SLO-238 30 March 1950

SUBJECT: MONTHLY LABOR ADMINISTRATION ACTIVITIES REPORT (FOR MARCH 1950)

THRU : KANTO LIAISON & COORDINATION OFFICE

TO : LABOR RELATION DIVISION, ECONOMIC SECTION, HQ. KANTO CIVIL AFFAIRS REGION (ATTENTION: CHIEF, MR. MARTIN CAMACHO)

We hereby submit to you the subject report as follows.

(1) Significant trends in the labor movement, in labor relations, in union organization or dissolution.

a) The matter which is the most significant in the labor movement during this period is the activities of the democratic unions in Saitama. Effected by the declaration of general strike of the National Diet Joint Struggle Committee of Labor Unions on 5 February last, the Saitama Prefectural Joint Struggle Preparatory Council was held at Omiya on 14 inst. headed by the Omiya Chapter of the Government Railway Workers Union, the Pref. Federation of GFTU, the Saitama Council of Labor Unions, etc. which are affiliated with the Democratization League, for a lower organization of the National Diet Joint Struggle Committee of Labor Unions. At this meeting, seventeen items of slogan on payment were taken up including "doing away with the suspension of payment". The slogan was appealed to the Electric Industry Union, the All Communications Workers' Union, the Saitama Teachers' Union, the Pref. Government Workers' Union, the Oki Electric Workers' Union, Fuji Electric Workers' Union, etc.. Thus they attempted to unify the labor camps in Saitama. It is noticed, moreover, that the Preparation Meeting aims at bringing itself into the lower organization of the National General Council of Workers' Unions.

(b) A significant affair concerning the labor relations is the strike of the Electric Industry Workers' Union and the All-Japan Metal Mine Workers' Union.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 Ok3

1. The Electric Industry Workers' Union, rejecting the mediation of the Central Labor Relations Committee, started the campaign in the van of"March labor offensive".
In Saitama, in the first place, clerical work strike, one hour black-out strike and rejection to management's attendance were carried out, and when the rejection was not accepted, workers walked out of the plant.
In the second place, job desertion and clerical work strike were carried out in a full-scale.
The workers of Koshigaya Chapter held a shop mass meeting on the occasion of the second strike in connection with the headquarters' directive. They rejected it and set work as usual.

2. In compliance with the All-Japan Metal Mine Workers' Union's directive, Nippon Nitrogen Chichibu Mine Workers' Union went on strike for 48 hours and demanded the upping of wages (¥8,800).
The Mitsubishi Mine Workers' Union also went on 48 hours strike, and the Clerical Workers Union took part in the strike in sympathy with it.. Their demands were the upping of wage level, the opposition to the Mine Safety Law and the safety measures for the prevention of silikosis which injures miners' lungs.

(c) The union organization or dissolution which was investigated were:

Organization: On 18 March, The Hq. of Saitama District of All Communications Workers Union and seven chapters, Membership 650.

Dissolution: On 22 February, The Kumagawa Machine Workers' Union, Membership 52.

The All Communications Workers Union had seceded from the All Communications Labor Union in Sept. last year. Since then, the leading elements of the Democratization League have been making efforts to organize the workers union. Recently they succeeded in organizing the seven chapters, and furthermore they are canvassing for the affiliation of other chapters.
The Kumazawa Machine Workers' Union dissolved owing to the lockout.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 Ok3

(d) Up to date, the number of insider unions which have passed the screening of the Local Labor Relations Committee: 105

There are pretty many unions which will be qualified through the LLRC's advice.

(2) The current labor problems and the methods being used by labor officials to solve these problems.

(a) Union members, as a whole, are not too much concerned about the union's activities. Some of them have an idea that the union is of no use. Even some union leaders opine that the labor agreement is of little avail. Union's labor education program is very slack in operation. These points are worthy of noticing as a trend of slackness in labor movement in general.
Labor officials are making efforts to improve such a situation through a labor education to union members, availing themselves of every opportunity and every material for teaching.

(b) As it used to be, the non-payment of wages is a common problem to unions. Union members and even union leaders are nevertheless very poor in knowledge how to face the problem and how to take a relief measure through a legal procedure. It is an important matter that they suffer a serious loss from the want of knowledge in the law. Labor Officials, therefore, taking efforts to teach them the legal procedure of relief, keeping close relations with the Labor Standards Bureau.

(c) The Unemployed People's League is making a mass demonstration as before under the leader-ship of the Communists. Labor officials are not only cautious of Communists' tactics, but also assuming a firm attitude toward their trickery.

(3) Type and trends in disputes and cause of labor disputes.

Seven cases of labor dispute appeared during this period. Six were for the increase of wages and one was in the sympathy with a strike.

(4) Activities in the field of labor education; degree of progress of Ministry of Labor's educational program; outline of successful procedures developed by the Trade Union and by Labor Education Sub-sections.

A. Activities in the field of labor education.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 OK3

(a) Firmly founded unions carry on the well-ordered education, though it cannot be said vigorous. On the contrary, unions of companies which enterprises are unstable are slack in labor education simply concerning about the matter of immediate future. Nevertheless, the labor education program of the labor policy organs are being welcome. So, labor officials are making efforts to place the union's education on the right beam, taking every opportunity available.

(b) In this period Mr. Robertson, GHQ came to this prefecture to give labor officials a guidance on the labor education program. Mr. Shigeno also came here two times to guide the labor unions concerning the problem about metallic industry.

(c) In order to advance the consciousness of unionists, the Labor Policy Section and the Labor Policy Offices are operating the labor education program, in line with the Ministry of Labor's, with each union members as its objective.

B. Degree of progress of Ministry of Labor's education program.

The subject of this month is "On the activities of the division of union".

(a) Unionists became to observe union's political activities with critical eyes. There are no unions at present which are inclined simply to the political purposes.

(b) Unions which intend to adopt the clauses on the grievance machinery committee or the production committee into the union's constitution or the labor agreement are increasing gradually. But the use of such machinery is as yet insufficient.

(c) With regard to the union's finance, few unions have built up the financial system on a firm basis and manage it with efficience. Their reports on accounts are brief. In general, union members are not too much concerned about the union's financy. Here also lies a need of labor education.

(d) The number of meetings for unionists and attendants and the distribution of data are as follows:

Movie, slide-showing and others:
32 times 2583 persons

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 Ok3

C. Outline of successful procedures developed by the Trade Union and by Labor Education Sub-section.

(a) On labor unions.

Some labor union held a meeting of women's branch on the International Women's Day and vigorously talked about the working woman. They agreed to hold the meeting in March 3 (Dolls' Festival Day) every year in order to rid themselves of the "ideological" color in the meeting.

(b) On the Labor Education Sub-section.

1. The number of persons who came here to consult with labor problems has increased, as the labor officials' guidance towards individual unions makes a progress.

2. Most of unions face the election day of union officials. As for the election of union officials, almost all of the unions adopt the union's nomination procedure and direct secret voting method.

(5) Trends in collective bargaining.

Most unions wish to improve their labor agreements. The efforts and attitudes of them are noticed. But there are no subjects in particular to be mentioned in this month.

(6) Degree of success in establishment of grievance machinery, seniority clauses, research and planning committee.

Most unions are inclined to study and adopt such a system, but there were no unions which set up the system.

(a) The conciliation to the labor dispute of Nippon Casting K.K..

With reference to this subject, it has been already reported last month. On 26 Feb., the company paid 300 yen of wages for Jan. to each worker, and on 4 March 10,000 yen. On 10 March, the second conciliation meeting was opened at the Local Labor Relations Committee's office, but no conclusion was drawn, for the parent company Nippon Typewriter K.K. did not speak its mind. The Committee, therefore, gave advice to the representatives of the union to appeal to the parties concerned giving them an account of the actual state of affairs, and then to make a request for mediation. On 17 March, the third conciliation meeting was held at the same place, but again no conclusion was brought to for the same reason. The president of the company is considering personnel retrenchment but he has no concrete plan about it. In consequence, it was scheduled that both labor and capital would submit a reconstruction program or a personnel retrenchment program by the next meeting. The fourth conciliation meeting is scheduled for 25 March.

(b) The conciliation to the labor dispute of Shinoda Works.

It was previously reported on this subject. On 27 February, it was decided through the conciliation meeting to make a contract as mentioned below, aside from the dismissal of eight persons especially. The contract is now being put into practice.

The case was previously reported, too. On 21 February, the first conciliation meeting was held at the Local Labor Relations Committee's office and on 23 March the second one on the spot at Kawaguchi. As a result the following decision was made.

1. Six employes shall be dismissed on the date of 23 Feb. 1950. The union concedes with the dismissal.

2. The six persons mentioned above shall be paid 30,000 yen for the retirement allowance.

3. The date of payment of delayed wages and retirement allowances shall be as follows:

28 Feb. 1950		12,000 yen out of back wages

31 "	"	15,000 yen out of the retirement allowance
10 Apr.	"	Remaining 15,000 yen

(d) The conciliation to the labor dispute of Irumagawa Rubber K.K.

On 27 February a request for conciliation was made by the union concerning a collective bargaining to conclude a labor agreement. Accordingly, the first conciliation meeting was scheduled for 2 March. But afterwards the union requested to suspend the meeting for the reason that an independent negotiation between labor and capital had reached a state of settlement. On 4 March, through the collective bargaining they finished the talking about the labor agreement in detail. On 10 March the signing was formally finished. The request for conciliation was withdrawn by the union on 14 March.

Yoshino, Ohno and Shiratori were nominated for conciliators and the meeting was held on 16 March. As a result, an agreement was made, which included that the company would pay back-wages for Jan. and Feb. by 20 March and that the sum of retirement allowance would be decided by 25 March through an independent negotiation between labor and capital.

With regard this case, it was previously reported covering for August down to February last. On 22 Feb. the request for the screening was rejected by the chairman at the 94th general meeting.

(g) The case of request for the screening of unfair labor practice of Minsei Industry K.K.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 OK3

(i) The screening of workers union of Nippon Casting K.K.

The qualification of the union was recongnized as a result of screening at the Public Interest Committee meeting on 20 March.

(j) The screening of Fukaya Godo Workers Union.

On 27 December 1949, an application was submitted to register the union as a corporation. The Public Interest Committee meeting decided to acknowledge the union as being qualified on 20 March.

(k) The screening concerning the recommendation of candidates for Local Labor Relations Committee.

The number of unions which recognized as being qualified was 103. (Each name of union is omitted)

(9) Statements of opinions by labor officials regarding trends, problems and activities.

A. As was mentioned in the first place of this report, a council including principal labor unions in Saitama was organized for a lower structure of the National Diet Joint Struggle Committee of the Labor Unions. The target has a political inclination to a considerable degree. We do not think that it complies with the wishes of unionists in general. The council has an intention to be a lower organization of the National General Council of Workers' Unions. But unionists in the local unions as a whole, except some leading men, have little knowledge in the said organization.

B. There appeared a few signs in business circles that some employers hold unfavorable minds to the labor education program of the labor policy authorities.

C. Labor Officials have to operate the labor education program off the working hours in most cases. It retards the progress of labor education to some extent.

(9) 労働関係の傾向、問題、動き等に関する労務関係官の意見。

(a) 日会共斗系の下部組織として前述のような、幹下主要組合の協議体が結成せられたが、その目標として掲げた多項は、政治的な傾向を多分にもつており、組合多大衆の真実の要望を反映しているとは思えない点がある。

又この協議体は、日本労働組合総評議会の下部組織を作る準備になろうとしているが、実際個々の単位組合では、総評議会がいかなるものかについて一部幹部をのぞいて殆んど知っていない状況にある。

(b) 使用者側が労政機関の教育活動に対して反対する傾向が一、二あらわれてきたこと。労政職員が教育活動を大部分勤務時間外にやらなければならない状況にあることは、労働教育の進歩に若干支障を来さざるをえない。

(1) (イ) 労働運動、労資関係、設立解散等に於ける重要な傾向。

(a) 本月中労働運動について注目すべき事態は、県内民主的労働組合の動向である。去る二月五日の国会共同斗争委員会ゼネスト声明の影響を受けて、本県内に於ては、民同系の、国鉄大宮支部、総同盟県連、埼玉県労働組合協議会が中心となって、国会共斗委の下部組織として、埼玉県共斗会議準備会を三月十四日、大宮に於て持ち、給料遅[払]の撤廃など十七項目のスローガンを中心に検討、電産、全逓、埼教組、県職、沖電気、富士電気などに呼びかけ、県内労働戦線の統一に乗り出したことである。

なお、この準備会を日本労働組合総評議会の下部組織に持って行こうとする気運が見られる。

(b) 労資関係に於いて、注目される事件としては、電産、全日本金属鉱山労組のストライキである。

(1) 電産労組は、中労委調停案を拒否して、三月攻勢の矢端をきった。

本県の状況は、第一次として、事務スト、一時間停電、使用者側の生社拒否、拒否に応じない所では職場放棄を行った。

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDC ... 775 063

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 043

第二次として、職場放棄、準勤スト、を全面的に行った。なお、第二次ストより、越ヶ谷分会に於ては、本部指令を職場大会にはかり、本部指令を拒否し平常通り勤務した。

(2) 全日本金属鉱山労組中本部指令に基き日室我又鉱山は四十八時間ストを行い、賃上要求(8,800円)をした。三菱鉱業は最初労組が本部指令により四十八時間ストに入り、後、職組も同調し、以後準勤ストを継続した。要求は賃上げ、鉱山保安法反対、硅肺に対する安全処置実施などであった。

(C) 組合の設立解散状況については、本月中調査が出来たものは、

設立　三月十八日　全逓信従業員組合埼玉地区本部、七支部　組合員　650.

解散　二月二十日、鮫沢機械従組　組合員　52

である。

全逓従組は、昨年九月全逓労組より脱退してより民同系の幹部が従組結成化に努力し、漸く七支部を結成し、他支部の加入を勧誘中である。

鮫沢機械従組は工場閉鎖により解散となる。

埼玉県

(d) 地労委の推薦手続に参与するため立証資料を提出した組合中，現在までに地労委の資格審査をパスした合法組合数は 105 である。

なお，近く行われる補正勧告によって適合してくる組合も相当ある。

(2) 現在の労働問題を述べ、其を処理するために労働関係官が採っている措置。

(a) 一般組合員の組合活動に対する無関心が表面化していること。及び組合不要論をとなえる労働者が若干あらわれている事実、更に労働協約の不要をとなえる組合幹部が一部あること、組合自体の行う教育活動が進捗していない事等、労働運動の停滞化の傾向として注視すべき問題である。

係官としては一般組合員を対象とする教育活動に一層力を入れてあらゆる機会にあらゆる教材を用いて之を克服しようとしている。

(b) 依然として賃金不払の問題が一般化しているが労働者自体或は労働組合自体が之に対処すべき合法的な救済手続を知らないため不当に犠牲を蒙っている傾向があることも当面の問題の一つである。

係官としては労働基準局と密接に連絡し、労働者の受けられる合法的な救済手続を組合及び労働者に周知する努力をしている。

(c) 失業者同盟は依然として共産党員の指導の下に各地に集団的な示威を行っている

本保官としては確吋とした態度でその不成屈重かれ屈したり土れ来せられることのないよう対処している。

(3) 争議の型と傾向。

この期に争議行為に入ったものは、七件であり、「賃上げ」スト六件、「同情」スト一件であった。

4. 労働教育の分野における動き、労働者教育計画の進捗程度、労組及び労働教育係の行って成功した処置の概要、

A労働教育の分野における動き、

(1) 基礎の比較的しっかりしている組合は活発と言えないまでも一応形の整った教育を行って組合内部の充実に力を注いでいるが、企業の不安定な会社の組合では眼前のことにとらわれて労働教育活動は不活潑である。しかし一般に労政機関の教育活動は好感をもって迎えられる傾向にあるのでその機会に組合自体の教育活動を軌道にのせるよう係員は努力している。

(2) 今月中にGHQのロバートソン氏が新らしい労働教育の計画について労政事務員を、又GHQのシゲノ氏が二回にわたって全県関係の労働組合を指導するため来県された。

(3) 労政課及び労政事務所では労働者の教育計画を中心に一般組合員の意識の高揚をはかるために計画的に個別指導を実施している。

B.労働者教育計画の進捗程度

本月主題「組合の各部活動について」

(1) 組合員が組合の政治活動について批判的になって政治目的のために動く組合は見られない。

(2) 苦情処理委員会や生産委員会の規定を規約や協約に取り入れようと努力している組合が増加してきているがその活用についてはまだ不充分である。

(3) 組合の財政については財政秩序を確立して能率的な運営をしている組合は少く会計報告も大まかであり一般に組合員の組合財政に対する関心はうすいからこの点更に教育を強化する必要がある。
