Former City Treasurer of Buffalo Pleads Guilty to One Indictment.

(Associated Press.)  
Buffalo, N. Y., May 8.—The case of former city treasurer Phillip Gersl, indicted for complicity in the defalcations in his office, which resulted in his bondsmen being forced to make good to the extent of about \$10,000, was called in the supreme court this afternoon. Gersl pleaded guilty to violating the 47th section of the penal code, which provides that any official who misappropriates public money, or causes others to misappropriate it, is guilty of a felony. There were three indictments against him. The specific indictment to which he pleaded guilty charged him with misappropriating \$65,000. The other two indictments were dismissed. He was fined \$1,000, which he paid, and was released.

Every department of the national government was represented. The executive, by the President and his cabinet and many prominent officials of the civil service; legislative, by senators and representatives; the judiciary, by the United States supreme court; the military and naval services, by officers of all ranks. The diplomatic body, accompanied in many cases by their ladies, attended the church services.

(Associated Press.)  
Chicago, May 9.—The Record-Herald says: "It is the present plan of the Pennsylvania to place in service a daily train which will make the distance of 912 miles between Chicago and New York in seventeen hours or possibly seven and a half hours. The exact date on which the new service will begin has not been settled, but it is said that the new flyer will be put on between the 15th and 20th of June. This will be by all means the fastest long distance train service in the world, and it is made possible by the expenditure of over \$50,000,000 by the Pennsylvania in improving its road between the two cities. The average speed of the train, including stops, will be 53.64 miles per hour, and exclusive of stops about 57 miles per hour."

**PROPOSED ROUTE OF LINE FROM ONTARIO**

**Bill Reported in Committee To-Day—Dominion Parliament Will Prorogue Early Next Week.**

(Special to the Times.)  
Ottawa, May 9.—At the railway committee to-day the Canada Central Railway Company's bill from French River, in Ontario, to Tete Jaune Cache, British Columbia, by way of the Yellowhead Pass, was reported. The proposed road is to run north of Lake Winnipeg, 50 miles north of Edmonton and Prince Albert. A branch will also run to Port Arthur. The promoters are E. F. B. Johnston, Toronto; B. W. Folger, Kingston; Paul Weedner, Detroit; John Miller, Duluth; and T. W. Paterson, Victoria. Its capital is reduced from \$25,000,000 to \$15,000,000. From Tete Jaune Cache the Canada Central will run southerly in the vicinity of the North-Thompson river, by way of Kamloops, to a point near Princeton, then westerly to New Westminster and thence northwesterly to Vancouver.

**Yukon's Representation.**  
The bill giving representation to the Yukon in the House of Commons was amended to-day, making the voters list final two days before the election. This is to prevent parties on the election day taking the oath and voting. Hon. **THE DESTRUCTION OF ST. PIERRE CONFIRMED**

**It is Believed Twenty-Five Thousand Persons Have Lost Their Lives.**

(Associated Press.)  
Paris, May 9.—The commander of the French cruiser Suetet has telegraphed to the minister of marine, M. de Laneson, from Fort de France, Island of Martinique, under the date of Thursday, May 8th, at 10 p.m., as follows: "I have just returned from St. Pierre, which has been completely destroyed by an immense mass of fire, which fell on the town at about 8 o'clock in the morning. The entire population (about 25,000) is supposed to have perished. I have brought back the few survivors, about 30. All the shipping in the harbor has been destroyed by fire. The eruption continues."

Later Particulars.  
St. Thomas, D. W. I., May 9, 9:30 a.m.—The French cruiser Suetet arrived at Point au Pitre, Island of Gadeloupe, French West Indies, from Port de France, Island of Martinique, this morning, bringing several refugees. She confirmed the report that the town of St. Pierre, Martinique, was entirely destroyed at 8 o'clock on Thursday morning by a volcanic eruption. It is supposed that most of the inhabitants of St. Pierre were killed; that the neighboring parishes were left waste and that the residue of the population of St. Pierre is without food or shelter.

The British royal mail steamer Eak, which arrived at St. Lucia this morning, reports having passed St. Pierre last night. The steamer was covered with ashes, though she was five miles distant from the town, which was in impenetrable darkness. A boat was sent in as near as possible to the shore, but not a living soul was seen ashore, only flames. The Quebec steamship company's steamer Roraima was seen to explode and disappear.

The command of the Suetet reports that at 1 o'clock on Thursday the entire town of St. Pierre was wrapped in flames. He saved about 30 persons, more or less burned, from the vessels in the harbor. His officers went ashore in small boats seeking for survivors, but were unable to penetrate the town. They saw groups of bodies on the wharves, and it is believed that not a single person resident in St. Pierre at the moment of the catastrophe escaped.

The governor of the colony and his staff colonel and wife were in St. Pierre, and probably perished.

The extent of the catastrophe cannot be imagined. The captain of the British steamer Roddam was very seriously injured, and is now in the hospital at St. Lucia. All of the officers and engineers are dead or dying. Nearly every member of the crew is dead. Supercargo Campbell and ten of the crew of the Roddam jumped overboard at St. Pierre and were lost.

**Duel With Pistols in Which One Man Was Killed.**

(Associated Press.)  
Chicago, May 9.—Antonio Mehl has been shot and killed in a pistol duel with Joseph Deandre. Eight shots were fired between the two men, and the duel was witnessed by the wives of both. Deandre received a bullet wound in the left breast and it is said he will die. The police have been unable to learn the real cause, but the widow claims that Deandre killed her husband because he had refused to rent her rooms.

**IN THE LEGISLATURE.**

**Conference Between the Premier and Leader of the Opposition—Settlers' Rights Debate.**

Before the House met this afternoon, the Premier had a long conference with Mr. McBride, the leader of the opposition. What transpired there of course can only be surmised from the agitation which has been manifest in the ministerial ranks for the last two days, but particularly last evening and this forenoon.

It seems certain that the government cannot force through the railway bill, and the disposition of the Premier is one of disgust with his humiliating position, and a desire to drop his heart-breaking task.

Some of the government members, and their view is held by some ministers, is to submit the railway bill on Monday and fight it out. If they are successful they would expect the opposition to drop objection to the estimates; if they fail they would logically abdicate their position for the opposition.

On the House opening this afternoon the ministry listlessly allowed public business, which they have been urging forward, to go by default, and the ordinary business went on. They will not hold a night session if they can avoid it.

The Settlers Rights debate is proceeding at time of going to press.

TOWN BURIED BY A FLOW OF LAVA

MANY INHABITANTS REPORTED TO BE DEAD

St. Pierre, Martinique, Wiped Out—Steamer Lost With All on Board.

St. Thomas, D. W. I., May 8.—The British steamer Roddam, Capt. Freeman, which left St. Lucia on Wednesday for Martinique, returned to St. Lucia at 5 o'clock this afternoon. She brings a report that the town of St. Pierre, Martinique, has been totally destroyed as a result of the volcanic disturbances in the island. Almost all the inhabitants of St. Pierre are said to have been killed.

The Roddam reports that all the shipping in the port has also been destroyed. The Quebec Steamship Company's steamer Boronia is mentioned as having been lost with all on board. The Roddam was almost completely wrecked.

Another dispatch from St. Thomas, dated May 7th, said that the steamer Roddam, which was on the island of St. Vincent, B. W. I., announced that for some days earthquakes had been experienced in the Soufriere crater, which had been smoking. The people in the vicinity of the volcano were leaving for places of safety.

The town of St. Pierre, the commercial capital of the French island of Martinique, is on the west coast. The port there has only an open roadstead. The town has a population of about 25,000. The island of Martinique contains several extinct volcanoes, the highest point being Mount Pelee, with an altitude of 4,480 feet.

A NEW YORK TRAGEDY.

Paul Ford Murdered by His Brother Who Afterwards Committed Suicide.

New York, May 8.—Paul Leicester Ford, the novelist, was shot and killed by his brother, Malcolm Webster Ford, writer and athlete, who immediately sent a bullet into his own breast, dying instantly.

The shooting occurred at 10.30 a. m. in the handsome new mansion which Paul Leicester Ford had built at 37 East 77th street, and had occupied for a year. At the time of the shooting those in the house beside the two brothers were Mrs. Paul Leicester Ford, Miss Elizabeth Hall, the novelist's secretary, and the servants. The novelist was sitting at his desk in the corner of his library. It is supposed he was engaged at some literary work. Miss Hall was at her desk in another corner of the same room; Mrs. Paul Leicester Ford was in her room.

Malcolm Ford called, as he had often done, and went to his brother's desk. Words were exchanged in a tone so low that Miss Hall could not hear what was said, though she was not paying attention to the incident. Suddenly there was a revolver shot and Miss Hall darted from the room. Then, according to the statements of the police, she considered that she must act more bravely, and re-entered the library.

THE SHIPPING COMBINE.

London, May 8.—The Associated Press has secured copies of shipping combine agreements. They are called provisional agreements for the purpose of acquisition on or before December 31st, 1902, of the White Star, Dominion, Canadian and Atlantic Transport lines, to be organized under the direction of the vendors to the satisfaction of the bankers, namely, the Morgans, under the laws of the state of New York, or such other state as shall be selected.

The vendors, "Imrie & Co., Mills & Co., Dominion Line and Messrs. Wigham, Grierson & Bernard Baker, receive as consideration for all their capital stock \$12,000,000, of which \$9,000,000 is preferred stock, cumulative at six per cent, and \$3,000,000 common stock, limited to ten per cent, and also \$50,000,000 in collateral trust at 4 1/2 per cent. The White Star line, the Dominion line is authorized to January 1st, 1903, the combine or corporation as it is termed taking all the net profits from that date. The White Star line shares are exchanged on the basis of ten times the net profits made by that line in 1901.

The American and transport lines are lumped in one valuation at \$34,158,000, subject to \$10,000,000 of the American lines five per cent. bonds.

The Leysland line is valued at \$11,750,000, based on the understanding that there are, or will be, outstanding \$4,075,000 in five per cent. preference shares, and \$2,500,000 in four per cent. debentures, which are not included in the purchase price.

The method of payment is as follows: White Star line, 25 per cent. cash, 75 per cent. preferred at par, and 37 1/2 per cent. of the total amount in common at 100.

The Dominion line payment is exactly the same, and the American Transport lines net between them \$8,314,000 in preferred, \$9,015,700 in common, \$15,544,000 in cash, and such further cash as may be required at a rate not exceeding six per cent. The Leysland line gets \$11,750,000 cash, and the remainder in capital stock, and the bonds go to the vendors, who, however, contribute to the operation as working capital \$786,000 in preferred, and \$6,645,000 in common stock, and are to transfer to the syndicate, if, and when formed by the bankers, viz. the Morgans for \$20,000,000 cash, and in full payment for its services, the said \$50,000,000 in debentures, and also \$2,500,000 in preferred, and \$25,000,000 in common stocks. It is provided that the corporation may take over any of the lines at the time when less than three-fourths of their interest shall be delivered by December 31st, 1902.

LIVELY DEBATE

In the United States Senate on Affairs in the Philippines.

Washington, May 7.—Discussion of the Philippine bill in the Senate took a sensational turn today. Mr. McComas, in referring to the alleged cruelties of United States soldiers in the Philippines, cruelties which he said he deeply deplored, said that some of the cruelties which occurred on either side during the civil war. Neither side, he insisted, was to be held responsible for those regrettable occurrences, as neither side approved of them. He suggested, moreover, that senators from South Carolina and Mississippi, "where there is less popular liberty than in any other, were shouting loudest for constitutional liberty in the Philippines."

These remarks caused a sensational reply by Mr. Tillman, who declared that it was no longer possible to sneer away the responsibility for the injuries committed by the Americans in the Philippines.

He said that if it had been known in the South that the reins of government were to be given to negroes, the civil war would have been prolonged indefinitely. He insisted that in order to maintain their self-respect the white people of the South had been obliged to subdue the negro by whatever means they could, using the shotgun as one of the means. He frankly described how the negroes had been defeated at the polls, admitting that the whites get just such majorities as were necessary.

Plumbing and Heating Counts

In plumbing, more perhaps than in any other line of business, the public interest is more than a secondary consideration. All we claim is the supplying of first-class materials, the utmost skill, and in a first-class and highly satisfactory manner. Frankly speaking, we want your patronage and know we can merit it.

RICH STRIKE ON THE COPPER CANYON MINE

The Ore Improves as Depth Is Attained—Railway Track Now Complete into Crofton.

George Sheldon Williams, editor of the British Columbia Mining Exchange, has just returned from a trip to Mt. Sicker, and is very much impressed with Henry Croft's narrow gauge railway from Crofton to the mines. Speaking to a Times reporter this morning Mr. Williams said: "The track is finished into Crofton now, and the road-bed is a 1 1/2-mile track that bed of either the V. & S. or the E. & N. lines, it came down on a flat car, and was not jolted a bit. The grade is considerable, and the switchback up Mt. Sicker is really a marvel of ingenuity. At one point in the ascent you can see three sections of the railway below that you have already passed over. The scenery is, of course, splendid.

"A new strike of considerable importance has been made on the Copper Canyon mine, the property of the Mt. Sicker & Brenton Mines, Ltd. I was shown over the mine by W. Lewis, the manager, and it happened that just before I entered the tunnel the men had broken it to some new ore. This ore body is about 100 feet wide, and contains a fine amount of silver besides copper and gold. This is a distinct improvement on previous discoveries, and it is important because it shows that the ore improves with width. The tunnel in which the new lode has been found is in 130 feet, and the strike proves that the Copper Canyon has the same class of ore as the Lenora.

He frankly described how the negroes had been defeated at the polls, admitting that the whites get just such majorities as were necessary.

"When we get ready to put a nigger's face in the sand," he shouted, "we shove his body there too." He declared that the people of the North would never turn from their "game of devility in the Philippines," and assist the South to rid itself of the threat of negro domination. While Mr. Tillman was speaking many of the Democratic senators left the chamber.

THE DEVELOPMENTS AT MT. SICKER

RICH STRIKE ON THE COPPER CANYON MINE

The Ore Improves as Depth Is Attained—Railway Track Now Complete into Crofton.

George Sheldon Williams, editor of the British Columbia Mining Exchange, has just returned from a trip to Mt. Sicker, and is very much impressed with Henry Croft's narrow gauge railway from Crofton to the mines. Speaking to a Times reporter this morning Mr. Williams said: "The track is finished into Crofton now, and the road-bed is a 1 1/2-mile track that bed of either the V. & S. or the E. & N. lines, it came down on a flat car, and was not jolted a bit. The grade is considerable, and the switchback up Mt. Sicker is really a marvel of ingenuity. At one point in the ascent you can see three sections of the railway below that you have already passed over. The scenery is, of course, splendid.

"A new strike of considerable importance has been made on the Copper Canyon mine, the property of the Mt. Sicker & Brenton Mines, Ltd. I was shown over the mine by W. Lewis, the manager, and it happened that just before I entered the tunnel the men had broken it to some new ore. This ore body is about 100 feet wide, and contains a fine amount of silver besides copper and gold. This is a distinct improvement on previous discoveries, and it is important because it shows that the ore improves with width. The tunnel in which the new lode has been found is in 130 feet, and the strike proves that the Copper Canyon has the same class of ore as the Lenora.

"Mr. Williams did not have an opportunity of looking over the Tye as the manager was absent, but he was shown over the Lenora, where he saw 40,000 tons of ore on the dump. "I should estimate," he added, "from what I saw in the shaft and tunnel that there must be another 100,000 tons of ore in sight. So Mt. Sicker is no longer a land of prospects. Some of the ore recently shipped went over \$150 to the ton."

Returning to Crofton Mr. Williams was taken over the smelter by Mr. Fotheringham, of the Northwest Smelter & Refining Company. It is expected that the smelter will be in operation by the first of June.

Speaking of Crofton, Mr. Williams stated that there was an excellent opportunity for investment in the town or anyone willing to erect small dwelling houses for the smelter hands. A large number of men would, he said, shortly arrive there, and the question of housing them was likely to be a serious difficulty. There were two good hotels, but their accommodations were already taxed, and could not possibly meet the demand which will be caused by the opening of the smelter.

CANCER GERMS KILLED.

A new Constitutional treatment that destroys the Germs of Cancer without injury to the patient.

German and French scientists have demonstrated that Cancer is due to a special germ or microbe in the blood. This being so, the fully of operations at once becomes apparent, as by this means only the outward manifestation of the disease is removed and its true cause and origin is not reached. That's why Cancers generally recur after operations. The germ is left in the system to do its deadly work. Our new Constitutional treatment attacks and destroys the Cancer germ, and removes the Cancer poisons which it has elaborated, completely from the system. That's how it is the cure our remedy makes are always permanent. We have cases on record that have been cured six, eight and ten years, and there has never been any indication of the disease returning.

SOCIETIES' REUNION. Enthusiastic Meeting Held Last Evening—Programme Committee Appointed.

At the Pioneer hall last evening a meeting of delegates from the different local fraternal societies was held, when the proposition of holding a societies' reunion in this city on the day after the coronation was discussed.

The reports from the different delegates to the meeting were to the effect that the societies of the city were willing to hold a reunion day this year. The general recommendation was that the festivities be held on the day after the coronation.

A programme committee, which will report next Thursday evening at a meeting in the Brunswick hotel, was appointed as follows: Bros. W. H. Price (chairman); Fullerton, Brang, McEachern, Mansell, Williamson, Allatt, James, Graham, Redgrave and J. W. Sexton (secretary).

BRITISH COLUMBIA LEGISLATORS

THE member for Alberni, A. W. Neil, holds the undoubted palm in the House for a baritone and whimsical humor, which he uses to excellent service in debate. He has also a command of a well of English, pure and unadorned, which is the envy of members less gifted in that respect.

A. W. NEILL, M. P. F., ALBERNI. He was born at Harrowfield, near Montrose, Forfarshire, Scotland, in 1868, of Scotch and English parents. He was educated at the Scotch Academy and in Edinburgh.

PROCEEDINGS OF THE LEGISLATURE

RAILWAY MEASURE IS HUNG UP IN MEANTIME

Mr. Hawthorthwaite Makes an Impassioned Appeal on Behalf of the E. & N. Settlers.

Press Gallery, May 8th. Worn and weary from the strain of the recent all-night session, the House tonight adjourned at 11 o'clock, not to meet again until tomorrow morning.

The dominant question in chamber and corridor is "What is the government going to do with its railway bill?" It is doubtful if the ministry itself could definitely answer this query, as signs are lacking that they are seeking to strengthen their position before proceeding further with it.

The government, stimulated by its success in winning Messrs. Helmecken and Hayward to the support of the measure, have been bringing strong pressure to bear on three other Island members, namely, Messrs. McPhillips, Hawthorthwaite and Neill.

The House opened at 2.30. On privilege, Mr. Curtis again drew attention to absolute misrepresentation in the Colonist that he had declared the business people of Victoria a disgrace. He took occasion to utterly deny the Colonist's reports and to point out how it failed to give its readers a proper report.

Mr. Oliver pressed for an answer to his question, and the Attorney-General said it was an exact copy of the agreement. Mr. Hall read from the Times an announcement of the appointment of an Imperial Royal Commission regarding Chinese immigration.

Dunsmuir, Wells, Prior, Eberts, A. W. Smith, Ellison, Clifford, Hall, Rogers, Hunter, Dickie and Mounce—18.

On the adjournment debate on the motion moved by Mr. Taylor on the 25th April, as follows: "That an order of the House be granted for a return of all papers and correspondence from any person or persons with the Chief Commissioner of Lands and Works, or any officer in the department of lands and works, or any letter or letters on file in the said department dealing with the rate or wages paid, or to be paid, or dealing in any way with the rate of wages of the men on government roads and trails in the Revelstoke riding of West Kootenay."

While he is capable of this form of water-tightness, he is more generally heard in matters of moment in the district, in claims of which he never tires of bringing before the House.

THE FORESHORE RIGHTS RETURNS

Resuming the debate on the foreshore rights question Mr. Gifford attacked the government's action in removing the measure as premature, until the probable course of the Dominion government were known. It had unsettled fishing business, and notwithstanding the statement of the Attorney-General to the contrary, the carriers were far from satisfied.

Mr. McElroy presented a petition from Cory S. Ryder, owners of Extension asking for a bridge. The Foreshores. Resuming the debate on the foreshore rights question Mr. Gifford attacked the government's action in removing the measure as premature.

Mr. McElroy, in closing the debate, said the action of the opposition in bringing up the resolution had prevented, at least to date, the giving away of the foreshore rights.

Mr. Hall here reiterated the statement that there was no promise by the government to these foreshore applicants, and Mr. McBride then manifested curiosity to hear why the foreshore reserve had been lifted.

Mr. McBride also regretted the Victoria deputation had been misquoted and misled into an attempt to intimidate Mr. McPhillips. The unique course of the Premier in carrying around in his pocket the list of applicants for these rights and displaying them in the House was also commented on.

Mr. Taylor then withdrew his resolution, the return having been brought down. E. & N. Settlers. Mr. Hawthorthwaite then, amid applause, resumed the debate on the grievances of the E. & N. settlers.

resolution on the same lines last year. Mr. Hawthorthwaite's charge that he had kept that resolution on the order paper for weeks to prevent it being brought up by others was entirely unfounded.

He accused Mr. Hawthorthwaite of stealing his resolution, characterized his speech as three hours' prattle, and held that though it would pass the House unanimously it would do the settlers no good.

Mr. McPhillips asked if parliament was not even higher than the courts, and should it not do justice if it had been denied. Mr. McInnes said he had taken that stand at Ottawa, and the Royal Commission reported that Hogan had no case.

**LADNER.**  
 Myron E. Wharton and Miss Edna E. Goostrey, who were united in marriage at Blaine, Wash., on Wednesday, April 10th, returned to Ladner on Thursday, and will reside in this section. Both are well-known in the Delta.

**GREENWOOD.**  
 Customs Officer Gardon on Thursday seized 18 head of cattle brought across the line from the American side without paying duty. Information reached him that a man had cattle cached near Hoosier's, between Rock Creek and Camp McKinlay, and was endeavoring to sell them. Gardon immediately rode from Midway to Hoosier's, located and seized the cattle and drove them to Midway. The owner sending trouble about it, and has not since been seen in that neighborhood.

**KASLO.**  
 G. O. Buchanan, the well-known lumber man of this city, has returned from Ottawa and reports that he stopped off at various places on the purpose of inquiring into the lumber market. He finds the demand good and has made several contracts for shipping from his mill here to Manitoba and the Northwest Territories.

The lumber mill at Pilot Bay, operated by J. P. Sayward, of Victoria, is running at full capacity just now. All lumber is shipped to the Nelson yards, and there distributed to various parts of British Columbia, the Northwest Territories and Manitoba.

**NELSON.**  
 Ward was removed on Thursday night that a slide at the Washington mine, half a mile wide, at noon on Thursday demolished J. W. Powers' hotel, a store, blacksmith shop and barn, killing John Douglas, a blacksmith, and 20 head of stock and buried S. M. McDonald and H. Powers under 20 feet of snow. J. W. Powers was riding past on a horse when the slide struck the road; the horse was entangled, but the man escaped. All the miners from adjoining properties assembled, and after some hours of heroic effort, rescued McDonald and Powers. Besides the buildings struck, \$1,500 worth of supplies were destroyed.

**FERNIE.**  
 A very painful accident occurred in the C. P. R. yards here which in all probability will cost Charles Collard an ear. Several men were engaged in repairing a car and were raising it from the ground with a quick-lifting jack which slipped and the bar being up straight against Collard's head just behind one of his ears, which almost severed it from the head, the injured member barely hanging by the skin.

A short time ago some ill-disposed person relieved D. Hammond, electrician for the coal company, of his velocipede. Dick started in to make inquiries, and among others he asked was an Ital an employed in the C. P. R. sand house to keep an eye open for the machine, and said that he would give him \$5 if he was successful in finding the thief. Next day Dick, who was in the power house, heard a row over towards the sand house, and the Italian calling him demanded the \$5. Dick entered the sand house and found a badly used up man with a velocipede. The machine, however, did not belong to Dick. The Italian had waded into the first man who made his appearance on a velocipede, and was highly indignant when he could not get the five spot. -Free Press.

**GRAND FORKS.**  
 The resolution adopted by the Grand Forks Board of Trade respecting the silver-lead question is as follows: That whereas, it is of paramount importance for the protection of the local industry of this province that a higher rate duty be imposed on pig lead, and its manufactured products, and whereas up to the present time the Dominion government has apparently ignored the importance of this measure; now, therefore, be it resolved, that this board of trade request the Dominion government to issue a notice in taking this matter into consideration with a view to imposing duties as may be effective in giving protection to the above industry.

In order to save it from destruction, two miles of the bridge on the Kettle Valley line across the Kettle River, one mile below Carleton Place, were blown up with dynamite on Thursday afternoon. The river is a raging flood, and has overflowed its banks at various points. Logs and debris floated down and jammed against the false work of the railway bridge, piled

up and momentarily threatened to sweep everything before it. Under the circumstances it was resolved to open a channel by means of explosives. Traffic will be interrupted for several days until the demolished spans are repaired with a Howe-truss.

**NELSON.**  
 W. Blakemore, the well-known mining engineer, has arrived here from Montreal, after an absence of several months. Mr. Blakemore is the manager for the syndicate which last year acquired a number of mining claims in the vicinity of Kitchener and spent a considerable sum in their development. Mr. Blakemore was seen shortly after his arrival and asked if he had returned for the purpose of resuming operations on the iron properties near Kitchener, and he replied: "We find on considering the outlook that we have done all that is necessary to establish the value of the iron properties at Kitchener, and there is nothing more to be done until the time is ripe for the establishment of steel works and the development of the mines. The state of the market and the general

condition of affairs in the province would not justify the large expenditure which this would involve at the moment, but the company is prepared to go ahead on the lines outlined as soon as such a course is justifiable. Meanwhile plans are being prepared and the necessary preparations being made for the erection of a steel plant, and the actual work will be inaugurated at no distant date. This season no work will be done on the property except the necessary assessment work on properties bonded. The company has crown granted all the claims which it has purchased. It is understood that the company is fully satisfied with the merits of the property and intend to erect a steel plant, but the only question is as to whether the conditions are favorable for launching so large and so costly an enterprise at the present moment. -News.

At the assizes on Wednesday before Mr. Justice Martin, the first case was Rex vs. Pleaf and Labrasch, the prisoners standing accused of theft of a gold brick from the Fern gold mine. The defence pleaded that Nichols, manager of

the mine, owed them a large amount of salary, that they cut just enough off the brick to cover the amount of their claim, giving a receipt to the bookkeeper, who was present, for the amount taken. A verdict of not guilty was returned by the jury.

The annual general Methodist conference of Kootenay, was held on Wednesday. A. M. Sanford was elected to represent the district on the stationary committee, and S. P. Shaw, of Nelson, on the annual conference missionary committee at the conference which meets at Vancouver on Wednesday, May 14th, at Wesley church.

**VANCOUVER.**  
 Ald. Wood, as "the stormy petrel" of the city council, so disturbed the deliberations of that body on Monday evening that His Worship felt constrained to request the chief of police to be ready to remove the junior alderman for Ward 2, should he continue to obstruct the council and disregard the ruling of the chair. This compelled Ald. Wood to conform to His Worship's ruling, but did not prevent him rising to frequent "points of order" or from making inquiries upon contentious subjects. -News-Advertiser.

Mr. Robert Doherty and Miss Jeanie Doherty were united in marriage by the Rev. L. N. Tucker, M. A., at Christ church on Wednesday evening.

On Wednesday morning two Japanese arrived in the city in a row boat, with the dead body of one of their countrymen, who was killed at a shingle camp on the North Arm of the Inlet on Tuesday afternoon. The man came to his death by being caught in a shingle boat sliding running down the mountain side. One arm and both legs were broken and his face was smashed in a shocking manner. The left side of the head was also frightfully bruised.

**ROSSLAND.**  
 Hugh McGuire, a gambler confined in the city lockup for 20 days for contempt of court, broke jail at a late hour on Tuesday night and has not been recaptured.

School reopened on Monday with a fair attendance of pupils. It is evident, however, that parents in many instances retain their fear of the diseases which led to the closing of the institution a few weeks ago. In view of this it is worth repeating that the medical health officer and the chairman of the trustee board have both gone on record as declaring that there is no longer danger from the sources mentioned. -Miner.

**CHILLIWACK.**  
 Rose Cottage, the residence of Mr. and Mrs. L. J. Chadsey, was the scene of a happy gathering of friends on Wednesday, April 30th, the occasion being the marriage of Miss Emma Wilkinson, sister of Mrs. Chadsey, to Mr. S. S. Boyd, of 70 Mile House, Caribou road. The ceremony was performed by the Rev. J. Robertson, under an arch tastefully decorated with ivy. The bride was becomingly attired in cream crepe voile with orange blossoms, and carried a handsome bridal bouquet, while the bridesmaid, Miss B. Chadsey, wore white organdie over yellow silk. Mr. Boyd was assisted through the ceremony by Mr. Fred Chadsey.

### Victoria Water Works

Attention is called to Sections 22 and 23 of The Waterworks Regulation Act, 1901, No. 54, which reads as follows: "No person shall sprinkle or use in any manner whatsoever the water supplied by the city upon lawns, gardens, yards or grounds of any description, except between the hours of 5 and 9 in the morning, and the hours of 5 and 10 in the evening, unless the water so used shall be supplied by meter. If water (except water supplied by meter) is used for watering lawns or gardens at other than the permitted hours, there shall be charged against the person so using such water the fine provided for such infraction, but this provision shall in no way prejudice any proceedings for enforcing the penalties attached to any infraction of this By-Law."

THE PRESBYTERIAN SYNOD MEETINGS

REPORT OF THE HOME MISSIONS COMMITTEE

Proposal to Undertake Work Among the Japanese—Why W. L. Clay Opposed It.

The Presbyterian synod met again at Nanaimo yesterday morning. After half an hour's devotional exercises, Rev. Dr. McLachlan reported for the home missions committee. It was decided to recommend that the general assembly appoint two superintendents for home missions work, one for Manitoba and the Northwest and another for British Columbia. There are 14 synods, exclusive of the Yukon, 87 mission fields, and in the Yukon 1,200 self-supporting congregations and three mission fields. The amount paid by the general assembly to the home mission fields was \$13,384.90, and only \$1,815 was contributed to the home missions from the synod. Greater liberality is to be urged upon the congregations in this respect. Approval will be asked for a resolution from the Kootenay Presbytery, urging the general assembly to allow, during the meeting of this body, a number of men from the field of the west, one of whom should be from the Kootenay Presbytery, to be brought specially before the assembly from a western standpoint.

Rev. Dr. Campbell reported for the foreign missionary committee, which includes Indian and Chinese work. The recommendations to the general assembly include the enlargement of the home at Alberni and the erection of a home at Alberni.

The recommendation of the committee to undertake the mission work among the Japanese was opposed by Rev. W. L. Clay, on the ground that the Methodists and Baptists were already doing work in that line, and he did not favor dividing the field. The meeting adjourned before a decision was reached.

The afternoon session, from 2 to 6 o'clock, was fully occupied in hearing the appeal of St. Andrew's church, West Vancouver, from the decision of the Presbytery, permitting the congregation of West church to move its church to a more central location.

At the public meeting last evening three addresses were delivered, one by Rev. A. O. McKee, of Greenwood, on "The Church and Fraternal Societies"; one by Rev. D. A. McKee, on "Christian Missions"; and one by Rev. Mr. McBeth, on "Sabbath Observance."

After the public meeting was dismissed the synod convened again. The New Westminster appeal case was taken up and debated till 1 o'clock this morning, when the synod granted a compromise to St. Andrew's church by permitting West church to move in, but not within a block of where the Presbytery had given permission for.

The Presbytery are considering the advisability of appealing the case to the general assembly.

The synod continues its sittings to-day.

IS RAPIDLY DRAWING TOWARDS COMPLETION Splendid Progress Made on James Bay Retaining Wall—Dredge to Be Operated Next Month.

Rapid progress is being made toward the completion of the James Bay retaining wall, and should the present satisfactory supply of stone continue the end of the month should see the work finished. Altogether the wall comprises 12 courses of stone, and at the northern end the workmen have commenced the eleventh course.

Without the coping which will be constructed for the protection of the public, and which will be three feet nine inches high, the wall will rise 20 feet above low water. Its thickness at the base is 11 feet and at the top it will be four feet six inches.

The wall will be higher at the town end, so there will be a slight slope toward Belleville street. The present bridge spans about 18 inches from this street.

The men are laying 50 cubic yards of stone a day, and the city engineer is highly gratified with the splendid progress they are making. The movable dredge is working like a charm, and granted a continuation of the present supply of material and good weather, another important stage in the big undertaking will be completed.

The new Dominion government dredge will be brought down next month, and the filling in operations will commence. Should the capacity of the dredge equal reports, namely, 400 cubic yards per hour, the whole area should be filled in a couple of months.

A great deal of work is being carried on at present, and the city engineer has his hands full. Drains are being laid in James Bay district, a permanent sidewalk is in course of construction on Johnson street, while street work generally has commenced in earnest. The extension of Johnson street to the new road is another improvement to be effected in the near future.

TOMORROW'S REGATTA.

Tomorrow afternoon's J. R. A. club regatta promises to be an exceedingly interesting event. The announcement that a contest will take place between crews picked from members of the club aspiring to aquatic honors has attracted considerable attention. The race course as arranged is from an island about three-quarters of a mile out, and the finish will be at the club house.

The crews to participate are as follows: J. Cornwall, K. Harris, J. McAvish, D. Leeming, E. Wollaston, P. Austin, A. Barker, E. D. Brown, E. H. Bridgman, C. Pendray, E. Power and G. Harris; G. Sheppard, E. Brown, E. B. King and W. S. Nason; W. Moresby, D. Simpson, C. N. Gowen and D. Mackay; F. W. Heathcote, L. Post, T. H. Morse and A. Riddell; C. Marshall, E. Hughes, H. Macdonald and E. C. Thomas; H. A. Jesse, W. H. Klemm, E. S. Bone and W. Wolfenden; C. Jenkinson, J. Lawson, F. M. Davis and A. Pearce; W. R. Jenkinson, W. Goddard, E. Dillabough and J. Sylvester.

The following is the scheduled order of events:

First Round—W. H. Jenkinson vs. W. Moresby; H. A. Jesse vs. G. Sheppard; E. H. Bridgman vs. A. Riddell; P. Austin vs. C. Jenkinson; J. Cornwall vs. C. Marshall.

Second Round—The winner of Jenkinson and Moresby vs. winner of Jesse and Sheppard.

Final Round—Winner of Cornwall and Marshall vs. winner of Wollaston and Jenkinson; winner of second round vs. winner of Bridgman and Riddell.

Finals—Winners of last two races. The crews are referred to by the names of their respective strikers.

The first race will start at 2 p. m. sharp, and all competitors are requested to be ready by that time. If a crew is not on hand when a race is called, it will be scratched.

It is the intention of the club to hold regattas monthly.

Steamer Chatterer left Vancouver at 1:40 p. m., and connected with the Eastern train.

SEALION ON TIME.

Old Sol is Almost Too Early or Too Late in Arriving. The sun does not keep good time. He is almost always too fast or too slow. Once about the middle of April he is just on time, then not again before the middle of June. At the beginning of September he joins the clock a third time, and lastly one more late in December. Now it would seem as if he were started at the way he has followed since February he fell back until he was fifteen minutes late. By the beginning of March he had made up five minutes of his loss, and before the month is over he will have caught up to within five minutes of the schedule. Meanwhile the days have been growing longer very rapidly. We begin March with our nights longer than our days, and with our days longer than our nights. In the one month we have added to the length of our day an hour and twenty minutes, a bigger gain than any other month. MORE SUBSCRIPTIONS

For Celebrations—Meeting of the Finance Committee To-Night.

The celebration finance committee will meet at the city hall at 8 o'clock this evening in order to make the final appropriations. All collectors are particularly requested to have their reports ready.

The total subscriptions reported to the secretary up to noon to-day amounted to \$2,913.71, of which subscriptions amounting to \$1,935.71 have been previously acknowledged. There were still several districts to be reported, and the total will probably exceed \$3,500.

A FABLE OF FORTUNE'S FAVOR.

You have read perhaps the story of the Three Princes, James, John and Richard, who journeyed into the Battle of Life with Wealth, Power and the Gentle Art of Making Friends that brought its possessor, Richard, to Happiness, while Wealth and Power carried only sorrow in their train.

The following story occurred some time before the Princes journeyed into the Battle of Life. Their Father, King Beneficent, was a wise and worthy sovereign. One day there was a great fête in the castle in honor of the eldest son, Prince James. A courtier approached the King.

"Sire," said he, "while we have been making merry, surrounded by luxury and pomp, there is a poor old man starving at the City Gates. He lives in a state of hunger and sickness. Give me, I pray you, some gold that I may relieve his distress."

King Beneficent summoned his sons before him and repeated the courtier's message. "Go, my children," said he, "and do us to you some best."

James became angry and refused. "Why should I," he cried, "I, a Prince, be afflicted with the impertinence of a beggar? If he be poor it is his own fault. He should have worked his money when he was young and saved his money for a rainy day. Besides, it will spoil the party." So he turned away and resumed his dance with the Princess Beatrice.

John, the second son, also became angry. "I won't go," he said, "I am stamped his foot—'on second thought, though, I shall. This will be a great chance to earn the gratitude of a noble. I may need them some day." So he ordered a golden carriage to be brought which bore a gilded legend: "Here goes Prince John, who deprives himself of his pleasure to help the needy." Surrounded by eight knights in silver armor he journeyed down the principal street of the city and went to the hut. He opened the door and flung in a purse of gold.

"Take that, you dog," he said, "there's some charity for you." And he went back to the palace.

When Richard, the youngest son, heard of the poor beggar, his eyes were filled with tears. He summoned the royal cook. "Give me a basket filled with bread and meat—and a bottle of wine." Then he took off his splendid robes and donned a simple suit of gray cloth. Had you seen him walking down the street with the basket on his arm you would never have suspected his identity. When he reached the hovel he found the old man weeping and moaning. "Do not weep, good father," he said kindly. "I am my father's youngest son and so I have no money. But I have brought you something good to eat and drink." While the old man was eating and drinking the young prince opened the windows and let in a little fresh air. Then he tidied up the place and made it neat and wholesome. "Cheer up, good father," he said, when the old man had finished his repast; "when you get well I will have my father give you some work to do in our garden. If you are a good gardener you will provide for yourself a good home and all the comfort you deserve."

When Prince Richard reached the palace he met John. John laughed at him. "They tell me you went down to that hovel with some bread and a bottle of wine. I don't believe you have a hundred florins. All the people saw me, and tonight they will pray for me and thank Providence that they have such a charitable prince. Think of it—a hundred florins to a crust of bread!"

An old man came toward them. They recognized the old man of the hovel. "Is this the young man who promised me work in his father's garden?" he asked, turning to Richard. "I have come to work," Richard smiled to his father. "Father," he said, "this is the poor man you sent me to; he wants work and I have promised him that you will make him one of our gardeners."

John looked indignantly. "I gave him a hundred florins," he said. "Yes, and there they are," said the old man, handing them back. "You called me dog and you came in my home parading your charity before the world. This young man (turning to Richard) brought me only a crust of bread, but with it a kind word. And what is more he showed me how to help myself. That is the best charity."

A SYSTEM AND MONTE CARLO.

When a system is played against a bank like that at Monte Carlo, the percentage against the player is not on the amount of his capital, but on the amount that he stakes on the tables while playing his system. Supposing that I have a capital of £10, and that I play £1 each coup until I have either lost my £10 or won a similar amount of the bank; I should in all probability have to play about 200 coups in order to do the one or the other. Therefore the percentage against me would not be on £10, but on £200. If this bank percentage were 2 per cent, I should consequently be paying £4 for the right to risk £10 at every chance.

I need not know how any one of the chiefs of the old Homburg gambling bank. I found him at Monte Carlo in the same position there. He was fond of calculations, and one day he averaged the amount staked at the tables each day, and we found that the annual gross profit of the bank was almost exactly the percentage on the amount staked in the course of the year. There can be no business in which the return is more certain or greater. Consols return less than 3 per cent per annum. A mine that pays a dividend of 100 per cent is a Pacific. But a coup at Monte Carlo takes a little less than one minute. The percentage is, if I remember rightly, a little under 2 per cent, or, in other words, the bank charges 2 per cent for money per minute. This must make the mouth of the voracious usurer water—London Truth.
