Office and Packing Grounds Immediately  
West of and Adjoining Purdue University

**WEST LAFAYETTE, IND.**

# Prices Reduced This Year and 10% Extra Value Given for Early Orders

---

ORDER EARLY—ORDER NOW

---

We expect an unusually large demand for nursery stock this season. If you order early it will enable us to give you better service.

To encourage early orders we will give 10% extra value for all nursery stock purchased before April 1st. For each dollar's worth of stock ordered by you prior to April 1st, you may select entirely free additional stock to the amount of ten cents. If your order amounts to \$10.00, you may select \$11.00 worth of stock. If your order amounts to \$20.00, you may select stock to the amount of \$22.00—and so on.

Some kinds of nursery stock are still very scarce. Order early and you will be sure to get your full requirements. You will not only protect yourself by ordering early, but we can give you quicker and better service.

The majority of people do not place their orders for nursery stock till the very last minute—and the big rush comes on us all at one time. So help us to give you better service by ordering early. We offer you a special 10% premium this year for your early orders.

Assuring you of our best attention at all times.

Faithfully yours,

THE LAFAYETTE NURSERIES.

## OUR UNRIVALLED LOCATION

Office and packing grounds on the electric street railway, immediately west of and adjoining the U. S. Experiment grounds and Purdue University.

### GREAT ADVANTAGES OF LOCATION

**Located** as we are, adjoining the U. S. Experiment Station, where hundreds of varieties of fruit are tested each year by the U. S. Department of Horticulture, in their experimental tracts, our facilities for obtaining the very best and latest improved varieties, adapted to our soil and climate, are unequalled by any establishment in this country. Our customers, unfamiliar with the different varieties of fruits, will do well to leave the selection of varieties largely to us, and we can assure them the benefit of our many years of experience, in addition to the information gained by a careful study of the many varieties thoroughly and scientifically tested every year by the Department of Horticulture at the U. S. Experiment Station at Purdue University.

### TERMS AND CONDITIONS

Prices in this list are strictly net cash, boxed and packed free. No charge for delivering packages to express office or railroad station. Remittances should be made by check, draft on Chicago, or by express money order or postal money order. All remittances should be made payable to LaFayette Nursery Company, West LaFayette, Indiana.

We desire to urge the great convenience of the use of your personal check in making remittance.

Five or more trees or plants may be selected at the 10 rate. Fifty or more at the hundred rate. Five hundred or more at the 1,000 rate. Strawberry, raspberry, blackberry and asparagus plants, however, are tied in bunches of 25 as they are dug in the nursery and we do not sell them in less quantities than 25, as too much time is required to break bunches and recount. Note carefully that by ordering in quantities of 50 or more you will save considerable. In order to make up the 50 you may select as many varieties as you like, say 7 apple, 11 cherry, 25 peach and 7 grape vines—different kinds of each if you wish.

We guarantee stock true to name and use the utmost care to avoid mistakes, and should any stock prove untrue to label, we will, upon proper proof, replace free of charge; but it is mutually agreed and understood between purchaser and ourselves that our liability extends no further.

Purchasers can rely upon receiving clean, healthy stock. Entomologist's Certificate of Inspection accompanies each shipment.

**Quality:** No better stock of the different grades can be grown— young, healthy, thrifty, well-rooted, well-graded.

### OUR GUARANTEE

All goods are guaranteed to reach you in good condition; mistakes if made, will be promptly rectified; examine and count on receipt and notify us at once should there be any errors or damaged stock. This guarantee not good unless above requirements are complied with. We do not guarantee continued growth. Remember a tree, shrub or plant is a living organism, as much as a cow, horse or man. It breathes, drinks and feeds, and is liable to attacks of disease and insects. At prices we sell, it is impossible for us to guarantee growth or to be responsible for stock after delivery to our customers in good condition.
