Finding-List of Plants at Breeze Hill Gardens

HARRISBURG, PA.

The Residence of

J. HORACE McFARLAND

**Twenty-first Street
Bellevue Road and Hillside Road**

**THE LIST OF ROSE
VARIETIES BEGINS
ON PAGE 47**

**INCLUDING TRIAL-GARDENS OF THE
J. HORACE McFARLAND COMPANY**

KEY TO PLANT SOURCES

The parentheses next to names enclose sources of plants, as noted, and dates of receipt, in figures. Some of the persons named have since deceased, and some of the firms are out of business. If known, such are indicated thus (*).

(Continued on inside back cover)

FINDING-LIST OF PLANTS AT BREEZE HILL GARDENS

THE list which follows was compiled particularly to give aid in the consideration of the flowers and plants grown at Breeze Hill for the purpose of supplementing the photographic collection of the J. Horace McFarland Company. As the collection is being constantly improved and changed it is accurate only as of June 2, 1931.

The Breeze Hill property, which includes 2.4 acres, is nearly a quarter segment of a circle, as shown by the diagram, on pages 36–37. There is a variation in elevation of approximately 15 feet on the property, from which the ground falls away gently to the north and much more sharply to the south and east. The average height is 485 feet above sea-level, or about 190 feet above the Susquehanna River at Market Street.

The old mansion house in which Mr. McFarland lives was built in 1875 as the summer home of Jacob F. Haehnlen, a Philadelphia lithographer, who was devoted to grape-growing. Much of the original farm was in vineyard, and ten bearing Concord vines known to have been planted in 1858 still exist in the little vineyard shown on the plan.

When Mr. McFarland came into possession of the property in the winter of 1908 (his occupancy beginning June 1, 1909), the place was in great disorder. There were many dead pear trees and decrepit grapevines. The two hedges of American arborvitæ, which separate the garden sections, had evidently been rudely sheared off when they were probably 10 feet high. The dominating trees were seven horse-chestnuts and a great American sycamore; hemlocks, pines, Norway spruces, and Norway maples. Of fruit trees, there remained two persimmons, two Buffum pears, and a dozen sour cherry trees. There were a few old lilacs and some old-fashioned roses.

Mr. McFarland's aim, in addition to establishing a pleasant place in which to live, has been to create pictures from and to the home, and of later years to establish a representative collection of plants worth attention. He has been particularly favored by the Arnold Arboretum, by the authorities of Highland Park, Rochester, N. Y., and by many friends in the United States, in Europe and in Australia, who have provided rare plants. The Federal Bureau of Plant Industry has been drawn upon through its Special Plant Introduction section. In the last six years much attention has been paid to the rose collection, with special emphasis on the hardy climbers. Within three years, rock and Alpine plants have had much consideration, and a large collection is to be found in the sections devoted to them.

BREEZE HILL Gardens are open to the public, within certain reasonable restrictions as to hours and convenience; a sign at the entrance will indicate when the gardens are closed. It is preferred that approach should be made through the 21st Street garden gate, avoiding the driveway and the home entrance on Bellevue

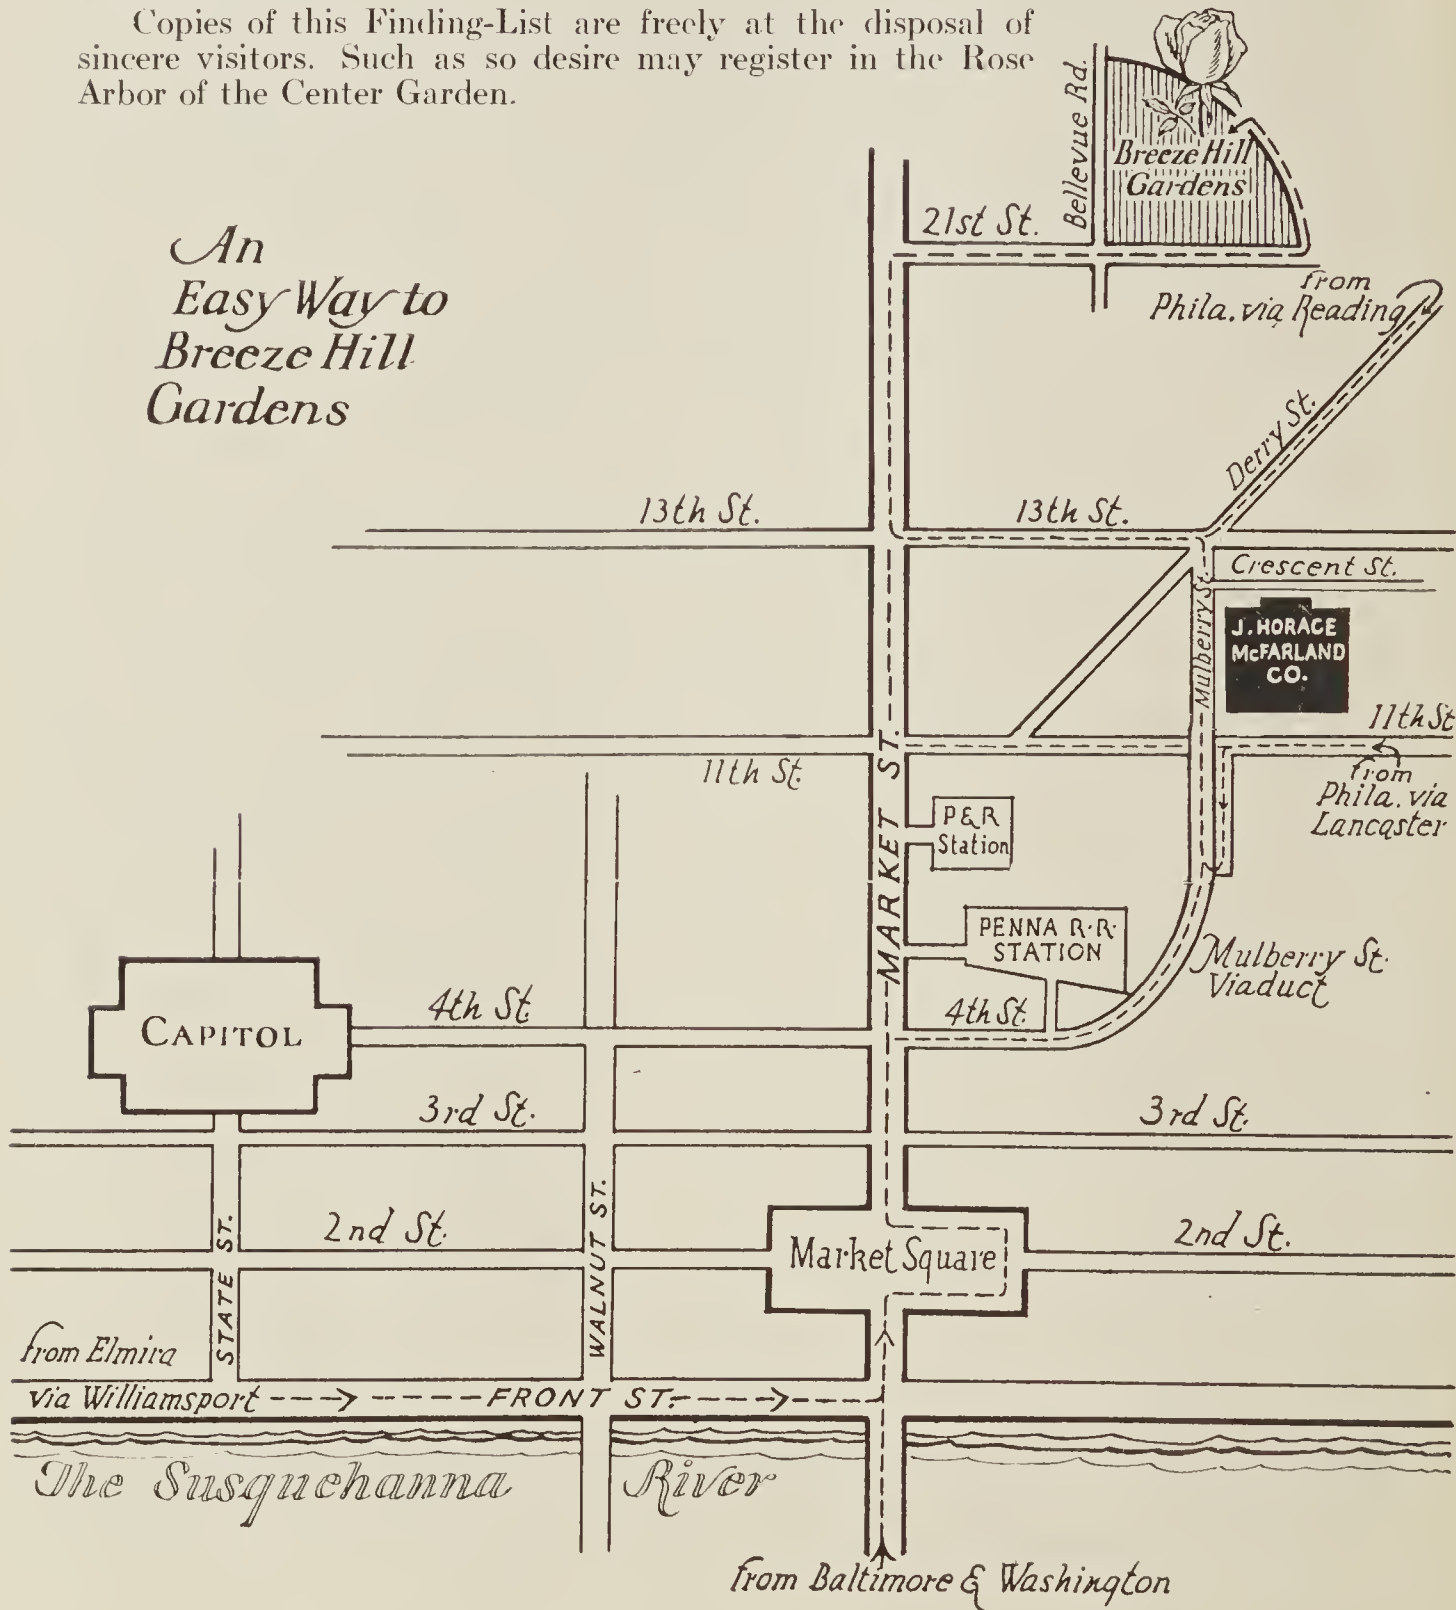

Road. The Hillside Road gate is convenient for exit. Cars may be parked on 21st Street, on Hillside Road, and on Bellevue Road, but not in the residence driveway.

It is hardly necessary to say that dogs should not be brought into the gardens at any time, and that if small children accompany parents or other adults, they must be kept in hand. While Mr. McFarland is glad to have the gardens accessible to those who enjoy flowers and plants, it must be understood that the property is not a public park, in which seats and other conveniences are for general use. Breeze Hill is private property, and access to it is a courtesy which may be withdrawn at any time.

Approach to Breeze Hill from the center of the city is by Market Street, east to 21st Street, thence on 21st Street south to Bellevue and Hillside Roads, between which the property lies. Reservoir Park cars (Route 2) run to 21st and Market Streets, and Breeze Hill is two blocks south to the right. The diagram printed below conveniently locates Breeze Hill with reference to the city of Harrisburg and to the Mt. Pleasant Press.

Copies of this Finding-List are freely at the disposal of sincere visitors. Such as so desire may register in the Rose Arbor of the Center Garden.

FINDING-LIST OF PLANTS AT BREEZE HILL GARDENS

SIXTH EDITION — JUNE 1, 1931

The letters and numbers at the ends of the lines indicate the beds or borders in which the plants may be found. The beds or borders are mostly located by concrete markers in one or two corners of each.

Plants are mostly labeled with embossed copper labels. On shrubs these hang nearest the walk, or may be found hanging on metal rods in the soil before the plant. There are also some zinc labels at ground-level, or twisted around a main limb. The roses are labeled in groups. The climbers have permanent labels in the posts.

The nomenclature is generally that of Standardized Plant Names, a copy of which will be found in the Tool-house. It may be useful in seeking common names.

The characters in parentheses following the names indicate sources and dates. A list of the source abbreviations is printed on the second and third cover pages.

<i>Abelia grandiflora</i>	C-50, C-52-54, C-82, E-107-108, F-154, W-1
<i>Abies concolor</i> (H42916).....	W-29
<i>Abies homolepis</i> (<i>A. brachyphylla</i>) (H42916).....	W-31
<i>Abies nordmanniana</i> (DK10626).....	W-15, W-31
<i>Acer griseum</i> (AA112230).....	E-105
<i>Acer japonicum</i> (PC28).....	E-103, F-151, W-32
<i>Acer pictum parviflorum</i> (CA52428).....	E-105
<i>Acer platanoides</i>	C-58, F-153, F-158
<i>Achillea acanthifolia</i> (SBH27).....	E-107
<i>Achillea filipendulina</i>	E-107, E-114, F-153
<i>Achillea ptarmica</i> , The Pearl.....	W-31
<i>Achillea sibirica</i> (<i>A. mongolica</i>) (SBH27).....	E-107
<i>Achillea tomentosa</i> (BA42531).....	W-33
<i>Aconitum fisheri</i> (D51726).....	E-107-108
<i>Aconitum fischeri wilsoni</i> (D51726).....	E-107-108
<i>Aconitum napellus</i> , Sparks' Variety (D51726).....	E-107-108
<i>Actæa alba</i>	C-80
<i>Actinidia arguta</i> (BS42831).....	F-157
<i>Adiantum pedatum</i> (GK51329).....	E-119, E-125

<i>Adonis amurensis</i> (BA42531)	W-33
<i>Ægopodium podagraria variegatum</i> (MN111027)	E-121
<i>Æsculus hippocastanum</i>	Front lawn and along drive
<i>Æsculus parviflora</i> (H151312)	F-151
<i>Æthionema coridifolium</i> (PY102229)	W-32-33
<i>Æthionema iberideum</i> (BA42531)	W-33
<i>Æthionema persicum</i> (BA42531)	W-33
<i>Ajuga reptans</i> (MN111027)	E-121
<i>Allium thibeticum</i> (WG32230)	W-32
<i>Althæa rosea</i> , many varieties	E-107, etc.
<i>Alyssum argenteum</i> (BS42831)	W-33
<i>Alyssum rostratum</i> (BS42831)	W-33
<i>Alyssum saxatile</i>	C-58
<i>Alyssum saxatile citrinum</i> (SBH26)	C-58
<i>Amelanchier lævis</i> (K41827)	E-105
<i>Ampelopsis aconitifolia</i> (SP12624)	C-82
<i>Ampelopsis heterophylla</i> (BS42831)	W-30
<i>Ampelopsis</i> (<i>Parthenocissus</i>) <i>quinquefolia</i>	C-81
<i>Ampelopsis tricuspidata lowi</i> (BS51331)	Work-Yard
<i>Amsonia tabernæmontana</i>	E-114, F-153, F-159
<i>Anchusa barrelieri</i>	E-107
<i>Anchusa flourensii</i> (BV11830)	W-32
<i>Anchusa italica</i> , Lissadell	E-108
<i>Anchusa myosotidiflora</i> (WG42127)	F-158, W-2-3, W-29, etc.
<i>Androsace carnea laggeri</i> (OG4731)	W-33
<i>Androsace lanuginosa</i> (OG4731; BA42531)	W-33
<i>Anemone apennina</i> (BRYDON28)	C-58, E-121, W-32
<i>Anemone fulgens</i> (SBH)	W-32
<i>Anemone japonica</i> (DH41530)	C-72, E-107
<i>Anemone japonica</i> , Pink (DH41530)	C-72
<i>Anemone japonica</i> , Richard Ahrens	F-160
<i>Anemone japonica</i> , Whirlwind	C-58, C-65, F-160
<i>Anemone patens</i> (PY11630)	W-33
<i>Anemone patens nuttalliana</i> (GARDENSIDE101029)	W-32
<i>Anemone pulsatilla</i> (SBH28; BS42831)	C-58, W-33
<i>Anemone rivularis</i> , Farrer's Variety (PP41028)	W-32
<i>Anemone sylvestris</i> (BS42831)	C-58
<i>Anemonella thalictroides</i> (HD11429)	F-152

ANNUALS

These are considerably used to fill spaces from which bulbs have been lifted, and for cutting. See also Testing-Gardens.

Apple, Crab, Transcendent.....W-31

Apples, Flowering Crab. See Malus.

APPLES: Bismarck (espalier), W-61; Delicious, (S-73); Golden Delicious (SB41220), E-103 (X-63); King David, (EE-53); Red Astrachan (Z-63); Smokehouse (HN41114) (CC-56); Yellow Transparent (Y-62, Y-66). Letters and numbers refer to map in tool-house.

Aquilegia alpina (BV11830).....W-33

Aquilegia canadensis.....E-105, F-152, etc.

Aquilegia haylodgensis (JP51831).....C-9

Aquilegia Hybrids, many varieties.....C-59, C-70-71, C-78, C-81, etc.

The Aquilegia Hybrids now include the "Breeze Hill strain," resulting from careful selection for about 12 years.

Arabis alpina.....W-32

Arabis mollis (BS42831).....W-33

Arabis procurrens (MN111027).....C-64, W-32

Aralia racemosa.....E-102

Aralia ricinifolia (EC41220).....Work-Yard

Arenaria balearica (BA42531).....W-33

Arenaria montana (TN1926).....C-58, C-64, W-32

Arenaria verna cæspitosa.....C-58, C-64, W-32

Arethusa bulbosa (HD62330).....C-58

Arisæma dracontium (HD11429).....C-58, C-74, C-80

Arisæma triphyllum.....C-58, C-74, C-80

Aronia arbutifolia.....W-30

Artemisia frigida (BA42531).....W-33

Artemisia vulgaris lactiflora (PN42813; F4925).....F-151

Artemisia vulgaris lactiflora, Silver King (DH51531).....E-107

Aruncus sylvester (RO11625).....C-79, E-108

Asclepias tuberosa (WG.....).....E-102, W-32

Asperula odorata (WG32230).....W-32

Asphodeline lutea (Asphodelus luteus).....E-107

Asplenium platyneuron (A. ebeneum) (GK51329).....E-121, E-125

ASTER acris (BS42831).....W-33

Aster acris nanus (JP51831).....C-9

Aster alpinus (BV11830).....W-33

<i>Aster canbyi</i> (AD41131).....	W-33
<i>Aster cordifolius</i> (GK61026).....	F-160
<i>Aster diplostephioides</i> (BV11830).....	W-33
<i>Aster frondeus</i> (AD41131).....	W-33
<i>Aster hybridus luteus</i> (PP41028).....	E-108
<i>Aster lævis</i> (GK61026).....	F-160
<i>Aster multiflorus</i>	E-102
<i>Aster novæ-angliæ</i>	E-107, etc.
<i>Aster tataricus</i>	E-107
<i>Aster undulatus</i>	E-102, F-160
<i>Aster yunnanensis</i> (SBH27).....	E-107

ASTERS, HARDY

Climax (JA28).....	E-107	Nancy Ballard (WG42127).....	E-107
Countess (PP41028).....	E-108	October Dawn (PP41028).....	E-107
Dick Ballard (JP51831).....	C-10	Queen Elizabeth (PP41028).....	E-107
Erica (WG42127).....	E-107	Queen Mary (CM53128).....	E-107
Freedom (JP51831).....	C-10	Queen of Colwall (PP41028).....	E-107
Lil Fardell.....	E-107	Snowdrift (PP41028; JP51831).....	C-10, E-108
Little Boy Blue (JP51831).....	C-10	Thora Perry (PP41028).....	E-107
Maid of Athens (PP41028).....	E-107	Various Sorts (WG42127)	
Maid of Colwall (WG42127).....	E-107		

ASTILBE arendsi (confused because of lost labels): Ceres, Gloria, Gruno, Juno, Moerheim, Opal, Rose Pearl, Salland, Venus, Vesta (MD51517)..... C-74, E-102, E-106, E-160

<i>Astilbe japonica</i>	C-74, E-119
<i>Astilbe palmata</i> (CH92730).....	F-106

<i>Azalea</i> . See also <i>Rhododendron</i> .	

<i>Bambusa</i> Sp. (DH51531).....	W-33
<i>Baptisia australis</i> (F4925).....	C-58
<i>Benzoin æstivale</i>	E-102
BERBERIS <i>darwini depressa</i> (OG4731).....	W-33
<i>Berberis gagnepaini</i> (AA101426).....	C-61
<i>Berberis julianæ</i> (K41827).....	C-76
<i>Berberis pruinosa</i> (AA101426).....	C-76
<i>Berberis sargentiana</i> (PF102226).....	C-76
<i>Berberis subcaulialata</i> (PF102226).....	C-76, E-106
<i>Berberis thunbergi</i>	Hedge on Bellevue Road and 21st Street
<i>Berberis thunbergi</i> , Dwarf Form (Box Barberry) (EC41220).....	C-62-63, C-66-67

The hedges on Bellevue Road and on 21st St. were planted about 1911. The plants came from the Biltmore Nursery. The Box Barberry edging in Center Garden was raised from rooted cuttings.

<i>Berberis thunbergi atropurpurea</i> (D11126).....	C-82, W-15, W-22
<i>Berberis triacanthophora</i> (PF102226).....	C-76
<i>Berberis vernæ</i> (K41827).....	W-32

<i>Berberis verruculosa</i> (EN92423)	C-76, E-106-107, W-29
<i>Berberis vulgaris</i>	Hedge on Hillside Road
<i>Bignonia grandiflora</i> (PF102226)	T-15
<i>Bignonia grandiflora</i> , Mme. Galen (PF102225)	T-15
<i>Bignonia radicans</i>	F-156
Blackberry, Eldorado (HUI2327)	E-103
BLUEBERRIES: Adams, Dunfee, Grover, Harding, Katharine, Pioneer, Rubel, Sam (WB33021) (<i>Vaccinium corymbosum</i>)	E-103
<i>Bocconia cordata</i>	C-55, E-104

BOG PLANTS

Bog conditions are maintained at several places in connection with rock-planting. A concrete base or "apron" under the surface soil permits suitable extension of soil-moisture at E-125, near the Maple "spring" at west end of C-58, and at the base of the moraines which drain W-32 and W-33 into a bog-pool.

<i>Boykinia occidentalis</i> (PY4731)	W-33
<i>Buddleia davidi magnifica</i>	F-155
<i>Buddleia davidi nanhoensis</i> (PF)	E-105
<i>Buxus japonica</i> (CY41029)	C-61, C-64
<i>Buxus microphylla japonica</i> (DY103029)	E-107
<i>Buxus microphylla koreana</i> (K41827)	W-33
<i>Buxus sempervirens suffruticosa</i> (CY41029; JP41329)	F-156-157, and Rose-Garden
<i>Calamintha</i> (<i>Satureja</i>) <i>alpina</i> (BA42531)	W-33
<i>Calceolaria polyrrhiza</i> (OG4731)	W-33
<i>Calla palustris</i> (GK5729)	C-58
<i>Callicarpa japonica</i> (AA111114; AA111623)	C-74
<i>Calluna vulgaris</i> (K41827; BSN101827)	W-32
<i>Calluna vulgaris alporti</i> (BS42831)	W-33
<i>Calluna vulgaris argentea</i> (BS42831)	W-33
<i>Calluna vulgaris elata</i> (BS42831)	W-33
<i>Calluna vulgaris hammondi</i> (BS42831)	W-33
<i>Calluna vulgaris hammondi alba</i> (BS42831)	W-33
<i>Calluna vulgaris nana</i>	W-32
<i>Calluna vulgaris rubra</i> (BS42831)	W-33
<i>Calluna vulgaris searlei</i> (BS42831)	W-33
<i>Calluna vulgaris spicata</i> (BS42831)	W-33
<i>Calochortus albus</i> (PY29)	E-121

<i>Calochortus albus rubellus</i> (amœnus) (PY29)	E-121
<i>Calochortus citrinus</i> (PY29)	E-121
<i>Calochortus luteus oculatus</i> (PY29)	E-121
<i>Calochortus pulchellus amabilis</i> (PY29)	E-121
<i>Calochortus venustus</i> , El Dorado, Mariposa (PY29)	E-121
<i>Calochortus</i> , Vesta (PY29)	E-121
<i>Calopogon pulchellus</i> (RO9429; RO9230)	C-58, W-32
<i>Caltha palustris</i> (GK5729; RO9230)	W-32
<i>Calycanthus floridus</i> (M32213)	E-101-102
<i>Camassia esculenta</i> (GS41930)	W-32

CENTER GARDEN

This garden is formal in outline, four of the beds being bordered with the Box-barberry. The older Rose hedges, many of the Lilies, and most of the Peonies are in it. The two long borders in the shelter of the Arborvitæ hedge (C-65, C-72) are used for rare plants needing protection from high winds. On the north side of these borders the wild flowers and Azaleas are located (C-80, C-74). The Water-Garden is in the western end of the northern section, and also Maple Spring with its bog.

- Cerastium tomentosum* C-58, C-64
Ceratostigma plumbaginoides (BV11830) C-76, E-106
Cercis canadensis (M32213) E-122, F-151
Cercis chinensis (TE4228) C-75, E-101, F-153
Cheiranthus allioni (SBH25) E-107
Chelone lyoni (HD11429) W-32
CHERRIES: Early Richmond (KK-63); Schmidt Bigarreau (SM111223) (T-69); Windsor (SM111223) (MM-59); Yellow Spanish (SM111223) (P-71); old sour sorts (BC-34, D-74, Q-73, R-42,), etc.
Chionanthus retusa (SPI10) W-4
 This great specimen is a major feature in its bloom-time in late May.
Chionanthus virginica (ON THE LOT 09) E-101
Chionodoxa luciliæ E-119
Chionodoxa sardensis E-119

EAST GARDEN. East from UU-61 along Hillside Road to corner Bellevue Road, thence west to front entrance at A-13; on east side of residence to FF-37, then to CC-48 and Orchard to place of beginning. (The locating references are to map in Tool-house.)

The East Garden includes the Lilac collection, most of the Deutzias, the Laurels, and the larger group of *Rhododendron maximum*. In it also are several bearing Pear trees and the Persimmons, as well as the Small-fruit Garden.

FRONT GARDEN. From corner Bellevue Road and 21st Street to front entrance; all west of residence to and including drive entrance on 21st Street.

The Front Garden includes four of the five Horse-chestnuts planted in 1876 or earlier, all of which were split and badly decayed in their trunks when the present occupancy began in 1909. They have been carefully repaired by the Davey organization and are good examples of skillful "tree surgery." The Lover's Lane entrance from 21st Street gives access to the fine specimen of Dwarf Horse-chestnut (*Æsculus parviflora*) and to the woods plants and Aconites on the left in F-159, where also are naturalized some California Erythroniums.

2 Dutchess	7 Niagara	vines.)

There are ten Grape-vines known to have been planted in 1859 or earlier—all Concord save one. Grape-growing seems to have begun in this location when it was named "Bellevue" in 1819 by Ludwig Lambert Gall, according to the "Annals of Harrisburg." Christopher Haehnlén grew grapes in 1836, and his son, Jacob F. Haehnlén, grew grapes here extensively from 1859.

GROUND-COVER PLANTS

Much attention is given at Breeze Hill to the growing of plants that will agreeably substitute for the lawn grasses in places unfavorable to the latter. The *Pachysandra* cover near F-157, under a large Horse-chestnut, and under other trees, and in shaded locations may be mentioned. At the driveway entrance to the residence *Vinca minor* is prospering. Several forms of Violet, including the old "Johnny-jump-up" are availed of. In many places *Anchusa myosotidiflora* is being established. There are trials of *Hydrangea petiolaris* and *Xanthorhiza apiifolia*, and *Convallaria majalis* and *Hedera helix* are also used to satisfaction. Where taller plants are admissible, *Chrysanthemum koreanum* and *Amsonia tabernæmontana* do very well, both in shade and in sun.

NARCISSUS, Named varieties Many places

All forms of Narcissi in general use are largely planted in various locations, and in some cases are naturalized. Among the varieties included are:

Admiration	Glory of Noordwijk	Minimus
Albo-plenus odorus	Glory of Sassenheim	Moonlight (JA92330) . . C-81
Alice Knights	Golden Spur	Mrs. Langtry
Apricot (JA92330)	Gracilis (JA92330) . . . C-81	Peter Barr
Aspasia	Great Warley	Poeticus Ornatus
Autocrat	Her Grace (JA92330) . . C-81	Primrose Phœnix
Bernardino	Homespun	Queen of the North
Blood Orange	Ideal	Red Beacon
Campernelle rugulosus	King Alfred	Sirdar (JA1927)
Conspicuous	Kingdon	Spring Glory
Duchess of Westminster	Klondyke	Tresserve
Duke of Bedford	Lady Godiva	Van Waveren's Giant
Emperor	Lord Kitchener	Vanilla
Empress	Loveliness	Victoria
Epic	Lucifer	Will Scarlett
Evangeline	Masterpiece	

<i>Narcissus bulbocodium citrinus</i> (BSL91729)	W-32
<i>Narcissus bulbocodium conspicuus</i> (BSL91729)	W-32
<i>Narcissus cyclamineus</i> (BSL91729)	W-32
<i>Narcissus minimus</i> (JA27; BSL91729)	E-121, W-32
<i>Narcissus poeticus</i>	Many places
<i>Narcissus pseudonarcissus</i> (JA92330)	C-81
<i>Narcissus triandrus albus</i> (BSL91729)	W-32
<i>Neillia sinensis</i> (AA41423)	E-106
<i>Nepeta mussini</i> (SBH)	C-64, F-150
<i>Neviusia alabamensis</i> (HOFFMAN4 31)	E-105
<i>Nierembergia rivularis</i> (WG32230)	W-32-33
NYMPHEAS, Hardy varieties: Marliac White, Paul Hariot, Rose Arey.	

Also Tender sorts: Mrs. Edw. Whitaker, Panama-Pacific . . . Lily-Pool

Splendens (DIII224).....	W-16
Voie Lactee (FIII228).....	W-31

The Mock Orange collection is mostly in W-10, W-15, W-16, and W-31. It embraces species and sorts covering a bloom period of about six weeks. Attention is called to the sorts providing notable and peculiar fragrances. *P. subcanus*, an early species, gives an odor of hyacinths; *P. sericanthus rehderianus* has the fragrance of *Valeriana officinalis*, and *P. purpurascens* that of sweet peas. The Lemoine hybrid, Belle Etoile, gives gardenia fragrance.

RARE PLANT NURSERY

The many unusual plants coming to Breeze Hill are planted first in the Nursery back of the Espalier (E-105 and E-111) for protection, as this location is particularly favorable.

Raspberry, Lloyd George (NY31927).....	E-108
Raspberry: Herbert, La France (BB112628).....	E-109
Rhamnus japonica (AA111016).....	Workyard

The *Rhododendrons* need to be considered in connection with the *Azaleas*. Botanically, all are now classed as *Rhododendrons*.

<i>Rhus typhina</i>	E-114
<i>Ribes aureum</i> (EB32913).....	W-3
<i>Robinia pseudacacia</i>	E-113, W-30, etc.

ROCK GARDENS

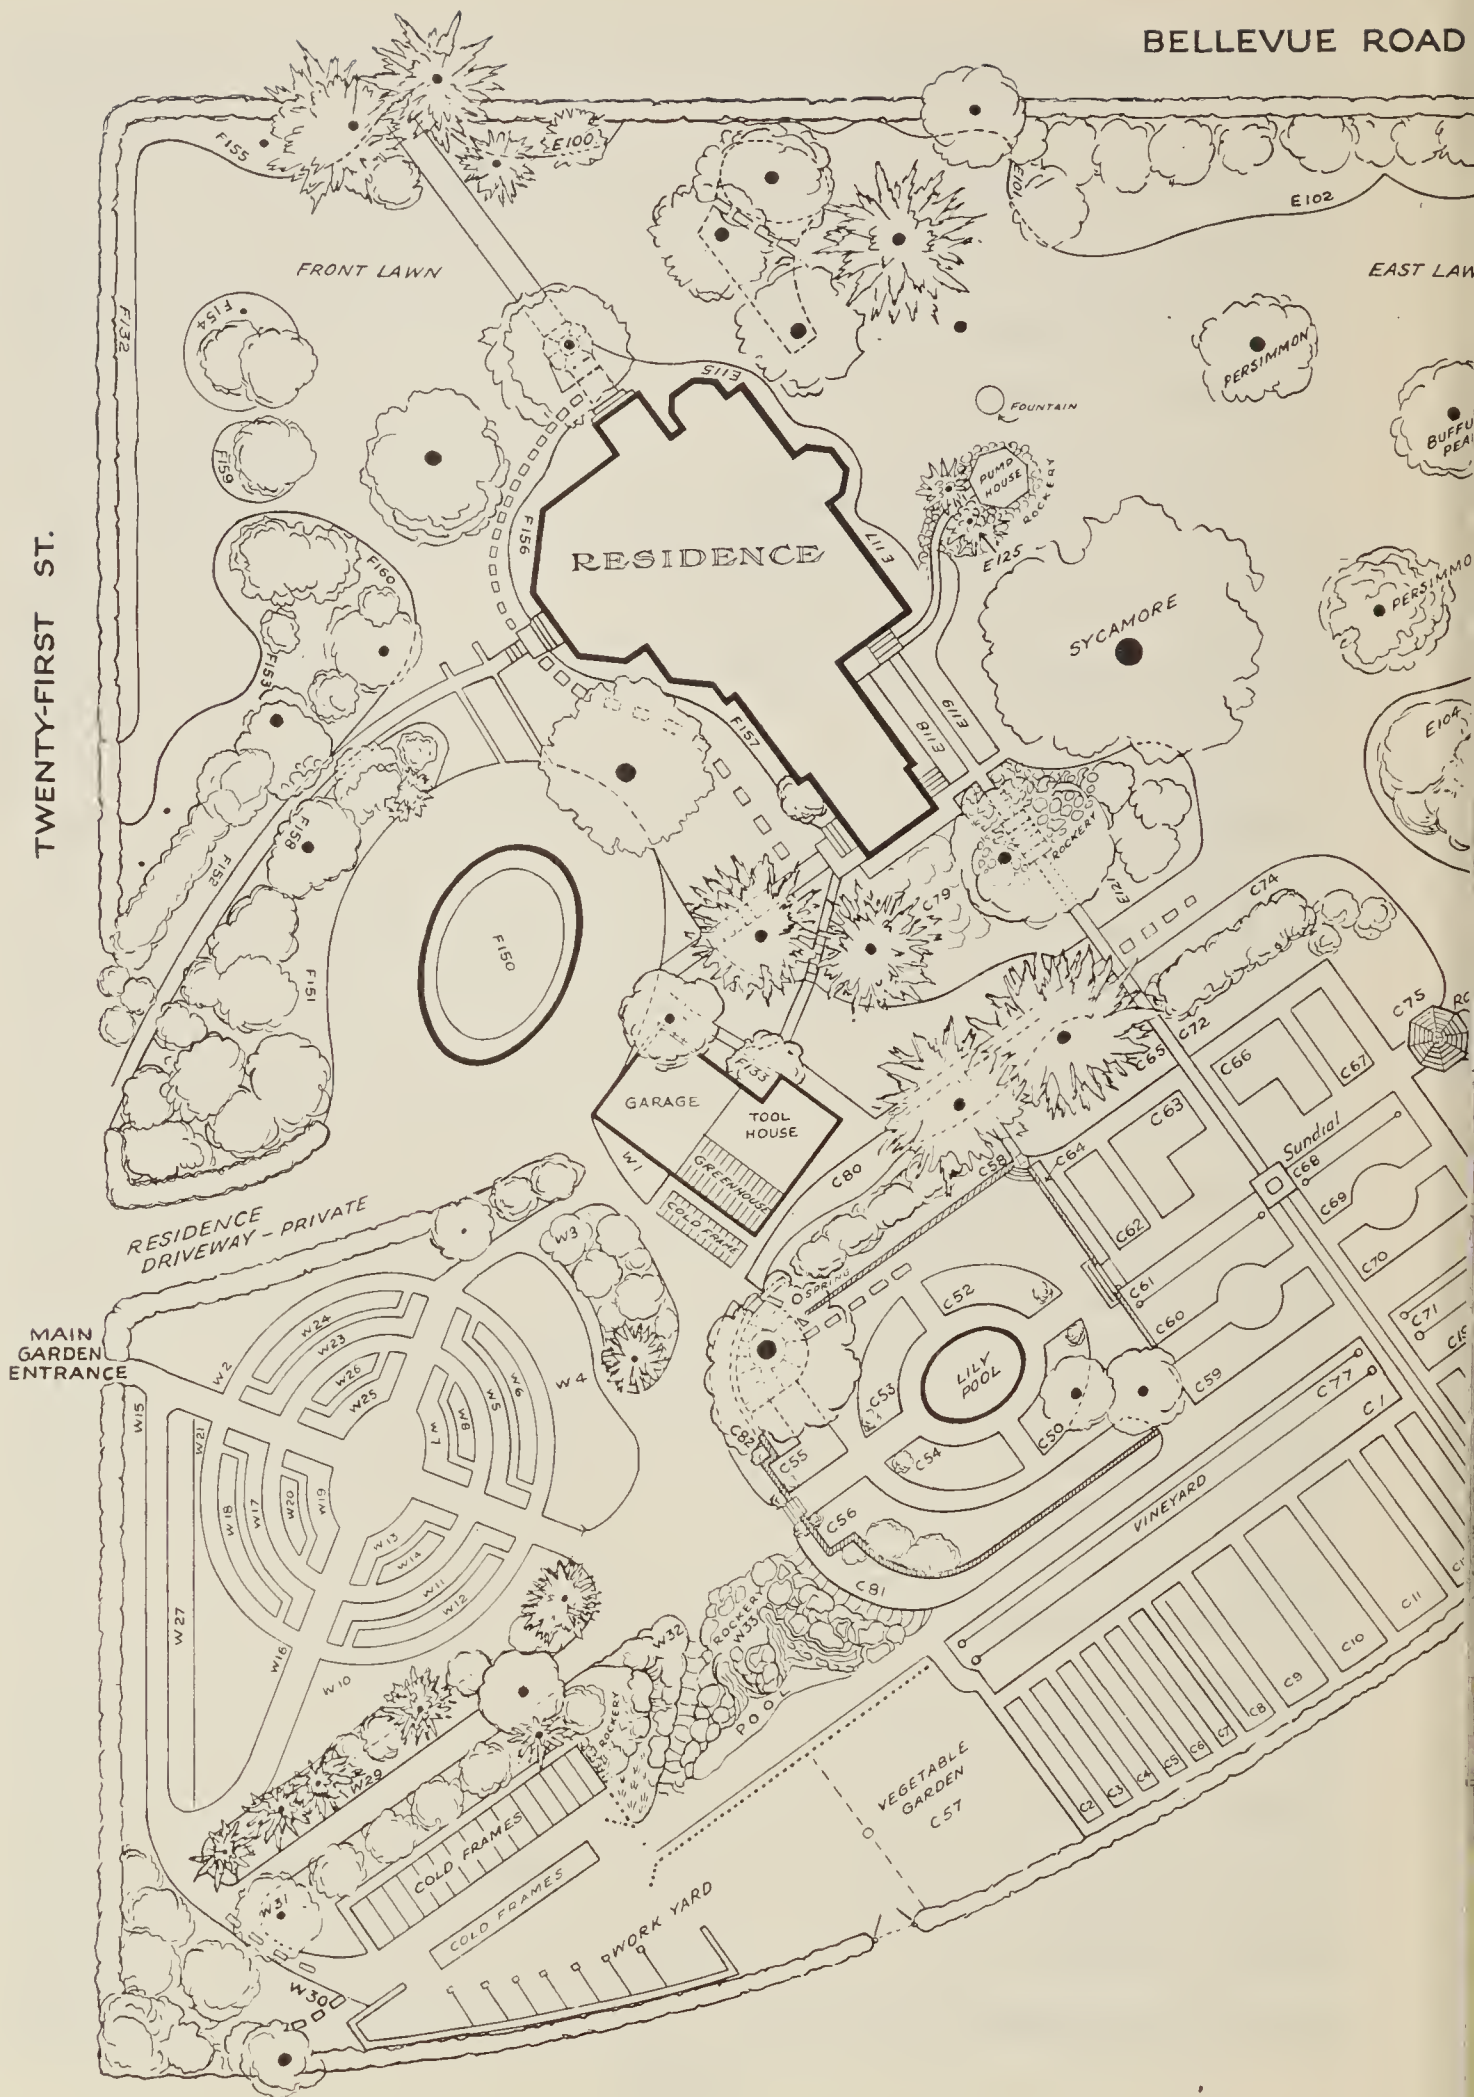

Rock Plants at Breeze Hill are at W-32, W-33, E-121, E-125, and at the end of E-102. The first rock planting was done in the spring of 1927, in "Lovers' Lane," F-158. In all these locations, save the last two, moving water is a feature, and provides a certain measure of bog conditions. The Maple Spring in the west end of C-58 is arranged to so drain as to keep moist the contiguous planting requiring such provision. A similar condition prevails at E-125. The plants in the various rock-gardens are being constantly changed and adapted. In the newer sections, W-32 and W-33, one little moraine is planned for acid-loving plants. Underground irrigation is provided for these sections.

FINDING DIAGRAM OF BREEZE HILL GARDENS IN HARRISBURG, PA.

The northern boundary of the Breeze Hill property runs 340 feet on Bellevue Road; the western line is 400 feet on 21st Street; the curved boundary on Hillside Road of 585 feet completes this three-sided plot of 2.4 acres.

For convenience, certain arbitrary garden divisions have been established within the property. The West Garden, public entrance to which is on 21st Street, is in the southwest corner and includes most of the roses. The Center Garden runs eastward from the Work-yard to the Orchard, and north to the rear of the residence. The Hillside Road entrance, also used as an exit, is reached in the Center Garden. The Front Garden is the northwest corner from the driveway to the walk to the residence from Bellevue Road. The East Garden runs east from this residence approach to the corner of Bellevue Road and Hillside Road, and southward to include the Orchard, the Espalier, and the Nursery beds.

TULIPS, Dutch varieties..... Many places

Tulips are lifted each year, and are therefore not located in this list. They are replanted to secure certain color effects. There are over 200 varieties, including the following:

BREEDERS

Acheron	Hamlet	Old Times
Apricot	Heloise	Panorama
Bacchus	James Watt	Pink Pearl
Bronze Queen	Jaune d'Œuf	Plutarchus
Cardinal Manning	Klopstock	Prince Albert
Charles Dickens	La Joyeuse	Prince of Orange
Cherbourg	La Turquoise	Prof. Schotel
Chester Jay Hunt	Le Mogol	Queen Alexandra
Copernicus	Lord Byron	Roi Soleil
Coridion	Lord Cochrane	Sabrina
Dom Pedro	Louis XIV	Salomon
Dryad	Lucifer	Socrates
Duke of Edinburgh	Madras	St. James
Feu Ardent	Marechal Victor	Superba
Feu d'Artifice	Marginata	Turenne
Garibaldi	Marie Louise	Velvet King
General Ney	Mme. Lethierry	Vulvain
Godet Parfait	Moody	Wilberforce
Golden Bronze	Newton	Yellow Perfection

BUNCH-FLOWERED TULIPS

Admiral Drake	Flaming Arrow	Monsieur Mottet
Aljachin	Golden Harvest	Nobility
Anderson	Immensee	Pierrette
Betsy Ross	John M. Good	Pierrot
Black Eagle	Lodestone	Silver Moon
Capablanca	Macbeth	St. Amand
Clipper	Marquis	Staunton
Commander Byrd	Max Lange	Sulphur Gem
Delightful		

These in 1931 failed to "bunch" as did the first sort, Monsieur Mottet, but have given single flowers of remarkable size and quality.

WALL PLANTING

The walls in the Center Garden were built in April, 1928, when grading was made necessary for the Lily-pool. The stones used were carefully selected and placed by G. A. Stevens, planting following closely. The steps were "home-made" upon design by Mr. Stevens.

WATER GARDEN

The Lily-pool in the Center Garden was built and planted in April, 1928. Other water features are the Maple Spring at west end of C-58, and the pools in Rockery at W-32, W-33, and at E-125.

<i>Weigela amabilis</i> (<i>Diervilla florida</i> ; <i>D. rosea</i>)	W-3

ROSA

The rose genus at Breeze Hill is represented by the following species, mostly in two locations—one at the eastern edge of the Rose Garden, (W-4), and the other at the eastern edge of the Orchard (E-112).

<i>Rosa acicularis</i> (CP41426)	W-4
<i>Rosa amblyotis</i> (CP27)	W-4
<i>Rosa andreæ</i> (CP41426)	E-112
<i>Rosa bella</i> (AA11526)	E-112
<i>Rosa blanda</i>	W-4
<i>Rosa brunoni</i> (<i>R. moschata nepalensis</i>) (CP27)	W-4
<i>Rosa canina</i>	F-151
<i>Rosa carolina</i> (LYONI)	E-102
<i>Rosa davurica</i>	W-4
<i>Rosa ecæ</i> (EC11722)	W-4
<i>Rosa ferox</i> (CP41426)	E-112
<i>Rosa fœtida bicolor</i> (BA12922)	W-2, W-32
<i>Rosa foliolosa</i> (SV111025)	E-102
<i>Rosa foliosa alba</i> (SV42931)	W-33
<i>Rosa gallica</i> (AUTEN4725)	E-112
<i>Rosa gallica, Double</i> (AUTEN4725)	E-112
<i>Rosa gallica officinalis</i> (<i>R. gallica flore-pleno</i>) (CP27)	E-112
<i>Rosa glauca</i> (CP41426)	E-129
<i>Rosa helenæ</i> (EN42224)	W-4
<i>Rosa hugonis</i> (AA42216; W5616)	W-2, W-4
<i>Rosa hugonis</i> × <i>R. altaica</i> (Van Fleet) (VF33021)	F-154
<i>Rosa hugonis</i> × <i>Radiance</i> (Van Fleet), <i>Double</i> (VF33021)	C-57
<i>Rosa humilis</i>	E-122
<i>Rosa inodora</i> (CP41426)	W-4
<i>Rosa Iheritierana</i> (<i>R. pendula</i> var.) (HAMBLIN)	F-151
<i>Rosa manca</i> (CP)	E-112
<i>Rosa maximowicziana jacki</i> (AA111023; EN42224)	W-4
<i>Rosa moschata grandiflora</i> (CP27)	E-112
<i>Rosa moyesi</i> (VF11316)	W-4
<i>Rosa multibracteata</i> (AA42216)	E-129
<i>Rosa multiflora cathayensis</i> (AA42216)	W-2
<i>Rosa multiflora, Chenault 6902</i>	E-112
<i>Rosa multiflora de la Grifferraie</i> (CP102424)	E-112

<i>Rosa multiflora</i> , East Asia (CP4I426)	E-112
<i>Rosa multiflora japonica</i>	E-112
<i>Rosa multiflora koraensis</i> (CP27)	E-112
<i>Rosa nutkana</i> (LINES)	W-2
<i>Rosa odorata</i> 22449 (<i>R. indica major</i> ; Fun Jwan Lo)	C-75

This is the famous "Odorata" understock form sent to the Department of Agriculture by its explorer, the late Frank N. Meyer, prior to 1919. He found it in a garden at Pautang Fu, Chihli Province. Prof. M. L. Hancock, of the University of Nanking, reports it as bearing the local name of Fun Jwan Lo. It is believed to be identical with "Texas Wax," and to have been used in France and in England as an understock many years ago under the name *Indica Major*. From Australia it is reported as identical with an understock used by the English Rosarian, Henry Bennett, about 60 years ago.

<i>Rosa oxyodon</i> (CP4I426)	E-129
<i>Rosa pendulina</i> (<i>R. alpina</i>) (CP27)	W-4
<i>Rosa pomifera multiplex</i> (CP4I426)	W-4

AUSTRALIAN ROSES South of Vineyard ; in West Garden

These are Rose varieties the plants of which left New South Wales on March 16, 1927, were received in Washington on April 15, and after inspection and release were planted April 19. These Roses were supplied for American trial by H. H. Hazlewood, Epping, N. S. W. All lived until the severe winter of 1929-30, when several "passed out." The varieties are: Australia Felix, Borderer, Bushfire, Daydream, E. N. Ward, Fancy Free, Flying Colours, Gwen Nash, Harbinger, Kitty Kininmonth, Loretto, Lorraine Lee, Mrs. E. Willis, Mrs. Frank Guthrie, Milkmaid, Mrs. R. M. Finch, Miss Marion Manifold, Nora Cunningham, Queen of Hearts, Scorcher, Squatter's Dream, Sunny South, Salmon Spray, Vanity.

Another shipment, received June 11, 1928, included: Agnes Barclay, Catherine Blackburn, Cherub, Countess of Stradbroke, Cranbrook, Jessie Clark, Lottie Foster, Mrs. Philip Russell, Sunday Best, Climbing Ophelia × Padre, Cupid × Konigin Carola, Red-Letter Day × Isobel, Rev. F. Page-Roberts × Padre, Radiance × Comtesse du Cayla, Climbing Ophelia × Walter Clark, Ophelia × Rev. F. Page-Roberts, Mme. Butterfly × Hoosier Beauty, Star of Queensland × Mrs. C. V. Haworth, Radiance × Mr. P. L. Baudet.

A third shipment, received August 5, 1929, included Golden Dawn, Mrs. Albert Nash, Mrs. Philip Russell, Joyce Fairey, Edith Clark, Lady Fairbairn, Sentinel, Refresher, Mary Guthrie, Traverser, and Countess of Stradbroke; another on August 16, 1930, Mrs. Hugh Dettman and Courier.

The Bloomfield varieties are the production of Capt. George C. Thomas, Jr., of Beverly Hills, Calif. As noted, they are mostly in two locations. Capt. Thomas is also the originator of the fine pillar rose, Dr. Huey, and also of Mrs. George C. Thomas, Bishop Darlington, and others. His new climbing varieties are at the south ends of C-2, 3, 4, 6, 7, 8, 9, in the Trial-bed section of the Center Garden.

BOBBINK & ATKINS

This great rose-growing nursery is represented by several distinct beds, including its special varieties. In the Trial-bed section of the Center Garden, see C-3 and C-4; in the West Garden see W-15 South and W-27 South.

DREER ROSES

Varieties furnished for test by Henry A. Dreer, Inc., of Philadelphia, are to be found in C-6 of the Trial-bed section in the Center Garden. The 1931 varieties are in the center of C-6 of the West Garden. Most of the Dreer roses are budded on the "Ragged Robin" understock.

HARDY CLIMBING ROSES

These include the Wichuraiana (HW) and Multiflora (HM) climbers, as well as the Climbing Hybrid Teas (Cl.HT). Some of the older plants are on the hedges and arches in the Center Garden. Here also will be found the interesting Australian Climbers in C-1 and C-19, south of the Vineyard. In the West Garden the double arches carry various climbing roses placed with reference to their colors. It is a comprehensive assortment of Hardy Climbers that will endure the Harrisburg climate. Fully six weeks of bloom is provided, from late May forward.

Hugh Dickson. HP.....	W-4

HYBRID PERPETUAL ROSES

These are in the West Garden, back of the circle of Polyantha varieties.

HYBRID RUGOSA ROSES

Mostly grouped east of the Rose Arbor, north of Orchard.

HYBRID TEA ROSES

In the formal beds of the West Garden and in the Trial-bed section of the Center Garden. In the West Garden an attempt has been made to group the various colors in the four sections surrounding the Central oval grass-plot. The newer roses from various growers are considerably in the two long beds, W-15 and W-27, immediately inside of the 21st street entrance. Many Hybrid Teas received for testing, not infrequently yet unnamed, are in the Trial-beds in the Center Garden, south of the Vineyard at its western end (C-2, 3, 4, 6, 7, 8, 9).

ROSE-TRIALS

The newest roses from Henry A. Dreer, Inc., Bobbink & Atkins, Conard-Pyle Co., L. B. Coddington, Capt. George C. Thomas, Jr., and others are in separated beds south of the Vineyard at its western end. There are some trials in the main Rose-Garden in W-15 and W-27, and the various seedlings produced at Breeze Hill are mostly in C-8 and E-128. The unnamed Setigera hybrids from M. H. Horvath are along the south edges of C-14 to C-19, and in E-109. The Thomas Climbers are along the southern edges of C-2, 3, 4, 6, 7, 8, 9, though other Thomas roses are in various parts of the garden.
