DIRECTING THE DIRECTOR OF THE OFFICE OF DEFENSE TRANSPORTATION TO TAKE CONTROL OF THE PROPERTIES OF THE AMERICAN RAILROAD COMPANY OF PORTO RICO

WHEREAS the operations of the American Railroad Company of Porto Rico have been interrupted by a labor dispute; and

WHEREAS the operation of this railroad is necessary for the movement of supplies and food for the armed forces and the civilian population and is otherwise essential to the effective prosecution of the war:

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and laws of the United States, and as President of the United States and as Commander in Chief of the Army and Navy, it is hereby ordered:

1. The Director of the Office of Defense Transportation is directed to take immediate possession of all real and personal property, franchises, rights, facilities, funds and other assets, tangible and intangible, of the American Railroad Company of Porto Rico, and to operate or arrange for the operation of such railroad in such manner as he deems necessary for the successful prosecution of the war, through or with the aid of such public or private agencies, persons or corporations as he may designate.

2. The Director of the Office of Defense Transportation shall manage or arrange for the management of said railroad under such terms and conditions of employment as he deems advisable and proper, pending termination of the existing labor dispute. Nothing herein shall be deemed to render inapplicable insular or Federal laws concerning the health, safety, security and employment standards of the employees of said railroad.

3. The National War Labor Board shall proceed, forthwith, after due investigation and hearing, to make a final determination of the existing labor dispute between the American Railroad Company of Porto Rico and its employees, which determination when made shall be retroactive to the date of Fed-

eral possession of the properties of said railroad.

4. Except with the prior written consent of the Director of the Office of Defense Transportation, no attachment by mesne or garnishee process or on execution or otherwise shall be levied on or against any of the real and personal property, franchises, rights, facilities, funds and other assets, tangible and intangible, of the American Railroad Company of Porto Rico in the possession of the Director of the Office of Defense Transportation. As a part of the terms and conditions of the possession and operation directed to be taken hereunder, the Director of the Office of Defense Transportation is authorized in his discretion to make advances from the net cash earnings of his operation of the railroad, in such amounts and on such terms as he deems desirable, for the discharge of lawful obligations of the American Railroad Company of Porto Rico, and for the preservation of the real and personal property, corporate organization and franchises, rights, facilities, funds and other assets, tangible and intangible, of the railroad. Advances pursuant to the authority of this paragraph shall not be repayable before the time of final determination, by settlement or adjudication, of any claim of the railroad for compensation by reason of action taken pursuant to this order.

5. Such real and personal property, franchises, rights, facilities, funds and other assets, tangible and intangible, of the American Railroad Company of Porto Rico as the Director of the Office of Defense Transportation deems unnecessary to carry on the operation of such railroad may, from time to time, in his discretion, be returned to the railroad.

6. Possession and operation hereunder shall be terminated when the President determines that such possession and operation are no longer required for the successful prosecution of the war.

7. Upon the request of the Director of the Office of Defense Transportation, the Secretary of War shall take such action, if any, as he may deem necessary or desirable to provide protection to the railroad property and to persons working for or seeking employment by the railroad.

Chapter IX—War Food Administration

PART 927—MILK IN THE NEW YORK METROPOLITAN MARKETING AREA

Order amending the order, as amended, regulating the handling of milk in the New York metropolitan marketing area.

§ 927.0 *Findings and determinations—*
(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act. No. 10, 73d Congress (May 12, 1943), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR, 1941 Supp., 900.1-900.17; 7 F.R. 3350; 8 F.R. 2815) a public hearing was held upon certain proposed amendments to the tentatively approved marketing agreement, as amended, and to the order, as amended, regulating the handling of milk in the New York metropolitan marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The aforesaid order, as amended and as hereby amended, and all of the terms and conditions of said order, as amended and as hereby amended, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in the New York metropolitan marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices set forth in the aforesaid order, as amended and

as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The aforesaid order, as amended and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activities specified in, the aforesaid tentatively approved marketing agreement, as amended, upon which a hearing has been held.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings herein set forth.

(b) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by the aforesaid order, as amended and as hereby further amended) of at least 50 percent of the volume of milk covered by said order, as amended and as hereby further amended, which is marketed within the New York metropolitan marketing area refused or failed to sign the tentatively approved marketing agreement, as amended, regulating the handling of milk in the New York metropolitan marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said tentatively approved marketing agreement, as amended, tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order further amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the New York metropolitan marketing area; and

(3) The issuance of this order, further amending the aforesaid order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period, were engaged in the production of milk for sale in the said New York metropolitan marketing area.

Order Relative to Handling

It is hereby ordered, That such handling of milk in the New York metropolitan marketing area as is in the current of interstate commerce or as directly burdens, obstructs, or affects interstate commerce shall, from the effective date hereof, be in compliance with the terms and conditions of the aforesaid order, as amended and as hereby further amended; and the aforesaid order, as amended, is hereby further amended in the following respect:

1. Delete § 927.7 (e) (4).
2. Amend § 927.2 (d) by adding a new subparagraph (10), as follows:

(10) The market administrator shall, from time to time, cause inspections to be made of the buildings, facilities, and surroundings of the plant and shall notify handlers of his determination as to what constitutes the plant and its equipment. Such determination shall be ruling for all purposes under this order.

3. Delete § 927.4 (a) (13) and substitute therefor the following:

(13) For Class IV-B milk the price during each month shall be a price computed by the market administrator as follows: from the average of weekly quotations at the Wisconsin Cheese Exchange, Plymouth, Wisconsin, for Cheddars, or in the absence of such quotations for Cheddars the weekly quotations at the Wisconsin Cheese Exchange for Twins, subtract 1.5 cents (net figure representing making allowance in excess of whey fat, whey, transportation, and paraffin allowances), and multiply the result by 9: *Provided*, That during any delivery period when there is in effect an offer by the Commodity Credit Corporation to purchase American Cheddar cheese for resale to manufacturers, the price offered by the Commodity Credit Corporation shall be used in lieu of the aforesaid quotations for Cheddars or Twins.

(48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U.S.C. 1940 ed. 601 et seq.; E.O. 9334, 8 F.R. 5423)

Issued at Washington, D. C., this 10th day of May 1943, to be effective on and after the 16th day of May 1943.

War Food Administrator.

Chapter III—Bituminous Coal Division

[Docket No. A-1308]

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT No. 8

ORDER GRANTING RELIEF

Memorandum opinion and order in the matter of the petition of District Board No. 8, for a provision in the schedule of effective minimum prices for District No. 8 for all shipments except truck, permitting the absorption of the C. & O. Railroad switching charge applicable on shipments from Freight Origin Group 63 to the C. C. & O. Railroad for off-line railroad locomotive fuel, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

On September 16, 1942, 7 F.R. 7341, an order was issued in this docket amending § 328.13 (c) (2) (iii) (b) (*Special prices—Railway locomotive fuel—For off-line railways—Adjustments to off-line railway locomotive fuel prices*) in the Schedule of Effective Minimum Prices for District No. 8 for All Shipments Except Truck (High Volatile Section IV) as follows:

Mines in Freight Origin Group No. 63 (C. & O. only) may deduct \$7.35 per car switching charge on coals sold for off-line railway locomotive fuel to the C. C. & O. railroad.

The amount of this deduction included an increase in the railway switching charge effective March 18, 1942, as authorized by order of the Interstate Commerce Commission in Ex Parte No. 148 titled "Increased Railway Rates, Fares, and Charges, 1942." On April 12, 1943, the Interstate Commerce Commission issued a suspension order in said Ex Parte No. 148 suspending from and after May 15, 1943, until January 1, 1944, the increases in railway rates, fares, and charges previously authorized in said docket. Accordingly, I find that it is necessary that the order previously issued in this docket should be adjusted to conform to the rates which will become effective May 15, 1943, by virtue of the suspension order of the Interstate

Commerce Commission, dated April 12, 1943. It is further necessary, and I so find, that such an adjustment should be made in order to effectuate the purposes of sections 4 II (a) and (b) of the Act, and to comply in all respects with the standards thereof;

Now, therefore, it is ordered, That effective thirty (30) days from the date hereof, subject to further order, the amendment effected in the Schedule of Effective Minimum Prices for District No. 8 for All Shipments Except Truck (High Volatile section IV) by the order of September 16, 1942, 7 F.R. 7341, herein be and the same is hereby deleted, and in lieu thereof the following amendment to the schedule in § 328.13 (c) (2) (iii) (b) (*Special prices—Railway locomotive fuel—For off-line railways—Adjustments to off-line railway locomotive fuel prices*) is adopted:

Mines in Freight Origin Group No. 63 (C. & O. only) may deduct \$6.93 per car switching charge on coal sold for off-line railroad locomotive fuel to the C. C. & O. Railway.

It is further ordered, That pleadings in opposition to the aforesaid order and applications to stay, terminate or modify said order may be filed with the Division within twenty-five (25) days from the date hereof, pursuant to the rules and regulations governing practice and procedure before the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

On April 15, 1942, 7 F. R. 2932, an order was issued in this docket amending the Schedule of Effective Minimum Prices for District No. 11 for All Shipments Except Truck, § 331.1 (*Price instructions and exceptions—(b) Price exceptions*), by the addition of the following Price Exception to the Price Instructions and Exceptions:

The amount of the absorption authorized by said order was based upon an increase in the railway switching charge effective March 18, 1942, as authorized by order of the Interstate Commerce Commission in Ex Parte No. 148 titled "Increased Railway Rates, Fares and Charges, 1942." On April 12, 1943, the Interstate Commerce Commission issued a suspension order in said docket suspending from and after May 15, 1943, until January 1, 1944, the increases in railway rates, fares and charges previously authorized in said docket. It is further necessary, and I so find, that such an adjustment should be made in order to effectuate the purposes of sections 4 II (a) and 4 II (b) of the Act, and to comply in all respects with the standards thereof;

Said schedule provided that Mine Index No. 57 shall be included in Price Group 11 and shall take the same f. o. b. mine prices as other mines in Price Group 11 in District No. 11. This had the effect of including an increase from \$8.80 per car to \$9.33 per car in the amount of the switching charge assessed by the E. S. & N. Railroad Company which could be absorbed. This was based upon an increase in the railway switching charge effective March 18, 1942, as authorized by order of the Interstate Commerce Commission in Ex Parte No. 148 titled "Increased Railway Rates, Fares, and Charges, 1942." On April 12, 1943, the Interstate Commerce Commission issued a suspension order in said docket suspending, from and after May 15, 1943 until January 1, 1944, the increases in railway rates, fares and charges previously authorized in said docket. Accordingly, I find it is necessary that the order previously issued in this docket should be adjusted to conform to the rates which will become effective May 15, 1943, by virtue of the suspension order of the Interstate Commerce Commission, dated April 12, 1943. It is further necessary, and I so find, that such an adjustment should be made in order to effectuate the purposes of sections 4 II (a) and 4 II (b) of the Act, and to comply in all respects with the standards thereof;

Now, therefore, it is ordered, That effective thirty (30) days from the date hereof, subject to further order, § 331.1 (*Price instructions and exceptions—(b) Price exceptions*) is amended to provide that the amount of the switching charge assessed by the E. S. & N. Railroad Company which may be absorbed on coals shipped from Mine Index No. 57 in Price Group 11 in District No. 11 shall not exceed \$8.80 per car.¹

It is further ordered, That pleadings in opposition to the aforesaid order and applications to stay, terminate or modify said order may be filed with the Division within twenty-five (25) days from the date hereof, pursuant to the rules and regulations governing practice and procedure before the Bituminous Coal Division

¹ In accordance with this order the figures \$9.33 per car should be changed to \$8.80 per car in the following footnotes in Schedule No. 2 of Effective Minimum Prices for District No. 11: Note A, Page D-11-33; note ¹, Page D-11-35; and note ², Page D-11-36.

[Docket No. A-1711]

PART 333—MINIMUM PRICE SCHEDULE,
DISTRICT NO. 13

ORDER GRANTING RELIEF

Memorandum opinion and order in the matter of the petition of Debardeleben Coal Corporation for permission to absorb an increase of 65 cents per car in switching and weighing charges in delivery of locomotive fuel from its Hull Mine to the Illinois Central Railroad.

On February 26, 1943, 8 F.R. 2561, an order granting temporary relief and conditionally providing for final relief was issued in this docket which provided that the Hull Mine (Mine Index No. 44) may reduce the price listed in the Schedule of Effective Minimum Prices for District No. 13 for All Shipments Except Truck, § 333.7 (*Special prices—(a) Prices for shipment to all railroads and for exclusive use of railroads*), footnote 3, when for delivery as locomotive fuel to the Illinois Central Railroad by absorbing the actual weighing and switching charges but not to exceed \$11.38 per car.

The amount of said absorption was based upon an increase in the railway weighing and switching charges effective April 11, 1942 as authorized by order of the Interstate Commerce Commission in Ex Parte No. 148 titled "Increased Railway Rates, Fares, and Charges, 1942." On April 12, 1943, the Interstate Commerce Commission issued a suspension order in said Ex Parte No. 148 suspending from and after May 15, 1943, until January 1, 1944, the increases in railway rates, fares and charges previously authorized in said docket. Accordingly, I find that it is necessary that the order previously issued in this docket should be adjusted to conform to the rates which will become effective May 15, 1943, by virtue of the suspension order of the Interstate Commerce Commission, issued April 12, 1943. It is further necessary, and I so find, that such an adjustment should be made in order to effectuate the purposes of sections 4 II (a) and 4 II (b) of the Act, and to comply in all respects with the standards thereof;

Now, therefore, it is ordered, That effective thirty days from the date hereof, subject to further order, footnote 3 of § 333.7 (*Special prices—(a) Prices for shipment to all railroads and for exclusive use of railroads*) in the Schedule of Effective Minimum Prices for District No. 13 for All Shipments Except Truck is amended as follows:

The Hull Mine (Mine Index No. 44) may reduce the price listed above when for delivery as locomotive fuel to the Illinois Central Railroad by absorbing the actual weighing and switching charges but not to exceed \$10.73 per car.

It is further ordered, That pleadings in opposition to the aforesaid order and applications to stay, terminate or modify said order may be filed with the Division within twenty-five (25) days from the date hereof, pursuant to the rules and regulations governing practice and procedure before the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

Dated: May 13, 1943.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-299]

SAM SPURRIER

Sam Spurrier, 308 Hamilton Street, Harrisburg, Pennsylvania, is engaged in the business of distributing and installing restaurant and bar-room supplies. Subsequent to May 15, 1942 Sam Spurrier sold, delivered or installed a number of items of unused refrigerating and air-conditioning equipment in violation of General Limitation Order L-38. At the time these sales, deliveries or installations were made, Sam Spurrier was fully aware of the provisions of Limitation Order L-38, and, therefore, these acts constituted wilful violations of that order.

These violations of General Limitation Order L-38 have hampered and impeded the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board.

In view of the foregoing facts, *It is hereby ordered*, That:

§ 1010.299 *Suspension Order S-299.*

(a) Sam Spurrier, his successors or assigns, is hereby prohibited from accepting delivery of, processing, delivering, selling or dealing in any industrial or commercial refrigerating and air-conditioning system, as defined in General Limitation Order L-38, or parts thereof, except as specifically authorized in writing by the War Production Board.

(b) Deliveries of material to Sam Spurrier, his successors or assigns, shall

not be accorded priority over deliveries under any other contract or order and no preference rating shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other order or regulation of the War Production Board, except as specifically authorized in writing by the War Production Board.

(c) No allocation shall be made to Sam Spurrier, his successors or assigns, of any material the supply or distribution of which is governed by any order of the War Production Board, except as specifically authorized in writing by the War Production Board.

(d) Nothing contained in this order shall be deemed to relieve Sam Spurrier, his successors and assigns, from any restriction, prohibition or provision of any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect on May 15, 1943, and terminate November 15, 1944, after which latter date it shall be of no further force and effect.

Issued this 13th day of May 1943.

WAR PRODUCTION BOARD,

By J. JOSEPH WHELAN,
Recording Secretary.

PART 3260—TISSUE

[Order L-297]

§ 3260.1 *Limitation Order L-297—(a) Definitions.* For the purpose of this order:

(3) "Japanese Tissue" means any Japanese thin paper (lens or stencil) commonly or commercially known as "Yoshino" or "Tengujo", grades A and B, of weights varying from 37 to 44 ounces per ream, and shipped in sizes 18"x18½" or more.

(4) "Inventory" includes any property interest of a person in Japanese tissue

regardless of whether such person is in possession of the Japanese tissue or not.

(b) *Reports.* On or before the 20th day of May, 1943, all persons having an inventory of Japanese tissue in excess of four reams (100 quires) shall advise the War Production Board thereof by filing a letter in triplicate, stating the amount of such inventory on May 13th, 1943, in both reams and pounds, the consumption and/or sales thereof in reams and pounds since January 1, 1943, by months, and the end-uses thereof. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(c) *Restrictions on use, processing and delivery.* No person required to file a report of inventory pursuant to paragraph (b) shall commercially use, process, sell or deliver more than 50% of the inventory of Japanese Tissue which he had on the 13th day of May, 1943 except as specifically authorized in writing by the War Production Board.

(d) *Miscellaneous provisions—(1) Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(4) *Communications.* All communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Pulp and Paper Division, Washington, D. C. Ref.: L-297.

(1) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether or not incorporated.

(2) "Owner" of any material means any person who has any property interest in such material except a person whose interest is held solely as security for the payment of money.

(4) "Import" means to transport in any manner into the continental United States from any foreign country or from any territory or possession of the United States (including the Philippine Islands). (5) "Place of initial storage" means any warehouse, yard ground storage, or other place, to which the person making the entry or withdrawal from custody of the United States Bureau of Customs of material imported subject to this order directs or has directed that such material be transported from the port of entry to be held until disposed of pursuant to this order.

(7) "Governing date" with respect to any material means the date when such material first became subject to General Imports Order M-63.

(b) *Restrictions on imports of materials*—(1) *General restriction*. No person, except as authorized in writing by the War Production Board, shall purchase for import, import, offer to purchase for import, receive, or offer to receive on consignment for import, or make any contract or other arrangement for the importing of, any material subject to this order after the governing date. The foregoing restrictions shall apply to the importation of any material subject to the order, regardless of the existence on the governing date or thereafter of any contract or other arrangement for the importation of such material. The materials subject to this order are those listed from time to time upon List I, List II, and List III attached hereto.

(2) *Authorization by War Production Board*. Any person desiring such authorization, whether owner, purchaser, seller, or consignee of the material to be imported, or agent of any of them, shall make application therefor in duplicate on Form PD-222C, addressed to the War Production Board, Ref.: M-63, Washington, D. C. Unless otherwise expressly permitted, such authorization shall apply only to the particular material and shipment mentioned therein and to the persons and their agents concerned with such shipment; it shall not be assignable or transferable either in whole or in part.

(3) *Restrictions on financing of imports*. No bank or other person shall participate, by financing or otherwise, in any arrangement which such bank or person knows or has reason to know involves the importation of any material subject to this order after the governing date unless such bank or person has received either a copy of the authorization issued by the War Production Board, or, if the transaction comes within the exceptions set forth in paragraph (b) (4), an affidavit stating the facts which show the exception.

(4) *Exceptions*. Unless otherwise directed by the War Production Board, the restrictions set forth in this paragraph (b) shall not apply:

(i) To the Board of Economic Warfare, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation, or any agent acting for any such department, agency, or corporation; or

(iv) To materials imported by mail where the value of the shipment is less than \$100.00; or

(v) To materials consigned as gifts or as samples, or for use as samples, or imported for personal use, where the value of each consignment or shipment is less than \$200.00; or

(vi) To materials consigned as gifts for personal use by or to members of the Armed Services of the United States.

(vii) To any material on List I or List II imported by any person under any

contract or other arrangement made before, or in existence on the governing date and which, on December 28, 1942, was in transit to a point within the continental United States.

(c) *Restrictions on disposition of List I material*. Except as hereinafter specifically provided in paragraph (d) hereof:

(1) *Restrictions upon owners and consignees*. No owner or consignee of any material on List I which is imported after the governing date shall in any way, directly or indirectly:

(i) Dispose of any interest in such material;

(ii) Process or in any way change the physical condition of such material;

(iii) Transfer possession, or cause or permit a transfer of possession, of such material except to the port of entry and from the port of entry to the place of initial storage of such material; or

(iv) Change, or cause or permit a change of, the location of such material except to the port of entry and from the port of entry to the place of initial storage of such material.

Provided: That a consignee of such material may dispose of his interest in such material to the extent necessary to complete any commitment or contract made prior to the governing date. The person to whom he disposes of such interest shall be subject to all restrictions imposed upon owners by this order.

(2) *Restrictions upon banks and persons similarly situated*. No bank or other person which, as agent, pledgee, beneficiary under a trust receipt, or otherwise, has possession of or any interest in any written instrument evidencing any interest in any material on List I shall in any way, directly or indirectly, dispose of any such interest, or transfer possession, or cause or permit a transfer of possession, of such instrument, unless:

(i) Such material was imported before the governing date; or

(ii) Such person neither knows nor has reason to know that such material was imported after the governing date; or

(iii) Such disposition or transfer is necessary to permit a consignee to make a permissible disposition of material in accordance with subparagraph (1) of this paragraph (c); or

(iv) Such disposition or transfer is made to the owner of the material and such owner has complied with all the provisions of this order.

(d) *Permissible disposition of List I materials*—(1) *Transfer to governmental agency*. Nothing contained in this order shall prohibit an owner or consignee of any material on List I im-

ported after the governing date, or a bank or other person having possession of, or an interest in, a written instrument evidencing an interest in such material, from disposing of, or making any arrangement to dispose of, any interest in such material to the Board of Economic Warfare, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation.

(2) *Authorization by War Production Board.* Notwithstanding the provisions of paragraph (c), an owner or consignee of material on List I imported after the governing date or a bank or other person having possession of or an interest in a written instrument evidencing an interest in such material, may process such material or may dispose of any interest in such material or any such written instrument, or transfer possession or change the location thereof, or cause or permit such a transfer of possession or change of location, upon written authorization by the War Production Board. Any such person may make application in duplicate for such an authorization on Form PD-222A, which form shall be addressed to the War Production Board. Ref.: M-63, Washington, D. C.

(3) *Exceptions.* The restrictions set forth in paragraph (c) shall not apply to any material after any United States governmental department, agency, or corporation becomes the owner thereof, and shall not apply to any material of which any United States governmental department, agency, or corporation is the owner at the time of importation, and shall not apply to any material purchased or otherwise acquired from any United States governmental department, agency, or corporation.

(e) *Restrictions on disposition of List II or List III material.* Any material on List II or List III, which is imported after the governing date, may be sold, delivered, processed, consumed, purchased, or received without restriction under this order, but all such transactions shall be subject to all applicable provisions of the regulations of the War Production Board and to all orders and directions of the War Production Board which now or hereafter may be in effect with respect to such material.

(f) *Reports—(1) Reports on customs entry.* No material which is imported after the governing date, including materials imported by or for the account of the Board of Economic Warfare, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or

corporation, shall be entered through the United States Bureau of Customs for any purpose, whether for consumption, for warehouse, in transit, in bond, for re-export, for appraisal, or otherwise, unless the person making the entry shall file with the entry Form PD-222B in duplicate. The filing of such form a second time shall not be required upon any subsequent entry of such material through the United States Bureau of Customs for any purpose; nor shall the filing of such form be required upon the withdrawal of any material from bonded custody of the United States Bureau of Customs, regardless of the date when such material was first transported into the continental United States. Both copies of such form shall be transmitted by the Collector of Customs to the War Production Board, Division of Stockpiling and Transportation, Ref.: M-63, Washington, D. C.

(2) *Other reports.* All persons having any interest in, or taking any action with respect to, any material imported after the governing date, whether as owner, agent, consignee, or otherwise, shall file such other reports as may be required from time to time by the War Production Board.

(g) *Routing of communications.* All communications concerning this order shall, unless otherwise herein directed, be addressed to: War Production Board, Washington, D. C., Ref.: M-63.

(h) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or who furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority assistance.

(i) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

Issued this 14th day of May 1943.

N. S. C.—No separate class or commodity number has been assigned for the material as described by the Department of Commerce, Statistical Classification of Imports.

INTERPRETATION 1

No authorization under paragraph (b) of the order is necessary for the release or withdrawal of materials on List II or List III from a free port, a free zone, or the bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States regardless of the date when such materials first entered such place. The actual importation, which is the subject of restriction under paragraph (b), is deemed to have occurred before the question of release or withdrawal arises. Also, no authorization under paragraph (d) of the order is necessary for the subsequent disposition, processing, or shipment of such released or withdrawn List II and List III materials.

As to List I materials which are similarly situated, no authorization under paragraph (b) of the order is necessary for their release or withdrawal from free port, free zone, or bonded custody, but authorization under paragraph (d) of the order is necessary for their subsequent disposition, processing, or shipment unless they are shipped in bond to Canada, Mexico, or some other foreign country, in which event the foreign destination is deemed to be the place of initial storage as such term is used in the order. (Issued June 30, 1942.)

INTERPRETATION 2

The following official interpretation is hereby issued by the War Production Board with respect to the meaning of the term "in transit" as defined in paragraph (a) (6) of General Imports Order M-63 (§ 1042.1) as amended:

By amendment dated December 17, 1942, the definition of material "in transit" was changed by adding the following clause, "or if it has actually been delivered to and accepted by a rail, truck, or air carrier, for transportation to a point within the continental United States." The question has been raised as to the meaning of the term as applied to a case where the material on the governing date had been delivered to and accepted by a rail, truck, or air carrier on a through bill of lading for transportation to a specified port and from thence by boat to a point within the continental United States.

The material in the stated case is not deemed to be in transit within the meaning of the term as used in the order. If the material is to be carried to the port of arrival in the continental United States by ship, the material must have been afloat, or on board ocean bill of lading must have been issued with respect to it, on the governing date in order for it to be considered as having been in transit on such date.

Material which has been delivered to and accepted by a rail, truck, or air carrier on the governing date for transportation to a point within the continental United States is deemed to be in transit within the meaning of the term as used in the order only when the transportation specified in the bill of lading issued by such carrier calls for delivery of the material at the port of arrival in the continental United States by rail, truck, or air carrier, not by ship. (Issued March 5, 1943.)

INTERPRETATION 3

When by amendment of the order a material already on List II or List III is moved to List I and hence becomes subject to the restrictions of paragraph (c) covering the disposition, processing, transfer, or change of location of such material, the governing date for the application of such restrictions is the effective date of the amendment by which the material was moved to List I and

not the date when such material first became subject to General Imports Order M-63. (Issued May 14, 1943.)

PART 1042—IMPORTS OF STRATEGIC MATERIALS

[Supplemental General Imports Order M-63-a, as amended May 14, 1943]

Pursuant to General Imports Order M-63, as amended, which this order supplements, *It is hereby ordered, That:*

§ 1042.2 *Supplemental General Imports Order M-63-a.* Until further or-

der of the War Production Board, the provisions of General Imports Order M-63, as amended June 2, 1942, and thereafter, shall not apply to materials on List III of said order which are located in, and are the growth, production, or manufacture of, and are transported into the continental United States overland, by air, or by inland waterway from, Canada, Mexico, Guatemala, or El Salvador, except with respect to materials listed on Schedule A attached hereto.

Issued this 14th day of May 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

(j) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of cotton textile fabrics suitable for bags conserved, or that compliance with this order would disrupt or impair a program of conversion from nondefense to defense work, may appeal to the War Production Board, Ref: M-107, setting forth the pertinent facts and the reason he considers he is entitled to relief. SCHEDULE II—BEVERAGE AND TOBACCO BOXES

Table I—Alcoholic beverage boxes. (a)

Definition: Alcoholic beverage means any beverage containing 3.2% or more of alcohol by volume, including but not limited to whisky, gin, rum, brandy, liqueurs, cordials, wines and malt beverages, not including medicinal preparations.

(b) No person shall manufacture any box for packaging alcoholic beverages.

SCHEDULE III—RETAIL BOXES

Table I—General restrictions on retail boxes. (a) *Definition:* Retail box means any box furnished directly or indirectly by a retailer for packaging merchandise for retail distribution, excepting parcel post boxes and boxes for packaging foods, drugs, medicinal supplies or custom jewelry.

(b) *Quota restriction on manufacture of retail boxes.* Beginning January 1, 1943, no person shall in any quarter put in process for the manufacture of retail boxes more than 65 percent of the tonnage of paperboard he put in process for the manufacture of retail boxes in the corresponding quarter of 1941. On or before April 30, 1943, any person may elect to compute all such quarterly quotas on the basis of 1/4 of the tonnage put in process for that purpose during the whole of 1941. If, on the basis of such computation, his quota for the first quarter of 1943 becomes smaller than the amount of paperboard he actually put into process during that quarter, he shall charge the resulting excess to his quota for the second quarter of 1943. After electing to compute his quotas for any year on this alternative basis, no person shall thereafter revert to the other computation method during that year.

(c) No person shall knowingly manufacture boxes for sale at retail as empty boxes.

Table II—Restrictions on retail set-up boxes. (a) No person shall manufacture any retail boxes exceeding the following maximum

specifications, provided that retail boxes of sizes other than specified below may be manufactured if the material used is not of heavier weight than that permitted for the size box having the nearest higher area in square inches:

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 3, as Amended May 14, 1943]
 PREFERENCE RATINGS UNDER THE CONTROLLED MATERIALS PLAN

§ 3175.3 CMP Regulation 3—(a) *Purpose and scope.* The purpose of this regulation is to define the operation of preference ratings under the Controlled Materials Plan.

(b) *Definitions.* The following definitions shall apply for the purpose of this regulation and for the purposes of any other CMP regulation unless otherwise indicated:

(1) "Production material" means, with respect to any person, material or products (including fabricated parts and sub-assemblies) which will be physically incorporated into his product, and includes the portion of such material normally consumed or converted into scrap in the course of processing. It also includes items purchased by a manufacturer for resale to round out his line, if such items do not represent more than 10% of his total sales. It does not include any items purchased by him as manufacturing equipment or for maintenance, repair or operating supplies as defined in CMP Regulation 5.

(2) "Allotment number or symbol" means:

(i) An allotment number or symbol placed on a delivery order as provided

(b) *Material for retail boxes.* No person shall incorporate in any retail boxes:

(1) Any grade or quality of paperboard higher than solid news No. 2 finish, Gage List No. 3, or

(2) Any bottom paper if the box is strip wrapped, or

(3) Any lining other than news vat lining on the side of the board forming inside of the blank, or

(4) Any metal.

Table III—Restrictions on retail folding boxes. (a) No retail box for packaging wear-

in paragraphs (f) and (g) of this regulation, or as provided in CMP Regulation 1 or CMP Regulation 5; or

(ii) A number or symbol placed on a delivery order pursuant to any other regulation or order of the War Production Board if, but only if, it is expressly stated that such number or symbol shall constitute an "allotment number or symbol" for purposes of this regulation.

(c) Superiority of ratings with allotment numbers or symbols over other ratings of equal grade during the second quarter. A delivery order bearing a preference rating with an allotment number or symbol applied before July 1, 1943 shall (unless otherwise ordered by the War Production Board) be deemed superior in rating, for purposes of Priorities Regulation 1, to any delivery order bearing a rating of the same grade without an allotment number or symbol, but shall not be superior to another order bearing a rating of a higher grade. For example, a rating of AA-2X with an allotment number or symbol is superior to another rating of AA-2X without an allotment number or symbol, but is inferior to any rating of AA-1 with or without an allotment number or symbol.

An allotment number or symbol applied to a rating after June 30, 1943, shall not have any effect on the rating. For example, an order placed in June with a rating of AA-2X to which an allotment number is applied in July or an order placed in July with a rating of AA-2X and bearing an allotment number shall each be deemed equal in rating to orders rated AA-2X to which no allotment number or symbol is applied.

(d) Preference ratings with allotment numbers for production schedules—(1) Prime consumers. In each case when an allotment is made to a prime consumer making Class A or Class B products, and his production schedule is authorized by a Claimant Agency or an Industry Division, a preference rating will be assigned to such schedule for use with the allotment number applicable to the schedule.

(2) Secondary consumers. In each case when an allotment is made to a secondary consumer making Class A products and his production schedule is authorized by the consumer making the allotment, the consumer making the allotment shall apply or extend to such production schedule the same rating as he has received for his own related production schedule for use with the appropriate allotment number, except as otherwise provided in paragraph (h) of this regulation.

(3) Use of ratings received for authorized production schedules. A prime or secondary consumer who has received a preference rating for an authorized production schedule as provided in this paragraph (d) may use said rating, with the appropriate allotment number, only to acquire production materials in the minimum practicable amounts required to fulfill such schedules, or to replace production materials in his inventory, subject to the restrictions of paragraph

(c) (2) of Priorities Regulation 3. He may not use such rating for any other purpose.

(e) No extension of customers' ratings by prime consumers making Class B products. A prime consumer who manufactures Class B products and has received an authorized production schedule for such manufacture, accompanied by a preference rating to be used with his allotment number, shall not extend any other rating received by him from a customer, except that if a delivery to be made by him is rated AAA, he may extend said rating to the extent necessary to obtain production material required to fill his AAA order, but may not extend the same for purposes of replenishing his inventory.

(f) Use of allotment numbers and symbols on delivery orders. (1) Each prime or secondary consumer shall place on each rated delivery order for production materials, required to fulfill his authorized production schedule of Class A or Class B products, his allotment number with the certification provided in paragraph (g) of this regulation.

(2) A person placing a rated order for maintenance, repair or operating supplies under CMP Regulation 5 shall place thereon the allotment symbol MRO with the certification required by said regulation.

(3) A person placing a rated small order for Class A products pursuant to paragraph (1) of CMP Regulation 1 shall place thereon his allotment number and the symbol SO as required by said regulation, with the certification provided in paragraph (g) of this regulation.

(4) A dealer, distributor, jobber or other person who receives a rated order bearing an allotment number or symbol for any material (other than a controlled material) or product, which is not manufactured by him (or which is manufactured by him, but for the manufacture of which he has received no authorized production schedule), may extend the rating, to the extent permitted by Priorities Regulation No. 3, with the same allotment number or symbol, using the form of certification prescribed in paragraph (g) of this regulation. If he places a single rated order to which he extends ratings bearing different allotment numbers or symbols, he shall include a statement indicating all the allotment numbers or symbols extended and the amount of the delivery order (in quantity or dollar value) represented by each. He may, if he prefers, extend the rating without any allotment number or symbol.

(5) No person shall place any allotment number or symbol on any delivery order except as provided in the foregoing provisions of this paragraph (f) or as specifically provided in any other regulation or order of the War Production Board.

(g) Form of certification. Any person when placing an allotment number or symbol on a rated delivery order pursuant to this regulation or CMP Regulation No. 1 shall accompany or endorse the same with a certification in substantially the following form (in lieu of the certification provided in Priorities Regu-

lation No. 3) signed manually or as provided in Priorities Regulation No. 7:

Preference rating ----- Allotment number or symbol ----- The undersigned certifies, subject to the criminal penalties for misrepresentation contained in section 35 (A) of the United States Criminal Code, that he is authorized under CMP Regulation No. 3 to apply or extend the above preference rating and allotment number or symbol to the delivery of the items covered by the attached delivery order.

An allotment number shall consist of the appropriate Claimant Agency letter symbol followed by the major program number (consisting of one digit only as provided in paragraph (c) (6) (ii) of CMP Regulation No. 1). If the order is placed in connection with an allotment of controlled materials by the purchaser to the seller, the two digits denoting the quarter for which the allotment is valid shall be added as provided in said regulation.

(h) Use of existing ratings. (1) A person who has not yet received his allotment and CMP rating for a particular production schedule may apply and extend other preference ratings for such production to the extent permitted by existing Priorities Regulations and Orders (including, in the case of PRP Units, Priorities Regulation 11A regarding transition from PRP to CMP).

(2) Notwithstanding the provisions of paragraph (d) of Priorities Regulation No. 12, regarding compulsory extension of downward reratings, any prime or secondary consumer who receives a rating with an authorized production schedule may, in lieu of using said rating, continue to apply or extend any ratings previously received which he is authorized to use, under existing priorities regulations or orders, for deliveries to be made to him during the second quarter of 1943; and, in authorizing production schedules for his secondary consumers to whom he has already applied or extended a rating previously received by him, he may extend the appropriate allotment number for use with such previously received rating instead of with the rating which he has received under the Controlled Materials Plan.

(i) Construction and facilities. Preference ratings assigned for construction or facilities may be applied or extended in the manner and subject to the restrictions provided in CMP Regulation No. 6.

(j) Effect of preference ratings on deliveries of controlled materials. (1) Authorized controlled material orders placed with controlled materials producers shall be accepted and filled by such producers as provided in CMP Regulation No. 1 without regard to any preference ratings applicable to such delivery orders and in preference to all other delivery orders, except as may be otherwise specifically directed. To the extent that controlled materials producers are able to fill orders other than authorized controlled material orders, they shall fill such orders until July 1, 1943, in accordance with preference ratings as provided in Priorities Regulation 1 and subject to any other applicable regulations or orders of the War Production Board.

(2) Authorized controlled material orders placed pursuant to applicable CMP

Regulations, with persons who are not controlled materials producers, shall be filled by them without regard to any preference ratings applicable to such delivery orders and in preference to all other delivery orders, except as otherwise specifically provided in applicable regulations or orders of the War Production Board, and except that an authorized controlled material order placed with any such person which is rated AAA shall take precedence over other authorized controlled material orders.

(k) *Effect of ratings on conflicting production and delivery schedules for Class A and Class B products.* Manufacturers of Class A and Class B products must comply with the requirements of paragraph (p) of CMP Regulation 1 with respect to the rejection of orders in excess of capacity, and, in the event they are unable to fulfill all orders which they have accepted, they must report for instructions as provided in paragraph (q) of CMP Regulation 1 but until and unless otherwise instructed, they shall fill orders in accordance with preference ratings as provided in Priorities Regulation No. 1 and paragraph (c) of this regulation.

Issued this 14th day of May 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

INTERPRETATION 1

In § 3175.3 the provisions of paragraph (c) of CMP Regulation No. 3 with respect to the superiority of a rating with an allotment number over the same rating without an allotment number are subject to the provisions of Priorities Regulation No. 12 regarding reratings. The receipt of an allotment number against a delivery order previously rated without an allotment number is equivalent to a rerating of the delivery order.

Attention is called specifically to paragraph (1) of Priorities Regulation No. 12 which provides that a rerating takes effect as if the new rating had been applied or extended when the original rating was applied or extended, except that (1) there are restrictions on the diversion of items already completed or scheduled for completion in 15 days and (2) no person is required by reason of a rerating to terminate or interrupt a production schedule within 40 days after receipt of the rerating where such termination or interruption would result in a substantial loss in production. (Issued April 2, 1943.)

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 5 as Amended May 14, 1943]

MAINTENANCE, REPAIR AND OPERATING SUPPLIES

§ 3175.5 *CMP Regulation 5—(a) Purpose and scope.* (1) The purpose of this regulation is to provide a uniform procedure for obtaining maintenance, repair and operating supplies, both in the case of controlled materials obtained

by use of allotment symbols under the Controlled Materials Plan and in the case of materials or products obtained by preference ratings. Persons requiring maintenance, repair and operating supplies, in any form, in such quantities as are available from warehouses or distributors under CMP Regulation No. 4, or at retail without preference ratings or allotments, may obtain the same without using the procedure provided in this regulation, but subject to all applicable limitations in War Production Board regulations and orders.

(2) The provisions of this regulation shall not apply to any governmental agency (other than Claimant Agencies) or to any institution, as the same are defined in paragraphs (b) (1) and (b) (2) of CMP Regulation No. 5A, regardless of whether it is engaged in the production of any product or in any activity or service listed in any schedule attached to this regulation or not. Procedures for the obtaining of maintenance, repair and operating supplies by such governmental agencies and by such persons and institutions are provided under CMP Regulation No. 5A. This regulation is also inapplicable to certain purchases by Claimant Agencies or for export as more fully provided in paragraph (g).

(3) The provisions of this regulation shall be available to those persons in the Dominion of Canada who may, on application by the Department of Munitions and Supply, Ottawa, Canada, be authorized by the War Production Board to operate under it subject to such conditions as may be set out in the authorization. Any person in Canada receiving such authority shall use the following certification instead of any certification prescribed in this regulation, and shall not use the alternative form of certification prescribed in CMP Regulation No. 7:

The undersigned purchaser certifies, subject to the penalties of Section 15 of the Canadian Wartime Industries Control Board Regulations, to the seller, to the Canadian Priorities Officer, and to the War Production Board, that, to the best of his knowledge and belief, the undersigned is authorized, under applicable Canadian Orders and under applicable War Production Board Regulations or Orders, to place this delivery order, to receive the item(s) ordered for the purpose for which ordered, and to use any preference rating or allotment number or symbol which the undersigned has placed on this order.

(b) *Definitions.* The following definitions shall apply for the purpose of this regulation, and for the purpose of any other CMP Regulation unless otherwise indicated:

(1) "Maintenance" means the minimum upkeep necessary to continue a facility in sound working condition, and "repair" means the restoration of a facility to sound working condition when the same has been rendered unsafe or unfit for service by wear and tear, damage, failure of parts or the like: *Pro-*

vided. That neither maintenance nor repair shall include the improvement of any plant, facility or equipment, by replacing material which is still usable, with material of a better kind, quality or design, except as provided in paragraph (b) (3) of this regulation.

(2) "Operating supplies" means any materials or products which are normally carried by a person as operating supplies according to established accounting practice and are not included in his finished product, except that materials included in such product which are normally chargeable to operating expense may be treated as operating supplies. The terms shall also include such items as hand tools, customarily purchased by the particular employer for sale to his employees for use only in his business, in those cases where they would constitute operating supplies under established accounting practice if issued to employees without charge.

(3) Minor capital additions may be obtained under the procedures provided for in this regulation for obtaining maintenance, repair and operating supplies where the cost of the minor capital addition does not exceed \$500 (excluding the purchaser's cost of labor) for any one complete capital addition. The term "one complete capital addition" includes a group of items customarily purchased together and all items which would normally be purchased as part of a single project or plan. No capital addition shall be subdivided for the purpose of coming within this paragraph, and where the capital addition involves construction, authorization to construct must be obtained to the extent required by Conservation Order L-41 or by any other applicable order or regulation of the War Production Board.

(4) Production materials required by a manufacturer for physical incorporation in his products, which products he sells for use as maintenance, repair or operating supplies, may be obtained as provided in CMP Regulation No. 1 and in CMP Regulation No. 3, and such production materials shall not be deemed maintenance, repair or operating supplies, as to such manufacturer.

(c) *Controlled materials—(1) Steel and copper.* Subject to the quantity restrictions contained in paragraph (f) of this regulation, any person engaged in the business of producing any product or conducting any business listed in Schedule I or II, requiring delivery after March 31, 1943, of any controlled material, except aluminum, for maintenance, repair or operating supplies in the conduct of such business, may obtain the same by placing on his delivery order substantially the following certification (or the alternative form of certification provided in CMP Regulation No. 7), signed manually or as provided in Priorities Regulation No. 7:

CMP allotment symbol MRO—(P order No. —)—The undersigned certifies, subject to the criminal penalties for misrepresenta-

tion contained in section 35 (A) of the United States Criminal Code, that the controlled materials covered by this order are required for essential maintenance, repair or operating supplies, to be used for a purpose listed in Schedule I or Schedule II of CMP Regulation No. 5 and that delivery thereof will not result in a violation of the quantity restrictions contained in paragraph (f) of said regulation.

When the person making such certification is covered by any order in the "P" series he shall also show, in the space indicated, the number of such "P" order.

An order bearing such certification shall constitute an authorized controlled material order.

(2) Aluminum. Any person engaged in the business of producing any product or conducting any business listed in Schedule I or II requiring aluminum in any of the forms or shapes constituting a controlled material, for essential maintenance, repair or operating supplies, where the use of other materials for the purpose is impracticable, may obtain the same from a controlled materials producer or from a distributor specifically authorized by the War Production Board to engage in the business of receiving aluminum for sale or resale, in an amount of not to exceed 100 pounds from all sources during any one calendar quarter: *Provided*, That any order placed pursuant to this paragraph (c) (2) shall be accompanied by the following certification (or the alternative form of certification provided in CMP Regulation No. 7), signed manually, or as provided in Priorities Regulation No. 7:

CMP allotment symbol MRO—(P order No. —) —The undersigned certifies, subject to the criminal penalties for misrepresentation contained in section 35 (A) of the United States Criminal Code, that the materials covered by this order are required for essential maintenance, repair or operating supplies, to be used for a purpose listed in Schedule I or II of CMP Regulation No. 5; that the use of other materials for such purpose is impracticable; and that the amount of aluminum covered by this order, together with all other amounts received by, or on order for delivery to the undersigned, from all sources, for such purposes during the same quarter, will not exceed 100 pounds:

When the person making such certification is covered by any order in the "P" series he shall also show, in the space indicated, the number of such "P" order.

Any producer or warehouse receiving an order bearing such certificate shall be entitled to rely thereon and may fill the order, unless he knows or has reason to believe the certificate to be false. An order bearing such certification shall constitute an authorized controlled material order.

(3) Any person engaged in the business of producing any product or conducting any business listed on Schedule I or II, who needs aluminum in any of the forms or shapes constituting a controlled material in amounts aggregating more than 100 pounds from all sources during any one calendar quarter for use as essential maintenance, repair or oper-

ating supplies where the use of other material for such purpose is impracticable, may apply for an allotment of the amount thereof in excess of 100 pounds during any one calendar quarter by letter addressed to the Aluminum and Magnesium Division, War Production Board, Washington, D. C., Ref: MRO. The letter should contain substantially the information called for by subparagraphs (d) (1) to (6) of Supplementary Order M-1-i, as amended March 10, 1943. If the application is granted, the applicant will receive an allotment number or symbol, and may place an authorized controlled material order by endorsing an order with such allotment number or symbol and the certification prescribed in paragraph (s) (3) of CMP Regulation No. 1 or in CMP Regulation No. 7, executed as provided in such regulations.

(d) Preference ratings for maintenance, repair and operating supplies. (1) Subject to the quantity restrictions contained in paragraph (f) of this regulation, orders calling for delivery after March 31, 1943, of maintenance, repair or operating supplies other than controlled materials (regardless of whether such supplies be Class A products, Class B products, or other products or materials) are hereby assigned preference ratings as follows:

(i) AA-1 for maintenance or repair of facilities required for producing any product or conducting any business listed in Schedule I or for necessary operating supplies for such production or business;

(ii) AA-2 for maintenance or repair of facilities required for producing any product or conducting any business listed in Schedule II or for necessary operating supplies for such production or business; and

(iii) AA-5 for necessary maintenance or repair of facilities required for producing any product or conducting any business not listed in Schedule I or Schedule II or for necessary operating supplies for any such purpose.

(2) A preference rating assigned under this paragraph (d) shall be applied only by use of the following certification (or the alternative form of certification provided in CMP Regulation No. 7), signed manually or as provided in Priorities Regulation No. 7:

Preference rating ----- (specify rating)—MRO. The undersigned certifies, subject to the criminal penalties for misrepresentation contained in section 35 (A) of the United States Criminal Code, that the items covered by this order are required for essential maintenance repair or operating supplies; that this order is rated and placed in compliance with CMP Regulation No. 5; and that the delivery requested will not result in a violation of the quantity restrictions contained in paragraph (f) of said regulation.

(3) A delivery order bearing the above certification shall have the status of a delivery order bearing a preference rating with an allotment symbol as provided in CMP Regulation No. 3. A person

with whom a delivery order is placed bearing a preference rating assigned by this regulation may, subject to the limitations contained in CMP Regulations Nos. 1 and 2, extend the rating in the manner provided in CMP Regulation No. 3 (using the endorsement therein specified or the alternative form of certification provided in CMP Regulation No. 7).

(e) Plants engaged in several activities. If a single plant or operating unit is engaged in several activities which are not all listed on the same schedule (or if some are so listed and others are unlisted), and it is impracticable to apportion requirements for maintenance, repair and operating supplies between such activities, the principal activity alone shall be considered for purposes of determining whether controlled materials may be obtained under paragraph (c) of this regulation and also for determining which preference ratings may be applied under paragraph (d).

(f) Quantity restrictions. (1) No person who uses the allotment symbol or preference ratings assigned by this regulation to obtain any maintenance, repair or operating supplies shall order for delivery during any calendar quarter maintenance, repair or operating supplies in an aggregate amount exceeding one-fourth of his aggregate expenditures for maintenance, repair and operating supplies during the calendar year 1942 (or his fiscal year ending nearest to December 31, 1942), except that a person engaged in a seasonal business may use such allotment symbol or preference ratings to order for delivery during any calendar quarter, up to, but not in excess of, his aggregate expenditures for maintenance, repair and operating supplies during the corresponding quarter of 1942 (or of such fiscal year). In neither case, however, shall any person use such allotment symbol or preference ratings to obtain maintenance, repair and operating supplies during the 12 months ending March 31, 1944, in an amount exceeding his aggregate expenditures for maintenance, repair and operating supplies during the calendar year 1942 (or such fiscal year). In determining the dollar amount of expenditures for maintenance, repair and operating supplies permitted under this paragraph (f) there shall be included not only expenditures for supplies obtained by use of the allotment symbol or preference ratings hereby assigned, but also expenditures for supplies which are obtained without the use of such symbol or rating plus amounts expended in acquiring minor capital additions under paragraph (b) (3) of this regulation. Expenditures during the base period shall be computed in the same way, except that amounts expended in acquiring minor capital additions during the base period shall not be included.

(2) A person who has several plants or other operating units which maintain separate records of maintenance, repair and operating supplies shall treat each

of them separately for purposes of complying with the provisions of subparagraph (1) of this paragraph (f).

(3) In the case of a plant or other operating unit which was not in operation during the base period specified in subparagraph (1) of this paragraph (f), the person operating the same may take, as a base, his expenditures for maintenance, repair and operating supplies during the first quarter of 1943, or during the portion thereof when the plant or unit was in operation, reasonably adjusted for seasonal or other variable factors; Provided, That he first notifies the War Production Board in writing of the base which he is taking, the reasons therefor, and the nature of any adjustments made. In the case of a plant starting operations after February 28, 1943, maintenance, repair and operating supplies may be acquired pursuant to this regulation in the minimum amounts necessary for operation, without other restrictions, up to \$5,000 per quarter. If more than this amount is required, application should be made to the War Production Board for a specific quota. In any case where the base provided in subparagraph (1) or by this subparagraph (3) is deemed too low for necessary operations, application may be made for modification thereof by filing a letter in triplicate with the War Production Board stating the relevant facts.

(4) The restrictions contained in this paragraph (f) shall apply in addition to any quantitative restrictions contained in any order in the "P" series, unless the particular P order expressly provides that the restrictions of this regulation shall be inapplicable.

(5) The quantity restrictions in this paragraph (f) shall not apply to persons whose aggregate requirements of maintenance, repair and operating supplies do not exceed \$5,000 per year.

(6) The War Production Board may, by further regulations or orders, require specified persons or classes of persons to file applications or reports regarding their requirements of maintenance, repair and operating supplies and may prescribe specific quantitative limits for the same, either larger or smaller than the limits provided above in this paragraph (f).

NOTE: Paragraph (6) redesignated May 14, 1943.

(g) Special provisions for Claimant Agencies, exports and ship repairs. Maintenance, repair and operating supplies, required either by a Claimant Agency (including any plant or establishment owned and operated by a Claimant Agency) or for export, as regular procurement items covered by specific programs, and material required for ship repairs programmed by the Maritime Commission, shall not be obtained under this regulation, but, if they are controlled materials or Class A products, shall be obtained only by the use of allotments in the same manner as production materials under CMP Regula-

tion No. 1, and, if they are other materials or products, shall be obtained only by such preference ratings as may be specifically assigned for the purpose Provided, however, That the United States Army and Navy may use the procedures provided in this regulation to obtain maintenance, repair and operating supplies for plants owned and operated by them to the extent that such plants are engaged in the production of any product or in any activity listed in Schedules I or II attached.

(g-1) Special provisions relating to use of MRO symbol and preference ratings. (1) Any person (such as a service repair shop) engaged in the business of doing maintenance or repair work for others may use the same allotment symbol and preference rating to obtain materials needed in the performance of the work which his customer would be entitled to use if the customer did the work himself. The cost of materials used in the performance of maintenance or repair work shall be treated as expenditures of the customer for the purpose of computing his quantity restrictions under paragraph (f). A person engaged in such business may, instead, request an allotment of controlled materials and a preference rating by applying to the War Production Board on Form CMP-4B, but, if he does so, he must use that method exclusively and may not use a customer's rating or symbol.

(2) A landlord may use his tenant's allotment symbol and rating to obtain maintenance, repair and operating supplies (including controlled materials) for the leased property if the tenant is engaged in the production of a product or in a business listed in Schedule I or II; but if the same property is occupied by several tenants and the supplies are not for the exclusive benefit of a single tenant the landlord may only use a tenant's rating if 75 percent or more of the leased property is leased to tenants on Schedule I or II and, in such case, if any are on Schedule II, he can only use the AA-2 rating.

(h) Penalties for misrepresentation or diversion. (1) The placing of any order bearing a certification or symbol as provided by this regulation shall constitute a representation, subject to the criminal penalties of section 35 (A) of the United States Criminal Code (18 U. S. C. 80), that the person placing the order is entitled, under the terms of this regulation to use of the symbol or preference rating indicated thereon.

(2) No person shall use for any purpose other than essential maintenance,

repair or operations, any supplies obtained pursuant to this regulation, or use any supplies obtained under a preference rating assigned by this regulation for a purpose to which a lower rating, or no rating, is assigned. Any such use shall constitute a crime punishable by fine or imprisonment or both. Physical segregation of inventories is not required, provided the restrictions applicable to any specific lot of material or product are observed with respect to an equivalent amount of the same material or product.

(i) Inventory restrictions. Nothing in this regulation shall be deemed to authorize any person to receive any delivery of maintenance, repair or operating supplies if acceptance thereof would increase his inventory above a practicable working minimum as provided in § 944.14 of Priorities Regulation No. 1 or would exceed the inventory limitations prescribed for such person by CMP Regulation No. 2, or by any other applicable regulation or order of the War Production Board.

(j) Additional assistance in individual cases. Any person requiring maintenance, repair or operating supplies who is unable to obtain them with the rating assigned to him by this regulation, and any person requiring any controlled material, except aluminum, for maintenance, repair or operating supplies who is not listed in Schedule I or II and who is unable to obtain it from a warehouse or distributor under CMP Regulation No. 4 may apply to the nearest local office of War Production Board on Form PD-1A for a higher rating, or the right to use the MRO symbol to obtain controlled materials, other than aluminum. Application for an increase in the quantity of expenditures for maintenance, repair and operating supplies permitted by paragraph (f) of this regulation shall, however, be filed in the manner specified in subparagraph (3) of paragraph (f).

(k) Effect on other orders and procedures. (1) The preference ratings assigned by this regulation shall supersede the preference ratings assigned by all orders in the "P" series for maintenance, repair and operating supplies with respect to materials or products to be delivered after March 31, 1943, except as may be otherwise provided by amendments of such orders specifically providing to the contrary.

(2) Subject to paragraph (k) (1) of this regulation all of the terms, provisions and restrictions contained in all orders in the "P" series including definitions, requirements for making applications and filing reports, and other restrictions, except as otherwise provided in paragraph (f) (4) of this regulation, shall, subject to the inventory restrictions of CMP Regulation No. 2, remain in full force and effect until modified or revoked.

(3) In addition, each person who, in accordance with existing priorities procedures not covered by "P" orders, is

required to file applications or reports with respect to his requirements for, or use of, maintenance, repair or operating supplies, or is limited in the amount of such supplies which he is permitted to acquire or use, shall continue to comply with such procedures until the same are modified or revoked.

(4) When an order in the E, L or M series assigns a specific preference rating to deliveries of any particular material to be used by a particular industry or for a specific purpose, such preference rating shall control and the preference ratings, hereby assigned may not be applied. For example, Order M-41 assigns a rating of A-10 to deliveries of chlorinated hydrocarbon solvents for use in the fumigation of stored products, including grain. A person who needs a chlorinated hydrocarbon solvent for such purpose may apply a rating of A-10 to its delivery and must not apply a rating assigned by this regulation.

(5) Nothing in this regulation shall be construed to relieve any person from complying with any applicable priorities regulation or order of the War Production Board (including orders in the "E," "L" and "M" series) or with any order of any other competent authority.

NOTE: Paragraph (5) redesignated May 14, 1943.

(l) *Industry reclassification.* Any person who is of the opinion that the business activity in which he is engaged should be listed in Schedule I, if it is listed in Schedule II, or should be listed in either Schedule I or Schedule II, if it is not listed in either of such schedules, may apply to have such activity so listed by filing a letter, in triplicate, with the appropriate Industry Division setting forth the relevant facts and the reasons why he considers such request should be granted.

The War Production Board may cause such activity to be listed in one of the schedules attached to this regulation or, in special cases, may permit the applicant to operate under this regulation to the same extent as though his business activity were included in one of such schedules.

(m) *Records.* Each person acquiring maintenance, repair or operating supplies pursuant to this regulation shall keep and preserve, for a period of not less than two years, accurate and complete records of all such supplies so acquired, and used, which shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(n) *Communications.* All communications concerning this regulation should be addressed to: War Production Board, Washington, D. C., Ref: CMP Regulation No. 5.

(o) *Restriction on use of ratings.* The preference ratings and allotment symbol assigned by this regulation shall not

be applied or extended to deliveries of any of the items appearing on List A attached regardless of whether or not such items are required for maintenance, repair or operating supplies. A preference rating assigned by this regulation applied or extended to the delivery of any such item shall have no effect regardless of when applied or extended.

Issued this 14th day of May 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

INTERPRETATION 1

NOTE: Note revision in items 2, 3, 5 and 6f effected by the amendment of May 14, 1943.

Office supplies are not included in List A of CMP Regulation No. 5 and consequently the procedures provided by the regulation may be used to obtain such supplies provided they do not come within the following categories which are specifically mentioned in List A:

Item

2. Printed matter and stationery. This refers only to printed matter and items such as letterheads, envelopes and forms.
 3. Paper, paperboard, and products manufactured therefrom; molded pulp products.
 5. Office machinery or office equipment.
- Safety shoes are included in List A of the regulation and consequently the procedures provided by the regulation may not be used to obtain them. Safety shoes are not included among the items constituting exceptions to item 6 of the list. (Issued April 5, 1943.)

INTERPRETATION 2

NOTE: Compare paragraph (g-1) added by the amendment of May 14, 1943.

A person who is permitted to get controlled materials under paragraph (c) (1) of CMP Regulation No. 5 for maintenance, repair and operating supplies is not entitled to use the MRO symbol for purposes of allotting controlled materials to others. For example, a manufacturer of a product listed in Schedule I or Schedule II of the regulation requires a spring as a repair part. He may use the MRO symbol to place an authorized controlled material order for steel which he will fabricate into the spring which he requires, but if he buys the spring from a spring manufacturer, he may not make an allotment with the MRO symbol to the spring manufacturer. The spring manufacturer receives his allotment direct from the War Production Board as provided in paragraph (k-1) of CMP Regulation No. 1. (Issued April 20, 1943.)

INTERPRETATION 3

NOTE: Note that spools and reels are specifically excluded from item 1 of List A by the amendment of May 14, 1943.

Reels required for shipment or delivery of products are not included within the term

"fabricated containers" on List A of CMP Regulation No. 5, and consequently the procedures provided by the regulation may be used to obtain them. (Issued April 22, 1943.)

INTERPRETATION 4

(a) Materials required for the manufacture of containers (in knock down or set up form) constitute production materials and consequently cannot be obtained under CMP Regulation No. 5.

(b) This is true, regardless of whether the manufacturer makes containers for sale to others or, in a captive plant or separate department, for packaging his own product for shipment or delivery.

(c) On the other hand, materials, other than fabricated containers, required for packaging a product for shipment or delivery may be acquired by the manufacturer of the product under CMP Regulation No. 5 where the manufacturer of the product does not maintain a captive plant or a separate department whose operations are substantially similar to those of a container manufacturer.

(d) For example, a manufacturer who maintains a department in which he manufactures wooden boxes for the packaging of his product for shipment or delivery, cannot obtain materials required to produce such boxes under CMP Regulation No. 5. On the other hand, a manufacturer who crates his product for shipment but who does not maintain a separate department operating on a basis substantially similar to the operations of a manufacturer making crates or shooks, may obtain the lumber, nails, etc., required in preparing his product for shipment, under CMP Regulation No. 5. Issued May 7, 1943.

PART 1305—ADMINISTRATION

[Supp. Order 48]

ACCOMMODATION SALES OF INDUSTRIAL MATERIALS

A statement to accompany this Supplementary Order No. 48 has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

For the reasons set forth in that statement and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, *It is hereby ordered, That:*

§ 1305.63 *Accommodation sales of industrial materials.* (a) Notwithstanding the provisions of any price regulation, accommodation sales of industrial materials and deliveries pursuant to accommodation sales of industrial materials shall be exempt from any price regu-

lation other than this Supplementary Order No. 48.

(b) No sale of industrial material shall be considered to be an accommodation sale unless all of the following conditions are satisfied:

(1) The material sold must be of a kind or in a form not normally sold by the seller in the ordinary and regular course of his business.

(2) The seller must have acquired or produced the material for the purpose of use, and not for the purpose of sale by him in substantially the form in which it was acquired or produced.

(3) The material must be sold out of stocks which constitute no more than a minimum practicable inventory, so that, but for the sale, the seller would have, in due course, used the material in his own authorized or scheduled operations. Prompt replacement of the material sold shall be satisfactory evidence that the sale was made out of a minimum practicable inventory; but if the material is not replaced, compliance with this condition may be shown by other evidence.

(4) The buyer must furnish to the seller, at or before delivery, a written certificate stating that he has been unable to acquire the material from his regular sources of supply within the time necessary to meet his requirements.

(5) The sale must be made for the benefit and convenience of the buyer, entirely without profit, and not for the purpose of promoting trade. If the sale is made entirely without profit, and pursuant to a request or direction from the War Production Board that it be made for the accommodation of the buyer, this condition shall be deemed to have been satisfied; but if the request or direction of the War Production Board is not obtained, compliance with this condition may be shown by other evidence.

(c) As used in this Supplementary Order No. 48:

(1) "Price regulation" means a price schedule effective in accordance with the provisions of section 206 of the Emergency Price Control Act of 1942, as amended, a maximum price regulation or temporary maximum price regulation heretofore or hereafter issued, including Maximum Price Regulation No. 204, or any amendment or supplement thereto or order thereunder heretofore or hereafter issued.

(2) "Industrial materials" means any commodity except:

(i) Food, drugs or other commodities intended for internal human consumption.

(ii) Any other agricultural commodity including tobacco and tobacco products.

(iii) Textiles, leather or products fabricated therefrom.

(iv) Any other commodity of a kind or in a form which is normally sold at retail for direct use by the purchaser thereof.

(d) This Supplementary Order No. 48 shall become effective May 19, 1943.

PART 1312—LUMBER AND LUMBER PRODUCTS

[MPR 348,¹ Amendment 3]

LOGS AND BOLTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 348 is amended in the following respects:

1. Section 4 (d) is amended to read as follows:

(d) *Time limit.* The things required in this section must be done before April 23, 1943, except that in the case of the posting and advertising required by paragraphs (a) and (b), plants which filed petitions under section 9 or letters of intention, need not comply with that requirement until the expiration of the suspension period provided in that section. In any case, however, the maximum prices must be filed as required by paragraph (c) above.

2. Section 9 (e) is amended by the inclusion of the following additional paragraph:

The suspension periods provided under this paragraph may be extended by the Lumber Branch, Office of Price Administration, on a showing that a petition is being prepared but that forty-five days is not sufficient time within which to complete the petition. Applications for such extensions may be filed by any plant which has filed a letter of intention to file a petition and must list the names of the other mills with which it is joining in the proposed petition and must indicate the particular area. The Lumber Branch may grant or deny the request for extension either by letter or telegram, and can, on its own motion, extend the suspension period in any case in which it appears that administrative action cannot be completed before the expiration of the suspension period.

PART 1346—BUILDING MATERIALS

[MPR 272,¹ Amendment 2]

CAST-IRON BOILERS AND CAST-IRON RADIATION

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 272 is amended in the following respects:

1. Section 1346.264(a) (9) is added to read as follows:

(9) "Purchaser's designated job site" means the site designated by the purchaser at which the cast-iron boilers or cast-iron radiation are to be installed.

2. Section 1346.268(a) (2) is amended to read as follows:

(2) *Transportation and delivery charges.*—(i) *General provisions.* The maximum prices for sales by manufacturers, calculated in accordance with subparagraph (1) above, are prices at the point of delivery, except as provided below. If shipment is by rail, water, or by rail and water, the point of delivery is the railroad siding or unloading dock nearest the point designated by the purchaser. In the case of shipment by common or contract motor carrier, the point of delivery is the point designated by the purchaser. If the purchaser picks up his purchase at the manufacturer's warehouse, the warehouse platform shall be the point of delivery.

(a) *Shipments of 200 pounds or more from point of manufacture.* On shipments of 200 pounds or more, the manufacturer shall bear all actual transportation charges from the point of manufacture to the delivery point up to but not exceeding an amount computed on the basis of the minimum railroad carload freight rate to the nearest point for which a carload freight rate is published, regardless of the type of carrier used. Freight charges above that amount or additional charges for moving shipments from the delivery point to the purchaser's designated job site may be passed on to and collected from the purchaser in accordance with the following rules:

¹ 7 F.R. 9486, 9972, 10618.

(1) If, on October 1, 1941, it was the practice of a manufacturer to move shipments from the delivery point to the job site for certain classes of purchasers free, he must continue to move such shipments for such classes of purchasers without charge.

(2) However, if, on October 1, 1941, the manufacturer made a charge for shipments from the delivery point to the job site for certain classes of purchasers, the manufacturer may now make a charge for such deliveries to such classes of purchasers at not more than the rates which were in effect on October 1, 1941.

(3) Any charges made in accordance with this subsection (a) must be shown as a separate item on the purchaser's invoice.

(b) *Shipments of less than 200 pounds from point of manufacture.* On shipments of less than 200 pounds the manufacturer need not absorb any transportation charges. He may pass on to and collect from the purchaser all transportation charges from the point of manufacture to the delivery point or to the purchaser's designated job site, regardless of the type of carrier used.

(c) *Delivery charges from manufacturer's warehouse to the purchaser's designated job site.* If it was the practice of the manufacturer to make a delivery charge on less than carload shipments for delivery from his warehouse to the purchaser's designated job site, the manufacturer may continue such practice in accordance with the following rules:

(1) If, on October 1, 1941, it was the practice of a manufacturer to move shipments from his warehouse to the purchaser's designated job site for certain classes of purchasers free, he must continue to make such shipments for such classes of purchasers without charge.

(2) However, if, on October 1, 1941, the manufacturer made a charge for shipments from his warehouse to the purchaser's designated job site for certain classes of purchasers, the manufacturer may now make a charge for such deliveries to such classes of purchasers at not more than the rates which were in effect on October 1, 1941.

(3) Any charges made in accordance with this subsection (c) must be shown as a separate item on the purchaser's invoice.

3. Section 1346.258 (a) (2a) is added to read as follows:

(2a) *Warehouse handling charges from designated manufacturers' warehouses.* When shipments are made from or deliveries are made at the manufacturer's warehouse located at the points below, the maximum price as calculated in accordance with subparagraph (1) above, of such designated manufacturer, may be increased by the applicable handling charges set forth in Table II below, provided such charges are shown on the invoices as a separate item. Manufacturers other than those designated below are not permitted to add such charges to the maximum price; nor are manufacturers listed permitted to make such charges except from the warehouse designated.

issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 317 is amended in the following respects:

1. Section 1346.351 (f) is amended to read as follows:

(f) *General Maximum Price Regulation applicable.* The provisions of the General Maximum Price Regulation continue to be in effect with respect to sales of locks and lock sets by retailers, sales of such products at retail, whether or not made by a retailer, and sales which are not subject to this Maximum Price Regulation No. 317 or Revised Price Schedule No. 40, either because the locks or lock sets in question are not subject to one of these regulations or because this person making the sale is not subject to this regulation or Revised Price Schedule No. 40.

2. Section 1346.352 (a) (7) is amended to read as follows:

(7) "Sale at retail" means a sale by any person to an ultimate consumer. The term "ultimate consumer" includes an industrial or commercial user but does not include the United States Government or any agency thereof.

A statement of the considerations involved in the issuance of this Amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 1351.805a is amended to read as follows:

sold at wholesale other than in glass or paper containers to stores, hotels, restaurants and institutions, after butterfat content is reduced to comply with Conservation Order No. M-259,² issued by the War Production Board on November 25, 1942. (a) After the butterfat content of fluid cream sold at wholesale other than in glass or paper containers to stores, hotels, restaurants and institutions is reduced to not less than 19%, the seller's maximum price for such fluid cream shall be the adjusted maximum price as determined under Pricing Method No. 1 in subparagraph (1), or Pricing Method No. 2 in subparagraph (2) hereinbelow, whichever is higher:

(1) *Pricing Method No. 1.* (i) The seller shall reduce his established maximum price for any unit size, as determined under §§ 1351.803, 1351.804, and 1351.805 hereof, proportionately on the basis of 5¢ per gallon for each one percent that the butterfat content is reduced.

Any final calculation of a maximum price for any unit size resulting in a fraction of a cent shall be adjusted to the nearest half cent.

(b) If the seller has established maximum prices, as determined by §§ 1351.803, 1351.804, and 1351.805 hereof, for sales and deliveries of fluid cream having different percentages of butterfat content, his adjusted maximum price shall be determined according to the pricing formula applicable to the class of cream yielding the lowest maximum price.

(iv) *Records and reports.* On or before January 11, 1943, each seller of fluid cream affected by the provisions of this subparagraph (1) shall prepare, on the basis of available information and records, and file with the nearest District or State Office of the Office of Price Administration a report showing:

If the butterfat content was more than 40%, the seller must deduct proportionately for any unit size 5¢ per gallon for each 1% over 23% of butterfat content prior to reduction.

(b) Where the butterfat content remains unchanged the seller shall adjust the highest price he charged during March 1942 for fluid cream with butterfat content of 19% or over for any unit size, proportionately, by adding 20¢ per gallon to said March price.

(ii) The seller shall not add to the price determined under this subparagraph (2) the addition allowed sellers under § 1351.805 hereof.

(iii) *Calculations.* (a) The foregoing pricing formulas apply to sales and deliveries of fluid cream at wholesale other than in paper or glass containers to stores, hotels, restaurants and institutions, in any unit size, whether more or less than one gallon, on a proportionate basis. All calculations shall be carried to the fourth decimal place of a cent. Any final calculation of a maximum price for any unit size resulting in a fraction

of a cent shall be adjusted to the nearest half cent.

(b) If the seller had established prices in March 1942, for fluid cream having different percentages of butterfat content, his adjusted maximum price shall be determined according to the method applicable to the fluid cream which, prior to reduction, had a butterfat content nearest to 23%. If two methods are equally applicable, the seller's adjusted maximum price shall be determined by the one resulting in a lower price.

(iv) *Records and reports.* On or before 30 days after any seller of fluid cream makes a sale and delivery under Pricing Method No. 2 he shall prepare on the basis of available information and records, and file with the nearest District or State Office of the Office of Price Administration a report showing:

(a) His adjusted maximum prices for fluid cream in each size and type of container; and

(b) The basis for the adjusted maximum prices including (1) the highest prices charged in March 1942 to a purchaser of the same class for fluid cream in each size and type of container, and the butterfat content thereof, (2) the present butterfat content of such cream for each size and type of container, and (3) the seller's maximum established price as determined under subparagraph (1) hereinabove (Pricing Method No. 1).

(v) *Notice to stores, hotels, restaurants and institutions.* Each seller at wholesale of fluid cream other than in glass or paper containers shall calculate his increase to purchasers under this subparagraph (2). On or before the first delivery made after the seller has adopted Pricing Method No. 2, such seller shall mail or otherwise deliver to purchasers of fluid cream from him, written notices of the increase to purchasers under Pricing Method No. 2.

(3) *Change in pricing method.* (i) Any seller of fluid cream who, after having made sales and deliveries under Pricing Method No. 2, makes sales and deliveries under Pricing Method No. 1.

(a) Shall within 30 days after making a sale or delivery under Pricing Method No. 1, prepare on the basis of available information and records, and file with the nearest District or State office of the Office of Price Administration a report giving the information required under § 1351.805 (a) (1) (iv) hereof; and

(b) Shall calculate the increase to purchasers under Pricing Method No. 1, and on or before the first delivery made after the seller has adopted Pricing Method No. 1, shall mail or otherwise deliver to purchasers of fluid cream from him, written notices of the increase to purchasers under Pricing Method No. 1.

This Amendment No. 22 shall become effective May 19, 1943.

enumerated below shall be determined as follows:

(1) The wholesaler shall find his "landed cost" for the item he is pricing by adding the amounts permitted in paragraph (b) below.

(i) The wholesaler will then add to this landed cost an amount not more than the applicable markup set forth in Schedule 1 hereof for the item he is pricing.

(ii) If the item he is pricing is not contained in Schedule 1 hereof, the wholesaler shall then calculate his maximum price by dividing his landed cost by the division factor in Schedule 2 hereof for the item he is pricing.

(2) In appropriate cases where special service is rendered, he may make application to the Office of Price Administration, Hawaii Territorial Office, for an additional margin based upon the cost of the service, and the Territorial Director for the Territory of Hawaii may approve such additional margin.

(b) Landed cost. (1) In the case of purchases other than purchases from the Federal Surplus Commodities Corporation, "landed cost" is an amount not in excess of the sum of the amounts set forth in subdivisions (i) through (vi) of this paragraph. If any of the items specified in any subdivision below has already been included in another subdivision below, it may not again be added.

(i) An amount equal to the price which the wholesaler agreed to pay the mainland seller before deducting any cash discount, swell allowance or promotional allowance.

(ii) An amount equal to the transportation charges, if any, actually incurred by the wholesaler for transportation from the mainland point at which the wholesaler received delivery to the mainland port of shipment, including Federal transportation tax, terminal charges, and extra charges for shipment of less than carload lots.

(iii) An amount equal to mainland storage charges and insurance in connection therewith actually incurred by the wholesaler, but charges for storage and insurance in connection therewith in excess of six months shall not be included.

(iv) An amount equal to cartage charges actually incurred by the wholesaler for cartage from warehouse to dock in port of shipment.

(v) An amount equal to charges for ocean freight, war risk and marine insurance actually incurred by the wholesaler; and there may be included in this amount Territorial tolls and tonnage tax as shown on the bill of lading. However, the amount by which any cost of war risk insurance exceeds the rates charged by the War Shipping Administration shall not be included.

(vi) An amount equal to cartage charges in Honolulu from dock to warehouse computed at a rate not in excess of \$1.20 per ton: Provided, That the commodity is moved from the dock at the wholesaler's expense. The wholesaler may, at his option, determine the ton-

2. Section 41 Table XXVIII is added to read as follows:

SEC. 41 Table XXVIII: Maximum prices in the Island of Oahu for certain food products and certain other commodities imported from the continental United States. (a) Notwithstanding those provisions of this Maximum Price Regulation No. 373 heretofore issued, the maximum price at wholesale for each item (that is, for each kind, brand, grade and container size) of the food commodities and certain other commodities

nage on either a weight or measurement basis.

(2) In the case of purchases from the Federal Surplus Commodities Corporation or purchases from mainland sellers where the price to be paid such seller includes delivery to the dock in the Territory of Hawaii, "landed cost" is an amount equal to the net price paid plus an amount for cartage from the Federal Surplus Commodities Corporation warehouse or the dock to the wholesaler's warehouse computed at a rate not in excess of \$1.20 per ton. The wholesaler may, at his option, determine the tonnage on either a weight or measurement basis.

(3) If an identical item (that is, the same kind, brand, grade and container size) in the wholesaler's inventory on hand has two or more different landed costs, then the landed cost for the item may, at his option, be determined by calculating a weighted average landed cost for the entire inventory of that item on hand. Weighted average landed cost shall be calculated as follows: Each different landed cost shall be multiplied by the number of units having such landed cost. The products of such multiplication shall be added and the sum thereof divided by the total number of the units for which a weighted average landed cost is desired. The quotient or result of such division is the weighted average landed cost.

(c) These maximum prices contemplate distribution by only one wholesaler on the Island of Oahu. In the event that in the course of distribution of any commodity covered by this regulation after arrival in Honolulu, such commodity moves through the hands of more than one wholesaler, then the wholesalers shall distribute between them the margins set forth herein. In such event the primary wholesaler making the importations shall furnish the wholesaler purchasing from him a statement of the landed cost determined in accordance with this section.

(d) No extra charge may be added for delivery on the Island of Oahu.

(e) In the case of a sale to a buyer who does not have a gross income tax license, the seller may add to the maximum price one and one-quarter percent (1 1/4%) of it.

(f) Any maximum price calculated under this regulation shall be based on the wholesaler's customary unit of sale (that is, per case, per box, per bag, per dozen or the like). All such calculations resulting in a fraction of a cent shall be reduced to the nearest lower cent if the fraction is less than one-half cent, and shall be increased to the nearest higher cent if the fraction is one-half cent or more.

(g) *Reports.* Every person making the kind of sales covered by this Table XXVIII shall make and file with the Office of Price Administration, Hawaii Territorial Office, the following reports:

(1) Any reports that the Office of Price Administration may from time to time require.

(2) Whenever a sale is made at a price in excess of or less than the "notification prices" set forth in Schedule 1, such sales shall be reported to the Office of Price Administration, Hawaii Territorial Office on Grocery Form 1 annexed hereto and made a part hereof.

(3) Every person making sales of commodities covered by this Table XXVIII shall report to the Office of Price Administration, Hawaii Territorial Office, on Grocery Form 2 annexed hereto and made a part hereof all sales made by him of any such commodity where the maximum price for such sale has been established by the provisions of Schedule 2, hereof, and where such maximum price is higher or lower than the seller's previous maximum price for that commodity.

(4) Every person making sales of commodities covered by this Table XXVIII shall make and file with the Office of Price Administration, Hawaii Territorial Office, once each calendar month, a statement showing his net profit, or estimate thereof, for such calendar month.

Article I—General Provisions

SECTION 1 What this regulation does. This regulation fixes dollar-and-cents ceiling prices on all retail sales of kosher beef, veal, lamb and mutton cuts made on and after May 17, 1943. You shall not sell any retail kosher beef, veal, lamb or mutton cut at a price higher than the ceiling price for the corresponding non-kosher retail cut or at the ceiling price fixed in this regulation, unless you maintain a store at or through which you regularly and generally sell kosher meat as such.

Kosher meat means any retail cut derived from livestock slaughtered, approved and stamped as kosher under rabbinical supervision, and sold after preparation according to Jewish dietary law. The only retail kosher beef, veal, lamb and mutton cuts which may be sold are those described in section 16 of this regulation. The United States is divided into 10 zones. Different ceiling prices are fixed for sales made in each zone and for sale of different grades. Your ceiling prices depend on the zone where your store is, and the grade of the meat you are selling. A store includes any place where kosher beef, veal, lamb and mutton cuts are sold at retail.

Sec. 2 Your ceiling prices. (a) You will find your ceiling prices for each grade of kosher beef, veal, lamb and mutton cuts on your "O.P.A. List of Retail Ceiling Prices of Kosher Beef, Veal, Lamb and Mutton—Fresh, Frozen, Cured" (Article II, section 19). A copy of the list

for each kind of meat for your zone may be obtained from your local War Price and Rationing Board or from your local O.P.A. office.

(b) *Your zone.* You can find out from your local War Price and Rationing Board or your O.P.A. office what zone your store is in. After each list of prices in section 19, Article II, there is a description of the zone in which that list of prices applies.

Sec. 3 When the new ceiling prices take effect. On May 17, 1943, the dollar-and-cents ceiling prices fixed by this regulation take the place of all previous ceiling prices fixed by the Office of Price Administration upon retail sales of kosher beef, veal, lamb and mutton cuts. On and after May 17, 1943, you must not sell any cut other than described in this regulation and you must not sell such cut at a price higher than the ceiling price fixed for the grade by this regulation.

Sec. 4 What beef, veal, lamb or mutton cuts you may sell. On and after May 17, 1943, the only kosher beef, veal, lamb and mutton items you may sell are (1) those kosher cuts, fresh, frozen or cured, which are described and given dollar-and-cents ceiling prices under this regulation and (2) the following products for which your ceiling prices are to remain as fixed under the General Maximum Price Regulation, namely, sausage, certain processed meat, canned meat, and variety meats (including brains, liver, tongues, and hearts).

Sec. 5 Sales to eating places. Your ceiling prices for sales to hotels, restaurants, institutions, and other eating places selling or furnishing kosher meals are the ceiling prices fixed by Revised Maximum Price Regulation No. 169 for kosher beef and veal, and Revised Maximum Price Regulation No. 239, for kosher lamb and mutton. Nevertheless, you may, during any month, use the ceiling prices fixed by this regulation in selling to eating places which serve kosher meals if 80% or more of your total sales of kosher meat during the previous calendar month were retail sales to consumers, that is, to persons who buy the kosher meat to be eaten by themselves or their families off your premises.

Sec. 6 Kosher beef, veal, lamb and mutton must be graded and marked. (a) All wholesale cuts of kosher beef, veal, lamb and mutton must be graded and must have a mark showing the grade on them. The grades, and the mark for each grade, are these:

Beef, veal and lamb grades	Grade mark	Grade mark, when graded by an official grader of the U. S. Dept. of Agriculture
Choice.....	AA	U. S. choice or choice.
Good.....	A	U. S. good or good.
Commercial.....	B	U. S. commercial or commercial.
Utility.....	C	U. S. utility or utility. U. S. cull or cull (lamb).
Cutter and canner.....	D	U. S. cutter or cutter (beef). U. S. canner or canner (beef). U. S. cull or cull (veal).
MUTTON GRADES		
Good.....	S	U. S. choice or choice. U. S. good or good.
Commercial.....	M	U. S. commercial or commercial.
Utility.....	R	U. S. utility or utility. U. S. cull or cull.

You may not have in your store, refrigerator or cooler any meat which does not have the grade name or mark stamped on each wholesale cut.

(b) If you slaughter the animal yourself, you must have it graded and marked before you break the carcass. You must follow the rules for grading which are in Revised Maximum Price Regulation No. 169, § 1364.411, for beef and veal, and Revised Maximum Price Regulation No. 239, § 1364.167, for lamb and mutton. These rules may be obtained from your local O. P. A. office.

(c) You must leave the grade mark on retail cuts, and you must not put different grades of meat together in your showcase.

Sec. 7 How you make retail cuts. Section 19 of this regulation describes the different cuts of beef, veal, lamb and mutton which you may sell, and how they are to be cut. If you buy a quarter or combination cut of meat, you must first cut it into the standard O. P. A. kosher wholesale cuts described in section 19 before you make the kosher retail cuts. If you buy live animals and have them slaughtered for you, you must first break the carcass into the standard wholesale cuts, and the person who slaughters for you must comply with the rules set for custom slaughterers by the wholesale beef and veal regulation, § 1364.401 (c).

Sec. 8 Post your ceiling prices. Not later than June 15, 1943, you must post at your store your "O. P. A. List of Retail Ceiling Prices for Kosher Meat". You may use an exact copy of the OPA List as long as the printing is just as legible and at least as large. Put it on, at or near the counter of the meat department in your store in one or more places where your customers can easily see and read it. You must have at least one list posted for each 20 feet of meat counter space. You must get your official copies of the price list for posting or copying from your war price and rationing board or from your district O. P. A. office. If you display any cut of kosher beef, veal, lamb or mutton, as in your show case you must put on it your selling price for that cut. Each grade of meat which you have separated in your show case as required by section 6 (c) must be designated by the appropriate official grade so that your customers can see and read it.

Sec. 9 Records, sales slips, and receipts. After 1943, you shall keep the same kind of records you have customarily kept, showing the prices you charge for kosher beef, veal, lamb and mutton cuts. You shall show the records to any representative of the Office of Price Administration upon request. If you have customarily given a customer a sales slip, receipt or similar evidence of purchase, you shall continue to do so. Furthermore, regardless of your previous custom, you shall, upon request by any customer, give a receipt showing the date, your name and address, the name, weight and grade of each kosher cut sold and the price you received for it.

Sec. 10 Licensing and registration. The licensing and registration provisions of sections 15 and 16 of the General Maximum Price Regulation shall apply to every person making sales subject to this regulation. Sections 15 and 16 pro-

vide, in brief, that a license is required of all persons selling at retail commodities for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license, but all sellers may later be required to register. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. No person whose license is suspended may sell any such commodity during the period of suspension.

SEC. 11 Indirect price increases. (a) The price limitations set forth in this regulation shall not be evaded directly or indirectly by you; and you shall not require the purchaser to buy at any price other food products as a condition of selling kosher beef, veal, lamb or mutton cuts.

(b) You must not charge or receive any consideration for or in connection with any service which has not been provided for in this regulation and for which a price has not been fixed.

SEC. 12 Prohibitions and penalties. On and after May 17, 1943, the date this regulation takes effect, if you sell or deliver any kosher meat cut specified in this regulation at a price higher than your ceiling price for the grade, or if you otherwise violate any provisions of this regulation, you are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended. Also, any person, who in the course of trade or business, buys from you at a price higher than your ceiling price for the grade is subject to the criminal penalties and civil enforcement actions provided for by that Act.

SEC. 13 Transfers of business or stock in trade. If you acquire in any manner the business, assets or stock in trade of any store subject to this regulation after May 17, 1943, and you carry on the business or continue to deal in kosher beef, veal, lamb or mutton cuts in a store, separate from any other store previously owned or operated by you, then your ceiling prices should be the same as those of the former owner as if no transfer had taken place. You must keep all records sufficient to verify your ceiling prices. The former owner shall either preserve and make available or turn over, to you all records of transactions prior to your acquiring the store which are necessary to enable you to comply with the record provision of this regulation.

The above prices are subject to the conditions contained in notes 1 to 3, inclusive.

NOTE 1: Ground meat.

(a) The retailer must not sell any ground meat unless it is ground beef, ground veal or ground lamb as defined in Section 16 of the Kosher beef, veal, lamb and mutton retail regulation, and he must not sell such ground meat at prices higher than those listed above.

(b) If a customer buys any retail cut of meat and wants it ground, the retailer may grind that cut of meat for the customer, only if the grinding is done in a manner so that the customer can observe it. No addition may be charged the customer for the grinding.

(c) The retailer shall not have in his store or cooler any ground meat except ground beef, ground veal or ground lamb, or meat which has been bought by a cus-

SEC. 20 Appendix A: O. P. A. Standard beef wholesale cuts. You must cut the beef carcasses, quarters or other wholesale cuts into the following cuts before you make the standard retail cuts (see the skeletal chart for bone names):

(a) "Hindquarter" means the posterior portion of the side remaining after the severance of the 12-rib forequarter from the side, and comprising the round, full loin including the 13th rib, flank, kidney and hanging tender all in one piece, which posterior portion shall be obtained by cutting the beef side between the 12th and 13th ribs keeping the knife firmly against the 12th rib while cutting down the length of the rib to the point at the end of the rib where the rib joins the rib (costal) cartilage, from which point passing through the cartilage and meat of the flank and short plate in the same straight line, completing the cut.

(b) "Forequarter" means the anterior portion of the side remaining after the severance of the 1-rib hindquarter from the side, and comprising the rib, regular chuck, brisket, short plate and fore-shank all in one piece, which anterior portion contains the 1st to the 12th rib, inclusive. All heart (mediastinal) fat, but no other fat, shall be removed from the forequarter. The skirt (diaphragm) shall not be removed from any cut or part of the forequarter to which it is attached.

(c) "Regular chuck" means the portion of the cross cut chuck remaining after the severance of the foreshank and brisket from the cross cut chuck, and containing most of the blade bone (scapula), part of the (humerus) arm bone, parts of the five ribs (1st to 5th, inclusive), that section of the back bone attached to the ribs, and the neck bone (cervical vertebrae from 1 to 7, inclusive), which portion shall be obtained by a cut through the cross cut chuck made in a straight line perpendicular to the contour of the outside or skin surface of the cross cut chuck (thereby separating the brisket and foreshank from the cross cut chuck) starting at a fixed point on the inside of the 5th rib determined by measuring off ten (10) inches along the 5th rib in a straight line from the center of the protruding edge of the 5th thoracic vertebra, continuing in the same straight line to the tip of the forward end of the breast bone (forward end of the 1st segment of sternum), and passing through the (humerus) arm bone in the same straight line to complete the cut. (Note: The 10-inch measurement shall be made from the center of the protruding edge of the 5th thoracic vertebra and not from the hollow of the chine bone where the 5th rib joins the 5th thoracic vertebra.)

(d) "Foreshank" means the portion of the cross cut chuck remaining after the severance of the regular chuck and brisket from the cross cut chuck, which portion shall be obtained (after separation

of the regular chuck) by separation from the brisket by a cut following the natural seam and leaving the entire lip, or web muscle on the brisket.

(e) "Brisket" means the portion of the cross cut chuck remaining after the severance of the regular chuck and fore-shank from the cross cut chuck, which portion contains parts of four ribs (2nd to 5th, inclusive), part of the breast bone and the rib (costal) cartilages which connect the ends of the rib bones with the breast bone. All heart (mediastinal) fat, but no other fat shall be removed from the brisket.

(f) "Rib" means the portion of the forequarter remaining after the severance of the cross cut chuck and short plate from the forequarter, and containing parts of seven ribs (6th to 12th, inclusive), that section of the back bone attached to the ribs, posterior tip and cartilage of the blade bone (scapula), part of the blade bone (scapula) which portion shall be obtained (by separation from the short plate) by a straight cut across the ribs starting at a fixed point determined by measuring off 10 inches on the inside of the 12th rib along the 12th rib from the center of the inside protruding edge of the 12th thoracic vertebra and continuing to and through a fixed point determined by measuring off 10 inches on the inside of the 6th rib along the 6th rib from the center of the inside protruding edge of the 6th thoracic vertebra. (Note: The 10 inch measurements shall be made from the centers of the protruding edges of the 6th and 12th thoracic vertebrae, and not from the hollow of the chine.)

(g) "Short plate" means the portion of the forequarter remaining after the severance of the cross cut chuck and the rib from the forequarter, and containing parts of seven ribs (6th to 12th, inclusive), the rib (costal) cartilages attached to them, and part of the breastbone.

In the matter of the petition of District Board No. 12 for an increase of three cents per ton in the minimum prices for all coals produced in District No. 12 pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

On April 27, 1942, 7 F.R. 3135, an order was issued in this Docket granting temporary relief as follows: "Each base freight rate set forth in the Schedule of Effective Minimum Prices for District No. 12 for All Shipments Except Truck is increased in the amount of three cents and the rail delivered prices set forth therein for deliveries to destinations within District No. 12 are correspondingly increased in the amount of three cents per net ton."

These increases were based upon an increase in the railway rates, fares and charges authorized by an order dated March 25, 1942 effective April 6, 1942 issued by the Iowa State Commerce Commission in what is known as Docket B-1719. On May 1, 1943, the Iowa State Commerce Commission issued an order in said Docket suspending, effective from and after May 15, 1943 until January 1, 1944 the increases authorized by the order of March 25, 1942. Accordingly, I find that it is necessary that the order previously issued in this Docket should be amended to conform to the railway rates, fares and charges which will be effective May 15, 1943. It is also necessary, and I so find, to make this adjustment to effectuate the purposes of sections 4 II (a) and 4 II (b) of the Act and to comply in all respects with the standards thereof.

Now, therefore, it is ordered, That effective thirty days from the date hereof, subject to further order, the order heretofore granted in this Docket on April 27, 1942, 7 F.R. 3135, be, and the same hereby is, rescinded.

It is further ordered, That pleadings in opposition to the aforesaid order and applications to stay, terminate or modify said order may be filed with the Division within twenty-five (25) days from the date hereof, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

Dated: May 13, 1943.

Director.
