My Dear Sir:

I send with this a circular of my American Bibliography 1639-1820, and will be glad to add your name to the list of subscribers which will go to press this month. The enclosed proof page will give you a good idea of the scope and plan of the work. The first volume, covering the first ninety years, is nearly printed. The others will follow at about annual intervals. Paper and types are uniting to make a handsome volume typographically, in keeping with its theme.

Your personal interest is greatly appreciated.

Yours, very truly
Charles Evans.
