NO. 70

## THOUSANDS LINE STREETS OF NEW YORK AS FUNERAL OF MAYOR GAYNOR PASSES; BUSINESS IS SUSPENDED FOR ONE HOUR

### Police of Metropolis Lead Cortège With Sixteen Coal Black Horses Drawing Catafalque Through Densely Packed Streets

### Ex-President Taft Headed Pallbearers; Overflow Service From Trinity Church is Held at St. Paul's; Buried at Greenwood

New York, Sept. 22.—The body of Mayor Gaynor was taken at 10:30 o'clock this morning from its resting place in the city hall to Trinity church, where Bishop Greer read the service for the burial.

A moving sea of umbrellas stretched away from the New York city hall as young and old, thousands strong, gathered to take what part they might in the public funeral. Nearly one hundred thousand viewed the body as it lay in state last night, braving the rain for hours in a slow-moving line.

The rain had not ceased at daybreak, though it lessened to a drizzle at times as the morning wore on. The stretch of Broadway leading south from the city hall to Trinity was early manned by police in preparation for the body's passing shortly before 11 o'clock.

Admission to the church was by card only. The clergymen selected to officiate were the Rev. William T. Manning, rector of Trinity, Bishop David H. M. Greer and Bishop C. S. Burck.

Many thousands citizens blocked the sidewalk from curbs to building line as the funeral train crept along the ten blocks of Lower Broadway from the city hall to the church. The low-lying clouds lifted shortly before the cortège started.

Heading the marchers was a single line of eight mounted police. Behind them came the police band, playing the dead march, a regiment of mounted police, twelve abreast, and another regiment of police on foot in lines that stretched across Broadway from curb to curb. Next came the coffin.

With the official flag of the mayor draped over its head, the coffin lay, ten feet above the roadway on a catafalque whose sombre folds of crepe were unrolled by color. A great wreath of white chrysanthemums lay on the right of the casket, another wreath of orchids and ferns lay on the left, and a third rested at the foot.

Sixteen coal-black horses, heavy with black trappings, flanked on the right by a single file of police, and on

the left by firemen, drew the catafalque through the streets. As the coffin passed between the two walls of spectators, held to the curb by an unbroken line of police, men bared their heads and only the blue-capped patrolmen remained covered. Of these there were five thousand in the line of march or on duty along the way of the funeral train.

The twelve pallbearers, headed by William H. Taft, marched six on each side of the coffin. Behind them came official committees of the city, two companies of city hall police who had come in daily contact with the mayor during his lifetime, and the long train of organizations and individuals chosen from the many who applied for places in the funeral train.

So silent stood the throngs of spectators that the tolling of the bell in the tower of Trinity could be heard at the city hall when the cortège started. Tens of thousands stood silently about the church during the services. The seating capacity of 800 was insufficient to provide for even a small fraction of the thousands who sought admittance. An overflow meeting was held in St. Paul's church half a dozen blocks away.

After halting at the church while the body was taken from the catafalque to the chance on the shoulders of six firemen and six policemen, the funeral train marched to the Battery, turning back and standing till the conclusion of the church services. The march was then resumed to Greenwood Cemetery in Brooklyn.

The city's industries marked time during the funeral service. The municipal departments were closed for the day, and the New York stock exchange closed at noon. The Consolidated stock exchange and several mercantile exchanges were closed all day; a million school children participated in services in the dead mayor's memory, and thousands of firms heeded the request of Mayor Kline that business be suspended for an hour.

## HEADS BROKEN IN RIOTS AT DUBLIN

### Police Reserves Charge, Pro- cession When People Stone Street Car Windows

Dublin, Sept. 22.—Dublin's streets yesterday were again the scene of a battle between the police and strikers. Many heads were broken. Thirty-five civilians and seven policemen are in hospitals as the result of the engagements, and many others were treated for minor injuries. The number of men in Dublin either on strike or locked out, is about 20,000. They have many supporters, and are in savage spirit.

Many strike parades were held, the jeering workmen and their allies marching through various parts of the city. Liberty hall was converted into a strike headquarters. Street cars were held up and all but wrecked.

Police reserves charged one of the processions, when people from the side streets began to stone the cars. Several were injured in this skirmish. The crowd, which numbered 10,000, smashed car windows as it proceeded, until it was met by a large squad of mounted police in Lombard street. There the fighting became more furious. The police twice charged with their batons, and finally succeeded in dispersing the rioters.

## HON. A. R. FRENCH IS NOW BARON DE FREYNE

Dublin, Sept. 22.—Baron de Freyne died today at his country residence, French Park, County Roscommon. He was 58 years of age. The successor to the peerage is the Hon. Arthur Reginald French, 34 years of age, the baron's only son by his first marriage. He served for several years as an officer in the Royal Fusiliers, resigning his commission to enlist as a private in the Eighth United States Infantry.

## INVESTIGATE SLAVERY.

Washington, D. C., Sept. 22.—Secretary Garrison will direct an investigation of charges made by Dean Worcester and W. H. Phipps, auditor of the Philippines, that slavery exists in the islands. The investigation will be made by Governor-General Francis Burton Harrison.

## BOUNDARY MINES PAY HALF-MILLION MORE

### Distribution in Dividends \$1,- 654,875 for the Pres- ent Year

### THREE HEAVY PROFIT PAYERS THIS MONTH

Nelson, B. C., Sept. 21.—With the distribution this month of dividends by the Standard Silver & Lead Mines, the Consolidated Mining & Smelting Company and the Hedley Gold Mining Company, the total sum distributed by mines and smelting companies of the Kootenay and Boundary for the year to date has been brought up to \$1,654,875, which is nearly half a million dollars greater than the total sum distributed by Kootenay Boundary companies in the whole of 1912. This month the Consolidated Mining & Smelting Company, which has a smelter at Trail and mines in various parts of the Kootenay and Boundary districts is paying out \$110,000, representing the second quarterly dividend of 2 per cent. declared last June. The Standard mine at Silverton has paid its usual monthly dividend of \$50,000 and the Hedley company which operates the Nickle Plate mine at Hedley, is paying out \$60,000.

The dividends of Kootenay and Boundary companies for the year to date are: Standard \$450,000; British Columbia Copper Company with a smelter at Greenwood, \$85,000; Granby, with smelters at Grand Forks, \$57,000; Le Roi No. 2 at Rossland, \$48,000; Consolidated \$220,000; Hedley \$189,000.

## FATAL SHOT FIRED AT RIFLE RANGES

### KILLS MARKSMAN IN DUNDONALD MATCH

### Accidental Discharge During Demonstration of Magazine- Loading Results in Death of Q.-M.-S. Harris at Rock Cliffe

Ottawa, Sept. 22.—At the Rock Cliffe rifle ranges Saturday afternoon Quartermaster-Sergeant T. S. Stanley Harris, of Ottawa, Fifth Princess Louise Dragoons, was shot and killed. The fatal shot was fired just as several teams representing the corps of the Ottawa garrison was preparing to shoot the Dundonald match.

Team captains had just drawn for places, and the first squads were taking their positions at the butts, when the sharp crack of a rifle shot attracted attention to the right of the

## SCOTS FOR CANADA SAYS THE CAMERON

### Agriculturalists Cannot Be Prevented Emigrating to the Dominion

### LLOYD GEORGE'S TAXES SENDS CLAN CHIEF OUT

Nelson, B. C., Sept. 22.—Emigration of Scottish agriculturalists to Canada cannot be prevented, nor will there be a decrease in number seeking homes in this western country until the population of Scotland has so fallen off that the supply of emigrants is curtailed. Canada is getting the best of the Scottish farmers, and there are already so many Scots in this country that it looks as if it is to become the future Scotland of the world.

This is the opinion of Colonel Donald Walter Cameron, of Lochiel, chief of the Clan Cameron, who left Nelson for the east on the Nasookin yesterday morning. With him was his wife, Lady Hermione Emily Graham, daughter of the Fifth Duke of Montrose. He is here to make investments. Lloyd George's taxation having decided him to remove capital from the Old Land.

In glowing terms, Cameron of Lochiel spoke of Canada, which he is visiting for the first time, its opportunities, its people and the prosperity which he noted everywhere.

Cameron of Lochiel, has been making a prolonged tour of Canada. "The Cameron," as he is officially called, is strongly interested in agriculture, and has paid protracted visits during his journey to forests in the province.

## ALBANIA TO ATTACK SERBIA ANARCHY IN BALKAN STATE

### Disruption in Principality; Mufid Bey Returns From Europe to Fight Essad Pasha; Rebellion Along Frontier of Serbia Believed Due to Foreign Intrigues; Action From Serbia Expected Soon

Salonica, Sep. 22.—Complete anarchy reigns in Albania. The provisional foreign minister, Mufid Bey, who has just returned from Europe, has summoned his partisans to arms to march against Essad Pasha, the former commander-in-chief of the Turkish forces at Scutari.

Belgrade, Sept. 22.—The situation is grave along the Albanian frontier, where Albanians armed with modern rifles, are assembling to attack Serbia. Albanian agents are endeavoring to stir up rebellion.

It is believed here that the hostile preparations are due to foreign intrigues against Serbia and Montenegro. As a consequence Serbia feels bound to re-occupy the strategic positions in Albania, which the action of the powers compelled her to abandon.

## TURKS AND BULGARS MAY OPPOSE GREECE

Cologne, Germany, Sept. 22.—According to the correspondent of the Cologne Gazette at Constantinople, the foreign ambassadors to Turkey believe it quite possible for the Turkish and Bulgarian armies to come to an agreement to operate jointly against Greece if that nation refuses the condition of peace proposed by Turkey. The Turkish government newspaper advances the same idea. General Michael Savoff, commander-in-chief of the Bulgarian army, is in Constantinople.

## BULGARIANS STARVE ON DESERT ISLAND

Sofia, Sept. 21.—The Greek contention that Spiro Suradjeff, one of the wealthiest of Bulgarian merchants in Salonica, died of cholera, is officially denied here, the claim being made that he was placed in the cholera detention camp after having been stoned. This, it is charged, was done to remove all signs of the crime.

Bulgarians assert that this procedure is common with the Greek authorities, whose object is the extermination of all Bulgarians, especially those of wealth and education. Officials in Sofia make the further charge that 2,500 Bulgarians are dying of starvation on a desert island in the Aegean Sea.

## GREEKS SEIZE MISSION SCHOOLS AT KORITSA

### ARREST AND PERSECUTE RETURNED ALBANIANS

Vienna, Sept. 22.—The Greek authorities at Koritsa, in Albania, to-day seized the American mission schools there, where instruction is given to nearly 100 Albanian girls. The information reached here in a telegram from Avlona, the principal seaport of Albania on the Adriatic Sea.

The Greeks also have arrested and persecuted a large number of Albanians who recently returned to Koritsa from foreign countries, releasing them from detention only when the Albanians promised to join the agitation for the incorporation of the district in Greece.

The British consul at Monastir has

entered a protest with the Greek government on behalf of the foreigners.

Last week Greek officials at Koritsa endeavored to take forcible possession of the American mission school building, but the housekeeper in charge refused to hand over the keys. The Greek soldiers beat her mercilessly and then carried her off to prison.

The mission is in charge of Phineas B. Kennedy, a native of New Jersey and a Princeton graduate. Mrs. Violet B. Kennedy conducts the ladies' literary society, to give the elements of education to the women of Albania.

## HUDSON'S BAY GRADE MAKING GOOD TIME

### Tenders Called for Second Section of Welland Canal; First and Third Parts Are Awarded.

Ottawa, Sept. 22.—Before the close of the working season grading will have been completed on a straight stretch of 150 miles of the Hudson's Bay railway, and with the exception of a few cuts the line will have been graded from Le Pas to Thicket Portage, about 200 miles. About 60 miles of rails are down. The work is progressing as fast as was anticipated.

The inquiry into the dispute between the Grand Trunk railway and its maintenance of way men has resulted in an unanimous decision of the board of conciliation, consisting of George Gunn, of Ottawa; H. H. McGuigan, of Toronto; and G. D. Robertson, of Welland, in regard to working conditions and hours of labor. The Grand Trunk stated that it was not at present prepared to discuss increase of wages, and that feature is left over until March 1.

Hon. T. W. Crothers, minister of labor, sails from England on September 24 and will reach Canada on October 1. The department of works to-day called for tenders for the second section of the Welland canal. Contracts for the first and third sections of the canal have already been let, and the work upon this great project is to be rushed with all possible speed.

## COAL MINERS ORDERED TO STRIKE TO-MORROW

Trinidad, Col., Sept. 22.—With every miner in the Southern Colorado coal-fields under orders to lay down his tools to-morrow morning because of the refusal of the operators to recognize the United Mine Workers of America and grant certain wage and other concessions, the camps of Las Animas and Huertano counties were unusually quiet to-day.

All mines are in operation, and most mines, assert the operators, have almost full forces. Miners and their families continued to-day to leave the camps with their belongings, and have come to Trinidad.

## POPE'S PHYSICIAN SPEAKS.

Milan, Sept. 22.—Professor Marchisava, physician to Pope Pius, was the chief speaker to-day at the opening session of the international congress on alcoholism.

Thirty international temperance societies are represented.

## LAW STUDENTS STUDY SULZER IMPEACHMENT

### Hearing of Case Against Garrison to Be Resumed During This Afternoon.

Albany, N. Y., Sept. 22.—While attorneys are working their way through the Sulzer impeachment trial, a small army of representatives of law schools and universities is following the case closely and preparing exhaustive reports.

There was no morning session of the court to-day. The senators and judges were ordered to report promptly at 2 o'clock for the resumption of argument by Attorney Louis Marshall, of the Sulzer counsel, on certain points raised by him touching on the constitutionality of the adjournment of the assembly last July, the failure of assemblymen to receive notification that on reconvening the assembly would consider impeachment charges, and the constitutionality of the impeachment itself on the ground that it was brought while the legislature was in extraordinary session.

The hearing in the case of James A. Garrison, Sulzer's graft instigator, now imprisoned for contempt of the assembly, was announced for this afternoon.

## MAN ALLEGED TO HAVE KILLED MADERO DEAD

Washington, D. C., Sept. 22.—Lieut.-Governor Cardenas, alleged by the Constitutionalists of Mexico to have been the assassin of President Madero, former president of Mexico, has been assassinated, according to advices received at the headquarters of the Constitutionalists here yesterday. The advices state that Cardenas was killed at Michoacan, whither he had been sent by President Huerta to take command of the federal troops.

## BOILER EXPLOSION AT JAIL FOLLOWED BY FIRE

Portland, Ore., Sept. 22.—A boiler exploded this morning at the Kelly-Butte sub-jail, the wreckage for county prisoners, five miles east of here, and it is reported that the engineer was killed and a number of others injured. The stockade is on fire and a crowd of specially sworn-in deputies is guarding the prisoners, many of whom are regarded as bad characters. Help has been sent out from here, but as the wires are all down, the exact amount of damage is not known.

## ULSTER WELL ARMED DEFIANCE NOT BLUFF

### Perfect Military Organization Revealed in Down and Antrim Counties

### HUNDRED THOUSAND MEN ARE VOLUNTEERS

### Cavalry and Infantry Drill Like Veterans; Villages Have Reviews and Ranges

### WOMEN SIGN PLEDGE TO RENDER ASSISTANCE

London, Sept. 22.—Ulster's defiance is no bluff, according to Sir Edward Carson and General Richardson, who completed their swing around the counties of Down and Antrim on Saturday. Those in close touch claim that the tour revealed a perfect military organization of a hundred thousand volunteers. On Saturday in particular, young sons and yeomen marched shoulder to shoulder, led by retired officers who have been active service.

The organization is claimed to be completed to the last garter button, wireless stations and the heliograph flashed reports of progress to the leaders. Onlookers say the cavalry and infantry drill like veterans, and in each village reviews were held in private grounds, where also are private rifle ranges.

Supporters of the movement hint darkly at secret arsenals. The men in the ranks say they expect to fight. A quarter million of the women of Ulster have signed a pledge to assist, and each troop has its corps of uniformed nurses which turns out fully equipped every evening.

"The crisis has moulded Ulster into a democracy," says one enthusiast who went on the tour with Sir Edward Carson. "Countless girl-operators mill hands, peers, clerks and gardeners, all strive for one common end, and rank is forgotten in the deadly seriousness of the preparations."

Speaking at the demonstration at Antrim Castle, Sir Edward Carson pointed to General Sir George Richardson and said: "We have our general on the platform. The Radical press is expressing some emotion at the presence of this great general among us. Tell the government that we have more. We have the pledges of some of the greatest generals in the army that they will come over and help us keep the old flag flying when the time arrives."

The outstanding feature in the market in non-marine risks at Lloyd's is insurance against riots in Belfast as a consequence of the forthcoming imposition of Home Rule.

## ELECTRIC TRAINS MEET IN HEAD-ON COLLISION

### Three Killed and Twenty Are Injured on Long Island Railroad.

New York, Sept. 22.—Three persons were killed and twenty injured early to-day in a head-on collision of two Long Island railroad electric trains at College Point, L. I. Of the injured one will die.

The dead are: Conductor George Borckel, Motorman Fred Loder, Motorman Charles Hohlben.

Most of the injured were mill employees on their way to work. The crash occurred on a curve. The trains, running 40 miles an hour, rounded the curve from opposite directions almost simultaneously.

The Pennsylvania railroad issued a statement saying that the accident had been caused, so far as could be determined, by the negligence of the operator at Whitestone Junction, who allowed the train bound for New York to leave the double track before the other train had cleared.

The road's statement placed the total number of injured at 40.

## BRITISH DELEGATE AT CONVENTION ON LABOR

Montreal, Sept. 22.—Three hundred and twenty delegates from the various trade unions and labor organizations in Canada assembled to-day for their twenty-ninth annual convention. They were welcomed by the mayor of the city, Commissioner Ainey and the secretary of the Montreal Trades and Labor Council, J. T. Foster.

For the first time in the history of the convention there was an official fraternal delegate from Great Britain present in the person of William Thorne, M. P. The opening session was devoted to addresses of welcome.

## SHOOTING TRAGEDY FROM MELANCHOLIA

Mother Kills Daughter and Wounds Grandchild When Visiting House of Son

Alexandria, Ont., Sept. 22.—Mrs. J. A. H. Taylor, of Montreal, shot and instantly killed her daughter, Mrs. Harold W. Norton, and seriously wounded her 13-year-old grandchild, Lulu Norton, yesterday morning while they were asleep at the home of her son, J. A. H. Taylor, Jr.

On Saturday evening Mr. and Mrs. J. A. H. Taylor, Jr., Mrs. Harold W. Norton and Lulu Norton came from Montreal to Alexandria on a visit. The family retired late Saturday night. Mrs. Norton and her child slept downstairs, while the others slept upstairs. Sunday morning at daybreak they were startled by revolver shots and screams. Mr. Taylor, Sr., rushed to the stairs, where he met his wife coming up with her hands streaming with blood. It would appear Mrs. Taylor, who has been suffering for some time from melancholia, found a loaded revolver in her son's dresser. She concealed it in her clothing and came down stairs, to the room in which Mrs. Norton and her child, Lulu, were sleeping.

Without warning and while they slept she shot Mrs. Norton in the left eye. She then shot the child in the temple and turned the gun on herself. This shot, however, failed to kill her, passing through her upper lip and nose, cutting a deep gash in her forehead. There were four shots fired, but just where the fourth shot went is unknown. Mrs. Norton died from the effects of the wound in the eye about noon to-day.

Phoenix Beer, \$1.50 per doz. qts.

## VESSELS DRIVEN TO SHELTER FROM WIND

Side of Building Blown Out at Port Arthur; Lights Out of Use

Port William, Ont., Sept. 22.—The worst storm striking the head of the lakes for years broke on Saturday when a fifty-mile gale accompanied by rain and sleet, ending in snow, raged for three hours. Telephone poles were laid low, hanging signs blown down, trees uprooted and broken by the wind.

On the lakes the vessels were driven to shelter and ten could be seen from the city lying in Thunder Bay. Eighteen more were reported in the shelter of Thunder Cape and more beside Isle Royale. Four ran into Jackfish Bay on the north shore.

The Noronic, under construction at the dry-dock, to be the largest passenger boat on the lakes, broke from her moorings in the wind and drifted about fifty feet along the channel until she went aground on the side of the slip. There she was pulled off by the tugs Safha and Home Rule and towed back to her place. She was reported as being uninjured.

On account of its more exposed position, Port Arthur suffered more from the storm than Port William. In the Hill City there are 600 phones out of commission. The cable in the anemometer at the weather observatory for measuring the rate of wind, broke and short-circuited the primary wires for electric lights. They burned out, leaving about 100 services in darkness.

Eighteen poles on the power line to the dock were blown down, and for two hours the street railway had its power cut off as well.

The uncompleted building at the corner of High street and Winnipeg avenue, had its side blown out by the gale. A street car conductor going up Arthur street, reported having a narrow escape from being hit by an overhead sign, which fell about ten feet from him.

The tents which were left at the exhibition grounds after the fair, were either blown down or to pieces. Forty men worked all day yesterday to repair damage to the telephone, light and power lines.

## REV. ROBERT TOMLINSON DIES AT MEANSKINISHT

Prince Rupert, Sept. 22.—Bishop Du Vernet has received news of the death of Rev. Robert Tomlinson, which occurred at Meanskinisht, one hundred and forty miles up the Skeena, Wednesday last.

The deceased was appointed deacon of the Church of England by the Bishop of London on December 23, 1886, and left almost immediately for Metlakatla, B. C. For sixteen years he labored as a missionary of the Church Missionary Society at Metlakatla, Kincolith and in the Klappan Valley. He then founded an industrial mission of his own at Meanskinisht, where he has lived for nearly thirty years, with the exception of a brief interval when he went to Alaska to assist William Duncan at New Metlakatla. He leaves behind him two sons and four daughters.

## ABATTOIRS AND COLD STORES AT CRANBROOK

Cranbrook, Sept. 22.—J. H. Frankel, of Pincher Creek, Alta., proposes, provided a trifling amount of concession be afforded him, to erect in Cranbrook an abattoir and cold storage plant at a cost of about \$20,000. The machinery and interior equipment will involve from \$60,000 to \$75,000 additional.

Mr. Frankel has placed his proposition before the mayor and city council in such detail as to enable them to fully appreciate the reasonableness of the grounds on which he asks for the city a concession of two or three acres of land on the prairie convenient to the King Lumber Mills Company's planer and to the C.P.R. tracks, free water and the free use of the city sewerage system for six years from the date of the completion of his concerns.

## INDIAN COMMISSION PAYS SKIDEGATE VISIT

Skidegate, Sept. 13.—On September 13 the village was somewhat taken by surprise when the Queen City, bearing the Indian commission, arrived.

The commissioners outlined the object of their visit.

Written addresses presented and speeches made by members of the band have thrown some light on local conditions.

Thomas Deasy, who for three years has exerted every effort for the advancement of the Indians in his agency, accompanies the commission to Victoria, being the first holiday in three years.

The officers expressed pleasure at the many tokens of advancement to be seen in and about the village.

## RUSSIANS CROSSING BORDER ARE ARRESTED

Seattle, Sept. 22.—Five more Russians charged with violating the immigration laws in coming into this state from British Columbia, were arrested Saturday near Bellingham by Immigration Inspector Fred C. Jenkins and will be brought to Seattle Monday to await trial and possible deportation.

The five Russians, several of the already large number of alien Russians arrested near the international boundary to more than fifty. Three Russians, said to be leaders of the smuggling, are in the King county jail now, awaiting trial on indictments returned by the last federal grand jury.

## BEEF TARIFF MAY REFLECT ON CANADA

Necessity Shown for Government Action Before Meat Prices Become Impossible

Toronto, Sept. 22.—"I think we may yet be forced to call for protection for the Canadian consumer of beef," said the manager of a wholesale meat establishment in the market to the Times representative this afternoon. Much that was interesting had preceded this summing up.

"It is going to be up to Canada very soon," said this man, "to take some steps to protect the Canadian larder. We live beside a country that has a tremendous appetite. The United States could swallow all the herds we have in Canada and still be hungry. What is more, the United States is apparently going to do it. There is such a market there, and they have succeeded so well in selling out their own cattle herds that even to-day in spite of heavy duty against Canadian cattle thousands of head are being taken over and are still being marketed there. That means so much less beef for the Canadian market, but when the United States duty against Canadian cattle is removed, as it is expected to be some time this fall, the only thing that stands between Canada and a great beef shortage will be gone and the beef of Canada will flow to the biggest market just as water flows to the lowest level.

"The American tariff is at present like a low dam in a river. It holds back a certain amount of water so that Canada has at least got enough, though none too much. When the American tariff is removed it will mean the dam is completely swept away, and Canada's whole cattle supply will tend to go to the United States.

"Canadians will have to do without beef or else get the higher prices which Americans are willing to pay for it.

"Canada's beef prices will hereafter be regulated in New York and Chicago. Canadians will have to pay American prices in order to keep their beef at home, except and unless the government will put some sort of a barrier up against exporting of Canadian cattle. Frankly, I think that is what they will have to do. Something will have to be arranged to handicap the export of Canadian cattle to the United States.

"If we don't, Canada will always get the short end of the stick; she will always be in the position of breeding cattle to be taken from Canadian fields as soon as possible and sent to America to fatten and kill, to dress, to pack, to market and to eat. First thing we know the Canadian packing houses will be out of business and Canadians will be eating the packed goods sent to them from the United States unless the duty keeps it out, which I doubt."

## ELOPED TO VICTORIA WANTED FOR BIGAMY

Bush Miller Charged but Meantime Leaves for Argentine Republic.

Seattle, Sept. 22.—Following six weeks search, extending from Seattle to New York City, by government and state officials, the romance of Miss Dorothy M. Meyer, of Seattle, with John "Busch," supposed heir-apparent to the Busch millions of St. Louis, received a cruel setback to-day when the mother, Mrs. J. H. Meyer, swore out a warrant charging her son-in-law with bigamy.

An elopement to Victoria with "Busch," a second marriage in Seattle, June 27, at the request of the mother, a five months' honeymoon abroad, terminating in a bungalow at San Diego, Cal., these were the unusual features of the love affair which at the time attracted wide attention both in this city and elsewhere on the Pacific coast.

Subsequent investigations disclosed information that Mr. and Mrs. "Busch" were on the steamship Titan, bound for Argentine Republic, where the long arm of extradition cannot reach them. The first wife is believed to reside in Portland, Ore. The man's rightful name, instead of being Busch, is said to be Busch Miller.

## HAMEL IS WINNER OF LONDON AERIAL DERBY

London, Sept. 22.—The "aerial Derby," an aeroplane race of ninety-five miles, the course forming a complete circuit of London, was won Saturday by Gus Hamel, a well-known English aviator. There were eleven entries. The race started from the aerodrome at Hendon, the first flying machine leaving at 4 o'clock and the others at intervals of one minute. W. L. Brock, the only American aviator in the race, finished sixth. The other competitors were two Frenchmen, a Swiss and seven Britons. Hamel won \$1,000 and a gold cup valued at \$500.

**INCREASED COST OF REARING CHILDREN**

Chicago, Sept. 22.—The cost of rearing children has advanced 40 per cent within the last ten years, according to the annual report of the Chicago Nursery and Leaf Orphan Asylum. The statement shows that \$101 would maintain a child for a year during the

period from 1894 to 1903; from 1904 to the present year this cost increases to \$140.

A Carload of Health and Happiness.—We have just received a carload of the famous Humbler Beer direct from Bavaria—100 per glass, in superb condition "at The Kaiserhof."

**IMPORTS EMPORIUM FOR DOMINION GOODS**

Proposal to Establish One in England for Perishable Products

(Special Correspondence.)  
 London, Sept. 19.—There is still quietness progressing an agitation in favor of constructing a Colonial Imports Emporium in this country, and although for the moment it does not seem to make much progress, a good deal more will be heard of it. At the same time it affects Canada less than the other Dominions, because it does not send to this country vast quantities of very perishable articles, such as meat, butter, fruit and kindred products. The Australians, and to a lesser degree, the New Zealanders, are mainly affected, and they are still complaining with a good deal of bitterness of the way in which their products are handled, and the unsatisfactory conditions governing their distribution. Take fruit as a type. It arrives at Tilbury by boat, and there it is trans-shipped into the sheds. It is sent up to London by train, no matter the state of the market, and there unloaded into vans. Next it is taken to Covent Garden, and there again unloaded and sold, and once more it is put on the train again and sent to some part of the country. What the Australians want is a large depot at Tilbury to which the wholesale buyer will have to go, and when he has made his purchases he will load the articles on the train and send them direct to their destination. By this means much rehandling will be avoided, better prices will be obtained, and the purchaser will know perfectly well where the colonial imports are to be obtained and to be seen, and the identity of the goods will be as reliable as at present, and their quality will not be deteriorated by so much handling. Obviously, the construction of such an emporium is a big undertaking for one dominion, and therefore the promoters of the idea hope that at any rate some measure of co-operation with Canada will be possible since the reasons are not the same, when in the glut of Antipodean produce in the market Canada would be sending nothing, and vice versa.

For that reason there are several railway projects now under consideration, and one is the establishment of a dock and wharf on Canvey Island, at the mouth of the Thames. Here under the scheme a railway would be built which would be linked up with all the main lines to the various parts of the country, avoiding London altogether. Thus the heavy dock charges of the Port of London would be saved, and the railway freight would be simplified. Such a scheme would of course be fiercely opposed by the Port of London authority which counts on its income from port dues, which are exceedingly heavy. Thus, I sent the invoices this week of two cases sent from Portugal to London; the freight was ten shillings on the two, the port dues and the cost of delivery in the very heart of London each about three and a half times as much.

There are very strong influences behind this railway scheme, but only colonial support can insure its realization, and it might therefore be well worth the while of Canadian ministers to consider whether it is not in their interests to financially and morally support such an innovation. It would probably immensely tend to the popularization of their products.

**JUDGES APPOINTED TO COURTS OF DOMINION**

Ottawa, Sept. 22.—The official announcement of the appointment of Hon. A. E. McPhillips, K. C., to the appeal court bench of British Columbia, as mentioned several days ago, was made Saturday night.

The cabinet has also appointed E. L. Elwood, K.C.V., of Moosemin, Sask., to the supreme court of Saskatchewan, W. C. Fisher, of Allison, Ontario, has been appointed judge of the county court of Dufferin.

**CURRENCY LAW MAY MEAN LONDON BRANCHES**

London, Sept. 22.—Discussing the American currency bill in its financial columns, the Daily Telegraph forecasts a possible invasion of the banking field here by American banks as a result of the clause in the bill providing for the establishment of branches in foreign countries.

"This clause," says the Telegraph, "opens up a very large question and one which may become somewhat embarrassing for London banks now holding very profitable agencies for New York, Chicago and other American banks. Any addition to the keen rivalry already existing would, of course, be unpopular on Lombard street, but the invasion now threatened would be particularly unwelcome, inasmuch as it might be very dislocating and injurious to existing arrangements."

**R. G. FISHER NOMINATED.**

London, Ont., Sept. 22.—R. G. Fisher, barrister of this city, has been nominated by the East Middlesex Liberals as a candidate in the by-elections for the Commons.

Arrangements for staging the special attractions in front of the grand stand are complete, and a varied programme has been arranged for every afternoon.

**HAIR BRUSH BARGAINS**

**HEALTH ASSOCIATION CONVENTION CLOSES**

Pulmonary Tuberculosis Resolution to Be Sent to All Provincial Governments

Regina, Sask., Sept. 22.—With the election of the officers for the coming year, the passage of a number of resolutions dealing with matters of public health affecting the entire Dominion, and the reading of the remaining five addresses of the elaborate programme, the third annual congress of the Canadian Public Health Association, the most successful convention ever held in the city of Regina, was brought to a conclusion on Saturday. Last evening, practically all the visitors had left and the greatest congress in the history of public health work in Canada remained a thing of the past.

A resolution stating that it was the opinion of the Canadian Health Association that advanced cases of pulmonary tuberculosis could be treated in a general hospital without the danger of infection to the other patients, providing the proper arrangements were made, is probably the most important, and a copy will be forwarded to the legislatures of the various provinces asking that provision be made that all hospitals receiving government financial assistance should make provision for the reception of these cases.

It is expected that as a result of this resolution the matter will be actively taken up by the various provinces and better arrangements made for treatment of victims of this disease throughout the entire country.

The following officers were elected: President, Dr. M. M. Seymour, commissioner of public health, Regina; vice-presidents, W. F. C. Page, Vancouver; T. A. Murray, Toronto; Duncan Anderson, Toronto; Prof. T. A. Amyot, Toronto; T. H. Whitlaw, Edmonton; P. B. Tustin, Winnipeg.

**SENDS MESSAGE IN BOTTLE ASKING HELP**

Vancouver Police Seek Information and Friends of John Sheldon.

Vancouver, Sept. 22.—"Stranded on Sand Head on Fraser. Partner lost. Boat capsized. Soon be all in. John Sheldon, Vancouver."

Such is the message scribbled on a crumpled piece of brown paper and found in a bottle yesterday off Prospect Point by J. E. Wallace, of 319 Pender street west, as he was fishing off the point.

The message was placed in the hands of the police, but all efforts made last evening to trace a man by the name of John Sheldon in Vancouver who was missing proved unavailing.

The bottle lends no clue to the mystery, and there is not any address which might be visited. There is no date, and with the message in it the bottle may have floated for weeks or months. The writing is perfectly plain.

The police are seeking information of Sheldon and to learn who was his partner.

**FLIES HEAD DOWN AND THEN LOOPS THE LOOP**

Versailles, France, Sept. 22.—The French aviator, Pegoud, who recently made an upside-down flight, accomplished yesterday another daring feat in his self-imposed task of proving the stability of the aeroplane.

After mounting to a great height, Pegoud dipped the left wing and his machine slowly turned over on its side. The aviator flew for some seconds head downwards. He then gained the upright position by gracefully looping the loop.

Pegoud's hazardous flight was watched with breathless interest by a great crowd.

**OFFICIAL RECOGNITION OF MILITANT DECLINED**

Niagara Falls, Ont., Sept. 22.—The federation of women's clubs of America will give no official recognition to Mrs. Emmeline Pankhurst, the militant suffragette, when she arrives in the United States. This assertion was made by Mrs. C. H. McMahon, of the executive board of the federation, which is now in session here. She is a voter in the state of Utah. "We do not believe in militant methods to gain the ballot," said Mrs. McMahon, "but we do believe in political equality and we sincerely hope the day will come when all women in the United States will have the privilege of the ballot on an equal footing with the men."

**MANY ATTRACTIONS AT NEW WESTMINSTER FAIR**

New Westminster, B.C., Sept. 22.—Many high-class attractions will be seen at the provincial exhibition which will be held in New Westminster from September 30 until October 4 inclusive. Three bands will be in attendance, and there are to be the two Minto cup games, athletic events, the horse show and other features, as well as "Sockeye Run."

Arrangements for staging the special attractions in front of the grand stand are complete, and a varied programme has been arranged for every afternoon.

**THREE OF DESTROYER CREW ARE DROWNED**

Bridgerton, Conn., Sept. 21.—Three of the destroyer States torpedo boat crew were drowned in the harbor late last night, when the tug Sea-boat collided with the destroyer's power cutter, in which four sailors, who had been on shore leave, were returning to the States. Seaman Thompson was saved by the tug's boats. He said the names of his companions were Sheenan, Russell and Chula.

**Smart Suits and Coats for Exhibition Week**

**The New Suits**  
 Most exclusive are "Campbell's" Suits—beautiful creations in Wool Velours, Cut Velour and Broche. Fashion has also favored velvets and plushes. The use of furry trimmings in addition to the vest effects make a very dressy suit and still not too elaborate for street wear. Then come the wide-cut cords, chevots, rough serges, boucles, tweeds, etc., in severely plain or trimmed models.

Suits at \$15.00, \$17.00, \$22.50, \$25.00 and \$35.00. To see the Suits at these prices is to learn how well we can satisfy the woman or miss of moderate means. They are values that are utterly impossible of duplication.

**The New Coats**  
 Such Coats!—but another example of our EXCLUSIVE style offerings, in-the Auto Coats, Street Coats and Traveling Coats the vogue of rough-surfaced fabrics is very marked—Curly Astrachan Cloths, Niggerhead Cloths, Shaggy Chinchillas, and the popular Boucle Cloths. Coats of Black Cloth, Plush or Caracul, also Plushy Zibelines in thick stripe effects. Scores of our Coats are popularly priced from as low as \$12.50 (and smart Coats they are at that price).

Some extremely sweet garments and millinery here for the youngsters.

**Campbell's**

"The Fashion Centre"

Our garments are selected individually and carefully—the commonplace is barred.

**FAIR VISITORS WELCOME**

Once again we welcome you to Victoria and our Annual Fair. We respectfully invite you to inspect the fine exhibition of Home Furniture we are showing in our store at 1420 Douglas street. You will be heartily welcome whether you buy now or not. Our prices are the most reasonable in town and our stock large and well assorted.

**EXHIBITION WEEK SPECIAL**

On all purchases made during this week, in addition to allowing a discount of ten per cent off regular prices for spot cash. We will prepay the freight on all purchases over ten dollars to any point on the V. & S. railway or E. & N. railway.

**SMITH & CHAMPION**  
 1420 Douglas Street "The Better Value Store" Near City Hall

**TUNNEL FIRE STOPS SOUTHERN PACIFIC TRAIN**

Los Angeles, Sept. 22.—Through trains between San Francisco and Los Angeles over the coast lines of the Southern Pacific railroad will be discontinued for several weeks. It was announced today by railroad officials here. The fire in the San Luis Obispo tunnel causes the stoppage of traffic.

This has been virtually the only serious damage done by forest fires which for a fortnight have burned in various parts of Southern California.

Victoria's Latest and Greatest Boom—The delicious creamy Humbler Beer—a new carload just arrived in prime condition. 10c per glass "at The Kaiserhof."

**WAVE OF CRIME IN JEFFERSON COUNTY**

Birmingham, Ala., Sept. 22.—Six persons are dead and a seventh is dying at a hospital here as a result of a wave of crime in Jefferson county, Sunday.

Henry Moran was killed as he stepped from a trolley car in the country by two negroes, who escaped after robbing the body. Macon Colquitt, negro, killed his wife and surrendered, and Mounted Policeman Sorrell killed Dave Evans, a negro, after the latter had shot at him. Two negroes were stabbed to death and another was struck over the head with an axe by an unidentified assailant. A negro woman died of poisoning, and the police suspect she was murdered.

**NEXT TRADES PRESIDENT.**

Ottawa, Ont., Sept. 22.—The next president of the Dominion Trades and Labor Congress will be either Vice-President F. Bancroft, of Toronto, or President J. C. Watters, with chances slightly in favor of the present chief executive being re-elected.

**NEWARK CHAMPIONS.**

Montreal, Que., Sept. 22.—Newark Saturday won the International Baseball League championship of 1913, when they took a double-header from Jersey City, while Rochester was being beaten twice by Toronto. The season finishes to-day. Montreal and Buffalo broke even in a double-header and the former took the second division, with Toronto, last year's champion, in the third place.

THE DAILY TIMES

Published daily (excepting Sunday) by THE TIMES PRINTING & PUBLISHING COMPANY, LIMITED

Offices: Corner Broad and Fort Streets, Victoria, B.C. Telephone 1021

Subscription Rates: Daily—City delivery, 10c per month; By mail (exclusive of city), \$2.50 per annum

Copy for Advertisements: All copy for display advertisements must be at Times office before 5 p.m. of the day previous to the day of insertion

OUR DISTINGUISHED VISITOR: The Right Honorable Herbert Samuel, Postmaster-General in the British cabinet, who will be in the city to-morrow, will long be remembered in company with the Lord Chancellor as the first of His Majesty's advisers to cross the Atlantic while in office

WHAT CANADIANS HAVE DONE: The Colonist on Sunday printed an admirable article on nation building, pointing out something that hardly required demonstration, that with nations as with individuals it is industry that counts

honeyed accents of Sir Richard or the stern admonitions of the Attorney-General to line up the district in the next contest. TALE OF THE PANICS: In a little book recently published in England F. W. Hirst tells with dramatic effect and stinging irony the tale of six war panics. The first three were in 1847, 1857 and 1859, but these were so thoroughly exposed by Mr. Cobden that for a quarter of a century Englishmen refused to be disturbed by the armor-plate press and slept peacefully in their beds

penances of the whole cabinet of Sir Wilfrid Laurier for three years. As a result of the findings or the deductions or the speculations of Sir Oliver Lodge, thousands of sermons have been preached upon the future life. Which is all very well, but if the eminent scientist or theorist were to tell us something about the conditions in the future life, then there would be something of real interest to sermonize upon

STATEMENT ON BY-LAW: Civic Officials Expect to Complete Return Shortly for Approval of Finance Committee. The official statement for the elections on the waterworks by-law, to be voted upon next Thursday week, is now under preparation

ASTRONOMER HERE: Dr. Otto Klotz, Ottawa, Comes to City—Fixed Latitude and Longitude of Victoria. "The man who actually put Victoria on the map"—Dr. Otto Klotz, the Dominion astronomer from Ottawa—arrived in the city Saturday evening and spent the week-end in renewing old acquaintances

DAVID SPENCER, LIMITED: Ladies' Silk Dresses for Home, Street and Reception Wear. WE now have on show in the department on first floor a very smart range of Ladies' Silk Dresses. Some are suitable for home or street wear while others in a more elaborate style are more suitable for reception wear

we have ours. They cannot be the same, because geography, nature, history and associations are against it. Canada's aim is to be a nation within the empire, not a province. Her aspirations are for partnership, not subordination. No Anglo-Saxon people, irrespective of where they stand, can entertain any other objective and retain those qualities which made the empire what it is

TRANSLATED: We congratulate the Honorable A. E. McPhillips, K. C., upon his appointment to the Appeal Court Bench. The announcement did not come in the nature of a surprise, because it was known that he was well in the vanguard of aspirants of whom there was the usual large number

THE NEW YORK STATE AUTHORITIES have not yet got their hands upon Thaw. Technical law has cast its folds around the fugitive in New Hampshire, and will probably hold him for a long time. But that is a small matter. It is a triumph for one of the curses of the United States—legalism

RECEPTION DRESSES: These are in rich satins and brocaded silks, made up in handsome and charming styles. Some in Russian blouse effect with full-cut novelty sleeves, smartly touched up with lace and contrasting shades. The choice colorings and such pretty styles cannot be described on paper

VELVET DRESSES: We are also showing a very smart range of Ladies' Dresses in plain and corduroy velvets. These have Dutch necks with collars of Bulgarian shades and skirts slightly draped or pleated. In colors navy, brown, black and green. A good line at \$20.00

"Shell" Gasoline Purity Means More Mileage.—Dispensed by the Red Sentry at 737 Broughton Street.

Realize the Joy of Living—Partake of the perfectly cooked, delightfully served meals at "The Kaiserhof."

The coming of Kitty Gordon in "The Enchantress" at the Victoria theatre, two nights, starting September 23, is perhaps the most important announcement of the new theatrical season. The piece will introduce Miss Gordon for the first time to the theatregoers of the Pacific coast, and with the much heralded gossip about the Gordon charms, and the fact that "The Enchantress" owns that New York theatre stamp of metropolitan success, the engagement is easily in a position to command the attention of theatricals in these parts for some time. The New York and Chicago critics enthusiastically greeted it as being the best light opera from Victor Herbert's pen, surpassing even his famous "Babes in Toyland," "Milk and Honey" and "The Wizard of the Nile." In short, "The Enchantress" is a genuine light opera, bubbling with humor and wit interspersed with many joyous dances, woven around a love story of the crown prince of mythical kingdom.

Part It, Core it, Slice.—Do it with one operation on the Little Star Apple Parer, corer and slicer. Easy to work and easy to clean. 75c each at R. A. Brown & Co.'s, 1393 Douglas St.

"Shell" Gasoline Purity Means More Mileage.—Dispensed by the Red Sentry at 737 Broughton Street.

Mrs. King will take a limited number of pupils for the study of tone production and singing. For the present time call at room 2, Haynes Bk., Tuesday mornings. Mrs. King is a pupil of Wm. Saal (for ten years with Ifert, Germany) of the old school of Bel Canto.

Baby Car Specialists, 755 Fort St.

Put Your Apple Jelly in the Squat Jelly Glasses. They are a nice size, nice flat shape, slightly rounded on the inside. Tight-fitting tin covers 50c dozen, at R. A. Brown & Co.'s, 1393 Douglas Street.

"When Women Go on the Warpath."—This is a hard one on the men who oppose the women in their effort for reform. You wouldn't believe of the ladies unless you see it with your own eyes on the screen of the Majestic Theatre where it will be demonstrated beyond question to-day and Tuesday. They deprive the men of their trousers. The deacon is a sight to behold and lands in a water barrel. We can't tell you the rest. You want to see it for yourselves, and when you get through laughing you will say it is the funniest ever, and it's dollars to doughnuts you will want to see it again. "A Proposal from the Spanish Don." Being the second story of "Who Will Marry Mary." From Ignorance to Light, is a most pleasing drama. "The Heistage," an unusual picture with true desert scenes and real Arabs. This brilliant programme will unquestionably meet the deserved plaudits of an appreciative public.

Fall Fairs in Interior.—Fall fairs which are being held this week at various points are those at Kelowna, opening to-day, at Salmon Arm, opening to-morrow, and at Kamloops, opening on Wednesday. All are for two days.

Killed by Train.—A white horse, the owner of which is unknown, was struck by the incoming Esquimaux Nansimo train on Saturday evening, and thrown into the ditch near the trestle crossing Herward street. It was half past ten before the animal was found and one of its legs was broken. It was shot by the police.

Was Well Known Here.—News has been received by D. M. Caskill, of Keating, of the death on September 1 at the Royal Infirmary, Edinburgh, of his brother, Murdoch M. Caskill. The deceased had lived in Victoria for the past 12 years, and a year ago returned to Scotland to visit his old home. Death followed pneumonia. Numerous friends in Victoria and the Island will learn with regret of his demise.

More Books Come.—The following books have recently been added to the Booklovers' Library: An Average Man, R. H. Benson; Because of Jane, J. E. Buckrose; The Burden of a Woman, Richard Pryce; The Double Life of Mr. Alfred Burton, Oppenheim; Eldorado, Orczy; Growing Pains, Ivy Low; The Headquarters Recruit, Richard Dehan; Love's Pilgrimage, Upton Sinclair; The Maternity of Harriett Wicken, Mrs. H. Dudeney; Martha-by-the-Day, Julie M. Lippman; The Maiden Manifest, Della Campbell McLeod; Threads of Grey and Gold, Myrtle Reed; Virginia, Ellen Glasgow; The Woman Thou Gavest Me, Hall Caine; A Wanderer in Florence, E. V. Lucas; Widecombe Fair, Eden Philpotts; and The Way of Ambition, Robert Hichens.

Icelandic Club.—The Icelandic Club met on Saturday evening at the home of Mr. and Mrs. C. Sivertz, Denman street, where the members passed a pleasant time with songs, music and impromptu speeches. The occasion was observed in honor of the leaving-taking of one of the members, A. Johnson, who is leaving the city to-day, and will, via Calgary and Edmonton, take an extended tour through the Peace River district. Mr. Johnson's services to the club have been much appreciated, and the expression of good will was shown further by the presentation of a gold pen from the members of the society.

Phoenix Beer, \$1.50 per doz. cts.

Again Remanded.—The charge of making an unnecessary noise while soliciting fares for a trolley, laid against Edward Spilker, was to-day remanded again, this time until Wednesday. The case depends upon the outcome in the appeal cases heard last week in the county court.

Heavy Gun Firing.—The heavy gun firing of the American gun-boats in the Straits of Georgia, was heard again on Saturday and yesterday about 4 o'clock, and many people, particularly in the neighborhood of Beacon Hill and Oak Bay, experienced something in the nature of an earthquake shock.

Broke His Ankle.—Last evening J. F. Callow, head street while running across Florence street in front of mounted Constable Green's horse, tripped and fell, and in so doing he broke the small bone in one of his ankles. The ambulance was called out and Mr. Callow was taken to Dr. Barty's office, where the bone was set, and he was then taken home.

Trial on Wednesday.—Lab Singh, the Hindu who faces trial on a serious charge, has retained counsel, and as he did not have an opportunity to give instructions yet a adjournment was secured this morning. J. S. Brandon appeared and asked that the case be not taken up until Wednesday, and this was agreed to by the city prosecutor, and a remand ordered by the magistrate. Bail was refused when it was asked for, being opposed by the city prosecutor. The man elected for a trial by the magistrate and pleaded not guilty.

Metropolitan Church Brotherhood.—George Bell, president, took the chair at the meeting of the newly-organized Metropolitan Brotherhood which was held yesterday afternoon in the Metropolitan Church schoolroom. The principal feature of the meeting was an address by W. L. Clark, of the Social and Moral Reform League, on "Life's Probation." In this the speaker referred to the necessity of instructing people in matters of physical health, while a part of his address had reference to the White Slave Traffic. About 60 members were present, and some new members were enrolled. Dr. Derby, of the British Peace Society, will speak at next Sunday's meeting.

Gale Blow Yesterday.—In Victoria yesterday the wind reached the gale point at 10.30 a. m., and continued until late at night to blow with a velocity averaging 30 miles per hour. At 4 p. m. the maximum velocity of 35 miles per hour was reached. The storm was confined to the Straits of Juan de Fuca and the Straits of Georgia, and was preceded in the early hours of the morning by a heavy rainfall which, in the space of an hour, registered one-tenth of an inch in Victoria. On the lower mainland 2.2 in. fell during the morning. The storm has left a high barometric pressure all along the Pacific coast, and passed across the province to Alberta and Saskatchewan, causing high winds and rain.

Children's Aid Society.—At the regular meeting of the Children's Aid Society last Wednesday, the secretary reported that over thirty cases of neglect and need had been investigated during the month. Three orphans had been placed in the orphanage, and several foster-parents had been found for others. The superintendent of the Children's Aid Home reported that nineteen children had been cared for during the month, while six others had been given temporary shelter there. Donations during the month had included \$10 from Mrs. Pemberton, for a chute for the playground; a swing from the Belmont Methodist Church League; lumber from the Political Equality League, and \$10 from Hon. W. J. MacDonald for clothing. The new temporary premises, it was reported, would be ready in about six weeks.

The Princess Has Strong Comedy Bill

Farce Comedy has not had a showing at this house for some time, and in returning to it for this week, the management has tried to pick one of the best and most successful. The Two Johns has much to recommend it, first there is an excellent plot to hold it together, then the dialogue and situations instead of being burlesqued, as in so many farce comedies, are made convincing and plausible. The two principal characters, who boast of the very ordinary name John Smith, and who both happen to reside in the same apartment house, is the ground work, on which to string the numerous mistakes, and complications, that makes the piece so irresistibly funny. In the hands of the competent Williams company, it will be sure to please.

VACATION'S HONEYMOON IS O'ER

Lots of serious problems face us as we come back to take up workaday things. The children must be made ready for school.

The house needs brightening up. The winter wardrobe must be provided.

Just now the advertising columns of a live newspaper like THE TIMES are a friend in need.

They are the guide to the very things you want, always saving you time and worry and very frequently saving you money.

Read the advertising today and see how thoroughly the merchants have been anticipating your needs.

They were planning while you were playing.

As now they are telling you their secrets and asking a chance to "show you."

Advertising in live newspapers is a mighty power for personal service—use it.

A LINE O' CHEER EACH DAY O' TH' YEAR

The cargo of my ship, my friend, is love and tenderness.

For all men in distress, Give me your order, and I'll send Your share by wireless.

As for the bill, Just pay it in good-will. Terms, C. O. D. That's good enough for me.

WRITING ON TESTS

Candidates Taking Supplementary Examinations for McGill Matriculation This Week.

The time-table for the supplementary McGill matriculation examinations being held this week at the High School is as follows:

Monday, Sept. 22—Morning, 9-11, English literature; 11-12.30, botany and chemistry. Afternoon, 2.30-4.30, English composition.

Tuesday, Sept. 23—Morning, 9-11, Latin authors, arithmetic; 11-12.30, trigonometry. Afternoon, 2.30-4.30, Latin composition and sight, English grammar.

Wednesday, Sept. 24—Morning, 9-11, algebra, Part 1; 11-1, German grammar, French grammar. Afternoon, 2.30-4.30, French translation, German translation.

Thursday, Sept. 25—Morning, 9-12, geometry, Part 1. Afternoon, 2.30-4.30, history, physics, physiology.

Friday, Sept. 26—Morning, 9-11, algebra, Part 2; Greek authors. Afternoon, 2.30-5, geometry, Part 2; Greek composition and sight.

The students who failed to secure the required pass marks on certain subjects are writing on these tests.

"THE GAMBLERS"

Friends of Miss Felton who admire her in the more serious and intense roles will be interested in her appearance in "The Gamblers," which will be presented by the Allen Players four nights, commencing to-night.

The victim of a loveless marriage, the heroine of this powerful Klein drama finds herself holding the threads that rule the fate of the man she loves, with her heart impulses fighting against the intellect which points out the right and wrong.

Klein's heroines are all splendid examples of the superior modern woman, well able to cope with men in the vital issues of the day, but with no less of that charm which is truly feminine.

HAD A KEEPSAKE

Vagrant Found With a Gold Watch—Case Gives Account of It—Sentenced to Two Months.

Charles Lamond was arrested late on Saturday night on Johnson street by License Inspector Scott, and was charged to-day in police court with being a vagrant, to which he pleaded not guilty.

Inspector Scott said the man loafs around the saloons in that neighborhood at all hours of the day and night and has not done any work for at least three weeks.

Lamond vigorously denied that he was to be considered as one who lived without work, saying that he had done some labor at some time in the remote past. He was questioned by the city prosecutor as to the reason for carrying about a gold watch-case, and he claimed that it had been given to him by a friend two years ago and had been carried by him since as a keepsake. He knew nothing about the attempt to change the number stamped on the inside of the case, he said.

A dice with five dots on two sides in regard to, and told a story about picking it up at the race-track.

A term of two months in jail was ordered by the court.

Commission Claimed.—In county court to-day the case of H. B. Newbold v. Ernest Kennedy was at hearing. Plaintiff claims a commission as architect for the preparation of plans for a house built for Mr. Kennedy, who is managing director of the British Canadian Home Builders, Limited. The defence was that the commission was due by the company, Mr. Kennedy explaining that owing to his connection with the company he had been confronted with the alternative of either appearing to be getting a special privilege as an officer of the company, or putting the company in the apparent position of being unable to build such a house as he desired. He solved this difficulty by putting his own money in the house but having it built through the company, which therefore got its profit. This being so he con-

HARRY K. THAW IN MOTION PICTURES

Close Views of Thaw, Successfully Secured by Pathe Weekly Camera Artist Now Being Shown at Kinemacolor Theatre

The programme to-day at the Kinemacolor theatre opened with Pathe's weekly of world events, on which is being shown interesting views of Harry K. Thaw in the little town of Sherbrooke, Quebec, which has been stirred as never before by his arrest and detention there since his escape from Mattewan.

A powerful Kalem feature in two reels follows on the programme, entitled "The Sacrifice at The Spillway." The story in part shows us where Curtis, the overbearing captain of a canal boat who tires of his sweetheart, Martha, and forces his attentions upon Sal. Sal, however, has given her heart to Bob, one of the loaders, who thus incurs the enmity of the captain. The two men meet with an encounter which leads to the dismissal of Curtis and Bob becomes captain in his place.

The plane house containing the mechanism controlling a cable in the canal is situated at the top of the spillway, through which the overflow from the flume rushes in a miniature Niagara. Curtis, overpowers Ryan, the plane tender, and pulls the lever which will wreck Bob's boat. Sal interferes, but not in time to prevent Bob from being injured. Bob manages to make his way to the plane house and is attacked by Curtis, who forces him toward the rushing waters.

Struggling upon but a thread of life, one mis-step that would mean death to either or to both, and plunge them to eternity—it is a moment of keen suspense. At that trying moment, Martha arrives and knowing well the great danger, she makes a sacrifice that only a woman could make, bringing to justice the tyrannical Curtis, the one who could not comprehend the right ways of life.

Beautiful views of Niagara Falls are given in Kinemacolor, as is also "The Tulip Study" and the programme is brought to a close with a splendid Keystone comedy entitled, "Fatty's Day Off."

YOUR HAIR NEEDS PARISIAN SAGE

Use It As a Dressing—Banish Dandruff—Stop Falling Hair and Scalp Itch.

PARISIAN Sage, the delightful and invigorating hair tonic, is a true hair nourisher. It penetrates into the scalp, gets to the roots of the hair, kills the dandruff germs, and supplies the hair with just the kind of nourishment it needs to make it grow abundantly.

Since its introduction into Canada PARISIAN Sage has had an immense sale, and here are the reasons:

It does not contain poisonous sugar of lead, nitrate of silver or sulphur or any injurious ingredient.

It cures dandruff in two weeks, by killing the dandruff germ.

It stops falling hair.

It promptly stops itching of the scalp.

It makes the hair soft, glossy and luxuriant.

It gives life and beauty to the hair. It is not sticky or greasy. It is the daintiest perfumed hair tonic made.

It is the best, the most pleasant and invigorating hair dressing made. Made only in Canada, by the E. J. Booth Co., Ltd., Fort Erie, Ont. The price is only 60 cents at drug stores and counters where toilet goods are sold. D. E. Campbell guarantees it.

OSAKA LINERS CLEAR; SEPARATED BY A DAY

Local Agents Received Advice To-day That Canada and Tacoma Are on Way

With only one day separating them the two Osaka Shosen Kaisha liners, Tacoma Maru, Capt. Hamada, and Canada Maru, Capt. Hori, are now on their way across the Pacific, according to advice received by R. P. Rithet & Co., this morning from the Orient. Although the two ships are steaming so close together there is little possibility of a race, as it costs money to drive these liners and the Japanese company is not over-anxious to spend any just for the sake of providing a little excitement for shipping men on this side of the pond. It is likely that the Canada may cut a day off her time, owing to the fact that she is two weeks late, but the Tacoma will come along at her ordinary speed.

The advice received stated that the Tacoma was the first ship to get away from Yokohama, having cleared from that port on Wednesday last. She has 250 tons of cargo for this port, but has only three Chinese for disembarkation here. The Canada Maru left Yokohama on Thursday and has only 100 tons to discharge here and there are 16 steerage passengers to get off. The Tacoma is looked for on October 2 and the Canada the following day.

The Canada has fallen far behind her schedule owing to her detention at Kobe by the quarantine officials. Nothing has been received on this side of the Pacific as to what was the nature of the infectious disease discovered on the Japanese liner.

Monteagle Not Reported. The wireless stations failed to get in communication with the R. M. S. Monteagle, Capt. Dayson, last night. The C. P. R. liner is due from Hongkong on Wednesday and it was expected that the coast operators would have heard the ship working after midnight Sunday.

To-morrow the Nippon liner Shidzuoka Maru, Capt. Iriawa, sails for the Orient; and the following day the Tacoma Maru, Capt. Taranaka, of the same line, will arrive from the Far East.

PREPARING FOR RUSH FROM ALASKA POINTS

Seattle, Sept. 22.—With the near approach of the close of the season of navigation in Behring Sea, officials of the Alaska and Pacific Coast steamship companies are planning to handle the great exodus of mining men, dredge operators and employees of the Northern Navigation Company and Northern Commercial Company who will come out of the Far North for the winter.

The steamer Northwestern, which has been plying in the Southeastern and Southwestern Alaska trade during the summer, will be dispatched from Seattle by the Alaska R. S. Co. October 1, supplementing the service of the steamship Victoria from this port to Behring Sea.

The steamship Victoria, now on her way to Seattle from Nome and St. Michael, is expected to reach Pier 2 to-morrow morning. She will sail on her return voyage to Behring Sea at 10 a. m. on Thursday, September 18.

While at St. Michael the Victoria encountered a considerable heavy weather, which delayed her at port nine days. As the vessel's cargo is discharged on barges at St. Michael it does not require much of a blow to retard the unloading and landing of shipments.

The Victoria will be the last vessel from Seattle this year for Behring Sea, sailing from Pier 2 at 10 a. m., October 18, and calling at Nome only. She also will be the last vessel out of Behring Sea this year, being scheduled to sail from Nome October 29; and to reach Seattle November 6. The Northwestern is scheduled to sail from St. Michael October 12, and from Nome October 13, arriving in Seattle October 21.

The steamship Senator of the Pacific Coast S. S. Co., now in the Far North, will sail from Seattle for Nome on October 20 on her last voyage this year to Behring Sea.

SETS GEAR IN NEW WAY AND GETS BIG CATCH

TRAWLER JAMES CARRUTHERS

Which is back at Rupert after testing the Old Country methods of working skates.

OLD COUNTRY STYLE PROVES SUCCESSFUL

Carruthers Goes Out in Rough Weather Without Dories; Gets Big Catch

While all the other boats of the northern fishing fleet were forced to seek shelter from the heavy weather prevalent off the Hecate Strait banks, the trawler James Carruthers, Capt. Knightall, put to sea and caught 100,000 pounds of fish. The former Grimsby fisherman returned to Prince Rupert with her record catch for this season of the year just before the G. T. P. steamer Prince George, Capt. Donald, left for Victoria. According to the master of the George, when seen this morning, the new method of fishing which is employed on the Carruthers will probably revolutionize the business on this coast.

When the terrific southeast gales practically put to an end fishing on this coast for a few weeks, Capt. Knightall decided to try out the English way of setting the gear. It was to be an experiment. Cruises were not very profitable then, and the owners, the Canadian Fish & Cold Storage Company, gave him permission to go ahead. The trawling system was found to be useless on this coast owing to the nature of the sea-bed so most of the vessels old country boats were equipped with dories, the method in vogue among fishing men on this coast.

By the new method the trawlers can put to sea and fish in almost any kind of weather. In the case of the other fishing boats which have dories they can only work on the banks when the weather is fine, owing to the fact that the dories will not live in a very heavy sea. Following the success of the Carruthers in making such a fine haul with bad weather prevailing throughout it is thought that the other fishing companies will change their vessels.

If the change is carried out the demand for fishermen on this coast will not be so great. With 40 skates of gear set, which will cover between 10 and 15 miles, only ten men are required, which is about half the number engaged on a dory-fisherman.

Work in Any Weather. The new method of the trawlers can put to sea and fish in almost any kind of weather. In the case of the other fishing boats which have dories they can only work on the banks when the weather is fine, owing to the fact that the dories will not live in a very heavy sea.

The Alliance does not carry much canvas, but as long as the wind is fair she can make good progress. Fortunately for all hands the wind was from W. S. W., and it held at that quarter until yesterday afternoon, when it hauled around to the S. W. and blew hard. The Alliance was 38 hours coming from Clayoquot. The fishermen say that if the wind had shifted to the S. E. their craft would undoubtedly have been blown on the rocks of Vancouver Island.

The Alliance will be repaired and sent to sea as soon as possible.

The oil tanker Roma, with the barge Erskine M. Phelps in tow, passed here at 10.30 o'clock, bound for Vancouver, laden with oil.

Portland, Ore., Sept. 22.—Rates for transporting wheat and flour from Puget Sound to the Orient in November and December on the regular trans-Pacific lines have been fixed by the operators at \$4 a ton to Japanese ports, \$5 a ton to Hongkong and \$5.50 a ton to Shanghai and Manila. This is an increase of 50 cents a ton over the present tariff. Advice of the increase were received this morning by the local agents of the Hamburg-American and Royal Mail lines.

ENTERS PACIFIC FOR FIRST TIME IN LIFE

Capt. Goldman, of Huntsman, Given Warm Reception by Wind and Wave

Capt. Goldman, master of the fine Harrison liner Huntsman, which berthed at the outer docks this morning from the United Kingdom, has made his first voyage on the Pacific ocean. Although this gray-haired skipper has been to sea for about 35 years he never rounded Cape Horn in a sailing ship and prior to being dispatched to this coast in the Huntsman he never steamed through the Strait of Magellan.

Capt. Goldman was given a warm reception by the old Pacific when the Huntsman poked her nose out around Cape Pillar. A westerly hurricane struck the big four-master and the great seas which were running nearly mountain high tossed the Huntsman about in a most undignified manner. The vessel had considerable cargo stowed below which held her deep in the water and many great seas battered their way on board. The Huntsman was quite close to the comb as she plunged forward. The hurricane blew at terrific force for some time and the wind did not blow itself out until the Huntsman had nearly reached the latitude of Coronel.

The vessel had considerable cargo stowed below which held her deep in the water and many great seas battered their way on board. The Huntsman was quite close to the comb as she plunged forward. The hurricane blew at terrific force for some time and the wind did not blow itself out until the Huntsman had nearly reached the latitude of Coronel.

The vessel had considerable cargo stowed below which held her deep in the water and many great seas battered their way on board. The Huntsman was quite close to the comb as she plunged forward. The hurricane blew at terrific force for some time and the wind did not blow itself out until the Huntsman had nearly reached the latitude of Coronel.

NOVA SCOTIA-BUILT SHIPS HAVE RECORDS

Blue Ribbon List Shows That Blue-Nosed Mariners Have Done Well on High Seas

Whenever a crowd of old seamen gather around in a snug little office in this city and start to talk about fast passages, it is peculiar, but nevertheless, a fact, that very seldom the remarkable performances of some of the ships and barques turned out from Nova Scotia shipyards are mentioned. There are a great many blue-nosed skippers in this part of the globe, but they practically never land up the products of their own province. It is true that the Nova Scotia windjammer fleet was not large in the best of its days, but at the same time the white-winged sailers built there have made passages that have never been equalled.

The windjammers owned in the eastern province very seldom found their way around Cape Horn to the coast, confining their operations to the Atlantic and Indian oceans and the China seas. When in their prime these fine ships were among the best afloat, and a glance through the book of records shows that the following fast passages were made:

Ten 30 Days' Passages. The barque J. F. Whitney, launched in 1872, commanded by Captain George Spicer, in ten consecutive passages from Europe to New York, made the splendid average of 30 days to a passage—surely a great performance.

The barque Cypress, sailed by Capt. Raymond Parker, made five round voyages from New York to Europe and back in twelve months, beginning in the summer of 1877. That record stands unequalled.

The barque Scotland, sailed by the late Captain William Munroe, made the round voyage from New York to London and back with a cargo both ways, in 60 days. This is believed to stand as the fastest time ever made by a ship of her size (she was 1,900 tons) between these two ports.

The barque Bolt, at that time commanded by the late Capt. Vid Munroe, discharged her pilot at the Isle of Wight, and 15 days afterwards passed Sandy Hook. The four-masted barque Howard D. Troop, commanded by Capt. R. Parker (the man who was in the Cypress) made the passage from Glasgow to Sandy Hook in 15 days. Both the last passages were done in the winter and therefore the more remarkable.

A small brigantine called the Marcella, sailed by Capt. Dan MacEachern, in the space of three years made 27 voyages to the West Indies, including two voyages to Demerara.

The local stevedores are working considerable cargo on the Huntsman. She has 42 tons of general European merchandise for Victoria and while several gangs of longshoremen are engaged in putting this off on to the dock, a large number of cargo-workers are stowing a big shipment of lumber, which is being hoisted aboard from scows. It is not expected that the Huntsman will get away from here for Vancouver until Wednesday morning.

ALGERINE FOR RANGE

This morning at 7 o'clock the British sloop-of-war Algerine, Commander Brooker, left Victoria for Comox to carry out her annual gun practice. She will return about October 7 and go on dry-dock for overhauling.

Phone 894 for Good Millwood. \*3.00 double load. \*1.50 single load.

HURONIC IS OVERDUE

Fort William, Sept. 22.—The Soo wireless station has sent word that it has been unable to get into touch with the big Northern Navigation passenger steamer Huronic, overdue at the Soo. The station here has been also unsuccessful in attempts to get in touch with the ship. Little apprehension is felt for the boat's safety as the craft is said to be an excellent rough weather ship. She was in shelter yesterday off Jackfish, about 200 miles from here. She reported here upon leaving there yesterday afternoon when the wind had temporarily gone down.

No one but the purser on board knows the number of passengers, estimated at anywhere between 50 and 100 with a crew of 35. The steamer left Saturday bound for Fargo.

GEORGE BRINGS SHIPMENT OF ORE FROM STEWART

Bringing south the first shipment of ore to be dispatched for some time by the Portland Canal Mining Company, the G. T. P. steamer Prince George, Capt. Donald, reached port yesterday morning from Stewart and Prince Rupert. The ore was taken to Seattle and is to be assayed.

Fine weather was encountered by the George during the run down, not so much as a drop of rain nor a gust of wind being felt.

The Prince George left this morning for the north and had a large number of Indians for the Masset and Skidegate and the Skeena and Nass Rivers reservations, who have been in the State of Washington for some weeks picking hops. Among the passengers who embarked here were the following: R. E. Benedict, F. S. Holliday, W. M. Holliday, D. L. MacLaurin, Harry Hanson, Mr. and Mrs. J. M. Adams, C. G. McLean and Hon. J. Gordon, an Englishman. He is accompanied by his two daughters and will make the round trip to Stewart on the George.

The Latest and Most Improved Devices for Home Service and Comfort Will Be Shown on Our Stand in the Main Building, Also at Our Store

## STEEL RANGES, GAS RANGES AND HEATERS THAT WE ARE PROUD TO BE SHOWING

### Weiler's Steel Ranges for Soft Coal and Wood

Examine this Range and you will find that every detail of construction has had thorough attention and is finished in a most exacting manner. The most exacting you are the closer you investigate the merits of this line of Ranges, the more you will appreciate them.

Built to meet local fuel conditions exactly and is therefore most economical in fuel consumption.

**Sanitary**—Because every part is so constructed that cleaning is easily accomplished. The white enamel oven is a treat, and all the nickel parts are of a superior quality.

**Reliable**—Good cooking conditions to be obtained at all times. The oven is ventilated with fresh heated air, and prevents "drying out."

You'll find that our prices will compare favorably with any other range on the market.

### Weiler's Gas Ranges Grow in Popularity

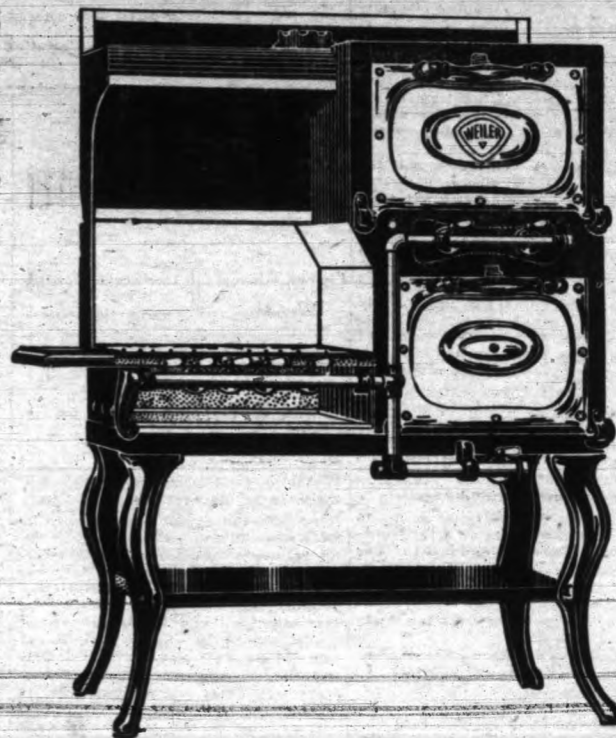

Every day we give practical demonstrations of the value of these Ranges, and it will be no trouble to show you the many features that make it the most satisfactory gas range on the market.

We connect all our ranges with the gas mains free of charge.

**Economical** because the cast iron mixers are constructed so that the flow of air is absolutely under your control. Actual tests have proven that Weiler's Ranges save from 10 per cent to 40 per cent of the gas consumed by any other range.

**Sanitary** because every part is easily removed and readily cleaned. The white enamel lined oven, shelves, tray and back of ranges are as easy to keep clean as dishes.

**Cabinet Styles Range up From \$57.50**  
**Other Excellent Models Start as Low as \$20.00**

**Our Heaters** Are built with the same degree of care as is exercised in the building of the "Weiler Ranges." We have absolute confidence in them and one glance over the models shown at the exhibition will convince you that they are second to none in appearance. A closer examination will satisfy you that for thorough workmanship and scientific construction they cannot be equalled at the price.

### Luxurious Easy Chairs and Lounges Built to Order

Our Upholstery department will give you a practical exhibition of the thorough manner in which our Chairs and Lounges are made. Notice how clean and nice the materials are, the strength of the frames, and the exacting manner in which every detail is carried out.

We have a fine showing of finished furniture on the third floor of our store and will be

glad to have you call and see them.

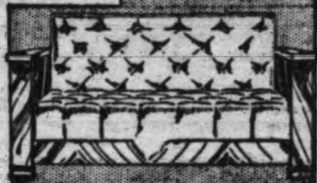

**SPECIAL DESIGNS PREPARED AND ESTIMATES GIVEN FREE OF CHARGE—CLUBROOM WORK A SPECIALTY**

### Making Loose Covers, Curtains and Special Draperies Is a Very Important Branch of Our Business

We employ a large and well-trained staff of men and women to take care of any possible demand that can be made on a modern upholstery factory.

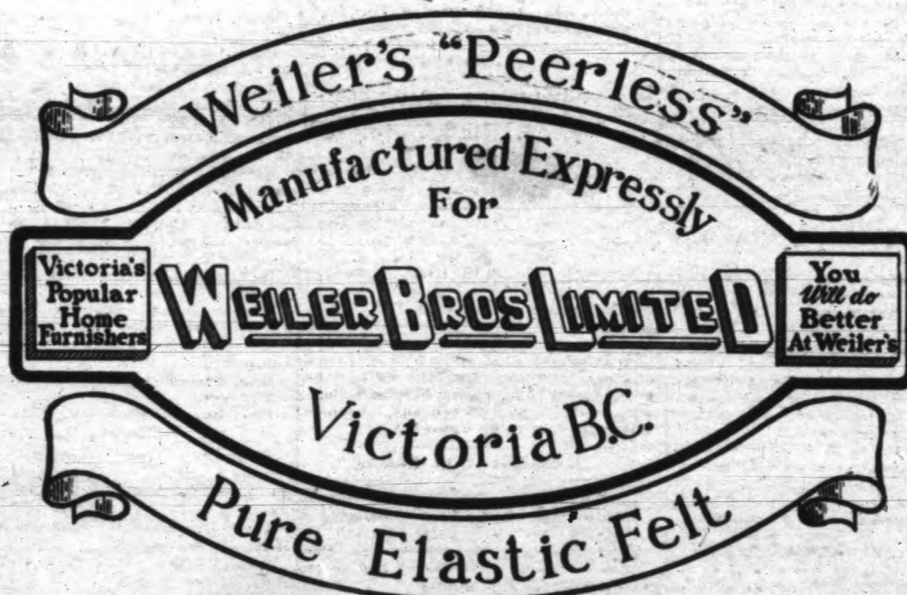

From our immense stock of materials you should find it an easy matter to find something that will fit your purpose exactly, and our specialists on interior decoration will be pleased to help you to secure the most pleasing harmony in patterns, color combinations and styles.

Estimates and all other service goes free, and you'll find our charges for work and materials to be most reasonable.

### Introducing a New Line of Hygienic Mattresses

Here's a Reproduction of the Label

Not being entirely satisfied with the popular priced mattresses already on the market, we have had specially prepared for us the "Weiler's Peerless," "Weiler's Empress" and "Weiler's Premier." These mattresses are made of the finest purified cotton felt, are perfectly sanitary, will not go lumpy and will remain as comfortable as a new mattress for many a year.

**ARE MADE IN VICTORIA**

And the manufacturer is held strictly to our exacting specifications.

Remember that we back every mattress that we sell with our reputation and guarantee absolute satisfaction. If any mattress should fall short of what we represent it to be we will replace it.

See the Materials They're Made of and Be Convinced

	4ft. 6in.	4ft.	3ft. 6in.	3ft.	2ft. 6in.
"Weiler's Peerless" .....	\$12.00	\$12.00	\$11.00	\$10.00	\$9.00
"Weiler's Empress" .....	10.00	10.00	9.00	8.00	7.00
"Weiler's Premier" .....	9.00	9.00	8.00	7.00	6.00

### Window Shades Made to Order

Nothing like having your window shades made to your special order.

They harmonize with the decorative scheme of your home, look the part they are intended to play, give longer and better service than the ready-made style and cost only a trifle more.

May we give you an estimate for shades for your home?

All colors of cloth are here to choose from, also a fine line of trimmings.

### The Victoria Potato Peeler—A Machine Well Worth Seeing

This household size will peel sufficient potatoes for ten people in three minutes and peel them with much less waste than is possible by hand.

No necessity to touch the hands to the potatoes until they are ready to be removed from the machine.

Just think what time it would save for you, besides doing away with a very unpleasant job. Price, only \$8.00.

### Your Carpet Problems Easily Solved

No matter what your station in life may be, you will find a large assortment of beautiful carpets here that will suit your purpose exactly.

We give a cash discount of ten per cent for cash and are pleased to arrange terms to make it easy for our customers to have the benefit of a good carpet.

## SPLendid RACING FEATURES OPENING OF WILLOWS TRACK

**Long Shot Uncovered in First Race; Palatable Captures Third on Card; Big Crowd on Hand.**

It was a regular racing crowd that backed the grand stand and enclosure at the Willows on Saturday for the inaugural of Victoria's fall racing season. Over three thousand enthusiasts were on hand for the opening and the thoroughbreds were given a very warm reception. Splendid weather favored the association, and the big crowd helped matters along. All classes and ages were on hand, the races being of the finest order throughout the entire programme. Several surprises were uncovered, but in the majority of cases the well-backed "ponies" romped home in front.

**Track in Fine Shape.**  
The track was in the finest possible condition for the meet, while every stall on the track held its highly-strung occupant. The association broke all records in the matter of entries, and no expense had been spared to make the meet one that would eclipse all previous efforts. The very cream of the racing animals of the Northwest had been secured, and with \$2,500 in purses hung up daily, with a couple of added stakes, there were rich rewards in sight of all. The stand was nicely decorated for the opening, while the dress display added to the scene. Scores of automobiles lined the outer rails of the track.

**Bummer III Lands.**  
The surprises started with the first race when Bummer III, a well-raced veteran, landed first money, the machine giving better than 15 to 1 to those who held tickets on this animal. Abihu and Tom Chapman were the split favorites, the latter getting second money, while Abihu just lasted for third position. Abihu broke first, but

was beaten in the final drive, Bummer III coming up on the outside to win by a length. There were a dozen starters. Mary Emily, in the fifth event of the day, was another long-priced mare to land in front. Phillistina and Gayety Pallen were favored by the talent, with Alder Gulch also heavily backed. Eight faced the barrier and Mary Emily got away in front, to stay. Gayety Pallen was back in the ruck for half the distance, Alder Gulch furnishing the contention up to the stretch. McDonald let Gayety Pallen out a few feet, but the Little Horse of Iron was unable to make the grade, being beaten by a step in 1:23 1/4. Phillistina was closed off coming into the stretch and could only land third money. Dotty paid big money in the sixth race, defeating the favorite Buck Thomas in easy fashion. The latter failed to show anything and was a poor fifth, while Pride of Lismore and Little Jake finished in order named. There were but six starters and Dotty secured a running start. She rounded the turn three lengths to the lead and finished galloping. The time was but two-fifths of a second off the track record for the distance, so that this mare looks ripe for a bunch of good races.

**Favorites Shut Off.**  
Frank Risk's bad acting Ed. G. was a very meek animal when he broke from the barrier on Saturday with a clear lead on the field. Binocular was the popular choice to win, with Ed. G. as an outside possibility. There were ten starters and Binocular got away to a bad start, having to round the big field before squaring away for home. Whip S. and Brack Brenta, old Victoria favorites, were also shut off, and Ed. G. had little opposition until the stretch, where he was able to stall off the spirited finish of Jonathan. Binocular managed to land show money by a head from Hal Worth. The talent were given another scare in the final race of the day, when Jack Lawson led all the way to the last turn, when Chief Desmond, the favorite, went into the lead to win. Lawson would have

drawn down the biggest price of the day, but he could not do better than second. Eddie Mott, another fancied gelding, was third, with Otto nosing out The Monk for fifth place. Otto acted bad at the start and held up the field for five minutes, killing his own chances to win by bucking when the gate was sprung.

**Palatable's Nice Win.**  
There were a number of good "tips" in the third race, but Palatable ran true to form and was never in trouble. Miss Sly, Mark Kennedy, Safranor and Chilton Trance were all heavily played, but the Davies entry was too good for the field. Pickens piloted Palatable through to an early lead, with Safranor in close attendance. Mark Kennedy was close up, but the leaders had too much left in the stretch and drew away. Masalo was third to Palatable and Safranor in order named, the time being very fast for such a large field. Zenotek won all the way in the seventh race, though Katty Connor led for part of the distance and had a show. The latter weakened towards the final brush and had all she could do to stall off the strong finish of Camia. Zenotek went to the post a favorite over Ancestors and Katty Connor. Camia was well played, but Taylor delayed his sprint until too late to land in the money. Ancestors ran a nice race, making Zenotek step the entire distance.

**Large Field in Fifth.**  
There was no doubt about Adena's win in the second event, with Lambertha and Meada in close attendance. The Britten mare forged to the front in the stretch sprint in a manner that left no room for argument. Pickens rode a splendid race and his backers won a pot of money on this victory. Fredwell and Meada got away with the lead, and the finish brought the crowd to its feet, with Adena having a scant margin at the wire, due to a grand sprint at the end. There was a field of eleven, and it took some tall plugging to work through the bunch.

In not a single race was the starting bad, Eddie Tribe getting away in fine shape. Indeed, there was only one bad actor in the eight races and that was Otto in the final event, this animal causing no end of trouble.

**Officials—**S. S. McGibben, president; J. A. Fullerton, associate judge; E. Tribe, starter; P. Reilly, clerk of the scales; R. F. Leighton, racing secretary.

## OAK BAY TEAM FOR THE CUP GAMES

**Angy McInnis Will Play; Club Leaves To-morrow Night for Terminal City**

It has been decided to include Angy McInnis in the line-up of the Oak Bay team that will play the Vancouver Athletic Club at the Terminal City on Wednesday and Saturday for the Mann cup. Boss Johnson has not formally announced the line-up that he will send into the game against the present cup-holders, but McInnis will play if it is at all possible to have him on the team. A meeting will be held to-night at which the final arrangements will be made and the team definitely selected for the cup games.

Following is a probable line-up for Wednesday's match:  
Mederidge, goal; E. Macdonald, point; Redgrave, cover; Knox, first defence; Mather, second defence; McKay, third defence; Heasley, centre; Taylor, third home; McInnis, second home; Williams, first home; Dempster, outside; C. Macdonald, inside. Spares: Tuohy, Redgrave, Bob, McInnis, and Menzies.

New Westminster, Sept. 22.—Two Minto cup lacrosse games will be played at Queen's park during Exhibition week, September 30 until October 4, inclusive, and the world-famous Salmon bellies will once more defend their title. This time the contenders are the Vancouver Athletic Club, who entered the "pro" ranks this season, and who have already one victory over the champions to their credit.

The first game will be played on September 30, the opening day of the fair, and the second game on October 4.

## THE COLTS TEAM IS NOW SELECTED

**Representative Cricketers to Meet Australian Eleven on Friday and Saturday**

Fourteen aspirants for the honor of playing against the Australians played a fairly strong team Saturday. In order that Captain Hayward might obtain some idea as to their batting and fielding capabilities a time limit was set on their batting. Consequently, for all to bat it was necessary for them to disregard ordinary tactics. Their total of 85, therefore, was made under forced conditions.

**Bowlers Look Good.**  
Their best bowlers seemed to have the seniors at their mercy, as wickets fell so rapidly. The object of the game, however, was to see what material was available, hence the bowling was frequently changed. Notwithstanding these conditions, including the absence of many of the best colts, the senior XI won only by ten runs.

After the game an incident transpired for which the boys should be highly commended, although it only emphasizes the all-round recognized virtues of cricket. The age limit having been raised and thirteen colts, having been notified of their selection under the former ruling, the boys present, without exception, asked the committee to annul "the former selection."

**Probable Team.**  
A committee of four colts and Captain Hayward, then selected the following as members of the team, the endeavor being made to give all districts and schools representation. As two substitutes are necessary the selection leaves six places to be filled: H. E. Hayward (captain), Cowichan C. C.; D. Carr-Hilton, Cowichan C. C.; M. H. Finlayson, Cowichan C. C.; A. F. Hudson, University School; H. Hudson, University School; C. Kilpatrick, University School; H. W. Dobbie, University School; D. Fisher, Albion C. C.; D. W. Milne, Albion C. C.; D. Grant, Albion C. C.; E. W. O. Carew, Martin, Victoria C. C.; T. Gallher, Victoria C. C.; Albert Lea, Men's Own C. C.; H. L. Robinson, Oak Bay C. C.; T. Howland, Oak Bay C. C.; L. E. Warnicke, High School; Wallington, Garrison C. C.

The scores: H. Hudson defeated S. Foulkes, 6-1, 6-3. Miss Eva Ross defeated Miss Marjorie Tennant, 6-4, 2-4, 6-3.

## VANCOUVER ELEVEN EASY FOR TOURISTS

Vancouver, Sept. 22.—The Australian cricketers, playing against Vancouver at Brockton Point, Saturday ran up a score of 265, defeating the locals, who made 81 and 64, by an innings and 249 runs. Macartney made a century and Crawford 55 before being retired. In Vancouver's second innings these two members of the Australian team bowled unchanged, their respective averages coming at 4 and 4.75. In the first innings Collins and Cody also had fine averages.

Macartney and Crawford gave a splendid exhibition, both in batting and bowling. In Macartney's century were included three 5's and thirteen 4's, the Australians' totals being accumulated in little over two hours and a half, which showed very rapid scoring.

In Vancouver's first easy Caldwell was top scorer with 13. Mr. "Extras" being the only other double scorer. In their second innings Ivamy played well and topped the score with 21.

**ALBIONS LOST.**  
Albion cricketers attempted to bat and field left-handed against a team of ladies at Beacon Hill on Saturday afternoon, and were defeated by six wickets and 29 runs. Miss Little and Miss Hudson were high bats of the day.

## THE EXHIBITION is a good place to wear your new Fall Suit

For the first time. And if you back up the impression you create by wearing a new style Hat, smart Shirt and Neckwear, you'll establish yourself as a man who knows how to dress well.

There's another good reason for getting the suit now instead of a week or so hence. Our Fall display is full of new models, new materials. Each time we sell a suit, your range of choice is restricted by one—very possibly the one you would have liked.

Don't think because you take an unusual size that you have to be measured. That's a mistake many men made before they tried us once. You may also require a Grey Lama Chesterfield Overcoat, silk-lined, or possibly a Nicholson Raincoat in a tweed or zambrane to ensure comfort.

\$15, \$20, \$25, \$30, \$35

See Our Window Display

and judge of the style you get at these low prices.

## REMARKED ON THE SIDE

**Neither McGraw nor Mack Can Now Be Beaten.**  
Cleveland lost its chance to pull down Connie Mack's lead when Washington started its long climb to the rag, and right there the contenders for the American League honors handed the gonfalon to the Mackmen. Manager Mack immediately proceeded to grab off a few games and is now firmly entrenched in first place. The same might be said of McGraw. The Giants were slipping but were bolstered in first place when the Cubs and Phillies started to maul each other. McGraw is depending a great deal upon his pitchers to win this year's world championship, and from the manner in which the Athletic club artists are performing, there is every chance of the Giants copying the honors. Superior batting and fielding may help, but the boxmen usually tell the tale in a short series.

**Vardon's Sportsmanlike Admission.**  
In the scenes of wild enthusiasm that marked the winning of the open title of the United States by Francois Outmet, of Brookline, Mass., Harry Vardon came to the fore with a particularly sportsmanlike statement of the young phenomenon's victory. Vardon said that neither he nor Ray had a chance to win against the wonderful playing of the American youth. Outmet showed magnificent nerve towards the close, while Vardon and Ray grew careless. There was only one thing that marred the victory of the home-brew. The English veterans were interfered with time after time by the continued cheering of the large gallery that followed the match. Ray, upon one occasion, refused to play a shot until the cheering had subsided. Over eight thousand followed the trio in the final round, a record crowd for golf in America.

## CLOSE CONTESTS FOR B. C. TITLES

Harold Hudson and Miss Eva Ross are the new junior tennis champions of British Columbia, as a result of Saturday's games for the Charles Edward Pookey cups and medals. A large number of spectators were on hand for the finals, and the youngsters showed some magnificent tennis. Hudson won in straight sets from the former titleholder, Master S. Foulkes, while Miss Ross took the championship away from Miss Marjorie Tennant after an exciting final, this match going into an extra set. The prizes were presented by Mrs. Porteus Foulkes, each of the competitors receiving an award in addition to the Charles Edward Pookey cups, which went to the winners of the championships. Tea was served on the grounds.

The scores: H. Hudson defeated S. Foulkes, 6-1, 6-3. Miss Eva Ross defeated Miss Marjorie Tennant, 6-4, 2-4, 6-3.

## SENIOR SOCCER CLUBS ARE BUSY

Week End Practises of Local Elevens; Many Players in Uniform

Every senior club in Victoria had its players out either Saturday or yesterday, and the teams are rapidly rounding into shape for the opening of the local season on October 4. At North Ward Park, the blue and white football squad had three teams busy all Saturday afternoon, the seniors having the majority of the Old Victoria team in uniform, while there were many new faces in the junior and intermediate teams that were lined up. The Wards intend making a big bid for the triple crown this year, and will be the chief opposition that the Wests will encounter in this year's series.

**West's Big Turnout.**  
Jack Youson had forty players in uniform at the Work Point Barracks grounds, and he was immensely pleased at the manner in which the men dispersed themselves. Youson realizes that he will find the other clubs much stronger this year, and he is not losing any time in whipping the champions into shape. He will have every member of last year's team with him again, while he will have a couple of newcomers who have Old Country reputations behind them. Sam Lorimer and Jack Fletcher are saying little as regards the chances of the James Bay team and the Sons of England eleven, but the soccer fans look for surprises from the second division clubs of last year. The Thistles are also going ahead quietly with their organization, while the Hibernians have been almost a mystery to date. Dave Dougan, who is leading the Harps, however, has enough veterans on his club to promise even the Wests a close run for the honors. The Hibernians were out yesterday morning in full force, at the Royal Athletic Park, taking possession of the baseball club's rooms.

**James Bays and the Sons of England** played a practice match Saturday afternoon at Beacon Hill, the spectators being treated to a nice display of early season football. The men lacked condition, but this they made up in willingness. Another workout was the

If the Hat's worth having—We have it. If we have it—the Hat's worth having.

The Hat of Hats The Velour

In every knot of business men discussing big deals in every city of the world, you'll be sure to see this distinctively smart Hat. They're made in far-away Vienna but the big men everywhere will have them.

They're more than smart to look at. There's the same pleasure in the touch of velour that you notice with velvet—soft and comforting. And then the colors are exceptionally fine.

Notice the Seal Brown Velour in our windows. It's one of the most popular colors this season. Prices run from \$7.50 to \$12.50.

contest between the Men's Own and Empire clubs, which resulted in a draw. Lock for the Men's Own showing splendid form in goal.

**COLE FOR YANKEES.**  
In "King" Cole, the former Chicago National League pitcher secured from Columbus, Frank Carroll, thinks he landed first prize. Farrell says President Herrmann, of the Cincinnati club,

made the Columbus club an offer of \$12,000 cash for Cole, but that Columbus refused, taking a chance on not losing Cole in the draft. The Columbus club therefore will only get \$2,500 for the player instead of \$12,000.

Farrell also procured Rose and Criss from Houston. Criss is the old St. Louis American pitcher and pinch hitter who has been having a great season in Texas: Rose has won 21 out of his last 22 games.

III), who is on a visit to Victoria, begs to announce that whilst here, he will be pleased to give advice or information on works of art or interior decoration and to also prepared to purchase single articles or whole collections. Those desiring to take advantage of this opportunity to secure reliable information concerning their possessions should communicate at once. Address: P. A. Ramus, Poste Restante, Victoria, B. C.

**THE HUMAN PROCESSION**

In the calendar of the church, the twenty-first of September, falling the years on Sunday, is the festival of St. Matthew, the apostle and evangelist. Matthew—whose name, in Hebrew, means "Gift of Jehovah"—was a publican. It was the business of publicans to collect taxes from the people for their Roman masters, and they were no more popular than tax-collectors "sweeping of taxes" had not then been developed and the publicans not only collected the full amount due the government, but many of them often resorted to extortion and fraud to enrich themselves. Thus, to the Jews, the words "publican" and "sinner" came to have a synonymous meaning, and the collectors of customs were abhorred as enemies of their country, outcasts and notorious sinners.

Little is recorded of the apostle Matthew before his meeting with Jesus. He was probably a man of wealth, or so it would appear from the description of the feast given at his house at the beginning of his discipleship. He received his call to become a follower of Jesus as he sat at the "receipt of custom" or "tax office" in one of the towns on the shores of the Sea of Galilee. At a single word, says St. Bridget, Matthew, the publican, "laid down the heavy burden of the world to put on the light and sweet yoke of Christ."

St. Matthew made a great feast, to which he invited Jesus and His disciples, and a number of his colleagues in the publican business. No Pharisee would so demean himself as to sit at table with a tax-collector—an attitude uncharitable, ungracious and entirely reprehensible, but for which many will entertain a sneaking sympathy. When the Pharisees saw Jesus at the banquet board with publicans, they began to murmur and reproach him for his breach of etiquette. It was then that Jesus said: "They that are in health need not the physician. I have not come to call the just, but sinners to repentance."

St. Matthew was present in the "upper room" at Jerusalem after the ascension, and was elected to be the successor of Judas. He remained some years in Judea, where he wrote his gospel. He afterward preached Christianity far and wide, and is supposed to have finished his course in Parthia.

Followers of the Greek Orthodox church will celebrate to-day the festival of the Nativity of Theotokos, or the birth of the Virgin Mary. Among eastern Christians, and especially of Russia, this feast is one of the most important in the calendar, and is one of a series devoted to the veneration of Theotokos, or the Virgin. The Repose of Theotokos, similar to the western festival of Assumption, is celebrated in August, and is followed by the Nativity of Theotokos in September, the Patronage of Theotokos in October, the Entrance (or Presentation) in November, and the Conception of Theotokos, or Feast of the Immaculate Conception, in December.

or Greek church and the Western or Roman church was effected in 720. The Greek church established itself in Russia in the tenth century. The Council of Lyons, held in 1274, resulted in a reunion of the Greek and Roman churches, but it lasted only a few years. In 1723 a union between the Greek church and the Church of England was proposed, but the plan failed.

**SCRAP BOOK.**  
Exit, Summer! Autumnal Equinox Comes To-morrow.

This is the last day of "the good old summer-time." To-morrow our genial friend, Old Sol, who has been making things hot for us for some time, will enter the constellation Libra, passing the equator in his southward journey. This phenomenon constitutes the autumnal equinox in the northern hemisphere, while in the southern it marks the beginning of spring.

For all practical purposes, however, summer has already received its knockout blow. The vacation season ended on the first of the month for all but a few belated summer girls, and the gentle oyster has become a fixture of the restaurant menu. The theatres have already begun their work of uplift and education. Reluctant youngsters with shining faces, scrubbed clean of the accumulation of real estate acquired during the glad vacation days, have trudged wearily back to the slavery of desk and blackboard and books. The hall-room boys, who but a short time ago were self-confessed millionaires, are again facing the problem of making \$14 per cover a multitude of expenses. The autumn costumes from Paris have long since arrived, and have brought fear to the hearts of burlesque ladies, who have so long reigned alone as the queens of undress. The straw hat, which blossomed forth a few months ago, as a peroxide blonde, has been transformed to a decided brunette, and has gone into the discard. Nature's equinoctial reminder that summer is going, gains, fone, is not needed.

The autumnal equinox marked the beginning of a new year for the ancient peoples of Egypt, Chaldaea, Persia, Syria, Phoenicia and Carthage. The Jews also began their civil war at that time, but in their ecclesiastical reckoning the year dated from the vernal or spring equinox. When the French revolutionists contrived a new calendar, they decreed that the new era should begin on September 22, 1792, the day of the true autumnal equinox, and that each succeeding year should begin at midnight of the day on which the autumnal equinox falls. The months were divided into three decades or ten days each, but to make up the 365 days were added to September. To Leap Year, called Olympic, a sixty day, September 22 or 23, was added, and was called "the Day of Revolution." The first month of the year, beginning on the autumnal equinox, was called Vendemiaire, or "Vintage," and the succeeding months were known as Brumaire, or "Foggy;" Frimaire, or "Sleepy;" Nivose, or "Snowy;" Pluviose, or "Rainy;" Ventose, or "Windy;" Germinal, or "Budding;" Floreal, or "Flowery;" Prairial, or "Pasture;" Messidor, or "Harvest;" Thermidor, or "Hot," and Fructidor, or "Fruit."

Stormy weather often attends the autumnal equinox, and this has given rise to a general belief that the sun's passing of the equator is responsible, a theory not borne out by scientific investigation. Yet the past century has witnessed many terrible "equinoctial storms," so-called. In 1816, on September 22, the North Atlantic coast was ravaged by what was long known as

the "Great Storm." In 1866 a large part of France was inundated as a result of heavy rains. In 1876 the Gulf of Mexico was visited by a severe cyclone, and in the same year there were great storms in India. Millions were left homeless by a storm in China in September 1887. Newfoundland and Nova Scotia have been visited by many severe storms during the latter part of September.

last years Lord Chesterfield was both deaf and blind, but his fine manners only left him with life, and his last words, "Give Dayroica a chair," proved that the dying man had not forgotten the consideration due a friend.

## POTTERY PLANT IS OUT OF COMMISSION

### Conflagration at Industrial Works Does Damage to Kilns and Machinery

A mass of smoking timbers and twisted iron represents the bulk of the plant of the British Columbia Pottery Company, Limited, at Cove road, Esquimalt, a few blocks from the city boundary, as a result of the fire last evening.

The cause of the fire is unknown. By a quarter past seven o'clock the building, which parallels the Esquimalt and Nanaimo railway tracks on the south side, was ablaze, the brilliant spectacle attracting a large number of people from the city and from Esquimalt. The property of the Imperial Oil Company, Limited, across the tracks was in jeopardy, and it was feared that the gasoline stored there might be ignited, the conflagration spreading by the flames jumping the tracks.

Although the fire occurred outside the urban district, the city headquarters department was besieged with calls, the actual summons coming from a telephone call to the corner of Dominion road and Florence street. Calls from boxes 74, 76, 121 and 126, as well as one "other" station, followed in quick succession to the central station, so that by the time No. 1 was on the scene, delayed by the wrong address of the telephone call, all the branch halls had sent in to know if they were wanted. Some companies subsequently arrived at the scene of the fire, but Deputy Chief Stewart sent them back to their halls, retaining

## SIX HUNDRED ENTER BABY COMPETITION

Handsome Prizes Presented for Winners of Numerous Classes

Undoubtedly one of the most attractive features of the fall fair, which opens to-morrow at the agricultural grounds, will be the baby show, which is to be held from 2 to 4 on Thursday afternoon. Already 600 babies have been registered. The original purpose of exhibiting the competitors in the Women's Building has been frustrated by the very number of entrants, and the Horse Show Building is to be requisitioned for the purpose. Here, on Thursday afternoon, all the latest and best members of the present generation who have the courage of their convictions will vie with each other in the great contest of beauty, health and other praiseworthy points.

The entries have been sent by mail as well as inscribed by the parents of the children. On Saturday afternoon and evening the infant department at Spencer's was busier than ever before in its history, and the store had to be kept open fifteen minutes past the regular time on Saturday night in order to let out the last of the procession of baby carriages that had visited the registration department. The window in the same store where the prizes are being shown is also a constant source of interest, the collection embracing a large number of very handsome contributions.

The following have consented to act as patrons and patronesses of the show: Lady McBride, Mrs. Jas. Dunsmuir, Hon. Dr. and Mrs. Young, Hon. and Mrs. T. Taylor, Mr. and Mrs. R. F. Green, Mr. and Mrs. D. M. Eberts, Mayor and Mrs. Morley, Mr. and Mrs. A. C. Burdick, Mr. and Mrs. David Spenser, Dr. and Mrs. Tolmie, Mr. and Mrs. Gleason, Mr. and Mrs. Porter, Col. and Mrs. Currie, Mr. and Mrs. J. A. Turner, Mr. and Mrs. R. A. Grant.

The following is a complete list of the prizes: Gold medal—Most perfect baby in the show. Cup for the most popular baby, by popular vote, in the show. Balloting will be in the show. Hon. Dr. Young's cup—Baby of largest family in the show.

Mayor Morley's cup—Best girl baby. Conservative Club cup—Best boy baby in the show. T. S. Bourciers' cup—Grant's cup—Best baby of parents both born in British Columbia. Robt. Green's cup—1st girl twins. Mrs. Lee Dye, set of red rockers—2nd girl twins. A. C. Burdick's cup—1st boy twins. Mrs. Mon Kow, set of silk quilts—2nd boy twins. Cup—Twin boy and girl (1st prize). Silk quilt and baby set, Mrs. Lee Dye and Mrs. Mon Kow—2nd, twin boy and girl.

In the six months' old girl baby class—1st prize, diamond ring, presented by Pennock & Godfrey; 2nd prize, silver pusher and spoon, presented by Mr. Clayton; 3rd prize, doll trunk, presented by Victoria Leather Goods Company.

The one-year-old girl baby class—1st prize, ten-dollar gold piece, presented by Mr. Sangster; 2nd prize, sterling silver comb and brush, John Virtue; 3rd prize, rocking-chair, Smith & Champion.

Two-year-old girl babies' class—1st prize, bank and \$5 deposit, presented by the Canadian Financiers, Ltd., 606 View street; 2nd prize, baby go-cart, Standard Furniture Company; 3rd prize, child's kitchen table, Capital Furnishing Company.

Three-year-old baby girl class—1st prize, beautiful French doll, D. Spenser Company; 2nd prize, doll carriage, by Baby Car & Motorite Company; 3rd prize, sewing machine, by Singer Sewing Machine Company.

Prizes for boys in the six months' old class—1st prize, silk cape, by Mr. and Mrs. Campbell; 2nd prize, carriage robe, by Mr. and Mrs. Fitch; 3rd prize, not yet allotted.

One-year-old boy class—1st, cut glass powder bowl, Mr. Wilkerson; 2nd prize, jockey cart, Island Hardware Company.

Two-year-old boys' class—1st prize, youth's bed, Welter Bros.; 2nd, comb and brush and mirror, J. B. Whitty.

Three-year-old boys' class—1st prize, diamond locket, Short, Hill & Duncan; 2nd prize, sweater coat, Scott (Boy Outfitting).

There are third prizes in all of the above classes which have not as yet been allotted. Toys galore will go to make the hearts of all the babies and their parents happy.

Fletcher Bros., Government street, have presented a photograph and six records for the best blonde baby in the show.

**GRADED BY NOVEMBER.**  
Great Progress Being Made on McBride to Courtenay Extension of E. & N.

An important announcement was made this morning at the office of the general superintendent of the Esquimalt & Nanaimo Railway to the effect that the new line from McBride Junction to Courtenay will be completely graded in thirty-days' time. This completion will mark the close of some very rapid contracting work by the firm in charge, the grading having only been started between fifteen and eighteen months ago.

Steel has now been laid for nine miles out of McBride Junction, that is as far as Little Qualicum River, and work on the various steel bridges crossing the ravines and streams is also proceeding apace.

Emmanuel Swiss Cheese, Limburg or Chesse, a large new consignment in prime condition at The Kaiserhof.

In the first three months of 1913 machinery to the value of \$250,000 was imported into this country.

## A MAGNIFICENT DISPLAY OF WOMEN'S APPAREL FOR THE EXHIBITION

Charming Dresses, perfectly-tailored Suits, serviceable Coats, modish Millinery and the many dress accessories especially appropriate for Victoria's Annual Exhibition as well as the many other occasions during Fall and Winter when something a little more "dressy" should be worn.

We cannot in print do justice to the elegance, perfection of style and exquisite colorings portrayed in the many models of Fall Millinery, Suits and Coats now on display—that would be impossible. The eyes alone must see their beauty to appreciate their wonderful charm and value. May we suggest that a visit to our first floor would be an afternoon exceedingly well spent!

**Striped Flannelette, Reg. 12½c to 25c values, yd. 10c**

A special offering of good quality Flannelettes in various assorted stripe designs suitable for kimonos and other domestic purposes. A most opportune time to secure your winter supply at a fraction of its original price. Regular 12½c, 15c, 20c and 25c values. Special, per yard ..... 10c

**Exclusive and New Fall Coat Models at \$18.50, \$17.50, \$20.00, \$22.50, \$25.00**

Our stock of new Fall Coats is now at the very height of completeness. There is no demand you can make for Coats that we are not prepared to meet with the best the style markets afford.

They are Coats that carry an unmistakable air of distinction and the designs are absolutely the latest now being shown in New York, and the fashion centres of Europe. Coats are made of two-toned diagonal striped boucle, also plain materials, in semi-fitting styles with rounded and slightly cutaway fronts, showing deep velvet and plain duplex collars, patch pockets and gauntlet cuffs; some trimmed velvet, others belted backs. All the wanted color combinations are represented. Enticing priced at \$25.00, \$22.50, \$20.00, \$18.50 ..... \$17.50

—Main Floor

**SLEEP**

During sleep the necessary body-repairs are carried on in the "human workshop."

Anything that prevents sound sleep at the proper time (at night) will sooner or later prevent "smooth running" during the day.

That "drowsy feeling" in the forenoon (when everyone should feel bright and fit) is often caused by want of sound, refreshing sleep the night before.

Very often the habitual use of tea and coffee is back of sleepless nights.

**Drowsiness during the day May be overcome**

Quit tea and coffee absolutely and use well-made

**POSTUM**

It contains the vital phosphates from wheat required by Nature for rebuilding the tissue cells in muscle, brain and nerves.

It is pure and free from the insomnia-producing drug, caffeine, found in tea and coffee.

Postum comes in two forms:

Regular Postum—must be well boiled.

Instant Postum is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with the addition of cream and sugar, makes a delicious beverage instantly.

Postum induces restful nights and successful days

**"There's a Reason"**

 Decorated bicycle.—1, Frank Crockett; 2, Leo Stevenson.  
 Decorated motor cars.—1, The Foresters; 2, Cowichan Merchants; 3, Fire Department.

### ISLANDS BY-ELECTION THEME FOR SURMISE

Conservative Split in Constituency Likely to Be as Wide as Ever

Ever since it became known in the Islands that its member was likely to be selected for the bench there has been a lot of wire-pulling going on in Conservative circles for the nomination, and now that the vacancy is in sight this will become more strenuous than before.

Eighteen months ago very bitter opposition developed to the then member, chiefly on the part of the Orange section, which is pretty strong in several of the Islands, and it is no secret that Mr. McPhillips had a close call for re-nomination. Even then he had to put up an unusual fight for a minister, and it was found necessary for the premier to go out to Sidney and speak in support of his colleague.

There are several men in Sidney who have been out for the nomination for some time, and in the Islands which go to make up the constituency there are equally competent and ambitious men who think that they are entitled to carry the party standard in the coming fight, especially when they imagine that it will be a walk-over.

At the last general election the contest was between the president of the council and Percy K. Winch, who ran as an independent Conservative. There was no Liberal candidate, but a number of Liberals voted for Mr. McPhillips to mark their disapproval of the tactics of some of his own party in the effort to defeat him. At that time the vote was smaller than it had been two years previously.

The seat is naturally a Liberal one, and only the prestige of having its member in the cabinet carried it for the Conservatives at two elections against Liberal candidates. In 1903 the present lieutenant-governor was elected by a vote of 221 to 154 for W. H. Bullock, his Conservative opponent. In 1907 Mr. Paterson was defeated by six votes by Mr. McPhillips, the vote being 179 to 173. Against Percy Purvis in 1909 the latter was re-elected by a vote of 270 to 207. With the assistance of his Liberal friends in the constituency he was able to roll up 361 votes, to Mr. Winch's 111 last year.

Nothing is likely to be done in the way of calling party conventions until the official announcement of the appointment of the new Judge reaches here, when the seat automatically comes vacant. In any event nothing will be done in regard to a by-election until the return of the premier from England. One of the first things he will have to do will be to endeavor to reconcile the warring elements in his own party there, but seeing that he had no success in the efforts he made a year and a half ago it is not expected that he will do any better now.

The feeling engendered by the attack on the president of the council has not been assuaged at all by the passage of time, and is bound to cut a large figure in the choice of a candidate by the government party. It would not be surprising if there were to be two Conservatives in the field at last year.

### ALIEN LABOR QUESTION

Water Commissioner Will Make Report on Subject To-night

The employment of alien labor on the Sooke waterworks undertaking, which has caused considerable discussion in the past, will be made the subject of a report to the city council this evening from the water commissioner.

A number of causes have contributed

to bring to the contract, with the resumption of operations, men who belong to that floating class who move round with the development of public works. The Canadian Northern Pacific railway has grading operations in progress adjacent to the lake, and men who have come from the American side under the special authority given to the immigration officials to admit them have quite easily drifted over to the city work, and so displaced, it is said, men in the employ-

ment of the city who are residents and British subjects.

In support of this view J. W. Moore, of the contracting firm of Moore & Pethick, has pointed to the number of persons who have left his camps in the vicinity of the lake to find city work, and therefore a report from the water commissioner on this matter will be timely.

Phoenix Stout, \$1.50 per doz. qts.

## Schlitz in Brown Bottles is pure and wholesome

No disagreeable odor or taste that scientists find in beer in light bottles.

"It is interesting to note the observation that beer in colorless bottles exposed to diffused light will undergo a change, precipitating a heavy sediment and taking on a disagreeable odor and taste."

Extract from *Die Theorie und Praxis der Malzbereitung und Bierfabrikation*. Published by Director Julius E. Thausing, Leipzig, 1893, Fourth Edition, page 920.

This opinion was rendered impartially and in the interest of science.

The slightest taint of impurity ruins the healthfulness of beer.

Be sure you get pure beer. Get Schlitz in Brown Bottles.

See that crown or cork is branded "Schlitz."

Holson's Bay Co., Distributors, Victoria, B. C.

CHILDREN'S OIL, CALOMEL AND PILLS

"California Syrup of Figs" Best for Tender Stomach, Liver, Bowels

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicate "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given to-day saves a sick child to-morrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeiters sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

NOVEL SUSPENSION BRIDGE

This unique bridge, 197 feet long is the only bridge of its kind on the Island, and resembles in many particulars the foot bridges constructed by the natives of Africa across their deep gullies. This bridge is privately owned by the proprietors of the Riverside Inn on the Cowichan river. The bridgemen were those who finished the E. & N. trestle over the same river.

CANADIAN CELEBRITIES James Samson, M. D. Who Believes in the Philosophy of Illusion

The man who redeems conventional poetry or drama. Indeed he may be a very plain, practical citizen; and Dr. James Samson, of Windsor, Ont., is such a man. Samson lives much of his time in a world of his own creation. He is an illud of stories. No man in America can tell so many good stories at one session and repeat an old yarn with the charm of such absolute novelty. Besides being one of the most skilful and psychic physicians in Canada, he is also an orator, a student of science, a fan of literature and a man of public affairs.

Here is a probably old story that Samson has often told as though for the first time. Man about to be hanged shakes hands on the scaffold with the turnkey, the sheriff and the hangman. Turning to the person about to deliver the last rites he says: "Needn't bother shaking hands with you, old chap. I'll see you later." Living in Windsor as he has done for the past nearly twenty years, he would know about the people from Michigan who talk about Windsor as the town where they hang people. "I believe in hanging," said the doctor. "But I'd make it a very much more terrible punishment. I'd sentence a murderer to be hanged—but I wouldn't say when. Every day that the author of this story came all the public would know about it, would be seeing a black flag run up over the jail."

For the past three years Dr. Samson has been government lecturer on the system whereby the government of Canada insures people's lives by a system of annuities. In this capacity he has travelled clear across the continent—speaking in almost every town of consequence at an age when most men feel like staying at home. Thousands have wondered to what school of natural oratory he belonged. They see a huge, big-shouldered man with a long yellowish hair, once jet black, and a face as psychic as an Indian chief. Nature designed him for a character in a novel by Edgar Allan Poe, or some plot whose unravelling would make Sherlock Holmes something of an amateur. Twice he ran for a Liberal constituency in parliament—in each case beaten by a man of less ability.

Samson is a man of odd coincidences. Nearly fifty years ago he was a young man studying medicine in the United States. He paid his first visit to New York, Lounging round one fine day down at Battery Park he noticed what was then a peculiar sight in New York. It was the first four-horse drag ever seen in Gotham, and beside the driver sat a faced man whose general aspect the young man never forgot. Thirty-five years later a friend of Samson's took a trip to Australia. There he picked up a Melbourne paper, and after glancing it over blue-pencilled an item and mailed it to Dr. Samson.

The article was signed by some exiled Englishman who remembered the first four-horse drag that ever drove in New York—and he was the man who had sat beside the driver, not so much as noticing the big raw-boned Canadian student that loitered on the grass in Battery Park.

Samson is able to reel off enough of such odd little coincidences to make one decent little book. His experiences as a country doctor would make another—and one of the best commentaries on the human side of medical practice ever put into print. As a countryside orator he was for many years the unofficial but regular chairman of almost every up-to-date ten-ten meeting, church anniversary and picnic within fifteen miles of his office in the little sawmill town of Blenheim, N. W. With Samson in the chair it never mattered supremely what the rest of the programme was about. He could tell stories and make jokes enough to keep a rustic gathering in a turmoil of good humor.

Constantly reading all sorts of books, he was an authority on popular science and current literature and universal politics. In those days of 20-mile drives to see patients there seemed to be more time for a professional man to cultivate his mind than nowadays when the country doctor rushes over a township in his motor. Samson was always a worldly entertaining companion on any sort of road, in any kind of weather; among folk that knew only the fringes of his peculiar personality. He was on the best of terms with all the circuit preachers whose tea-meetings he chaired, when he took no sort of stock in their theories, and

by some was regarded as a very dangerous sort of freethinker. A Methodist parson co-incident with him in Blenheim used to libel the doctor on a very untheological slip that he made in this way—so said the clergyman. "Say, Tom," to the preacher, "I never had much use for the seventeenth chapter of Mark. Never could see anything in it." "Good reason," said the parson. "The seventeenth chapter of Mark never was written." In his younger days the doctor started a newspaper of which he became the first editor. One of his best-remembered editorials was about the death of a man who had been covering from his last of 40 days. The editorial was headed, "Nothing in Him."

One celebrated writer Samson has never quite forgiven for plagiarizing a story which he himself saw in the original. That was Edgar Allan Poe's yarn concerning the tremendous career of a fabulous primordial monster down the sides of a mountain—when the monster was only a bug on the window. Samson lived that story before Poe ever wrote it; back on the old bush farm when he was a boy, on a rainy day when the lids were greasing their boots by the kitchen stove. There had been much talk of a huge wildcat in the swamp just back of the house. That day the youth who was afterwards to study medicine was looking out of the rain-spattered window, and suddenly he saw that frightful monster coming across the top of a second-growth bush just back of the swamp. He got his cap and the old kitchen muzzle-loader and began to start out after the lynx. But he took another look to make sure his beast was still there—and found it "as only a November fly on the window-pane."

Another instance of the philosophic illusion. About 15 years ago Samson was called to see a lame girl who for years had gone upon crutches suffering from a leg that by an accident had become crooked. Other doctors had been called, but they had never helped the girl. Because this new man in the Essex peninsula was so much talked of the parents went for him. Arrived at the farm house, Samson sat down and mysteriously asked the girl a series of searching questions. Silently he measured the limb with a tape line. He looked at the girl with such penetrating, almost hypnotic gravity, that they began to feel that if any man in the world could cure that leg it was he. Suddenly he turned to the father and said with almost horrible abruptness: "Have you got a hand saw?" The farmer went to the woodshed and got the saw. In a strange wordless hush the doctor took the saw—and the crutches which one by one he placed on the chair and sawed them into firewood lengths. "Now, my child," he said, with a queer smile, "you'll never use those props again. Take this medicine I'm leaving you. To-morrow sit up on the bed and let that leg down the least bit. Next day do it a little more. Keep on doing it. Next time I see you—you'll be walking."

OUR LETTER BOX

COLLEENS OF IRELAND.

To the Editor—I have had sound and substantial reasons for my prolonged absence. In fact, I considered I had well earned a little rest, as the many bullets I have fired from the Times have reached my billets and wrought a vast improvement wherever they struck.

Take just one instance, the unmanly one of the Conservative organs twelve months ago, when they disagreed with a Liberal opponent upon the recent trifle. The "evening paper" was a "hit" in those days. Now it only "labors under a misapprehension," etc. But as I am a strictly impartial critic you will permit me to direct your attention to a "misapprehension" on 10th page of the Times dated 20th inst. The beautiful Miss Kitty Gordon is the "Perseus of the great English family of Beresford." England has no noble family of Beresford.

It is hard enough on Ireland to have Wellington, Roberts, Nelson, Kitchener, French and many others attacked by England, but hands off the coltens of the said Corporation, a frontage tax is assessed and charged upon the owners of lots or parts of lots in the City of Victoria.

BADGES AWARDED

Troop 3, Victoria Boy Scouts, Are Presented With Proficiency Souvenirs at Rally.

The provincial secretary of the Boy Scouts, Rev. the Hon. T. R. Henegan, presented the 3rd Troop, Victoria Boy Scouts, on Friday evening with the proficiency badges won by them during the last two months. The proceedings took place at Christ Church school room, and in addition to the boys there were present many of the parents and friends of the troop members.

Later in the evening Scoutmaster Selfe explained the ceremony of the awarding of the recruits, and enumerated the ten points of the scout law. After that the audience was given a demonstration of a regular troop parade and inspection, and a later feature of the programme was a three-round boxing bout between Patrol Leader J. M. Smith and Scout Ronnie Nash, the troop's "Mut and Jeff."

Among those who spoke during the evening were the provincial secretary, who spoke to the boys on scout law, emphasizing the rule that "A scout's duty is to be helpful, and to help others." Gerald Cross, who expressed to Scoutmaster H. R. Selfe and Assistant Scoutmasters J. C. Anthony and W. G. Brown his appreciation as a parent, of the training which they were giving the boys; and Rev. William Barton, who announced that one of the parents, who wished to remain anonymous, had presented the troop with a rifle.

The following scouts were awarded badges for the respective departments: Tenderfoot, Bruce Fowler; second class, R. Cross, C. Timberley; first class, R. E. Nash, J. Woolson; service stars, F. Garland, Ronnie Nash, E. Frampton; pioneers, C. J. Wrigglesworth, E. Frampton; rescuers, W. H. Brown, E. Hardwick; all-round cords, R. Todd, E. Frampton; marksmen, R. Todd; pathfinder, Herb. Brown; swimmers, R. Todd, J. Devereux, E. Frampton; Kings, Herb. Brown.

Frankfurters—The best ever. Goose Liver Sausage, Truffel Liver Sausage, Baumswirger Cervelat, Westphalian Ham, Milano Salami. A large new consignment of these famous goods, now "at The Kaiserhof."

Victoria Day

In accordance with the usual custom, and by request of the B. C. Agricultural Association, Thursday will be observed as Victoria Day.

The City Offices will be closed at 1 o'clock. A. J. MORLEY, Mayor.

Victoria Taxpayers!

Sept. 30 Inst. will be the LAST DAY on which

REBATE

of 1-6 will be allowed on 1913 TAXES.

Please remit or call early to avoid rush on last day. Any person desiring information respecting Taxes or a Tax Bill of Victoria real property will be furnished with same on application. My office will be kept open evenings from 7.30 to 9.30 (except on Saturdays) for giving of information but not for receiving payments, which can only be made between the hours of 9 a.m. and 5 p.m., and up to 1 o'clock on Saturdays.

EDWIN C. SMITH, Treasurer and Collector. Victoria, B. C., Sept. 18, 1913.

A BY-LAW

To Enable the Corporation of the City of Victoria to Borrow the Sum of \$1,600,000 to be Used in Acquiring and Constructing the Sooke Lake Water Supply System for the City of Victoria.

WHEREAS the Corporation of the City of Victoria, hereinafter called the Corporation, owns the waterworks property and system under which the citizens of the City are supplied;

AND WHEREAS by the Water By-Law 1907 No. 98 of the City of Victoria, the Corporation is authorized to borrow the sum of one hundred and four thousand two hundred and twelve dollars and twenty-seven cents, being interest and sinking

for, in through of past which a main water pipe of four inches in diameter or over shall run, and certain rates, rentals and charges are, by the said by-law fixed and levied and made payable for the supply of water within and without the City;

AND WHEREAS the following sums have heretofore been specially charged upon the water within and without the City: 1906, under By-Law 91, 17,000 00; 1907, under By-Law 57, 15,000 00; 1908, under By-Law 57, 15,000 00; 1909, under By-Law 57, 15,000 00; 1910, under By-Law 57, 15,000 00; 1911, under By-Law 57, 15,000 00; 1912, under By-Law 57, 15,000 00; 1913, under By-Law 57, 15,000 00.

AND WHEREAS the estimated value of the present waterworks system of the City of Victoria, and property and water thereon, is one million eight hundred and ninety-three thousand five hundred and forty-two dollars and seventy-six cents (\$1,893,542.76), to which sum will be added the value of all lands, waters and works acquired, conserved and constructed in connection with the Sooke Lake Water System hereinafter referred to;

AND WHEREAS the estimated value of the same required to be paid in full, as set up to the present time is \$1,134,253.73;

AND WHEREAS by virtue of the City By-Law 1911, being By-Law No. 84, which received the assent of the electors on the 12th day of January, A. D. 1911, and was passed by the Municipal Council of the said Corporation on the sixteenth day of January, A. D. 1911, authority was conferred upon the Corporation, subject to the approval of the Municipal Council, to acquire Sooke Lake and Sooke River and the tributaries thereof and all waters which can be made tributary thereto, as a source of an additional supply of water for the City of Victoria and to conserve the said waters by means of dams and other works, and to acquire and construct and maintain the same;

AND WHEREAS the Corporation has proceeded with the work of acquiring and conserving the said lands and waters for the purpose aforesaid, and has entered into a contract on behalf of the Corporation with the Sooke Lake Water Supply System, a body corporate, which said contract bears date the nineteenth day of December, A. D. 1911, and has been duly approved by the Corporation and the Municipal Council of the said Corporation after having been referred to them under and by virtue of By-Law number 115 of the Corporation, entitled "Sooke Water Referendum By-Law 1911," providing for the construction of the Sooke Lake Water System;

AND WHEREAS under and by virtue of said By-Law number 84, the authority was granted to borrow for the purpose aforesaid the sum of \$1,500,000, as a reference to said By-Law will more fully appear;

AND WHEREAS the said amount is not sufficient for the purposes of the said work and it is necessary for the Corporation to borrow a further sum of \$1,500,000 for the purpose of the said work;

AND WHEREAS the estimated general revenue for the year 1913 of the present waterworks system is \$280,000 (two hundred and eighty thousand dollars), to which must be added all such additional revenue as may be expected to accrue by reason of the development of the further system of water supply under By-Law No. 84 and this By-Law, and by reason of the proceeds of the same will insure an ample supply of water at all times for the City;

AND WHEREAS the Corporation proposes to raise the sum of three hundred and eight thousand two hundred and nineteen pounds sterling (\$238,219), being the equivalent of \$1,500,000, as hereinbefore set out, upon the credit of the said waterworks system and property now held, or hereafter acquired, under the provisions of this By-Law, and the taxes and rates, rentals and charges, and the general revenue of the waterworks system and the proceeds of the Corporation;

AND WHEREAS the Corporation proposes to guarantee the payment of the same by the issue of registered debenture stock under the authority of this By-Law and the interest thereon;

AND WHEREAS in anticipation of the alternative issue of registered debenture stock, the Corporation of the City of Victoria has entered into an agreement with the Bank of British North America and the Bank of Montreal, the said Bank in London, England, of the principal moneys and interest moneys as hereinbefore provided, for the keeping by an official or officials of the bank of a register of the holders from time to time of the said registered debenture stock, if issued hereunder, and of the transfers of the same, and it is desired by this By-Law to make regulations with respect to such register and the custody thereof and the making of entries therein and for the fees payable upon transfers;

AND WHEREAS in this By-Law the rate of exchange is taken upon a basis of \$1.36 2/3 to the one pound sterling.

NOW THEREFORE the Municipal Council of the Corporation of the City of Victoria enacts as follows: 1. It shall be lawful for the Mayor and the Corporation of the City of Victoria to borrow upon the security of the waterworks system and property of the Corporation of the said City of Victoria, now owned by the said City, or hereafter to be acquired under and by virtue of said By-Law number 84 and this By-Law, and by water taxes and rates, rentals and charges, and the general revenue of the waterworks system and waters of the Corporation, together with the credit of the Corporation of the City of Victoria by way of a guarantee of the holders of the said registered debenture stock, the sum of one million eight hundred and ninety-three thousand five hundred and forty-two dollars and seventy-six cents, being interest and sinking

and the Debentures and Stock already issued and charged upon the said general revenue of the Waterworks System of the City of Victoria the sum of \$1,500,000 sterling, to pay the annual interest at the rate of four and one-half per centum per annum on the principal sum of \$1,500,000 sterling, for the amount of Stock authorized by this By-Law, and the sum of \$2,325,000 for the purpose of forming a sinking fund for the redemption of the said Stock, and if the general revenue of the Waterworks System of the Corporation shall not be sufficient therefor, there shall be appropriated out of the general revenue of the Corporation such sum as is necessary to make up the said two sums for interest and sinking fund;

2. That all such sums to be raised for sinking fund shall be annually set aside on the first day of August in each year, commencing with the year 1914.

3. Such Stock shall be issued in such amounts as may be from time to time directed by the Secretary of the Bank of British North America in London, England, or the person for the time being holding that position, and the Secretary of the Bank of British North America in London, England, or the person for the time being holding that position, shall be authorized by the Mayor of the said Corporation to dispose of the said Stock all expenses connected with the preparation and printing of this By-Law, and of the Debenture Stock Certificates, and all such expenses, and English Government stamp duties, and any discount, commission or charges incidental to the sale of the Registered Debenture Stock.

4. A register shall be kept of the Debenture Stock created under the authority of this By-Law by the Secretary of the Bank of British North America in London, or the person for the time being holding that position, under the authority of the Court of Directors in London of the said Bank, and in such register shall be inscribed the name and address of the holder of each certificate of Registered Debenture Stock issued hereunder, as well as the original holder as each transferee thereof, and duplicate of such register shall be kept by the City Treasurer at the City Hall, Victoria, British Columbia, such duplicate being the original for the purposes of the Corporation and the provisions for the keeping of the same shall in no way affect the rights or interest of the holders of the Debenture Stock.

5. The said Bank of British North America is hereby empowered to issue under the hand of the Secretary of the said Bank in the name of the Corporation, Certificates of Debenture Stock upon transfer to any transferee in accordance with the provisions of this By-Law.

6. There shall be endorsed upon each certificate of the Registered Debenture Stock the following conditions:— 1. This By-Law shall be binding upon the holder of the said Stock and upon each and every holder of Registered Debenture Stock issued pursuant to the authority herein contained.

2. This By-Law shall, before the final passing thereof, receive the assent of the electors of the City of Victoria, and shall take effect on the day after the final passing thereof.

3. This By-Law may be cited as "City of Victoria, British Columbia, Supplementary Waterworks Loan By-Law 1913."

Passed the Municipal Council on the 15th day of September, A. D. 1913.

THE SCHEDULE WITHIN REFERRED TO

The Stock must be described on transfer deeds as 4 per cent Consolidated Stock 1912 of the City of Victoria (British Columbia).

DOMINION OF CANADA THE CITY OF VICTORIA (Province of British Columbia)

Under the authority of the Municipal Act and Amending Acts the Victoria City Waterworks Act, 1913, and Amending Act, 1913, of the City of Victoria, BRITISH COLUMBIA CONSOLIDATED STOCK.

Bearing interest at the rate of four and a half per centum per annum, payable every day of February and first day of August.

This Stock is redeemable at par on the first day of February, 1922, for which provision is made by Sinking Funds.

THIS IS TO CERTIFY THAT the above-mentioned is the registered holder of the above mentioned Stock which is constituted and secured by By-Law of the Corporation of the City of Victoria, British Columbia, numbered respectively 84 and 115 of the City of Victoria for the repayment thereof according to the tenor thereof, and the said Stock is subject to the provisions contained in the said By-Laws.

Issued under the authority and instructions of the Corporation of the City of Victoria, pursuant to the said By-Law, this 15th day of A. D. 1913.

For THE BANK OF BRITISH NORTH AMERICA, Manager.

Duly authorized in this behalf, Registrar.

Exd. The above Stock in whole or part (not being a fraction of a pound) can be transferred only to the holder of the said Stock of a duly completed deed of transfer and this Stock Certificate must be surrendered before any such transfer can be registered.

CONDITIONS. 1. This Stock is limited to £38,219 sterling, and may be issued to any persons and in any amounts at par or at a discount, or at a premium.

2. The Corporation covenants with the registered holder to pay to the registered holder, for every one pound of stock the sum of one pound sterling money at the Bank of British North America in London, England.

3. The Corporation will pay the stockholders interest on the said registered stock at the rate of four and a half per centum per annum; such interest will be paid half-yearly on the 1st day of February and on the 1st day of August in each year until the 1st day of February, 1922, the first payment to be made on the 1st day of February, 1914.

4. Every original holder of stock will be entitled to a certificate bearing the signature of two officers of the said Corporation, as stated in the Statute in force at the date of the issue of the Stock held by him.

5. Save where herein otherwise provided the Corporation will recognize the registered holder of any Stock, his executors or administrators as the holder thereof, and all persons may act accordingly and the Corporation shall not be bound to take notice of any trust or equitable interest or any assignment or charge, or the rights incident thereto, and the receipt of such registered holder, his executors or administrators for the same, shall be a good discharge to the Corporation.

6. In case of death of any of the joint holders of the said Stock, the same shall be transferred to the surviving holder, or the only person recognized by the Corporation as having any title to or interest in such Stock.

7. Every instrument of transfer must be signed by both the transferee and the

transferor, and the transferor shall be deemed to remain the owner of such stock until the name of the transferee is entered in the register hereinafter mentioned in respect thereof.

8. Every instrument of transfer must be left at the Bank of British North America in the City of London, England, for registration, accompanied by the Certificate of the Stock to be transferred, and such other evidence as the said Bank may require to prove the title of the transferor, or his right to transfer the stock, and thereupon the transferor will be recognized as entitled to the stock, free from any equity set off or cross claim of the Corporation, or of the said Bank as its agent, against the transferee.

9. All instruments of transfer and the Certificate for stock transferred will be retained by the said Bank, and a new certificate or certificates will be handed out to the transferee by the said Bank, signed by the proper officials of the said Bank.

10. A fee of not exceeding two shillings and sixpence will be charged for the registration of each transfer, and must, if required by the said Bank, be paid before the registration of the said transfer.

11. No transfer will be registered during the fourteen days immediately preceding the 1st day of February or 1st day of August in each year.

12. The executors and administrators of a deceased holder of stock (not being one of several joint holders) shall be deemed to be persons recognized by the Corporation as having any title to such stock.

13. Any person becoming entitled to stock in consequence of the death, bankruptcy of any holder of such stock, upon producing such evidence that he sustains the character in respect of which he proposes to act under this condition, or of his title, as the said Bank shall think fit, and such evidence as the said Bank may require, shall be deemed to be a satisfaction of the preceding conditions as to transfer may transfer such stock.

14. The said Bank shall be at liberty to retain the interest payable upon any stock which any person under the last condition has been entitled to transfer, until such person shall be deemed to have duly transferred the same.

15. The interest upon any stock may be paid by the said Bank to the registered address of the holder, or in case of joint holders to the registered address of that one of the joint holders who is first named on the register as the holder of such stock. Every such cheque shall be payable to the order of the person to whom it is sent, and a payment of such cheque shall be a satisfaction of the interest.

16. The receipt of any registered holder of any stock shall be deemed to be a charge to the Corporation as if the person were the sole registered holder.

17. If any certificate be worn out or defaced, or the same be produced to the said Bank the same may be cancelled, and a new certificate issued in lieu thereof. Lost or stolen certificates shall be null and void, and no certificate shall be issued on any proof on such indemnity as the said Bank may deem adequate, being given by the holder of the certificate.

18. The fee for a new certificate shall be one shilling, and also all English Stamp Duties (if any) on the new certificate.

19. Any change of name or address on the part of any registered holder shall forthwith be notified to the said Bank, and upon the said notification the register shall be altered accordingly.

20. "Stock" means the issue created by the City of Victoria, British Columbia, by the said By-Law, and the Corporation of the said City under the authority of the within mentioned Acts.

21. Words denoting the male include the female, and the singular includes the plural.

"Register" means the Register at the Bank of British North America in London, England.

"Corporation" means the Corporation of the City of Victoria, British Columbia.

"Registration" means entry in the register of the required particulars.

22. Words denoting interest at half per centum per annum payable by the Corporation in respect of the stock.

Take notice that the above is a true copy of the proposed By-Law upon which the issue of the said Stock is authorized at the Police Court Room, City Hall, Pandora street, on Thursday, the 2nd day of October, 1913, between the hours of nine o'clock a. m. and seven o'clock p. m., and that W. V. Northcott, Returning Officer of the said vote.

WELLINGTON J. DOWLER, C. M. C. City Clerk's Office, Victoria, B. C., Sept. 18, 1913.

City of Victoria MUNICIPAL NOTICE

The "City of Victoria, British Columbia, Supplementary Waterworks Loan By-Law, 1913."

I hereby give notice that such of the Electors of the Municipality of the City of Victoria as are entitled to vote on the credit of the Municipality, are requested to attend at the polling place known as the Police Court in the City Hall, in the said Municipality, on Thursday, the second day of October, 1913, from 9 a.m. to 7 p.m., and to record their votes for or against the passing of the "City of Victoria, British Columbia, Supplementary Waterworks Loan By-Law, 1913," a copy of which By-Law is published in the Victoria Daily Times, and copies whereof are posted up at the City Hall, and in various other public places in the city, and at the Polling place.

And take notice that the said By-Law will not be valid, or of any effect, unless the vote polled in favor thereof be at least a majority of the votes polled.

Given under my hand at Victoria, British Columbia, this eighteenth day of September, 1913.

WM. W. NORTHCOTT, Returning Officer.

NOTICE TO ASSESSED PROPERTY OWNERS

The attention of holders of agreements of sale is hereby directed to the provisions of Section 168 and Sub-section (a) of the Statute in force at the date of the assessment roll and voters' list of the name of the last agreement holder, or assignee, or the person who has purchased or purchased, providing he, or she, files with the clerk, or assessor, before five clear days before the day of voting on such agreement, a statutory declaration proving that he, or she, is the holder of the last agreement to purchase said land, and the person or persons who are, or are, or she, is liable to pay the taxes, and is a "British subject."

## TO-DAY IN CANADIAN HISTORY

One of the most bitterly contested political campaigns in Canadian history closed two years ago to-day, when the election of a new House of Commons resulted in the defeat of the government of Sir Wilfrid Laurier. In the battle of ballots the Liberal majority of forty-three out of a total membership of 211 was swept away, and the Conservative party secured a majority of forty-nine. The Fielding-Knox reciprocity agreement between Canada and the United States, which had been ratified by the United States Congress, was the principal issue in this exciting campaign. Canada and the States had a treaty of reciprocity from 1854 until 1896, when the treaty was abrogated by the United States, largely as a result of the ill-feeling engendered by the civil war. From 1879 to 1897 Canada had on its statute books an inviting offer of reciprocity, but it was not accepted. President Taft made the reciprocity pact the pet project of his administration, and succeeded in carrying it through Congress.

September 21 is the birthday of Dr. Benjamin Fish Austin, Canadian clergyman, educator and publisher, at Brighton, Ont., 1856. He was ordained in the Methodist ministry in 1872, was principal of Alma College, in Ontario, from 1881 to 1897; engaged in publishing books and magazines in Toronto, and in 1899 was tried for heresy and expelled from the church, when he went to Rochester, N. Y., as pastor of a Spiritualist congregation. Dr. George Cross, Baptist clergyman, who was pastor of churches at Ormond and Aylmer, Ont., and Calgary, was born at Bewdley, Ont., 1862.

The knell of Acadia as a French possession was sounded 263 years ago to-day, when Col. Francis Nicholson, erstwhile colonial governor of Virginia, arrived off the Nova Scotia coast with a fleet of English ships manned by colonial soldiers and sailors. Port Royal, the battle-scarred little settlement of the French, was the objective point of the warlike expedition. Two days later, on September 24, 1710, Col. Nicholson landed his troops before the town, and began the construction of batteries. On the first of October three batteries were opened on the town, and Subercase, the governor, and his little garrison of brave defenders capitulated the next day. The fortress was renamed Annapolis Royal, in honor of Queen Anne. After many turns of the wheel of fate, Port Royal and Acadia became the property of England. Port Royal had its full share of the ups and downs of colonial warfare and rivalry. There the brave Poirincourt made his stand against Madame de Guercheville, the fair devotee of the Society of Jesus. In 1613 the French invasion of New England was avenged by Argall, from Virginia, who pillaged and burned Port Royal and laid waste the fields. Later

**HARDWARE TO SELL—AN ADVERTISEMENT**

There are quite a few stores that are not stores at all, for stores are where things are stored so as to be available when people want them.

A good many stores wait till you come, then they'll say: "We can order it for you."

Now, when we advertise hardware for sale, we have it—tools, factory supplies, builders' hardware, auto garage supplies or anything you'd expect us to carry in stock.

We advertise goods that are right here in Victoria in Douglas street, in this store—ready to be supplied you in a jiffy.

The mechanic who needs new tools for use next morning knows he can depend upon us.

We don't compel our patrons to run to another city, or wait till we send there for things—we carry big stocks, and we carry pretty near everything.

**"Pape's Diapepsin" is Quickest, Surest Indigestion Cure Known**

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs.

Pape's Diapepsin is noted for its speed in giving relief; its harmlessness; its certain unfailing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eruptions of acid and undigested food—remember as soon as Pape's Diapepsin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.

**MEXICAN FRUIT FOR PACIFIC COAST**

Prominent Mining Engineer Offers New Trade Suggestion

**TELLS OF RECENT TROUBLE IN MEXICO**

"There is no reason why Mexico should not supply the whole Pacific coast with tropical fruits," said M. K. Rogers, the well-known mining engineer yesterday to the Times. "In my opinion that is one of the greatest commercial openings to be found in a country which offers more inducement to capital at the present time than any part of the Americas. The fruit could be shipped up the coast from the west of Mexico and landed right here in Victoria in much less time and at much less cost than tropical fruit is brought to-day."

Mr. Rogers has lived and worked for many winters in Mexico, and his opinion therefore is entitled to some consideration. Not to be unknown to the public of British Columbia, for it will be remembered that his name is linked with the discovery of the Nickel Plate and Granby Mines. As a matter of fact, his visit here this week-end is a bit of sentiment connected with the former of these mines. It is the fifteenth anniversary of the discovery, and he spent a few days at the mine itself just for the "make of and lang syne."

Though Mr. Rogers was not present in any of the storm centres of the revolution, his home being about 250 miles north of Mexico City, yet he is well enough acquainted with conditions there to have an excellent grasp of the situation.

"The condition of Mexico at the present time," he says, "is bad, very bad indeed. Trade is practically, though only temporarily, paralyzed. The railways are practically all torn up to such an extent that it will take twenty million dollars to repair them and out of the 8,000 miles of line which have been constructed, I do not suppose that there are 3,000 miles in operation."

"It is, of course, all a result of the political situation. This trouble has been brought about almost absolutely by mere political schemers. The average Mexican working man does not want revolution. He does not want war. All he desires is peace and quietness, to allow him to get on with his work."

Without a Leader.

"Just now the Mexicans are suffering from the lack of a good leader. So far no big leader has sprung up since Porfirio Diaz, though I think that Diaz really started the revolution when he introduced the school system into Mexico. I think that it is quite possible that Porfirio Diaz will be the next president. He is a quiet, good appearing man, though I do not know much about his ability. We Americans, however, cannot hazard a guess at all how the elections are going to be held with the country in the state it is."

Americans in Mexico.

Various and conflicting reports have been stung abroad as to the treatment of Americans in Mexico, but Mr. Rogers' statement in this respect may be taken as a pretty comprehensive and truthful exposition of the facts.

"Down at Washington," he said, "I have spoken to senators and congressmen and it is quite clear to me that no American wants to acquire any of Mexico as territory. I know it is costing the American government a lot to control the border lines, but what we would like to see is proper protection for our own people inside the country."

"The United States has not protected Americans in Mexico. They are warships lying at anchor both on the east and west coasts, but for all practical purposes they might as well not be there."

"Another thing that we would all like to know is, 'Why did President Wilson recently order all Americans out of Mexico?' Many had valuable property there, and to leave it meant a great deal of loss. I have not yet been able to find a good, appearing satisfactory reason for the president's action in this regard."

Mr. Rogers has some things to say about the American consular service in Mexico, which are not in the least complimentary, and quoted the case where a Mexican court actually fined an American consul for contempt, and another where an American was arrested through the streets and killed without a proper investigation being made.

"The Mexican," he said, "knows that the American will back down and keep his mouth shut rather than create a disturbance, and this laxness has had a good deal to do with the disturbances which have been experienced in that country."

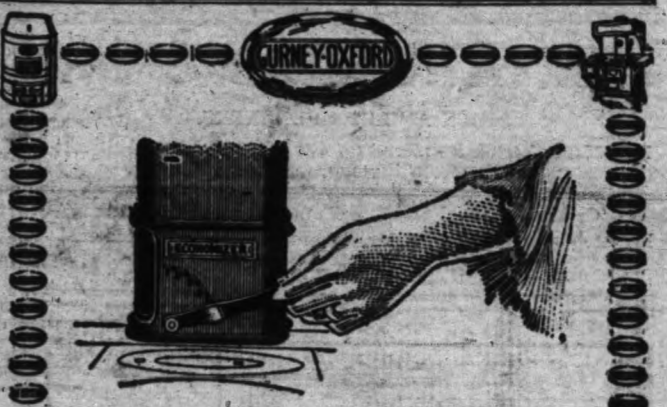

"If England," he continued, "had had the same relations with Mexico by means of the Munro Doctrine, there would have been no war and no revolution, for England generally insists on something being done."

Mexico's Handicap.

"Mexico's greatest handicap lies in the fact that the ownership of the land is held by the few. There are no small holdings. For instance, I recently visited a ranch that was 2,700,000 acres in extent and even then it had been cut up. That ranch was as big as the whole of Rhode Island and Connecticut, two of our states. And not one per cent of this glorious country was under cultivation. An English outfit has just bought it for about a dollar an acre."

"The Mexican is slowly selling out all his interests in his own country. He knows he can never put the land under cultivation in such a manner as to compete with northern industry, so that at the present time there is the remarkable position there that foreigners are paying forty per cent of the taxes of the country."

"There is the greatest opening to-

**Control Your Coal Expenditure**

In the Gurney-Oxford range you will find more exclusive features, more essential improvements that appeal to the thrifty housewife than have ever before been found in any one kitchen range.

But most important of all is the Economizer.

This clever device for regulating the drafts saves 1 ton of coal in every 6 that you would burn in the ordinary range. It takes the smell of cooking out of the kitchen and sends it up the chimney. You know what that means.

The Economizer enables you to absolutely control the amount of coal you wish to consume and still have a perfect heat for cooking. It will enable you to keep your fire going while you go out shopping or visit your neighbor, and all that is necessary for you to do on your return is to press the small lever and you are assured of a hot fire in a very few moments.

A Gurney-Oxford stove is sanitary—no dirt can accumulate on its beautifully smooth surface.

Its top is polished steel which abolishes forever that dreadful operation—blackening the stove.

Of paramount interest also are the other remarkable and exclusive attachments—the Special Grate, the Divided Flue and the Broiler.

Every woman who knows owns a Gurney-Oxford.

day for colonization in the world. There are rich valleys, good mining opportunities and practically everything that the heart of man can desire. The only drawback is insufficient water, and the vast irrigation and storing systems are fast altering that. There are also excellent markets to be found for produce in Southern Mexico.

"Another great handicap to Mexico is that there are no patriots. The large landowners left the city until the war was over. They do not look upon war as their business, and consider it undignified. The army therefore is very often recruited from the jails which in time of stress are opened twice a month for the purpose."

But the side of the country which interests Mr. Rogers most is the mining condition. This he pronounces excellent.

"Mexico," he says, "has always been par excellence a mining country. There is one silver mine there which has been working hard since 1542 and it is still going. In fact, it has been bought by an American syndicate which is starting right over again."

But Mr. Rogers is very hopeful for the future of Mexico.

He says: "With the quieting down of the rebellion there will be the greatest boom in land on this continent. The country will, I believe, settle up rapidly, trade and commerce will flourish, the wonderful crop-growing propensities of the land will be exploited to the full, and the ground will be mined more assiduously than ever. I anticipate a very great future for Mexico."
