MANIAC SLAYS HIS TWO LITTLE SONS

Kills Children While Suffering from Violent Dementia

San Francisco—Shot to death by their father, Joe E. Cornyn, a newspaper venter at the Ferry building, the bodies of Arthur Cornyn, aged 7, and Andrew Cornyn, 9, were found in a lonely cypress grove 200 feet from Chapman station, Marin county. The police are convinced Cornyn committed the deed when insane.

Haggard, with his garments caked with mud and blood, the father walked into the Hall of Justice at San Francisco and made an incoherent confession to Detectives.

Knowledge that Cornyn had actually attempted to take the lives of his two sons before caused the San Francisco police and Marin county authorities to take his confession seriously.

Cornyn offered to act as guide and was taken to San Rafael. Followed a fruitless three-hour search, with a posse of nearly a hundred trailing the erratic steps of the maniac.

Information furnished by Miss Agnes Merriman, telephone operator for the Northwestern Pacific, finally revealed the bodies. She reported having seen a man and two boys strolling near her home on Sunday.

Nicholas Yeager, chief of the railroad police, and George Mahood of the Pacific Telephone and Telegraph Company, found them in a cypress grove on the Dr. John Townsend estate.

Five children were in the Cornyn family. The mother is dead. Besides the two victims, there are John, aged 20; Paul, 12, and Ruth, 3 years old.

Arthur and Andrew were students at St. Vincent's Orphanage, near San Rafael. Some time ago their lives were saved by Paul, after the maniac father locked them in a room at 23 Baker street and turned on the gas.

Even before this, Cornyn had tried to force drugged candy upon the children, the police assert.

For this deed he was adjudged insane, but was recently restored to competency by Superior Judge Frank Dunne. With the permission of the San Francisco Juvenile Court, he was allowed to take Arthur and Andrew on Sunday excursions.

UNITED STATES GETS NEW BERLIN OFFER

Germany Submits Limit on Reparations

Washington—The German note, which was received in Washington this week was submitted by Hughes to the meeting of the President and his Cabinet yesterday. There ensued an extended discussion in which the Berlin counter proposals were analyzed and weighed.

It was noted that the principal concession by Germany is to name a total reparations amount considerably higher than ever before. The principal sum Germany says it is willing to pay is approximately \$12,500,000,000.

On the other hand, the Germans counter proposals would wipe out practically all the means of enforcing payment of the reparations which were incorporated in the Versailles treaty. Germany would promise to pay, but there could be no occupation of Germany territory and other force measures to collect the dues.

TORNADO DESTROYS TOWN

Every Business House in Braxton, Miss. Demolished

Jackson, Miss.—More than a dozen persons are reported to have been killed and a score injured in a tornado at Braxton, eighteen miles from here.

Every business house in the place was destroyed and many of the residences either totally or partially wrecked. The loss is estimated at more than \$100,000.

The wind lasted only a few minutes and was followed by a heavy rain which has swollen the streams in the vicinity out of the banks and threatening crops.

Five persons took refuge in the bank vault and escaped while the president, who failed to reach shelter, was killed.

Braxton is a town of about 500 inhabitants in Simpson county on the Gulf and Ship Island Railroad.

The town is cut off from all communication. The Gulf and Ship Island Railroad is blocked with fallen timber.

NEW R. R. PLANNED

Broad-Gauge Road to Be Built to Pitt River.

Redding—Shasta county is interested by an authoritative report from Pacific Gas and Electric Company headquarters in San Francisco that the company has decided to build a broad-gauge railroad from Bartle, eastern terminus of the McCloud River Railroad, to its projected power-house sites on Pitt river, a distance of thirty-five miles.

The estimated cost will be \$750,000. The railroad will strike the river at Peck's bridge and follow the north side of the river to Pitt river power-house No. 1, just below Pitt river falls.

The railroad also will extend down the river from Peck's bridge to power-house No. 2, and will be built to Henderson in the Big Bend. The P. G. and E. now has 650 men employed in the eastern part of the county.

SEVERAL TOWNS HARD HIT

Widespread Damage Reported From Several States

Muscataine, Iowa—The small tornado which struck Southeastern Iowa yesterday extended over a wide range of territory, according to reports, West Liberty, Columbus Junction, Atalissa and Nichols reported damage to buildings.

Pine Bluffs, Ark.—Heavy damage was done by a tornado fifty miles southeast of here. Several farmhouses near Dumas were destroyed, and a church at Coud was demolished.

Dallas, Tex.—Floods following heavy rains, were reported in sections of East Texas.

CONGRESSMEN FAVOR FILIPINO INDEPENDENCE

Paragraphs of Interest to Readers of Golden State

Washington—"The appointed hour is here: let the Philippines be free." This was the keynote of a speech by Congressman Edward J. King of Illinois, (Republican) in which he reviewed the American occupation of the islands from the first day to the present time.

Congressman Edward J. King of Illinois. Dependence without further delay. Congressman King is one of an increasing number of Republicans in the House who are urging quick action on Philippine independence.

Mr. King is the author of a bill which provides that within one year the Philippine government, under presidential proclamation, may assemble a convention and frame a constitution. After the constitution is ratified by the Filipino people the President may recognize the Philippine islands as "a separate and self-governing nation."

The transfer of authority is to be completed within one year. Provision is made for safeguarding American investments in the Philippines and for the providing of coaling stations and submarine bases in the islands by the United States.

Word from the Philippines is that the people expect early independence and will be sorely disappointed if they do not get it.

"No nation has the right," said Congressman King "to hold another people in peonage, even though it may be argued by the professoriate that the condition is simply one of tutelage."

"A little more observance of the golden rule in national and international affairs would soon dispel that desire for exploitation, the fiercest foe of freedom in the world today."

"When we went to the Philippines we declared before the whole world that we were not actuated by any selfish desire of conquest or territorial aggrandizement, but solely by humanitarian impulses."

Congressman King called attention to the fact that Filipinos are now raising funds to erect a monument to Admiral Dewey, which he said was indirectly a tribute to the American people as well as to Dewey.

He recalled the cable that Dewey had sent to President McKinley, which was as follows: "In my opinion these people (Filipinos) are superior in intelligence and more capable of self government than the natives of Cuba, and I am familiar with both."

Congressman King then recited the preamble to the Jones law, passed August 29, 1916, and declared it was a definite pledge of independence. The preamble stated "It is as it has always been the purpose of the people of the United States to withdraw their sovereignty over the Philippine Islands and to recognize their independence as soon as a stable government can be established therein."

Congressman King stated there was no question but that the Filipinos had established the specified stable government and, therefore, it is the solemn duty of the United States to grant the promised independence.

NEW HIGHWAY PROPOSED.

Chico.—Possibility of a new route to Butte Meadows, between that point and Chapparral House, was outlined in a letter received by Secretary Frank B. Durkee of the Chico Chamber of Commerce from the office of the Plumas National Forest.

An offer of \$200 of federal money is made to help defray the cost of making a survey for the new road this summer. Durkee will place the proposition before the Board of Supervisors. The proposed route would eliminate the Bull Hill grade.

School of Journalism in Philippines

Manila.—A school of Journalism, the first in the Far East, has been established at the University of the Philippines, in Manila.

Admission to the School of Journalism is limited to third and fourth year students who have shown marked ability in the use of English. The course is open to both men and women. A class of about 50 registered at the opening of the journalistic course.

CAMPBELL COMMUNITY SCHOOL FIELD DAY MEET SET FOR THE WHISTLE

Plans Completed To Give Children of Campbell and Adjoining Schools Circus

Saturday, May 6, the long anticipated field meet will be held on the Campbell school grounds.

In the morning the primary program of events will be held on the high school tennis courts and all spectators must remain outside the fence. In the afternoon they will be held in the grammar school auditorium.

As there will be several games and events taking place simultaneously among the older children spectators must remain outside the grammar school fence on the west and the row of trees on the east. Field marshals will be appointed to carry out these regulations as it would interfere with the players to have people on the grounds.

The public is cordially invited and we urge that the affair be given the attendance it deserves as principals and teachers have expended every effort to make it a success.

The first event of the day will be a parade of the combined schools in the following order and each one having some distinctive feature: Cambrian, Moreland, Hamilton, Meridian, Campbell-San Tomas.

Following is the primary program, the other sections having appeared in earlier issues:

Primary Program Morning (on Tennis Courts) Folk dance, "The 6th of May" 3rd grade, Campbell-San Tomas

GROWERS MUST ACT QUICKLY

Saturday will decide the fate of the prune and apricot industry in California.

For four months, with an intensive close-up drive during the past four weeks, the California Prune & Apricot Growers, Inc., has been making an appeal to the growers in the industry to sign up the new association contract and keep their co-operative selling agency in business for a term of seven years more.

The sign up campaign ends Saturday. The association is not bluffing when it says it will go out of business unless it signs up 75 per cent of all the prune and apricot acreage in the state by Saturday night.

The association has laid its cards on the table and told the growers the exact amount of acreage which remains to be signed. The growers will have no excuse to offer if the association fails.

The growers must give the association a full 75 per cent sign-up and they must have it done by Saturday night. It's very risky business for any grower to take it for granted that the association will be able to sign up enough acreage from other growers to make certain its continued existence. Every grower is himself directly responsible for keeping the association in business.

If he has already signed his contract, let him see to it that his neighbor has also signed. If he hasn't signed yet, he should make it his first business today to send in his signed contract and his second business to get out and see that his neighbor sends in his.

Outside districts are in most cases apparently within reach of the 75 per cent demanded but that would not offset even a small undersigning on the part of the growers in this valley. The Santa Clara Valley growers are the ones standing in the way of the association reaching this mark.

If the campaign fails and the association goes out of existence, the Santa Clara valley growers alone will be responsible.

ORCHARD CITY GRANGE TAKES BIG CLASS

There were important doings in Grange circles Tuesday evening when a capacity house gathered to witness the conferring of the third and fourth degrees upon a class of 18 and the initial degree upon 12.

The class upon whom the drill team so well exemplified the work included Messrs. and Mesdames J. D. Blaine, C. E. Buck, L. J. Carboni, J. A. Kelly, C. S. Inman, F. R. Peake, J. F. Wehmeyer, Miss Bertha Kelly, Messrs. J. B. Knaak and William Skiff.

The harvest feast which is always a part of the completed installation, was the usual bounteous spread provided by the good Grange cooks and was thoroughly appreciated by the members old and new. After dinner remarks were for the most part mirth provoking, although the discussion of the situation facing the Prune & Apricot Growers, Inc., was not.

Orchard City Grange is making a wonderful growth in numbers and these for the most part enthusiastic and good boosters.

HOW MUCH ARE YOU WORTH?

The value of the individual, a most timely topic, was the subject of a most inspiring address by Mr. Tomlinson at the Campbell Chautauqua Wednesday. "How much is an individual worth?" is a most common question. How much is a sack of wheat worth? What is the value of a ten-dollar bill? The same answer may very aptly be made to all such questions. Here it is: The value of the individual, the sack of wheat, the ten-dollar bill is gauged by the amount of service it renders to mankind. The ten-dollar bill is still worth about half what it was five years ago. The sack of wheat is worth ten times as much in the famine centers as here because of its power to preserve human life. The individual's valuation to his community is measured in like terms, namely, "service." Some men, who are possessed of but little of this world's goods, are of inestimable value to their community and State because of their valuable service to help their fellow men, while others of unlimited means are as mere nothings because of their selfish unserviceable lives. Every human being is of greater or less service as he applies his talents to make this world a better and pleasanter place in which to live, and the more he does of such service the more he really lives and enjoys his living.

CONGRESSMAN FREE GETS APPOINTMENTS

Congressman Arthur M. Free of this district has been very fortunate in securing appointment on two very important committees in congress, committees that mean much to California.

He has been named as a member of the Committee on Merchant Marine and Fisheries and also of the Committee on Immigration and Naturalization.

As the only Republican member from California on the Immigration Committee it will probably fall to his lot to sponsor the anti-Japanese legislation which is so vital to his State.

The Committee on Merchant Marine and Fisheries is equally important in that our ships are again being swept off the sea, and, if we are to be a great commercial nation, it is up to the United States to look after its shipping.

Mr. Free is being generally congratulated by even the older members of Congress upon his success in being appointed to membership on two such important committees.

Mr. Free has secured a goodly number of Farmers' Bulletins for distribution in this congressional district and will be pleased to forward to those interested such bulletins as requested. These bulletins may be designated by name or number. Lists have been sent to the Press office for reference and you are welcome to look them over at your pleasure.

W. C. T. U. NOTES

Campbell Woman's Christian Temperance Union met on Tuesday afternoon at the home of Mrs. Case. The usual devotionals business and program made an interesting afternoon. It was voted to direct the corresponding secretary to write Santa Clara county supervisors requesting them not to defer enacting an enforcement law similar to the Grant or Bakersfield ordinance. The union decided to conform to the state plan in making a house to house canvass for new members. Santa Clara county is "working for 2000 on the roll." A national convention picnic is planned for June 11th and all W. C. T. U. members are invited. Each union is expected to furnish a number on the program which will be held at Congress Springs. The aggregate membership of the locals is 922.

An appeal was read in behalf of starving China and arrangements were made to hold a social at the home of Mrs. C. H. Whitman on Wednesday afternoon, May 4th. There will be a program of "Convention Echoes." Light refreshments will be served and an offering taken towards China's relief. This will be an opportunity to reach across land and sea in practical aid to suffering humanity. Come and realize how it is more blessed to give than to receive.

FOR SALE—White Leghorn and Black Minorca baby chicks. Reasonable prices. R. Y. Maxon, Sunnyoaks and Los Gatos road.

SENIOR PLAY

On the evenings of May 13th and 14th the members of the Senior Class of the Campbell Union high school will present to the public in the Campbell grammar school auditorium their selection of a play, "An American Citizen."

A brief sketch of the play is as follows:

Beresford Cruger, a true American and a partner in the Cruger, Barbary & Brown law offices in New York city, has been left a bequest of 60,000 pounds by his English uncle, the late Sir John Carew, on the condition that he marry an English woman before his thirtieth birthday, renounce his nationality and become an English citizen, legally adopt the name of Carew, and share no portion of the legacy with his cousin, Beatrice Carew.

Beatrice Carew, daughter of the late Sir John Carew, has been disinherited because of being betrothed to an American at the time of Sir John's death.

Cruger had always regarded the legacy with contempt and held the same opinion at the opening scene of the play, but one of the partners of the firm, Edgerton Brown, who had been trustee for Miss Carola Chapin, suddenly disappears (having committed suicide) and with him the Chapin bonds. Cruger and Barbary say the bonds are safe and pay for them with their own money to save the reputation of the firm. Cruger's 30th birthday is just two days off at the time.

Sir Humphrey Bunn, executor of the estate of the late Sir John Carew, calls at the offices and states that if Cruger does not accept the legacy it will be turned over to the Archaeological Society of Great Britain for the purpose of founding a museum for antiquities.

Cruger accepts the legacy and marries Beatrice Carew, his cousin, who has accompanied Sir Humphrey and Lady Bunn from England. In further conformity with the conditions of the will he becomes a British subject under the name of Beresford Carew.

Mr. Cruger, now Mr. Carew, and Beatrice are to live apart, as it is a loveless wedding, only a mere form to save the money from the Archaeological Society.

Mr. and Mrs. Carew accidentally meet in Nice, France, where Beatrice Carew's former sweetheart and Edgerton Brown suddenly come to life. It is here that Sir Humphrey Bunn reports that the Archaeological Society has filed a suit against Mr. Carew and won on the grounds that he had shared his inheritance with Beatrice Carew, his cousin. Mr. Carew is consequently thrown into poverty.

Beatrice Carew's former sweetheart and Edgerton Brown turn out to be the same person. He is in the act of getting a divorce for Beatrice Carew with the intention of marrying her himself, when he hears that the money she obtained by becoming the wife of Mr. Carew is lost. The consequences are that Mr. Brown disappears.

Things can not go on thus for Mr. and Mrs. Carew, and how the situation is relieved is very cleverly brought out in the last act of

Being Business-Like

Before you take any action that costs you money, even so small an act as the renting of a Safe Deposit Box at so low a cost as \$2, you want to know a good reason for it.

Here is one good reason that, viewed rightly, has a world of force. Repeat this over to yourself: "I'll rent a Safe Deposit Box because it is a business-like thing to do."

"Business-like"—you and I have great respect for that term. We prefer to deal with a business-like man. We'll ask his advice, listen to his opinions and feel flattered that he gives us his attention. He is a man of power.

If being business-like wins a reputation of so much weight, then the quality must be worth cultivating—for you and for me. Business-like we may be in a measure, but never so much that we couldn't improve, find a weak spot that is being overlooked or neglected.

Have we a checking account at the Bank? That's good. Are we building a surplus with a savings account? Good again. Have we a Safe Deposit Box? No? Not good at all—here's a weak spot. We have things that need the protection of concrete and steel.

Such protection costs so little that it is a good thing with which to round out our bank service, or it is an equally good place to begin. Two dollars a year means about seventeen cents a month, or a trifle over one-half cent a day. To neglect such necessary protection at so low a cost, would hardly be business-like, would it?

Earl was expected to arrive the first of the week with stock and household goods. Charlie is wearing a big smile these days since "Ma" has come to cook for him.

CLUB PROGRAM

Monday afternoon the Country Woman's Club devoted to John Burroughs and a little of wild flowers and birds, the program being in charge of Mrs. Ellen R. Smith. She read a sketch of the life of the great naturalist that was a concise and clear character study.

Mrs. Geo. L. Husted, who has made considerable study of ferns and their culture, read a most delightful paper describing several varieties of these wonderful plants, their native habitat, successful transplanting and care.

Mrs. G. E. Stallman read extracts from Burroughs's "River-by," which showed his remarkable powers of observation and study. From Julian Burroughs's life of his father selections were read by Mrs. H. C. Smith, who substituted for Mrs. W. S. Shelley.

Another bird lover of national repute, who has written a volume describing several of the feathered families and who is a lecturer of wide renown, is William Lovell Finley, a cousin of Mrs. J. D. Blaine. From his book, "American Birds," Mrs. Louis Shelley read two delightful articles, one describing the flicker and the other the grosbeak.

Burroughs wrote very little verse, but his poem "Waiting," is a real gem, and the leader read it in conclusion.

During the business session Mrs. Smith announced that at a directors' meeting Mrs. Lillie F. Shaw had been chosen to fill the unexpired term of the late Miss Mary Lewis.

FOUNTAIN INSTALLED

Geo. Isbell is having installed one of the newest and up-to-the-minute soda fountains in his confectionery store. It is of brown marble equipped with removable porcelain trays and containers. A new feature of this fountain is the automatic syrup gauge that accurately measures the flavoring syrup for each service. This insures a uniform and proper content of flavor. All parts are removable and readily cleaned and Mr. Isbell is making cleanliness his hobby. When installed Campbell may well be proud of its up-to-date dispensary of toothsome delicacies.

BROWN-RICE WEDDING

The friends of Gregory Rice and Miss June Brown of Campbell were surprised to learn that the couple were quietly married in San Jose last Saturday morning. The ceremony was performed by Rev. J. A. Emrich in the parlors of the Christian church at ten o'clock, with none but members of the family present. The couple immediately left by motor for Carmel and other points on the Monterey peninsula. They will make their home for the present in the cottage of Mr. and Mrs. Lloyd Cox on Cox avenue. Congratulations are forthcoming from a large number of friends.

CHINA RELIEF TEA

Campbell W. C. T. U. will meet with Mrs. C. H. Whitman on Wednesday, 2:30 p. m., May 4th. There will be a program, light refreshments, a social hour and an offering taken in behalf of the "China Famine Fund."

Where so many human lives are at stake in that country is it not a duty as well as a privilege to come out and by your contribution "Write Christianity in indelible letters on Chinese life"?

Miss Georgene Griffin of Los Altos visited at the L. T. Lenox home the first of the week.

A goodly number of the Campbell C. E.'s attended a booster rally in San Jose Monday night. Each society put on some stunt designed to arouse interest and enthusiasm in the state convention to be held at Glendale in June.

Tuesday, the day of the "Sign-Up" campaign, Mr. and Mrs. Jas. Turner entertained the Campbell community teams, fourteen hungry hustlers, at dinner, which was greatly appreciated by all. Mr. Turner has been a most enthusiastic worker in this good cause.

E. E. Sower has just received a shipment of ball band Rubber Boots from the factory, in long, short and medium lengths.

Mr. Grower of Prunes and Apricots:

Get off that keg of dynamite!

It's going to blow up next Saturday, April 30, and you are going with it.

The old story? Oh, no! It's different this time.

Unless 75 per cent of the acreage is signed up by midnight, April 30, every signed contract will automatically expire.

Read the contract and you'll see that it is a legal impossibility to continue without the 75 per cent. And only 56 per cent is signed up today.

Remorse and regrets come thick and fast with 2c. or 3c. prunes and mortgages. Also land values that are cut in two.

You won't even have an opportunity to tell your sad and sorrowful story to a mocking world. You'll go up with the explosion.

Waiting, waiting, waiting—with a hope that the other fellow is going to keep the umbrella over your head—might have helped you in days gone by. But not this year. The zero hour is midnight, April 30. It's 75 per cent—or an explosion. And if you won't make it 75 per cent, it's your funeral.

CALIFORNIA PRUNE AND APRICOT GROWERS INC.
San Jose, California

These are the figures which forecast ruin for the prune and apricot industry of California

	Total Prune acreage in California	75% of Prune acreage demanded by Association	Total Prune acreage signed to date	Acreage still needed	Total signed one week ago	Acreage gained last week	Per cent of total acreage signed to date
Prunes	140,954	105,715	78,695	27,020	73,051	5,644	56%
Apricots	55,365	41,523	24,846	16,677	23,461	1,385	45%

Note: These figures show the status of the sign-up campaign up to Saturday, April 23rd.
