Star Roses!*

Camelot (Shown on Front Cover)

 Grandiflora. (Swim & Weeks) *Plant Pat.* 2371. The richly luminous coral-pink of this splendid rose catches and holds the eye, stirs one's sense of appreciation. Its spice fragrance fills the air. The large, firm bloom opens from the intriguingly shaped bud, a fully double flower of excellent form. Coming freely all summer long, such blooms appear singly on the stem sometimes, but more often in groups of two, three or more, thus providing a steady flow of flowers for cutting. Camelot is a tall grower. The strong plant produces thick canes, sturdy stems and a wealth of large, lustrous, deep-green foliage. Here is a regal rose whose distinction will win your heart at first glance and hold your admiration all season—and season after season.

\$3.50 each; 3 or more, \$3.10 each.

Mister Lincoln (Shown at right)

 Hybrid Tea. (Swim & Weeks) *Plant Pat.* 2370. It seemed both natural and appropriate to name a rose of character after a man of character. In Mister Lincoln, gardeners have perhaps the finest red rose yet produced, certainly one of the great roses of modern times. Velvet petals in deep, rich red form a solid, 6-inch-wide beauty that stands tall on the plant—one shining flower to the stem. The plant produces the blooms freely, and each flower from the fine, long bud to the finishing bloom is a very fragrant delight. The vigorous plant grows fairly tall, bears large, glossy dark green leaves in abundance. Canes are heavy and well branched.

\$3.50 each; 3 or more, \$3.10 each.

Do you love life?" said Ben Franklin. "Then do not squander time, for that is the stuff life is made of." In my many years of living with roses, I have had pleasure in the knowledge that the way I spent my time was giving pleasure to many people all over the country who took the time to plant and enjoy Star Roses. Surely, rose growing as we do it here at West Grove and as you do it in your garden is making good use of time—and therefore of life. I would like to commend to you the roses we offer here. They are well grown—well worth your earnest consideration. They will give you a new sense of the value of your time as it is spent in your rose garden.
