No. 71

SECHELT SINKS WITH ALL ON BOARD

LIVELY SCENE AT COUNCIL MEETING **UNION BANK IS TO BUILD SOON** **RECIPROCITY IS GROWING IN FAVOR** **THREE KILLED IN RAILWAY WRECK** **FOUR KILLED IN MILWAUKEE FIRE** **THIRTY LIVES LOST WHEN BOAT FOUNDERS**

AN ANIMATED DEBATE ON THE SALE OF LIQUOR

Decision Reached to Appeal in the Case of City vs. Levy

After a somewhat acrimonious debate it was decided at last evening's meeting of the city council to act on the advice of the city solicitor and enter an appeal against the judgment of Mr. Justice Gregory in the case of the City vs. Levy, the decision having been that the defendant had the right to sell liquor with measure after midnight despite the city by-law, which was declared ultra vires. The matter came up on the motion of the mayor that the previous decision of the board not to appeal be reconsidered.

Ald. Langley favored an appeal. He stated that the council should be guided by the advice of the city solicitor in the matter.

Ald. Moresby took a contrary view. So long as the provincial act, which declared that liquor could be sold with measure in restaurants, was in effect the city could not interfere with any success. The present discussion was, in his opinion, simply due to the fact that an election was pending and certain members of the board wanted to make a little political capital. In this connection he thought it strange that the mayor, who was such a moral reformer, did not enforce the by-law prohibiting screens or doors on the boxes in restaurants.

Mayor Morley declared that the by-law was being enforced. He ruled Ald. Moresby's remarks out of order.

Ald. Moresby held his ground, however, and continued to discuss present conditions affecting restaurants. A man could not now take his wife or sister to some restaurant boxes without danger of their overhearing bad language. All boxes and screens in restaurants should be done away with. If liquor was to be sold it be done in the open.

The mayor—you are drifting away to a discussion of how to build restaurants rather than to that of ways and means to enforce the act.

Ald. Moresby, continuing, said if the council wished to be consistent it should amend the by-law to remedy the grievances he complained of.

On the motion to instruct the city so-

FINE STRUCTURE IN THE BUSINESS SECTION

First Work in Rehabilitation of Central Portion of Commercial Quarter

Within a comparatively brief period the first of the work which will lead to the rehabilitation of the block bounded by Broad, Fort, Government and View streets will have been commenced. Dinsdale & Malcolm, having been awarded the contract for the removal of the old buildings which now occupy the site whereon will be reared the fine structure to be occupied by the Union Bank of Canada and the Elliott building.

The area which will be embraced is comprised in those buildings which now stand between Broad and View streets, with frontages on both thoroughfares, as also on Tronace avenue—the premises being occupied by the Hub cigar store, the Grotto saloon, various real estate offices, P. Linklater and P. R. Brown & Co.

It is understood that R. T. Elliott, K. C., who is the owner of the easterly half of the block thus described, with frontage on Broad street, has joined hands with the Union Bank of Canada, owners of the other portion, and agreed to the erection of a structure which will be uniform over the whole area. It will be five storeys in height and of the most modern type, and will add materially to the handsome business premises of the city.

No announcement has yet been made as to when a start is to be made on the reconstruction of the Five Sisters block or the new building which is planned for the site of the old Spencer property, but it is supposed that within a very short time these undertakings will be taken in hand. But the commencement of work on the Union Bank block will in itself go far towards the rehabilitation of the most prominent business section of the city.

J. J. Hill Says It Will Jump Into Favor When Understood by the People

(Times Leased Wire.)

Washington, D. C., March 25.—According to James J. Hill, business is good throughout the United States and the sentiment in favor of reciprocity is growing steadily.

"When people begin to understand reciprocity I expect to see it jump into immediate favor," said the veteran railroadier. "The subject is very little understood at present. As far as I can see business will remain good. There is no menace anywhere that I know of."

TRAIN PLUNGES INTO RIVER

TEN PERSONS DEAD; TEN REPORTED MISSING

Most of Victims Drowned in Their Berths in Pullman Cars

(Times Leased Wire.)

Atlanta, Ga., March 25.—Ten persons are known to be dead, ten are missing and more than a score are badly injured at a trestle on the Atlantic Coast line railroad crossing the Alapaha river, where the fast Jacksonville-Chicago express train, known as the Dixie Flyer, plunged down to the river early today when the structure collapsed.

The identified bodies are: W. Culpepper, Tifton, Ga.; O. Bombart, Henderson, Ky.; Mrs. W. Fletcher, Rowland, Ill.; Conductor Farnell, Savannah, Ga.; Fireman Ellis, colored; Porter Whirren, colored.

The Dixie flyer, which makes the run from Chicago to Jacksonville in 36

TRAINS COLLIDE ON C. P. R. NEAR SCHREIBER

One of Victims Burned to Crisp—Several Trainmen Also Sustain Injuries

(Special to the Times.)

Port Arthur, Ont., March 25.—Two are known to be dead, one is missing, one fatally injured and three or four others seriously injured as the result of a collision early this morning between two trains on the C. P. R. one mile east of Schreiber, at what is known as "Blue Jay" siding.

The trains in collision were one of empty passenger coaches being sent east to handle the immigration traffic and a colonist train of settlers' effects from eastern Ontario. The two came together at a point where it was impossible for the engineers to see each other until within a distance of three hundred feet, and as both were running at high rate of speed, the impact was such as to completely demolish both engines, besides two coaches and two box cars.

Immediately following the collision the wreckage took fire, adding to the difficulty of rescue work and probably causing the death of C. M. Bank, train porter on the east bound, who is among the missing.

A Salvation Army officer is also among the missing and fears are entertained that he, too, is dead.

T. E. Robinson, of Newmarket, Ont., going west with eight horses and farm supplies, lost everything.

Fireman Burgess was burned to a crisp in the drip pan of the east bound engine.

The dead: Burgess, fireman; C. M. Banks, porter on east bound train; Salvation Army officer, name unknown, missing and probably dead.

The injured include: Harry Pullen, engineer; M. Christy, fireman; Ambrose Felly, engineer.

Immediately after the accident a special train was made up to bring the injured to Port Arthur hospital, arriving this afternoon.

There are also about thirty cars in the ditch and communication with the east is interrupted.

The wreck, which occurred at 6.30, is said to have been due to a mistake in the interpretation of orders which were for the trains to pass at Blue Jay Siding, but the stock train got past in some way.

FIFTEEN OTHER FIREMEN SUSTAIN INJURIES AND ONE MAY DIE

(Times Leased Wire.)

Milwaukee, Wis., March 25.—A revised list of the casualties here in the Middletown Manufacturing Company's fire to-day shows four firemen dead and 15 injured, one fatally. Careful search of the ruins, completed to-day, makes it certain that no more bodies are among the debris.

ESCAPE WITH BOOTY.

Springfield, Ill., March 25.—Two masked robbers held up the First National bank at Mound, Ill., yesterday afternoon and got clear away with \$2,500 in cash.

RUSSO-CHINESE CRISIS ACUTE

INSURANCE RATES AGAINST WAR RAISED

Reports That Cossacks Are Driving Chinese From the Amur Valley

(Times Leased Wire.)

London, March 25.—Expecting that Russia soon will declare war on China, the British foreign office here to-day is evidently uneasy lest grave international complications develop out of the trouble in the far east. As a reflection of this feeling, Lloyds to-day again raised the insurance rates against war commencing before April 25 to the remarkably high figure of 15 guinees per cent.

Reports from Chinese ports declare that the Cossacks are driving the Chinese out of the Amur valley, and that the Chinese, in retaliation, are wrecking the Manchurian railroads.

In preparation for trouble, orders have been eabled to British warships in Chinese waters to protect all foreigners.

China Urged to Yield.

St. Petersburg, March 25.—Despite the feeling of apprehension which prevails in other capitals to-day the Russian foreign office affects to believe that the present crisis in China will not result in war.

It is reported that Japan is bringing strong pressure to bear on China to induce the latter to comply with the Russian demands in Mongolia and Ill provinces. This statement, if verified, is taken as strong proof of the reported agreement between the governments of the Czar and Mikado for the joint exploitation of China.

Chinese replies to Russia's successive notes dealing with the demands of Russia in Mongolia have been described by the Chinese government as conciliatory, but the text in each case has been satisfactory.

The last Chinese note received by the Russian government concerns the establishment of a consulate at Kobdo, whereas Russia demanded its location at Shinarumto, to which place the Chinese transferred the administrative seat of the district.

The Chinese reply also attempts to limit Russia's rights in trade to articles of foreign origin, whereas the treaty specifies that Russia's rights extend to merchandise of any origin.

This reply also denies the right of the Russians to trade in tea, which is one of Russia's most important contentions. It also promises to place Russian traders on equal conditions with natives. This would subject Russians to taxes and imposts not contemplated by the treaty.

The Novoe Vremya, in a leading article which betrays the irritation of the government, accuses the Chinese ultimatum with a fixed term for its satisfaction be sent to China.

Mobilization Rumors.

Vladivostok, March 25.—Persistent rumors are current here that a mobilization of troops has been ordered. The families of railroad employees on the Russian-Eastern lines are preparing to depart.

Russia's Final Note.

Pekin, March 25.—M. Korostovitz, Russian minister to China, presented his country's final note to the Chinese foreign board in demanding complete acquiescence in Russia's Mongolian demands. Failure to comply is predicted, will mean war.

LITTLE STEAMBOAT PLYING ON SOOKE ROUTE OVERWHELMED

Disaster Occurred in Race Rocks Passage at 5 p.m. Yesterday—Indians Saw Vessel Capsize—Not a Trace of Her Is Left.

Caught in a terrific gale of wind blowing from the southwest, and the tremendous cross-seas stirred up by the winds, the little steamer Sechelt, operated by the British Columbia Shipping Company, capsized yesterday afternoon in Race Rocks Passage, while on her regular run from this city to Sooke, and as the disaster occurred without the slightest warning the lives of the twenty-four passengers and five members of the crew who were supposed to have been aboard at the time have been blotted out, although the exact number of those drowned has not as yet been ascertained.

Indians residing in the vicinity of the Race witnessed the tragedy, which they state happened at 5 o'clock in the afternoon. They were powerless to render the slightest assistance owing to the conditions of the weather. Several of the natives manned one of their canoes, and after rowing for several hours, during which time their lives were imperilled many times, reached the William Head quarantine station, bringing the first news of the foundering of the vessel.

As telephonic communication between the station and this city was out of order, a young man volunteered to make an attempt at running a launch to Victoria for assistance. At times the weather threatened to force him to return but his sturdy little craft bore him safely across the treacherous waters and he reached Esquimalt harbor at 10 o'clock last night. He notified the B. C. Salvage Company, and within an hour's time the powerful tug William Jolliffe had left her berth at Esquimalt and was steaming at full speed for Race Rocks.

By this time, however, all hope of rescuing the crew and passengers of the vessel had been abandoned, as in the seas which were running it would be

CAPTAIN JAMES STRONGREN
 Part owner of the Sechelt, who was in command of her during the illness of Captain Strongren.

the Sechelt that it will come ashore between Discovery and Smith Islands.

The first reports received were meagre, yet they spread like wild-fire throughout Victoria. The wireless station at Gonzales hill was notified of the terrible calamity and messages were flashed to the Canadian-Australian liner Moana, Capt. Morrisby, which had just left the outer wharf for the Antipodes. Capt. Jones, by the way, was formerly an officer on that steamship. What was the result of the steamship's search is not known, but appar-

SCENE OF YESTERDAY'S DISASTER.

STEAMER SINKS IN ENGLISH CHANNEL

GOES DOWN IN FEW MINUTES AFTER COLLISION

Passengers and Crew Picked Up by Vessels Called to Scene by Wireless

(Times Leased Wire.)

London, March 25.—Colliding to-day in the English Channel in a dense fog, the French steamer Bordeauxville and the Scotch steamer Iris Brook, were so badly damaged that both sank within a few minutes.

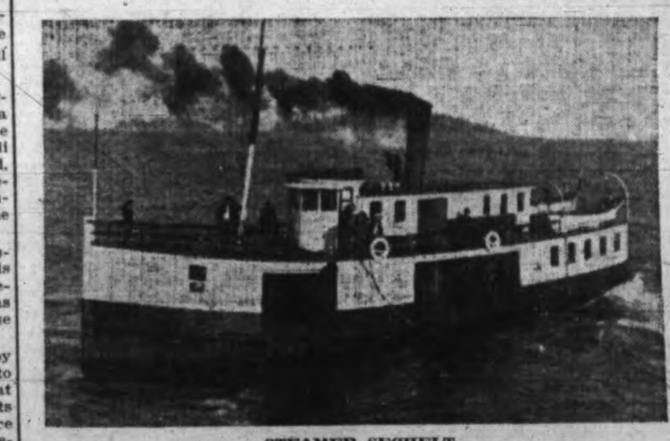

The crews and passengers of both vessels were got into the boats with difficulty and within a short time were picked up by other vessels called by wireless to the scene of the disaster.

CANNON AS LEADER.

Former Speaker Reported to Be Seeking Leadership of Republican Minority in the House.

Washington, D. C., March 25.—Although timid about making his candidacy known, it is generally understood in Republican circles to-day that Former Speaker Cannon is a candidate for the leadership of the Republican minority in the house.

So certain is "Uncle Joe" of his selection that he has already informed the Democratic leaders of his desire to have the minority headquarters removed from the first to the second floor of the Capitol. This request having been granted, he will remove his belongings from the speaker's room to the room now occupied by the committee on pensions.

STEAMER SECHELT

utterly impossible for anyone to survive. The Sechelt carried but two lifeboats and two rafts, and before these could have been launched the vessel would have turned turtle and her deck-house be filling rapidly with water. For two hours the Jolliffe cruised back and forth from the entrance to the shore and entering the tide rips, but no sign could be seen of the vessel or any of its fittings or of the bodies of any of the unfortunate passengers.

Leaving the G. T. P. dock at 2.30 yesterday afternoon the Sechelt proceeded to her first calling place, William Head. It is stated, although it cannot be verified as yet, that fifteen laborers, who were engaged by the Canadian Northern Railway Company to commence work at their camps at Pedder Bay, left the boat at the quarantine wharf. The number of passengers aboard the steamer when she left this city was 29, so that if fifteen left the Sechelt at William Head it is almost a certainty that the remaining 14 have been drowned.

Chief Officer Moore, of the William Jolliffe, conversing with a Times representative this morning on the return of that vessel from her futile search,

lector to enter an appeal being put. Ald. H. M. Fullerton moved in amendment that all boxes in restaurants be done away with.

The mayor declared the amendment out of order. A notice of motion would have to be posted.

When the resolution to enter an appeal was put, Ald. Gleason wanted the names recorded and at this Ald. H. M. Fullerton remarked: "Oh, yes, and send them to the Voters' League; they'll get you votes."

Ald. Feiden resented what he termed an insinuation from both Ald. Moresby and Ald. H. M. Fullerton that he was influenced in his attitude by any desire to catch votes.

Ald. Moresby rose to a point of order, but the mayor would not hear him, whereupon the former remarked that it appeared as though no member of the council could introduce any subject for discussion of which the mayor did not approve.

STARTS FIRE IN CELL.

(Special to the Times.)

Brandon, March 25.—Presumably to sustain his feint of insanity, Tom Sullivan, convicted of forgery, set fire to his bedding and clothes in jail yesterday morning, but took care not to injure himself. The blaze was extinguished.

DARING ROBBERY.

(Special Correspondence.)

Winnipeg, March 25.—Tom Steadman's shoe store, near the C. P. R. depot, on Main street, was entered yesterday morning by men who cut a hole in the plate glass and took about \$50 in money orders on exhibit in the window. They escaped.

THREE CRUSHED TO DEATH.

New York, March 25.—Three men were killed to-day by the fall of a ceiling in the Gleichmann Company's feed store in Brooklyn. They were trying to extinguish a fire when killed.

INVESTIGATE TOPP INCIDENT

COMMITTEE OF CITY COUNCIL IS NAMED

Meanwhile the Ex-City Engineer Continues Doing Sooke Survey Work

A special committee, consisting of the mayor and Ald. O'Connell, Morley and Gleason, was appointed at last evening's meeting of the city council to investigate all the circumstances surrounding the appointment of C. H. Topp to do certain preliminary survey work in connection with the Sooke lake project, after some discussion which followed the reading of this letter from the city solicitor:

"Referring to your request for a report upon the employment of Mr. Topp, I have looked up the correspondence, and have consulted with the city barrister. On February 19 Mr. Topp wrote the council making application for permission to undertake the necessary surveys preparatory to the Sooke water problem. On February 18 he was written by the clerk that his application had been accepted, and that he was commissioned to carry out the survey. I am told by Messrs. Gore & McGregor that he commenced work on the 21st of February. On the 23rd of March a letter was written to Mr. Topp by the clerk, stating that his appointment was vetoed by the mayor. At that time Mr. Topp had been at work about ten days. He was employed from day to day, and I do not think the wording of the letter of the 23rd March was sufficient to prevent him going on. It should have requested him to stop work and give the result of his work to the council.

"I would recommend now that the matter can be cured by a notice to stop work. Mr. Topp will have to be paid for the work that he did, of course on condition that he turns the result of that work in to the city.

"It has been suggested that Mr. Topp did not start work until after he had received the notice of the 23rd March. Of course, that is another phase of the matter altogether, but the information I got from Messrs. Gore & McGregor is that he went out on the 21st."

James L. Raymur, water commissioner, reported that he had received a letter from Mr. Topp to the effect that work had been started on February 20, and that he would have the field work completed in the course of a few days.

Replying to a question, the city solicitor said there was a good deal of doubt about the validity of the appointment of Mr. Topp. The water commissioner had apparently been entirely ignorant in the matter, notwithstanding that the by-law states distinctly that he shall have full power subject to the approval of the council. He advised that Mr. Topp be ordered to cease work at once, so that the water commissioner could assume that control he ought to exercise.

Replying to Ald. Gleason, Mr. Raymur said he understood that Mr. Topp's charge was \$20 per day. The eight workmen would be getting \$3 and \$3.50 per day. Mayor Morley felt that in the interests of the city at large there should be an investigation. The city solicitor's report was based on information received from the office of Gore & McGregor, and he (the mayor) had every reason to believe that work had not been started until the veto had been declared. If this proved to be the case he believed that Mr. Topp would not be able to collect for his services.

Ald. Morley asked the city solicitor whether the second action of the council did not affect the veto. He mentioned in this connection that he had seen the written opinion of one of the best lawyers in the city to the effect that the council could override the mayor's veto and the latter could veto again and so the matter would go on ad infinitum.

The solicitor was of the opinion that there was involved in the veto as a fundamental proposition the ending of a matter and therefore the council could not reopen it by any action it might take.

Ald. H. M. Fallerson thought that as Mr. Topp had only a little more work to do he should be allowed to finish it, if he could not collect for his services, well and good, but it would be very foolish to stop him at this date.

Finally at the mayor's suggestion the committee, constituted as above, was named to hold an investigation into the matter.

DEPOSITS EXCEED BILLION DOLLARS

Morgan, Rockefeller and Kuhn, Loeb & Co. Control Another Bank

New York, March 25.—By acquiring one-third interest in the National Bank of Commerce of New York which the Equitable and New York Life Insurance companies admitted having sold to interests controlled by Morgan, Rockefeller and Kuhn, Loeb & Co. that combination now controls banks in New York having deposits exceeding a billion dollars.

The price paid the insurance companies for their holdings in the National Bank of Commerce was \$9,000,000.

—Wm. Stewart, men's and ladies' tailor over Terry's Drug Store, Douglas St.

THINKING THEMES

BY DR. FRANK CRANE.

We grow in real largeness of heart as waves spread out into wider circles when a pebble is cast into a pool. The smallest of all men is the egotist; he has merely self-consciousness. Then comes the partisan or sectarian; he has class-consciousness; his self has widened to feel the aims and sorrows of his group; he has annexed the labor union or lodge or church or party; he is an improvement upon the egotist. Widening a little more the soul advances from provincialism to nationalism of sentiment; from Methodism to Christianity, from the horse-shoers' union to the labor movement. But this is not the best. We must move on to where Jesus stands. We become full-sized souls only as we get the world-consciousness, feel the race, sympathize with the struggles and victories and pains of humanity, in time, develop the humanizing nerve. Most of the altruism of to-day is but group-altruism. Most efforts to improve mankind are but efforts to improve a small part of mankind. How much happier we shall be when we shall feel the world, and sweeter and more human and more Christlike!

ROYAL COMMISSION IS APPOINTED

Will Investigate Complaints of Indians Regarding St. Peter's Reserve

Winnipeg, March 25.—A royal commission, consisting of Judge Prud'homme and Judge Myers, with Judge Locke chairman, has been appointed to investigate complaints made by Indians with regard to St. Peter's reserve. The commission was appointed by the Attorney General as a result of a petition presented to him by the Indians, who say they have been unfairly treated in the selling of their lands. It is also learned that the Registrar General for Manitoba would not issue titles, basing his objections to transfer as made under the Indian act, claiming the province might be held for thousands of dollars if at any subsequent time the legality of the matter was questioned and the raisers of the complaint sustained.

Nothing is ascertainable as to when the commission will sit, nor who will represent the Indians, or defend the case for the other side.

WILL QUELL LAWLESSNESS.

Salem, Ore., March 25.—Immediate and decisive action will be taken by the legal department of the federal government relative to offences committed on the Siletz reservation by lawless whites and Indians according to official communications received to-day from the interior department. Incidentally the department recognizes that an offence committed on the reservation is under the jurisdiction of the federal courts, something which several federal officials denied, when called upon to quell lawlessness on the Siletz.

The action of the department follows a protest from settlers who declared their lives and property were in jeopardy on account of the lack of legal restraint on the Siletz. Accompanying the protest was a long list of crimes, including murders, that had gone unpunished.

STATE SENATOR ACQUITTED.

Springfield, Ill., March 25.—State Senator John Broderick of Chicago, late yesterday afternoon was found not guilty after a trial on charges of having paid State Senator Holtzlaw of Chicago \$2,500 to vote for William Lorimer for United States senator.

Holtzlaw's declaration that he received the money from Broderick was only partially confirmed by the evidence presented and a strong plea by Broderick's attorneys in which his motherless children were feelingly referred to, is believed to have strongly influenced the jury.

ELECTION OF SENATORS.

Sacramento, Cal., March 25.—The next United States senator from California will be chosen by direct vote. The Young direct primary bill, which is now ready for the governor's signature, gives California the Oregon plan permitting the pledging of candidates for the legislature to vote for the people's choice for United States senator. The bill makes non-partisan the election of judges and school officers by requiring that the names of candidates of those classes be printed on the ballots of all parties.

A Sensible Dress for Small Girls

"The Highland Bloomer Dress" is the newest and cleverest idea in children's ready-made dresses. The cut shown is an exact illustration. The child simply slips its feet into the bloomers, thrusts its arms into the sleeves, and with the fastening of a few buttons the dressing is done. The little girl can dress herself in a

fraction of the time it takes you to do it now. The "Highland Bloomer Dress" opens all the way down the back, permitting it to be laid perfectly flat when ironed. In this dress the child has perfect freedom of movement, perfect protection, and yet looks well dressed all the time.

Our Children's Department is just as full of new dresses and coats as the Mantle Department for Ladies and Misses. There are exquisite little dresses in a great variety of styles in percales, ducks, drills and many other materials.

Children's Millinery

We give as much attention to Children's Millinery as the millinery stores that cater to ladies and misses exclusively. For the infant to the child of eight years, you will find here the daintiest little head coverings, beginning at bonnets for the "tots" to the more advanced styles for the "little miss."

REBUILDING FURNITURE SALE

A Stupendous Sacrifice of Fine Furniture at Profitless Prices

Unusual Opportunity to buy Furniture, Carpets, Linoleums, Etc., at Remarkably Low Prices

WE respectfully invite you to take advantage of this reasonable opportunity to buy your Spring Furnishings at much less than regular prices. Our growing business demands more floor space and we are extending our present building. To save expense and damage of moving and to make room for the builders, the prices of our great Furniture stock has been slashed by an unsparing hand to profitless proportions. Our loss is your gain if you are quick to take advantage of this unusual opportunity. We guarantee every article to be as represented or will refund money paid.

DON'T DELAY. The Sale will soon be over and it will be long before such another opportunity to buy good furnishings at such low prices

STORES ARE INVADING RESIDENTIAL AREA. City Solicitor Decides That the Council Has No Power to Interfere.

The city solicitor at last evening's meeting of the city council handed down a written opinion on the application of Luke Pither and other property owners on upper Yates street, that the building inspector be instructed to refuse a permit to a man who proposes to run a small candy store on that thoroughfare, opposite School street.

The solicitor advises that there is nothing in the statute to prevent the erection of the building if it complies with the building and sanitary regulations.

It was decided to take no action relative to the refusal by the building inspector of a permit to Thos. Potter for the erection of an hotel on the site of the present Lion saloon, on Chambers street opposite the George Jay school.

On the recommendation of Fire Chief Davis it was decided to have the old factory of Messrs. Moore & Whittington, on Yates street, demolished.

NEWS OF SPORT

PRIDE CLUB FIRST TO DECIDE LINE-UP

Team Chosen to Go After Peden Cup—Holness Will Pitch

The Beacon Hill baseball club was the first of the Peden cup entries to organize and the first to commence practicing, followed closely by the Rays and the Wards, while the Prides were the last to get together and arrange for the coming season.

The Prides are confident that they have as good a chance as any for the Peden cup. Although they have an excellent all-round nine, they will depend a great deal on their battery, and if, as they say, Holness is in better form than he has been for years they will give the other teams a hard run for the silverware.

The line-up is announced as follows: Pitcher, Jimmy Holness; catcher, Brock Robertson; first base, Clark; second base, Pat MacDonald; short stop, Moir; third base, Brewster; fielders, Rudge, Ward, Townsley.

Townsley is one of the boys who pitched for the Hills last year, and if Jimmy Holness falls he will be put in to the box.

The other teams have all secured their share of the best local baseball players, so that the race for the Peden cup will be a fight from the word 'go'.

McKAY PROFESSIONAL

Admits That He Is No Longer an Amateur.

Some time ago a little amateur boxer handed in town and quickly took a prominent position in local circles. One night, just before he went into the squared ring with another amateur, a telegram was received from the east stating that he was a professional. The midget fighter became

SIX-TEAM FOOTBALL LEAGUE NEXT YEAR

Victoria Will Likely Enter—Crowds of People Take Interest in the Games

It has been announced that Victoria will enter two teams in the British Columbia Football League next season, which will bring the number of teams competing up to six.

CRICKET IS ADDED TO LIST OF SPORTS

Public School Boys Will Form League—Private Schools May Also Enter

At a meeting of school trustees yesterday it was decided that cricket should be added to the list of summer sports taken part in by the public school boys.

A committee consisting of W. N. Winsby, Central school; Mr. Elliott, High school, and J. P. Salloway, Victoria West school, was appointed to take charge of the matter and will meet shortly to arrange a schedule.

Within a month the different teams will be formed and practices commenced. The Victoria and Albion cricket clubs have placed their grounds at the disposal of the boys and the games will be played on these, as well as at the University school, if the students there enter a team.

ABOUT BASEBALL

It is possible to pick the hardest hitting baseball nine from the base ball guides, just issued. It wouldn't be a major league outfit, but it would make trouble for almost any pitcher.

Four of the above mentioned colliers were imported especially from England for these shows.

Irish Setters. C. A. Goodwin, Victoria, Killarney Mollie and Killarney Rose.

English Setters. D. E. Whittaker, Sensation and Prince.

Local dogs. Hickey Queen, Spots Princess, Derby West, Victoria Speck, Bubble and King Hickory.

Scottish Terriers. D. B. MacLaren, Jennie and Scottie. Central Park kennels, Vancouver, Camosun Wuffy.

Wire-haired Terriers. Rev. J. W. Flinton, T. V. Brigand, Duchess of Newcastle, England, Mimie.

Smooth Fox Terriers. W. M. Costes, Vancouver, Lady Rustem.

Prize winners Ramona, Midget.

ALL ARRANGEMENTS FOR BENCH SHOW MADE

Over Four Hundred Dogs Entered—One Class Alone Worth \$10,000

With over four hundred of the very best dogs in the northwest entered, the Victoria Kennel Club show will be held Thursday, Friday and Saturday next in the drill hall.

Mr. Cole, an authority on dogs who has officiated at shows all over America, will judge. He was the judge in the world's fair at St. Louis.

Every class of dog will be well represented in the local show, but wire-haired fox terriers, English setters, cocker spaniels and pointers are expected to be the most numerous.

Two series of three months duration, will be run off each year, three months in the spring and three in the fall. Matches will be played every Saturday, and as record crowds have been the rule in the other towns there is no reason why it should not be so in Victoria.

Irish Setters. C. A. Goodwin, Victoria, Killarney Mollie and Killarney Rose.

English Setters. D. E. Whittaker, Sensation and Prince.

Local dogs. Hickey Queen, Spots Princess, Derby West, Victoria Speck, Bubble and King Hickory.

Scottish Terriers. D. B. MacLaren, Jennie and Scottie. Central Park kennels, Vancouver, Camosun Wuffy.

Wire-haired Terriers. Rev. J. W. Flinton, T. V. Brigand, Duchess of Newcastle, England, Mimie.

Smooth Fox Terriers. W. M. Costes, Vancouver, Lady Rustem.

Prize winners Ramona, Midget.

YOU MUST ALL ATTEND THE AUTOMOBILE SHOW

TO EVERYBODY—

Of course you will be there—we need you to make the show a success, and when you are there you must not overlook our exhibit. It is there for you to examine and it is made up to meet the Automobile wants of everybody. If you want the very best that money can buy, we have it—

"The Peerless" A 4 Cylinder and 6 Cylinder will be Exhibited

If it's a moderate priced car you want, we have that also, and are exhibiting a MITCHELL, a CASE and a HUDSON—all high class cars of moderate price and all WINNERS. We have not overlooked the ladies, either, and for their especial benefit we are showing a WAVERLEY Electric Coupe, the neatest and swiftest thing on wheels, easy to operate and perfectly safe for the most timid to handle. This is the very last word in Electrics. Do not hesitate to ask for a demonstration of any of our cars. They are for that purpose.

SPORT NOTES

That the Kennel club has secured as good a man as can be got to distribute their ribbons in the forthcoming show, may be seen from the following list of places at which Mr. Cole has judged: World's Fair, St. Louis; Milwaukee, Wis.; Bloomington, Ill.; Des Moines, Iowa; Kansas City, Missouri; Topeka, Kansas; Denver, Colorado; Dallas, Texas; Fort Worth, Texas; Colorado Springs, Colorado; Ohio; Los Angeles, California; San Francisco, Cal.; Sacramento, Cal.; Portland, Ore.; Seattle, Wash.; Butte, Montana; Salt Lake City, Utah; Winnipeg, Man.; Calgary, Alberta; Spokane, Wash., and many others.

One of the questions to be discussed at the meeting of Victoria Yacht Club, which will be held on Thursday night at the Pioneer hall, will be the possibility of there being an international race in connection with the July regatta. As was mentioned in the Times some time ago there seemed to be a doubt that such a competition would take place. Now the doubt has become almost a certainty as no word has been received from either Seattle or Vancouver concerning the building of a yacht under the universal rating.

Baseball practices will take place to-morrow morning at Beacon Hill and at the North Ward park, and a lacrosse practice at the latter place. The Oak Bay boys will probably use the High School grounds until those at Oak Bay are in shape.

The date for the start from Vancouver of the annual long distance race of the Pacific International Power Boat Association, has been fixed for Sunday, July 2. The boats will be allowed to start at any hour between 8 a. m. and 2 p. m., will round buoys in Bellingham and Seattle harbors and will finish in Victoria on Monday, July 3.

One-Round Hogan has an offer from Hugh McIntosh to box Matt Wells, the new English lightweight champion, in London during Coronation week. McIntosh offers a \$10,000 purse, which will be snatched up by the Californian if he beats Ad Wolgast before the Madison Athletic Club in New York on April 18.

FENCING MATCH

An epee or duelling sword pool will take place at the drill hall this evening, commencing about 8.30 o'clock. Those who compete will have a five-minute time limit; if neither fencer is touched at the end of this period an extra minute is allowed. If neither is touched in the six minutes a point is scored against each fencer. A touch anywhere must be immediately acknowledged by the word "ouch," and fencing must instantly cease. The first prize is presented by Lieut. "Ed" Currie, and the second by J. R. Collister. So far as known, Africa has but one tributary to each eleven square miles of land.

McCANDLESS BROS.

557 Johnson Street Victoria B. C.

TRIP FOR SALMON BELLIES.

New Westminster, March 25.—Will pay you \$5,000 to play National Lacrosse Club on May 24th and 27th next, with your regular team, on Nationals' grounds, provided lacrosse union schedule does not interfere. Will advise you when sure of dates. (Signed) "JOS. CATTARINICH," "Manager Nationals."

The above is a reply to a telegram sent recently by Mr. Herb Ryall, secretary of the New Westminster Lacrosse club. The matter will be discussed at the annual meeting of the club on Friday evening. What with the two games with the Nationals and the number of exhibition games which could be picked up by the Salmonbellies, the trip would be rather a prosperous one. It might seriously interfere with the B. C. E. A. schedule, but if this difficulty can be got over, the trip will probably be taken.

EXTRACT FROM
 "BRITISH MEDICAL JOURNAL"
 March 23, 1907.

"A Most Valuable Food"

At a time when the preparation of artificial foodstuffs is receiving more attention than ever before, and when new forms of easily assimilable fat to take the place of cod liver oil are being frequently brought to the notice of the medical profession, it is desirable that some of the older forms of administering natural fats should not be lost sight of. Among natural fats, butter easily takes first place for nutritive value, and when combined with a suitable soluble carbohydrate, a most valuable food is produced.

The BUTTER SCOTCH which Messrs. Callard & Bowser (Duke's Road, Euston Road, W. C.) have prepared for fifty years, is such an article, which has the great advantage of being palatable, so palatable, in fact, that children are more likely to need restraining from excess than any persuading to take it. This BUTTER SCOTCH is stated to contain 11.7 per cent. of fat and 9.3 per cent. of sugar, and the results of an analysis which we have made recently of a specimen substantially confirm these figures. Further chemical examination of the fat extracted showed it to be genuine butter fat. This confection can therefore be recommended not only as a harmless sweetmeat, but also as a very useful addition to the diet in suitable cases.

In all the Principal candy stores in Victoria.

APIOL & STEEL PILLS

Are the acknowledged leading remedy for all Female complaints. Recommended by the Medical Faculty. The genuine bear the signature of Wm. Maxwell registered without which none are genuine. No lady should be without them. Sold by all Chemists & Storekeepers. Price, 1/6. Solely, SOUTHAMPTON, ENGLAND.

PASSING SHOW

The Crystal.

The crowds at the Broad Street house are increasing daily, since the management has been showing five reels of film. The pictures are the best in the city. The house is kept spotlessly clean, and is well ventilated.

Watch for the big feature that is coming, "The Fall of Troy," which contains 1,000 artists. This is the most wonderful picture ever portrayed.

The bill for to-day is an exceedingly good one. The picture taking first place is a very strong drama entitled, "Come Unto Me," by the celebrated Reliance company.

Another very interesting drama, the latest Thanouer Release, entitled "His Younger Brother," is the story of the artifice of a girl employed in his brother's behalf, and the twist comes when she finds her efforts weren't needed. For her brother was not the spotless man his sister presumed him to be, but the discovery came at the windup of her struggle to place the blame elsewhere. Her sense of devotion to him leads her to try hard to fasten the guilt on a man of stainless character, and when he learns how mistaken and misguided was the effort, she makes reparation by taking the man's name for her own and joining with him to save the erring brother from further sin. "Stocking the great zoo gardens of

Rome" is an extra special, interesting, educational subject by the Pathe Freres company.

"A Practical Joke" by the same company is one of the biggest comedy screams of the day.

"False Coin" is a very interesting film of how counterfeit money is made. This should interest everyone. "Foolishhead" is another side-splitting comedy full of fun, by the greatest Italian fun-maker of the world.

Thomas J. Price will have a new song and Herr Nagel will render the German overture "Ricorviti," by Gottschalk.

London Bioscope.

Eight long and varied films of comedy and dramatic pictures will be shown at the Victoria theatre to-night by the London Bioscope. For two hours continuously the show lasts after commencing at 8 o'clock. In the films is "Behind the Scenes of Cine Stage," showing how the moving pictures themselves are made, one of the most interesting pictures ever exhibited.

New Grand Theatre.

The closing shows of the comedy bill and the Jack Irwin lecture take place at the Grand to-night. Irwin has played to immense business all the week, the bill being a very pleasing one all through. Irwin tells interestingly the trip of the Wellman airship, and George P. Moore with his charming partner and comedienne, Florence Elliott, are favorites for their appearance in "A Matrimonial Substitute." The Hall Brothers, with their phenomenal strength tests; Haskell and Viva Renaud, in a comedy mu-

sical and dance sketch, and Bigelow and Campbell, in syncopated melodies, complete a clever and successful bill. Amateurs at Victoria.

Next week in conjunction with the London Bioscope there will be amateur performers at the Victoria theatre. The programme of last year is to be followed and \$75 given for prizes every week. The public will select the three prize-winners by balloting at every performance, and at the end of the week the totals will be made up. The first will get \$50, the second \$15 and the third successful performer \$10. Those wishing to enter the first week's amateur competition must hand in their names to the box office of the Victoria theatre by Monday afternoon.

CONGRESS SCORED

BY ROOSEVELT

Declares Americans Do Not Receive Credit for Their Performances

Palo Alto, Cal., March 25.—"I spent one year of my life getting one of the most complete collections of animals ever made," said Col. Roosevelt yesterday, addressing the students at Stanford university. "Its value is not to be found in the museums of the world. When it was completed I and those financially backing the expedition presented it to the government. So far the only recognition I have received is a resolution presented by a worthy—and I use the word worthy in a hyperbolic sense—member of congress which, in effect, virtually asks that a committee be appointed to find out whether I or those with me were engaged in 'corrupt practices!'"

The colonel's statement followed a reference to the closeness with which the various parts of the world are now bound together. He illustrated by remarking on the relative merits of the dam across the Nile at Assouan and the Roosevelt dam in the Imperial valley.

The British, he said, honored the men who built such things for them. The American people did not realize the importance of the work nor the fact that the Roosevelt dam is bigger than the Assouan project. The men who built it, instead of being honored, the colonel said, could be assured that "if they ever gained sufficient prominence they would be investigated by congress." Then he told of his animal collection.

The sting of a bee is only one-thirty-second of an inch long.

In proportion to its population Italy has more theatres than any other country.

NOTICE TO CREDITORS

IN THE MATTER OF THE ESTATE OF GEORGE HENWOOD, LATE OF THE CITY OF VICTORIA, DECEASED.

Notice is hereby given that all persons having any claims or demands against the late George Henwood, who died on or about the 5th day of December, A. D. 1909, at the City of Victoria, in the Province of British Columbia, are required to send by post, prepaid or to deliver to

the undersigned, solicitor for the Dominion Trust Company, Limited, the Administrator of the said George Henwood, their names and addresses and full particulars in writing of their claims and statements of their accounts and the nature of the securities, if any, held by them.

And take notice that after the 25th day of April, 1911, the said Dominion Trust Company, Limited, will proceed to distribute the assets of the said deceased among the persons entitled thereto, hav-

ing regard only to the claims of which it shall then have had notice; and that the said Dominion Trust Company, Limited, will not be liable for the said assets or any part thereof to any persons of whose claims he shall not then have received notice.

Dated at Victoria, B. C., the 22nd day of March, 1911.

COAL LAND CASE TO BE TRIED AT SEATTLE

Three Men Accused of Conspiracy to Defraud U. S. Government

(Times Leased Wire.)
Seattle, Wash., March 25.—Charles F. Munday, a prominent Seattle attorney; Earl E. Sigley, former private secretary to the late M. J. Heney, Alaska railroad builder; and Archie W. Shibe, will be placed on trial in the federal court next Tuesday morning on a charge of conspiracy to defraud the government of coal lands near Katalia, Alaska. Algernon H. Stracey, named as one of the conspirators, is thought to be hiding in Canada or England.

R. D. Townsend, special assistant to the attorney-general, who will represent the government, arrived yesterday from Spokane, where he had argued on a demurrer in the White and McKenzie coal cases before Judge F. H. Rudkin. The men under indictment are accused of inducing dummy locators to file on lands for the benefit of the Alaska Development Company and the Pacific Coal and Oil Company. The penalty for violation of the statute is two years in the federal penitentiary and \$10,000 fine.

The Munday trial is expected to last over a month and about 100 witnesses will be called by the government.

LOSE LIVES IN FIRE.
Colon, March 25.—Several lives are reported lost in a fire that destroyed fifty houses and three churches here, and the local fire brigade and force from the canal zone found great difficulty in checking the flames. As a last resort dynamite was used to blow up several buildings. The material damage will reach \$300,000.

Auction Sale
—OF—
DOMINION LANDS

Public notice is hereby given that there will be offered for sale by public auction in Pender Hall, 304 Pender St. West, in the city of Vancouver, on Thursday, April 6th, 1911, at 2.30 p. m. one hundred summer residence lots, the property of the Government of the Dominion of Canada. These lots are located at Woodhaven, a sub-division of Dominion Government lands located on Bedwell Bay, on the North Arm of Burrard Inlet, British Columbia. Their accessibility to Vancouver, their location on salt water, and the grandeur of the scenery of the North Arm make these lots attractive for summer residence purposes.

TERMS OF PAYMENT.
One-quarter in cash at the time of sale, and balance in three equal annual installments, with interest on unpaid balance at the rate of five per cent. per annum. The lots will be offered subject to a certain upset price in each case. Upon a parcel of land being knocked down the purchaser shall immediately deposit the sum of fifty dollars with the clerk of sale, otherwise the parcel will at once be put up again. For this purpose intending purchasers should provide themselves with marked cheques on Chartered Banks of Canada, made to their own order and payable at par at Vancouver; or with bank notes of as large a denomination as possible. The balance of the cash instalment must in every case be paid before the close of the sale, failing which a deposit of \$50 will be forfeited and the land withdrawn from sale. Cheques will not be taken in payment unless marked accepted by the Bank on which they are drawn.

A pamphlet describing this property, and a map showing the sub-division, may be had on application to the Secretary, Department of the Interior, Ottawa; W. M. Ingram, Inspector of School Lands, Winnipeg; or to the Agents of Dominion Lands at New Westminster, B. C.; Kamloops, B. C.; Calgary, Alta.; Edmonton, Alta.; or to George McCune, Purchaser, 120 Hastings St. East, Vancouver, B. C.

P. G. KEYES, Secretary.
Department of the Interior,
Ottawa, March 24th, 1911.

GALUMET DIVIDEND.
Boston, March 25.—A quarterly dividend of \$6 a share, compared with \$7 a share three months ago, was paid to-day by the Galumet & Hecla Mining Company. The disbursement to-day makes a total of \$114,850,000 paid in dividends to stockholders since the formation of the company.

JUMP PROVES FATAL.
Hamilton, Ont., March 25.—A privileged patient named Lockhart killed himself in an attempt to escape from the Hamilton asylum by jumping from a window on Wednesday night. The dead body was found three hundred yards from the window on Thursday morning.

DAHLIA AS FOOD.
120 years ago by the Swedish naturalist, Dr. Dahl, for the purely commercial purpose of supplementing the potato! The doctor's scheme did not meet with favor, and the dahlia dish soon disappeared from British tables, but the gardeners of the Old Country at once perceived the great possibilities of the flower, and accordingly proceeded to produce the double dahlia and other delightful floral fantasies. The tubers of the dahlia, too acrid for most tastes, are still eaten in some parts of France.

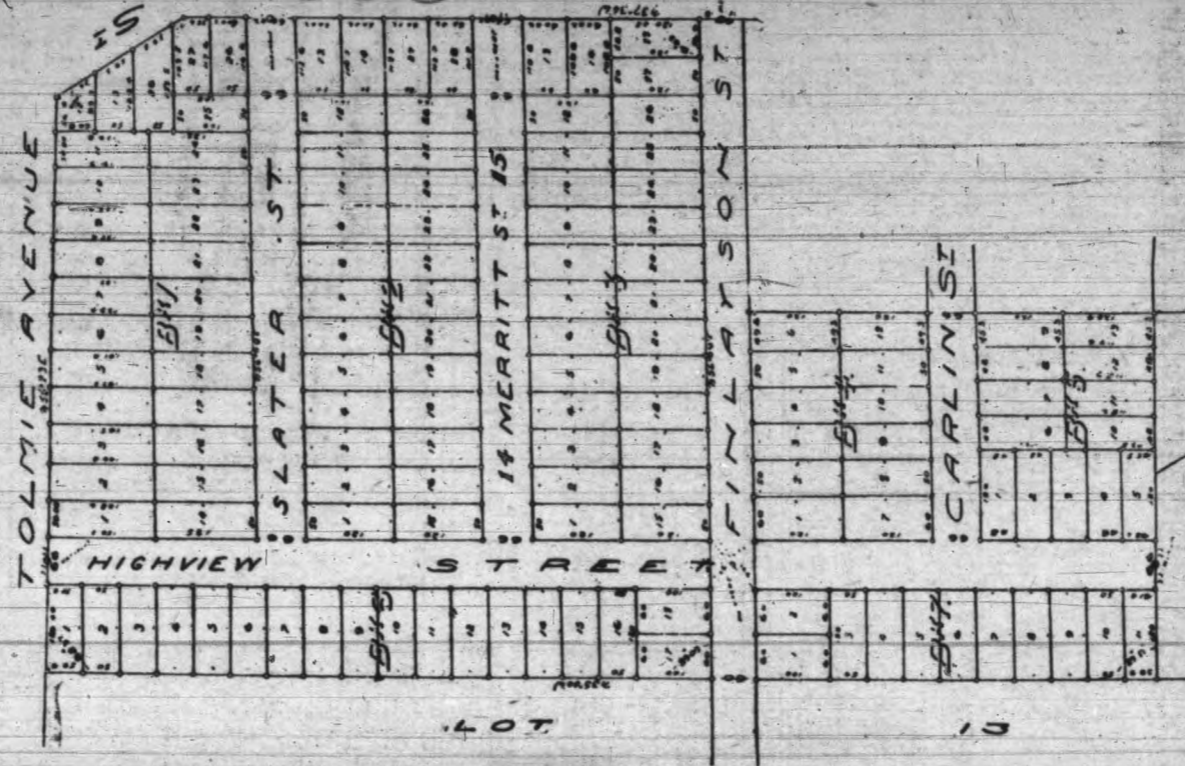

By a kind of horticultural irony the dahlia, that peculiar flower that so often forms a conspicuous display at flower shows, has a dreadfully prosaic parentage. It has been developed from the Mexican tubers introduced about

ing the exhibits to those seeking such after the show is completed and the machines returned to the respective garages. Last night great attention was paid the Canadian and American cars in the show. To the groups of people around a car, discussing its merits and making comparisons with other cars, the time appeared to pass all too quickly. The demonstrations of engines and apparatus will continue to-night throughout the show being made by the demonstrators in charge upon request of any person attending.

TWO LIVES LOST.
Louisburg, C. B., March 25.—Two Newfoundland fishermen lost their lives in the wreck of the mail steamer Bruce, plying between Port Basques, Nfld., and Cape Breton ports, which struck on a ledge at Port Noval point on the island, 20 miles northeast of Louisburg.
Thomas She, of Carboneau, and Jas. Pike, of St. Lawrence, who were on

their way to Vancouver, B. C., lost their lives, but the rest of the ship's company, including 120 passengers and the crew, numbering 30, were saved.
The two fishermen had assisted the crew in quieting the fears of the other passengers, and in getting the women and children safely ashore. It was while thus engaged that they fell into the water. The work of taking off the passengers occupied nearly three hours, and all were exhausted when the last boat load reached shore. The men built a fire around which the half-frozen men and women congregated. Some of the passengers suffered from cold, and their feet had become frozen while standing on the ice-covered decks.
The steamer will be a total loss.
Particulars of a little known English industry—the cultivation of peppermint—were given by J. C. Umney in a paper read on Tuesday before the Pharmaceutical Society, London. In the Mitcham district, he said, between 450 and 500 acres was devoted to peppermint. The total annual output of pure English oil was 10,000 pounds.

Scotch Songs, Dances, and Band Concert This Evening.—Fencing for Medal
The automobile show in progress in the drill hall under the auspices of the Victoria branch of the British and Foreign Seamen's Society, was attended last night, despite the turbulent weather, by the largest attendance of the three sessions held. The show is the first opportunity in this city to see assembled all the latest improved types of automobile. Those who own one, those who are going to own one, and those who hope to own one, maybe two, are all interested, for the auto is a magnet that draws all eyes.
The final session of the show is to-night from 8 until 11 o'clock, during which time the exhibits will be shown at their best, as they have been through the first two nights of display. Demonstrators last night were busy men, explaining to the visitors the advantageous points of the mechanism of their cars, and the show has been of much benefit to the association, as many sales have been made from the stock of cars in the drill hall.
The Ford chassis made many hundred people acquainted with the working interior of a high grade car, something that has before been, to the uninitiated, only a throb and a humming noise, was clearly apparent in detail at a glance into the interior of the open frame.
The extra attraction last night was a display of fencing and sword exercises, a long programme being ably and fully rendered. The Fifth Regiment band contributed a musical programme.
An attractive programme is offered at the show to-night, in addition to the music by the Fifth Regiment band. Miss Lily Christie will dance the Highland Fling, accompanied by Piper Norman McDonald, J. Melville, the favorite singer of Scotch melodies and instructor of Harry Lauder, whose songs he renders with great success, is to be heard in "Stop Your Ticking, Jock," and others. The other soloist to-night is W. Brooks.
The programme is the longest of the show. A fencing competition for fine medal is arranged and several local foil fencers will enter the contest. The admission fee for to-night is twenty-five cents.
Demonstrations of the cars on the roads will be given before noon to-morrow.

ROBINSON & CLEAVER LTD
IRISH LINEN
WORLD RENOWNED FOR QUALITY & VALUE

Established in 1870 at Belfast, the centre of the Irish linen trade, we have developed our business on the lines of supplying genuine Linen goods direct to the public at the lowest net prices. For manufacturing purposes we have a large fully-equipped power-loom linen factory at Banbridge, Co. Down, hand looms in many cottages for the finest work, and extensive making-up factories at Belfast. We have held Royal Warrants of Appointment since the year 1878, & have furnished Mansions, Cottages, Villas, Hotels, Clubs, Institutions, Yachts, and Steamships with complete linen outfits in almost every country in the world.

SOME OF OUR LEADING SPECIALITIES:

Household Linen.

REPORTS ON DALLAS

ROAD SEA WALL

Edward Mohun, C. E., Says Plans Were Drawn With the Greatest Care

The promised report by Edward Mohun, C. E., of the provincial public works department, on the Dallas road sea wall, was forthcoming at last evening's meeting of the city council. It proved to be in the main an argument in defence of the plans as drawn, and under which the work is being carried out by the Pacific Coast Construction Company. The report is as follows:

Sir: With reference to statements which have lately appeared in the public prints and your request for a report on the same, I have the honor to submit:

That after a close investigation into the local conditions and a careful study of the various types of walls elsewhere, constructed with similar objects, the conclusion was arrived at that the end could be most effectively and economically attained by a vertical wall, the foundations of which would be carried down below low water mark, except at its terminations at Ogden and Holland points, where it was anticipated their depth might be materially reduced.

Trial sections of a solid and of a reinforced concrete wall were made and it was found that the cost of the former

would considerably exceed that of the latter.

A comparison was then made between walls with counterforts 15 feet apart and 20 feet, and the balance in favor of economy proved to be in the latter, which type was adopted.

On August the 8th, cross sections were received from the city engineer, the position of the wall with reference to the street line being fixed by the city.

About the end of August the results of the calculations were forwarded to the city hall with a request that they be independently checked.

Detailed plans and specifications were submitted to the city council which approved of them without reservation.

A contract at schedule rates was entered into by the city and the Pacific Coast Construction Company in October, and it may be mentioned in this connection that when dealing with unknown quantities, this is the only equitable course to pursue, since the contractor is paid only for the work he actually performs, and the employer receives an equivalent for each item of his expenditure.

The drawings show a minimum depth of foundation and clause 54 of the specification reads:

"54. Excavations shall be made to the depth shown on the drawings, or if necessary deeper, until a solid foundation is obtained, to receive the footings of the wall and counterforts, and shall be made of sufficient width to permit the proper erection of the forms."

After the contract was let it was found that the calculations had not been checked, and Mr. Forman, supervising engineer, was instructed to do so, with the result that an error was found in the last set, somewhat increasing the quantities.

The amount of the first rough estimate was \$122,164.37, a reduction was effected in this by lessening the amount of granite and substituting counterforts at 20 feet centres for those at 15 feet. For this the estimate, before the calculations were checked, was \$88,518.15, and it is believed that the city engineer's estimate was slightly in excess of this. The final independent check showed that on the corrected quantities, the amended estimate would become \$98,855.40.

In Mr. Kaymur's statement as published, he has charged \$3,000, discount on debentures, as part of the cost of building the wall, a sum which is not expended on the wall, but for which an equivalent is probably obtained by the city in lower interest.

The type of wall to be adopted depends upon local conditions but the general consensus of engineering opinion appears to be in favor of either the vertical, or that with a long gradual slope. The French engineers, a body of most capable men, appear to favor the former, while those of other nations adopt either type as appears best in the particular locality, but no one type has been universally adopted, since varying conditions demand different treatment.

It is considered, as is considered here, that the beach in front of a sea wall should be protected by groynes, and on this point Mr. E. R. Matthews, Vol. CLIX, Proceedings Inst. C. E., remarks: "To carry out a system of groyning, however, without building sea walls to protect the foot of the cliffs would be waste of money, just as to build sea walls without also carrying out a proper system of groynes would be altogether insufficient."

In the present case it may reasonably be expected that the construction of groynes, at a very small expense, would not only afford protection to that part of the lower face of the wall which is exposed, but, doubtful as it may appear, increase the width of the beach, the children's playground, an appreciable distance between the wall and high water mark. Such results have been obtained in Europe under far more unfavorable conditions than govern here.

The beach in front of the site of the sea wall at its eastern end is not exposed to the full force of the southeast gales, the heaviest and the longest in duration experienced, but only to the deflected waves round Holland point. Comparisons have been made between Scarborough and Victoria, two places which have, as regards the sea, nothing in common, the former is exposed to the full fury of the stormy North Sea, with a reach of 200 miles. Waves of 40 feet in height between trough and crest have been measured, while it is very doubtful if the Dallas road ever was subjected to a sea wave more than of about six feet in height. At Scarborough and at other points a curious result has been noticed, namely, that while a heavy gale has a tendency to remove a portion of the beach, milder winds always replace it.

This matter has been dealt with at some length, as there appears to be much misapprehension on the subject, and you may be assured that no trouble has been spared in the endeavor to arrive at a satisfactory conclusion.

EDWARD MOHUN,
Assistant Engineer.

Of the \$3,647 pianos imported into British Columbia during the last four years, 76,000 were made in Germany, but of the 28,112 organs and harmoniums imported the Germans made only 100.

VICTORIA BRANCH: D. DOIG, MANAGER

Results

If the tone of the stage in New York is vicious, as has been so frequently charged, the women are chiefly to blame, according to figures compiled by Charles Frohman. These show that women make up approximately 70 per cent of the theatre-going public in New York.

The dramatic department of Harvard recently asked Frohman for evidence to prove his contention that the fate of the drama in America is in the hands of women. For answer, Frohman stationed counters at the theaters where Maude Adams, Ethel Barrymore, Billy Burke and Otis Skinner are playing.

WHAT A WOMAN CAN SELDOM DO!

A man as a rule, can go where he likes and live where he likes. He may choose his own trade or profession, and be the architect of his own fortune. A woman can't always do these things, and in one other respect she is peculiarly handicapped. A youth with sound health can look straight down the road of life, and, unless accident befall him, he stands a fair chance of coming to hale old age. But a girl cannot do this. She must tread the road, because there are critical points beyond which she cannot see, turning points which may be full of hidden dangers. Any girl is fortunate if she enters womanhood without finding herself a victim to anemia or some kindred trouble. Later, when she becomes a mother, she has a new series of dangers to face; and once again, at the changeable season of life, she must exercise every care if she is to enjoy a ripe old age.

Now, all doctors know that although women have many more ailments to contend with than can fall to the lot of man, nearly every one of these ailments can be avoided so long as a woman keeps her digestive organs in perfect working order. That is practically the whole secret!

If you want to be free from anemia, headaches, biliousness, wind, constipation, languor, irregularities of the system, debility and all kindred troubles, keep your digestive system in thorough working order, by taking Mother Seigel's Syrup daily, after meals, and all will be well.

Mrs. Barnstable, Seattle Island, C. Breton, N.S., writing on February 20th, 1910, said: "It is with gratification that I write in praise of Mother Seigel's Syrup. I have taken it for a disordered stomach and indigestion, and I have found it a certain cure, and I look upon the Syrup as the safest stomach medicine there is."

Mother Seigel's Syrup has cured not once but in thousands of cases after other medicines have bitterly disappointed. Keep it handy, and take it after meals.

and at the Garrick, where the French farce, "The Zebra," by Paul Potier, is being produced. An accurate account was kept for a week and it showed that between 65 and 69 per cent of the patrons were women.

"It was larger than I expected," Frohman said, "and indicates better than anything else the tremendous influence women have over the drama. Several years ago statistics were made of musical companies and I found women and men patrons about equal, the balance shifting with the type of production. In legitimate drama, however, women largely predominate. Certainly women do not have to vote to exercise their censorship over plays."

Marie Corelli has written a playlet in which she wittily but severely opposes the suffragette movement. The piece is called "The Sedan Chair," and although it deals with a question which has become, in reality, something more than semi-political, the authoress does not touch upon politics. Indeed, it is more or less of a love-story, and thus, appropriately enough, is told and acted in a cottage. The English papers speak of this as Miss Corelli's "first play." This is an error. She made a dramatization of her novel "Barabbas," but it was hopeless, chiefly owing to the author's lack of knowledge of stage technique. Thomas E. Shea had an ambition to try it in America, but the author resented necessary changes and it did not happen. This time Miss Corelli will rehearse and produce her own piece. Perhaps it would be unfair, and certainly it would be ungrateful, to suggest the probable fate of the playlet!

Gertrude Elliott in "The Dawn of a Tomorrow."

Those who know her sweet and womanly grace, her charm of manner and agreeable personality from seeing her behind the footlights, are not aware Gertrude Elliott (Mrs. Forbes-Robertson) has another talent besides that of acting from which she could derive a substantial living did she care to drop her stage work and take it up. Miss Elliott is a painter of china and an artist of no mean order.

As a young girl her talent in this direction was so pronounced that her dreams were all of a career as an artist. When, however, Fate stepped in and willed it otherwise, her painting

became the dearest solace of the actress. Her hours of recreation were given to her china.

Two years ago, with much trepidation, the actress sent a couple of samples of her work to an exhibition of the New York Ceramic Society. They carried off first and second prizes, and it is doubtful if her stellar honors ever gave the young woman more genuine happiness.

"I paint not only because I like it," said Miss Elliott, recently, "but to offset the monotony of my work. I did not want to go upon the stage. I wanted to be an artist, which just goes to show how one's most cherished ambitions are sometimes thrust aside by material necessities. But I never forgot I wanted to paint, and when I set up a little place of my own, I began to paint. Then I began to realize that

thing, you know, and he digs away down deep into the reason of all sorts of affairs, and—you may not believe it—for his relaxation he reads dime novels. That is positively true, and his name is a household word. Then I know a charming woman who spends all her time in philanthropic work—not the ordinary society faddy sort—but good, wholesome and helpful work, and she has a perfect mania for raising mushrooms. I know a very excellent portrait painter who finds his chief delight in carpentry, and a musician of some repute who spends hours and hours at a turning lathe evolving the chancal odds and ends. I've wondered just what John D. Rockefeller, J. P. Morgan, Mr. Ryan and the rest of the big financiers do with their spare time, and to what they turn for relaxation. I mean the real relaxation, and not the generally known golf or other prescrib-

Marie Dressler is said to have the greatest character that she has ever played. She comes direct from 350 performances at the Lew Fields' Herald square theatre, New York, with a record unsurpassed by any musical comedy Broadway has seen since "The Girl Behind the Counter."

"Tillie's Nightmare" was written expressly for Miss Dressler by Edgar Smith, with music by A. Baldwin Sioane, and both author and composer are said to have done their work well. It is in two acts and eight scenes. Miss Dressler is seen in the character of Tillie Blodds, a boarding house drudge in Skinsdale, a small town in New York state. The boarding house is run by her mother, and at the opening of the play Tillie is discovered serving the boarders with their evening meal. The party around the table includes a broken-down book-keeper, who thinks he has invented an airship; a team of cheap vaudeville actors, a country lover, a brassy drummer and a stuck-up sister, who lets Tillie do all the work of the family. Tillie's lover has promised to take her to the theatre—her first night out in two years, but at the last moment she finds she must stay home and help her mother make pickles. Tired out, she falls asleep, and her nightmare forms the story of the play. The surprises afforded by the unfolding of the plot form most attractive features. Tillie's experiences taking her to New York and Paris. All of Tillie's friends appear under the most amazing conditions, and there is a constant whirlwind of funny situations and merry lines.

Mr. Fields has spared no money in assembling the production of "Tillie's Nightmare," and he has surrounded his star with a first class cast. The list of names includes the Misses Phyllis Gordop, Angie Norton, Lottie Cart, Ethel Fairbanks, Nellie De Grasse, May Brennan, dancing girls, and the Messrs. Harry MacDonough, Lew Fields, Horace Newman, Charles H. Bowers, George and John Gorman, Harry Laughlin and Sim Pufen.

"Madame Sherry."

From New York to San Francisco is a long way, but the taste of the theatre-goers of those towns is evidently the same, for "Madame Sherry" met with just as cordial reception in the Pacific coast metropolis as it did in Manhattan. Every theatrical reviewer in San Francisco declared "Madame Sherry" to be the best musical comedy presented by the best cast, and surrounded by the most magnificent scenic accessories that had ever come to that city. In fact every city along the route, from the Atlantic to the Pacific, gave the same verdict of this sensationallly triumphant musical production, and local playgoers may consider themselves quite fortunate in having an opportunity to see it so soon after its phenomenal hit in New York. It will be seen here at the Victoria theatre in the near future.

New Grand Theatre.

Vilmos Westony, the world's one living Wagnerian pianist, is to play at the Grand theatre, which by the way is making a reputation for its classical acts, all next week, and it is probable

that this man has been engaged by every big theatrical enterprise in America for three years ahead, will repeat the success of Vancouver this present week, where Tuesday last every seat for the week was sold.

Westony is a musician. He is one of the greatest pianists in the world, who, like his compeers, is in vaudeville for the money there is in it. He is a Wagnerian student, exceedingly thorough in harmony, but the piece de resistance for the ordinary members of his Victoria audiences will be when Westony is playing four national anthems on the one piano at the one time. There is no other man known in the world who can do this. Westony telegraphed from Vancouver to-day that he is shipping over his own piano.

The three Lightions, globe performers, an act booked in London by Mr. Conaside, will probably close the show here, for it is a sensational and fast-moving succession of feats by a very handsome girl and two men, all fine performers who have made a hit in every town.

The president of the "13" club is H. T. McConnell, filled to brim with fun. He has his own company, a new comic act, lots of it, and a face for character, dition and expression that is unexcelled.

"The Walking Delegate" is an Irish labor sketch with the delegate and the hod-carrier and others. Harry Booker and his company are bringing it here, and it is a huge laugh raiser all the time.

The fifth act is Walton and Vivian, musical comedy stars from the big shows, with a farce put together to suit vaudeville, short, sharp and swift, called "The Actor and the Girl." The grandiose will flicker a little and amuse.

COVERED WITH ECZEMA

Cured by Two Bottles D. D. D.

On March 21, 1910, Mr. Angus McMillan, of Port Hood, N. S., wrote us: "My little boy, three years old, was covered from head to foot with eczema. I tried over twenty different kinds of salves and washes, but could not see any improvement—in fact it seemed to be getting worse."

"I was about discouraged and had lost faith in all kinds of so-called eczema cures, when I saw an ad. telling about D. D. D. Prescription. I sent for sample bottle and the third application convinced me that I had at last got a sure cure. Two bottles effected a complete cure."

What D. D. D. did for this little boy, it will do for any skin sufferer. A mild, soothing liquid made up of Oil of Wintergreen, Thymol, Glycerine and other ingredients, it penetrates to the root of the trouble and washes the disease germs out.

Why not get relief? Simply write to-day to the D. D. D. Laboratories, Dept. V. T., 49 Colborne street, Toronto, and they will send you a free trial bottle. C. H. Boves, 1228 Government street.

A North Sea codfisher carries a set of lines 1,200 fathoms in length, and having the amazing number of 4,000 hooks, each of which must be baited.

WILMOS WESTONY

The Wagnerian pianist and highest paid musician ever on the Grand Theatre bill.

It might be just as well to combine the art I loved with a good use, and so I began to paint on china. I wonder where I should have been after these years of hard study if I had not had some alternative relaxation? Do you know, I think it would be awfully interesting to get up a list of the alternative relaxations of men and women. I know a few people who have had the oddest ideas of this kind. There is, for instance, a man who is one of the most brilliant of our writers. He writes glorious things, academic discussions along ethical lines and all that sort of

ed physical exercise. We all need a balance and mine is painting."

Marie Dressler.

A veritable carnival of mirth is scheduled for the Victoria theatre, beginning Tuesday, April 13, when Lew Fields presents Marie Dressler in her latest and greatest triumph, "Tillie's Nightmare." The play is described as a "mixture of mirth and melody," and

PROPOSED SUBWAY AT VANCOUVER

C. P. R. Officials Interview Civic Board Regarding Access to Waterfront

Vancouver, March 24.—The proposed subway under the C. P. R. tracks in the vicinity of Carrall street, near Burrard Inlet, the granting of an honorarium to W. A. Clement, city engineer, of \$4,000, and the criticism of tenders regarding paving of thoroughfares, formed the chief subjects to come under the review of the civic board of works at the regular meeting which lasted for close upon six hours.

Regarding the proposed subway near the waterfront, Messrs. Busted, Peters and McMillan attended as a delegation representing the C. P. R. It was stated that the total cost would amount to about \$235,000, and the board thought that the question of the city's liability should be left to the discretion of the railway commissioners to decide.

Regarding the honorarium for Mr. Clement, Ald. Crowe moved and Ald. Williamson seconded, that \$4,000 be given as a kind of remuneration of rapidity and continued growth of the city. In the motion it was recited that the engineer in his six years' service had had no holidays and that he had worked on Sundays in the city's behalf. The board unanimously decided that the city engineer should be granted the \$4,000 proposed.

MINER BEARS A CHARMED LIFE Death in Two Horrible Forms Faced Him in Mine and He Escaped

Phoenix, March 24.—Dan Kovich lives to tell the tale of one of the strangest escapes in the history of the Phoenix camp. Through the arching of two rocks over him, which supported many tons of ore, he was held a prisoner for four hours in many tons of it. His head and every limb in his body was held as if encased. His precarious condition was discovered soon afterwards, but a dozen miners required four hours to extricate the prisoner. When released he walked off unaided and practically unharmed.

ACCIDENTAL DEATH Vancouver, March 24.—Accidental death was the verdict of the coroner's jury at the inquest held into the death of the late Joseph Cahill. The evidence showed that the deceased on March 12 had to watch the Chinamen on board of the S. P. Frey, who was unloading at Hastings. While walking down the gangplank he slipped and fell, striking a pile with his head. He was picked up by the watchman, J. Prindle, who at once notified the police. The unfortunate man was removed to the General Hospital, where he died as the result of his injuries, a fracture of the skull being the cause. Before the jury retired, Coroner Jeffs called the attention of the jury to the danger of the narrow gangplanks leading from the ships to the wharf, and recommended that some steps be taken to have these gangplanks made safe.

MILLION DOLLARS IN BYLAWS New Westminster, March 24.—Three by-laws totalling nearly \$1,000,000 passed at a meeting of the Burnaby council. The largest one is the Burnaby Roads Improvement Debenture bylaw for \$500,000. This will be for improving the roads already built, the opening of new roads being charged to general revenue. The debentures will probably be at 4 1/2 per cent, 40 years.

MONEY WANTED Y. M. C. A. All subscriptions to new building past due one month. Money urgently needed to open building clear.

Grand Trunk Pacific

The last and greatest Transcontinental Railway offers unusual opportunities for making profitable and safe investments in town lots in the busy and growing town of

Melville

The first Saskatchewan Divisional Point on the Grand Trunk Pacific, 279 miles west of Winnipeg, 187 miles east of Saskatoon, 514 miles east of Edmonton and 92 miles northwest of Regina. The terminus of the Grand Trunk Pacific's branch line to The Pas, to connect with the proposed Hudson Bay route. The terminus of a branch line being built by the Grand Trunk Pacific to the International Boundary by way of Regina, and will be the terminus of the Grand Trunk Pacific's proposed branch line to tap the coal fields of Lethbridge.

Melville has no near competitors and its future as a commercial centre is as assured as are its transportation advantages. The town is surrounded by rolling prairies, the soil being black clay loam, yielding as high as 42 bushels of wheat and 36 bushels of oats per acre. Only 30 per cent of the farming land in the vicinity of the town is under cultivation. Melville is but three years old and has an estimated population of 2,000, and its assessed valuation in 1910 was \$1,732,000—an increase of 350 per cent over 1909. A complete sewerage system is being installed and an up-to-date electric light plant and waterworks system are expected to be installed before the close of the present year. Melville is the largest new town on the Grand Trunk Pacific between Winnipeg and Edmonton, and is

An Important Grand Trunk Pacific Divisional Point

The rapid increase in population of Western Canada towns has made fortunes for thousands of investors who have had the foresight to discern the possibilities for profitable investments and the courage to back their judgment. You cannot make a mistake by buying lots in a Divisional Point city. The railroad makes the city, and in the case of Melville, no new city along the line of the G. T. P. between Winnipeg and Edmonton, a distance of nearly 500 miles, is likely to grow more rapidly. It is to the interest of a railway company to encourage the upbuilding of a town and it is for this reason that they are offering lots in Melville at such low prices and on such easy terms.

Price of Lots 50 x 150 \$100.00

TERMS: TEN DOLLARS CASH AND TEN DOLLARS PER MONTH. NO INTEREST AND NO TAXES TILL 1912

No new town in Western Canada offers a better or safer investment than does lots in the G. T. P. townsite of Melville. But the opportunity will not last long and we advise you to buy now, in a town backed by a rich agricultural district, and an important railroad centre. Melville cannot help continuing to grow rapidly, and continued growth means continued increase in real estate values and big profits for those who invest there at present prices. Now is the time to buy—don't put it off. The completion of the G. T. P. branch line to Lethbridge will give Melville direct connection with the rich coal fields of Southern Alberta and provide one of the main requisites for a manufacturing centre—cheap fuel, while the completion of the Grand Trunk Pacific's branch line to the International Boundary will place Melville in close touch with traffic from all parts of the United States.

International Securities Company, Limited Land Commissioner, Grand Trunk Pacific

UNCLE WALT The Poet-Philosopher

THE LIMIT. When I am groaning with the grip-an ill that sorely tries me—my neighbors, in good fellowship, come over to advise me. One says I ought to take some pills to stop my coughs and sneezes; another thinks a dose of squills would cure all such diseases. One tells me I should go to bed and drink some warm molasses. Another says: "Go, soak your head—that will dissipate the gases." And every man who's sick endures this brand of mortal anguish; beneath a thousand kinds of cures he still abides with him until he meets the duffer, who cries, with load and brutal vim: "You only think you suffer! Get up, get up and cease your groaning, abandon this confusion! You have no aching head or bones—it's all a cheap delusion! Why have the doctor made a trip, and bring his train of nurses? There are no things like colds or grip, or sneezes, coughs or cures. Don't sit around and weep and sigh, and say things wild and woolly; swear you are well, though it's a lie, and you'll be feeling bully!" Such language jars me to the quick, when I am weak and ailing; what fun is there in being sick, if one must quit his wailing?

HINDUS TAKE UP REAL ESTATE

Turbanned Shadows Invade Victoria's Realty Market

Talk about infection. Why there is nothing to touch it. Real estate is the most contagious disease that ever struck the Pacific Coast. Half the town is richly settled with its conspicuous symptoms and the other half is stifling with desire to acquire a fuller complement of its fashionable "spots." One can feel the presence of its devotees or victims according to the point of view, which, translated, means the view point of the lot before they are seen.

They always carry with them the rosate atmosphere of smiling fortune bursting forth in joyous transport from a deep impenetrable setting of indigo, the whole being delightfully suggestive of big rain in a manure-heap. In spite of its wonderful disseminating propensities, however, it has never been suspected that the color line that famous protector of racial integrity is, would-be clipped. Yet it has been clipped, and that, too, at a point least suspected of weakness.

Even now in the midst of the greatest boom that ever re-echoed over the British Columbia coast, the real estate interest has been invaded by a company of Hindus, of all the people in the world. Their entry into the great game puts a knock-out punch to another of the favorite conceptions of the white world. The prevalent illusion regarding the Hindu is that he can live comfortably on nothing a year so long as it is paid him in monthly instalments with compound interest on the outlying amount.

Iconoclasm of the most distressing kind is what the new situation amounts to. Verily every mansion is built upon a pit and every higher thought is the result of a perished idol. Philosophy and science open its doors wide to men of all races and nationalities, but real estate—well, who would have thought it? Yes, the Khalsa Realty Company, consisting solely of the members of the "astral" race, have opened premises on Langley street and are at present busy in pursuit of the afore-said spots. They are interested in city property of the most potential character and are proving themselves most imitative of their white colleagues in founding up business.

THE LION SALOON.

To the Editor: Kindly permit me space in your columns re article in the News of the 18th inst. "A Spring Ridge Proposal."

The writer, who undoubtedly is ashamed of signing his name to statement made by him in that valuable paper regarding my intention of erecting an up-to-date hotel on my property on the site of the present Lion saloon. I beg to state that no disgraceful scenes as mentioned by him have ever occurred outside my premises, which place has always been run clean. The writer

Hunyadi Janos
Natural Laxative Water
Speedy Sure Contle
Quickly Relieves
CONSTIPATION

has the audacity to state that 90 per cent of the people in the vicinity object to the hotel being erected. I think this is altogether a dream of his. He suggests that I should secure a site in closer proximity to town. I have been here for years and a large tax-payer, and I object to his proposal of a move. However, the writer can easily get over the difficulty which he has so much at heart by buying my saloon license for the sum of \$4,000, and probably some of the 90 per cent of his friends will help him out, if only for the good of the cause. In the event of his buying I will close the saloon for good on the 15th of July. I have no doubt if I was a petition seeker the 90 per cent would be in favor of my building a first-class hotel, which is greatly needed, and no better site adapted for same than the present site of the old Lion saloon, being on the corner of a main trunk road. At the present time I fully intend to build a first-class hotel according to the building by-law and provincial statute.

ARMY TRAINING IN UNITED STATES

Major-General Carter Urges the Establishment of Division Post

San Antonio, March 25.—Recommendation for the establishment of an army division post at some desirable point in the United States is being made to the war department by Major-General W. H. Carter, commanding the division post so as to give the troops the required training in the operation of a division as a tactical unit.

General Carter has suggested that Fort Harrison, at Indianapolis, be selected. A division should be kept there constantly, he says, with frequent changes of regiments so as to give every arm of the service divisional drill. The idea is that the division be kept working under actual field conditions and that every regiment undergo the discipline.

TO TAX UNMARRIED WOMEN.

Madison, Wis., March 25.—A bill to tax \$5 annually every unmarried woman over 25 years of age and to create a "matrimonial commission" consisting of the governor, superintendent of public property and chief clerk of the assembly by Assemblyman Hansen of Manitowish. The matrimonial commission is charged with the duty of bringing together kindred souls when application is made for an affinity by any loveborn maiden.

Tea Time Talks 1300 Varieties of Tea

Of the 1300 kinds of tea, some must be better than others. Among these better teas "Salada" Ceylon Tea towers high as the sunny mountain slopes on which it is grown.

The plantations of "Salada" have the best advantages of soil and climate. The tea plants are the choicest, and only the tender leaves and buds are used. "Salada" comes to you in sealed air-tight packages preserving its delicacy and excluding all outside taint of dust and dirt.

Ask your grocer for "Salada" Tea or send for a free trial package which makes 10 cups of delicious tea. We will mail it to you without charge. See whether you see Black, Mixed or Green Tea and the price you pay per pound.

The "Salada" Tea Co.

ENCOURAGE DAIRYMEN.

Lieut.-Governor Paterson Donates Cup for Competition Among Smaller Dairies.

An incentive to dairymen to produce the best they are capable of has just been provided them by his Honor Lieut.-Governor Paterson, who has donated a handsome cup to the Dairymen's Association of British Columbia. The primary object of the cup is to encourage the smaller dairymen. The trophy will be open for competition

among dairies having from five to fifteen cows.

The conditions of the competition are simple and effective. All entries must be in by May 1st. Two inspections of the competitors' premises will then be made during the ensuing year, one in the summer and one in the winter, by competent judges appointed by the association, and the dairymen who, in their opinion, has maintained the highest standard of modern culture will be awarded the cup.

If any one dairymen should win the competition three years, whether successively or not, the cup will become his own personal property. Besides the cup the competition carries with it three medals, gold, silver and bronze respectively.

Only about 20 per cent. of the waiters in German hotels and restaurants receive any wages, as they are expected to live on their fees.

Henry II. of France was the first man to wear a pair of silk stockings, though cloth hose had been worn for some time.

STOLYPIN WILL REMAIN IN OFFICE

AGREES TO WITHDRAW HIS RESIGNATION

Two Reactionary Opponents Dismissed From Council of the Empire

St. Petersburg, March 25.—Premier Stolypin, who last Monday sent in his resignation, has agreed to remain in office. The cabinet crisis, therefore, is at an end.

An imperial decree, issued yesterday, suspended M. Trepoft and M. Durnovo, members of the council of the empire, from all sittings of the council until January 1912. M. Stolypin has insisted on the removal of these reactionary opponents of his policy as the price for his retaining office, and it is understood it was the negotiation of this point that led to a prolongation of the cabinet crisis. Imperial decrees adjourning the Duma and the council of the empire for three days are published.

Punishment in other forms will be meted out to other members of the council of the empire who participated in the discomfiture of Premier Stolypin by causing the rejection by the council of the empire of the essential features of his zemstvo bill, which provided for self-government in the nine western provinces. This bill was rejected as a whole yesterday.

The retention by M. Stolypin of the premiership and the decision to punish Trepoft, Durnovo and others who antagonized him, was arrived at after considerable hesitation on the part of Emperor Nicholas. At first Stolypin's resignation was accepted and negotiations were entered into with M. Kokovsov, minister of finance, to accept the premiership, but his conditions included full liberty in the selection of his cabinet. This proved inacceptable.

The chorus of approval for the selection of Kokovsov by the Russian Liberal press and its ill-concealed jubilation over the fall of Stolypin were ably employed by interested parties to persuade his Majesty to accept Stolypin's demands.

In further satisfaction of Stolypin's conditions, Emperor Nicholas seemingly has decided in sanction the zemstvo bill by imperial prerogative for, according to paragraph 87 of the fundamental laws, ukases were signed yesterday adjourning the Duma and the council of the empire for three days, thereby creating an interval during which laws can be issued by imperial action. Such laws must be submitted to the Duma, however, within two months after the opening.

The zemstvo bill in that case undoubtedly will be rushed through both chambers, as the council of the empire is now thoroughly overawed.

A WOMAN'S ADVICE TO WOMEN

TAKE GIN PILLS

Tyneside P. O., Ont.

"I received your sample of GIN PILLS and after using them I felt so much better that I got a box at my druggist's, and now I am taking the third box.

"The pain across my back and kidneys has almost entirely gone and I am better than I have been for years. I was a great sufferer from Rheumatism, but it has all left me. I strongly advise all women who suffer from Pain in the Back and Weak Kidneys, to try GIN PILLS.

"MRS. T. HARRIS."

Thousands of women, right here in Canada, owe their robust health, their strength and vigor, their bright eyes and rosy cheeks to GIN PILLS. And they know that GIN PILLS will cure the Kidney and Bladder Troubles with which so many women suffer.

Do just as Mrs. Harris did—first, write for a free sample box of GIN PILLS and try them. Then, if they do you good, get the regular 50c boxes at your dealer's. Your money promptly refunded if GIN PILLS fail to give relief. National Drug and Chemical Co., Dept. V. T., Toronto.

Dishes may be warmed and food or other articles heated without the use of a stove by a metal rack that a Massachusetts man has invented to hang upon a steam radiator.

EDSON EDSON EDSON

The most important Divisional Point, west of Winnipeg, on the Grand Trunk Pacific Railway

The Gateway to the heart of the Peace River District. The choicest farming lands of Southern Sunny Alberta, where 1000 homesteads have been thrown open to the homeseekers, and the Government has made provision for 10,800 more in order to provide homesteads for the influx of people to this locality this summer

A COMMERCIAL CENTRE

EDSON holds the key position to the Brazian Coal Fields, greatest in Canada, also the richest farming district, and being thus situated between the two great Commonwealths it is certain to be the distributing point for each.

Chamberlain Park The most beautiful subdivision, overlooking the city, being of high elevation and well drained, only two blocks from main thoroughfare. Our company is the only one in the city that has a subdivision for sale within the incorporate limits of the City of Edson. WE CALL YOUR ATTENTION to the facts, that lots are selling rapidly and have only a few choice ones left to be sold at the present prices. For the benefit of those unable to call during business hours we will keep the office open evenings until nine o'clock. N. B.—We solicit the patronage of the small investor.

PREMIER SCOTT IS IN VICTORIA

GIVES LIE DIRECT TO REPORT OF ILL HEALTH

Able Head of Saskatchewan's
Government Converses About
the Golden-Belted Province

For the next couple of weeks Hon. Walter Scott, premier of Saskatchewan, will be a visitor in Victoria, not, as has been suggested, to recuperate his health, which was falsely alleged to have been falling him, but merely to prosecute some private business and at the same pay homage to the Queen city of the west.

HON. WALTER SCOTT
Premier of Saskatchewan, Who is a Visitor to Victoria at Present.

Inland scriber, is in pretty ship-shape order. Greeting the Times representative with the nicely tempered courtesy he very soon launched out into an enthusiastic word picture of the province of which he is the honored head. He spoke in modest but eloquent terms of the advancement which his province had made in material as well as intellectual fields, without giving rise to a suggestion of exaggeration. His mode of speech is like his own features, clearly-cut, concise, unequivocal.

With charming candour, that was in violent contrast to the official mysticism of some political heads, the premier of Saskatchewan conversed freely about the various topics that are of interest to the people of his province particularly, and to the people of the entire Dominion comparatively.

"Reciprocity, did you say?" And the smile that accompanied the query had almost audible qualifications. "Saskatchewan carried reciprocity nem con. Even the leader of the Conservative opposition, Mr. Haultain, as well as his followers, placed themselves on record in favor of the treaty. Every body of men in the province, board of trade and all; was unanimously in favor of it. Oh, we understand something about reciprocity over there."

Switching on to matters of local interest (to Saskatchewan), the premier discussed the grain elevators, over which there had been so much agitation among the farmers of late.

"We have adopted, on the recommendation of the Royal commission, legislation which will make possible the creation of a new co-operative elevator company, which will be endowed with the authority and the means to construct and operate elevators. The farmers had complained bitterly against the present system of privately owned elevators, from which they alleged they did not obtain justice. Now, however, under the new scheme they will have their own elevators."

"The government will provide eighty-five per cent. of the cost and the farmers themselves will only be required to pay fifteen per cent. As security for its money the government will hold a mortgage on the property, together with the insurance policies. And, of course, they will also have the eighty-five per cent. unpaid subscriptions."

This action on the part of the legislature should be an object lesson to other similarly situated bodies. It is by such advice that false steps can be averted and heavy expenditure avoided.

Premier Scott is an educational enthusiast, and it is no wonder therefore that the subject of the new provincial university should lighten up his countenance with a gleam of pleasure. "The new university, which is located at Saskatoon, and which will be completed and ready for occupancy this fall, is a million-dollar structure."

That when occasion demands it will be possible to extend or enlarge them without the inconvenient makeshift of building annexes.

"Our provincial parliament building at Regina will, when completed, be the finest structure of the kind in Canada," remarked Mr. Scott. Transfixing the unconvinced expression that involuntarily appeared for a moment on the face of his interviewer, the premier went on to show the substantial foundation on which his assertion was based. The exterior of the building is completed now and it is anticipated that the finishing touches will be put to it by June of this year, when it will be formally opened. Lord Grey laid the foundation stone in October, 1904. It stands in the midst of 170 acres of land which are associated with its purposes alone. That of itself is a most pretentious circumstance, and one can easily imagine the imposing dignity of an architectural triumph reposing in such a luxuriance of space.

"Have you any debts?" "Yes," said Premier Scott, Saskatchewan, has a seven-million-dollar debt. But, and this is the point, that debt is represented by the existence at the present time of one and a half million dollars of itself in the bank, by an efficient and ever-growing telephone system valued at \$1,500,000, by a similar amount in the parliament buildings to date, by the court houses and registry office and by the host of magnificent bridges which have been erected to interlace the different parts of the province more tightly together."

Debt, do you say? Why, these are assets of the most valuable type. The premier's last word to his interviewer was in regard to immigration, and it was a most hopeful optimistic word, too. He says that the present year's influx, which is likely to be a record, has already started and Saskatchewan is getting more
