At 0800(K) Lieutenant E. V. McHEELEY, U.S.N.R., accompanied by his marine observer, Major GORMAN, U.S.M.C.R., took off for observation work over INO JIMA, covering both the 4th and 5th Marine Divisions.

At 0930(K) while flying westward over #2 airfield at 2100 feet, one of the enemy's 40 mm guns found the range and one burst of the approximate fifteen fired and tore off half of the plane's starboard stabilizer. The plane was still under control; but difficult to handle, necessitating return to base.

This was Lieutenant McNEELEY'S fifth observation mission over the island, but was the first time that enemy AA fire was sufficiently accurate to do damago.
