PLAN ISLAND PRODUCE DRIVE Chamber of Commerce Directors Urge Improve Market Facilities

Plans for improving the Victoria Public Market, inaugurating a campaign to promote the purchase of island produce and generally aiding the agricultural development of the country about Victoria were endorsed by the directors of the Chamber of Commerce at their luncheon in the Spencer tea room today. Education of the citizens of Victoria to the conviction that the growth of the city is dependent to a great extent upon the development of its adjoining farming areas is a vital need now, the directors were advised in a report framed by the Development Group under J. A. Griffith. There is a great need also, the Group's report said, for stronger organization among the farmers and fruit growers, to permit of their co-operation both in the standardization and grading of their produce and its satisfactory marketing. The producer faces to-day a market which is "indefinite, unsteady and unprofitable."

Urges Curb Market. The Group recommended—and these recommendations were adopted—that (1) The City Council be urged to consider the establishment of a curb market in front of the present public market. (2) That the Council be requested to arrange for the improvement of facilities for display and arrangement of produce so as to increase its attractiveness—and also remove the unsightly and "indefinite" planning and poor sanitary conveniences. (3) That the Public Market take into consideration the advisability of preventing peddlers or hucksters in fresh vegetables and fruit from operating during market hours and that market hours be from six in the morning until two in the afternoon of every market day. (4) That the Provincial Government be requested to provide a stand in the market for agricultural literature.

Produce Campaign. (5) That the Directors approve plans for a campaign of education for the purchase of island produce and that a committee meet with representatives of wholesale and retail produce dealers to press these plans. The Group reported that farmers outside Victoria were taking great interest in the Chamber's efforts to aid them.

When Leo A. Menendez hurriedly threw off his coat and jumped from a motor boat into the middle of the bay in front of Strathcona Lodge, Shawanigan Lake, yesterday afternoon, he was merely doing some special swimming practice with shirt, trousers and shoes on. They saw him, however, come up to the surface of the water and swim to shore with a person. On the beach he gave her first aid, lifted her body so the water which she had swallowed ran out and then with arm movements got her breathing again. When she opened her eyes and came to persons learned that it was his wife, Mrs. Menendez, who is a new swimmer, thought she could swim around Shawanigan Lake alone. Her husband did not intend to go in the water yesterday and went for a row instead. Just as he was taking his boat back he noticed that Mrs. Menendez was swimming out in the bay and disappeared under the water. He started his boat out again and saw her float to the surface, gasping and struggling for air. He then jumped into the water and he dived and rescued her before she went down for the last time.

Persons holidaying at Summer houses along the shore took them in Mr. Menendez with a blanket wound around his waist taking the place of a wet suit of clothes, drove his car back to the shore and returned to Victoria last night. He is secretary to Attorney-General Manson; and lives at 1223 Oxford Street.

MOTORCYCLE STRUCK. While proceeding north on Quadra Street, and crossing Pandora Street, a motorcycle ridden by W. Mason, 483 Superior Street, and W. H. Spencer, Waverley Hotel, was struck by a motor car travelling east on the latter street. The car was driven by R. Porter, 619 Log Street, who reports that the police today that he had not seen the cycle until too late to avoid the crash. Mr. Mason sustained a fractured leg while his companion was cut above the ankle. Both were removed to the St. Joseph's Hospital by the driver of the car, where their injuries were attended by Dr. Fraser.

MUSICAL LUNCHEON. The Gyro Club held a musical luncheon at the Hudson Bay Hotel today. Miss Mary Middleton was the soloist and rendered several pleasing numbers. The Gyros engaged in many choruses. Arrangements are being made to have "Scotty" Martin, president of International Gyro, to attend a special luncheon this week.

ISLAND FOREST FIRES SITUATION REPORTED TO BE EASIER TO-DAY

(Continued from page 1.) sixty miles up the coast from Vancouver. Men, women and children stood in water while the roaring flames consumed their homes and the terrific heat scorched their faces. For four hours they underwent this ordeal on Thursday afternoon until rescued by a boat sent from Powell River.

According to officers of the Union Company's steamer Chastina, which stopped at Lang Bay, the fire is sweeping toward Stillwater after devouring everything but two houses at Lang Bay. The forty or fifty residents were driven into the sea by the flames, and some stood for hours in the water to their knees or necks, awaiting the arrival of help. When the Chastina reached there they found men, women and children, stripped of all belongings excepting the clothes they stood in, and those clothes were badly damaged by sparks. The faces, necks and hands of many of the men and women were scorched and blistered. The heat even blistered the faces of the little children as they waited on the shore for the ship. All the refugees were taken on board and the majority disembarked at Powell River.

FARMER GROUPS ARE ORGANIZED Two Sections of Canadian Council of Agriculture. Toronto, July 10.—J. J. Morrison does not agree with those persons who declare the Farmer movement is on the decline politically. "They look at the history of similar movements and then prophesy," he said. "There is one difference between the present situation and previous movements. The farmers have tasted power, and the taste is pleasant."

Mr. Morrison, who is secretary of the United Farmers of Ontario, has returned after an absence of several weeks in the Maritime Provinces, where he was busy organizing the eastern section of Canadian Council of Agriculture which shortly will be officially formed. In this section, Ontario, Quebec and the Maritime Provinces will be grouped. The western provinces will form a second section, while the present Canadian Council will continue to act as a Federal body.

At the next meeting of the Canadian Council of Agriculture, which will be held this month, it is likely that the two sections will be officially established. The intention is to have the present secretary, Norman P. Lambert, as general secretary for both the new divisions as well as the Federal body. Mr. Morrison will advocate that the headquarters of the Council be moved from Winnipeg to Ottawa.

HARDING URGES COAL MINERS IN U.S. GO TO WORK

Washington, July 10.—President Harding submitted today to the Unanimous and anthracite coal operators and miners gathered here in conference a proposal that the miners return to work at the wage scale in existence when work was suspended April 1 and continue work on that scale until August 10, meanwhile an arbitration board being appointed to negotiate a new wage scale.

OFFER MADE BY SOVIET DELEGATES

(Continued from page 1.) but there is little reason to believe, says Reuter's, that France intends to break up the conference. Likewise there is no truth in the report that Great Britain is treating separately with the Russian delegation. Whatever the Russians may have in mind, Reuter's adds, it is clear they have not the least chance of producing a decision among the non-Russian delegates.

UNCERTAINTY AT HAGUE REPORTED

The Hague, July 10.—European representatives frankly declared today that unless the Soviet delegates made concessions from their intransigent policy announced Friday, it would be quite useless to continue the conference. The British delegation remains optimistic, however. It believes that suitable compromises will be found on the vital problem of the property of foreigners in Russia. The Italians also are hopeful. Pessimistic groups think that the Russians do not care whether the conference succeeds or collapses, as they will hope to make advantageous separate financial groups with different financial groups and thereby obtain immediate credits.

No Restitution. "Russia's plan for restitution is not restitution at all," said one delegate today. "The Bolsheviks have no intention of restoring property, but indicate that they will distribute concessions, including expropriated property, to the concession hunters who have the most money."

That, indeed, is the Bolshevik decision outlined on Friday by M. Litvinoff, Russia's aggressive chief delegate, but Leonid Krassin, who cleverly negotiated a trade agreement with Great Britain and who is quietly coming forward as a figure of conciliation, has furnished hope that a settlement will be found on a compromise between unacceptable Bolshevik confiscation and the equally determined Europe demand for anti-coup restoration. There are some indications that the Russian leaders are talking for Communist theories of consumption and that while insisting that restitution is impossible they will in practice consent to arrangements for virtual restoration without seeming to do so.

Some of the questions created considerable alarm as indicating a desire on the part of the Russian delegation to apply Communist theories in all their dealings in foreign lands. Common Report. "It is not so sensational as Genoa," said one delegate to the Associated Press today, "but it is vastly more important to the world's future. The western world must take its stand here on the inalienable rights in respect to property and cannot drift into collectivism or see in favor of it. If we cannot reach an accord at the Hague, we can certainly prepare a common report to our governments calculated to advance the settlement of the Russian situation."

MONTREAL "JOKER" HAD MANY MEN CALL AT HOUSE. Montreal, July 10.—Firemen, physicians, ambulances, the morgue wagon, detectives, constables and a fleet of taxicabs called one after another at 218 Dorien Street here between 4.45 and 5 o'clock yesterday afternoon. The Record is owned by W. D. Euler, M. P., W. J. Note being manager. D. A. Beam is managing director of the Telegraph.

Who Pays for Advertising? THIS is a direct and reasonable question; and in the case of Daily Newspaper advertising, intelligently used, the answer is simple: Nobody. It pays its own way. Nobody pays for the new carburetor that gives added mileage to your motor car. It pays for itself in the gasoline it saves. Nobody pays for an improved cash system in a modern department store. It pays for itself in economy of human time. Nobody pays for well planned and written Daily Newspaper advertising. It pays for itself by reducing the cost of sales and by increasing production. And it often receipts old bills for follies with advertising labels. The advertisement in your own local Daily Newspaper tells you the best things to buy and where to buy them. Every new purchase helps the whole community to command cheaper and better goods. Issued by the Canadian Daily Newspapers Association, Toronto

Toronto Woman Gives Credit to Lydia E. Pinkham's Vegetable Compound

Toronto, Ontario.—"I suffered with irregular periods, was weak and ran down, could not eat and had headaches. The worst symptoms were dragging down pains, so bad I sometimes thought I would go crazy, and I seemed to be smothering. I was in this condition for two or three years and could not seem to work. I tried all kinds of medicines and had been treated by physicians but received no benefit. I found one of your booklets and felt inclined to try Lydia E. Pinkham's Vegetable Compound. I received the best results from it and now I keep house and go out to work and am like a new woman. If these facts will help some poor woman, use them as you please."—Mrs. J. F. URGES PEOPLE TO ATTEND CHURCH

Anglican Bishop of Montreal Makes Appeal

Montreal, July 10.—An appeal to churchmen to attend divine service on Sundays even if it does entail abandonment of motor trips or golf games, is made by the Right Rev. J. C. Farthing, the Anglican Bishop of Montreal, in his monthly message. The Bishop says:
"I am not pleading for a Puritan Sabbath. I am not asking that we should be the slaves of every unreasonable crank, so that we must not do anything to which anyone objects. I am asking that each one should strive to be the best that he or she can be, and that we should each do those things which will strengthen our influence for Christ. I do not say that motor trips and golf are wrong on Sunday. That must be left with the conscience of each one to judge for himself. I do say that when our pleasures, however innocent they may be in themselves, come between us and our worship of God, then they become to us hindrances and not help."

MANITOBA FARMERS ARE OPTIMISTIC

Splendid Promise As Result of Rains

Winnipeg, July 10.—This district received its heaviest precipitation of rain so far this year over the week-end, and the crops derived considerable benefit. During Saturday night almost an inch fell, while yesterday another inch and a half was reported in a downfall which continued throughout the day.
Reports from many parts of Manitoba state that the rain fell generally and without partiality as to locality. All indicate the value of the rainfall to the crops. Carman, speaking for the central part, reported rain was very beneficial in succoring the late grain crops. In the central and northwest part of the province the rain has put the crops in first class shape. In the central parts it is reported that crops have never looked better, and the general growing conditions have hardly ever appeared more hopeful. Jubilant reports were sent in from points all along the southern boundary.

Edmonton, Alta., July 10.—Edmonton and all of Northern Alberta is getting its full share of rain. Almost every cloud that is sighted sends a shower. There was half an inch of precipitation during the last week. It rained yesterday afternoon.

Saskatoon, July 10.—The weather here and in the districts west of here has been warm and dry during the last few days. There is a decided need for more rain, although the crops are reported to be coming along well in most places. The June rains, although frequent enough, were not very heavy in this district and did not soak the ground thoroughly.

KEEP IT UP.

Great Britain's intention to seek another international conference to extend the results of the Washington gathering and consider the question of abolishing the submarine in warfare should be welcomed by all the nations.

Intimation has reached Victoria to the effect that the Empress of Australia which is now dead-heading up the coast to British Columbia ports will not call here on her first trip.

agricultural interests whose political support is by no means inconsiderable.

Meanwhile it is amusing to observe with what spirit some of the Old Country newspapers are demanding that the Government live up to the pledge of 1917. In scarcely any of the Canadian editorial columns has there been half as much warmth displayed.

SHOULD CALL HERE.

Under the old form of diplomacy it was not possible for the masses to learn of the inner trend of international events. Their interest usually began with the contemplation of war and rumors of war and all that these things meant.

STILL MORE CAUTION.

In suspending all logging operations for as long as the fire hazard remains as serious as it is at present the Provincial Government has taken a wise course. Such loss through dislocation of one of our most important industries will impose will be compensated in the long run by the effective work that the large army of woodsmen will be able to perform in the danger zones.

CHANCE TO HELP.

Victorians will scarcely need reminding that it is their privilege to assist the people who have lost practically all their earthly things in the devastating fires which have swept and are still sweeping this Island.

QUITE CANDID.

There is one thing that commands admiration in Sir Arthur Griffith-Boscawen and that is his absolute candor in respect of the cattle embargo. For the second time he has announced to the general public that he will both speak against and vote against its removal.

And while it may seem superfluous to remind campers and holiday makers of the stern necessity to refrain from throwing lighted matches and lighted cigarette and cigar butts to any sort of parched vegetation, the fact remains that no amount of elaborate fire fighting equipment can prevent serious losses through fresh outbreaks.

NOTE AND COMMENT

According to The London Times freight rates from British ports to the west coast of South America by the regular British lines will be cut fifty per cent. All of which suggests that nobody has been losing money on the old schedule.

Reports from Berlin do not seem to harmonize with the suspicion that Germany will go ahead and prepare for another war. It will be a long time before the Fatherland gets into a military stride again.

SUMMER SCHOOL IS NOW OPEN

ver, and Miss Panny Twiss, B. Sc., of the Province of Saskatchewan. In the Home Economic Courses special advantage must accrue from the fact that two of the instructors have just returned from a year's leave of absence during which they took special courses of training.

Most valuable service to the Summer School is rendered by the cooperation of Miss Helen Stewart, who is supervising the selection of supplementary volumes available at the Public Library and necessary for the various branches of study. It is only to be regretted that the school is only to be held during the summer months, which is a great disadvantage.

Penmanship. Educationalists of all classes will applaud the introduction of a special course in writing and penmanship, under the direction of H. B. MacLean, Provincial Normal School, Vancouver; and R. W. MacKenzie, Instructor in Writing, Seymour School, Vancouver.

Recreation. Opportunities of recreation and social amenities are afforded by the regular Friday evening entertainment which are organized during the five weeks' training. It is safe to say that the Summer School is the basis of more congenial and lasting friendships founded on a relativity of tastes and interests than any other factor of social life.

ARMY TO OPERATE IN CORK REGION

forces at Ferns, thirty-one irregulars occupying the post office were ordered to surrender. This they did after short resistance in which four irregulars were wounded. All the others were made prisoners.

More than 50 prisoners were taken on Sunday in Wexford. Some of the irregulars in this area are said to have had in their possession flat-nosed revolver cartridges. The irregular republican army forces captured in Skeheen, County Kilkenny, and imprisoned in the Leterkenney courthouse, wrecked the building Saturday. They also sacked the Carned Library, a school building on fire. National troops which were hurried to the scene, removed the prisoners and extinguished the fire. It is not believed serious damage had been done.

Cork, July 10.—The republican army has apparently transferred its headquarters from Skibbereen to Limerick, as Sunday night's official statement was issued from the latter place. The statement, dealing with the general situation, claimed that the whole of the south, west and midlands stood firm for the republic, although it admitted that Kilkenny city, Thurles, Maryborough and Shannon bridge were held by the Free Staters. It also conceded that the republicans had evacuated Sligo, which the national forces now occupied, and said fighting was in progress in the surrounding districts.

As regarded Limerick city, normal conditions had been practically restored. Most of the commandeered buildings had been evacuated and the troops withdrawn from duty elsewhere.

GIRL GUIDES CONFERENCE IS GREAT SUCCESS

Membership of About 3,000 in Province

Duncan, July 9.—Mrs. Walter Nichol, Provincial Commissioner, opened a provincial Girl Guide conference in the local Girl Guide Hall at 11 o'clock on Saturday. There were present Miss Cotton, provincial secretary; Mrs. Tyrrell Godman, deputy provincial commissioner, and also divisional commissioner for Vancouver Island, Mrs. Lake, divisional commissioner for the Lower Mainland, and divisional commissioners Miss Leighton, Victoria; Mrs. Gavin, Burnaby; Miss Denny, Cowichan; and Mrs. Heaps, New Westminster. In her report of the past six months' work Miss Cotton stated that there were at present 26 companies in the province, and roughly 2,000 Guides and Brownies. Requests have been made from 12 centers asking instruction as to the formation of companies. Visits had been paid to six places for organization and inspection. Propaganda pamphlets had been sent out all over the province.

About 400 had been spent in equipment, i. e. badges, books, hats and material for uniforms, and the provincial office was now \$50 in debt. Mrs. Godman reported that the work of the island and also throughout the province, and the great increase in members of companies and Guides, and the volume of work being done.

For Organization Purposes. Mrs. Godman, chairman of the meeting, made an appeal for help for the secretary. The meeting decided that at the discretion of the commissioner and funds permitting she should have a small remuneration, and the secretary should have an assistant when necessary.

PREPARE FOR GARDEN FETE
Preparations are now almost completed for the garden fete in aid of the Sailors' Club, Esquimalt, which is to take place on Wednesday afternoon at "Fernhill", the home of Mrs. Proulx.

Every kind of taste has been catered for, and those whose inclinations lie towards games and diversions, as well as those whose pleasures lie rather in the direction of picking up unconsidered trifles at the well-stocked booths of fancy work and art goods, are all promised a thoroughly enjoyable afternoon.

Conveners of stalls are requested to assemble this evening at 8 o'clock at "Fernhill" to make final arrangements and choose the locations for their stalls. Contributions towards the undertaking will be very gratefully received and should be left at Messrs. Hibben's, Government Street, or at the Sailors' Club, Esquimalt, before Tuesday night.

P. for Rushmore, and who for some time was with the Canadian corps, to Ursula, the elder daughter of Sir John Norton Griffith. Added Charms Whiter, More Sanitary Teeth

Millions now enjoy them

If all knew what millions know, all would brush teeth in this new way. Everybody wants whiter, cleaner, safer teeth. Those who lack them envy those who have them. The way is easy and delightful. It means just combating film. And this ten-day test will show you how to do that.

That dingy film
Teeth are coated with a film—that viscous film you feel. It clings to teeth, enters crevices and stays. Stains cause it to discolor. Then it often forms dingy coats, including tartar.

Old ways of brushing do not effectively combat film. So much remains to night and day threaten serious damage. Film clouds the teeth's luster.

It often becomes badly stained. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. So much things that wreck teeth and make them unsightly are now traced to that film.

Learn what it means to you and yours. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using, how refreshing the mouth tastes. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. You will continually combat film-coated teeth when you learn what this method does. Cut out the coupon now.

Thus, by easy means of the gar- rulous Hapgood, appear persons places, institutions; lives, homes, ac- tivities; the web and the tangle and the amenities of a minute fragment of human existence. Life. An odd business. Into life we come, myster- iously arrived, are set on our feet and on we go; functioning more or less ineffectively, passing through permutations and combinations; meeting the successive events, shocks, surprises of hours, days, years; becoming engulfed, sub- merged, founded by them; all of us, nevertheless each his own in- dividuality, as swimmers carrying such an undetachable burden through dark, enormous and cavern- ous seas. Mysterious journey! Un- charted, unknown, and finally—but there is no finality—mysterious and stunningly secure—no end—to the mysterious and tremendous adventure! Finally, of this portion, death, disappearance, gone. Astonishing developments. Mysterious and mys- terious arrival, tremendous and mys- terious passage, mysterious and mys- terious departure. No escaping it; no- velties, no depression in shape like a prospect of defeating it or solving it. Odd affair! Mysterious and baffling conundrum to be mixed up in...

Come to this pair, Mark Sabre and his wife Mabel, at Penny Green, and have a look at them mixed up in this odd and mysterious business of life. Some apprehension of the odd affair that it was characteristic of Mark Sabre's habit of mind, increasingly with the years,—with Mabel.

Penny Green—"picturesque, quaint if ever a place was," in garrulous Mr. Hapgood's words—lies in a shallow depression in shape like a narrow meat dish. It runs east and west, and slightly tilted from north to south. To the north the land slopes pleasantly upward in pastures and orchards, and here was the site of the Penny Green Garden Home Development Scheme. Beyond the site, a considerable area, stands Northrepps, the seat of Lord Tybar. Lord Tybar sold the Development site to the developers, and as he signed the deed of conveyance, re- marked in his airy way, "Ah, nothing like the existing gentleman. That's made every one of my an- cestors turn in his grave." The de- velopers tittered respectfully as be- fits men who have landed a good thing.

Westward of Penny Green is Chovenbury; behind Tidborough the hills. Viewed from the high eminence of Northrepps, Penny Green gave rather the impression of having slipped, like a sliding dish, down the slope and come to rest, slightly tilted, where its impetus had ceased. It was certainly at rest; it had a restful air, and it had certainly slipped out of the busier trafficking of its surroundings. The main road from Chovenbury to Tid- borough, coming from greater cities even than these and proceeding to greater, ran far above it, beyond Northrepps. The main road rather slighted than acknowledged Penny Green by the nervous and shrunken feeler which, a mile beyond Choven- bury, it extended in Penny Green's direction.

This splendid main road in the course of its immense journey across Southern England, extended feelers to many settlements of man, provid- ing them as it were with a talent which, according to the energy of the settlement, might be increased a hundredfold, drained, melted, tarred, and adorned with splendid telegraph poles and wires—or might be wrapped up in a napkin of neglect, monstrous overgrown hedges and decayed stumps, and allowed to wither; the splendid main road, having re- gard to its ancient Roman lineage, disdainfully did not care tuppence either way; and for that matter Penny Green, which had ages ago put its feeler in a napkin, did not care tuppence either.

It was now, however, to have a railway. And meanwhile there was this to be said for it: that whereas some of the dependents of the splendid main road constituted themselves abomi- nably ugly carbuncles on the end of shapely and well-mantled fingers of the main road, Penny Green, at the end of a withered and entirely neglected finger, adorned it as with a jewel.

A Kate Greenaway picture, the garrulous Hapgood had said of Penny Green; and it was well said. At its eastern extremity the thithered talent from the splendid main road divided into two talents and encircled the Green which had, as Hapgood had said, a cricket pitch (in Summer) and a duck pond (more prominent in Winter); also, in all seasons, and the survivors of many ages, a clump of elm trees surrounded by a decayed bench; a well surrounded by a decayed paling, so decayed that it had long ago thrown itself flat on the ground into which it continued venerably to decay; and at the south- eastern extremity, a village pond surrounded by a decayed grey wall and now used by the youth of the village for the purpose of impound- ing one another in parties or sides in a game well called "Found I."

At the southwestern extremity of the Green, and immediately opposite the Tybar Arms, was a blacksmith's forge perpetually inhabited and directed by a race named Wirk. The forge was an ancient habitation or personal and individual workshop actually on the Green, and it was said, and freely admitted by the successive members of the tribe, that it had "no right" to be there. There it nevertheless was, had been for centuries, so far as anybody knew, and it was a curious thing that it was always there. In some mysterious way which nobody ever seemed to recognize till it actually disappeared, it was always there. Wirk to continue the forge when the father died and was carried off to be deposited by his fathers who had continued to do so for centuries. Wirk said in the village, as touching this matter of "no right" that nobody could understand how the forge ever came to be there, and that it could be turned off one day; and with this also the current members of the tribe of Wirk cordially agreed. They understood less than anybody how they ever came to be there, and they knew perfectly well they would be turned off one day; saying which, and it was a common subject of debate among the village folk. One Summer evening, seated outside the Tybar Arms—saying which, the Wirk of the day would gaze earnestly up the road and look at his watch as if the power which would turn him off was then on its way and was getting a bit overdue.

The present representatives of the tribe of Wirk were known as Old Wirk and Young Wirk. Young Wirk was sixty-seven. No one knew where a still younger Wirk might come from when Old Wirk died and when Young Wirk died. But no one troubled to know. No one knows, presently, where the Wirk is coming from, but he always comes, and successive Wirk appeared as surely. Old Wirk was past duty at the forge now. He sat on a Windsor chair all day and watched Young Wirk. When the day was finished Old Wirk and Young Wirk would walk across the Green to the pond, not together, but side by side, and Young Wirk immediately behind him; both with the same gait, bent and with a stick. On reaching the pond, the two would gaze profoundly into it over the decayed, grey wall, rather as if they were looking to see if the power that was going to turn off the forge, was going to be there, the power apparently not being there, they would return, trailing back in the same single file, and take up their reserved positions on the bench before the Tybar Arms.

Mark Sabre, intensely fond of Penny Green, had reflected upon it sometimes as a curious thing that there was scarcely one of the vil- lage's inhabitants or institutions but that he discerned little differences of attitude between himself and Mabel who was not intensely fond of Penny Green. The aged Wirk had served their turn. Mabel had once con- sidered the Wirk extremely inter- esting, and quite early in their married life, had invited them to her house that she might photograph them for her album.

Mabel did what Sabre called "tiew up"; and at the summit of her flight up inquired, "Suppose some one called?" "Well, suppose they did?" Sabre inquired. Mabel in a markedly calm voice then gave certain orders to the maid, who had brought out the tea and remained while the fate of the aged Wirk was in suspense. The maid departed with the orders and Sabre commented, "Sending them off? Well, I'm dashed!" Half an hour later the aged pair, having been led into the kitchen and having had tea there, were led out again and released by the maid on to the village Green rather as if they were two old ducks turned out to grass.

Sabre, watching them from the lawn beside the tea-table, laughed and said, "what a finished stupid business. They might have had tea on the roof for all I care." Mabel tinkled a little silver bell for the maid. Ting-a-ling-ting! (To Be Continued.)

FOR CHILDREN THE SANDMAN STORY FOR TO-NIGHT

MR. DOG CATCHES MR. FOX

Part I.

Mr. Dog knew that he could catch Mr. Fox if only his Master would leave the chain off his collar for one night; but in spite of all his good reason at night the chain was always fastened on his collar. It hurt Mr. Dog's feelings very much to have this done, and he would lie very still at the door of his house for a long time after his Master had fastened the chain, looking as if he had no friend in the world.

Of course, Mr. Dog had a faint idea why this chain was put upon him, but it was a long time ago that he chased a stray rabbit one night into the woods and stayed until morning, and Mr. Fox came while he was away and carried off a prize chicken. He had been very sorry about it and promised in all ways of which he was master to show Mr. Man that

He barked when he heard Mr. Fox

he would never, never do such a thing again. But all in vain, for each night the hated chain was fastened to his collar. Of course he barked when he heard Mr. Fox, or even saw his shadow, and Mr. Fox had never carried off a chicken or anything since that night, and once the Master came out and fired a shot at Mr. Fox which almost hit him.

But in spite of all this, Mr. Dog wanted to catch Mr. Fox, for he was the one who was to blame for his being chained up every night. If he had not come on that very night when he ran after the rabbit Mr. Dog was sure he never would have been found out. But how was he to catch Mr. Fox when he could not chase him? That was what Mr. Dog was thinking about one night as he lay listening by his doorway.

Something stirred in the bushes; up jumped Mr. Dog and began to bark. He grew so excited that before he knew what he was doing he found he had run around a clothes-line post and twisted the long chain around it. It brought Mr. Dog to a standstill with a jerk and he stopped barking when he ran after the rabbit Mr. Dog was sure he never would have been found out. But how was he to catch Mr. Fox when he could not chase him? That was what Mr. Dog was thinking about one night as he lay listening by his doorway.

Throughout the province there has been the greatest interest taken in the Guide movement. The rally in Duncan is twice as large as that held in Vancouver last year.

STILL HAVE HOPE OF RACING HERE

Prohibitive By-law is Ultra Vires, Says Sangster

The B.C. Agricultural Association has by no means abandoned hope of staging races here this year, according to George Sangster, secretary of the association. "We still believe that Oak Bay Municipality is powerless to prohibit racing," Mr. Sangster said to-day. "It is true that, under the Municipal Act, the Municipal Council is given power to regulate and prevent racing, but this legislation, we believe, is ultra vires of Federal legislation which legalizes pari-mutuel operations. What the association will do now that the Oak Bay Council has passed a by-law to prohibit racing it is impossible to say, of course, until the association directors have met and discussed the matter."

Afterwards the Guides were seated on the ground in a large hollow square, while prizes for the day's events were presented by Mrs. Godman, divisional commissioner for Vancouver Island, with the kind assistance of Hugh Savage and Miss Hayward and Miss Colton. Great interest.

Members of the Oak Bay Council are confident their by-law prohibiting racing will stand. They have been advised by their solicitor, that they are quite within their rights in prohibiting the proposed Fall race meet.

Mayor Marchant will give notice at to-night's meeting of the City Council that he will call a special meeting Friday afternoon, when he will ask the aldermen to reconsider their decision to allow racing. The Mayor has prepared a formal statement outlining his reasons for opposing racing.

When the Council meets Friday it will hear the representations of the Ministerial Association on the racing question.

MANY TOURISTS USE MOTOR CAMP

Large numbers of tourists are making use of the motor camp established by the Tourist Trade Group of the Chamber of Commerce at the George Hotel, Frank Waring, Chairman of the Group, and his colleagues are kept busy looking after the visitors who are flocking into the city from all parts of America. The Tourist Trade Group has erected an artistic sign on the C. P. R. wharves welcoming visitors to the city. On the reverse side of the sign, which will be seen by all people walking to the boats, visitors are invited to return again and enjoy the beauties of Vancouver Island once more.

FAIR PRICED LIQUOR WOULD BE BENEFICIAL SENATORS DECLARE

Ottawa Bill Turned Down to Protect People's Rights

Senator G. H. Barnard and Senator R. F. Green, back from the session at Ottawa, explained that it was to protect the rights of the people of British Columbia against the dangers from their own Government getting monopoly that the Senate threw out the amendments to the Canada Temperance Act designed to prohibit individuals from importing liquor and make them all buy through the Government liquor stores. "Our stance was that the whole principle of the bill was to take away from B. C. one more of its privileges," said Senator Barnard. "We were through with that. We desired to relinquish that privilege and prohibit private importations then they should be allowed to express themselves and do so in the same manner and on the same terms as other provinces, which voted on importation."

"We took the broad ground that the people of B. C. had not only never asked for the prohibition of private importations, but that in the present Liquor Control Act had reaffirmed the principle of the former Prohibition Act, which expressly provided that private importations and consumption in the homes of the individual should not be interfered with."

When the referendum in British Columbia was taken the only question put to the people was whether they wanted the old Prohibition Act or Government sale in second packages, and nothing was said about prohibition of importation by the individual. "We pointed to the fact that under the Canadian Temperance Act a Province, having approved of prohibition and desiring a vote on the question of importations, could provide the same at the expense of the Dominion. We could not see how to distinguish in principle between such a case and that of a Province like British Columbia, where the people had rejected prohibition and favored Government sale. We were asked to vote upon the question of importation."

"We took the ground that so far as the operations of the bootlegger are concerned that situation could be properly met by the Government importing liquor of proper quality in sufficient variety to meet the demand of the people and by selling it at reasonable prices."

Protest From Liquor Board. "If the Provincial Liquor Control Board would treat the people of this Province as good, wholesome citizens or no importations by private parties," said Senator Green. "The people are entitled to the right to purchase good, wholesome liquors at reasonable prices; they are entitled to secure from the Government vendors the particular brands of liquors and they prefer to pay, as I said, reasonable prices. Unless and until they are allowed their undoubted right in this respect, it would be absurd to prohibit them from importing what they desire, and dealing with parties from whom they can get fair treatment as to quality and price."

"The Provincial Government now has knowledge of every importation that comes into the Province, and, therefore, is in a position to know who is doing the importing, and if, in its opinion, this importation is for bootlegging purposes, the Government possesses all the authority and machinery to deal with the importer who is misusing his privileges."

"While the bill was made to apply to liquor only, yet, once the power was granted, any province might ask for authority to place an embargo upon any article of commodity, no matter what might be its character. The Senators from British Columbia were unanimously opposed to this legislation on that ground and also on the ground that the people of the Province are entitled to the right which they undoubtedly now possess of importing the particular kinds of liquor they desire to have. In addition, they were very much opposed to the principle of granting to a provincial government or to anyone else an absolute monopoly of this or any other traffic."

AUTHORS' ASSOCIATION HOLDS SESSION

Mr. Sheldon Williams presided at the last meeting of the Canadian Authors' Association, Vancouver Island branch. Major Longstaffe assumed the duties of secretaryship in place of Mrs. R. F. Bishop during her absence on vacation. The treasurer's report was presented by Mr. Donald Fraser, and after the usual business had been transacted, the meeting listened with interest to a report on the possibilities of publishing a Christmas annual, submitted by Miss Eugenie Perry, convener of the committee. An honorary appointment to look into the matter. On the motion of Major Longstaffe it was decided that nothing of a public nature be attempted this year, the time available being so limited.

News from the Ocean Lanes

AUSTRALIA NOT TO CALL ON FIRST INBOUND VOYAGE

Company is at Present Undecided and Might Be Influenced by Pressure

The port of Victoria is not included in the itinerary of the present voyage of the S. S. Empress of Australia, now-nearing the termination of her maiden trip from the Clyde to this coast, and unless the Canadian Pacific Steamships Ltd. changes its plans, or some pressure is brought to bear by responsible authorities, it is altogether improbable that the 21,400 ton passenger liner will dock here about July 19 on her way to Vancouver.

Unless the liner, which is now on her way up the coast from Balboa, puts in at a California or some other port, which is altogether unlikely, she will have to put into quarantine at William Head to get a clean bill of health.

Deadheading: She has no passengers and is to all intents "deadheading" out from the United Kingdom. The schedule of the company calls for the first visit of the Empress of Australia to the dock here when she arrives from Panama about July 19. No definite decision, however, has been reached. The Empress of Australia is a new ship, having been in the builders' hands at the outbreak of the war. She has been converted into an oil-burner, and is similar in equipment and standard to the Empress of Scotland. A twin-screw steamship of 21,400 gross tons, 590 feet in length, 75.2 in breadth and 41.5 in depth, the Empress of Australia will prove a notable addition to the company's Pacific fleet, which already maintains the quickest time across the Pacific with the well-known 19,500-ton liners Empress of Russia and Empress of Asia.

NORWEGIAN SHIPS IN CANADIAN SERVICE

The steamer Norefjord, of the Norwegian-American Line, for which the Canadian Pacific is the traffic agent, arrived in Montreal on July 1 from Stavanger to undertake the second of the monthly summer freight sailings between Canada and Scandinavian ports. She will supplement the service, which is being recently announced, will be provided by the steamers Idefjord, Topdalsfjord, Drammensfjord and Ranefjord, and which is expected to be extended shortly to include Danish ports in the itinerary. The Norefjord was built at Newcastle-on-Tyne in 1919 by Wood, Skinner & Co. and is a "tween-decked" burner of about 5,300-ton deadweight capacity.

The Topdalsfjord and the Idefjord were built and outfitted by Canadian Vickers, Limited, of Montreal, to the order of the Norwegian-American Line. They are of the two-deck, poop, bridge and forecastle type, with straight stem and elliptical stern, and were constructed to the highest requirements of Norske Veritas and Norwegian Board of Control. The principal dimensions are: Length 365 feet; breadth, 49 feet; 6 inches; moulded depth, 29 feet; draught, 24 feet 1 inch; with a deadweight tonnage of 5,400 and a sea speed of 11 1/2 knots. The Drammensfjord is of 7,500 tons, with 240,000 cubic feet of space, and the Ranefjord an up-to-date oil burner of 7,500 tons, with 365,470 cubic feet of space.

ONE HUNDRED WILL BOARD H. F. ALEXANDER HERE

New Admiral Liner Will Dock Here To-morrow Night for San Francisco

Another notable port development will be marked to-morrow night when the palatial passenger liner H. F. Alexander, the largest, fastest and most luxuriously equipped vessel plying in the Puget Sound-California service, will call at Victoria on her southbound voyage from Seattle to San Francisco and Wilmington, Cal.

The schedule of the H. F. Alexander provides for regular calls at Victoria every Tuesday night, southbound. The H. F. Alexander arrived at Seattle from San Francisco on Sunday and to-day is at Tacoma. The crack Admiral coast liner will leave Seattle at 5 o'clock to-morrow afternoon and will dock here about 9 o'clock at night to embark local passengers on her way out to sea.

Bookings Heavy. William N. Allan, general agent for the Admiral Line here, announces that fully one hundred passengers will embark on the H. F. Alexander at this port to-morrow night. This will be a sixth of the total number of passengers on board as the liner has accommodation for 655 passengers in her first class space. She is expected to go South with practically a full list.

The H. F. Alexander is 525 feet long, 63 feet beam and 50 feet deep. Speedy Ship. The vessel has triple screws driven by Parsons' turbines and has a cruising speed of 23 knots. A full description of the H. F. Alexander was published in The Times of June 13 last.

Since being acquired by the Admiral Line the H. F. Alexander has been refitted at a cost of \$500,000. The H. F. Alexander first achieved fame as the Great Northern when she operated between Portland and San Francisco. Adding to her laurels and in competition with the fleetest ships of the merchant navies of the world, she established a world record while carrying troops to France when she made the trip to Brest and back to New York in twelve days and one hour. During the war she made twenty trips through the danger zone and while more than once in peril, she always by her superior speed succeeded in showing her heels to any enemy craft. In this service she completed 72,000 miles in ten months and landed more troops per day per thousand tons than any other troopship, transporting no less than 30,000 men. While trooping, the H. F. Alexander humbled the Levathan, former speed queen of the German merchant service, when she made the trip west in three hours less than the Levathan.

After the close of hostilities she was acquired by the U. S. Navy Department and was commissioned flagship of the Atlantic fleet, this being the first time that a civilian vessel was engaged in this capacity in the history of the American navy, when she was purchased by the Admiral Line for an extra fast, extra fine coastwise service between Los Angeles, San Francisco, Victoria, B. C., and Puget Sound.

The ship is commanded by Capt. Edward P. Bartlett, a veteran skipper of the Admiral Line, and formerly master of the trans-Pacific liner Silver State.

MAJESTIC LEFT PEOPLE AT PIER

Giant Liner Sailed One Hour Ahead to Get Advantage of Tides

New York, July 10.—More than sixty second cabin passengers booked on the Majestic were left behind when she sailed an hour ahead of the time Saturday to take advantage of the high tide which is necessary to float her huge bulk out of the harbor. The advanced sailing had been widely advertised but many of her passengers apparently did not read the warning and arrived at the pier just as she was casting off.

ADMIRAL SHIP IS AWAY FOR ORIENT

SS. President Grant Carried Good List on Her Outward Voyage

The Admiral liner President Grant, Capt. "Mike" Jensen, cleared from this port Saturday night with about one hundred cabin passengers, among whom was a party of twelve Jesuit priests going to scattered missions in the Philippine Islands.

Judge C. S. Lobinger, judge of the U. S. court at Shanghai, was another passenger. A world traveler was J. J. Curry, of the American By-products Company, who will tour the Orient on a business trip. Also on board was Rear-Admiral W. W. Phelps, U.S.N., and Mrs. Phelps, booked to Tientsin, where the distinguished officer is proceeding on mission for the U. S. Government. He but narrowly escaped view of former command, the H. F. Alexander, ex-Great Northern, which he commanded during her war service, relinquishing her during the war to command the Levathan.

Roy Currythers, who recently passed through here on an Admiral liner, is sending out one of his lieutenants on the President Grant in the person of W. Henry, who will attend the opening of the new palatial Imperial Hotel at Tokyo, and will launch the big hostelry and see it along its course on accepted American lines. Another passenger, Mr. Woo, secretary to the Chinese legation at Washington. Some school teachers were also aboard, bound for Manila under the auspices of the U. S. Bureau of Education.

Among the passengers going aboard here was Miss Clarissa Ranker, of Chicago.

BRIGHOUSE LESSEES WOULD LOSE HEAVILY Court of Appeal Hear of Opposing Leases Over Vancouver Race Grounds Three Wilkerson Brighouse, and the three other shareholders of the Brighouse Race Track, Ltd., stood very heavily if the appellants, the B. C. Thoroughbred Association, were successful in securing a declaration that their 50 year lease was still valid. E. T. Davis, K. C., resumed his address to the Court of Appeal to-day in that hearing. During the war the respondent, Brighouse, had found a difficulty in finding any of the directors, or anyone representing them to do business with. The respondent, continued counsel, gave every notice of his intention of terminating the 50 year lease formerly held by the appellants, of property on Lulu Island, known as Brighouse Park. When the lease was cancelled a new lease was granted by the respondent to the Brighouse Company, in which the respondent held 40 per cent of the stock, and three other shareholders held the remaining 60 per cent. These shareholders, were liable for the Brighouse Company, had spent \$20,000 in improvements of the racing grounds, and held a lease that would not terminate until the end of this year. Were the lease to the B. C. Thoroughbred Association held valid at this date the Brighouse Company stood to lose very heavily, continued Mr. Davis. If the contention of the appellants that their company, once restored to the list of joint companies had been deemed to have been registered without intermission at all, then the appellants, were liable for \$20,000 in unpaid rent and \$2,400 in taxes, yet unpaid. Unless this were so a company could voluntarily disband to avoid its obligations, and resume operations later. On the contrary, continued counsel, the respondent gave the B. C. Thoroughbred Association clear notice that the 50 year lease, of which 49 years remained unexpired, would be cancelled, and even put their caretaker off the ground where he had been residing, and this before granting the new lease to the Brighouse Company, the present holders. As it was, said counsel, the Brighouse company had spent \$20,000 in improvements, and had a normal right to expect that the lease would be renewed. The directors of the company had understood each other so well that provision for a renewal of its lease was not thought necessary.

The campaign against thistles is a regular feature of the police work at this time of the year and usually about ten prosecutions follow as a warning. Married a Turkish Woman—Nesly written, and in French a request from a lady in Constantinople was received by Chief Fry this morning asking local police aid in tracing the whereabouts of a Canadian who is alleged to have married the lady in question. Chief Fry is seeking an official translation before taking action on the query. The signature appears to be that of a Turkish lady, but is not clear. To Meet To-morrow—The quarterly meeting of members of the Real Estate Board of Victoria will be held on Tuesday in Room 518, Belmont House, at 5:15 in the afternoon. The delegates from the Victoria Board who recently attended the National Convention at San Francisco will give the meeting their impressions of the convention. Discussions will be held on the coming Convention of the Northwest Real Estate Association at Vancouver, and the proposed sale of B. C. House to the Dominion Government. Raided By Police—Following a raid by Chief Fry and posse on premises at 519-555 Piggard Street, Sing, one of three of that name, and sixteen others faced Magistrate Jay in the City Police Court this morning, charged with being found in a common gaming house. Taken in the raid, a strong door, some three inches through, 45 chairs, 3 stools and a box of assorted equipment is now parked in the police yard awaiting the trial, which was set for Thursday. W. C. Moresby agreed to the remand on behalf of the accused. St. Andrew's Tennis—On Saturday afternoon, commencing at 3 p.m., the St. Andrew's Club had the pleasure of entertaining the Powl Bay Club at the Michigan Street court. Although the visitors were not quite up to their usual strength, having lately lost some strong players, they were still more than strong enough to win the day, their better team work more than counterbalancing

Human Fish in Water Again Shattered Two More Records

Alameda, Cal., July 10.—Swimming in the Neptune Beach tank here Sunday afternoon, Johnny Weismuller, of the Honolulu Athletic Club, world's swimmer, smashed two more world records. He clipped Duke Kahanamoku's time for the 100-meter free style, negotiating the distance in 58 2-5 seconds. Kahanamoku's record was one minute and one-fifth seconds.

Weismuller also swam the 75-yard back stroke in 49 4-5 seconds, lowering the 50 2-5 seconds record for the distance held by Harold Kruger, of Honolulu.

EAGLES' BATS TOO WICKED FOR C. P. R.

Alex Potts's Crew Continues Winning Streak Saturday By Heavy Slugging

Elks and Eagles Meeting in a Game Wednesday, Which Will Decide Championship

The Eagles continued their winning streak by defeating the C. P. R. 10 to 5 at the Stadium Saturday afternoon, and the railroader are now tied with the Knights of Columbus for last place in the amateur league race. The Eagle's victory confirms the race to a battle between themselves and the Elks, present leaders, and Wednesday evening's game between these two clubs will go a long way toward deciding the championship of the city. Should the Eagles come out on top in this game they will still have a good chance of grabbing the coveted honor, while a victory for the Elks will practically give them the championship as only a miracle or one of the worst of breaks can keep them from landing on top at the end of the season. Both clubs will be out in full strength, and the management hope that all dyed-in-the-wool fans will be on hand to help their favorites along.

Heavy hitting won for the Eagles on Saturday. They pounded Charlie Burr for fourteen safeties and poked out six hits when they were needed. Lidstone went on the hill for the Eagles and heaved his first senior league game. He performed very creditably during his stay, holding the C. P. R. to six hits and fanning nine of the slugging railway men. He retired in the sixth in favor of Parfitt and the C. P. R. failed to score during the remainder of the game.

McClride led the hitters for the afternoon connecting safely four times.

The bow which is to go to the winner of the club championship was won in the British Columbia golf championships in 1906 by Mr. Combe, and it has been presented to the Victoria club by Mrs. Combe.

The date for the club championship will be announced later. The details of the competition are as follows:—

The competition will be open only to ordinary and non-resident members, and will be held in the Autumn of each year.

The winner will be entitled to hold the "Harvey Combe Bowl" as a trophy until the competition is next played, when he will return it to the club, and will also be given a cup of other prize.

There will be a qualifying round of 18 holes on medal play without handicap, and the 18 competitors returning the lowest scores will be drawn for match play.

All matches will be 18 holes except the final round, which will be 36 holes.

If two or more competitors tie for the last place or places, they will, on the day on which that round is played, play one or more holes, starting from the first tee, and the competitor or competitors making the lower or lowest scores at the first or any additional hole which have to be played, will be entitled to the place or places to be filled.

The committee in charge of the competition may for good reason, but not on account of the absence of a competitor, postpone a play-off, when there is a tie.

All matches will be \$1, and post entries will be allowed.

CHICAGO CUBS ARE NOW THIRD IN RACE

Victory Over Boston Shoved Them Up To Third Place in National League

New York, July 10.—Aldridge's steady twirling yesterday checked Boston and gave the Chicago Cubs an eighth victory out of nine games, enabling them to pass Brooklyn into third place in the National League. The slugging St. Louis Cardinals, who also are going at a fast clip, headed Brooklyn's fourth straight set-back, five to four, in a game filled with thrills.

Cleveland made it two in a row from the Yankees, tying the score in the ninth and winning in the thirteenth, when Bob Shawkey, who retired JONES, weakened. Bob Beussell started at bat with a homer and three singles.

Washington defeated Detroit three to seven, and Cincinnati beat Philadelphia nine to three. Joe Daubert featuring with four hits, including a home run.

HARVEY COMBE BOWL FOR CLUB CHAMPION

Victoria Golf Club Will Perpetuate Memory of Great Sportsman and Golfer

To perpetuate the name of one of British Columbia's most prominent golfers and sportsmen the Victoria Golf Club will conduct annually a competition to determine the club champion and will present to the winner the "Harvey Combe Bowl." It will be remembered that Mr. Combe recently passed away and that he was for many years the leading golfer in this section of the country.

The bowl which is to go to the winner of the club championship was won in the British Columbia golf championships in 1906 by Mr. Combe, and it has been presented to the Victoria club by Mrs. Combe.

The date for the club championship will be announced later. The details of the competition are as follows:—

The competition will be open only to ordinary and non-resident members, and will be held in the Autumn of each year.

The winner will be entitled to hold the "Harvey Combe Bowl" as a trophy until the competition is next played, when he will return it to the club, and will also be given a cup of other prize.

There will be a qualifying round of 18 holes on medal play without handicap, and the 18 competitors returning the lowest scores will be drawn for match play.

All matches will be 18 holes except the final round, which will be 36 holes.

If two or more competitors tie for the last place or places, they will, on the day on which that round is played, play one or more holes, starting from the first tee, and the competitor or competitors making the lower or lowest scores at the first or any additional hole which have to be played, will be entitled to the place or places to be filled.

The committee in charge of the competition may for good reason, but not on account of the absence of a competitor, postpone a play-off, when there is a tie.

All matches will be \$1, and post entries will be allowed.

The team will proceed to Dublin, where they will continue their training. The personnel of the team will be made up of boxers and track men, with the former, predominant. Secretary O'Meara, of the central committee, received a cablegram from the Olympic headquarters in Dublin yesterday stating that all arrangements had been completed and that conditions in Ireland were absolutely safe for the competitors.

Overlook Goal And Champs Are Beaten

McGregor Scored Goal Which Would Have Led to Score Being Tied In Mann Cup Game Saturday; Referee Did Not See It So Vancouver Went Home With Win; Visitors Had Their Best Team But Had Nothing On Cupholders.

That old feller that floats around in petticoats and for want of a better title they call Mr. Jinx is still looping the-loop and nosediving over the camp of the Mann Cupholders. All season the old chap has been tying the can to the tail of the locals and on Saturday night at the Stadium he pulled the choicest trick of all. He just stepped in and picked off a goal as meanly as a robin lifts the best strawberry in your patch.

Victoria shot a goal in the last quarter, when a goal looked about as big as the Woolworth Building. It would have meant the tying up of the score and with Corey Hesse off for the rest of the game for pulling some more of his low-priced comedy stuff, the Capitals might have come through with a victory.

It all happened like this. Allie McGregor launched one of those rifle shots of his. The ball went between the posts and through the net like a scared rabbit. The hand of the goal umpire, a Vancouver man at that, went up, signifying a goal. Referee Frank Sweeney, however, had so many things to watch that he didn't see the performance and the play went on despite the violent protestations of the locals. That goal, with the one which followed a few minutes later would have brought about a tie as Vancouver was one goal up.

Frank Soon Knew.

Referee Sweeney, however, let the play go on, but as soon as the final whistle sounded he was the centre of a rather excited group that went out to prove to him that a goal had been scored. Those folks who could not get through the wire netting to have a talk with the bulky referee sent their protests in the shape of cushions, which, however, did not always find their mark and caused some other individual's open countenance.

And so the game ended. Vancouver won officially by 5-4. The officials of the Victoria Lacrosse Club were many fans who went home with the idea that the game was a draw. But they were wrong in their belief. The referee's decision was legitimate and therefore cannot count.

Tough One to Lose

It was a tough game to lose, as on that result may hinge the fate of the Mann Cup. If the protest is upheld Victoria will have to play one game on the mainland to tie up the series: if they fail to pick off a match winner in the Mann Cup final, they will be forced to play an immediately sufficient bondholders can be found in Vancouver.

The officials of the Victoria Lacrosse Club were many fans who went home with the idea that the game was a draw. But they were wrong in their belief. The referee's decision was legitimate and therefore cannot count.

Well Done, Boys!

The local team is to be congratulated on its showing and the fans feel sure that the boys still have some of the valiant efforts of every man jack on the home team. It was a thrilling finish and just to give it a little more zip the folks took to retelling old acquaintances with friend Frank Sweeney. Frank felt about not seeing the goal because he wasn't out to do anybody any harm and besides Frank was one of the boys who helped to win the Mann Cup for Victoria.

HOOPER REALIZES BOYHOOD AMBITION

Duluth Sculler Who Won Diamond Sculls Was Laughed at by "Experts" Once Rows Shell of His Own Design and His Style is Called "Unorthodox"

New York, July 10.—(Associated Press)—When Walter Hooper, of Duluth, on Saturday flashed past the finish flags at Henley-On-Thames, eight lengths ahead of his British rival, J. Beresford, and won for the United States the Diamond Sculls world's amateur championship, he weighed oars at the port of an ambition which has been his beacon for years.

A scholar of that dead of American oars craft, F. H. "Dad" Ten Eyck, of Worcester, Mass., father of the "rowing Ten Eycks," Hoover literally has lived on Lake Superior for several years.

His technique, his speed and his rowing form he developed in the company of his father, who was a harbor. In the choppy seas and heavy winds of the open Lake Superior he learned the seamanship which was such a vital factor along the choppy course on the Thames.

For several years Hoover rowed in local regattas with Duluth Boat Club "eights" and "fours." Only his intimate friends and "Dad" Ten Eyck shared the secret of his ambition at first. When "Young Jim" Ten Eyck, one of America's greatest strokes, succeeded his father as coach at the Duluth Boat Club, he too, helped prepare the lad Hoover for the great day.

Thought He Was Plucky

Little encouragement did he get. Hooper said he didn't have the physique of a champion. Sport writers laughed at his modesty and declined to become enthusiastic over his chances.

But he refused to give up the ambition which had obsessed him ever since a youngster he had seen "Dad" Ten Eyck's crew scull under the Aerial bridge on their way to the big regatta. He was "entirely unorthodox," he would "too close to the water," they said.

May Change Systems

Hooper's self-designed shell and his "unorthodox" stroke have been watched with intense interest by racing fans. Whether they will affect the conventional form taught by varsity coaches remains to be seen.

For Hoover, a new form of long, scappy stroke, and gradually lowering his rowing seat until, as the British asserted when he rowed his "eights" and "fours," his position was "entirely unorthodox." He rowed "too close to the water," they said.

Two Clubs Divide Lead in Cricket

Incocks and Five C's Win Games; Garrison Lost and Dropped Back

Victoria Made Splendid Showing and Ran Up Day's Highest Total

Incocks and Five C's "A" kept pace with each other in the races for the Virtue Cup in the matches played in the Victoria and District Cricket Association on Saturday. The Garrison, who were in a tie with the Incocks and Five C's, slipped up in their matches with Victoria and are now two points in rear of the leaders.

The Incocks had no trouble disposing of the Five C's "B." The leaders declared with four wickets down and the total on the scoreboard at 119. The Five C's did a little better in their second innings. The bowlers on both teams were very effective. Jordan took eight of the Five C's wickets in the first innings for 28.

Victoria showed some of its old time form when it defeated the Garrison. Their total for five wickets was 218. Grant leading with 51 and Noble being second with 48.

Wilkinson's Fine Work

Wilkinson was unusually effective and the Garrison wickets fell quickly. (Concluded on page 15.)

JUSTICE GALLIHER AND L. B. KENT JOIN HOLED-IN-ONE CLUB

Mr. Justice Gallihier, of the British Columbia Court of Appeal, has joined that very exclusive organization known as the Holed-out-in-one Club. If records serve rightly he is the first member of the bench in Canada to achieve that great distinction.

Mr. Justice Gallihier was enjoying a round of golf at the Victoria Golf Club on Saturday with Chief Justice Macdonald of the Court of Appeal, J. Hutchinson and Harry Hall, of Boston, and he accomplished his feat on the eighth hole, a distance of 210 yards. This is one of the best jobs done by any local member of the Holed-out-in-one Club.

Another member of the Victoria Golf Club accompanied Mr. Justice Gallihier to the register of the Holed-out-in-one Club. L. B. Kent, of Linden Avenue, playing with Willie Pemberton, also accomplished the height of a golfer's ambition Saturday when he sank his drive at the fifteenth, a distance of 152 yards. This is the fourth time in two years that members of the Victoria Golf Club have holed out in one.

Mrs. Wright and Wright (Rideau) captured the mixed doubles by overcoming Miss Baillie, Toronto, and Laframboise, Montreal, 5-7, 6-2, 6-1. When "Young Jim" Ten Eyck, one of America's greatest strokes, succeeded his father as coach at the Duluth Boat Club, he too, helped prepare the lad Hoover for the great day.

CAPITOL PRESENTS
CONSTANCE BINNEY

"Room and Board" is Story of Irish Rural Life

A cast of more than two hundred extras was assembled for the Irish village scenes in Constance Binney's latest picture, "Room and Board," which opens today for a six-day run at the Capitol Theatre.

A week was spent in filming the exterior scenes at Forest Hills, Long Island, where on land adjacent to Forest Hills, a quaint "movie village" had been erected, showing many Irish cottages and a rambling village street. Flocks of chickens and geese, a herd of cows, many dogs, and over thirty horses and various old-world conveniences of the rig variety, as well as the many carefully costumed extras, who represented Irish peasants, added color and interest to the scenes.

"Room and Board" presents the star, Miss Binney, as an impoverished Irish noblewoman, who has inherited

little except a run-down castle saddled with a heavy mortgage, and the family pride.

Necessity compels her to pocket her pride, however, and lease the castle to a rich American engineer, who is interested in Irish genealogy, being of Irish extraction himself. The girl pretends that she is one of the castle servants, there being all too few of the real ones, and the paying guest is told that the mistress of the estate is in France.

How well she carries on her camouflage, and what happens when her boarder entertains a house-party of American friends, including a very uppity fiancée, makes a delightful romantic-comedy of the clean brick, realist type.

Tom Carrigan will be seen as Miss Binney's leading man, and a well selected cast interprets the other Irish peasant roles.

REAL SPORTSWOMAN IS DOROTHY DALTON

Versatile Artist Appears at Dominion

Dorothy Dalton, true sportswoman. Without mentioning past performances, Miss Dalton earns this title by the versatility displayed by her in "The Woman Who Walked Alone," a George Melford production in which she comes to the Dominion Theatre this week.

In this feature, she proves her prowess by riding to hounds, shooting and taking part in the favorite outdoor sports of Merrie England. Also, she had to dance a fandango under most dramatic circumstances, try her luck at the roulette-tables, and finally run a tavern on the African veldt, where the tangled threads of her destiny and another's are brought together in a surprising culmination. Milton Sills and Wanda Hawley appear in her support, with a large and excellent cast.

To do his duty was the assessor's sole aim, but the farmer did not help him very much. "How much land have you got there?" asked the official. "Oh, about 20 acres," was the off-hand reply. "Why, there's more than that in those five fields alone, isn't there? Suppose you stretch it a little." "Look here," said the farmer, "this is a farm, not a rubber plantation."

MATCHLESS CAST IN BEYOND THE RAINBOW

Columbia Presents Big Mystery-drama This Week

A cast embracing many of the most prominent personalities in the American theatre presents Wm. Christy Cabanne's big mystery drama, "Beyond the Rainbow," distributed by R-C Pictures and now showing at the Columbia Theatre.

Among those who appear are Helen Ware, Lillian (Billie) Dove, Rose Coghlan, George Fawcett, Edmund Breese, Marguerite Courtot, Diana Allen, Macey Harlam, Huntly Gordon, Harry Morey, William Tooker, Virginia Lee and Clara Bow, beauty contest winners; James Harrison, Walter Miller and Charles Craig.

In the production of "Beyond the Rainbow," Mr. Cabanne has achieved one of the biggest directorial accomplishments in his career. In addition to the extraordinary cast, it possesses all the sure-fire ingredients of real entertainment.

The story has to do with the adventures of Marion Taylor, a young woman—the role impersonated by Miss Dove—who is employed in a downtown New York office. She is

the support of an invalid brother and her mother. Fate gives her an opportunity to attend a reception at which she meets many social notables, but a man is shot at the ball and a gun is found in the possession of one Bruce Forbes, of whom Marion has become quite fond. Then begins a story as mysterious as the future of life itself and suspense is maintained until the end. It is best, perhaps, to withhold the details so that a real surprise may be enjoyed by those who see the story depicted on the screen.

Intwoven in the mystery theme is a story of poignant feeling, of heart interest seldom matched on the silver screen. The photoplay, while of especially strong appeal to women, also is calculated to interest men and young folk, too, because all the world likes a good mystery yarn.

George Arliss

The Greatest Actor of the day

—IN A—
ROLLICKING COMEDY DRAMA

THE RULING PASSION

GEORGE ARLISS in "The Ruling Passion"

Taken from "The Saturday Evening Post" Story by Earl Deer Biggers, "Idle Hands."

Yourself, your neighbor, every person has some ruling force, some hobby. George Arliss in this rollicking comedy drama pictures his version of a power that rules all men.

MR. ARLISS PROVES HIMSELF IN COMEDY

Fine Offering at Royal Features Famous Actor

"The Ruling Passion," the newest of the George Arliss photoplays, issued through United Artists Corporation, was presented at the Royal Victoria Theatre to-day, and demonstrated two things. First, that George Arliss is just as great an artist in comedy roles as he is in serious parts, and second, that so far as the audience at the Royal Victoria was concerned, Mr. Arliss need never do another "serious" photoplay. Nothing half so amusing as the artistry of Mr. Arliss has been seen here, although many recall his "Disraeli" as one of the greatest of all love stories, with a greater tendency toward light moments than seemed possible.

In "The Ruling Passion," Mr. Arliss is altogether delightful, and from first to last he carried his audience with him from one delightful situation to another. This is a photoplay attraction that no one can well afford to miss.

Mr. Arliss brings his rare artistry to bear on a character that furnishes him with an excellent outlet for his rare comedy vein, and unless the critic are in error it will be difficult to prophesy when the public shall see Mr. Arliss in just another such charming role. In the first place, the story is rare even among whimsical stories, and authors seem careless of the fact that most people would much rather laugh than cry. Director Harrison Weight has given a good account of himself, and Earl Derr Biggers, the author and Forrest Halsey, the scenario writer, share in the general praise.

The story and plot are indeed simple, but this is carried over into the credit column. We have been credited with the "serious" photoplays that have come out of Europe, and from our own studios, and "The Ruling Passion" will find welcome as an antidote for too much "heavy stuff."

Mr. Arliss impresses us with the thought that he is best in comedy roles, but occasionally he scores a telling point in a serious moment. This being a well ordered production, the cast is of the highest calibre, and many distinguished players have been called upon.

Miss Doris Kenyon, a screen star in her own right, is playing opposite the star in the role of his daughter. Edward J. Burns, popular leading man with our girl stars, is among the leaders, and Ida Darling, the screen mother, shines throughout the picture in a delightful characterization. J. W. Johnston, always delightful, and long remembered by film fans; Ernest Hilliard and Harold Waldridge, excellent players, round out a cast of principals, while many efficient players are seen throughout the action.

As in all things that relate to Mr. Arliss, no expense has been spared in the studio or elsewhere. The sets and locations are excellent, photography of the best, and nothing is left to be desired.

FAMOUS IBANEZ STORY ON SCREEN

"Four Horsemen of the Apocalypse" Coming

In "The Four Horsemen of the Apocalypse," the Rex Ingram production for Metro, which will be shown next week at the Capitol Theatre, motion picture fans will find in small roles the two persons who are chiefly responsible for the artistic translation to the screen of the novel by Vicente Blasco Ibanez. They are June Mathis, who translated the Spanish novel for the screen, and Director Ingram.

In the Parisian dance hall scene Mr. Ingram was instructing an "extra" when Miss Mathis came to him for "Take the part," said the director. Later when Mr. Ingram was rehearsing a male "extra," Miss Mathis came back at him with the suggestion he take the part. "Since you do that particular thing so well, why don't you take the part and act it in the picture?" He did. During this engagement there will be no advance in prices.

STRANGE DEATH OF COMEDIAN.

An unusual form of poisoning was declared to be the cause of the death of Joe Dixon, a well-known comedian, found dying at Leeds (England) Station recently. At the inquest Dr. William Macadam stated that he found Dixon suffering from methaemoglobinemia. The coroner—What a terrible word. Witness—I am afraid there is no other. Dr.

Macadam went on to say that it was a form of blood poisoning by which the blood was turned dark brown and the limbs blue. In Dixon's possession were some tablets of potassium chlorate, which belonged to the class of drugs known to cause this kind of poisoning. Normally a fatal dose would require over 300 grains, which equalled 50 tablets. It was possible for a person with a system unduly susceptible to potassium chlorate to be fatally affected by a small quantity. There were in medical records two cases of death from the use of potassium chlorate as a gargle. This case would be of special value to the medical profession. A relation stated that Dixon had taken these tablets regularly for his voice. He usually took one before going on the stage. There was no question of suicide, said the coroner, and a verdict of death by misadventure was returned.

Constance Binney IN "Room and Board"

Piquant Constance Binney as an impoverished young Irish noblewoman whose ancestral castle is covered with moss and mortgages.

CONSTANCE BINNEY in "ROOM AND BOARD" REALITY PICTURES

What happened when an up-and-coming American engineer leased an ancient castle in Ireland for the Summer, and discovered that the impoverished little noblewoman who owned it was masquerading as one of the servants. He enjoyed her innocent pretense, until some of his friends arrived to visit him. Then he discovered, in his fierce resentment at having her wait upon them, that he really loved her.

Into the Crater of Vesuvius with an airplane—the nearest approach to Hell mortals can ever know—the sensation will chill your blood when the carburetor chokes from volcanic gases and hot lava jama the propeller blades while death hangs around awaiting your membership. contest, which ended the entire programme and terminated the picnic. The picnicers adjourn from the grounds and entrain for home.

The last stroke of the hammer announced the end of one of the most successful basket picnics held this year. Not only were field sports indulged in, but those of the patient character who wished to try their hand at fishing brought rod and line and found plenty of recreation in casting the quiet pools of which the beautiful Goldstream is famous.

GOLDSTREAM VISITED BY LARGE THROGS

Picnickers Enjoy Most Successful Basket Picnic of Civic Employees

Six hundred civic employees were expected to join in the third annual picnic at Goldstream on Saturday, but it was necessary to get, in addition to the seven cars, another two making, nine in all, to transport the picnicers to the Golden Gates of Vancouver Island. Over eight hundred people attended. The day was a successful one, and many pastimes and recreations were offered at this very suitable spot.

FUR SEALING HAS BEEN UNFAVORABLE

Catch Is Only About One-third to Be Expected by Indians On West Coast

That the fur seal is rapidly increasing in numbers on the West Coast is the statement of James Sloman, general merchant of Tofoino, who arrived in the city on Saturday to make arrangements to dispose of 250 pelts he had acquired from the Indians. "Owing to weather conditions," he told The Times, "only about one-third of the catch is expected, the total catch being about 500 to 700 instead of over 2,000. Only Indians are allowed to hunt under the Pelagic Sealing Treaty. Owing to the bad weather conditions in April and May, he says, the aborigines did not make much progress in the special sealing canoes they use for this purpose.

Highway Connection. The assurance of a sum sufficient to cover the road from Tofoino to Ucluelet, which is apparently secured by the appropriation of an adequate amount to cover part of the cost this year, the balance to follow in 1923, is very welcome to Mr. Sloman, who says that the building of the road from Tofoino via Long Beach, and thence to Ucluelet, will open an important district and from part of the suggested Huxley Sound highway which it is hoped will eventually join up with existing highways at Spruce Lake, north of Alberni.

Fishing Situation. In discussing the prosecutions of Japanese fishermen at Port Alberni for offences under the fishery regulations, Mr. Sloman declares that the effect of the prosecutions is to create difficulty both for the buyers and the fisherman, because fishing was "the only industry that was thriving," and as a consequence of the prosecutions the fishermen have scattered, and the buyers who formerly met the boats have disappeared.

He challenges the statement that the boats have been driven out of the industry by the Japanese, as has been the result in these prosecutions, the land industries which depend on the catching of fish will also suffer.

VICTORIA WOMEN'S INSTITUTE.

A great deal of praise must be given Mesdames Bloor, Baillies, Stevens and Stewart for the exceptionally interesting programme which they had arranged for Friday's meeting of the Institute. The speaker of the afternoon was Mrs. Booth, president of the Child Hygiene Council of Esquimalt, who gave an excellent talk on Child fare, pointing out particularly the importance of educating the mother. The soloists were Mrs. Baines, who played several pieces on the "Piano" and "My Treasure," and Mrs. Roberts, who also delighted her audience with "Il Bacio," which she played in French, and "The Breach of Promise," which she played in English. A pupil of Madame Valda, gave a very graceful exhibition of fancy dancing. The guessing contest was won by Mrs. Leung and Mrs. Dowell.

On Wednesday evening next the Institute will entertain the patients of the tubercular ward at the Jubilee Hospital with a concert and refreshments. The programme under the sponsorship of Mrs. Todd will be given by the following artists: Vocalists, Mrs. Roberts, Mrs. Duncan, Miss Morton, Miss Robb and Miss Charlotte, George Gray, instrumentalists, H. Shoubridge, Jack Pullen; electrician, H. Shoubridge. Then on Saturday next Mesdames F. W. Laing, Helen Morris and W. D. Todd will have charge of a sale of home-cooked specialties. Large contributions to which will be gratefully received.

TOURISTS TO HOLD MONSTER RE-UNION

Under the auspices of the Canadian Tourists' Association there is to be held a great Summer re-union and basket picnic, at Stanley Park Pavilion, Vancouver, on Wednesday, July 26, from 11 to 5 p.m. A very large delegation will be on hand from Victoria and New Westminster to meet the visitors from the East and South. A great feature will be the joint gathering of all the "old boys" associations to meet the people from the old home town. The tourists are also anxious to meet their old chums of by-gone days. There is to be speaking, music, events, basket lunches, Provincial roll call and prizes. All who ever lived outside this Province are cordially invited to come and bring all their friends. President John Hooper, with over 2,000 members from California, will attend.

WAS IMPORTANT MISSION IN EUROPE

Former Victoria Pastor Sent to Transylvania To Aid Unitarian Cause There and in Czechoslovakia

Rev. Harold E. B. Speight, who was formerly minister of the First Unitarian Church here, has been sent to Transylvania to aid the Unitarian cause there and in Czechoslovakia. He is accompanied by his wife, daughter and grandson, and his praise for the liquor administration is the more noteworthy that he is a moderate drinker himself, and does not use spirits. He stated that for the purpose of arguing that he had scarcely seen any sign of intoxication in British Columbia, even in the large centres. He declares he found the people of the Province courteous and hospitable, and generally speaking travel far more easy and comfortable in the Western States than in other parts of America. He says the "moonshining" liquor supply on the American side is doing a great deal of harm, and the liquor law is costing a great deal to administer, instead of being made a source of revenue to the state. He asked a number of questions with regard to the administration in the Province of the status, and intends to become a propagandist for state regulation of the liquor traffic, in place of prohibition when he returns south.

Mr. Jackson also intends to become a propagandist for state regulation of the liquor traffic, in place of prohibition when he returns south. Mr. Jackson also intends to become a propagandist for state regulation of the liquor traffic, in place of prohibition when he returns south.

Mr. Speight, who came to British Columbia in 1914, following a health breakdown in an English appointment, is a graduate of Aberdeen and Oxford universities. His ability was shown here in a number of activities, and it was scarcely to be expected that so small a church as Victoria could long retain the services of a man of his calibre. In 1915 he accepted a call to Berkeley, California, where he did good work, and was called to the historic King's Chapel in Boston as assistant, and in the centre of Unitarianism it is not surprising that he has advanced another step.

LIKES B.C. ROADS AND LIQUOR LAWS

E. W. Jackson Comes from Pasadena on Tour

After traveling extensively in the United States by car during the last few years, E. W. Jackson, of Pasadena, Cal., has come to the conclusion that British Columbia is handling the liquor traffic better than any state he has visited so far.

Mr. Jackson is a retired Ohio business man, who has made it a hobby to travel since he settled in the famous California resort. He was accompanied to Victoria by his wife, daughter and grandson, and his praise for the liquor administration is the more noteworthy that he is a moderate drinker himself, and does not use spirits. He stated that for the purpose of arguing that he had scarcely seen any sign of intoxication in British Columbia, even in the large centres. PRESENTATIONS MADE AT COLWOOD EVENT

Colwood—A very enjoyable event was held at Colwood Hall Friday evening under the auspices of the local branch of the V. O. N., when an attractive programme was presented by members of the Methochin Concert party, those participating being: Mrs. E. P. Ashe, Mrs. H. R. Brown, and Miss Rising; and Messrs. H. G. Pierce, A. D. Elwood, W. G. Milsted, B. Gibbs and Rev. F. Comley; Mrs. T. Baralay and Mr. Holloway acting as accompanists. G. D. Sloan, president of the association, acted as chairman.

ADDRESS ON HAPPINESS

The Knights of Pythias Hall was crowded to the doors when the Supreme Prelate, the Rev. Fred S. Atwood, of the Knights of Pythias, gave one of his famous lectures on "Happiness: A Message of Optimism." The brother was formerly a Congregational minister of the City of Minneapolis, Minn., and chaplain of the Minnesota Legislature, also one of the foremost lecturers of the U. S. A. He has been on the lecture platform for the past fifteen years, and totally blind for the past nineteen years. In spite of this affliction, Mr. Atwood carries a happy and inspiring influence with him which is characteristic of his nature. The brother has been visiting his sister, Mrs. Bevan Allan, and is on his way to the Supreme Convention of the Knights of Pythias, which will be held in the City of San Francisco the early part of August. "I came here for a rest," he told his audience, "but since I have been in your city, I have spoken at several lodge conventions, and have just completed a trip up the Island lecturing at Nanaimo and Duncan. I will leave to-morrow for the South, and will carry away with me many pleasant recollections of your beautiful city while not being able to see them, the different points of interest have been explained to me by those in your city." Mr. Atwood captivated his audience from the beginning, and the end came all too soon. The lecturer has a pleasing appearance, a good voice, and a magnetic delivery. It is expected that he will again visit this city in the near future, when possibly he will deliver another of his lectures for the benefit of the local lodge and the public.

Past Grand Chancellor Bro. J. M. Hughes occupied the chair, and musical selections were rendered by the following artists: Mrs. W. D. Todd, Mrs. D. W. Ogilvy, Mr. D. W. Ogilvy, and Miss Smith who acted as accompanist. Brother the Rev. S. Cook moved a vote of thanks to the lecturer.

Mrs. Nagge—"I have about made up my mind, Henry, that when I married you I married a fool." Mr. Nagge—"That reminds me of a remark you made just before we were married. You remember that you said it would be hard to find two people more alike than you and I!"
