## PREFACE.

---

TO the former Editions of this Book, a general explanation of the motives which induced the Society to undertake a work of so much importance, has been prefixed; and, from the success which has attended it, by the great accession of members, it is presumed, that it has merited general approbation. And there is reason to believe, that the increase would have been more extensive, but for the misconception of many, who understood that the Conductors of the other Register-Book had forsaken their new principles, and returned to their original system, from seeing their old characters, A, E, I, O, U, restored in the place of their newly-adopted marks, M, G, L, Z.

It will be found, however, on inspection, that the new plan is still adhered to, namely, that of giving characters to ships according to their ages, and the places where built, without a due regard to the man-

## PREFACE.

ner in which they were originally built, the repairs they have received, and their actual state and condition.

Those Merchants and Underwriters, who make use of this Book, may be assured, that in the present as well as the former editions, the ages of the ships are ascertained from authentic documents, and not by estimation; it being evident that the latter mode may be liable to error, and capable of abuse.

Particular attention has been taken, that the state and condition of the hulls and materials of ships should be ascertained by careful surveys, and the characters marked by men of the first professional skill, and unquestionable integrity.

## EXPLANATION.

---

THE SOCIETY for conducting the publication of the NEW REGISTER-BOOK OF SHIPPING think it necessary to give a general Explanation of their plan, as well as to state the motives which induce them to undertake a work of so much importance.

It is well known that a book has, for a long series of years, been annually printed, under the direction of a Committee of a Society formed of subscribers, for the information of Underwriters; which book, after a variety of alterations, was at length arranged in a manner that gave general satisfaction: and having continued above twenty-four years to be the record of the age, burthen, built, quality, and condition, of vessels, and their materials, marked according to the opinion of skilful and diligent Surveyors, (employed by the Society in all the principal ports of the kingdom,) had become a book of authority, and, in a great degree, governed the Merchant, the Ship-Owner, and Underwriter, in their opinions of the quality of Ships, for the purpose of freighting goods, or insuring, and consequently in a great measure regulated their value.

In the preceding year, the Committee of the Society, without consulting the subscribers at large, made an entire change in this system, so long established and so universally approved, and substituted in its place a plan founded on a principle diametrically opposite and perfectly erroneous.

Instead of classing the Ships, which they gave an account of, according to the actual state and condition, ascertained by a careful surveyor, a new system was adopted, of stamping the character of the Ship wholly by her age, and the place in which she was built, without any regard to the *manner* in which she was originally constructed, the wear or damage she might have sustained, or the repairs she might from time to time have received, or *even being rebuilt*; thereby at once obviating the necessity of surveying the hulls of vessels, lessening the inducement to build ships upon principles of strength and durability, and taking away the encouragement to keep them in the best state of repair, that they might maintain their character in the Register-Book alluded to.

EXPLANATION.

It is scarcely necessary to say more on the subject than merely to give the Rules of this new plan which they have adopted ; and which are as follow :

The letter M means the first class, G the second class, and L the third class. The figures denote the number of years the vessels built at the ports against which they are placed are to be continued in each class.

Prize-ships, whose *ages* are not ascertained, to have no characters given them.

No general reasons have been assigned for the new plan: and, as to the distinction of places, imagination is left to its free scope to ascertain what causes make some situations so inferior to others; for instance, why should ships built at Quebec stand in the first class two years longer than vessels built at Hull or the Northern ports of this kingdom, Wales, &c. ? and professional men are equally at a loss to conjecture why the Committee have thought proper to class the shipping of some ports in these kingdoms in degrees so much inferior to those of others; not to say any thing respecting the relative situations in which ships in foreign ports are placed.

On the first appearance of this new system, meetings were held by a numerous body of ship-owners of this city, who came to resolutions, expressing in the strongest manner their disapprobation of the conduct of the Committee of the Society; and, amongst

## EXPLANATION.

other resolutions, declared their opinion, that it was "founded in error, and calculated to mislead the judgment of merchants and underwriters; and, if continued, would not only prove of the most injurious consequences to individual ship-owners, merchants, and underwriters, but to every branch of trade connected with repairing and refitting vessels; and, in a great measure, tend to destroy the shipping of the country."

Meetings were held, and similar resolutions formed, in the principal out-ports of the kingdom.

The ship-owners of London appointed a committee to represent to the authors of this new plan the injurious tendency of their system; but that Committee thought proper even to refuse them an interview. Under these circumstances, the ship-owners had no remedy but to raise subscriptions and make the necessary arrangements for publishing a book founded upon principles so long established and so universally approved; and, to carry the same into execution, they have appointed surveyors, with adequate salaries, in every port of the kingdom; and they now beg leave to submit the result of their labours to the candour of those interested in commerce, in shipping, and in the business of underwriting; and, far from wishing to make any mystery or secret of their modes of classing ships, they beg leave to state the Rules they have adopted, and which are as follow:

---

After thus avowing the principles upon which they have proceeded in the execution of this work, and the motives which compelled them to undertake it, they hope those, for whose information it is designed, will make due allowances for the defects that might appear on its first publication ; as it must be obvious, that the collecting materials for such a work is attended with no inconsiderable degree of labour ; and that, in spite of the utmost attention, there will be many omissions.

The Committee have used their utmost endeavours to collect the names of as many ships as possible from the registers at the different ports : and, where they have not had an opportunity of surveying

## EXPLANATION.

them, on account of their absence, have inserted their names, burthen, built, &c. by which description alone, the merchant, ship-owner, and underwriter, will at least have as much information as is given in the Register-Book complained of.

It will be seen, that, considering the short time the Society has been established, a very considerable number has been surveyed; and those ships, which have not yet, will be soon inspected, and marked as they arrive in port.

At the same time, they request that those, whose vessels happen to have escaped the notice of the surveyors, will send information to the Office: or, in case any error should appear in the survey, it is requested, that those interested will represent the same to the Committee, when a new survey will be immediately ordered: and, in the event of a difference in opinion, such measures will be adopted by them as are most consistent with impartiality to the individual and justice to the public.

They flatter themselves this book will be in a constant state of improvement, being truly sensible of its great importance; and no exertions on their part shall be wanting to make it as perfect as possible.

The subscribers to this book, who mean to withdraw their names for the ensuing year, will please to send notice, (in writing,) to the Secretary, on or before the first day of November; and those gentlemen who do not give such notice, will be considered as Subscribers, and have a book prepared for them accordingly.
