so the survey on distribution of the goods became quite difficult. Furthermore, it was approved to return the distributed incentive goods as of the end of February.
The survey is being conducted regarding the stock in hand on the basis of the datum as of the end of February; the results will be reported to you as soon as cleared.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Remarks: The reason why the same article appeared in the above table more than once is that the price changes according to the quality and time of distribution of the article.

2) Status of sales:

Generally speaking, the incentive goods sell bad as the charm of these goods disappeared now that consumers can freely buy these daily necessities from any merchant and few articles remain controlled.

3) Causes of bad selling:

a. The farmers lost purchasing power owing to their tight economic conditions.

b. Free choosing regarding the price, time of purchase and quality does not exist in the purchase of the incentive goods.

c. Many of the incentive goods are coarse and poor, and above all, dearer than those offered from the merchants.

d. The charm of the incentive goods disappeared now that most of the daily necessities are amply seen on the streets.

1. Reference is made to the inquiry submitted to KCAR by Headman of Ohsawa-mura, Kodama-gun.

2. With regard to the subject we received an allocation notification from Director General of the Food Agency under date of 13 March.

According to the report we received recently from the shipping organs they seem to have completed the preparation for shipping out of the goods. Therefore, goods-receiving organs are expected to distribute them to the lowest ends as soon as the allocation amount of goods by kind is received from each gun.
