## Alumni Return For Homecoming '72

RIT will celebrate Homecoming '72 Friday, Saturday, and Sunday, Oct. 13, 14, and 15, on the Henrietta campus.

Highlights of the annual affair will be the Golden Reunion Luncheon of the Class of 1922, the Sports Hall of Fame Dinner, the Frederic W. Goudy Distinguished Lecture in Typography, the Awards luncheon, the Homecoming football game, and Homecoming buffet dinner.

The first major event of the weekend will be the Class of 1922 Golden Reunion Luncheon at noon Friday, Oct. 13.

On Friday evening, the Sports Hall of Fame Dinner will be at 7 p.m. in the dining hall at the College-Alumni Union.

## National Theatre Opens Tour Here

The National Theatre of the Deaf will open its eleventh nationwide tour October 5, 6, and 7 with three performances at RIT.

This year's production includes the first presentation of "Gilgamesh," a stage recreation of a Sumerian epic written 1,500 years before Homer. Believed to be one of the oldest written works in existence, "Gilgamesh," a lusty and humorous account of gods, god-men and heroes, was completely adapted for the stage by members of the theatre company.

The National Theatre of the Deaf was established six years ago by federal grants. It was founded to present a permanent professional company of America's deaf actors, and the Company has since been acclaimed by audiences throughout the United States, Europe and the Near East.

The company's program consists of a  
Cont'd. page 2

Elected to the Hall of Fame this year are former tennis coach William Torporcer of Penfield, former wrestling standout Lawrence A. Wilson of Falmouth, Me., a 1959 graduate of RIT, and Arthur J. Blanchette of Fairport, a 1923 graduate and one of RIT's first football stars.

Later that evening, at 8 p.m. in Booth Auditorium in the Frank E. Gannett Memorial Building, the Frederic W. Goudy Distinguished Lecture in Typography will be delivered by Dr. Giovanni Mardersteig of Verona, Italy, acknowledged internationally as one of the greatest printer-scholars of the 20th Century.

At the Awards luncheon at noon Saturday in the main dining room of the College-Alumni Union, Peter C. Bunnell and William P. Hall will receive the Outstanding Alumnus Awards of the RIT Alumni Association.

Hall, of 710 Paul Road, Rochester, is executive director of the Baden Street Settlement, a Rochester inner-city agency serving a neighborhood of 20,000 people. He is a 1963 graduate of RIT in business administration.

Bunnell this summer became the David Hunter McAlpin professor of the history of photography and modern art at Princeton University, the first endowed professorship in the history of photography. He is

# Criminal Justice Institute October 13

The first annual "Institute on Criminal Justice," a day-long conference to study all aspects of the criminal justice system, will be held Friday, October 13, at the Inn on the Campus, 175 Jefferson Road.

## Homecoming, cont'd.

a 1959 graduate of RIT in photography.

Also at the awards luncheon, Mrs. Orilla Wright Butts, a 1926 graduate, will receive the Sarah Margaret Gillam award, recognizing a graduate of the department of food administration for outstanding contribution to dietetics or food service administration. Mrs. Butts, of Ithaca, served for 33 years with the New York State Extension Service.

The football game at 2:15 p.m. at the athletic field will pit RIT against Plattsburg State.

The Homecoming buffet dinner will be from 7:30 to 9:30 p.m. Saturday in the dining hall of the College-Alumni Union.

Other activities throughout the weekend will include art exhibits, ice skating, bowling, table tennis, billiards, swimming, dancing and card playing, films, a slide show, and religious services.

Chairman of Homecoming is Clarence E. Smith of 51 Lochnavar Parkway, Pittsford, a 1940 mechanical graduate.

## New Bus Service

The Regional Transit Service will provide transportation to and from RIT's Metropolitan Center during the academic year, Todd H. Bullard, provost and vice president for academic affairs, announced this week.

Bullard said Regional transit buses will leave the Henrietta campus administration circle at 8:45 a.m. and 12:15 p.m. Return trips from the Metropolitan Center will be made at 11:30 a.m. and 4:15 p.m. The trip is approximately 30 minutes.

"The service is intended primarily for certain students in the College of Fine and Applied Arts and the School of Applied Science who will have scheduled classes at the Metropolitan Center,"

The institute, "The Criminal Justice System in Transition," is sponsored by RIT's new department of Criminal Justice and the New York State Probation and Parole Officers' Association.

"We hope to look at the entire spectrum of criminal justice--from the police through the courts to the prison and probation and parole systems," said Dr. John Humphries, associate dean of the College of General Studies.

He said the conference is open to anyone with an interest in the criminal justice system.

Conference participants will include Edward Ryan, director of the Department of Criminal Justice at RIT; Det. Lt. Charles H. Price, of the Rochester Police Department; Jack B. Lazarus, Monroe County District Attorney; Anthony Palermo, attorney; Judge Harold L. Galloway, co-administrator of Rochester City Court; Charles L. Willis, attorney; Robert H. Wagner, administrative judge, Monroe County Family Court; and Leon H. Miller, area director for the parole office of the New York State Department of Correctional Services. The keynote speaker will be Richard Myren, Dean of the School of Criminal Justice, State University College at Albany.

Registration and other information can be obtained from Dr. John Humphries, College of General Studies, (464-2446).

## Bus, cont'd.

Bullard said. But he said other students are "welcome to use the service on a space available basis." Students with classes scheduled at the Metropolitan Center will be issued bus passes. Other students will pay standard fare.

## NTD cont'd.

combination of strong and graceful sign language with mime, dance, music, movement and simultaneous narration and song. The program is designed for both hearing and deaf audiences.

The production, sponsored by RIT's College Union Board, is scheduled October 5, 6, and 7 at 8:30 p.m. in Ingle Auditorium. Tickets are available from the RIT College Union information desk, and further information may be obtained by calling 464-2308.

# Reporter To Publish Again

The Reporter newsmagazine will be publishing again this week following a one week shutdown.

Publication of last week's issue was halted after Institute officials objected to a cover photograph showing a boy and girl in bed, partly beneath a sheet, with orientation materials at their feet.

The Institute is the legal publisher of the Reporter.

Following a meeting between President Miller, Dr. Fred Smith, vice president of Student Affairs, and the Reporter staff, an agreement was reached to permit the Reporter to continue publication.

"There was a spirit of understanding that our interest was not to censor or control the Reporter," Smith said. "While the Institute wants to maximize the freedom of the Reporter, RIT must have some mechanism of assuring the Institute will not be seriously jeopardized."

## 'Action' Program Started

James Papero, of 89 Deer Creek Road, Pittsford, has been named administrator of Affirmative Action Programs at RIT, Everett C. Merritt, personnel director, announced.

Papero, who holds the academic rank of associate professor, will continue his assignment as assistant director in the Extended Services Division of the College of Continuing Education, in charge of the Office of Community Development and Urban Affairs and the Urban Extension Office at RIT's Metropolitan Center, 50 West Main St., in downtown Rochester.

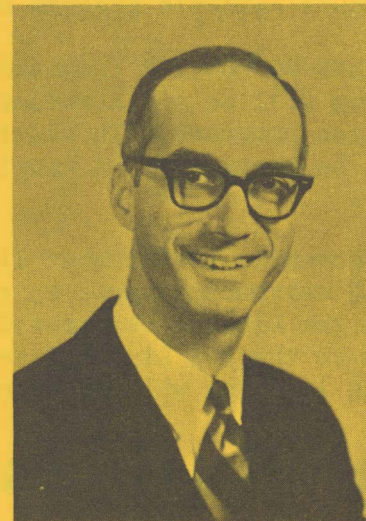

In his new assignment, Papero will be concerned with the employment status of the Institute's minority and female labor force. He will work with academic departments within the Institute to assist in the development and implementation of Affirmative Action Programs. In addition he will coordinate staff supervisory training for female and minority group workers, and will develop closer relationships with those sources in the Rochester community which are best able to refer minorities and females for jobs.

Merritt, and Harold M. Kentner, assistant dean for Extended Services in the

A committee was set up last spring to establish guidelines for the Reporter, but the recommendations had not yet been implemented. Following a meeting last Monday, the committee report was accepted along with two additions.

It is stipulated that the Reporter staff refer all matters thought to be of questionable legal or sensitive nature to an advisory board to be composed of three students, three faculty and two administration. The vice president for Student Affairs will automatically become one of the administrators and will appoint the second administrative representative. President Miller will appoint the chairman.

The second addition calls for the advisory board to establish procedures for the selection of future editors in chief. The selections must be agreeable to both the Reporter staff and the advisory board. Orientation procedures will be set up to give the editors-in-chief greater awareness of the history of RIT, and sensitivity to the RIT community, administration, board of trustees, and the Greater Rochester community, the report said.

James M. Papero

College of Continuing Education at RIT, noted that Papero is especially qualified for this assignment due to his background of experience in the fields of community development and urban affairs.

Papero holds bachelor's and master's degrees from the University of Rochester.

# Computer Services Seminars Planned

The Office of Computer Services is presenting the following seminars for the faculty, students, and staff in order to better acquaint them with computer programming and the XDS SIGMA 6 computer recently installed on the campus.

A fee will be charged for each seminar to cover the reproduction cost of the materials to be handed out. Enrollment in each seminar will be limited to 25 attendees. All attendees will be required to register and pay the required fee to Mrs. Janey Miller in room 1091 in the Annex. All seminars will be held Monday through Friday between the hours of 12:00 and 1:00 P.M. (except the COBOL PROGRAMMING LANGUAGE seminar which will be held between 1:00 and 2:00 P.M.) on the days specified. Room assignments will be made at the time of registration. For further information contact Eric Hotaling, 464-2991.

## BASIC PROGRAMMING LANGUAGE - SECTION A (October 2-6)

An introduction to the programming language called BASIC will be presented as well as instructions on how to execute BASIC programs in both time sharing and batch (fee: \$2).

## BASIC PROGRAMMING LANGUAGE - SECTION B (November 27-December 1)

This seminar will be a repeat of the one above (fee: \$2).

## FORTRAN PROGRAMMING LANGUAGE (October 9-13)

An exposure to the elementary features of the FORTRAN programming language will be presented for those already having had some programming experience (fee: \$1).

## BATCH AND TIME SHARING MONITOR (October 16-20)

Attendees will be given instruction on the use of the time sharing capability of the XDS SIGMA 6 computer. A knowledge of the FORTRAN programming language will be assumed (fee: \$2).

## COBOL PROGRAMMING LANGUAGE (October 23-November 3)

This seminar will be an introduction to a business oriented programming language called COBOL. Attendees should have had at least an elementary exposure to a computer (fee: \$2).

## CIRC (October 23-November 3)

An introduction to the use of the DC, AC, and transient analysis capability of the XDS electronic circuit analysis program called CIRC will be presented (fee: \$4).

## BATCH PROCESSING MONITOR (November 13-17)

This program will be an introduction to the job control statements associated with the execution of batch programs. In addition, instructions for creating libraries and overlaying programs will be presented. A knowledge of the FORTRAN programming language will be required (fee: \$2).

## PLOTTING (November 27-December 1)

The FORTRAN subroutines used to generate plots on the Houston Instrument incremental plotter located in the Library Computer Center will be presented and explained. In addition, an introduction to the XDS Line Printer Plotting Package will be made. A knowledge of the FORTRAN programming language will be required (fee: \$1).

# Small Business Course Offered

The Extended Services Division of the College of Continuing Education at RIT and the Syracuse District Office of the U.S. Small Business Administration have joined forces to sponsor an eight-week Small Business Management Course.

The course will be offered on Tuesday evenings, starting Oct. 17, at the Henrietta Campus. The coordinator is

Melvin R. Dell, CPA, and the instructors will include several area businessmen.

The series is geared to the small businessman with fewer than 500 employees. Topics covered will include business management, legal and insurance aspects of small business, financing, bookkeeping and accounting, taxation, profit planning and control, advertising, and sources of

## NTID Construction 'Proceeding Well'

Reports from the NTID construction site are all good, as the buildings continue to take shape. According to William Williams, assistant to the director of NTID, "The job is proceeding extremely well, with more than 40 percent of the work completed."

Williams is enthusiastic in his praise of both the general contractor, Pigott Construction International Limited, and the architects, Hugh Stubbins and Associates. "They are conscientiously attempting to complete construction on time with a high degree of quality." He went on to say that the scheduled construction date is January 21, 1974.

In the academic building, the ground floor slabs are 80 percent in place, the second and third floor slabs are finished and the roof is complete. Fifty percent of the fire proofing has been done and the mechanical and electrical work is proceeding very well.

The three wing residence building is also progressing well. In the 12 story wing, the tenth floor is 80 percent complete; and the second floor of the three story and two story buildings are being poured and formed. The mechanical roughing is in the beginning stages in this building.

The Dining Hall/Commons is somewhat further along with the concrete work finished and the fire proofing complete. In this building, the electrical and mechanical work is well under way.

A second architectural agreement, for the interior design of the NTID facilities, has finalized; and this aspect of the project will gather momentum as the building exteriors are finished.

# Physics Conference October 6 and 7

"Atmospheric Physics" is the theme of a two-day joint conference on Friday and Saturday, Oct. 6 and 7, of the New York State Sections of the American Physical Society (APS) and the American Association of Physics Teachers (AAPT), to be held at RIT's Henrietta campus.

## Small Business, cont'd.

assistance and information. All subjects will be discussed in relation to current government controls and regulations.

The course is applicable for retailers, wholesalers and manufacturers, Mr. Dell said. It covers consumer goods and services as well as industrial goods and services. The course fee of \$65 includes all necessary classroom materials.

Further details on the course are available from Roger K. Powell, Extended Services Division, 464-2912.

The program is being hosted by the Physics Department of RIT's College of Science. The symposium on "Atmospheric Physics" sponsored by the APS will be composed of review talks intended for a general physics audience. In three half-day sessions, twelve invited speakers will discuss Atmospheres and their Dynamics (Friday morning); Upper Atmosphere Physics (Friday afternoon); and Storms and Precipitation (Saturday morning). The AAPT teaching-oriented symposium on Saturday afternoon will include three papers on Atmospheric Physics and one on Teaching Physics to the Deaf. All technical sessions on both days will be held in the Booth Auditorium of the RIT's College of Fine and Applied Arts.

Friday night's banquet at the Inn on the Campus will feature Dr. D. Robert Frisina, director of the National Technical Institute for the Deaf (NTID) at RIT, who will speak at 8:30 p.m. on "NTID: Meeting New Challenges in Education."

## Biomedical Communication New

A new bachelor's degree program in Biomedical Communications, designed to train communication specialists for such life science areas as hospitals, medical research centers, universities, and a wide variety of health organizations, will be offered for the first time this fall by the School of Photographic Arts and Sciences.

The undergraduate program will be offered starting at the third-year level and will provide students with educational background in the uses of such multi-media communications systems as photography, closed circuit television, motion pictures, slide and film presentations, graphic arts, tape and cassette sound systems.

Specifically, the program will prepare biomedical communicators to become supervisors and specialists capable of using communications skills appropriate to the medical and health environment, and the life sciences.

"The position of biomedical communicator is a relatively new one," stated

William S. Shoemaker, director of RIT's School of Photographic Arts and Sciences in the College of Graphic Arts and Photography. "His job is to assist physicians, nurses, allied health personnel and educators, by being able to put together the proper communications 'package' to serve a particular educational or research need. He is considered a partner in the overall biomedical team."

"Areas of two-year specialization from which transfer students would normally be expected include photography, film making and television, biological sciences, medical illustration and graphics, or audio visual technology," Professor Shoemaker said.

Appointed director of the new biomedical communications bachelor's degree program is Professor John F. Trauger, 20 Wendover Road, Brighton. Trauger, of the College of Graphic Arts and Photography, has served as director of the associate degree program in biomedical photography since it started at RIT in 1968.

# Need Interpreter ? 60 Available

Need an interpreter? There are 60 full-time, part-time, and student interpreters at NTID ready to serve anywhere at anytime on campus.

They can be called to interpret in the classrooms, in the dormitories, at all extracurricular activities and at any

## Buckholtz Named U.S. Game Coach

John Buckholtz, RIT swimming coach and physical education instructor, has been named to the United States coaching staff for the 12th annual World Games for the Deaf, scheduled next summer in Malmo, Sweden.

The 28-year-old Cortland State graduate joins John Wieck of Birmingham, Mich., as coach of the U.S. deaf swimmers. Wieck has steered teams in prior games, while the World Games for the Deaf will be a new experience for Buckholtz.

Announcement of the coaching staff was made by Art Kruger of Hollywood, Calif., committee chairman for both the U.S. World Games for the Deaf and American Athletic Association of Deaf.

Like the Olympics, the World Games for the Deaf are held every four years. Competition among some 36 countries is scheduled July 21 to July 28, 1973. Qualification for the teams is held a year in advance, permitting athletes time to raise expenses.

For Buckholtz, working with the deaf swimmers will not be a new experience. Six of the squad members have competed for RIT.

Named to the team earlier this month were Ron Trumble (Jacksonville Beach, Fla.), Barry Hill (Coral Gables, Fla.), Gene Rusiecki (Niagara Falls, N.Y.), Ken Dardick (St. Louis, Mo.), Albert Walla (Stamford, Conn.), and Carol Tufts (Van Nuys, Calif.).

Walla swam last year at RIT and now attends Gallaudet College, Washington, D.C. Miss Tufts is a 1972 graduate, while the other students attend the National Technical Institute for the Deaf.

speeches or events on campus. They also will interpret for any RIT staff or faculty member who wants to meet individually with an NTID student or who wants to call an extra class meeting at his home in the evening.

"Interpreters are available anytime an NTID student needs one, whether it's for health services or a scuba diving class," says Jim Stangarone, coordinator of Interpreting Services.

Students, staff or faculty members can obtain an interpreter, at no charge, by visiting or calling Interpreting Services, Baker 31-D, ext. 6147 or 2142. This should be done as far in advance as possible, at least 24 hours. In an emergency during evenings or weekends, interpreters also can be obtained at the student interpreters' office in Grace Watson Hall, ext. 2079.

## Health Care Limited

Effective immediately, care of faculty and staff at Student Health Service is limited to emergency care and diagnosis of acute medical problems arising or significantly worsening at work, Dr. Hugh H. Butler, director of Student Health Services, announced.

Dr. Butler said follow-up care must be obtained from the employee's personal physician. He said immunizations, allergy shots, and the recording of blood pressure will still be done by student health service.

"This change from the traditional care rendered to faculty and staff has been made necessary by the increase in numbers of daytime employees to 1,200 and by the widespread geographical distribution of their residences which now precludes proper continuity of care by medical staff based at RIT," Dr. Butler said.

"The heavy flow of students to the health service is a second factor necessitating limited care of faculty and staff. During the past year 4,400 students were eligible for care, and there were approximately 20,000 visits. The student health service must utilize its staff and resources to deal with increasing student health needs at RIT," Dr. Butler said.

# EVENTS

FRIDAY, SEPTEMBER 29

TALISMAN FILM FESTIVAL: "Alex in Wonderland," 7:30 and 9 p.m., Ingle Aud.

SATURDAY, SEPTEMBER 30

TALISMAN FILM FESTIVAL: "Little Big Man," 7:30 and 9 p.m., Ingle Aud.

CROSS COUNTRY: RIT, Utica and U of R at St. John Fisher, 1 p.m.

FOOTBALL: RIT at Albany, 2 p.m.

SOCCER: RIT at Roberts Wesleyan, 2 p.m.

BASEBALL: Buffalo at RIT, 10:30 a.m.; Utica at RIT, 12:30 p.m.

SUNDAY, OCTOBER 1

TALISMAN FILM FESTIVAL: "Knife in the Water," 7:30 and 9 p.m., Ingle Aud.

MONDAY, OCTOBER 2

GOLF: RIT at Ithaca, 1 p.m.

WEDNESDAY, OCTOBER 4

ENVIRONMENTAL LECTURE SERIES: Part 1, "The Energy Crisis," with Dr. David B. Reister, of the State University College at Brockport, 4 p.m., A-205 (General Studies building), sponsored by the Committee on Environmental Concerns. For more information contact Dr. Turan, Chemistry Department.

KODAK: Teenage film award screening, all day, 07-4200, Contact: Reid Ray, 464-2779.

SOCCER: St. Bonaventure at RIT, 3 p.m.

BASEBALL: RIT at Ithaca, 2 p.m.

THURSDAY, OCTOBER 5

AMERICAN CHEMICAL SOCIETY: Lecture series, 7:30--9:30 p.m., 08-1250. Contact: Dr. Eugene Fram, 464-2360.

## NEWS & NEWSMAKERS

Tours of the new NTID buildings are being conducted for faculty and staff each Tuesday at 1 p.m. Contact Ron Powell (464-2033) for more information....Robert E. Stevens, director of the Center for Employer--Employee Relations, has been selected as a member of the mediation/fact-finding panels of the New York State Public Employment Relations Board....Copies of "Faculty Writings, 1951--72" will soon be distributed by Wallace Memorial Library. Faculty members are urged to notify Mrs. G. Taylor at the library of any recent publications.. ..Professor Gunther Hasse, director of the Institut fur Wissenschaftlicht Photographie der Technischen Universitat in Munich, Germany, was a guest of the Photographic Science and Engineering Division September 5....Harold M. Kentner has been elected to the Board of Directors of the National University Extension Association....Sal Parlato of NTID is publishing a series of books on "Films--Too Good for Words: A Directory of Non-Narrated Films," expected to come off the press in January....Extended Services will offer a course in finger-spelling and signing for faculty and staff if there's enough interest. Contact Mr. Powell at 464-2912.

## EXHIBITS

WALLACE MEMORIAL LIBRARY GALLERY: Prints by Bonnie Gordon, through October 15, daily.

The next edition of News and Events will cover the period of Oct. 6 through Oct. 12. Deadline for material for that issue is Monday, Oct. 2. Send material to News and Events, c/o Communications Services, or call 2330.
