Dollar Collections.

FOR THE accommodation of those who are not very well acquainted with the different varieties of plants, we offer the following One Dollar Collections. The plants in these collections will be fine, strong plants of the best varieties, oftentimes better than you would select. No two alike, all plainly labeled, and really marvels of cheapness. They give us an opportunity to keep our stock from becoming exhausted in particular varieties, hence we are enabled to offer them so cheap. Our aim shall be, as far as possible, to satisfy every customer, as it is to our interest that you be pleased in every particular. In ordering simply name the number of the collection or sets desired. All packages prepaid when sent by mail. Larger plants will be packed, when sent by express, without extra charge.

The following collections are One Dollar each—Entirely our own selection of varieties, all labeled.

- | | |

These Collections cannot be changed or divided.

Persons ordering are only to name the numbers designating the collections wanted. Address all orders and remittances to

J. E. JACKSON, Manager,
Gainesville, Georgia.

TO OUR FRIENDS and PATRONS.

WE TAKE great pleasure in handing to you our CATALOGUE FOR 1892. No pains has been spared in making it as complete and comprehensive as possible, and in every case we have tried to give fair and impartial descriptions of the plants offered.

We have added largely to our establishment in the past fall, as the increasing demand for plants required it; therefore we are better prepared than ever for filling orders.

Renewing our thanks to the patrons who have so generously given us their orders, we assure them that no efforts shall be lacking on our part to supply their future wants with the very best plants we can grow; and we can always be relied upon to keep abreast of horticultural progress in the acquisition of really desirable new things.

J. E. JACKSON,
Manager.

SPECIAL TO OUR PATRONS.

ORDERS are filled as soon after reception as possible; should certain varieties of plants be exhausted at the time the order is received, or if they are not in proper shipping condition, the order will be filled only so far as our assortment will allow. Patrons are respectfully requested to state if substitution is allowed, should the plants ordered become exhausted.

UNLESS otherwise ordered, we always ship plants by express, as in this way we can send good-sized plants without removing the soil (which is necessary when sending by mail, and very injurious to the plants). We always add enough "extras" of valuable plants to cover express charges.

WE GUARANTEE the safe arrival of plants either by mail or express, and if any of them should be dead on arrival, we will, if notified at once, replace same, but at the purchasers' expense for carriage.

ORDERS for \$1 or upwards by mail sent free of postage; for less amounts ten cents must be added to cover postage.

NO CHARGE made for packing, which is always carefully done.

ALL PLANTS are distinctly labeled when sent out.

TERMS. Cash with the order, or C. O. D. by express, return charges to be paid by purchaser. Remit by Post-Office Order, Express or Registered Letter. When sending private checks on banks outside of Gainesville, please add 25 cents for cost of collecting. One-cent postage stamps may be sent for the fractional parts of one dollar.

Treatment of Plants on Arrival.

Plants shipped by express suffer little, if any, as the roots get disturbed but very little if taken out of pots. Some water and shade for a few days will re-establish any plant.

With plants received by mail more care and precautions have to be taken on arrival. On all plants to be shipped by mail, most of the soil has to be removed from the roots in order to lessen the weight, and damp moss and paper substituted.

If the plants are in the least wilted on arrival, put them in lukewarm water, in a shallow pan, for about one hour, leaving the paper and moss undisturbed. This will soon restore their vitality.

In potting the plants, after removing the moss and paper, use pots just large enough (or a size larger than they have been grown in) for the roots to be placed in their natural position, with a small quantity of fine rich soil; the roots should be spread in the pot after some soil is put in the bottom, and then more soil packed firmly around them, leaving half an inch empty space above the soil for the pot to receive the water. Water should be applied till it runs out at bottom of pot.

Keep protected from the wind or draft for four or five days. Sprinkle the leaves every day, but take care not to wet the soil in the pot too much, which would make the roots rot. In any case avoid extremes in watering or drying out.

If the foliage should be injured by drying or by being too damp while on the way, cut off the leaves, and in hard-wooded plants cut off some of the branches also.

If the plants are to be cultivated in pots, most of them will be ready to be shifted into larger-sized pots in from two to four weeks, according to nature of plants.

Bedding plants may be set out at once in the open ground by observing above rules about watering and shading, provided there is no danger of frost. In planting, the soil should be pressed *firmly* around the roots. Drainage is of the greatest importance and absolutely necessary. For all pots above four inches in diameter use charcoal bits (broken crocks will answer) from about one-half to one-inch to diameter; drainage should be in depth from one to four inches, according to the size of the pot to be drained.

J. E. JACKSON, Manager,
Gainesville, Georgia.

ROSES.

The plants offered in this list are well-grown, and strong according to varieties. Always remember that some varieties, and often the finer ones, are of dwarf habit. We name only the most popular Roses, but can supply many others.

Prices, first size, 25 cts. each, \$2.50 per doz.; second size, 15 cts. each, \$1.50 per doz.; third size, 8 1-3 cts. each, 14 for \$1—our selection, 18 for \$1.

MONTHLY OR EVERBLOOMING TEA ROSES.

- Adam.** A large, full flower; blush-rose, with salmon center; very sweet, free bloomer
- Andre Schwartz.** Beautiful crimson; pretty buds; new and distinct; a constant and profuse bloomer.
- Archduke Charles.** Brilliant crimson-scarlet, shaded with violet-crimson; large, double and sweet. A splendid rose.
- Baroness M. Werner.** A very beautiful and handsome variety; large, full, broad-petaled flowers, delightfully perfumed; color rich, creamy white, delicately shaded with salmon and rose passing to amaranth.
- Bella.** Pure snow-white; splendid large pointed buds; large size, very full and double; tea-scented. An excellent sort.
- Bon Silene.** This splendid old variety still holds its own against many of the new sorts. Noted for its fine buds; color rosy carmine, shaded salmon; very sweet and beautiful.
- Catherine Mermet.** Bright flesh color; large, full and finely formed; decidedly one of the finest teas.
- Comtesse de Frigneuse.** Flowers are extra large and full, with long pointed buds; color deep golden yellow; sweet tea fragrance.
- Canarii.** Light canary-yellow; beautiful buds and flowers; very fragrant.
- Charles Rovolli.** Large, fine flowers; color a lovely shade of brilliant carmine, changing to silver-rose; very sweet and beautiful.
- Cornelia Cook.** This beautiful rose is in great demand for its magnificent buds, which are of immense size and perfect form; color white, sometimes tinged with pale lemon and blush.
- Coquette de Lyon.** Canary-yellow; very pretty buds; a free bloomer. This variety will be sure to give satisfaction.
- Comtesse Riza du Parc.** Coppery rose, tinged with soft violet-crimson; the flowers are large, full and sweet; a profuse bloomer; one of the very best.
- Comtesse de Barbantane.** The flowers are large and beautifully cupped, full and very sweet; clear flesh color.
- Charles de Legrady.** Carmine-red, richly shaded with violet-crimson; very sweet; large, full and vigorous.
- Comtesse de Labarthe.** Few roses equal this in freedom of flowering; none surpasses it in either fragrance or vigor. The flowers are richly and peculiarly colored. Rose, heavily shaded with amber and salmon.
- Docteur Grill.** Clear buff-pink, passing to rose and fawn, delicately shaded, pale yellow; richly scented; very distinct and beautiful.
- Devoniensis.** (Magnolia Rose.) A most beautiful rose, with large shell-like white petals, the tips and inner surface delicately flushed with rose; delightfully sweet; one of the finest.
- Duchesse de Brabant.** Soft, rosy pink, petals edged with silver; extra-good bloomer; sure to please.
- Douglass.** Dark cherry-red, rich and velvety; a neat, compact grower: desirable for bedding.
- Empress Eugenie.** Beautiful rosy flesh; large and full; very sweet tea-scent
- Etoile de Lyon.** Beautiful chrome-yellow, deepening at center to pure golden yellow; one of the best.
- Gen. de Tartas.** A first-class rose for bedding; brilliant carmine, deeply shaded with violet-purple; large size, very double, full and fragrant
- Hermosa.** Bright rose color; constant bloomer; one of the best and hardiest of old roses.
- Homer.** Flowers beautifully formed, and handsome in bud; color soft, clear rose, with a salmon shade; extra-good.
- Isabella Sprunt.** Bright canary-yellow; beautiful buds; very fragrant and free.
- Jean Pernet.** Beautiful light yellow, suffused with salmon-yellow; medium sized but pretty buds.

Jules Finger. Extra-large, finely formed flowers, full and fragrant; color beautiful

JULES FINGER.

rosy scarlet, beautifully shaded with intense crimson; a vigorous grower and a free bloomer; no collection complete without this flower.

La Pactole. Pale sulphur-yellow; beautiful buds, very sweet tea scent; a splendid rose.

La Nankeen. Highly valued for its magnificent buds, which are a deep orange-yellow at base, rich creamy white at the point; very fragrant and beautiful.

Luciole. A strikingly handsome rose, with clear, cherry-red flowers, the center being rich golden yellow, elegantly shaded and delightfully perfumed.

Lady Stanley. Flowers extra-large, very full, double and sweet, and of good substance, lasting a long time after cutting; color a beautiful shade of chamois-red, or rich crimson, which is very prettily lightened with terra cotta.

Louis Philippe. Rich dark velvety bedding rose.

crimson; profuse bloomer; full and double. This is an excellent Louise de la Rive. Habit vigorous; flowers large and of fine form; color flesh-white, inclining to rose in the center.

La Princesse Vera. Flowers large and very double; color white and copper-yellow, delicately shaded with pale blush and carmine.

Meteor. A rich velvety crimson, very bright and striking; the flowers are regular, perfectly double and well borne up; a constant and profuse bloomer, and very sweet.

Marie Guillot. A first-class rose in every respect; color pure white; extra-large size, full and double; rich tea scent.

Malmaison. Rich creamy flesh, changing to lovely fawn, with rose center; very large, perfectly double and exceedingly sweet; one of the finest varieties; quite hardy.

Mad. de Watteville. Color creamy white, shaded salmon-rose; outer petals edged bright rose, which gives it a striking and beautiful appearance.

Marie de Bau. Rich blush color, full and double; a vigorous grower and a free bloomer.

Marie Van Houtte. A lovely rose; color white, tinged with yellow, delicately shaded with pale rose; full and double; sweet tea-scent; an extra-good rose.

Marie Sisley. An elegant rose, full and double; color an exquisite shade of pale yellow, broadly margined with bright rose; deliciously tea-scented.

Mad. Lambard. A first-class rose; extra-large, full flowers, double and sweet; beautiful rose color, tinged salmon and buff, buds and reverse of petals crimson.

Mad. Caroline Kuster. Pale orange-yellow, clear and distinct; very desirable.

Mad. de Vatry. Red shaded with salmon; of good form both in bud and flower, and well scented; a very choice old sort.

Mad. Margottin. This is a grand rose, always a favorite; very large perfectly double flowers, elegantly perfumed; color beautiful dark citron-yellow, with red center; a strong grower and quite hardy; a very fine old sort.

Mad. Hoste. This is an exceedingly beautiful everblooming rose; extra-large flowers, and superb buds, very full and delightfully perfumed; color, soft canary-yellow, deepening at center to pure golden yellow, edges and reverse of petals rich creamy white.

Mad. Joseph Schwartz. An excellent rose; extra-large globular flowers, color white, beautifully tinged with pink; vigorous grower and free bloomer.

Mad. Camille. Delicate rosy flesh, changing to salmon-rose, shaded and suffused with deep carmine; immense double buds; fine tea fragrance.

Mad. Falcot. Fine apricot-yellow, with beautiful orange buds borne in great profusion; tea-scented; medium size and fullness.

Mad'le Rachel. Very double, and pure snow-white pointed buds of delicate fragrance, well adapted for house culture or open ground.

Mad. Laurette Messimy. New, and highly recommended for bedding; a constant bloomer; medium-sized flowers, bright china pink, with rich coppery yellow shadings.

Mad. Franciska Krueger. Deep yellow, sometimes rich and glowing, and at others dark with a shading of copper and rose; large and double; strong habit.

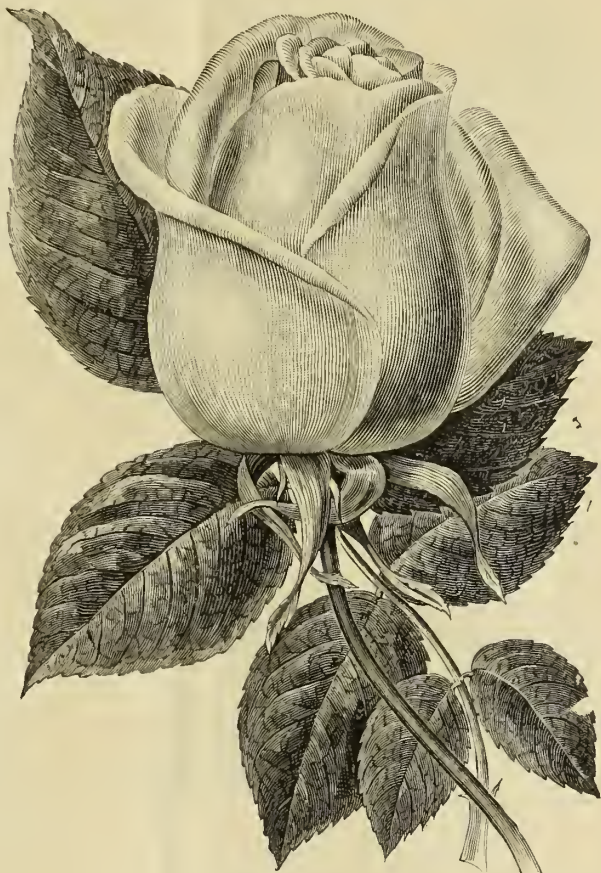

Mad. F. Brassac. The flowers and buds are extra-large and very double and full; color a novel shade of bronze-red or tawny crimson, delicately tinted with fine coppery yellow; entirely distinct and very beautiful; justly considered a very excellent rose.

Mad Maurice Kuppenheim. A remarkably pretty French rose; flowers of elegant form, large, full and double; color, pale, canary-yellow, faintly tinged with pink, shaded with coppery rose, sometimes soft, rosy flesh; very sweet, handsome and desirable; an elegant sort.

Miss Elith Gifford. A lovely rose; color rich creamy white, delicately tinged with blush and pale yellow; very fine both as to bud and open flower, which are large and of heavy texture; deliciously perfumed.

Mad'le Claudine Perreau. The flowers are extra large, full and perfectly double; color, beautiful rosy flesh, passing to clear pink on white ground, with rich crimson center; a strong vigorous grower and free bloomer, delightfully perfumed.

Mad. Jean Sisley. Pure snow-white, faintly tinged with pale carmine; medium size, double, and delicately perfumed; constant bloomer, and quite hardy.

MAD. HOSTE

Mad. Honore Defresne. Extra large, full, very sweet flowers; color clear golden yellow; petals elegantly reflexed; a strong, vigorous grower with thick foliage.

Marechal Niel. See page 10.

Marie Lambert. Pure white; vigorous grower and free bloomer.

Mad. Welche. Beautiful amber-yellow, delicately tinged with crimson.

Marquise de Viviers. The color is a novel shade of rich violet-crimson, with center and base of petals creamy yellow, exquisitely tinted salmon and fawn; large, full flowers; very sweet, and a constant and profuse bloomer.

Mad'le Marie Arnaud. Elegant canary-yellow, changing to white, with reddish buff center; very rare and beautiful; large full form, very double and fragrant; a splendid rose.

Niphotos. An elegant tea rose; very large and double, deliciously sweet; color, pure snow-white, sometimes faintly tinged with pale lemon. It is highly valued for its lovely buds, which are large, fine and particularly valuable for bouquets, e c.

Ophelia. Creamy white; one of the best bloomers; a strong grower.

President. Splendid large flowers and buds, very double and full; color, soft rosy crimson, changing to brilliant carmine, shaded purplish red.

Perle des Jardins. This magnificent rose still retains its position as the finest of its color

PAPA GONTIER.

ever introduced; it constantly grows in favor as its merits become better known; color clear golden yellow, very rich and beautiful; extra-large globular flowers, full and highly perfumed.

Papa Gontier. One of the most fashionable winter-blooming roses, but equally useful for summer. Similar to the old Bon Silene in its delightful fragrance, but larger, more double, and far richer in color.

Princesse de Sagan. A very strong, vigorous-growing rose of great beauty. The color is a fine dark velvety crimson, delicately shaded with blackish purple; long pointed buds with plenty of stem, highly scented, and a free bloomer; one of the best.

Queens Scarlet. Very desirable and satisfactory; a constant and profuse bloomer; color rich velvety scarlet, very brilliant and striking; vigorous and hardy.

Regulus. Large, perfect form; brilliant carmine, with purple and rose shadings.

Rubens. Lovely pale yellow, slightly tinted with fawn; double and sweet.

Red Safrano. Similar to Safrano but dark red.

Souv. de Victor Hugo. Bright china-rose, yellow center; ends of petals suffused carmine, giving a novel and striking effect; a rose of decided merit.

Souvenir de Germain de Saint Pierre. Very showy and attractive; color bright purplish crimson; vivid and striking; constant, profuse bloomer; large, full, sweet.

Souvenir de l'Admiral Courbet. Bright fiery red; flowers are globular, very solid and compact, and borne in clusters; highly scented; a constant and profuse bloomer.

Souvenir d'un Ami. A splendid rose; very full and deliciously sweet; tinged and shaded with purplish lilac.

Safrano. Bright apricot-yellow, changing to orange and fawn, sometimes tinted with rose; valued highly for its beautiful buds; very fragrant, and one of the best.

Souvenir de Paul Neyron. White, beautifully tinged with clear golden yellow, edged clear rosy crimson.

Sombreuil. Pure white, edged and tinged with silvery rose; very sweet, large and double; the foliage is especially fine and heavy and possesses a fragrance peculiarly its own.

Sunset. Flowers of large size, very double; color a rich golden amber, shaded with dark ruddy copper; very beautiful; a sport from *Perle des Jardins*, and of same valuable character.

Triomphe de Luxembourg. Rosy carmine, on a buff ground; the flower is very large, full and double, and very fragrant; an old rose, and one of the best.

The Bride. White, with delicate flesh on outer petals; very beautiful in bud or open flowers; blooms profusely, and is a remarkably full and handsome rose. It is a sport from the favorite *Catherine Mermet*, and is a better bloomer than that standard sort.

NEW AND SCARCE ROSES OF SPECIAL MERIT.

Everblooming Varieties.

Clothilde Soupert. Medium size, full, round flowers, beautiful pinkish amber or creamy yellow, delicately flushed with silver-rose. The bush is a regular compact grower, and a profuse and constant bloomer, highly recommended for bedding, and also for window and house culture. 25 cts.

Captain Lefort. A magnificent new everbloomer, with splendid large full flowers, very handsome and sweet; color, a lovely shade of rich violet-crimson, softly tinted with fine rosy salmon; makes elegant long pointed buds, which are very desirable for cutting. 20 cts.

Duchesse Marie Salviati. (Tea.) A strong, vigorous grower; flower large and double, from long, pointed buds. Color a fine chrome-orange, with shadings of rosy flesh, the center pure saffron. Frequently the flowers come a perfectly clear saffron-yellow with no shading. Sweet violet-scented. 25 cts.

Docteur Reymont. New hardy everbloomer; very handsome and beautiful; large, full, regular flowers; color, bright shining vermilion-red, reverse of petals elegantly clouded with rich violet-crimson; exceedingly sweet; very striking and believed to be one of the most valuable new roses of this year. 20 cts.

Duchesse de Braganza. Elegant canary-yellow, beautifully shaded pale carmine, with red center, petals edged with silvery rose; large flowers, very double and delicately perfumed. 15 cts.

Ernest Metz. Fine large full flowers, and beautiful long-pointed buds; color clear satiny pink, edged and bordered with blush, the center flamed with royal crimson; very desirable. 25 cts.

Grace Darling. Strong, vigorous grower; porcelain-rose; a decided color, but never quite obscuring the ground of beautiful yellow upon which it rests; very sweet and desirable. 15 cts.

J. B. Varrone. (Tea.) Strong and vigorous growth, flowers large and opening well, with long, pointed buds. Color changing from dark lustrous rose to lighter carmine, the base of the petals a coppery yellow. 25 cts.

SUNSET.

Letty Coles. A grand summer rose; color soft rosy pink, deeply shaded with intense crimson; extra-large, full globular form; very double; exceedingly sweet. 15 cts.

Mad. Scipion Cochet. Beautiful creamy rose, with deep crimson center; flowers large, somewhat tulip-shaped, quite full and very sweet; a good constant bloomer, very sweet; very handsome and striking, being unusual in its form and coloring. 15 cts.

Mad. Marthe du Bourg. (Tea.) One of the most beautiful of the new roses. The habit and foliage are beautiful, denoting a ready grower. The flower is large, perfectly double, and of beautiful form. The outer petals recurve at the edges, showing a beautiful pointed center. The color is creamy white, touched with carmine or pale heliotrope on the edges. Texture heavy. A very promising rose. 25c.

Princess Beatrice. Very beautiful, and specially recommended for its charming color; soft rosy pink, delicately tinged and shaded with canary-yellow, passing to amber and fawn; buds are large, and flowers very full and sweet; a delightful garden rose. 15 cts.

Sappho. Large, full and globular flowers, very handsome and distinct; color, rich apricot-yellow, delicately tinged with fawn and pale rose, delightfully tea-scented. It is a strong, vigorous grower, and remarkably free-bloomer; the flowers are of excellent substance and last well, and it is undoubtedly one of the very finest new roses of its class. 25 cts.

Waban. (New.) This valuable rose is a sport from Catherine Mermet and identical with that variety in every characteristic excepting color, which is a rich deep bright pink. It will, without doubt, prove to be as valuable as the The Bride, which is also a sport from the same fine variety. 25 cts.

HYBRID PERPETUAL ROSES.

Alfred Colomb. Extra-large round flowers, very double and full; color brilliant-carmine crimson; very fragrant. 15 cts.

Baroness Rothschild. This is one of the grandest of all hardy roses; the flowers are of immense size, perfect form and exquisite color; a rich, lovely shade of pink, delightfully perfumed. Being very difficult to propagate, it is always scarce and high priced. 50 cts.

Coquette des Alps. White, sometimes shaded blush; free-flowering, fragrant. 15 cts.

Countess of Oxford. A superb rose; flowers very large, perfect form and exceedingly sweet; soft rosy carmine. 15 cts.

Ball of Snow (Boule de Neige). Pure white, very double and exquisitely fragrant; a constant bloomer. 25 cts.

Gen. Jacqueminot. Rich crimson-scarlet; very sweet; a general favorite. 15 cts.

Gen. Washington. Brilliant shining crimson, rich and beautiful; a free and regular bloomer. 15 cts.

Giant of Battles. Intense crimson; full and handsome; esteemed one of the best in its exceedingly bright and lively coloring, which partakes more than any other variety of the scarlet hue. Though of only moderate growth, this rose is yet a prime favorite. 15 cts.

PAUL NEYRON.

- Mad. Charles Wood.** Rosy crimson, sometimes darker; large and full. A true perpetual bloomer, flowering all through the season; is superior as a bedding sort, and is always in demand. 15 cts.
- Magna Charta.** Bright pink, suffused with carmine, very large, full and good form; habit strong and erect; extra free bloomer. 15 cts.
- Jules Margottin.** Bright cherry-red; large well-formed fragrant flowers; a splendid old variety; very double and free. 15 cts.
- Paul Neyron.** The flowers are immense; it is probably the largest rose grown, and one of the finest; color deep pink; very double and full, finely scented, without any suspicion of coarseness—a remarkable thing in a flower of such unusual size; vigorous grower and a free bloomer. 15 cts.
- Lord Raglan.** Brilliant crimson-scarlet; splendid flowers; large, very full and finely scented. 15 cts.

EVERBLOOMING CLIMBERS.

The Noisettes and Climbing Teas are included in this class, which is especially valuable in the South for covering porches, arbors, trellises and the like. The plants attain great luxuriance in our climate.

America. Creamy yellow, changing to coppery yellow; fine.

Chrometella or Cloth of Gold. Clear bright yellow; very sweet and beautiful.

Claire Carnot. Buff or orange-yellow, with peach-blossom center; pretty and desirable.

Fortune's Yellow. Large flowers of rich bronze-yellow, long in bloom and free growth; requires two or three years to bloom to perfection, and is then very beautiful.

Gloire de Dijon. A magnificent rose; one of the finest in every respect; large, perfectly double and tea-scented; color, rich, creamy-white, beautifully tinged with amber and pale blush; in the south a splendid climber or pillar rose.

Lamarque. Pure white, with lemon-colored center; a good bloomer.

Marechal Niel. The grandest rose of any kind or color. The immense size, dark golden yellow color of Marechal Niel flowers are familiar to all. 10 cts. to \$1 each.

Estelle Pradel. Lovely fine white buds, full and sweet; a profuse bloomer and strong grower.

Solfaterre. Sulphur-yellow; large and full.

Reine Marie Henriette. Clear cherry-red; a strong, vigorous grower.

William Allen Richardson. Orange-yellow, with outer petals lighter, center copper yellow, very rich; strong grower; good bloomer.

White Microphylla. Pure white; very pretty and sweet; plants require age before they bloom well.

Waltham Queen. A strong grower and continuous bloomer; the flowers are large, full and sweet; color, rich scarlet-crimson; very beautiful and profuse bloomer. 25 cts.

Washington (Mary Washington). Flowers are large, pure white, perfectly double to the center, very sweet, and freely produced in large clusters from early spring till frost. It is a strong grower and quite hardy.

Price, 15 cents each, \$1.50 per dozen.

HYBRID TEA ROSES.

American Beauty. A good, strong grower and a free bloomer; full and double, and extra sweet; color, rich rosy crimson, exquisitely shaded and very handsome. 25 cts.

Beauty of Stapleford. Color bright pink, shaded to rosy crimson; makes large and beautiful buds; one of the best of this class. 15 to 25 cts.

Dinsmore. An everblooming rose, of a rich crimson-scarlet color, with the fragrance and hardiness of the Hybrid roses. 15 cts.; two-year, 25 cts.

La France. The oldest and best of all the Hybrid Teas; delicate silvery rose, deliciously fragrant; very large, full, round globular form; extra-fine. 10 to 25 cts.

Pierre Guillot. Dazzling crimson, passing to carmine; flowers large and very double; a healthy grower and a constant bloomer. 20 cts.

POLYANTHA ROSES.

A class of roses much valued for bedding purposes, as they form a mass of bloom. They are particularly adapted to pot-culture, and for edgings to beds of roses; they are also largely used in cemetery plots, their neat, tasteful appearance commanding attention at first sight. They are entirely hardy, constantly in bloom, and rarely attain more than ten to twelve inches in height. In the few years since they were introduced they have grown into great favor.

M^{me}. Cecil Brunner. Salmon, heavily shaded rose; sweet and beautiful. 15 cts.

Mignonette. Small and trimly-shaped flowers, in which clear pink and white are beautifully mingled. 10 cts.

Paquerette. Pure white; flowers small but perfect, and in large clusters—often 25 or more in one bunch. The clusters are elegant for corsage wear. 10 cts.

Perle d'Or. Saffron-yellow, tinged copper color; the only one in this class with a yellow shade; very pretty and useful. 15 cts.

THE TRUE OLD ENGLISH SWEET-BRIAR.

We have succeeded in obtaining a nice stock of this fine old favorite; very desirable for shrubberies and general planting; the flowers are bright pink, and single, but the exquisite fragrance of the flowers, leaves and young branches in the early spring frequently perfumes a whole neighborhood, and is truly delightful. 15 and 25 cts.

POLYANTHA ROSE.

MRS. ALPHEUS HARDY.

CHRYSANTHEMUMS.

The remarkable improvements made yearly with this fashionable flower render it more and more worthy to be called "The Queen of Autumn." Formerly of a stiff, cold bearing and color, its flowers are now of the most graceful, elegant forms, and include a wide range of pleasing tints and brilliant colors.

CULTURE.—Don't expect too perfect flowers in poor soil, from dried-up, withering plants. They require two things—a rich soil and plenty of water, and should be watered copiously during dry times. To secure nice stocky plants they must be continually "topped" or "pinched," as it is called, until about the middle of July. Each plant should be tied securely to a strong stick, to prevent their falling over or growing one-sided. Never allow more than one flower to grow on a stem or branch.

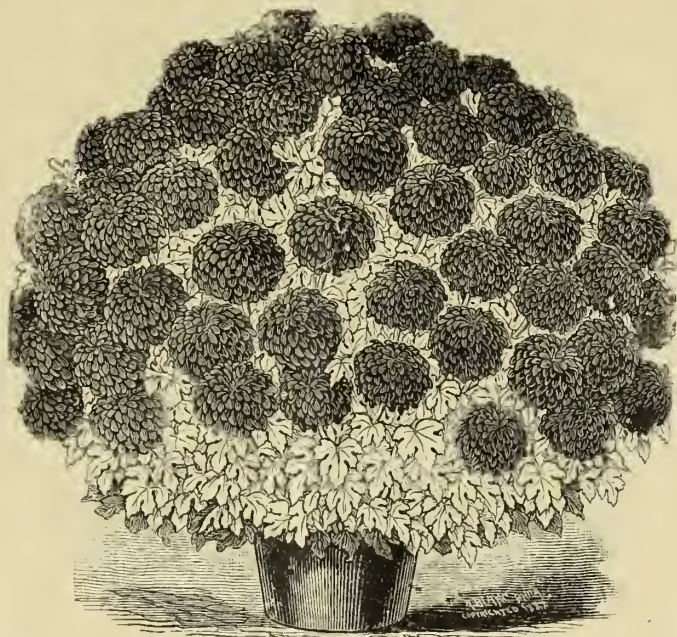

ABBREVIATIONS.—Those marked J., are Japanese; C., Chinese; P., Pompon; A., Anemone.

☞ We will be glad to select Chrysanthemums or other plants for those unfamiliar with varieties, and believe our experience would assure satisfactory results

n such cases. Simply advise us the amount to be expended and the object to be attained, and we will do our best for you in every case.

Price, from this list of Chrysanthemums 8 $\frac{1}{8}$ cts. each; purchaser's selection, fifteen for \$1; our selection, twenty for \$1.

- Autumn Queen.** Blood-red, fine.
- Admiral Lewis.** (J.) Deep wine color, very large and showy.
- Admiration.** (C.) Soft rose, white center.
- Aspasia.** A large symmetrical flower with broad petals; outer florets soft, pale satiny rose, center purplish rose.
- Aurea of Lilacs.** (C.) Large, delicate rosy lilac; very fine.
- Charlotte de Montcabrier.** (J.) Blush-white, with silvery rose center.
- Count of Germany.** (J.) Large flowers, with remarkably broad petals of a rich orange-brown.
- Christmas Eve.** (C.) Very fine white; late.
- Diana.** (C.) Pure white, large and full. One of the best.
- Duchess.** (J.) Rich deep red, each petal tipped with golden yellow.
- Diamond.** (C.) Fiery carmine, yellow center.
- Elaine.** (J.) Pure white, tinted when old; fine.
- Eugene Mezard.** (J.) Amaranth; reverse of petals violet-white, forming a ball at the center; very fine.
- Edna Craig.** (A.) Very large flowers of the snowiest white; a superb variety.
- Elkshorn.** (J.) Peculiarly shaped florets; pearl color, full and globular.
- Fantasia.** (J.) Fine blush-white flowers, center yellow tinge, petals have a convex surface, twisted.
- F. T. McFadden.** (J.) Bright carmine; large and full; very fine.
- Golden Dragon.** (J.) Rich yellow with long twisted petals.
- Gloriosum.** (J.) Bright sulphur-yellow; profuse bloomer.
- Golden Fleece.** (J.) Bright golden yellow; very attractive.
- H. Waterer.** (J.) Golden yellow thread-like petals, center copper colored, large.
- John Welsh.** (J.) Dark crimson-maroon; very large and fine.
- John Thorpe.** (J.) Long broad petals, except under row, which contains a few tubular ones. Color richest deep lake.
- John Lane.** A magnificent pink ball in appearance, with peach or light shadings on upper side of petals; ends of center petals tipped with gold.
- L. Canning.** (C.) Pure white; very clear and chaste; dwarf habit; splendid.
- Leopard.** (J.) Deep shade of carmine, splashed and spotted with white.
- Lady St. Clair.** One of the most beautiful of all whites; incurved.
- Mandarin.** (J.) Deep Indian red, showy and distinct.
- Mrs. Vannaman.** (J.) Cherry-red; very large and perfectly distinct.
- M. Paul Fabre.** (J.) Deep brownish crimson, shaded bronze.
- Mrs. S. Humphreys.** (C.) Very large and pure white; one of the best of its class.
- Moonlight.** (J.) Large, white; fine; a grand sort.
- Mrs. S. Lyon.** (A.) Large, creamy white, golden center.
- Mrs. E. W. Clark.** (J.) Deep amaranth purple, reflex silvery rose.
- Mrs. Cleveland.** (J.) Pure white, with long tubular petals; large and fine.
- Mad. Drexel.** (J.) Very large and showy; beautifully incurved; bright lively pink.
- Mrs. A. Blanc.** (J.) Distinct; inside florets erect, outside reflexed; rich lavender.
- M. V. Morell.** (J.) Large; creamy white.
- Mont Blanc.** An enormous white; this variety has more substance in it than any other variety known; at first it shows an eye, but incurves as it ages.
- Mrs. Alpheus Hardy.** No new plant of any kind ever attracted so much attention and admiration as this variety; the flowers are pure white, making a perfect ball, covered with long, fine hair-like filaments. An enormous sum was paid for the original plant, and it is the progenitor of an entirely distinct race.
- Nelly Bly.** (J.) Twisted golden petals; profuse.
- Norma.** (C.) Ivory-white.
- Nymphaea.** (J.) Purest white, having the fragrance and form of a pond lily; distinct and fine.
- Nuit d'Hiver.** (J.) Bronze, tinted brown, yellow tips.
- Pabiola.** (J.) Deep rosy lilac; large.
- Porcupine.** (J.) Tubular needle-like petals, standing erect, of a rich terracotta.
- Pres. Arthur.** Very large flowers; partially tubular; rosy, lilac and pink; rather late; distinct.
- Pietro Diaz.** Brilliant crimson; large double flowers; a gem.
- Robert Craig.** (J.) An immense rosy-pink variety of great substance.
- Sunnyside.** Of delicate flesh tint when opening, becoming white when fully expanded; quilled floret petals.
- The Bride.** Finest white incurved Japanese; outside petals drooping.
- Triumphant.** (J.) Large, twisted, rosy pink; very pleasing shade.
- Valle d'Andorre.** (J.) Red, shaded orange.
- Wm. Barr.** (J.) Bright crimson, shading to pure golden yellow.
- Wm. Elliott.** (J.) Deep maroon; a very free-blooming variety; one of the best.
- Veil d'Or.** Beautiful Japanese yellow; broad petals; incurved and distinct.
- W. K. Harris.** (J.) Broad petals; rich orange and brown.

CULLINGFORDII.

OUR EXPOSITION PREMIUM COLLECTION.

The following varieties were exhibited by us at the Piedmont Exposition in Atlanta, Ga., last fall, and captured five premiums.

They were a revelation in Chrysanthemum-culture to thousands who inspected them daily.

Price, 15 cts. each, \$1.50 per doz., or the collection of 48 for \$5.

- Advance.** Japanese incurved; fine, large, well-formed flowers, deep violet-pink.
- Ada Spaulding.** Winner of the silver cup presented by Mrs. President Harrison for the best seedling at the Indianapolis Chrysanthemum-show, also certificate of merit and silver medal by Pennsylvania Horticultural Society. The lower half of flower a rich deep pink, shading in upper portion to the purest pearl-white; petals very large, broad and solid.
- Avalanche.** Large Japanese, having perfectly double flowers, composed of broad white petals.
- Cullingfordii.** (C.) Enormous flowers of the darkest and richest crimson; makes superb specimen plants when well grown.
- Chas. Pratt.** (J.) Wine-red, reverse of petals reddish bronze; incurved; large.
- Delie.** (J.) Bronzy, strap-shaped petals, some of which stand erect.
- Dr. Leonard.** (C.) Crimson, reverse of petals pale yellow.
- Eucharist.** (J.) Large broad reflexed petals, shaded blush.
- E. G. Hill.** Immense bloom, of brightest golden yellow; very double and full; lower petals sometimes deeply shaded carmine; elegant; of strong habit.
- G. F. Moseman.** (J.) Buff without and bright red within; considered the finest of all; very difficult to propagate.
- Geo. Glenn.** (C.) Clear golden yellow.
- Grandiflorum.** (J.) A solid ball of the purest golden yellow; very large; magnificent.
- Jas. R. Pitcher.** Light blush, turning white; reflexed Japanese.
- J. Collins.** (J.) Immense flowers of silvery bronze, and ashes-of-roses color.
- James Y. Murkland.** (A.) Petals purest snow-white; very long.
- Kioto.** The flowers are very large; in color a pale gold or deep canary; certificate Royal Horticultural Society.
- Louis Boehmer.** (Pink Ostrich-Plume.) Extensively advertised and shown at the exhibitions last fall; it is a strong free grower, producing silvery pink blooms that are covered with the same wonderful hair-like growth as Mrs. A. Hardy; has enormous flowers on strong stiff stems.

- Louis Barthere.** (J.) Crimson-red, with under petals of old gold; flowers flat.
- Lilian B. Bird.** Flowers of the largest size, with full, high center; petals tubular; exquisite shade of shrimp-pink.
- Mrs. Andrew Carnegie.** Bright deep crimson, reverse of petals a shade lighter; broad, long and flat; incurved at first, afterwards like a large peony.
- Mrs. Isaac C. Price.** (J.) Lovely yellow; bloom large, petals long, arranged in a whorl while still incurved.
- Mrs. Langtry.** (J.) A magnificent pure white variety, with ribbon-like petals.
- Mrs. J. N. Gerard.** (C.) Beautiful large silvery pink; the finest of its color.
- M. Boyer.** (J.) Beautiful large silvery rose; very fine and early.
- Mrs. F. Thomson.** (J.) White, mottled pink; very handsome.
- Mrs. C. H. Wheeler.** (J.) Broad, heavy petals, orange and red; distinct.
- Mrs. Mary Wheeler.** Pearly white, the petals delicately tinted on outer edge with pale pink.
- Mrs. Irwin Clark.** Pearly white on the margin, deep rose in center.
- Mrs. W. K. Harris.** This variety won the Blanc prize at Philadelphia; deepest rich golden yellow, thoroughly incurved, very large and handsome.
- M. Bruant.** (J.) Lilac-mauve; large straight florets; fine show flowers.
- Mrs. S. Coleman.** A new English chrysanthemum. Clear canary-yellow, reverse of petals uniformly striped with rose and apricot shades; flowers large and deep, strictly incurved.
- Mrs. H. Cannell.** Large, finely formed flowers of the most intense yellow; gracefully incurved.
- Mrs. Fottler.** Clear, soft rosy pink, similar in shade to the La France rose; large double flowers, composed of long pointed petals, flat at first, but developing into a large feathered bloom of great beauty.
- Mollie Bawn.** Pure white, having been grown two years, which shows its color to be fixed; most valuable for its size, shape and purity.
- Mrs. Mary Morgan.** (C.) Soft white, tinged and shaded rosy blush.
- Puritan.** (J.) White, tinted with lilac; large, and one of the finest for bush plants.
- President Hyde.** (J.) Rich yellow; curiously twisted petals.
- Robert Bottomley.** (J.) White, incurved; large and beautiful.
- Sunflower.** (J.) Flowers extra-large and of brightest color; petals long and somewhat drooping.
- Sachem.** (J.) Reflexed clear yellow flower.
- Sokoto.** (J.) Clear golden yellow; large and full; beautifully incurved.
- Sunset.** (J.) Long flat petals of yellow, marbled brown and crimson.
- T. C. Price.** Double, much twisted, and incurved in the form of a corkscrew; strawberry-cream color.
- Violet Rose.** (C.) Violet and rose; extra-fine.
- V. H. Hallock.** Rosy pearl, deeper in center, incurved and twisted; petals convex, rounding downward.
- Wm. H. Lincoln.** Golden yellow, with straight, flat, spreading petals.
- W. W. Coles.** Very bright reddish terracotta, reverse pale yellow; outer edges broad, long, pointed and horizontal.
- Wm. Elliott.** (J.) Deep maroon; a very free blooming variety; one of the best.

NEWER CHRYSANTHEMUMS OF ESTABLISHED MERIT.

- Brilliant.** An immense self colored bright red, extra-fine shade, reflexed, double. A grand acquisition; of novel color. 25 cts.
- Emily Dorner.** A rather dwarf grower, but very sturdy; flower nicely incurved; petals broad, and of the richest shade of orange-yellow, touched with crimson; color extremely rich. 35 cts.
- Elmer D. Smith.** Foliage very large, heavy and dark green; the color cardinal-red, of a very rich, pleasing shade, faced upon the back of petals with clear chamouis; comes nearer being a scarlet-maroon than any of the type yet sent out. 25 cts.
- Etoile de Lyon.** A very large flower; lilac-rose, with silvery shadings. Promising to be extra-good. 25 cts.
- Edna Prass.** A fine, recurving, globular bloom of great substance and depth. When opening, of a delicate salmon, changing to a creamy white, delicately shaded blush. Received certificate of merit. 25 cts.
- Frank Thomson.** Very nearly spherical in form; petals broad and heavy, finely incurving; nearly white, only showing a touch of pearl-pink at the base; stiff stems. 35 cts.
- Harry E. Widener.** Bright lemon-yellow without shadings. Flowers large, on stiff, stout stems. Incurving, forming a large rounded surface; petals crisp and stiff; very free. This has proved to be one of the very finest of all yellows. 25 cts.
- Innocence.** A chaste and beautiful flower, the white being of a purity not approached in other varieties. The form is incurved the same as H. Cannell or T. C. Price. Received certificate of merit. 35 cts.
- Jessica.** The earliest of the large-flowering white varieties; quite early. 25 cts.
- John Goode.** This is a fancy cut-flower, of almost globular form and finest silky finish; destined to become a standard sort for cutting; outer petals delicate lavender, forming a decided band of color; inner petals a clear lemcn. 25 cts.
- Mrs. George Bullock.** A pearly white, flower very large and flat; very fine for exhibition purposes. 15 cts.

HARRY E. WIDENER.

Mattie C. Stewart. Clear, bright, golden yellow, extra large and double. Petals broad and flat, reflexing with age; high-built bloom. 35 cts.

Miss Minnie Wanamaker. (Waterer. —J.) Cream-white, incurving; forms a ball; rather dwarf. Certificated. 25 cts.

Mermaid. A soft mellow pink, with deeper shading on outer edge, while at the base it is a deep cream; incurving globular, having strong stems; a fine keeper. 35 cts.

Raven. A large, full, double bloom, deep dark crimson or ox blood red, "almost black," reverse of petals sometimes bronze. Habit tall and robust. 35 cts.

R. Maitre. Not surpassed by any pink in cultivation; of the largest size, per-

fectly double, and without a trace of coarseness. A splendid keeper, of most symmetrical form, and a thrifty grower. Color delicate and beautiful. 35 cts.

Sugar Loaf. Free-growing and free-flowering sort; under the most ordinary treatment produces quantities of flowers of the grandest size; outer petals recurve slightly, while the inner rows incurve; the color is varying shades of yellow, often shaded bronze, sometimes perfectly clear. 35 cts.

Wootton. This is a good variety, either for pot specimens or for cut-blooms. It is a favorite with everybody for its various graces. The flowers are pure white, large and globular, with stiff, erect petals; habit rather dwarf. 35 cts.

GERANIUMS.

For bedding-out during the summer, there is no class of plants used so extensively at the present day as this; they succeed to perfection, flowering profusely during the heat and drouth of summer. Indispensable in any collection of plants, whether for bedding-out or house culture.

Our collection comprises the best of the old and new varieties. Persons ordering need not fear to

leave the selection to us, as we have no worthless sorts.

SINGLE GERANIUMS.

Anna Scott. Very rich deep crimson.
Apple Blossom. Large trusses of pearly white, suffused with rosy pink.
Beauty of Kingessing. White, salmon center.
Beacon. Deep crimson-scarlet; white eye.
Brilliant. Bright scarlet.
Cinderella. Bright rosy salmon; new color.
Concours Reginal. Pure rose, marked white.
Distinction. A narrow zone of deep black near the edge of leaf; scarlet flowers.

Eliza Cook. Fine trusses; flowers pure white, beautiful.
Evening Star. Pink, white center.
General Grant. Fine scarlet; good bedding variety.
Jealousy. A very distinct color; orange-scarlet, of a yellowish hue.
Jean Sisley. Very bright scarlet, white eye; a good bedder.
Kate Patterson. Large flowers of deep orange, overlaid with buff.
M'lle Nelson. A great bloomer; large trusses of carmine-plnk.
Mary Hallock Foote. Bright pale salmon; very large; white eye.

Henry W. Grady. This superb new geranium originated with us two years ago, and we are pleased to offer it for the first time. The color is a beautiful bright deep salmon-pink at center, shading to almost pure white at the borders. A splendid grower, and a free bloomer; large dark green foliage, with broad, almost black zone; the florets are larger than a silver dollar, and are arranged in handsome showy trusses well above the foliage. After testing it thoroughly, we cannot speak too highly of it as an elegant fancy pot variety, and a good bedder also. 40 cts.

Mrs. Moore. Pure white, with a beautiful ring of bright salmon around a small white eye.

Master Christine. Fine pink; free bloomer, and well-known as a very reliable bedding geranium.

New Life. Scarlet flowers, flaked and striped with salmon and white; variable in its character.

Queen of the West. Light orange-scarlet; large trusses, and a profuse bloomer.

Our Pet. Light rosy salmon: a fine bedding sort.

Ralph. Dark crimson, suffused with amaranth; a fine bedder.

Souvenir de Mirande. The greatest novelty in Geraniums that has appeared for a number of years. It has round florets; upper petals cream-white with a distinct rosy pink border; lower petals salmon-rose, streaked with pure white. A most novel color. It is extremely free-flowering, and produces fine trusses of its magnificent blooms. 15 cts each, two for 25 cts. See cut on page 16.

White Clipper. Dwarf, pure white; a good bedder.

DOUBLE GERANIUMS.

Perhaps no other class has been so much improved in late years as the double-flowering Geranium, and still each season adds more striking novelties, in the way of new shades and large-sized flowers, until now we have all shades of single Geraniums represented among the double-flowering. For bedding they are about as good in every way as the singles, and for cutting much better; their handsomely formed flowers are especially useful in floral designs, and they retain their beauty much longer than the single varieties.

Alba Perfecta. Large white flowers; good bloomer.

Asa Gray. Salmon-pink; one of the best.

Bruant. Rich vermilion; semi double; very free.

Chas. Hovey or Peach-Blossom. Pearly white ground, shaded and marked with pink; good.

Commandant Ott. Large trusses of scarlet-orange, shaded into vermilion.

Dr. Jacoby. Clear Nankeen-salmon; a pleasing and distinct color.

Double Gen. Grant. Brilliant scarlet; immense size; fine for bedding.

Golden Dawn. Perfect-shaped flowers, of the largest size, and large trusses; a rich golden orange shade of the most brilliant hue.

George Thorpe. Intense light crimson; good bedder.

Gloire de France. Very large double flowers; center dark salmon, large border of rosy white; fine.

Henry Cannell. Bright dazzling scarlet, florets of great size and perfect form.

Heteranthe. Light gold-dust-red; semi-double, cup-shaped flowers of largest size.

Lemoine's Cannell. Rich amaranth-red.

Mad. Thibaut. Beautiful rich rose color, shaded with carmine.

La Favorite. Trusses large; finely formed flowers of the purest snow-white; the finest double white out.

Mrs. Chas. Pease. Flowers large, of most perfect shape; color an exquisite deep pink, upper petals distinctly marked white.

Mrs. Cope. Rich carmine-red; of large size and immense trusses; a fine bedder.

Mary Hill. Semi-double, of the richest deep pink; very fine.

Mrs. E. G. Hill. Pale blush, overlaid with a delicate lavender; trusses of great size; very free-flowering.

Phallas. Rich apricot-orange, most vivid in coloring; habit neat and free.

Queen of the Fairies. A bi-color variety of the most perfect shape; rich flesh color, edged with pearly white.

S. A. Nutt. The best of all the rich dark crimson varieties; the flowers are of perfect shape; trusses large and produced in great numbers.

The Blonde. Salmon, deeply shaded with orange; an excellent variety.

White Swan (La Cygne). Pure white, with perfect double flowers; one of the finest.

Price, 8½ cts. each, except where noted; 3 for 25 cts., 14 for \$1; our selection of varieties, double or single, all labeled, 18 for \$1.

Plants from 3-inch pots, 15 cts. each, \$1.50 per doz.; from 4-inch pots, 20 cts. each, \$2 per doz.

VARIEGATED-LEAVED GERANIUMS.

These are beautiful in leaf, and are especially useful as house and window-plants. Some of them are fine for bedding out, especially the bronze varieties and Mad. Salleroi.

Mad. Salleroi. Silver variegated geranium, of dwarf compact habit. 10 cts.

Bismarck. Foliage yellow, with chocolate-like zone; flowers salmon. 10 cts.
Cloth of Gold. These plants have clear yellow leaves and scarlet flowers. 10 cts.

Crystal Palace Gem. Leaves green, with a broad golden margin. 10 cts.
Distinction. Leaves dark green, circled near the outer margin by a narrow band of deep black. 10 cts.

Fannie. Yellow foliage, with a beautiful dark zone; delicate pink flowers. 10 cts.

Golden Gem. Beautiful green leaves, with a golden edge; flowers scarlet. 10 cts.

Happy Thought. Margin of leaf dark green, with large creamy yellow blotch in the center; flowers magenta rose. 10 cts.

Lady Plymouth. Rose-scented geranium, with silver variegated leaves. 20 cts.

Mountain of Snow. White-margin, green center. 20 cts.

SCENTED GERANIUMS.

Favorite plants for house or window culture. The sweetly scented foliage adds a charm to any cluster of flowers.

Apple. Delightful fragrance. 15 to 25 cts.
Balm. Large foliage; strong grower.
Cocoanut. Small leaves, highly scented.
Lemon. Small leaves, strongly scented.
Peppermint. Large velvety leaves.
Oak-Leaved. Center almost black.

Mrs. Taylor. Rose fragrance; deepscarlet.
Nutmeg. Very fragrant.
Rose. The old fragrant variety; always a favorite.
Staghorn. Finely cut foliage; strongly scented.

10 cts. each, except where noted.

IVY-LEAVED GERANIUMS.

This class of the Geranium family is a most useful one. The leaves are ivy-shaped, thick and glossy, and the habit is trailing or climbing, in the way of the ivy. The flowers are very handsome, especially as they are backed up by their own beautiful leaves. The plants are excellent for vases, hanging-baskets or to be trained on a trellis.

Anna Pfitzer. Semi-double flowers of large size; fine rose color. 15 cts.
Jeanne d'Arc. Pure white; very double and fine. 15 cts.

We have a dozen or more varieties, single, double and semi-double, varying from pure white to lilac, pink and crimson, at 10 cts. each.

IVY-LEAVED GERANIUM.

General Collection of Plants.

ABUTILON.

Greenhouse shrubs, growing from two to six feet in height; flowers pendulous, bell-shaped, blooming almost the entire year; well adapted for house culture, and fine for bedding-out in summer.

ABUTILON.

Boule de Nieve. Pure white; free bloomer.

Thompsoni. Large foliage, mottled yellow; flowers orange, veined crimson.

Thompsoni Plena. Flowers perfectly double, like a miniature hollyhock; color a deep orange, shaded and streaked with crimson; foliage variegated. 15 cts.

Sensation. Orange-scarlet, veined crimson.

Golden Bells. Flowers bell shaped, golden yellow; a good variety.

Grandiflorum. New; an enormous flower, well open, perfect in form and borne in great abundance; color rich golden yellow; compact in form. 15 cts.

Robert George. A free and continuous bloomer; flowers large, with incurved, overlapping petals; orange, veined crimson; beautiful. 15 cts.

Firefly. Brilliant red; fine.

10 cts. each, except where noted.

ACHYRANTHUS.

Plants of great value for massing or ribbon-borders; the foliage is of very rich coloring.

Aurea Reticulata. Yellow, green and crimson.

Lindenii. Deep blood-red.

Emersonii. Maroon, changing to pink.

Casseii. Mottled yellow and green.

10 cts. each, 75 cts. per doz.

AGATHEA CELESTIS.

(Blue Daisy.)

The flowers are daisy-shaped, of a delicate light blue, with a yellow disc. It blooms in great profusion from November to April; very easy to grow. 10 cts.

AGAVE AMERICANA VARIEGATA.

(Century-Plant.)

Green, margined with yellow; a fine decorative plant. Will stand any amount of heat and drouth; admirably adapted for vases, rock-work, etc. 15 cts. to \$2 each.

AGERATUM.

Very easily grown, always in bloom, and of fine dwarf effect. 7½ cts. each.

Cope's Gem. Deep, rich porcelain-blue, growing only nine to ten inches in height.

White Cap. As dwarf as the above, with flowers of the purest white.

ACORUS VARIEGETA.

A pretty little plant with long, narrow leaves, banded their entire length with bright yellow; very useful for baskets, etc. 10 cts. each.

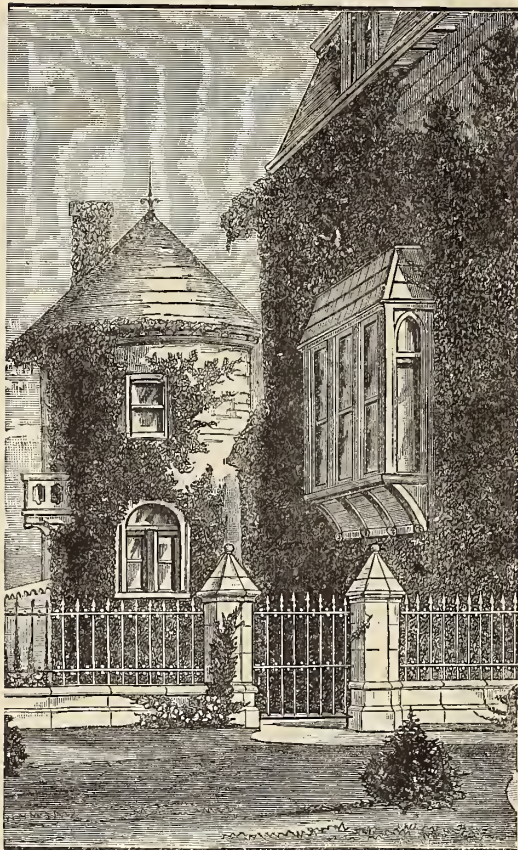

AGAVE AMERICANA.

ALOYSIA CITRIODORA.

(Lemon-Verbena.)

A well-known plant, noted for its delightful fragrance of foliage; indispensable for bouquets, etc. 10 to 50 cts. each.

AMPELOPSIS VEITCHII.

AMARANTHUS "SUNRISE."

The brightest and handsomest amaranthus. The lower part of the plant is a deep, dark maroon, while the top, about one-third of the plant, is a brilliant crimson. Two or three plants of Sunrise Amaranthus, in the center of a bed of foliage-plants, or a whole bed of them, make a very attractive and handsome show. The brilliant top stands out in such strong contrast to the dark plant that it can be seen as far as sight can reach. When the sun is shining brightly a bed of this plant is almost too brilliant to look upon. This magnificent plant grows brighter and better till the frost cuts it down in the late autumn.

ASPARAGUS TENUISSIMUS.

We cannot too highly praise this beautiful plant. If so desired, it can be grown like smilax, or on a trellis; a great acquisition for decorative purposes and cut flower work; its fine filmy foliage, of a beautiful rich green, retains its freshness for a long time; it is of the easiest culture; will thrive with almost any kind of treatment. 10 to 25 cts.

AMPELOPSIS VEITCHII.

Sometimes called "Boston Ivy" and "Japan Ivy." The handsomest of all hardy climbers. It clings to buildings and grows rapidly; during the summer the leaves are a rich shade of green, and in the fall they change to the brightest tints of scarlet, crimson and orange. Small plants, 10, 15 and 25 cts.

ALYSSUM.

New Double Dwarf. Very neat and valuable; similar to the single variety, but far preferable.

Tom Thumb. Very dwarf and free-flowering. 10 cts.

ALLAMANDA GRANDIFLORA.

Plants about three or four years old will be covered with hundreds of their bright golden yellow flowers, each measuring three to four inches in diameter, producing a display which cannot be equaled by any other tub-plant. It must be grown in full sun, and copiously watered during warm weather; winter in a warm dry place. 15 to 50 cts. each.

ALTERNANTHERA.

Beautiful dwarf plant of compact habit, growing about six inches high, and admirably adapted for edgings to flower-beds or ribbon-lines. Their beautifully variegated foliage of crimson, purple, yellow, pink, red and green forms rich masses of color, always attractive and highly ornamental.

Aurea Nana. Golden yellow; dwarf and compact; fine.

Amœna. Yellow, brown and rose.

latifolia. Broad, smooth, autumn-tinted leaves.

Parychoides Major. Crimson, scarlet and pink.

Versicolor. Leaves tinted rose and crimson.

10 cts. each, 75 cts. per doz.

AZALEA INDICA.

This is a shrubby plant for house decoration, requiring the same treatment as camellia. 25 cts. to \$2 each.

BEGONIA DIADEMA.

large, flat flowers of a soft, silky pink, contrasting well with the rich bronzy green foliage. 25 cts.

Metallica. A strong, vigorous, erect-growing sort, with beautiful variegated foliage, having a metallic or bronze hue; flowers pink; a highly ornamental plant, and one which when well-grown forms especially handsome specimens, becoming finer year by year. 10 to 25 cts.

Manicata. Large, smooth, bright green leaves, hairy on stem and under side of leaf; large panicles of pink flowers high above the foliage; a strong grower, and of the best of recent introductions. 10 cts.

McBethii. Foliage fern-like, and distinct from other begonias; flowers of a waxy texture; a very pretty sort. 10 cts.

Rubra. A magnificent begonia; flowers bright, clear red, in trusses; very beautiful and attractive; handsome glossy foliage; a constant and profuse bloomer—indeed, it is never out of flower if kept healthy. With reasonable care, plants can be grown into magnificent specimens, which will delight you with their delicate and handsome flowers. First size, 10 cts.; larger, 15 cts., extra size, 35 cts.

Rubra Alba. The same as the above, but flowers white; makes a fine companion to Rubra. An especially handsome effect can be produced by growing a plant of each side by side, and allowing them to intertwine. 15 cts.

Richardsonii. Flowers white; foliage finely cut. 10 cts.

Semperflorens Gigantea Rosea. A superb variety of vigorous growth, with large, tropical leaves and clear cardinal-red flowers. 15 cts.

Sanguinea. A showy variety with large leaves; upper side rich olive, under side crimson, and of a peculiar leathery-like substance; flowers light rose and white. 10c.

Saundersonii. Deep scarlet; fine winter bloomer; known as the Coral Begonia. 10 cts.

Weltoniensis. Flowers a lovely shade of pink, and very abundant. 10 cts.

Weltoniensis Alba. Similar to the last named, but with white bloom. 10 cts.

BANANA-SHRUB.

(Magnolia fuscata.)

Well-known for its fragrant flowers; beautiful and desirable. 35 to 50 cts each.

BEGONIA.

(Flowering Varieties.)

Argentea Guttata. An elegant new begonia, with rich green leaves, spotted silver; it produces white flowers in bunches on ends of growth stems; very handsome. 20c.

Alba Picta. Long, pointed, slender leaves, thickly spotted with silvery white, foliage small and elegant. 10 cts.

Dreggii. Neat dwarf habit; pure white flowers. 10 cts.

Diadema. Leaves olive-green, spotted silver; deeply lobed. 15 cts.

Gloire de Sceaux. One of the finest-flowering begonias introduced for many years; it is of upright habit, producing during the entire winter

BEGONIA RUBRA.

BEGONIA REX.

(Ornamental-Leaved.)

This class, with so many different shades of the leaf, combined with an endless variety of markings and richness of color, stands unrivaled for beauty and elegance.

COUNTESS LOUISE ERDODY.

Countess Louise Erdody. This new variety is strikingly peculiar; the leaf has a metallic luster, shading into coppery rose toward the margin, the spiral twists of the leaf giving it a very curious appearance.

Queen Victoria. Solid silvery leaf of crepe-like texture, with reddish veins and fluted reddish edge.

We have a dozen or more other varieties, varying in color and markings. Price, 10 cts. each; 6 fine sorts for 50 cts.

BOUVARDIA.

This is a beautiful class of autumn and winter-blooming plants deserving much attention. They are of the easiest culture, and reward the grower with a profusion of rich colored flowers all winter.

Alfred Neuner. Pure white double flowers.

President Garfield. Double pink.

Humboldtii. Large, white, very fragrant.

Lady Hyslop. Light rose.

Flavescens. Pale sulphur; a very pretty variety.

Davisonii. White; fine form.

Leiantha. Dazzling scarlet; good bloomer.

Bride. Beautiful deep pink, of an especially delicate shade; splendid sort.

Dazzler. Light scarlet.

15 cts. each, \$1.50 per doz.

CACTUS.

Of this interesting class of plants we have a large variety; it includes the night-blooming types. 25 cts. to \$1 each.

CARNATIONS, MONTHLY.

The Carnation is one of the sweetest and most beautiful of all the flowers of the garden second only to the rose in form, coloring and delightful fragrance of its double flowers. Our collection includes the best varieties in all shades of red, yellow, white, striped, etc., in the improved sorts which have been introduced so freely of recent years. 10, 15 and 25 cts. each.

CALENDULA METEOR.

Showy and free-flowering hardy annuals, growing in any good garden soil, producing fine effects in beds or mixed borders, and continuing in bloom until killed by frost. 75 cts. per doz.

CESTRUM.

(Night-Blooming Jasmine.)

Aurantiacum. Orange flowers, of very attractive form, and quite fragrant. 10 cts.

Laurifolium. Pure white; very fragrant, and beautiful also. 10 cts.

CESTRUM.

CYPRIPEDIUM INSIGNE.

(Lady's-Slipper.)

A terrestrial orchid of easy culture; is very handsome and attractive. 25 cts. to \$1 ea.

CUPHEA PLATYCENTRA.

(Cigar-Plant.)

Neat little plant for pot-culture, also for baskets, vases, or bedding-out; most profuse bloomer; flowers tubular, crimson, tipped black and white. 10 cts. each, \$1 per doz.

CALLA.

Æthiopica (Lily of the Nile). An old, well-known favorite which should be found in every collection. Blooming bulbs, 15 and 25 cts. each; larger size, 50 cts.

CALLA RICHARDIA MACULATA.

Richardia Maculata (The Spotted Calla). Flowers abundantly during the summer months. The leaves are beautifully spotted; flowers shaped like those of a calla, and are pure white, shaded violet inside. The bulbs must be kept in dry sand in the winter. Large bulbs, 50 cts.; smaller, 20 c.

CAMELLIA JAPONICA.

Grand winter-blooming plants. Prices vary according to size and number of buds, from \$1 to \$3 each.

CANNA.

One of the finest ornamental foliage and flowering plants, making a good bed alone, but particularly desirable for the center of a group of foliage-plants; it grows from three to six feet high; of easy culture and perfectly hardy in the south.

Ehemanni. A very distinct variety, with large, beautiful green foliage; the flowers are twice the size of any other kind, of a rich shade of carmine, and produced in great clusters. 25 cts.

J. Schultz. A very ornamental plant; leaves dark bronzy crimson, making a fine contrast planted among other cannas. 25 cts.

Emile Leclerc. New; large golden yellow flowers, mottled crimson and deep scarlet; deep green foliage; three feet high. 30 cts.

Other varieties of *Canna*, 10 cts. each, \$1 per doz.

COLEUS.

They make the showiest and cheapest bedding-plants we have. There is such an endless variety in their color and markings that, with a little taste in planting varieties, the most gratifying results can be obtained at a trifling cost. They are of easy cultivation, and make fine specimens in a very short time. Plants should be set about a foot apart, so that it is easy to figure how many plants are needed. We grow them in large supply, of best sorts. 5 cts. each, 50 cts. per doz., \$3 per 100.

COLEUS.

CENTAUREA GYMNO-CARPA.

(Dusty-Miller.)

A valuable plant for ribbon bedding, with graceful, fern-like drooping silvery foliage. Used generally for bordering beds of coleus or geraniums; also unsurpassed for hanging-baskets. 10 cts. each, \$1 per doz.

DAY LILY,*(Funkia alba.)*

Pure white flowers, very large and fragrant; large, handsome foliage, prettily veined.

An elegant plant for bedding; it will increase in size and beauty every year, and being entirely hardy, should be allowed to remain undisturbed in the same place for several years, when it will develop much beauty. Extra-fine plants, 20 cts.

DOUBLE DAISY, SNOWBALL.

they flower freely during winter. 10 cts. each, \$1 per doz.

Snowball. A large and very double pure white Daisy of the "Longfellow" type.

The flowers are borne on long stems and are excellent for cutting. 15 cts.

Paris Daisy (Marguerite). Flowers single white, with yellow disc; blooms winter, and summer; fine for bedding or pot-culture; very desirable. 10 cts.

DAHLIAS.

We have a large collection of Dahlias, including Double and Single, Large-flowered, Bouquet and Pompon varieties. They were the admiration of all who saw them last fall. Give plenty of water and rich soil. Dry roots, 20 cts. each, \$2 per doz.; strong, pot-grown plants, ready April 1, 10 cts. each, \$1 per doz.

DAISIES.*(Bellis Perennis.)*

Well-known spring flowering plants, producing their perfectly double flowers of white, red and pink in great profusion; if potted in the fall and kept in a cool room,

FERNS.

ADIANTUM cuneatum. The popular Maidenhair. This variety of ferns is a general favorite. 25 to 50 cts.

A. cuneatum grandiceps. A very beautiful form of *A. cuneatum*, having long graceful fronds, with the ends of the fronds developed into bunching tasseled heads; a distinct and lovely variety. 25 and 50 cts.

A. Farleyense. This is the finest of all the Maidenhair varieties. \$1.

A. gracillimum. Smallest and most graceful Maidenhair. 25 cts.

A. pubescens. A useful basket variety. 25 cts.

Davallia stricta. One of the finest ferns in cultivation, whether for growing as a decorative plant in the room or planting out; the fronds are of a strong texture and of a beautiful shade of green. 25 and 50 cts.

Lygodium scandens. A climbing fern from the East Indies; a most graceful plant, growing from three to six feet high; quite as easy of culture as the smilax, and can be used to advantage in hanging-baskets. 25 to 50 cts.

Nephrolepis exaltata. The Sword-Fern. A magnificent sort with beautiful fronds often four to five feet in length; a hardy robust grower, and valuable for pots, baskets, vases, or the garden. 25 cts.

Pteris serrulata. A pretty and useful variety; the young growth is a beautiful yellowish green; older leaves quite dark. 25 cts.

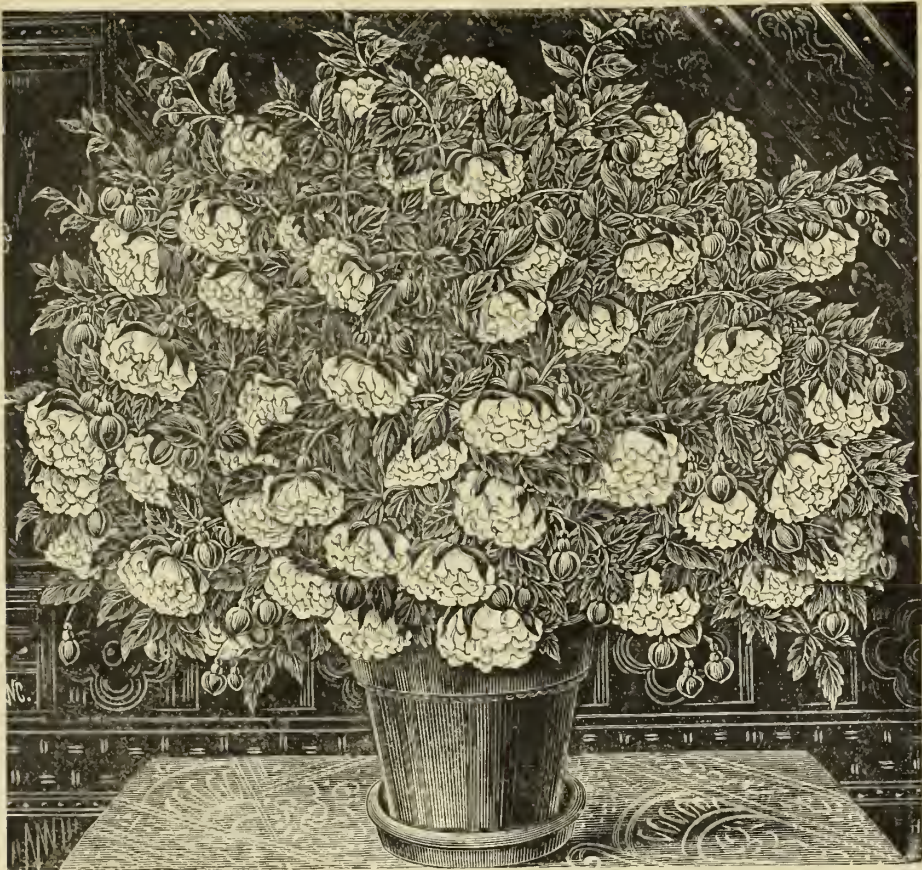

P. tremula. Strong grower and of easy cultivation. 25 to 50 cts.

P. Hastata. A useful variety, with black stems and dark green fronds; fine for baskets.

P. leptophylla. A distinct variety, silvery-green foliage. 25 cts.

COLLECTION OF FERNS.

STORM KING.

FUCHSIA.

SINGLE.

Nothing more graceful than the Fuchsia grows, and its peculiar charm has made it very popular. Since the introduction of the first variety in England a generation ago, the improvement of the flower has been steadily pursued, and with most gratifying results. We now present varieties of the utmost freedom and beauty in flower, together with strength and graceful habit.

Aurora. Orange-scarlet corolla; sepals rich salmon; a beautiful sort.

Arabella. Tube and sepals pure white; corolla rose.

Black Prince. Large expanded corolla of reddish rose color; broad waxy carmine sepals, with pale green tips.

Carl Halt. Sepals white; corolla crimson, striped white.

Day Dream. Corolla maroon, sepals crimson; fine vigorous grower and a free bloomer.

Earl of Beaconsfield. The blooms are three inches in length; tube and sepals light carmine, corolla deeper.

White Lady. Sepals bright scarlet, corolla white.

DOUBLE.

Joseph Rosain. Violet corolla, with rosy veins; sepals scarlet.

Jules Monge. Coral-red, reflexed sepals, corolla lavender-blue, marked scarlet.

Snow-Fairy. Sepals scarlet-rose; corolla white; free.

Fuchsia (Double), continued.

Phenomenal. The largest double fuchsia—single blooms are actually two inches in diameter unner good culture; tube and sepals reddish crimson, corolla clear azure-violet, flaked with red. This is really a superb variety, and ought to be in the possession of every one who admires the fuchsia.

Storm King. Sepals crimson, corolla large, white, penciled crimson; of extremely free-flowering habit—indeed a portion of the buds should be removed to prevent the plant from overburdening itself.

White Giant. A superb new variety; tube and sepals brilliant scarlet, corolla large, waxy white.

Mrs. E. G. Hill. Very large and double; beautiful form; sepals red, corolla white.

Elm City. Crimson sepals, purple corolla.

10 cents each, unless otherwise noted.

FARFUGIUM GRANDE.

A first-class ornamental plant for pots; well adapted for house culture. The leaves are nearly round, thick and leathery, beautiful dark glossy green, with large yellow spots; hardy. 15, 20 and 25 cts.

FEVERFEW.

Golden. Foliage bright golden yellow, delicately cut; very much used for edgings of beds. 10 cts. each, \$1 per doz.

Little Gem. A new dwarf variety, growing only from eight to ten inches high; flowers large and pure white; splendid for cutting. 10 cts. each, \$1 per doz.

GLADIOLUS.

There are few bulbs which will give so much return for little money as the gladiolus. The flowers are of almost every desirable color, brilliant scarlet, crimson, creamy white, striped, blotched and spotted in the most curious manner. They can be lifted in the fall when done blooming, and stored in any dry place over winter for the next season's planting. 10 cts. each, twelve choice varieties for 75 cts.

FARFUGIUM GRANDE.

GLOXINIA.

These are among the handsomest of our summer-blooming greenhouse plants. The flowers are gorgeous, and of various bright colors, beautifully marked and blotched with softer shadings; they are trumpet shaped, and the markings are in the throat, mostly. The foliage has a soft, velvety appearance, very attractive. After blooming, water should be withheld, and the bulbs remain dry and warm through the winter. 25 to 50 cts.

GLECHOMA HEDERACEA VAR.

(Nepeta Glechoma.)

A variegated form of the common ground ivy, which is prettily marked with pure white on a bright green ground; it is hardy and of vigorous growth, like the parent variety, but, unlike it, the leaves of this form have a refreshing fragrance similar to mint. It will no doubt become one of our most useful plants for festooning work, such as drooping from hanging-baskets, vases, fancy pots, etc., its graceful, rapid growth rendering it unequalled for this purpose. It is also a good thing to plant about the roots of trees to conceal bare spots in the grass. 10 cts. each, three for 25 cts.

GLECHOMA HEDERACEA VAR.

HYDRANGEA.

Beautiful large-flowering plants, adapted to a rather shady location, and should have a plentiful supply of water.

HYDRANGEA PANICULATA GRANDIFLORA.

pink, and are born in immense pyramidal trusses more than a foot long and nearly as much in diameter. It blooms in midsummer, and remains in bloom two or three months. Creates a great sensation wherever seen; is scarce and difficult to obtain. The plant is of bushy and compact growth, attains a height of three to four feet, and is perfectly hardy in all parts of the country; needs no protection of any kind, and in great demand for lawn, park and cemetery planting. 15 and 25 cts.

Hortensis. The well-known garden variety, producing immense heads of bright pink flowers. 15 to 40 cts.

Thomas Hogg. Purest white flowers, of very firm texture and continue in flower for a great length of time; perfectly hardy and one of the finest plants for cemeteries. 15, 25 and 50 cts.

The Hydrangea Grandiflora continues to be one of the best and most handsome hardy ornamental shrubs ever grown. It blooms finely the first year and gets better and grows larger with age. The flowers are pure white, afterwards changing to

HELIOTROPES.

Below we give a list of choice and distinct varieties of this popular and indispensable plant so much valued for its fragrant flowers and successive bloom.

Birnie. Beautiful shade of lavender; exceedingly fragrant.

Mad. de Blonay. Large trusses of nearly pure white flowers.

The Queen. Rich violet-purple, white center.

Snow Wreath. The nearest approach to pure white; large trusses; compact growth.

Florence Nightingale. Dark lavender; fine.

8½ cts. each, 3 for 25 cts.,
14 for \$1.

HELIOTROPE, THE QUEEN.

HIBISCUS ROSA-SINENSIS.

These plants are becoming very popular as bedding-plants, being almost continually in bloom and making a great effect, either planted out or cultivated in pots. The greater the heat the more numerous and beautiful are the large and magnificently colored flowers.

HIBISCUS ROSA-SINENSIS.

Brilliantissimum. Large single flowers of the richest and most brilliant crimson scarlet, flushed with orange; base of petals stained deep crimson.

Collerii. Buff-yellow base of petals crimson; a distinct and showy sort.

Grandiflora. Single large flowers of rosy crimson.

Jaune. Double yellow. 20 to 50 cts.

Rubra. Double red. 10 to 25 cts.

Versicolor. Single; striped crimson, rose and white.

10 cts. each, except where noted.

HOYA CARNOSA.

(Wax-Plant.)

A climbing plant with thick fleshy leaves, bearing umbels of thick flesh-colored star-shaped flowers, with a carmine center; of easy culture, and can be trained in any shape. It is a very interesting climber of permanent value. 10 and 50 cts.

IMPATIENS SULTANI.

This is one of the most distinct and beautiful plants, either as a pot-plant in winter or for summer bedding. Of compact, neat habit and always in bloom; the flowers are bright rosy scarlet, and contrast finely with the glossy lively green leaves. 10 cts.

IVIES.

English. Hardy evergreen creeper; valuable for covering brick walls, etc. It is the poetic ivy of the "tight little isle." 15 cts.

German or Parlor. A very rapid grower, with smooth, glossy, light green leaves; fine for baskets, vases, etc. 10 cts.

JASMINES.

Grandiflorum (Catalonian Jasmine). Flowers pure white, star-shaped and very fragrant, blooming from October to May.

Grand Duke. Flowers double white, like a miniature white rose; delightfully fragrant. 15, 25 and 50 cts.

Hirsutum. A free ever-blooming, single white Jasmine, producing flowers in wreath-like branches.

Multiflorum. One of the best Jasmines; pure white, on wreath-like branches.

Jasmine, Cape (*Gardenia florida*). Flowers pure white, double and very fragrant. 25 and 50 cts.

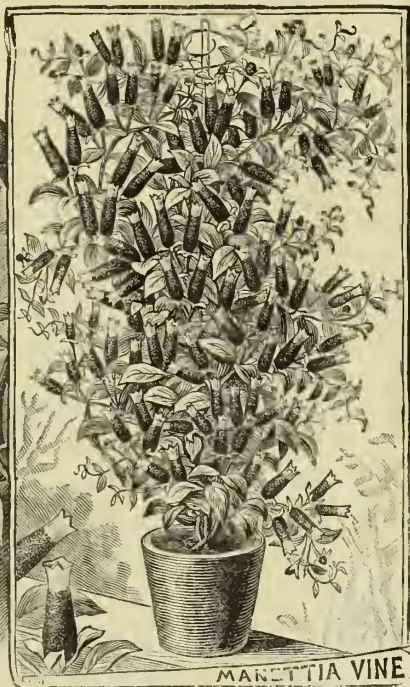

15 cts. each, except where noted.

IMPATIENS SULTANI.

LINUM TRIGYNUM.

Begins blooming in November and continues through the winter months, and never fails to bear a great number of its single blossoms of deep yellow, which are large, of pretty form and very showy. 10, 15 and 25 cts.

MANETTIA VINE

Ipomœa Learii. (The Blue Moon-flower). This is a grand companion for the white variety. It is similar in all respects, except the color, which is a lovely satin blue with crimson bars. When grown with the white one the effect is grand.

Price for either variety, 10 cts. each, \$1 per dozen.

MANETTIA-VINE.

(*Manettia bicolor*.)

A charming and profuse flowering climber, producing tubular flowers from one to two inches in length, the plant being literally covered with them the entire season. The coloring of these flowers is gorgeous in the extreme, being a flame color tipped with bright yellow; the contrast with the vivid green, glossy foliage is startling, making the plant an object of great beauty. 10 cts.

MELON-PEAR OR PEPINO.

This elegant plant is almost constantly in bloom, and when covered with its fruit and flowers both, it is wonderfully attractive. The fruit is as large as a goose-egg; light orange color, streaked and waved with purple lines; in taste it is between a banana and muskmelon. Where it bears freely it is likely to be highly esteemed. The plant attains three to four feet in height, and is very bushy. It can stand a light frost, but a heavy frost kills it to the ground. The roots may be taken up in the fall and wintered in the cellar, or it may be grown on in the house all winter. 10 cts.

NIEREMBERGIA GRACILIS.

A summer-blooming plant, with slender, graceful branches and delicate foliage. The blossoms are in beautiful accord with the dainty habit of the plant, appearing on the tips of the branches; fragile in construction, airy and elegant; in color they are a light lavender; the plants bloom, dry weather or damp, from the beginning of the season to its close; splendid for baskets and vases, and is hardy. 10 cts.

LYCOPODIUMS.

Admirably adapted to hanging baskets, vases, etc.; require partial shade and should be kept moist.

Arborea. Upright branches with air-roots descending to the ground; fine pot-plant. 15 to 25 cts.

Cesium Arboreum. Also called Climbing Rainbow Moss. It is a most exquisite trailing plant, but if given support, will grow upright twelve to eighteen inches; its metallic shining leaves are really beautiful. Well-grown plants, 15 cts.

Denticulatum. This is the most popular of the creeping mosses, creeping in dense masses over the soil; loves shade and moisture like all the rest. 10 cts.

Selaginella Wildenowii. A moss with fern-like fronds; very handsome. 25 cts.

MOON-FLOWERS.

Ipomœa Noctiflora (Common Moon-flower, or Evening Glory). Flowers pure white, four to five inches in diameter. Very rapid grower and free bloomer.

OLEANDER.

As a tub-plant this has no rival. Give plenty of water and rich soil; can be kept over winter in any kind of a cellar or pit in which it does not freeze.

Double Pink. The oldest, and a well-known good bloomer. Strong plants, 25 to 50 cts

OLEA FRAGRANS.

(Tea-Olive.)

A favorite greenhouse shrub, with small white flowers; deliciously fragrant. The perfume of a single plant is sufficient to fill a room. 25 to 50 cts.

OXALIS.

No plants are easier grown than the Oxalis; they are sure to succeed in all soils and situations.

Lasiandra. Rosy pink; fine for edging beds.

Alba. Same, but pure white.

Deppii. Elegant foliage; pink flowers. 5 cts. each, 25 cts. per doz.; 50 cts per 100.

Floribunda Rosea. Beautiful rose colored flowers; winter bloomer.

Floribunda Alba. White, winter-blooming; valuable. 15 cts.

Ortgiesi. A new variety, growing a foot or more in height. The upper side of the leaf is rich olive-green, the under side purple. This is not a bulbous-rooted variety; flowers yellow, a constant bloomer.

Except where noted, 10 cts. each, 75 cts. per doz.

PANICUM VARIEGATUM.

A variegated grass of drooping or creeping habit; a valuable plant for hanging-baskets or vases, as it is of a most graceful habit. 5 cts.

PANSIES.

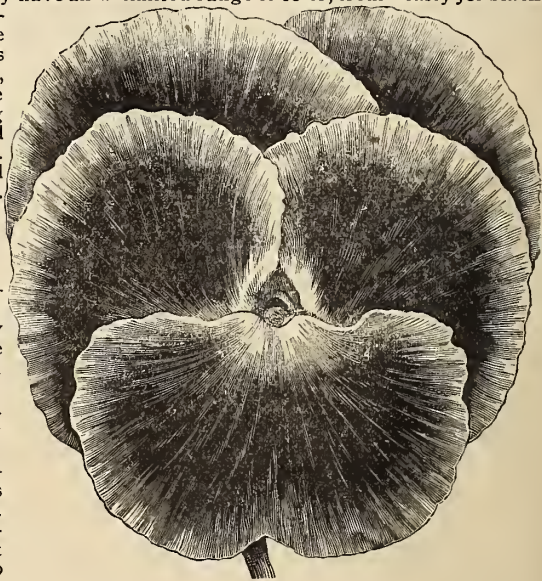

This class of plants can hardly be overestimated. They come in the early spring when the garden is nearly bare of flowers. Our strain of these beautiful flowers is unsurpassed in size and color; they have an unlimited range of color, from nearly jet-black through all the intermediate colors of yellow and blue to pure white, and their markings are as varied as the colors themselves, hardly any two being alike. The ground must be rich, only using well decayed manure, and avoid planting in a dry, exposed place. They delight in partial shade and moisture. 10 cts. each, 75 cts. and \$1 per doz.

PLUMBAGO.

The Plumbagoes are desirable on account of their beautiful shades of blue flowers which they produce abundantly the whole summer. They stand the hot sun admirably.

Capensis. Light blue; very free-flowering. 10 cts. each, \$1 per doz.

Capensis Flore Alba. The exact counterpart of Capensis except in color, which is a creamy white. It is constantly in bloom throughout the season. 15 cts. each, \$1.50 per doz.

PANSY.

PETUNIA.

The collection offered this season is particularly rich in color, of the largest size, fine in form and very double.

Admiration. White and purple.

Aurora. Very rich carmine, edged white.

Meteor. Deep rich purple; immense flower.

Silver Queen. Clear white, suffused with delicate silvery rose.

Snowdrift Improved. White; fine compact growth, and the best for general planting.

10 cts. each, 3 for 25 cts.

PILEA MUSCOSA.

(Artillery-Plant.)

Graceful fern-like foliage, with very small pinkish white flowers. When the flowers are ready to expand, the least moisture causes them to open with a snapping sound, emitting a puff of smoke; of very easy culture. 10 to 25 cts.

PRIMULA.

(Chinese Primrose.)

This is the most thankful of all the plants we cultivate for winter flowers; they bloom continually from early fall till late in the spring; well adapted for conservatories, parlors, etc. Keep in a cool place.

Single White, Red and Pink. 25 cts. **Double White and Pink.** 50 cts.

PRIMULA OBCONICA.

A lovely, perpetual-blooming new Primrose, admirably adapted to growing in the window. The flowers are profusely borne on long stems, making it an excellent cut-flower for funeral work. It is in full bloom fully nine months of the year, and some plants have kept up a succession of bloom during the entire season. The plant requires a cool temperature, and is of easy culture. 10 cts. each; strong blooming plants, in 4-inch pots, 25 cts.

RHYNCHOSPERMUM JASMINOIDES.

This is a handsome climber, with white, Jasmine-like flowers that are very fragrant and are produced freely during the spring months. Plants for house or window garden culture may be trained on a small trellis. The flowers are handsome and very desirable for bouquets, etc. 15 cts.

RUSSELLIA JUNCEA.

Brush-like foliage; handsome scarlet flowers, always in bloom; of a graceful weeping habit; fine for baskets or vases. 10 cts.

SALVIA,

Excellent summer-blooming plants, especially brilliant in the fall months; fine for bedding; of easy culture.

Hoveyi. Habit and general character of *Splendens*, but with dark blue flowers.

Rutilans. Produces very freely, neat spikes of magenta-colored flowers.

Splendens (Scarlet Sage). Long flower-spikes of the most dazzling scarlet. 10 cts. each, \$1 per dozen.

SMILAX.

A most beautiful climbing plant of a glossy, graceful deep green foliage; used largely with cut-flowers, for baskets, bouquets, trimmings, etc. 15 cts.

SAXIFRAGA SARMENTOSA.

A fine basket-plant; also known as Strawberry Geranium or Beefsteak Plant. 5 cts.

THYME, GOLDEN-EDGED.

A pretty variegated variety of the common Thyme plant, equally fragrant and ornamental; excellent for hanging-baskets; extra variety. 10 cts.

PRIMULA OBCONICA.

TUBEROSES.

A beautiful wax-like, pure white, sweet-scented flower; well-known to all, and always in demand. Our bulbs are in perfect health and condition to flower this season, but it depends very much on the treatment you give them whether they succeed or not. They are sensitive to shade, and luxuriate in a sunny situation and a deep, rich, mellow soil, with good cultivation. They should be planted two or three inches deep.

Double Pearl. Dwarf sort. 5 cts. each, 50 cts. per doz.

Double Italian. 5 cts. each, 50 cts. per doz.

New Variegated. The leaves of this variety are bordered creamy white; flowers single but very large and of exquisite fragrance. Bulbs continue to grow and bloom year after year. It makes a most magnificent plant. It blooms several weeks earlier than the other sorts, which greatly adds to its value. 10 cts. each, 3 for 25 cts.

Single Orange-Scented. A fine sort, bearing, very early in the season, large spikes of beautiful Single Orange blossoms. Very fragrant. 10 cts. each, 3 for 25 cts.

One bulb each of above four sorts, 25 cts.

TORENIA ASIATICA.

One of the prettiest plants for vases or hanging-baskets; flowers blue, of Gloxinia-like shape. Completely covered all summer with bloom. 10 cts. each, \$1 per doz.

VERBENAS.

With the exception of the geranium, the Verbena is the most popular and useful for our bedding plants. Colors run from the purest white to scarlet

and maroon, through all shades of blue to deepest purple; some have white or creamy centers, others are striped, etc. 5 cts. each, 5 for 25 cts., 20 for \$1.

VIOLETS.

(Sweet-Scented.)

Swanley White. This new double white violet has given great satisfaction. As a plant for pot-culture in the house, for winter and spring blooming, or for planting in the gardens, or in frames, it is equally valuable. Has very large, perfectly double

flowers of pure snowy white, highly fragrant. Strong healthy plants, 8½ cts. each; 75 cts. per doz.

Marie Louise. Double flowers, deep blue. 10 cts. each; 6 for 50 cts., \$1 per doz.

Czar. Large, single, deep blue flowers, very sweet. 10 cts. each, \$1 per doz.

White Czar. Single white flowers, sweet, strong and free. 10 cts. each, \$1 per doz.

SWANLEY WHITE VIOLET.

Cut-Flower Department.

FLORAL DECORATIONS, ETC.
