Wiki Ambassadors – Logic Model

Situation

Argentina's vast geographical extension means that WMAR lacks the human resources needed to respond to the projects and activities demanded by educators in the provinces outside Buenos Aires. To have a network of students and educators to coordinate projects by their own initiative is necessary to scale WMAR's Education

Program.

Priorities

To involve teachers in the Education Program as promoters of its activities

To link teachers' work and active participation by students as promoters of activities within the classroom

INPUTS

OUTPUTS

Participants - Activities -**Direct Products**

OUTCOMES - IMPACT

Short term - Intermediate -Long-Term

learning or
