

THE *CLIPPER

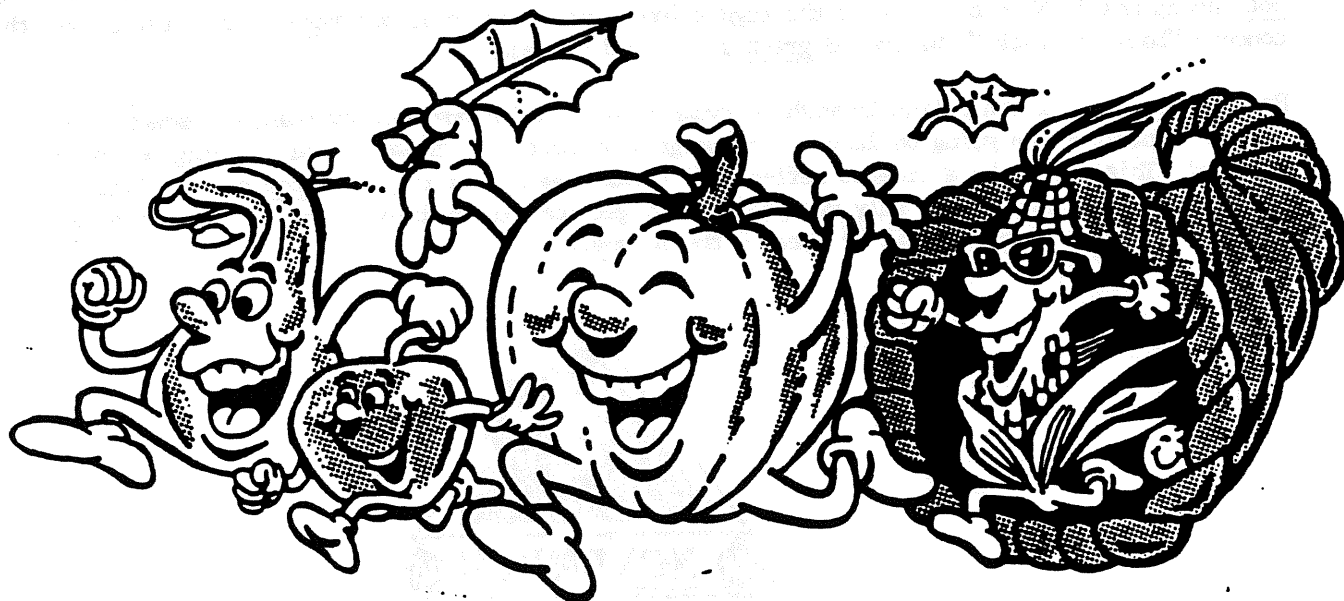

NAVAL HOSPITAL, MILLINGTON, TN

VOL. 1 NUM 21.

NOVEMBER 1993

Now wait a darn minute...this has gone too far! We're always giving weapons to impoverished countries so that they can blow each other up. Give give give...boom boom boom! Why should we give away perfectly good thanks? Oh...Thanksgiving! I thought you said... well, never mind!

As you well know, when the Pilgrims first came to this country, they had a very difficult first year. Many of the colonists did not survive the cold New England winter. By the middle of the year 1621, the colonists enjoyed a bountiful harvest of corn. Governor William Bradford decreed a day of thanksgiving and celebration be held on the 30th of July. The colonists brought geese, ducks and fish. Friendly Indians provided wild turkeys and venison. The women of the colony prepared cake, corn bread and squash. (but as LT Sullivan points out, those were the old days). The custom spread throughout the New England colonies. In 1789, President George Washington made November 26 a day of national thanksgiving. In 1941, Congress made the third Thursday of November, Thanksgiving Day, a federal holiday.

COMMAND MASTER CHIEF'S CORNER

HCMC(SW) Robert Frank

Grooming Standards. Going about the hospital there seems to be some "confusion" as to the uniform regulations concerning haircuts.

MALES

Hair. Keep hair neat, cleaned and well groomed. Hair above the ears and around the neck shall be tapered from the lower natural hairline upwards at least 3/4 inch and outwards not greater than 3/4 inch to blend with hairstyle. Hair must not touch the collar. Hair shall be no longer than 4 inches and may not touch the ears, or collar, extend below the eyebrows when head gear is removed, show under the front edge of headgear or interfere with the wearing of headgear. The bulk of the hair shall not exceed two inches. Hair coloring must look natural and complement the individual. Faddish styles and outrageous multicolored hair are not authorized. The unique quality and texture of curled, kinked, waved and straight hair is recognized, and in some cases the 3/4 inch taper at the back of the neck may be difficult to attain. In these cases hair must present a graduated appearance and may combine the taper with a line at the back of the neck. One natural narrow part (cut, clipped or shaved) is authorized. Sideburns shall not extend below the bottom of the earlobe and, shall have a clean shaven horizontal line.

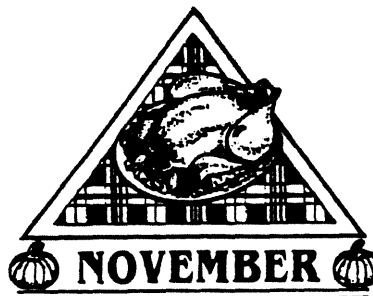

Mustaches. Neat and closely trimmed, no portion of the mustache shall extend below the lip line of the upper lip. In addition, the mustache will not go out beyond a horizontal line extending across the corners of the mouth and no more than 1/4 inch beyond the vertical line drawn from the corner of the mouth.

FEMALES

Hair. Keep hair clean, neatly shaped and arranged in a professional style. Hairstyles with a maximum braids may be worn. Faddish and exaggerated styles are prohibited. Ponytails and pigtails are permitted. When in uniform, hair on the back of the head may touch but not fall below the lower edge of the collar. When wearing jumper uniforms, hair may extend 1 1/2 inches below the top of the collar. Long hair, including braids, must be neat and inconspicuously fastened, pinned or secured to the head presenting an attractive hairstyle and may not dangle free at any point. Hair coloring must look natural and complement the individual. Faddish and outrageous multicolor hair is not authorized. Hair ornaments shall not present a safety hazard. A maximum of two barrettes (similar to hair color) may be used to pin up hair. Conspicuous rubber bands, combs and pins are not authorized.

The "Bottom Line" is that this isn't the Master Chief's policy or even to Captain's policy but the Department of the Navy's Policy. It's everyone's job to enforce the policy! What is "faddish and outrageous"? The answer is that if it takes a second look then it's probably not within Navy Regulations. Totally shaved scalps, "High and Tights" without a tapered appearance, hair that is colored blonde/brown are not acceptable! We can see that the regulations concerning hair are very clear. Let's get this area of concern "back on track." We looked great at command inspection!

Happy Holidays! I would like to wish everyone a safe and happy holiday season. Remember to not drink and drive. Those of you going on leave - recharge your battery! Those of you staying behind - recharge your battery! This should be a time to reflect and relax. As always if you're too relaxed (intoxicated) and you need a ride home because the only way you have to get home is to drive - don't - give me a call. I'd rather do that than have to go to jail or worse - the morgue!!!

TUBERCULOSIS

IN THE UNITED STATES

By: HMI(AW) Tim Gough

Tuberculosis continues to be a public health problem in the United States with over 20,000 cases reported annually. Since 1984 we have not seen the decline in morbidity as expected. In fact, there have been substantial increases in tuberculosis morbidity in areas with high prevalence countries (ex. Asia, Africa, and Latin America). Substantial increases are also seen in medically underserved low-income populations, including high risk minorities, especially Blacks, Hispanics, and Native Americans; alcoholics and intravenous drug users; and residents of long-term care facilities, such as correctional institutions and nursing homes.

* An estimated 10 million people in this country are already infected with tubercle bacilli. It is estimated that about 90 percent of new cases in the U.S. arise from this already infected group.

* In 1986, after 3 decades of TB decline, annual TB morbidity in the U.S. increased.

The number has increased mainly in areas with large numbers of AIDS cases, which suggest that the HIV epidemic has begun to influence TB morbidity.

* Deaths from TB still occurs in the U.S. and about 5 percent of all cases are first reported after death.

* More than 80 percent of childhood cases of TB occur in minority groups.

Remember the best way to stop transmission is to start antituberculosis therapy which quickly eliminates a large number of the patients' bacilli and render the patient noninfectious. A hospital care personnel we should ensure our own personal shots are up to date. For more information on tuberculosis or other infectious diseases contact the Preventive Medicine / Occupational Health Department at extension 5654/5657.

*NAVAL HOSPITAL MILLINGTON
PETTY OFFICER ASSOCIATION*

This past summer, the First and Second Class Association was reformed into the Petty Officer Association. This gave all Petty Officers a chance to be a part of the traditional organization. The purpose of the association is to bond the E4, E5, and E6 community into a close relationship, to establish better lines of communication and to aid personnel attached to the Naval Hospital and tenant commands. The association also provides a common bond for keeping with customs, traditions, and ethnics of the U.S. Navy.

To maintain efficiency and order in the association, we elected the Executive Council which is comprised of the following officials:

President - HM1 David

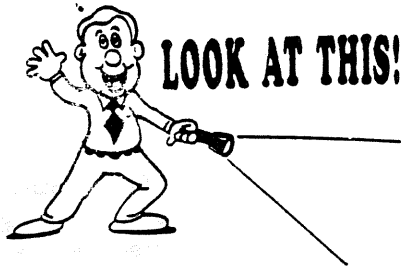

Secretary - HM2 Hayes

Vice President - HM1 Van Hooser

Master At Arms - HM1 Porter

Treasurer - HM1 Dombrowski

The Petty Officer Association would like to take this opportunity to invite any new or old Petty Officers of the command to our Association. For more information about this organization, please contact HM2 Hayes at ext. 5831.

BMC SPOTLIGHT

By: HM2 Darren Cawthon

This month's Branch Medical Clinic Spotlight shines brightly on HMC Don Stedry. Born April 9, 1962, HMC Stedry is a native of Saginaw, Michigan. During his growing years, hobbies such as wrestling and track filled his free time that wasn't being spent with his Boy Scout Troop or in the library. Upon graduation from Vassar High in 1980, Donald Stedry began his "adventure."

When he entered the Navy in November 1980, he had a goal: to become an Operating Room Technician. After a year as a general duty corpsman at Portsmouth Naval Hospital, he graduated 8483 school with "Honors and Distinction". Now as a grown-up O. R. Tech, his first duty station was Camp Pendleton for Field Med. Sequential duty stations included Okinawa, the USS Peleliu, and Naval Hospital Millington where he was LPO of the O.R. Then it was time for a change, and in 1988 he graduated with "Honors and Distinction" (again) from IDC School. Next came tours on the USS San Diego and the USS Iwo Jima, both homeported in Norfolk.

In 1991 HMC Stedry returned to Naval Hospital Millington and was assigned to the Education and Training Department. In 1992 he was assigned to the "front line" as an IDC at the BMC. Here he sees an average of 20+ patients per day with any of a variety of problems. The pinnacle of his career thus far happened on the 16th of September 1993 when he pinned on his anchors. HMC Stedry keeps busy with a variety of things more than just patients as he also heads the Smoking Cessation Course, is the BMC Training Petty Officer, Brig Corpsman, and a BLS Instructor Trainer. Let's not forget education for himself as he recently graduated Summa Cum Laude from George Washington University with a Bachelor's Degree in Health Science.

HMC Stedry enjoys Millington very much as it affords him the chance to see his wife, Anne, and son, Donny, almost every night. He still spends time assisting with a local Boy Scout Troop and his hobby of restoring British cars. Just ask him and he will tell you all about his prize 1977 MGB.

On a final note, HMC Stedry leaves this advice:

"Do the best you can, no matter how small the job!" "Always take care of your junior troops."

OFF-THE-WALL DEPARTMENT

Dear me, said Allison. This white rabbit is pretty fast. Since she was sporting her new Nike "Air Coyotes", she demonstrated an amazing burst of speed and dived for the white rabbit. Now of course you're probably thinking that she was merely trying to follow him to the tea party. This is the 90's! She hated tea parties and was really trying to him into a rabbit casserole. She made a desperate grab for the little rodent just as both of them fell into a deep hole. But not just any hole...this was a black hole! So instead of hitting bottom, they both merely came or in the next century.

"How curious," said Allison, I see that they finally solved the problem of universal access to health care. Mc Doc's Golden crutches - over 4 quadzillion sold. What concept...drive-thru surgery. May I take your order please? Uhh...I'll have a nose job, a tummy tuck, and two implants to go. And look at that theater, she exclaimed to no one in particular. Rocky XVI, Rambo 13, and Star Trek - The Search for Depends. Poor Allison had forgotten all about the white rabbit by this time. She glanced at a newspaper headline: CUBS WIN WORLD SERIES! Now I know I'm really dreaming! Just about then, she was accosted by two ruffians named Tweedle Dee and Tweedle Dum. NAFTA, yelled Dee as he poked Dum in the eye. Never, yelled Dum, twisting Dee's nose.

Attempting to run away from these annoying individuals, she again fell into another black hole. This time, she came out in Philadelphia in 1789. Hearing voices, she cautiously peered through a window and saw several elderly gentlemen arguing, "I tell you Ben, it has to be the eagle. It has a noble bearing and looks fierce." George, George, George, the eagle is a scavenger who eats carrion! What sort of symbol does that make? On the other hand the turkey is clever, quick, and has phenomenal vision. Ben, my good fellow, we can't have a symbol that everyone wants to eat for Thanksgiving. You know George....I believe your right.

That darn rabbit got me into all of this, said Allison, as she tripped and fell yet once more into the black hole. She stepped out into a strange world of fantasy, castles, and a white rabbit! Why you...I'll take you home and microwave you, she said while attempting to subdue the rabbit. Wait...said the rabbit. I'm not that white rabbit - I'm Roger Rabbit and you're at Disney World! Now if you'll excuse me...Miss Jessica, I need to go do the Bunny Hop!

How does the little crocodile improve his shining tail? Poor Allison was totally confused at this point, like myself and our readers. Just what did it all mean? Should she invest in Blue Chip stock offerings or should she put her money into mutual funds? Did her knowledge of the future constitute insider trading? She invested wisely of course, became financially secure by age 30, and retired to New Zealand where she lived happily ever after.

Ron Luka

WHAT DO YOU THINK ??????

This is a column for our readers to express their personal views on current issues. The editorial staff takes no position on these issues, and only asks that you allow your name to be printed if you want to express your opinion. For this month, we asked the question:

WHAT DO YOU THINK ABOUT THE NAVY PRT PROGRAM ??????

The Navy PRT program is fair because of the importance of physical fitness while serving in the military. I think that junior and senior enlisted and officers should be discharged in accordance with the new PRT instruction. As an organized unit we all can work together to make this new PRT program work. In conclusion, keep doing those situps, push-ups and other activities that will make your heart smile...

HM3 Callin Warren

The Navy PRT program is not designed for women at all. They fail to realize that we have totally different body structures than men and were not designed like them. They should take into consideration a different way to measure us.

EA Kimmie Moore

Excellent! Navy's top leadership is not only to be mentally cape-

ble, but also physically able to carry out its mission. Leadership by example is implied but not always carried out. We are the nations finest and most ready to defend our country and freedom.

HM3 Manuel Arreola

The Bible says that our bodies are the "Temples of the Holy Spirit" and that we should "present our bodies as a Living Sacrifice." The PRT program presents an opportunity to do the best we can with the bodies God has given us. I don't especially like the idea of having to go through the PRT but I know I need something like it to keep me honest as to my physical well-being. I do 100-200 sit-ups every night, 75-80 push-ups and run 6-8 miles everyday anyway, so the PRT is no big thing now but years ago when I was almost 300 lbs, UGH! Just do it!
Chaplain Mike

Veterans Day

Veterans Day honors the men and women of the nation who have served in the Armed Forces. It is also a federal holiday, observed each year on the 11th of November. Our resident historian CDR Rosander (and who is as old as dirt and personally remembers this) told us the holiday dates back to 1918 to commemorate the armistice took effect at the eleventh hour of the eleventh day of the eleventh month. In 1954, Congress changed the name from Armistice Day to Veterans Day to honor all United States veterans.

Ladies...hope you didn't miss it, but Sadie Hawkins Day is observed each year on the 6th of November. Got a hunka hunka burnin' dreamboat of a fella who just can't seem to get the message? On Sadie Hawkins Day, he has to go out with you if you ask him. It's the law! Just remember...if he does go out with you, you have to pay!

THE CIVILIAN COMMUNITY

By Cyndi Olson

HEALTH BENEFITS OPEN SEASON:

An Open Season Health Fair for FY94 will be held on Thursday, Nov 18 from 1000-1500 at the Pat Thompson Recreation Center, Special Interest Rooms 2 and 3. Representatives from most major health carriers will be available to discuss plans, costs and types of coverage. Plan to attend!

* * * * *

THRIFT SAVINGS PLAN OPEN SEASON:

Open season for the

Thrift Savings Plan (TSP) will run from 15 Nov 1993 - 31 Jan 1994. Election forms to enroll or change existing TSP may be obtained from your civilian liaison. Take advantage of this opportunity.

* * * * *

LET ME HEAR FROM YOU.....

Items of interest concerning civilian matters should be directed to Cyndi in room 238 for input in the newspaper.

installed on your computer.

INSIDE THE LENCH MOB
by HM2 Willis

The returning Base Flag Football Champion's (Lench Mob), not to go without controversy, regular season kicked off in October, with four returning veterans.

Even though the team is fairly new, they have the potential of being Base Champions once again, regardless of their 7-3 record so far.

In the past five years, the Naval Hospital Lench Mob has been the Base Champion four out of five times with one loss coming in the closing seconds of the Championship game. It has been routine, for game refs and other commands to go after this team because of its winning tradition. Needless to say, this team still manages to excel against all adversaries and obstacles to regain championship status.

Now, introducing the All - Star Line Up:
Coach/Quarterback-ABEC "Warren Moon" McGee, HN "Michael Jordan of Football" Irvy, HM3 "Michael Irvin" Pankey, RM2 "Jerry Rice" Johnson, HN "Mr. Do It All" Allen, HMC "Ronnie Lott" Fells, HM2 "Mean Dean" Weaver, HM3 "Razor" Warren, HM3 "Jazz" Brown, HN "Too Quick" Brunson, HM3 Sharp, HN "Don Bebe" Drake, HM2 "Mr. Grab" Moore, HM2 "Mr. OPD" Willis.

Introducing the Lench Mob Supporters:

HMC "Go For It" Weaver
HN "Ms. Halftime" Shackelford
RPSN "Ms. Texas" Hammonds

The Lench Mob will like to take this opportunity to thank all the fans that come out to support the team.

Next issue: Inside the Playoffs

WANTED:

A NEW NAME FOR THE NEWSPAPER CLIPPER !!!

If you have any suggestions for a new name, drop them off at the Chaplain's office or see LT Sullivan in the Lab. The name and logo should reflect our mission and be related to healthcare.

A*W*A*R*D*S

The following people were recognized for their achievements in an awards ceremony in October:

Navy Commendation Medal
