## GERMANY DECLINES TO SIGN PROTOCOL

### GOVERNMENT OF STATES MAY PROCEED AGAINST MINERS AND OPERATORS

**Citations For Contempt of Court May Be Directed Against Certain Coal Strikers and Owners, Says Indianapolis Dispatch**

Indianapolis, Ind., Dec. 3.—Citations for contempt of court directed against members of the United Mine Workers of America, and possibly against coal mine owners, are expected within the next twenty-four hours as the Government's next step in its efforts to bring about an end of the strike of bituminous coal miners.

It has become known that a mass of evidence against alleged violators of the strike injunction has been collected by agents of the Department of Justice and that proceedings will be instituted immediately.

Government attorneys take the position that statements made by individual miners which will be viewed as encouragement of the strike or agreement by any two members to refrain from work constitute a violation of the injunction.

No mines are operating in Indiana.

Chicago, Dec. 3.—Further disruption of national industry because of the fuel shortage brought about by the strike of bituminous coal miners is in prospect. Regional Directors of Railroads have authority to annul passenger trains where the public would be least inconvenienced, and many additional manufacturing plants through the country face shutdowns.

No Encouragement.

State Executives, who under appeals from their constituents for aid anxiously have sought ways and means for replenishing the rapidly dwindling fuel supplies to-day virtually were without encouragement as regarded increased production. Only in isolated instances were there reports of a optimistic reports from operators of the district embracing Southeastern Kentucky, Tennessee and Virginia that the backbone of the strike there had been broken, and the return to work of the miners at Trenton, Mo., with the statement that they as Americans could not see their neighbors suffer.

**VETERANS ENTER MUNICIPAL ARENA**

Kingston Ex-Soldiers Seek to Elect Mayor and Aldermen

Kingston, Ont., Dec. 3.—The veterans of Kingston are to make a strong bid for representation in the municipal bodies of this city. They have drawn up a slate showing that Aldermanic candidates will be placed in the seven wards in the city. It is proposed to run candidates for the Board of Education in at least five of the seven wards. The veterans have nominated H. C. Nickle for Mayor and Colonel Macphail for Utilities Commissioner.

No Affiliation.

Toronto, Dec. 3.—The G. W. V. A. of this city will not join or affiliate with the United Veterans' League, Secretary J. V. Conroy, of the former, states. The proposed terms of representation in the League, whereby the G. W. V. A. would have no more representatives in it than any one of a dozen bodies with a lower membership, are not acceptable to the G. W. V. A.

**AID FURNITURE AND FISHING PROJECTS**

Cabinet Authorizes Industrial Loans to a Victoria and Vancouver Concern

Two loans, amounting to \$20,000, to be made to S. industries, were authorized by the Government in executive session this morning, on the recommendation of the Industrial Commissioner and Advisory Council.

The first loan of \$10,000 will be made to the Canadian Lumber Woodworkers' Company, of Victoria. This company proposes to manufacture here furniture of various kinds, coffins and other wooden products. Returned men for the greater part form the directorate of the concern. Its objects were set out on this morning. This company will have its headquarters at Vancouver and will cure herring by a Scottish method. The company is composed entirely of returned men.

About \$500,000 of the \$2,000,000 set aside for the use of the Industrial Department in making loans will have been expended when the loans authorized this morning are made.

**U. S. PEACE DELEGATION TO LEAVE FRANCE NEXT WEEK**

Paris, Dec. 3.—The American delegation to the Peace Conference, with most of its personnel, will sail for the United States from Brest next week. The day has not been fixed, but the question whether one delegate shall remain to conclude participation in the work of the Supreme Council rests, it is said, entirely with the State Department at Washington.

At the State Department in Washington yesterday it was indicated that present plans were that the entire American delegation would leave Paris on December 9, leaving Ambassador Wallace to take up the task of closing up any affairs remaining unsettled.

### Three of Staff of Seattle Paper Are Put Under Arrest

Seattle, Dec. 3.—E. B. Ault, editor of The Seattle Union-Record, and three other people connected with the paper were arrested to-day on bench warrants issued on indictments returned yesterday by a federal grand jury here. The four were charged with violation of the amended Espionage Act.

### CASSIDY AND JUDGE HAVE ANOTHER TILT AT WINNIPEG

Winnipeg, Dec. 3.—There was another passage-at-arms between Robert Cassidy, K. C., senior counsel for the defence, and Mr. Justice Metcalfe this forenoon at the trial of R. B. Russell on a charge of seditious conspiracy. The incident passed, however, and the trial proceeded with Mr. Cassidy continuing to lead the defence counsel.

At the beginning of the day's sitting William Percy was called and ordered to remain seated as A. J. Andrews continued to read from the Strike Bulletin.

He read an item from the issue of June 7 under the heading "Price of Victory," in which the slogan of the striking workers was given as "Onward to Victory."

Mr. Andrews also read from the issue of June 2 a report received by the strike committee from a Calgary delegate which set forth that the city of Edmonton was tied up by a strike.

An excerpt from The Strike Bulletin of June 10, entitled "Woodworth in Fine Form," precipitated the scene reported above. The article was one concerning the development of unionism and commented favorably on the One Big Union.

**CANADIAN WHISKY IN UNITED KINGDOM**

London, Dec. 3.—There was some fun in the House of Commons last night over the difficulty in identifying Canadian whisky. The Food Controller admitted that Canadian spirits in considerable quantities were coming to the United Kingdom, and there was much difference of opinion whether they were readily distinguishable from the home product.

**SLEEPING SICKNESS MAY BE HERE SOON**

Medical Health Officer Issues Warning; Prepares to Cope With Outbreak

Sleeping sickness, which has already reached Calgary in its sweep across the continent, may be expected in Victoria, according to an announcement made to-day by Dr. Arthur G. Price, medical health officer.

Dr. Price has been carrying on research work into the mysterious disease which has been alarming the people of the East and the Middle West. In order to guard the health of the people of Victoria and handle the disease here if it does come, as it may.

Facts he has gathered lead him to believe that sleeping sickness may be closely connected with influenza, following the ravages of this plague, like paralysis followed diphtheria a few years ago. Dr. Price points out the difference between the true sleeping sickness which is an endemic disease caused by the bite of the tsetse fly in tropical countries, and the disease that is now laying low people on the prairies and United States.

**CANNOT PREDICT RUSSIAN CHANGES**

Dillon, Noted War Correspondent, Admits He Is at Sea

Montreal, Dec. 3.—"It is very difficult, indeed almost impossible, to say what is going to happen in Russia," declared Dr. E. J. Dillon, the noted war correspondent, who was at the Ritz-Carlton Hotel here, and left last night for Vancouver en route to California.

"I know that some of the Bolsheviks are anxious that a considerable modification should be made in the aims and tactics of the present administration with a view to a coalition between all the Socialists in Russia and in the hope of obtaining recognition from the Allied Governments, but whether that is really feasible I am unable to say. I do know, however, that neither Denikin nor Kolchak would for a moment accept it, for both are men of great ideals who have the good of the country at heart, and have identified themselves with the anti-Bolshevik doctrines."

**RECORD PRICE ON NEW YORK COTTON EXCHANGE TO-DAY**

New York, Dec. 3.—Another record price was established on the New York Cotton Exchange to-day when December cotton contracts sold at forty cents a pound on continued covering at the opening of the local market. This made an advance of \$1.50 a bale over yesterday's close and an increase of approximately twelve cents a pound over the low levels of last September.

**WANTS RELATIONS WITH MEXICO CUT**

Fall Introduces Resolution in Senate of United States

Mexican Senate Has Entrusted Situation to President Carranza

Washington, Dec. 3.—A resolution requesting President Wilson to sever diplomatic relations with Mexico was introduced to-day by Senator Fall, Republican, chairman of the committee charged with an investigation of the Mexican situation.

To Committee.

Explaining his resolution, which also asks that the President withdraw recognition of Carranza, Senator Fall declared it was based on evidence which would astound the world when produced. The resolution was referred to the Foreign Relations Committee.

"I charge," said Senator Fall, "that the Mexican Embassy, the Consulate-General in New York and the Consulate-General in San Francisco have been actively engaged in the distribution of Bolshevik propaganda and that this has been done with the knowledge and consent of Venustiano Carranza."

**CHANGE OF FEELING IN GERMANY CAUSES TEUTON LEADERS TO BALK ON PROTOCOL ALLIES PREPARED**

Allies Were Informed of Berlin's Decision on Monday; Failure of States to Ratify Regarded as an Influence

Paris, Dec. 3.—Germany has decided not to sign the protocol presented her by the Allies as a condition for putting the peace treaty into effect, the Peace Conference has been notified.

It was learned only to-day that Baron Kurt von Lersner, head of the German delegation here, called on Paul Dutasta, Secretary of the Peace Conference, on Monday and told him that the German Government had made such a decision.

This attitude is taken as confirming reports of a sharp reaction in Germany within the last fortnight. Observers of German developments here express the view that there has been a complete transformation of the situation in Germany, due to the failure of the United States Senate to ratify the peace treaty.

These observers declare that while the vast majority of the Germans, before the Senate's adjournment, desired the peace treaty ratified as soon as possible, they are now supporting the Government's attitude in resisting the demand of the Allies for an indemnity for the sinking of the German fleet at Scapa Flow, recompense for which is provided in the protocol.

The question upon which the German representatives here appear most sensitive, however, is the insistence upon the trial of German officers accused of the commission of crimes in France and Belgium.

Thus far, it is said, no indications have reached Paris of any disposition on the part of the Germans to modify their attitude.

The Supreme Council to-day addressed a note to Germany protesting against the increase of Germany's armament, contrary to the provisions of the peace treaty.

**LIBERAL CHIEF TO ADDRESS MEETINGS**

Mackenzie King Will Make Tour Before Parliament Opens

Ottawa, Dec. 3.—A headquarters office in the capital under the supervision of a general secretary, who will work out a plan of organization and education of the people "in the principles of progressive Liberalism," is to be the outcome of the two days' meeting of the National Organization Committee of the Liberal Party, which concluded its sessions here last evening.

At the close of yesterday afternoon's meeting, Hon. W. L. Mackenzie King, Leader of the Liberal Party, outlined to the Canadian Press the work which the Committee had done.

Executive.

As part of the regulation of organization and information, an executive committee was formed of which the nine, vice-presidents, one from each province, are ex-officio members, to supervise the work of the new office in both of its branches. There also will be an opportunity given to the people of every province, through the provincial organizations, to contribute toward the funds necessary for the dissemination of this information.

Another outcome of the meeting is that there will be considerable platform speaking mapped out early in 1920. Mr. King stated that he would speak in the east and possibly in the west, placing the Liberal platform before the people. Owing to the short time between January and the opening of Parliament, it is likely that only some of the larger cities will be included in his itinerary.

**NEW CABINET IN CZECHO-SLOVAKIA**

More Conservative Government Will Be Outcome of Crisis

Prague, Dec. 3.—As a result of the withdrawal of the National Socialists from the coalition with the Social Democrats, a Cabinet crisis seems impending in Czecho-Slovakia. It is reported that the Cabinet, which is headed by Premier Tuscak, may be succeeded by one that is more conservative and which has a larger bourgeois representation.

Austria.

Vienna, Dec. 2.—Via London, Dec. 3.—During the sessions of the Austrian Labor Congress, which is meeting here, the failure of Austria to be represented at the Labor Conference in Washington will be explained by a statement that employers refused to send a delegate and that the labor unions had no funds to meet the expenses.

Károlyi Barred.

Budapest, Dec. 3.—Count Michael Károlyi, former Hungarian Premier, has been debarred from the National Casino on account of a charge of having committed "treasonable offences."

### King Says He and Queen Are Proud of Prince of Wales

London, Dec. 3.—One who was present at the banquet given by the King at Buckingham Palace in honor of the return of the Prince of Wales, says the occasion was the first when the King had heard the Prince make a formal speech. The King himself concluded his own remarks by saying: "His mother and I are proud of him."

**QUASH INDICTMENT AGAINST CITY OVER ROCK BAY BRIDGE**

Case Concluded Very Suddenly This Morning on Unusual Point of Law

Court Holds Criminal Jury Could Not Try Civil Matter

In the Assize Court this morning Mr. Justice Clement quashed the indictment of Rex vs. the City of Victoria. The decision brought to a quick and rather unexpected conclusion a lengthy legal argument which started with the opening of the case yesterday morning. F. A. McDiarmid, counsel for the property owners, who allege that the Rock Bay bridge has been made a common nuisance through acts of destruction carried out by the city five years ago, will take the case before the Court of Appeal.

### STRIKES YESTERDAY IN ROME, MILAN AND FLORENCE

Rome, Dec. 3.—A general strike was declared yesterday in Rome, Milan and Florence, where there was a complete cessation of work. There was no disorder, except in Milan, where two persons were killed and many were wounded, two of whom died in a hospital, and in this city, where one was killed and six wounded. There were rival Socialist and loyalist demonstrations in all three cities.

A few Socialist deputies passing through the Piazza Colonna yesterday were insulted by a crowd.

Because of this incident the Labor executive decided to call a strike of its members, which was begun without a moment's delay.

Deputy Dugoni, Socialist, has announced his intention of interpellating the Government on the subject, demanding that vigorous measures be taken against officers who have participated in demonstrations against the deputies.

Former Premier Orlando was elected President of the Chamber of Deputies yesterday.

Signor Tittoni, former Minister of Foreign Affairs, was designated as President of the Senate by the King.

### GENERAL STRIKE IN SPANISH CAPITAL

Madrid, Spain, Dec. 3.—The general strike recently called in this city is still in force and all the stores and factories are closed. Bread is totally lacking and disturbances have occurred at many of the bakeries. Soldiers are keeping the lighting supply services working.

### GRAIN MOVES SLOWLY.

Winnipeg, Dec. 3.—It is estimated that not more than two-thirds of the season's grain has been shipped from the prairies. To date 70,000,000 bushels have passed over the C. P. R. lines, and it is expected that between 30,000,000 and 35,000,000 bushels will yet be shipped out.

The early cold spell is responsible in part for the slow movement. All available cars on railway lines have had to be used for transportation of coal.

### JUDGE AT WINNIPEG CALLED FOR SHERIFF

But Incident Passed and Counsel Was Not Removed

Winnipeg, Dec. 3.—A dramatic incident featured the trial of R. E. Russell, charged with seditious conspiracy, last night, when Mr. Justice Metcalfe, exasperated by Robert Cassidy, K. C., of Vancouver, ignoring a ruling which had been made by His Lordship, called for the sheriff and then a bailiff to have the senior counsel for the defence removed from the room. It was apparently just because the sheriff was not in the courtroom at the time, and because of the fact that bailiffs were reluctant to come forward at the first call, that the order was not carried out. As it was, a bailiff, when he did acknowledge that His Lordship had occasion for his services, was ordered to remove thereafter anyone who would not do what the Court ordered.

The extraordinary incident occurred while A. J. Andrews, K. C., counsel for the Crown, was reading passages in articles published in The Winnipeg Strike Bulletin. The quotations were distasteful to Mr. Cassidy, who several times opposed their being read. On two occasions His Lordship ruled that the evidence was permissible, and that Mr. Cassidy would get his chance in due course of reading as much from The Strike Bulletin as he liked.

At the afternoon session Mr. Cassidy continued his argument against the admission of evidence in regard to a meeting of the Trades and Labor Council. He argued that the labor organization was protected by legislation, and that no evidence regarding meetings could be used as evidence in a trial for sedition. Mr. Justice Metcalfe, in giving his decision, stated: "A trade combination may develop into an object and result the result of which will be a crime and be punishable by statute, and, if so, indictable."

### SPANISH CABINET REMAINS IN OFFICE

Madrid, Dec. 3.—The members of the Cabinet unanimously agreed yesterday to remain in office and Minister of War Covaro, whose resignation precipitated the Government crisis, concurred with his colleagues and will retain his portfolio. The Cabinet, which met at the residence of Premier Toca, who had been requested by the King to retain office, later discussed many problems facing the country. The Cortes will re-assemble on Friday to-day's session having been suspended after the presiding officer had announced the resignation of the Cabinet.

### USE OF NARCOTICS IN CANADA REDUCED

Ottawa, Dec. 3.—Figures supplied by the Department of Public Health regarding the importation of harmful drugs for the six months ended November 30 reveal the fact that since the coming into force of the restrictions in May last the use of narcotic drugs in Canada has been reduced over fifty per cent.

The first figures in the following series show the imports into Canada for consumption during the fiscal year ended March 31, and the second the imports for the six months ended November 30, 1919:

Cocaine, ounces, 12,333; 3,293. Morphine, ounces, 30,937; 9,424. Crude opium, pounds, 34,263; 7,222.

### A VETERAN ORGANIZATION.

Chicago, Dec. 3.—A body named the United States Volunteers of the Canadian Expeditionary Forces, composed of United States citizens who fought with the Canadians during the war, was formed here last night. A charter will be sought from the British Great War Veterans, the parent military organization of the British soldiers. Officers were elected.

### TO HONOR HEARST.

Toronto, Dec. 3.—Friends and admirers of Sir William Hearst, former Premier of Ontario, will tender him a complimentary banquet at the King Edward Hotel here on December 17. It is stated that the affair is to be entirely non-partisan, and that one of all shades of political thought will be present.

### AGAINST DENIKINE.

Berne, Dec. 2.—Via London, Dec. 3.—The Ukrainian mission here has been informed that General Petura's Ukrainian forces, after heavy fighting against the troops of General Denikine, anti-Bolshevik leader, took the towns of Ekaterinoslav, Poltava and Berditchev, together with much war material and foodstuffs. The Ukrainian Government announces that two strong armies—Ukrainian and Galician—have joined in the fight against Denikine.

### DEARER BUTTER.

Winnipeg, Dec. 3.—Retailers of butter here say the price of butter will go up three cents a pound, and blame the rise to a "shortage." The Provincial Dairy Commissioner says about 8,000,000 pounds of creamy butter were produced this year in Manitoba, and 3,500,000 pounds have been exported. Demand for exports is still unusually heavy, and it pays better to ship it.

### HAYWARD RETURNS TO UNITED KINGDOM

Duncan, Dec. 3.—"Ereigh," the residence of Major W. H. Hayward, formerly M. P. P. for Cowichan, has just been sold to Capt. Williams, who with his wife and two children will shortly remove there.

Major Hayward returned about a fortnight ago to Ottawa on his way to England after a short visit home. Mrs. and Miss Hayward, accompanied by Miss Dorothy Geoghegan, intend to leave for England as soon after December 18, as they can get a sailing.

Major Hayward's furniture and stock will be sold by auction. It is the hope and expectation of their friends that they will return to Cowichan when Major Hayward's military duties are finished in England.

### Bachelors' Ball.

Elaborate preparations are being made for a bachelors' ball to be held December 19 in the Agricultural Hall, Duncan. Several hundred invitations have been issued, and the affair promises to be one of the leading social events of the season.

### Are You Nervous? Are You Tired Out?

# Why So Many Americans Are Physical Wrecks at 50--

### Physician Explains How Signs of Age Creep Into Your System When The Iron In Your Blood Runs Low—Says: Weak, Nervous, Run-Down People Should Take Nuxated Iron To Steady the Nerves, Restore Wasted Tissue and Aid in Giving Renewed Force and Power to the Body.

Are you slipping at 50? Can you actually stand what you could twenty years ago with your strength and energy are put to the test? Or do you merely THINK you are "just as good?" Is your heart pumping pure red blood—rich in iron—through your veins? Or is it merely a passage for thin, pale, watery blood without enough red corpuscles to keep your body strong and well?

These are the questions put by Dr. H. B. Vail, formerly Physician to the Baltimore Hospital and a Medical Examiner, who contends that a man's age can no longer be measured by the number of his years but by the condition of his blood. Dr. Vail believes that the greatest problem of modern life is to ward off the tragedy of middle age, which begins to show its signs the moment the iron in the blood runs low.

Blinded by the belief that he is still "just as good as ever," many a man reaches that point of life between 40 and 50 where the future looks bright and assured only to find that the grim relentless force of middle age has undermined his health and energy. In the rush and tear of modern day life he has neglected to keep his blood filled with strength-giving iron, and as a result is on the verge of a physical and nervous breakdown, at a time when he should be enjoying his best years.

Continuing, Dr. Vail says: "There are thousands whose bodies are aging and breaking down at a time when they should be enjoying that perfect bodily health which cries defiance to disease simply because they are not awake to the condition of their blood. By allowing it to remain thin, pale and watery they are not giving the natural life force of the body a chance to do their work. Yet others go through life apparently possessing, year after year, the elasticity, strength and the energy of earlier days, for through their bodies courses the energy and power that comes from plenty of red blood—filled with strength-giving iron. Iron is red blood food and in my experience I have found no better means for building up the red blood than organic iron—Nuxated Iron—which I have prescribed with surprising success for my patients who are approaching middle life."

Dr. John J. Van Horn, formerly Medical Inspector and Clinical Physician on the Board of Health of the City of New York, says: "It is surprising how many people who do not get along in life are in reality suffering from iron deficiency and do not know it. To supply this lack of iron and help build stronger, healthier men and women, better able physically to meet the problems of everyday life, I believe that physicians should, at every opportunity, prescribe organic iron—Nuxated Iron—for in my experience it is one of the best tonic and red blood builders known to medical science."

Physicians explain here why such men need the sustaining health-building power of organic iron—Nuxated Iron—to help make rich red blood, restore wasted tissue and increase their physical strength and endurance.

Sold in this city by C. H. Bowes, and all good druggists.

## WOMEN WILL OCCUPY PRESBYTERIAN PULPITS

Toronto, Dec. 3.—The Toronto Presbytery at its regular meeting yesterday agreed to allow women to occupy the pulpits once a year. A deputation of two women from the Women's Missionary Society asked the Presbytery to allow the representatives to present the claims of the Society to the congregations on one Sunday in the year. On that day women will take full charge of the services. This new departure will be the women's part in the forward movement.

## FOR DEPENDENTS.

Toronto, Dec. 3.—In reply to an inquiry as to whether or not he intended to take any action with regard to the trouble at Kitchener Monday night, when a mob handled W. D. Euler, M. P., roughly for refusing to sign the Union Jack, ill-treated Alderman Amussen, M. P., Elected, and threw an alderman into a lake, Hon. W. E. Ranev, Attorney-General, stated last night that he had not as yet received sufficient information on the subject to enable him to form a judgment.

# Castoria, or Something Else?

FLETCHER'S CASTORIA is particularly a preparation for Infants and Children made agreeable to the taste, acceptable to the stomach and pleasant in its action. It has been in use for over thirty years and has always been one of the most highly esteemed of all cathartic preparations.

It has one great advantage over other preparations of its kind in that while it opens the organs readily and completely, it does not have a tendency to produce subsequent constipation so much to be dreaded.

Fletcher's Castoria having been prepared solely for our little-ones, should not be confused with ordinary cure-alls or preparations primarily compounded for grown-ups. The child's organism, so delicate and tender, requires specially prepared medicines and foods, the one no less than the other, as mother-love well knows, and mother-love can not be deceived.

## Children Cry For Fletcher's CASTORIA

When Adam ate the Apple we heard nothing about its effect on his stomach, but we do know, or ought to know, about the effect of all eatables given our children. This knowledge is necessary to all mothers, and the deaths among infants indicate that much information along this line is needed.

## JUDGES OF APPEAL SPEAK PLAINLY

### Score Chief Justice Hunter For Action in Gartshore Case

### "Extraordinary" and "Intolerable Scandal" Expressions Used by Judges

Vancouver, Dec. 3.—The appeal in Rex vs. Dahlin, which came before the Court of Appeal recently, although not in itself of great public importance, is likely to be referred to often in the future, owing to the comments from the bench regarding the recently given decision of Chief Justice Hunter in the Gartshore case.

It was an appeal from a conviction in a liquor case almost identical in character. Their Lordships, in following the precedent laid down in that case and dismissing the appeal, interjected some striking observations which were none the less caustic from being clothed in the dignified legal phraseology customary to the bench.

In referring to the Gartshore case, Chief Justice Macdonald remarked: "Reference has been made to a recent order in habeas corpus proceedings releasing the accused in that case from custody notwithstanding the affirmation of his conviction by this court. As the law, as it stands, gives no appeal from an order in habeas corpus proceedings, discharging the accused person from custody, the matter is one for the intervention of the Legislature, not of the court, and hence I desire to say nothing more with respect to it."

"An Extraordinary Thing." Mr. Justice McPhillips said: "As this appeal is one raising a question of jurisdiction, in passing let me refer to the Gartshore case, as our order in this case, as in that, may be rendered nugatory owing to the warden not being advised beforehand that the Court of Appeal's order is paramount. I would have thought that the warden would have been entitled to make answer that he would hold the person committed under the order of the Court of Appeal of British Columbia confirming the conviction."

"It seems to be an extraordinary thing that when a judgment of the highest court of the province is given, the judgment of the court below should be obeyed."

"I am very glad that counsel for the Attorney-General is here, because it is a situation affecting the administration of and enforcement of the Prohibition Act which cannot well be overlooked."

"The police magistrate of this city was held by this court to have rightly adjudged that there had been an infraction of the Prohibition Act and imprisonment was imposed, and the defendant was in close custody under that conviction, the conviction being affirmed. This being the situation, the learned Chief Justice of British Columbia (Hunter, C. J., B. C.) notwithstanding released the defendant upon habeas corpus upon the ground of want of jurisdiction in the Court of Appeal. Any such order must be non-effective as against the order of the ultimate court of appeal. Further, it is the duty of the court below notwithstanding what its opinion may be to follow and carry out the judgment of the Court of Appeal, as the Court of Appeal's judgment may only be reviewed by the Supreme Court of Canada and the Privy Council, in proper cases, where a further appeal is permissible."

"An Intolerable Scandal." Mr. Justice Martin commented as follows:

"I am entirely in accord with what my brother McPhillips has said respecting the recent occurrences in the Gartshore case. It comes to this, that though the highest court in the Province has, after argument, solemnly affirmed its jurisdiction and declared that an offender was properly convicted by the police magistrate of Vancouver for unlawfully selling liquor, yet a judge below has dared in effect to overrule the judgment of this court and discharge the offender from prison. Now if such things can be done there is no excuse for the further existence of this court, and the matter should be clearly understood so that the Legislature, which is the high court of Parliament, can come to the assistance of this court and cure so intolerable a scandal. I am pleased to see present the representative of the Attorney-General, in the person of the solicitor of his Department (Mr. Carter) so that cognizance may be taken of this our public protest."

"In the Sproule case, reported in 12 S. C. Reps., which my brother McPhillips referred to, and which I recently applied in the Leonor case (1917), 3 W. W. R. 461, the sheriff of British Columbia refused to release a prisoner in his custody though required to do so by a writ of habeas corpus issued, not by a judge below us as here, but by one of the justices of the Supreme Court of Canada, at Ottawa, because the prisoner had been convicted and his conviction affirmed by the then full court of British Columbia, and the sheriff justified his action because the affirming order of the full court was "paramount" to the writ of the justice of the Supreme Court of Canada, and the sheriff's conduct was justified because the Supreme Court of Canada decided that the writ so issued by one of its members had been improvidently issued and was an abuse of the process of the court. If a similar course had been adopted here an effectual stop might have been put to the scandal to justice which has been caused by the peculiar proceedings in the Gartshore case."

## MRS. W. F. ROGERS GAINED TWENTY LBS. AND IS NOW HAPPY

### Change of Climate Was Not Necessary After She Took Tanlac, She Says

"As long as I live I will never be able to praise Tanlac enough for it has not only given me back my health after I had given up hope, but it has added twenty pounds to my weight," was the statement made by Mrs. W. F. Rogers, of 650 Tenth Avenue, Northwest, Calgary, Alberta.

"There is nothing in the world I would exchange for the good Tanlac has done me," continued she. "Why, just to think, only a short time ago I was a complete wreck, and here I am now feeling as fine as I ever did in my whole life, it just seems too good to be true."

"I was in a miserable condition, and I can hardly understand how I held out as long as I did. My nerves were completely shattered, and at times I couldn't even bear for anyone to talk to me, and a knock or ring at the door would unnerve me. There was little need of going to bed at night for sleep was next to impossible, and I would be up reading or walking the floor when most people were sound asleep. I had almost no appetite at all, and what little I forced myself to eat didn't give me a particle of strength, and for years I had been losing strength right along until I was on the verge of a complete nervous breakdown. I took every kind of medicine and treatment I ever heard of, but none of them did me any good, and I thought I would be a change of climate would help me."

"I was making arrangements for the passage when I began taking Tanlac, but I saw such a remarkable improvement in my condition right away, that I postponed the trip for a while, and now since I am in perfect health I have called it off altogether. I have never seen such a wonderful change come over a person in all my life as the change that has come over me; I can hardly realize it myself. My nerves are as steady as they can be, no kind of noise disturbs me at all, and I can sleep fine. My appetite has come back and everything I eat agrees with me, and I am giving me strength and energy, and as I said, I have gained twenty pounds in weight. I haven't a trouble of any kind, and just simply couldn't ask to be in better health, and I will praise Tanlac to my dying day."

## Irritable Nerves Restored and Health Regained in a Simple Way

The man or woman who is run-down, not feeling up to the mark, perhaps irritable, nervous or sleepless can well afford to learn about the wonderful results the newly discovered blood-food is giving to folks that use it.

There is wonderful power in this new blood-food, and every weak, pallid person can be quickly brought back to health that uses it as directed. After each meal, with a sip or two of water, you simply take two little chocolate-coated tablets, sold in all drug stores under the name of "FERROZONE."

The effect is noticeable at once. You feel happier, brighter, more contented. That old-time feeling of weariness departs—you forget your "nerves" and no longer get irritable or cross over trifling annoyances.

There is a reason for this change and that reason consists of the fact that Ferrozone contains blood-making materials you can get in no other way.

Ferrozone makes the blood tingle and sing with new vitality. This ensures lots of nourishment and strength being supplied to every part of the body. No wonder the eyes brighten and the cheeks radiate color and happiness. With abundance of strength, a keen appetite, good digestion and plenty of sound sleep—all the result of Ferrozone—you quickly feel as if life held new charms and pleasures.

## GERMANY RIDING A HIGH HORSE.

Even when facing conditions under which her armies could have been broken beyond recovery Germany displayed her natural truculence. Her representatives showed an inclination to haggle over the terms of the armistice; but Marshal Foch merely pointed to the alternative to acceptance and hostilities ceased. But the Hun had not been chastened. He has remained chiefly Prussian. For months he has cast about for a tangible reason to re-establish his old arrogance and to rattle the sabre ever so gently. The action of the United States Senate gave him just the opportunity he desired. On Monday Baron Kurt von Lersner, head of the German delegation in Paris, informed the Secretary of the Peace Conference that Germany had decided not to sign the protocol presented to her by the Allies as a condition for putting the Peace Treaty into effect. In other words, barely three weeks of time—and events on this side of the Atlantic—have been required for German sentiment completely to transform itself.

Smarting under numerous industrial handicaps and subject to growing economic aggravation, there had been a demand for early ratification of the Peace Treaty in all parts of Germany. Its terms were detestable, its impositions a gag to national aims and national ideals for years to come; but without compliance recovery at all was out of the question. By this process of reasoning the average Teuton satisfied himself there could be no alternative, and that with a revived application of native sagacity new seeds of national aspiration might be sown in the old ground, figuratively ploughed up for the time being by the terms to which the Allies had forced him to subscribe.

But when the United States Senate failed to accept the Treaty Germany saw a means of at least delaying her final admission of complete defeat. She fed her people upon a diet of Allied dissension and it tickled the national palate. It is true she has appended her signature to the most momentous document ever published to the world. She has signed treaties before. Ratification of the Treaty of Versailles by Germany, however, is incidental to her acceptance and signature of the protocol in which recompense for the sinking of the German fleet at Scapa Flow is provided. Until that is done the treaty cannot be declared as in effect. Consequently, to all intents and purposes, the position to-day resembles the conditions under which the belligerents found themselves during the armistice period.

One very significant difference between then and now may not be overlooked. On November 11, 1918, Marshal Foch was denied the culmination of a victory in the field such as any military commander—and particularly a French General—might well have insisted upon. To-day Germany displays evidences of a marvellous recovery. British and American journalists who have studied her internal condition have found ample demonstration of her complete military humiliation. Industrially, however, her plans already are well advanced. Her commercial travellers were straining at the leash days before the Peace Treaty was signed in July. In all parts of the world signs are not wanting of a revived policy of "peaceful" penetration.

These are conditions which must face the Allied populations sooner or later in a lesser or greater degree. And if the fruits of four and a half years of war are to redound to the benefit of those nations who gave everything in order that civilization might be preserved for posterity, not one of those Allied countries whose signature is appended to the Treaty of Versailles should persist in a policy of national detachment that can only result in the revival of a practice which they, as the democratic countries of the world, gave so much to obliterate.

On that account principally, it is to be hoped that the political considerations of certain members of the United States Senate may be subjected to such revision as will remove their objection to the work for which President Wilson fought so magnificently in behalf of the majority of the American people. If the Senate's action is to be made the prop for German obstinacy the memory of nearly sixty thousand American dead should influence its prompt removal.

## FRICITION AT MERVILLE?

When the Provincial Government agreed to test the value of a soldier settlement community at Courtenay the project was launched under the machinery of the Land Settlement and Development Act. Fourteen thousand acres had been purchased by the Board for general settlement purposes. Plans along the ordinary procedure employed by the Government had not gone so far as to prevent a change of policy. So it came about that this particular tract was set apart for an experiment in community soldier settlement on the general principles embodied in the Empress of Asia scheme.

Lacking encouragement from the Dominion

Government—whose department of soldier settlement had especially asked the Provincial authorities to refrain from embarking on any settlement programme on its own account—the Province agreed to go to the assistance of the soldiers. Its understanding with them was that when the scheme had progressed to the point at which applications could be made for loans under the federal statute, the land should be appraised at its original value, plus the cost of improvements and less the rebate of \$500 provided for in the Provincial statute. This arrangement, we believe, was common knowledge at the time, and attempts by those not directly interested in the project to read into a fresh recital of these conditions at this stage anything foreign to the interests of the veterans at the Merville settlement savor of political prejudice.

We doubt the Board's wisdom of paying a commission to the land-clearing contractor, and we are informed that the practice was discontinued some time ago. Moreover, it was hardly likely that the first ten farms now ready for partition would be made to bear the initial average cost of clearing operations so far. It goes without saying that the clearing of later areas will be carried out at a much lower cost and in the present appraisal due regard, of course, has been paid to that phase. The fact remains, however, that the plan must be carried out in accordance with the provisions of the Land Settlement and Development Act, for the simple reason that neither the Board nor the Government has authority to go further.

We are confident that any dissatisfaction over the possible appraisal figures at which the farms will be sold to the settlers will disappear as soon as the returned men reflect upon the Provincial Government's statutory limitations. Otherwise there would be no alternative for the Province but to heed the request of the Federal authorities and refrain from any active part in soldier settlement altogether. This would be regrettable indeed.

## GET OUT THE CANDIDATES.

There appears to be an impression gaining ground in this city that the correct fashion in which to announce aspiration to aldermanic honors is about two days before nomination day. As a matter of fact this is virtually the principle that has been followed in previous years, and there are no evidences to date that the 1920 elections will be fought between other than eleventh hour candidates. The practice is fundamentally wrong. It invites a body of municipal administrators who have had no opportunity—willingly or unwillingly—of proving to the electorate at large that they should or should not be elected. There is no reason why the municipal should be viewed differently from the provincial or federal election. Victoria possesses a number of men and women fully qualified to manage the city's affairs. A prime objection on the part of the man or woman who considers himself or herself capable of serving the community, however, is that there is no guarantee of a tenure of office after one year. Once treated to an election on proper lines—with all aspirants in the light of day for a week or two before polling date—the electorate would find no difficulty in returning the right man and woman for a second or third period, or for as long as he or she could justify its confidence. The Rotary Club, the Board of Trade, the Service Associations and the Women's organizations would do well to get their nominees in the field before the end of the year. A whirlwind campaign might have a good effect on Victoria's future.

While the Provincial Government is conducting its own inquiry into the feasibility of providing additional sources of municipal revenue, the City of Victoria could do a little on its own account. For instance, it might be a good idea to stage a boxing match, a hockey game, or even a hand at cards, between Alderman Harvey and Alderman Patrick to decide whose scheme for embellishing the rear of the Empress Hotel is the original one. Bishop Macdonald might be persuaded to act as referee and donate the "gate money" towards the cost of the Johnson Street bridge.

It is encouraging to note that the City Council is in favor of a municipal golf course, and that its only concern for the moment is the source from which the funds will come. This is an enterprise which ought to pay its way and attract many visitors.

## THE MOST FAMOUS STRETCH OF WATER.

(The London Chronicle.)

What is the most famous stretch of water in the world? That part of the Thames which lies between Putney and Mortlake would take some beating. People who never see the Thames know that piece of water almost inch by inch, by reading of the Oxford and Cambridge boat-race, and from time to time a world's sculling championship is decided there too. To take the championship back to his native Australia after winning it on the "Mecca course" of oarsmanship must add to the triumph which Pelton is entitled to feel.

## LAND AND FREEDOM.

(Mr. Lloyd George at Liverpool, Dec. 21, 1902.)

Do not let us have false remedies. We want to do something to bring the land within the grasp of the people. We want to put an end to the system whereby the land of this country is retailed by the ounce, so that there should not be an extra grain of breathing space. . . . No; I tell you what we want. The resources of the land are frozen by the old feudal system. I am looking forward to the spring time, when the thaw will set in, and when the people and the children of the people shall enter into the inheritance that has been given them from on high.

## PUBLICITY OF TARIFF-FRAMING PROPOSED.

(Grain Growers' Guide.)

This secret co-operation between politicians in power and the beneficiaries of protectionism has all along been the regular thing in the framing of protection tariffs, in which the line between public duty and private interests has always been lost sight of. The plank in the Farmers' platform which declares that "every claim for tariff protection by any industry should be heard publicly before a special committee of parliament" strikes at a main root of an evil system. If the whole truth about the actual work of tariff-framing could be laid open to the daylight of publicity, the revelations of greed, self-deception, graft and indifference to the just rights of others would arouse the whole mass of the people to indignation.

## CASSIDY AND JUDGE HAVE ANOTHER TILT AT WINNIPEG

(Continued from page 1.)

that the item stated that Mr. Woodsworth had congratulated the strikers on the manner in which they had preserved law and order.

Called Unfair.

"Must I wait for two weeks and remember each one of them—there must be over a hundred—before I can take from the minds of the jury the wrongful reference?" continued Mr. Cassidy. "Is it not fair to me to put this in as my evidence."

Mr. Justice Metcalfe commenced to speak, but Mr. Cassidy continued. "When it should —"

Again Mr. Justice Metcalfe attempted to speak, but again Mr. Cassidy continued:

"Should be put in by my learned friend."

Spoke Loudly.

As the words were pronounced, Mr. Justice Metcalfe, raising his voice as loud as possible without shouting, exclaimed:

"Mr. Cassidy, when I speak, you stop. A man of your brain, capacity and experience should know that."

Mr. Cassidy: I quite follow that Your Lordship rules that when you speak I must stop.

Mr. Justice Metcalfe: I do not want to hear you any further on this matter or any other matter upon which I have given a decision. Proceed Mr. Andrews.

Mr. Andrews re-commenced, and immediately Mr. Cassidy said:

"If Your Lordship —"

Mr. Andrews stopped.

Mr. Justice Metcalfe: Proceed, Mr. Andrews.

Called For Sheriff.

Once again both counsel tried to speak at the same time.

Mr. Justice Metcalfe: Bring the sheriff.

Mr. Cassidy: I am telling Your Lordship —

Mr. Justice Metcalfe: Where is the sheriff? The sheriff must be in his box all the time.

Mr. Cassidy: I am telling Your Lordship that if I am taken from this court I will —

Mr. Justice Metcalfe: Now bring the sheriff (with accent on the "bring.")

Habeas Corpus.

Mr. Cassidy: If I am taken from this court I will have a writ of Habeas corpus taken out and will be taken through the courts and will take with me a typewritten copy of these proceedings.

Mr. Justice Metcalfe: I know perfectly well that you have been a great expert on habeas corpus proceedings. This will give you another chance.

(The inference was that the judge would order Mr. Cassidy to be taken into custody. If Mr. Justice Metcalfe had handed Mr. Cassidy into the hands of the sheriff it would practically mean that some charge would be laid against him. If he had simply ordered him to be removed from the court, the remarks concerning habeas corpus would not apply.)

As His Duty.

The sheriff was not forthcoming. Mr. Cassidy sat down. The counsel was seated and there was a silence in the court. Mr. Cassidy then stood up and said: "May I say that I have the utmost deference for Your Lordship and for this court and that what I have done I have done only as I saw my duty as counsel for the accused?"

Mr. Justice Metcalfe: Then let us make a new start.

With this the incident passed and Mr. Cassidy continued to lead the counsel for the defence.

Second Time.

Winnipeg, Dec. 3.—This forenoon for the second time in twelve hours, Mr. Justice Metcalfe ordered Robert Cassidy, K.C., leading defence counsel, to be removed from court, and, as on the first occasion, the sheriff was not present. The difference between the judge and counsel at the trial of R. B. Russell, was settled before the sheriff arrived, when Mr. Cassidy expressed his deference for the court and Justice Metcalfe.

During the trial in the examination of William Percy, a witness for the crown, one of the jurymen asked the judge for a copy of the indictment. It was agreed between counsel that this should be furnished.

It also was agreed that the documents that had been put in as exhibits should be given to the jurors each night to be read by them.

## SLEEPING SICKNESS MAY BE HERE SOON

(Continued from page 1.)

Similar Outbreak in 1895  
 "Lethargic Encephalitis, which has been erroneously called sleeping sickness, is the disease now occurring in Eastern Canadian provinces and United States. This disease must not be confused with the true sleeping sickness which, although it exhibits similarity in symptoms, is not produced by the same cause.

"Looking into the history of lethargic encephalitis we find that in 1890 a similar disease was prevalent and the cases occurred in the United States in 1895. The following is an extract from a report on lethargic encephalitis published in a bulletin of the State Board of Health of Rhode Island.

Closely Related to Influenza  
 "Although the relation of lethargic encephalitis to other disease has not been proved, experience in this country seems to indicate that it is closely associated with influenza, and while it is a distinct entity, it may be that it is a sequel to influenza somewhat similar to paralysis following diphtheria. Nothing has yet been discovered as to the nature of the infection, or any method of treatment likely to check or cure the dis-

England in 1890 and the fact that both diseases followed severe influenza epidemics are remarkable, and give foundation for the belief that they are nearly related and both associated with influenza.

"Lethargic encephalitis may be a sequel to influenza caused by the degeneration of nerve centres in the brain which had been previously affected by acute influenza, or it may be caused by a lighting up into activity of influenza germs which have been remaining dormant in the brain, or it may be caused by a specific germ not yet discovered."

## GOVERNMENT OF STATES MAY PROCEED AGAINST MINERS AND OPERATORS

(Continued from page 1.)

ber of employees thrown out of work soon would surpass several times over the the approximately 600,000 mine workers involved in the walk-out.

Conditions at the mines to-day showed no appreciable change from yesterday. There was no indication of an intention to resume production in the great central competitive field.

Volunteers.  
 The output of the surface mines in Kansas being worked by volunteers under protection of state and federal soldiers, to-day promised to be increased as the men got the "hang" of the work and their forces were augmented. The Governor of Nebraska has requested men of his state to volunteer to work in the mines of nearby states, and the dispatching of troops into the coalfields of Missouri is regarded by some as a forerunner of attempted state operation of those mines.

From the mine operators themselves, however, came some opposition to sending inexperienced men into their shafts.

The West Virginia mines to-day continued to be the chief producers of soft coal, as they have been since inception of the strike.

Wyoming.  
 Wyoming miners who walked out two days ago in protest against the fourteen per cent. wage increase, to-day were under orders of their state officials to return to work. The new strike was not sanctioned.

As miners' leaders talked of a possible extension of the strike to the anthracite fields, there were reports that the Government had concluded to institute contempt proceedings at once, being convinced that the injunction issued against the strike had been violated.

Suffering.  
 So far most actual suffering from the fuel shortage has been reported from Montana and Western Kansas. The cold wave to-day was spreading its unseasonable low temperatures over the better supplied eastern section, although temperatures in the west were not greatly changed, and the situation in many places in that section remained acute. In Chicago, where suffering among those in the poorer quarters was reported, the temperature early to-day was six degrees above zero.

**CHAPTER WILL HOLD  
"REMNANT" SHOWER**

Lady Douglas Chapter Plans to Help Needy Ex-Soldiers' Families

The next meeting of the Lady Douglas Chapter, I. O. D. E., to be held on Tuesday afternoon next, will take the form of a "get-together" tea. Business will be carried through with the quickest possible dispatch and at the close tea will be served, accompanied by social intercourse.

In connection with this tea it has been decided to hold a "remnant shower." At its last meeting the Chapter decided, after hearing Mrs. J. D. Gordon's report as to the hard winter ahead of many soldiers' families, to send hampers of comforts to some of these men and their dependents at Christmas. The chapter has no desire to conflict with similar work being carried on by other organizations, so will confine its gifts to the returned soldier families in the rural districts around Victoria, with whom Mrs. Gordon has come in personal contact during her work in the Land Settlement Board.

The idea is to send parcels of warm clothing for the kiddies and, where necessary, for the wives, as well as warm socks for the men, while toys will also be included. To this end it was decided at a joint meeting of the executive of the chapter and the committee held this morning, to appeal to the members to bring with them to the tea on Tuesday afternoon, remnants of material or scraps of wool suitable for making into warm dresses or underwear for kiddies, toys, or any other articles suitable for inclusion in the parcels.

**MANY SOLDIERS  
SETTLED ON LAND**

Vancouver, Dec. 3.—Criticism notwithstanding, it is a fact that up to October 18 last there had been settled on the land in British Columbia, 2,076 returned soldiers by the Federal Land Settlement Board. In this respect British Columbia stands fourth among the Provinces of the Dominion, the totals on the land in the other Provinces being as follows:

Alberta, 4,761; Saskatchewan, 2,882; Manitoba, 2,158; Ontario, 901; New Brunswick, 348; Nova Scotia, 302; Prince Edward Island, 193; Quebec, 383.

In point of money actually expended in loans for purchases of land and equipment, British Columbia stands third. The amounts for the Western Provinces are as follows: Alberta, \$14,574,571; Saskatchewan, \$10,133,110; British Columbia, \$7,456,323; Manitoba, \$5,697,082.

The total number of men settled on the land under the Board's policy 13,962 up to October 18.

**W. W. B. McINNES  
SPEAKS OF UNREST**

Vancouver, Dec. 3. — "There are three great causes of the present-day unrest," W. W. B. McInnes told members of the Progressive Liberal Association at a well-attended meeting here. He added:

"The first is the propaganda of unfortunate political nostrums which have been put before the public for years. The next cause is our unjust social system, which has a certain privileged class on the one hand, and on the other a majority of people fighting for an existence.

"In addition to these our reform workers have adopted methods which are excessively irritating to the people. I refer to the prohibitionists. They should remember that they cannot rob the people of their rights and expect them to keep their peace of mind. It is this pestiferous legislation, fostered by prohibition workers, which is adding to the present social unrest."

**FREIGHT SERVICE  
WILL BE REDUCED**

Montreal, Dec. 3.—"Of the 150 cars of coal a day which the United States Government undertook to supply to Eastern Canada, beginning November 24, not one has been received. The prospects are that little, if any, coal will reach Eastern Canada during the month of December. Even though the strike in the United States may be settled this probably will be the case."

The foregoing was a statement of an official of the Canadian Railway War Board last night.

"The Canadian railways," he continued, "already are using wood for stationary boilers. They have reduced passenger services, and further reductions in that service are about to be announced, but even with these changes it is almost inevitable that a serious reduction in freight service also will have to be made. In this event, preference will, of course, be given to foodstuffs and perishable goods."

"It is practically certain that almost all movement of raw materials for manufacturing will have to be stopped, and the first of these to suffer will necessarily be export traffic, such as pulpwood, lumber, asbestos, nickel and other ores."

**MORE WORK.**

Sydney, N. S., Dec. 2.—The Scotia Machine Shop employees, as well as carpenters and foundrymen, who for several months have been on half time at Sydney Mines works, will, according to information at official sources, be given three-quarter time and in the near future will be steadily employed. The coke ovens at Princess will resume work in a few days, as well as the wash plant, which has been shut down for the past few months.

# IN WOMAN'S DOMAIN

John P. McConnell, formerly editor of The Vancouver Daily Sun, who has been in the Cariboo all summer, returned to the Mainland on Monday night's boat after spending the week-end with his family at Fowl Bay.

The Women's Auxiliary to the G. W. V. A. are busily engaged in the preparations for their Christmas bazaar, to be held at the rooms, 512 Fort Street, on December 10, at 8 p. m. The Rev. W. Baugh-Allen has consented to formally open the sale of work.

At the residence of the officiating clergyman, 210 Dundas Street, Rev. Dr. MacRae officiated in marriage on Friday afternoon Alexander W. Semple and Rosa Egilson, in the presence of a few intimate friends. Mrs. C. W. Geiger attended the bride and Mr. Geiger supported the bridegroom. After a short honeymoon across the Sound the happy couple will reside on Edward Street, Victoria West.

The ladies of the Church of Our Lord, Reformed Episcopal Church, corner of Humboldt and Blanchard Streets, will hold their Christmas sale on Thursday, December 11. This year an unusually attractive display of work will be shown. A fish pond and toy table will prove of great attraction to the little ones, and also to any wishing to make Christmas gifts. Afternoon tea will be served by the young ladies of the church between the hours of 3 and 6.

The students of the electrical class of Soldiers' Civil Re-establishment will hold a dance in St. John's Hall, Herald Street, on Thursday evening, December 4, commencing at 8.30. This class has already achieved an enviable reputation as successful hosts and it is anticipated that there will be a big crowd at to-morrow's event. Zala's orchestra will furnish the programme of dance music, and refreshments will be served during the evening.

Local friends of the bride and bridegroom will be interested in the following item from The Vancouver Daily Province: "Port Haney was the scene of a very pretty and interesting wedding on Saturday afternoon when Mr. Edward Albert Burgess, Victoria, and Miss Esther Mary Best, second daughter of Mr. and Mrs. James Best, of Port Haney, were united in marriage. The ceremony was performed in the Presbyterian Church, which was most artistically decorated for the occasion with evergreens, carnations and chrysanthemums. Rev. G. H. Findlay officiated. To the pleasing strains of the wedding march played by Mrs. T. Patterson, the bride entered on the arm of her father. She was charmingly attired in a suit of nigger brown velvet trimmed with possum fur. She wore a hat to match trimmed with gold, and carried a bouquet of chrysanthemums. She was attended by Miss Jessie Gordon, Victoria, who looked pretty in a suit of navy blue silver tone with hat to match trimmed with green osprey. The groom was supported by his brother, Mr. John Burgess, Vancouver. The church was crowded to its utmost capacity, and the congregation previous to the ceremony joined heartily in singing "The Voice That Breathed O'er Eden." During the signing of the register Mrs. Findlay rendered an appropriate solo, after which the newly married couple were the recipients of congratulations and amid showers of confetti left for the home of the bride's parents where buffet luncheon was served. James Best, father of the bride, acted in the capacity of chairman, and after a few well-chosen words, called upon Mr. Findlay to propose the toast of the evening, "Bride and Groom." Mr. D. Donaldson and Mr. H. Menzies associated themselves with the toasts. The bridal party left later for Vancouver en route to Portland, Tacoma and Seattle, after which they will make their home in Victoria. The groom's gift to the bride was a gold wrist watch, to the bridesmaid a gold ring and to the best man cuff links."

The club held its third weekly meeting, which was devoted to social development, in the parlors of St. Columba Church last night. Members of the club, are out after new members so that the influence of the organization will be felt throughout Oak Bay.

### LOVELY WARES AT CATHOLIC BAZAAR

Many Visitors at Three Days' Bazaar Opened at Alexandra Club Yesterday

For months past the ladies of St. Andrew's Cathedral have been busily plying scissors and needle in preparation for the annual Christmas bazaar, and culmination of their efforts was seen in the wonderful display of attractive novelties gathered in the Alexandra ballroom yesterday. Precisely at 3 o'clock, the three-days' bazaar was opened by Mayor Porter, who made allusion to the heavy burden carried by the church in the matter of taxes and appealed to members and friends to support the ladies in their praiseworthy efforts to reduce the load. Supporting the Mayor on the platform were Bishop Macdonald, Mgr. Leterme, Rev. Father MacDonnell, Alex. McDermott, J. D. O'Connell, H. J. O'Leary and E. Colbert.

The Bishop in a brief address expressed his pleasure at being able to hand in a donation of \$140, the gift of a New York visitor at the Cathedral mass last Sunday morning, who expressed his sympathy and admiration for the manner in which the church people had accepted the ruling of the Supreme Court last week on the church tax question, and offered further assistance if it was required, giving his home address for reference.

### Lovely Booths.

The scene in the ballroom was an exceptionally attractive one. Around the walls were ranged huge flags, and against this colorful background the pretty stalls assumed a flower-like aspect. On entering the ballroom the eye was drawn to the particularly lovely booth at which Mrs. Chas. E. Wilson, assisted by Mrs. Alex. McDermott, Mrs. Arthur Lienham and Miss Lineham sold fascinating novelties. The booth was designed to represent a wistaria-covered arbour, masses of the lovely mauve blossoms covering the white trellis-work. Among the lovely novelties were dainty powder-boxes, vanity cases, lovely calendars and writing desk sets, garden accessories, including Oriental flower-baskets on staves, bird-topped flower supports and other things too numerous to mention. At the candy stall with its pretty decorative scheme of pale pink and white, the Misses Stella and Doris Allen, Nellie Redgrave, Marion Austin and Margaret McKay sold delicious candies of all kinds.

### Fascinating Wares.

Dainty handkerchiefs found ready sale at the rose-laden booth in charge of Mrs. John Hart, Mrs. J. E. McCormick and Miss Keziah Sehl, while lovely articles of baby-wear including charming little lingerie frocks, diminutive petticoats, baby's towel sets, attracted many visitors to the Yuletide booth at which Mrs. James Hunter and Mrs. Oates were the saleswomen. Autumn foliage and berries was lavishly used to decorate the fancy-work booth at which fascinating lingerie and novelties were quickly sold by Mrs. J. D. Carlin, Mrs. George Brady, Mrs. McSweeney, Mrs. J. D. O'Connell, Mrs. Austin Goward and Mrs. Sweeney. One of the attractive features of this booth was the raffle of a very beautiful cushion of rose-silk taffeta and heavy crochet, made and donated by Mrs. J. R. Reuter.

### Soft Drink "Bar."

Mauve and heliotrope blended with charming effect in the decorations of the apron booth where Mrs. Sabin, Mrs. Leblanc, and Mrs. Delahanty

sold aprons both ornamental and utilitarian. A healthy thirst was encouraged at the bar, with its decorations of pastel shades, and complete in every detail even to the foot-rail, where Miss Marie Sweeney and Mrs. W. H. P. Sweeney dispensed "soft" drinks and cigarettes. The "bar" was one of the most popular rendezvous of the afternoon. At the ivy-covered "Old Country Store," Mrs. W. Baines, Mrs. Ahearn, Miss Dickson, Miss Martineau and Mrs. McNeill did a brisk business, while as a "side-line" Mrs. Baines sold mysterious packages from a heavily-laden orange tree.

### Home Cookery.

Delicious cakes, jams and jellies, Christmas puddings, and bread were displayed at the home cooking booth in charge of Mrs. O. Clarke, Mrs. M. Goulding and Mrs. Geiger. At this stall was displayed a collection of huge potatoes and parsnips grown by Mr. Flinerty and presented by him to the booth. Mrs. Radlger, Mrs. Schroeder and Mrs. Monk sold rosaries, prayer books and ecclesiastical novelties and calendars at their ivy-covered bookstall, while at a nearby "Arts and Crafts" booth, many delightful curios, pieces of antique jewelry, old china and bric-a-brac were sold by Mrs. Bridges, Mrs. Duncan and Miss O'Brien. Growing plants and cut flowers were quickly disposed of by Mrs. Orm and Mrs. M. Clark at their attractive flower booth.

### Musical Programmes.

Downstairs in the cafe afternoon tea and a substantial supper were served at daintily appointed tea tables under the supervision of Miss Heagan, Mrs. M. E. Walker and Mrs. Teebey, assisted by a bevy of charming young girls. Mrs. McManus presided at the seat of customs.

At intervals throughout the evening musical selections were rendered by the Misses Leona Hunter, Doris Welsh, Edith Taylor, Marjory Schroeder, Audrey Hunter, Doris Jewell and Phyllis Petherbridge, who generously volunteered their services to contribute to the enjoyment of the patrons. The bazaar will remain open to-day and Thursday, afternoon and evening.

### A Wonderful Discovery Cures Catarrh Permanently

Formerly doctors prescribed stomach treatment for Catarrh and Bronchitis. They seldom cured and Catarrh has become a national disease. To-day the advanced physician fights Catarrh by medicated air. He fills the lungs, nose and throat with the antiseptic vapor of Catarrhoxone. It is easy then for Catarrhoxone to cure. It contains the essences of pure pine balsams, reaches all the germs and destroys the disease. Every case of Catarrh, Bronchitis and Sore Throat can be cured by Catarrhoxone. The \$1.00 outfit last two months, and is guaranteed to cure; small size 50c; trial size 25c, all dealers or Catarrhoxone Co., Kingston, Ont.

### FIVE COMMUNIONS

#### JOIN IN MEETING

Forward Inter-Church Convention Will Be Held in Vancouver

The outstanding event in religious circles during the coming week will be the Provincial Inter-Church Convention to be held in Wesley Church, Vancouver, to-morrow and Friday. This is the last of a series of thirteen conventions held throughout Canada. Reports that have been received from the other conventions show that great interest has been taken in the gatherings. Prominent citizens have taken part in the proceedings and the numbers attending have been even larger than was anticipated.

There is every prospect that the convention in Vancouver will be of the same successful nature. The speakers who have been appointed by the national headquarters represent all the communions taking part in the Forward movement. These are the Anglican, Baptist, Congregational, Methodist and Presbyterian Churches. Rev. Dean Tucker, of London, Ont., and Rev. Dr. Westgate, of German East Africa, who was in represent the Anglican Church; Rev. W. Patterson, D.D., general secretary of the Western Baptist Union, will be the speaker for that denomination; Rev. E. E. Braithwaite, D.D., the national organizer for the Inter-Church Forward Movement, is a Congregationalist; Rev. R. J. D. Simpson, secretary of the Superannuation Fund Board, will represent the Methodists; Rev. R. S. Laidlaw, of Knox Church, Winnipeg, and Rev. G. M. Ross, of Honan, China, will be the speakers of the Presbyterian Church.

#### Opening Session.

Prominent citizens will take part. Mayor Gair will welcome the delegates at the opening of the convention on Thursday evening; President Kinck, of the University, will preside that evening. Brigadier-General Odium will preside at the luncheon to be given in the Hotel Vancouver on Friday, December 5, at 12.30 p.m. Chris Spencer will be the chairman Friday evening.

A large number of churches have sent in the names of the delegates appointed and from indications that are being sent to the provincial headquarters there will be a very large number present. The evening meetings will be open to the public, and in fact the galleries of Wesley Church will always be open for any to attend and listen to the addresses and discussions.

Friday afternoon, denominational conferences will be held, when the visiting speakers will meet with members of their own communions and discuss the larger work of the forward movement. The Anglican conference will be held in Christ Church, the Baptist conference in First Baptist Church, the Congregational representatives will meet in the First Congregational Church, the Methodists will assemble in Wesley Church, and the Presbyterian delegation in St. Andrew's Church. These conferences will all be held at 2.30 p.m.

**Banquet Friday Evening.**  
Bishop de Penier is chairman of the convention committee and J. A. Birmingham is the secretary. The other members of the committee are Rev. R. J. McIntyre, Rev. S. Sheldon, Rev. A. E. Cooke and Rev. J. R. Craig. An Mr. Craig was absent from the city. Rev. J. R. Robertson was asked to represent the Presbyterian Church on the committee and has been active in assisting to arrange the details. The denominational organizers were also asked to meet with the committee in its deliberations.

#### Women Assisting.

In connection with the inter-church forward movement the ladies of the various missionary societies of the churches uniting in the movement have been meeting to discuss matters of mutual interest. A federation of the national boards of the Woman's Missionary Societies in Canada and the United States in the five denominations has recently been effected and the leaders are now discussing the matter of a constitution for the federation. At the request of the federated forward movement committee the Presbyterian provincial committee, as representing the oldest women's organization, called together two representatives from the other societies, and this body met to discuss matters affecting the work in the Province.

### MAN DIED AFTER OVERCOME BY SMOKE

Vancouver, Dec. 3.—Charles Miller, the man who was overcome by smoke at the Striving Hotel fire on Monday morning and who was taken to a hospital, died on Tuesday evening. An inquest will be held. ## A BEDTIME STORY

UNCLE WIGGLY'S BEAN BAGS.

Copyright, 1919, by McClure Newspaper Syndicate (By Howard R. Garis.)

One day, when Uncle Wiggly was hopping through the woods on his way home to his hollow stump bungalow, he met the lady mouse school teacher. The lady mouse didn't see the bunny rabbit at first, but snubbed along with a bunch of examination papers under her paw. And the lady mouse was saying to herself:

"I don't see how I am ever going to do it! I never can get them finished on time, and the children will be so disappointed!"

"The lady mouse school teacher is in trouble," said Uncle Wiggly to himself. "I must try to help her."

So, making a low and polite bow with his pink, twinkling nose, as well as his tall silk hat, Uncle Wiggly asked:

"May I not have the pleasure of helping you in your trouble, Miss Lady Mouse? What is it you can't do; correct those examination papers in time to tell the animal children, to-morrow, whether or not they have passed? Is that what you can't do?"

"Oh, no," answered the school teacher. "It isn't that. But I promised the children I would make them a lot of bean bags so they could play little games in the hollow stump school at recess and at noon. The weather is getting too cold, now, to play out of doors much, and I want them to have some bean-bag fun. But I have no time, with all the other things I must do, to make the bean bags."

"Then I'll make them for you!" cried Uncle Wiggly, quick-like and impulsive. "It will be a pleasure for me."

"You are very kind," said the lady mouse. Uncle Wiggly always was kind to lady mouse school teachers. "I'll hop right back to my hollow stump bungalow, and start making bean bags," said the bunny gentleman. "I'll bring them to you at the school to-morrow."

"Do you think you can?" asked the lady mouse.

"Surely," Uncle Wiggly answered, and then he hopped along through the woods until he came to his home in the hollow stump, where he lived with Nurse Jane Fuzzy Wuzzy, the muskrat lady housekeeper.

Nurse Jane was busy in the kitchen, so Uncle Wiggly said nothing to her about going to make the bean bags.

"Syrup of Figs" CHILD'S LAXATIVE

bean bags for the lady mouse school teacher.

"Nurse Jane might sniffle at me," thought Uncle Wiggly.

The bunny rabbit snubbed a little about sewing—at least he thought he knew how to make a cloth bag and stuff it full of beans. So he found some old pieces of muslin or satin, or silk or calico—you know, whatever bean bags are made of. Then he got him a needle and thread and a hickory nut for a thimble to push the needle through the cloth. And he got him some beans from down cellar. Uncle Wiggly did, and he started in.

So that Nurse Jane wouldn't see him, and the bunny went up to his own room. And there he began to sew. But the muskrat lady knew he was up to something, so she crept softly up, and seeing the snips of cloth, she guessed what he was doing.

"If you need a button sewed on, you'd better let me do it," said Nurse Jane, insinuating like and obligatory.

"No, thank you. It isn't buttons," said Uncle Wiggly, trying not to laugh.

He kept on sewing away at the bean bags, and really he didn't make them so badly. Of course they were rather puckerd up in the corners, and instead of being nice like the pieces of cut-up burlap, but that didn't matter. And Uncle Wiggly pricked his paw once or twice. But he didn't care.

At last the bean bags were finished, stuffed with beans and sewed up again. There were thirteen of them. "I hope that isn't unlucky!" said the bunny as he put them in a basket next morning and started for the hollow stump school.

He was thinking what fun the animal children would have, playing bean bag games at recess, when, all of a sudden, there was a rustling in the bushes, and out jumped the bad old Pipslewah.

"Oh, ho! Oh, ha!" howled the Pib. "I am in luck to-day! First I'll take one of the nice apple dumplings you have in that basket, and then I'll take your souse!"

He reached forth his paw to do this, but brave Uncle Wiggly suddenly took out bean bag No. 13, and threw it right at the bad chap, hitting him very hard on the nose.

"O, wow! O, wow!" howled the Pib, as the bag burst and all the beans scattered out. "What has struck me? I never knew apple dumplings were like that." And holding his paw to his nose away he ran as fast as anything.

"Ha! Ha!" laughed Uncle Wiggly. "I'm not so unlucky after all. Now I have an even dozen bean bags left for the animal children."

And when he reached the hollow stump school with them the lady mouse teacher thanked the bunny very much, and the rabbits, squirrels, ducks, puppy dogs and all other animal boys and girls had lots of fun with Uncle Wiggly's bean bags. So, if the rubber plant doesn't stretch over the top of the hat tree and put a cap on the head of the stairs, I'll tell you next about Uncle Wiggly and Susie's muff.

## MOTOR FIRM BUYS DOWN TOWN CORNER

Jameson, Rolf & Willis Pay \$25,000 For Gordon and Courtney Streets' Site

The southeast corner of Gordon and Courtney Streets was sold to-day to Jameson, Rolf & Willis, who have been operating their automobile garage headquarters on the site for several years.

The property is seventy by eighty feet in size, running down Gordon Street to the Union Club property. The automobile firm paid Thos R. Cusack, the owner, \$25,000 for the 5,600 square feet.

Although Jameson, Rolf & Willis have a three-story branch garage in another part of the city, they decided to buy this property to hold it as the headquarters of their business because of its important location and the fact that a large part of the automobile business of the city now centers in the lower Courtney and Broughton Street districts. They also believe that they have secured the property at an advantageous price because of the prospects of a big rise in realty values here during the next couple of years.

The firm is planning extensions early in the spring to cope with its business expansion.

## DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If your Back hurts or Bladder bothers, drink lots of water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia. It has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

### VANCOUVER ISLAND NEWS

#### Ganges Social Club.

The Ganges Social Club gave their annual whist drive and dance at the Mahon Hall on Friday, November 28. The affair was under the able management of a committee of the club as follows: Messrs. Edward Walter, A. J. Smith, W. A. McAfee, W. N. Norton, S. W. Dean and W. Evans. Due to the popularity of the annual reunion there was naturally a very large attendance and a most thoroughly enjoyable evening was spent. There were twenty-six tables for whist and three for other games. Directly after the cessation of the game, the president, Edward Walter, gave a short address welcoming the returned soldiers.

Following the speech the prizes, which were very handsome, were awarded as follows: Ladies' first, Miss Ormay; ladies' booby, Miss Phyllis James; gentlemen' first, Cecil Springford; gentlemen's booby, Harry Noon.

After the giving of the prizes very dainty refreshments were handed around. The committee was composed of the following ladies: Mrs. S. P. Beech, Mrs. J. N. Rogers and Miss H. Dean.

After justice had been done to the ample refreshments the floor was cleared for dancing. The music was furnished by Messrs. Bert Bittan-court and Arthur Elliott.

#### Lumber Development

A new development in the lumber business is furnished by the Courtenay Lumber Company who have bought twenty-two million feet of lumber in the vicinity of Courtenay and intend to bring it out over the road to the mill on a logging truck, says The Comox Argus. Most of the timber that has been bought is in the Sandwick and Grantham area and the company has already commenced to put up shacks to provide for the men who will carry on logging operations.

The company is also in the market for fir, cedar, spruce and hemlock logs and will pay a good price for them delivered to within a reasonable distance from the road where their truck can run. They will even in certain favorable circumstances build their own roads.

This should provide a good source of revenue to farmers who want to clear more of their land but did not see their way to afford the cost when they had not the means to provide

transportation to bring the logs to the mills.

The new company spent seven thousand dollars in the district during the past month, over five thousand of which was in pay-roll. One of the big boilers is installed, another is on the way and the boiler house is almost completed while other up-to-date machinery is on the way. The new office will probably be completed this week.

#### District Agricultural Expert.

It is most probable that S. H. Hopkins, who is now at Duncan, will be appointed District Representative in Courtenay district, while another agricultural expert will be placed in the Cowichan district.

#### Sunday Football.

The Free Press of Nanaimo publishes interviews with several leaders in local football circles deprecating the playing of soccer games on Sunday, some of them on the ground of bigger gate receipts being obtainable on Saturday. The blame is laid upon the mines working on every week day, Sunday sport therefore becoming necessary. David Mottlahaw, of the Western Pastime Club, points out that any movement to secure a Saturday afternoon holiday must include Cumberland, Extension and South Wellington, and consequently advocates action by the Government in making a Saturday half-holiday compulsory. The editorial comment comes out strongly against Sunday sport, suggests that a widespread agitation should be made against it, and affirms that the island coal mining district is the only locality where

in Sunday football is encouraged in this Province.

#### Nanaimo and Prohibition.

Mayor McKensie of Nanaimo stated at the prohibition meeting in the Opera House Sunday night that the number of prescriptions for liquor issued by the local doctors had doubled in three months, rising from 355 for August to 691 in October. He claimed some doctors were responsible and that prescriptions for two quarts of whiskey, made the Act ridiculous. The mayor would not retract the published report of his statement that there was more rowdyism and drunkenness than two years ago, but said prohibition had been beneficial in many respects. He contended that a change in the Act was called for. That changes were necessary Mr. Geo. Bell, M.P.P., the speaker of the evening, agreed and forecasted a considerably altered Act next session, which would within six months be submitted to the people. Mr. Bell gave a racy address, which was well received by the audience. Prohibition was not a failure in British Columbia, though the present Act could be much improved. The liquor bill of British Columbia was one-fifth of pre-prohibition days.

#### Nanaimo Epidemic.

Medals to the volunteer workers in Nanaimo during the influenza epidemic last year will be presented by the Women's Hospital Auxiliary at Fofesters' Hall to-morrow evening. The Mayor and aldermen will attend.

Mr. Cox will shortly submit draft plans of various kinds and quality of structure and equipment with estimates. J. M. Ridd, John Shaw, Geo. Pearson, Drs. Wilks and Ingham and R. R. Sterling of the C. ### Sickness Cure or Sickness Prevention

Louis Pasteur

When Pasteur proved the relation of germs to infectious disease, he marked a big advance in that development of medical science which reigns today—the Idea of Sickness Prevention.

As a result, many plagues and epidemics that were the bane of former ages no longer terrify the world, and science has now developed an effective agent against the condition which is the first cause of over 90% of all human disease—constipation.

That effective agent is Nujol. Nujol by relieving constipation prevents the absorption of poisons which otherwise would be taken into the blood and so under-mine the whole system.

Leading medical authorities agree that pills, salts, castor oil, etc., simply force and weaken the system. But Nujol is entirely different.

Nujol prevents constipation by softening the food waste and encouraging the intestinal muscles to act naturally.

Nujol helps nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle from your druggist today.

For valuable health booklet—"Thirty Feet of Danger"—free, write Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, N.Y.

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark as shown here. Beware of products represented to be "the same as Nujol". They may injure from substitution.

**HERE TO CONDUCT**

**PRELIMINARY SURVEY**

Capt. J. W. Hobbs Arrives to Represent Canadian Air Board

Captain Joseph W. Hobbs, late of the Royal Air Force and now of the Canadian Air Board, arrived in the city yesterday in his mission to stimulate civil flying in British Columbia.

He will spend a month securing data for a preliminary report which he will deliver to the Ottawa authorities by the beginning of the New Year and following which he will return and make a detailed report with estimates.

The departments in which aircraft can be profitably employed are lands and forests for patrol and fire protection work; postal, for the transport of mail, mounted police, public works, surveying, marine and fisheries. These departments would not have individual stations, but one or more stations may be established throughout the province and be at the service of all the departments, thereby keeping the cost down to the minimum, it is proposed by the Board.

The Captain's Career—Early in 1915 Captain Hobbs trained at Toronto and went overseas to the Royal Naval Air Service in November of that year. After two years' service in the North Sea and the English Channel he was appointed second in command of the seaplane base at Plymouth, from which very important operations against submarines were undertaken.

From there he was sent to Canada by the Royal Air Force to assist the Canadian navy in operations against submarines on the Atlantic seaboard. Two seaplane stations were built on the Nova Scotia coast, one at Sydney and the other at Halifax. This work was all abandoned when the armistice was signed and the service was disbanded. His work took him to Labrador and Newfoundland. He was, in fact, engaged in looking for seaplane bases in the Straits of Belle Isle when the armistice was signed.

From there he went to Washington to confer with the United States naval authorities and was taken to Hampton Roads navy yard to inspect and test a batch of new American machines. He then returned to Europe and was ordered to a naval base in the south of Ireland, and after five months' service there was dispatched to Archangel, where he was in command of seaplane operations on H.M.S. Pegasus until the evacuation by the British forces.

The Sidney A. A. will hold a dance at Berquist Hall, Sunday evening, December 5. Perry's orchestra will furnish the music. Arrangements have been made with the Victoria and Sidney Flying Line and cars will leave 1216 Douglas Street, Victoria, for Sidney at 8 p.m., returning to Victoria after the dance.

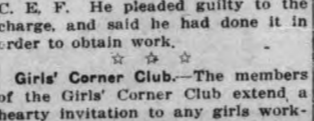

Special Week-end Prices for hair-dressing and shampoo. Phone 6039, Empress Hairdressing Parlors, Pemberton Building.

Month For Forgery—It was sentenced to one year imprisonment this morning in police court by Magistrate Jay for forging a Certificate of Discharge from the C. E. F. He pleaded guilty to the charge, and said he had done it in order to obtain work.

Girls' Corner Club—The members of the Girls' Corner Club extend a cordial invitation to any girls working in the city to come and take supper with them in their club rooms, Oddfellows' Hall, Douglas Street, on Thursday at 6.15 p.m. Ladies of the First Presbyterian Missionary Society are kindly assisting with the supper, and a very enjoyable time is anticipated. Mrs. Steinson will give an address, and the meeting will close before 8 p.m.

Mrs. Watt and Mrs. Godman to Be Tendered Reception by Club

Mrs. Alfred T. Watt and Mrs. Tyrell-Godman, who have recently returned from England, where they have been working in connection with the Women's Institute movement, will be the guests of honor at a reception to be given by the Women's Canadian Club in the Empress Hotel on Tuesday afternoon next, December 3. Such was the announcement made by Mrs. Jenkins, the president, at the meeting of the club yesterday afternoon.

He was immediately taken to the Royal Jubilee Hospital. Dr. Sinclair is attending the injured man.

Men's Corner Club at St. Paul's.—The Men's Corner Club under the direction of S. P. Miller will assist in the preparatory services at 8 o'clock this evening at St. Paul's Presbyterian Church, Victoria West, by contributing a couple of gospel choruses. The Rev. David Lister will give the address, after which a new member will be received by the session, which will meet for business at 7.30 p.m., half an hour before the general meeting. Mrs. Lewis Hall and the choir will have charge of the Praise Service.

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with coated tongue, foul breath or a dull headache; or if your meals sour and ferment, you have a real surprise awaiting you.

To-morrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to headaches, back-aches, bilious attacks, constipation or stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning inside bath.

Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate acts on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.

## BRIDGE CONTRACT SATISFIES PREMIER

Mr. Oliver Hands Document on to Legal Department Before Ratifying It

"It seems satisfactory to me. I can see nothing objectionable in it," Premier Oliver stated this morning in reference to the Johnson Street Bridge agreement as ratified by the City Council recently. The Premier has gone over the agreement in detail, examining each clause in the voluminous document and has found that it contains the provisions which he urged the city to insert. It will be recalled that it was the Premier who told the Council if it knew the city's best interests it would act, and act quickly, to make sure that the C.P.R. did not secure exclusive running rights over the proposed bridge. The Council did insist that the C.P.R. remove clauses in the agreement that would have given it this privilege, and the railway company agreed to the changes.

"While it seems perfectly satisfactory to me, I have handed the agreement on to the legal department for examination," the Premier stated, "where the expenditure of \$200,000 is involved. I do not believe in doing things carelessly."

When the Government has ratified the agreement it will be forwarded to the C.P.R. for its ratification, and the city will be able to submit a by-law to the ratepayers in January.

## NOW WANT GARBAGE STATION ON PARK SITE

Utilitarian Purpose Planned For Much Talked of Land Back of Empress

The latest proposal for the development of the idle land at the rear of the Empress Hotel made public to-day provides for the erection there of a large garbage collecting station. Those at the back of the scheme claim that the station would be not in the least offensive to the public as it could be made a thing of beauty with its architecture and setting planned in keeping with the design of the large public structures that some persons are seeking to have erected there.

The plan to establish a central garbage station behind the Empress Hotel was up before the City Council some time ago as a means of saving the city considerable money in the collection of garbage. At present the city has two garbage stations, one at Walnut Street and the other on Woodlands road. Both buildings are erected in keeping with the residential character of the districts they serve, and so successfully are they disguised that the public is not aware of their purpose. For the James Bay, lower Fairfield and central city districts, however, there is no collecting station. Garbage men start out in the morning, and when their carts are filled they have to take them down to the garbage wharf at the foot of Herald Street. This involves the waste of a lot of time and adds much to the expense of collection. In the other districts the garbage carts have only short hauls to the stations and the staff is removed from there to the wharf in large speedy motor trucks.

Each day sees a new proposal for the development of this property at the rear of the Empress made public, and several more are being formulated, and will be brought out within a few days.

Mayor Porter is calling a special meeting of the aldermen to consider a proposal that has been placed before him by Charles St. Barbe. As made public so far the schemes for the development of the land at the rear of the Empress include the establishment of swimming baths, baseball park, cricket green, tennis grounds, football field, lacrosse grounds, shrubbery park, garbage station, convention hall, dancing pavilion, art gallery, technical institute, Crystal Palace and aquarium.

## FRIENDLY HELP'S CHRISTMAS APPEAL

Rooms Open Monday Next for Reception of Donations For Hampers.

On Monday next, December 8, the Friendly Help headquarters in the Market Building, will be open all day for the reception of contributions of all kinds to fill the Christmas hampers. There are many cases of destitution in the city and the Society hopes to be able to send hampers to all, and to this end appeals to generous friends for assistance. It is particularly requested that all churches and organizations will co-operate with the Friendly Help in this matter, in order to avoid overlapping and to ensure help being given to the greatest possible number. There were sixteen members present at the monthly meeting of the Society, including Aldermen Cameron and Johns and the Rev. A. de

### HON. JOHN KEEN RECOVERING FROM SERIOUS ILLNESS

During his mission to the East recently, Hon. T. D. Pattullo, Minister of Lands, had the pleasure of visiting Hon. John Keen, Speaker of the British Columbia House, who has been lying in a critical condition in a Toronto Hospital for some months. After a very serious illness, Mr. Keen was recovering satisfactorily when Mr. Pattullo saw him and expected to be up and around again in about ten days from that time. If he recovers as quickly as he hopes Mr. Keen will set out for Kaslo shortly, arriving in plenty of time for the next session of the Provincial Legislature.

### Robert Valentine Harvey Chapter.

At the monthly meeting of the Robert Valentine Harvey Chapter, held last night, with the regent, Mrs. C. B. Jones, in the chair, it was announced that the raffle of pot-pourri donated by the Rev. G. Bolton, of the University School, had realized the sum of \$10. The meeting voted the sum of \$10 towards the Municipal Chapter's Christmas tree for the orphans of soldiers. The remainder of the time was taken up in discussing preparations for the dance to be held in Carter's Hall, Courtney Street, on Friday evening next. The Chapter has engaged a good orchestra for the event and refreshments will be served. The proceeds will be devoted to the Chapter's patriotic work.

Chapter Helps Girls' Club.—The members of the Florence Nightingale Chapter, I. O. D. E., at their meeting on Monday evening voted \$25 towards the immediate needs of the Girls' Club, Fort Street, and decided to make a monthly donation of \$5, as a tangible expression of their sympathy with the work. The Chapter also voted \$25 for the Christmas tree to be given to the widows and orphans of soldiers; \$25 was voted for the Gooderham Emergency Fund. Members were reminded of the importance of a large attendance on January 5. Mrs. Galbraith was appointed to represent the Chapter at the meetings of the Local Council of Women. In order that all the members may have an opportunity of signing the book that is to be presented to Sir Arthur Currie from the order, someone will be in charge to receive their signatures at headquarters on Friday from 2 to 4 o'clock.

Bazaar at Keatings.—At the Temperance Hall at Keatings on Saturday next, the annual Christmas bazaar will be held. The affair will be opened at three o'clock and in the evening a concert programme, arranged by Mrs. Wendell Shaw, will be given. The ladies will serve a high tea during the afternoon. A number of Victorians have signified their intention of attending the affair.

and some of the more indiscreet members are well in their cups. The last dance is started. Some of them manage to get through it, but one couple didn't realize it was time to stop. They kept on after the music had ended until too tired to move further.

### VARIETY

Love is the keynote of "The Turn in the Road," a photo-drama written and produced under the direction of King W. Vidor, one of the most talented of the young writers for the screen. Mr. Vidor has succeeded in making his drama a vehicle for teaching the omnipotence of love through the medium of a child. A man who has been brought up in the fear of God loses his faith when his bride of a year dies in childbirth, goes down into the depths, and becomes an agnostic and a derelict. After years of vain search for the truth he is regenerated by the simple faith of a child, his own, whom he had deserted.

### ROMANO

Viola Dana, charming little Metro Star of "Flower of the Dusk," a screen version of the famous novel that came from the eminent novelist, Myrtle Reed, the eminent novelist, has two distinct roles in the picture. First she will be seen as Constance North, the mother when a young bride, and later as Barbara, the daughter. The characters although supposed to resemble each other in features, have two decided personalities. The film is given ample opportunity to display her remarkable versatility in character work. John H. Collins adapted and directed "Flower of the Dusk." This dramatic and absorbing presentation will be the attraction at the Romano for the last time to-day.

### PANTAGES

For half an hour, three times a day, the stage at the Pantages Theatre is being transformed into a complete motion picture studio. With director and camera-man, and powerful studio lights, the scenes are set for the amateur Mary Pickford and Charlie Chaplin of the city to register love and fear and hate just the same as is done in the movies. At thrill the fans of the land. Each day there is a different "set" at the Pantages, and they are each a part of a scenario that is being enacted. The film will be pieced together at the end of the week, and will be shown on the Pantages screen all next week so that Victorians may see the results of real studio acting. Several hundred feet of film is taken of each audience as well, and this will also be featured in the "production." Besides this star feature of the bill there are five big acts of variety and interest. Verna Mercereau and her company present a classic dancing act which is a special added attraction.

### COLUMBIA

### CHRISTMAS PANTOMIME

The Princess Players intend to produce "Alice in Wonderland" for their Christmas pantomime.

be a modern fairy story from the Cohan viewpoint. It will be presented here by Messrs. Cohan and Harris, and the promise is given that the production will be first class in every respect and that a most capable company has been engaged. Some of those in the cast with Mr. Gleason are Ena Lewis Willey, William Slider, Josephine Williams, John Dedouin, Lucile Webster, John E. Sanders, Adelaide Wilson, James Bravery, Jr., Marie Nelson, Joseph Adde, Will T. Goodwin and Muriel Nelson.

### GUS EDWARDS COMING BEFORE FAREWELL

Will Be the Head Line Attraction For Orpheum Vaudeville

Coming as a distinct surprise to vaudeville patrons is the announcement that Gus Edwards, than whom there is no better composer, producer, actor-manager in the show business will this year retire from the festive footlights as far as vaudeville is concerned. However, Edwards intends to make his farewell appearance one long to be remembered and will be found as a headline attraction at the Orpheum Friday and Saturday in a "Welcome Home Revue." In this revue Edwards is supported by what he pleases to term a demi-cast of newly found protégés, headed by Vincent O'Donnell, otherwise known as "Kid McCormack" and Alice and Hazel Furness. This act which runs well over thirty minutes is filled from opening to close with tuneful melodies. During Mr. Edwards' visit to this city he will be glad to interview any talented girl or boy desirous of entering on a stage career.

Ernest Evans and his associate artists Ora Deane, Estelle McNeal, Gertrude Noble and Mildred Rife, will offer a smart diversion in entertainment that is sure to please the patrons of the Orpheum. There are six separate numbers in their act, each and every one declared to be perfect classics in themselves.

Naturalists have always claimed that birds have a language of their own, which is quite understandable. It remains, however, for the Arnaut Brothers to make that language understandable to humans. They present an impressionistic act which is a decided novelty a bird romance that in a few short minutes tells volumes.

"Skeet" Gallagher and Irene Martin prove that two personalities can provide a most attractive bit of entertainment. They are known as "up-to-the-minute-pair," because of their bright repartee, clever nonsense and jingling musical melange. The vehicle which this pair have prepared is called "Sweaters" and is replete with catchy musical numbers.

Marshal Montgomery is known as an extraordinary ventriloquist. His performance includes more novel features and sensational touches than anything that has ever appeared at the Orpheum this year. He has proved a decided hit all across the circuit.

Jack Osterman will offer fifteen minutes of "Something" which goes a long way towards filling out a line of variety. He is one of the youngest and most promising talents in the circuit, the son of a former well-known comedy star. He has a bright sparkling line of stories.

The Jordan Girls, Nellie and Josephine comely wirelets will be another attraction. They are capable and attractive and accomplish their feats with grace. The bill will close with the usual pictures and orchestral numbers, winding up a diversified programme.

### ROMANTIC STORY OF THE SEWING-MACHINE

Inventor Was Born One Hundred Years Ago; Many Vicissitudes

This year witnesses the centenary of the birth of a man much blessed by women—Elias Howe, inventor of the sewing machine.  
It was in 1845 that Howe made the first perfect model of a machine for sewing. Until then all sewing had to be done by hand.  
Elias Howe was the son of a poor farmer of Spencer, Massachusetts. A delicate boy, he was further handicapped in life by lameness, and farm work proved too exhausting for him. He longed to go out into the world to better his position in life. Even as a child he had dreams and ambitions.  
When sixteen years old he obtained a reluctant consent from his parents and went to Lowell, a manufacturing centre, and secured a job in a cotton mill. But soon after Howe had congratulated himself on getting a good start he was thrown out of work. After a while he succeeded in finding work in various machine shops.

When he was twenty-one his wages were thirty shillings a week, and he had a wife to keep.  
A remark overheard in the shop that anyone who could invent a sewing machine would make a fortune, and the night every evening at home

of his wife's weary needle at the hand-sewing, for which she was paid a mere pittance, gave him his inspiration. He started on his great adventure, and in 1844 he had made a rough model of a machine for sewing.  
Financial Failure.  
After about five months of constant drudgery, Howe's machine was completed. That was in May, 1845. The patent was obtained, and it seemed as though fame and fortune were his. But although the new machine was praised, it proved impossible to put it on the market. As an achievement as a financial enterprise it was a failure. Howe's partner, disgusted at losing his money, withdrew from the partnership.  
Howe next got work as an engine-driver, but this gradually broke his health.  
In October, 1846, a brother of his took steamer passage to England, to see if he could find a market for the machine. William Thomas, of Cheshire, London, bought the model, and agreed to employ Elias Howe at £3

### Delivers Sledge - Hammer Blows at the High Cost of Merchandise GOING OUT OF BUSINESS

The men and women of Victoria are quick to see the opportunity for saving offered by this great closing-out sale, and the big stock is melting rapidly. They see in it the opportunity of buying a year's supply at prices lower than any merchant could buy at wholesale to-day. This is not an ordinary sale in which reductions are made to stimulate business. This is a genuine clearing-out sale, in which we are GETTING OUT OF BUSINESS.

It is an unusual sale. The merchandise is not new but old quality, bought two and three years ago. You know what new goods are to-day—trashy. Here you'll find the best quality merchandise in Victoria—goods that cannot be replaced to-day. Since this stock was bought the market has soared. The old prices have been left on each article now.

### HURDLE TITLE AT OLYMPIC GAMES

Circumstances Have Now Thrown Open Competition Next Year

With Robert Simpson eliminated from the next Olympic games at Antwerp, owing to his adoption of coaching as a profession, there is a possibility of some other nation springing a surprise in the hurdle races by defeating the United States entrants, Simpson is the A. A. U. champion and also won international fame by taking the premier honors from Fred Kelly at the Inter-Allied Games at Paris.

Kelly, winner of the 1912 Olympic hurdles, is a veteran with nearly ten years of active senior competition behind him, and there are grave doubts if he will be fast enough to win the title at Antwerp next July. The Inter-Allied Games found Kelly beaten only by inches by Simpson in 15 1-5 seconds, but it was the third man in that race who now looks like a logical surprise package for next year. His name is L. Wilson of New Zealand, and his third in 15 3-5, beating Ames of the United States, was one of the surprises of the Inter-Allied contests.

It was at these games that Wilson, who has natural speed, studied American methods and spent hours every day with Joe Pipal, the official coach of the A. E. F. team. Pipal is the man who originally discovered and developed Fred Kelly at the University of Southern California. Pipal went overseas as a Y. M. C. A. athletic director and was named by Colonel Wait C. Johnson, athletic officer of the A. E. F., as coach of the American team for the Inter-Allied Games. He was a popular with the foreign athletes as he was with the Americans. Wilson and Pipal became fast friends and the American Y coach, seeing the ability and eagerness of the New Zealand timber topper, took an interest in him and showed him some of the American methods. That this coaching was utilized was demonstrated by the fact that Wilson improved so splendidly that in August he won the Scotch hurdle title in 15 2-5 and in September won the English title in 15 1-5. Wilson looks to be a logical choice for a favorite in the Olympic hurdle championships, but he has informed Pipal that he will be a sure contender at Antwerp.

There are a number of other good foreign hurdlers who are liable to be surprises. France has two good men in Girard and Meunier, both of whom took places in their heats at the Paris Pershing Stadium games. Italy has two good prospects in Villa and Sandrini, the former placing in his heat at the same games. Australia has two men who are liable to show improvement by next July in Best and Spencer, while Canada has a fair hurdler in Wilkins.

With such talent as these foreign countries now possess the United States will feel the loss of Simpson and will need a man equally as good as Simpson to defeat the array of foreign talent which will compete in next year's Olympic Games.

### KINGSTON TO HAVE STADIUM AND RINK

Kingston, Ont., Dec. 3.—Definite plans have been made for the proposed new stadium and rink which, under the re-organization of the sports at Queen's University, will be built. It is estimated that the entire cost will be \$70,000. According to the plans the stadium will seat four thousand and will be used for rugby and track meets.

It is also proposed to build a new rink of artificial ice in a saucer fashion to seat two thousand. Directly behind this rink will be seven tennis courts of packed clay and behind the courts will be another rugby field.

### TEAMS STILL TIED IN BIG BICYCLE GRIND

New York, Dec. 3.—Thirteen teams were still tied for first place in the international six-day bicycle race at Madison Square Garden at 8 o'clock this morning, the thirty-eighth hour of the contest. They had made 1,666 miles and four laps at that hour, as compared with the record of 1,183 miles and five laps made by Anderson and Dupuy in 1915.

### JAY GOULD DEFEATS PRO. TITLEHOLDER

Philadelphia, Dec. 2.—Jay Gould, former world's open and present national amateur court tennis champion, defeated Walter Kinsella, New York, the professional titleholder of America, in straight sets to-day for the open championship of the United States. Gould outclassed Kinsella in all four sets.

The scores were: 6-3, 6-4, 6-3, 6-5. The match is for the best out of thirteen sets, four to be played on Thursday and the remaining five next Saturday if the match goes that far.

### AT THE VIMY ALLEY.

In the Bowling League game played at the Vimy Alleys last night the Victoria Wascas defeated a strong team representing the Harbor Marines by 312 pins.

The hat which was given by the American Hat Cleaning Works was won by Moulton from F. R. Vinal after a tie in which each had a score of 239.

### GIBBONS-FARMER GO BIG DRAWING CARD

### U. S. BOXERS RUN UP AGAINST ANOTHER SNAG

New York, Dec. 3.—The three United States amateur boxing champions touring the Scandinavian countries lost in two classes out of three to the Danish representatives at the Sparta Club, Copenhagen, Monday night, according to a cable received here to-day. The boxers expect to sail home Thursday.

Frank Cassidy, of New York, won in the 125-pound class, while James Burke, Pittsburg, heavyweight, and Ashton Donze, New Orleans, 115-pounders, were losers.

### ALEXANDER-KILLIFER IS CHICAGO BATTERY

Chicago, Dec. 2.—The noted battery, Pletcher Grover Alexander and Catcher Killifer will be with the Chicago Nationals next season. Killifer signed a contract to-day for one year. Alexander comes to the terms at the close of the season.

### BY THE K. O. ROUTE.

Los Angeles, Dec. 2.—Young "Dynamite" George of Los Angeles, knocked out Frankie Haynie, of San Francisco, in the last round of their four-round bout here to-night.

### AROUND THE SPORT CAMPS

Jimmy Wilde, the English flyweight champion now in America, has engaged in 300 battles and has never been put to sleep.

His wife: Who was this Joan of Arc that saved France? Mr. Nostall; You got them charged mixed up. It was Noah of Ark. Jonah's the guy that swallowed the whale.

Wilde had a lot of trouble getting into the army because the British army officers thought there wasn't enough of him. Most Englishmen think war would be easy for Wilde.

The only reason they believe his ring opponents ever rise again when he has finished with them is because the Marquis of Queensbury rules do not call for a permanent knockout.

If there were any people more delighted than the fans at the outcome of Saturday's inter-city rugby game it was the selection committee.

Inter-collegiate relations between Stanford and the University of California are again operative and there is no longer any basis for the fear that the two principal universities of the state might not compete in college sports during the coming year.

### BROAD STREET BILLIARD LEAGUE.

Penton's team won over Buckett's by 93 points in the Broad Street Billiard League last night. Every game was good and great interest was taken. Hawthorne was the star of Penton's quintette, while Radbourne and Rogers played a great game for their team.

The score was as follows:

Penton	200	Buckett	227
G. Hawthorne	250	Woods	228
Wallace	146	Radbourne	150
Kidd	123	Rogers	150
Tucker	150	Booth	121

Jimmy Wilde, the English flyweight champion now in America, has engaged in 300 battles and has never been put to sleep.

His wife: Who was this Joan of Arc that saved France? Mr. Nostall; You got them charged mixed up. It was Noah of Ark. Jonah's the guy that swallowed the whale.

Wilde had a lot of trouble getting into the army because the British army officers thought there wasn't enough of him. Most Englishmen think war would be easy for Wilde.

The only reason they believe his ring opponents ever rise again when he has finished with them is because the Marquis of Queensbury rules do not call for a permanent knockout.

If there were any people more delighted than the fans at the outcome of Saturday's inter-city rugby game it was the selection committee.

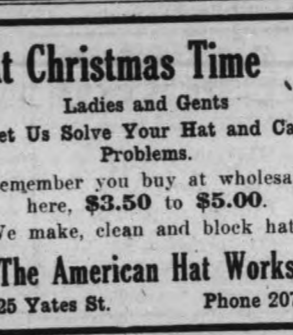

Inter-collegiate relations between Stanford and the University of California are again operative and there is no longer any basis for the fear that the two principal universities of the state might not compete in college sports during the coming year.

**SWIMMERS ENJOY SUCCESSFUL DANCE**

Two Hundred and Fifty Present at Victoria Swimming Club Affair

Two hundred and fifty people were present at the last dance of the year staged by the Victoria Amateur Swimming Club at the K. of P. Hall last night. The affair will wind up the many successful social functions this year, which have been held since swimming at the Gorge closed down, the next gathering being the annual meeting of the club.

Smith's orchestra supplied the music for dancing, which was thoroughly enjoyed by all, R. Osborn conducting. Card tables were provided for the non-dancers.

The tastefully set supper table was gaily decorated with the club colors, green and white, with flowers and autumn foliage adding to the very pretty effect.

Mrs. McAllister, convener, assisted by Mrs. G. Stott, Mrs. Mennell, Miss Hoyle and Mrs. H. Catterall, president, was responsible for the excellent supper arrangements.

**WILL SEE COUNCIL ON SALT WATER TANK**

Would Be Self-sustaining, Supporters of Idea Maintain

The first application to the City Council for support for the salt water swimming tank on property owned by the city, as the supporters of the scheme have their plans now outlined, will be made Friday. The Council, sitting as the Street Committee, will be interviewed by George I. Warren, chairman; Frank Higgins, K. C.; J. C. M. Keith, George Stott, D. R. Fennell, W. A. Aldritt and A. Baker.

The scheme which they have to present to the Council, the chairman of the delegation claims, is feasible in every way and would be entirely self-supporting. A salt water swimming tank, he declares, is one great essential feature lacking both from a tourist and residential point of view in a city which is famous as a swimming center. The aquatic attractions of Victoria, he declares, are among its greatest assets, but as soon as the Gorge becomes too chilly for the average swimmer, there is no tank in the city available.

**NOMINATIONS FOR SOCCER PRESIDENT**

Three Names Submitted to League Meeting Last Night

The name of J. F. Mesher, the present vice-president, T. Bradley and Jimmy Adams, were put forward at the meeting of the Victoria and District Soccer League last night for the position of president vacated by W. H. Hadley. The names will be voted upon at the next meeting.

Games will start at 2.30 Saturday, and will be as follows:

- K. of C. v. Wards, upper pitch, Beacon Hill. Referee, Pearson.
- Army and Navy v. Yarrows, at Work Point. Referee, Duggan.
- Foundation v. Harbor Marine, at Royal Athletic Park. Referee, Jones.
- West v. Comrades, at Central Park. Referee, Payne.
- Great War Vets, a bye.
- Intermediate.

Metropolis v. Wests, at Jubilee, Referee, Oliver.

Army and Navy v. Fragment, Beacon Hill, lower pitch. Referee, Locke.

Postal Service, Saanich Rovers, at Willows. Referee, Horan.

Yarrows, a bye.

Sedger, of the Harbor Marine, upon apologizing to the referee was let off with a censure for his heated remarks during the game against the Foundation.

**Mariners Strengthened.**

Two transfers from Yarrows were sought, but being out of order were not passed. Ord sought a transfer to the Harbor Marine and Merfield to the Army and Navy Veterans. Charlie Brown was transferred from Yarrows to the Harbor Marine. Mc-Gimpsey of the G. W. V. A. was transferred to the Harbor Marine. Quinn was granted a transfer from the Metropolis to the Wests intermediate, and Rickerson from the K. of C. to the Metropolis intermediate.

New Year's Day was chosen for the game between the Foundation and the North Ward, on which the B. C. F. A. recently made a ruling.

The advisability of joining with the newly formed B. C. F. A. was endorsed, and it was recommended that Mr. Burnip, of Nanaimo, should be elected to the vice-presidency. Arthur Manson was chosen councillor for the lower Island district on the new body.

**Christmas Day Game.**

It was decided to play a game on Christmas Day between a native sons' eleven and old country members of the association. The K. of C. were given permission to play at Ladysmith Sunday, and the Comrades to play at Seattle eleven. The Comrades will cross to the Sound City for the game.

**BETTING NOW EVEN FOR CARPENTIER-BECKETT**

Paris, Dec. 3.—Betting on the Stock Exchange on the boxing match at London to-morrow between Georges Carpentier, the French heavyweight, and Joe Beckett, the English boxer, is at even money, the abundance of French money forcing the odds down from 7 to 5. Carpentier probably will be the favorite in the betting when the men enter the ring.

**Huddersfield Eleven Transfer to Leeds**

London, Dec. 3.—Money not being forthcoming to secure their remaining at Huddersfield, the second league football club of Huddersfield Town has definitely resolved, with permission of the league committee, to transfer to Leeds, to take the place of Leeds City, now disbanded. The league committee decision is due next week.

**CIVIL SERVANTS OPPOSE NEW SCALE**

Would Agree to Commissioner's Schedule With Bonus Added

Disatisfaction with the salary schedule drawn up by Civil Service Commissioner MacInnes, also with the suggested grading and salaries of their own committee appointed to make recommendations to the Commissioner in drawing up his new schedule were freely expressed at a meeting of the Provincial Civil Servants' Association, held at the First Baptist Church last night. The outcome of the meeting was that a committee of twenty-five was named, which, with the provincial committee will wait upon the Executive Council and press for the putting into effect of the salaries recommended by Mr. MacInnes with the addition of the bonuses submitted by the committee.

The Civil Service Commissioner, it was declared, had not met the present-day condition with the elastic bonus which they had been led to believe they would receive. The bonus which the committee recommended was as follows: For householders, \$2,100 and over per annum, \$10 per month; \$1,500 to \$2,100 per annum, \$15 per month; up to \$1,500 per annum, \$20 per month.

Non-householders: Up to \$1,500 per annum \$5 per month. The meeting was called by petition to discuss the salary schedule handed down by the Commission, and there were over a hundred and fifty members of the Association present. A. B. McNeill, president, was in the chair, but to present the report of the committee, vacated the chairmanship for the vice-president, Arthur Manson.

**Fire of Criticism.**

For two hours the report of the committee was subject to a fire of criticism. Mr. McNeill stated that the committee had been guided in their work by the Civil Service Act which stated that what salaries could be paid for different branches in the civil service, and for this reason they had met the abnormal conditions by the addition of a bonus. In grading the civil servants the committee has been confronted with many difficulties, among which was a lack of information. Blank forms were sent out but a great many of the civil service employees did not fill them in and return them. In most instances they were supplied with the information. They had, however, no assistance from the Lands Department, and only a short time to gather the information from the Attorney-General's Department. In such instance, Mr. McNeill pointed out, they had graded the position, and not the individual. The Civil Service Commissioner, had intimated that there would be a salary and a bonus and had asked if the employees would divide the two. The committee thought, however, that that decision was up to Mr. MacInnes, said Mr. McNeill.

**Says Committee Fell Down**

Mr. Stokes remarked that Mr. MacInnes had stated that there would be a series of group exams, and that he was going to interview the heads of each department, and the employees to ascertain what work the civil service employees were doing. He had also promised an elastic bonus but the speaker failed to discover where these ideas had been carried out. When the committee was appointed, he stated, it was not anticipated that they would take upon themselves the enormous task of re-grading the civil service. The committee had fallen down in their attempt to do something impossible. They said they had to follow the Civil Service Act, but the conditions of the act were impossible. The salaries, it was stated, were graded according to normal times, but there was no such thing as "normal times."

"We want a fair day's pay for a fair day's work. A bonus is very problematical. The trouble seems to be that the committee in their anxiety to get something have tried to force the hand of the civil servant into the government glove. In some instances they had even gone so far as to suggest a reduction in salary." Asked to state a case Mr. Stokes referred to a case in the Land Department, where he said the committee had recommended a cut in salary from \$145 to \$125.

Mr. Wright supplemented Mr. McNeill's remarks on the report of the committee.

**Salaries Reduced.**

Mr. Bamford said he knew of several instances where salaries had been reduced. He, himself, he said was reduced \$10 by the committee's schedule, but was increased by the Commissioner. "I have more to thank the Commissioner for than I have the Association," he said. "The committee recommended that one gentleman should have his salary decreased \$70 and another \$30. There were other instances too, and one was a returned soldier." Mr. Wright rose to make an explanation as Mr. Bamford was speaking, and was greeted with remarks "Wait a minute!" "Sit down!"

**Admits Decreases.**

In some instances Mr. McKenzie admitted it was true that a decrease in salary had been recommended, but they wanted to place before the Civil Service Commission such a scheme as would meet with general approval. In ninety-five per cent of the cases the salary was higher than that recommended by Mr. MacInnes. It was pointed out by Mr. McNeill that where a reduction of \$70 a month had been suggested it was in

the case of a man who would probably soon retire from the service, in which he had served so many years and who was now holding a far less important position than that which he formerly held. He guaranteed that if the present occupant of the position were to leave the new man appointed would receive far less than the committee suggested. As he had previously pointed out, they had re-graded the position and not the individual.

The proposer of a vote of thanks to the committee for its work remarked: "What we have to consider is, is MacInnes a capable man for the job? Is he capable of grading the civil servants? It is not a one-man job. It is a job that should be handled by three men. No one man could grade each individual in the civil service."

The following committee was named to meet the Cabinet and urge that the remuneration to be paid be the committee's bonuses added to the salaries as fixed by the Civil Service Commissioner: Messrs. Valence, Loveland, Stokes, Hoy, Bamford, Barton, Walker, Briggs, Bridge, Cashmore, Barclay, Hiral, Selby, Waterson, Bonavia, Jones, Howard, McNeill, Edwardson, Flimer, Wright and McKensie, and the Misses Kenney, Russell and Taylor.

**LETTERS**

Letters addressed to the Editor and intended for publication must be short, and legibly written. The longer an article the shorter the chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the owner wishes. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for MSS. submitted to the Editor.

**WHAT THEY FOUGHT FOR**

To the Editor—It has been said, "You can tell what the men fought for by what they demand when they come back." Now this applies to those who fought at home as well as those who fought at the front. For my part I fought and still fight for justice and peace.

Now the spirit of France, as I see it, from the returned citizen's point of view, is "One for all and all for one." I am sure that I am not the only one who has had the shock (not shell shock) of their lives to come back and find a large number of people at home following the "all for one" and not the "one for all" part, which is the most important.

A Hun and a profiteer both look alike to me. Both are extremely selfish. Because the war is over it is no reason why we should cease to do our duty and rid the country of selfish men, beginning with ourselves first. We can only do this by following the motto "For us and not for profit," and at the same time striving to be worthy of the name of Christians. It is not what we profess but what we practice that makes us such.

T. F. BAXTER,  
631 Superior Street, Victoria, B.C.,  
December 2, 1919.

**THE GRATUITY.**

To the Editor—With reference to the letter appearing in your Monday's issue re the \$2,000 bonus. The writer evidently proffers what appears to be a very sane and workable idea.

I agree with him in stating that the returned man who is worthy of the name of a Canadian, does not ask for charity, and I would go further and say that the bonus should not be regarded as recognition for services rendered.

There must be many a man who found himself in the front, and who was his junior, now holds a higher position, and he has had to take up his job at the place where he left off, and the former junior man is now earning a year more than he is. One cannot blame the employer, that the returned man is two or three hundred dollars behind in wages as each year goes by. If the junior has had the training naturally the employer will have to restate the returned man in his former position until he has qualified for a higher job. Therefore, who can the returned man look to for recompense? The only logical answer is the government that employed him for the past five years at the low rate of a \$1.10 per day.

The people agree, and the government agrees, that he should be reimbursed for his loss, therefore why not along lines as suggested by the previous winter on a system of deferred payments extending over a long period.

I find that people are regarding our gratuity as a "lump sum" that we can bank, but when I tell you that since I arrived back here in September last I have spent nearly two hundred dollars on living and clothing and running around to try and locate land, and have no land or even a job yet, one can see that it doesn't make such a nice little nest egg as one imagines.

The net result of my few years overseas is one suit, cap and pair of boots, and a few other odds and ends of wearing apparel (which I was not able to buy out of thirty-five dollars even down Johnson Street), a partial disability, a debit balance of about \$50 (over payment in England), \$220 still to come in gratuity and no job, and I am only one of many.

I can't take up land because by now I have spent most of what I might have had for the 10 per cent payment. I can't get work—there isn't any.

I can't go into a business venture; I haven't the money. If I could get hold of \$500 I could go into a profession that will provide me with a living. I realize that the Government is not dismissing the matter lightly.

I believe they want to do justice to the men, but while they are fiddling, Rome is burning, and some of my comrades are getting in a very precarious state.

Let the Government get busy with some sort of a loan scheme, and do it now, while the men have still a little out of their gratuity to help swell the funds. While the men are living on their gratuity they are not producing, and are of no use to the country, but give us a helping hand, and let us establish ourselves in various ways, and I for one, will show you how to become a respectable producing citizen once again.

I am sure that this is the wish of our people. God grant that ways and means can be found to further it. Give us the means to make good, and we will never ask charity.

**BOYS' INDUSTRIAL SCHOOL.**

To the Editor—It is with undisguised feelings of shame and regret that I as a mother read the comments of the Hon. Mr. Justice Gregory on the state of affairs at the Boys' Industrial Home, Point Grey, and also the Children's Aid Society, both institutions as conducted in the past and up-to-date are a disgrace to civilization.

Although His Lordship declines to lay the blame on the shoulders of any

particular Government or member of such Governments; the fact remains the Government was cognizant of the state of affairs, they being informed by a former grand jury a year or so ago, yet apparently nothing has been done to alleviate the sufferings of these poor children, who are inmates of this institution.

In nine cases out of ten the children are not vicious, naturally, but by neglect, or circumstances, are left to fight their way through life as best they may. His Lordship's remarks upon this subject should be applauded by all right-thinking people.

I only wish that His Lordship had power to punish those responsible for the horrible state of affairs in the home as reported by the grand jury. To think that these fatherless and motherless waifs and strays should go without proper food and clothing as described by His Lordship is revolting in the extreme.

How would it do for the Government, if it really has no funds, to have a Provincial "Tag Day?" I notice many "tag days" are held in Victoria for charities outside the Province. "Charity begins at home." Even in Victoria the result of a "tag day" is over \$1,000. This in itself would purchase many of the badly needed necessities for these homes. If a "tag day" were held throughout British Columbia, I ven-

ture to say the results would be such that the poor members of our Government might rest comfortably in their beds at least for a while and would not be called upon to give a single copper of their hard earned salaries. What about the Child Welfare Society? Are they sleeping? And the many so-called Christian churches in the Province. What have they to say about it?

Why if all denominations got together and called a public meeting, it would awaken the public to a sense of what is going on and urge them to see that these poor unfortunate children get what is their right.

There is a society for the prevention of cruelty to animals, why not appeal to this society to try to alleviate the sufferings of these human beings? It is a pretty state of affairs when children of tender years have to be sent to penitentiary to mix with the criminal class so that they may be kept clean and free from vermin and have enough to eat.

We surely cannot expect to turn out respectable citizens from such a nest as the industrial school at Point Grey appears to be. Admitting that the buildings are not up to date, still this does not excuse those in charge of the institution for the filthy state of the inmates whose bodies were vermin-infested as described by the report of the grand jury to His Lordship. It seems incredible that such

a state of affairs should exist in our midst.

In conclusion I suggest that the churches get together and denounce the powers responsible for not using more discretion in choosing persons for the office of warden or matron. Let them remember our Saviour's words: "Suffer the children to come unto me." He did not say "Suffer the self righteous with a good-faith purpose to come unto me."

### MAY BUILD SHIPS ON LOAN BASIS

#### D. O. Cameron Speaks of Plans of Company to Construct Vessels

When questioned this morning relative to a Vancouver dispatch which attributed to J. O. Cameron a statement to the effect that his firm contemplated the construction of five wooden sailing vessels in Victoria, D. O. Cameron, of the Cameron Lumber Company, stated that his brother doubtless referred to the plan as outlined before Sir Henry Drayton recently, when the question of Government assistance to revivify shipbuilding was discussed with the Minister of Finance by a delegation comprised of influential citizens.

"The statement undoubtedly refers to the proposals submitted to Sir Henry Drayton," said Mr. Cameron, "as it would be impossible for us to build ships without some form of Government assistance. If assistance in the shape of a loan is forthcoming we are always prepared to go ahead and do something on the right basis."

When the shipbuilding delegation met the Finance Minister here it was proposed by J. O. Cameron, president of the Cameron Lumber Company, eminent assistance, and Captain H. C. Hansen proposed to build three vessels. The following is the statement accredited to J. O. Cameron in Vancouver:

"We are working now on the plans for the building of these ships, and expect to have the orders placed within a few weeks," said Mr. Cameron to-night.

"The company is placing the order because of the demand from abroad for British Columbia lumber and the fact that it is impossible to get the tonnage in sailing ships for this work. In comparison to their numbers the sailing ships were hardest hit by the war, their losses being very great, and the consequence now is that the mills cannot secure the ships necessary to carry the lumber to foreign buyers."

"We expect also that the placing of the order this winter will take much time and will employ the men who have become skilled at this work in the last few months."

**ANCIENT CRAFT IS RAISED AT TORONTO**

Toronto, Dec. 2.—After twelve days of steady effort by thirty-two men working night and day, the raising of the Canada Steamship Company's vessel Chicora, which sank over a month ago at her moorings at the foot of Cherry Street in the harbor here, has been completed and the old vessel is once more afloat at the National Iron Company's dock.

The Chicora is an ancient side-wheeler which in the more palmy days of her eventful career was used in the American civil war as a blockade-runner. She was formerly owned and operated by the Niagara Navigation Company.

#### Delivery of Nouvelle Ecosse Marks Completion of Foundation Contract

The running of the official trials of the wooden steamship Nouvelle Ecosse this forenoon marks the completion of the Foundation contract embracing the construction of twenty 3,000-ton wooden steamships for the Republic of France.

The trial of the Nouvelle Ecosse proved entirely satisfactory and the experts aboard her expressed themselves as well pleased with her performance. Edward E. Jenkins, local manager of the Foundation Company; George H. Wayland, superintendent at Ogden Point, and Emile E. Triqueaux, representative of the French High Commission, were among those who went out on the French ship.

For the combined six runs over the Parry Bay course the Nouvelle Ecosse set up a general average of 12.42 knots.

The steamer was in charge of Captain T. J. Jackman, port captain, and Pilot W. H. Whiteley.

The vessels built here by the Foundation Company have averaged 12½ knots or 1¼ knots better than the contract speed. The Ogden Point outfitting plant has equipped and turned out the ships at the rate of one a week. In slightly over a year the company has built and delivered twenty full-powered wooden vessels, a record that has never been approached by any other yard in the country.

With the delivery of the Nouvelle Ecosse the operations of the Foundation Company incident to the French contract will be brought to a close. At the peak of the contract 4,500 men were employed at a monthly payroll of over \$600,000. With the exception of various units of the plant, owned by the French Government, which are being shipped to France on the steamer General Paul, the construction and outfitting plant here, one of the most up-to-date of its kind, remains intact, ready for further business.

**SUGAR FROM PERU REACHES VANCOUVER**

With 2,300 tons of sugar aboard for the Vancouver refinery the American wooden steamer Joan of Arc passed up the Gulf last night from Salaverry, Peru. She is owned by the Rolph interests of San Francisco.

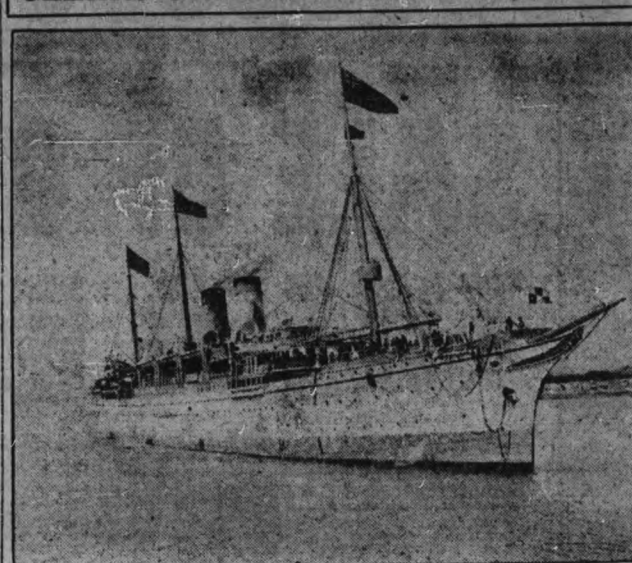

**MAKURA DUE HERE FROM AUSTRALASIA ON DECEMBER 12**

The Canadian-Australasian liner Makura, Captain Robert Crawford, which sailed from Auckland November 24, is due to reach Victoria December 12.

**TANKER ARRIVES.**

The British tanker El Lobo passed up the Gulf this morning with oil for Vancouver.

### CLEAR ORIENT WITH FULL CABINS

C. P. O. S. LINER EMPRESS OF JAPAN

Which sailed from Yokohama November 28 with 130 saloon passengers for Victoria and Vancouver. The liner is expected to reach this port December 10. She has fifty-five Chinese steerage passengers for disembarkation here.

### ASK EXCLUSION OF JAPANESE FISHERS YARDS RESUME ON OPEN SHOP BASIS

The Fraser River Association Would Reserve Fishing For White Men and Indians

San Francisco, Dec. 3.—Shipyard and metal trades plants of the San Francisco Bay district will release advertisements Friday in leading industrial centres of the United States, offering permanent positions for mechanics here to replace those who went out on strike October 1, it was announced by the California Metal Trades Association.

The shipyard, foundries and other plants belonging to the association, re-opened a fortnight ago on an open shop basis, and figures given out by its officials indicate that about one-third as many men were employed as before the strike.

**Strike Settled.**

St. John, N. B., Dec. 2.—The strike of freight handlers at the port of St. John, has been settled, the strikers last night accepting an offer of the C. P. R. of fifty-three cents an hour, subject, however, to a decision of a conciliation board on the rates of 53 cents and 62½ cents an hour, the former the compromise offer of the company and the latter the lowest offer of the men. The original offer of the company was 48, while the men went out for 65. In the meantime the men will return to work.

**U. S. SHIPPING BOARD AND ORIENT TRADE**

Washington, Dec. 2.—Because of the shortage of passenger vessels and the fact that the refitting of the former German liners will require three months, it will be some time before any new passenger lines can be established between the Pacific Coast and the Orient, Chairman Payne, of the Shipping Board, told a delegation of Pacific Coast shipping and business men to-day. He said, however, the Board would bend every effort to relieve the situation as quickly as possible.

Charles G. Moore, of San Francisco, chairman of the delegation, told Mr. Payne that American trade with the Orient was three times as great as that with South America and that American business was greatly handicapped by the lack of passenger facilities. Practically all the passenger traffic to the Orient is handled by foreign shipping companies, he said.

**The Plague of Pimples**

Body Covered With Them

The primary cause of pimples arises from the blood not being in a good condition. When the blood becomes impure you will find that pimples will break out all over the body, but more particularly on the forehead, nose and chin, and although they are not a dangerous trouble they are very unsightly. What you need when pimples or boils break out is a real good blood purifying medicine such as Burdock Blood Bitters. This preparation has been on the market for over forty years and is the most reliable remedy for all troubles arising from a bad condition of the blood. It removes all the impurities from the system, and will leave a clear, healthy skin.

Mr. Emerson G. Goodwin, Cambridge, N.B., writes:—"For nearly two years I suffered from boils and pimples on my face and neck, and nearly all of my body was covered with the pimples. I tried most everything, but got no relief. One day a friend advised me to try Burdock Blood Bitters, and after using three bottles the pimples and boils had all left me and there is no sign of them returning. I can strongly recommend B. B. to anyone who is troubled with skin disease." Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

### BRITISH COLUMBIA COAL FOR SEATTLE

#### Eight Thousand Tons Shipped From Vancouver Island Weekly

Seattle, Dec. 2.—Helping to keep the home fires burning in Seattle, the tug Oregon and Equator, of the Cary-Davis Towing Company, are towing an average of 8,000 tons of coal a week from Union Bay, B. C., to Elliott Bay, bringing the fuel on barges. Each tug handles two barges with a capacity of 2,000 tons each.

The towing company has been operating the Equator in the coal movement from Union Bay to Seattle for several months. The Oregon, which was withdrawn from general operation in the Fall for conversion into an oil burner at the plant of the Maritime Boat & Engine Works, returned to service last week on coal routes.

The Oregon and the Equator average a round trip a week each under the present schedule, giving one of the heaviest services handled by any Puget Sound towboat now bringing fuel to the ports of the inland sea.

### BIG LUMBER ORDER IS LARGELY FILLED

#### Fifteen Ocean Bottoms Loaded With B. C. Lumber in November

Fifteen deep-water ships, were loaded in November with British Columbia lumber at the order of the Associated Timber Exporters, an organization formed some months ago to handle an order of 70,000,000 feet of lumber for the British Government, fifty million feet of the mammoth order have already been shipped to the United Kingdom.

The Associated Timber Exporters is now loading three ships, one for the United Kingdom, one for South Africa and one for Australia. The ships loaded by the organization last month included several of the 3,000-ton French wooden steamships built here by the Foundation Company of British Columbia, Ltd.

Several other locally-built French ships are due to go on berth this month. The Canadian Government steamship Canadian Raider, which is to be launched at the Wallace yards in Vancouver on Saturday, will be loaded with lumber for Australia.

The Blue Funnel freighter Eurydamas will load 1,500,000 feet for the United Kingdom.

### WOMEN IN BUSINESS

Woman's power in America is well illustrated by the thousands of women who entered almost every line of business to replace men who were drafted during the war. Health proved their strongest asset. Many women, however, developed weak nervous conditions and could not stand the strain of a business life. Such women should remember there is one tried and true remedy in Lydia E. Pinkham's Vegetable Compound, which for forty-five years has been proving health and strength to the women of America.

### NORSE SCHOONER GOES TO EVERETT

#### Vancouver Is Last of Three Vessels Built by Cholberg Ship Company

With the Norwegian flag fluttering in the breeze from the peak of her mast, the four-masted, 1,500-ton Norse schooner Vancouver, in tow of the tug Daniel Kern, left the Cholberg plant in the Inner Harbor about noon to-day for Everett, where she will load a cargo of poles for Buenos Ayres.

The Vancouver is the last of three wooden schooners built here by the Cholberg Ship Company for operation under the Norwegian flag and is owned by Captain H. C. Hansen, shipowner, of Porsgrund, Norway. The three vessels represent the finest type of wooden construction. The first of the type to be turned out by the Cholberg yard was the schooner Gunn which is now in European waters. The Washington, the second vessel to be completed, is also on her homeward voyage. With the departure of the Vancouver the Cholberg yard has been closed down pending the awarding of further contracts.

The Vancouver has been chartered by the Universal Shipping and Trading Company, of Seattle, and will immediately go on berth at Everett to take on her cargo for the Argentine.

Captain C. T. Larson, a Norwegian shipmaster, went out in command of the Vancouver.

### DOMINION LINE TO BE ENLARGED

#### Canadian Merchant Service Guild Petitions Government to Operate Fast Boats

In an effort to induce the Dominion Government to inaugurate at some future date the establishment of a service of first class passenger boats between British Columbia and California ports the local branch of the Canadian Merchant Service Guild has forwarded the following resolution to Hon. C. C. Ballantyne, Minister of Marine:

"We the Canadian Merchant Service Guild, incorporated, would hereby beg and petition:

"That you place in service a direct line of first class passenger steamers between the ports of Victoria, Vancouver and San Francisco. During the past we have served with a line of second-rate boats which gave, at the best, a poor service, although we believed, they were under Canadian Government subsidy, while they were under the flag of the United States. This line has been withdrawn and the ports of Victoria and Vancouver are left without any direct service.

"We believe that in making this petition we are arriving at and advocating a development of national interest and in doing so we fully recognize the grand commencement you have made in creating a national mercantile marine.

"We now consider the time has arrived, when we should not have to depend solely on foreign tonnage for our transportation of passengers, mail and freight."

**From Out of the Night You Hear the Cry:**

**"Oh! Why Can't I Get to Sleep?"**

Thousands of people all over the country ask this question, but still continue to toss, night after night, on sleepless beds, or walk the bedroom floor until near dawn. Their eyes do not close in the sweet and refreshing repose that comes to those whose heart and nerves are right. Worry or disease has so debilitated and irritated the nervous system that it cannot be quieted. Or, again, there is palpitation of the heart, the sleep is broken by terrible dreams, you wake up with smothering spells, sinking sensations and a fear of impending death.

To be able to lie down at night and in a few minutes fall asleep—to know no dream or waking until morning—then to bound out of bed full of vigor, freshness and good spirits, ready for each and every duty the day may demand, is a blessing that can be easily achieved by using

"Turn to the Right," the New York comedy of a couple of years ago, which was presented to Victoria at the Chattrouga last summer, was given by the members of the Young People's Dramatic Club of the First Congregational Church last night. The play was staged with quite a bit of skill, and much enjoyed by the audience. Those in the cast were: H. E. Morris, the Rev. W. D. Spence, S. Girling, B. Lock, Miss Mary Sibbald, Miss Kate Simpson, Mrs. Curtis, J. Girling, A. Crawshaw, H. Shepherd, W. Hadfield and Jean Stevenson.

The play will be presented again to-night at 8:15 o'clock in the Congregational Church club room.

**OIL CASE DISMISSED**

Judge Lampman Does Not Hold City Responsible For Damage Clothing.

His Honor Judge Lampman, in the County Court yesterday, dismissed the action brought against the City of Victoria by W. H. Davies, of Forbes Street, for damage to his clothing and person sustained in falling from his bicycle while riding at the corner of Fernwood Road and Bay Street. He claimed negligence by the corporation through leaving the street in a dangerous condition—oil but not sanded.

His Honor in delivering judgment stated that the plaintiff had failed to prove negligence. One of the arguments used by the plaintiff was to the effect that the oil was not visible on the surface of the road. His Honor's reply to this was as follows:

"People traveling the streets should keep their eyes open or otherwise they are a menace. I think that the man of ordinary care and skill would not have made the turn in ignorance of the oil being on the strip to the right."

H. S. Pringle, city solicitor, represented the city, and F. Higgins, K.C., appeared for the plaintiff.

**TO TAKE UP AGAIN MUNN PROPERTY CASE FOR BRIDGE**

**Needed Lot at Foot of Johnson Street Causes Trouble For City**

As the city is practically ready to go ahead with the Johnson Street bridge, Mayor Porter informed the aldermen Monday night that they would soon have to take up the question of the Munn property at the waterfront end of Johnson Street.

"Not just yet," remarked Alderman Fullerton.

Former City Solicitor Hannington, just before he left the city's service, set out in full the situation regarding this property and his statement is to come before the aldermen at an early meeting.

"The whole of this lot, I understand will be required for the bridge," Mr. Hannington states, stating that there are difficulties about the title. "I suggested that Mrs. Munn should obtain a certificate of indefeasible title before being paid the purchase price. Mr. Munn contended that when the city took an option on the property several years ago, it agreed to accept title such as Mrs. Munn actually possessed.

"The west portion of this lot since 1862 has been registered in the name of James Tilton and Hansen Tilton, subject to a mortgage to George Hills, formerly Bishop of Columbia. I understand that both the Tiltons and Bishop Hills have long since died.

Valued at \$46,500.

"Mr. Munn's recollection is that the arbitrators acting under the Provincial Government expropriation of this property in 1916, awarded Mrs. Munn approximately \$46,500 for the west portion of this lot. He expresses the view that the city should pay him the same amount and suggests that he should receive interest from the date of the award.

"However, the whole arbitration proceedings have apparently been repudiated by the present Provincial Government and the Attorney-General has refused Mrs. Munn a fiat to have the question determined by the courts.

"Under these circumstances the city should acquire title by means of a quit claim from Mrs. Munn coupled with a quit claim from the Provincial Government disclaiming, in her favor, all right to the purchase money to be paid by the city.

"It is most unfortunate that the title to this particular lot is so complicated, as it appears to be, not only with respect to the limits of the two portions but also with respect to the foreshore rights, and the arbitration proceedings with the Provincial Government."

**VICTORIA GREETED NEW S. A. CHIEF**

Commissioner Eadie Raised First Money for Western Canada Work

Commissioner William Eadie, the new chief of the Salvation Army in Western Canada, and his wife, who was one of the original squad of four slummers who started rescue work in London in 1882, were welcomed to Victoria last night by Mayor Porter at an enthusiastic demonstration at the Salvation Army Citadel.

The Commissioner told how he came to Canada first in 1884, when Indians were really dangerous and such things as the Riel Rebellion were going on.

"In 1885 I raised in Kingston district the money which enabled the Salvation Army to send workers to Winnipeg and start the work there," said the Commissioner. "We called it bombarding in those days, and I want to tell you what I am here for now. I am come to collect the interest on the \$50 those good people invested so long ago. I am not looking for it in dollars and cents. I want to collect payment in the living souls of living men and women wearing the Salvation Army uniform. There nothing like it. Presbyterian and Methodist alike salute it."

"As one in a position to see what is being done in this city I must say that scarcely a day passes but some case of good done by the Salvation Army comes to my knowledge," said Mayor Porter. "It is my sincere wish that as great success will mark the Army's undertakings in the coming years. I feel it a duty as Mayor of this city to invite Commissioner Eadie to again speak in Victoria, as he would have no difficulty in filling the largest hall in the city."

The Rev. Dr. W. Leslie Clay, representing the Victoria Ministerial Association, Col. W. J. B. Turner, of the Western Division of the Salvation Army, and George Bell, M.P.P., also spoke.

**DISTRESS IN THIS FAMILY EXCEPT FOR ROTARY TREE FUND**

**No Toys Nor Christmas Cheer For Kiddies Unless Victorians Subscribe**

"Mummy I want the red soldiers!" "I want the big doll, mummy!" "Can I have the train that goes round, mummy?"

Three ager little faces were pressed tight against the panes of the big windows of one of the city's largest stores, and three pairs of eyes were gazing in childish awe at the brilliant collection of toys inside. The poorly-dressed woman of whom these prying questions and many others such were asked said nothing. Judging by her appearance and the thin little faces of her kiddies the family would be lucky if there were sufficient food and fuel at home at Christmas. There would certainly be no toys. Christmas Day would be just another one in the daily round, made bitter by comparison with abundance and luxury in so many other homes.

These probably were the thoughts of the poor woman, and to hide them from the kiddies she gruffly ordered them to "come along." These things are not for "the like of us."

That was just one of the hundreds of families that may spend this Christmas in distress, just one of the cases which the Rotary Christmas Tree Fund will help with useful gifts and sensible cheer. There will be toys for those kiddies, and what is more important clothes and good food. Their Christmas will be as happy as the more fortunate people of Victoria choose to make it by subscribing to the fund either through The Colonist or Times business offices.

**ARION CLUB CONCERT NEXT WEDNESDAY**

**Veteran Male Voice Choir to Open 28th Season; Big Programme**

On Wednesday, December 10, at the Empress Hotel ballroom, the Arion Club will open its twenty-eighth season with a programme of exceptional merit, comprising some old favorite numbers as well as new numbers never before presented by the club. Many new-comers to the city, who are music lovers have not had an opportunity to hear this Veteran Club, nor is the nature of the club known to these new residents.

The soloists for this concert will be the ever popular local singer, Mrs. Jesse Longfield, who will sing a group of three songs and Miss Eleanor Barfoot, L.R.A.M., Miss Barfoot will associate harpist of Trinity College, London, and will play "La Danse des Fees" (Parish Alvars) as a harp solo. The members of the club are looking forward with keen anticipation to this number as it is many years since a harp has been heard at an Arion Concert.

**WILL GIVE LECTURES**

Lieut. J. B. Clearihue Will Deliver Forty Talks on Important Topics.

A remarkable series of forty lectures on business economics and political science has been arranged by the educational committee of the Y. M. C. A. Lieut. Joseph B. Clearihue, M. C., A. B., C. L., who has achieved a great scholastic record, will deliver the lectures. The first lecture will be given this evening in the Y. M. C. A. The business economic classes will be held on Wednesday evenings at 7:30 o'clock and the political science students will convene on Saturdays at the same hour.

Some of the topics to be discussed by Lieut. Clearihue are as follows: Capital and Labor, Theory of Money, Banking Systems, Stock Exchange, Methods of Taxation, Canadian Tariff, Socialism, Various Forms of Government, Review of Canadian Politics, Referendum and Direct Legislation, Election Reform, Senate Reform, The League of Nations, The Irish Problem, and variety of other topics of national everyday importance.

Lieut. Clearihue is eminently qualified to handle these courses as he is a graduate of McGill, with first-class honors in economics and political science. As a Rhodes scholar he received his M. A. and B. C. L., in law from Oxford. He also studied at the London School of Economics and the Geneva University, Switzerland.

**TO DISCUSS GRATUITY**

Mass Meetings of Returned Soldiers to Be Held Throughout Province on December 12.

Arrangements have been made to hold mass meetings of returned soldiers throughout the province on December 12 to discuss the gratuity question. This announcement was made at the regular meeting of the G. W. V. A. last evening, and is the outcome of the meeting held several weeks ago in the Armories to devise some means of securing a united effort in the province to press for further gratuity.

The veterans endorsed the resolution forwarded from the Amputation Club requesting that limless men be

**The gift of perpetual fascination**

Good silverware grows old gracefully; it constantly reminds one of the giver, and never fails to command admiration.

That all who give may know good silverware, the trade mark "1847 Rogers Bros." is placed on every piece of the genuine 1847 Rogers Bros. Silverware. With silverware in greater demand now than ever, it is vitally important that you be sure you have the silverplate which has given lasting satisfaction for seventy years. Look for the trade mark.

Several very attractive patterns may be seen at leading dealers. Make your selection early.

given preference as far as possible in Government employment. The veterans added a clause to the resolution asking that dependents of ex-service men be accorded vocational training under the S. C. R., and also privileges of employment were possible.

The veterans will hold a special meeting on Friday night at 8 o'clock to nominate candidates to contest the aldermanic seats in the forthcoming municipal elections.

The resolution forwarded by the Canadian Merchant Service Guild asking that the Government build and operate a line of passenger ships to run between Victoria, Vancouver, and San Francisco, was unanimously endorsed.

The veterans decided to support the British Campaigners' Association in its request to the City Council that returned men be employed as far as possible under the Better Housing Scheme.

M. Williams, an organizer of the Canadian Forestry Association, addressed the veterans on the question of conservation of forests.

**THE HOUSE OF QUALITY**

**NECKLETS**

For years past ours has been known as the home of the necklet. This season, although manufacturers' stocks have been low, we have been buying since early spring. The result is we are able to show as fine an assortment as ever, at prices we would not be able to duplicate this fall. These designs are from the highest class makers and are all works of art. Any stone you may wish is shown here, set singly or in cluster. Come in and examine them in diamonds, pearls, emeralds, rubies, sapphires, tourmalines, olivines, peridots, turquoises, opals, topaz, amethysts, cameos, garnets and others in semi-precious stones.

**The Quick Way to Stop a Cough**

This Home-made Syrup Does the Work in a Hurry. Easily prepared, and Saves About \$2.

You might be surprised to know that the best thing you can use for a severe cough, is a remedy which is easily prepared at home in just a few moments. It's cheap, but for prompt results it beats anything else you ever tried: it cures the ordinary cough or chest cold in 24 hours. Tastes pleasant, too—children like it—and it is pure and good.

Pour 2 1/2 ounces of Pinex (50 cents worth) in a 16-oz. bottle; then fill it up with plain granulated sugar syrup. Or use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. Thus you make 16 ounces—a family supply—but costing no more than a small bottle of ready-made cough syrup.

And as a cough medicine, there is really nothing better to be had at any price. It goes right to the spot and gives quick, lasting relief. It promptly breaks the inflamed membrane that lines the throat and air passages, stops the annoying throat tickle, loosens the phlegm, and soon your cough stops entirely. Splendid for bronchitis, croup, hoarseness and bronchial asthma.

Pinex is a highly concentrated compound of Norway pine extract, famous for its healing effect on the membranes.

To avoid disappointment ask your druggist for "2 1/2 ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.

MODERATE GAINS IN WALL STREET

Pan-American, American Lined and Wollen Strong; Rails Irregular (By Burdick Bros. & Brett, Ltd.) New York, Dec. 3.—A decidedly better tone prevailed at today's opening in the stock market with active issues opening up one to two points. Some of the oil issues and a few industrials showed their gains at mid-session. During the latter trading there was some profit taking and the market became quieter with rails and food products showing marked strength at the finish.

SETBACK TO-DAY IN CHICAGO GRAIN

(By Burdick Bros. & Brett, Ltd.) Chicago, Dec. 3.—Future prices in corn and oats started higher to-day, especially top December delivery. Pressure was exerted from the long interest, however, after the first half-hour's trading and prices declined steadily, closing near the day's low points. There was not much of a market influence, the declines in the market being more the result of profit taking and less the result of a general had gone far enough for the present.

Wants B. C. Lumber Used Largely in the United Kingdom

London, Dec. 3.—F. C. Wade, Agent-General here for British Columbia, again in a long communication to The Times, urges the adoption of wood as used in Canada to meet the house shortage in England, a problem he says which can only be solved by mass construction. He praises the virtues of wooden houses, condemning official prejudice, and maintains the ability of British Columbia to supply houses on time.

Several samples of British Columbia mill cut houses will be received in London shortly to demonstrate their excellence, he stated.

The Times, in a short leader, warmly supports Mr. Wade's policy and proposals.

**LONDON, ONTARIO, TEACHERS ASKING INCREASE OF \$500**

London, Ont., Dec. 3.—The public school teachers of London last night asked the Board of Education for an all-round increase of \$300 from January 1, and an additional increase of \$200 in 1921. Their letter stated that they were not satisfied with the increase of \$100 awarded by the Board.

**REDS' FAMILIES TO BE DEPORTED**

To Be Sent With Radicals From U. S. to Soviet Russia

New York, Dec. 3.—Families of anarchists are to be deported from the United States with them to Soviet Russia, according to a telegram received to-day by Harry Weinberger, counsel for Alex Berkman and Emma Goldman, from Anthony Caminetti, United States Commissioner-General of Immigration.

"If you represent any alien ordered deported to Russia who has a family, file your application for family to accompany such alien and the same will be given consideration," the message said. "The Government will deport them to Soviet Russia at the earliest practicable date."

To Red Guards.

Caminetti's telegram, the attorney said, also made it clear the radicals would be delivered to the Red Guards in Russia when deported and not to the hostile White Guards.

Weinberger's request for a stay of the surrender of Berkman and Goldman until Monday was refused to-day by the Department of Labor, and he said they would be surrendered at the time ordered. Berkman was expected to arrive here to-day following him. Weinberger said to-day he would institute habeas corpus proceedings in both cases immediately after they had been surrendered.

**913 Persons Have or Had Smallpox in City of Toronto**

Toronto, Dec. 3.—Hope that the smallpox wave here was steadily declining received a decided setback when fifty-seven new cases were reported in the last twenty-four hours. Since the outbreak of the epidemic, 913 persons contracted the disease. To date 395 patients have been discharged.

**BRITISH COLUMBIA'S SALMON PACK FOR YEAR SHOWS DECREASE**

Vancouver, Dec. 3.—British Columbia's total salmon pack for the past year, totalling 1,393,156 cases, according to figures issued by W. D. Burdick of the British Columbia Salmon Canniers' Association. The sockeye pack totalled \$69,445 cases, as against 276,459 last year, a gain of 32,886 cases. The red spring pack was greater this year by 7,644 cases, and bluebacks and steelheads by 12,900.

There were 14,447 cases less of pink and white springs put up this year; 15,398 less cohoes; 15,106 pinkies and 125,530 chums, or a total decline in these varieties of 336,531 cases. The total pack of salmon in 1918 was 1,616,157 cases.

There were more chums put up than any other variety, the pack totalling 372,935 cases as against 369,445 sockeyes and 346,639 cases of pinkies.

The fishing for sockeyes was best on the Skeena River, where 184,945 cases were put up. River's Inlet comes next with 66,258, while the Fraser River canneries took care of only 29,628.

Total sockeyes, 369,445 cases; red springs, 73,179; pink springs, 9,077; white springs, 18,295; bluebacks, 24,323; steelheads, 4,493; cohoes, 175,670; pinkies, 346,639; and chums, 372,935, or a total of 1,393,156 cases.

Mr. Curran is also an old employee of the C.N.R., having joined the office of the Treasurer at Toronto in 1906. He was made Assistant Paymaster, succeeding Mr. Potter, on January 1st, 1909, and takes the Paymaster's post as his immediate chief moves higher in the service.

**MAYOR TO OPPOSE MOVE FOR SECRECY**

Some Aldermen Want Legislation to Do Away With Notices of Motion

Proposals of some aldermen to keep from the public all moves planned in the City Council, until they are put through the Council, are to be resisted by Mayor Porter, he said to-day. They come up next week.

These proposals are formulated in the list of subjects that the city is proposing to have incorporated in the Victoria City Private Act to be sought at the next sitting of the Legislature. At present it is necessary for aldermen to post notices of motion twenty-four hours before a Council meeting of what they propose asking the Council to do, under section 411 of the Municipal Act.

Certain interests at the City Hall are opposed to this practice, as they claim it often causes delay in putting a measure through the Council as persons who are opposed to the measure thus learn of it, and organize opposition to it. If it were not necessary to make public proposed aldermanic moves, it is pointed out, these measures could be passed through the Council before the public would have a chance of learning what is going on.

Those who are opposed to aldermanic secrecy declare that it is only fair to the public that they should know what the aldermen are planning to put through, as secrecy is bound to result in indiscretions and the passing of impolitic measures, that might be favored by some group of aldermen, but would be against the interests of the city as a whole.

**Silver Glance.**

As a result of the deal on the Silver Glance property, in the Bear Lake section, says The Nelson News, this old property is to undergo an extensive development. The Silver Glance has been taken over on a bond from J. W. Power by Geo. Huston and Geo. T. Thayer, the former of Millan, Idaho, and the latter of Walla Walla, Wash. The property was located in 1892 and worked in a desultory way by men who were mainly interested in taking out any high grade ore left sight. The new people will place about 600 feet of new stopping ground overhead, sufficient to warrant the erection of a mill which will treat the ore by a flotation process, which uses no oil, acid or frothing and recover the silver-gold content by chemical treatment. The Silver Glance vein is in granite and is a true fissure about 25 feet in width, coursing north and south, dipping about 60 degrees to the east. Two heavy gouge seams are on foot and hanging walls, the territory between being crushed granite cemented with quartz, which carries the values.

**Trail Ore Shipments.**

Shipments of ore and concentrates received at Trail for the week ended November 14, totalled 5,593 tons, of which the Centre Star, Rossland, contributed 1,336 tons, the Emma, Eholt, 1,407 tons. The North Star, with 467 tons, and the Sullivan with 38 tons, appeared on the shipping list again for the first time since the strike organized by the I. W. W. at Kimberley. There were two new liners, the North Star, Greenwood, two tons, and the Waterloo No. 2, Edgewood.

**Oil Exploration.**

There is a persistent report from Eastern Canada to the effect that the Amalgamated Oil Company, Limited, has acquired leases on 30,000 acres in the vicinity of Sage Lake, Southeast Kootenay. The lease gives the company the right to complete possession through crown grants at a cost of \$10 to \$20 an acre. It is stated that the Amalgamated Company has leases to the Crown's Nest Oil Company, of Spokane, 4,836 acres on a royalty basis, with the option of purchase at \$500 per acre. This company already has a drill hole down 1,800 feet. Negotiations are in progress with one of the strong oil companies of the United States for the leasing of half of the remainder of the Amalgamated Company's holdings on a royalty basis, with the option of purchase at \$500 per acre.

It appears that these leases were issued by the Provincial Government several years ago, and in some cases drilling on a limited scale was undertaken. Many of the leases are in arrears in payment of fees to the Government, but action against the owners was suspended by terms of the Relief Act, which was brought into force for the duration of the war. Should the delinquent payments be made and assignment of these leases to the companies named be requested, it is probable that the request would be granted.

**Oil Flotation.**

"The great advancement in the science of ore concentration by the oil flotation process in recent years naturally revives hopes in many cases for the successful treatment of ores by flotation which had formerly proved too refractory to the older

**WOULD BRING PRIZE DAIRY HERD HERE**

The famous herd of ten registered pure bred cattle belonging to S. G. Hillier, of Holmwood Park, Vernon, may be brought to Victoria before many weeks and established on the farm up the Island between this city and Nanaimo, according to intimation Mr. Hillier made to Commissioner McAdam of the Victoria and Island Development Association.

Mr. Hillier believes that the southern part of Vancouver Island would be an ideal place for the location of his herd because of the climate, the marketing facilities and reputation that the districts adjacent to this city are building up for having the highest class dairy stock in Canada.

**GRAVITY CONCENTRATION METHODS AND TO THE EARLY UNDEVELOPED FLOTATION PROCESS.**

As good or better recovery. Fortunately a mill installation for this treatment will be cheaper and more simple in operation. Plans are now being completed for a 1,500-ton concentrator.

As examples of this process he told of the work of his company in developing low-grade gold ores of Rossland and the complex lead-zinc iron ore of Kimberley, B. C.

"During the first year efforts were directed chiefly towards the solution for iron ore and an experimental mill of 250 tons daily capacity was built and equipped with concentration machines which it was known would effect some separation and which it was hoped would successfully solve the treatment," continued the speaker.

**Sullivan Ore.**

In referring to the Sullivan ore, he explained that it was a finely crystalline complex mixture of lead, iron and zinc sulphides, carrying only three to six per cent in insolubles. From a preliminary series of laboratory tests it was discovered that a good separation of zinc could be made from the lead and iron by flotation of the ground ore after it had been roasted at such a temperature as to almost completely oxidize the lead and iron sulphides, but to oxidize only a small percentage of the zinc sulphide. He pointed out that this roasting operation was commercially practicable and had been tested and proved a very valuable asset.

In dealing with the Rossland ores he pointed out that the concentration of the low grade ores had been given a great deal of attention and that they had been converted lately from an oil process into a simple gravity-table mill.

When the Sullivan concentration problem was fairly well solved, concentration of Rossland ores was investigated by the speaker and it was found from laboratory tests that good recoveries were obtained by a combination of flotation and tabling. The ratio of concentration, however, was such as to make the advisability of this treatment questionable.

**Mill Was Available.**

"It is doubtful," he concluded, "whether this work would have to be continued had it not been for the fact that the original Sullivan experimental flotation plant was available and could fairly easily be adapted to the concentration of these ores. The mill was accordingly arranged with tables and flotation machines so that both, or flotation only, could be used. Before the completion in the changes in the table installation in this plant, operation was commenced with flotation only and from the outset as a high recovery was obtained thus as was obtained with both tables and flotation in the laboratory tests, and at the same time a much higher ratio of concentration was secured than if tables had been used."

"On completion of the table installation tests were made for periods of a few days each, using both treatments, but with no additional recovery and with a much lower concentration ratio. Careful study of the flotation condition since that time has resulted in the securing of a still higher ratio of concentration by flotation alone, still maintaining
