Title 18—CONSERVATION OF POWER AND WATER RESOURCES

Chapter I—Federal Power Commission

[Order 292, Docket No. R-269]

PART 4—LICENSES, PERMITS, AND DETERMINATION OF PROJECT COSTS

Hydroelectric Licenses; Applications; Recreation Plan Exhibits

JANUARY 8, 1965.

Since June 1, 1963,[1] the Commission has required applications for major licenses under Part I of the Federal Power Act to be accompanied by a recreation plan. This order effects a clarification of the requirement by specifying with more particularity the information which these exhibits should contain. The present rule, set out in § 4.41 of the regulations under the Federal Power Act (18 CFR 4.41) provides:

Exhibit R. A proposed plan for full public utilization of project waters and adjacent project lands for recreational purposes so far as consistent with proper operation of the project for the development of water power and other public purposes. For projects where lands of the United States will be affected, the proposed plan shall be prepared after consultation with the agency having supervision over those lands. On other lands, the plan shall be prepared after consultation with appropriate State and local agencies. The plan shall show the location of the project lands and waters proposed by the applicant for camping, picnicking, bathing, boating, fishing, hunting and similar recreational activities. It shall include provisions for sanitary facilities, boat-launching ramps and access roads and trails. The applicant shall indicate the facilities it proposes to provide at its own cost consistent with the economics of the project and the potential recreational opportunities.

The purpose of the retirement is to enable the Commission to determine whether the recreational potential of the national resources to be devoted to licensed projects will be adequately developed, consistent with power development and other public purposes, in compliance with the directive in section 10(a) of the Federal Power Act. To be adequate for its purpose, the Exhibit R should include:

(1) A map of the project area; (2) a statement of the extent of consultation and cooperation with appropriate Federal, State, and local recreation authorities; (3) notations on the map of the location and nature of the present and planned facilities and which of these are to be supplied by the licensee; and, (4) estimates of public recreational utilization of the project.

[1] Order No. 260-A, Docket No. R-223, 29 FPC 777, 28 F.R. 4092.

The experience of the Commission indicates that under the present text of the rule, applicants are uncertain as to the nature of the requirement. Of the 64 Exhibit R filings received to date, only 35 at most could be considered acceptable. Though some have included maps, many have not, probably as a result of the absence of the word "map" in the present rule. In addition, many of the exhibits filed gave no indication of the extent of consultation and cooperation with appropriate government agencies, which is clearly directed by the present rule.

Our conclusion that a clarification of the requirement will bring about the submission of acceptable Exhibit R's is supported by the fact that those applicants who have been advised by letter that their original Exhibit R's were not acceptable have cooperated fully in furnishing to us the additional material needed to complete their filings.

The Commission further finds:

(1) This clarification of an existing rule which was adopted in compliance with the requirements of section 4 of the Administrative Procedure Act in a rulemaking proceeding (Docket No. R-223) after notice and the opportunity to submit written comments, which were received and considered by the Commission, does not require further prior notice to be consistent and in compliance with that act.

(2) In view of the foregoing, it is necessary and appropriate for the purposes of the Federal Power Act that Exhibit R be clarified as set forth below.

The Commission, acting pursuant to the Federal Power Act, as amended, particularly sections 4, 9, 10, and 309 thereof (41 Stat. 1065, 1068; 49 Stat. 858; 16 U.S.C. 797, 802, 803, 825h), orders:

(A) The text following the first sentence of Exhibit R, § 4.41, Subchapter B, Chapter I, Title 18 of the Code of Federal Regulations is amended as set out below. As so amended, the paragraph will read:

§ 4.41 Required exhibits.

* * * * *

Exhibit R. A proposed plan for full public utilization of project waters and adjacent lands for recreational purposes so far as consistent with proper operation of the project for the development of water power and other public purposes. The exhibit shall include:

(1) A map or maps on an appropriate scale, one of which covers the entire project area, clearly delineating by use of symbols, shading, cross-hatchings, etc.:

(a) The location of project lands and waters (i) already developed, (ii) designated for initial development, and (iii) those ultimately planned for recreational use.

(b) The location, type, and number of the various recreational facilities in existence and those planned for immediate development, i.e., access roads and trails, and facilities for camping, picknicking, bathing, boating and boat launching, fishing, hunting, and similar recreational activities, as well as provisions for sanitation and waste disposal.

(c) The location, type, and number of the various recreational facilities planned for future development according to anticipated demand. (These plans may be revised during the license period subject to approval by the Commission.)

(2) On the map, or on separate sheets to be filed as part of the exhibit, the following information:

(a) Which of the facilities shown are to be provided by the applicant or licensee at its sole cost, or in cooperation with others, consistent with the economics of the project and the potential recreational opportunities.

(b) Estimated present or initial recreational use and projected ultimate recreational use, in daytime or overnight visits. (These figures will be used in the economic analysis of the project.)

(c) The nature and extent of consultation and cooperation with Federal agencies having supervision over lands of the United States affected by the project and with appropriate State and local agencies. Copies of cooperative agreements entered into with such agencies shall be included as part of the Exhibit R.

(3) Except to the extent and in such particulars as the requirements may be expressly waived or modified by the Commission, Exhibit R maps are to be filed in conformity with the specifications for drawings contained in § 4.42.

(B) The amendment herein ordered shall be effective upon issuance of this order.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[Sec. 3, as amended by sec. 301(a), Rev. Act 1964 (78 Stat. 129)]

PAR. 4. Section 1.4 is amended by revising subsections (a), (c), and (f) of section 4 and by adding a historical note. The amended and added provisions read as follows:

§ 1.4 Statutory provisions; rules for optional tax.

SEC. 4. *Rules for optional tax*—(a) *Number of exemptions.* For purposes of the tables in section 3, the term "number of exemptions" means the number of the exemptions allowed under section 151 as deductions in computing taxable income.

* * * * *

(c) *Husband or wife filing separate return.* (1) A husband or wife may not elect to pay the optional tax imposed by section 3 if the tax of the other spouse is determined under section 1 on the basis of taxable income computed without regard to the standard deduction.

(2) Except as otherwise provided in this subsection, in the case of a husband or wife filing a separate return the tax imposed by section 3 shall be—

(A) For taxable years beginning in 1964, the lesser of the tax shown in Table IV or Table V of section 3(a), and

(B) For taxable years beginning after December 31, 1964, the lesser of the tax shown in Table IV or Table V of section 3(b).

(3) Neither Table V of section 3(a) nor Table V of section 3(b) shall apply in the case of a husband or wife filing a separate return if the tax of the other spouse is determined with regard to the 10-percent standard deduction; except that an individual described in section 141(d)(2) may elect (under regulations prescribed by the Secretary or his delegate)—

(A) To pay the tax shown in Table V of section 3(a) in lieu of the tax shown in Table IV of section 3(a), and

(B) To pay the tax shown in Table V of section 3(b) in lieu of the tax shown in Table IV of section 3(b).

For purposes of this title, an election under the preceding sentence shall be treated as an election made under section 141(d)(2).

(4) For purposes of this subsection, determination of marital status shall be made under section 143.

* * * * *

(f) *Cross references.* (1) For other applicable rules (including rules as to the change of an election under section 3), see section 144.

(2) For disallowance of certain credits against tax, see section 36.

(3) For rule that optional tax is not to apply if individual chooses the benefits of income averaging, see section 1304(b).

(4) For nonapplicability of Table V in section 3(a) and Table V in section 3(b) in case where tax is not computed by taxpayer, see section 6014(a).

[Sec. 4 as amended by secs. 232(f)(1) and 301(b)(1) and (3), Rev. Act 1964 (78 Stat. 111, 140)]

PAR. 5. Section 1.4–3 is amended to read as follows:

§ 1.4–3 Husband and wife filing separate returns.

(a) *In general.* If the separate adjusted gross income of a husband is less than $5,000 and the separate adjusted gross income of his wife is less than $5,000, and if each is required to file a return, the husband and the wife must each elect to pay the optional tax imposed under section 3 or neither may so elect. If the separate adjusted gross income of each spouse is $5,000 or more, then neither spouse can elect to pay the optional tax imposed under section 3. If the adjusted gross income of one spouse is $5,000 or more and that of the other spouse is less than $5,000, the election to pay the optional tax imposed under section 3 may be exercised by the spouse having adjusted gross income of less than $5,000 only if the spouse having adjusted gross income of $5,000 or more, in computing taxable income, uses the standard deduction provided by section 141. If the spouse having adjusted gross income of $5,000 or more does not use the standard deduction, then the spouse having adjusted gross income of less than $5,000 may not elect to pay the optional tax and must compute taxable income without regard to the standard deduction. Accordingly, if the spouse having adjusted gross income of $5,000 or more itemizes the deductions allowed by sections 161 and 211 in computing taxable income, the spouse having adjusted gross income of less than $5,000 must also compute taxable income by itemizing the deductions allowed by sections 161 and 211, and must pay the tax imposed by section 1. For rules relative to the election to take the standard deduction by husband and wife, see part IV (section 141 and following), subchapter B, chapter 1 of the Code, and the regulations thereunder.

(b) *Taxable years beginning after December 31, 1963.* (1) In the case of a husband and wife filing a separate return for a taxable year beginning after December 31, 1963, the optional tax imposed by section 3 shall be—

(i) For taxable years beginning in 1964, the lesser of the tax shown in Table IV (relating to the 10-percent standard deduction for married persons filing separate returns) or Table V (relating to the minimum standard deduction for married persons filing separate returns) of section 3(a), and

(ii) For taxable years beginning after December 31, 1964, the lesser of the tax shown in Table IV (relating to the 10-percent standard deduction for married persons filing separate returns) or Table V (relating to the minimum standard deduction for married persons filing separate returns) of section 3(b).

(2) If the tax of one spouse is determined with regard to the 10-percent standard deduction provided for in Table IV of section 3(a) or 3(b) or if such spouse in computing taxable income uses the 10-percent standard deduction provided for in section 141(b), then the minimum standard deduction provided for in Table V of section 3(a) or 3(b) shall not apply in the case of the other spouse, if such spouse elects to pay the optional tax imposed under section (3). Thus, if a husband and wife compute their tax with reference to the standard deduction, one cannot elect to use the 10-percent standard deduction and the other elect to use the minimum standard deduction. However, an individual described in section 141(d)(2) may elect pursuant to such section and the regulations thereunder to pay the tax shown in Table V of section 3(a) or 3(b) in lieu of the tax shown in Table IV of section 3(a) or 3(b). See section 141(d) and the regulations thereunder for rules relating to the standard deduction in the case of married individuals filing separate returns.

(c) *Determination of marital status.* For the purpose of applying the restrictions upon the right of a married person to elect to pay the tax under section 3, the determination of marital status is made as the close of the taxpayer's taxable year or, if his spouse died during such year, as of the date of death, and a person legally separated from his spouse under a decree of divorce or separate maintenance on the last day of his taxable year (or the date of death of his spouse, whichever is applicable) is not considered married. See section 143 and the regulations thereunder.

PAR. 6. Section 1.141 is amended by revising section 141 and by adding a historical note. The amended and added provisions read as follows:

§ 1.141 Statutory provisions; standard deduction.

SEC. 141. *Standard deduction*—(a) *Standard deduction.* Except as otherwise provided in this section, the standard deduction referred to in this title is the larger of the 10-percent standard deduction or the minimum standard deduction. The standard deduction shall not exceed $1,000, except that in the case of a separate return by a married individual the standard deduction shall not exceed $500.

(b) *Ten-percent standard deduction.* The 10-percent standard deduction is an amount equal to 10 percent of the adjusted gross income.

(c) *Minimum standard deduction.* The minimum standard deduction is an amount equal to the sum of—

(1) $100, multiplied by the number of exemptions allowed for the taxable year as a deduction under section 151, plus

(2) (A) $200, in the case of a joint return of a husband and wife under section 6013,

(B) $200, in the case of a return of an individual who is not married, or

(C) $100, in the case of a seperate return by a married individual.

(d) *Married individuals filing separate returns.* Notwithstanding subsection (a)—

(1) The minimum standard deduction shall not apply in the case of a separate return by a married individual if the tax of the other spouse is determined with regard to the 10-percent standard deduction.

(2) A married individual filing a separate return may, if the minimum standard deduction is less than the 10-percent standard deduction, and if the minimum standard deduction of his spouse is greater than the 10-percent standard deduction of such spouse, elect (under regulations prescribed by the Secretary or his delegate) to have his tax determined with regard to the minimum standard deduction in lieu of being determined with regard to the 10-percent standard deduction.

[Sec. 141 as amended by sec. 112(a), Rev. Act 1964 (78 Stat. 23)]

PAR. 7. Section 1.141–1 is amended to read as follows:

§ 1.141–1 Standard deduction.

(a) *In general.* The standard deduction referred to in this section is:

(1) For taxable years beginning before January 1, 1964, the 10-percent standard deduction, and

(2) For taxable years beginning after December 31, 1963, the larger of the 10-percent standard deduction or the minimum standard deduction.

The taxpayer may elect to take, in addition to the deductions from gross income allowable in computing adjusted gross income and the deduction described in section 151, relating to personal exemptions, a standard deduction in lieu of all deductions other than those described in section 62 and in lieu of certain credits allowable to the taxpayer, had he not so elected. See section 36. Such credits include: The credit provided by section 33 for taxes imposed by foreign countries and possessions of the United States; the credit provided by section 32 for tax withheld at source under section 1451 by the obligor on tax-free covenant bonds with respect to interest on such bonds; and the credit provided by section 35 with respect to interest on United States obligations and interest on obligations of instrumentalities of the United States. Such standard deduction, however, may in no event exceed $1,000, or $500 in the case of a separate return by a married individual. For determination of marital status see § 1.143–1. See section 4 and the regulations thereunder for rules relating to standard deduction in respect of optional tax. The optional tax tables provided for in section 3 reflect the standard deduction provided for in section 141.

(b) *Ten-percent standard deduction.* The 10-percent standard deduction is (except for the limitation in paragraph (a) of this section) an amount equal to 10 percent of the taxpayer's adjusted gross income. In the case of a joint return, there is only one adjusted gross income and only one 10-percent standard deduction. For example, if a husband has an income of $15,000 and his spouse has an income of $12,000 for the taxable year for which they file a joint return, and they have no deductions allowable for the purpose of computing adjusted gross income, the adjusted gross income is $27,000, and the 10-percent standard deduction is $1,000 (and not $2,000).

(c) *Minimum standard deduction.* The minimum standard deduction is (except for the limitation in paragraph (a) of this section) an amount equal to the sum of—

(1) $100, multiplied by the number of exemptions allowed for the taxable year as a deduction under section 151,

(2) In addition,

(i) $200, in the case of a joint return of a husband and wife under section 6013,

(ii) $200, in the case of a return of an individual who is not married, or

(iii) $100, in the case of a separate return of a married individual.

The return of a surviving spouse is treated as a joint return for purposes of subdivision (i) of this subparagraph. See section 2, and the regulations thereunder, with respect to the definition of a surviving spouse.

(d) *Married individuals filing separate returns for taxable years beginning after December 31, 1963.* (1) In the case of a married individual filing a separate return in a taxable year beginning after December 31, 1963, the minimum standard deduction shall not apply if the tax of the other spouse is determined with regard to the 10-percent standard deduction or is computed by the Internal Revenue Service pursuant to section 6014.

(2) A married individual filing a separate return in a taxable year beginning after December 31, 1963, may elect to determine his tax with regard to the minimum standard deduction in lieu of determining it under the 10-percent standard deduction, although his minimum standard deduction is less than the 10-percent standard deduction, if the minimum standard deduction of his spouse is greater than the 10-percent standard deduction of such spouse. A taxpayer shall signify on his return his election to determine his tax with regard to the minimum standard deduction by claiming thereon the deduction in the amount provided for in section 141(c) instead of the amount provided for in section 141(b).

(3) For rules relating to the election to pay the optional tax imposed by section 3 when married individuals file separate returns, see section 4(c) and the regulations thereunder.

(e) *Short taxable year due to death of taxpayer.* An election to take the standard deduction may be made for a taxable year which is less than 12 months on account of the death of the taxpayer.

PAR. 8. Section 1.142–1 is amended by revising paragraph (b) to read as follows:

§ 1.142–1 Husband and wife.

* * * * *

(b) If each spouse files a separate individual income tax return (Form 1040 or 1040A), both spouses must elect to take the standard deduction or both spouses are denied the standard deduction. Thus, if one spouse files a return on Form 1040 and does not elect to take the standard deduction, the other spouse may not elect to take the standard deduction and, hence, may not file a return on Form 1040A. For example, if A and his wife B have adjusted gross incomes of $6,000 and $3,500, respectively, from wages subject to withholding and A files a return on Form 1040 and does not elect thereon to take the standard deduction, B may not file her return on Form 1040A, but must file on Form 1040 and compute her tax without regard to the standard deduction. In such case, however, if both elect to take the standard deduction either taxpayer may file on Form 1040 or 1040A, but B's tax must be computed on the basis of the applicable tax table in section 3. See § 1.4–3 for rules relating to the computation of the optional tax when a husband and wife file separate returns.

* * * * *

PAR. 9. Section 1.144 is amended by revising section 144(b), by adding a new subsection (c) to section 144 and by adding a historical note. The amended and added provisions read as follows:

§ 1.144 Statutory provisions; election of standard deduction.

SEC. 144. *Election of standard deduction.* * * *

(b) *Change of election.* Under regulations prescribed by the Secretary or his delegate, a change of election with respect to the standard deduction for any taxable year may be made after the filing of the return for such year. If the spouse of the taxpayer filed a separate return for any taxable year corresponding, for purposes of section 142(a), to the taxable year of the taxpayer, the change shall not be allowed unless, in accordance with such regulations—

(1) The spouse makes a change of election with respect to the standard deduction for the taxable year covered in such separate return, consistent with the change of election sought by the taxpayer, and

(2) The taxpayer and his spouse consent in writing to the assessment, within such period as may be agreed on with the Secretary or his delegate, of any deficiency, to the extent attributable to such change of election, even though at the time of the filing of such consent the assessment of such deficiency would otherwise be prevented by the operation of any law or rule of law.

This subsection shall not apply if the tax liability of the taxpayer's spouse, for the taxable year corresponding (for purposes of section 142(a)) to the taxable year of the taxpayer, has been compromised under section 7122.

(c) *Change of election defined.* For purposes of this title, the term "change of election with respect to the standard deduction" means—

(1) A change of an election to take (or not to take) the standard deduction;

(2) A change of an election to pay (or not to pay) the tax under section 3; or

(3) A change of an election under section 141(d)(2).

[Sec. 144 as amended by sec. 112(c), Rev. Act 1964 (78 Stat. 24)]

PAR. 10. Section 1.144–2 is amended by revising the section heading, by revising paragraph (a) and by adding a new paragraph (d). The amended and added provisions read as follows:

§ 1.144–2 Change of election with respect to the standard deduction.

(a) A change of the election with respect to the standard deduction for any taxable year may be made before or after the time prescribed for filing the return for the taxable year. However, the period of time prescribed in section 6511 within which claim for credit or refund of tax must be made is not extended by the right to effect a change of election.

* * * * *

(d) A change of election with respect to the standard deduction means:

(1) A change of election to take, or not to take, the standard deduction;

(2) A change of an election to pay, or not to pay, the tax under section 3; or,

(3) In the case of a taxable year beginning after December 31, 1963, a change of an election under section 141(d)(2).

PAR. 11. Section 1.6014 is amended by revising section 6014(a) and the historical note. The amended provisions read as follows:

§ 1.6014 Statutory provisions; income tax return—tax not computed by taxpayer.

SEC. 6014. *Income tax return—tax not computed by taxpayer*—(a) *Election by taxpayer.* An individual entitled to elect to pay the tax imposed by section 3 whose gross income is less than $5,000 and includes no income other than remuneration for services performed by him as an employee, dividends or interest, and whose gross income other than wages, as defined in section 3401(a), does not exceed $100, shall at his election not be required to show on the return the tax imposed by section 1. Such election shall be made by using the form prescribed for purposes of this section and shall constitute an election to pay the tax imposed by section 3. In such case the tax shall be computed by the Secretary or his delegate who shall mail to the taxpayer a notice stating the amount determined as payable. In determining the amount payable, the credit against such tax provided for by section 37 shall not be allowed. In the case of a head of household (as defined in section 1(b)) or a surviving spouse (as defined in section 2(b)) electing the benefits of this subsection, the tax shall be computed by the Secretary or his delegate without regard to the taxpayer's status as a head of household or as a surviving spouse. In the case of a married individual filing a separate return and electing the benefits of this subsection, neither Table V in section 3(a) nor Table V in section 3(b) shall apply.

* * * * *

[Sec. 6014 as amended by secs. 201(d)(14) and 301(b)(2), Rev. Act 1964 (78 Stat. 32, 140)]

PAR. 12. Section 1.6014–1 is amended by adding a new paragraph (d). The added provision reads as follows:

§ 1.6014–1 Tax not computed by taxpayer with gross income less than $5,000.

* * * * *

(d) *Married individuals filing separate returns.* In the case of a married individual who files a separate return and who elects under this section not to show his tax on Form 1040A his tax shall be computed with reference to the 10-percent standard deduction rather than the minimum standard deduction.

Chapter XIV—Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER C—EXPORT PROGRAMS

[Rev. III, Amdt. 7]

PART 1483—WHEAT AND FLOUR

Subpart—Wheat Export Program—Payment in Kind (GR–345) Terms and Conditions

MISCELLANEOUS AMENDMENTS

The Terms and Conditions of the Wheat Export Program—Payment in Kind (GR–345) (27 F.R. 6415), as amended (27 F.R. 10741, 28 F.R. 7120, 29 F.R. 4077, 9431, 12067, and 15115) are further amended as follows:

1. Section 1483.101 *General statement* is amended to read as follows:

§ 1483.101 General statement.

Commodity Credit Corporation (hereinafter referred to as "CCC") pursuant to this subpart will conduct a Wheat Export Program (referred to in this subpart as the "program") under which a person or firm who has exported wheat produced in the United States may apply for an export payment in the form of a certificate which is redeemable in wheat upon the terms and conditions of this subpart or in any commodity offered for export sale under a CCC regulation or announcement that provides for redemption of such certificates. The program is designed to encourage the exportation through normal trade channels of wheat held in private inventories and in CCC stocks in order (a) to maintain and expand the market in friendly countries for United States produced wheat, (b) to obtain the benefits and fulfill the obligations of the United States under the International Wheat Agreement, (c) to aid the price support program by strengthening the domestic market price to producers, (d) to reduce the quantity of wheat which would otherwise be taken into CCC's stocks under its price support program, and (e) to promote the orderly liquidation of CCC stocks. This program will be administered by the Agricultural Stabilization and Conservation Service, United States Department of Agriculture and information pertaining to the program may be obtained from any ASCS Commodity Office listed in § 1483.180.

2. Section 1483.105 is amended by adding a new paragraph (j) to read as follows:

§ 1483.105 General conditions of eligibility.

* * * * *

(j) Unless otherwise specified in the announcement of rates (as referred to in § 1483.120), payment at rates provided in such announcement and payment at rates provided in a contract for the exportation of durum wheat shall be made only on wheat for which export marketing certificates are acquired and surrendered to CCC. The rate applicable to wheat for which such certificates are not acquired and surrendered to CCC shall be the announced rate, less the cost of export marketing certificates under the Export Wheat Marketing Certificate Regulations as of the date of the announcement of rates for exportations in the period to which the announced rate applies, or in the case of durum wheat the rate specified in the contract with CCC for the export of such wheat less the cost of export marketing certificates under such regulations as of the date of the durum contract for exportation in the period to which such rate applies. If in computing such difference there results a negative amount, such amount shall be a refund rate for the purpose of these regulations.

3. Section 1483.141 *Cancellation of sale or failure to export,* paragraph (b) is amended to read as follows:

§ 1483.141 Cancellation of sale or failure to export.

* * * * *

(b) If, after an exporter has been afforded the oportunity to present evidence, the Vice President determines that the exporter has cancelled the sale, or failed to export, or failed to discharge fully any other obligation under the program, the exporter shall pay on demand any damages resulting from such failure, and may be suspended or debarred from participating in this program or in any other program of CCC for such period and subject to such terms and conditions as may be provided pursuant to the suspension and debarment regulations of CCC (29 F.R. 10495, July 29, 1964, and any amendments thereto): *Provided,* That the exporter shall not be liable for such damages and shall not be suspended or debarred for such failure if he establishes to the satisfaction of the Vice President that his failure to discharge his obligations under the program was not due to his fault or negligence.

* * * * *

4. The undesignated center heading "Wheat Export Payment Certificate" preceding § 1483.145 is amended to read "Export Commodity Certificate".

5. Section 1483.145 *Application for wheat export payment* is amended to read as follows:

§ 1483.145 Application for wheat export payment.

For exportations of wheat (including durum wheat) an original and two (2) copies of Application for Wheat Export Payment, Form CCC–357, must be prepared and submitted together with the evidence of export as provided in § 1483.147 to the Kansas City ASCS Commodity Office. The exporter should submit the application as soon as possible

after exportation. Except in the case of wheat exported prior to sale, Form CCC–357 should be submitted to the Kansas City ASCS Commodity Office at the same time the exporter submits the related Report of Wheat Exported, Form CCC–518 which is required by the Export Wheat Marketing Certificate Regulations. The exporter should indicate on the Form CCC–357 or attachment thereto if he wishes the refund or credit against the amount payable by him for export marketing certificates to be made by CCC in kind. On any Form CCC–357 covering wheat exported prior to sale the exporter shall show both the Registration Number and the Export Unsold Number. Supplies of Form CCC–357 and detailed instructions regarding the preparation and submission of the form may be obtained from the ASCS Commodity Offices in Evanston and Kansas City.

6. Section 1483.146 *Issuance of certificate* is retitled and amended to read as follows:

§ 1483.146 Export commodity certificate.

(a) *Amount for which issued.* Upon receipt of an Application for Wheat Export Payment (Form CCC–357) and satisfactory evidence of export, the ASCS Commodity Office will determine the amount of payment due by multiplying the number of net bushels of wheat exported in accordance with the export contract with CCC by the applicable export payment rate. If the amount of the export payment exceeds the cost of export wheat marketing certificates due under the Export Wheat Marketing Certificate Regulations, a part of the export payment equal to the cost of such certificates shall constitute a refund or credit against the cost of such certificates. If the amount of the export payment does not exceed the cost of export wheat marketing certificates, the entire amount of the payment shall constitute the refund or credit. The amount of the refund or credit shall be applied in the manner specified in the Export Wheat Marketing Certificate Regulations. An Export Commodity Certificate (Form CCC–341), hereinafter referred to in this subpart as "certificate", will be issued to the exporter for the portion of the payment due the exporter which does not constitute a refund or credit against the cost of export wheat marketing certificates or for such amount plus the amount of the refund or credit against the cost of export wheat marketing certificates which the exporter elects to receive in the form of certificates if the exporter has acquired and surrendered to CCC export wheat marketing certificates for the amount of the refund or credit. The total of such amount shall be shown as the value on the certificate issued by CCC.

(b) *Payee.* Except as provided in § 1483.176, the certificate will be issued only to the exporter who has filed a Declaration of Sale and has obtained the Registration Number which shall be shown in the space provided in the certificate.

(c) *Date of issuance.* The date of issuance shown on the certificate will be the date the certificate is issued by the ASCS commodity office.

(d) *Transfer.* Certificates may be transferred by endorsement.

(e) *Redemption.* Unexpired certificates will be redeemed by CCC at face value in wheat upon the terms and conditions of § 1483.155 et seq. of this subpart or in any commodity available for export sale under and subject to the terms and conditions of a CCC regulation or announcement providing for redemption of such certificates.

(f) *Expiration.* Certificates shall expire if not presented for redemption within 365 days after date of issuance shown on the certificate and thereafter shall have no value, unless the period for redemption is extended in writing by CCC.

7. The undesignated center heading "Redemption of Wheat Export Certificate" preceding § 1483.155 is amended to read "Redemption of Export Commodity Certificates in Wheat."

8. Section 1483.155 *Submission of offers* is amended to read as follows:

§ 1483.155 Submission of offers.

Offers to purchase CCC wheat with certificates issued under this or any other CCC program may be submitted by letter, telegram, or orally to Evanston or Kansas City ASCS Commodity Office from which the exporter desires delivery. The offeror must specify the class, grade, quality and quantity desired, and the desired point of delivery. CCC reserves the right to determine the classes, grades, qualities and quantities and point of delivery for which offers will be considered, and to reject any offer in whole or in part.

9. Section 1483.158 *Payment terms and financial arrangements* paragraph (a) is amended to read as follows:

§ 1483.158 Payment terms and financial arrangements.

(a) The amount due CCC for wheat purchased hereunder shall be paid by the purchaser by surrender to CCC of properly endorsed certificate(s). If certificates having a value in excess of the purchase price are surrendered by the purchaser to CCC, the certificates having the earliest date of issuance shall be applied first to the purchase and any certificates not applied shall be returned to the purchaser. If the value of certificates applied to the purchase exceeds the purchase price, such excess will be adjusted by issuance and delivery to the purchaser of a balance certificate which may be used on a subsequent purchase from CCC. The date of issuance shown on the balance certificate will be the date shown on the original certificate, or if more than one certificate is applied to the purchase, the date of issuance shown on the balance certificate will be the latest date of issuance shown on a certificate applied to the purchase. The value of the balance certificate will be determined by deducting from the value of certificates surrendered to CCC, the purchase price of the wheat.

10. Section 1483.178 *Submission of reports* is amended to read as follows:

§ 1483.178 Submission of reports.

The Notice of Sale, Declaration of Sale, offer to export (Durum Wheat) and related reports required under this subpart to be submitted to the Director should be addressed as follows:

Wheat Subsidy and Market Branch,
Procurement and Sales Division,
Agricultural Stabilization and Conservation Service,
U.S. Department of Agriculture,
Washington 25, D.C. 20250

Delivery to the above office of telegraphic Notices of Sale will be expedited if addressed as follows:

Substaff, USDA (AG) Washington, D.C.

Exporters calling this office by long distance telephone may do so by direct dialing. The long distance area number for Washington, D.C., is 202. The telephone numbers of this office are DUdley 8–3261, 8–3262, 8–3927, and 8–3928. For example, exporters may dial 202 DU 8–3261.

11. A new § 1483.185 is added to read as follows:

§ 1483.185 Export marketing certificate.

"Export marketing certificate" means an export wheat marketing certificate issued under the wheat marketing allocation program and required by the Export Wheat Marketing Certificate Regulations (29 F.R. 7867 and any amendments thereto) to be purchased and surrendered to CCC by persons exporting wheat.

Effective date. This amendment shall be effective with respect to contracts for the making of a payment by CCC entered into on and after the date of filing this amendment with the Director, Office of the Federal Register.

Signed at Washington, D.C., on January 11, 1965.

PART 336—PROCEEDINGS BEFORE NATURALIZATION COURT

Miscellaneous Amendments

The following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

§ 214.2 [Amended]

1. The last sentence of subparagraph (1) *Without visas* of paragraph (c) *Transits* of § 214.2 *Special requirements for admission, extension, and maintenance of status* is deleted.

2. The first sentence of subdivision (ii) *Petition for alien to perform other*

temporary service or labor of subparagraph (2) *Supporting evidence* of paragraph (h) *Temporary employees* of § 214.2 *Special requirements for admission, extension, and maintenance of status* is amended to read as follows: "A United States Employment Service clearance order concerning the nonavailability of qualified persons in the United States and stating that its policies have been observed shall be attached to every submitted nonimmigrant visa petition to accord an alien a classification under section 101(a)(15)(H)(ii) of the Act, unless the petitioner has been informed by the Immigration and Naturalization Service that a clearance order for the beneficiary's occupation is not required."

Section 336.16a is amended to read as follows:

§ 336.16a Final hearing; execution of questionnaire.

Immediately prior to the commencement of the final hearing, each person filing a petition for naturalization in his own behalf, or in behalf of a child pursuant to section 322 or 323 of the Immigration and Nationality Act, said child being sixteen years of age or older on the date of the final hearing, shall execute the questionnaire on Form N–445 or Form N–445A.

Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the rules prescribed by the order relate to editorial changes and to agency procedure.

Title 13—BUSINESS CREDIT AND ASSISTANCE

Chapter I—Small Business Administration

[Amdt. 1 (Rev. 3)]

PART 107—SMALL BUSINESS INVESTMENT COMPANIES

Conflicts of Interest

Pursuant to authority contained in sections 308 and 312 of the Small Business Investment Act of 1958, Public Law 85–699, 72 Stat. 694, as amended, there is amended, as set forth below, § 107.716 of Part 107 of Subchapter B, Chapter I of Title 13 of the Code of Federal Regulations, as revised in 29 F.R. 16946–16961.

Information and effective date. On December 2, 1964, a revised Notice of Proposed Rule Making was published in the FEDERAL REGISTER (29 F.R. 16094) concerning amendment of § 107.716 to accomplish more effective control of conflicts of interest pursuant to section 312 of the Act, added by the Small Business Investment Act Amendments of 1963, Public Law 88–273, 78 Stat. 147, approved February 28, 1964.

After due and careful consideration of the comments and expression of views received with regard to the proposals made, the Administration has determined to adopt the formal amendments, set forth below, as being in furtherance of the best interests of the SBIC program.

The revision of § 107.716, as finalized in the formal amendments published herewith, incorporates the text of the proposals published on December 2, 1964, except for two minor textual changes: (1) "employer" has been added immediately before the words, "or employee", in subparagraph (b)(3), and (2) "son-in-law, daughter-in-law" have been added immediately before the words, "brother-in-law or sister-in-law", in the definition of "close relative" appearing in subparagraph (b)(5).

The amendments shall become effective thirty (30) days after publication in the FEDERAL REGISTER.

The Regulations Governing Small Business Investment Companies are hereby amended by deleting § 107.716 in its entirety and substituting a new § 107.716. As amended, § 107.716 reads as follows:

§ 107.716 Conflicts of interest.

(a) *General.* Self-dealing to the prejudice of SBA, small business concerns financed by a Licensee, or shareholders of a Licensee, is prohibited.

(b) *Persons or concerns connected with the Licensee.* Without the prior written approval of SBA, a Licensee shall not, directly or indirectly, provide financing to:

(1) An officer, director, or investment adviser of such Licensee, or any person or firm regularly serving such Licensee in the capacity of attorney-at-law; or

(2) Any person or entity which owns or controls, directly or indirectly, 10 or more percent of the stock of such Licensee; or

(3) Any officer, director, partner, employer, or employee of any person or entity described in subparagraphs (1) and (2) of this paragraph; or

(4) Any person or entity which directly or indirectly controls, or is controlled by, or is under common control with, any person or entity described in subparagraphs (1) and (2) of this paragraph; or

(5) Any close relative (i.e., ancestor; lineal descendant; brother or sister, by the whole or half blood, and lineal descendants of either; spouse; father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law or sister-in-law) of any person described in subparagraphs (1) and (2) of this paragraph; or

(6) Any concern in which (i) any person described in subparagraphs (1) through (5) of this paragraph is an officer or director or (ii) any person or entity described in said subparagraphs (or group of two or more such persons or entities acting in concert) owns or controls, directly or indirectly, 10 or more percent equity interest (exclusive of any interest attributable solely to ownership of equity interests in the Licensee);

(7) For the purpose of this paragraph, any person or entity which has held any of the positions or relationships described in subparagraphs (1) through (6) of this paragraph within six months prior to the date of financing, or which holds any such positions or relationships within six months after the date of financing shall be deemed to have such position or relationship as of the date of financing.

(c) *Persons or concerns connected with Licensee by reason of 5 to 10 percent stock ownership.* Without prior SBA approval, a Licensee may not invest more than 25 percent of (1) its combined paid-in capital and paid-in surplus (including outstanding commitments and loans under § 107.301) or (2) its total assets, whichever is greater, in concerns in which—

(i) A person or entity which owns or controls, directly or indirectly, 5 or more (but less than 10) percent of the stock of such Licensee, also owns or controls, directly or indirectly, a 10 or more percent equity interest, or

(ii) A person or entity which owns or controls, directly or indirectly, 10 or more percent of the stock of such Licensee, also owns or controls, directly or indirectly, an equity interest of 5 or more (but less than 10) percent: *Provided, however,* That the equity interest, referred to in subdivision (i) of this subparagraph and this subdivision (ii) which a person or entity owns or controls in any such concern shall be exclusive of any interest attributable solely to ownership by such person or entity of equity interests in the Licensee.

For the purposes of this paragraph, any person or entity which has been related to both the Licensee and its portfolio concern at any time within 6 months prior to date of financing, as described in subdivisions (i) and (ii) of this subparagraph, shall be deemed to have been so related to them on the date of financing if such relationships are reacquired within 6 months after date of financing.

(d) *Persons or concerns connected with other Licensees.* (1) Without prior written approval of SBA, a Licensee shall not provide financing, directly or indirectly, to any person or entity connected with another Licensee in the manner described in paragraph (b) of this section, if any person or entity so connected with the Licensee providing such financing receives, or is about to receive, or has received, directly or indirectly, from any Licensee any financing or a commitment for financing.

(2) A Licensee shall not, directly or indirectly, provide financing to any person or entity connected with another Licensee in the manner described in paragraph (b) of this section, if there exists any express or implied understanding, agreement, or cross-dealing, reciprocal or circular arrangement, under which persons or entities connected with the first Licensee in the manner described in paragraph (b) of this section have re-

ceived or are to receive financing from another Licensee.

(e) *Borrowing.* Without prior written approval of SBA, no Licensee nor any of the persons or entities described in paragraph (b) of this section, shall directly or indirectly borrow money from:

(1) A concern financed by such Licensee; or

(2) An officer, director or owner of 10 or more percent equity interest in such concern, or a close relative (as defined in paragraph (b)(5) of this section) of such officer, director or equity owner.

(f) *Publication.* SBA will publish in a periodical bulletin, in summary form, each approval granted under this section. Within 10 days after the approval of an application filed by a Licensee under this section (or in case the Licensee qualifies for the exemption prescribed under paragraph (g) of this section), it shall publish in a newspaper of general circulation, in the locality most directly affected by the transaction, a notice specified by SBA describing the transaction, and shall furnish a copy of such notice to SBA within 10 days after publication.

(g) *Exemption for 1940 Act companies.* Licensees subject to the regulatory jurisdiction of the Securities and Exchange Commission under the Investment Company Act of 1940 which have, pursuant to a rule, regulation, order approving an application for exemption, or other Commission action, been granted an exemption from applicable provisions of said Act and/or implementing rules and regulations, with regard to a transaction which is also subject to paragraph (b) or (e) of this section, shall be exempt from the provisions of said paragraph (b) or (e) of this section, except for the publication requirements pertaining thereto specified under paragraph (f) of this section.

(h) *Protection of investment.* Nothing herein contained is intended to preclude a Licensee from permitting an officer, employee, or representative from serving as an officer, director, or in any other capacity in the management of a small business concern for the purpose of protecting its investment in or loan to such concern.

(i) *Standards governing approval of applications.* In determining whether a proposed transaction shall be approved under this section, SBA will take into consideration the following factors to the extent that may be applicable under the attendant circumstances:

(1) The extent and degree of common ownership and other relationships;

(2) The degree of independence of the board of directors of the Licensee;

(3) The comparability of the terms and conditions of the proposed transaction with those of other financings made by the Licensee, not subject to this section;

(4) The cost and recency of any investment in the small business concern by persons or entities connected with the Licensee in the manner described in the particular paragraph of this section pursuant to which application is made;

(5) The total number and amount of transactions subject to this section, previously entered into by the Licensee; and

(6) Such other facts or events as SBA finds are pertinent under the circumstances in connection with its ascertaining that approval will be consonant with statutory objectives and the best interests of the SBIC program.

(j) *Applicability, construction and effect.* (1) This section shall be applicable to and govern the legality of transactions subject to its provisions which are consummated after February 15, 1965.

(2) The legality of transactions of a continuing nature consummated prior to February 15, 1965 (the effective date hereof) shall be governed by the former provisions of § 107.716 in effect at the time that Licensee entered into said transactions. Nothing contained herein shall be construed as preventing SBA from taking or continuing appropriate enforcement action thereunder with respect to any transaction which the Licensee consummated prior to February 15, 1965, in violation of applicable provisions of former § 107.716.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Agency

[Docket Nos. 2095 and 3025; Amdts. 33-1 and 35-1]

PART 1—DEFINITIONS AND ABBREVIATIONS

PART 33—AIRWORTHINESS STANDARDS; AIRCRAFT ENGINES

PART 35—AIRWORTHINESS STANDARDS; PROPELLERS

Effective Date of Certain Recodified Rules and Repeal of Certain Special Regulations

The amendments adding Parts 33—Airworthiness Standards: Aircraft Engines (including amendment 1-5 adding certain definitions to Part 1) and 35—Airworthiness Standards: Propellers published in the FEDERAL REGISTER on June 10, 1964 (29 F.R. 7452 and 7458, respectively) did not contain effective dates for these parts.

As stated in the preamble to each of these parts the Agency could not assign an effective date until the effective date of Part 21—Certification Procedures for Products and Parts was known, since both the airworthiness standards and the procedural rules should become effective simultaneously. Part 21 was published in the FEDERAL REGISTER on October 24, 1964 (29 F.R. 14562) effective February 1, 1965.

In addition, while the provisions of all Special Civil Air Regulations in effect have either been restated as a part of the Federal Aviation Regulations or as Special Federal Aviation Regulations, and have therefore been impliedly repealed, some of them have not been specifically repealed. This amendment therefore to avoid any possible confusion, specifically repeals all existing Special Civil Air Regulations.

In consideration of the foregoing:

(1) Parts 33, 35, and amendment 1-5 to Part 1 of the Federal Aviation Regulations are made effective February 1, 1965.

(2) All Special Civil Air Regulations not heretofore repealed are hereby repealed effective April 1, 1965.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 1135]

[Docket No. AO–300–A8]

MILK IN COLORADO SPRINGS-PUEBLO MARKETING AREA

Decision on Proposed Amendments to Tentative Marketing Agreement and to Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Colorado Springs, Colorado, on December 2, 1964, pursuant to notice thereof issued on November 21, 1964 (29 F.R. 15656).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator on December 21, 1964, (29 F.R. 18380; F.R. Doc. 64–13251) filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issue on the record of the hearing relates to continuing the Class I price at its present level.

Findings and conclusions. The following findings and conclusions on the material issue are based on evidence presented at the hearing and the record thereof:

The present Class I pricing provisions of the order should be continued. These provide for a differential of $2.10 over the basic formula price (Minnesota-Wisconsin price series) subject to a supply-demand adjustor. The $2.10 Class I price differential has been in the order since November 1, 1961. Prior to that date the differential was $2.20. The supply-demand adjustor was incorporated in the order, effective August 1, 1963.

The Class I pricing provisions expire on January 31, 1965. This termination date was provided as a means of insuring that the pricing mechanism would be reviewed after the supply-demand adjustor had been in effect for a sufficient period of time to judge its effect on marketing conditions.

The principal cooperative association supplying the market proposed that the present Class I pricing provisions be continued without change. Handlers supported this position as it applied to the immediate future. They noted, however, that they have requested that a hearing be held at which consideration would be given to a substantial revision of the Colorado Springs-Pueblo order. They indicated that when such a hearing was held, it would be desirable to review again the level of the Class I price.

In recent years, the market generally has been supplied with an adequate, but not excessive, quantity of milk to meet its fluid requirements. In 1962, producer receipts were 122.4 percent of the Class I utilization, and in 1963 were 121.4 percent. During the first 10 months of 1964, receipts were 119.4 percent of Class I utilization. This compares favorably to percentages of 120.9 and 121.3 percent in like periods of 1962 and 1963, respectively.

A supply-demand adjustor was incorporated in the order on August 1, 1963. It is designed to increase the Class I price automatically whenever the supplies of producer milk available to the three Colorado markets (Eastern Colorado, Colorado Springs-Pueblo, and Western Colorado) are insufficient for the fluid needs plus a reasonable reserve, and to decrease the Class I price if supplies become excessive. Since its adoption, the supply-demand adjustor has been operative in only three months. It increased the Class I price by two cents per hundredweight in each of the months of February, March and April 1964. The Class I price under the Colorado Springs-Pueblo order is directly related to the Class I prices in the Eastern Colorado and Western Colorado markets. Thus it is clear that the present Class I differential has tended to maintain supplies in balance with the needs of the Colorado markets.

The present Class I pricing provisions have also maintained appropriate price alignment with markets in surrounding states. The differences in price that have existed between the Colorado Springs-Pueblo market and surrounding markets have been insufficient to cause any appreciable intermarket shift of producers. Few, if any, producers have transferred to the Colorado Springs-Pueblo market from surrounding milksheds. Likewise, the market has experienced little or no loss of producers to surrounding areas. The loss of producers which has occurred in recent months is due to their having given up dairying rather than to their having transferred to other markets.

The Class I price herein provided is necessary to maintain an adequate, but not excessive, supply of milk for the Colorado Springs-Pueblo marketing area. At the same time it will maintain an appropriate price alignment between the Colorado Springs-Pueblo market and surrounding markets.

No briefs or proposed findings and conclusions were filed on behalf of interested parties.

General findings. Order[1] *Amending the Order Regulating the Handling of Milk in the Colorado Springs-Pueblo Marketing Area*

§ 1135.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Colorado Springs-Pueblo marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act:

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Colorado Springs-Pueblo marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby amended, as follows:

In § 1135.51(a), delete the following: "During the period of August 1, 1963, through January 31, 1965, the Class I price shall be".

[F.R. Doc. 65-496; Filed, Jan. 14, 1965; 8:49 a.m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

[7 CFR Part 1137]

[Docket No. AO-326-A6]

MILK IN EASTERN COLORADO MARKETING AREA

Decision on Proposed Amendments to Tentative Marketing Agreement and to Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Denver, Colorado, on December 1, 1964, pursuant to notice thereof issued on November 21, 1964 (29 F.R. 15656).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator on December 21, 1964 (29 F.R. 18381; F.R. Doc. 64-13252) filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issue on the record of the hearing relates to continuing the Class I price at its present level.

Findings and conclusions. The following findings and conclusions on the material issue are based on evidence presented at the hearing and the record thereof:

The present Class I pricing provisions of the order should be continued. These provide for a differential of $2.10 over the basic formula price (Minnesota-Wisconsin price series) subject to a supply-demand adjustor. The $2.10 Class I price differential has been in the order since its inception. The supply-demand adjustor was incorporated in the order effective August 1, 1963.

The Class I pricing provisions expire on January 31, 1965. This termination date was provided as a means of insuring that the pricing mechanism would be reviewed after the supply-demand adjustor had been in effect for a sufficient period of time to judge its effect on marketing conditions.

Cooperative associations supplying the market proposed that the present Class I pricing provisions be continued without change. Handlers supported this position as it applied to the immediate future. They noted, however, that they have requested that a hearing be held at which consideration would be given to a substantial revision of the Eastern Colorado order. They indicated that when such a hearing was held, it would be desirable to review again the level of the Class I price.

Since the inception of the order, the market generally has been supplied with an adequate, but not excessive, quantity of milk to meet its fluid requirements. In 1962, producer receipts were 134 percent of the Class I utilization, and in 1963 were 131 percent. During the first 10 months of 1964, receipts were 137 percent of Class I utilization. This compares favorably to percentages of 136 and 134 percent in like periods of 1962 and 1963, respectively.

A supply-demand adjustor was incorporated in the order on August 1, 1963. It is designed to increase the Class I price automatically whenever the supplies of producer milk available to the three Colorado markets (Eastern Colorado, Colorado Springs-Pueblo, and Western Colorado) are insufficient for the fluid needs plus a reasonable reserve, and to decrease the Class I price if supplies become excessive. Since its adoption, the supply-demand adjustor has been operative in only three months. It increased the Class I price by two cents per hundredweight in each of the months of February, March and April 1964. Class I prices in the Colorado Springs-Pueblo and Western Colorado markets are directly related to the Class I price in the Eastern Colorado market. Thus, it is clear that the present Class I differential has tended to maintain supplies in balance with the needs of the Colorado markets.

The present Class I pricing provisions have also maintained appropriate price alignment with markets in surrounding states. The differences in price that have existed between Eastern Colorado and surrounding markets have been insufficient to cause any appreciable intermarket shift of producers. Few, if any, producers have transferred to the Eastern Colorado market from surrounding milksheds. Likewise, the market has experienced little or no loss of producers to surrounding areas.

The Class I price herein provided is necessary to maintain an adequate, but not excessive, supply of milk for the Eastern Colorado marketing area. At the same time it will maintain an appropriate price alignment between Eastern Colorado and surrounding markets.

The only brief filed supported the findings and conclusions contained herein.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure

and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on exceptions. No exceptions to the recommended decision were filed.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the Eastern Colorado Marketing Area", and "Order Amending the Order Regulating the Handling of Milk in the Eastern Colorado Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which will be published with this decision.

Determination of representative period. The month of November 1964 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the attached order, as amended and as hereby proposed to be amended, regulating the handling of milk in the Eastern Colorado marketing area, is approved or favored by producers, as defined under the terms of the order, as amended and as hereby proposed to be amended, and who, during such representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

Signed at Washington, D.C., on January 12, 1965.

CHARLES S. MURPHY,
Acting Secretary.

Order[1] Amending the Order Regulating the Handling of Milk in the Eastern Colorado Marketing Area

§ 1137.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Eastern Colorado marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Eastern Colorado marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby amended, as follows:

In § 1137.51(a), delete the following: "During the period of August 1, 1963, through January 31, 1965, the Class I price shall be".

[F.R. Doc. 65-497; Filed, Jan. 14, 1965; 8:49 a.m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

TRANSITION AREA

Proposed Designation

The Federal Aviation Agency is considering an amendment to Part 71 of the Federal Aviation Regulations that would designate an en route transition area at Turkey, Ky.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Federal Aviation Agency, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y., 11430. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Agency, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The FAA proposes to designate an en route transition area at Turkey, Ky. to provide protection for aircraft required to hold at the Turkey Intersection. If action is taken on this proposal, § 71.181 (29 F.R. 17643) would be amended by adding the Turkey, Ky. transition area as that airspace extending upward from 1,200 feet above the surface within 10 miles northeast and 7 miles southwest of the Whitesburg, Ky. VOR 301° True radial, extending from a point 25 miles northwest of the VOR to 52 miles northwest of the VOR.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued in Washington, D.C., on January 8, 1965.

FRESH PEACHES GROWN IN GEORGIA

Findings and Determinations With Respect to Continuation in Effect of Amended Marketing Agreement and Order

Pursuant to the applicable provisions of Marketing Agreement No. 99, as amended, and Order No. 918, as amended (7 CFR Part 918), and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), notice was given in the FEDERAL REGISTER (29 F.R. 16938) that a referendum would be conducted among the growers who, during the calendar year 1964 (which period was determined to be a representative period for the purpose of such referendum), were engaged, in Georgia, in the production of peaches for market to determine whether a majority of such growers favor the termination of the amended marketing agreement and order.

Upon the basis of the results of the aforesaid referendum, which was conducted during the period December 7 to December 15, 1964, both dates inclusive, it is hereby found and determined that the termination of the amended marketing agreement and order, regulating the handling of fresh peaches grown in Georgia, is not favored by the requisite majority of such growers.

SECURITIES AND EXCHANGE COMMISSION

[File No. 54-237]

GENESEE VALLEY GAS CO., INC.

Notice of Filing of Plan and Order for Notice to Stockholders

JANUARY 11, 1965.

Notice is hereby given that Genesee Valley Gas Co. ("Genesee") 56 Main Street, Geneseo, N.Y., a registered holding company, has filed with this Commission an application and amendments thereto for approval of a plan pursuant to section 11(e) of the Public Utility Holding Company Act of 1935 ("Act") for the stated purpose of simplifying the holding-company system of which Genesee is the top company. In brief the plan provides for the pro rata distribution by Genesee to its stockholders of its principal asset, i.e., the common stock of The Pavilion Natural Gas Company ("Pavilion").

All interested persons are referred to the amended application and plan on file at the office of the Commission for a statement of the proposed transactions, and related facts, which are summarized below.

Genesee, a New York corporation, is solely a holding company. It has one direct subsidiary company, Pavilion, which is a gas utility company and an exempt holding company having one subsidiary company, Valley Gas Corp. ("Valley"). Pavilion and Valley, both New York corporations, are engaged in the distribution of natural gas in western New York State.

Genesee's sole outstanding securities consist of 22,655 shares of $1 par value common stock, held by 39 stockholders; its only substantial asset consists of Pavilion's outstanding common stock; and its income is derived solely from dividends received from Pavilion. At September 30, 1964, Pavilion had outstanding 25,000 shares of $13.20 par value common stock, all held by Genesee, and $489,000 principal amount of first mortgage bonds, held by insurance companies. Valley's sole outstanding securities consist of 50 shares of no par value common stock, all held by Pavilion. At September 30, 1964, the consolidated assets of Pavilion and Valley, less reserves for depreciation, totaled $1,681,198; for the twelve months then ended, their consolidated revenues and net income were $1,910,199 and $61,258, respectively.

Genesee states that it formerly supervised and financed the operations of its subsidiary companies and that the indenture securing Genesee's formerly outstanding bonds contained provisions which precluded financing by the subsidiary companies except through Genesee, but that these circumstances no longer exist. Genesee further states that it does not now and will not hereafter serve any useful purpose, and that its continued existence as a holding company unduly and unnecessarily complicates the Genesee holding-company system.

Under the proposed plan, Genesee will surrender to Pavilion 2,345 shares of the latter's common stock, thereby reducing the number of Pavilion shares of stock held by Genesee to 22,655, a number equal to the number of outstanding shares of Genesee's stock. Following such step, Genesee will distribute the 22,655 shares of Pavillion stock to Genesee's stockholders on a share-for-share basis. Such distribution will be made to the holders of record of Genesee's common stock determined as of the close of business on a date ("record date") to be fixed by the board of directors of Genesee. To effectuate the distribution, Genesee will cause to be registered in the names of such record holders the shares of stock of Pavilion to which they shall be entitled, and will cause such shares to be delivered to said record holders. Any certificates for Pavilion shares of stock which for any reason cannot be then delivered will be held by Pavilion for subsequent delivery to the persons in whose names the stock evidenced thereby is registered. Pavilion has consented in writing to those provisions of the plan which require any action by it in connection with the consummation of the plan. Genesee will pay such fees and expenses incurred in connection with the plan as the Commission shall approve. The right is reserved to amend the plan at any time before its approval by the Commission. The filing of the application and the plan have been authorized by the board of directors and stockholders of Genesee.

Genesee has requested that any order approving the proposed plan include appropriate tax recitals to meet the requirements of Section 4382 and Part VI of Subchapter O of Chapter I of Subtitle A of the Internal Revenue Code of 1954, as amended. Unless Genesee shall waive such condition, consummation of the plan is conditioned upon Genesee's obtaining from the United States Treasury Department a ruling or rulings satisfactory to Genesee in respect of the foregoing.

It is stated that no State commission and no Federal commission, other than this Commission, has jurisdiction with respect to the plan or the transactions incident thereto.

Genesee requests that, upon consummation of the plan and the transactions incident thereto, the Commission issue an order pursuant to section 5(d) of the Act, declaring that Genesee has ceased to be a holding company and terminating its registration under the Act. Genesee expects, as soon as practicable after it has ceased to be a holding company, that it will be liquidated and dissolved under applicable State law.

Notice is further given that any interested person may, not later than January 29, 1965, request in writing that a hearing be held in respect of such matters, stating the nature of his interest, the reasons for such request, and the issues of fact or law which he proposes to controvert; or he may request that he be notified should the Commission order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C., 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon applicant, at the above-stated address, and

proof of service (by affidavit or, in case of an attorney at law, by certificate) filed contemporaneously with the request. At any time after said date the Commission may grant the application as amended, and approve the plan, or take such other action as it deems appropriate.

It is hereby ordered, That Genesee shall, not later than January 19, 1965, mail a copy of this notice and order to each stockholder of record at his address appearing in the stock records of the company, and shall file proof of such mailing by affidavit or, if by attorney at law, by certificate.

By the Commission.

VARIABLE ANNUITY LIFE INSURANCE COMPANY OF AMERICA

Notice of Filing of Application Exemption and for Modification of Existing Order

JANUARY 11, 1965.

Notice is hereby given that Variable Annuity Life Insurance Co. of America ("Applicant") Washington, D.C., an open-end investment company registered under the Investment Company Act of 1940 ("Act"), has filed an application pursuant to section 6(c) of the Act for an order exempting it from the provisions of sections 22(d) and 27(a) of the Act to the extent specified in the application and for modification of the existing Commission Order of February 25, 1960 granting applicant an exemption from section 27(a) of the Act. All interested persons are referred to the application filed with the Commission for a full statement of applicant's representations which are summarized below.

Applicant is engaged primarily in the sale of individual, pension trust, and group variable retirement annuity contracts. It also issues conventional life insurance, disability insurance and fixed dollar annuities.

Applicant proposes to change its methods of deducting sales load from payments made by purchasers of its pension trust contracts to reduce the amount of sales load deducted from payments in the early years of the contracts. Sales load deducted from investors payments is currently 35 percent in the first contract year, 5.5 percent for each of the next eleven years. No such deductions are made after the twelfth year. Applicant proposes to change such schedule to provide for deductions of 12.08 percent in each of the first six contract years, 5.5 percent in each of the next six years, and 2 percent each year for the remainder of any accumulation period. Where the contract period is less than twelve years, deductions at a lower uniform rate will be made in the first six years. The result of the change will be to increase total sales load deductions over the first twelve years from 7.96 percent to 8.79 percent. The latter rate is currently applicable to the individual contracts issued by applicant. In addition to amounts of sales load deducted from payments made by purchasers of contracts, applicant makes deductions for administrative and other expenses. Applicant requests an exemption from the provisions of section 27(a)(3) which require that the sales load be deducted at a uniform rate from payments made after the first year. Applicant represents that the total deductions for sales load as proposed will be less, at any point in the life of a contract, than the maximum deductions permitted by section 27(a) of the Act.

Applicant requests an exemption from the provision of section 22(d) of the Act which prevents price discrimination among purchasers of redeemable securities to permit the sale of pension trust and group contracts to any employer described in section 403(b) of the Internal Revenue Code ("Code") at the same sales loads applicable to employees' trust and pension, profit-sharing and other employee benefit plans qualified under section 401 of the Code and to tax exempt organizations enumerated under sections 501(c)(3) and (13) of the Code. Rule 22d-1 under the Act permits variations in sales load for the latter two groups. The requested exemption would permit purchasers qualified under section 403(b) of the Code to increase the amount of purchase payments at any time after the first year and be charged the sales load at the rate applicable during the contract year in which the increase is made. The purchase payments may be increased once in each contract year, but no purchase payment may exceed 150 percent of the first year's payment.

On February 25, 1960, the Commission granted applicant an exemption from section 27(a) with respect to its individual and pension trust contracts to permit the deduction of the sales load over a twelve year period, with a uniform sales load deduction for eleven years after the first and no sales load deduction thereafter (Investment Company Act Release No. 3149). Applicant now proposes to make a sales load deduction of 2 percent for each contract year after the twelfth year for its individual contracts. The Commission is requested to modify its February 25, 1960 order to the extent necessary to conform to the requested exemption.

Notice is further given that any interested person may, not later than January 28, 1965, submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C., 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

For the Commission (pursuant to delegated authority).

[SEAL] ORVAL L. DUBOIS,
Secretary.

FEDERAL POWER COMMISSION

[Docket Nos. G-9314, etc.]

AMERADA PETROLEUM CORP., ET AL.

Findings and Order After Statutory Hearing

JANUARY 5, 1965.

Each of the Applicants listed herein has filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale and delivery of natural gas in interstate commerce, for permission and approval to abandon service, or a petition to amend an existing certificate authorization, all as more fully described in the respective applications and petitions (and any supplements or amendments thereto) which are on file with the Commission.

The Applicants herein have filed related FPC Gas Rate Schedules and propose to initiate or abandon, add or delete natural gas service in interstate commerce as indicated by the tabulation herein. All sales certificated herein are either equal to or below the ceiling prices established by the Commission's Statement of Policy 61-1, as amended, or involve sales for which permanent certificates have been previously issued.

J. C. Trahan, Drilling Contractor, Inc., Applicant in Docket Nos. CI60-536 and CI61-1015, proposes to continue sales of natural gas authorized in said dockets in lieu of Shoreline Exploration, Inc., pursuant to contracts heretofore designated as Shoreline's FPC Gas Rate

Schedule Nos. 1 and 2 which will be redesignated as FPC gas rate schedules of Trahan. The presently effective rates under said contracts are in effect subject to refund in Docket Nos. RI62-103 [1] and RI61-557,[1] respectively. Trahan has filed motions to be substituted in lieu of Shoreline as respondent in each of the rate proceedings together with agreements and undertakings to assure the refunds of any amounts collected, both past and future, in excess of the amounts determined to be just and reasonable in said proceedings. Accordingly, Trahan will be substituted as respondent, the proceedings will be redesignated, and the agreements and undertakings will be accepted for filing.

After due notice, no petition or notice to intervene or protest to the granting of any of the respective applications or petitions have been filed.

At a hearing held on December 30, 1964, the Commission on its own motion received and made a part of the record in these proceedings all evidence, including the applications, amendments and exhibits thereto, submitted in support of the respective authorizations sought herein, and upon consideration of the record,

The Commission finds:

(1) Each Applicant herein is a "natural-gas company" within the meaning of the Natural Gas Act as heretofore found by the Commission or will be engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission, and will, therefore, be a "natural-gas company" within the meaning of said Act upon the commencement of the service under the respective authorizations granted hereinafter.

(2) The sales of natural gas hereinbefore described, as more fully described in the respective applications, amendments and/or supplements herein, will be made in interstate commerce, subject to the jurisdiction of the Commission, and such sales by the respective Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(3) The sales of natural gas by the respective Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are required by the public convenience and necessity and certificates therefor should be issued as hereinafter ordered and conditioned.

(4) The respective Applicants are able and willing properly to do the acts and to perform the services proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules and regulations of the Commission thereunder.

(5) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the certificate authorizations heretofore issued by the Commission in Docket Nos. G-9314, G-18402, G-19591, CI60-356, CI61-192, CI61-286, CI61-897, CI61-1015, CI62-333, CI62-752, CI62-753, CI63-273, CI64-175, CI64-1250, CI64-1498 and CI64-1515 should be amended as hereinafter ordered.

(6) The sales of natural gas proposed to be abandoned by the respective Applicants, as hereinbefore described, all as more fully described in the tabulation herein, and in the respective applications, are subject to the requirements of subsection (b) of section 7 of the Natural Gas Act, and such abandonments should be permitted and approved as hereinafter ordered.

(7) The certificates of public convenience and necessity heretofore issued to the Applicants herein, relating to the several abandonments hereinafter permitted and approved should be terminated.

(8) It is necessary and proper in carrying out the provisions of the Natural Gas Act that Docket No. CI65-350 should be cancelled and that the application filed therein, should be processed as a petition to amend the certificate issued in Docket No. CI64-1515 by permitting the successor in interest to continue the service heretofore authorized.

(9) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that J. C. Trahan, Drilling Contractor, Inc., should be substituted in lieu of Shoreline Exploration, Inc., as respondent in the proceedings pending in Docket Nos. RI61-557 and RI62-103, that said proceedings should be redesignated accordingly, and that the agreements and undertakings submitted by Trahan should be accepted for filing.

(10) The respective related rate schedules and supplements as designated or redesignated in the tabulation herein, should be accepted for filing as hereinafter ordered.

The Commission orders:

(A) Certificates of public convenience and necessity be and the same are hereby issued, upon the terms and conditions of this order, authorizing the sales by the respective Applicants herein of natural gas in interstate commerce for resale, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary for such sales, all as hereinbefore described and as more fully described in the respective applications, amendments, supplements and exhibits in this proceeding.

(B) The certificates granted in paragraph (A) above are not transferable and shall be effective only so long as Applicants continue the acts or operations hereby authorized in accordance with the provisions of the Natural Gas Act and the applicable rules, regulations and orders of the Commission.

(C) The grant of the certificates issued in paragraph (A) above shall not be construed as a waiver of the requirements of section 4 of the Natural Gas Act or of Part 154 or Part 157 of the Commission's regulations thereunder, and is without prejudice to any findings or orders which have been or may hereafter be made by the Commission in any proceeding now pending or hereafter instituted by or against the respective Applicants. Further, our action in this proceeding shall not foreclose nor prejudice any future proceedings or objections relating to the operation of any price or related provisions in the gas purchase contracts herein involved. Nor shall the grant of the certificates aforesaid for service to the particular customers involved imply approval of all of the terms of the respective contracts, particularly as to the cessation of service upon termination of said contracts, as provided by section 7(b) of the Natural Gas Act. Nor shall the grant of the certificates aforesaid be construed to preclude the imposition of any sanctions pursuant to the provisions of the Natural Gas Act for the unauthorized commencement of any sales of natural gas subject to said certificates.

(D) The certificate issued herein, in Docket No. CI62-1534 is hereby conditioned as were the certificates issued by the order accompanying Opinion Nos. 390 and 390-A.

(E) The certificate in Docket No. CI64-1393 is hereby issued at a total initial price of 9.0 cents per Mcf.

(F) The certificates issued herein, in Docket Nos. CI65-416 and CI65-433 are hereby conditioned as follows:

(a) The total initial price shall not exceed 15.0 cents per Mcf at 14.65 p.s.i.a., including tax reimbursement plus B.t.u. adjustment;

(b) In the event that the Commission amends its Policy Statement No. 61-1 by adjusting the boundary between the Panhandle area and the "Other" Oklahoma area, so as to increase the initial wellhead price for new gas in the area of the sales involved herein, Applicants may thereupon substitute the new rate reflecting the amount of such increase, and thereafter collect such new rate prospectively in lieu of the rate herein required; and

(c) The allowances for take-or-pay provisions and the upward Btu adjustment provisions in the related rate schedules are subject to the ultimate disposition with respect to such provisions in the rule-making proceedings in Docket Nos. R-199 and R-200; however, Applicants will not be required to file take-or-pay provisions for less than 80 percent of the annual contract quantities.

(G) The certificate in Docket No. CI65-441 is hereby issued at a total rate of 15.0 cents per Mcf at 14.65 p.s.i.a., including tax reimbursement. However, in the event the Commission amends its Policy Statement No. 61-1 by adjusting the boundary between the Panhandle area and the "Other" Oklahoma area, so as to increase the initial wellhead price for new gas in the area of the sale involved herein, Applicant may thereupon substitute a new rate, consistent with the contract, reflecting the amount of such increase, and thereafter collect such new rate prospectively in lieu of the initial rate herein required.

(H) The certificate authorizations heretofore issued to the respective Applicants in Docket Nos. G-9314, G-18402, CI61-192, CI61-286, CI64-175, CI64-1250 and CI64-1498 are hereby amended by

PHILLIPS PETROLEUM CO., ET AL.

Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund [1]

DECEMBER 18, 1964.

The Respondents named herein have filed proposed changes in rates and charges of currently effective rate schedules for sales of natural gas under Commission jurisdiction, as set forth in Appendix A hereof.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR Ch. I), and the Commission's Rules of Practice and Procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column, and thereafter until made effective as prescribed by the Natural Gas Act: *Provided, however,* That the supplements to the rate schedules filed by Respondents, as set forth herein, shall become effective subject to refund on the date and in the manner herein prescribed if within 20 days from the date of the issuance of this order Respondents shall each execute and file under its above-designated docket number with the Secretary of the Commission its agreement and undertaking to comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder, accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved. Unless Respondents are advised to the contrary within 15 days after the filing of their respective agreements and undertakings, such agreements and undertakings shall be deemed to have been accepted.

(C) Until otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before February 3, 1965.

By the Commission.

[5] Revenue-sharing rate increase.

[9] Pressure base is 15.025 p.s.i.a.
[10] Includes partial reimbursement for full 2.55 percent New Mexico Emergency School Tax, protested by buyer by letter filed December 1, 1964.

Texaco Inc. (Texaco) requests that its proposed rate increases be permitted to become effective as of January 1, 1964, the contractually provided effective date. Good cause has not been shown for waiving the 30-day notice requirement provided in section 4(d) of the Natural Gas Act to permit earlier effective dates for Texaco's rate filings and such request is denied.

Texaco's proposed rate increases include partial reimbursement for the full 2.55 percent New Mexico Emergency School Tax which was increased from 2.0 percent to 2.55 percent on April 1, 1963. The buyer, El Paso Natural Gas Co. (El Paso), has protested the rate increases filed by Texaco. El Paso questions the right of the producer under the tax reimbursement clauses to file rate increases reflecting tax reimbursement computed on the basis of an increase in tax rate by the New Mexico Legislature in excess of 0.55 percent. While El Paso concedes that the New Mexico tax legislation effected a higher rate of at least 0.55 percent, it claims there is controversy as to whether or not the new legislation effected an increased tax rate in excess of 0.55 percent. Under the circumstances, we shall provide that the hearing provided for herein for Texaco shall concern itself with the contractual basis as well as the statutory lawfulness of Texaco's proposed rate filings. Since the proposed increases reflect tax reimbursement, the suspension period for each may be shortened to one day from December 24, 1964, the date of expiration of the statutory notice.

Phillips Petroleum Co. (Phillips) and Sunray DX Oil Co.'s (Sunray) proposed rate increases are revenue-sharing increases for sales to West Lake Natural Gasoline Co. (West Lake), a subsidiary of El Paso Natural Gas Co. (El Paso). West Lake gathers and processes the gas and resells it to El Paso, paying its suppliers 50 percent of the amount it receives from El Paso. On July 1, 1964, West Lake filed a periodic increase from

[1] Does not consolidate for hearing or dispose of the several matters herein.

17.0 cents to 18.0 cents per Mcf for its sale to El Paso, which was suspended for five months until January 1, 1965, in Docket No. RI65–29, because it exceeds the 11.5 cents per Mcf area ceiling for increased rates. Phillips and Sunray's proposed rate increases are based upon West Lake's suspended 18.0 cents per Mcf rate. Although the proposed revenue-sharing rate increases are below the 11.5 cents per Mcf area ceiling as set forth in the Commission's Statement of General Policy No. 61–1, as amended, they are suspended because of their relationship to West Lake's increased rate. Under the circumstances, the suspension periods for Phillips and Sunray's rate filings may be shortened to one day from January 1, 1965, the expiration date of the suspension period for West Lake's related increased rate in Docket No. RI65–29.

[Docket No. CP65–197]

ALABAMA-TENNESSEE NATURAL GAS CO.

Notice of Application

JANUARY 8, 1965.

Take notice that on December 31, 1964, Alabama-Tennessee Natural Gas Co. (Applicant), Florence, Ala., filed in Docket No. CP65–197 an application pursuant to sections 7(b) and 7(c) of the Natural Gas Act for permission and approval to abandon certain natural gas facilities and for a certificate of public convenience and necessity authorizing the construction and operation of other facilities and the sale of natural gas, all as more fully set forth in the application on file with the Commission and open to public inspection.

Specifically, Applicant seeks permission and approval to abandon, by sale to Decatur, Ala., 4.8 miles of 3½-inch O.D. lateral pipeline, extending from a point of connection with the existing Decatur 6⅝-inch lateral line to a point north of Flint City, Ala. In addition, Applicant seeks to abandon and remove 7.7 miles of 6⅝-inch main pipeline extending from a point near Madison, Ala., to the terminus of Applicant's main transmission pipeline system near Huntsville, Ala.

Pursuant to section 7(c) of the Natural Gas Act, Applicant seeks authorization to construct and operate: (1) Approximately 7.7 miles of 12¾-inch O.D. main transmission pipeline paralleling Applicant's existing 10¾-inch O.D. line from Madison, Ala. to Huntsville, Ala.; (2) approximately 8.0 miles of 6⅝-inch O.D. lateral pipeline extending from Applicant's Hartselle Station in Morgan County, Ala. to the delivery point for Muscle Shoals Natural Gas Corp. at Flint City, Ala.; and (3) an additional 350 BHP compressor unit at its Sheffield compressor station in Colbert County, Ala.

The application states that the proposed construction is required to provide an additional 6,650 Mcf of daily system delivery capacity, in order to enable Applicant to serve its existing customers with their natural gas requirements for the winter heating season of 1965–66, and to further enable Applicant to meet the estimated third year peak day requirements of 1,225 Mcf for Moulton, Ala., a new customer of Applicant.

The estimated cost of Applicant's proposed construction is $665,000, and will be financed by short term bank loans and the issuance of either bonds or debentures.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before February 8, 1965.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

JOSEPH H. GUTRIDE,
Secretary.

[Docket No. CP65–200]

COLORADO INTERSTATE GAS CO.

Notice of Application

JANUARY 8, 1965.

Take notice that on December 31, 1964, Colorado Interstate Gas Co. (Applicant), Colorado Springs, Colo., filed in Docket No. CP65–200 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain facilities and the short-term sale of natural gas, all as more fully set forth in the application on file with the Commission and open to public inspection.

Specifically, Applicant proposes to make a two-year, short-term sale to Cabot Corp. (Cabot) of an estimated annual volume of 9,125,000 Mcf of natural gas at a price of 15.75 cents per Mcf, to be delivered to Cabot by Northern Natural Gas Co. (Northern) for Applicant's account. Deliveries are to take place at three separate points of interconnection between Cabot's system and Northern's system in Carson and Gray Counties, Tex., to be constructed, operated, and maintained at Cabot's expense.

The application states that Applicant has agreed to redeliver a like volume of gas to Northern at the present interconnection between Applicant's gathering system and Northern's system in Kearny County, Kans., and seeks authorization to construct and operate a meter station and a 1,220 horsepower compressor station at said interconnection for the purpose of effecting the proposed redelivery.

The estimated cost of Applicant's proposed facilities is $245,850, and will be financed with internal funds. The application states that an estimated 66 percent of the construction cost will be recovered by salvage of the facilities upon the termination of the sale involved.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before February 10, 1965.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no protest or petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a protest or petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Unless Respondents are advised to the contrary within 15 days after the filing of their respective agreements and undertakings, such agreements and undertakings shall be deemed to have been accepted.

(C) Until otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before February 24, 1965.

Rufus G. Poole and Suzanne H. Poole (Poole) request that their proposed rate increase be permitted to become effective as of January 1, 1964, the contractually provided effective date. Good cause has not been shown for waiving the 30-day notice requirement provided in section 4(d) of the Natural Gas Act to permit an earlier effective date for Poole's rate filing and such request is denied.

The periodic rate increase filed by Poole did not include as part of their proposed rate the contractually provided for 1.0 cent per Mcf minimum guarantee for liquids. The addition of this minimum guarantee of 1.0 cent to the base rate results in a total rate in excess of the 13.0 cents per Mcf area ceiling for increased rates in the San Juan Basin Area and should be suspended for one day from January 10, 1965, the date of expiration of the statutory notice.

The contracts related to the rate filings proposed by Sierra Petroleum Co., Inc. (Operator), et al. (Sierra), and R. James Gear (Gear) were executed subsequent to September 28, 1960, the date of issuance of the Commission's Statement of General Policy No. 61-1, as amended, and the proposed increased rates are above the applicable area ceiling for increased rates but do not exceed the applicable ceiling price for initial rates in the area involved. Under the circumstances, we believe that Sierra and Gear's rate filings should be suspended for one day from the date shown in the effective date column on the attached Appendix A.

All of the proposed increased rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR Ch. I, Part 2, § 2.56).

RODMAN OIL CO., ET AL.

Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund [1]

JANUARY 7, 1965.

The Respondents named herein have filed proposed changes in rates and charges of currently effective rate schedules for sales of natural gas under Commission jurisdiction, as set forth in Appendix A hereof.

[1] Does not consolidate for hearing or dispose of the several matters herein.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR, Ch. I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column, and thereafter until made effective as prescribed by the Natural Gas Act: *Provided, however,* That the supplements to the rate schedules filed by Respondents, as set forth herein, shall become effective subject to refund on the date and in the manner herein prescribed if within 20 days from the date of the issuance of this order Respond-

ents shall each execute and file under its above-designated docket number with the Secretary of the Commission its agreement and undertaking to comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder, accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved. Unless Respondents are advised to the contrary within 15 days after the filing of their respective agreements and undertakings, such agreements and undertakings shall be deemed to have been accepted.

(C) Until otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington, D.C., 20426, in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before March 11, 1965.

By the Commission.

[5] Revenue-sharing rate increase.

[7] Periodic rate increase.
[8] The stated effective date is the effective date proposed by Respondent.
[9] Subject to a downward B.t.u. adjustment.

Rodman Oil Co. (Rodman) requests an effective date of January 1, 1965, for its proposed rate increase. Tamarack Petroleum Company, Inc., Agent (Operator), et al. (Tamarack), request waiver of notice to make their proposed rate increases effective as of December 8, 1964. Good cause has not been shown for waiving the 30-day notice requirement provided in section 4(d) of the Natural Gas Act to permit earlier effective dates for Rodman and Tamarack's proposed rate filings and such requests are denied.

Rodman proposes a revenue-sharing rate increase for a sale to West Lake Natural Gasoline Co. (West Lake), a subsidiary of El Paso Natural Gas Co. (El Paso). West Lake gathers and processes the gas and resells it to El Paso under its FPC Gas Rate Schedule No. 1 and pays its suppliers 50 percent of the amount it receives from El Paso. On July 1, 1964, West Lake filed a periodic increase from 17.0 cents to 18.0 cents per Mcf for its sale to El Paso, which was suspended for five months until January 1, 1965, in Docket No. RI65-29, because it exceeds the 11.5 cents per Mcf area ceiling for increased rates. Rodman's proposed rate increase is based upon West Lake's suspended 18.0 cents per Mcf rate. Although Rodman's proposed revenue-sharing rate increase is below the 11.5 cents per Mcf ceiling as set forth in the Commission's Statement of General Policy No. 61-1, as amended, it is suspended for one day from January 7, 1965, the date of expiration of the statutory notice, because of its relationship to West Lake's increased rate.

Tamarack and Fairfax Oil and Gas Corp.'s (Fairfax) related contracts were executed subsequent to September 28, 1960, the date of issuance of the Commission's Statement of General Policy No. 61-1, as amended (18 CFR Ch. I, Part 2, § 2.56) and the proposed rates are above the applicable area ceiling for increased rates but do not exceed the applicable ceiling price for initial rates in the area involved. We believe, in this situation, that Tamarack and Fairfax's proposed rate increases should be suspended for one day from January 8, 1965, the date of expiration of the statutory notice (Tamarack's filing), and January 10, 1965, the proposed effective date (Fairfax's filing).

H. L. HAWKINS & H. L. HAWKINS, JR., ET AL.

Order Conditionally Approving Settlement Proposal and Conditionally Issuing Certificate of Public Convenience and Necessity

JANUARY 8, 1965.

H. L. Hawkins & H. L. Hawkins, Jr. (Operator), et al., Docket No. G-18077; H. B. Lively (Operator), et al., Docket No. CI62-1220.

On November 3, 1964, H. B. Lively (Operator), et al. (Lively) filed an offer of settlement and motion for severance of its Docket No. CI62-1220 from the consolidated proceedings of H. L. Hawkins and H. L. Hawkins, Jr., Operator, et al., G-18077, et al. and also applied for issuance of a permanent certificate of public convenience and necessity in accordance with the provisions of the proposed settlement agreement.

On April 13, 1962, Lively applied for a Certificate of Public Convenience and Necessity pursuant to section 7(c) of the Natural Gas Act, to make sales of natural gas to Tennessee Gas Transmission Co. (Tennessee) from leases located in the Columbus Field, Colorado County, Tex. The leases described in this application were acquired from Sinclair Oil and Gas Co. (Sinclair).

At the time Lively acquired these leases, Sinclair was making sales of gas to Tennessee therefrom, pursuant to its certificate issued by the Commission at Docket No. G-4676. Lively, subsequent to its acquisition of these leases, on April 13, 1962, filed at Docket No. CI62-1220, an Application for Temporary and Permanent Certificate of Public Convenience and Necessity, requesting authorization to continue the sale from this field to Tennessee. The Commission, on May 16, 1962, at Docket No. CI62-1220, granted Lively a temporary certificate to commence this sale.

By order issued March 30, 1964, the Commission consolidated Docket No. CI62-1220 with other pending District No. 3 certificate applications for formal hearing in the H. L. Hawkins and H. L. Hawkins, Jr. (Operator), et al. proceedings.

Lively received its temporary authorization to commence deliveries at a rate of 15.95016 cents, conditioned to possible refunds to a floor of 13.2782 cents. This condition was imposed, since Lively was assigned the acreage involved by Sinclair Oil & Gas Co., which was collecting 15.95016 cents subject to refund in Docket No. G-17141 (i.e., the rate was under suspension). Sinclair's last accepted rate at the time of assignment to Lively was 13.2782 cents.

Lively requests that the Commission sever its certificate application and issue a permanent certificate at an initial contract price of 15.0 cents per Mcf (less 0.21931 cents per Mcf dehydration charge) for the period of initial delivery to the termination of the contract. Tennessee Gas Transmission Co, has joined with Lively in the submittal of the settlement proposal, under which Lively proposes to eliminate all future price escalation provisions from its Rate Schedule No. 3 and to substitute therein a life-of-contract rate of 15.0 cents (subject to a 0.21931 cent dehydration charge deduction). The primary term of the contract will expire on January 1, 1970. The proposed offer of settlement would afford Lively the same settlement rate received by Sinclair when Docket No. G-17141 was terminated in Sinclair's company-wide settlement.[1]

Lively further proposes to refund to Tennessee an amount computed by multiplying the difference between the price of 15.95016 cents per Mcf and the price of 15 cents per Mcf (less 0.21931 cents per Mcf dehydration charge) by the volumes of gas delivered under Lively's FPC Gas Rate Schedule No. 3 from the date of initial delivery to the date of issuance of the order herein. Interest upon said amount refunded shall be paid at the rate of 7 percent per annum. No interest shall accrue on this refund after November 1, 1964.

Insofar as Lively proposes to terminate the refund obligation as of November 1, 1964, the settlement proposal deviates from our standard policy. The refund obligation must extend to the date of the issuance of the order herein.

It further appears that Lively should be required to deposit the refunds due Tennessee in an appropriate number of savings accounts pending further Commission order.

The Commission finds:

(1) H. B. Lively (Operator), et al., is a natural-gas company within the meaning of the Natural Gas Act, and is engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission.

(2) The proposed sales of natural gas are subject to the jurisdiction of the Commission, and such sales, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(3) H. B. Lively (Operator), et al., is able and willing properly to do the acts and to perform the services proposed, and to conform to the provisions of the Natural Gas Act and the requirements, rules, and regulations of the Commission thereunder.

(4) The proposed sales, together with the construction and operation of any facilities subject to the jurisdiction of the Commission and necessary therefor, are required by the public convenience and necessity and are in the public interest upon the conditions set forth below, and certificates should be issued as ordered below.

(5) The conditions attached to the certificates herein issued are required by the public convenience and necessity.

(6) It is in the public interest and it is appropriate in carrying out the provisions of the Natural Gas Act that Lively be required to submit the report and account for the refunds and interest as ordered below.

[1] Order issued July 1, 1963, in Docket Nos. G-9291, et al.

The Commission orders:

(A) Docket No. CI62–1220 is hereby severed from the consolidated proceedings of H. L. Hawkins and H. L. Hawkins, Jr., Operator, et al., Docket Nos. G–18077, et al.

(B) A certificate of public convenience and necessity is hereby issued to H. B. Lively (Operator), et al., upon the conditions set forth herein authorizing the sales of natural gas in interstate commerce for resale, as proposed and as modified by the settlement proposal and this order, and for the construction and operation of any facilities described in the application and settlement proposal herein.

(C) The certificate herein issued is granted upon the express conditions that Lively shall (1) file an executed contract amendment eliminating all future price escalation provisions from its Rate Schedule No. 3, and substitute therein a life-of-contract rate of 15.0 cents, subject to a 0.21931 cent per Mcf dehydration charge deduction; (2) file a notice of change in rate under its Rate Schedule No. 3 to reflect the proposed settlement rate; (3) compute the refunds due Tennessee in Docket No. CI62–1220 to the date of the order, and submit a report to the Commission and to Tennessee setting forth the details of such computations, showing separately the principal and applicable seven percent interest, the bases used for such determination and the period covered; and (4) Lively shall be required to deposit the refunds due Tennessee in savings accounts, as specified in this paragraph, with no further interest obligation after the date of issuance of the order herein, pending further Commission orders respecting such monies. Each savings account should not exceed $10,000 and should be made in depositories whose accounts are insured to the extent of $10,000 by an agency of the Federal Government.

(E) The grant of the certificates herein shall not be construed as a waiver of the requirements of section 4 of the Natural Gas Act, or Part 154 of the regulations thereunder: *Provided, however,* That the 30-day notice provision of § 154.94(b) and the detailed submittal requirements of § 154.94(f) are hereby waived insofar as they apply to the filing of reductions in rates as required by this order and the settlement proposal, as supplemented.

(F) The certificates herein issued are not transferable and shall be effective only so long as Lively continues the acts and operations hereby authorized in accordance with the provisions of the Natural Gas Act and the applicable rules, regulations and orders of the Commission.

(G) The grant of certificates herein and approval of the settlement proposal, as supplemented, is without prejudice to any findings or orders which have been or may hereafter be made by the Commission in any proceeding now pending or hereafter instituted by or against Lively, particularly any proceeding under section 5 of the Natural Gas Act and is without prejudice to claims or contentions which may be made by the Commission, Lively, the Commission staff, or any affected party herein in any other proceeding.

(H) Upon full compliance of Lively with all the terms of this order and of the settlement proposal, Lively shall be relieved of any further refund obligations in these certificate proceedings and said proceedings shall terminate.

(I) The certificate granted by paragraph (B) above is granted upon the express condition that Lively comply fully with the terms of this order and the settlement proposal as modified herein, which settlement is expressly approved subject to the conditions of this order.

By the Commission.

PANHANDLE EASTERN PIPE LINE CO.

Notice of Application To Amend

JANUARY 8, 1965.

Take notice that on August 14, 1962, Panhandle Eastern Pipe Line Co. (Applicant), New York, N.Y., and Kansas City, Mo., filed in Docket Nos. G-2047 and G-10699 an application, as supplemented on June 17, 1963, and December 28, 1964, to amend the orders of the Commission issued in said dockets on October 23, 1953, and July 9, 1959, respectively.

The original proceedings in both dockets involved sales of natural gas to National Distillers & Chemical Corp. (National) for use in several plants located in Tuscola, Ill.
