

Disaster		Sum of funding allocations per country (EUR) ¹	
	Complex Emergency		50 000 - 80 000
	Fire		80 000 - 100 000
	Floods		100 000 - 175 000
	Conflict		175 000 - 200 000
	Cyclone		200 000 - 400 000
	Drought		
	Earthquake		
	Elections		
	Outbreak		
	Population Movement		
	Severe Weather		
	Volcanic Eruption		

¹Maximum single funding allocation is EUR 200 000. Some countries received more than one allocation.

In 2023, DG ECHO allocated more than EUR 9 million to the International Federation of Red Cross and Red Crescent Societies (IFRC) to support its Disaster Response Emergency Fund (DREF). DREF provides immediate financial support to National Red Cross and Red Crescent Societies worldwide, enabling them to carry out their unique role as first responders after a disaster.

From January to December 2023, this EU funding was used for **65 DREF Operations** in 50 countries. The support has been vital to providing effective and timely humanitarian assistance to the local communities affected by disasters, as well as to securing essential health services, hygiene promotion and social mobilisation.
