Title 3—The President

EXECUTIVE ORDER 11731

Amending Executive Order No. 11647 Relating to Federal Regional Councils

On February 10, 1972, I formally established Federal Regional Councils for each of the ten Federal regions, and established an Under Secretaries Group for Regional Operations to strengthen and improve services to the public at the regional level. I have now determined that the mandate of the Federal Regional Councils should be broadened to include the coordination of direct Federal program assistance to State and local governments (as well as grant assistance as now provided), that the membership of the Councils and the Under Secretaries Group for Regional Operations should be changed, and that the Deputy Director of the Office of Management and Budget should be substituted as Chairman of the Under Secretaries Group in place of the Associate Director of that agency.

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States of America, sections 1, 2, and 3 of Executive Order No. 11647¹ of February 10, 1972, are amended to read as follows:

SECTION 1. *Federal Regional Councils.* (a) There is hereby continued a Federal Regional Council for each of the ten standard Federal regions. Each Council shall be composed of the principal regional officials of the Departments of Labor, Health, Education, and Welfare, Housing and Urban Development, Agriculture, the Interior, and Transportation, the Office of Economic Opportunity, the Environmental Protection Agency, and the Law Enforcement Assistance Administration.

The President shall designate one member of each such Council as Chairman of that Council and such Chairman shall serve at the pleasure of the President. Representatives of the Office of Management and Budget may participate in any deliberations of each Council.

(b) Each member of each Council may designate an alternate who shall serve as a member of the Council involved whenever the regular member is unable to attend any meeting of the Council.

(c) When the Chairman determines that matters which significantly affect the interests of the Federal agencies which are not represented on any such Council are to be considered by the Council, he shall invite the regional director or other appropriate representative of the agency involved to participate in the deliberations of the Council.

SEC. 2. *Functions of the Council.* Each Federal Regional Council shall be constituted as a body within which the participating agencies

¹ 37 FR 3167; 3 CFR, 1970 Comp., p. 146.

THE PRESIDENT

will, under the general policy formulation of the Under Secretaries Group, and to the maximum extent feasible, assist State and local government by the coordination of the Federal program grants and operations through:

- (1) the development of better ways to deliver the benefits of Federal programs over the short term;
- (2) the development of integrated program and funding plans with Governors and local chief executives;
- (3) the encouragement of joint and complementary Federal grant applications by local and State governments;
- (4) the expeditious resolution of conflicts and problems which may arise between Federal agencies;
- (5) the evaluation of programs in which two or more member agencies participate;
- (6) the development of more effective ways of allocating Federal resources to meet the long-range needs of State and local communities;
- (7) the supervision of regional interagency program coordination mechanisms; and
- (8) the development of administrative procedures to improve day-to-day cooperation on an interagency and intergovernmental basis.

SEC. 3. *Under Secretaries Group for Regional Operations.* The Under Secretaries Group for Regional Operations is hereby continued and shall be composed of the Under Secretaries of Agriculture, the Interior, Labor, Health, Education, and Welfare, Housing and Urban Development, and Transportation, the Administrator of the Law Enforcement Assistance Administration, the Deputy Director of the Office of Economic Opportunity, the Deputy Administrator of the Environmental Protection Agency, an Associate Director of the Domestic Council, and the Deputy Director of the Office of Management and Budget, who shall serve as the Chairman of the Group. When the Chairman determines that matters which significantly affect the interest of Federal agencies which are not represented on the Group are to be considered by the Group, he shall invite an appropriate representative of the agency involved to participate in the deliberations of the Group. The Under Secretaries Group for Regional Operations shall, consistent with the objectives and priorities established by the President and the Domestic Council, establish policy with respect to Federal Regional Council matters, provide guidance to the Councils, respond to their initiatives, and seek to resolve policy issues referred to it by the Councils. The Under Secretaries Group, under the Chairmanship of the Deputy Director of the Office of Management and Budget, shall be responsible for the proper functioning of the system established by this order.

THE WHITE HOUSE,
July 23, 1973.

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL PART 140—COST OF LIVING COUNCIL FREEZE REGULATIONS

Exports Exemption

The purpose of this amendment is to include within the exports exemption the sale of a product to a domestic purchaser who certifies that the product is for export.

Prior to this amendment, § 140.33 stated that "Prices charged for exports are exempt." This was interpreted by the Cost of Living Council's Special Freeze Group (Q. & A. 13-3) to apply only to the actual export sale. The sale to a domestic purchaser who subsequently exports the item was not exempt.

The Council has found that this amendment is necessary to avoid windfall profits to domestic purchasers for export who buy at prices subject to the freeze and export at prices which are exempt from control. The amendment will help assure that whatever gain is to be derived from the exports exemption will inure to the benefit of the manufacturer of the export item rather than the domestic purchaser who is the exporter of record.

This amendment constitutes a return to the exports exemption as defined in Phase II and in Phase III prior to the current freeze.

Because the purpose of this amendment is to provide immediate guidance and information with respect to the current price freeze, the Council finds that publication in accordance with normal rule making procedure is impracticable and that good cause exists for making this amendment effective in less than 30 days.

(Economic Stabilization Act of 1970; as amended, Pub. L. 92-210, 85 Stat. 743; Pub. L. 93-28, 87 Stat. 27; E.O. 11730, 38 FR 19345; Cost of Living Council order No. 30, 38 FR 16267)

In consideration of the foregoing, Part 140 of Chapter I of Title 6 of the Code of Federal Regulations is amended as follows, effective July 19, 1973.

Issued in Washington, D.C., on July 19, 1973.

JAMES W. McLANE,
Director,
Special Freeze Group.

Section 140.33 is amended to read as follows:

§ 140.33 Exports.

Export sales, including sales of a product to a domestic purchaser who certifies that the product is for export, are exempt.

Title 7—Agriculture

CHAPTER X—AGRICULTURAL MARKET- ING SERVICE (MARKETING AGREE- MENTS AND ORDERS; MILK), DEPART- MENT OF AGRICULTURE

[Milk Order No. 30; Docket No. AO-361-A8]

PART 1030—MILK IN THE CHICAGO REGIONAL MARKETING AREA

Order Amending Order

Findings and determinations. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) **Findings.** A public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Chicago Regional marketing area.

The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure (7 CFR Part 900).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) **Additional findings.** It is necessary in the public interest to make this order amending the order effective not later than August 1, 1973. Any delay be-

yond that date would tend to disrupt the orderly marketing of milk in the marketing area.

The provisions of this order are known to handlers. The recommended decision of the Deputy Administrator, Regulatory Programs, was issued June 12, 1973, and the decision of the Assistant Secretary containing all amendment provisions of this order was issued July 9, 1973. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective August 1, 1973, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (Sec. 553(d), Administrative Procedure Act, 5 U.S.C. 551-559)

(c) **Determinations.** It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in sec. 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

ORDER RELATIVE TO HANDLING

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Chicago Regional marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

1. In § 1030.10 paragraphs (a) and (c) are revised to read as follows:

§ 1030.10 Plant.

(a) "Plant" means a building together with its facilities and equipment, whether owned or operated by one or more persons constituting a single operating unit or establishment: (1) that has facilities adequate for cleansing tank trucks, is approved by an appropriate health authority, and at which milk moved from the

farm is transferred and commingled in another tank truck with other milk and is transhipped in such other tank truck to another plant, (2) at which milk is received from dairy farmers, or (3) at which milk is processed and packaged or manufactured. If a portion of the building is not approved by any health authority for the receiving, processing, or packaging of any fluid milk product for Grade A disposition and is physically separated from the approved portion, such unapproved portion shall not be considered as meeting the terms of this definition.

(c) "Supply plant" means a plant from which a Grade A fluid milk product is shipped or transhipped during the month to another plant. Such supply plant shall be equipped with storage capacity sufficient to hold the largest quantity of fluid milk product either received in the plant or shipped from the plant as a single load during the month, except that no storage capacity shall be maintained in a plant described in paragraph (a) (1) of this section. Any plant located on the premises of a pool distributing plant pursuant to § 1030.11(a) shall not be considered a supply plant unless it is located in a building that is entirely separate from the distributing plant.

2. In paragraph (b) of § 1030.11 subparagraphs (4), (5), (6), and (7) are revised to read as follows:

§ 1030.11 Pool plant.

(b)

(4) Such percentage shall be not less than 40 for each of the months of September, October, and November, and 30 for all other months, except that a plant that was a pool plant pursuant to this paragraph during each of the months of August through December, the percentage shall be not less than 20 for each of the following months of January, February, and March. A plant meeting such requirements for August through March shall be a pool plant for each of the following months of April through July, unless:

(i) The milk received at the plant does not continue to meet the Grade A milk requirements for use in fluid milk products distributed in the marketing area; or

(ii) Written application is filed with the market administrator by the plant operator on or before the first day of any such month (April-July) requesting the plant be designated a nonpool plant for such month and any subsequent month through July, provided it does not otherwise qualify as a pool plant.

(5) For the purpose of determining the percentages specified in subparagraphs (4) and (7) of this paragraph, the quantity of fluid milk products moved from a supply plant pursuant to subparagraph (1) (i) of this paragraph shall be a net quantity assignable at pool distributing plants computed by subtracting from the quantity of fluid milk products received

from a supply plant(s), but not to exceed such quantity, the amounts described in subdivisions (i) and (ii) of this subparagraph (if fluid milk products are received from more than one supply plant, such net quantity assignable shall be prorated among supply plants in accordance with the total receipts from such plants).

(i) The quantity of fluid milk products in the form of bulk milk and skim milk transferred from the pool distributing plant to pool supply plants plus any such bulk shipments to nonpool plants as Class II milk, other than:

suant to § 1030.16(d) on such day. If no (a) Transfers classified pursuant to § 1030.41(b) (4); and

(b) Transfers on any Saturday or on New Year's Day, Memorial Day, July 4, Labor Day, Thanksgiving, or Christmas, that no milk is received at the pool distributing plant from a supply plant, in an amount not in excess of 120 percent of the average daily receipts of producer milk pursuant to § 1030.16(a) at the plant during the prior month, less the quantity of producer milk diverted pursuant to § 1030.16(e) on such day. If no producer milk was received in the distributing plant during the prior month, the average daily receipts during the current month shall be used in lieu of the prior month for computing the transfers to be excepted by this subdivision; and

(ii) If milk is diverted from the pool distributing plant on the date of the receipt from the supply plant, the quantity so diverted, except any diversion of milk (not to exceed 3 days' production of any individual producer) made because of an emergency situation such as a breakdown of trucking equipment or hazardous road conditions shall not be subtracted if such emergency is reported to the market administrator.

(6) The percentages specified in subparagraph (4) and/or in subparagraph (7) (iii) of this paragraph applicable during the months August-March shall be increased or decreased by up to 10 percentage points by the Director of the Dairy Division if he finds such revision is necessary to obtain needed shipments or to prevent uneconomic shipments, except that the percentages specified in subparagraph (7) (iii) shall not exceed 50 percent of those specified in subparagraph (4). Before making such a finding the Director shall investigate the need for revision either on his own initiative or at the request of interested persons and if his investigation shows that a revision might be appropriate he shall issue a notice stating that revision is being considered and inviting data, views, and arguments with respect to the proposed revision: *Provided*, That if a plant which would not otherwise qualify as a pool plant during the month pursuant to subparagraph (4) or subparagraph (7) (iii) of this paragraph would qualify as a pool plant as a result of this subparagraph, such plant shall be a nonpool plant for such month upon filing by the operator of such plant a written request for nonpool status with the market administrator.

(7) Two or more plants shall be considered a unit for the purpose of this paragraph if the following conditions are met:

(i) The plants included in a unit are owned or fully leased and operated by the handler establishing the unit and such plants shall have been pool plants the month prior to being included in a unit. In the case of plants operated by cooperative associations two or more cooperative associations may establish a unit of designated plants by filing with the market administrator a written contractual agreement obligating each plant of the unit to ship milk as directed by such cooperatives;

(ii) The handler or cooperatives establishing a unit notify the market administrator in writing of the plants to be included therein prior to August 1 of each year and no additional plants shall be added to the unit prior to August 1 of the following year;

(iii) Each plant in a unit ships or transships to plants specified in subparagraph (1) of this paragraph the following percentages of its producer milk: 20 in each of the months of September, October, and November; 15 in each of the months of August and December; and 10 in each of the months of January, February, and March. If for any month a plant does not meet the individual plant shipping percentage, that plant shall be excluded from the unit; and

(iv) The notification pursuant to subdivision (i) of this subparagraph shall list the plants in the order in which they shall be excluded from the unit if the minimum shipping requirements are not met, such exclusion to be in sequence beginning with the first plant on the list and continuing until the remaining plants as a unit have met the minimum requirements.

3. In § 1030.15 delete the "and" at the end of paragraph (b), delete the period at the end of paragraph (c) and add "; and," and add a new paragraph (d) to read as follows:

§ 1030.15 Producer.

(d) A dairy farmer with respect to milk produced by him that is received at a handler's pool plant during the months of January through July if any milk from the same farm was a receipt of producer milk in any "payback" month during the preceding year under an other order that provided for a seasonal incentive payment plan whereby funds previously withheld in the computation of the uniform price to producers were paid back to producers through the uniform price computation in subsequent months of the year.

4. In § 1030.16 paragraph (e) is revised to read as follows:

§ 1030.16 Producer milk.

(e) Diverted from a pool plant to a nonpool plant, subject to the conditions

specified in this paragraph. Milk shall be eligible for diversion as producer milk only if the person producing such milk had delivered milk as producer milk to a pool plant prior to the diversion. Milk picked up at a producer's farm in a tank truck, to the extent it is unloaded at a nonpool plant, shall be subject to the conditions specified in this paragraph; and if the tank truck contains milk from more than one producer, the quantity subject to the conditions specified in this paragraph shall be prorated over the total quantity of milk picked up at each producer's farm. In calculating the percentages specified in § 1030.11, milk so diverted shall be considered as received in the pool plant from which diverted. The location price differentials pursuant to § 1030.82 shall be based on the zone location of the nonpool plant(s) where such milk is physically received, except that in the case of a distributing plant, diverted milk of a producer shall be priced at the location of such plant if during the month not more than 4 days' production of such producer is diverted, or if the diverted milk is part of a tank truck load of milk that exceeds the milk storage capacity of such distributing plant. Diverted milk shall be limited as follows:

(1) Milk of a producer diverted for the account of the operator of a pool plant or a cooperative association pursuant to § 1030.13(d) that during the months of April through December does not exceed the quantity of such producer's milk received in the pool plant from which diverted, and during the months of January, February and March does not exceed 70 percent of such producer's milk received in or diverted from such pool plant: *Provided*, That during the months of April through July such limits shall not apply for a producer who delivered to a pool plant any time during the prior August-December period and subsequently maintained producer status without interruption of more than 30 consecutive days;

(2) To the extent that milk diverted by a cooperative as a handler during any month would result in the plant falling to qualify as a pool plant under § 1030.11 such diverted milk shall not be producer milk;

(3) Milk diverted to an other order plant shall be producer milk pursuant to this section only if it is not producer milk under such other order; and

(4) Milk of a producer diverted by a handler who fails to report the information required pursuant to § 1030.31 (b) (4) shall not be considered producer milk pursuant to this paragraph.

5. In § 1030.30 subparagraph (3) of paragraph (a) is revised to read as follows:

§ 1030.30 Reports of receipts and utilization.

(a) * * *

(3) Fluid milk products received from pool plants of other handlers (or other

pool plants, as applicable), including a separate statement of the net receipts from each supply plant computed pursuant to § 1030.11(b) (5), except that during the months of April through July no such separate statement need be made if receipts from supply plants are only from plants that were pool plants during the prior months of August through March;

6. In paragraph (b) of § 1030.31 delete the term "and" at the end of subparagraph (4), add the term "and" at the end of subparagraph (5), and add a new subparagraph (6) to read as follows:

§ 1030.31 Other reports.

(b) * * *

(6) Each handler who, during the month, received milk from a dairy farmer from whom he had not received milk for at least 30 consecutive days, shall report the name and address of the dairy farmer and the plant to which each such person previously delivered milk. Each handler who discontinues receiving milk from a producer during the month shall report each such producer's name, address, and the plant to which such person transferred.

7. In § 1030.46(a) (3) delete the term "and" at the end of subdivision (iv), change the period at the end of subdivision (v) to a semicolon, add the term "and" at the end of subdivision (vi), and add a new subdivision (vii) to read as follows:

§ 1030.46 Allocation of skim milk and butterfat classified.

(a) * * *

(3) * * *

(vii) Receipts of fluid milk products from persons described in § 1030.15(d);

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Effective date: August 1, 1973.

**Title 10—Atomic Energy
CHAPTER I—ATOMIC ENERGY COMMISSION**

PART 50—LICENSING OF PRODUCTION AND UTILIZATION FACILITIES

PART 115—PROCEDURES FOR REVIEW OF CERTAIN NUCLEAR REACTORS EXEMPTED FROM LICENSING REQUIREMENTS

Codes and Standards for Nuclear Power Plants

On April 30, 1973, the Atomic Energy Commission published in the FEDERAL REGISTER (38 FR 10641) proposed amendments to its regulations, 10 CFR Part 50, "Licensing of Production and Utilization Facilities," and 10 CFR Part 115, "Procedures for Review of Certain Nuclear Reactors Exempted from Licensing Requirements," which would incorporate new addenda to specified published industry codes.

The proposed amendments to §§ 50.55a and 115.43a would provide that the editions of referenced addenda whose requirements must be met include only those addenda through the Winter 1972 Addenda as appropriate.

Interested persons were invited to submit written comments within 30 days. The only comment received favored the amendment but suggested an additional clarification which the Commission believes is unnecessary. Upon consideration of the comments received and other factors involved, the Commission has adopted the proposed amendments without modification.

Pursuant to the Atomic Energy Act of 1954, as amended, and sections 552 and 553 of title 5 of the United States Code, the following amendments to Title 10, Chapter I, Code of Federal Regulations, Parts 50 and 115 are published as a document subject to codification, to be effective on August 24, 1973.

1. In § 50.55a of 10 CFR Part 50, § 50.55a(b) is amended to read as follows:

§ 50.55a Codes and standards.

Each construction permit for a utilization facility shall be subject to the following conditions, in addition to those specified in § 50.55:

(b) As used in this section, references¹ to editions of Criteria, Codes and Standards include only those editions through

1971; references¹ to Addenda include only those Addenda through the Winter 1972 Addenda.

2. In § 115.43a of 10 CFR Part 115, § 115.43a(b) is amended to read as follows:

§ 115.43a Codes and standards.

Each construction authorization shall be subject to the following conditions, in addition to those specified in § 115.43:

(b) As used in this section, references¹ to editions of Criteria, Codes and Standards include only those editions through 1971; references¹ to Addenda include only those Addenda through the Winter 1972 Addenda.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. D]

PART 204—RESERVES OF MEMBER BANKS

Marginal Reserve Requirements

The Board of Governors has amended its Regulation D so as to apply the 8 percent marginal reserve requirement to multiple maturity time deposits of \$100,000 or more; the amount of such deposits outstanding during the week ending May 16 will be included in a member bank's base for purposes of calculating the marginal reserve requirement. The Board's action was taken pursuant to its authority under section 19 of the Federal Reserve Act to set reserve ratios for member banks (12 U.S.C. 461).

There was no notice or public participation with respect to this amendment since such procedure would result in delay that would be contrary to the public interest and serve no useful purpose. See § 262.2(e) of the Board's rules of procedure, 12 CFR 262.2(e).

Effectively immediately, § 204.5(a) (1) (ii) (b) and (2) (ii) (b) of Regulation D is amended to read as set forth in §§ 204.5(a) (1) (ii) (b) and (c), and (2) (ii) (b) and (c), below. There was no deferred effective date with respect to this

¹ These incorporation by reference provisions were approved by the Director of the Federal Register on March 17, 1972 and May 4, 1973.

amendment, as provided in section 553 (d) of Title 5, United States Code, since this amendment recognizes an exemption or relieves a restriction. 5 U.S.C. 553(d) (1).

Effective August 30, 1973, § 204.5 (a) (1) (ii) (a) and (2) (ii) (a) of Regulation D is amended to read as set forth below.

On the effective dates stated above, § 204.5(a) (1) (ii) and (2) (ii) of Regulation D is amended to read as follows:

§ 204.5 Reserve requirements.

(a) *Reserve percentages.* Pursuant to the provisions of section 19 of the Federal Reserve Act and § 204.2(a) and subject to paragraph (c) of this section, the Board of Governors of the Federal Reserve System hereby prescribes the following reserve balances that each member bank of the Federal Reserve System is required to maintain on deposit with the Federal Reserve Bank of its district:

(1) If not in a reserve city—

(i) 3 percent of its other time deposits up to \$5 million, plus 5 percent of such deposits in excess of \$5 million: *Provided, however,* That a member bank shall maintain a reserve balance equal to 8 percent of the amount by which the daily average amount of time deposits of the types hereinafter specified exceeds either the daily average amount of such time deposits outstanding during the computation period ending May 16, 1973, or \$10 million, whichever is greater, and such 8 percent reserve percentage shall apply with respect to time deposits of the following types:

(a) Time deposits of \$100,000 or more; and

(b) Time deposits represented by promissory notes, acknowledgments of advance, due bills, or similar obligations issued by a member bank's affiliate, as provided in § 204.1(f);

(c) Time deposits represented by bank acceptances, as provided in § 204.1(f); and

(2) If in a reserve city (except as to any bank located in such a city that is permitted by the Board of Governors of the Federal Reserve System, pursuant to § 204.2(a) (2), to maintain the reserves specified in subparagraph (1) of this paragraph)—

(i) 3 percent of its other time deposits up to \$5 million, plus 5 percent of such deposits in excess of \$5 million: *Provided, however,* That a member bank shall maintain a reserve balance equal to 8 percent of the amount by which the daily average amount of time deposits of the types hereinafter specified exceeds either the daily average amount of such time deposits outstanding during the computation period ending May 16, 1973, or \$10 million, whichever is greater, and such 8 percent reserve percentage shall apply with respect to time deposits of the following types:

(a) Time deposits of \$100,000 or more; and

(b) Time deposits represented by promissory notes, acknowledgments of advance, due bills, or similar obligations issued by a member bank's affiliate, as provided in § 204.1(f); and

(c) Time deposits represented by bank acceptances, as provided in § 204.1(f); and

By order of the Board of Governors, July 16, 1973.

[Reg. Q]

PART 217—INTEREST ON DEPOSITS

Maximum Rates of Interest

The Board of Governors has amended its Regulation Q so as to remove the distinction between single maturity and multiple maturity time deposits with respect to the maximum rates of interest payable by member banks on such deposits. This action, which was taken pursuant to the Board's authority under section 19 of the Federal Reserve Act to prescribe rules governing the payment of interest on deposits, has the effect of removing interest rate ceilings on multiple maturity time deposits of \$100,000 or more, and on multiple maturity time deposits with maturities of 4 years or more in denominations of \$1,000 or more.

There was no notice, public participation, and deferred effective date with respect to this amendment because such procedure would result in delay that would be contrary to the public interest and serve no useful purpose. See § 262.2 (e) of the Board's rules of procedure, 12 CFR 262.2(e).

Effectively immediately, § 217.7 of the Board's Regulation Q (12 CFR Part 217) is amended to read as follows:

§ 217.7 Maximum rates of interest payable by member banks on time and savings deposits.

Pursuant to the provisions of section 19 of the Federal Reserve Act and § 217.3, the Board of Governors of the Federal Reserve System hereby prescribes the following maximum rates¹ of interest per annum payable by member banks of the Federal Reserve System on time and savings deposits:

(a) *Time deposits with no maximum rate prescribed.* There is no maximum rate of interest presently prescribed (1) on any time deposit of \$100,000 or more, or (2) on any time deposit of \$1,000 or more with a maturity of 4 years or more.

¹ The limitations on rates of interest payable by member banks of the Federal Reserve System on time and savings deposits, as prescribed herein, are not applicable to any deposit which is payable only at an office of a member bank located outside the States of the United States and the District of Columbia.

(b) *Time deposits with maximum rates prescribed.* Except as provided in paragraph (a) of this section, no member bank shall pay interest on any time deposit at a rate in excess of the applicable rate under the following schedule:

Maturity	Maximum per cent
30 days or more but less than 90 days	5
90 days or more but less than 1 year	5½
1 year or more but less than 30 months	6
30 months or more	6½

(c) *Savings deposits.* No member bank shall pay interest at a rate in excess of 5 percent on any savings deposit.

By order of the Board of Governors,
July 16, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

Alteration of Control Zone; Correction

In FR Doc 73-13005 appearing on page 16992 in the issue of Thursday, June 28, 1973, the complete description of the Chino, California control zone was inadvertently omitted.

The following description should be added:

In § 71.171 (38 FR 351) the description of the Chino, Calif., control zone is amended to read:

CHINO, CALIF.

Within a 3-mile radius of Chino, Calif., Airport (lat. 33° 58' 30" N., long. 117° 38' 10" W.) and within 1.5 miles each side of the Ontario, Calif., VORTAC 303° radial, extending from the 3-mile radius area to 1 mile northwest of the VORTAC. This control zone shall be effective during the specific dates and times published in advance by a notice to airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

Issued in Los Angeles, Calif., on July 13, 1973.

PART 8—COLOR ADDITIVES

Subpart H—Listing of Color Additives From Cosmetic Use Exempt From Certification

TITANIUM DIOXIDE; CONFIRMATION OF EFFECTIVE DATE OF ORDER LISTING FOR COSMETICS USE

In the matter of listing titanium dioxide as a safe and suitable color additive for use in cosmetics and exempting it from certification:

1. Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 706(b), (c), (d), 74 Stat. 399-403; 21 U.S.C. 376(b), (c), (d)), and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), notice is given that no objections or requests for hearing were filed in response to the order in the above-identified matter published in the FEDERAL REGISTER of April 5, 1973 (38 FR 8650). Accordingly, the regulation (§ 8.8001) promulgated thereby became effective June 4, 1973.

2. Effective on July 25, 1973, § 8.501 *Provisional lists of color additives* is amended in the table in paragraph (g) by deleting "Titanium dioxide" from the list of color additives.

SUBCHAPTER C—DRUGS

PART 135—NEW ANIMAL DRUGS

Subpart C—Sponsors of Approved Applications

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

Chloramphenicol Capsules, Veterinary

The Commissioner of Food and Drugs has evaluated a new animal drug application (65-345V) filed by Caribe Chemical Co., Inc., 576 Fifth Ave., New York, NY 10036, proposing the safe and effective use of chloramphenicol capsules for the treatment of dogs. The application is approved.

The firm is being assigned a code number and added to the list of sponsors in § 135.501(c) of Part 135.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(d), 82 Stat. 347; 21 U.S.C. 360b(d)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135 and 135c are amended as follows:

1. Section 135.501(c) is amended by adding a new code number 096 as follows:

Title 25—Indians

CHAPTER I—BUREAU OF INDIAN AFFAIRS, DEPARTMENT OF THE INTERIOR

SUBCHAPTER B—LAW AND ORDER

PART 11—LAW AND ORDER ON INDIAN RESERVATIONS

Exemption Allowing Use of Peyote on Navajo Reservation in Religious Services of Native American Church

The authority to issue regulations on Indian affairs is vested in the Secretary

of the Interior by 5 U.S.C. 301 and sections 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9).

Part 11, Subchapter B, Chapter I, of Title 25 of the Code of Federal Regulations is amended by revising § 11.87NH. This revision allows members of the Native American Church of North America to transport, sell, purchase, and possess peyote on the Navajo Reservation providing the peyote is to be used for religious services. The revision is made under the authority contained in section 463 of the Revised Statutes (25 U.S.C. 2).

This section is being revised at the request of the Navajo Tribal Council to conform to Tribal Council Resolution CO-65-67 which amended Tribal Council Resolution CJA-1-59 to grant the same exemption. Since the Navajo Tribal Council is the governing body having jurisdiction over the Navajo Reservation and the revision is only an administrative change being made to include an exemption already granted by the Tribal Council, advance notice and public procedure thereon is deemed unnecessary. Therefore, advance notice and public procedure are dispensed with under the exception provided in subsection (b) (B) of 5 U.S.C. 553 (1970).

Since this revision is an administrative change reflecting an exemption already granted by the governing body of the Navajo Tribe, the 30-day deferred effective date would cause unnecessary delay and is dispensed with under the exception provided in subsection (d) (3) of 5 U.S.C. 553 (1970). Accordingly, these regulations will become effective July 25, 1973.

As revised, § 11.87NH reads as follows:

§ 11.87NH Peyote violations.

Any Indian who shall introduce into the Navajo country, sell, use or have in his possession within said Navajo country, the bean known as peyote shall be deemed guilty of an offense and upon conviction thereof shall be sentenced to labor for a period not to exceed 9 months or a fine not to exceed \$100, or both; *Provided*, That it shall not be unlawful for any member of the Native American Church to transport into Navajo country, buy, sell, possess, or use peyote in any form in connection with the religious practices, sacraments or services of the Native American Church.

WILLIAM L. ROGERS,
Deputy Assistant Secretary of
the Interior.

SUBCHAPTER F—ENROLLMENT

PART 43h—PREPARATION OF A ROLL OF ALASKA NATIVES

Exceptions to Regulations

The general authority to issue regulations is vested in the Secretary of the Interior by 5 U.S.C. section 301, and sections 463 and 465 of the Revised Statutes (25 U.S.C. sections 2 and 9).

Under that authority the Secretary has issued 25 CFR 1.2, which permits him to waive or make exceptions to his regulations as found in Chapter I of Title 25 of the Code of Federal Regulations in all cases where permitted by law and the Secretary finds that such waiver or exception is in the best interest of the Indians. Pursuant to 25 CFR 1.2, I find it to be in the best interest of the Alaska Natives to authorize the exceptions to Part 43h which are set out in § 43h.13, which is hereby added to part 43h. These exceptions are necessary to permit the proper and timely completion of the roll of Alaska Natives. Specifically, exceptions are made in § 43h.13 to the protest provisions of § 43h.6, § 43h.7 and § 43h.8 in regard to applications processed on or after June 28, 1973, permitting regions and villages to appeal all decisions, save for those involving the applications of adopted persons, made on or after that date by the Coordinator, to enable final decisions to be made on applications within the time allowed by the Alaska Native Claims Settlement Act of December 18, 1971, 85 Stat. 688. Exceptions are also made in § 43h.13 to the notification requirements of § 43h.6(g) to preserve the confidentiality of information concerning adopted persons. Further, in view of the need to keep such information confidential, § 43h.13 also provides for an exception to the appeals permitted regions and villages in § 43h.8 with respect to decisions of the Coordinator on the applications of adopted persons, thus permitting only adopted persons to appeal from such decisions.

As the exceptions set forth in § 43h.13 are authorized under 25 CFR 1.2 and are necessary to permit the roll of Alaska Natives to be completed in accordance with the time requirements of the Alaska Native Claims Settlement Act of December 18, 1971, 85 Stat. 688, and to preserve the confidentiality of adoption records, advance notice and public procedures are deemed unnecessary and no benefits would be gained by deferring their effective date. Therefore, good cause exists and it is so found that advance notice and public procedure and the 30-day deferred effective date or any other deferred effective date otherwise required by 5 U.S.C. section 553(b) and (d) should be dispensed with under the exceptions provided in subsections (b) (B) and (d) (3) of 5 U.S.C. section 553. Accordingly, § 43h.13 shall become effective July 25, 1973.

§ 43h.13 is added and it reads:

§ 43h.13 Exceptions to Regulations.

"The following exceptions, under authority of 25 CFR 1.2, are made to Part 43h.

(a) With respect to applications processed on or after June 28, 1973:

(1) The procedures respecting protests by regions and villages set out in § 43h.6, § 43h.7 and § 43h.8 will not be applied, and

(2) The requirement in § 43h.7 that a village or region must have protested in order to appeal will not apply to deci-

sions made on or after June 28, 1973, by the Coordinator, who will advise regions and villages of all such decisions and of their right to appeal therefrom;

(b) The notification provisions of 43h.6(g) of this section shall not be applied to the application of an adopted person, who is a person whose natural parents' parental rights with respect to him have been terminated by court order and given to others to exercise.

(c) Notwithstanding paragraph (a) (2) of this section, a decision of the Coordinator on the application of an adopted person, as defined in paragraph (b) of this section, will not be subject to the provisions of § 43h.8 which permit appeals by regions and villages, leaving such decision subject only to appeal by the adopted person.

KENT FRIZZELL,
Acting Secretary of the Interior.

PART 221—SERVICE PROGRAMS FOR FAMILIES AND CHILDREN AND FOR AGED, BLIND OR DISABLED INDIVIDUALS: TITLES I, IV (PARTS A AND B), X, XIV, AND XVI OF THE SOCIAL SECURITY ACT

Postponement of Effective Date

Revised regulations for the social services programs under the public assistance titles of the Social Security Act were published on May 1, 1973 (38 FR 10782) with an effective date of July 1, 1973. An additional amendment clarifying several provisions was published on June 1, 1973 (38 FR 14375).

The effective date of the regulations, however, has been postponed until November 1, 1973, by the Social Security Amendments in P.L. 93-66, signed by the President on July 9, 1973. Accordingly, the regulations in Parts 220, 222, and 226 of this title as previously published remain in effect from July 1, 1973 until November 1, 1973.

In addition, recent statutory amendments affecting the social service programs have been enacted. Therefore, relevant sections of the following acts must be applied in implementing Parts 220, 222, and 226 of this title as previously published:

(1) Social Security Amendments of 1972 (Public Law 92-603)

(2) Revenue Sharing Act (P.L. 92-512)

(3) Extension of Renegotiation Act (P.L. 93-66)

PART 1—PRACTICE AND PROCEDURE

PART 73—RADIO BROADCAST SERVICES

International Broadcasting Stations; Correction

In the matter of Amendment of § 1.574 and Part 73, Subpart F, of the Commission's rules and regulations relating to International Broadcasting Stations.

1. A Report and Order (FCC 73-735) in the above-captioned proceeding was released July 11, 1973, and published in the FEDERAL REGISTER July 16, 1973 (38 FR 18886). The rule amendments adopted in that document appeared in the Appendix thereto.

2. In that Appendix, the introductory language preceding the amendment of § 1.574 stated:

"Paragraph (a) of § 1.574 is amended to read as follows:"

Although it was intended to delete the note at the end of § 1.574, through inadvertence the introductory language did not mention this. Accordingly, the introductory language is corrected to read as follows:

"Section 1.574 is amended by deleting the note following paragraph (c) and by changing the language of paragraph (a) to read as follows:"

3. The Appendix deleted § 73.752 concerning the subject of frequency control. It also added § 73.756(c) as a new rule governing that subject. For this reason, § 73.767, which makes reference to § 73.752, should have been amended to make reference to § 73.756(c) in lieu of § 73.752. Through inadvertence this was not done. Accordingly, § 73.767 is amended to read as follows:

§ 73.767 Frequency tolerance.

The operating frequencies of international broadcast station transmitters shall, at all times, be maintained within

the frequency tolerances specified in § 73.756(c).

Released: July 19, 1973.

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Part 4110]

ADVISORY BOARDS AND LOCAL ASSOCIATIONS

National Advisory Board Council

The purpose of this amendment is to restructure the membership of the National Advisory Board Council to more fully represent the public interest in the multiple uses of the lands under the administrative jurisdiction of the Bureau of Land Management.

Historically a livestock and wildlife board, the Council was expanded in 1962 to include representatives of other interest groups. The Council is composed of 42 members including: one cattle and horse representative and one sheep and goat representative from each of the 10 State Advisory Boards; the wildlife representative from each State Advisory Board; not to exceed 10 nonlivestock and nonwildlife representatives selected by the Secretary or his delegate from State Boards or other sources; one member from Alaska and one member from Washington selected by the Secretary or his delegate.

This amendment would reduce membership on the Council to 36 and include: 1 livestock representative from each of the 10 State Advisory Boards representing all classes of livestock; 1 wildlife representative from each of the 10 State Advisory Boards serving in alternate years; 1 wildlife representative elected by the Alaska Board; 20 other members to be selected by the Secretary or his delegate as follows: 1 at large for Alaska, 1 at large for Washington; 2 representing the mining industry, 2 representing forestry, 2 representing oil and gas and other leasable minerals, 3 representing outdoor recreation, 2 representing urban-suburban, including real estate; 2 representing environmental quality; 1 representing public information; 1 representing county government; 1 representing State government; 1 representing soil and water conservation and 1 representing public utilities.

The proposed amendment reduces and reorganizes membership on the National Advisory Board Council and does not by itself change authorities or procedures which have an impact on the environment. It is therefore determined that the publication of this proposed rulemaking is not a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act

of 1969 (42 U.S.C. 4332(2)(C)) is required.

In accordance with the Department's policy on public participation in rulemaking (36 FR 8336) interested parties may submit written comments, suggestions, or objections with respect to the proposed rules to the Director (210), Bureau of Land Management, Washington, D.C. 20240 until August 20, 1973.

Copies of comments, suggestions, or objections made pursuant to this notice will be available for public inspection in the Office of Public Affairs, Bureau of Land Management, Room 5643, Interior Bldg., Washington, D.C., during regular business hours (7:45 a.m.-4:15 p.m.).

Subpart 4114 of Part 4110 of Chapter II is amended as follows:

Section 4114.3 is revised to read as follows:

§ 4114.3 National Advisory Board Council.

§ 4114.3-1 Function and duties.

The National Advisory Board Council shall consider and make recommendations on policies and problems of a national scope related to all resources and uses of the National resource lands.

§ 4114.3-2 Membership.

(a) The livestock members of each State Advisory Board shall select from its members, at a meeting of each new term, one member to represent livestock on the National Advisory Board Council. The elected wildlife member on each State Advisory Board will serve on the National Advisory Board Council representing wildlife interests as follows: (1) In odd numbered calendar years, members from Arizona, Colorado, Idaho, Montana, California, and Alaska; (2) in even numbered years, members from New Mexico, Utah, Wyoming, Oregon, Nevada, and Alaska. The State Directors of each of the 10 Western States having grazing districts created under section 1 of the Taylor Grazing Act (43 U.S.C. 315) shall submit a list of nominees selected from nonlivestock and nonwildlife interests in their States. From this list and from other sources as he may determine, the Secretary of the Interior or his authorized representative shall appoint 20 members to the National Advisory Board Council as follows: 1 representative from the State of Washington, 1 representative from the State of Alaska, 2 mining representatives, 2 forestry representatives, 2 leasable mineral representatives, 3 outdoor recreation representatives, 2 urban-suburban representatives (including real estate development), 1 environmental quality representative, 1 public information representative, 2 country

government representatives, 1 State government representative, 1 soil and water conservation representative, and 1 public utilities representative.

§ 4114.3-3 Meetings.

The Council shall meet at the call of the Secretary of the Interior or his authorized representative and shall elect its own officers. Committees of the Council shall meet at the call of the Director, Bureau of Land Management, or his authorized representative. The Federal representative at all meetings shall be the Director, Bureau of Land Management or his authorized representative.

§ 4114.3-4 Administrative Support.

Administrative support of the Council shall be the responsibility of the Director, Bureau of Land Management.

JACK O. HORTON,
Assistant Secretary of
the Interior.

[7 CFR Part 967]

CELERY GROWN IN FLORIDA

Proposed Handling Limitation

The following proposed regulation would establish the quantity of Florida celery to be marketed fresh during the 1973-74 season, with the objective of assuring adequate supplies and orderly markets.

Notice is hereby given that the Secretary of Agriculture is considering the issuance of a handling regulation, hereinafter set forth, designed to promote orderly marketing of celery grown in Florida. The proposal was discussed at a public meeting June 5, 1973, in Orlando, after being unanimously recommended by the Florida Celery Committee. This committee was established pursuant to Marketing Agreement No. 149 and Order No. 967, both as amended (7 CFR Part 967). This program regulates the handling of celery grown in Florida and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

It is proposed that the Florida celery industry market 8,796,555 crates of fresh celery during the 1973-74 season. This committee recommendation reflects its appraisal of prospective supply and market conditions for the 1973-74 season.

During recent years, annual celery production from the acreage planted in

Florida and California without adverse weather that reduced output would have exceeded the capacity of the U.S., Canadian, and export market. Florida's fresh market celery sales during the 1972-73 season were approximately 7.6 million crates. An estimated 700 acres were abandoned for economic or other reasons. Fresh sales totaled about 7 million crates in 1971-72.

The recommended 1973-74 Marketable Quantity is record large, and will provide ample opportunity for the industry to market the maximum number of crates at reasonable prices to consumers. However, since the proposed quantity of celery to be marketed is well above that shipped in any prior season, the industry may have to significantly increase its efforts to stimulate consumption and attain a reasonable return to growers for their labor and investment.

Although the recommended Marketable Quantity is the largest ever proposed under the program, it still is nearly a half million crates smaller than the total Base Quantities of present producers. Further, if demand should fail to increase, present Base Quantity holders could be adversely affected economically. Therefore, in accordance with § 967.37(d) (1), no reserve is established for additional Base Quantities.

On the basis of the foregoing considerations, as well as industrywide trends in the production and sales of celery, it is believed that these regulations are necessary to maintain orderly marketing and will tend to effectuate the declared policy of the act.

All persons who desire to submit written data, views, or arguments in connection with this proposal should file the same, in four copies, with the Hearing Clerk, Room 112-A, U. S. Department of Agriculture, Washington, D.C. 20250, not later than August 9, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposal is as follows:

§ 967.309 Marketable quantity; Uniform percentage; and limitation on handling.

(a) The Marketable Quantity for the 1973-74 season is established, pursuant to § 967.36(a), as 8,796,555 crates.

(b) As provided in § 967.38(a), the Uniform Percentage for the 1973-74 season is determined as 95 percent.

(c) During the season August 1, 1973, through July 31, 1974, no handler may handle, as provided in § 967.36(b) (1), any harvested celery unless it is within the Marketable Allotment for the producer of such celery.

(d) No reserve for Base Quantities for the 1973-74 season is established.

(e) Terms used herein shall have the same meaning as when used in the said marketing agreement and order.

Dated: July 20, 1973.

Acting Deputy Director, Fruit
and Vegetable Division, Agricultural Marketing Service.

[Docket No. 19773]

BROADCASTS OF SPORTS EVENTS

Notice of Inquiry; Order Extending Time for Filing Comments in Notice of Inquiry

In the matter of practices of licensees and networks in connection with broadcasts of sports events.

1. On June 12, 1973, the Commission adopted a notice of inquiry in the above-captioned proceeding. Publication was given in the FEDERAL REGISTER on June 29, 1973, 38 FR 17270. The comment date is presently designated as July 30, 1973.

2. Columbia Broadcasting System, Inc. (CBS), the National Hockey League, and the Commissioner of Baseball, by counsel, have separately filed requests for an extension of time to and including (Saturday) September 15, 1973, for the filing of comments. CBS states that the additional time is needed because of the extent of the inquiry and because of the amount of material required to be examined during summer months when persons most knowledgeable on the subject of the inquiry are not fully available. The National Hockey League states it must analyze its own practices and assess and analyze the practices of each of its constituent members. The Commissioner of Baseball states it wants to complete a survey and analysis of factual material which is being submitted to the Commissioner's office from various Clubs.

3. Although we do not wish to delay this proceeding unduly, we nonetheless wish to have the benefit of meaningful data from parties able to shed light on the subject of this inquiry. Accordingly, it is ordered, That the date for filing comments is extended to and including (Monday) September 17, 1973.

4. This action is taken pursuant to authority found in sections 4(1), 5(d) (1), and 303(r) of the Communications Act of 1934, as amended, and Section 0.281 (d) (8) of the Commission's rules.

Adopted: July 19, 1973.

Released: July 19, 1973.

ENTRY OF CERTAIN PETROLEUM AND PETROLEUM PRODUCTS

Notice of Stipulation Required on Customs Bonds Covering the Entry of Certain Petroleum and Petroleum Products into a Customs Bonded Warehouse

JULY 18, 1973.

Section 16, Presidential Proclamation No. 4210, dated April 18, 1973, and published in the FEDERAL REGISTER April 19, 1973 (38 FR 9645) suspended the duty upon imports of petroleum and petroleum and petroleum products listed in schedule 4, part 10, Tariff Schedules of the United States, effective May 1, 1973.

The proclamation also empowers the Department of the Interior to grant licenses for the importation of petroleum and petroleum products upon the submission of an application for a license accompanied by a license fee.

Heretofore, petroleum and petroleum products admissible into a warehouse were dutiable and bond was taken in an amount equal to the aggregate sum of

double the estimated amount of ordinary Customs duty on the merchandise. Since these products are no longer dutiable, warehouse entry bonds, Customs Form 7555, covering petroleum and petroleum products entered under the provisions of Presidential Proclamation No. 4210 shall be taken in an amount equal to double the estimated amount of license fees that would have been payable for a license to enter the merchandise.

Notice is hereby given that the following stipulation shall be required to be added by the principal and surety to each warehouse entry bond, Customs Form 7555, and to each proprietor's manufacturing warehouse bond, Class 6, Customs Form 3583, and general term bond for entry of merchandise, Customs Form 7595, used in connection with the entry for warehouse of petroleum and petroleum products under Presidential Proclamation No. 4210 of April 18.

In addition to the conditions appearing in the bond dated _____, in the amount of _____, executed by _____, as principal, and _____, as surety, to which this stipulation relates, it is hereby expressly agreed by the principal and surety thereon that the following additional condition shall apply:

It is hereby understood and agreed that petroleum and petroleum products covered by Presidential Proclamation No. 4210, dated April 18, 1973, will be permitted entry into Customs bonded warehouse subject to the conditions of the aforementioned bond, and that the terms "Duties, Taxes, Charges and Exactions" as used in those conditions specifically include license fees due and payable under the said proclamation and the regulations issued thereunder.

PAPERMAKING MACHINERY AND PARTS THEREOF FROM SWEDEN

Determination of Sales At Less Than Fair Value

JULY 23, 1973.

Information was received on June 6, 1971, that papermaking machinery and parts thereof from Sweden were being, or were likely to be, sold at less than fair value within the meaning of the Anti-dumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act").

A "Withholding of Appraisal Notice" was published in the FEDERAL REGISTER of April 23, 1973 (38 FR 10025). That notice stated "For the purpose of

this notice, the term 'papermaking machinery and parts thereof' means an entire papermaking machine and the constituent components of a papermaking machine from and including the headbox to and including the reels. It refers to papermaking machinery and parts thereof purchased or agreed to be purchased as an entire papermaking machine." Because of some confusion which has arisen with respect to the class or kind of merchandise subject to the investigation, it is considered desirable to clarify that language by explaining that it is intended to and does cover any entire papermaking machine, and any constituent component of such a machine, exported from Sweden pursuant to a contract with a Swedish manufacturer for the purchase of an entire papermaking machine.

I hereby determine that for the reasons stated below, papermaking machinery and parts thereof from Sweden are being, or are likely to be, sold at less than fair value within the meaning of section 201(a) of the Act (19 U.S.C. 160(a)).

Statement of reasons on which this determination is based. The information before the Bureau of Customs indicates that the proper basis of comparison for fair value purposes is between purchase price and the adjusted home market price of such or similar merchandise.

Purchase price was calculated on the basis of the delivered contract price with deductions for inland freight in the country of exportation, ocean freight, marine insurance, United States duty, inland freight in the United States, and commissions where applicable.

Home market price was calculated on the basis of the delivered contract price with deductions for transportation costs, insurance costs, and erection cost. Appropriate adjustments to this price were made for the differences in packing costs and for differences in the merchandise compared.

Using the above criteria, purchase price was found to be lower than the adjusted home market price of such or similar merchandise.

The United States Tariff Commission is being advised of this determination.

This determination is being published pursuant to section 201(c) of the Act (19 U.S.C. 160(c)).

Assistant Secretary of
the Treasury.

PAPERMAKING MACHINERY AND PARTS THEREOF FROM FINLAND

Antidumping; Determination of Sales At Not Less Than Fair Value

JULY 23, 1973.

On April 23, 1973, there was published in the FEDERAL REGISTER a "Notice of Tentative Negative Determination" (38 FR 10027), that papermaking machinery

and parts thereof from Finland are not being, nor likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)) (referred to in this notice as "the Act").

The statement of reasons for the tentative determination was published in the above-mentioned notice and interested persons were afforded an opportunity to make written submissions and to present oral views in connection with the tentative determination.

After consideration of all views and arguments, I hereby determine that, for the reasons stated in the tentative determination, papermaking machinery and parts thereof from Finland are not being, nor likely to be, sold at less than fair value (section 201(a) of the Act; 19 U.S.C. 160(a)).

This determination is published pursuant to section 201(c) of the Act (19 U.S.C. 160(c)) and § 153.33(b), Customs Regulations (19 CFR 153.33(b)).

CHESTNUT SHIPPING CO.

Notice of Application

Notice is hereby given that Chestnut Shipping Company has filed an application for operating-differential subsidy on two (2) ore/bulk/oil carriers (to be constructed) of approximately 80,500 deadweight tons each. Said vessels will operate generally from U.S. Atlantic/Gulf Coasts, Mediterranean, Middle Eastern, California and South American ports, and may be operated in other worldwide service in the carriage of liquid bulk cargoes and dry bulk cargoes not subject to the cargo preference statutes including 10 U.S.C. 2631, 46 U.S.C. 1241, and 15 U.S.C. 616a.

Any party having an interest in such application and who would contest a finding of the Board that the service now provided by vessels of United States registry for the worldwide carriage of liquid and dry bulk cargoes, not subject to the cargo preference statutes, moving in the foreign commerce of the United States or in any particular trade in the foreign commerce of the United States is inadequate, must, on or before August 3, 1973 notify the Secretary in writing of his interest and of his position and file a petition for leave to intervene in accordance with the Board's Rules of Practice and Procedure (46 CFR Part 201). Each such statement of interest and petition to intervene shall state whether a hearing is requested under section 605(c) of the Merchant Marine Act, 1936, as amended, and with as much specificity as possible the facts that the intervenor would undertake to prove at such hearing.

In the event that a section 605(c) hearing is ordered to be held, the purpose of such hearing will be to receive evidence relevant to whether the service already provided by vessels of U.S. registry for the worldwide movement of liquid and dry bulk cargoes in the foreign oceanborne commerce of the United States is inadequate and whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated in such service.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Maritime Subsidy Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing the Maritime Subsidy Board will take such action as may be deemed appropriate.

Dated: July 20, 1973.

MARINE MAMMAL PROTECTION ACT

Notice of Denial of Applications for Economic Hardship Exemptions

Notice is hereby given that, on July 3, 1973, the Director, National Marine Fisheries Service, determined that the applications from the following named individuals seeking exemptions from the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 et seq., 86 Stat. 1027 (1972)), on grounds of undue economic hardship should be denied.

1. Mr. Charles T. Powell, General Manager, Japanese Village, 6122 Knott Avenue, Buena Park, California 90621, to take six Atlantic bottle-nose dolphins (*Tursiops truncatus*) for public display. A notice containing a summary of this application was published in the FEDERAL REGISTER on April 23, 1973 (38 FR 10830) and, after notice in the FEDERAL REGISTER on May 16, 1973 (38 FR 12840), a public hearing was held in Terminal Island, California, on May 25, 1973. At this hearing, the Applicant reduced his request from 8 dolphins to 6 dolphins.

2. Mr. Brandy Sienbenaler, Vice President, Gulfarium, Fort Walton Beach, Florida 32548, to take four Atlantic bottle-nose dolphins (*Tursiops truncatus*) for public display. A notice of receipt of this application was published in the FEDERAL REGISTER on January 24, 1973 (38 FR 2340) and, after notice in the FEDERAL REGISTER on April 6, 1973 (38 FR 8757), a public hearing was held in Pensacola, Florida, on April 25, 1973.

Each Applicant sought the mammals as back-up mammals for existing teams of performing mammals. Gulfarium sought them for the additional purpose of enlarging its performing team. It was determined that the failure of either Applicant to obtain the additional mammals for the purposes stated would not constitute an undue economic hardship within the intent and meaning of section 101(c) of the Act. However, each Applicant was told that should he lose one or more performing mammals between July 3 and October 20, 1973, he

could apply for an undue economic hardship exemption for the purpose of taking a replacement mammal or mammals; and that such application would be given prompt consideration without a hearing.

Copies of the applications for the exemptions, of the letters denying the applications, and of all supporting documents, except documents containing information exempt from public disclosure pursuant to the Freedom of Information Act (5 U.S.C. 522(b)), are available for inspection at the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235, and at the National Marine Fisheries Service Regional Offices. The Regional Offices are located at the following addresses: Southwest Region, 300 South Ferry Street, Terminal Island, California 90731, telephone 213-831-9575; Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930, telephone 617-281-0640; Southeast Region, William C. Cramer Federal Office Building, 144 First Avenue South, St. Petersburg, Florida 33701, telephone 813-893-3141; Northwest Region, Lake Union Building, 1700 Westlake Avenue North, Seattle, Washington 98109, telephone 206-442-7575; Alaska Region, P.O. Box 1668, Juneau, Alaska 99801, telephone 907-586-7221.

Dated: July 19, 1973.

WATCHES AND WATCH MOVEMENTS**

Allocation of Calendar Year 1973 Virgin Islands Duty Free Watch Quota Set Aside for New Entrants

On December 29, 1972, the Departments of the Interior and Commerce published a joint notice announcing the rules to be used by the Departments in the allocation of 1973 calendar year quotas for duty-free entry into the customs territory of the United States of watches and watch movements assembled in the Virgin Islands, Guam, and American Samoa (37 FR 28768).

Section 7 of the Departments' Joint Notice provided for setting aside 200,000 units of the 1973 Virgin Islands quota for new firms in the event that the unused 1972 quota plus any increase (or minus any decrease) in the amount of quota available for 1973, in comparison with that for 1972, equaled or exceeded 200,000 units. As the amount of unused 1972 quota plus the increase in the amount of quota available for 1973, as determined by the U.S. Tariff Commission, did exceed 200,000 units, the Departments set aside 200,000 units of the 1973 Virgin Islands quota for new firms. (The term "New Firm" was defined to mean "an entity which has not heretofore been allocated a quota under Public Law 89-805 and which is completely separate and unassociated with any present or previous quota allocatee in terms of ownership and control.") By notice published in the FEDERAL REGISTER on May 18, 1973 (38 FR 13045) interested parties were invited to apply for a new entrant Virgin Islands quota for calendar year 1973 on Form OIPF-764 in accordance with the instructions contained in that notice.

In addition to the information to be supplied on Form OIPF-764, new entrant applicants were also required to provide information regarding the applicants' experience in watch movement assembly and distribution; anticipated employment of local workers, proposed wage rates, and estimated direct labor costs; anticipated capital investment in the Virgin Islands and proposed source of financing; whether or not applicant would require exemption from territorial taxes and customs duties; estimated time required to establish watch movement assembly in the Virgin Islands, and the number of movements applicant could assemble and ship during calendar year 1973.

After careful evaluation of the information submitted by applicants responding to the Joint Notice of May 18, 1973, and in accordance with section 7 of the rules published by the Departments in the FEDERAL REGISTER on December 29, 1972 (37 FR 28768), it is the judgment of the Departments that the proposals submitted by the Clinton Watch Company, Customtime Corporation, and Micro Manufacturing Corporation offer the likelihood of the greatest contribution to the economy of the Virgin Islands; and that the following allocation of the 200,000 units of watches and watch movements set aside for new entrants

in the Virgin Islands will best serve the interests of the territory:

Name of Firm	Number of Units Allocated
1. Clinton Watch Company-----	45,000
2. Customtime Corporation-----	70,000
3. Micro Manufacturing Corporation-----	85,000

The above quota allocations are subject to satisfactory implementation by the quota recipients of all written statements of intent submitted to the Departments. Failure of a quota recipient to abide substantially and in a timely fashion with the terms and conditions in its application upon which the Departments relied in making the allocation may result in the reduction or cancellation of its quota by the Departments. The rules restricting transfers of duty-free quotas issued January 29, 1968 and published in the FEDERAL REGISTER on January 31, 1968 (33 FR 2399), are hereby incorporated by reference as applicable to new entrant quota allocations for calendar year 1973.

Recipients of a new entrant quota allocation will be required to comply with United States Customs regulations concerning those assembly operations which must be performed in the Virgin Islands in order to qualify watch movements for duty-free entry into the customs territory of the United States under General Headnote 3(a), T.S.U.S., and with the general requirements of the territorial government regarding the establishment and conduct of a business in the Virgin Islands.

METHAPYRILENE HYDROCHLORIDE FOR NASAL (TOPICAL) ADMINISTRATION

Withdrawal of Approval of New Drug Application

A notice was published in the FEDERAL REGISTER of April 25, 1973 (38 FR 10169), extending to Eli Lilly and Co., Box 618, Indianapolis, Indiana 46206 and to any interested person, an opportunity for hearing on the proposal of the Commissioner of Food and Drugs to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act withdrawing approval of parts of NDA 6-340 applicable to Histadyl Solution (methapyrilene hydrochloride). The basis of the proposed action was the lack of substantial evidence that the drug is effective for its labeled indications.

Lilly responded, waiving opportunity for a hearing, stating that Histadyl Solution is no longer marketed.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application reviewed and are subject to this notice. See 21 CFR 130.40 (37 FR, 23185, October 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, Maryland 20852.

The Commissioner of Food and Drugs pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to him (21 CFR 2.120), finds that on the basis of new information before him with regard to the drug, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling thereof.

Therefore, pursuant to the foregoing finding, approval of parts of new drug application No. 6-340 applicable to Histadyl Solution and all amendments and supplements thereto is withdrawn effective on August 6, 1973.

Shipment in interstate commerce of the above listed drug product or of any identical, related, or similar product, not

the subject of an approved new drug application, will be henceforth unlawful.

Associate Commissioner
for Compliance.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[FRA Docket No. RST-1, Waiver Petitions
Nos. 13 and 14, Notice 1]

TEXAS MEXICAN RAILWAY CO. AND DULUTH & NORTHEASTERN RAILROAD CO.

Petitions for Exemption From Track Safety Standards

The Texas Mexican Railway Co. and the Duluth & Northeastern Railroad Co. have petitioned the Federal Railroad Administration for exemption from § 213.109(e) of FRA Track Safety Standards (49 CFR 213.109(e)).

The Texas Mexican Railway Co. (Waiver Petition No. 13) seeks an exemption from § 213.109(e) to permit the use of interlaced cross ties in place of switch ties. The area for which the exemption is sought includes 23 switches in running track and 115 switches in back track. The maximum speeds for these tracks are 25 m.p.h. and 10 m.p.h. respectively. The railroad has eliminated the practice of installing interlaced ties, and will replace existing interlaced ties with standard switch ties on an "as needed" basis.

The Duluth & Northeastern Railroad Co. (Waiver Petition No. 14) also seeks an exemption from § 213.109(e) to permit the use of interlaced cross ties in place of switch ties. The area for which the exemption is sought includes 14 shop track switches. At present there is an average of less than six movements a day over these switches, and a posted bulletin restricts speeds to five miles per hour. The railroad is replacing all interlaced ties with standard switch ties under its regular replacement program. All 14 switches will have switch ties installed during the next 4 years.

Interested persons are invited to participate by submitting written data, views, or comments. Opportunity to pre-

sent oral comments with respect to these petitions will be provided if requested by any interested person prior to September 1, 1973. Communications should identify the docket, waiver and notice numbers, and should be submitted to the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, 400 Seventh Street, SW., Washington, D.C. 20590. Communications received prior to September 1, 1973 will be considered before action is taken on these petitions.

These petitions and all comments received will be available for examination by interested persons at any time during the regular business hours in Room 5100, Nassif Building, 400 Seventh Street, SW., Washington, D.C.

This notice is issued under the authority of the Federal Railroad Safety Act of 1970 (84 Stat. 971 et seq., 45 U.S.C. 421 et seq.) and § 1.49(n) of the regulations of the Office of the Secretary of Transportation (49 CFR 1.49(n)).

[Docket No. EX72-1; Notice 3]

LOTUS CARS, LTD.

Petition for Extension of Temporary Exemption

Lotus Cars, Ltd., Norwich, England, has applied for an extension until May 1, 1974 of the temporary exemption granted its Europa model from compliance with Federal Motor Vehicle Safety Standard No. 214, *Side Door Strength*.

Lotus has previously petitioned for and been granted an exemption from Standard No. 214. Notices of the petition and the grant were published respectively on December 2, 1972 (37 FR 25768) and January 11, 1973 (38 FR 1299). An exemption was granted for a 7-month period ending August 15, 1973, on the grounds that requiring compliance with Standard No. 214 would cause petitioner substantial economic hardship.

Lotus raised the possibility in its original petition, mentioned briefly in the first notice, that it might seek a further exemption for the period August 15, 1973 to May 1, 1974. Petitioner has concentrated its efforts to comply with Standard No. 214 in development of a forthcoming model which it had hoped to introduce in June 1973. Compliance with the Federal standard, according to Lotus, "necessitated the development, not only of new chemical processes in glass fibre and associated materials, but also changes to body production using an advanced form of resin injection moulding, which we stated was currently being validated for production. This validation has only just been successfully completed * * * The planned pilot and preproduction build program will not be com-

pleted before January 1, 1974, when the new model will go into production and the Europa will begin to be phased out.

In support of its petition Lotus advances the same hardship arguments previously presented and discussed in detail in the prior notices. To summarize, the basic design of the Europa cannot be adapted to Standard No. 214 without substantial retooling, and loss of the American market, accounting for 40 percent of the company's sales thus far in 1973, would create hardship to the company and its dealers, even for the 8½ months for which the exemption is requested.

In further support of its petition, Lotus states that it has been able to reengineer the Europa to comply with the new safety requirements that will be met by 1974 model year vehicles, such as roof crush resistance (Standard No. 216), rear bumper protection (Standard No. 215), seat belt-ignition interlock (Standard No. 208) and accelerator control systems (Standard No. 124). It submits the results of tests conducted by Motor Industry Research Association confirming its compliance with Standards Nos. 215 and 216. Finally it notes that even with the requested extension, it would be exempted from Standard No. 214 only 16 months of the 36 months permissible for hardship exemptions.

This notice of receipt of a petition for a temporary exemption is published in accordance with the NHTSA regulations on this subject (49 CFR 555.7), and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Interested persons are invited to submit comments on the petition of Lotus Cars described above. Comments should refer to the docket number and be submitted to: Docket Room 5221, 400 Seventh Street, SW., Washington, D.C., 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received, are available for examination in the docket both before and after the closing date. Comments received after the closing date will also be filed and will be considered to the extent possible. If the petition is granted, notice will be published in the FEDERAL REGISTER pursuant to the authority indicated below.

Comment closing date: August 13, 1973.

Proposed effective date: Date of issuance of exemption.

ATOMIC ENERGY COMMISSION
 [180th ACRS Meeting]
ADVISORY COMMITTEE ON REACTOR SAFEGUARDS
 Notice of Meeting

JULY 23, 1973.

In accordance with the purposes of sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the Advisory Committee on Reactor Safeguards will hold a meeting on August 9-11, 1973, in Room 1046, at 1717 H Street, N.W., Washington, D.C.

The following constitutes those portions of the Committee's agenda for the above meeting which will be open to the public:

1) **Thursday, August 9, 1973**—10:30 am-12:30 pm—Discuss several topics common to Babcock and Wilcox Water Reactors. 2:00 pm-5:00 pm—Review of the application for an operating license for the Oconee Nuclear Station Units 2 and 3 (located in Oconee County, approximately 21 miles north of Anderson, South Carolina). The Committee will hear presentations by representatives and consultants of the AEC Regulatory Staff and the Duke Power Company, and will hold discussions with these groups. 5:30 pm-8:00 pm—Review of the application for an operating license for Arkansas Nuclear One Unit 1 (located near Russellville, Arkansas). The Committee will hear presentations by representatives and consultants of the AEC Regulatory Staff and the Arkansas Power and Light Company, and will hold discussions with these groups.

2) **Friday, August 10, 1973**—10:15 am-1:00 pm—Review of the application for an operating license for Three Mile Island Unit 1 (located in Londonderry Township of Dauphin County, approximately 10 miles southeast of Harrisburg, Pennsylvania). The Committee will hear presentations by representatives and consultants of the AEC Regulatory Staff, the Metropolitan Edison Company, and Jersey Central Power and Light Company, and will hold discussions with these groups.

2:45 pm-5:00 pm—Review of Preliminary Site Description Report, Atlantic Generating Station Units 1 and 2 (proposed location approximately 3 miles offshore of the Southeast coast of New Jersey, approximately 11 miles Northeast of Atlantic City, New Jersey). The Committee will hear presentations by representatives and consultants of the AEC Regulatory Staff, the Public Service Electric and Gas Company of New Jersey, and will hold discussions with these groups.

It should be noted that all of the open sessions listed above will include closed portions under the authority of section 10(d) of Public Law 92-463 (the Federal Advisory Committee Act), if required, to discuss security plans for these facilities and privileged information related to fuel element design, fabrication and loss of coolant accident analysis. In addition to the agenda items noted above, the Committee will hold Executive Sessions, not open to the public, under the authority of section 10(d) of Public Law 92-463, to consider the above applications and other matters. I have determined that it is necessary to close such portions of the meeting to protect such privileged information and protect the free interchange of internal views and avoid undue interference with agency or Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Committee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda items may do so by mailing 25 copies thereof, postmarked no later than August 2, 1973, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such written comments shall be based on materials related to the above agenda items which materials are contained in the application for an operating license or Preliminary Site Description Report and related documents, on file, and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20545, and as follows:

Oconee Nuclear Station, Units 2 and 3, Librarian, Oconee County Library, 201 S. Spring Street, Walthalla, South Carolina 29691.

Arkansas Nuclear One, Unit 1, Librarian, Arkansas River Valley Regional Library, Dardanelle, Arkansas 72834.

Three Mile Island Nuclear Station, Unit 1, Government Publications Section, State Library of Pennsylvania, Education Building, Box 1601, Harrisburg, Pennsylvania 17126.

Atlantic Generating Station, Wallace R. Host Community Library, North School, Lafayette and Evans Ave., Brigantine, New Jersey 08203.

(b) Those persons submitting a written statement in accordance with paragraph

(a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Committee. To the extent that the time available for the meeting permits, the Committee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Committee.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Committee, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on August 8, 1973, to the Office of the Executive Secretary of the Committee (telephone: 301-973-5651) between 8:30 a.m. and 5:15 p.m. Eastern Daylight Time.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come first-served basis.

(g) A copy of the transcript of the open portions of the meeting will be available for inspection during the following workday at the Atomic Energy Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. On request, copies of the minutes of the meeting will be made available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., on or after October 10, 1973. Copies may be obtained upon payment of appropriate charges.

[Docket No. 25637; Order 73-7-101]

SAN FRANCISCO & OAKLAND HELICOPTER AIRLINES, INC. ET AL.

Order To Show Cause

San Francisco & Oakland Helicopter Airlines, Inc. (SFOH)¹, Trans World Airlines, Inc. (TWA) and United Aircraft Corp. (UAC) jointly request that the Board grant such relief as it may consider appropriate, including disclaimer of jurisdiction, exemption or show cause procedure under section 408 of the Federal Aviation Act of 1958, as amended, (the Act) with respect to the reorganization and continued operation of SFOH. Applicants' request is specifically limited to the acquisition by TWA and UAC of an equity interest in SFOH.²

Description of the Plan. In summary, the Plan of Reorganization of SFOH which gives rise to the instant application is designed to accomplish a complete restructuring of SFOH's present

¹ By Order 73-7-89, July 18, 1973, the Board approved the company's name change, which will be reflected in subsequent orders.

² The overall reorganization plan has been adjudged fair and equitable by a judge of the U.S. District Court for the Northern District of California under Chapter X of the Bankruptcy Act, Case Reference No. B70-5175. Similar findings were submitted to the court by the Securities and Exchange Commission.

debt and equity, with a view toward the continuation of its operations on a sound and manageable economic footing. Under the Plan, the rights of all present shareholders are terminated,³ and provision is made for the issuance of new common stock, in two classes, to be issued to existing creditors in exchange for the discharge of the debt held by them. The principal and accrued interest due to SFOH's three secured creditors, Bank of America, Nishi Nippon Airlines Co., Ltd. and TWA (in part) are to be paid in full in accordance with a revised schedule of installment payments.⁴ As discussed in greater detail hereinafter, \$500,000 of TWA's secured claim is to be discharged by the issuance of shares of new Class A stock, and the filed and allowed claims of SFOH's unsecured creditors (including United Aircraft) and debenture holders will be paid and discharged by the issuance of Class B shares, ratably in proportion to the ratio between each creditor's claim and the total of all unsecured claims.⁵

SFOH's new securities will consist of 125,000 authorized shares of Class A Common Stock and 875,000 authorized shares of Class B Common Stock, both without par value, and both having one vote per issued and outstanding share. The Class A shares will have a preference in liquidation up to \$4.00 per share, after which the holder of Class B shares will be entitled to receive up to \$4.00 per share, after which both classes will participate ratably in any assets remaining in the event of liquidation, dissolution, or winding-up of the business of SFOH.

It is anticipated that TWA will receive one share of Class A stock for each \$4.00 of its secured claim to be discharged, i.e., 125,000 Class A shares, and that Class B stock will be issued to unsecured creditors on the basis of one share for each \$5.74 of filed and allowed claim. The Plan bars the issuance of fractional shares.⁶ The total number of Class A and Class B shares to be issued is limited to an amount equal to one quarter of the difference between the total adjusted going concern value of all of SFOH's assets, less

the non-current portion of SFOH's long-term debt.⁷

Finally, SFOH's post-reorganization management will consist of a board of nine directors, two of whom are to be elected by the holder of Class A stock (TWA) and the balance elected by the Class B shareholders.⁸ Prior to the first meeting of shareholders following consummation, an interim board, selected by the Court from among shareholder (and Trustee) nominees, will meet promptly after the date of consummation of the Plan for the purpose of electing SFOH's officers and transacting other necessary and appropriate business.

Comments. In support of the request that TWA be exempted from the provisions of section 408 of the Act, applicants refer to a previous instance where, under similar circumstances, such relief was afforded by the Board.⁹ Under the 1970 refinancing arrangement, the Board authorized, subject to conditions but without a hearing, a TWA stock interest in SFOH of "as much as 16 2/3 percent and thereafter possibly up to 34 percent" (Order 70-7-50, p. 3).¹⁰ The Board found that the increased interest in SFOH acquired by TWA would be consistent with both the public interest and with the Board's prior approval of "extensive aid by TWA to SFO to augment the limited financial resources of that company," in that TWA's assistance would "stave off the consequences of SFO's present default position, and will aid in SFO's refinancing." Significantly, the Board resorted to the expeditious exemption process in authorizing TWA's increased holdings, expressly noting the length of the period required to grant approval and the adverse impact of such delay on the effectiveness of the proposed refinancing.

In view of the foregoing comparability of the present Plan with that authorized in the Board's 1970 approval, and since the underlying public interest considerations in both instances are the same, the Joint Applicants urge that the presently proposed relationship falls well within the ambit of the authority granted

With respect to the acquisition of UAC

by Order 70-7-50. Accordingly, the Joint Applicants urge the Board to issue a ruling that the present transaction, insofar as it affects TWA-SFOH, is covered by the prior approval, and that no further authority is required. Alternatively, the Joint Applicants urge that the same considerations warrant grant of an exemption authorizing the present transaction.

of 15.6 percent of the new SFOH stock, these two applicants submit that, even if this percentage is held to constitute control in terms of section 408(f) of the Act, the agreement¹¹ by UAC to relinquish its power to vote the stock negates any possibility of control over SFOH.¹²

In light of the foregoing, and based upon the agreement of UAC with respect to the voting of SFOH Class B shares, applicants contend that UAC will have acquired no "control" of SFOH under the Plan within the meaning of section 408. Accordingly, SFOH and UAC urge that the Board disclaim jurisdiction over UAC's acquisition of 15.6 percent of SFOH's outstanding capital stock pursuant to the Plan, such disclaimer to be conditioned upon, and coextensive with, the continued adherence by UAC to its undertaking not to vote its Class B shares, except in the limited matters specified.

If the Board determines not to disclaim jurisdiction over the SFOH-TWA relationship by ruling or exemption, the Joint Applicants urge that use of the Board's show cause procedures in this case will be sound as a matter of law and policy.¹³

No other comments relative to the application have been received.

The Board's Decision. Upon consideration of the application the Board concludes that SFOH is a certificated air carrier and that the acquisition of 10 percent or more of its stock by TWA, also an air carrier, and UAC, a person engaged in a phase of aeronautics raises the presumption of control over SFOH under sections 408(a) and 408(f) of the Act. With respect to TWA there is no question that its involvement in the affairs of SFOH by virtue of TWA's voting interest and election of directors

³The elimination of existing shareholder rights, including the conversion privilege attached to SFOH's existing 7 1/2 percent convertible debentures, rests on a determination that SFOH is insolvent, as the Court found by Order dated April 9, 1973, approving the Trustees' Plan.

⁴A separate Reimbursement Agreement between SFOH and TWA, implementing the requirement for deferred payment of the balance of TWA's secured claim, will be filed under section 412 of the Act.

⁵Under the Plan, one other category of unsecured creditor—those holding claims of \$100 or less, or who have agreed to reduce their claims to \$100—will also be paid in cash.

⁶Fractional debt interests in excess of the amount discharged by the issuance of whole shares will be paid and discharged in cash.

⁷On the basis of pro forma estimates for long-term debt as of June 30, 1973 and the Court's finding of a going-concern value of SFOH of \$3,600,000, it is estimated that approximately 728,025 shares will be issued, consisting of 125,000 Class A shares and 603,025 Class B shares. In no event will the issued Class A shares exceed 19% of the total number of Class A and B shares to be issued.

⁸As discussed hereinafter, United Aircraft will not exercise its right to nominate or vote for the election of directors of SFOH.

⁹Order 70-7-50, July 10, 1970.

¹⁰The Board concluded that TWA's right to designate two SFOH directors, amounting to 20% of SFOH's board, came within the scope of the exemption from section 409 of the Act provided by Part 287 of the Economic Regulations and accordingly dismissed that portion of the joint application.

¹¹The agreement provides merely for the conveyance of a proxy to SFOH's management to permit United Aircraft's shares to be recorded as "present" for purposes of a quorum, but not to be voted in any matters except corporate liquidation, dissolution, merger, consolidation, or sale of assets, as would, under California law, require approval of a specified percentage of all outstanding shares.

¹²SFOH presently owns and operates three Sikorsky S-61 helicopters. Sikorsky is a division of UAC.

¹³*Cf.* Eastern-Caribair Interim-Financial and Management Assistance Order 70-11-26, November 5, 1970, Docket 22691.

constitutes a substantial measure of control over SFOH. We have tentatively decided, however, consistent with our previous action in this matter, to exempt TWA from the requirements of section 408 of the Act pursuant to section 416(b) thereof¹⁴ subject to the conditions imposed in the cited order as follows:

(a) TWA is prohibited from interfering with SFOH's right to negotiate financial, operating, or aircraft leasing agreements with other direct air carriers;

(b) TWA is prohibited from holding out to the public in any manner whatsoever, whether by advertising or by any other means, that it can or does control SFOH or that it is the operator of SFOH's services;

(c) Commercial transactions between SFOH and its affiliates, on the one hand, and TWA and its affiliates, on the other, shall not exceed \$100,000 a year in the aggregate without prior Board approval, provided that interline billings for transportation at published rates shall not be subject to this limitation;

(d) The approval herein is not to be deemed a determination of the reasonableness of the terms of the agreement for rate-making purposes;

(e) SFOH shall file quarterly reports reflecting the dollar amounts of receipts from and billings to each connecting air carrier serving San Francisco;

(f) Any proposed changes in existing control relationships between TWA and SFOH other than pursuant to the provisions of the agreements, must be submitted to the Board for approval before consummation;

(g) The common carriage nature of TWA operations shall be maintained and in the operation of SFOH's services no preference shall be given to TWA (other than as provided herein) or to passengers using TWA;

(h) The Board shall retain continuing jurisdiction over the control relationships approved under section 408 in this proceeding, and may from time to time impose such additional and further conditions as it deems just and equitable;

(i) Except as provided in Agreement CAB 21775, TWA is prohibited from restricting the use of any aircraft now leased or which may be leased to SFOH;

(j) TWA is prohibited from restricting or restraining in any manner whatsoever SFOH's operations;

(k) TWA and SFOH are prohibited from publishing any advertisements of services by SFOH which display TWA's name, symbol, or insignia in any more prominent place or size of print than the name, symbol, or insignia of SFOH;

(l) TWA shall obtain prior Board approval before implementing any agreements governed by section 412 of the Act which provide for the operation of any transportation service, either by air or by surface means, between any points (as defined in section 298.2 of the Board's Economic Regulations) which SFOH is certificated to serve.

¹⁴ Order 70-7-50, July 10, 1970.

We have also tentatively concluded that the relationship between UAC and SFOH should be approved pursuant to section 408 subject to inter-company transaction conditions.¹⁵ One condition will require that SFOH purchase goods and services from UAC at the same price offered to other carriers. The other condition will require SFOH to report any transactions or negotiations that could lead to the modification, purchase or lease of aircraft manufactured, owned or modified by UAC, or the purchase, lease or modification of aircraft for which UAC manufactures a component part or produces subassemblies.¹⁶ In this connection, we take note of the fact that UAC, through its Sikorsky Division, is an aircraft manufacturer, which manufactures helicopters of the type utilized by SFOH. However, UAC has made a sincere effort to insulate its equity interest in SFOH from any involvement in the latter's affairs. We are, nevertheless, particularly considering the possibility of less than arms length future transactions between the two companies, unable to conclude that such insulation is sufficient to warrant the Board's disclaiming jurisdiction over the control relationships.

The Board has further tentatively concluded that the public interest does not require a hearing with respect to approval of the SFOH-UAC relationship. The transaction has the approval of the Federal bankruptcy court; there do not appear to be any disputed facts in issue which require a hearing for their resolution; and the measures taken by UAC to insulate its equity interest from involvement in SFOH's affairs, together with the provision for monitoring future transactions between the companies, in our view render a hearing unnecessary in the public interest. Moreover, to require SFOH to suffer the inevitable delay inherent in the hearing process would constitute a severe and unnecessary burden on SFOH which might more severely jeopardize its financial condition, and would not be in the public interest.

Therefore, consistent with similar past procedures utilized by the Board,¹⁷ the

¹⁵ The Board will also monitor inter-company transactions between SFOH and UAC by way of SFOH's Schedule B-44 filing (Summary of Resources Exchanged with Affiliated Group Members and Other Associated Companies). See Section 23 of Part 241 of the Economic Regulations (14 C.F.R. 241).

¹⁶ The proposed conditions will read as follows:

(a) SFOH and its affiliates and subsidiaries, shall make no purchase of goods or services from UAC, or its subsidiaries and affiliates, except at prices offered to other air carriers.

(b) SFOH shall file with the Board within ten days thereof a report of any transactions or negotiations that might lead to (a) the modification, in whole or in part, purchase, or lease of any aircraft manufactured, owned or modified by UAC, or its subsidiaries or affiliates, or (b) the purchase, lease or modification of aircraft for which UAC or its subsidiaries or affiliates manufactures a component part or produces subassemblies.

¹⁷ Cf. Seaboard and Western Air Lines, Inc., Order E-15891, October 7, 1960; Eastern-Caribair, Order 70-11-26, November 5, 1970.

Board has decided to direct all interested persons to show cause why the tentative findings, conclusions, and proposed exemption and approval, should not be made final, subject to the proposed conditions.

In view of the foregoing, and subject to the conditions noted above, the Board tentatively finds that enforcement of section 408 of the Act insofar as necessary to approve the acquisition of control resulting from the receipt of SFOH stock by TWA in the proposed reorganization plan would be an undue burden on TWA by reason of the unusual circumstances affecting its operations and would not be in the public interest, and accordingly that TWA should be exempted pursuant to section 416(b) from the requirements of that section. In addition, the Board tentatively finds that, subject to the inter-company transaction conditions noted above, the acquisition of control by UAC resulting from the receipt of SFOH's stock in the proposed reorganization plan will not be inconsistent with the public interest, will not result in creating a monopoly or monopolies and thereby restrain competition or jeopardize another air carrier not a party to the acquisition, and should be approved pursuant to section 408(b) of the Act.

Accordingly, It is ordered, That:

1. Interested persons are directed to show cause why the Board should not make final its tentative findings and conclusions herein, and issue an order which would:

(a) Exempt the control relationship between TWA and SFOH from section 408 of the Act pursuant to section 416(b) thereof subject to the conditions set forth above, and

(b) Approve pursuant to section 408 of the Act, the control relationship between UAC and SFOH subject to the conditions on inter-company transactions set forth above;

2. Any person disclosing a substantial interest in the matters specified in the preceding paragraph and supporting or objecting to the issuance of an order making final the Board's tentative findings and conclusions set forth herein or desiring the imposition of additional or different conclusions upon approval, shall file such comments with the Board within seven days of the date thereof;¹⁸ and

3. This order shall be served on the applicants, the U.S. District Court for the Northern District of California (Case No. B 70-5175), the Securities and Exchange Commission and counsel for the trustees of SFOH.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

FEDERAL POWER COMMISSION

[Docket No. G-3113, etc.]

CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY

Findings and Order After Statutory Hearing

JULY 12, 1973.

Each Applicant herein has filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce or a petition to amend an order issuing a certificate, all as more fully set forth in the applications and petitions to amend.

Applicants have filed FPC gas rate schedules or supplements to rate schedules on file with the Commission and propose to initiate, add or discontinue in part natural gas service in interstate commerce as indicated in the tabulation herein.

After due notice by publication in the FEDERAL REGISTER, a notice of intervention was filed and withdrawn by the Public Utilities Commission of the State of California in Docket No. CI73-175. No further notices of intervention, protests to the granting of the applications and petitions to amend, or petitions to intervene have been filed.

At a hearing held on July 5, 1973, the Commission on its own motion received and made a part of the record in this proceeding all evidence, including the applications and petitions and exhibits thereto, submitted in support of the authorizations sought herein, and upon consideration of the record,

The Commission finds.

(1) Each Applicant herein is a "natural-gas company" within the meaning of the Natural Gas Act as heretofore found by the Commission or will be engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission, and will, therefore, be a "natural-gas company" within the meaning of the Natural Gas Act upon the commencement of service under the authorizations hereinafter granted.

(2) The sales of natural gas hereinbefore described, as more fully described in the applications in this proceeding, will be made in interstate commerce subject to the jurisdiction of the Commission; and such sales by Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are subject to the requirements

of subsections (c) and (e) of section 7 of the Natural Gas Act.

(3) Applicants are able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules, and regulations of the Commission thereunder.

(4) The sales of natural gas by Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are required by the public convenience and necessity; and certificates therefor should be issued as hereinafter ordered and conditioned.

(5) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the orders issuing certificates of public convenience and necessity in various dockets involved herein should be amended as hereinafter ordered.

(6) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that certain successors in interest, who are herein authorized to continue sales of natural gas in interstate commerce, should be made co-respondents in their predecessors' rate proceedings.

(7) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the FPC gas rate schedules and supplements related to the authorizations hereinafter granted should be accepted for filing.

(8) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act and the public convenience and necessity require that the orders issuing certificates, for sales authorized herein to be continued under new or amended certificates, should be amended by deleting therefrom authorization to sell gas.

(9) Section 154.93 of the regulations under the Natural Gas Act should be waived to the extent necessary to permit the acceptance for filing of the rate schedules for the sales authorized in Docket Nos. CI73-46 and CI73-175 with contractual provisions for the possible sales of the Federal Government's royalty shares of the gas at prices in excess of the otherwise applicable rates and with contractual provisions to increase rates to higher area rates found to be proper by hearing, rulemaking, or Commission approved settlement.

(10) Section 157.93 of the regulations under the Natural Gas Act should be waived to the extent necessary to permit the acceptance for filing of the rate schedule for the sale authorized in Docket No. CI73-419 with the contractual provision for the possible sale of the Federal Government's royalty share of the gas at prices in excess of the otherwise applicable rates.

(11) The presently effective rates, subject to refund in Docket No. RI71-736, proposed to be charged and collected by Applicant in Docket No. RI71-736, do not exceed the applicable area rate.

The Commission orders.

(A) Certificates of public convenience and necessity are issued upon the terms

and conditions of this order authorizing sales by Applicants of natural gas in interstate commerce for resale, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, all as hereinbefore described and as more fully described in the applications and in the tabulation herein.

(B) The certificates granted in paragraph (A) above are not transferable and shall be effective only so long as Applicants continue the acts or operations hereby authorized in accordance with the provisions of the Natural Gas Act and the applicable rules, regulations, and orders of the Commission.

(C) The grant of the certificates issued in paragraph (A) above shall not be construed as a waiver of the requirements of section 7 of the Natural Gas Act or of Part 154 or Part 157 of the Commission's regulations thereunder and is without prejudice to any findings or orders which have been or which may hereafter be made by the Commission in any proceedings now pending or hereafter instituted by or against Applicants. Further, our action in this proceeding shall not foreclose or prejudice any future proceedings or objections relating to the operation of any price or related provisions in the gas purchase contracts herein involved. The grant of the certificates aforesaid for service to the particular customers involved does not imply approval of all of the terms of the contracts, particularly as to the cessation of the service upon termination of said contracts as provided by section 7(b) of the Natural Gas Act. The grant of the certificates aforesaid shall not be construed to preclude the imposition of any sanctions pursuant to the provisions of the Natural Gas Act for the unauthorized commencement of any sales of natural gas subject to said certificates.

(D) The orders issuing certificates of public convenience and necessity in various dockets are amended by adding thereto or deleting therefrom authorization to sell natural gas or by substituting successors in interest as certificate holders as more fully described in the applications and in the tabulation herein. In all other respects said orders shall remain in full force and effect.

(E) Within 90 days from the date of initial delivery, Applicants in Docket Nos. G-10523, G-13299, CI67-1519, CI71-489, CI73-65, CI73-73, CI73-126, CI73-172, CI73-225, CI73-226, CI73-250, CI73-261, CI73-263, CI73-269, CI73-311, CI73-324, CI73-325, CI73-326, CI73-360, CI73-370, CI73-371, CI73-380, CI73-386, CI73-390, CI73-397, CI73-399, CI73-466, and CI73-473 shall each file three copies of a rate schedule-quality statement in the form prescribed in Opinion Nos. 468-A, 586, 595, 598, and 607, as applicable.

(F) The certificates and certificate authorization granted in Docket Nos. G-10523, G-13299, CI67-1519, CI71-489, CI73-65, CI73-73, CI73-126, CI73-172, CI73-225, CI73-226, CI73-250, CI73-261, CI73-263, CI73-269, CI73-311, CI73-324, CI73-325, CI73-326, CI73-360, CI73-370, CI73-371, CI73-380, CI73-386, CI73-390, CI73-397, CI73-399, CI73-466, and CI73-

473 are subject to the Commission's findings and orders accompanying Opinion Nos. 468, 468-A, 586, 586-A, 595, 595-A, 598, 598-A, 607, and 607-A, as applicable. If the quality of the gas deviates at any time from the quality standards set forth in the Regulations under the Natural Gas Act so as to require a downward adjustment of the existing rates, notices of changes in rate shall be filed pursuant to Section 4 of the Natural Gas Act; provided, however, that adjustments reflecting changes in Btu content of the gas shall be computed by the applicable formula and charged without the filing of notices of changes in rate.

(G) Applicants in the dockets indicated shall charge and collect the following rates, subject to Btu adjustment where applicable:

**FEDERAL RESERVE SYSTEM
 FIRST INTERNATIONAL BANCSHARES,
 INC.**

Order Approving Acquisition of Bank

First International Bancshares, Inc., Dallas, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to Grove State Bank, Dallas, Texas ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor or-

ganization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

By Order dated November 30, 1972, the Board approved the formation of Applicant¹ and stated:

First National [Bank in Dallas, Applicant's lead bank] now holds certain minority interests in fourteen banks ("Other Banks") located in Dallas County, Texas, as follows:

¹ 1972 Fed. Res. Bulletin 1028.

24 per cent of the shares of American Bank and Trust Company; 21.34 per cent of the shares of Citizens State Bank, Irving; 20 per cent of the shares of The Dallas County State Bank, Carrollton; 24.76 per cent of the shares of DeSoto State Bank; 24.52 per cent of the shares of East Dallas Bank & Trust Company; 24 per cent of the shares of First National Bank of Richardson; 24 per cent of the shares of Grove State Bank; 22.42 per cent of the shares of North Dallas Bank and Trust Company; 24.9 per cent of the shares of Northpark National Bank; 19.47 per cent of the shares of Park City's Bank and Trust Company; 24.5 per cent of the shares of Southwest Bank and Trust Company, Irving; 24 per cent of the shares of Texas National Bank; 10.67 per cent of the shares of White Rock National Bank; and 26.41 per cent of the shares of Guaranty Bank, formerly South Oak Cliff Bank.

Board approval of Applicant's proposal to become a bank holding company does not signify Board approval of the retention or acquisition of the above-referred to minority interests in Other Banks. It is the Board's understanding, from representations by Applicant, that Applicant will file separate applications for prior approval by the Board for each of such minority holdings it seeks to retain and cause its minority interests in all Other Banks, other than those for which such applications are filed, to be completely and permanently divested by it. It is further understood that in this manner any such applications so filed by Applicant will be subject to the ordinary regulatory and legal process, subject to statutory standards as set forth in both section 3 of the Bank Holding Company Act and section 7 of the Clayton Act.

This application has been filed pursuant to that understanding but encompasses all of the voting shares of Bank rather than Applicant's presently existing minority interest in Bank. Similar applications have been filed to acquire shares of American Bank & Trust Company, Park Cities Bank & Trust Company, and Southwest Bank & Trust Company. The Board understands that an application will be filed not later than August 1, 1973, for shares of the Dallas County State Bank and further understands that Applicant's indirect minority interest in Guaranty Bank, formerly South Oak Cliff Bank, was completely and permanently divested by sale on January 9, 1973. The Board further understands and expects that Applicant's indirect minority interests in the eight other banks mentioned above will be completely and permanently divested as noted in the Board's earlier Statement.

Applicant, the largest bank holding company in Texas, controls by direct stock ownership two banks with aggregate deposits of \$1.7 billion, representing 5.6 percent of the total deposits of commercial banks in Texas. (All banking data are as of June 30, 1972, and reflect bank holding company acquisitions approved through March 21, 1973.) Applicant is the second largest banking organization in the Dallas market, its lead bank holding 23.4 percent of total deposits of commercial banks in that market. Upon consummation of the four pending acquisitions referred to above, Applicant's subsidiaries would hold 25.5 percent of the total deposits in commercial banks in the Dallas market.

Should the Board approve the forthcoming application by Applicant to acquire shares of Dallas County State Bank, Applicant would control 25.9 percent of total deposits in that market. The eight banks in which Applicant's minority interests will be divested have a combined market share of 1.7 percent of the Dallas market. A trustee affiliate of Applicant presently holds 24 percent of the outstanding voting shares of Bank and the proposal herein to acquire virtually all of the remaining outstanding shares of Bank would increase Applicant's control of commercial bank deposits in the Dallas area by 0.3 percentage points and its ranking among commercial banks in that market and in the State would be unchanged.

Bank (\$19.8 million of deposits) ranks fortieth in deposits among 110 commercial banks in the Dallas market which is approximated by the Dallas RMA.² Bank is located in a primarily residential area approximately eight miles from Applicant's lead bank which is located in downtown Dallas. Individuals closely associated with Applicant's lead bank were instrumental in organizing bank in 1948 and, since 1950, a substantial portion of Bank's shares has been held by an investment company principally owned by directors of Applicant's lead bank and subsequently held by a trustee affiliate of Applicant. In addition to Applicant's trustee affiliate's ownership, shareholders common to Applicant and Bank hold approximately 20 percent of the outstanding voting shares of Bank. The proposal herein represents a strengthening of existing interests rather than the acquisition of an independent competing bank. In view of Applicant's significant holdings, the substantial common shareholder ties and the continued close relationship between Applicant and Bank, the prospect of disaffiliation appears remote. Moreover, in view of the relatively small size of Bank, its localized service area, and the presence of a number of intervening banks, it appears that consummation of Applicant's proposal would not eliminate any meaningful existing or future competition between Bank and any of Applicant's subsidiary banks. Nor would consummation of this proposal raise barriers to entry by other bank holding companies into the expanding Dallas market in view of Bank's relatively insignificant market position and the large number of unaffiliated banks which will remain in this area after this transaction.

On the record before it, the Board concludes that consummation of Applicant's proposal would not result in a monopoly nor be in furtherance of any combination, conspiracy, or attempt to monop-

² RMA refers to Ranally Metro Area which is defined as the central city plus every community, 8 per cent or more of the total population of which, or 15 per cent or more of the labor force of which, commutes to the central city, based on the Census of Population. No community, 35 per cent or more of the labor force of which is engaged in agriculture, is included in an RMA.

olize the business of banking in any area, nor have any substantially anticompetitive effect.

The financial condition and managerial resources of Applicant and its subsidiaries appear generally satisfactory and future prospects of all seem favorable. The financial condition, management resources, and prospects of Bank also appear generally satisfactory and consistent with approval of this application. The banking needs of residents of Bank's service are adequately served by existing institutions operating in that market, and these considerations are consistent with approval of this application.

It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors, effective July 17, 1973.

GENERAL FINANCIAL SYSTEMS

Retention of Bank Shares; Correction

General Financial Systems, Riviera Beach, Florida, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842 (a)(3)) to retain 12,450 (24.9 per cent) or more of the voting shares of Tri City Bank, Palm Beach Gardens, Florida, which were acquired

by purchase in August, 1971. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

This application was submitted previously and notice of same published in the FEDERAL REGISTER (37 FR 12754-17515). It was withdrawn, with Board approval, on December 14, 1972, on condition that the applicant resubmit same no later than May 22, 1973.

General Financial Systems has also been engaged in the following non-banking activities: Development and management of rental apartments; home building; leasing of capital goods under full pay-out leases; operation of a general insurance agency; operation of an insurance brokerage agency; and data processing. Pending determination of whether applicant's efforts to divest these activities are effective, the Board, in addition to the factors considered under section 3 of the Act (banking factors) will consider the proposal in the light of the company's nonbanking activities and the provisions and prohibitions of section 4 of the Act (12 U.S.C. 1843).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than July 31, 1973.

SOUTHWEST CO.

Order Approving Formation of Bank Holding Company and Retention of Insurance Agency Activities

Southwest Company, Sidney, Iowa, has applied for the Board's approval under section 3(a)(1) of the Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 85.1 percent or more of the voting shares of Fremont County Savings Bank, Sidney, Iowa ("Bank").

At the same time, Applicant has applied for the Board's approval under section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of Regulation Y to continue to engage in certain permissible insurance agency activities, to be conducted in Sidney, Iowa (population of less than 2,000), through the retention of Pullman Insurance Agency, Sidney, Iowa ("Agency"). The operation by a bank holding company of a general insurance agency in a community with a population not exceeding 5,000 is an activity that the Board has previously determined to be closely related to banking (12 CFR 225.4(a)(9)(iii)(a)).

Notice of receipt of the applications has been given in accordance with sections 3 and 4 of the Act, and the time for

the time for filing comments and views has expired. The Board has considered the applications and all comments received in light of the factors set forth in section 3(c) of the Act, and the considerations specified in section 4(c) (8) of the Act.

Applicant was organized in October 1972, for the principal purpose of becoming a bank holding company through acquisition of Bank. Applicant's sole business activity to date has been the acquisition of the building presently occupied by Bank and the operation of Agency as a subsidiary of Applicant.

Bank (\$8.1 million in deposits) is the only bank in Sidney, a rural community. Bank controls 32.4 percent of the total deposits held by the seven banks in Fremont County and, on that basis, is the largest bank in the county.¹ Acquisition of Bank by Applicant would not eliminate any existing competition, have an undue adverse effect on any other bank in the county, nor preclude the establishment of new banks in the area.

The financial and managerial resources and future prospects of Applicant and Bank are satisfactory and consistent with approval. (Although Applicant will incur considerable debt in acquiring Bank, its income from Bank and Agency will provide sufficient revenue to service the debt adequately.) Applicant proposes to increase Bank's agricultural and commercial loans in the primary service area through a more aggressive lending policy.² Accordingly, considerations relating to the convenience and needs of the community to be served, with respect to the acquisition of Bank, are consistent with approval of the application. It is the Board's judgment that consummation of the transaction would be in the public interest and that the application to acquire Bank should be approved.

Agency operates a general insurance agency business out of an office adjacent to Bank and is one of four insurance agencies in Sidney. Agency and Bank have been associated and under common ownership for a number of years. Retention of Applicant's insurance activities would enable Bank's customers to enjoy the continued convenience of obtaining banking and insurance activities in conjunction with each other. There is no evidence in the record indicating consummation of the proposal would result in any undue concentration of resources, unfair competition, conflicts of interest, unsound banking practices or other adverse effects on the public interest. On the basis of the foregoing and other facts reflected in the record, the Board has determined that the considerations affecting the competitive factors under section 3(c) of the Act and the balance of the public interest factors the Board must consider under section 4(c) (8) in permitting a holding company to engage in an activity on the

basis that it is closely related to banking both favor approval of the Applicant's proposal.

Accordingly, the applications are approved for the reasons summarized above.³ The acquisition of Bank shall not be consummated (a) before the thirtieth calendar day following the effective date of this order, or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority. The determination as to Agency's activities is subject to the Board's authority to require reports by, and make examinations of, holding companies and their subsidiaries and to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors, effective July 17, 1973.

Secretary of the Board.

CONVERTIBLE TECHNIQUE FUND

Notice of Filing of Application for Order

JULY 17, 1973.

Notice is hereby given that Convertible Technique Fund, 1309 Highland Avenue, Abington, Pennsylvania 19001 ("Applicant"), a Delaware corporation registered as a non-diversified, open-end management investment company under the Investment Company Act of 1940 ("Act"), has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations made therein which are summarized below.

Applicant registered under the Act on August 7, 1969. On December 5, 1972, when the Fund had less than 80 shareholders and assets of approximately \$600,000, the Board of Directors of the Applicant notified First Exchange Management Corporation ("Management"), the investment adviser of Applicant, of its intention to terminate the Fund's investment advisory contract with Management in sixty days. All shareholders of the Applicant were informed of this act and were also advised that Applicant was discontinuing efforts to generate sales. All the shareholders of Applicant then either exercised their right to redeem their shares or exchanged their shares for shares of Convertible Securities Mutual Fund, Inc. pursuant to an exchange privilege which had been described in the prospectus of the Fund, and all of Applicant's directors then resigned. Following these events, the Applicant had, as of May 1, 1973, assets of approximately \$6,000 and liabilities of approximately the same amount.

Applicant represents that it no longer holds itself out as being engaged in the business of investing, reinvesting, or trading in securities, that it has no current intention of making a public offering of its securities, and that its current intention is to dissolve.

Section 3(c) of the Act, excepts from the definition of an investment company any issuer whose outstanding securities are beneficially owned by not more than one hundred persons and which is not making and does not presently propose to make a public offering of its securities.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than August 10, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be

controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D. C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule O-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

JERSEY CENTRAL POWER & LIGHT CO.
Notice of Proposed Amendments of First
Mortgage Indenture and Solicitation of
Bondholders' Proxies

JULY 16, 1973.

Notice is hereby given that Jersey Central Power & Light Company, Madison Avenue at Punch Bowl Road, Morristown, New Jersey 07960 ("Jersey Central"), an electric utility subsidiary company of General Public Utilities Corporation, a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7, and 12(e) of the Act and Rules 62 and 65 promulgated thereunder as applicable to the proposals. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposals.

Jersey Central proposes to amend its Indenture dated as of March 1, 1946, as heretofore supplemented and amended by twenty-one supplemental indentures ("Indenture") to effect two changes. Jersey Central proposes to eliminate the covenant which provides that Jersey Central will duly observe and conform to all valid requirements of any governmental authority relative to any mortgaged property. It is stated that such covenant should be eliminated since, under a developing pattern of legislation and administrative action, there will be

periods when Jersey Central will be unable to comply with governmental requirements with respect to its mortgaged property, although it may not be expected by the governmental agency to be in compliance. However, this covenant in the Indenture could be construed as resulting in a default under the Indenture. Jersey Central states that the elimination of this covenant will not relieve it of its obligation to comply with governmental requirements, but it will permit appropriate governmental enforcement measures consistent with their intent.

In addition, Jersey Central proposes to include as bondable property additions, property for which Jersey Central does not have all necessary permission from governmental authorities to operate, but which otherwise would constitute bondable property additions. Jersey Central states that although, under the Indenture, it is specifically contemplated that property additions can constitute bondable property, it is believed that it is not clear whether the Indenture permits the inclusion of, in computing the bondable value of property additions, the value of Jersey Central's plant and equipment as to which all currently obtainable permission has been received, but as to which further governmental permission must be obtained in the future. Jersey Central states that this ambiguity jeopardizes its ability to finance additions to its facilities in the most economic and orderly manner.

The affirmative vote of the holders of 75 percent in principal amount of the first mortgage bonds outstanding is required for approval of the proposed amendments to the Indenture. The consent of such percentage in principal amount of the bondholders will be sought at a meeting of bondholders, the date of which will be scheduled as promptly as practicable. A Notice of Meeting and Proxy Statement and a Form of Proxy is proposed to be mailed to the bondholders prior to the date set for such meeting.

The New Jersey Board of Public Utility Commissioners has jurisdiction over the proposed amendments of the Indenture. It is further stated that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposals. The fees and expenses to be incurred in connection with the proposals will be filed by amendment.

Notice is further given that any interested person may, not later than August 10, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the

point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

Secretary.

TARIFF COMMISSION

[22-33]

NONFAT DRY MILK

Notice of Investigation and Date of Hearing

At the request of the President (reproduced herein), the United States Tariff Commission, on the 19th day of July 1973, instituted an investigation under subsection (d) of section 22 of the Agricultural Adjustment Act, as amended (7 U.S.C. 624), to determine whether 80,000,000 pounds of nonfat dry milk described in item 115.50 of the *Tariff Schedules of the United States* (TSUS) may be imported into the United States during the period beginning July 18, 1973, and ending August 31, 1973, in addition to the quota-quantity specified for such article under TSUS item 950.02, without rendering or tending to render ineffective, or materially interfering with, the price support program now conducted by the Department of Agriculture for milk, or reducing substantially the amount of products processed in the United States from domestic milk.

The pertinent part of the text of the President's letter of July 18, 1973, to the Commission follows:

Pursuant to section 22 of the Agricultural Adjustment Act, as amended, I have been advised by the Secretary of Agriculture, and I agree with him, that there is reason to believe that additional supplies of nonfat dried milk may be imported during a temporary period ending August 31, 1973, without rendering or tending to render ineffective, or materially interfering with, the price support program for milk now conducted by the Department of Agriculture, or reducing substantially the amount of products processed in the United States from domestic milk.

Specifically, reference is made to the following article presently subject to section 22 quantitative limitations under item 950.02 of the *Tariff Schedules of the United States*: Dried milk, provided for in part 4 of schedule 1 of the *Tariff Schedules of the United States Annotated* (1972), described in item 115.50 (Dried milk, other than buttermilk, containing not over 3 percent of butterfat).

The Secretary has also advised me, pursuant to section 22(b) of the Agricultural Adjustment Act, as amended, that a condition exists requiring emergency treatment with respect to nonfat dried milk and has therefore recommended that I take immediate action under section 22(b) to authorize the importation of 80,000,000 pounds during a temporary period ending August 31, 1973. I have, therefore, this day issued a proclamation establishing a special temporary quota of 80,000,000 pounds to be effective through August 31, 1973. This quota is in addition to the quantities otherwise authorized to be imported under section 22 quantitative limitations.

The United States Tariff Commission is, therefore, directed to make an investigation under section 22 of the Agricultural Adjustment Act, as amended, and to make findings and recommendations as to whether 80,000,000 pounds of the above-described article may be imported during a temporary period ending August 31, 1973, in addition to the quantities otherwise authorized to be imported under section 22 quantitative limitations, without rendering or tending to render ineffective or materially interfering with, the price support program now conducted by the Department of Agriculture for milk, or reducing substantially the amount of products processed in the United States from domestic milk.

The Commission is directed to report its findings and recommendations at the earliest practicable date.

Sincerely,

(Signed)
RICHARD NIXON

Hearing. A public hearing in connection with this investigation will be held in the Tariff Commission's Hearing Room, Tariff Commission Building, 8th and E Streets, NW., Washington, D.C., beginning at 10 a.m., e.d.t., on July 30, 1973. All parties will be given opportunity to be present, to produce evidence, and to be heard at such hearing. Interested parties desiring to appear at the public hearing should notify the Secretary of the Tariff Commission, in writing, at its offices in Washington, D.C., at least by the close of business on July 25, 1973. The notification should indicate the name, address, telephone number, and organization of the person filing the request, and the name and organization of the witnesses who will testify.

Because of the limited time available, the Commission reserves the right to limit the time assigned to witnesses. Questioning of witnesses will be limited to members of the Commission and officials of the Department of Agriculture.

Written submissions. Interested parties may submit written statements of information and views, in lieu of their appearance at the public hearing, or they may supplement their oral testimony by written statements of any desired length. In order to be assured of consideration, all written statements should be submitted at the earliest practicable date, but not later than the close of business on August 3, 1973.

With respect to any of the aforementioned written submissions, interested parties should furnish a signed original and nineteen (19) true copies. Business data to be treated as business confidential shall be submitted on separate sheets, each clearly marked at the top "Business Confidential," as provided for in § 201.6 of the Commission's rules of practice and procedure.

Issued: July 19, 1973.

By order of the Commission.

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

JULY 20, 1973.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969 (49 CFR 1042.4(c)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(c)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

JULY 20, 1973.

The following publications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by the new Special Rule 1100.247 of the Commission's Rules of Practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable by the Commission.

MOTOR CARRIERS OF PROPERTY

No. MC 134847 (Sub-No. 3) (RE-PUBLICATION) filed February 7, 1971, published in the FEDERAL REGISTER issue of June 10, 1971, republished, as amended, in the FEDERAL REGISTER issue of January 4, 1973, and in third publication this issue. Applicant: BESSETTE TRANSPORT, INC. 505 Provost Street Irberville, Quebec, Canada Applicant's representative: Frank J. Weiner 15 Court Square Boston, Mass. 02108 An Initial Decision of the Commission dated May 29, 1973, by Administrative Law Judge Paul J. Clerman, became the effective Order of the Commission July 10, 1973, and finds that the present and future public convenience and necessity require operation by applicant as a *common carrier* by motor vehicle, in interstate or foreign commerce, over irregular routes, of *state*, from ports of entry on the International Boundary line between the United States and Canada at or near Champlain, Ogdensburg and Rouses Point, N.Y., and Highgate Springs and Newport, Vt., to East Rutherford, N.J., and from Bangor, Pa., East Rutherford, N.J., Granville and Middle Granville, N.Y., and Poultney and West Pawlett, Vt., to the International Boundary line between the United States and Canada at or near Champlain, Ogdensburg and Rouses Point, N.Y., and Highgate Springs and Newport, Vt., restricted to shipments originating at or destined to points in Quebec, Canada; that applicant is fit, willing and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder, and that an appropriate certificate should be issued. Because it is possible that other parties who have relied upon the notice of the application as published, may have an

interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 138142 (REPUBLICATION) filed October 16, 1972, published in the FEDERAL REGISTER issue of November 23, 1972, and republished this issue. Applicant: THIGPEN TRUCKING, INC. Route No. 2, Box 139 Franklinton, La. 70438 Applicant's representative: Theodore Polydoroff Suite 600 1250 Connecticut Avenue, N.W. Washington, D.C. 20036 An Order of the Commission, Review Board Number 4, dated July 2, 1973, and served July 16, 1973, finds that operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, (1) of *hydrolized animal and vegetable fat and animal feed supplement*, in bulk, from the plantsite of Adams Laboratories, Inc., at or near Franklinton (Washington Parish), La., to points in Alabama, Arkansas, Delaware, Florida, Georgia, Illinois, Iowa, Kansas, Kentucky, Maryland, Mississippi, Missouri, Nebraska, North Carolina, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas and Virginia, and (2) of *materials and supplies* used in the manufacture of the commodities named in (1) above, in bulk, from points in the above-named destination territory to the plantsite of Adams Laboratories, Inc., at or near Franklinton (Washington Parish), La. under a continuing contract or contracts with Adams Laboratories, Inc., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 45764 (Sub-No. 16) (NOTICE OF FILING OF PETITION FOR MODIFICATION OF CERTIFICATE) filed July 10, 1973. Petitioner: ROBBINS MOTOR TRANSPORTATION, INC. Saville Ave. & Industrial Highway P.O. Box 38 Eddystone, Pa. 19013 Petitioner's representative: Paul F. Sullivan 711 Washington Building Washington, D.C. 20005

Petitioner presently holds a *motor common carrier* certificate in No. MC-45764. (Sub-No. 16) issued May 7, 1973, authorizing as pertinent, transportation, by motor vehicle, over irregular routes, of *heavy machinery and equipment* requiring rigging or special handling and *such materials and supplies* as are used in the installation, operation, and maintenance thereof, when transported in the same vehicle with such commodities, between Philadelphia, Pa., on the one hand, and, on the other, points in Maryland, Delaware, New Jersey, New York, Connecticut, Massachusetts, Rhode Island, Ohio, North Carolina, South Carolina, Virginia, West Virginia, and the District of Columbia. By the instant petition, petitioner seeks to modify its commodity description to read: "*Commodities*, the transportation of which because of size or weight, requires the use of special equipment or special handling, and *self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts and supplies* moving in connection therewith (restricted to commodities which are transported on trailers)". Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the Federal Register.

No. MC 15589 (NOTICE OF FILING OF PETITION FOR MODIFICATION OF CERTIFICATE) filed July 6, 1973. Petitioner: MOONEY BROS. TRUCKING CO. a Corporation 133 Mahoning Avenue New Castle, Pa. 16103 Petitioner's representative: Paul F. Sullivan 711 Washington Building Washington, D.C. 20005 Petitioner presently holds a *motor common carrier* certificate in No. MC 15589 issued December 15, 1949, authorizing as pertinent, transportation, by motor vehicle, over irregular routes, of *scrap metals, building materials, heavy machinery, and contractors equipment*, between points in that part of Pennsylvania on and west of U.S. Highway 219, on the one hand, and, on the other, points in that part of Ohio and West Virginia, on and east of U.S. Highway 23 and on and north of U.S. Highway 50. By the instant petition, petitioner seeks to modify its commodity description of "heavy machinery" to read: "commodities, the transportation of which because of size or weight, requires the use of special equipment or special handling". Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the Federal Register.

No. MC 114115 (Sub-Nos. 5 and 12) (NOTICE OF FILING OF PETITION TO ADD AN ADDITIONAL CONTRACTING SHIPPER) filed June 22, 1973. Petitioner: TRUCKAWAY SERVICE, INC. 1099 Oakwood Boulevard Detroit, Mich. 48217 Petitioner's representative: James R. Stiversen 50 West Broad Street Co-

lumbus, Ohio 43215 Petitioner presently holds *motor contract carrier* permits in No. MC-114115 (Sub-Nos. 5 and 12) issued November 4, 1963, and September 23, 1971, respectively, authorizing transportation, in interstate or foreign commerce, over irregular routes, of (1) In Sub 5, *salt, in bulk*, (a) between points in Ohio (except those in Ashtabula, Columbiana, Cuyahoga, Geauga, Meholing, Portage, Summit and Trumbull Counties, Ohio), (b) between points in West Virginia, (c) between points in Kentucky, and (d) between points in Michigan (except from Detroit and Port Huron, Mich., to points in the Lower Peninsula of Michigan), restricted in (1) (a, b, c, and d) above to traffic having a prior movement by rail, from water terminals on the Ohio River and its tributaries, to points in Ohio, West Virginia, and Kentucky, with no transportation for compensation on return except as otherwise authorized, and further restricted to traffic having a prior movement by water, under a continuing contract, or contracts, with the following shippers: International Salt Company; Morton Salt Company; and Diamond Crystal Salt Company; and In Sub 12, *rock salt*, in bulk, between points in Illinois, Indiana, Kentucky, Ohio, Pennsylvania, and the Lower Peninsula of Michigan, restricted against the following: (1) Traffic moving between points in Pennsylvania, (2) Traffic moving between points within 40 miles of Monroe, Mich., (3) Traffic moving from Lucas County, Ohio, to points in Michigan and Indiana, and, (4) Traffic moving between points in Ashtabula, Cuyahoga, Franklin, Lake, Licking, Muskingum, Summit, and Wayne Counties, Ohio, on the one hand, and, on the other, points in Indiana, Kentucky, Michigan and Pennsylvania, under a continuing contract, or contracts, with the following shippers: Diamond Crystal Salt Company; International Salt Company; Morton Salt Company, Division of Morton International, Inc.; and Cargill, Incorporated, with service to Cargill, Incorporated, restricted against traffic moving from points in the St. Louis, Mo.-East St. Louis, Ill., Commercial Zone, as defined by the Commission, to points in Illinois and that part of Indiana on and south of U.S. Highway 136 and on and west of Indiana Highway 37. By the instant petition, petitioner seeks to add the additional contracting shipper of Carey Salt Division of Interpace Corp. to the authority described above. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5 GOVERNED BY SPECIAL RULE 240 TO THE EXTENT APPLICABLE

No. MC 29555 (Sub-No. 64) filed May 3, 1973 Applicant: BRIGGS TRANSPORTATION CO., a Corporation 2360

West County Road "C" St. Paul, Minn. 55113 Applicant's representative: Einar Viren 904 City National Bank Building Omaha, Nebr. 68102. NOTICE OF FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

JULY 20, 1973.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's Rules of Practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among

other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall *not* be addressed to or filed with the Interstate Commerce Commission.

Nevada Docket No. CPC A-2189 filed June 6, 1973 Applicant: DEAN M. MASTIN AND MARIE MASTIN, doing business as DUCK VALLEY TRANSPORTATION, 540—12th St. Elko, Nev. 89801 Applicant's representative: Leo J. Puccinelli First National Bank Bldg. Elko, Nev. 89801 Certificate of public convenience and necessity sought to operate a freight and passenger service as follows: Transportation of *commodities generally, and passengers*, between Elko, Nev., and Owyhee, Nev., via State Route #51, serving all intermediate points, including those ranches and business for which there is no other access except from State Route #51. Intrastate, interstate and foreign commerce authority sought. HEARING: Date, time and place not shown. Requests for procedural information should be addressed to the Nevada Public Service Commission, 222 E. Washington Street, Carson City, Nev., 89701, and should *not* be directed to the Interstate Commerce Commission.

Texas Docket No. 3991 filed June 12, 1973 Applicant: VALLEY TRANSIT COMPANY, INC., Lessee, joined by VALLEY BUS COMPANY, INC., Lessor Post Office Box 1870 Harlingen, Tex. 78550 Applicant's representative: Phillip Robinson P.O. Box 2207 Austin, Tex. 78767 Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *Mail, newspapers, parcels and express packages*: Between the International Boundary Line of the United States of America and the Republic of Mexico, located at or near Hidalgo, Texas, and San Antonio, Texas, as follows: From the International Boundary Line of the United States of America and the Republic of Mexico, located at or near Hidalgo, Tex., over U.S. Highway 281 to San Antonio, Tex., and return over the same route, serving the intermediate points of McAllen and Edinburg, Texas. The above authority is subject to the following restrictions: (1) Applicant is hereby prohibited from transporting any high explosives, acids, inflammable liquids, loaded guns, inflammable or combustible motion picture films, or other articles which will endanger the life or limb of the passengers being transported in the motor bus. (2) Applicant is hereby prohibited from transporting any mail, newspapers, parcels and express packages which interfere with the convenience and reasonable comfort or safety of the passengers being transported in the motor bus. (3) The authority to transport mail, newspapers, parcels and express packages in the same vehicle transporting passengers shall be coexten-

sive with the certificates and operating rights authorizing the transportation of passengers, and the applicant is hereby prohibited from transferring by assignment, sale, lease, or otherwise, the authority to transport passengers unless the authority to transport mail, newspapers, parcels and express packages shall be transferred simultaneously, and/or vice versa. If operations under this motor bus certificate are abandoned or suspended, the authority to transport mail, newspapers, parcels and express packages will be abandoned or suspended accordingly. (4) Applicant is hereby prohibited from engaging in pickup and delivery service and the services that it will render hereunder will be only from terminal to terminal. (5) The Railroad Commission of Texas hereby retains jurisdiction over this grant of authority to the end that it may at any time, after notice and hearing, restrict applicant's transportation of mail, newspapers, parcels and express packages so as to prevent it from becoming a primary truck service instead of a truck service incident to the primary motor bus service, and, further, the Railroad Commission of Texas hereby retains jurisdiction to regulate the size and weight of packages so as to prevent the applicant from engaging in the transportation of property as a primary operation. (6) Applicant is hereby authorized to only transport mail, newspapers, parcels and express shipments on motor buses transporting passengers, and applicant is hereby prohibited from using separate vehicles in the transportation of these commodities. (7) The Railroad Commission of Texas hereby restricts the transportation of these commodities—mail, newspapers, parcels and express packages—so that applicant is prohibited from utilizing the interior of the bus where seats are located for the comfort and convenience of the bus passengers for the transportation of parcels and express packages. The applicant will utilize below-floor luggage compartments or luggage compartments in the rear of the bus that is separated from the passenger carrying interior, or racks on the top of bus, for the transportation of parcels and express packages; and further, the Railroad Commission of Texas retains jurisdiction to enforce this restriction. (8) The holder of this certificate is hereby restricted from transporting film (flammable or inflammable) where the consignor or consignee thereof is a motion picture film exchange or a motion picture film theatre and the proposed movement is between points in Texas served in film common carrier motor carrier service as of December 15, 1956, by a common carrier film carrier and/or carriers authorized by the Railroad Commission of Texas pursuant to certificates of public convenience and necessity issued to such film carriers; and such points are as reflected by the Commission's records and a tabulation filed in this proceeding on or about January 21, 1957, to all of

which reference is made for purposes of this restriction. Intrastate, interstate and foreign commerce authority sought. HEARING: Date, time and place not shown. Requests for procedural information should be addressed to the Railroad Commission of Texas, Drawer 12967, Capitol Station, Austin, Tex., 78711, and should *not* be directed to the Interstate Commerce Commission.

By the Commission.
