DEPARTMENT OF ECONOMICS AND DEVELOPMENT

950 Yonge Street, Toronto

The Ontario Department of Economics and Development works to promote and assist economic and industrial growth and development and to study, analyze, make recommendations and advise upon matters relating to economic and financial conditions, trends and policies. Its main areas of responsibility are:

Trade and Industry—An extensive development program, including establishment of a research community is now being implemented throughout the province. An Ontario "trade crusade" to increase employment and increase the province's economic growth rate is underway. This program includes establishment of trade offices in Europe and extension of government offices in United States and the United Kingdom; sales opportunity missions to various parts of the world; manufacturing opportunities shows at which imported components are displayed so that Ontario firms can obtain new business; manufacturers cooperative agencies to represent small Ontario companies abroad; and a massive public education campaign to encourage manufacturers to get out and export, and consumers to purchase more Canadian-

made goods. The department is also active in promoting licensing arrangements and branch plants.

Housing—An active public housing program is being carried out for the benefit of families in low and moderate income brackets, for senior citizens and persons suffering some kinds of physical handicaps. Included in the program are land assembly, low rental housing construction, leased rental accommodation, redevelopment housing, special housing grants, and a province-wide housing advisory committee.

Economics—Underlying the development work of other branches of the department, are the economic and social studies carried out in the Special Research and Surveys, Finance and Economic Branches.

 Total Local Municipalities939
 Counties (43)*..... 38
 Metropolitan Toronto1

 Total Incorporated Municipalities978

The northern portion of the Province of Ontario is divided into 11 Districts and the southern portion into 43 Counties. The union of the following counties, Leeds-Grenville, Northumberland-Durham, Prescott-Russell and Stormont-Dundas and Glengarry reduces the county administrations to 38 distinct units for local government. The districts, unlike counties, are not organized for municipal purposes and as a result, the 229 incorporated municipalities contained therein are not united for municipal administration.

With the exception of the 26 cities, the 13 municipalities comprising the municipality of metropolitan Toronto and the 7 separated towns which are located within counties, the remaining 663 local municipalities in counties are united for administration in the counties of which they form part. This relationship is for the purpose of the administration of inter-related interests such as education, roads, welfare and administration of justice. Members of the County Councils are composed of the Reeves of all the local municipalities within the county and in certain cases the deputy Reeves.

The 7 separated towns are: Gananoque, Ingersoll, Prescott, Riverside, St. Marys, Smiths Falls, Trenton.

POLICE VILLAGES

In addition to the organized villages listed elsewhere in the Ontario section of the Canadian Almanac, there are some 163 police villages.

A police village is run by a Board of Trustees elected by the residents. The Board of Trustees runs its local affairs, but cannot levy any taxes or make by-laws which involve the borrowing of money. It has to send in a requisition to the authorities of the township of which it is part for any finances it requires, such as for local improvements or lighting or village constabulary.

*There are 43 Counties, some of which are united for purposes of local government as follows:
 Leeds and Grenville,
 Northumberland and Durham,
 Prescott and Russell,
 Stormont, Dundas and Glengarry.

METROPOLITAN TORONTO

The municipality of Metropolitan Toronto, by act of legislature, Bill 80 controls the following utilities: in 13 autonomous, contiguous municipalities certain roads in Metropolitan Toronto, Toronto Transit Commission, Metropolitan School Board, Metropolitan Toronto Planning Board, Works Department, Police Department.

The areas affected are: City of Toronto, Township of York, Township of North York, Township of East York, Township of Scarborough, Township of Etobicoke, Village of Forest Hill, Town of Leaside, Town of Mimico, Town of New Toronto, Village of Long Branch, Town of Weston, Village of Swanses.

IMPROVEMENT DISTRICTS

In 1943 The Municipal Act was amended to provide for the incorporation of Improvement Districts having the municipal status of towns, townships or villages, administered by three trustees appointed by the Lieutenant-Governor in Council.

DATES OF MUNICIPAL ELECTIONS

Municipal elections in Ontario are held at various dates provided for by The Municipal Act, Chapter 249, R.S.O. 1960, sections 43-51.

Section 43 provides that the nominations shall be held at noon on the last Monday in December except when the last Monday is Christmas day in which case nominations shall be held on the preceding Friday, and the date for polling shall be the first Monday in January; unless council under authority of section 44, not later than November 1st, passes a by-law fixing dates during the period November 15th to January 2nd both inclusive for nominations and elections, said dates to be other than a Sunday or the 24th, 25th or 31st of December and provided the day fixed for nominations is not less than seven days prior to the day fixed for polling, in force until repealed, but no appeal or amendment after 1st of November of any year.

In addition, when new municipalities are erected, the Municipal Board may set the date for the holding of their first elections

Prince Edward Island elects two types of members to the House—*Councillors* and *Assemblymen*—a system unaltered since the Legislative Council was merged with the Assembly in 1893. Each of the 15 constituencies elects one of each. While their status in the House is the same, only property owners, their wives or husbands, overseas veterans and clergymen may vote for councillors. (Property owners also can vote for councillors in every riding in which they hold land.)

CANADIAN GOVERNMENT ANNUITIES

The Government Annuities System was set up in 1908 to encourage persons resident or domiciled in Canada to save for their old age by the purchase of deferred annuities and to enable older citizens to stretch out their accumulated savings by the purchase of immediate annuities. Canadian Government Annuities are payable for life and may be guaranteed for a period of years certain. Under deferred annuities, premiums are returned with interest if the annuitant dies before the annuity commences. The maximum amount of annuity obtainable is \$1,200.00 a year. It may be obtained with an income reduction of \$75.00 a month at 70, thus fitting in with the Old Age Security Act, in which event the maximum is the actuarial equivalent of \$1,200 a year.

Individual contracts are in most instances eligible

for registration as Retirement Savings Plans to get tax exemption on premiums in accordance with Section 79B of the Income Tax Act.

Employers may operate their pension plans through the purchase of Government Annuities for, or on behalf of, their employees. There are 1,365 such pension plans in operation, covering 155,586 working employees. In addition, there are 90,473 individual deferred annuity contracts in force. Annuity in the annual amount of \$50,922,505 is being paid under 90,607 individual contracts and group certificates.

The premiums are moderate and annuities may be purchased through Canadian Government Annuities offices in 46 communities across Canada, or directly from Head Office.

For full particulars apply to C. R. McCord, Director of Annuities, Department of Labour, Ottawa.

The National Gallery of Canada was established
under the National Gallery of Canada Act (S.C.,
1912-13. Chapter 33—now the National Gallery Act,

R.S.C., 1952, Chapter 186). The beginnings of the
National Gallery of Canada are associated with the
founding of the Royal Canadian Academy of Arts in
1880. The Marquess of Lorne, then Governor General,
had recommended, and assisted the founding of the
Academy. Among the three tasks he assigned to that
institution, one charged them with the establishment
of a National Gallery at the seat of government. Lord
Lorne also selected a group of pictures which formed
the nucleus of the permanent collection. Until 1907,
the National Gallery was directly under the control
of a Minister of the Crown. In that year, the govern-
ment appointed an Advisory Arts Council of laymen
to administer grants to the National Gallery. In
1910, the first professional curator was appointed.
In 1913, when the National Gallery was incorporated
by Act of Parliament, responsibility for administration
was vested in a Board of Trustees appointed by the
Governor in Council. The function of the Board is to
administer and manage the Gallery, develop and con-
serve the national art collections, to encourage public
interest in the arts and to promote the interests of
art throughout the country. Today, the Board of
Trustees is composed of nine members representing
all sections of Canada. In 1951, responsibility for
the Gallery was transferred from the Minister of
Public Works to the Minister of Citizenship and
Immigration, and in 1963 to the Secretary of State.

In 1957, the development of a Conservation and Scientific Research Division, as applied to works of art, was begun. The National Gallery of Canada carries out an extensive programme. Exhibitions of art collections from abroad, from its own holdings, and from private and public sources are organized and circulated in Canada and abroad. Educational services are offered to the general public across Canada. Among these are included films, publications and reproductions of works of art. Lecture tours are also organized. A tour program of the National Gallery collections is available to visitors to, and residents of, Ottawa.

THE NATIONAL MUSEUM OF CANADA, OTTAWA

The National Museum of Canada originated in the Geological Survey of Canada which was founded in 1842 by Sir William Logan. Formerly the Victoria Memorial Museum, authority to designate it as the "National Museum of Canada", was given by Order-in-Council P.C. 2615 of January, 1927.

In 1957 the Museum was divided into two branches—the Natural History Branch which carries out scientific research and is responsible for exhibits in the field of natural history, and the Human History Branch which has the same responsibilities in the field of human history.

The Royal Ontario Museum of the University of Toronto is the world's largest university museum. It is primarily a research institution, but its 95 galleries of exhibits afford students and the general public an opportunity for both study and recreation. Expeditions are active in many parts of the world. The Museum offers a year round program of exhibitions, films and lectures. The main building is located at the north-east corner of the University of Toronto campus at Bloor Street and Avenue Road. The Sigmund Samuel Canadiana Gallery of the ROM is at 14 Queen's Park Crescent W. The main building is open to the public from 10 a.m. to 5 p.m. Monday to Saturday and from 1 to 5 p.m. Sundays. Adult admission is 25c, students and accompanied children free. The Canadiana Gallery is free to all visitors and is open at the same hours as the main building with the exception of Mondays, when it is closed.

ART AND ARCHAEOLOGY DEPARTMENTS

Chief Archaeologist—A. D. Tushingham, B.D., Ph.D., F.S.A.; *Far Eastern—Curator*, Henry Trubner, M.A.; *Ethnology—Curator*, E. S. Rogers, M.A., Ph.D.; *Greek and Roman—Curator*, J. W. Graham, M.A., Ph.D.; *European—Curator*, Gerard Brett, M.C., M.A.; *Near Eastern—Curator*, Miss Winnifred Needler, M.A.; *Textiles—Curator*, Mrs. K. B. Brett; *Canadiana—Assistant Curator in charge*, Scott Symons, M.A.; *Registrar*—Miss D. Hecken, Ph.D.; *Display Chief (General)*—Harley Parker.

The large collections of these departments housed in 78 galleries, illustrate man's life, skills and arts through many centuries and in many lands—from the stone ages through the historical periods. The Near Eastern galleries document his earliest attempts to achieve an ordered, sedentary existence particularly in Egypt, Mesopotamia and neighbouring lands. Objects from Crete, Cyprus, Greece and Italy demonstrate the important pre-classical and classical heritage. The fine collection of Greek vases is particularly significant. The cultural history of Europe through the mediaeval and into the modern period is set forth in arms and armour, sculpture, ceramics, silver and glass, furniture, textiles, and costumes. Canada's cultural past is illustrated by textiles, furniture and wood carving in the main building and by paintings, prints and memorabilia in the Sigmund Samuel Canadiana Collection. The Far Eastern collection is of great importance with stress laid on Chinese bronzes, ceramics, jades, lacquers and tomb groups. The Ethnological collection is very large, illustrating the cultures of the American aborigines in North, Central and South America but containing important materials from all over the world.

Continually changing Special Exhibitions utilize both loan materials and objects from the permanent collections to focus public attention on particular aspects of man's culture.

EARTH SCIENCES DEPARTMENTS

Chief Mineralogist—V. B. Meen, M.A., Ph.D.; *Mineralogy—Curator*, J. A. Mandarino, B.S., M.S., Ph.D.; *Geology—Curator*, W. M. Tovell, B.A., M.S., Ph.D.; *Display Chief (Mineralogy)*—J. B. Hillen.

These departments have four galleries: (1) Physical Geology, (2) Mineral Deposits, (3) Precambrian Geology, and (4) Mineralogy. The first three were completed in November, 1962, with the aid of funds generously provided by the Trustees of the J. P. Bickell Foundation. The Gallery of Physical Geology is devoted to the features of the Toronto region, glaciation, rock formations, and the origin of the earth. It also contains the six-foot diameter Bickell Globe which divides to show the earth's interior. Meteorites and meteoritic craters are exhibited in

this area. The Gallery of Mineral Deposits explains the origin and environment of economic mineral occurrences in general, and specific examples are given from eight mining districts of Ontario. A wall map 16 feet high and 20 feet wide shows, with 400 small electric lights, the distribution of 30 important mineral products of Canada. The lights turn on and off automatically, in sequence. The Gallery of Precambrian Geology features a model to show the enormity of Precambrian time compared to total earth history, and exhibits portray the complexity and importance of Precambrian Geology. This Gallery also contains an exhibit of highgrade gold ores.

The Mineralogy Gallery, housing one of the world's important mineral collections, is being re-designed, and the major portion is closed to the public. A small gallery has been prepared for the purpose of displaying fine mineral specimens, and the more important items of the gem collection.

LIFE SCIENCES DEPARTMENTS

Chief Biologist, L. S. Russell, M.A., Ph.D.; *Birds*—*Assistant Curator*, J. L. Baillie; *Mammals*—*Curator*, R. L. Peterson, M.Sc., Ph.D.; *Fishes*—*Curator*, W. B. Scott, Ph.D.; *Associate Curator*, E. J. Crossman, Ph.D.; *Invertebrates*—*Curator*, G. B. Wiggins, M.A., Ph.D.; *Fossil Vertebrates*—*Associate Curator*—A. G. Edmund, M.A., Ph.D.; *Fossil Invertebrates*—*Associate Curator*, R. R. H. Leimon, M.A., Ph.D.; *Display Chief (Biology)*—T. M. Shortt.

The gallery of Canadian animals features a reasonably complete collection of well-displayed mammals and birds. Numerous habitat groups and special displays explain life histories and other features of interest. Opened in 1960 is a gallery which shows the life habits and adaptations of reptiles from all areas of the world, as well as a comprehensive display of the amphibians and reptiles of Canada. The recently-built gallery of fishes has a colourful systematic series, plus several excellent habitat groups and models of commercial fishing equipment. Displays in the gallery of foreign animals include representatives of most groups of mammals, birds and insects. The three galleries in the palaeontology section contain many rare and unique specimens. The systematic collection of invertebrates, is currently under re-construction. The dinosaur gallery features many complete skeletons and type specimens from the Cretaceous of Western Canada. A recent addition to the gallery of fossil mammals and fishes is an exhibit of bones recovered from the tar pits of Peru by a museum expedition. In 1962 a gallery of reptiles, with more than 150 specimens, was opened. It includes a series of dioramas with lifelike habitats and backgrounds.

The scope and authenticity of the gallery displays is made possible by the continuous study of the vast library and research collections maintained in the departmental laboratories. The collections are also used by scholars the world over, being especially rich in birds, mammals, spiders, aquatic insects, Cretaceous dinosaurs and lower Paleozoic invertebrates.

THE RELIGIOUS SOCIETY OF FRIENDS

QUAKERS

The Religious Society of Friends originated in England in the 17th Century. Its distinctive Christian witness has been based on what has been called "The Inner Light". Quakers believe that "there is something of God in every man", and that human personality is of great importance. From this conviction arises the Quaker way of worship and the well-known interest in peace, penal reform, and other questions involving the use of goodwill in overcoming evil. *Presiding Clerk*: C. LeRoy Jones, 73 Denvale Rd., Toronto 16.

CANADIAN YEARLY MEETING

Canadian Yearly Meeting of The Religious Society of Friends was formed in 1955, amalgamating Canada Yearly Meeting, Genesee Yearly Meeting and Canada Yearly Meeting (Conservative). *Presiding Clerk*, C. LeRoy Jones, 73 Denvale Rd., Toronto 16; *Assistant Clerks*, Dorothy Muma, 118 Hazelton Ave., Toronto 5 and Bertha Pollard, Norwich, Ont.; *Secretary of Yearly Meeting*, Fred Haslam, 60 Lowther Ave., Toronto *Clerk of Representative Meeting*, W. CHURCH STATISTICS

Clergy: 8; Churches: 6; Members of the Canadian Council of Churches.

THE SYNAGOGUE IN CANADA

There is no federation of synagogues in Canada. Each synagogue is autonomous, is responsible to no superiors, affiliated with no hierarchy. Any group of Jews may form a synagogue, which does not necessarily require the services of a rabbi, any individual being eligible to lead in the recital of prayers.

There are three tendencies evident in Judaism—orthodox, conservative and reform. The orthodox tendency parallels the fundamentalist movement in Christianity; the reform tendency is modernism in

Judaism; the conservative tendency is the middle movement.

Several synagogues in Canada are affiliated with the Union of American Hebrew Congregations, the federation of reform synagogues. Several other Canadian synagogues are affiliated with the United Synagogue of America (conservative). Most of the Canadian congregations are orthodox and are not affiliated with any parent organization, which in any case has no authority over its constituent members.

Provision is made for the education of Deaf, Mute and Blind children of New Brunswick at approved Institutions outside the Province.

The cost of educating Blind children is borne in equal parts by the provincial government and the Municipality in which the student concerned is a resident.

In September 1961 the Interprovincial School for the Education of the Deaf was opened in Amherst, Nova Scotia. This is a joint project between the provinces of New Brunswick and Nova Scotia. Students from Prince Edward Island and Newfoundland are admitted on a tuition basis. This school, at the present time, is for English-speaking students only.

The municipality in which a deaf child is a resident pays a maximum of seven hundred and fifty dollars toward the cost of educating said child with the government paying all costs in excess of seven hundred and fifty dollars.

English-speaking blind students from New Brunswick attend a School for the Blind in Halifax, Nova Scotia.

French-speaking students are educated at approved institutions in the Province of Quebec.

(See Nova Scotia listing below).

NEWFOUNDLAND

Newfoundland has no schools for the Blind but the Provincial Government makes substantial contributions towards the cost of tuition and board for the education of blind children at the Halifax School for the Blind. This year a school for the deaf was opened in temporary quarters at Fort Pepperrell. The Institute is a private organization supported by some Government grants and public subscriptions. Its Employment Department trains and places blind men and women in general business and industrial positions. It operates sheltered shops to afford employment for blind men and women who, because of age, physical handicaps, or personal preferences cannot work in regular industry. It controls tobacco stands, news stands and industrial cafeterias, managed by the sightless. It gives instruction in Braille reading and writing, typewriting and handicrafts. It supplies raw materials at cost and provides facilities for the sale of articles made by home-workers. It maintains libraries of Braille and Talking Books. Every division has a social service department, and in some of the larger cities (22) there are residences and rehabilitation centres for the blind. The Institute is also active in preventing blindness wherever possible. CNIB maintains a year-round recreation program as a means of adjustment and development for the blind.

The Eye Bank of Canada, providing healthy tissue for the sight-restoring corneal transplant, is a CNIB Service.

 The Council, established in 1920, is a national association of organizations and individual citizens in partnership to secure comprehensive, well-administered social services of high quality for the Canadian people. It furnishes authoritative information, technical advice and field service in the main areas of social welfare and provides a means of co-operative planning and action between the public and private agencies. The policies and programs of the Council are determined by its members with the help of a nationally representative board of governors. Council publications include the periodicals *Canadian Welfare* and *Bien-être social canadien*, a directory of Canadian welfare services, division bulletins, pamphlets and reports.

Provided further that this discount shall not apply in the case in which the duty does not exceed fifteen per centum *ad valorem*, or, in the case of a specific

SPECIAL NOTES RE TREATIES, ETC.

BRITISH PREFERENTIAL TARIFF

Section 5 of the Customs Tariff Act provides that, with certain exceptions, goods entitled to entry under the British Preferential Tariff are subject to a discount of ten per cent on the amount of duty computed under such tariff when the *ad valorem* rate of duty exceeds fifteen per cent, or in the case of a specific duty or a specific and *ad valorem* duty combined the computed rate exceeds fifteen per cent *ad valorem*. The exceptions, to which the discount does not apply are sugar, tobacco, cigars, cigarettes, wines, malt liquors, spirits, spirituous liquors, liquid medicines and articles containing alcohol, imported goods which have the benefit of reductions provided for in the Canada-West Indies Trade Agreement, 1926, and goods on which the rate of customs duty under the British Preferential Tariff is the same as the rate of customs duty under the Most-Favored-Nation Tariff.

AUSTRALIAN TRADE AGREEMENT

Goods the growth, produce or manufacture of Australia enumerated in Schedule "A" of this Agreement enjoy the benefits indicated in the said Schedule and also enjoy the benefit of the lowest rates of customs duty applicable to similar goods imported from any other country. Certain margins of preference must be maintained between the Most-Favored-Nation rates and those provided in Schedule "A". To enjoy these tariff advantages, the goods are required to be shipped direct from Australia into Canada except in special cases where goods are shipped from Australia to Canada on a through bill of lading and the Australian Government certifies that direct shipment to Canada is not reasonably practicable. All other goods, being the growth, produce or manufacture of Australia, when imported into Canada enjoy the benefits of the British Preferential Tariff. Notwithstanding the provisions of the customs laws and regulations of Canada or other provisions of the Agreement, dried currants and raisins that are the growth or produce of Australia and that are not imported direct into Canada shall be subject to Most-Favored-Nation Tariff rates. Goods imported in accordance with the terms of the Agreement are not subject to the provisions of section 6 of the Customs Tariff except under certain conditions outlined in Article VI of the Agreement.

NEW ZEALAND TRADE AGREEMENT

The rates of duty set forth in Schedule "A" of this Agreement, when lower than the British Preferential Tariff rates on similar goods, apply to New Zealand only and not to other countries entitled to the benefits of the British Preferential Tariff. The rates indicated in Schedule "A" shall in no case be higher than the rates chargeable on similar goods under the British Preferential Tariff. To all other goods, the produce or manufacture of New Zealand, the benefits of the British Preferential Tariff are granted. To enjoy the tariff advantages under this Agreement goods are required to be shipped direct into Canada from New Zealand, except in special cases where goods are shipped from New Zealand to Canada on a through bill of lading and the New Zealand Government certifies that direct shipment to Canada is not reasonably practicable. Goods imported in accordance with the terms of this Agreement are not subject to the provisions of Section 6 of the Customs Tariff Act, except under certain conditions outlined in Article 4 of the Agreement. Attention is drawn to the fact that, under Section 3 of the Customs Tariff Act, New Zealand is entitled to the benefits of the British Preferential Tariff, and hence New Zealand goods imported from a country entitled to the benefits of the British Preferential Tariff, and not direct as provided in the Agreement, are entitled to British Preferential Tariff rates but subject to the provisions of Section 6 of the Customs Tariff Act. The benefits of the Agreement also apply to goods the produce or manufacture of Western Samoa and the Cook Islands. Goods, the produce or manufacture of New Zealand, are entitled to as favourable rates as are granted to any foreign country.

WEST INDIES TRADE AGREEMENT

Goods, the produce or manufacture of any of the Colonies mentioned in the Agreement, which are conveyed without transhipment (except transhipment at a port of any of the said Colonies) by ship, direct into a sea or river port of Canada, are entitled to entry at the rates of duties provided for in the Agreement. Goods other than those provided for in Schedule "A" shall not be subject to more than fifty per cent of the duties imposed on similar goods under the General Tariff, with the exception of tobacco, cigars, cigarettes and spirituous or alcoholic liquors.

Attention is drawn to the fact that the Colonies mentioned in this Agreement are entitled to the benefits of the British Preferential Tariff. Goods the produce or manufacture of any of the Colonies mentioned in the Agreement, are entitled to as favourable rates as are granted to any foreign country.

UNION OF SOUTH AFRICA TRADE AGREEMENT

Goods the produce or manufacture of the Union of South Africa, enumerated in Schedule "A" of this Agreement, enjoy the benefit of the concessions indicated in the said Schedule and also enjoy the benefit of the lowest rates of Customs duty applicable to similar goods imported from any country, provided that such goods shall not be entitled to the benefit now accorded to the products of the British West Indies, Bermuda, British Guiana, and British Honduras by virtue of the trade agreement existing between the Governments of these colonies and the Government of Canada. To enjoy the tariff advantages under this Agreement goods are required to be imported direct from the Union of South Africa into Canada. Indian corn or maize, the produce of the Union of South Africa, imported into the Dominion of Canada at a price not lower than that quoted for Indian corn or maize of similar quality on the Baltic Exchange, London, shall not be subject to the provisions of Section 6 of the Customs Tariff of Canada; this provision will cease to be operative if after 30th April 1934, the export of Indian corn or maize from the Union of South Africa to the Dominion of Canada be subsidized. For the purposes of this Agreement, the Mandated Territory of South West Africa shall be deemed to be part of the Union of South Africa. Attention is drawn to the fact that, under Section 3 of the Customs Tariff Act, the Union of South Africa is entitled to the benefits of the British Preferential Tariff.

GENERAL AGREEMENT ON TARIFFS AND TRADE

Tariff items and rates of duty under the General Agreement on Tariffs and Trade (GATT), are shown in Schedule "A" of the Customs Tariff *only* when they differ in text or when the rates are lower than those established by Statute or by Order in Council. When tariff items and rates of duty in GATT are identical with legislatively established items and rates, they are not repeated in this Office Consolidation, but they are indicated by the symbol ■. For complete information regarding GATT items and bound rates, see Customs Memorandum D48-2.

PROOF OF ORIGIN

4. Proof of origin, as prescribed by the Minister of National Revenue, shall be furnished with the bill of entry at the Customs House for goods admitted to entry under any of the Tariffs, and that the decision of the Minister of National Revenue shall be final as to the Tariff or Surtax applicable in any case to imported goods by reason of their origin.

Provided, that goods for which entry is claimed under the Most-Favored-Nation Tariff shall be bona fide the produce or manufacture of a country which has been admitted to the benefits of such Most Favored Nation Tariff;

Provided further that every manufactured article to be admitted under the British Preferential Tariff shall be bona fide the manufacture of a British country entitled to the benefits of such British Preferential Tariff, and that a substantial portion of the value of the manufactured article has been produced by industry in one or more of such countries.

6. If at any time it appears to the satisfaction of the Minister that any person owning or controlling or interested in a business in Canada and also in any other country, or any person carrying on a business in any other country and owning or controlling or interested in a business operating in Canada, and by reason thereof is enabled to import goods for further manufacture or assembling or for resale, and while complying with the legal requirements on importation disposes of such imported goods, whether in the form as imported or as further processed, assembled or manufactured, at prices below the duty paid value thereof as entered at Customs plus, or including all charges upon the goods after shipment from the place whence exported direct to Canada, including sales, distribution and advertising costs, and plus if any, the cost of processing, assembling or further manufacturing in Canada, the Minister may declare that goods of such class or kind were and are on importation subject to an additional special or dumping duty not exceeding fifty per cent and authorize such action as is deemed necessary for the collection thereof.

7. If the full amount of any special duty of Customs as herein provided has not been paid on goods imported, the Customs entry thereof shall be amended and the deficiency paid upon the demand of the Collector.

10. For the purpose of this Act goods shall not be deemed to be of a class or kind made or produced in Canada unless so made or produced in substantial quantities; and the Governor in Council may provide that such quantities, to be substantial, shall be sufficient to supply a certain percentage of the normal Canadian consumption and may fix such percentages.

CUSTOMS PROCEDURE, ETC.

EXPORTING TO THE UNITED STATES

The customs laws of the United States, governing the importation of goods, very materially differ from ours. They have no such thing as the manifesting system such as we have, and all merchandise is supposed to be entered at the first port of arrival. However, they have ports termed I.T. Ports (immediate transport ports) to which goods may be forwarded in bond, without appraisal at the frontier port. In this case the goods must be carefully marked "Forwarded in Bond."

Merchandise, in order to be entered under Immediate Transportation, without appraisal at the frontier, must be destined to a designated immediate transportation port, and must be billed via a port at which merchandise may be entered for transportation to another port without appraisal.

These ports through which goods must be billed and to which they must be consigned may be learned from the transportation company as the lists are too extensive to be given space here.

If goods are destined for a foreign country they are entirely under Transportation and Exportation entry in bond, in transit, for exportation from the seaboard port.

EXPORTING TO OTHER COUNTRIES

Exporters requiring information regarding invoice forms and Customs Regulations of other countries, applying to goods exported from Canada, should write to Department of Trade and Commerce, Ottawa.

GIFTS TO THOSE ON ACTIVE SERVICE

To be exported as gifts, addressed to members of the armed forces of the British Commonwealth or their Allies, do not require a permit to export.

GOODS TO BE RETURNED TO THE U.S.

Merchants finding it necessary to return goods not according to order and wishing to obtain refund of duty will be required to make out four different forms to accompany the way bill when goods are shipped back. If shipment is over \$100.00 the forms are as follow:

1. "Foreign Owner's Oath" or "Oath of American Manufacture."
2. American Consular Certificate.
3. Export papers in triplicate.
4. One certified copy of Customs Incoming Manifest.

Where shipment is under \$100.00 the American Consular Certificate and Incoming Manifest are not required.

The intending consignee must send to the U.S. shipper for an affidavit on a prescribed form, mentioned above as the Oath of American Manufacture, declaring the goods to be of United States origin or manufacture, in order that the goods when returned may pass the U.S. Customs without duty.

When this affidavit is received it must be attached to the way bill by the transportation agent here and forwarded along with the goods. This will enable the United States Customs Officer at the frontier to recognize the goods as home manufacture and have them forwarded on to destination without duty. The original U.S. shipper may secure these forms at his Customs, but a better way is for the intending consignee to secure a copy from the local express agent here and forward same to the U.S. firm with all necessary explanation as to line of procedure and thus avoid possible delay.

The American Consular Certificate forms must be obtained from the nearest American Consul, who will send blank forms in triplicate. These must be filled in as required and returned to the American Consul with his fee, when he will return one copy to the intending consignee, who will attach same to way bill with other documents mentioned.

Export entry, procurable from Customs Department, must be made out by consignee in triplicate and attached to way bill together with the Foreign Owner's Oath, Consular Certificate and Incoming Manifest. One copy will remain on file at the port of exit, the second copy goes to the Dominion Bureau of Statistics and the third copy will be returned by the Customs officer at the Canadian port of exit to the merchant who returned the goods. He will then attach it to the refund of duty claim along with a copy of the way bill as a guarantee that the goods have been returned.

Goods must be in Customs custody within 12 months of date of importation.

CURRENCY CERTIFICATE OF INVOICE

Importers should, when ordering goods from Britain or any foreign country, instruct the exporter or salesman to always give the value of the goods in the fair market value column of the invoice and to show the same in the currency of the country of export.

Internal taxes should be definitely stated.

The exporter should also be very carefully instructed to place on the invoice the currency certificate.

GOODS SHORT LANDED

In the case of goods duty paid and short received, delivery of same upon subsequent arrival can be obtained, without payment of duty anew, only when the following regulations are observed:—

(a) Notice of the short receipt of goods must be given to the collector in writing within thirty days of entry.

(b) If the goods have been omitted from the shipment, a declaration to that effect must be produced from the exporter.

(c) If a portion of the consignment has been delayed in transit by the carriers, a declaration to this effect will be required from the latter.

(d) No portion of a consignment of goods, duty-paid, in respect of which a short shipment occurs, is to be disposed of by the importer until the appraiser has had an opportunity of checking over the goods.

SETTLERS' EFFECTS ENTRY

Settlers' effects are admitted duty free, if actually owned abroad by the settler for at least six months before his removal to Canada, and subject to regulations prescribed by the Minister.

Provided that any dutiable article entered as settlers' effects may not be so entered unless declared by the settler on his first arrival, and shall not be sold or otherwise disposed of without payment of duty until after twelve months' actual use in Canada.

Settlers' effects, viz.—Machines and implements for agricultural purposes, moved by mechanical power, and motor vehicles valued at not more than \$2500 and boats for fishing purposes, if actually owned abroad by the settler for at least six months before his removal to Canada, are free subject to regulations prescribed by the Minister of National Revenue.

Provided that in respect to motor vehicles valued in excess of \$2500 duty shall be payable only on the amount in excess of \$2500.

Goods which the Collector considers cannot be sealed securely shall be checked against the manifest, and shall be unloaded for this purpose at the expense of the carrier, if, in the Collector's opinion, a satisfactory check cannot otherwise be made.

22. Where motor vehicles which cannot be sealed arrive at a frontier port with large pieces of machinery or other items of weight and size that cannot be unloaded without the loss of considerable time and labour, but which can be readily checked as to identity on the vehicle, the Collector may permit the load to go forward in bond without seals.

23. Where the nature of the goods or the type of vehicle used does not permit of the merchandise being placed under seal, or unreasonable time and labour would be involved in unloading and checking the goods, or for any other reason, the Collector may, at his discretion, permit the load to be moved in bond under the convoy of a customs officer, at the expense of the party accommodated.

24. Bonded carriers transporting in bond goods from a frontier port of entry to a bigway suffrance warehouse may discharge part cargoes at any approved highway suffrance warehouse en route to final destination provided that the goods are discharged from the motor vehicle during regular warehouse hours under the supervision of a customs officer who will reseal the vehicle.

25. A list of the various established highway suffrance warehouses will be found in Customs Memorandum D9.

26. (1) Canadian manufactured or duty-paid bonded highway vehicles need not be sealed for movements in Canada when the shipments have been checked against the manifest and the in bond goods may be forwarded in these vehicles with domestic or duty-paid goods.

(2) Less than truckload shipments which have been checked at the frontier or interior port of lading may be transhipped at various carriers' terminals to other carriers if manifested by the original bonded carrier on port of destination. In such case, the carrier preparing the manifest is held responsible for delivery of the goods to Customs, failing this, for the duty and taxes applicable thereto.

27. Goods ex-vessel may be permitted to go forward unbecked in unsealed vehicles to a highway suffrance warehouse where the physical check of the contents will be conducted. The carrier will be held responsible for producing these goods to Customs and Short Landed Certificates are not to be issued in respect to this particular type of movement.

28. (1) In bond goods for export and transported in a motor vehicle which is not secured by a customs seal shall be checked against the manifest by a customs officer at the frontier port of exit.

(2) A carrier who has been issued a general or single trip permit may, in addition to the original load taken for export from a warehouse, pick up additional goods for export from warehouses at other customs ports en route to the frontier port of exit.

29. In respect to vehicles identified in accordance with the provisions of section 6, the onus is on the operators to submit to the RCM Police or Customs, when requested, evidence that the equipment is duty and tax paid. The symbols "Canada Customs Bonded Carrier" are to be displayed in legible characters on both sides of trucks, tractors, trailers, semi-trailers and boxes. Chassis or bogie units may, if necessary, have a tag or plate of sufficient size affixed thereto for this purpose.

30. Any change in the number of vehicles which serves to increase the fleet must be reported to the Department immediately. Where a transportation company has furnished a maximum bond of \$25,000 no such report is necessary.

31. Vehicles operating pursuant to the provisions of sections 8 and 9 of these regulations will be issued Commercial Vehicle Permit form E 50B at the time of arrival at the frontier port of entry and the permit must be surrendered at the port of exit. A separate permit will be issued for the tractor, trailer, semi-trailer, chassis and/or bogie and box.

32. (1) In the event that an accident or other emergency, occurs in the course of transporting goods in bond, which requires that customs seals be broken, the driver of the motor vehicle shall report the accident or emergency forthwith by telephone, telegraph or other expeditious means to the Collector at the nearest customs port, or, if a Collector cannot be located, to the RCM Police, and shall request the attendance of an officer.

(2) In such case the supervising officer shall endorse the customs manifest(s) carried by the driver with particulars of the accident or emergency and details of the loss or damage to the goods in bond.

(3) Any goods in bond, which, as a result of the accident or emergency, cannot be forwarded immediately, shall be stored in accordance with directions of the Collector.

(4) Notwithstanding subsection (1) goods carried in unsealed vehicles may be transferred to another vehicle without benefit of supervision.

(5) Any person requiring the attendance of an officer under this section shall pay the special service charges prescribed by the Special Service Regulations.

33. Canadian manufactured or duty-paid vehicles engaged in commercial operations which are exported temporarily are to be documented on permit form E 60.

34. Permit form E 60 shall be used to cover vehicles employed in the transportation of goods in transit through the United States and, if necessary, separate forms E 60 may be issued to cover tractors and semi-trailers; trailers conveying the goods in transit may be detached from the tractors which originally moved them out of Canada and attached to other Canadian tractors in the United States, provided that the trailer and tractor units are documented by separate forms E 60; the use of non-duty-paid tractors for the purpose of hauling trailers moving goods in transit through the United States for any part of the journey is prohibited, and any violation of this regulation shall result in the privilege of transportation of goods in transit being denied the offending carrier. In the event that accessories are installed on duty and tax paid vehicles, the permit E 60 must be surrendered on the vehicle's return to Canada and be replaced by a new permit.

35. In the case of accident or other emergency while en route through United States territory, the driver shall report the circumstances to the nearest United States Customs Officer or State Police, and shall request the United States official to endorse a copy of the manifest indicating the nature and circumstances of the accident or emergency. When the goods finally reach the Canadian Border they shall be checked in detail at the expense of the operator.

36. The transportation of bonded goods from a suffrage warehouse to an examining warehouse for appraisal and examination shall be performed by a carrier under contract to the Department and such carrier shall not be required to be bonded under these regulations.

37. Customs seals, serially numbered, are available on requisition, for use at all customs offices and shall be used wherever seals are applied and a charge of 25 cents made for each truck, trailer or semi-trailer, irrespective of the number of seals used to close the various openings on each vehicle. The charge shall be collected from the parties accommodated at the time of sealing, except where monthly settlements are made by trucking companies engaged in scheduled operations.

38. (1) Vehicles engaged in in transit operations through Canada which have been secured with Yellow Ball In Transit Seals by U.S. Customs officers at United States ports of exit shall be permitted to proceed in transit through Canada without further sealing or examination of this cargo.

(2) Vehicles engaged in in transit operations through the United States are to be secured with Green Ball In Transit Seals applied by Canadian Customs officers at the port of exit from Canada.

39. A vehicle equipped with a two-way radio installation or mobile telephone may be permitted entry into Canada under vehicle permit, provided that the applicant for the permit produces a written authorization signed by the Controller of Telecommunications, Department of Transport, Ottawa, authorizing him to use the equipment in Canada; where such authorization is not produced, the vehicle may be permitted to proceed only after the installation has been placed under customs seal in such a manner as to prevent its operation in Canada; on report outwards the seal will be removed by the customs officers, but should the seal be found to have been broken or removed, the vehicle will be subject to seizure; the fact that the vehicle is equipped with a two-way radio or mobile telephone installation shall be noted on the permit form.

40. (1) A tractor which has not been duty and tax paid cannot be used to haul a trailer which it did not pick up at the frontier examining warehouse or originally bring into Canada for the delivery of merchandise at an inland point.

(2) Where a vehicle imported into Canada pursuant to these regulations requires to be repaired in Canada, the person to whom a commercial vehicle permit has been issued for the vehicle may import such replacement parts, not including tires, as are required to be installed on the vehicle free of duty and taxes, if:

- (a) he completes temporary admission permit (form E 29B) in respect of the parts,
- (b) any parts which are replaced by parts imported pursuant to this section are exported from Canada in the repaired vehicle or abandoned to the Crown pursuant to section 77 of the Customs Act,
- (c) he surrenders the temporary admission permit to the Collector of Customs and Excise on the exportation of the vehicle.

41. In the case where a Canadian vehicle abroad requires repairs or the necessity of accessories being added to the vehicle, the provisions of the regulations in respect to the Repair or Addition to Canadian Goods Abroad, are to apply.

42. All manifests are to be prepared by the transportation company before they are submitted to the Collector of Customs and Excise. Advice Note Manifest forms A 8A are obtainable from the Department or a Collector of Customs and Excise, for a nominal charge. Other forms of highway manifests are issued by the Department free of charge.

43. Transportation companies may, if they so desire, utilize private printing of their own form A 8A Advice Note Manifests. Although prior approval of the printing of these forms is not necessary, they must conform with the specimen.

44. The form A 8A manifest is to consist of six (6) part carbon interleaved or No Carbon Required paper pasted sets 8 x 5 1/2 inches, with all parts perforated at the stub. The name of the transportation company is to be printed at the top of each copy. Waybill numbers and dates, if required, may be shown in the upper left hand corner or in the blank space at the bottom of the form provided for the use of the carrier. All other space is reserved for information required by Customs.

45. An advice note manifest is to be prepared in detail by the carrier for each separate shipment. The manifest shall state; the name and address of the importer or consignee and the consignor, the actual number of packages carried, i.e., complete shipment "10 cartons" or in the case of part shipments "6 cartons—part lot of 10", a description of the goods, the weight of the goods, the amount of the carrier's charges and whether the charges are "advance, prepaid or collect".
