JIB

1. In accordance with the request contained in Intelligence Division letter, ID 413.44, dated 20 October 1947, subject as above, the following information is furnished:

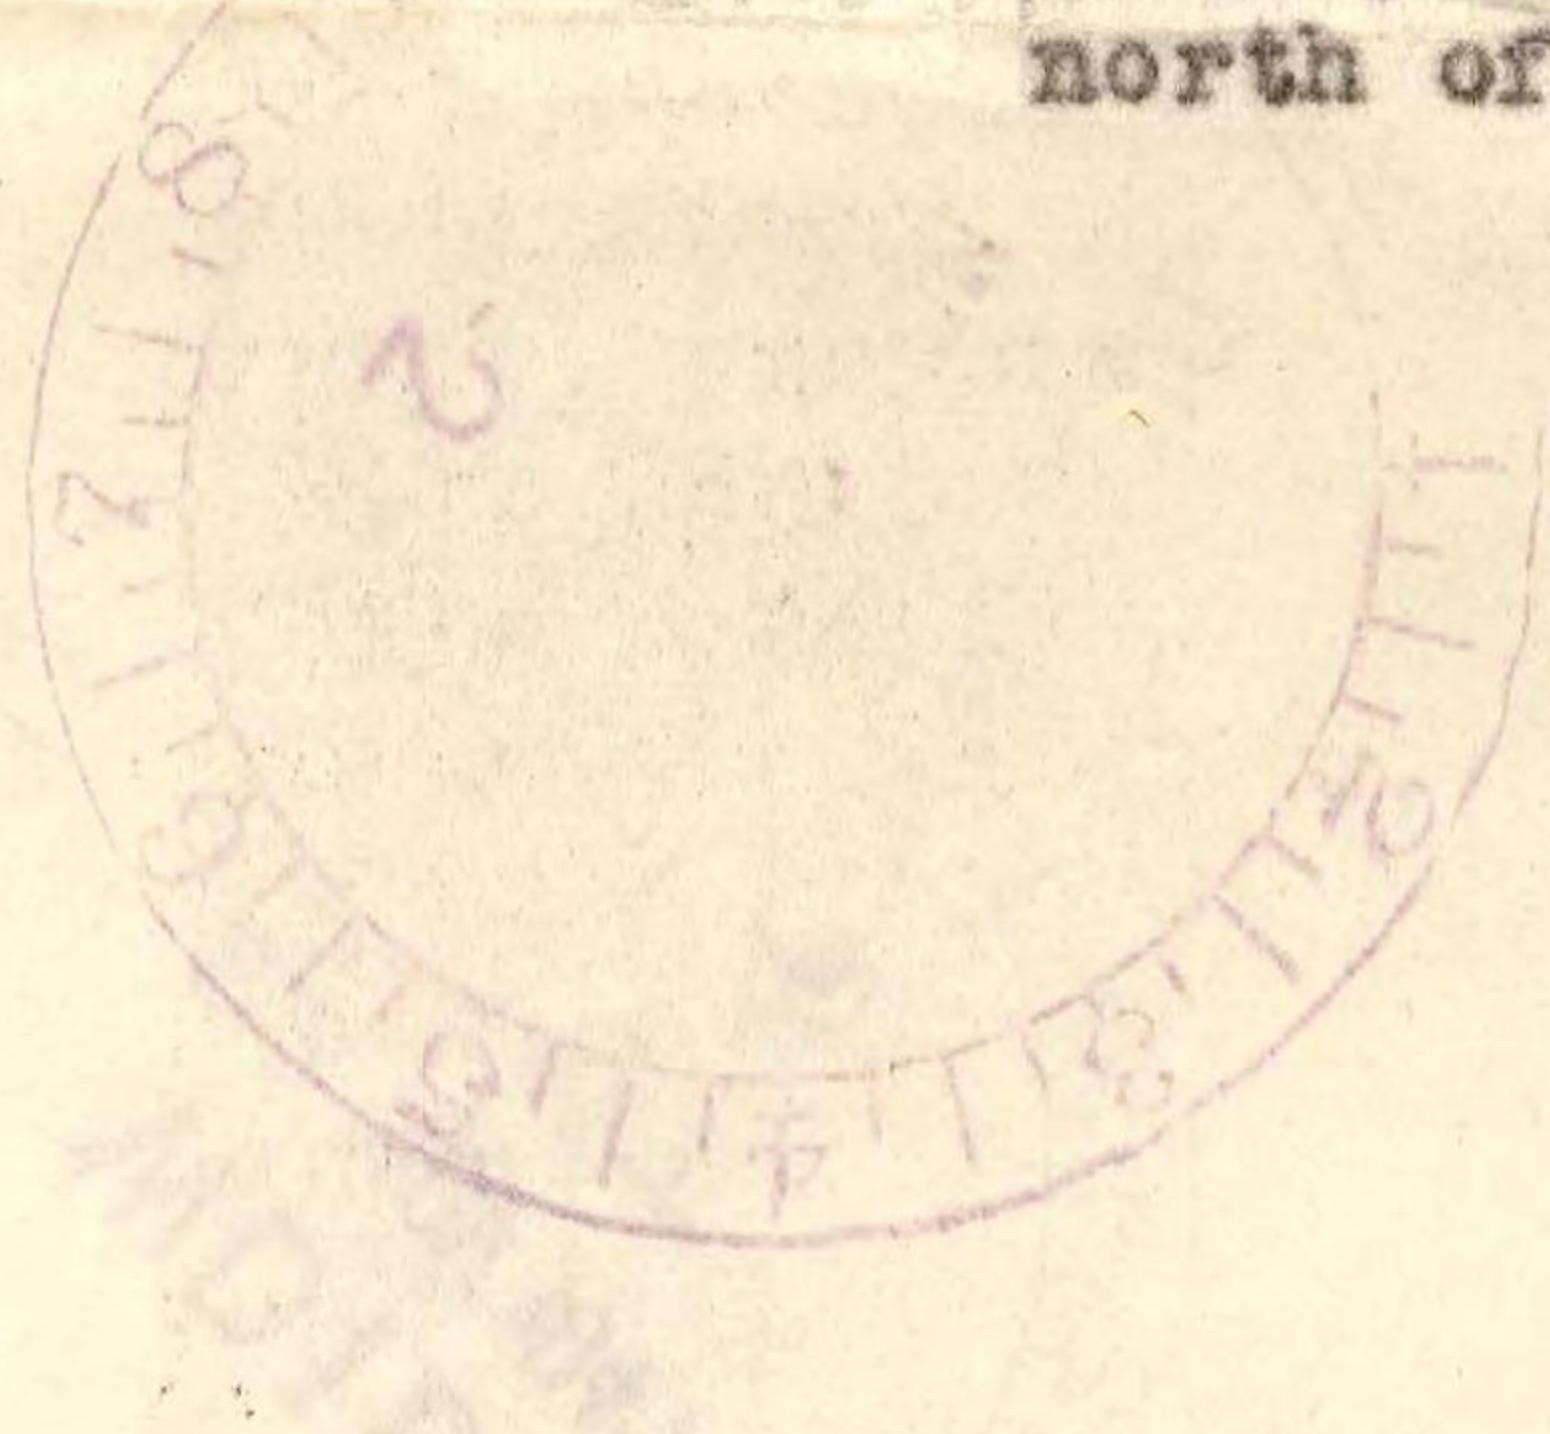

a. Reinterrogation of the informant who gave the information on an electrical plant at SKOVORODINO ($123^{\circ}54'E$ - $53^{\circ}59'N$) as published on page 38, ATIS Interrogation Report No. 25, 22 August 1947, Interrogation No. 901, resulted in the further information that the electrical plant mentioned in the report is a Thermo-electric Power Plant.

b. Interrogation of repatriates from SKOVORODINO has failed to give the name of the plant or to show any evidence of products produced. However, power from the plant is transmitted to the city for industrial and home use.

c. The following information is the result of observations during December 1945 - January 1946:

- (1) Located 1.6 miles south of the SKOVORODINO Railroad Station. One, two-story brick building, 198 by 132 feet. Building painted ash-grey.
 - (2) About 50 Russians employed at this power plant. Power output unknown. Plants consumed about 30 tons of coal daily.
 - (3) Three boilers 9.9 feet in diameter and 19.8 feet in length located on the first floor of the North section of this building. Other facilities unknown. Informant worked one month unloading coal in the vicinity of this power plant and has never been inside so could not give detailed information. This plant does not manufacture any electrical goods.
- (4) No other building located in the immediate vicinity of this power plant. Nearest building located .6 miles north of this power plant.

ATIS Interrogation Reports

Russia

Electrical Plant, SKOVORODINO

Letter ID 413.44, dated 20 Oct 47, Control No. S-842

(5) No Japanese PW was employed inside this power plant. Single spur track leads from SKOVORODINO to power plant. Dirt road 16.5 feet in width also leads from town to plant.

2. As further information becomes available on this subject, it will be forwarded.

For the Assistant Chief of Staff, G-2:

E. H. F. SVENSSON
Colonel, GSC
Director, WDI Div

* * * * *

MEMO FOR RECORD:

1. Basic ltr ID 413.44, dated 20 Oct 47, Control #S-842, subj: "Electrical Plant, SKOVORODINO" requested additional information regarding the electrical plant reported to be at SKOVORODINO ($123^{\circ}54'E$ - $53^{\circ}59'N$) on page 38, ATIS Interr. Rpt No. 25, 22 August 1947. It was further requested that in the initial report and on subsequent reports of electrical plants efforts be made to include the following additional details:
 (1) Name of plant; (2) Products; (3) Size and number of employees; and
 (4) Any additional details available.

2. Conference on this matter was conducted between Mr. Blankenship of ATIS R&I Sect, Dr. Krauskopf of ATIS Geo Sect and Capt. Walker of WDI Div Targets Branch and resulted in the enclosed information. Mr. Blankenship requested that Central Interrogation Center conduct a re-interrogation of Japanese informant who gave original information which resulted in ID request for additional data on subject plant.

3. The info contained in this OCS Form 17 is the only data available at this time. However, ATIS R&I, through Cent. Inter. Cent. will continue to pursue the matter and will forward any new material which may come to the surface on this subject.

2. Following are extracts from Phase II Interrogation of Repatriates from Soviet dominated areas made at the ports of entry:

Extract of Phase II Interr. No. 455

ANSHAN ($41^{\circ}07'N$, $122^{\circ}57'E$) - P.W. believes that the Russians have an underground plane factory in the nearby mountains. Mar 47.

Extract of Phase II Interr. No. 351

PORT ARTHUR ($38^{\circ}48'N$, $121^{\circ}16'E$), Nov 46. Underground tunnel is located 6,000 meters east of the harbor mouth and 250 meters from the seacoast, 2,000 meters from the highway leading from DAIKIN to PORT ARTHUR. Shells for cannon and AA guns are stored and carted in small carts which run on rails to the many gun emplacements. The dump position can be distinguished by the dirt road branching off from the main highway. Two trucks can barely pass on the road and the dead end in the dump which is well camouflaged.

Russia, Japan

Underground Installations

Letter WDGS, ID 0004, 19 August 1947, Control No. CR-602

Extract of Phase II Interr. No. 406

SHUSUISHI (CHOU-SHUI-TSU 121°40, 38°54) - Underground hangars and fortifications at field. Fortifications were 150 meters long and 800 meters wide. This included the ammunition warehouses which the subject did not visit. The place could hold 20,000 men. Underground road, 300 meters long and 30 meters wide leads to one of the hangars on the outside. The Russians are improving the place.

3. Air Technical Intelligence Report No. 51, dated 8 November 1945 describes an installation at Yokosuka, Honshu, Japan. Distribution list shows five (5) copies forwarded to G-2, War Department, Washington, D.C. at time of preparation.

4. No further reports are available at this time. Technically trained repatriates from Russia are being interrogated by a special team for critical information.

5. Underground installations in Japan were a late development. Very little consideration had been given to design features. Available data will be assembled in reply to this Specific Requirement and will be forwarded as soon as practicable.

For the Assistant Chief of Staff, G-2:

E. H. F. SVENSSON
Colonel, GSC
Director, WDI Div

MEMO FOR RECORD:

1. Basic communication requests all available data on Underground Installations with particular reference to overall policy, strategic and physical planning features, cost of construction and operation, and operational effects on personnel in Russia and Japan. Liaison Ofcr, Tgts Br, contacted TID, ATIS, TI, OCE, ESS, FEAF, COMNAVFE for info. Very little info was available. Arrangements have been made with OCE to initiate and supervise a study of underground installations in Japan to be made by Jap Demob Bur. Reports will be sent to Tgts Br. Check sheet from G-2 to OCE formally requesting this study has been drafted. ATIS Cent Inter Cent will intensify search for more info on subject from repatriates. This OCS Form 17 advises MID of info now on hand and plans for completion of requirement.

----- C.A.W. -----

MEMO FOR RECORD:

This C/N is written to secure from OCE data on underground installations in Japan ~~and~~ requested in reference communication. A search was made by liaison officer, Tgts Br, but little information on the subject was found. Liaison Officer, Tgts Br, has contacted Maj Hammond and Capt Fulmer, OCE, who have agreed to initiate and supervise the project of obtaining information through the Jap Demob Bureau. This check note formally requests this study be made. Prepared in final form in accordance with instructions
