d. Sponsorship

Sponsored by: Kochi Pref. Audio Visual Library
Kochi Pref. Information Section.
Kochi Pref. Local Affairs Section
Each Local Office

Business program for the month of September.

1. Travelling movie show according to CIE special plan.

A show of CIE films "United Nations answer aggression", "Japanese Diet Members visit an America State Legisulature" and "Japanese women leaders visit cleveland city" will be held for 18 days from Sept. 7 to Sept. 27 at main areas (18 towns and villages), day and night every-day, together with explanation meeting on the reformed taxation system under joint sponsorships of Kochi Ken Film Library, Pref. Information Section, Local Affairs Section and each local office. The tour will be made by car.

2. Training course for pref. information officials of every section on manufacture and utilization of information materials, and use of machines and tools for visual-audio education.

According to the arrangements made at the conference of each section's information officials on Aug. 16, the above training course will be conducted from Sept. 10 to Sept. 17 for promotion of visual-audio information activities under the joint sponsorships of the Visual-audio Office and the Information Section.

3. Improvements of equipments and repletion of materials for Visual-audio Library.

The existing library causes the public many inconveniences in its location and structure, so improvement measures will be taken.
It is now difficult to move it into the Central Library owing to the latter's facilities being also poor. Therefore the present place (at the Social Education Section) will be improved to be widely used and fully equipped, while name-plates be put at the main points in the pref. office so as to easily make known the location of the Visual-audio Library. Moreover various reference materials will be filled up to intensify the utilization of the library.

4. Guidance and training course for various organizations of each town and village on utilization of visual-audio education materials.

A training course on utilization of visual-audio education materials will be given at the main 5 areas of this prefecture to city, town and village officials, young men's associations, school teachers and various others. It will be first conducted at Togawa-mura for 5 towns and villages in the northern part of Hata-gun for the month of September.

5. Training course on manufacture of magic lantern slides.

Sept

Self-manufacture of the slides is highly demanded with the recent intensification of the use of them.
The above training course was held in Kochi City on June 22 and 23. In response to the desires of local people it will be held also at 10 places of this prefecture in succession after September.
(The schedule is now being made out)

c. Issuance of licence for projector operation:

Issued licences to those attendants who passed the test given by this office.
In July, 28 people got the licence. Up to date the number of licences issued totals to; 720.

7. Audio Education -------- Record Concert:

The above was given at Prefectural Library on July 29 with the regular travelling records offered by CIE for month of July.

8. Gist of conversation and inspection of Mr. Iwartz (?) chief of CIE GHQ.

a. Gist of conversation

(1) Viewed from nationwide angle.

There is some difference among prefectures.
As an instance, the actual status of Niigata-Ken was disclosed.
Many people are utilizing CIE films.
Governor and other senior officials are acting positively.
Previous showing is practiced rationally attended by Governor & other senior officials.
New arrivals of films are exhibited in "Komin Kan" CPH.
Audio-visual education is infiltrated through out all prefectural sections.

(2) Concerning purview of sectional chief.

It is desired No. 103 directive of "Ki Sha" to be strictly observed. (In Kochi-Ken every thing is effected along the line of the above directive)

(3) Re preview showing

Motive power of dissemination of andiovisual education lies in the preview showing.
Decide how to utilize the films upon practicing preview showing contacting with all sections and organizations concerned.
It is the responsibility of sectional chief to have adults utilize fully the movie films and slides.
New arrivals of films are to be publicized for introduction in all publications edited by the related sections as close contact with Information Section.

(4) Re maintaining liaison with Information Section.

Sectional chief must spare no effort in maintaining liaison with Information Section.
Information Section must keep full contact with other sections in connection with the utilization of the films.
Information Section through such media as radio, press, and pamphlet must do itw best to let the public utilize the audiovisual education materials in possession with the film library.

(5) Re utilization of slide show

Kochi-Ken is anxious to have social education institutes and other organizations utilize these slide show more than the school authorities.
As this slide show machine is an excellent apparatus, it is desired to try to utilize it.
Let the teachers training school as the education department of a university, study and train this machine and it will give an inducement for its future utilization.

(6) In responce to the question of actual state of Kochi-Ken, we gave an explanation about the structure in Kochi-Ken.

(7) Approach the senior officials of Prefectural Office and Education Board with functions of Film Library for their consideration and try to get budgetary appropriations as much as you can.

(8) Try to build up CPH as a lower structure and infiltrate into town and village there through.

(9) Let the Film Library make a list of owners of audio-visual education media as film and slide projectors Etc and should give information to those who are in need of them.

(10) Re movie film theatre utilization.

It should be very prudent to show the educational film together with the theatrical films as there is least expected anything educational in the theatres.
To use theatrical film is likely to provoke friction with the enterpriser.
It is not permissible to charge people by showing theatrical films. If such is done, report is speedily wanted to me.

(11) It is desired to make effort to conduct audio-visual education chiefly for adult people from the pure educational point of view.

b. Results of Inspection

(1) Facilities are very poor.

(2) Envirovment is bad.

These (1) and (2) are due to lack of understanding on the part of prefectural leading staff and Education Board. Endeavour should be paid by officials in charge to urge the public attention for the improvement of these matters.

(3) Business transaction

Proper steps should be taken as soon as possible to prepare and ajust the cards so as to get visitors' satisfactories.
(The same steps will be required as to magic lantern slides.)

(4) As Film Library is an establishment to serve prefectural people, the present location is unfavourable for them. Effort should be made to move it soon into the Kochi Central Library, recently completed, after consultation with the head librarian and the section chief.

9. Events in use of sound-recording reproduction amplefier.

a. Social Education Study Convention from July 3 to 8.
The amplefier was used as an audio-visual education material.

b. Jurenile Crime Prevention Campaign from July 9 to 10.

The amplefier was equipped on car and used for publicity of the purport of the campaign in Kochi City and its vicinity.

c. "Medicine & Health Week" from July 12 to 14.

Equipped on car and used for dissemination of the campaign in Kochi City and its vicinity.

d. "Summer Training Camp" sponsored by Kochi Prefectural Child Welfare Section, from July 28 to 31.

Used for recreation.

Kochi
July 1, 1950

To: Chief of Shikoku Civil Affairs Region
Attention: Civil Information Section

Subject: Monthly Report --- June, 1950

From: Takao Okabayashi, in charge of Visual Education,
Kochi Prefecture

1. Activities plan --- July, 1950

a. Taking advantage of the Social Education Study Meeting which will be held at Kubokawa-machi, Noichi-machi, and Ino-machi on July 3rd and 4th, 5th and 6th, and 7th and 8th respectively, it is planned to disseminate the visual education and discuss about the management of Audio-visual Education Committee.

b. To open short course on utilization of visual education materials and visual education for college and high school students during their summer vacation:

To those who finished the fundamental and technical parts in visual education short course which were given as the plan for month of June the higher class will be opened in order to develop audio-visual education and to foster the leaders in communities.

c. To adopt the visual education course in the short course for Teachers Qualification:

To give the lesson concerning the theory and practice of visual education at the free hours in the afternoon.

The lesson will be given two hours per week for eight weeks in continuation.

2. Utilization plan --- July, 1950

a. In public information activities, it is designed to make full use of audio-visual education instruments and materials and CIE films. Especially the concerned people in city, towns and villages will be encouraged for high utilization of them.

b. Guidance will be given to city, towns and villages for higher utilization and popularization of exhibits.

Report on Special Events
(for June)

(1) Meeting of Film Library District Federal Committee was held.

There are film library committees in 15 districts in this prefecture, and they are in charge of visual education.
A federal meeting of these committees was held on June 2 at the projection room of prefectural film library.
Main subject discussed was to equalize activities of each committee.

(2) A committee meeting to study visual education in senior high schools was held.

The above committee which was established to develop visual education in high school held a meeting at 2 p.m. on June 16 for three hours at prefectural film library projection room.
Main subjects discussed were:
(a) To utilize CIE records to the highest degree.
(b) During the summer vacation, studies will be done on visual education and utilization of educational materials.
Thirty-eight persons from 16 schools were present.

(3) A Short Course to study drawing of slide pictures was held.

The said course was held at No. 4 primary School June 22, and 23 from 9 a.m. to disseminate drawing of slide pictures and enhance the utility of visual education materials.
Lecturer was Mr. Sato, Chief of the Slide Education Study Institute in Tokyo, and those who took part in the course wished to hold this kind of course frequently in future.
One hundred twenty two persons were present.

(4) Preview of films for teaching and a meeting for actual teaching were held.

How to utilize the films for education was fully studied and consulted in above meeting which was held in No. 6 Primary School, Kochi City from 10 a.m. to 4 p.m. 26th June.
Actual teaching was practiced with 6th year pupils under the instruction of Mr. Tatsuya Iwai of Sakai Municipal education research institution Osaka-fu.
It was attended by 54 persons who came from all "gun" of Kochi-ken.

(5) Social Study result announcement meeting.

15th June a meeting on above was held in Keiji-mura, Kami-gun.
Major programs were:
1. On Women's problems by Kochi NHK announcer Mr. Fujimoto.
2. Movie film: "Growing women"

To persons consisting of 23 men and 47 women attended this meeting and discussed on the above programs.

This meeting was very successful due to scrupulous preparation on the part of sponsor and to attendants' eagerness.

(6) Film projector operation training.

a. Course for technique or above in Film Library Kochi-ken

1. For 15 days from 1st week to 3rd week in June excepting Saturday, every day from 2 p.m. to 5 p.m. operation technique of Natoco projector and fundamental visual education were given to High School Pupils.

2. These pupils were composed of 5 representatives from each High School.

3. 45 pupils from 9 schools were the totals.

b. Film experts operators travel to teach and train local operators.

2 Film Library expert operators travelled all over Kochi-Ken for above purpose for 6 days each and also showed how to maintain the projector.

c. Issue of operation certificates to the attendants upon test.

In June 63 persons were given above certificates totalling the recipients to 693 in all.

(7) Re Audio Education (Record Concert)

Periodical tour of Record Concert with records offered by CIE in June was effected as under.

5 concerts were held attended by 1245 person.
It is encouraging to have attendants increased month by month.

TRIP NOTE (Tokushima) 14 May 1951

SUBJECT: Conflict between Mr. Kawano, superintendent of Tokushima prefectural Board of Education and Mr. Sugiyama prefectural Visual Aid Officer on political view.

REPORTER: Sogawa

- - - - - - - - - - - - - - - - - - - -

The following is the summary of findings obtained through interviews between the reporter and following persons: Mr. Sugiyama Audio Visual Aid Officer, Social Education Section, School Board, Mr. Kamachi, Chief of the Pref. Central Library (Memorial Hall), Mr. Shima Vice superintendent of the School Board, Mr. Ichimiya, Chief of General Affairs Section, School Board, Mr. Hashimoto, official of Social Education Section, School Board, and Mr. Kawasaki assistant chief of Pref. Information Section. The reporters attempt to see Mr. Kawano, superintendent of Board of Education ~~failewin~~ fell into failure on account of his trip to Tokyo.

Testimony by Sugiyama:

Being the very man who has brought the speech and conduct of the superintendent of School Board into severe criticism of the general people through papers, he disclosed the superintendent in harsh tone from begining to end of the interview.

1. At the social education officials' conference held on 9 April 10 days earlier than scheduled, the Superintendent openly urged about 15 attendants to support Mr. Kageyama, a candidate recommended by the Teachers' Union for the governor's election. He further added all of the school board officials should not break the same step and those who were not in favor of this has already been fired.
The above mentioned reveals two facts. One is that the conference was purposely conducted earlier inconsideration of the voting day decided, though it was scheduled on 20 April. The other is that Superintendent put himself into political problems and threatened the lower officials with personal affairs.

2. At the end of the conference, Sugiyama in great resentment proposed to all, saying "We cannot keep the step with the superintendent, because it is a serious matter for the education administration that education officials would get in the political campaign, whatever the candidates may be no reaction, however, was heard from the attendants.

3. On 20 April, the chief of the Social Education Section called all social education officials under his direction. All of them excepts Sugiyama, decided to go out in the fields in order to get information on the Governors election. This attempt was done to lead the Kageyama's campaign more favorably. As a result, only few men remained in the until the election was over. It was too deplorable for Sugiyama to keep his lips dumb. So he sliped his tongue to a reporter of Tokushima Shimbun who had already known how positively the superintendent behaved himself at the School Principal Conferences as well.

4. Naturally these facts were brought to light by the Tokushima Shimbun as an editorial and an article which read "A certain social education officials talk as follows"

On the following day when the article appeared, he was summoned by the Social Education Chief, who urged Sugiyama to quit his position after reprimanding. Sugiyama, on the cantrary, immediately revealed his intention to stay in the Section as long as possible to fight against such a decayed situation of the School Board.

5. Dispite his struggle, the School Board Office continued to appear as if it had been the Election Office of the Kageyama's side. Therefore, to appeal the real state to the Public opinion, Sugiyama prepared an open letter for press release in secret. This information, however, was brought to the Superintendent by a betrayer one day before the press release was done. The superintendent sent an officials to Shugiyamass and proposed the ~~writh~~ withdrawal such an impudent open letter as discribing vicious conducts of the headman. Sugiyama rejected the proposal and moreover retarted that he was ready to bring a suit against the superintendent unless the problem was not clarified by public opinion.

6. The open letter was released by The Tokushima Shimbun on 8 May, and has been creating a great sensation among people day by day. (See the trnaslation). Sugiyama showed me several letters which came from his sympathizers. To my answer Sugiyama replied, "I have no relation with Mr. Abe, apponent to Mr. Kegayama . I am rather afraid that what I am doing is inclined to give something advantageous to the side of Mr. Abe. I am too helpless to fight against the superintendent, so I may have to depend the problem upon political settlement.

7. Both the Teachers Union and the Pref. Official Union remain cool mainly becuase they have to support a socialist candidate and partly becuase Sugiyama is out of both unions. On the other hand, most of the school board officials stand for Mr. Kageyama submitting to the great authority of the superintendent. Very few of those who are unsatisfactory for the regrettfuls behavior of the superintendent offered help to Sugiyama, but it was not accepted by Sugiyama who was afraid of the expansion of sacrifice.

8. Sugiyama is now aware of his great mistake that he unconsciously confined the press release of his statement only to the Tokushima Shimbun and not to the Tokushima Mimpo as well. He conduct therefore is not supported by the Tokushima Mimpo at all.

9. Sugiyama is expecting for the reply be the superintendent to his open letter that appeared in the Tokushima Shimbun on 8 May 51, but no article has so far been found in either newspaper.

Testimony by Mr. Hashimoto, official of Social Education Section.

1. Mr. Hashimoto testifies that the superintendent of School Board persisted in the support to Kageyama by all the school board officials at the Social Education Officials held on 9 April. He is also on of those who were directly spoken of it by the superintendent.

2. He wonders why a harmonious settlement between Sugiyama and Kawano was not reached. Refering to the open letter, he critisized that any officials in service should not make public such an irritable statement blaming vices of higher officials. "The conduct like this is not what the public servants should take", added he. "It is an indelible fault on the side of Sugiyama that he handed his statement only to the Tokushima Shimbun, excluding the Tokushima Mimpo".

3. He concluded as follows: There seems to be a considerable member of potentist sympathizers to Sugiyama they just refrain fromacting on account of the Public Service Law, prohibiting the participation of the public servants in the political dispute.

Testimony by Mr. Kamachi, chief of the Pref. Central Library (Memorial Hall)

1. Mr. Kageyama, social candidate, gave the superintendent of School Board his particular favor in the approval of the latest education budget by the Prefectural Assembly, while he was the vice governor. The budget thus obtained was the exceptional large one throughout the country. The help by Mr. Kageyama was actually something more than an acquaintance for Mr. Kawano, superintendent of School Board who know how difficult it is to get a satisfactory education budget without an influential patron in the Prefectural Government. Mr. ~~Kageyama~~ Kawano is also said to have been the intimate classmotes with Mr. Kageyama. Those things have made the connection between both persons closer particularly in case of Governor election.

2. If the superintendent of School Board should ha ve ~~gaven~~ the pressure to his followers urging "Vote to Kageyama", it is absolutely wrong in the light of the Public Servant Law and he may well be said that he has abused his authority on personal affairs.

3. The editorial of the Tokushima Shimbun pointing out the abuse of his authority was so bitterly attacked by the side of Kageyama and Kawano ~~that~~ whole the press release of Sugiyama's open letter were well received by the Tokushima Shimbun as one of the evidence indispensable for endorsing the truth of the editorial.

4. Whatever the truth the open letter states, there must ~~the~~ have been many rooms for further consideration of the time of press release, presentation method. Strictly speaking, several articles of the Tokushima Shimbun may be regarded as an interference in the election, because an unfavorable opinion to a certain candidate will be created by the press articles. Election campaign should be conducted more fairly without dropping the other candidates into the trap set. The disclosure of the superintendent by Sugiyama should have been done after the election, and moreover the public procurators will never overlook this case, if it is true.

5. If the open letter by Sugiyama is just groundless as said by the superintendent either Superintendent or the School Board must announce the answer to sweep out the suspicion which is now prevailing among the general public.

6. It is also regrettable that the dispute between Sugiyama and Kawano is so much affected by their personal feelings.

(continue)

Subject : Rearrangement of location of Natco projector.

For the purpose of more effective use of Natco film projectors we are going to rearrange the location of these projectors as is listed in the inclosed letter. This plan is based on Hatsusha No.103, and the following points are considered.

1. Made convenient the use of Natco in the far-away places.
(Hatsusha No.103, Chapt. 2, Sect. 11 a)

2. Established circulating route for showing in the daytime in schools.
(Hatsusha No.103, Chapt. 2 Sect. 12 d)

But this doesn't interfere with the use of Natco for adult education. Rather, it is intended to strengthen the circulating system of Natco film projector, and in this sense we believe this is an adequate one.

NATCO Location of Projector and Area of its use.

No.	Location	One to whom Natco is lent	Responsible person	Area of its use
1	Tokushima City Office	Tokushima City	Major of Toku.City	Tokushima City

From : Chief of Audio-visual Education Section
Tokushima-ken H. Suginama

Subject: Monthly report of Audio-visual education for the month of May.

1. Utilization of exhibiting materials

Exhibiting materials of CIE were put up at the adjacent place to the prefectural office and on the corridor of the Education Board. This program was carried out as a trial but many people were seen standing and enthusiastically looking at the material exhibited without fail. In view of the success achieved this time, the exhibiting material will be further utilized in future.

2. General trend

It is regrettable that activities of audio-education were not generally brisk due to the local election.

3. Mr. Smith's inspection

Matters concerning the unesco activities and the Audio-visual Education Cooperation Association were discussed with Mr.Smith at the President of Board of Education's room at the conference held on May 25. Those who attended the conference were Chief of Public Information Section, vice-President of Board of Education, Chief of Social Education, Chief of By-section of Audio-Education and the film librarian.

March 31, 1951

To : Chief of Civil Information Section,
Shikoku Civil Affairs Region

From : Official in charge of Visual Education in
Tokushima Prefecture, Hiroshige Sugiyama

Subject: Visual Education Management Monthly Report for
March, 1951

Submitted herewith a monthly management report for the month of March, 1951 as per attached sheets.

H. Sugiyama

Visual Education Officer

Monthly Management Report

I. Short course to train operation technique of Natco projectors

With the purpose of renewing certificates for operation of Natco projectors issued for the fiscal 1950 year, we held a Natco operation technique course as follows:

March 1	Miyahama-son, Naka-gun,	20 persons present
March 22	Sakano-cho, Naka-gun,	20 persons present
March 26	Kawashima-cho, Oe-gun	
March 27	Ichiba-cho, Awa-gun	
March 28	Ehara-cho, Mima-gun	

In giving the course, we took the following policies:

1. Hitherto, teachers occupied the majority of those who received the certificates. However, this is regrettable from the viewpoint of promoting the adult education by audio visual education. In view of this fact, this time emphasis was placed to give certificates to those who belong to social education organizations such as citizen's public halls, young men's associations, women's organizations and P.T.A.

2. Hitherto, much consideration has not been given to better utilization of CIE films, say, the showing of CIE films to be held with a debating society. In view of this fact, we encouraged them to hold the showing on the basis of an educational program.

3. We also gave a lecture on the utilization of exhibits, magic lanterns, and players so as to make the most of the audio visual education.

II. Inspection of Mr. Sogawa in Shikoku Civil Affairs Region

On March 6, Mr. Sogawa came here for inspection and gave the following advices, to which we acted as follows:

(a) Elimination of anti-democratic films

With regard to this, we already issued a notification to each police station chief, school master and headman of town and village. With the advice of Mr. Sogawa made this time, we again distributed a list of anti-democratic films to all the police stations in the prefecture through the Crime Prevention Statistics Section of the National Rural Police Headquarters and at the same time publicized the ban through radio broadcasting.

(b) Carrying out of a preview

Mr. Sogawa pointed out that the program for carrying out previews is unsatisfactory. In complying with this advice, we held a preview at the council-room in the School Board Office building on March 12, and distributed public opinion survey forms to the preview audience so as to obtain reference material.

(c) Utilization of exhibit materials

At the preview held on March 12, we showed exhibit materials too to encourage the utilization of them by each section of the School Board.

(d) Matters consulted with Mr. Sogawa

Regarding the following items, we exchanged viewes with Mr. Sogawa.

a. Management of Natco after the abolition of the Civil Affairs Region

b. Management of the audio visual education materials service center after the abolition of CAR

All of them are so important questions that we could come to no definite conclusion at this time. However, since the question claims attention in the near future, we thought that we must take a measure to meet the situation as soon as possible.

Tokushima

Audio-visual report.

Feb. 28, 1951

From: Chief of audio-visual education Tokushima Prefecture.

To: Chief of Information Section, Shikoku CAR.

Subject: Monthly report of audio-visual education during the month of February.

The following is the report of activities of audio-visual education during February, 1951.

Main activities:

(1) Collection of lantern-slides self-made-slides, by awarding prizes for excellent ones.

We colleited lantern-slides self-made slides by giving prizes, in order to encourage self-making of lantern pictures and slides, as a means to promte visual education through the use of lantern-projectors loaned by U.S. Army and other various lantern projectors. The number of subscriptions were only 10, as this field is not yet much progressed and accordingly lacking in general interests. But among those 10 presented, there are some which are really excellent both in the technology and the idea. We are expecting this gives an opportunity for the active use of lantern-projectors.

(2) Mr. Smith's visit.

Mr. Lueius Smith, chief of Information Section of Shikoku CAR, visited this precture, and inspected administration of Natco projectors, and gave guidance in regard to the use of film library and the programs of film test show, etc.

Attendants on that day were as follows:

CAR: Mr. Sm th. Mr. Nishimura, interpreter.
Suplying Dept: Mr. Aoyama, director.
Board of Education office:
Mr. Shima, assistant supt.
Mr. Harada, chief of social education section.
Mr. Sugiyama, chief of visual education.
Mr. Saito, librarian.

Budget for 1951.

The budget for audio-visual education for 1951, which is now presented to the prefectural assembly is as follows:

Audio-visual education expense	1863,800 yen
Audio-visual education experiment trusting expense	70,000 yen
Audio-visual education committee expense	60,000 yen
Visiting audio-visual education expense	1283,800 yen

Visiting audio-visual expense was emphasized in this budget, as we consider that education and information through Natco films is very important.

Subject: Visual Education Monthly Reports

Transmitted herewith monthly reports on visual education for the month of November, 1950 as per attached sheets.

H. Segiyama

Visual Education Officer,
Tokushima Prefecture

Visual Education Monthly Report

For November (Tokushima-Ken)

1. Summary:

November is the busy farming season and the activity was rather dull during this month.

2. Major events:

Public Education Program Concerning the Election of the School Board;

Continuously from last month (as we already reported to you), the program was carried out as follows;

October 1, Hiruma Primary School	Approximately 700 persons present
October 2, Naruto City Public Hall	Approximately 600 persons present
October 3, Tokushima City Citizens' Play-ground	Approximately 600 persons present

3. Inspection by Civil Affairs Region official:

On November 8, Mr. R. B. MacLeod, Shikoku Civil Affairs Region, came to guide on the equipments of a film library.

On November 16, SCAP's official Mr. Fred T. Yates, accompanied by Mrs. Martta Campbell, Shikoku CAR, came to this office to give advice and guidance to the School Superintendent, the Public Information Section chief (Kencho), the Social Education Section chief and the visual education officer.

Oct. 31, 1950

To : The Commanding Officer, Shikoku Civil Affairs Region

Attn : Civil Information Section

From : Chief of Tokushima-Ken Visual & Auditory Education Sub-Section

Subject: Monthly report for the month of October

Submitted hereunder is the monthly report on visual & auditory education for the month of October.

1. Main events

(1) Kominkan (public hall) adult education course in utilization of visual and auditory education media

a. To deepen recognition of social education leaders as to utilization of visual and auditory education media and at the same time, to give stimulus to Kominkan adult education movement.

b. Lecture, movie show and study meeting

c. Place and date of education course

Date	Place	Contents
Oct. 6	Iwakura-Son, Mima-Gun	a.m. lecture - Kominkan activities and visual and auditory education media p.m. utilization of CIE films suitable for subject of lecture
Oct. 12	Hisakatsu-Son, Awa-Gun	"
Oct. 17	Mugi-Cho, Kaifu-Gun	"
Oct. 19	Minobayashi-Son, Naka-Gun	"
Oct. 25	Ishii-Cho, Myozai-Gun	"
Oct. 26	Kitajima-Cho, Itano-Gun	"
Oct. 27	Tsuji-Cho, Miyoshi-Gun	"

d. Judgement of effect

(a) Understanding of CIE films was deepened.

(b) If the film "Kominkan" had been in hand, it would have been more effective.

(c) It is presumed that the students had recognition of how important it is to have debate and guidance before or after movie show.

(2) Enlightenment movement for election of Board of Education Commissioners

a. As per the program on the separate sheet.

b. In enforcement of this program, I appreciate your kind cooperation and backing shown in quick lending of films.

2. Others

(1) Shikoku Region Visual & Auditory Education Materials Supply Department Committee meeting

The above meeting was held on Oct. 2 at Marugame.

Topics for discussion

(1) Selection of new chief of head office
(2) Interim report of accounts for this fiscal year
(3) Miscellaneous matters

Mr. Smith of the Civil Information Section, SCAR, attended the meeting and gave guidance.

(2) Eradication of anti-democratic films

The list of anti-democratic films which had been offered at the All Japan Visual and Auditory Education Study Meeting held on Sept. 26 in the Ministry of Education was reprinted and sent to appropriate government and public offices and organizations, giving a warning against violation.

3. Opinions

For enlightenment of Board of Education election of this time, we have received from the Ministry of Education a lot of bills, paper plays, wall papers.

Besides, as Gasolene was specially rationed, the program proceeded very smoothly and also in this opportunity, need of visual and auditory education media was recognized anew with much effect.

Visual & Auditory Education
Sub-Section

Monthly Report

Sept, 1950

Date : Sept. 30, 1950

From : Sugiyama Hiroshige,
chief of Tokushima prefectural
Visual and auditory Education
unit.

1. main events :

A) movie meeting for the purpose of publicizing the recognition on the current world

Purpose : To deepen the realization about the United Nations and increase the recognition of the current world

Date and place :

Sept. 13 In front of the Ishii Station
" 14 In front of the Kokufu Station
" 15 In front of the Hanaoki Station
" 16 In front of the Tomioka Station

Tokushima

V

Films Screened:

Charter of the United Nations.
United Nations answer aggression.
Peoples charter.
The Story of Airlift.

B) Inspection of Mrs. Campbell on Sept. 15.

She came to the prefactural office and investigated very eagerly the situation, plan and results of the visual and auditory education.

The followings were pointed out:

1). The reports shall be described in details and forwarded strictly before the date

2) The liaison with the Information Section and other authorities concerned shall be kept closely

Tohuchi

3) Record-player shall be utilized more.

4) Efforts shall be made in order to utilize the exhibited things

5) Magic lantern shall be utilized.

As for the program (already reported) of observances in and after Aug. including the evening movie etc, it was praised by her.

c. The study meeting of the visual and auditory education:

Date: From Sept. 18 to Sept. 22

Place: Ministry of Education

Sponsor: Tokyo Metropolitan Board of Education and the Ministry of Education

Johnson

A 4

4 Contents

1) Study of chiefs of prefectural visual and auditory units, chiefs of libraries, and film-librarians.

2) Guidance to utilization of visual and auditory educational materials

3) Consultation in regard to how to promote the visual and auditory education after the peace treaty is concluded.

Impression:

1. The necessity of cooperation of chiefs of units and libraries, film-librarians with one another was felt keenly.

2. It was clarified how the Natco projector is produced and transported to the pref-

Toh.

Lecture. Our responsibility to make good use of the Natco projector was felt keenly, since the machine is so carefully designed and so carefully produced.

(D). Prohibition of showing the anti-democratic films.

Strict observance of the instruction of Allied Forces that the showing of anti-democratic films shall be strictly prohibited was instructed to the mayors, masters of movies, etc.

The similar instruction was issued by the prosecutors' office to the police and was made public through the press.

Subject: Monthly Report on Visual Education

Submitted herewith is report on the visual education for the month of August.

Hiroshige Sugiyama

(Hiroshige SUGIYAMA)
In charge of Visual Education
of Tokushima-ken.

1. Principal events
(Movie Show & Lectures)
- to be enjoyed in the evening cool -

Objective: This program is to give popular lectures to those people coming out of their houses to enjoy the evening cool and at the same time present C.I.E. pictures suitable to the lectures for the purpose of infilterating adult education among the people.

Schedule of the program, date and subjects:

Date	Place	Lecture	C.I.E. Picture
Aug. 5	Ishii-cho	Democratization of Home	'Bent with the Years'
Aug. 7	Naruto City	Democratization of Fisheries	'Lobster Town' 'Bent with the Years'
Aug. 8	Tokushima	Juvenile protection	'PUEBLO Boy' 'Seed of Destiny'
Aug. 9	Asakawa	Democratization of Fisheries	Same as Naruto's program
Aug. 11	Ano-son	Future of farming management	'New West' 'Cowboy Fair'
Aug. 13	Shimobun-Kamiyama	Same as Tokushima City	Do
Aug. 18	Miyahama-Son	Resources of mountain villages and improvement of culture	'Protecting the Forest' 'Lobster Town '
Aug. 22	Yachiyo-son	Current world topics	'The story of the Air-lift' 'Border without Bayonets'
Aug.24	Koyadaira-son	Same as Miyahama	Do
Aug. 25	Hiruma-cho	Youth and culture	'Lobster Town'

Results:

(1) In this program contents of lectures were well matched the C.I.E. films presented, emphasizing the effects of the movies fully.

(2) This program with the time arranged convenient for these communities and events being amicable to them, attracted a large audience at each meeting, well over 800 attendance everywhere, who participated with it with great enthusiasm.

(3) One of the reasons attributable to the success is that record-players were utilized to their full extent.

NATCO operator training course:

During the month the training course were held at the following two places.

Aug. 18 At Miyahama-son
Attended by 50 persons, including 15 qualified to be given a license.

Aug. 24 At Koyadaira-son
Attended by 10 persons, including 5 qualified to be given a license.

NATCO installation changed:

One NATCO projector were decided to be installed for Niudani valley along the Naka river, which occupies the backward country stretching from Naka-gun to Kaifu-gun, with the permission of Mr. Smith, Shikoku Civil Affairs Region. With the preparation of the receiving party being completed, it has been loaned officially on Aug. 18. More good results can be expected in bolstering democratization of those remote places.

Monthly Report on Management of Natco Films

1. Inspection by S.C.A.R.

At 9 0'clock of July 18, Mr. Smith, civil information, S.C.A.R. visited the Board of Education Office and inspected management of visual education.

Taking this opportunity, he introduced Miss Campbell who succeeded him and gave us an instruction to utilize natco films more briskly than ever in the direction of movements concerning women.

Attendants of the day were chief of Social Education Section, Chief of Public Information Section, Chief of Visual-Auditory Education Branch, representatives of woman organizations (10 persons), Chief of Tokushima Office, Women and Minors Bureau, Labor Office.

2. Prefectural Visual-Auditory Education Committee

The committee was convoked on July 29 and consultation was concretely made as to encouragement of visual-auditory education.

(1) For full utilization of magic lanterns, the committee decided to redouble their effort of studying amateur-made slide-pictures for the magic lantern use and to observe a slide-picture contest for the sake of encouragement.

(2) Consultation was made as to utilization of "Radio no Tsudoi" (radio discussion).

(3) Paper plays will be produced for public information.

(4) An exhibit will be held of natural monuments, histric sites and beauty spots.

3. Utilization of exhibition matters

As the "culture bus" completed its trial run, the exhibition matters will be loaded on it for utilization.

TOKUSHIMA June 30, 1950

To : Mr. Smith, Civil Information Section, Shikoku Civil Affairs Region.

From : Hiroshige Sugiyama, Head of Visual Education Sub-Section, Tokushima Ken.

Subject: Operation of Visual Education.

Herewith submitted the monthly report on visual education for the month of June.

1. Preview meeting of travelling CIE pictures:

For the purpose of studying methods of having the people use the newly arrived CIE pictures the following event was carried out.

Name: Preview Meeting of Travelling CIE Picture.

Date and Place:

June 1,	from 9 to 11 hours	Sakano Lower Secondary School, Naka-gun.
June 2,	" " " "	Ojin Primary School, Itano-gun.
June 3,	" " " "	Kawashima Lower Secondary School, Oe-gun.
June 4,	" " " "	Ichiba Lower Secondary School, Awa-gun.
June 5,	" " " "	Wakimachi Lower Secondary School, Mima-gun.
June 6,	" " " "	Tsuji Lower Secondary School, Miyoshi-gun.
June 7,	" " " "	Komatsushima Primary School, Katsuura-gun.
June 8,	" " " "	Kokufu Primary School, Myodo-gun.
June 9,	" " " "	Hiwasa Lower Secondary School, Kaifu-gun.

The film employed:

Floating Theatre and other pictures of recent arrival.

Attendance:

Town and village officials, persons connected with public information service, and town and village people in general.

2. Inspection of Mr. Smith, in charge civil information and education.

On June 15, Mr. Smith Shikoku Civil Affairs Region came to the prefectural government office and survyed the actual conditions of the film library and inspected the circumstances for using the Natco Projecter ~~Instructions~~

Instruction:

(1) Trial film show shall be arranged to be utilized by every section of the prefectural government through the public Information Section.

(2) Closer contact shall be kept with the Public Information Section.

(3) Exhibition matters shall be utilized as much as possible.

The above instructions were found out to be defective in the operation of public information and were taken as good advises, being carried out immediately.

On June 28, Mr. Smith came here for inspection and gave the following instructions:

(1) Natco Projecter shall be utilized for ~~education~~ informational purposes as much as possible. Sometimes the projecter has been used for only amusement.

(2) Change of places where Natco Projecter is lent.

Two projecters to Tokushima-Shi(at present, the City has two projecters) and one to the Public Information Section.

Regarding (2) Efforts will be promptly exerted because matters concerning the custody and detail technical proceedings must be studies.

2 May 1950

TO: CI Section, SCAR

FROM: Hiroshige Sugiyama, Audio-visual Aid Officer, Tokushima Pref.

SUBJECT: Monthly Narrative Report of Audio-Visual Education Program
For April.

1. a. There were less events during this month sponsored by towns and villages, various organizations and school because of the beginning of the new fiscal year. By the same token, activities of this program were comparatively dull.

b. The audio-visual Encouragement Campaign supported by the prefectural people, as already reported, was carried out successfully, and even in the month of April when less projectros worked, routing of films in connection with the campaign was active, thus casting some hints upon more effective utilization of CIE films and equipments.

2. a. The revised Hatsusha No. 103 involves not a few discouraging points EM.

1) The authority of the chief ofthe Social Education Section and the audio-visual aid officer.

2) Relationship between the chief of the prefectural library and the audio visual librarian.

3) Relationship between audio-visual officer and the audio-visual libbarian.

These points are not clarified in the provisions, and it seems that the administrative atructure and governmental practices are disregarded to some extent.

We have come to hold some doubts as to whether the Education Ministry have ever listened to the opinions voiced by audio-visual aid officers, also as to whether they have ever made efforts to get good understanding of the actural situation of the Japanese government on the part of GHQ, SCAP . I am firmly convinced that GHQ is not so narrow-mined as not to pay any attention to the actual curcumstances peculiar to Japanese government for the Natcos' operation. We earnestly hope the authorities, in case of re-amendment of the present Hatsusha, to take it into consideration to reflect the voices of us upon it to the fullest extent.

SUBJECT: Monthly Narrative Report of Audio & Visual Education

FROM: Sugiyama Hiroshige, Audio Visual Aid Officer of Tokushima Prefectural Board of Education.

TO: Chief of CI Section SCAT

1. Film Library burnt down

As reported, the Tokushima Prefectural Constitution Memorial Hall including the pref film library was completely destroyed by fire on 14 Mar '50 and the loss of balopticans, screens and other accessories was disclosed. This is a very regrettable thing for which I feel sense of responsibility.

2. Film Library after fire

The Pref Film Library is carrying on its function removing to the safe of the book library which was fortunately escaped from damage of fire. No trouble has occurred in the business so far.

3. Future programs.

A series of training courses for notco projectornists is to be conducted early in the new fiscal year.

It is being planned to carry out CIE film showing on the streets from April. After film showing, the public will be given proper guidance on how to form public forums.

In accordance with the loss of the Pref. Film Library, the distribute of Natco Projectors may be changed inconsideration of past experiments and geographical features.

December 2, 1948.

To : Chief of C. I. Section,
Tokushima Military Government Team.

From : Superintendent of Education Board.

Subject: Organizations to receive loan of
Nat'co Projector.

I beg to inform you that as already approved by you, a visual education committee has been formed in each District and City and one projector is going to be placed for use of the jurisdiction area of each city and district office. Stipulations governing the organizations which will yet receive loan of projectors have now been laid forth as per separate papers.

Superintendent of Education
Board, Tokushima Ken.

re Receiving loan of visual education equipments from the Allied Forces.

Chapter 1: General Statement.

(1) The Social and School Education shall be enhanced through visual education by utilizing the visual education equipments which are lent out for the object of enlightening Japanese people on the international recognition and accelerating the democratization of Japan. It is ardently hoped that utmost care shall be taken with responsibility and discretion not to use the equipments for such deviate purposes of mere amusement or cinema performance whose object is only for profit-taking.

(2) Taking into consideration desires of the visual education committees (hereafter referred as the committee) and the utilization of the equipments and accessories, one Nat'co projector is placed in custody and for use of the jurisdiction area of each district and city.

(3) As the projectors belong to the American Government, not only caution shall be given over the custody of those machines but also contact shall be made with chief authorities in charge regarding the custody and use of the projectors.

Chapter 2: Organization to receive loan of the equipments.

(1) The committee shall make designated reports on the place of custody, method of maintenance of the equipments and the name of a responsible person and shall obtain the approval thereof from the Military Government Team through the chief in charge of the visual education before the consignment of the equipments and accessories.

(2) In order to ensure the perfect maintenance, the committee shall select more than two technicians for each district and city, and an arrangement shall be made with them so that guidance and collaboration could be gotten on the maintenance and simple repair of the equipments.

(3) When any of the projectors goes wrong, it shall be taken at once to the film library of the prefecture without touching except change of wires, pilot lamp, exciter-lamp, tube and 10 A. fuse. Actual expenses for such spare parts will have to be born in future by the organizations.

Chapter 3: Use of the equipments.

(1) The committee shall collect applications for use of the equipments from various groups of each town, village and city and shall send reports by the 10th of every month to the chief (mayor) of the branch office of the Education Board, arranging the date of use for the following month.

(2) The chief (mayor) of the branch office shall make three copies of a lending plan (for the following month) on the basis of that report and send it to the chief in charge of the visual education by the 15th of every month.

(3) The committee shall make a schedule to use one projector at least 20 times per month.

(4) If any of the pictures on loan is wanted to be shown at two places on the same day, the chairman of the committee shall regulate the date of showing for the city and district, and do the same the chief of the visual education section in case of the prefecture.

(5) Provisions pertaining the maintenance and use of the equipments and accessories are to be made on the idea of the committee but the following points shall be strictly observed;

a. Nat'co projector is prohibited to be used by persons who have not an using license.

b. The transportation of Nat'co projector shall be accompanied by person who has a using license.

c. In case any of projectors and accessories is lost or damaged by theft, fire or other causes, detail reports of causes shall be at once sent to the chief in charge of the visual education and receive his instruction as to what to do.

d. The pictures of Nat'co are in principle shown free of charge.

e. Cinema pictures besides the Nat'co picture are allowed to be shown but such picture must conform to the object of Occupation and at the same time, match CIE pictures. The actual viewing fee can be charged as far as it is not charged for business purposes but in this case, the promotor shall send account reports to the chief in charge of the visual education within 5 days after showing.

f. Nat'co projectors are lent for the purpose of social education and is encouraged to be used for education of school students. For this purpose, facilities shall be extended to the education association, teachers union and the league of education by moving pictures.

EL-948 (CI-105) 5 June 1951

TO : Chief, Shikoku Civil Affairs Region
(Attn: Civil Information Section)

FROM : Audio Visual Officer, Ehime Ken

SUBJECT : Activities of Audio-Visual Education

I beg to inform you of the subject above for the month of May, 1951 as follows:

1. Display of machine for auditory education & Short course:

Date	Place	No. of Attendants
17 & 18 May	Saijo Kita High School	72
20 & 21 May	Uwajima Higashi H. S.	84

Instruction in the techniques of radio-set assembling was given to the attendants and also recording and reproducing by the tape corder which the Ken Education Board purchased the other day were shown them for their appreciation. A special lecture titled "The educational broadcasting facilities of our school & our broadcasting to the whole town" was also given to the attendants by Mr. S. Kaji of Sakano Lower Secondary School, Tokushima-ken. It greatly impressed them as a model of the school's concordance with the community. This will help towards the progress of auditory education.

2. Display of instruments for visual education & Short course:

Date	Place	No. of Attendants
22 & 23 May	Bekku C.P.H., Imabari-shi	46
24 & 25 May	Kita Uwa Local Office's Hall, Uwajima-shi	47

In an effort to encourage the utilization of visual educational instruments and data, the short courses were given to demonstrate how to illustrate various statistics by diagrams and how to make magic lantern slides.

Secretary S. Tomozawa of Statistics Sect., Ehime-ken and Mr. S. Takahashi of Asano Lawer Secondary School, Kagawa-ken conducted demonstrations so kindly that the attendants might fully understand them.

3. Secretary S. Watanabe of Ehime Audio-Visual Office was transferred to the Tax Div., Onsen Local Office on 15 May, The post vacated remains to be filled up.

4. Pictorial posters:

We have decided to show the poster "Modern Hospital in U.S.A." at more than 50 hospitals in rotation, keeping in cooperation with the Medical Affairs Sect., Ehime-ken.

"Public Library in U.S.A." is scheduled to be shown at all libraries in the prefecture by turns after consultation with the Ehime-ken Central Library.

FILM DAMAGE REPORT

1. CIE No. 175 Title: Children's Zoo Copy No. 98

2. Place of damage: Eyes of the film

3. Group or individuals responsible for damage:

The film was damaged during the period from 14 Sept to 27 Oct while it was on the travelling route. But no one reported to us on the damage till we found it when the film was returned to us. Therefore we cannot locate who was responsible for the damage, though those who handled the film during the period were Kamiukena, Onsen, Iyo, Kita Audio-Visual Educational Committees.

4. Cause of damage: Unknown

5. Extent of damage in detail:

The eyes of the film are damaged almost throughout the whole film.

6. Efforts taken to correct cause of damage:

It is expected that the cause of damage and the group or individuals responsible for damage will be found out from 11th to 18th Nov. The details will be reported to you as soon as available.

I certify that conditions listed above are correct.

EHIME KEN

EL-759(CI-73)

30 Nov., 1950

TO : Chief, Shikoku Civil Affairs Region
(Attn: Civil Information Section)

FROM : Audio-Visual Library, Ehime Ken

SUBJECT: Damage to Audio-Visual Materials on Loan

I beg to report to you on the subject above, as a result of our investigation, as follows.

1. Date of accident:

Sometime between 10 p.m., 27 and 0 a.m., 28 Nov.,'50.

2. Place of accident: Niihama Municipal Office, Shinmei-cho, Niihama-shi, Ehime Prefecture.

3. Nature of accident: Loss and damage by a fire.

4. Agency directly responsible for custody of audio-visual materials on loan:

Niihama Municipal Visual-Education Committee.

5. Items lost or damaged:

a. Destroyed:

Demonstration materials; posters, "How We Earn Our Living," and paper-plays,"Departure."

b. Damaged: Lantern-slides; "Purge of Inferior Goods," "With Clean Mouths," and "What Will Become of Our Life?"

6. Items partly damaged and unknown whether to stand further use or not:

Lantern-slides;" Hachi-san and Fire-Prevention," and "Hachi-san and Easy Way of Paying His Tax."

7. Date damage investigated:

From 0:30 p.m. to 1:30 p.m., 29 Nov., 1950.

8. Investigator of damage on the spot:

WATANABE Shigeyoshi,
Audio-visual Librarian, Ehime Ken

9. Description:

On 27 November around 10 p.m. a fire broke out in the building of the Niihama Municipal Office and caused damage to some of visual materials on loan and in the custody of the Niihama Visual Education Committee, as abovementioned. Fortunately, no damage was done to a Natco projector, Beseler slide projector and their apparatuses, 10 kinds of CIE films, etc., which were saved out of the office by members of the Municipal Social Education Sect., men on night duty and firemen. Those items described as 'damaged' in Paragraph 5 above were damaged by water too much to be used any more, though they retained their original form. However, activities for protection of those materials in case of the said fire on the part of related members of the Niihama Municipal Visual Education Committee are worthy of due praise, we think.

(Attn: Civil Information Section)

FROM : Audio-visual Library, Ehime Ken

SUBJECT: Report on loss of damaged part of NATCO projector, loaned by GHQ, SCAP

I beg to inform you of the subject matter as reported to us by Shuso-gun Audio-visual Educational Committee.

1. Missing article : One spring belt

2. Projector concerned:

Regional No. 10

Serial No. 11,580,705

3. Date when spring belt broke and became unusable:

Dec. 24, 1949

4. Date, loss noticed:

Dec. 26, 1949

5. Date, loss reported verbally to Audio-visual Library:

Jan. 18, 1950

6. Date when NATCO projector (regional No. 10) was sent to Shikoku Regional Repair & Distribution Office for repair:

Jan. 18, 1950

7. Date when the above projector was received by Library after completion of repair.

Feb. 13, 1950

8. Measures taken by Shuso-gun Audio-visual Education Committee(responsible person: KONDO Misao)responsible for the loss:

The CIE film showing programs were carried out as arranged, for the said break-down in the spring belt did not cause any trouble to the projection of films. But as the damaged article was unusable, some other device was used to reel films after they were shown. They have continuously searched the show-places and other places concerned to find the missing article since they noticed the loss. But they could not find it, so they presented the library with a written report on the accident on Feb. 15, '50.

9. Measures taken by Audio-visual Library:

On Jan. 18, 1950 when the library was requested by the Shuso-gun Committee to arrange for repair of NATCO projector No.10 (regional), the former strictly told KONDO Misao, the responsible person of the latter to search for the broken spring belt and present it to the former without delay.

On Feb. 15, 1950 when the library handed over the repaired projector to the responsible person of the committee, the former demanded the broken spring belt from the latter. As the latter replied that they had failed to find it after all their efforts, the former made the latter present the attached report on the loss.

10. As to the NATCO projectors distributed among the cities and "gun", the responsible custodian is the city or "gun" audio-visual education committee concerned. In the present case, the responsible persons are the committee-men and projector technicians concerned of the Shuso-gun Audio-visual Education committee. We are going to send a note to each city and "gun" committee, requesting them to be more careful in handling loaned articles. We solicit that you will kindly take steps to absolve us from responsibility to return the missing spring belt through the Shikoku Regional Repair & Distribution Office.
