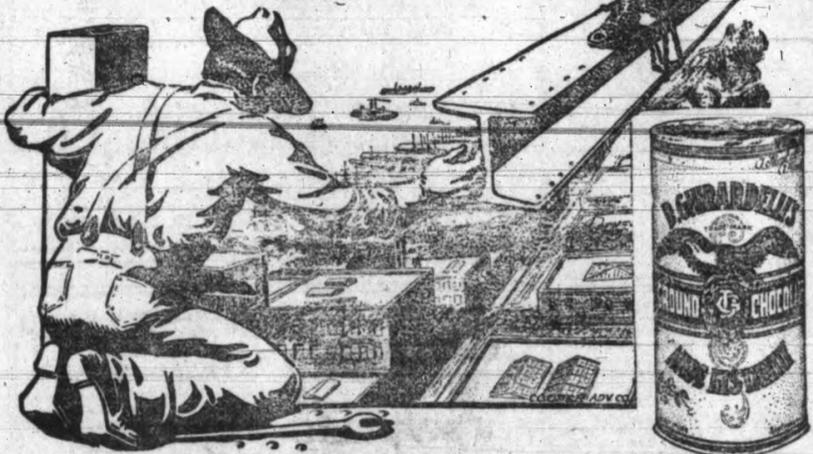

To keep his power at the highest notch, the fighting man must have proper food and drink, for on his food and beverages depend his nerve and strength. Scientific facts prove that

# Ghirardelli's GROUND CHOCOLATE

is the best of all beverages for every one. It nourishes and strengthens brain, muscle and sinew. It contains greater percentage of nutriment than any other food. It is all good and equally good for old and young, for delicate and for sturdy. And supremely delicious! Ghirardelli's Ground Chocolate is absolutely pure; it is made from the best of selected cocoa beans, always uniform in flavor and most economical because of its purity and strength.

Be sure it's Ghirardelli's Ground Chocolate.

D. Ghirardelli Co.  
Since 1852

## “VALUE OF IGNORANCE”

By Arnold White in the London World.

The three elementary forces of life are food, sex, religion. To him who lacks food, the Kingdom of Heaven is the Kingdom of Heaven. To him who lacks sex, the Kingdom of Heaven is the Kingdom of Heaven. To him who lacks religion, the Kingdom of Heaven is the Kingdom of Heaven. The Pursuit of Fame counts for less than a loaf, a chop and a jug of beer. No longer waged for creeds, dynasties, or the beauty of women, wars are fought for food with greater resolve, slaughter and cost than in olden times. Japan fought the Manchurian, and attacked Russia, to prevent the rice fields of Korea and the millet of Manchuria from being cut off from the hungry masses of Dai Nippon. For food the Japanese have fought two wars and the Germans three. Both these nations are preparing for another and greater war because the craving babies that fill Japanese and German cradles dictate the imperial policy of the two nations. For food, Goths, Huns and Tartars ravaged the west and south, and for food strong hungry nations will always attack opulent, phibotic and opulent nations to the end of the chapter.

General Homer Lea has written The Valor of Ignorance to remind prosperous citizens of the United States that the vegetarianism of a fat sheep never prevented hungry carnivora from making a meal of mutton. The lesson of General Homer Lea's book applies to Britain as to the United States. In 1903 Captain (now Colonel) Charles Ross, D. S. O. of the Norfolk Regiment, burning with the sense of reality he had gained in South Africa, wrote Representative Government and War on the same lines as The Valor of Ignorance.

Three kinds of anti-militarism afflict rich nations. Middle-class indifference to war is due to the fact that our wars are always conducted at a distance and are delegated to a caste of officers and to the working classes, 90 per cent. of whom are driven to enlist in the regular army from hunger. The second division of anti-militarism consists of Socialists who are always "again the government" profess to recognize no frontiers and mouth the shibboleths of the Brotherhood of Man. The third class of anti-militarists consists chiefly of Nonconformists who regard not only war as wicked, but preparation for war as contrary to the teachings of Christ.

Anti-militarism in the United States has attained such proportions that the Pacific states, California, Oregon and Washington, together with Alaska, lie at the mercy of Japan. The valuable lessons taught by the civil war have been forgotten, as the lessons of the peninsular war on the subject of military strategy are no longer remembered in England. Washington's estimate of militia and volunteers when pitted against regular troops was expressed in a letter to the president of congress of September 24th, 1775.

"No militia will ever acquire the habits necessary to resist a regular force. The business requisite for the real business of fighting is only to be attained by a constant course of discipline and service.

"I have never yet been a witness to a single instance that can justify a different opinion, and it is most easily to be wished that the liberties of America may no longer be trusted, in a material degree, to so precarious a defence.

"WASHINGTON." Twenty years of American insults on the Pacific coast to immigrants of Asiatic, especially of Mongolian blood, have left an impression on Japanese pride which, though hidden by their inscrutable and cheery stolidity, may be revealed as the Japanese were revealed against the Russians after ten years of silent preparation. Forty thousand Japanese veterans are already settled in Hawaii. The United States regular army numbers sixty thousand. No strategical lines have been built in the country. The men occupying our present positions are not even trained to keep the guns from rusting. The legislatures of California, Oregon, Washington, Nevada, Arizona, Colorado, Wyoming and Idaho have enacted laws against the Japanese. General Homer Lea does not refer to the speech delivered by the Japanese minister for foreign affairs, Komura's veiled menace to America was the occasion Japan is poor and hungry. She is spending money with both hands on armaments which are not intended for review purposes. Until the bad European, but if the collision between Japan and the United States occurs before that date we shall be compelled to side with our kith and kin in Australia and with the white races of the United States against our present allies. War is the struggle for existence. When two nations desire the same thing, compromise may postpone but never can prevent war. The destruction of savages by a great power is not war, but when two races nearly equal in resources fall out the appeal to the sword in these days is a battle for existence. Western civilization has introduced the sentiments of humanity and love into war, but with the Japanese war is a case of "Your life or mine." In the struggle for existence the most inhuman and wholesale cruelty is humanity compared with the introduction of love and tenderness in war. It is thus war is pre-empted, suffering spread over a wider area, and taxes piled up against the taxpayer. Humanity in war is a contradiction in terms.

The extent to which the United States lies at the mercy of Japan may be judged by the following: "Japan's invasion of Washington, Oregon, the conditions that circumscribe it, and the manner of its accomplishment, constitute the simplest of military problems. The mouth of the Columbia river is defended by three forts. These fortifications are the entire defence of the state of Oregon against invasion, yet the combined power of all their guns is less than that of the guns on a single Japanese Dreadnaught.

"This is not all. To man these solitary guns requires sixty-seven officers, fourteen hundred and sixty-six men. According to the secretary of war, there are now available in these forts but ten officers and two hundred and forty-six men, which

means that five-sixths of the guns employed could not be used. If these fortifications were not only not lacking in guns and men, but were, on the other hand, a hundredfold more powerful, they would still have no more retarding effect upon the invasion of Oregon than if they did not exist."

The military facts contained in the book are vouched for by Lieut.-Colonel A. R. Chaffee, U. S. A. (retired), and by Major-General J. P. Story. The interest of the book, however, is not only what will happen to our neighbors across the Atlantic, but what will be the effect of vanity, anti-militarism and distorted vision if Britain enters the approaching era of conflict as unprepared as she is to-day. To Englishmen the book is even more valuable than to Americans, since the time-at-our-disposal-for-seeing-our-house in order is probably shorter. Our rulers act upon the principle that a special reserve of committive children and territorial troops, who are described as "efficient" when they have never fired a cartridge on the open range, are fit to meet the picked marksmen and trained soldiers of the master of Europe. Eight German Dreadnaughts are afloat. The second octave is on the way to completion. As these ships are built on borrowed money and the financial position of the Fatherland is precarious, every inducement exists to "great navy," when the value of ignorance will be tried in the balance and found wanting. Food, sex and religion are still the elements of life, democracy and sentiment notwithstanding.

## ALLEGED DANGERS OF ANAESTHETICS

### Report of Committee Appointed in England to Enquire Into Deaths

The report of the committee appointed to inquire into the question of deaths resulting from the administration of anaesthetics was issued in London the other day:

1. The committee, which consisted of Sir M. D. Chalmers, Sir Malcolm Morris, Sir Horatio Shephard, Sir Thomas Bramston and Dr. H. Wilson, sent up their most important recommendations as follows:—
2. Every death under an anaesthetic should be reported to the coroner, who, after inquiry, should determine whether it is desirable to hold an inquest or not.
3. In the case of every death under an anaesthetic the medical certificate of death should specify the fact, whether the anaesthetic was the actual cause of death or not.
4. No general respirable anaesthetic should be administered by any person who is not a registered medical or dental practitioner.
5. Registered dentists should be confined to the use of nitrous oxide gas for dental operations, and should not employ the general respirable anaesthetics of longer duration.
6. Intra-spinal anaesthesia should be practised only by registered medical practitioners.
7. Practical and theoretical instruction in the administration of anaesthetics should be an essential part of the medical curriculum.
8. Such instruction in the administration of nitrous oxide gas should be an essential part of the dental curriculum.
9. In the case of any death under an anaesthetic in a hospital or other similar public institution, there should be a scientific investigation into the actual cause of death conducted by the authorities of the institution.
10. A small standing scientific committee on anaesthetics should be instituted under the authority of the home office.

### REVELSTOCK MOUNTAINEERS.

Revelstock, May 13.—At the adjourned meeting of the Revelstock Mountaineering Club the following officers were elected for the ensuing year: Hon. T. Taylor, president; Hon. T. Taylor, vice-president; Mrs. C. Row, secretary-treasurer; C. R. Macdonald, executive committee; Rev. Proconier, Messrs. Brooker, Pollock, Blackmore, and Courcier.

There are well over 500,000 persons employed in the cotton industry of the United Kingdom.

## Don't Have "Spring Fever"

What you must do is to get the blood pure—by stirring up the liver—making the bowels regular and the stomach sweet. The quickest, and surest, and pleasant way to do all this is to take **Abbey's Effervescent Salt**. It's the best spring tonic. 25c and 60c a bottle.

"Spring Fever" is just another name for Biliousness, Irregular Bowels, Upset Stomach.

### MY FREE TRIAL TREATMENT MAY CURE YOU

Dear Mrs. Currah—I feel so very much better after using the 10 days' treatment of ORANGE LILY you were kind enough to send, that I will not require any more. In fact, I feel entirely well, and it is now a month since I stopped using the treatment. (Signed) F. W. T.

Similar letters to the above are not infrequent, though, of course, such cases are not of long standing. Most women who have suffered for any length of time will require to use ORANGE LILY longer than the 10 days' treatment in order to effect a complete cure, but in every case they will be perceptibly benefited. Further, the benefit will be permanent whether they continue to use ORANGE LILY or not. It is not taken internally, and does not contain any alcohol or other stimulant. It is an applied treatment, and acts directly on the suffering organs. In all cases of women's disorders, these organs are congested to a greater or less extent, and certainly as the action of ammonia or soap on soiled linen. It is a simple chemical problem, and the result is always the same, a step towards better health and complete cure.

In order that every suffering woman may prove its good qualities, I will send ORANGE LILY for 10 days' treatment, absolutely free to each lady who enquires of me her address. (Signed) MRS. FRANCES E. CURRAH, WINDSOR, ONT. 10 will send me her address.

### It Works While They Work

If horses go lame, you don't have to lay them off to cure them. Kendall's Spavin Cure works while they work—and cures them while they earn their keep. For Spavin, Curb, Ringbone, Splint, Sprain, Swollen Joints, Lameness.

**Kendall's Spavin Cure**  
"Completely Cured Him"

Also famous as the standard family liniment \$1 a bottle—6 for \$5. Ask your dealer for free copy of our book "A Treatise On The Horse," or write us. 53 DR. B. J. KENDALL CO. Enosburg Falls, Vt.

### The B. C. Funeral Furnishing Company

(HAYWARD'S)

### Visiting Festival of Empire in London this year!

# Hotel Cecil

London

Is the Ideal Home; here, men of large means and small can alike get what they require, and in each case the best value. Elegant and luxurious surroundings. Careful & prompt service, unsurpassed cuisine. Central location, with a 1/2 cab drive to leading Theatres and Shops.

Patronized by leaders of Social, Political & Commercial circles. No Theatre Suppers & Sunday Dinners are among the important events in Metropolitan life.

Motorists will find ample free accommodation for their Cars. Exquisite Cars may be hired.

RATES:  
The Day BREAKFAST 60c, 70c, 80c.  
BEDROOMS (Single) from \$1.25 LUNCHEON \$1.00  
BEDROOMS (Double) from \$2.25 DINNER \$1.25, \$1.50, \$2.50  
BEDROOM, BATH, & SITTING ROOM \$6.25 SUPPER \$1.00, \$1.25

NO CHARGE FOR LIGHTS AND ATTENDANCE.

Descriptive Booklet and Hints on Sight-Seeing in London Free on application to the Clougher Syndicate, 450 Confederation Life Buildings, Toronto.

### COLOR OF THE SEA AND THE SKY

#### Lord Rayleigh Discusses Theme—Why They Appear as They Do to the Eye

Lord Rayleigh, lecturing at the Royal Institution, London, on "The Colors of the Sea and Sky," said the color of the deep sea was generally supposed to be blue. In most cases the blue was, however, only reflected skylight, and if the blue seemed more intense than that of the sky, people had to remember that it was chiefly the sky high above, not the horizon, which supplied the blue better, because the color was there reflected from the front slope of the wave; in shallow water the color was reflected from the bottom. Even peaty water would look blue in reflected skylight.

In his experiments on the sea-water, Walkers Springs, Liege, had used tubes 5 metres and even 6 metres in length, and he described the color as a beautiful blue. A little salt had no effect, but traces of iron turned the color green. Spring was thus in agreement with the previous observations of Davy and Bunsen on glaciers and Alpine rivers; and Freiherr von Aufrass had recently stated that clear water was perfectly transparent to blue and violet rays. When the color of water was studied in long tubes, much depended, of course, on the illumination. Lord Rayleigh thought that spring probably experimented with blue-sky light, while he had himself, in his tubes 12 feet in length, used the light of a cloudy sky. On the whole he believed that sea-water was green, but he had observed blue sea-water near Aden and in the Blue Grotto of Capri; and he had confirmed that observation in his laboratory on samples collected on the spot. Waterworks and spring water was also blue, or, at least, greenish-blue, while water from the Seven Brunes lightship, off Cornwall, was distinctly green.

Passing to the blue color of the sky, Lord Rayleigh said that his recent investigations confirmed the conviction at which he had arrived, that the blue color was due to the dispersion and scattering of light by very small particles. Most physicists had accepted that explanation. Spring differed, however, and ascribed the blue color to the blue color of oxygen. Liquid oxygen was, indeed, blue. Lord Rayleigh demonstrated, and gaseous oxygen might be blue. But, according to Spring, the setting sun should appear blue, not red. Quite recently he had found by experiment that the molecules of the air would themselves be able to produce the scattering, and Professor Arthur Schuster had calculated that if the molecules of the air were alone concerned, then these should be 2.96 by 10<sup>19</sup> molecules in one cubic centimetre of air, a figure which was in excellent agreement with the many estimates of the number of molecules in unit volume.

### CHURCH'S COLD WATER ALABASTINE

ALABASTINE is now the general vogue in cottages and manor alike. Alabastine is more artistic and sanitary than Wall Paper, more effective than oil paint, more permanent than Kalsomine. Alabastine is a dry powder, made from Alabaster Rock. It comes in white and 21 tints. Alabastine is ready for use by mixing with cold water, and is applied with a flat bristled brush. Its colors are permanent, and do not rub off. Alabastine is a cement, and hardens with age. It can be recoated without removing the old coat.

**FREE STENCILS**  
We have organized a Decorative Department, and will furnish FREE COLOR SCHEMES to all users of Alabastine. We also offer FREE STENCILS for producing the design we suggest. Write today.

THE ALABASTINE CO., LTD.  
40 Willow St., Paris, Ont.

## The Ingredients Used In NA-DRU-CO

Medicinal and Toilet Preparations are of the same high quality as those your druggist uses in filling your physician's prescriptions.

The National Drug and Chemical Company supplies the greater part of the drugs dispensed by the physicians and druggists of Canada, and it is probable that the ingredients used by your own druggist in his prescription work came from our warehouses.

From these same warehouses come the ingredients used by our expert chemists in compounding NA-DRU-CO preparations. Every ounce of material used in every NA-DRU-CO article is the best that our skilled buyers can select from the world's markets.

**We Can Afford**  
to use only the very best materials because, buying in immense quantities for our wholesale trade, we get the best crude drugs at rock bottom prices. In our chemical laboratories these raw materials are refined and prepared by expert chemists and subjected to rigid tests both for strength and purity before being used in NA-DRU-CO preparations.

NA-DRU-CO Cod Liver Oil Compound, for instance, is made from the best of materials, by our expert chemists, and is consequently the most perfect tonic. NA-DRU-CO Nervosine is another striking example of the results our skilled chemists get from good ingredients.

**We Could Not Afford**  
to use any but the finest and purest materials in each and every NA-DRU-CO preparation, because on the quality of each depends the future of the whole line. Linked together as they are by the NA-DRU-CO Trade Mark, a single article found unreliable would go far to destroy your confidence in all NA-DRU-CO goods.

Ask your druggist about the quality of the drugs as apply to him—about our facilities for compounding superior medicinal and toilet preparations—about our reliability.

Go a little further if you like, and ask your physician or your druggist what goes into NA-DRU-CO preparations. They can tell you, for we will furnish to any physician or druggist in Canada, on request, a full list of the ingredients in any NA-DRU-CO preparation.

**"Money Back"**  
Furthermore, if any NA-DRU-CO article you buy does not entirely satisfy you, return it and your druggist will refund your money.

If your druggist has not the NA-DRU-CO article you want in stock he can get it for you within two days from our nearest wholesale branch.

**A Few NA-DRU-CO Favorites:**

Toilet: Complexion Cream, Calum Powder, Tooth Paste, Witch Hazel Cream	For Children: Baby's Tablets, Sugar of Milk, Dyspepsia & Indigestion, Bismuth Tablets	Ointment and Salves: Carbolic Salve, Stainless Lotion (Surgical), (1 quart), (1 pint), (1/2 pint)	Tonics: Cod Liver Oil Compound, (Bottle), (Bottle), (Bottle), Nervosine, Cod Liver Oil Emulsion (4 sizes)
--	---	---	---

**National Drug and Chemical Company of Canada, Limited**

Wholesale Branches at:  
Halifax, St. John, Montreal, Ottawa, Winnipeg, Regina, Calgary, Nelson, Vancouver, Victoria, London, Hamilton.

### Among City Churches

#### ANGLICAN.

In all the Anglican churches tomorrow the festival of Whitsuntide, celebrating the pentecostal outpouring of the Holy Spirit on the apostles, will be celebrated. The offertories will be devoted to mission purposes.

#### PRESBYTERIAN.

**Knox.** Choir Concert.—A very successful concert was given on Saturday evening last under the auspices of the choir, the sacred cantata, "The Rolling Seas," being the chief feature of the programme. In this work the choir was ably assisted by several friends from other churches, the result being a strong, well-balanced and well-sustained rendition of Simpson's sweetest composition. In the solo and duets Mrs. W. A. Jameson and Miss McLaren, soprano, and Mrs. R. H. Drake, mezzo-soprano, respectively, were fully appreciated. White J. G. Brown and W. D. Kinnaird, as basso and tenor, sustained well their reputations. The palmtalk leader, G. W. Hodgson, who on this occasion conducted the organ, is to be complimented on the success of the effort. At the conclusion of the programme refreshments were served to the choir by the ladies of the church, and a hearty vote of thanks was tendered to Mr. Hodgson, the ladies and gentlemen who kindly assisted in the committee and S. J. Drake, who acted as chairman. The audience was large and the proceeds should materially assist the choir fund.

**St. Paul's.** Memorial Service.—Owing to the pastor's absence from the city last Sunday attending the synod meeting in Vancouver, there was no memorial service held. At the morning service tomorrow the pastor will make special reference to His Majesty's death.

#### METHODIST.

All the Methodist pastors except Rev. T. E. Holling are out of the city this week attending the annual conference meeting in Nelson. Rev. Mr. Holling is convalescing rapidly and it is hoped that he will soon be well enough to be removed to his home.

#### BAPTIST.

**First Church.** Memorial.—The pulpit and platform of First Church were heavily draped in black and purple at last Sunday's services, in memory of the late King. Many appreciative remarks were passed

to the young people who did the work so tastefully and well. Temperance Sunday.—Last Sunday special feature in the Sunday schools was the quarterly temperance lesson. Special attention was given to the work of the B. C. Local Option League and the offerings of the day were turned over to this organization.

**Ladies' Prayer Meeting.**—On Tuesday afternoon at 3 o'clock the monthly prayer meeting of the ladies will be held in the church hall. All ladies of the congregation are assured of a cordial reception.

**Baracas and Philatheas.**—The regular monthly business meeting of the Ladies' Philatheas and Men's Baracas was held on Wednesday evening at the home of Mr. and Mrs. James Middleton. After the conclusion of business the meeting passed to a social gathering, which was thoroughly enjoyable to all present.

**To-morrow's services.**—The pulpit will be occupied tomorrow by Rev. J. Willard Litch, missionary evangelist of the Western Baptist convention. Mr. Litch is well and favorably known on the coast, having occupied the pastorate of First church, Vancouver, for some years, and latterly Broadway church, Winnipeg.

**Emmanuel.** To-morrow's services.—Services to-morrow will be conducted by the pastor, Rev. W. Stevenson, morning and evening. He will preach in the morning on "Faith's Investments" — Jeremiah's Land Purchase, and in the evening, "The Parable of the Rich Man and Lazarus."

**The Choir.**—Fred Parfitt, who has just returned from a visit to the Old Country, will resume the leadership of the choir, which work he had delegated to his brother, Mark Parfitt, during his absence. Another important change in the musical service takes place, when Miss F. Wood takes her place as organist. Mrs. Percy Marchant has filled this position with great success for nearly a year, but now feels compelled to resign the office owing to pressure of other duties, and she leaves it with the heartfelt good wishes and also with the regrets of the choir members and the entire church. Miss Wood, who now undertakes the work, is highly qualified for the position, having attended the best music masters in the city.

**Lectures.**—During the past few weeks the pastor has been giving a course of lessons on psychotherapy, along the lines of the Emmanuel movement. The class has been very largely attended, and great interest taken in the studies. The class meets on Wednesday afternoons from 3 to 4, and will continue for several weeks yet. Anyone wishing for information is requested to apply to the pastor. The classes are entirely free.

### HIGHEST BODY IN METHODISM

#### PREPARING FOR THE GENERAL CONFERENCE

#### Church Union Will Be One of the Questions to Be Discussed—Home Missions

The local committee of arrangements for the meeting of the general conference of the Methodist church, which assembles in this city next August, is meeting with much success in its canvass for assistance in the way of homes in which to entertain the delegates. There will be 400 delegates in attendance from all parts of Canada and from Japan and China. It is also expected that a large number of ladies, relatives of the delegates, will attend the sessions, as much interest is being taken in the event in the provinces east of the mountains and also in eastern Canada. The committee is already in receipt of letters from eastern people stating their intention of coming to Victoria at that time.

The general conference of the Methodist church meets every four years, and is the legislative body of the church. The great questions to come before the body this year will be church union, the advanced missionary policy of the church, and the urgent need for rapid extension of the work in Canada, especially among the non-English speaking races who are coming to this land in such large numbers.

The report of the joint committee of the Methodist, Presbyterian and Congregational churches on the question of organic church union will be presented at that time.

REV. A. E. ROBERTS. Pastor of Victoria West Methodist church, who has been elected secretary of the B. C. Conference for the sixth time.

and to do patchwork, at which she was an adept. Mrs. Matthews had a vivid recollection of how the victory of Waterloo was celebrated by bonfires and the roasting of whole oxen. Four of her children are still living, and she leaves a long line of descendants extending to the fifth generation.

The death is reported from Kilnlick, Rathangan, county Kildare, of Mary Tuohy, whose age was given on her coffin as 115.

Even these records, remarkable as they are, are surpassed by that of Mrs. Cranley, who lives within a few miles of Rathangan. She is said to have attained the extraordinary age of 124 years.

Since the inauguration of the general conference, Dr. Carman has been its general superintendent, for the first three years in conjunction with Rev. E. D. Rice, D.D., and for the next three years in conjunction with Rev. J. A. Williams, D.D.

Since that time Dr. Carman has resigned supreme and has five times been re-elected to the office of general superintendent by substantial majorities. He is recognized as one of the strongest men of the church and in spite of his age he is very alert and carries the conference through periods of stress in debate and vote with a masterly hand. He will deliver the quadrilateral address to the conference at the opening session on Monday, August 15th.

On Sunday, August 14th, all the delegates will be present in the city and the ministers will occupy the pulpits of the Methodist churches and also of all other denominations which are willing to open their pulpits. Rev. A. E. Roberts has charge of this matter, and all clergymen who wish to have one of the delegates preach on August 14th or 15th, should notify him, so that the name may be sent to the pulpit supply committee.

#### GRENFELL REPLIES TO ATTACK OF PEARY

#### Declares That Explorers Are No More Desirable Element Than the Missionaries

In a letter recently published in the Boston Transcript, Dr. Wilfrid T. Grenfell, the Labrador missionary, thus replies to Commander Robert E. Peary's criticism of the missionaries of the Northland:

"I have noted numerous quotations of late from a lecture of Commander Peary and many criticizing him for saying that he hopes the Arctic Highlanders will never be Christianized. Dr. Nansen has said much the same thing. It is no great compliment even to consider them unable to survive the advent of true Christianity. There can be no question that Almighty God considers them able to survive it. The truth must therefore be that they can survive it, I myself do not think them able to survive what so many people confess in their minds as being Christianity.

"Intellectual submission to some particular doctrine, that is not Christianity—not as I see it illustrated in the life of the modern missionary. We are not all that we ought to be, but I cannot believe that we are more unselfish and generous than even the most unselfish and generous class of explorers. My own experience is that the arrival of a strange vessel with a heterogeneous crew of sailors who make no pretence to Christianity whatever, is just as dangerous to a simple people with primitive ideas of morality as the arrival of a missionary of the twentieth century type. Without 'arrière pensee' I am able to say that I am not among those who object publicly to exploration expeditions, but I am among those who object to explorers going there themselves and then taking missionaries to task for going because they are missionaries.

"I have known Commander Peary for quite a number of years and his crew as well; I am among his most ardent admirers as a brave, capable gentleman and officer, a leader of men, and a man with a heart for sorrow and suffering, which even were there an suggestion of his wishing to deny it, has uniformly characterized his action in cases that I have known or heard of. And I should consider that the criterion which the Bible distinctly states will settle the questions as to the entrance into the twentieth century Christian right of a man to the title Christian. It is distinctly stated we shall be accepted or rejected for ethical and not theological attainments.

"The question seems to me to be 'What is Christianity?' I say this not in the sense of the jest of Plato about the just because it saddens me to think that missionaries are looked upon to-day still, by men whom we ourselves admire, and would like that they should think better of us, as if we lacked wisdom and common sense. The traditional missionary of the palm tree picture, with his group of polytheists, his disappaided clothing and the background of a cooking pot, seems to die harder than we missionaries think we have a right to expect in a twentieth century environment.

"There still lives in my memory the grinding of winches, the hurrying to

and fro, of men, and the delaying of a large steamer, bound home after long absence, bursting with news of success that was to interest the world, with wives and families and every incentive not to lose one second's time. I say I remember such a steamer, de-laying in a small Labrador harbor because of the kindness of her commander had arranged to land a large surplus of food supplies to help the missionary society to preach the gospel. And I still see painted on the stern of that vessel the name of "Roosevelt."

"I have been driving to-day on a visit to some sick folks. My new sledge is the wonder and admiration of the neighborhood; it is practically indestructible; its broad runners made it slide over a softened snow crust in which its companion sledge would have sunk to the cross frames and have made travelling almost impossible. It was a gift to me from a kindly friend interested in mission work. We have christened it after him. The Robert Peary. My colleague at our next hospital rides on its twin brother.

"By a strange concatenation of events, my second Komatik was made for me by Mr. Thomas Cook of New York and designed by another American who has shown kindness to us and our people, Dr. Frederick Cook. "The dogs of our mail service are chafing at their traces and I must close by assuring your readers that we missionaries are fully alive to their awful responsibilities not only to their people but to the great world that watches them. Perhaps after all the largest results from a man's life will be found in places further removed from his immediate field than he may dream of."

Over 50,000,000 yards of carpets are produced in the United Kingdom in the course of a year.

### The Amberola The newest Edison Phonograph

The Amberola is beautifully simple in outline, exquisitely designed and comes in either mahogany or oak, to harmonize with surroundings in any home. It has drawers in the lower part for holding 100 records. It plays both Edison Standard and Amberol Records. This is the Amberola's biggest advantage over all other instruments of the cabinet type—because Amberol Records play longer than any other Records made, rendering the best of all kinds of music as it is meant to be played, without hurrying or omitting important parts. But the Amberola gives you much of the best music that you cannot get in any other sound reproducing instrument of the cabinet type. The price is \$240. Other types of Edison Phonographs, \$16.50 to \$162.50.

Leo Slezak now sings for the Edison. The greatest living lyric tenor, Leo Slezak, has made ten new Grand Opera Amberol Records for the Edison Phonograph. These records include the great arias from Verdi's Otello, together with some beautiful Italian Grand Opera arias exclusively for the Edison Phonograph. Hear these new Slezak Records at your dealer's and be sure to see and hear the Amberola. Edison Grand Opera Records, 50c and \$1.25. Edison Standard Records, 10c and \$1.00. Edison Amberol Records (play twice as long), 25c.

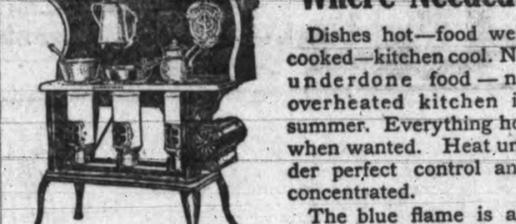

National Phonograph Co., 100 Lakeside Ave., Orange, N. J., U. S. A.

### No Heat Except Where Needed

Dishes hot—food well cooked—kitchen cool. No underdone food—no overheated kitchen in summer. Everything hot when wanted. Heat under perfect control and concentrated. The blue flame is all heat—no smoke—no odor—no dirt. These are some of the advantages in using the

New Perfection WICK BLUE FLAME Oil Cook-stove. It has a Cabinet Top with shelf for keeping plates and food hot. Drop shelves for the coffee pot or saucepans, and nicked towel racks. It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove very attractive and invites cleanliness. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet. CAUTIONARY NOTE: Be sure you get this stove—see that the name-plate reads "NEW PERFECTION." Every dealer everywhere; if not at yours, write for Descriptive Circular to the nearest agency of the

The Imperial Oil Company, Limited.

Walter Damrosch's return to this city with the New York Symphony orchestra brings naturally to mind the number of times which Mr. Damrosch has visited each city with his orchestra, as well as with opera. In the past, the beginning of these travels was in Chicago, where he made his first bow to the public as an opera conductor.

The circumstances of this event were dramatic. Contracts had been made by Dr. Leopold Damrosch to take the opera company to Chicago, Boston and a few other places when the eminent conductor suddenly died. The singers, as well as the directors, seemed to think that Walter Damrosch could carry out these contracts and finish the season; so in February, 1885, a boy of twenty-three, he started out with an opera company of about one hundred and fifty people on a Baltimore and Ohio train-bound for Chicago. The company was to have arrived on Sunday evening, but a blizzard and other incidents stalled the train for hours, and it was 8.15 on Monday evening before the company arrived. Three and a half hours later, the company gathered at the Columbia theatre at 8 o'clock to hear "Tannhauser." It was a little before 9 before the company reached the theatre. Scenery, costumes and properties were literally hurled onto the stage. The audience showed the greatest kindness and forbearance, and waited patiently and good-naturedly until Damrosch raised the baton for the "Tannhauser" overture a little after 10 o'clock. The confusion behind the scenes was beyond description. Costumes were found at last, scenery put in place, and the performance went on amid great enthusiasm and without a mishap, the curtain falling on the final scene at 1.30 a. m.

The encouragement which Damrosch

White on one of the ridges there, he spies out on the prairie a girl pursued by several Indians. He at once recognizes the figure to be that of Molly. With a well-aimed shot he kills one of the Indians and the others retreat. He then takes the girl to her home. On his arrival there he is informed that the Indian who shot the man of Mr. Henderson's death was found. The two are afterwards married and live a happy life. Hence it was by a perilous and circuitous trail that Bob reached the heart of the ranchman's beautiful daughter Molly.

Among the other pictures are: "A Equine Hero," a picture which depicts the marvelous intelligence of a horse, and "A Queen of Burlesque."

Miss Irma Todd will sing the illustrated song, "The Flowers Outside the Cafe."

Pantages Theatre.  
 Lots of good things are in store for Pantages patrons next week, according to the advance list of coming attractions. Marked stars, the famous musical comedians—real comedians, real musicians—the happy combination of whose talents has made them one of the best features in vaudeville, is one of the big promises.

Another feature and of special interest to all who enjoy high-class vocal music, is the announcement of the appearance of Miss Helene Lowe and Miss Helen Lynch, soprano duettists and soloists. These charming young ladies possess voices of rare quality and cultivation and have become great favorites on the Pantages circuit.

Burke and Burke, "The Messenger Boy and The Maid," present a little nonsense and a lot of excellent singing and dancing; pro and con comedy acrobats; J. Harrington, song illustrators; and the latest and best motion pictures complete the programme for next week.

Romano Theatre.  
 For to-night at the Romano a fine programme of moving pictures will be shown. The leading firm is "Company D to the Rescue." It is a drama of excellent type and one of the kind that is seldom seen here.

Col. Gordon, in command of the barlocks at a small town on the prairie, has a pretty daughter, Belle, and is preparing to make a trip across the prairie. They are shown waiting for the stage but just as they are about to leave they are warned that the Indians are hostile and friends advise them to have an escort of cowboys. Two of these cowboys, Jack and Jim, decide that the former shall start in pursuit of Belle and the latter inform the mounted police. When Jim reaches the headquarters and tells the happening the policemen mount their horses and set off on the trail of the Indians. In the meantime Jack has gained the Indian village, overcome the guard, released the girl and mounted her on his horse. The Indians, when aware of the fact, start in pursuit. The captain of company D locates Jack and the girl pursued. Jack, wounded, is seen to fall from his horse and Belle, at that moment, aid him. At this critical moment when the Indian company seems almost completed, company D comes to the rescue and make short work of the redskins.

The other pictures which accompany this film are: "Rural Romeo," "His Second Wife," "Servants and Masters," and "Prison in Preference."

Empress Theatre.  
 The usual good programme of motion pictures will be shown at the Empress theatre this evening. The management of this house makes a specialty of showing the Imp films. Mr. Leville promises all patrons a treat in this line of amusement to-night, several of the latest and best of the Imp pictures being on the bill.

**"A MIRACULOUS REMEDY"**  
 Lady in Hull Wasted Away Until She Weighed Only 80 Pounds

TOOK "FRUIT-A-TIVES" JUST IN TIME

This Wonderful Fruit Medicine Completely Cured Her After 12 Years Suffering

184 Chaudiere St., Hull, Que., December 24th, 1909.

"For the past twelve years, I had painful attacks of Dyspepsia. Finally in March, 1909, I suffered such tortures that I was compelled to stay in bed. I could not digest my food and everything I ate caused the most agonizing pain in my stomach. I also had a fearful attack of Constipation and at times, I had no movement of the bowels for two weeks. My feet were constantly cold. Three doctors attended me for two years and gave me all kinds of medicines, but did me no good. My weight came down to only 80 pounds, and every one thought I was going to die. Finally I had the good fortune to buy 'Fruit-a-tives,' and as soon as I began to take them I felt better. I persisted in the treatment, and to my great joy and to the astonishment of my friends, I improved. Now I feel very well, weigh 115 pounds, and this is more than I ever weighed, even before my illness. I attribute my cure solely and entirely to 'Fruit-a-tives,' and can never praise them too much for they saved my life. To all who suffer from Dyspepsia and Constipation, I recommend 'Fruit-a-tives' as being a miraculous remedy."

MADAME ANDREW STAFFORD.

"MADAME ANDREW STAFFORD."  
 When you read such a letter, you think that "Fruit-a-tives" is indeed a wonderful remedy, yet the action of "Fruit-a-tives" is so simple that a child can understand it. "Fruit-a-tives" is made from concentrated and intensified fruit juice and the finest nerve tonics, and acts directly on the liver, causing sufficient bile to flow, which regulates the bowels and cures Constipation. "Fruit-a-tives" also acts on the stomach, producing an abundance of gastric juice and so strengthens the stomach muscles that complete digestion is assured. "Fruit-a-tives" also regulates kidneys and skin, thus purifying the blood and building up the whole system. Without exaggeration, it may be stated that "Fruit-a-tives" is the greatest remedy in the world for Indigestion, Dyspepsia and Constipation. Fifty cents a box, 5 boxes for \$2.50, trial size, 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-tives, Limited, Ottawa.

tion that has ever been conducted in this city before will commence.

Miss Nylands will sing the illustrated song, Mr. Leveille and Miss Nylands will also be heard in duets.

**KILLED MOUNTAIN CLIMBING.**  
 Two Fatal Accidents on the Welsh Hills.

Two fatalities have occurred recently on the Welsh mountains. Mr. Donald Robertson, a well-known civil servant, and Reginald W. Salt, of Burton-on-Trent, being the victims.

Mr. Salt, Mr. and Miss Hudson, of Stratford-on-Avon, and Messrs. Hurst and Hubcock set out to ascend Lillwedd, the eastern buttress of Snowdon. Two ropes were used. There are two exposed traverses of firm rock and one grassy chimney of 40 feet where special care is needed. The entire climb is 1,000 feet.

Good progress was made for a third of the distance, and every precaution was taken. Mr. Salt led, followed by Miss Hudson. Next came Mr. Hudson, who had the two ropes looped around him, and Messrs. Hurst and Hubcock brought up the rear.

Mr. Salt was out of sight at a height of 200 feet above the snow, and at the moment Mr. Hurst was negotiating a difficult chimney, whilst the man above, Mr. Hudson, had the lower rope hitched round a shallow belay, and was drawing in the "slack" as his next man ascended.

Mr. Salt was assumed to be in a perfectly safe position. How he came to fall is not known, but suddenly the sound of scrambling feet was heard, and the leader's body was seen to fall. The rope had broken under the sudden strain put upon it. It is thought that the rope caught against a sharp-edged

crag. Had this not occurred, the whole party would probably have been swept over into the abyss.  
 Mr. Salt's companions were powerless to aid him, and could do nothing but watch the body fall down the face of the precipice, strike a projecting rock, and finally roll down the snow below. When recovered it bore marks of terrible injury. The head was fractured and all the limbs were broken.  
 Lillwedd, pronounced "Thlooth," is generally described as the "grandest cliff in Wales." There are a dozen or a score of different routes up it, well known to climbers; the most difficult of these routes, and one of the most difficult climbs in the kingdom, nearly as dangerous, in fact, as the famous Devil's Kitchen off Glyn Fach, is the so-called "avalanche route" on the east peak.  
 It was near the latter place that Mr. Robertson, of Chelsea, a Fellow of Trinity College, Cambridge, a fine athlete, a member of the Alpine and Leander Clubs, and a mountaineer of skill and confidence, met his death.  
 "Is he a respectable man?" a witness was asked at West Ham police court, London. "No, only a working man like myself," was the reply.

**CITY OF VICTORIA**

A complete list of Local Improvement Works authorized by By-Law from time to time will be found posted on the Bulletin Board at the Main Entrance to the City Hall.

**Tenders For Letters and Signs**

Tenders will be received by the undersigned up to 4 p.m. on Monday, the 16th day of May next, for the furnishing of 4,000 letters.
