Checked to see how many were on each purge list

Par. 6, 8, 11, 12

Smith

Holding Co - O.J.S recommend.

Okazaki Co. (Okazaki Honten)

1. Scale

Nominal Capita: 20,000,000 yen

Paid Up Capital: 10,440,000 yen

In 1943 the company was ordered by the Government to transfer its shipping department to the Mitsubishi Steamship Co. with the resultant change of shares amounting to 7,260,000 yen. In other words the actual capital of the company was no more than 3,180,000 yen which has been invested to real estates and securities.

2. Major Invested Company

a) Japan Dye Industry Co. (Nominal Capital: 2,300,000 yen)
(16% of the total shares were held by the Okazaki at the end of Aug. 47)
The company was engaged in the dying of textile goods but lost its equipments as a result of the war damage.

b) Kobe Bank (Nominal Capital: 57,000,000 yen)
(4% of the shares were held by the Okazaki at the end of Aug. 47)
In 1936 seven local banks in the Hyogo Prefecture organised the bank upon their mergery under the strong advise of the then

government. As Mr. Okazaki headed one of the seven banks, the shares were transferred to the Kobe Bank where upon another reorganization his influence became inactive.

3. Conclusion:

On surveying the influences effected by the Okazaki Co. it is not adequate to put this in paragraph 11 side by side with other holding companies as earlier designated by SCAP.

Holdings cos L & S recommendation

Tatsuma Goshi K.K. (Tatsuma Limitted Partnership Co.)

1. Major Invested Company

(a) Tatsuma Steamship Co. (Capital: 31,000,000 yen)

(66% were owned by the Tatsuma at the termination of the war. But since then they were all sold to others)

The company owned 40 thousand tons, 12 ships in number, all of which were assigned for the route between Formosa and Japan Proper carrying sundry goods.

(b) Koa Kaijo Kasai K.K. (Koa Fire and Marine Co.)

(Capital: 15,000,000 yen)

(20% were owned by the Tatsuma at the termination of the war. But since then they were all sold.)

Among the same business circles the company was not influencial at all.

(c) Shukugawa Tochi K.K. (Shukugawa Real Estate Co.)

(Capital: 3,000,000 yen) (90% were owned but later sold.)

With the main asset of 100,000 square meters of land the company raised only 70,000 yen for a year as an income for rent houses built there.

(d) Ajikawa Tochi K.K. (Ajikawa Real Estate Co.)

(Capital: 25,000,000 yen) (36% were owned but later sold.)

2. The activities conducted by the Katakura Gumi were not so glaring ~~for~~ as to be listed in paragraph 11. In addition, all officers since the formation of the company are either purgees or deceased.

Katakura Co. (Katakura Gumi)

1. Major Invested Company.

a) Azuma Marine Product Co. (the old name: Kojo Mining Co.) (Nominal Capital: 3,000,000 yen) 33% of the shares was held by the Katakura. The business was a mining and a transaction of real estates. After the war it changed into the manufacturing and sale of marine products.

b) Katakura Development Co. (3,000,000 yen, nominal capital) 53% of the shares were held by the Katakura.
The company was engaged in the management of real estates, accomodation of funds and holding, mining and sale of mines in Korea.

c) Yashima Industry Co. (Nominal Capital: 2,800,000 yen) 38% were held by the Katakura.
With the merge of showa Trading Co. with capitalisation of 2,000,000 yen the company was engaged in manufacturing and sale of fertilizers and sericultural tools.

d) Katakura Industry Co. (4% of the shares are held by the Katakura at the termination of the war.)

The business of the company was to have the land and buildings of 600,000 square meters in custody which have been mostly destroyed by the war.

(e) Tatsuma Honke Jozo K.K. (Tatsuma Sake Brewery Co.) (Capital: 4,5000,000 yen) (68% were owned but later sold)

This is the original business of the Tatsuma family which being located at Nishinomiya, one of the best brewery places, produced excellent quality of sake about 1,200 bushels per year. It was, however, unable to be compared with the activities and scales of modern enterprises some of which could be blameworthy in view of the purge.

2. Conclusion:

In view of the fact that the Tatsuma has had modest character in all its activities through the affiliates which were of comparatively small scale, the company is reasonably to be defined as the company which aimed at the maintenance of the family properties rather than with the intention to control the affiliates. It is therefore recommended that the company should not be listed in the para 11.

0 15 Holding Co 0 nominated 15 Nov 24 Oct report. Date 2 5 judgment.
