More Suggestions For Our City Trustees

Never a day passes now that some person or persons do not come into the Pine Cone office to offer one or several suggestions for the consideration of our city trustees.

With an empty treasury, as at present, it is not apparent just how some of these propositions are to be carried out.

Nevertheless it will do no harm to present here some of the matters our citizens have in mind:

"Purchase the Forest Theatre property, and make the affair a municipal enterprise."

"Stop auto speeding on San Carlos avenue, at least during school hours."

"Order sidewalks laid and houses numbered, that carrier delivery of mail may be inaugurated."

"Build a new bath-house, and provide hot salt water baths."

"Appoint 'Dad' Hamilton City Marshal."

Figures From Carmel Voting Precinct

The largest vote ever polled in Carmel at any election was cast last Tuesday. Of 403 names on the great register 292 citizens voted. The surprise of the count was the showing made by the Socialists. Benson, candidate for President, received 81 votes here, or nearly thirty per cent of all the votes cast here for President. Mills for Senator, received more votes than Patton, and Governor Johnson had as many as both together. Rigdon, who has been elected State Senator, ran behind Boyce in this precinct.

In most of the precincts on Monterey Peninsula the count was completed at about 3 a. m., but Carmel's efficient election board, which had more votes to count than most of the others, had final figures before 1 o'clock.

The Pine Cone's announcement of Hughes' election was based upon telegraphic advices received at 6 o'clock Wednesday morning. Many journals made a similar announcement.

The vote in Carmel was as follows:

Will This Provoke a Controversy?

According to the discovery recently made by Herbert I. Priestly, Curator of the Bancroft Library of the University of California, credit for planning the settlement of Upper California by the Spaniards is due, not to Junipero Serra, hero of the missions, but to visitor-general Jose de Galvez.

In a volume just published, Priestly, who has done very extensive research work in manuscripts of early California history, gives credit for planning the missions to Galves, and the honor for building them to Father Serra. He says:

"Galves found that the military management by Gaspar de Portola's soldiers had caused the Lower California missions to suffer, and he restored management of their affairs to Father Junipero Serra. When Galves proposed the establishment of Missions in Upper California, the College of San Fernando, which had charge of the California missions, was bitterly opposed to the plan of establishing so many new missions and at such remote distances, but Father Serra was an enthusiastic supporter of the plan Galves proposed."

The work of research in California history has been promoted by the Native Sons, who have annually appropriated \$3000 to the State University for the maintenance of scholarships.

Dramatic Art School Notes

Mr. Robert Lippitt delighted guests of the school on Saturday evening with a program of French music by composers of the old and modern schools.

Mr. Lippitt is in Carmel for a short visit before a journey East in the interest of the Red Cross Society of France. He will give programs of French music at the winter resorts in California and the southern states, and will sell the hand work of wounded French soldiers.

Mrs. Sydney Yard spent last Monday and Tuesday with her classes in Redwood City and Palo Alto.

The second in the series of music history lectures will be given this afternoon at three o'clock. The development of church music will be the subject.

The Oral Expression class for men will meet on Wednesday evening at 7:30.

Popular Singer to Become a Citizen

John McCormack, who is now
in San Francisco, has announced
his intention of settling in the
United States and becoming a citi-
zen. This popular operatic and
concert tenor has a princely income
from his voice and his "records."
He is a native of Athlone, Ireland,
and was educated in County Sligo.
His training for his calling was
obtained in Milan.

McCormack's first fame was won
in concert work in Dublin. In
1907 came his debut as an opera
singer in London. A year later he
sang in the United States with the
Metropolitan Opera company,
since which time he has been gather-
ing a large following of concert-
goers who admire the lyric quality
of his voice and the sentiment of
songs. They find in him a true
exponent of the art of Ireland.

New Name Proposed for Uncle Sam

"Unistatia," is a name now pro-
posed for the nation at present
called the United States of North
America, in order that it may com-
port with Canada, Mexico, Brazil,
Argentina, and other national di-
visions of the western continents,
says Christian Science Monitor.

It has two recommendations, at
least: First, it is a very good con-
densation of the longer term, and
second, it is euphonious. "I am a
Unistatian" would be an improve-
ment on "I am an American," in
so far as it would indicate more
clearly what part of America the
speaker claimed as his country.

Of course, there are obstacles in
the way of adoption of the desig-
nation, as there would be to any
change, but they are not insuper-
able.

As to any difficulty in getting
accustomed to the new name, it is
only necessary to point to the ease
with which the world accepted
Petrograd for St. Petersburg.—

Tools and Animals

Have you ever realized what a
number of scientific appliances
have been named after animals?
And can you furnish an explana-
tion?

A mechanic puts his work upon
a horse, or buck, and he punches
or bends it by a convenient bear.
Hoisting is done by a crab, a con-
venient cat is part of the outfit of
a shop crane, and a kit of tools is
ever at hand.

A crow helps to straighten work,
a jack to lift it; a mule pulley
helps to drive machinery which a
donkey engine turns. A fish con-
nects parts end to end, shells are
used all over, while a worm does
quiet but powerful work.

Again, a cock shuts off water; a
ram lifts it. A printing press has
a fly, the first locomotive had a
grasshopper valve motion, and
butterfly valves are common.

Herring bone gears are used by
the best builders; turtles fit print-
ing cylinders, and fly wheels are
running all over the world. In
drilling, even an old man is called
into service, and doctors prevent
faulty lathe work.—Answers.

Fireman's Picnic

Bright and early Sunday
morning the Carmel firemen
and their families and friends
to the number of forty-five
started for Wildcat Canyon,
south of Carmel Highlands.

Except for the cold wind,
everyone had a good time.
One of the best features of the
affair was the side show and
sure-thing game conducted by
Bob Leidig and Dinky Dingle,
in which the coin of the realm
was pine cones. No one, ap-
parently, was concerned by
the high cost of living, judg-
ing by the quality and quantity
of food provided. And it was
some baseball.

The committee in charge did
a first-class job.

The National Election

The East has spoken and the West has spoken. For the first time since the foundation of the republic, the successful candidate for the Presidency owes his election to the States west of the Mississippi, with the help of Ohio and the Solid South.

The failure of Hughes to carry California should excite no wonder. Had he not come here at all the State would have gone normally Republican. He did come and at once "got in bad" by aligning himself with the reactionary element of the Republican party. Had candidate Hughes spent but one hour with Rowell at Fresno or with Johnson at Sacramento, California might have been saved to him.

No legislation of the Wilson administration can be said to have contributed to the success of the Democratic nominee. The campaign slogan, "He kept us out of war," a fancied accomplishment, got Thomas Woodrow Wilson more votes than any other agency.

Democrats as well as those of other political faiths are wondering if we are to have four years more of watchful, wasteful waiting and munitions prosperity.
