

West Maybury Oct 9th 43

I have a letter from
Mary Bonham
in which she
says she has seen
the Rev. & Mary
& he has visited
her in an anti
slavery cause &
she is going to
have some articles
in the Fair - as
the one on trade
or vice these go
to the meeting, folks
I know not

I enclose you my dollar

for the Liberty Bell from Mrs Russell &
Shaw - I have written to Mrs King fellow
to beg her husband to write & doubtless
he will. I cannot write to Aunt

Mary Hatch or Mrs William R.
for I should have to ask it as a
personal favor & that I will never
do - I have talked with her upon
those subjects & I know she would
do it only because she would not
refuse me & I had rather give the money
myself & know I should suffer in con-
sequence - She has some stiff nativity

about societies of all nature will not
get it out of his head - He is
kind to the blacks & hopes they
will be freed but he is - a
Quirist & we cannot change her
now - I have no right to
speak to Mr ^W Patch upon the
subject we are just upon such
a footing as to make it seem
as by no means

I will write something, although
it may not be worth having for
the Liberty Bell - & I am doing
all I can for the fair, but I see
no way to get money now, when I

So I shall not fail to do it - I was
enough last winter to make me
now I would do nothing more with
Phillips' than she is generous as day light &
he gives by rule - & the more you ask
the less he'll give -

Susan has written to Mr. Estlin -
I am obliged to spend a good deal
for materials to set my hands to
work for the Fair else I should
send you in some more money
from my own purse now & I
yet hope to have some more for
you - I know how hard you must
be pressed & wish I could do more
than I do - I think Mary Gove would
write well for the Liberty Bell but

had better ask her than I - This is
not long for this world - I am
glad you have got something from
Harriet - Did you get Emily Taylor's?
