Editorial comment CHUNG YANG JIN PAO (Kuomintang organ) fifteenth. Tragedy of Japan caused by imperialism. Remains to be seen whether Japan really repents. Japan still betrays its past ambition and lust---does Japan forget the tragic facts? Russia embarking on same imperialistic road which brought tragedy to Japan. Has she not learned from history?

Editorial comment HSIN SHING PAO (army organ) fifteenth. American reinstalling aggressive, reactionary, ex-capitalistic elements in power in Japan. Same elements which led Japan in aggression now formulating and controlling government. Advice to Americans---change control policy. Do not try help Japanese and use them for certain designs. Advice to Japanese---learn lesson of history. Do not allow yourself be used as cats paw. Don't dream of next world war in which Japan will again rise to first rank as Asiatic power. Advice to Chinese---do not hold grudge against the Americans for pro-Japan policy. American attitude during resistance period, after Mukden incident, and with reference to continuation of supply of war materials to Japan during Japanese aggression against China only evidence that self-interest and not friendship motivating United States China policy. China should help itself rather than seek help elsewhere. Threat from Japan growing daily. People must awake.
