Area Code 202

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

PROCLAMATION 4381

Captive Nations Week, 1975

By the President of the United States of America

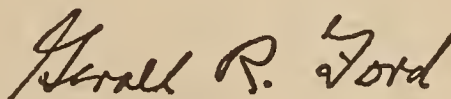

A Proclamation

The history of our Nation reminds us that the traditions of liberty must be protected and preserved by each generation. Let us, therefore, rededicate ourselves to the ideals of our own democratic heritage. In so doing, we manifest our belief that all men everywhere have the same inherent right to freedom that we enjoy today. In support of this sentiment, the Eighty-sixth Congress, by a joint resolution approved July 17, 1959 (73 Stat. 212), authorized and requested the President to proclaim the third week in July of each year as Captive Nations Week.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, do hereby designate the week beginning July 13, 1975, as Captive Nations Week.

I call upon the people of the United States to observe this week with appropriate ceremonies and activities, and I urge rededication to the aspirations of all peoples for self-determination and liberty.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-seventh day of June, in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the one hundred ninety-ninth.

[FR Doc.75-17288 Filed 6-27-75;4:48 pm]

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 1—General Provisions

CHAPTER I—ADMINISTRATIVE COMMITTEE OF THE FEDERAL REGISTER

CFR CHECKLIST

1975 Issuances

This checklist, prepared by the Office of the Federal Register, is published in the first issue of each month. It is arranged in the order of CFR titles, and shows the revision date and price of the volumes of the Code of Federal Regulations issued to date for 1975. New units issued during the month are announced on the back cover of the daily FEDERAL REGISTER as they become available.

The rate for subscription service to all revised volumes issued for 1975 is \$350 domestic, \$75 additional for foreign mailing.

Order from Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

ACTION

Section 213.3359 is amended to show that one position of Special Assistant to the Director is excepted under Schedule C.

Effective on July 1, 1975, § 213.3359(r) is amended as set out below:

§ 213.3359 ACTION.

* * * * *

(r) Two Special Assistants to the Director.

* * * * *

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,

[SEAL] JAMES C. SPRY,
Executive Assistant
to the Commissioners.

[FR Doc.75-17201 Filed 6-30-75;8:45 am]

PART 213—EXCEPTED SERVICE

Federal Energy Administration

Section 213.3388 is amended to show the change of organizational title from the Office of Public Affairs to the Office of Communications and Public Affairs and to show that one position of Special Assistant to the Director, Office of Communications and Public Affairs is excepted under Schedule C.

Effective on July 1, 1975 § 213.3388(c) is amended and § 213.3388(c)(2) is re-established to read as follows:

§ 213.3388 Federal Energy Administration.

* * * * *
(c) Office of Communications and Public Affairs. * * *

(2) One Special Assistant to the Director.

**PART 551—PAY ADMINISTRATION
UNDER THE FAIR LABOR STANDARDS ACT**
Exemptions

A new Part 551 is being added to Chapter I of 5 CFR, under the provision in section 4(f) of the Fair Labor Standards Act, as amended by Pub. L. 93-259 enacted April 8, 1974, which states:

Notwithstanding any other provision of this Act, or any other law, the Civil Service Commission is authorized to administer the provisions of this Act with respect to any individual employed by the United States (other than any individual employed in the Library of Congress, United States Postal Service, Postal Rate Commission, or the Tennessee Valley Authority).

Partial regulations governing exemptions are issued at this time, with regulations on other aspects to follow.

These regulations are issued without prior publication in proposed form. Because this is a matter relating to agency management and personnel practices, the provisions of the Administrative Procedure Act (now codified in 5 U.S.C. 553) concerning notice of proposed rule-making, opportunity for public participation, and delay in effective date are inapplicable.

The Civil Service Commission has, however, provided opportunity for all interested parties, including Federal agencies and employee organizations,

and the public to comment on the issues covered by the exemption regulations. This opportunity was provided through circulation, in July 1974, to Federal agencies and unions representing Federal employees, of a draft proposing expansion of the interim instruction on exemption criteria with a request for comment, and through a formal public hearing notice of which was published on September 16, 1974 in the FEDERAL REGISTER (39 FR 33255).

The comments received, reflected widely divergent views concerning the exemption criteria. The Commission has resolved the issues raised in terms of the policy of integrating exemption criteria with Federal classification systems to the extent possible, while maintaining results consistent with the exemption criteria applied by the Department of Labor.

In accordance with the foregoing, Chapter I of Title 5 of the Code of Federal Regulations is amended by adding a new Part 551, reading as follows:

Subpart A—[Reserved]

Subpart B—Exemptions

Sec.

- 551.201 Agency authority.
551.202 General principles governing exemptions.
551.203 Exemptions of executive, administrative and professional employees.
551.204 Exemption of employees serving in foreign areas.

AUTHORITY: Sec. 4(f) of the Fair Labor Standards Act as amended by Pub. L. 93-259, enacted April 8, 1974.

Subpart A—[Reserved]

Subpart B—Exemptions

§ 551.201 Agency authority.

The employing agency shall exempt from the overtime provisions of the Fair Labor Standards Act of 1938, as amended, any employee who meets the exemption criteria of this subpart and such supplemental interpretations or instructions as shall be issued by the Civil Service Commission.

§ 551.202 General principles governing exemptions.

In all exemption determinations, the agency shall observe the principles that:

- (a) Exemption criteria shall be narrowly construed to apply only to those employees who are clearly within the terms and spirit of the exemption.
(b) The burden of proof rests with the agency that asserts the exemption.

(c) All employees who clearly meet the criteria for exemption must be so exempted.

§ 551.203 Exemption of executive, administrative, and professional employees.

The employing agency shall exempt any employee who is an executive, administrative, or professional employee as defined herein.

(a) An executive employee is a supervisor, foreman, or manager who supervises at least three subordinate employees and who meets all of the following criteria:

(1) The employee's primary duty consists of management or supervision.

(2) The workers supervised constitute a recognized organizational unit.

(3) The employee regularly exercises discretion and independent judgment, under only general supervision, in planning, directing and controlling the work of the unit supervised.

(4) The employee performs significant personnel management duties.

(5) The employee's position is classified no lower than General Schedule grade 5 (GS-5) or the equivalent level in other white collar pay systems, or the employee fully meets or exceeds the "Foreman range of responsibility" defined in the job grading standard for Wage Supervisors, if under the Federal Wage System or equivalent prevailing rate systems.

(6) In addition to the primary duty criterion that applies to all employees, Foreman level supervisors in the Federal Wage System or the equivalent in other wage systems, and employees classified below GS-10 or the equivalent in other white collar pay systems, must spend 80 percent or more of the work-time in a representative workweek on supervisory and closely related work.

(b) An administrative employee is an advisor, assistant or representative of management, or a specialist in a management or general business function or supporting service who meets all of the following criteria:

(1) The employee's primary duty consists of work that:

(i) Significantly affects the formulation or execution of management policies or programs; or

(ii) Involves general management or business functions or supporting services of substantial importance to the organization serviced; or

(iii) Involves substantial participation in the executive or administrative functions of a management official.

(2) The employee performs office or other predominantly nonmanual work which is:

(i) Intellectual and varied in nature, or

(ii) Of a specialized or technical nature that requires considerable special training, experience and knowledge.

(3) The employee must frequently exercise discretion and independent judgment, under only general supervision, in performing the normal day-to-day work.

(4) The employee's position is classified no lower than GS-7 or the equivalent level in other white collar pay systems.

(5) In addition to the primary duty criterion that applies to all employees, General Schedule employees below GS-10, or the equivalent in other salary systems, must spend 80 percent or more of the worktime in a representative workweek on administrative functions and work that is an essential part of those functions.

(c) A professional employee is an employee who is practicing a learned or artistic profession and who meets all of the following criteria, or any teacher who is engaged in the imparting of knowledge or in the administration of an academic

Title 7—Agriculture

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—SPECIAL PROGRAMS

[Amdt. 10]

PART 780—APPEAL REGULATIONS

Requests for Reconsideration and Appeals Requiring Special Handling

Section 780.11 is being revised to provide that, in addition to the items listed in paragraphs (a) (1) through (8) of this section, administrative determinations made by a State ASC committee with respect to the establishment of rice allotments, are not appealable to the Deputy Administrator.

Section 780.11 of the appeal regulations, 7 CFR Part 780, is amended by revising paragraph (a) to read as follows:

§ 780.11 Requests for reconsideration and appeals requiring special handling.

(a) Determinations made by a State committee with respect to (1) the establishment of farm yields for wheat, feed grain, and cotton, (2) the establishment of wheat allotments, (3) the establishment of farm feed grain allotments, (4) the establishment of upland cotton base acreage allotments, (5) the establishment of conserving bases, (6) matters rising under the tobacco discount variety program, (7) eligibility provisions of the livestock feed program, (8) the disaster provisions of the wheat, feed grain and upland cotton programs that a loss on a farm was due in whole or in part to causes other than the natural disaster or conditions beyond the control of the producer, and (9) the establishment of rice allotments, are not appealable to the Deputy Administrator.

* * * * *

Effective date. The changes in the foregoing amendment of Part 780 relate to its applicability to the 1975 Rice Program and subsequent rice programs for which rice marketing quotas are not in effect. Farmers are completing their plans for the 1975 crop year, and it is essential that the foregoing amendment of Part 780 be made effective as soon as possible. It is hereby found and determined that compliance with the notice and public procedure provisions of 5 U.S.C. 553 is impracticable and contrary to the public interest. Accordingly, this amendment shall become effective on July 1, 1975.

Signed at Washington, D.C. on June 24, 1975.

E. J. PERSON,
Acting Administrator, Agricultural Stabilization and Conservation Service.

[FR Doc.75-17083 Filed 6-30-75;8:45 am]

program in a school system or educational establishment.

(1) The employee's primary duty consists of:

(i) Work that requires knowledge in a field of science or learning customarily and characteristically acquired through education or training that meets the requirements for a bachelor's or higher degree, with major study in or pertinent to the specialized field as distinguished from general education; or is performing work, comparable to that performed by professional employees, on the basis of specialized education or training and experience which has provided both theoretical and practical knowledge of the specialty, including knowledge of related disciplines and of new developments in the field; or

(ii) Work in a recognized field of artistic endeavor that is original or creative in nature (as distinguished from work which can be produced by a person endowed with general manual or intellectual ability and training) and the result of which depends on the invention, imagination, or talent of the employee.

(2) The employee's work is predominantly intellectual and varied in nature, requiring creative, analytical, evaluative, or interpretative thought process for satisfactory performance.

(3) The employee frequently exercises discretion and independent judgment, under only general supervision, in performing the normal day-to-day work.

(4) The employee's position is classified no lower than GS-7 or the equivalent level in other white collar pay systems.

(5) In addition to the primary duty criterion that applies to all employees, General Schedule employees below GS-10, or the equivalent in other salary systems, must spend 80 percent or more of the worktime in a representative workweek on professional functions and work that is an essential part of those functions.

§ 551.204 Exemption of employees serving in foreign areas.

The employing agency shall exempt from the overtime provisions of the Fair Labor Standards Act any employee whose services during the workweek are performed in a workplace within a foreign country or within territory under the jurisdiction of the United States other than in the following locations: a State of the United States; the District of Columbia; Puerto Rico; the Virgin Islands; Outer Continental Shelf Lands defined in the Outer Continental Shelf Lands Act (67 Stat. 462); American Samoa; Guam; Wake Island; Eniwetok Atoll; Kwajalein Atoll; Johnston Island and the Canal Zone.

Effective date: July 1, 1975.

UNITED STATES CIVIL SERVICE COMMISSION,

[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.75-17203 Filed 6-30-75;8:45 am]

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK) DEPARTMENT OF AGRICULTURE

[Milk Order No. 64]

PART 1064—MILK IN THE GREATER KANSAS CITY MARKETING AREA

Order Terminating Certain Provisions

This order of termination is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and of the order regulating the handling of milk in the Greater Kansas City marketing area.

Notice of proposed rulemaking was published in the FEDERAL REGISTER (40 FR 24019) concerning a proposed termination of the Base-Excess Plan provisions of the order. Interested persons were afforded opportunity to file written data, views, and arguments thereon.

After consideration of all relevant material, including the proposal set forth in the aforesaid notice, data, views, and arguments filed thereon, and other available information, it is hereby found and determined that the following provisions of the order no longer tend to effectuate the declared policy of the Act and are hereby terminated:

§ 1064.32 [Amended]

1. In § 1064.32, *Other reports*, paragraphs (a) and (b) in their entirety.

§ 1064.60 [Amended]

2. Immediately preceding § 1064.60, in the centerhead "UNIFORM PRICES", the letter "S".

§ 1064.61 [Amended]

3. In 1064.61, *Computation of uniform price (including weighted average price and base and excess prices)*, the words "and base and excess prices" as they appear in the definitive heading of the section; and in paragraph (a) (6), the words "for the months of August through January shall be"; and paragraph (b) in its entirety.

§ 1064.62 [Amended]

4. In § 1064.62, *Announcement of uniform prices and butterfat differential*, the letter "s" as it appears in the word *prices* where such word appears both in the definitive section heading and in paragraph (b).

§ 1064.71 [Amended]

5. In § 1064.71, *Payments to the producer-settlement fund*, paragraph (b) in its entirety.

§ 1064.72 [Amended]

6. In § 1064.72, *Payments from the producer-settlement fund*, the references "or (b) (2)" and "or (b) (1)".

§ 1064.73 [Amended]

7. In § 1064.73, *Payments to producers and to cooperative associations*, the letter "s" in the word *prices* where such word appears in the text of paragraph (a) preceding the proviso; and in para-

graph (d)(2), the words "applicable weighted average or".

§ 1064.74 [Amended]

8. In § 1064.74, *Butterfat differential*, the letter "s" in the words *uniform prices*.

§ 1064.75 [Amended]

9. In § 1064.75(a), *Plant location adjustments for producers and on nonpool milk*, the phrase "and the uniform price for base milk pursuant to § 1064.61(b)".

§§ 1064.90, 1064.91, 1064.92, 1064.93 [Removed]

10. Sections 1064.90, 1064.91, 1064.92, and 1064.93 in their entirety, and the centerheading "BASE-EXCESS PLAN" immediately preceding § 1064.90.

Statement of consideration. This action terminates the base and excess plan provisions of the order, effective September 1, 1975.

The base and excess plan is a method of apportioning the total value of milk in the market among producers on the basis of their marketings of milk during a representative period. In the Greater Kansas City market each producer is assigned a base computed from his milk deliveries in the months of September through December each year, and is paid on such base in the following months of February through July.

The termination of the base and excess plan effective September 1 was requested by Mid-America Dairymen, Inc., and is supported by Land O'Lakes, Inc., two cooperatives which together represent a large majority of producers on the Greater Kansas City market.

A large percentage of producers are finding that adjustment of production in relation to the base and excess plan presents difficult herd management problems and generally oppose the continuation of the plan under the order. Under the circumstances, adjustment of herds to a fall freshening program could result in a loss of milk production and income for producers on this market. The operation of the base and excess plan was suspended during the months of February through July 1974 for similar reasons.

A further consideration for a group of producers who are located in southern Minnesota is that other dairy farmers in that area are not generally paid under a base and excess plan. This group of producers does not support the base plan because of the disparity in payments compared to dairy farmers in the same area.

This termination action is taken to coincide with the beginning of the September-December period on which new daily bases would be otherwise computed.

This termination is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area in that a substantial majority of producers on the Greater Kansas City order are finding it difficult to adapt their present production patterns to the base-excess plan and thus oppose its continuance.

Notice of proposed rulemaking was given interested parties and they were afforded opportunity to file written data, views or arguments concerning this termination. No views were received in opposition to the proposed termination.

Therefore, good cause exists for making this order effective with respect to producer milk deliveries on and after September 1, 1975.

It is therefore ordered, That the aforesaid provisions of the order are hereby terminated, effective September 1, 1975.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Effective date: September 1, 1975.

Signed at Washington, D.C., on: June 26, 1975.

RICHARD L. FELTNER,
Assistant Secretary.

[FR Doc.75-17080 Filed 6-30-75;8:45 am]

[Milk Order No. 131]

PART 1131—MILK IN THE CENTRAL ARIZONA MARKETING AREA

Order Suspending a Certain Provision

This order of suspension is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and of the order regulating the handling of milk in the Central Arizona marketing area.

It is hereby found and determined that for the month of July 1975, subparagraph (1) of § 1131.13(c) in its entirety does not tend to effectuate the declared policy of the Act:

STATEMENT OF CONSIDERATION

The suspension will remove during July 1975 the limitation that not more than eight days' production of any producer may be diverted to a nonpool plant from a pool plant during the month.

The suspension was requested by a cooperative association as an interim measure pending completion of amendatory action on its proposal to modify pooling standards for a plant operated by a cooperative. A hearing on that proposal was held at Phoenix, Arizona, on March 12, 1975 and a recommended decision in this matter was issued on June 13 (40 FR 25682).

The cooperative requesting the suspension supplies the market with a substantial part of its fluid milk needs and processes at its manufacturing plant much of the reserve milk supply for the market. In its request proponent indicated that the cooperative's plant would be unable to meet the pooling requirements of the order for the month of July and that in similar circumstances during the preceding year an identical suspension action was made effective for the months of June through August.

While the plant is in nonpool status for the month of July, the cooperative will not be able to maintain producer milk status for all of its member milk

under the diversion limitations. Thus, without the suspension, substantial quantities of milk regularly associated with the pool during the preceding months would be excluded from the pool.

It is concluded that the suspension provided herein for the month of July 1975 is necessary to assure the continued orderly disposition of milk for the market.

It is hereby found and determined that notice of proposed rulemaking, public procedures thereon, and thirty day's notice of the effective date hereof are impractical, unnecessary and contrary to the public interest in that:

(a) This suspension is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area;

(b) This suspension does not require of persons affected substantial or extensive preparation prior to the effective date; and

(c) Producers requested this suspension as an interim action pending the completion of amendatory action.

Therefore, good cause exists for making this order effective on July 1, 1975.

It is therefore ordered, That the aforesaid provision of the order is hereby suspended for the month of July 1975.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Effective date: July 1, 1975.

Signed at Washington, D.C., on: June 26, 1975.

RICHARD L. FELTNER,
Assistant Secretary.

[FR Doc.75-17081 Filed 6-30-75;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 83—SCREWWORMS

Commonwealth of Puerto Rico and U.S. Virgin Islands Declared Free of Screwworms

The purpose of these amendments is to declare the Commonwealth of Puerto Rico and the U.S. Virgin Islands free of screwworms and to remove the Commonwealth of Puerto Rico from the list of areas designated as areas of recurring infestation.

Statement of considerations. Since June 1971, Veterinary Services, the Commonwealth of Puerto Rico, and the U.S. Virgin Islands, with logistic contribution from the U.S. Air Force and the Air Force Reserve have engaged in a cooperative effort to eradicate screwworms from the Commonwealth of Puerto Rico and the U.S. Virgin Islands. Sterile screwworm flies were released over Puerto Rico and the adjacent infested islands and the U.S. Virgin Islands in conjunction with ground support activities, including inspection of livestock and treatment of infestations found. The last sterile flies were released over these areas

May 3, 1975. Animal health officials, in cooperation with the livestock industry, have conducted continuous intensive animal inspection surveillance activities since that date without finding evidence of screwworm infestation. The last confirmed screwworm case was found in the U.S. Virgin Islands February 22, 1972, and in the Commonwealth of Puerto Rico November 5, 1974, with no evidence of continuing infestation. Since more than six months have elapsed since a case of screwworms has occurred in Puerto Rico, and the U.S. Virgin Islands have been without evidence of screwworm infestation for a much longer period, it is therefore determined that screwworms have been eradicated from both the Commonwealth of Puerto Rico and the U.S. Virgin Islands.

Accordingly, Part 83, Title 9, Code of Federal Regulations, is amended in the following respects:

1. In § 83.1 paragraph (1) is amended to read:

§ 83.1 Definitions.

(1) *Controlled Zone.* The States of Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, South Carolina, Tennessee, the Commonwealth of Puerto Rico, and the U.S. Virgin Islands.

2. In § 83.2, the introductory paragraph is amended and paragraph (e) is deleted:

§ 83.2 Notice relating to existence of screwworms.

Notice is hereby given that screwworm infestations usually exist from April 15 through November 30 of each year in portions of the States of Arizona, California, New Mexico, and Texas designated in paragraphs (a), (b), (c), and (d) of this section. Therefore, the following areas are hereby designated as areas of recurring infestation.

3. In § 83.6, the introductory paragraph is amended to read:

§ 83.6 Interstate movement of livestock from areas of recurring infestation.

The interstate movement of livestock from any area of recurring infestation in the States of Arizona, California, New Mexico, and Texas is prohibited from April 15 through November 30 of each year, unless the conditions specified in paragraph (a) or (b) of this section are met. This restriction also applies to livestock transiting any area (or areas) of recurring infestation to an area free of screwworm infestation.

(Secs. 4-7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791-792, as amended (21 U.S.C. 111, 112, 115, 120, 121); 37 FR 28464, 28477; 38 FR 19141.)

Effective date. The foregoing amendments shall become effective July 1, 1975.

The amendments relieve restrictions no longer deemed necessary to prevent the spread of screwworms and should be made effective promptly in order to be of

maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would made additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable and unnecessary, and good cause is found for making the amendments effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 26th day of June 1975.

PIERRE A. CHALOUX,
Acting Deputy Administrator,
Veterinary Services, Animal
and Plant Health Inspection
Service.

[FR Doc.75-17153 Filed 6-30-75;8:45 am]

SUBCHAPTER D—EXPORTATION AND IMPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 97—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

Commuted Traveltime Allowances

The purpose of these amendments is to establish commuted traveltime periods as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from the place at which an employee of Veterinary Services performs overtime or holiday duty when such travel is performed solely on account of overtime or holiday duty. Such establishment depends upon facts within the knowledge of the Animal and Plant Health Inspection Service.

Therefore, pursuant to the authority conferred upon the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service by § 97.1 of the regulations concerning overtime services relating to imports and exports (9 CFR 97.1), administrative instructions 9 CFR 97.2 (1974 ed.), as amended November 27, 1974 (39 FR 41356-41358), December 11, 1974 (39 FR 43294), January 3, 1975 (40 FR 757), February 21, 1975 (40 FR 7620), March 11, 1975 (40 FR 11346) and May 8, 1975 (40 FR 20065), prescribing the commuted traveltime that shall be included in each period of overtime or holiday duty, are hereby amended by adding to or deleting from the respective lists therein as follows:

§ 97.2 Administrative instructions prescribing commuted travel time.

Effective date. The foregoing amendments shall become effective July 1, 1975.

It is to the benefit of the public that these instructions be made effective at the earliest practicable date. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, pursuant to 5 U.S.C. 553, it is found upon good cause that notice and public procedure on these instructions are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 25th day of June, 1975.

PIERRE A. CHALOUX,
Acting Deputy Administrator,
Veterinary Services Animal
and Plant Health Inspection
Service.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 68-WE-8-AD; Amdt. 39-2247]

PART 39—AIRWORTHINESS DIRECTIVES

General Dynamics Model 340, 440 and C-131E Airplanes Including Those Incorporating Turbopropeller Power

Amendment 39-597 (33 FR 7110), AD 68-10-4, as amended by Amendment 39-1305 (36 FR 19493), requires inspection of the front spar lower rail for cracks between wing stations 240 and 270 and between wing stations 360 and 490 on General Dynamics Models 340, 440 and C-131E airplanes including those using turbo-propeller power. After issuing Amendment 39-1305, the agency determined that at least one operator has reported finding cracks near a leading edge joint at 275. Therefore, the AD is being amended to require inspection for cracks between wing stations 240 and 490 until modified in accordance with the manufacturer's Service Engineering Report.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-597 (33 FR 7110), AD 68-10-4, as amended by Amendment 39-1305 (36 FR 19493), is further amended as follows:

Amend paragraph (c) in pertinent part, to read: Remove the wing leading edge and visually inspect the wing front spar lower rail between wing stations 240 and 490 for cracks.

This amendment becomes effective July 30, 1975.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Los Angeles, Calif., on June 18, 1975.

LYNN L. HINK,
Acting Director,
FAA Western Region.

[FR Doc.75-17067 Filed 6-30-75;8:45 am]

[Docket No. 75-SO-69, Amdt. 39-2249]

PART 39—AIRWORTHINESS DIRECTIVES

Lockheed Model 382 Series

Pursuant to the authority delegated to me by the Administrator (31 FR 13697), an airworthiness directive was adopted on June 13, 1975, and made effective immediately as to all known operators of Lockheed Model 382 Series airplanes. The directive requires an inspection of the outer wing lower aft beam cap, beam web, and aft lower panel.

Since it was found that immediate corrective action was required, notice and public procedure thereon was impracticable and contrary to the public interest and good cause existed for making the airworthiness directive effective immediately as to all known U.S. operators of Lockheed Model 382 series airplanes by individual telegrams dated June 13, 1975. These conditions still exist and the airworthiness directive is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective as to all persons.

Pursuant to the authority of the Federal Aviation Act of 1958, delegated to me by the Administrator, the following airworthiness directive applicable to operators of Lockheed Model 382 Series Airplanes certificated in all categories is effective immediately upon receipt of this telegram because of cracks in the outer wing lower aft beam cap and web. Lockheed. Applies to all Model 382 series Airplanes, serial numbers 3946 and 4101 through 4541, except those airplanes which have been modified in accordance with ECP 954, or equivalent, or repaired in accordance with FAA approved instructions. For airplanes with 15,000 hours or more total time in service, within the next 50 hours' time in service, and thereafter at intervals not to exceed 500 hours in service from the last inspection

fluorescent dye penetrant inspect (1) Outer wing lower aft beam cap aft horizontal flange from OWS 105 to 108, paying particular attention to the fillet radius, (2) Lower three inches of aft face of outer wing aft beam web from OWS 105 to 108, and (3) Aft two inches of outer surface of the outer wing lower aft skin panel from OWS 105 to 108.

This amendment is effective July 3, 1975, and was effective June 13, 1975, for all recipients of the telegram dated June 13, 1975, which contained this amendment.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on June 19, 1975.

LONNIE D. PARRISH,
Acting Director, Southern Region.

[FR Doc.75-17068 Filed 6-30-75;8:45 am]

[Airspace Docket No. 75-WA-11]

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Redesignation of Jet Route

The purpose of this amendment to Part 75 of the Federal Aviation Regulations is to renumber the U.S. portion of J-509 between Long Lake, N.Y., intersection and Montreal, Quebec, Canada, to J-570. Canada is taking similar action to renumber the portion of J/HL509 that lies within their airspace. Additionally, this amendment corrects the regulatory description of the jet route to use the name Montreal, Quebec, rather than St. Eustache, Quebec. There is no change in route alignment.

This redesignation is part of an overall plan to simplify routes and air traffic clearances for air traffic on high level airways serving the North Atlantic routes.

Since a change in route identification is a minor amendment upon which the public is not particularly interested, notice and public procedure thereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing, Part 75 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., October 9, 1975, as hereinafter set forth.

In § 75.100 (40 FR 705) Jet Route No. 509 is deleted and the following is added:

1. JET ROUTE No. 570

From the INT of Albany, N.Y., 343° and Montreal, Quebec, 188° radials to the INT of the Montreal 188° radial with the United States/Canadian border.

(Secs. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in Washington, D.C., June 25, 1975.

F. L. CUNNINGHAM,
Acting Chief, Airspace and Air
Traffic Rules Division.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release Nos. IA-463, IC-8826, File No. 4-149]

PART 270—RULES AND REGULATIONS, INVESTMENT COMPANY ACT OF 1940

PART 275—RULES AND REGULATIONS, INVESTMENT ADVISERS ACT OF 1940

Variable Life Insurance; Rescission of Exemptive Rules

Notice is hereby given that the Securities and Exchange Commission ("Commission") has determined to rescind Rule 3c-4 (17 CFR 270.3c-4) under the Investment Company Act of 1940 (15 U.S.C. 80a-1 et seq.) ("Investment Company Act") and Rule 202-1 (17 CFR 275.202-1) under the Investment Advisers Act of 1940 (15 U.S.C. 80b-1 et seq.) ("Advisers Act") (hereinafter collectively referred to as "Rules"). These Rules exempted issuers of variable life insurance contracts which met certain specific requirements and certain investment advisers thereto from the provisions of the Investment Company and Advisers Acts.¹

On February 27, 1975 the Commission announced withdrawal of proposed amendments to the Rules and proposed to rescind the Rules.² While rescission of the Rules would result in the application of the Investment Company and Advisers Acts to variable life insurance contracts, their issuers and related persons, the Commission also announced its intention to propose a rule under section 6(e) (15 U.S.C. 80a-6(e)) of the Investment Company Act which would conditionally exempt certain variable life insurance separate accounts from certain sections of this Act and the rules thereunder while requiring full compliance with all other provisions of this Act and rules.³

Rule 3c-4 defined the term "insurance company" as used in section 3(c)(3) (15 U.S.C. 80a-3(c)(3)) of the Investment

¹ Securities Act Rel. No. 5360, Securities Exchange Act Rel. No. 9972, Investment Company Act Rel. No. 7644, Investment Advisers Act Rel. No. 359 (January 31, 1973), published in the FEDERAL REGISTER on February 13, 1973 (38 FR 4315).

² Investment Company Act Rel. No. 8690, Investment Advisers Act Rel. No. 439 (February 27, 1975), published in the FEDERAL REGISTER on March 12, 1975 (40 FR 11613). The comment period for the proposal was to expire on March 31, 1975 but was extended to April 18, 1975 (Investment Company Act Rel. No. 8706, Investment Advisers Act Rel. No. 443 (March 5, 1975)), and further extended to June 2, 1975 (Investment Company Act Rel. No. 8761, Investment Advisers Act Rel. No. 453 (April 16, 1975), published in the FEDERAL REGISTER on April 24, 1975 (40 FR 18007)).

³ Investment Company Act Rel. No. 8691, Investment Advisers Act Rel. No. 440 (February 27, 1975), published in the FEDERAL REGISTER on March 12, 1975 (40 FR 11614). The comment period for this matter was to expire on April 18, 1975 but was extended to June 2, 1975 (Investment Company Act Rel. No. 8760, Investment Advisers Act Rel. No. 452 (April 16, 1975), published in the FEDERAL REGISTER on April 24, 1975 (40 FR 18007)).

Company Act to include a separate account which was employed as the funding medium for variable life insurance contracts. For this purpose, the Rule defined a variable life insurance contract as any contract of insurance issued by an insurance company which, so long as premiums were paid when due, provided a death benefit which varied to reflect the investment experience of a separate account established and maintained by such insurance company and which met the four additional criteria specified in paragraph (b) of the Rule.

Rule 202-1 excluded from the definition of the term "investment adviser" set forth in section 202(a)(11) (15 U.S.C. 80b-2(a)(11)) of the Advisers Act, an insurance company, or any affiliated company thereof to the extent that any advisory services performed were incidental to the conduct of the business of issuing any variable life insurance contract as defined in Rule 3c-4 under the Investment Company Act or any interest or participation in a separate account issued in connection with such contract.

In adopting the rules, and later in considering amendments thereto, the Commission expressed concern that regulations be developed by state insurance authorities which would provide investor protection substantially equivalent to relevant protections afforded by the Investment Company and Advisers Acts, and that such regulations be adopted prior to the sale to the public of variable life insurance contracts. Specifically, the Commission indicated that if substantial regulatory deficiencies existed and were not likely to be remedied, the Commission would consider whether it was necessary or appropriate to modify or rescind the Rules.⁴ These concerns prompted the Commission on September 20, 1973 to request comments,⁵ and on January 31, 1974, to order a public hearing on proposed amendments to the Rules and on the Model Variable Life Insurance Regulation adopted by the National Association of Insurance Commissioners in December 1973.⁶

Based on the comments and testimony received in response to these releases, as well as the extensive prior submissions made throughout the Commission's consideration of the status of variable life insurance under the federal securities laws, and the comments submitted in response to the proposal to rescind the Rules, and in light of the difficulties which have been and would be encountered in developing and enforcing a reg-

ulatory pattern administered by diverse authorities which would afford protections to investors substantially equivalent to protections available under the Investment Company Act, the Commission has concluded that the exemptions provided by Rules 3c-4 and 202-1 would not assure necessary investor protections, including, but not limited to, prohibitions against excessive management fees, administrative fees and sales charges, controls to prevent unfair contract provisions with respect to redemption of contractholder interests, management accountability to investors and independent review of the operations of the separate account, prohibitions against breaches of fiduciary duty, and private rights of action with respect to investor protection provisions.

Accordingly, the Commission has determined that rescission of the Rules is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policies and provisions of the Investment Company and Advisers Acts. Therefore, pursuant to authority granted the Commission in section 6(c) and 38(a) (15 U.S.C. 80a-6(c) and 80a-37(a)) of the Investment Company Act and sections 202(a)(11), 206A and 211(a) (15 U.S.C. 80b-2(a)(11), 80b-6a and 80b-11(a)) of the Advisers Act, the Commission hereby rescinds §§ 270.3c-4 and 275.202-1 of 17 CFR Chapter II, effective July 30, 1975.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

JUNE 18, 1975.

Title 18—Conservation of Power and Water Resources

CHAPTER I—FEDERAL POWER COMMISSION

[Docket No. R-472; Order No. 531]

PART 3—ORGANIZATION; OPERATION; INFORMATION AND REQUESTS; MISCELLANEOUS CHARGES; ETHICAL STANDARDS

PART 260—STATEMENTS AND REPORTS (SCHEDULES)

Natural Gas Curtailments

JUNE 25, 1975.

By Notice issued May 12, 1975, and published in the FEDERAL REGISTER on May 16, 1975, (40 FR 21492) in Docket No. R-472 pursuant to section 553 of Title 5 of the United States Code and the Natural Gas Act, sections 4, 5, 7, 8, 10, 14, 15 and 16, (52 Stat. 822, 823, 824, 825, 826, 828, 829, 830; 56 Stat. 83, 84; 61 Stat. 459; 76 Stat. 72; 15 U.S.C. 717c, 717d, 717f, 717g, 717i, 717m, 717n, 717o) the Federal Power Commission (FPC) proposed to add a new form which is to be filed by all interstate pipeline companies subject to its jurisdiction that supply natural gas, including LNG and SNG, directly to end-use customers. This new form is required in order to determine the extent to which alternate fuels may

be utilized to meet the requirements of those end-use customers who will not be able to continue to satisfy their energy needs with natural gas due to the imposition of increasing levels of curtailment upon such customers by interstate pipeline companies or foreign suppliers of natural gas. In order to obtain this information, the Commission will add a new § 260.15 to Part 260 (Statements and Reports (Schedules)) of Subchapter G (Approved Forms, Natural Gas Act) of Chapter I of Title 18 of the Code of Federal Regulations.

The Commission in its Order No. 523 issued in Docket No. R-472 on February 6, 1975, withheld passing upon the inclusion of Schedule 1B and Schedule 1C in FPC Form No. 16 in deference to numerous comments that had been submitted by interested parties.¹ It was noted in the Order that the comments urged our postponement of any action on those schedules in this proceeding until agreement was reached among the Commission, the Federal Energy Administration (FEA) and the National Association of Regulatory Utility Commissioners (NARUC) on expanded information desired by the FEA. FPC Form No. 69 was developed by the Federal Power Commission in coordination with the FEA, NARUC, and other governmental agencies after a series of informal conferences as provided for in Order No. 523 were conducted on these matters. Form No. 69 seeks the type of data that was initially sought under the aforementioned proposed schedules 1B and 1C of FPC Form No. 16. The acquisition of the data sought in FPC Form No. 69 and the similar complementary form to be promulgated by the FEA is an essential prerequisite to any subsequent measures that may be taken to offset the disruptive impact envisaged under the increased curtailments of natural gas.

Form No. 69 will be filed with this Commission only by jurisdictional suppliers. Suppliers of natural gas who are not subject to the jurisdiction of the Federal Power Commission will not be affected by the promulgation of Form No. 69, but will be required to file a similar and complementary form with the FEA. Those suppliers of natural gas subject to FPC jurisdiction would file only with the FPC. In this manner, a single

¹ Schedule 1A that was incorporated into FPC Form No. 16 by Order No. 523 only shows system-wide summary information concerning pipeline company supply, requirements and curtailments.

Proposed Schedule 1B to the latter form, upon which action was deferred in Order No. 523, would have required each curtailed distributor receiving 100,000 Mcf per year or more to provide the names of the customers curtailed by such distributor, the volumes involved, certain end-use data, alternate fuel information, location, and SIC code.

The proposed Schedule 1C, also deferred, would have required pipelines to provide end-use, location, SIC code and alternate fuel information for each large direct customer curtailed by the pipeline. (SIC Code relates to the Standard Industrial Classification issued by the Office of Management and Budget.)

⁴ Securities Act Rel. No. 5360, Securities Exchange Act Rel. No. 9972, Investment Company Act Rel. No. 7644, Investment Advisers Act Rel. No. 359 (January 31, 1973) at page 5, published in the FEDERAL REGISTER on February 13, 1973 (38 FR 4315, 4317).

⁵ Investment Company Act Rel. No. 8000, Investment Advisers Act Rel. No. 391 (September 20, 1973), published in the FEDERAL REGISTER on September 26, 1973 (38 FR 26816).

⁶ Investment Company Act Rel. No. 8216, Investment Advisers Act Rel. No. 399 (January 31, 1974), published in the FEDERAL REGISTER on February 11, 1974 (39 FR 5209).

coordinated form may be filed by those required to report with the Federal Power Commission, and thereby satisfy the mutual requirements of both the FPC and the FEA for this data. This will reduce the burden on those persons required to report and will further enable better coordination of information between the FPC and the FEA as well as with the members of NARUC.

The FEA under its statutory obligations is primarily concerned with information relating to the alternate fuels and the quantities of the specific alternate fuels that can serve to satisfy the needs of those portions of this nation's industrial and commercial complex that previously utilized natural gas as a fuel but will not be able to satisfy their energy needs with natural gas as a result of the increasing severity of curtailment anticipated by interstate pipeline companies.

Similarly, this Commission has a need for this information in order to meet its responsibilities under the Natural Gas Act where it has a mandate to require that those pipeline companies subject to its jurisdiction adopt curtailment plans that are in the national and public interest.² The Commission requires this information in support of its continuing endeavor to develop curtailment plans for interstate pipelines and their customers that are required and in the public interest and to determine both in specific cases and on a general basis how to minimize the harmful impact that the gas supply deficiency may have on the various sectors of the nation's industrial complex.

Hence, both this Commission and the FEA require this information in order to fulfill the important statutory obligations with which they are charged. The information as required by Form No. 69 must be provided on a continuing and routine basis due to the fact that the natural gas supply situation requires continual revision of curtailment forecasts by interstate pipeline companies to their customers. The information concerning what alternate fuels, if any, can be substituted for the natural gas supplies that will be or are being curtailed by interstate pipelines relative to service to their direct end-use customers is a matter required to assist the Commission in formulating its over-all curtailment policy as well as specific curtailment plans for individual interstate pipeline companies.

Nine responses to the notice of proposed rulemaking have been received. Four of the responses oppose the adoption of Form No. 69 and request that the Commission terminate the instant proceeding.³ The National Associa-

tion of Regulatory Utility Commissioners (NARUC) indicated in its response that it strongly favors the promulgation of this form and El Paso Natural Gas Company stated that it does not oppose the adoption of Form No. 69. Mountain Fuel Supply Company filed late comments favorable to the coordinated efforts envisaged by the promulgation of Form No. 69.⁴

The Commission does not concur in the statements of Texas Gas, INGAA, and Iowa-Illinois that the FEA should proceed alone under its statutory prerogatives and obtain the data directly from the end-use customers of natural gas pipeline companies. Form No. 69 represents only part of a coordinated effort undertaken by this Commission and the FEA to acquire essential data on a national basis which is required by both agencies in fulfilling their statutory obligations.

The collection of data by the Commission, through Form 69, is directed only to those areas within this Commission's sphere of jurisdiction and relates to the acquisition of information needed by it in these critical times of natural gas shortage. The FEA will collect complementary information from suppliers of gas not subject to this Commission's jurisdiction regarding the gas uses and requirements of their end-use customers. The coordinated effort by the FPC and FEA is intended to avert duplication of effort and lighten the reporting burden of the companies involved, and yet assure each agency of obtaining information necessary to its respective functions.

Iowa-Illinois and INGAA contend that pipeline suppliers of natural gas do not have access to certain information concerning end-use customers called for by Form No. 69 with respect to alternate fuels, SIC designations, and workdays lost as a result of natural gas curtailments. The Commission is cognizant of the fact that jurisdictional pipelines might not be intimately acquainted with every aspect of the operations of their direct sales customers. However, those pipelines have a close working relationship with this type of customer. Since the imposition of curtailments by this Commission, natural gas pipelines have been required on numerous occasions to provide many different types of data necessary for Commission decisions relative to the problems associated with the natural gas shortage, including the imposition of curtailment plans. Unfortunately, the critical natural gas shortage makes it necessary for the collection of this data

⁴Late comments were also received from Arkansas Louisiana Gas Co. asking that only semi-annual reports be filed 45-60 days after the end of the quarter, aggregated reporting by state, and elimination of the worker-days lost information requirement and Public Service Electric and Gas Co. in New Jersey stating the information sought is too voluminous. Our instructions however make clear that the data is to be furnished on all Schedules only for those customers that were or are to be curtailed. This should reduce the volume of data to be reported.

as expeditiously as possible. The Commission must therefore require that those natural gas pipeline companies subject to its jurisdiction undertake to collect from their end-use customers the information called for in Form No. 69. It seems obvious that in the event a pipeline supplier does not have available in its own files information required by Form No. 69, that such information would be readily accessible upon communication with its direct end-use customer.

Iowa-Illinois and INGAA contend that they might have difficulty in certifying to the truth and accuracy of some of the information obtained from their direct end-use customers. However, the certification goes only to the best knowledge of the certifier. The instructions now include the statement that respondents are expected to use reasonable care in assuring the completeness and accuracy of the data supplied by the end-use customers, but respondents are not required to conduct an independent investigation of the data so supplied. We do not believe the certification places an unfair burden upon the jurisdictional companies.

In the Notice we requested comments "on the question of whether the information obtained on Form No. 69 could be provided to the FEA and other Federal or state agencies, or placed in the Commission's public files in aggregate or disaggregate form without breaching any right to confidentiality which respondents might claim with respect to the information set out in their report."

The only comments tendered registering opposition to any distribution of the information obtained from Form No. 69 where in the responses submitted by Texas Gas and Phelps Dodge. Phelps Dodge contends that it considers its fuel usages to be confidential. Texas Gas is of the opinion that some of the data solicited might be competitive information which should not be made public. It urges that such information should be filed with the Commission or FEA on a confidential basis. It contends that the direct customers may see fit to release this information to other agencies but stresses that this is not within this Commission's purview.

El Paso notes that it has no objection to the release of the data to be collected on Form No. 69. El Paso further notes that it has contacted its major direct customers and that such customers have advised it that they do not regard this data as being confidential. It does caution however that one or more of its other direct customers may desire that this information be kept confidential.⁵

The comments received on this issue do not demonstrate that the dissemination of data from Form No. 69 by this

²"FPC v. Louisiana Power and Light Company," 406 U.S. 621 (1972).

³Texas Gas Transmission Corporation (Texas Gas), Interstate Natural Gas Association of America (INGAA) and Iowa-Illinois Gas and Electric Company oppose the adoption of Form No. 69. Phelps Dodge Corporation (Phelps Dodge) also indicated opposition to this form.

⁵Mountain Fuel in its untimely comments states that industrial customers often have confidential processes and strongly urges the Commission to limit access to specific company reports to Federal and State agencies exhibiting specific need for the information and that such information be made public only after the adoption of measures that would protect the identity of the specific company involved.

Commission to the FEA, or other Federal and state agencies, or the public would be necessarily detrimental to private interests. No response has been received directly from any person, except Phelps Dodge, claiming a need to maintain the information confidential.

The FEA is authorized by law to obtain this information in its own right. And, as the Commission has previously found with respect to other information gathering programs necessary to alleviate or mitigate the effects of the gas shortage, such data should be available not only to all other governmental agencies but the public as well since the value to the public of this information far outweighs any demonstrated pecuniary interest in confidentiality.⁶ Just as with energy supplies, there is a great public interest in the potential alternative energy requirements of this nation's industries. Our comments in Opinion No. 687-A are similarly applicable here:

* * * In Opinion No. 687 we explained that we could not guarantee the confidentiality of the data as against Congressional demands and stated our opinion that the data should be placed in the public file where it would be available to the natural gas industry and to Federal and State agencies, as well as the general public. We now take notice that at the present time because of the gas shortage and energy crises there is great public interest in the potential energy supplies of the United States, who owns them and what use is being made of them. Without this knowledge the public would be unable to appraise and react intelligently towards the actions of government agencies having a responsibility in the field of energy, including this Commission. In our opinion the public, which is asked to curtail the use of energy and to pay at a higher rate for smaller supplies, has the right and need to know who is or is not responsible for the present situation so that it may understand and judge the measures which this Commission and other government agencies are taking to alleviate the situation. Such knowledge, in our opinion, will be directly contributory to the effectiveness of regulatory steps taken by this Commission within its statutory responsibilities.⁷

The information collected on Form No. 69 can in any event be made public by staff where relevant in any litigated proceeding or when relevant may be made available upon request to any party to a proceeding.⁸ Consequently, the information gathered on Form No. 69 will be

⁶ Investigation Of Rates Charged For Non-jurisdictional Sales Of Natural Gas By Natural Gas Companies Subject To The Jurisdiction Of The Federal Power Commission, Order No. 521, Order Establishing Data Collection System To Investigate Rates Charged For Nonjurisdictional Sales of Natural Gas By Natural Gas Companies Subject To The Jurisdiction Of The Federal Power Commission, issued January 9, 1975, p. 6, citing "F.P.C. v. Schreiber," 381 U.S. 279, 298 (1965) and Opinion And Order Requiring Production Of Gas Reserve Data, Opinion No. 687, Docket No. R-405-A,—F.P.C.—(issued February 4, 1974), as amended, Opinion And Order Denying Rehearing, Opinion No. 687-A, Docket No. R-405-A,—F.P.C.—(issued April 3, 1974).

⁷ See note 6, above, mimeo, pp. 1-2.

⁸ See 18 CFR 2.72, Availability of Information Acquired by Staff Investigation, Docket No. RM74-24, Order No. 509-B, Issued August 23, 1974.

routinely provided the FEA for use in its activities and placed in the public file for use by other governmental agencies and the public.

In its comments, Texas Gas also contends that the base period chosen may not be representative in that many of the pipelines were actually in curtailment at that time. The Commission recognizes this fact and did not intend that it serve as a limit upon the requirements of direct end-use customers, as is normally the case under the curtailment plans being implemented by jurisdictional pipeline companies. The base period prescribed is intended for purposes of general analysis and to provide some insight into the impact the increased incremental curtailment may have on alternate fuel requirements.

Although Form No. 69 as promulgated herein is not similar in appearance to the proposed Form No. 69 attached to our Notice of rulemaking issued on May 12, 1975, the change in appearance does not substantively change the form as it was initially noticed. The data and information requested remains the same. The change in the lay-out of the form and the expanded instructions were coordinated with FEA and will make it compatible with automatic data processing and is intended to ease the task of providing the information requested.

In our notice of proposed rulemaking we called for a return of the form to the Commission by August 15, 1975. However, in the light of the national natural gas curtailments anticipated this winter, we feel compelled to shorten the return date of the initial submission of this form to August 1, 1975, in order to ensure analysis of the data in a timely manner and to enable early reports on the alternative fuels required due to gas curtailments this winter. The subsequent quarterly reports will be due thirty days after the end of the quarter.

The Commission has reviewed all of the other comments submitted by the respondents who opposed our adoption of Form No. 69 and finds that they are without merit and should be denied.

The Commission finds. (1) The notice and opportunity to participate in this proceeding through the submission in writing of data, views, comments, and suggestions in the manner described above and by participation in the public meeting heretofore described are consistent and in accordance with the procedural requirements in 5 U.S.C. 553.

(2) FPC Report Form No. 69 relating to the alternate fuel demand of direct end-use customers of interstate pipeline companies due to natural gas curtailments as set forth in Appendix A hereto is necessary and appropriate in carrying out the provisions of the Natural Gas Act.

(3) FPC Report Form No. 69 herein promulgated will provide the Commission periodically with information showing what alternate fuel, if any, can be substituted for the natural gas supplies that are presently being curtailed or will be curtailed by interstate pipeline com-

panies relative to the service rendered to their direct end-use customers.

The Commission acting pursuant to the provisions of the Natural Gas Act as amended, particularly sections 4, 5, 7, 8, 10, 14, 15 and 16 thereof (52 Stat. 822, 823, 824, 825, 826, 828, 829, 830; 56 Stat. 83, 84; 61 Stat. 459, 76 Stat. 72; 15 U.S.C. 717c, 717d, 717f, 717g, 7171, 717m, 717n, 717o), orders:

(A) Section 3.170 of Part 3, Organization; operation; information and requests; miscellaneous charges; ethical standards, Subchapter A, General Rules, Chapter I, Title 18 of the Code of Federal Regulations, is revised, effective as of the date of the issuance of this order, to read as follows:

§ 3.170 Approved Forms, etc.:

(a) The following is a list of approved forms, statements, and reports, under the Natural Gas Act, descriptions of which have been published in Subchapter G, Parts 250 and 260 of this chapter.

* * * * *

(28) Form No. 69 report of alternate fuel demand due to natural gas curtailments § 260.15 of this chapter.

* * * * *

(B) The Commission's regulations, Part 260, Statements and Reports (Schedules), in Subchapter G, Approved Forms, Natural Gas Act, Chapter I, Title 18 of the Code of Federal Regulations is revised, effective as of the date of the issuance of this order, by adding a new § 260.15, prescribing a new FPC Form No. 69, Report of Alternate Fuel Demand Due to Natural Gas Curtailments, in the form set out in Appendix A hereto. New § 260.15 will read:

§ 260.15 Form No. 69 Report of Alternate Fuel Demand Due to Natural Gas Curtailments.

(a) The form Alternate Fuel Demand Due to Natural Gas Curtailments designated as FPC Form No. 69 is prescribed.

(b) Each natural gas company making direct sales in interstate commerce of natural gas (including SNG and LNG) to customers consuming such gas shall prepare and file with the Commission an original and four copies of Report of Alternate Fuel Demand Due to Natural Gas Curtailments, FPC Form No. 69 on or before August 1, 1975, for the actual annual period from April 1, 1974, to March 31, 1975, and for the quarterly period ending June 30th and thereafter on a quarterly basis on or before April 30th, July 30th, October 30th, and January 30th of each year.

(C) FPC Report Form No. 69, Relating to the alternate fuel demand of direct end-use customers of interstate pipeline companies due to natural gas curtailments, is adopted in the form set forth in Appendix A hereto.⁹

(D) The proceeding in the instant docket, noticed on May 12, 1975, is concluded.

⁹ Appendices A, B, and C filed as part of the original document.

(E) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL]

MARY B. KIDD,
Acting Secretary.

[FR Doc.75-17064 Filed 6-30-75;8:45 am]

Title 20—Employees' Benefits

CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Regs. No. 1, 22]

PART 401—DISCLOSURE OF RECORDS AND OFFICIAL INFORMATION

PART 422—ORGANIZATION AND PROCEDURES

Subpart E—Availability of Information and Records to the Public

POLICIES ON PROTECTING CONFIDENTIALITY OF RECORDS AND AVAILABILITY OF INFORMATION TO THE PUBLIC

On April 23, 1975, there was published in the FEDERAL REGISTER (40 FR 17849) a Notice of proposed rule making and proposed amendments to Regulations No. 1 and 22 of the Social Security Administration.

The proposed amendments provided that the only information in the records of the Social Security Administration that will be protected from disclosure by Regulation No. 1 is information relating to individuals. At present, the language of Regulation No. 1 protects from disclosure all information, including information which does not relate to individuals, obtained by the Department which relates to or is used in the Social Security Administration programs, except as otherwise provided in the regulation.

The proposed amendments also provided that the question of whether other information not protected by Regulation No. 1 can be made available to the public will be governed by the regulations of the Department of Health, Education, and Welfare on availability of information to the public, pursuant to the Freedom of Information Act (45 CFR Part 5) and Subpart E of 20 CFR Part 422 of this Chapter (Social Security Administration Regulations No. 22). This information would thus be available to the public unless exempted from disclosure by that law and these implementing regulations.

There are now 22 exceptions to the prohibition against disclosure in Regulation No. 1. The proposed amendments would have deleted three of these exceptions since they cover information that does not relate to individuals. Since two of the three exceptions do not cover any individual information, there is no need to list them as exceptions. These exceptions proposed for deletion are found in paragraphs (o) and (t) of § 401.3 of Regulation No. 1. These paragraphs cover the disclosure of information relating to agreements and modifications of agreements for the coverage of State and local employees entered into pursuant to section 218 of the Social Security Act and

disclosure of information relating to payments to providers furnishing services under title XVIII of the Social Security Act. This information will remain available to the public even though regulations may no longer specifically so state. For the reason given below, the third exception, paragraph (k) of § 401.3 of Regulation No. 1, is being retained.

Subpart E of Regulations No. 22 governs the availability of information to the public. The proposed amendments to Subpart E provide for disclosure to the public of Medicare survey reports and cost reports submitted by title XVIII providers and for disclosure of information about charges made by providers to State agencies for administration of titles V and XIX grants-in-aid programs and to the Department of the Army for the administration of its Civilian Health and Medical Program of the Uniformed Services.

Interested persons were given the opportunity to submit within 30 days, comments, views, or arguments with regard to the proposed amendments. Comments were received from a variety of sources including representatives of national, state, and local organizations. The comments received are discussed below. Some writers approved the changes. Most objections concerned records dealing with the Medicare program.

Several writers objected generally to the proposal to limit the scope of protection of privacy afforded by Regulation No. 1. It was suggested that protection continue to be extended to persons, both natural and legal, rather than simply natural persons. To adopt this suggestion would effectively rescind the proposed rule making. A major purpose of the proposal was to remove the blanket of protection now extended to other than natural persons. This broad protection is in basic conflict with the Freedom of Information Act. It should be emphasized that all records pertaining to corporations and other artificial persons will not automatically become available for public inspection; however, whether a specific record will be made available will depend upon whether the Freedom of Information Act will permit the Social Security Administration to refuse to make the document available.

Another comment supported the proposed revisions but suggested they did not go far enough in that official reports and other formal evaluations dealing with physicians and other practitioners should be subject to disclosure. It is not certain what reports and evaluations the writer had in mind beyond those made available by § 401.3(v), as the Social Security Administration has no regular procedure for reporting upon and evaluating physicians. Even if such reports existed, it is questionable whether the Privacy Act (5 U.S.C. 552a) would permit their disclosure without the consent of the individual concerned when the pertinent provisions of that act go into effect on September 27, 1975.

Several protested the release of Joint Commission on Accreditation of Hospitals (JCAH) survey reports. Such reports

have not been released and release of such reports is not a matter of administrative discretion. A specific statute (section 1865(a)(2) of the Social Security Act) requires that JCAH survey reports in the possession of the Social Security Administration be kept confidential. However, other JCAH documents are not within the scope of section 1865(a)(2) and would be released under this regulation.

Concern was also expressed about the release of data and information obtained by professional standards review organizations (PSRO). The confidentiality of PSRO data is outside the scope of the proposal. It will be the subject of a separate regulation which will deal specifically with that subject.

Objections were lodged to provisions of §§ 401.3(v)(2) and 422.435(b)(2) which permit the disclosure of names of physicians and providers of services who have been found by a Medicare carrier or intermediary to have been furnishing services substantially in excess of medical needs. The writer recognized this as simply a restatement of existing regulation, but suggested there was a lack of assurance of due process. Due process is observed because both existing and proposed regulations provide that the carrier or intermediary may act only after consultation with the appropriate peer group and only after the physician or provider has been given an opportunity to offer evidence in his behalf.

It was noted that §§ 401.3(u) and 422.434 seemed duplicative as both dealt with disclosure of essentially the same information and further that § 422.434 seemed misplaced as Part 422 deals with disclosure to the public but § 422.434 permitted release only to certain Federal and State agencies. Concededly, there is an appearance of duplication; however, § 401.3(u) was intended to deal with individuals (e.g., physicians) while § 422.434 is intended to deal with legal entities (e.g., hospitals; "physicians" is included in this section to deal with those who have formed professional associations and whose precise status as a natural or legal person is open to question).

One writer noted that §§ 422.430 (b)(19) and 422.433 (a), (b), and (c) provide for disclosure of certain reports regarding institutions and facilities together with any "pertinent" written statements furnished by the institution or facility on the report, but that no criteria defining "pertinent" were set out. It was suggested that the institution or facility should be given an opportunity to select what it considers pertinent statements. As a matter of practice, all statements furnished by the institution or facility are released. Thus, it follows that "pertinent" is whatever the institution chooses to so consider.

In the same vein, two writers suggested that deficiency reports were often poorly drafted or contained errors, and that such reports be edited before release to include only those deficiencies ultimately found to be valid. It is extremely doubtful that the Freedom of Information Act will permit such editing; the

complete report must be released. However, the writer may have overlooked the fact that written comments made by the institution on the report are included in the material released to the public. It is assumed that the institution would comment upon any errors it considers serious.

The remainder of the comments concerned release of Medicare cost reports. Most writers either objected to the proposal or sought to place restrictions upon the conditions under which the reports would be released. Arguments made against release of reports were: "the reports were complex and beyond the full understanding of the general public * * * their release will lead to much confusion, misunderstanding, and will not serve any meaningful or productive purpose." "A violation of the Freedom of Information Act." "Cause irreparable harm to the health care industry from such situations as disclosure to labor unions, consumer groups, and others who can use the information to virtually destroy these facilities." "It does not concern the public. It can be used only by a competitor." "Many are privately owned and their owners have a right to privacy." "Discriminatory in that it does not apply to all providers of services among whom are physicians and others."

The argument that the Freedom of Information Act prohibits disclosure is incorrect as the gist of that Act is to direct disclosure. The Freedom of Information Act would seem to require that these records be made available, except that they may be withheld to the extent that they contain commercial or financial information which is privileged or confidential. However, the Social Security Administration has concluded that it is not in the public interest to withhold the reports from the public. The reimbursement of provider costs, the amount of which is determined through analysis of cost report data, is a public business, and, as such, the records involved in the process of implementing this part of the program should be public records. Providers participating in Medicare and submitting such reports received a total of \$6,821,463,000 for fiscal year 1973. An expenditure of public funds of this magnitude carries with it a corollary that the public assure itself the funds are properly paid.

Disclosure of cost reports of institutional providers of services but not about individual providers of services is not discriminatory as these two classes of providers do not participate in the program under the same circumstances. Participating providers of services under Part A (Hospital Insurance Benefits) of Medicare sign a formal agreement and agree to reimbursement under the terms of the agreement. It is the reports they submit to justify reimbursement which are the subject of disclosure. Physicians and suppliers of services under Part B (Supplementary Medical Insurance Benefits) have no such agreement and submit no comparable cost reports.

The writer who alleged that disclosure would cause irreparable harm to the health care industry offered no evidence in support of this assertion. The Social Security Administration knows of no

evidence and does not accept the assertion that labor unions and consumer groups are seeking to destroy the hospitals of the United States.

Several types of limitations suggested by commenters were: release only to those who have a legitimate and beneficial use, and do not release to competitors. These limitations are inconsistent with the Freedom of Information Act. An agency generally has no authority to inquire why a member of the public wishes a particular record.

Inquiries were made as to whether the Secretary will continue to give 10 days advance notice prior to release, as was stipulated in the case of *American Hospital Association v. Caspar W. Weinberger*, Civil Action No. 74-727 in the U.S. District Court for the District of Columbia. The 10 day notice will be given as long as the stipulation remains in effect. However, this is a separate issue, and the final regulations do not reflect this agreement.

It was suggested that reports prepared prior to May 1, 1974, not be released until 90 days after this regulation goes into effect. (On that date the Secretary made generally known his proposal to release the reports.) It is not perceived that any useful purpose would be served by such proposal. Providers who wish to comment upon their reports will be notified under the 10-day stipulation that their report has been sought, and they can address their comments directly to the requester.

Finally, it was suggested that the provider be given the option of preparing an abstract of the complete cost report and that this abstract be released to the public. The Social Security Administration considers this contradictory to the basic purpose underlying the provision. It would enable the provider to conceal from the public any information it chose.

It was proposed to revoke section (k), which deals with disclosure of statistical data. However, this section also authorizes disclosure of certain individually identifiable information to other Federal agencies for use in statistical and planning work only. Since revocation would rescind this authority, the section will not be revoked at this time. It will be rewritten at a later date to distinguish between personal and nonpersonal information.

Accordingly, the amendments are adopted with minor editorial changes.

(Secs. 205, 1102, and 1106 of the Social Security Act, 53 Stat. 1368, as amended, 49 Stat. 647, as amended, 53 Stat. 1398, as amended; 42 U.S.C. 405, 1302, and 1306.)

Effective date. These amendments shall be effective July 31, 1975.

(Catalog of Federal Domestic Assistance Program Nos. 13.800-13.807, Social Security Programs.)

Dated: June 11, 1975.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: June 20, 1975.

CASPAR W. WEINBERGER,
*Secretary of Health, Education,
and Welfare.*

Parts 401 and 422 of Chapter III of Title 20 of the Code of Federal Regulations are amended as set forth below.

1. Section 401.1 is revised to read as follows:

§ 401.1 Prohibition against disclosure.

Except as hereinafter authorized by this part or as otherwise expressly authorized by the Commissioner of Social Security, disclosure shall not be made, directly or indirectly, of (a) any return or portion of a return (including information returns or other written statements) filed with the Commissioner of Internal Revenue under the provisions of the Federal Insurance Contributions Act or the Self-Employment Contributions Act (and their predecessors), or under regulations made under authority thereof, which has been transmitted to the Department of Health, Education, and Welfare by the Commissioner of Internal Revenue, or (b) information relating to individuals obtained at any time by or from the Department or any officer or employee of the Department, or any person, agency, or organization with whom the Social Security Administration (or the pertinent agency of a State) has entered into an agreement or contract to perform certain functions, including the performance of medical examinations, in the administration of titles II, XVI, and XVIII of the Social Security Act. The release of other information is governed by the regulations of the Department of Health, Education, and Welfare on availability of information to the public, pursuant to the Freedom of Information Act (45 CFR Part 5), and by Subpart E of Part 422 of this chapter. Any file or record which would be available pursuant to such regulations but for the inclusion of information not disclosable under this part, will be made available with the nondisclosable information omitted.

2. Section 401.3 is amended by revising the introductory material preceding paragraph (a) and by revoking and reserving paragraphs (o) and (t), and by revising paragraphs (u) and (v).

§ 401.3 Disclosure of information relating to individuals.

Disclosure of information relating to individuals is hereby authorized in the following cases and for the following purposes:

- * * * * *
- (o) [Reserved]
- * * * * *
- (t) [Reserved]
- * * * * *

(u) To any officer or employee of an agency of the Federal or a State government lawfully charged with the administration of a program receiving grants-in-aid under titles V and XIX of the Social Security Act for the purpose of administration of such titles, or to any officer or employee of the Department of the Army, Department of Defense, solely for the administration of its Civilian Health and Medical Program of the Uniformed Services (CHAMPUS), the following information, except that the re-

lease of such information shall not be authorized by a fiscal intermediary or carrier:

(1) Information, including the identification number, concerning charges made by physicians and other individuals, and amounts paid under title XVIII of the Act for services furnished to beneficiaries by such physicians and other individuals to enable the agency to determine the proper amount of benefits payable for medical services performed in accordance with such programs; or

(2) Information as to physicians or other individuals that has been disclosed under paragraph (i)(1) or (q) of this section.

(v) To the public: The name of any provider of services, physician, or other person furnishing services to beneficiaries under title XVIII of the Act who—

(1) Has been found by a Federal court to have been guilty of submitting false claims in connection with title XVIII; or

(2) Has been found by a carrier or intermediary, after consultation with a professional medical association functioning external to program administration or, if appropriate, the State medical authority, to have been engaged in a pattern of furnishing services to such beneficiaries which are substantially in excess of their medical needs; except that the name of any such provider of services, physician, or other person shall not be disclosed pursuant to a finding under this subparagraph (2), unless such provider, physician, or other person, as the case may be, has first been afforded a reasonable opportunity to offer evidence on his behalf.

3. Section 401.4 is amended by revising paragraph (f) to read as follows:

§ 401.4 Definitions.

As used in this part, the term:

(f) "Individual" means only a natural person.

4. Section 422.401 is revised to read as follows:

§ 422.401 Scope and purpose.

The regulations in this subpart relate to the availability to the public, pursuant to 5 U.S.C. 552, of records of the Social Security Administration and its components. They set out what records are available and how they may be obtained. These regulations do not revoke, modify, or supersede the regulations of the Social Security Administration relating to disclosure of information published in Part 401 of this chapter. Further, the regulations in this subpart supplement the regulations of the Department of Health, Education, and Welfare relating to availability of information pursuant to 5 U.S.C. 552, codified in 45 CFR 5.1 et seq., and do not replace or restrict them.

5. Section 422.402 is revised to read as follows:

§ 422.402 Record defined.

As used in this subpart, the term "record" has the same meaning as that provided in 45 CFR 5.5.

6. Section 422.426 is amended by revising paragraph (a) to read as follows:

§ 422.426 Information or records that are not available.

(a) *Specific exemptions from disclosure.* Pursuant to paragraph (b) of 5 U.S.C. 552, certain classes of records are exempt from disclosure. For some examples of the kinds of materials which are exempt, see Subpart F of the public information regulation of the Department of Health, Education, and Welfare (45 CFR Part 5) and the appendix to such regulation.

7. Section 422.430 is amended by revising paragraph (b) (19) to read as follows:

§ 422.430 Materials available at district offices and branch offices.

(b) *Materials available for inspection and copying.* The following materials are available or will be made available for inspection and copying at the district offices and branch offices:

(19) Statements of deficiencies based upon survey reports of health care institutions or facilities prepared after January 31, 1973, by a State agency, and such reports (including pertinent written statements furnished by such institution or facility on such statements of deficiencies), as set forth in § 422.433(a). Such statements of deficiencies, reports, and pertinent written statements shall be available or made available only at the district office and the regional office servicing the area in which the institution or facility is located, except that such statements of deficiencies and pertinent written statements shall also be available at the local public assistance offices servicing such area.

8. A new section § 422.433 is added to read as follows:

§ 422.433 Availability of official reports on providers of services, State agencies, intermediaries, and carriers under title XVIII of the Social Security Act.

The following shall be made available to the public under the conditions specified:

(a) *Statements of deficiencies and survey reports on providers of services prepared by State agencies.* (1) Statements of deficiencies based upon official survey reports prepared after January 31, 1973, by a State agency pursuant to its agreement entered into under section 1864 of the Social Security Act and furnished to the Social Security Administration, which relate to such State agency's findings on the compliance of a health care institution or facility with the applicable provisions in section 1861

of such Act and with the regulations, promulgated pursuant to such provisions, dealing with health and safety of patients in such institutions and facilities; and (2) such State agency survey reports. Such statement of deficiencies or report and any pertinent written statements furnished by such institution or facility on such statement of deficiencies shall be disclosed within 90 days following the completion of the survey by such State agency, but not to exceed 30 days following the receipt of such report by the Administration. (See § 422.430(b)(19) for places where statements of deficiencies, reports, and pertinent written statements shall be available.)

(b) *Social Security Administration reports on providers of services.* Upon request in writing, official reports and other formal evaluations (including followup reviews), excluding references to internal tolerance rules and practices contained therein, internal working papers or other informal memoranda, prepared by the Social Security Administration and completed after January 31, 1973, which relate to the performance of providers of services under title XVIII of the Social Security Act: *Provided*, That no information identifying individual patients, physicians, or other practitioners, or other individuals shall be disclosed under this paragraph. Such reports and other evaluations shall be disclosed within 30 days following the final preparation thereof by the Social Security Administration during which time such providers of services shall be afforded a reasonable opportunity to offer comments, and there shall be disclosed with such reports and evaluations any pertinent written statements furnished the Social Security Administration by such providers on such reports and evaluations.

(c) *Contractor performance review reports.* Upon request in writing, official contractor performance review reports and other formal evaluations (including followup reviews), excluding references to internal tolerance rules and practices contained therein, internal working papers or other informal memoranda, prepared by the Social Security Administration and completed after January 31, 1973, which relate to the evaluation of the performance of (1) intermediaries and carriers under their agreements entered into pursuant to sections 1816 and 1842 of the Social Security Act and (2) State agencies under their agreements entered into pursuant to section 1864 of such Act (including comparative evaluations of the performance of such intermediaries, carriers, and State agencies). The latest Contract Performance Review Report pertaining to a particular intermediary or carrier, prepared prior to February 1, 1973, may also be disclosed to any person upon request in writing. Such reports and evaluations shall be disclosed within 30 days following the final preparation thereof by the Social Security Administration (or 30 days following the request therefor, in the case of the contract

performance review report prepared prior to February 1, 1973), during which time such intermediaries, carriers, and State agencies, as the case may be, shall be afforded a reasonable opportunity to offer comments, and there shall be disclosed with such reports and evaluations any pertinent written statements furnished the Social Security Administration by such intermediaries, carriers, or State agencies on such reports and evaluations.

9. A new § 422.434 is added to read as follows:

§ 422.434 Release of title XVIII information to State and Federal agencies.

(a) Except as provided in paragraph (b) of this section, the following information may be released to an officer or employee of an agency of the Federal or a State government lawfully charged with the administration of a program receiving grants-in-aid under title V and XIX of the Social Security Act for the purpose of administration of such titles, or to any officer or employee of the Department of Army, Department of Defense, solely for the administration of its Civilian Health and Medical Program of the Uniformed Services (CHAMPUS):

(1) Information, including the identification number, concerning charges made by physicians, other practitioners, or suppliers, and amounts paid under title XVIII of the Act for services furnished to beneficiaries by such physicians, other practitioners, or suppliers, to enable the agency to determine the proper amount of benefits payable for medical services performed in accordance with such programs; or

(2) Information as to physicians or other practitioners that has been disclosed under § 401.3(i) (1) or § 401.3(q) of Part 401 of this chapter.

(3) Information relating to the qualifications and certification status of hospitals and other health care facilities obtained in the process of determining whether, and certifying as to whether, institutions or agencies meet or continue to meet the conditions of participation of providers of services or whether other entities meet or continue to meet the conditions for coverage of services they furnish.

(b) The release of such information shall not be authorized by a fiscal intermediary or carrier.

10. A new § 422.435 is added to read as follows:

§ 422.435 Release of title XVIII information to the public.

The following shall be made available to the public under the conditions specified:

(a) Information as to amounts paid to providers and other organizations and facilities for services to beneficiaries under title XVIII of the Act: *Provided*, that no information identifying any particular beneficiaries shall be disclosed under this paragraph.

(b) The name of any provider of services or other person furnishing services to beneficiaries under title XVIII of the Act who—

(1) Has been found by a Federal court to have been guilty of submitting false claims in connection with title XVIII; or

(2) Has been found by a carrier or intermediary, after consultation with a professional medical association functioning external to program administration or, if appropriate, the State medical authority, to have been engaged in a pattern of furnishing services to such beneficiaries which are substantially in excess of their medical needs; except that the name of any provider or other person shall not be disclosed pursuant to a finding under this subparagraph (2), unless such provider or other person has first been afforded a reasonable opportunity to offer evidence on his behalf.

(c) Upon request in writing, cost reports submitted by providers of services pursuant to section 1815 of the Act to enable the Secretary to determine amounts due such providers.

[FR Doc.75-16866 Filed 6-30-75;8:45 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

[Docket No. 75N-0128]

PART 510—NEW ANIMAL DRUGS

PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Tylosin

The Commissioner of Food and Drugs has evaluated a new animal drug application (98-970V) filed by the Rath Packing Co., PO Box 330, Waterloo, IA 50704, proposing safe and effective use of tylosin premix for the manufacture of swine feed. The application is approved, effective July 1, 1975.

The Commissioner is amending Parts 510 and 558 (formerly Parts 135 and 135e prior to recodification published in the FEDERAL REGISTER of March 27, 1975 (40 FR 13802)) to reflect the approval as set forth below.

Therefore, under provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))), and under authority delegated to the Commissioner (21 CFR 2.120), Parts 510 and 558 are amended as follows:

1. In Part 510, § 510.600 (formerly § 135.501) is amended by alphabetically inserting a sponsor listing in paragraph (c) (1) and numerically inserting a sponsor listing in paragraph (c) (2), to read as follows:

§ 510.600 Names, addresses, and code numbers of sponsors of approved applications.

* * * * *

(c) * * *
(1) * * *

Firm name and address:	Drug listing No.
* * * * *	* * * * *
The Rath Packing Co., P.O. Box 330, Waterloo, IA 50704-----	028260
* * * * *	* * * * *

(2) * * *	
Drug listing No.:	Firm name and address
* * * * *	* * * * *
028260-----	The Rath Packing Co., P.O. Box 330, Water- loo, IA 50704.
* * * * *	* * * * *

2. In Part 558, § 558.625 (formerly § 135e.10) is amended by adding paragraph (b) (34) to read as follows:

§ 558.625 Tylosin.

(b) * * *
(34) To 028260: 0.8 gram per pound, paragraph (f) (1) (vi) (a) of this section.

Effective date. This order shall become effective July 1, 1975.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)))

Dated: June 25, 1975.

C. D. VAN HOUWELING,
Director, Bureau of
Veterinary Medicine.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI 621]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

The purpose of this notice is the identification of communities with areas of special flood/or mudslide/or erosion hazards in accordance with Part 1915 of Title 24 of the Code of Federal Regulations as authorized by the National Flood Insurance Program (42 U.S.C. 4001-4128). The identification of such areas is to provide guidance so that communities may adopt appropriate flood plain management measures to minimize damage caused by flood losses and to guide future construction, where practicable, away from locations which are threatened by flood hazards.

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance on and after March 2, 1974, as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in an identified flood plain area having special flood hazards that is located within any community currently participating in the National Flood Insurance Program.

Until July 1, 1975, the statutory requirement for the purchase of flood insurance does not apply until and unless the community enters the program and the special flood hazard areas have been identified. However, on July 1, 1975, or one year after the identification of the community as flood prone, whichever is later, the requirement will apply to all identified special flood hazard areas within the United States, so that, after

that date, no such financial assistance can legally be provided for acquisition and construction in these areas unless the community has entered the program and flood insurance has been purchased.

Prior to July 1, 1975, where a community is not participating in the National Flood Insurance Program as of the date of identification, the Federal Insurance Administrator finds that comment and public procedure are impracticable and unnecessary under the meaning of 5 U.S.C. 533(b) and the use of delayed effective dates in identifying communities with areas of special hazard would be contrary to the public interest, since this identification is merely for the purpose of informing the public of the location of areas with special flood hazards and has no binding effect on the sale of insurance or the commencement of construction. Therefore, notice to the public is unnecessary, and contrary to the public interest.

After July 1, 1975, or where a com-

munity has been participating in the National Flood Insurance Program, even though no areas with special flood hazards in the community had previously been identified, the identification makes mandatory the purchase of insurance. Therefore, the effective date of identification will be on or before July 31, 1975, or the effective date of the Flood Hazard Boundary Map, whichever is later.

This 30 day period does not supersede the statutory requirement that a community, whether or not participating in the program, be given the opportunity for a period of six months to establish that the community either is not seriously flood prone or that such flood hazards as may have existed have been corrected by floodworks or other flood control methods. The six months period shall be considered to begin on the effective date of publication in the FEDERAL REGISTER where the community is not participating prior to July 1, 1975. After July 1, 1975, or where the community is

participating in the program, the six months period shall be considered to begin on or before July 31, 1975, or the effective date of the Flood Hazard Boundary Map, whichever is later. Similarly, the one year period a community has to enter the program under section 201(d) of the Flood Disaster Protection Act of 1973 shall be considered to begin on or before July 31, 1975, or the effective date of the Flood Hazard Boundary Map, whichever is later.

Where several dates appear in the column set forth below marked Effective Date of Identification, the first date is the date of initial identification, and all other dates represent modification by additions or deletions to identified areas with special hazards.

Accordingly, § 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas.

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Withdrawal of the New York Plan

Notice is hereby given that the State of New York has withdrawn its approved State plan, effective June 30, 1975. Consequently, subpart L of Part 1952 of Title 29, Code of Federal Regulations, is revoked, as of that date.

The State, in a letter from Governor Hugh L. Carey dated March 14, 1975, has given notice of its intention to withdraw its approved plan effective June 30, 1975. In accordance with 29 CFR 1951.25(d), the State will also terminate its grant approved under section 23(g) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 672) (hereinafter called the Act) effective June 30, 1975.

In accordance with section 18(f) of the Act, the State may retain jurisdiction in any case commenced before June 30, 1975, the effective date of the withdrawal.

This decision does not preclude the submission of another occupational safety and health plan by New York under section 18 of the Act at some future time.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667))

Signed at Washington, D.C. this 24th day of June 1975.

JOHN STENDER,
Assistant Secretary of Labor.

Title 41—Public Contracts and Property Management

CHAPTER I—FEDERAL PROCUREMENT REGULATIONS

[FPR Amdt. 149]

PART 1-3—PROCUREMENT BY NEGOTIATION

Basic Agreements With Educational Institutions and Nonprofit Organizations

This amendment of the Federal Procurement Regulations prescribes procedures designed to encourage the interagency use of basic agreements for the procurement of research and development from educational institutions and nonprofit organizations. Subpart 1-3.4 heretofore has described the use of basic agreements. However, it has not specifically referred to research and development or to interagency use of such agreements. Recommendation B-11 of the Commission on Government Procurement provided as follows: "Encourage the use of master agreements of the grant and contract types, which when executed should be used on a work order basis by all agencies and for all types of performers." The Commission based this recommendation on the observation that time and effort could be saved by both the Government and the performers of

research and development through the use of prenegotiated terms and conditions allowing for new or additional work to be contracted for on a work order basis. After extensive study of this recommendation by the General Services Administration and the Department of Defense, it was determined that the purposes of the recommendation would be served to the maximum extent practicable by encouraging the use of basic agreements with educational institutions and nonprofit organizations. The amendment is designed to implement the Commission's recommendation.

The table of contents for Part 1-3 is amended to add new and revised entries, as follows:

Sec.

1-3.410-2 Basic agreements with educational institutions and nonprofit organizations.

1-3.410-3 Basic ordering agreement.

Subpart 1-3.4—Types of Contracts

Section 1-3.410 is amended by redesignating § 1-3.410-2 as § 1-3.410-3 and adding a new § 1-3.410-2. As amended, the section reads as follows:

§ 1-3.410 Other types of agreements.

* * * * *

§ 1-3.410-2 Basic agreements with educational institutions and nonprofit organizations.

(a) This section sets forth information and procedures regarding basic agreements for the procurement of research and development from educational institutions and nonprofit organizations.

(b) An appropriate basic agreement may be negotiated with each educational institution and nonprofit organization (except Federally Funded Research and Development Centers (FFRDC), including the Federal Contract Research Centers (FCRC) as they are designated in the Department of Defense (DOD)), in accordance with the conditions set forth in § 1-3.410-1. Agencies are encouraged to obtain and utilize the basic agreements entered into by both other civilian agencies and DOD to the maximum practicable extent.

(c) The responsibility for negotiating basic agreements with educational institutions and nonprofit organizations for the DOD has been assigned to the Office of Naval Research, 800 North Quincy Street, Arlington, Virginia 22217. At the beginning of each fiscal year the Office of Naval Research will issue a listing of DOD current basic agreements. Copies of the agreements are maintained by the Office of Naval Research and are available to procurement activities of civilian agencies upon request.

(d) The responsibility for negotiating basic agreements for the civilian agencies rests with each individual agency. Each agency shall report its agreements to the FPR Staff, Office of Procurement Management, AMC, 15 days after September 30, each year.

(e) A list of civilian agency basic agreements will be compiled by the General Services Administration. The list

will be combined with the DOD list, and will be published at the beginning of each fiscal year in FPR Bulletins.

§ 1-3.410-3 Basic ordering agreement.

* * * * *

(Sec. 205(c), 63 Stat. 390; (40 U.S.C. 486(c)))

Effective date. This amendment is effective August 11, 1975, but may be observed earlier.

Dated: June 23, 1975.

ARTHUR F. SAMPSON,
Administrator of General Services.

CHAPTER 101—FEDERAL PROPERTY MANAGEMENT REGULATIONS

SUBCHAPTER B—ARCHIVES AND RECORDS

[FPMR Amdt. B-27]

PART 101-11—RECORDS MANAGEMENT

Standard and Optional Forms Program

This regulation revises Subpart 101-11.8, Standard and Optional Forms Program, to more clearly define the scope, objectives, and applicability of the program. The major changes are as follows:

(a) The responsibilities of the Federal agencies and GSA/NARS are clearly defined in separate paragraphs of the regulation;

(b) Standard Form 152, Request for Clearance, Procurement, or Cancellation of Standard and Optional Forms, has been revised to provide for clearance by GAO when required, to indicate conformance with applicable Federal Information Processing Standards, and to allow use of other printing specification forms that pertain to specialized printing requirements;

(c) New procedures have been developed for clearing Standard and Optional forms that relate to public and interagency reporting requirements, specifically:

(1) Forms relating to public reporting requirements imposed by regulatory agencies must be cleared with the General Accounting Office;

(2) Forms relating to public reports requested by non-regulatory agencies must be cleared with the Office of Management and Budget; and

(3) Forms relating to reports levied on an executive branch department or agency by another department or agency must be cleared by GSA/NARS.

(d) Agencies are required to consider the applicability of the Federal Information Processing Standards (FIPS) and the provisions of the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act of 1974 (Pub. L. 93-579) when developing new or revised Standard and Optional forms.

The table of contents for Part 101-11 is amended by revising Subpart 101-11.8 and § 101-11.4920 as follows:

Subpart 101-11.8—Standard and Optional Forms Program

Sec.

101-11.800 Scope of subpart.

101-11.800-1 Benefits and objectives.

Sec.	
101-11.801	Authority.
101-11.802	Definitions.
101-11.802-1	Form.
101-11.802-2	Standard form.

Subpart 101-11.49—Forms and Reports

101-11.4920	Standard Form 152, Request for Clearance, Procurement, or Cancellation of Standard and Optional Forms.
-------------	--

AUTHORITY: Sec. 205(c), 63 Stat. 390; (40 U.S.C. 486(c)).

Subpart 101-11.8 is revised as follows:

Subpart 101-11.8—Standard and Optional Forms Program

§ 101-11.800 Scope of subpart.

(a) This subpart sets forth the scope, objectives, guidelines, and procedures required to manage and operate the Standard and Optional Forms Program. This program is a centralized and specialized implementation of the Government-wide forms management policies and guidelines prescribed in § 101-11.208-1, Forms—Agency program responsibilities.

(b) The scope of the Standard and Optional Forms Program is Government-wide and focuses on those forms which are the information or data carriers for standardized systems that are developed and installed throughout the Federal establishment. The benefits which can be accrued from standardization are well known and the Standard and Optional Forms Program has the potential to make a substantial contribution in this area; for example:

(1) Similar forms and systems frequently are used for essentially the same purpose in different agencies of the Government. In such instances the development of a Standard or Optional form can result in substantial benefits to the Government.

(2) New programs, new legislation, and the establishment of new agencies provide numerous opportunities for beneficial standardization.

(3) The expanded use of computers and communication systems makes the standardization of data elements as well as formats for the interchange of information increasingly more essential.

§ 101-11.800-1 Benefits and objectives.

The benefits of a standardized forms program include uniform and improved procedures for processing forms, reduced printing and stocking costs, reduced training time of employees, and simplified direction and application. The objectives of the Standard and Optional Forms Program are to:

(a) Conduct continuing analysis of Government-wide practices to determine potential for economy and simplification of paperwork by standardizing data elements and systems, with particular attention to systems employing computers and electronic communications;

(b) Assist agencies in studies and projects to consolidate similar forms and systems;

(c) Coordinate these studies and projects with all interested agencies;

(d) Serve as approval authority for the clearance of new and revised Standard and Optional forms; and

(e) Ensure that all applicable laws, statutes, and regulations (e.g., Freedom of Information Act (5 U.S.C. 552), the Privacy Act of 1974 (Pub. L. 93-579), and Federal Information Processing Standards (FIPS) issued under the provisions of Pub. L. 89-306 (79 Stat. 1127) are considered in the development and review of all Standard and Optional forms.

§ 101-11.801 Authority.

(a) The Standard and Optional Forms Program was developed and operated by the Office of Management and Budget (OMB) consistent with the authorities prescribed by the Budget and Accounting Act of 1921. Responsibility for the program was assumed on May 29, 1967, by GSA/NARS through agreement with OMB.

(b) The Standard and Stock forms promulgated by the Comptroller General or those subject to his approval pursuant to the provisions of section 309 of the Budget and Accounting Act of 1921 (31 U.S.C. 49) and section 114 of the Accounting and Auditing Act of 1950 (31 U.S.C. 66(b)) are excluded from the clearance authorities of this program. (However, such forms will be included in the GSA/NARS clearance procedures contained herein.)

§ 101-11.802 Definitions.

§ 101-11.802-1 Form.

A form is any document, including letters, post cards, and memorandums, printed or otherwise reproduced with space for filling in information, descriptive material, or addresses. Certain printed items without fill-in space, such as contract provisions, instruction sheets, notices, tags, labels, and posters, may be considered as forms when it is advantageous to identify and control them as forms for purposes of reference, printing, stocking, distribution, and use with other forms.

§ 101-11.802-2 Standard form.

A Standard form is a form prescribed by a Federal agency, pursuant to its authority, and approved by GSA for mandatory use. Such mandatory use is set forth in regulations of the promulgating agency (§ 101-11.802-4).

§ 101-11.802-3 Optional form.

An Optional form is a form developed for use in two or more agencies and approved by GSA for nonmandatory use. The availability of the form is usually announced by the sponsoring agency (§ 101-11.802-5).

§ 101-11.802-4 Promulgating agency.

A promulgating agency is any Federal agency that develops and prescribes a Standard form as defined in § 101-11.802-2.

§ 101-11.802-5 Sponsoring agency.

A sponsoring agency is any Federal agency that develops an Optional form as defined in § 101-11.802-3.

§ 101-11.803 Agency program responsibilities.

Each agency shall:

(a) Develop each new and revised Standard and Optional form in accordance with the:

(1) Forms design guidelines specified in the applicable forms management handbook in the GSA/NARS Records Management series; e.g., Forms Analysis, Forms Design, Specialty Forms;

(2) Agency's chartered mission, responsibilities, and regulatory authority;

(3) Applicable Federal Information Processing Standards (FIPS) established by the National Bureau of Standards, Department of Commerce, under the provisions of Pub. L. 89-306 (79 Stat. 1127); Executive Order 11717 dated May 9, 1973; and 15 CFR Part 6;

(4) Provisions of the Freedom of Information Act (5 U.S.C. 552); and

(5) Provisions of the Privacy Act of 1974 (Pub. L. 93-579).

(b) Designate an official and an alternate to serve as liaison with NARS on the Standard and Optional Forms Program. Submit in writing the name, title, location, and telephone number of each designee to the General Services Administration (NRI), Washington, D.C. 20408. Submit similar information for each replacement representative to the above address within 30 calendar days after the new appointment is made.

(c) Avoid duplication of existing Standard and Optional forms and encourage originators of forms to consider using an existing form instead of developing a new one.

(d) Periodically review all Standard and Optional forms it originates to (1) cancel those not in use, (2) identify those that need revision, and (3) determine those that could be consolidated with similar Standard and Optional forms originated by other agencies.

(e) Distribute the GSA/NARS approved list of current Standard and Optional forms to appropriate agency forms officials.

(f) Obtain Standard and Optional forms in the manner prescribed in § 101-26.302.

(g) Return all printing proofs to General Services Administration (NRI), Washington, DC 20408, within 5 workdays after receipt.

§ 101-11.804 GSA/NARS responsibilities.

GSA/NARS will:

(a) Review and/or approve all new or revised Standard and Optional forms

(b) Maintain and distribute to all agencies a current list of all approved Standard and Optional forms

(c) Provide technical assistance and consulting services on the management of Standard and Optional forms

(d) Coordinate with GAO and OMB all Standard and Optional forms within their clearance jurisdiction

(e) Develop, initiate, and coordinate special studies on Government-wide forms practices to determine potential areas for economy and simplification of paperwork by standardizing data elements and systems

(f) Ensure that all proposed Standard and Optional forms are in conformance with the provisions of applicable laws, statutes, and regulations (e.g., Freedom of Information Act, the Privacy Act of 1974, Federal Information Processing Standards), and

(g) Return all printing proofs to GSA/Region 3 Federal Supply Service within 10 workdays after receipt.

§ 101-11.805 Approval procedures.

This section prescribes the procedures applicable to Federal agencies and GSA/NARS when establishing, revising, or discontinuing Standard or Optional forms.

§ 101-11.805-1 Standard forms.

(a) *New and revised Standard forms.*

(1) Standard forms shall be submitted to NARS by the promulgating agency, using Standard Form 152, Request for Clearance, Procurement, or Cancellation of Standard and Optional Forms, after necessary coordination with those organizations outside the promulgating agency. List the names, titles, and organizations of persons with whom this material was discussed. Indicate concurrences. Summarize any major problems on which agreement could not be reached. (See form illustrated in § 101-11.4920.)

(2) NARS will notify the promulgating agency of its approval or disapproval by an appropriate entry in Section III of Standard Form 152. If the form is approved, one signed copy will be returned to the promulgating agency for its records; the second copy will be furnished to GSA/Region 3 Federal Supply Service to provide printing and stocking specifications for procuring stock of the approved Standard form. (See § 101-26.302.)

(3) When such a Standard form is printed, the Standard form number assigned by NARS, the month and year of promulgation (or the month and year of revision), the name of the promulgating agency, and a reference citation

of the agency regulation which requires its mandatory use as a Standard form will appear on the lower right corner of the form.

(b) *Discontinuance of Standard forms.* Before a promulgating agency notifies the using agency that the mandatory use of a Standard form is no longer required, it shall notify NARS of its intention. In such instances, NARS may (1) authorize continued use of the form on an optional basis, (2) make arrangements for the form to be promulgated as a Standard form by another agency, or (3) concur with the promulgating agency that there is no need for the continued use of the form. NARS will inform the promulgating agency of its decision.

§ 101-11.805-2 Optional forms.

(a) Proposed Optional forms or revisions to existing Optional forms shall be submitted to NARS by the sponsoring agency using Standard Form 152. NARS will evaluate such proposals in consultation with interested agencies and will indicate its decision by an appropriate entry in Section III of Standard Form 152. If the form is approved, one copy will be returned to the sponsoring agency for its records; the second copy will be sent to GSA/Region 3 Federal Supply Service to provide printing and stocking specifications for procuring stock of the approved Optional form. (See § 101-26.302-6.)

(b) When such an approved Optional form is printed, the Optional form number assigned by NARS, the month and year of approval (or the month and year of the revision), and the name of the sponsoring agency will appear on the lower right corner of the form. When a form is approved for optional use, announcement thereof will usually be made to potential users by the sponsoring agency.

§ 101-11.806 Special provisions.

§ 101-11.806-1 Exceptions to Standard forms.

In the interest of establishing and maintaining uniformity to the greatest extent feasible, every effort should be exerted to keep exceptions of Standard forms to a minimum. Exceptions affected by paragraphs (a) and (b) of this section will carry the notation "exception to SF-XXX approved by (*final clearing agency*) (*month*) (*year*)" below the form number element. If this is not possible, the exception approval should be printed in an area close to the form number element.

(a) When an agency believes it is not feasible to use a Standard form for its purpose and in the prescribed manner or when it desires to make substantive changes in the content of an approved Standard form which do not affect format or printing specifications, that affected agency shall submit to the promulgating agency identified on the Standard form its request for exception or deviation with an appropriate explanation and justification. The promulgating agency shall, after review, forward its reply to the requesting agency and send a copy of the reply to General Services Administration (NRI), Washington, DC

20408. Such exceptions become void when a Standard form is revised.

(b) When an agency desires to alter the format or change printing specifications of an approved Standard form, that agency shall submit, on Standard Form 152 to the agency identified on the Standard form as the promulgating agency, its request for exception or deviation with an appropriate explanation and justification. The promulgating agency shall, after review, forward the request with its own recommendations to NARS for final clearance.

(c) If overprinting of Standard forms is desired, it is permissible without clearance from the promulgating agency, provided such overprinting is fully consistent with the purposes and intent of the Standard form and procurement is in accordance with § 101-26.302. Overprinting may include names, addresses, or uniform entries.

§ 101-11.806-2 Application of Federal Information Processing Standards (FIPS) to Standard and Optional forms.

Each proposed Standards and Optional form shall be reviewed for applicability and shall be used in conformance with FIPS to the extent they are applicable. FIPS that are applicable to Standard and Optional forms are part of a Government-wide program for standardizing data elements and representations which are used and interchanged in Government data systems. The objective of this standardization program is to make maximum use of the data resources of the Federal Government and to avoid unnecessary duplications and incompatibilities in collecting, processing, and disseminating data. The current FIPS publications will be used in reviewing each proposed Standard and Optional form. (Information concerning these standards and their availability can be obtained from the office of ADP Standards Management, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, DC 20234.)

(a) *Applicability.* The following types of standards as defined in FIPS publications apply to Standard and Optional forms:

(1) Federal General and Federal Program Data Standards, and

(2) Other ADP standards for media, interchange codes, data transmission, and optical character recognition are applicable when data is to be collected and interchanged in a machine readable form.

(b) *Certification.* After the proposed Standard or Optional form has been reviewed and compared with applicable FIPS, one or more of the following certifications will be indicated in block 12 of SF 152.

(1) "Format and contents are in conformance with FIPS PUB Nos. (enter applicable numbers)."

(2) "Format and contents are not applicable to FIPS."

(3) "Approval has been obtained to deviate from FIPS (attach copy of approval)."

§ 101-11.806-3 Employee suggestions.

Employee suggestions that propose changes in the design, printing specifications, or use of a Standard or Optional form should be sent to the promulgating/sponsoring agency for evaluation.

§ 101-11.806-4 Standard and Stock (Optional) forms subject to GAO approval.

Standard and Stock forms promulgated by or subject to the approval of the Comptroller General are also included in the GSA/NARS clearance procedures contained herein. By agreement between GSA and GAO, Standard and Stock form requests shall be submitted to General Services Administration (NRI), Washington DC 20408, using SF 152.

§ 101-11.806-5 Standard and Optional forms interface with public reports approved by GAO.

(a) Pursuant to the Federal Reports Act of 1942, as amended (87 Stat. 593), GAO is responsible for the clearance of reports requested from the public by regulatory agencies of the executive branch. Proposed new, revised, and exceptions to forms must be cleared by GAO as well as GSA/NARS.

(b) By agreement between GSA and GAO, such Standard and Optional forms public report documents shall be submitted to General Services Administration (NRI), Washington, DC 20408, using Standard Form 83, Clearance Request and Notice of Action. NARS will forward the request documents to GAO for review and approval. Only items 6, 14, 15, and 16 need to be filled in on the SF 83 when it is forwarded with the SF 152.

§ 101-11.806-6 Standard and Optional forms interface with public reports approved by OMB.

(a) Pursuant to the Federal Reports Act of 1942 (44 U.S.C. 3501-3512), OMB is responsible for the clearance of reports requested from the public by nonregulatory agencies of the executive branch and for reports from Federal agencies or employees which are to be used for statistical compilations of general public interest. Proposed new, revised, and exceptions to forms must be cleared by OMB (OMB Circular A-40, Revised), and by GSA/NARS.

(b) By agreement between GSA and OMB, such Standard and Optional forms public report documents shall be submitted to General Services Administration (NRI), Washington, DC 20408, using SF 83. NARS will forward the documents to OMB for review and approval. Only items 6, 14, 15, and 16 need to be filled in on the SF 83 forwarded with the SF 152.

§ 101-11.806-7 Standard and Optional forms interface with interagency reports approved by GSA.

Pursuant to the Federal Records Act (44 U.S.C. 3102) and OMB Circular A-40, Revised, subject: Management of Federal reporting requirements, GSA is responsible for the clearance of reports levied on an executive branch agency

by another agency (interagency reports). Standard and Optional forms used for interagency reporting purposes shall be submitted to General Services Administration (NRI), Washington, DC 20408, using Standard Forms 152 and 360, Request for Clearance of an Interagency Reporting Requirement, for review and approval.

§ 101-11.807 Procurement of stocks of Standard and Optional forms.

General procedures for procuring stocks of Standard and Optional forms or modifications thereof are in § 101-26.302, Standard and Optional forms.

§ 101-11.808 Agency compliance.

NARS conducts periodic reviews of each agency to assess its records management programs and achievements as outlined in § 101-11.103. Agency program evaluation. The Standard and Optional Forms Program is one item in the review of agency records management programs.

Subpart 101-11.49—Forms and Reports

Section 101-11.4920 is revised to illustrate the January 1975 edition of Standard Form 152, as follows:

§ 101-11.4920 Standard Form 152, Request for Clearance, Procurement, or Cancellation of Standard and Optional Forms.

NOTE: The form in § 101-11.4920 is filed as part of the original document and does not appear in the FEDERAL REGISTER.

Effective date. This regulation is effective July 1, 1975.

Dated: June 23, 1975.

DWIGHT A. INK,
Acting Administrator
of General Services.

[FR Doc.75-17113 Filed 6-30-75;8:45 am]

Title 43—Public Lands: Interior**CHAPTER I—BUREAU OF RECLAMATION, DEPARTMENT OF THE INTERIOR****PART 430—RULES FOR MANAGEMENT OF LAKE BERRYESSA****Policy and Criteria**

Effective July 1, 1975, the Bureau of Reclamation will assume recreation management responsibilities of Lake Berryessa, Napa County, California, and will succeed Napa County in administering contracts with the seven (7) separate concessioners.

Under each of the concession contracts, procedures are included which afford the concessioners the right of review if their contracts are terminated for default or unsatisfactory performance. This procedure provides for hearings and actions by the Napa County Board of Supervisors.

Because the Bureau of Reclamation will be replacing Napa County in the concession contracts, the contractual provisions regarding termination for breach needs modifying. The purpose of this notice is to designate an alternative mechanism to assure each concessioner his right of review.

Title VI of Pub. L. 93-493, 88 Stat. 1494, provides for the Secretary of the Interior to make such rules and regulations as are necessary to carry out the provisions of Title VI. Accordingly, title 43 of the Code of Federal Regulations will be amended by adding a new Part 430 as follows:

§ 430.1 Concessioners' appeal procedures.

The procedures detailed in Title 43, Part 4, Subpart G of the Code of Federal Regulations are made applicable to the concessioners at Lake Berryessa, Napa County, California, as the procedure to follow in appealing decisions of the contracting officer of the Bureau of Reclamation, Department of the Interior, or his authorized representatives on disputed questions concerning termination for default or unsatisfactory performance under the concession contracts.

Because Part 430 consists of rules of agency organization, procedure, and practice, adoption of the new Part 430, through the rulemaking procedure prescribed in 5 U.S.C. 553, is not required, and the new Part 430 is, accordingly, adopted without resort to that procedure. In accordance with the public policy expressed in 5 U.S.C. 553 and Part 013, Department of the Interior Manual, Chapter 2, interested persons may, however, submit written comments, suggestions, data, or arguments concerning the new Part 430 to the Commissioner, Bureau of Reclamation, 18th and C Streets, NW., Washington, D.C. 20240, on or before July 31, 1975. All such comments received will be given full consideration. So that the Department of the Interior's new procedures will be in effect when the Bureau of Reclamation assumes management responsibilities at Lake Berryessa, good cause for waiver of the 30-day waiting period for effectiveness exists, and the new Part 430 will take effect on July 1, 1975.

Dated: June 27, 1975.

ROLAND G. ROBISON, Jr.,
Deputy Assistant Secretary,
Land and Water Resources.

[FR Doc.75-17200 Filed 6-30-75;8:45 am]

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR**APPENDIX—PUBLIC LAND ORDERS**

[Public Land Order 5504]

[Colorado 13276]

COLORADO**Withdrawal of Public Lands for the Protection of Wildlife Habitat, and Archaeological and Recreational Values**

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described public lands, which are under the jurisdiction of the Secretary of the Interior, are hereby withdrawn from all forms of disposition under the public land laws, including the mining laws, 30 U.S.C. Ch. 2, but not from

leasing under the mineral leasing laws, and reserved for the management, protection, and production of waterfowl and wildlife, and for the protection of public recreation and archaeological values:

NEW MEXICO PRINCIPAL MERIDIAN

- T. 38 N., R. 11 E.,
 - Sec. 1;
 - Sec. 2, lots 1 thru 4, S $\frac{1}{2}$ N $\frac{1}{2}$, SE $\frac{1}{4}$;
 - Sec. 12;
 - Sec. 13, N $\frac{1}{2}$, N $\frac{1}{2}$ S $\frac{1}{2}$, S $\frac{1}{2}$ SE $\frac{1}{4}$;
 - Sec. 24, NE $\frac{1}{4}$.
- T. 38 N., R. 12 E.,
 - Secs. 5 and 6;
 - Sec. 7, lots 1 thru 4, NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$;
 - Sec. 8;
 - Sec. 9, W $\frac{1}{2}$.

The areas described aggregate approximately 5,350.87 acres in Alamosa County.

2. The withdrawal made by this order does not alter the applicability of the public land laws governing the use of the lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws. However, leases, licenses, or permits will be issued only if the Department of the Interior finds that the proposed use of the lands will not interfere with the purpose of this withdrawal.

JACK O. HORTON,
Assistant Secretary
of the Interior.

JUNE 23, 1975.

[Public Land Order 5506]

[BLM 048089]

ARKANSAS

Amendment of Public Land Order No. 3836 (Fort Chaffee Military Reservation)

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Public Land Order No. 3836 of September 27, 1965, as amended, which transferred from the Department of the Army to the Department of the Interior, jurisdiction over oil and gas deposits underlying certain acquired lands at Fort Chaffee Military Reservation, is hereby further amended to transfer jurisdiction over the oil and gas deposits within the following described lands:

FIFTH PRINCIPAL MERIDIAN

- T. 7 N., R. 30 W.,
 - Sec. 11, SW $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, and that portion of the SE $\frac{1}{4}$ lying southwesterly of the south right-of-way line of Arkansas State Highway No. 22.
- T. 7 N., R. 31 W.,
 - Sec. 1, that part of Lot 2 of the fractional NW $\frac{1}{4}$ lying northerly of the northerly right-of-way line of the Missouri Pacific Railroad.

The areas described aggregate 434.50 acres.

2. Upon approval of this order the oil and gas deposits underlying the acquired

lands described in paragraph 1 above immediately become subject to all of the terms, conditions, and limitations of Public Land Order No. 3836, as amended.

JACK O. HORTON,
Assistant Secretary
of the Interior.

[I-4733]

IDAHO

Revocation of Executive Orders Nos. 5277, 5481, and Public Land Order No. 1063; Withdrawal of Lands for Research, Historical, and Cultural Purposes

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Executive Orders Nos. 5277 of February 7, 1930, and 5481 of November 14, 1930, and Public Land Order No. 1063 of February 3, 1955, withdrawing the following described lands for experimental and research purposes for the Department of Agriculture, are hereby revoked in their entirety:

BOISE MERIDIAN

- T. 11 S., R. 15 E., sec. 23, NW $\frac{1}{4}$.
- T. 12 S., R. 15 E., sec. 4, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$.
- T. 10 S., R. 22 E., sec. 32, SE $\frac{1}{4}$ SE $\frac{1}{4}$.

The area described contains 280 acres in Twin Falls and Cassia Counties.

2. Subject to valid existing rights, the lands described in paragraph 1 of this order are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws, 30 U.S.C. Ch. 2, and from grazing under the Taylor Grazing Act, but not from leasing under the mineral leasing laws, for research and historic and cultural purposes. The lands will remain under the jurisdiction of the Bureau of Land Management for administration under the provisions of the Public Land Administration Act, 43 U.S.C. 1361, 1363.

JACK O. HORTON,
Assistant Secretary
of the Interior.

[Public Land Order 5509]

ALASKA

Partial Revocation of Public Land Orders Nos. 5150 and 5180, as Amended

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Public Land Order No. 5150 of December 28, 1971, as amended, which withdrew lands for a utility and transportation corridor, and Public Land Order No. 5180 of March 9, 1972, as amended, which withdrew lands to protect the public interest, are hereby revoked so far as they affect the following described lands:

FAIRBANKS MERIDIAN

- T. 12 N., R. 9 W.,
 - Secs. 1 thru 18, 21 thru 26, and 36.

The areas described aggregate approximately 16,000 acres.

2. The lands described in paragraph 1 of this order are subject to section 11 of the Alaska Native Claims Settlement Act of December 18, 1971, 85 Stat. 688, 696, and will not be made available for other types of disposition at this time.

3. While the lands in this order remain withdrawn, they shall be subject to administration by the Secretary of the Interior under applicable laws and regulations and his authority to make contracts, to grant leases, permits, rights-of-way or easements shall not be impaired by this order. Applications for leases under the Mineral Leasing Act will be rejected until this order is modified or the lands are appropriately classified to permit mineral leasing.

JACK O. HORTON,
Assistant Secretary
of the Interior.

JUNE 25, 1975.

Title 45—Public Welfare

CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS), DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 206—APPLICATION, DETERMINATION OF ELIGIBILITY, AND FURNISHING OF ASSISTANCE—PUBLIC ASSISTANCE PROGRAMS

Securing Social Security Numbers for Applicants and Recipients

Notice of proposed rulemaking was published in the FEDERAL REGISTER on October 22, 1974 (39 FR 37505).

A total of 53 comments was received from 18 State welfare agencies, one county welfare agency and one State vocational rehabilitation agency; 1 university health science center; the Governor of Massachusetts, and 31 private citizens from that State. Three of the public agencies fully supported the proposal. All other respondents objected to certain aspects or provisions of the regulation.

The public agencies were concerned primarily because of increased work-load and costs; additional rules to be followed; and the need for clarification of what happens when an applicant or recipient refuses to give or apply for a social security number (SSN).

Under section 137 of Pub. L. 92-603, the Social Security Amendments of 1972, the Secretary is required to assure that SSNs are assigned to appropriate groups of individuals, including applicants for and recipients of Federally financed benefits. The final regulations require that the State agency request each applicant or recipient to furnish his SSN or to apply for one if he does not have one. In accordance with section 7 of the Privacy Act of 1974, such a request may become a requirement only if the State had in existence and operating prior to January 1, 1975, a system of welfare or Medicaid records for which disclosure of SSN was required, by statute or regulation, in order to verify the identity of the individual. The agency is also required to verify any SSN furnished to it and to assist an applicant or recipient to apply for one if he wishes to do so. Granting or continuing assistance to otherwise eligible individuals may not be delayed pending verification of their SSNs by the agency or issuance of their SSNs by the Social Security Administration.

All other respondents objected on the grounds that the requirement constitutes an invasion of privacy and violation of confidentiality, or is philosophically unacceptable.

These objections reflect mutual concern about the potentiality of misuse of automated personal data systems. There is no doubt that safeguards are needed for all systems. SSA records are subject to strong rules for safeguarding of information. Furthermore, SSA does not maintain data on AFDC, or Medicaid or on social services provided to recipients of those programs.

The securing of SSNs is a cooperative effort between SSA, SRS and State welfare agencies. SSA will provide training and guidelines for the verification of age, citizenship or alien status, and true identity, and will plan and schedule mass enumeration in consultation with States.

It should be noted that section 101(c)(5)(C) of Pub. L. 93-647 adds a new section 402(a)(25) of the Social Security Act, effective July 1, 1975, which requires applicants and recipients, as a condition of eligibility for assistance, to furnish social security account numbers to the State agency. The Department has published a regulation to implement the statutory change.

After consideration of all comments, the proposed regulations, with minor technical changes and new content to clarify when a separate application is required for Medicaid, are hereby adopted.

Section 206.10, Part 206, Chapter II, Title 45 of the Code of Federal Regulations is amended by revising paragraph (a)(1)(iv), adding a new subdivision (a)(1)(v), and revising paragraph (a)(9), to read as set forth below:

§ 206.10 Application, determination of eligibility and furnishing of assistance.

(a) *State plan requirements.* A State plan under title I, IV-A, X, XIV, XVI, or XIX of the Social Security Act shall provide that:

(1) Each individual wishing to do so shall have the opportunity to apply for assistance under the plan without delay. Under this requirement:

(i) Each individual may apply under whichever of the State plans he chooses;

(ii) The agency shall require a written application, signed under a penalty of perjury, on a form prescribed by the State agency, from the applicant himself, or his authorized representative, or, where the applicant is incompetent or incapacitated, someone acting responsibly for him;

(iii) An applicant may be assisted, if he so desires, by an individual(s) of his choice (who need not be a lawyer) in the various aspects of the application process and the redetermination of eligibility and may be accompanied by such individual(s) in contacts with the agency and when so accompanied may also be represented by them; and

(iv) (A) Individuals found eligible for financial assistance under a State plan for title I, IV-A, X, XIV, or XVI (AABD) are eligible for medical assistance without a separate application.

(B) Aged, blind, or disabled individuals found eligible for Supplementary Security Income benefits under title XVI of the Act or for State supplemental payments are eligible for medical assistance without a separate application to the extent provided for in agreements between the individual's State of residence and the Social Security Administration; and

(C) Individuals not found eligible as specified in paragraph (a)(1)(iv) (A) or (B) of this section must file a separate application for medical assistance.

(v) (A) For assistance under title XIX, the agency shall request on the application the social security number (SSN) of each individual (including children) for whom assistance is requested. Under this requirement, the agency shall advise the applicant whether disclosure of such number is mandatory or voluntary, by what statute or other authority such number is requested, and what uses will be made of it. Disclosure of the SSN may be made mandatory only if the State had in existence and operating prior to January 1, 1975, a system of welfare or Medicaid records for which disclosure of the SSN was required, by statute or regu-

lation, in order to verify the identity of the individual. If any individual cannot provide a SSN either because he has not been issued one or he does not know his SSN, and wishes to secure one, the agency shall assist him in filling out an application for such number on such forms and under such procedures as may be required by the Social Security Administration (SSA) and shall transmit it to the SSA. Under this requirement, the agency shall also obtain such evidence as may be required under SSA regulations to establish the age, citizenship or alien status, and true identity of such applicant; and, where the case record attests that a previous social security number has been issued, request verification of the number by SSA. Where disclosure of the SSN is voluntary, no individual who is otherwise eligible shall be denied assistance because of failure or refusal to disclose or apply for a SSN, and the individual shall be so informed.

(B) The provisions of paragraph (a)(1)(v) (A) of this section shall apply to title IV-A for the period prior to July 1, 1975.

(C) The agency shall not deny or delay assistance to an eligible individual pending issuance by SSA or verification by the agency of his SSN.

(9) Where an individual has been determined to be eligible, eligibility will be reconsidered or redetermined:

(i) When required on the basis of information the agency has obtained previously about anticipated changes in the individual's situation;

(ii) Promptly, within 30 days, after a report is obtained which indicates changes in the individual's circumstances that may affect the amount of assistance to which he is entitled or may make him ineligible; and

(iii) Periodically, within agency-established time standards, but not less frequently than every 6 months in AFDC, and every 12 months in the other categories, including medical assistance, on eligibility factors subject to change. Under this requirement:

(A) For recipients of assistance under title IV-A or XIX, the agency shall verify that the case record contains a social security number (SSN) for each recipient, including children; if the case record does not contain a SSN, the agency shall follow the procedures set forth in paragraph (a)(1)(v) of this section for the purpose of obtaining a SSN; and

(B) For any recipient whose social security number was established as part of the case record without corroborative evidence of age, citizenship or alien status, and true identity, the agency shall obtain verification thereof under the procedures set forth in paragraph (a)(1)(v) of this section.

Effective date: The regulations in this section shall be effective September 29, 1975.

(Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302))

CHAPTER X—OFFICE OF ECONOMIC OPPORTUNITY

PART 1061—CHARACTER AND SCOPE OF SPECIFIC COMMUNITY ACTION PROGRAMS

Subpart—Summer Youth Recreation Programs

The Director of the Community Services Administration proposes to establish the rules, regulations and grant-application procedures set forth below relative to the Summer Youth Recreation Program authorized under section 222(a) (13) of the Community Services Act of 1974.

This subpart is published hereby as an interim regulation which will serve as the basis for initiating the grant application process on a contingency basis. Interested persons are invited to submit comments, data, etc. by July 15, 1975 to: James R. King, Chief, Manpower Team, Office of Operations, Community Services Administration, 1200 19th St., NW., Washington, D.C. 20506.

Effective date: July 1, 1975.

Director.

§ 1061.20-1 Applicability.

This subpart applies to grantees funded under section 222(a) (13) of the Community Services Act of 1974 if the assistance is administered by the Community Services Administration.

§ 1061.20-2 Definitions.

(a) "Act" shall mean the "Headstart, Economic Opportunity, and Community Partnership Act of 1974" (Pub. L. 93-644).

(b) "Allocation" shall mean the distribution of funds among prime sponsors designated by the Secretary of Labor under section 102 of the CETA Act according to the formulas contained in the Act.

(c) "Certification" shall mean a legally binding statement that certain requirements have been fulfilled.

(d) "CETA Act" shall mean the Comprehensive Employment and Training Act of 1973 (Pub. L. 93-203, as amended).

(e) "Chief elected official" and "chief executive officer" shall include their designees.

(f) "Community Action Agency" shall mean a political jurisdiction, public agency, or private nonprofit agency which has the power and authority and will perform the functions set forth in section 212 of the Act and is determined to be capable of planning, conducting, administering and evaluating a community action program and is currently designated as a community action program by the Director.

(g) "CSA Regional Director" shall mean the ten Regional Directors of the Community Services Administration who are responsible for directing CSA programs in specified geographical areas of the country.

(h) "Director" shall mean the Director of the Community Services Administration.

(i) "Economically disadvantaged" shall mean a person who is a member of a family as defined under CETA income poverty guidelines.

(j) "Summer Youth Program" shall mean the Summer Program for Economically Disadvantaged Youth funded under Title III, section 30b(a) (3) of the Comprehensive Employment and Training Act of 1973 and administered by the U.S. Department of Labor.

§ 1061.20-3 Purpose.

This subpart sets forth the policies, rules and regulations of the Community Services Administration (CSA) in implementing and administering Summer Youth Recreation programs authorized under section 222(a) (13) of the Community Services Act of 1974.

§ 1061.20-4 Summer youth recreation program—description and components.

(a) *Description.* (1) The Summer Youth Recreation program is designed to provide recreational opportunities for economically disadvantaged children during the summer months. The programs will be conducted in conjunction with the Summer Youth Program administered by the U.S. Department of Labor. Summer Youth enrollees should be utilized to the maximum extent possible in the conduct of this program.

(2) The programs shall begin as soon as possible after the Spring closing of

school and shall not extend beyond the beginning of the Fall school term. In no case shall the programs continue beyond September 30, 1975.

(3) To the maximum extent possible, Summer Youth Recreation program sites shall be located directly in low-income communities or areas to ensure that disadvantaged youth are the beneficiaries of the programs. Activities shall be conducted in as many low-income areas of the sponsor's jurisdiction as possible within the constraints of effective program management and support.

(b) *Components.* Summer Youth Recreation programs will consist of the following components: (1) Recreation support programs will provide recreation opportunities such as playground activities; organized sports and games, arts and crafts, informational tours, cultural field trips, instruction in the creative arts and special events.

(2) Transportation support programs will provide transportation services to such cultural, recreational, educational or employment activities.

(NOTE: Ten percent of each grant should be allocated for transportation support activities.)

§ 1061.20-5 Eligible sponsors/alternates.

(a) *Eligible agencies.* Agencies eligible to receive summer recreation funds shall be prime sponsors under Title I of the CETA Act.

(b) *Alternate sponsors.* The CSA Regional Director may make provision for the use of an alternative sponsor under Title I of CETA if a sponsor for any reason is unable or fails to establish or maintain an acceptable Summer Youth Recreation Program.

(c) *Delegate Agencies/subgrants.* A Summer Youth Recreation sponsor may enter into contracts or subgrants under the provision set forth in OEO Form 280, Agreement for Delegation of Activities.

§ 1061.20-6 Eligible participants.

Participants in a Summer Youth Recreation program shall be youth too young to obtain employment and be economically disadvantaged. The main target group for the Summer Youth Recreation program shall be disadvantaged youth between the ages of 8 and 13.

§ 1061.20-7 Funding.

(a) *Allocation of funds.* Section 222(a) (13) of the Community Services Act of 1974 states that the allocation of Summer Youth Recreation program funds shall be made by the Director after consultation with the Secretary of Labor on the basis of: (1) The relative number of public assistance recipients in the areas served by such prime sponsor or other agency as compared to the Nation; (2) the relative number of unemployed persons in such area as compared with the Nation; and (3) the relative number of related children living with families with incomes below the poverty line in such area as compared to the Nation. That part of any allotment which the Director determines will not be needed may be re-

allotted at such dates during the fiscal year as the Director may fix, to the extent feasible in proportion to the original allotments. In making Summer Youth Recreation allocations under the Act, the Director shall insure, to the maximum extent possible, that for the program commencing in the fiscal year ending June 30, 1975, and for the program in each succeeding fiscal year no sponsor shall receive an amount less than the amount received for such programs during the fiscal year ending June 30, 1973 or the fiscal year ending June 30, 1974, whichever is higher.

(b) *Non-Federal share; waiver of.* Non-Federal share required by section 225(c) is hereby waived for all programs funded under section 222(a)(13), Summer Youth Recreation Programs. The waiver is automatic and does not require a request for waiver from applicant for grants due to the lateness of the program implementation.

§ 1061.20-3 Application process.

(a) *Role of the CAA.* The Community Action Agency or Agencies operating within the jurisdiction of the Summer Youth Recreation program sponsor shall be given an opportunity to formally comment on the Summer Youth Recreation program grant application and to recommend approval or disapproval to the CSA Regional Director. Community Action Agencies shall be provided with a copy of the Summer Youth Recreation program grant application at the same time that the proposal is submitted to the CSA Regional Director. The CAAs will have five (5) days within which to recommend approval or disapproval to the CSA Regional Director. The Community Services Administration retains final approval authority.

(b) *Forms/documentation required.* The forms and other documents to be used in applying for Summer Youth Recreation Programs will be made available to eligible sponsors by the CSA Regional Directors. The forms to be used in applying for a Summer Youth Recreation Program are as follows:

- (1) OEO Form 301, *Summary of Grant Application*
- (2) OEO Form 325, *Budget Summary*
- (3) OEO Form 325a, *Budget Support*
- (4) OEO Form 394, *Checkpoint Procedure for Coordination*
- (5) CAP Form 84, *Participant Characteristics Plan*
- (6) Statement of Accounting System Certification, Appendix A to this subpart (for use by public agencies)
- (7) OEO Form 280, *Agreement for Delegation of Activities*
- (8) Program Narrative Description (See Appendix B)

(Note: Detailed instructions for the preparation of the above documents can be found in Appendix C)

(c) *Deadline for submission of applications.* Summer Youth Recreation grant applications shall be submitted to CSA Regional Directors by June 30, 1975.

§ 1061.20-9 Expenditure of Funds.

(a) *Allowable Costs.* (1) Administration, including salaries, wages and fringe

benefits of program administrators (but not program staff); consumable office supplies; rent and utilities; telephone and postage; travel of program administrators and audit costs. No more than 20 percent of the funds may be expended of this category.

(2) Recreation services including but not limited to: purchase of recreation equipment¹ and supplies up to \$200 per unit; cost to be used in support of the program; rental of recreation equipment and supplies to be used in support of the program; admission to special events; field trip expenses; salaries; wages, fringe benefits and orientation of program staff, such as art instructors and playground supervisors; transportation for participants and program staff; lunches or food provided as an integral part of a recreation activity; recreation clothing and insurance. The standards to be used for the procurement of supplies, equipment and other material and services with Federal grant funds are those described in reference (e).

(3) Transportation services, including but not limited to: bus tokens, and rental of charter buses, taxis, cars and vans.

(b) *Non-Allowable Costs.* (1) Summer Youth Recreation program funds shall not be expended on office equipment, in-place installations, capital improvements, to compensate participants in the program or to purchase transportation vehicles or equipment such as cars, vans, or buses.

(2) Summer Youth Recreation funds shall not be used to finance any other program activities and services not authorized under the Summer Youth Recreational Program such as, but not limited to, work experience, on-the-job training of public service employment activities.

(3) Summer Youth Recreation program funds shall not be used to finance trips outside a 100 mile radius of the sponsor's jurisdiction unless the trip has received the specific written approval of the CSA Regional Director or his designee.

§ 1061.20-10 Coordination with other programs.

(a) The Summer Youth Recreation program will be closely coordinated with the anti-poverty programs of the Community Action Agency serving the jurisdictions covered by the Summer Youth Recreation program with a view to minimizing possible duplication of effort and providing efficiencies in the use of common facilities and services.

(b) Sponsors should coordinate Summer Youth Recreation programs with manpower and social service programs, including the Summer Youth Employment Program and other CETA manpower activities.

(c) The extensive outreach and intake capability of the Community Action Agencies should be utilized to the maximum extent possible. The CAA network

¹Disposition of property will be in accordance with the policy stated in CSA Instruction 7001-01a.

of Neighborhood Service Centers in disadvantaged communities provide a ready means of assuring that the disadvantaged are effectively served by the program. In addition, transportation services may be provided as services for participants in the Summer Youth Program and thus supplement transportation support activities carried out under the Summer Youth Recreation Program.

(d) Sponsors may utilize the Summer Feeding Program for low-income children activities as well in most instances) in schools, community centers, parks, playgrounds, storefronts and other settings. (See Appendix E for listing of State School Lunch Directors who can assist you in applying for the program.)

(e) Participants in the Summer Youth Program and other manpower programs, including public service jobs incumbents under the CETA Act, should be utilized as program and administrative staff in the Summer Youth Recreation Program to the maximum extent feasible by using the Summer Youth Recreation Program sites as work stations.

§ 1061.20-11 General requirements.

(a) *Maintenance of effort.* No sponsor shall, because of funds granted under section 222(a)(13) of the Act, reduce or decrease funds already planned for Summer Youth Recreation activities of a nature similar to those provided under the aforementioned Section.

(b) *Liability issuance.* An eligible applicant will assure that: (1) General liability insurance (bodily injury type) protects the sponsor against claims arising from bodily injury or death to third parties, including youths participating in the recreation support programs, occurring on its business premises or through its operations, except those arising from motor vehicles away from the premises, those covered by any Workmen's Compensation Law, and other exclusions stated in the policy. The required coverage for bodily injury shall be \$50,000 per person and \$100,000 per accident. In the case of those organizations which could raise the defense of sovereign immunity, the insurance policy shall provide that this defense will not be raised by the organization of the insurer; and

(2) automobile liability insurance coverage of \$100,000 per persons and \$300,000 per accident for bodily injury and \$5,000 per accident for property damage is provided and that automobile comprehensive and collision of at least \$100 deductible is provided.

(c) *Bonding.* Prior to the release of funds to any grantee, public or private, CSA must receive written assurance that arrangements have been made for appropriate bonding of grantee officials. (See Appendix D for CSA's policy statement on Bond Coverage of Officials.)

(d) *Program progress report.* Sponsors shall submit a program progress report on the results of the Summer Youth Recreation Program to the appropriate CSA Regional Office no later than October 20, 1975. Reporting form will be provided by CSA in advance of the reporting deadline.

(e) *Financial reporting.* A financial report is to be submitted by October 20, 1975 to the appropriate CSA Regional Office in accordance with the requirements and procedures set forth in reference (c).

(f) *Auditing.* Audit requirements for this program are to be met by complying with § 1061.20-8(b)(6) of this subpart and the special conditions that will be incorporated into the grant package.

(g) *Monitoring and evaluation.* Monitoring and evaluation of Summer Youth Recreation Programs will be performed by Community Action Agency(ies) serving the jurisdiction of the Summer Youth Recreation Program sponsor. CAA's will make advance arrangements with program sponsors for monitoring activity. In those cases where there is no CAA serving the jurisdiction of the Summer Youth Recreation Program sponsor, the CSA Regional Office will make alternate monitoring and evaluation arrangements.

(h) *Safety and health conditions.* Participants shall not be exposed to conditions which are unsanitary or hazardous or dangerous to their safety or health.

(i) *Licensing.* All transportation services under this program will be from sources properly licensed and insured to provide carriage of the public, and which are operated in compliance with all applicable local, State and/or Federal statutes covering public transportation.

APPENDIX A

Statement to be submitted by appropriate public financial officer when the applicant is a public agency or when the accounting system of a private-nonprofit agency will be maintained by a public agency.

(Address of Regional or Program Office of OEO, as appropriate)

Dear Sirs:
I am the chief financial officer of (name of public body) and, in this capacity, I will be responsible for providing financial services adequate to insure the establishment and maintenance of an accounting system for the (name of applicant) which is a public (or non-profit) agency charged with carrying out an OEO program in (name of community). The accounting system will have internal controls adequate to safeguard the assets of such agency(ies), check the accuracy and reliability of accounting data, promote operating efficiency, and encourage compliance with prescribed management policies of the agency(ies).

Signature of financial officer

Name of financial officer

Title

Name of public body

Statement to be submitted when applicant is a private-nonprofit agency (or a public agency) whose accounting system will not be maintained by a public agency.

(Address of Regional or Program Office of OEO, as appropriate)

Dear Sirs:
I am a certified or duly licensed public accountant and have been engaged to examine and report on the financial accounts of the (name of applicant), which is a private-nonprofit organization (or public agency) carrying out an OEO program in (name of community).

I have reviewed the accounting system that this agency has established and, in my opinion, it includes internal controls adequate to safeguard the assets of the agency; check the accuracy and reliability of accounting data, promote operating efficiency, and encourage compliance with prescribed management policies of the agency.

Signature of accountant

Name of accountant

Name of firm

APPENDIX B

Narrative Description of Program

The above narrative description will be prepared as shown below. Applicants should present a clear and concise description of each item addressed in the narrative using charts, graphs, maps, etc.

Narrative Description of Program:

A. Prepare a statement regarding the purpose of the Summer Youth Recreation program. This statement should focus on the recreational needs of the economically-disadvantaged youth residing in the area covered by this project.

B. Describe the types of recreational activities and services that will be provided the youth served by the program. Include an estimate of the costs for each activity or service in the program. Specify any field trips, sports events, cultural, recreational or educational trips outside the jurisdiction(s) covered by the applicant agency.

C. Provide a list of the recreational equipment and supplies that will be purchased for the program, particularly any equipment costing over \$200.00.

D. Describe the community or geographic area(s) that will be served by the recreational opportunities of the program.

E. Prepare an estimate of the number of recreational opportunities to be offered in the program. Include an estimate of the number of opportunities that each type of activity or service described in B above will provide.

F. Prepare a statement describing the results and benefits to be derived from the recreation program in terms of both the community and participants served, in relation to the recreational needs of the community.

G. Describe how the program will be coordinated and linked with other manpower and social service programs. For example, utilizing administrative staff of Summer Youth Program to administer the recreation program. Using the local CAAs assistance in outreach, intake capability and other support services. In addition, transportation services may be provided through the Summer Youth Program and thus supplement transportation support activities carried out under this program.

H. Describe the method in which participants will be recruited, selected and eligibility is determined (to ensure that those most in need are served by the program).

Applicants are encouraged to discuss the narrative requirements as well as any other application requirements with CSA Regional Office representatives to ensure that the application is as complete and accurate as possible before it is submitted for approval.

APPENDIX C

Instructions for Preparation of Summer Youth Recreation Documents

Eligible applicants should submit the original and two copies of all required forms and documents to the appropriate CSA Regional Director by June 11, 1975. One copy of the grant application shall be submitted to the CAA/s serving the jurisdictions covered by the Summer Youth Recreation program at the same time as the application is submitted to the Regional Office. The following instructions are provided to assist applicants in completing grant application forms:

Summary of Grant Application, OEO Form 301

- Item 1. Type of Application—check "new."
- Item 2. Name of OEO Project Manager—to be provided by CSA Regional Office.
- Item 3. Name of Applicant Agency—enter the name of the applicant, the name of the primary organizational unit which will undertake the grant supported activity.
- Item 4. Address—enter the complete address of the applicant.
- Item 5. Applicant Agency Program Manager—enter the name of person(s) directly assigned to this project.
- Item 6. Telephone Number of Program Manager—enter the telephone number of person(s) directly assigned to this project.
- Item 7. Political Jurisdictions in Which OEO Funded Activities Will Take Place:
 - a. Counties—enter the counties to be served by this project. If the applicant is the state or "balance of the state," the area served may be indicated as the "balance of the state."
 - b. Cities—enter the cities or city to be served by the project (e.g., City of Chicago, City of Boston, etc.). If the project is serving balance of state, indicate balance of state.
 - c. Congressional District—enter the congressional district(s) in which the applicant is located.
- Item 8. Type of Area Served by Project—check the appropriate block(s) defined in Item 8 to be served by this project.
- Item 9. Total Population In Area Served—enter the total population residing in the area to be served by this project.
- Item 10. Type of Agency—"not applicable for this project."
- Item 11. Internal Revenue Services Employer Identification Number—enter the employer identification number assigned by the U.S. Internal Revenue Service.
- Item 12. Applicant Type—check the appropriate block in which the applicant is located (e.g., city government, county government, etc.); check other if applicant type is not shown in Item 12 and specify type of applicant.
- Item 13. Applicant Function—check the most applicable block(s). Check "other" if applicant function is not defined in Item 13 and specify function of applicant.
- Item 14. Will the Administration of Any Part of the Work Program be Delegated to Another Agency?—check the appropriate block. If "yes," applicant must submit the required form shown in Item 14.
- Item 15. Funding Period For Which Funds Are Requested:
 - a. Beginning Date—enter the approximate date the project is expected to begin.

b. Ending Date—enter the approximate date the project is expected to end. (All projects will terminate by October 1, 1975.)

Item 16. Total Requested Budget Per OEO Form 325:

a. OEO Federal—enter the amount allocated by the Director. CSA Regional Director will provide eligible applicants the amount allocated by the Director.

b. Non-Federal—not applicable.

Section III. Former Office of Economic Opportunity Employees—not applicable.

Sections IV–VII. These Sections are applicable and binding by the applicant on the signature of the chief elected official or the authorized representative of the applicant agency.

The following special instructions for completing the remaining forms are set forth only in those cases where data required is not considered to be self explanatory.

Budget Summary, OEO Form 325

Item 3A. Grant No.—this number to be entered by the CSA Regional Office.

Item 3C. Program Account Title and No.—to be provided by CSA Regional Office.

Section I. Budget Summary—eligible applicants will complete Column C only. Column C corresponds with Columns A (Cost Category No.) and B (Cost Category). Enter the estimated expenditures in Columns C.1 (OEO Federal) and C.2 (Non-Federal), based upon the amount of funds allocated by the Director in each applicable cost category. Total for Column C.1 should agree with the amount allocated the applicant. Column C.2—not applicable.

Section II. Estimated Future Costs—not applicable.

Budget Support Sheet, Part I (Salaries and Wages) and Part II (Budget Support Data), OEO Form 325a.

Part I. Salaries and Wages (Itemization of Cost Category No. 1.1)—enter the appropriate data as specified based upon the amount allocated (e.g., estimate expenditures in support of this project).

Part II. Budget Support Data (Itemization of Cost Categories Other Than Salaries and Wages. Show Subtotal for Each Cost Category)—enter the estimated expenditures for each item as specified.

Checkpoint Procedure for Coordination, OEO Form 394

This form is to be used to solicit comments from the Community Action Agency in the jurisdiction in which the applicant agency is located.

In order to facilitate implementation of the program, we suggest that eligible applicants file a "notice of intent" immediately with their local Clearinghouse using the documents normally required. Applicants should also forward to the Clearinghouse a copy of the grant application as soon as possible with a statement requesting that comments be sent directly to the appropriate CSA Regional Director, due to time constraints on implementation of the program.

Participant Characteristics Plan, CAP Form 84

This form is not to be submitted as part of the grant application; however, prime sponsors must have this document on file.

Agreement for Delegation of Activities Under Grant No.—, OEO Form 280

This form will be used by all eligible applicants when certain activities of the approved grant application (work program) is delegated to another agency or organization.

APPENDIX D

G.5 e. Bond coverage of officials. Prior to the release of funds to any grantee, public

or private, for the first initial grant, OEO must receive written assurance that arrangements have been made for appropriate bonding of grantee officials. This assurance may either take the form of a statement that no bond is needed (in line with the conditions below) or it may consist of a letter from a bonding company or agent stating the type of bond, amount and period of coverage, positions covered, and the annual cost of the bond that has been obtained.

A bond does not need to be provided by a grantee, public or private, if funds are to be deposited in a public treasury and disbursed and audited by local or State public officials who normally perform these duties. In this case, the financial role of the officials of the grantee agency must be limited to making withdrawals from the Federal Reserve System for deposit in the public treasury and certifying appropriate expenditures for disbursement. Nor does a grantee which is a public agency need to provide a new bond if all employees who are authorized to sign or countersign checks on the grantee's commercial bank account or to disburse cash are already bonded, in an amount consistent with local requirements and practices.

In all other situations, grantees—whether public or private agencies—must take steps to secure fidelity bond coverage in line with the following guides:

(1) Coverage should be secured in the aggregate amount of \$25,000 for persons authorized to sign or countersign checks or to disburse sizeable amounts of cash (such as for payrolls). Persons who handle only petty cash need not be bonded. Nor is it necessary to bond officials who are authorized to sign Payment Vouchers, but who are not authorized to sign or countersign checks or to disburse cash.

(2) Grantees normally should obtain a 3 year bond, payable annually, with an option to cancel in the event the program terminates before three years. Such terms are available from most surety companies.

(3) Grantees are responsible for assuring that appropriate officials of delegate agencies are bonded. Existing bond coverage on officials of delegate agencies which are public agencies shall be considered acceptable. Coverage for officials of delegate agencies which are private organizations shall be equal to the average of funds to be expended each month (up to an aggregate amount of \$25,000.) If a delegate agency will expend less than \$1,000 per month in program funds, on the average, bond coverage is not required.

(4) Copies of bonds secured by the grantee and by delegate agencies should be filed by the grantee and need not be submitted to OEO.

APPENDIX E

STATE SCHOOL LUNCH DIRECTORS

T. G. Smith, 205-269-6011, Food Service & Local Accounting, Administrative & Finance, State Department of Education, 460 State Office Building, Montgomery, Alabama 36104.

Mr. Marge Dawes, Coordinator, School Lunch Services, State Department of Education, Alaska Office Building, Pouch F, Juneau, Alaska 99801.

Mrs. Frances Sullivan, Supervisor, School Lunch Programs, Department of Education, Pago Pago, Tutuila, American Samoa 96920.

Joanne Hurley, Director, 602-271-5198, School Lunch Program, State Department of Public Instruction, Suite 165, State Capitol, Phoenix, Arizona 85007.

J. A. Niven, State Director, School Lunch Division, West Central, USDA Regional Office, State Department of Education, Education Building, Little Rock, Arkansas 72201.

Mr. Webber, Supervisor, School Lunch Program, State Department of Education, 721 Capitol Mall, Sacramento, California 95814.

Mr. Pohle H. Wolfe, Consultant, School Food Services, State Department of Education, 520 State Office Building, Denver, Colorado 80203.

Ms. Ann R. Tolman, 203-566-2544, School Lunch Program, State Department of Education, State Capitol Building, Hartford, Connecticut 06115.

Mr. R. L. John, 302-678-4718, State Supervisor of School Lunch, Department of Public Instruction, Box 191, Dover, Delaware 19901.

Mr. Joseph M. Stuart, Director, Department of Food Services, Public Schools of District of Columbia, Presidential Building, Room 806, 415 12th Street, N.W., Washington, D.C. 20004.

Mr. George Hockenbery, Acting Director, 904-488-4186, School Food Service, State Department of Education, Tallahassee, Florida 32304.

Miss Josephine Martin, Chief Consultant, 404-656-2457, Southeast Regional Office, School Food Service Program, State Department of Education, Room 211, State Annex Building, 156 Trinity Avenue, S.W., Atlanta, Georgia 30303.

Mrs. Audrey M. Hansen, School Lunch Consultant, SPC, School Lunch Program, Department of Education, Government of Guam, P.O. Box DE, Agana, Guam 96910.

Mr. Stanley Doucette, Director, 808-548-6583, School Lunch Service, State Department of Education, P.O. Box 2360, Honolulu, Hawaii 96804.

Mr. Cecil F. Oisen, Director, 208-384-2411, School Lunch Program, State Department of Education, Room 205, Statehouse, Boise, Idaho 83701.

Mr. Robert Ohizen, 217-782-6500, School Lunch Division, Office of the Superintendent of Public Instruction, 316 South Second Street, Springfield, Illinois 62701.

Mr. John Harter, School Lunch Division, State Department of Public Instruction, Room 803, State Office Building, Indianapolis, Indiana 46204.

Mr. Lavern E. Carpenter, Director, School Lunch Program, State Department of Public Instruction, Grimes State Office Building, Des Moines, Iowa 50319.

Miss Ione George, 913-296-2276, School Lunch Program, State Department of Public Instruction, Kansas State Education Building, 120 East 10th Street, Topeka, Kansas 66612.

Mr. C. E. Bevins, Director, 502-564-4210, Division of School Lunch, State Department of Education, Bureau of Pupil Personnel Services, State Office Building, 2nd Floor, Frankfort, Kentucky 40601.

Ronald Carriere, 504-389-6998, School Food Services, State Department of Education, P.O. Box 44064, State Capitol, 20th Floor, Baton Rouge, Louisiana 70804.

Miss Gertrude Griney, Director, 207-289-2371, School Lunch Program, State Department of Education, State House, Augusta, Maine 04330.

Ms. Ruthetta L. Gilgash, School Lunch Program, 301-796-8300, State Department of Education, State Office Building, 301 West Preston Street, Baltimore, Maryland 21201.

Mr. John C. Stalker, Director, Office of School Lunch Programs, 617-727-5764, State Department of Education, 182 Tremont Street, Boston, Massachusetts 02111.

Mr. James L. Borough, Supervisor, School Lunch Section, 517-373-3347, School Management Services, State Department of Education, 1020 South Washington Avenue, Lansing, Michigan 48902.

Mr. C. E. Holt, Director, 612-296-6104, School Lunch Section, State Department of Education, State Centennial Building, 4th Floor, St. Paul, Minnesota 55101.

Mr. John H. Walker, State Supervisor, 601-354-6916, School Lunch Program, State Department of Education, P.O. Box 771, Woolfolk State Building, Room 306, Jackson, Mississippi 39205.

Mr. Wilbert Grannemann, 314-751-3526, School Lunch Section, State Department of Education, Jefferson Building, P.O. Box 480, Jefferson City, Missouri 65102.

Mr. Brislin Skiles, 406-449-2501, School Lunch Program, State Department of Public Instruction, 805 North Main Street, Helena, Montana 59061.

Mr. Allen A. Elliott, Director, 402-471-2254, Midwest Regional Office USDA, School Food Services, State Department of Education, 411 South 13th Street, 2nd Floor, Lincoln, Nebraska 68508.

Miss Eleanor Bateman, Supervisor, 702-885-5700, West USDA Region, School Lunch Program, State Department of Education, Heroes Memorial Building, Room 208, Carson City, Nevada 89701.

Mr. George Bussell, 603-271-2140, School Lunch Program, State Department of Education, State House, Concord, New Hampshire 03301.

Mrs. Miriam E. Hughes, 609-292-8527, Coordinator of Food Services, Federal Assistance Program, Office of Educational Field Services, State Department of Education, 225 West State Street, Trenton, New Jersey 08625.

Mrs. Gretchen Plagge, Director, 505-827-2591, School Lunch Division, State Department of Education, Capitol Building, Santa Fe, New Mexico 87501.

Mr. Richard O. Reid, 518-474-2121, Mr. Thomas Calvin, 518-474-1566, Assistant for Federally Aided Programs, Division of Educational Finance, State Department of Education, 194 Washington Avenue, Albany, New York 12224.

Mr. Ralph W. Eaton, Director, 919-829-7162, School Food Services, State Department of Public Instruction, P.O. Box 12197, Cameron Village, Raleigh, North Carolina 27605.

Mrs. Roberta Bosch, 701-224-2294, School Lunch Program, West Region USDA, State Department of Public Instruction, State Capitol Building, Bismark, North Dakota 58501.

Mr. Wade D. Bash, Chief, 614-466-2945, School Lunch Program, State Department of Education, 751 Northwest Boulevard, Columbus, Ohio 43212.

Mr. Chester Coulter, Director, School Lunch Division, 405-521-3327, Oliver Hodge, Memorial Education Building Room 340, 2600 Lincoln Boulevard, Oklahoma City, Oklahoma 73105.

Mr. Lyle N. Riggs, Supervisor, 503-378-3579, School Lunch Program, West Region USDA, Oregon Board of Education, Room 324, Public Service Building, Salem, Oregon 97310.

Mr. Kenneth Reinhardt, Jr., Chief, 717-787-1425, School Lunch and Nutrition, Department of Public Instruction, Box 911, Blackstone Building, Room 200, 112 Market Street, Harrisburg, Pennsylvania 17126.

Ms. Mary Blanco, Director, School Lunchrooms Division, Department of Education, 809-764-1100, P.O. Box 1229, Hato Rey, Puerto Rico 00919.

Mrs. Maureen O'Connell, Acting Chief, School Lunch Services, State Department of Education, Roger Williams Building, Hayes Street, Providence, Rhode Island 02908.

Miss Kathleen Gaston, State Supervisor, 803-758-2346, Southeast Regional Office, School Lunch Program, State Department of Education, 916 Rutledge Building, Columbia, South Carolina 29201.

Mr. Paul M. Marschalk, Director, 605-224-3413, Division of Educational Food Services, State Department of Public Instruction, State Capitol Building, Pierre, South Dakota 57501.

Mr. Lawrence Bartlett, Director, Southeast Regional Office, 615-741-2927, School Lunch Program, State Department of Education, C3-303-Cordell Hull Building, Nashville, Tennessee 37219.

Mr. Cole, Chief Consultant, 512-475-4363, West Central Office, School Lunch Program, Texas Education Agency, Capitol Station, Austin, Texas 78711.

Miss Hattie Baker, School Lunch Director, c/o Office of the High Commissioner, Trust Territory of the Pacific Islands, Saipan, Mariana Islands 96950.

Mr. Cluff Snow, 801-328-5471, Division of School Food Services, 1400 University Club Building, 136 East South Temple, Salt Lake City, Utah 84111.

Mr. Edward Ryan, Chief, Educational Field Services, 802-838-3145, State Department of Education, State Office Building, Montpelier, Vermont 05602.

Mr. John F. Miller, Supervisor, 804-776-2604, School Lunch Program, State Department of Education, 9th Street Office Building, Richmond, Virginia 23216.

Mr. Lionel Hilaire, Supervisor, School Lunch Office, Department of Education, Charlotte Amalie, St. Thomas, Virgin Islands 00801.

Mr. John L. Stevens, Supervisor, School Lunch Office, Department of Education, P.O. Box 1, Christiansted, St. Croix, Virgin Islands 00820.

Mrs. Ena Simpson, Supervisor, 206-753-6706, Food Services, West USDA, State Department of Public Instruction, Room 220, Old Capitol Building, Olympia, Washington 98501.

Mrs. Faith Gravenmier, 304-348-6800, State Director of School Lunch, State Department of Education, 310-45 Street, S.E., Charleston, West Virginia 25305.

Mr. Edward J. Post, Administrator, Mid-West Regional Office, 608-266-3609, School Food Service Program, State Department of Public Instruction, 126 Langdon Street, 5th Floor, Madison, Wisconsin 53703.

Mr. Sidney Werner, Acting Director, 307-777-7293, School Lunch Program, State Department of Education, State Capitol Building, Cheyenne, Wyoming 82001.

Miss Eleanor Bateman, Supervisor, 702-885-5700, West USDA Region, School Lunch Program, State Department of Education, Heroes Memorial Building, Room 208, Carson City, Nevada 89701.

Mr. George Bussell, 603-271-2140, School Lunch Program, State Department of Education, State House, Concord, New Hampshire 03301.

Mrs. Miriam E. Hughes, 609-292-8527, Coordinator of Food Services, Federal Assistance Program, Office of Educational Field Services, State Department of Education, 225 West State Street, Trenton, New Jersey 08625.

Mrs. Gretchen Plagge, Director, 505-827-2591, School Lunch Division, State Department of Education, Capitol Building, Santa Fe, New Mexico 87501.

Mr. Richard O. Reid, 518-474-2121, Mr. Thomas Calvin, 518-474-1566, Assistant for Federally Aided Programs, Division of Educational Finance, State Department of Education, 194 Washington Avenue, Albany, New York 12224.

Mr. Ralph W. Eaton, Director, 919-829-7162, School Food Services, State Department of Public Instruction, P.O. Box 12197, Cameron Village, Raleigh, North Carolina 27605.

Mrs. Roberta Bosch, 701-224-2294, School Lunch Program, West Region USDA, State Department of Public Instruction, State Capitol Building, Bismark, North Dakota 58501.

PART 1068—COMMUNITY ACTION PROGRAM GRANTEE FINANCIAL MANAGEMENT

Subpart—Non-Federal Share Criteria

The purpose of this subpart is to update the Community Services Administration's policy on the general subject of non-Federal share. Non-Federal share requirements for specific programs will be found in separate subparts under this Part. These regulations are filed as interim regulations effective July 1, 1975 in order to effectuate the provisions of the Community Services Act of 1974. CSA welcomes comments and suggested changes and will revise its regulations in light of the comments received if warranted. CSA will consider all comments received prior to August 1, 1975. Please address all comments to: Mr. Angel Rivera, Acting Deputy Assistant Director for Operations, Community Services Administration, 1200-19th Street, NW., Washington, D.C. 20506.

 - 1068.10-7 Who may provide Non-Federal share?
 - 1068.10-8 Valuation of in-kind contributions.
 - 1068.10-9 Accounting for the Non-Federal share.

AUTHORITY: Sec. 602, 78 Stat. 530; 42 U.S.C. 2942.

BERT A. GALLEGOS,
Director.

Effective: July 1, 1975.

§ 1068.10-1 Applicability.

This subpart is applicable to grants funded under Titles II, III-B and VII of the Economic Opportunity Act of 1964 as

amended if the assistance is administered by the Community Services Administration.

§ 1068.10-2 Definitions.

(a) Non-Federal Share. That portion of project or program costs not borne by the Federal Government.

(b) Federal Share. That portion of the total costs provided by the Federal Govt.

§ 1068.10-3 Background.

(a) Sections 225(c), 235(b), and 714 of the Community Services Act of 1974 require the contribution of non-Federal share by grantees funded under sections 221, 222(a), 235, and 712 of that Act. In addition the Director of the Community Services Administration may administratively require a non-Federal share contribution from grantees funded under other sections of the Act if the grants are administered by Community Services Administration.

(b) This subpart attempts to incorporate into one policy statement all general information on the subject of non-Federal share, e.g., definitions of Federal and non-Federal share; the form non-Federal share may take, etc. (EXCEPTION: OEO Instruction 6802-1a, Valuation of Volunteered Personal Services for Purpose of Computing the Non-Federal Share, remains in force.) It incorporates some of the policy previously found in OEO Instruction 6802-08; in addition it includes new material, e.g., valuation of in-kind contributions.

§ 1068.10-4 What is Non-Federal share?

In general non-Federal share is that portion of the Community Services Administration-approved project or program costs not borne by Community Services Administration. In all but exceptional cases (see § 1068.10-7) the non-Federal share is from a source other than another Federal agency.

§ 1068.10-5 What form may Non-Federal share take?

(a) The non-Federal share of program costs may be contributed in cash or in-kind. A contribution is treated as a "cash" contribution in any case in which money is disbursed by the grantee or a delegate agency to pay expenses of the program. A contribution may be treated as "in-kind" if it is in the form of real property owned by, donated or loaned to the grantee or a delegate agency; non-expendable personal property; and the value of goods and services directly benefiting the program. Example: A contribution which consists of the imputed rental value of a building shall be considered as an in-kind contribution, but where rent is actually paid by the grantee or a delegate agency from donated funds it shall be treated as a cash contribution.

(b) In-kind contributions may include the cost of staff assigned to the grantee, supporting services which can be identified and priced, and the donation or use of office space, automobiles, office equipment, and other facilities and equipment necessary to the effective op-

eration of and directly benefiting the program.

§ 1068.10-6 Items which may/may not be included as Non-Federal share.

(a) Non-Federal share MAY consist of the following:

(1) Program costs financed with cash contributed or donated to the grantee by public agencies and institutions, private organizations, and individuals.

(2) Charges incurred by the grantee as project costs. (Not all charges require cash outlays by the grantee during the grant period; examples are depreciation and use charges for buildings and equipment.)

(3) Program costs for volunteered personal services and for the use of real and personal property donated by other private organizations, individuals, or public agencies and institutions.

(b) Non-Federal share items MAY NOT include the following:

(1) Time spent on the development, conduct, and administration of a program by members of the governing body or advisory committees of the grantee or a delegate agency, to the extent that such time is spent in their capacity as members of such bodies.

(2) Items such as legal advice which are normally provided to local public or private agencies by other governmental agencies without charge. (To the extent that these services are NOT normally provided without charge they may be included.)

(3) Any cost incurred or contribution of services made prior to the effective date of a grant by the Community Services Administration.

§ 1068.10-7 Who may provide Non-Federal share?

(a) The non-Federal share may be provided by any public or private agency or individual. However, Federal funds provided by other Federal programs may not be used as non-Federal share except where expressly provided for in specific authorizing legislation, e.g. Title I of the Housing and Community Development Act of 1974, Pub. L. 93-383. (See FEDERAL REGISTER, Vol. 39, No. 220, November 13, 1974 for implementing regulations). In such circumstances the grantee must have the appropriate certification from the granting agency and written concurrence of the appropriate Community Services Administration official.

(b) A contribution also may consist of the use of space in a public building or other facility even though Federal public works assistance may have been involved in its original construction.

§ 1068.10-8 Valuation of in-kind contributions.

(a) *Personal Services.* (See § 1068.10-9.)

(b) *Donated expendable personal property.* Donated expendable personal property includes such items as expendable equipment, office supplies, laboratory supplies or workshops and class room supplies. The value assessed to expendable personal property should be

reasonable and should not exceed the market value of the property at the time of the donation.

(c) *Donated nonexpendable personal property, buildings and land or use thereof.* (1) The method used for determining what portion of the value of donated nonexpendable personal property, buildings, and land may be charged as non-Federal share depends on the purpose of the grant as follows:

(i) If the purpose of the grant is to assist the grantee in the acquisition of equipment, buildings, or land, the total value of the donated property may be claimed as non-Federal share.

(ii) If the purpose of the grant is to support activities that require the use of equipment, buildings, or land on a temporary or part-time basis, depreciation or use charges for equipment and buildings may be made. The full value of equipment or other capital assets and fair rental charges for land may be allowed provided that the Community Services Administration has approved the charges.

(2) The value of donated property will be determined in accordance with the usual accounting policies of the grantee with the following qualifications:

(i) *Land/buildings.* The value of donated land and buildings may not exceed its fair market value, at the time of donation, as established by an independent appraiser (e.g., certified real property appraiser) and certified by a responsible official of the grantee.

(ii) *Nonexpendable personal property.* The value of donated nonexpendable personal property shall not exceed the fair market value of equipment and property of the same age and condition at the time of donation.

(iii) *Use of space.* The value of donated space shall not exceed the fair rental value of comparable space and facilities in a privately-owned building in the same locality.

(iv) *Loaned equipment.* The value of loaned equipment shall not exceed its fair rental value. The basis for determining the valuation of material, equipment, buildings and land must be documented.

§ 1068.10-9 Accounting for the Non-Federal share.

(a) The Statement of OEO Grant, Form 314, shows the minimum percentage of total program expenditures which non-Federal funds must constitute in the grant period. The grantee is expected to maintain the rate of contribution of the non-Federal share so that throughout the grant period Federal funds will not be used to pay for a substantially larger percentage of project costs than the Federal funds shown on the Statement of OEO Grant constitute.

(b) It is important to note that the Federal share may never exceed either the dollar amount shown on the Statement of OEO Grant or the maximum percentage of the total program expenditures that this constitutes. The grantee must provide only sufficient non-Federal contributions so that the Federal share remains at or below the maximum per-

centage; however, the grantee may choose to provide additional non-Federal share, to insure a margin of safety, in the event that final audits disallow some contributions.

(c) The non-Federal share may be provided in one program account for the entire grant or it may be spread among several program accounts.

(d) Non-Federal share contributions of cash shall be recorded as they occur. It is not necessary to maintain separate ledger accounts for the expenditures of grantee cash.

(e) All in-kind contributions, including those applicable to delegate agencies, must be recorded in the ledger accounts, either in separate accounts or in separate columns, as grant costs when the in-kind services or goods are performed or received. Records, including required supporting documentation, on in-kind services or goods performed or received must be established and maintained on a current basis.

(f) The non-Federal share is subject to audit, as is the Federal share.

[FR Doc.75-17072 Filed 6-30-75;8:45 am]

PART 1068—COMMUNITY ACTION PROGRAM GRANTEE FINANCIAL MANAGEMENT

Subpart—Non-Federal Share Requirements for Title II, sections 221, 222(a) and 231 Programs

The recently enacted Community Services Act of 1974 amending the Economic Opportunity Act revised the non-Federal share contributions required of grantees funded under sections 221 and 222(a) of Title II necessitating the revision of CSA's implementing regulations to reflect this change. These regulations are filed as interim regulations effective July 1, 1975 in order to effectuate the provisions of the Community Services Act of 1974. CSA welcomes comments and suggested changes and will revise its regulations in light of the comments if warranted. CSA will consider all comments received prior to August 1, 1975. Please address all comments to: Mr. Angel Rivera, Acting Deputy Assistant Director for Operations, Community Services Administration, 1200-19th Street, NW., Washington, D.C. 20506.

- Appendix B.

AUTHORITY: Sec. 602, 78 Stat. 530; 42 U.S.C. 2942.

Effective date: July 1, 1975.

BERT A. GALLEGOS,
Director.

45 CFR Chapter 10, § 1068.1 and 1068.2 is revoked and a new Subpart is added to read as follows:

§ 1068.20-1 Applicability.

This subpart is applicable to grants funded under Title II, sections 221, 222 (a), and 231 of the Economic Opportunity Act as amended if the assistance is administered by the Community Services Administration.

§ 1068.20-2 Definitions of terms as used in this subpart.

(a) *Approved Cost of Assisted Programs.* Combined Federal and Non-Federal Share for all programs authorities under sections 221 and 222(a) which legislatively require non-Federal Share excluding those funds granted under sections for which non-Federal share has been administratively waived and Legal Services.

(b) *Financial Assistance.* Federal funds granted for all program authorities funded under sections 221 and 222(a) which require non-Federal share except Legal Services.

§ 1068.20-3 Program authorities for which Non-Federal share contribution is required.

(a) *Legislatively required.* Section 225 (c) of the Act states that Non-Federal share will be required for assistance provided under sections 221 and 222(a). This would include the following programs:

TITLE II

- Local Initiative—Section 221
- Legal Services—Section 222 (a) (3)
- Emergency Food and Medical Services—Section 222(a) (5)
- Senior Opportunities and Services—Section 222(a) (7)
- Environmental Action—Section 222(a) (10)
- Rural Housing Development and Rehabilitation—Section 222(a) (11)
- Emergency Energy Conservation Services—Section 222(a) (12)
- Summer Youth Recreation—Section 222(a) (13)

(1) *Exceptions to Non-Federal Share Requirements.* (i) *Emergency food and medical services program.* Because the requirement of non-Federal share could pose serious obstacles to meeting program objectives on an emergency basis the non-Federal share requirements have been waived for this program since its inception and will continue to be waived. The waiver is automatic and does not require a request for waiver.

(ii) *Emergency energy conservation program—short term assistance grants.* Non-Federal share requirements are hereby waived for short term assistance grants under section 222(a) (12). This includes loans and grants to grantees for assistance to eligible individuals to help them avoid utility cutoffs and to provide other direct financial assistance of an emergency nature. The waiver is automatic and does not require a request for waiver from applicants.

(b) *Administratively required.* State Economic Opportunity Offices—Section 231 (SEOOs).

§ 1068.20-4 Non-Federal share requirements.

(a) *Legislative requirements.* Section 225(c) of the Community Services Act

of 1974 mandates the following changes in Federal assistance to Community Action Agencies or other agencies funded under sections 221 and 222(a):

"Unless otherwise provided in this part, financial assistance extended to a community action agency or other agency pursuant to sections 221 and 222(a), . . . shall not exceed 80 percentum of the approved cost of the assisted programs or activities with respect to fiscal year 1975, and 70 percentum of such costs with respect to fiscal year 1976, and shall not exceed 60 percentum of such cost with respect to fiscal year 1977, except that in the case of community action agencies receiving such financial assistance annually of \$300,000 or less, such financial assistance shall not exceed 75 percentum of such costs with respect to fiscal year 1976 and shall not exceed 70 percentum of such costs with respect to fiscal year 1977 . . ."

(1) As a result of this decrease in percentage of Federal financial assistance the percentage of non-Federal share required will automatically increase in direct proportion, e.g., a CAA whose Federal financial assistance for FY 1976 and 1977 is more than \$300,000 will be required to provide 30 percent of approved costs of the assisted programs in FY 1976 and 40 percent in FY 1977 while a CAA whose financial assistance is \$300,000 or less will provide 25 percent in non-Federal share for FY 1976 and 30 percent in FY 1977. For grantees other than CAAs the non-Federal share will be 30 percent for FY 1976 and 40 percent for FY 1977.

(2) NOTE: In the event that an additional grant action is made subsequent to a program year refunding which increases a grantee's financial assistance to a level in excess of \$300,000, the increase in percentage of required non-Federal share shall be applied only to that grant action.

(b) *Administrative requirement.* The Director has the authority to administratively require non-Federal share when providing financial assistance under legislative authorities not covered by section 225(c). Therefore, as in the past, grantees receiving financial assistance under section 231 (SEOOs) will be required to provide non-Federal share in the amount of 20% for FY 1976 and FY 1977.

(c) *How to determine percentage of required Non-Federal share (CAAs only).* (1) The legislation bases the determination of the percentage of Federal share to be contributed to a program on the CAA's annual "financial assistance", i.e. above \$300,000 or \$300,000 or less. Section 102(3) of the Act defines the term "financial assistance" as used in Title II to include ". . . assistance advanced by grant, agreement, or contract, but does not include the procurement of plant or equipment or goods or services". In essence "financial assistance" is limited to Federal funds only.

(2) Therefore, in computing a Community Action Agency's financial assistance for purposes of determining the percentage of non-Federal share include only those Federal funds provided under the program authorities in Title II which legislatively require non-Federal share. (See § 1068.20-3.) Legal Services funds

need not be included.¹ Since the non-Federal share waiver for the Emergency Food and Medical Services and some Emergency Energy Conservation Programs are administratively and not statutorily directed, funds provided under these authorities WILL be included in determining financial assistance.

(d) *How to Compute the Non-Federal Share.*—(1) *Grants to Community Action Agencies.* (i) Compute the "financial assistance." (See § 1068.20-4(c).) (ii) Use level of financial assistance to determine percentage of Federal share as outlined in the legislation. (See § 1068.20-4(a)).

(iii) Determine "approved cost of assisted program" by: (A) Entering Federal funds granted for each program account which legislatively requires non-Federal share contribution except those funds granted under sections of the Act for which non-Federal share has been waived and Legal Services (see § 1068.20-3(a)); and (B) dividing the Federal funds by the percentage of Federal contribution as determined in paragraph (d) (1) (ii) of this section.

(iv) Subtract the Federal dollars from the approved cost of assisted program for each program account to determine amount of non-Federal share required.

(2) *Grants to Other than CAAs Which Require Non-Federal Share.* (i) Determine "approved cost of assisted program" by: (A) Entering Federal funds granted; and (B) dividing the Federal funds by the percentage of Federal share, i.e. 80 percent for SEOs funded under section 231; and 70 percent for FY 1976 and 60 percent for FY 1977 for all others.

(ii) Subtract the Federal dollars from the approved cost of assisted program to determine non-Federal share.

§ 1068.20-5 Communities eligible for waivers of Non-Federal share.

(a) *Waiver Criteria.* (1) Section 225 (c) of the EOA as amended also provides that "The Director may approve assistance in excess of such percentages if he determines, in accordance with regulations establishing objective criteria, that such action is required in furtherance of the purpose of (Title II)". The ob-

¹ Pub. L. 93-355 makes provision for the transfer of the Legal Services Program for the Community Services Administration to a public corporation to be effective 90 days after the first meeting of the Board of Directors. Until such time the Legal Services Program continues to be funded under section 222(a)(3) and as such would, under normal circumstances, be considered in determining annual financial assistance for purposes of the Non-Federal share. However, as a transfer is imminent pending completion of administrative actions and as it is clearly Congressional intent that the Legal Services Program be a separate entity, funds granted under section 222(a)(3) need NOT be considered in calculating annual financial assistance on which to base percentage of NFS.

jective of CSA's exemption policy has been to assure that the poorest counties in the nation are able to participate in community action programs despite their lack of local economic resources to match Federal grant funds. These exemptions will be continued. Previously the exemption policy was based on per capita income, i.e. communities whose annual per capita income fell below \$750 were exempted to the extent that they were unable to raise non-Federal share; a partial exemption was also extended to about 500 low-income rural counties whose annual per capita income was above \$750 but below \$1,000. Both groups, however, were expected to provide NFS whenever possible. CSA has revised its waiver criteria by eliminating the per capita provisions and substituting criteria which reflect a percentage of the population below the poverty threshold. The 193 counties with 35 percent or more of families poor² will be eligible for waivers of a portion of all of the required NFS. In addition those counties (442) with at least 24.5 percent of families poor² may request a waiver of a portion of the non-Federal share but must provide at least 50 percent of the required NFS. Appendices A and B provide complete listings of the eligible counties.

(2) The above does not preclude the Director from developing additional waiver criteria for other circumstances; however, in the event that such criteria are developed they will be published in the FEDERAL REGISTER.

(b) *Procedures for requesting waiver.* A request for a waiver should be in the form of a letter accompanying the application for a grant and shall state (1) the amount of the non-Federal share which the community can provide and (2) that the applicant has made a reasonable effort to raise more non-Federal share and has been unsuccessful. CSA may require that additional evidence be submitted in support of these representations.

(c) *Rule for computing NFS for multi-county CAA where one or more counties qualify for waivers.* (1) In a multi-county program determine each county's NFS on the basis of the relative proportion of total target population in the counties. EXAMPLE: A three county CAA with a target population of 100,000 whose "approved costs of assisted programs" is \$500,000:

County	Population	Proportion of NFS (percent)	Amount of NFS at 30 percent
A.....	20,000	20	30,000
B.....	30,000	30	45,000
C.....	50,000	50	75,000
Total...	100,000	100	150,000

(2) If one or more counties are eligible for waiver the NFS is first computed as

² 1970 Census of Housing and Population, PC-1(C) series.

noted above. If County A qualifies for and receives a waiver of all NFS the NFS contribution required of that CAA would be reduced by \$30,000.

(3) If County C qualifies for a partial waiver, reduce the \$75,000 by the approved percentage of NFS waived and reduce the total NFS requirement of that CAA by the resulting dollar figure.
§ 1068.20-6 Pooling of Non-Federal Share.

(4) CSA will permit pooling of non-Federal share between exempt and non-exempt counties served by the same CAA.

(5) Pooling among those program accounts funded by the Community Services Administration during a single program year is acceptable.

(NOTE: This does not allow pooling with other programs authorized under the Community Services Act which are administered by other Federal agencies, e.g. Title V, Headstart and Follow Through, administered by HEW.)

§ 1068.20-7 Maintenance of effort.

(a) Section 225(d) states that no program shall be approved for assistance under sections 221 and 222(a) unless the Director satisfies himself (1) that the services to be provided under such program will be in addition to, and not in substitution for, services previously provided without Federal assistance and (2) that funds or other resources devoted to programs designed to meet the needs of the poor within the community will not be diminished in order to provide any contributions required under section 225(c).

(b) The principal intent of this requirement is to ensure that the on-going level of anti-poverty effort in the community is increased. Federal assistance is intended to supplement and raise existing levels of local support for action against poverty, not to replace it.

(c) To ensure that the requirements of section 225(d) are satisfied, both of the following conditions must be met:

(1) The applicant must demonstrate that the proposed expenditures, including any amounts claimed as non-Federal share, will represent a net increase in the expenditures from non-Federal sources for similar activities for this purpose, the base period to be used for comparison is FY 75.

(2) In addition, the applicant shall assure CSA that the prior level of expenditures or contributions within the community which are concerned with poverty will be maintained in the sense that funds have not been and will not be diverted from other activities focusing on the needs of the poor so as to finance the community action program.

(d) The requirements of section 225 (d) apply only with respect to program accounts funded in whole or in part under sections 221 and 222(a) of the Act, and not to activities which are financed under other sections.

Title 46—Shipping
CHAPTER IV—FEDERAL MARITIME COMMISSION
SUBCHAPTER A—GENERAL PROVISIONS
 [Docket No. 75-7; General Order 16, Amdt. 13]
PART 502—RULES OF PRACTICE AND PROCEDURE

Informal Procedures for Adjudication of Small Claims

By notice of proposed rulemaking published in the FEDERAL REGISTER on April 4, 1975, the Commission served notice that it intended to promulgate a rule to amend Subpart S of 46 CFR Part 502 of the Commission's rules of practice and procedure by increasing the jurisdictional limit for the informal adjudication of small claims from \$1,000 to \$5,000.

The proposed amendment was based on a staff review and analysis of the claims settled during the period from June 1972 to January 1975. That review revealed that the \$1,000 limitation set in 1967 has been eroded by general economic pressures, requiring a new limit to meet the increased costs of doing business and to afford a greater opportunity for claimants to elect the informal procedure for adjudication of small claims.

In response to the Notice of Proposed Rulemaking three comments were filed.¹ Eight conferences and their member lines joined by two additional conferences submitted comments in support of the adoption of the proposed amendment. Comments were also submitted by Ocean Freight Consultants Inc. (OFC) who argues that existing negative aspects of Subpart S 46 CFR Part 502 of the Commission's rules will be multiplied if the limitation is increased as proposed. OFC asserts that an increase in the jurisdic-

¹ Comments were submitted by: (a) North Atlantic Continental Freight Conference, North Atlantic Baltic Freight Conference, North Atlantic French Atlantic Freight Conference, Continental North Atlantic Westbound Freight Conference, North Atlantic United Kingdom Freight Conference, Scandinavia/U.S. North Atlantic Freight Conference, North Atlantic Westbound Freight Association, South Atlantic North Europe Rate Agreement, (b) Continental/U.S. Gulf Freight Association, and United Kingdom/U.S. Gulf Westbound Rate Agreement, and (c) Ocean Freight Consultants Inc.

tional limit from \$1,000 to \$5,000 will not necessarily expedite claims, and would not safeguard the interests of claimants who OFC states are now unable to petition for review of the decisions of a Settlement Officer. We find no merit in the arguments of OFC.

Small claims determined by informal procedure under Subpart S are so determined with the consent of all the parties who agree to be bound by the decision of the Settlement Officer. If a claimant wishes the opportunity to be able to request a review of a decision, he may do so by initiating a complaint proceeding under § 502.62, Complaints, or Subpart K, 46 CFR Part 502, Shortened Procedure, of the Commission's rules of practice and procedure.

We believe that the proposed amendment which offers a larger number of claimants the opportunity to select the informal procedure will result in the expeditious adjudication of a greater number of claims and a savings in expense to the parties involved.

Therefore, pursuant to section 3 and 4 of the Administrative Procedure Act, 5 U.S.C. 552, 553 and section 43 of the Shipping Act 1916, 46 U.S.C. 841a, the first sentence of § 502.301 of Title 46 of the Code of Federal Regulations be amended to read as follows:

§ 502.3010 Policy.

Claims against common carriers subject to the Shipping Act, 1916, as amended, and the Intercoastal Shipping Act, 1933, as amended, in the amount of \$5,000 or less, for the recovery of damages (not including claims for loss of or damage to property), or for the recovery of overcharges, will with the written consent of all parties, be determined, pursuant to this subpart, by Settlement Officers, to be delegated by the Commission, without the necessity for formal proceedings under the rules of this part.* * *

Effective date. Since the amended rule will relieve a restriction on claimants, pursuant to section 4(c)(1) of the Administrative Procedure Act (5 U.S.C. 553), this amendment shall become effective immediately on July 1, 1975.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

Title 47—Telecommunication
 [Docket Nos. 16004, 18052; FCC 75-636]
CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION
PART 73—RADIO BROADCAST SERVICES
Field Strength Curves and Field Strength Measurements

Report and Order—proceeding terminated. In the matter of amendment of §§ 73.333 and 73.699, field strength curves for FM and TV Broadcast Stations, Docket No. 16004; amendment of Part 73 of the rules regarding filed strength measurements for FM and TV Broadcast Stations, Docket No. 18052.

1. In the above entitled proceeding¹ the Commission proposed to amend Part 73 of its rules and regulations to effect the following changes:

(1) Adoption of revised F(50,50) field strength curves for the television broadcast service (§ 73.699) and the FM broadcast service (§ 73.333), the adoption of new F(50,10) field strength curves for both services (however, with the exclusion of a "roughness factor" originally proposed in Docket 16004 for modification of the values predicted by the curves where the terrain traversed by the signal is of other than average roughness).^{2a}

(2) Revision of the procedure specified in § 73.686 for making field strength measurements in the television broadcast service, and a broader definition of the situations in which the results of such measurements will be considered as of probative value. Also contemplated is the incorporation of similar provisions for field strength measurements in the rules governing the FM broadcast service.

(3) Modification of the F(50,50) field strength values specified in § 73.683 for Grade B service.

(4) Possible changes in the rules to provide for the depiction of areas within the television station's Grade B contour subject to interstation interference.

2. Prior to the consolidation of Dockets 16004 and 18052 by a Further notice of proposed rulemaking, adopted April 14, 1971 (FCC 71-422), 36 F.R. 8699 (1971), comments were received in the separate proceedings concerning the adoption of field strength curves (Docket 16004) and the revision of the rules governing the performance of field strength measurements and their usage (Docket 18052). The Further Notice invited comments on the proposed adoption of amended field strength values defining Grade B service, as a part of a "package" which would include rule amendments to implement the proposals advanced in the aforementioned Dockets, excluding, however, the "roughness factor" offered for adoption in Docket 16004. While disclaiming any requirement of the FCC for such information, the Further Notice sought comments on the usefulness of interference predictions for other purposes, and the technical standards which should be employed if depictions of interference areas within Grade B contours were required.

3. As extended, the deadline for filing comments was set as July 28, 1971, and for filing reply comments as December 29, 1971. In arriving at a decision in this proceeding, we have had before us and have given full consideration to the comments filed in each of the separate Dockets, and those filed in response to the Further Notice, as listed in Appendix A below.

¹ 36 FR 23322, December 8, 1971.

^{2a} The revised field strength curves are those contained in Report No. R-6602 of the Research Division of the Office of Chief Engineer of the FCC, issued on September 11, 1966. This Report, which fully describes the development of the curves, and the development and use of the "roughness factor" is a part of the record of this proceeding.

4. As many of the parties have emphasized, there are two major and interrelated questions to be considered in this proceeding:

(1) The validity of these proposals purely from an engineering viewpoint.

(2) The effect of the adoption of the proposals, separately or in combination, on competitive relationships between television broadcast stations and on their relationship to other media (CATV) and other services (e.g., land mobile).

5. An additional consideration is the allegation that an undue burden, economic and otherwise, would be imposed on television stations required to comply with the new standards, regardless of other effects which may be involved.

6. Thus, largely in behalf of broadcast interests, it is argued that the revised F(50,50) field strength curves for VHF are no more accurate, and may be less accurate than the curves presently contained in the rules. A. Earl Cullum and AMST have provided detailed analyses of what they consider to be the faulty or incomplete use of available measurements in the preparation of the revised curves. Opposition to the adoption of the revised F(50,50) curves for UHF is less pronounced. That these curves will permit a better approximation of UHF field strengths than the low band VHF curves presently employed for this purpose is recognized, but it is strongly urged that if the UHF curves are adopted, they should be employed in individual cases with corrections for terrain roughness. However, the method for making these corrections which we had proposed to adopt in Docket 16004 (but later rejected in the Further Notice) is held to be defective in several respects. Cullum suggests that the extreme variability of the UHF signal defies any attempt to depict service provided with such signals by an area concept, and we should give consideration to devising some other means for predicting UHF service.

7. In the above connection, the Department of Commerce urges that, in lieu of revising its field strength curves or amending its rules regarding field strength measurements, the Commission give consideration to computer methods developed by the Department by which realistic estimates of the quality and extent of service provided by each station to various areas can be developed with suitable inputs to the computer of station frequency, effective radiated power, antenna height, and data on pertinent terrain irregularities and meteorological conditions. A technical report of ESSA, fully describing the method, is appended to the Department's comment.

8. As to the engineering merits of the proposed revision of Grade B values, it is held that the Commission has provided insufficient technical support to justify the modification of certain of the parameters used in the Grade B computations; that certain computations (i.e., the method of combining the effects of external and receiver noise) are faulty, and that such information as is available to the parties from other sources indicates the Commission has assumed unrealistically low receiver noise figures

and unrealistically high values of antenna gain. The inclusion of the effects of external noise in the computation of the Grade B contour value for low band VHF stations creates a situation where such stations produce Grade B signals at lesser distances than do high band VHF stations of comparable power and antenna height. It is contended that this result is contrary to the findings of TASO, and to common experience.

9. Out to distances which include the normal service range of television broadcast stations, the revised F(50,50) curves for VHF frequencies generally show higher fields from shorter antennas, and lower fields from higher antennas than do the present curves, the crossover point occurring at antenna heights between 500 and 1,000 feet. The differences are not major, however, except for extremely low or extremely high antennas. It is, of course, with the practical effect of adopting these curves on stations using taller than average antennas that most of the concern is expressed. However, it is not argued that the adoption of the VHF curves would seriously affect the viability of television stations operating in this band. Rather, it is offered that the differences between the present and the proposed VHF curves are not sufficiently great as to justify adoption of the new curves, absent convincing engineering evidence that the new curves represent a substantial improvement over the old, but the fact that differences do exist is sufficient to result in substantial expense and hardship to VHF station licensees should the new curves be adopted. Although the Commission has stated that if the proposed rules were adopted, it would require the filing of revised Grade A and B contours only in instances where individual stations are engaged in proceedings in which the location of these contours is a pertinent consideration, the many Commission procedures whose resolution requires such consideration (particularly in CATV matters) will, in a relatively brief period, involve many, if not all stations.

10. The situation with respect to UHF stations is considerably different. Grade A and B contours for these stations, as predicted with the proposed curves, in all cases will fall at distances from their transmitters which are very substantially less than those determined by the present curves. While most of the parties who have commented on this question recognize that the new curves produce a result which is closer to reality than do the present low band VHF curves (some UHF licensees do not concede this to be case), the adverse effects of employing these curves is held by UHF stations and their organizations to be little short of disastrous. The salability of UHF stations to advertisers will be hampered—it is claimed that advertisers look first at the size of the areas included within its Grade A and B contours of a station in assessing its suitability for reaching the audience desired by the advertiser. More importantly, the UHF station's position vis-a-vis CATV systems in its area with respect to carriage and non-duplication, which may have been established

only after prolonged and expensive litigation, will be disrupted seriously. These effects will ensue, regardless of whether or not revised Grade B values are adopted in connection with the revised curves, since the new Grade B contour for each station will still fall short of its old location. Moreover, the Commission has offered nothing which would compensate, even partially, for the foreshortening of the Grade A contour which would occur. It is urged that those UHF licensees who, heeding the prompting of the Commission, have invested large sums in the improvement of their transmitting plants, deserve something better than an untoward result dictated solely by a blind adherence to engineering considerations.² Several UHF licensees and ACTS suggest that if the adoption of the new curves is decided upon, we "grandfather" existing CATV carriage and non-duplication rights on the basis of the present predicted Grade A and B contours. While some licensees would be satisfied with such "grandfathering" with respect to existing CATV systems, others hold it is necessary to provide such protection also against systems established in the future.

11. In addition to the deficiencies which Cullum finds in the new curves, even when employed for average terrain and meteorological conditions, he maintains we are remiss in not making provision, at this time, for the special propagation conditions existing in southern California coastal areas and in Puerto Rico, which, he urges, are even more abnormal than those in the Gulf area, whose existence the Commission has recognized in its rules by the specification of larger co-channel station separations in this area than are required in other sections of the country.

12. In contrast to the rather general opposition to the adoption of the new curves expressed by broadcasting interests are the positions of Motorola, Inc., GE, and EIA, which parties, in the interest of "improved spectrum management," which in the context presented appears a euphemism for increased opportunities for land mobile sharing of TV channels, favor adoption of the curves. Motorola would employ these curves with roughness factor corrections when it will "improve spectrum usage." GE and EIA take exception to certain of the parameters which were utilized in the derivation of the new Grade B values. The figures for receiver noise, antenna

gain, and transmission line loss are claimed to be too optimistic and the external noise factor included in the low VHF band computation is subject to adverse criticism, EIA, in particular, suggesting it should be substantially increased. However, NCTA and Jerrold Corp., which adopts NCTA's comments, fully support all of the proposals made by the Commission in this proceeding.

13. A number of the comments suggest that we adopt the proposed measurement procedure, but defer adoption of the new curves for a period of a year or more with the thought that such action will result in the making of measurements whose results can be used to settle the controversy as to the accuracy of the new curves.³

14. In general, those comments which critically examine the measurement proposal recognize it as offering a marked improvement over the procedure specified in the rules, and would accept it as a substitute for that procedure for the purposes which the rules now permit measurements to be made. However, considerable opposition is offered to our proposal to permit determinations of the extent of service to be made by measurements, with the results of such measurements taking precedence over determinations based on the propagation curves. Several parties hold that, for this purpose, measurements will yield results no more accurate than predictions made with the use of the curves. Pertinent to the suggestion, previously mentioned, that the adoption of rules permitting the expanded use of measurements will result in the accumulation of data by which the accuracy of the new curves may be verified, or their accuracy improved, Cullum holds that any rule which permits, but does not require the use of measurements in lieu of curves will not result in the accumulation of reliable and unbiased data for this purpose, since any measurements made in individual cases will be submitted to the Commission only when the results support the position being advanced by the party undertaking the measurements.

15. While the proposal that we provide in our rules the tools for predicting the extent of interstation interference was originally advanced to the Commission in promotion of UHF television (apparently with the thought that VHF stations, in general, can be shown to be subject to more such interference than UHF stations, and, in consequence of this fact, on a basis of effective service, the disparity between UHF and VHF coverage would be less pronounced), no UHF station or organization supports the adoption of such rules in the instant proceeding. Rather, the only supporters of the proposal are Motorola and EIA, who view it as one more instrument which could be used to further the sharing of TV channels by the land mobile services, and NCTA, which, as previously noted,

³ These comments, in most instances, submitted in behalf of VHF stations operating in the high band, also urge that the revised Grade B contour values be adopted at this time.

espouses all of the proposals advanced in this proceeding.

16. Neil Smith, who, in behalf of Kear and Kennedy, participated in the FCC/industry committee whose efforts resulted in the production of the curves, urges their adoption, as well as the measurement proposal, which was originally instituted as a result of a petition filed by Kear and Kennedy. However, Mr. Smith submits a report of a test which he conducted in an attempt to correlate TV picture quality with the strength of received signals, which, he asserts, offers no support for a reduction in field strength values necessary for Grade B service. If, however, the Commission considers that the adoption of such lower values is a necessary part of a package which includes the revised curves and measurement rules, he believes that the virtues of these latter proposals far outweigh the deficiencies of the former.

DECISION

17. Despite the considerable controversy which has swept around the technical merits of the proposals put forward in this proceeding, the task of arriving at a decision in this matter would be immeasurably simplified if such a decision could be made to hinge entirely on an evaluation of the engineering virtues of these proposals. However, in a regulatory system engineering rules are administrative tools, and a decision, at any time, to substitute new tools for old, even though they may be demonstrated to be keener and more precise than the ones presently available, inevitably must take into consideration the practical consequences of such action, both with respect to the efficiency, expeditiousness and finality of regulatory processes, and the impact of the rule changes on those whose activities are under the jurisdiction of the regulatory body.

18. That this is true is recognized either explicitly or implicitly by most of the parties who have commented in this proceeding. Generally, those who favor adoption of the field strength curves and the Grade B contour proposals, separately or together, or the proposal to permit more extensive use of measurements, either ignore or minimize the engineering deficiencies which others profess to see in these proposals, and urge their adoption because such action would facilitate the achievement of ends which the individual parties consider desirable.

19. Parties who concern themselves primarily with the engineering aspects of these matters are not insensitive to the practical problems which might eventuate should the Commission adopt the particular "engineering" proposal which a party recommends, but urge that "non-engineering" solutions be found, as necessary, for such problems.

20. The "package" approach which we advanced in the consolidated docket has gained little support—the majority of the parties have reduced the proposal to its separate elements and picked and chosen among them. Consequently, we have abandoned this approach, and will consider each of the major proposals—propagation curves, Grade B redefini-

² Certain of the entities which, in general, favor adoption of the UHF curves believe they should be utilized only with appropriate corrections for terrain roughness. If such corrections were employed UHF stations located in rugged terrain (e.g., the Scranton/Wilkes Barre area or the Pacific Northwest) would sustain a shrinkage of their Grade A and B contours even more drastic than that resulting from the use of the new curves without such corrections. On the other hand, an engineering showing submitted in behalf of UHF station WTOE, Pensacola, Florida, demonstrates that, in smooth terrain, the application of these corrections will appreciably increase the radius of the Grade B contour.

tion, and measurements—on its individual merits.

21. We shall first discuss the technical virtues and deficiencies of our proposals in these dockets. If we decide that the engineering merits of these proposals have been sufficiently established to justify their adoption solely on this basis, we will then examine the effects of such action on the Commission's regulatory functions, and on the relationships among stations and between television and other services, to ascertain whether dislocations or disruptions of existing procedures and relationships will be of such magnitude that a more advanced engineering approach should be rejected in the name of administrative efficiency, or because the adverse effects on the regulated industry are determined to be unduly great.

THE PROPOSED PROPAGATION CURVES

22. The new propagation curves were developed by the Working Group appointed by an engineering conference called by the Commission. All the methods and procedures employed in the preparation of the curves were approved by the Working Group, which was comprised of engineering representatives from industry, other government agencies, and of Commission engineers.

23. As a data base, the Group had available the results of many recordings of the signals of FM and TV stations made at fixed sites, principally by the FCC, Central Radio Propagation Laboratories,⁴ and the National Bureau of Standards, gathered during a period between 1943 and 1954, and of mobile surveys made between 1955 and 1962, the great majority of which were conducted by A. D. Ring and Associates, A. Earl Cullum, Jr. and Associates, and by the FCC.

24. The two last mentioned firms, of course, are the parties who have mounted the principal attack on the adequacy of the proposed curves, with the claim that, insofar as the VHF curves are concerned, the measurement data is more accurately reflected in the curves now contained in our rules than in the proposed curves.⁵ Generally, others who oppose the adoption of the curves primarily because of the practical effects of their employment, rely on the showings of these two parties to support a claim that the curves are, in any case, technically deficient.

25. Much of the controversy, it appears, revolves around the weight to be given certain measurement data, and the nature and magnitude of corrections to be applied to this data. Ring believes that a major source of error lies in the application of a linear height-gain factor by the Commission in lieu of a spherical earth factor in the development of the new curves; Cullum agrees that this may be the case.

26. The Commission has thoroughly reviewed the procedures and data employed by the Committee in the preparation of the curves. It has also studied the extensive technical filings made by Cullum and Ring in the current and earlier phases of this proceeding, in an attempt to ascertain the reasons their conclusions in this matter are at variance with the Commission's.

27. Insofar as the Commission can determine, neither party in his analysis, made adequate use of long term measurement data at fixed locations. There are a number of such data points at pertinent distances, which the Commission feels must be considered in any critique of the proposed curves. Cullum apparently ignored this data; Ring used it, but failed to reduce the measured fields in accordance with the "preferred location bias" which the Ad Hoc Committee agreed was reasonably applicable.

28. Cullum places particular weight on mobile measurements on WFAA, which were made in June, at which time propagated fields may be expected to be considerably higher than average, while rejecting measurements made on Channels 2 and 7 in New York City in the FCC UHF experiment. We consider the New York City data as among the most reliable and accurate of the available mobile measurements.

29. Ring recognized that atypically high fields exist in mid-California at ultra high frequencies because of unusual terrain conditions, but apparently failed to take into account that the conditions responsible for the abnormal signal levels at UHF are operative in the high VHF band. Thus, measured unweighted data obtained in this area cannot be accepted for verification of propagation curves prepared for typical terrain.

30. In any derivation of propagation curves, it is necessary to provide smooth trends with distance, transmitting antenna height, time fading and frequency. If a technique is employed which fails to take into account all of these parameters there will be no satisfactory trends for the parameters not taken into consideration. For instance, 10 percent measurement data would have led to propagation curves with lower values of field strength than the 50 percent best fit curves of Cullum—a result which is manifestly insupportable.

31. In any undertaking such as this, which inevitably involves, in many areas, the exercise of a considerable degree of expert judgment, it is possible for experts to disagree with particular aspects of the procedure employed. It was to develop a consensus on the important points at issue that the Ad Hoc Committee was formed. It performed its task in a careful and competent manner. That the results, considered purely from a technical viewpoint, have not received universal acceptance, is unfortunate, but not fatal. As indicated above, we believe that the criticisms leveled at the curves are subject to logical rebuttal, and that the determinations of the Ad Hoc Committee must prevail over the opinions

of individual engineers, even highly competent engineers such as Ring and Cullum, to whom the Committee is greatly in debt for much of the raw mobile measurement data which were used in the preparation of the curves.

32. The Commission is firmly of the opinion that the proposed curves represent a substantial improvement in prediction accuracy, and their adoption, as an improved allocations tool, is fully justified.

33. We have given full attention to the comments of those parties who maintain that regardless of the technical merits or deficiencies of the proposed curves, they should not be adopted because their employment will result in a redetermination of the locations of principal city, Grade A and Grade B contours, and may lead to a review of determinations and decisions arrived at in reliance on previously established locations of these contours. We stated in the Further Notice, and we now reiterate that we have no intention of allowing this to happen, and such actions will be "grandfathered".

34. Contours of UHF stations, when predicted with the use of the new propagation curves of course will be reduced substantially in average radii. However, it appears that this circumstance would have an adverse impact on a UHF station's ability to operate viably only insofar as contour locations remain a major factor in determining its rights for carriage and network program non-duplication on CATV systems. The Commission is presently in the process of eliminating the use of contours for this purpose. Thus, in a "First Report and Order" in Docket 19995, adopted April 3, 1975 (FCC 75-413) the cable rules were amended to prescribe zones of fixed radii, in lieu of contours, for determining the areas over which television stations are entitled to protection from network program duplication. In a "Notice of Proposed rulemaking" in Docket 20496, adopted May 29, 1975 (FCC 75-635), we look toward the substitution of a zone of fixed radius for the Grade B contour in the cable rules governing signal carriage. Pending the conclusion of this proceeding, carriage requirements will continue to be determined by the procedures heretofore applying, including the determination of contours by use of the old curves. In the light of the above, we believe that the adverse effects on UHF stations in their cable relationships foreseen, should the new curves be adopted, would not occur.

35. In other situations where the locations of the service contours of TV stations are a pertinent consideration we do not believe that the setting of UHF stations' contours on a more realistic basis will result in substantially adverse effects on their economic health or general status. Time buyers of the present day possess sufficient sophistication that, in decisions regarding their television advertising efforts, only secondary importance is placed on data showing the extent of each station's contours; they

⁴Now the Institute for Telecommunications Sciences, Office of Telecommunications, U.S. Department of Commerce.

⁵The Ring engineering presentations were submitted in support of AMST pleadings.

rely primarily on audience survey data made available by ARB and other similar services. Determinations of contour locations by means of the new curves obviously, in many cases, will make easier the task of the station licensee in meeting the requirements of the rules in multiple ownership cases, whether TV/TV or TV/CATV cross ownership is contemplated. In summary, we are of the view that the adoption of the new curves will not result in significant economic harm to existing television broadcast stations. Accordingly, we will amend our rules to incorporate the new curves therein.

36. We have decided also to adopt the terrain roughness factor, originally proposed in Docket 16004 for use in the adjustment of results obtained by application of the propagation curves. While, as pointed out in the comments, the proposed factor does not take into account all terrain characteristics which may affect signal propagation over a particular path, such as terrain tilt or sequence, or the attenuation caused by foliage, it does offer a practical means for making, in particular cases, gross first order corrections of predictions based on the use of propagation curves which assume terrain of average roughness, thus improving the accuracy of predicted values—especially at the higher television frequencies. In the immediate absence of a more sophisticated, and not unduly burdensome method of assessing the effects of a variety of terrain anomalies, we believe that the procedure proposed is a worthwhile addition to our allocation tools.

37. Some parties appeared to believe that an undue burden and expense would be imposed on television station licensees by a requirement that they prepare revised contour maps based on the new curves. We fail to see why this should be the case. While the effort required is more than nominal, it is certainly not one of major proportions. Nevertheless, to mitigate the impact, such as it is, of this requirement, we had previously suggested that the submission of revised contour maps would be expected only of licensees involved in cases in which the location of their station's contours is a matter of probative importance. We have given further thought to this matter, however, and now are of the opinion that the indefinite existence of a situation where the contours of some stations are based on the old curves, and of others on the new, is undesirable. We believe that the present usefulness of contour information can best be preserved, and confusion minimized, only if all television broadcast stations are required to file updated contour maps with the Commission within a reasonable period of time. We have decided, therefore, to require each station to submit to the Commission revised maps at the time it applies for its first renewal of license subsequent to the effective date of these rule amendments.

38. We will not impose a similar requirement on the licensees of FM broadcast stations. There appears to be no pressing need that revised contours for

all of these stations be made available in the immediate future. However, in any Commission proceeding in which a pertinent consideration is the location of the contours of specific FM stations, the parties concerned are expected, of course, to submit showings involving the contours and coverage of these stations, as determined in accordance with the amended rules.

39. In his original comments in Docket 16004, and as reiterated in his filings in this consolidated proceeding Cullum maintains that the Commission should be faulted in not making some provision for the now demonstrated fact that meteorological conditions in Southern California and Puerto Rico favor long distance propagation of interfering signals to an extent even greater than has long been known to exist along the Gulf Coast. This condition in the latter area was recognized in the present television allocation by the specification of greater than standard co-channel separations between stations. He suggests that a similar procedure be adopted for Southern California and for Puerto Rico.

40. Had the abnormal propagation conditions existing in Puerto Rico and Southern California been evident prior to the promulgation of the Sixth Report and Order of April, 1952, which adopted the existing allocation rules, consideration might more feasibly have been given to the adoption of special separation standards for these areas. Now, however, except for stations in the UHF spectrum, the matter seems largely academic. VHF assignments are fully occupied, service areas in the face of the greater-than-normal interference have been established, and it cannot be considered within the realm of practicability that existing stations could be uprooted and moved to locations affording more favorable separations.

41. Moreover, even if this practical impediment to the implementation of greater separations did not exist, we are not at all sure that, taking all pertinent factors into account, we would opt for greater geographical separations in Southern California and Puerto Rico. We note that our present rules provide for two departures from the separation requirements applicable to the major portion of the country (Zone II); the greater separations prescribed for the Gulf Coast area (Zone III) for the reasons which have been discussed, and the lesser separations set for the northeastern portion of the United States (Zone I) to accommodate the greater number of stations deemed necessary to serve this populous area.

42. When the Commission last had occasion to determine the kind of co-channel separations which should obtain in various areas of the United States based on considerations of population distribution (the FM allocation of 1962) it decided to treat Southern California and Puerto Rico in the same manner as the northeastern states—it provided for lesser-separated Class B assignments in these areas while the remainder of the country enjoyed more widely separated Class C assignments.

43. Thus, in any new look at TV separations in Southern California and Puerto Rico, two conflicting influences would be at work—one looking toward greater separations because of abnormal propagation conditions, and another, toward lesser separations to accommodate the number of stations deemed necessary to serve these densely populated areas. In such a situation, a compromise solution might well have been arrived at—which could have produced a result not greatly different than the separation formula which now obtains.

44. Any method of service analysis which takes into detailed consideration as many as possible of the factors which affect signal propagation, and assigns to these factors values unique to the area or each segment of the area over which television or FM service is to be estimated has the potential for producing more accurate results in the individual case than can be achieved with the use of propagation curves based on average propagation conditions over long paths. Thus, the computer method proposed by the Department of Commerce may prove useful in any undertaking where the degree of precision which may be attainable justifies the inevitable complications of the method. However, for the day-to-day regulatory purposes in which propagation curves are presently employed, we believe that they yield results of an acceptable degree of accuracy, and that the adoption of Commerce's method for estimating coverage for such purposes would impose unnecessary burdens on both licensees and the Commission.⁹

REDEFINITION OF THE GRADE B CONTOURS

45. Our proposal to define Grade B contours at field strength values somewhat lower than are presently specified in our rules was made primarily in an attempt to mitigate such practical impact as might be experienced by television station licensees, who, in utilizing the new propagation curves for the prediction of station coverage, find that coverage within the Grade B contour had been reduced.

46. The lower field strength values proposed resulted largely from a revision in the magnitude of certain parameters included in the computation of Grade B signal strength, a reduction in estimated receiver noise figures, an upward revision in values for receiving antenna gain, and a reduction in the assessed effect of transmission line losses. The assignment of new values to these parameters was held to be justified as a result of equipment refinements occurring since the original Grade B determinations were made. The reduction in the proposed Grade B contour value for low band VHF was quite moderate, for,

⁹ While we are rejecting this proposal primarily for practical reasons, we have taken note of an engineering study submitted as an attachment to the reply comments of AMST. The results of this study suggest that the Commerce method in its present form, may be less than satisfactory in yielding realistic estimates of UHF fields occurring at distances of less than 50 to 60 miles from the transmitter.

in the computation of this value, we included, for the first time, a factor intended to account for the effects of external noise, which we found to be of significant strength only in this band of television frequencies.

47. Except in those cases where individual stations find that the employment of the new curves in combination with redefined Grade B contours confer practical benefits on them, either on an absolute or competitive basis, there is general unwillingness to accept the proposed Grade B values for coverage determinations. Rather, the technical soundness for Grade B contour redefinition is attacked, with the allegation there is insufficient evidence that the values which the Commission assigned to the receiver noise figure or to antenna gain are realized at present in any but exceptional cases, or are likely to be realized more generally in the foreseeable future. The external noise figure included in the low band VHF Grade B determination is held not to be justified by available data, and it is urged its inclusion produces a result contrary to common experience.

48. Admittedly, the receiver noise figures and antenna gain values utilized by the Commission are optimistic, representing the performance of a receiving installation much better than average. The best justification for employing these values is a comparative one—the corresponding parameters in the original Grade B determinations also were optimistic at the time they were adopted and there is no doubt that receivers and antennas have improved in these respects over the intervening years. On the other hand, it is argued that a similarly optimistic approach—assuming performance levels of receiving installations hoped to be reached generally in the future with improved equipment—is not justified at this time. For instance, current trends in receiver design, it is alleged, portend higher, rather than lower, receiver noise figures.

49. It would appear that the practical benefits accruing from a redefinition of the Grade B contours are deemed by many parties to be minimal. Since questions have been raised as to the reasonableness of certain of the assumptions made by the Commission in its computation of the proposed new Grade B values, we have decided not to press this proposal further. While we might attempt to support further the figures we have employed, we consider such an effort unnecessary. There is no urgent need, from an engineering standpoint, to redefine the Grade B contour, and since other considerations do not make such a course of action expedient, we will not pursue it. Accordingly, the rules will not be amended in this respect.

MEASUREMENTS

50. In its notice of proposed rulemaking in Docket 18052 it is stated "The Commission is seeking a method (of field strength measurement) that will yield substantially the same results when measurements are made under similar conditions, by independent observers

and at different times. Otherwise, measurements can have no probative value."

51. All parties agree that this ideal cannot be achieved fully as between two sets of measurements made at different times, since the time fading factor, predominantly seasonal in character, would forbid such a result.

52. There is an equal degree of agreement, however, that the measurement procedure set forth in § 73.686 is obsolete, and where television field strength measurements are now made for any purpose, is more honored in the breach than in its observance. Therefore, this section should be amended to specify a more acceptable procedure, which the majority of those commenting believe should be generally patterned on the technique developed and employed by the Television Allocations Study Organization (TASO). While this procedure does not meet the criteria which the Commission cited as desirable—it admittedly does not take into account temporal variations in field strength, and even carefully made measurements by different observers over the same path may yield results sufficiently different to be controversial—this procedure is now generally employed by engineers making television field strength measurements, and clearly represents an improvement of the one set forth in our rules. Accordingly, we are amending our rules to adopt this procedure with certain modifications proposed in this proceeding, and with other changes which we believe will serve to clarify its application. In taking this step, however, we are not abandoning our quest for a method of measurement which more fully meets the criteria we have established. The Commission intends to study this matter further, and would welcome assistance from the industry in pursuit of this end. At such time as developments warrant such a course of action, we will propose such further amendment of § 73.686 and the rule for FM measurements which we are adopting, as may be appropriate.

53. There are strong differences of opinion on the question of whether field intensity measurements should be accepted by the Commission only in "rule making proceedings to amend * * * technical standards" and when submitted in response to a request by the Commission (the present rule limitation), or whether individuals should be permitted also "to submit measurement data for the purpose of showing more precisely the propagation over a particular path, or the field intensity received at a particular location" (the petitioner's proposal).

54. The preponderance of engineering opinion submitted in this proceeding is to the effect that while field strength measurements, if properly executed, are a valid means for determining the general level of a VHF or UHF signal prevailing over a particular area, e.g., a city, they cannot or should not be employed in an attempt to establish the location of a particular contour, by a procedure wherein measurements are made along a particular radial, and a best fit curve is

drawn through the measured points. Thus, A. Earl Cullum states "The frequently used procedure of drawing connecting lines or curves between plotted measured clusters does not give a median value. No point may be at the median for the area or all may be. To say that a line drawn between measured points defines, by crossing a particular field intensity ordinate, the distance to a contour representing the median (with respect to locations) field intensity is to 'pin the tail on the donkey' while blindfolded."

55. Another objection raised to the procedure is that it fails to take into account that the strength of a VHF or UHF signal varies with time, and, even assuming that the location of a contour could be pinpointed by a particular measurement procedure, its location would be determined only for the time at which the measurements were made. It could well be somewhere else at some other time.

56. The contrary argument in Docket 18052 is that, in the standard broadcast service, contours determined by field strength measurements take precedence over predicted contours, even though such measured contours are subject to temporal variations and to limitations similar to those found at higher frequencies. Thus, the argument goes, there is no reason why the same approach should not be used at UHF and VHF frequencies.

57. However, groundwave fields at standard broadcast frequencies are not usually subject to as sharp and substantial variations in amplitude between closely adjacent locations as are typical of the effects found at higher frequencies. Consequently, measurements made at medium frequencies over the same path by different observers are likely to produce results which are in closer correspondence than similar measurements at VHF and UHF frequencies. There is, of course, a temporal variation in measured field strength, generally seasonal in nature, whose magnitude probably was not fully realized until after the custom of utilizing field strength measurements in individual cases had been firmly embedded in standard broadcast regulatory structure. It should be noted, furthermore, that for standard broadcast propagation conditions where the variation in signal strength with time is very great, i.e., skywave transmission, the rules permit only empirical curves to be used for determining service contours and the levels of undesired signals.⁷

58. We are not basing our decision on whether or not to permit the expanded

⁷It is fairly obvious that measurements, carefully made at some particular time over some particular area yield results, which for that time and over that area, can have a higher degree of accuracy than those obtained by the use of propagation curves based on average conditions. However, the great virtue of the curves, from a regulatory standpoint, is that they produce a unique result, reproducible at different times by different individuals, which is of sufficient accuracy, in the great majority of cases, to permit the attainment of basic regulatory objectives.

employment of field strength measurements of television signals primarily on technical considerations. It should be pointed out that permissive employment of measurements for groundwave service and interference showings in the standard broadcast service has greatly complicated and lengthened many Commission proceedings. It can plausibly be argued that had the performance of measurements in this service long ago been permitted only for certain specific purposes (e.g., to gain conductivity data in general allocations matters and in adjusting directional antenna radiation patterns), the extent and quality of standard broadcast service would not have suffered appreciably, but the causes of administrative speed, efficiency, simplicity, and finality would have been very substantially advanced.

59. The framers of the TV rules took due note of the tortuous standard broadcast experience, and designed an allocations structure and assignment procedure intended to be as free from tampering as possible. To this end, engineering tools which might be used for the individual tailoring of assignments were largely omitted from the rules. While Grade A and Grade B "service" contours were provided for, they were intended to have only nominal significance. However, the need for some convenient measure of TV station service for a variety of purposes appeared over the years, and, in the absence of any more realistic or usable standard, the Grade A and Grade B contours came generally into use. Inevitably, then, when a determination requiring the use of these contours produced a result adverse to the interests of a particular party, he sought ways acceptable to the Commission of changing this result, e.g., changing the position of a Grade B contour, predicted by use of the curves, with measurements. In a number of instances, the Commission has accorded probative value to such measurements. However, we do not believe the fact we have done so, on occasion, requires that we formalize this case-to-case approach by rule amendment.

60. Obviously, the right to utilize measurements in an attempt to alter an otherwise ordained result may offer a substantial advantage to one individual, but the result, as altered by measurements, may impose a substantial detriment on another. It seems clear that the decision as to whether to change the rules to permit the results of measurements to be accepted in a wider range of cases should not hinge on such considerations, but should be made on a basis which will best conduce to the furtherance of Commission objectives in the most equitable and efficient manner, and redound to the public interest.

61. If the Grade B contour were a wall within which all service provided by a television station were confined, the determination of its location by the most precise means available could well be worth whatever complication might be involved. However, since this and other contours are primarily administrative tools, it seems clear they should be lo-

cated by means which promote the most efficient administration—by a relatively simple procedure which produces a speedy and unequivocal result.

62. Whether a duopoly question involving the extent of Grade B service is presented, or a CATV problem of carriage or non-duplication, it seems evident that its resolution can be reached much more simply, expeditiously and finally if the pertinent contours are determined only by prediction. The nature of the determination involved does not, in the consistent and successful application of the pertinent rules, require such greater degree of exactitude which field strength measurements may provide.

63. Therefore, we are not amending § 73.686(a) in any way which would allow, as a matter of right, the determination of contour locations by means of field strength measurements. As we have discussed, the procedure, in the minds of many parties is of questionable validity, and, even if it were not, we do not believe that proceedings involving the television broadcasting service should be burdened with the mass of often conflicting showings which, in many cases, have so complicated standard broadcast proceedings. Occasionally, there may be instances when the location of TV contours, as determined by prediction, are obviously in gross error, and measurements will produce a result which, by any standard, is more realistic. We believe that when such cases are brought to our attention, measurements may be accepted when made on an individual basis "upon the request of the Commission" in accordance with the present wording of § 73.686(a).

64. Nearly all parties agree that the TASO measurement procedure can be applied to determine with an acceptable degree of accuracy the median level of a television signal prevailing over a particular area, such as that included within the boundaries of a community. Where the results of such measurements are properly made, and are pertinent to the resolution of the issues in a particular proceeding, they will be accepted and considered by the Commission. However, all contour determinations shall be made using the propagation curves included in the rules, as modified by application of corrections for terrain roughness. Section 73.686 is being amended in accordance with this determination. A new § 73.314 is being added to the FM broadcast rules, establishing similar policies and procedures for field strength measurements in this service.

65. With the adoption of § 73.314(c), a procedure is established for determining, by field strength measurements, the level of an FM broadcast signal prevailing over a particular community. In appropriate cases, we contemplate the acceptance of the results of measurements made for this purpose. In particular, an applicant for a standard broadcast station, desiring to show, pursuant to § 73.37(e) (1) (ii) or § 73.37(e) (2) (iii), that the community proposed to be served receives fewer than two aural services may seek to demonstrate that an existing FM broadcast station does not, in fact, pro-

vide a signal with 70 dbu (3.16 mV/m) or greater strength to as much as 80 percent of the population or area of the community. In such an instance, properly made measurements showing that at 20 percent or more of the measuring locations within the boundaries of the community, as established pursuant to § 73.314(c) (1), the measured field is of lower strength than 70 dbu (3.16 mV/m), will be accepted in support of a contention that less than 80 percent of the area of the community receives an aural service from the FM station.

66. The TASO procedures and methods are being adopted with the following modifications, in accordance with the suggestions made by the parties in an attempt to lend greater specificity to certain of these procedures and methods.

(a) The two mile measurement interval is being specified as a maximum, to permit measurements at shorter distances at high frequencies and in rough terrain. A cluster of five measurements is permitted in lieu of one hundred foot mobile run, and general limitations are placed on the areas including the clusters.

(b) Measurements are to be made only of the visual carrier.⁸

(c) In making measurements to determine the signal level in a community, the number of locations for such measurements is set as approximately 3 times the square root of the population in thousands (reduced, for convenience, in the rules, to the expression $0.1(P)^{1/2}$), with a minimum number of 15. All of these locations are required to be within the boundaries of the community.

67. We are adopting this measurement procedure, after fully considering Jansky & Bailey's proposal that our rules permit measurements with the receiving antenna at a 10 foot height, the 30/10 height/gain factor being determined for various parts of a radial at intervals which might be widely spaced in smooth terrain and at short intervals where the terrain is rough. If this procedure were followed, Jansky & Bailey state that information would become available for both 10 and 30 foot receiving antenna heights giving representative results for both rooftop and indoor antennas, and results which may be logically referenced to the many earlier measurements made with 8 and 10 foot antennas. While this procedure might have some virtues, we found no support for the proposal by others, and we think its adoption would needlessly complicate a methodology which appears to have general industry support.

DEPICTION OF INTERFERENCE AREAS WITHIN GRADE B CONTOURS

68. The Commission offered this proposal for comment without supporting it, stating that even if information as the effects of interstation interference were made available, it would not affect our

⁸ This restriction is contained only in § 73.686—the field strength measurement rules for television. It, of course, has no pertinence to measurements made of the signals of FM broadcast stations.

present regulatory procedures. We requested views on the desirability of requiring interference showings by individual stations for other useful purposes, and listed a number of technical problems which would require solution before a uniform procedure for making such showings could be adopted. As we have indicated hereinbefore, the broadcasting industry evidently wants no part of this proposal. Others who favor it see it as providing one more factor which could be considered in determining the basis for TV/land mobile and TV/CATV relationships—obviously an extension of the regulatory function which the Commission has disclaimed its intention of undertaking. In any event, as stated in paragraph 19 of the Further Notice in this proceeding, the technical criteria for TV/land mobile sharing were established pursuant to Docket 18261, and any amendment of these criteria is beyond the purview of the instant proceeding. Certain physical and technical factors involved in TV/CATV relationships are being reviewed in the current proceeding in Docket 19995 and will be further examined in Docket 20496, which is being initiated contemporaneously with the adoption of the instant Report and Order. There is little to be gained in pursuing this proposal further, and, accordingly, we will take no further steps toward the incorporation in our rules of a requirement for the submission by individual stations of showings of the effect of interstation interference on the extent of service rendered.

SUMMARY

69. As hereinbefore discussed, and for the reasons we have outlined, we are amending Part 73 of our rules in the following general respects:

(a) To adopt new F(50,50) and F(50,10) propagation curves for the prediction of field strengths in the television and FM broadcast services.

(b) To adopt a terrain roughness correction procedure to be applied, when appropriate, to determinations made with these curves.

(c) To amend the television broadcast rules to specify a modified procedure for making field strength measurements in the VHF and UHF bands, and to amend the FM broadcast rules to adopt such a measurement procedure.

(d) To relax the present restrictions in the television rules on the use and acceptance of measurements in individual cases, to the extent that so-called TASO grid measurements to determine the median level of a signal in a community will be accepted in appropriate cases.

The specific text of the amendments is set forth below.

70. Accordingly, it is ordered, effective August 1, 1975, that Part 73 of the rules and regulations is amended in accordance below.

71. Authority for adoption of these rule amendments is found in sections

4(i) and 303(r) of the Communications Act of 1934, as amended.

72. It is further ordered, That this proceeding is terminated.

Adopted: May 29, 1975.

Released: June 27, 1975.

FEDERAL COMMUNICATIONS COMMISSION,⁹

[SEAL] VINCENT J. MULLINS,
Secretary.

1. Section 73.313 is amended by the addition of paragraphs (f), (g), (h), (i), and (j) to read as follows:

§ 73.313 Prediction of coverage.

(f) The effect of terrain roughness on the predicted field strength of a signal at points distant from an FM broadcast station is assumed to depend on the magnitude of a terrain roughness factor (Δh) which, for a specific propagation path, is determined by the characteristics of a segment of the terrain profile for that path 25 miles in length, located between 6 and 31 miles from the transmitter. The terrain roughness factor has a value equal to the difference, in meters, between elevations exceeded by all points on the profile for 10 percent and 90 percent, respectively, of the length of the profile segment (see § 73.333, Fig. 4).

(g) If the lowest field strength value of interest is initially predicted to occur over a particular propagation path at a distance which is less than 31 miles from the transmitter, the terrain profile segment used in the determination of the terrain roughness factor over that path shall be that included between points 6 miles from the transmitter and such lesser distance. No terrain roughness correction need be applied when all field strength values of interest are predicted to occur 6 miles or less from the transmitter.

(h) Profile segments prepared for terrain roughness factor determinations should be plotted in rectangular coordinates, with no less than 50 points evenly spaced within the segment, using data obtained from topographic maps with contour intervals of 50 feet, or less, if available.

(i) The field strength charts (§ 73.333, Figs. 1-1a) were developed assuming a

terrain roughness factor of 50 meters, which is considered to be representative of average terrain in the United States. Where the roughness factor for a particular propagation path is found to depart appreciably from this value, a terrain roughness correction (ΔF) should be applied to field strength values along this path, as predicted with the use of these charts. The magnitude and sign of this correction, for any value of Δh , may be determined from a chart included in Section 73.333 as Figure 5.

(j) Alternatively, the terrain roughness correction may be computed using the following formula:

$$\Delta F = 1.9 - 0.03(\Delta h)(1 + f/300)$$

Where:

- ΔF = terrain roughness correction in dB
- Δh = terrain roughness factor in meters
- f = frequency of signal in megahertz (MHz)

2. Section 73.333 is amended by replacing existing Figure 1 with amended Figure 1 and the addition of new Figures 1a, 4 and 5. Section 73.333 reads as follows:

§ 73.333 Engineering charts.

This section consists of the following Figures 1, 1a, 2, 3, 4, and 5.

3. Part 73 is amended by the addition of new § 73.414, which reads as follows:

§ 73.414 Field strength measurements.

(a) Except as provided for in § 73.209, FM broadcast stations shall not be protected from any type of interference or propagation effect. Persons desiring to submit testimony, evidence or data to the Commission for the purpose of showing that the technical standards contained in this subpart do not properly reflect the levels of any given type of interference or propagation effect may do so only in appropriate rule making proceedings concerning the amendment of such technical standards. Persons making field strength measurements for formal submission to the Commission in rule making proceedings, or making such measurements upon the request of the Commission, shall follow the procedure for making and reporting such measurements outlined in paragraph (b) of this section. In instances where a showing of the measured level of a signal prevailing over a specific community is appropriate, the procedure for making and reporting field strength measurements for this purpose is set forth in paragraph (c) of this section.

(b) Collection of field strength data for propagation analysis.

(1) *Preparation for measurements.* (i) On large scale topographic maps, eight or more radials are drawn from the transmitter location to the maximum distance at which measurements are to be made, with the angles included between adjacent radials of approximately equal size. Radials should be oriented so as to traverse representative types of terrain. The specific number of radials and their orientation should be such as to accomplish this objective.

(ii) At a point exactly 10 miles from the transmitter, each radial is marked, and at greater distances at successive two mile intervals. Where measurements are to be conducted or over extremely rugged terrain, shorter intervals may be employed, but all such intervals shall be of equal length. Accessible roads intersecting each radial as nearly as possible at each two mile marker are selected. These intersections are the points on the radial at which measurements are to be made, and are referred to subsequently as measuring locations. The elevation of each measuring location should approach the elevation at the corresponding two mile marker as nearly as possible.

(2) *Measurement procedure.* All measurements shall be made utilizing a receiving antenna designed for reception of the horizontally polarized signal component, elevated 30 feet above the roadbed. At each measuring location, the following procedure shall be employed:

(i) The instrument calibration is checked.

(ii) The antenna is elevated to a height of 30 feet.

(iii) The receiving antenna is rotated to determine if the strongest signal is arriving from the direction of the transmitter.

(iv) The antenna is oriented so that the sector of its response pattern over

which maximum gain is realized is in the direction of the transmitter.

(v) A mobile run of at least 100 feet is made, which is centered on the intersection of the radial and the road, and the measured field strength is continuously recorded on a chart recorder over the length of the run.

(vi) The actual measuring location is marked exactly on the topographic map, and a written record, keyed to the specific location, is made of all factors which may affect the recorded field, such as topography, height and types of vegetation, buildings, obstacles, weather, and other local features.

(vii) If, during the test conducted as described in paragraph (b) (2) (iii) of this section, the strongest signal is found to come from a direction other than from the transmitter, after the mobile run prescribed in paragraph (b) (2) (v) of this section is concluded, additional measurements shall be made in a "cluster" of at least five fixed points. At each such point, the field strengths with the antenna oriented toward the transmitter, and with the antenna oriented so as to receive the strongest field, are measured and recorded. Generally, all points should be within 200 feet of the center point of the mobile run.

(viii) If overhead obstacles preclude a mobile run of at least 100 feet, a "cluster" of five spot measurements may be made in lieu of this run. The first measurement in the cluster is identified. Generally, the locations for other measurements shall be within 200 feet of the location of the first.

(3) *Method of reporting measurements.* A report of measurements to the Commission shall be submitted in affidavit form, in triplicate, and should contain the following information:

(i) Tables of field strength measurements, which, for each measuring location, set forth the following data:

(A) Distance from the transmitting antenna.

(B) Ground elevation at measuring location.

(C) Date, time of day, and weather.

(D) Median field in dBu for 0 dBk, for mobile run or for cluster, as well as maximum and minimum measured field strengths.

(E) Notes describing each measuring location.

(ii) U.S. Geological Survey topographic maps, on which is shown the exact location at which each measurement was made. The original plots shall be made on maps of the largest available scale. Copies may be reduced in size for convenient submission to the Commission, but not to the extent that important detail is lost. The original maps shall be made available, if requested. If a large number of maps is involved, an index map should be submitted.

(iii) All information necessary to determine the pertinent characteristics of the transmitting installation, including frequency, geographical coordinates of antenna site, rated and actual power output of transmitter, measured transmission line loss, antenna power gain, height of antenna above ground, above mean

sea level, and above average terrain. The effective radiated power should be computed, and horizontal and vertical plane patterns of the transmitting antenna should be submitted.

(iv) A list of calibrated equipment used in the field strength survey, which, for each instrument, specifies its manufacturer, type, serial number and rated accuracy, and the date of its most recent calibration by the manufacturer, or by a laboratory. Complete details of any instrument not of standard manufacture shall be submitted.

(v) A detailed description of the calibration of the measuring equipment, including field strength meters, measuring antenna, and connecting cable.

(vi) Terrain profiles in each direction in which measurements were made, drawn on curved earth paper for equivalent 4/3 earth radius, of the largest available scale.

(c) Collection of field strength data to determine FM broadcast service in specific communities.

(1) *Preparation for measurement.* (i) The population (P) of the community, and its suburbs, if any, is determined by reference to an appropriate source, e.g., the 1970 U.S. Census tables of population of cities and urbanized areas.

(ii) The number of locations at which measurements are to be made shall be at least 15, and shall be approximately equal to $0.1(P)^{1/2}$, if this product is a number greater than 15.

(iii) A rectangular grid, of such size and shape as to encompass the boundaries of the community is drawn on an accurate map of the community. The number of line intersections on the grid included within the boundaries of the community shall be at least equal to the required number of measuring locations. The position of each intersection on the community map determines the location at which a measurement shall be made.

(2) *Measurement procedure.* All measurements shall be made utilizing a receiving antenna designed for reception of the horizontally polarized signal component, elevated 30 feet above street level.

(i) Each measuring location shall be chosen as close as feasible to a point indicated on the map, as previously prepared, and at as nearly the same elevation as that point as possible.

(ii) At each measuring location, after equipment calibration and elevation of the antenna, a check is made to determine whether the strongest signal arrives from a direction other than from the transmitter.

(iii) At 20 percent or more of the measuring locations, mobile runs, as described in paragraph (b) (2) of this section shall be made, with no less than three such mobile runs in any case. The points at which mobile measurements are made shall be well separated. Spot measurements may be made at other measuring points.

(iv) Each actual measuring location is marked exactly on the map of the community, and suitably keyed. A written record shall be maintained, describing, for each location, factors which may

affect the recorded field, such as the approximate time of measurement, weather, topography, overhead wiring, heights and types of vegetation, buildings and other structures. The orientation, with respect to the measuring location shall be indicated of objects of such shape and size as to be capable of causing shadows or reflections. If the strongest signal received was found to arrive from a direction other than that of the transmitter, this fact shall be recorded.

(3) *Method of reporting measurements.* A report of measurements to the Commission shall be submitted in affidavit form, in triplicate, and should contain the following information:

(i) A map of the community showing each actual measuring location, specifically identifying the points at which mobile runs were made.

(ii) A table keyed to the above map, showing the field strength at each measuring point, reduced to dBu for the actual effective radiated power of the station. Weather, date, and time of each measurement shall be indicated.

(iii) Notes describing each measuring location.

(iv) A topographic map of the largest available scale on which are marked the community and the transmitter site of the station whose signals have been measured, which includes all areas on or near the direct path of signal propagation.

(v) Computations of the mean and standard deviation of all measured field strengths, or a graph on which the distribution of measured field strength values is plotted.

(vi) A list of calibrated equipment used for the measurements, which for each instrument, specifies its manufacturer, type, serial number and rated accuracy, and the date of its most recent calibration by the manufacturer, or by a laboratory. Complete details of any instrument not of standard manufacture shall be submitted.

(vii) A detailed description of the procedure employed in the calibration of the measuring equipment, including field strength meters, measuring antenna, and connecting cable.

4. Section 73.684 is amended by the addition of paragraphs (h), (i), (j), (k), and (l) which read as follows:

§ 73.684 Prediction of coverage.

* * * * *

(h) The effect of terrain roughness on the predicted field strength of a signal at points distant from a television broadcast station is assumed to depend on the magnitude of a terrain roughness factor (Δh) which, for a specific propagation path, is determined by the characteristics of a segment of the terrain profile for that path 25 miles in length, located between 6 and 31 miles from the transmitter. The terrain roughness factor has a value equal to the difference, in meters, between elevations exceeded by all points on the profile for 10 percent and 90 percent, respectively, of the length of the profile segment (see § 73.699, Fig. 10d).

(i) If the lowest field strength value of interest is initially predicted to occur over a particular propagation path at a distance which is less than 31 miles from the transmitter, the terrain profile segment used in the determination of the terrain roughness factor over that path shall be that included between points 6 miles from the transmitter and such lesser distance. No terrain roughness correction need be applied when all field strength values of interest are predicted to occur 6 miles or less from the transmitter.

(j) Profile segments prepared for terrain roughness factor determinations should be plotted in rectangular coordinates, with no less than 50 points evenly spaced within the segment, using data obtained from topographic maps, if available, with contour intervals of 50 feet, or less.

(k) The field strength charts (§ 73.699, Figs. 9-10c) were developed assuming a terrain roughness factor of 50 meters, which is considered to be representative of average terrain in the United States. Where the roughness factor for a particular propagation path is found to depart appreciably from this value, a terrain roughness correction (ΔF) should be applied to field strength values along this path as predicted with the use of these charts. The magnitude and sign of this correction, for any value of Δh , may be determined from a chart included in § 73.699 as Figure 10e, with linear interpolation as necessary, for the frequency of the UHF signal under consideration.

(l) Alternatively, the terrain roughness correction may be computed using the following formula:

$$\Delta F = C - 0.03(\Delta h)(1 + f/300)$$

Where:

ΔF = terrain roughness correction in dB
 C = a constant having a specific value for use with each set of field strength charts:

- 1.9 for TV Channels 2-6
- 2.5 for TV Channels 7-13
- 4.8 for TV Channels 14-69

Δh = terrain roughness factor in meters
 f = frequency of signal in megahertz (MHz)

5. In § 73.686 the headnote and text are amended to read as follows:

§ 73.686 Field strength measurements.

(a) Except as provided for in § 73.612, television broadcast stations shall not be protected from any type of interference or propagation effect. Persons desiring to submit testimony, evidence or data to the Commission for the purpose of showing that the technical standards contained in this subpart do not properly reflect the levels of any given type of interference or propagation effect may do so only in appropriate rulemaking proceedings concerning the amendment of such technical standards. Persons making field strength measurements for formal submission to the Commission in rulemaking proceedings, or making such measurements upon the request of the Commission, shall follow the procedure for making and reporting such measurements outlined in paragraph (b) of this section.

In instances where a showing of the measured level of a signal prevailing over a specific community is appropriate, the procedure for making and reporting field strength measurements for this purpose is set forth in paragraph (c) of this section.

(b) Collection of field strength data for propagation analysis.

(1) *Preparation for measurements.*

(i) On large scale topographic maps, eight or more radials are drawn from the transmitter location to the maximum distance at which measurements are to be made, with the angles included between adjacent radials of approximately equal size. Radials should be oriented so as to traverse representative types of terrain. The specific number of radials and their orientation should be such as to accomplish this objective.

(ii) At a point exactly 10 miles from the transmitter, each radial is marked, and at greater distances at successive two mile intervals. Where measurements are to be conducted at UHF, or over extremely rugged terrain, shorter intervals may be employed, but all such intervals shall be of equal length. Accessible roads intersecting each radial as nearly as possible at each two mile marker are selected. These intersections are the points on the radial at which measurements are to be made, and are referred to subsequently as measuring locations. The elevation of each measuring location should approach the elevation at the corresponding two mile marker as nearly as possible.

(2) *Measurement procedure.* The field strength of the visual carrier shall be measured with a voltmeter capable of indicating accurately the peak amplitude of the synchronizing signal. All measurements shall be made utilizing a receiving antenna designed for reception of the horizontally polarized signal component, elevated 30 feet above the roadbed. At each measuring location, the following procedure shall be employed.

(i) The instrument calibration is checked.

(ii) The antenna is elevated to a height of 30 feet.

(iii) The receiving antenna is rotated to determine if the strongest signal is arriving from the direction of the transmitter.

(iv) The antenna is oriented so that the section of its response pattern over which maximum gain is realized is in the direction of the transmitter.

(v) A mobile run of at least 100 feet is made, which is centered on the intersection of the radial and the road, and the measured field strength is continuously recorded on a chart recorder over the length of the run.

(vi) The actual measuring location is marked exactly on the topographic map, and a written record, keyed to the specific location, is made of all factors which may affect the recorded field, such as topography, height and types of vegetation, buildings, obstacles, weather, and other local features.

(vii) If, during the test conducted as described in paragraph (b) (2) (iii) of

this section, the strongest signal is found to come from a direction other than from the transmitter, after the mobile run prescribed in paragraph (b) (2) (v) of this section is concluded, additional measurements shall be made in a "cluster" of at least five fixed points. At each such point, the field strengths with the antenna oriented toward the transmitter, and with the antenna oriented so as to receive the strongest field, are measured and recorded. Generally, all points should be within 200 feet of the center point of the mobile run.

(viii) If overhead obstacles preclude a mobile run of at least 100 feet, a "cluster" of five spot measurements may be made in lieu of this run. The first measurement in the cluster is identified. Generally, the locations for other measurements shall be within 200 feet of the location of the first.

(3) *Method of reporting measurements.* A report of measurements to the Commission shall be submitted in affidavit form, in triplicate, and should contain the following information:

(i) Tables of field strength measurements, which, for each measuring location, set forth the following data:

(A) Distance from the transmitting antenna.

(B) Ground elevation at measuring location.

(C) Date, time of day, and weather.

(D) Median field in dBu for 0 dBk, for mobile run or for cluster, as well as maximum and minimum measured field strengths.

(E) Notes describing each measuring location.

(ii) U.S. Geological Survey topographic maps, on which is shown the exact location at which each measurement was made. The original plots shall be made on maps of the largest available scale. Copies may be reduced in size for convenient submission to the Commission, but not to the extent that important detail is lost. The original maps shall be made available, if requested. If a large number of maps is involved, an index map should be submitted.

(iii) All information necessary to determine the pertinent characteristics of the transmitting installation, including frequency, geographical coordinates of antenna site, rated and actual power output of transmitter, measured transmission line loss, antenna power gain, height of antenna above ground, above mean sea level, and above average terrain. The effective radiated power should be computed, and horizontal and vertical plane patterns of the transmitting antenna should be submitted.

(iv) A list of calibrated equipment used in the field strength survey, which, for each instrument, specifies its manufacturer, type, serial number and rated

accuracy, and the date of its most recent calibration by the manufacturer, or by a laboratory. Complete details of any instrument not of standard manufacture shall be submitted.

(v) A detailed description of the calibration of the measuring equipment, including field strength meters, measuring antenna, and connecting cable.

(vi) Terrain profiles in each direction in which measurements were made, drawn on curved earth paper for equivalent $4/3$ earth radius, of the largest available scale.

(c) Collection of field strength data to determine television service in specific communities.

(1) *Preparation for measurement.* (i) The population (P) of the community, and its suburbs, if any, is determined by reference to an appropriate source, e.g., the 1970 U.S. Census tables of population of cities and urbanized areas.

(ii) The number of locations at which measurements are to be made shall be at least 15, and shall be approximately equal to $0.1(P)^{1/2}$, if this product is a number greater than 15.

(iii) A rectangular grid, of such size and shape as to encompass the boundaries of the community is drawn on an accurate map of the community. The number of line intersections on the grid included within the boundaries of the community shall be at least equal to the required number of measuring locations. The position of each intersection on the community map determines the location at which a measurement shall be made.

(2) *Measurement procedure.* The field strength of the visual carrier shall be measured, with a voltmeter capable of indicating accurately the peak amplitude of the synchronizing signal. All measurements shall be made utilizing a receiving antenna designed for reception of the horizontally polarized signal component, elevated 30 feet above street level.

(i) Each measuring location shall be chosen as close as feasible to a point indicated on the map, as previously prepared, and at as nearly the same elevation as that point as possible.

(ii) At each measuring location, after equipment calibration and elevation of the antenna, a check is made to determine whether the strongest signal arrives from a direction other than from the transmitter.

(iii) At 20 percent or more of the measuring locations, mobile runs, as described in paragraph (b) (2) of this section shall be made, with no less than three such mobile runs in any case. The points at which mobile measurements are made shall be well separated. Spot measurements may be made at other measuring points.

(iv) Each actual measuring location is marked exactly on the map of the

community, and suitably keyed. A written record shall be maintained, describing, for each location, factors which may affect the recorded field, such as the approximate time of measurement, weather, topography, overhead wiring, heights and types of vegetation, buildings and other structures. The orientation, with respect to the measuring location shall be indicated of objects of such shape and size as to be capable of causing shadows or reflections. If the strongest signal received was found to arrive from a direction other than that of the transmitter, this fact shall be recorded.

(3) *Method of reporting measurements.* A report of measurements to the Commission shall be submitted in affidavit form, in triplicate, and should contain the following information:

(i) A map of the community showing each actual measuring location, specifically identifying the points at which mobile runs were made.

(ii) A table keyed to the above map, showing the field strength at each measuring point, reduced to dBu for the actual effective radiated power of the station. Weather, date, and time of each measurement shall be indicated.

(iii) Notes describing each measuring location.

(iv) A topographic map of the largest available scale on which are marked the community and the transmitter site of the station whose signals have been measured, which includes all areas on or near the direct path of signal propagation.

(v) Computations of the mean and standard deviation of all measured field strengths, or a graph on which the distribution of measured field strength values is plotted.

(vi) A list of calibrated equipment used for the measurements, which for each instrument, specifies its manufacturer, type, serial number and rated accuracy, and the date of its most recent calibration by the manufacturer, or by a laboratory. Complete details of any instrument not of standard manufacture shall be submitted.

(vii) A detailed description of the procedure employed in the calibration of the measuring equipment, including field strength meters measuring antenna, and connecting cable.

6. Section 73.699 is amended by the substitution of new Figure 9 for present Figure 9, the addition of new Figure 9a, the substitution of new Figure 10 for present Figure 10, and the addition of new Figures 10a, 10b, 10c, 10d and 10e. § 73.699, as amended, reads as follows:

§ 73.699 Engineering charts.

This section consists of the following Figures 1-5, 5a, 6-10, 10a-10e, 11-12, 13-15.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 989]

RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Proposed Change in List of Varietal Types to Include Dipped Seedless Raisins and Proposed Applicable Grade Standards

Notice is given of a proposal recommended by the Raisin Administrative Committee to: (1) Change the list of varietal types of raisins in § 989.110 of Subpart—Administrative Rules and Regulations (7 CFR Part 989.101-989.176) by adding "Dipped Seedless" raisins to that list and deleting "Soda Dipped" raisins from the list; and (2) amend Subpart—Supplementary Orders Regulating Handling (7 CFR 989.201-989.230; 40 FR 4417) by adding two new sections, §§ 989.211 and 989.212, containing minimum grade and condition standards for natural condition "Dipped Seedless" raisins and minimum grade standards for packed "Dipped Seedless" raisins, respectively.

This action would be taken under §§ 989.10, 989.58(b) and 989.59(b) of the marketing agreement, as amended, and Order No. 989, as amended (7 CFR Part 989), regulating the handling of raisins produced from grapes grown in California. The amended marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

The proposal would add a new varietal type of raisin, Dipped Seedless, to the list of varietal types of raisins contained in § 989.110. This new varietal type would include all raisins produced from grapes which are sprayed with, or dipped in, water, with or without a chemical additive, after such grapes have been removed from the vines and which are sun-dried or artificially dehydrated. This proposed varietal type would include those raisins currently identified as "Soda Dipped" raisins. The Committee concluded that raisins produced by the various dipping methods possess characteristics so similar to each other that it is desirable to have them all identified and classified as one varietal type of raisin.

The Committee also recommended that the minimum grade and condition standards and minimum grade standards which are currently applicable to Soda Dipped raisins would be appropriate for Dipped Seedless raisins.

In addition to the changes proposed by the Raisin Administrative Committee, the Department proposes to change the descriptive heading "Subpart—Sup-

plementary Orders Regulating Handling" to "Subpart—Supplementary Regulations". It can be inferred from the current heading that the sections contained in this Subpart are actually sections of the marketing order. The proposed change would more accurately identify the content of this Subpart.

Consideration will be given to any written data, views, or arguments pertaining to the proposal which are received by the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administrative Building, Washington, D.C. 20250, not later than July 18, 1975. All written submissions made regarding this notice should be in quadruplicate and will be made available for public inspection at the office of the Hearing Clerk during officials hours of business (7 CFR 1.27(b)).

The proposal is as follows:

1. Amend § 989.110 of Subpart—Administrative Rules and Regulations (7 CFR Part 989.101-989.176) to read as follows:

§ 989.110 Changed list of varietal types.

Pursuant to § 989.10, the list of varietal types of raisins contained in that section is changed to read: Natural (sun-dried) Thompson Seedless, natural (sun-dried) Muscat, natural (sun-dried) or artificially dehydrated Sultana, natural (sun-dried) or artificially dehydrated Zante Currant, Layer Muscat, Golden Seedless, Sulfur Bleached, Dipped Seedless, Valencia and Monukka.

2. Change the center heading reading "Subpart—Supplementary Orders Regulating Handling" to "Subpart—Supplementary Regulations", and add two new sections to this Subpart to read as follows:

§ 989.211 Minimum grade and condition standards for Dipped Seedless raisins.

Under § 989.58(b) the minimum grade and condition standards for Dipped Seedless raisins shall be those set forth for Soda Dipped raisins in § 989.97 Exhibit B of this part.

§ 989.212 Minimum grade standards for packed Dipped Seedless raisins.

Under § 989.59(b), the minimum grade standards for packed Dipped Seedless raisins shall be those set forth for Soda Dipped raisins in § 989.59(a)(2)(i) of this part.

CHARLES R. BRADER,
Deputy Director,
Fruit and Vegetable Division.

Dated: June 25, 1975.

Commodity Credit Corporation

[7 CFR Part 1464]

FLUE-CURED TOBACCO

Grade Loan Rates for Price Support on 1975-Crop Tobacco; Correction

In F.R. Docket 75-15442 appearing on pages 25217 and 25218, in the issue of June 13, 1975, the following corrections are made:

(1) On page 25218 in the first column of the first double column under the loan schedule, the next to the last grade B5R between B6KV and B4GL, should be B5RR.

(2) On page 25218 in the center column in the last column of the double column the eighth grade from the end N4L should be N1L.

(3) On the same page and directly below the above (2) N1L, grade N5XL should be N1XL.

Effective date: July 1, 1975.

Signed at Washington, D.C. on June 27, 1975.

[29 CFR Part 1907]

[Docket No. S-100]

ACCREDITATION OF TESTING LABORATORIES

Proposed Revocation; Extension of Post-Hearing Comment Period

On November 13, 1974, pursuant to authority in section 8(g) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1600; 29 U.S.C. 657), section 107 of the Contract Work Hours and Safety Standards Act (83 Stat. 96; 40 U.S.C. 333), 5 U.S.C. 553, Secretary of Labor's Order No. 12-71 (36 FR 8754) and notice of hearing published in the FEDERAL REGISTER on October 1, 1974 (39 FR 35381), an informal public hearing concerning the proposed revocation of Part 1907. Accreditation of Testing Laboratories, of Title 29 of the Code of Federal Regulations was held in the Departmental Auditorium, Constitution Avenue, NW., between 12th and 14th Streets, Washington, D.C.

The Administrative Law Judge kept the record of the hearing open until December 13, 1974, to receive written in-

PROPOSED RULES

formation from any person who had participated in the oral proceeding. On the basis of a request for additional time to submit written comments and to allow a period of time for public comments on certain documents which were not previously available, a notice was published in the FEDERAL REGISTER on January 30, 1975 (40 FR 4439), extending the post-hearing comment period until March 31, 1975.

The documents were not made available in the record prior to the extended closing date of March 31, 1975, but are currently being placed in the public record. Therefore, in order to allow an appropriate amount of time for all inter-

ested persons to review the documents and if desired submit written comments, I am hereby providing an additional period of time, until July 31, 1975, for public comments from any interested persons. The documents will be available for inspection and copying at the following address:

Technical Data Center
Docket Office
Room N-3620
New Department of Labor Bldg.
200 Constitution Avenue, NW.
Washington, D.C. 20210

Accordingly, any interested person may submit comments concerning the proposed revocation of 29 CFR Part 1907,

postmarked no later than July 31, 1975. Written comments may be submitted to the Docket Officer, OSHA Technical Data Center, Docket No. S-100, Room N-3620, 200 Constitution Avenue, NW., U.S. Department of Labor, Washington, D.C. 20210.

(Sec. 8, P.L. 91-596, 84 Stat. 1600 (29 U.S.C. 657); Sec. 107, Pub. L. 91-54, 83 Stat. 96 (40 U.S.C. 333); 5 U.S.C. 553; Secretary of Labor's Order No. 12-71, 36 FR 8754.

Signed at Washington, D.C. this 24th day of June, 1975.

JOHN STENDER,
Assistant Secretary of Labor.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF STATE

[Public Notices CM-5/64]

OCEAN AFFAIRS ADVISORY COMMITTEE Meeting

Notice is hereby given pursuant to the provisions of Pub. L. 92-463 that a meeting of the Ocean Affairs Advisory Committee will be convened on July 23 and 24, 1975, at the Fort Brown Motor Hotel, 1900 E. Elizabeth Street, Brownsville, Texas, at 9:30 a.m.

The Committee meeting on July 23 and the morning session of the meeting on July 24 will not be open to the public since the discussions will be devoted to matters exempt from public disclosure under 5 USC 522(b)(1) and the public interest requires that such discussions be withheld from disclosure. These discussions will be confined to classified briefings on the recent Law of the Sea Conference in Geneva and fisheries negotiations, and will include examination and discussion of classified documents.

The afternoon session of the meeting on July 24 will be open to the public and will commence at 2:30 p.m. This discussion will be a public briefing on the Law of the Sea Conference in Geneva, the U.S. single negotiating text, and status of fisheries discussions held over the last year. There will be a general question and answer period at the end of the meeting.

Dated: June 24, 1975.

Office of the Secretary

DEFENSE SCIENCE BOARD TASK FORCE ON SPECIFICATIONS AND STANDARDS IMPROVEMENT

Meeting

Pursuant to the provisions of Pub. L. 92-463, effective January 5, 1973, notice is hereby given that the Defense Science Board Task Force on Specifications and Standards Improvement will meet in open session at 0900 hours on Tuesday, July 29, 1975, in Room 1E801 #2, the Pentagon, Washington, D.C.

The mission of the Defense Science Board is to advise the Secretary of Defense and Director of Defense Research and Engineering on overall research and engineering and to provide long range guidance in these areas to the Department of Defense.

The primary responsibility of the Task Force is to provide an evaluation of current DoD Specifications and Standards and the related DoD organization, system and procedures to serve as a basis for DoD policy decisions to reduce costs in systems/equipment design and application.

At this meeting, the Task Force will discuss its findings to date, summarize

actions taken and projected, relate specifications and standards impact on F-16 design and production, consider cost impact on weapon systems and equipment of specifications and standards governing reliability, maintainability, quality, configuration control and the like, and consider related subjects that may come before the group.

Attendees outside of Task Force membership will be admitted as observers to the proceedings. With time permitting and at the discretion of the Chairman, a specified but limited time will be allotted so as to permit observers to comment, make recommendations, take issue, or otherwise speak with respect to the subjects.

Due to the limited time and space availability, it is requested that persons interested in attending the DSB Task Force meeting provide written notice to the address listed below by July 23, 1975. Notice should include information with respect to interest and degree of participation.

Mr. Lester Fox, Director, Defense Materiel Specifications and Standards Office, Cameron Station, Alexandria, Virginia 22314.

Telephone inquiries may also be made to Mr. Fox at (202) 274-7061.

Dated: June 26, 1975.

DEFENSE SCIENCE BOARD TASK FORCE ON "SURFACE NAVAL WARFARE"

Meeting

The Defense Science Board Task Force on Surface Naval Warfare will meet in closed session on 7-8 August 1975 at the Naval War College, Newport, Rhode Island. The mission of the Defense Science Board is to advise the Secretary of Defense and the Director of Defense Research and Engineering on overall research and engineering and to provide long range guidance in these areas to the Department of Defense.

The Task Force will undertake a review of the adequacy and directions of U.S. Navy programs in surface offensive operations in the face of continuing increases in Soviet capabilities in naval weapons, command and control, and out-of-area operations. The Task Force will concentrate first on U.S. programs in tactical surface surveillance, targeting, command and control, and weaponry for

surface engagement to help assure that our R&D investments yield the greatest improvement in our total force capabilities, when deployed in quantities we can afford. Classified details of U.S. and Soviet systems will be reviewed.

In accordance with section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Task Force meeting concerns matters listed in section 552(b) of Title 5 of the United States Code, specifically subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

Dated: June 26, 1975.

MAURICE W. ROCHE,
*Director Correspondence and
Directives OASD (Comptroller).*

DEPARTMENT OF JUSTICE

Drug Enforcement Administration IMPORTATION OF CONTROLLED SUBSTANCES

Application

JUNE 23, 1975.

Pursuant to section 1008 of the Controlled Substance Import and Export Act (21 U.S.C. 958(h)), the Attorney General shall, prior to issuing a registration under this section to a bulk manufacturer of a controlled substance in schedule I or II, and prior to issuing a regulation under section 1002(a) authorizing the importation of such a substance, provide manufacturers holding registrations for the bulk manufacture of the substance an opportunity for a hearing.

Therefore in accordance with 1311.42 of Title 21, Code of Federal Regulations, notice is hereby given that on May 23, 1975, THE VITARINE CO., INC., 227-15 N. Conduit Avenue, Springfield Gardens, N.Y. 11413, made application to the Drug Enforcement Administration to be registered as an importer of codeine, a basic class controlled substance listed in schedule II.

Any person registered to manufacture codeine in bulk may, on or before August 5, 1975 file written comments on or objections to the issuance of the proposed registration and may, at the same time, file written request for a hearing on the application (stating with particularity the objections or issues, if any, concerning which the person desires to be heard and a brief summary of his position on those objections or issues).

Comments and objections may be addressed to the Hearing Clerk, Office of Administrative Law Judge, Drug Enforcement Administration, Room 1130, 1405 Eye Street, NW., Washington, D.C. 20537.

Dated: June 23, 1975.

HENRY S. DOGIN,
*Acting Administrator,
Drug Enforcement Administration.*

NEW MEXICO

Proposed Withdrawal and Reservation of Lands

JUNE 13, 1975.

The Corps of Engineers, U.S. Department of the Army, has filed application

NM 25765, for the withdrawal of the lands described below from all forms of appropriation, including the general mining and the mineral leasing laws, except that grazing leases or permits may be issued for lands in the safety area. The land will be operated as a bombing range for the purpose of training Air Force personnel of the Tactical Air Command stationed at Cannon Air Force Base, New Mexico.

On or before July 31, 1975, all persons who wish to submit comments, suggestions or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Chief, Division of Technical Services, P.O. Box 1449, Santa Fe, New Mexico 87501.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the land and its resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the land for purposes other than the applicant's, to eliminate land needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the land and its resources.

He will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the land will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

NEW MEXICO PRINCIPAL MERIDIAN

- T. 1 N., R. 30 E.,
 Sec. 2, S $\frac{1}{2}$;
 Sec. 11;
 Sec. 20, S $\frac{1}{2}$ SE $\frac{1}{4}$;
 Sec. 28.
 T. 2 N., R. 30 E.,
 Sec. 20, E $\frac{1}{2}$ SE $\frac{1}{4}$;
 Sec. 21, SW $\frac{1}{4}$ and W $\frac{1}{2}$ SE $\frac{1}{4}$;
 Sec. 28, W $\frac{1}{2}$ E $\frac{1}{2}$ and W $\frac{1}{2}$;
 Sec. 29, E $\frac{1}{2}$ E $\frac{1}{2}$;
 Sec. 32, E $\frac{1}{2}$ E $\frac{1}{2}$;
 Sec. 33, W $\frac{1}{2}$ E $\frac{1}{2}$, NW $\frac{1}{4}$ and S $\frac{1}{2}$ SW $\frac{1}{4}$.
 T. 1 S., R. 30 E.,
 Secs. 2, 3 and 4;
 Sec. 6, lots 1 and 2;
 Sec. 9, N $\frac{1}{2}$ and N $\frac{1}{2}$ S $\frac{1}{2}$;
 Sec. 10, N $\frac{1}{2}$ and N $\frac{1}{2}$ S $\frac{1}{2}$;
 Sec. 11, N $\frac{1}{2}$ and N $\frac{1}{2}$ S $\frac{1}{2}$.

The areas described aggregate 6713.90 acres in Roosevelt County.

MICHAEL T. SOLAN,
 Chief,
 Division of Technical Services.

REDELEGATION OF AUTHORITY TO
 AREA MANAGERS

Pursuant to the authority contained in Bureau Order No. 701 dated July 23, 1964, as amended, the Area Managers of the Garnet and Helena Resource Areas of the Missoula District, Montana, are authorized to perform in their respective areas of responsibility, in accordance with existing policies and regulations of this Department and under the direct supervision of the District Manager, the functions listed below, subject to the limitation set forth in Bureau Order No. 701, as amended, together with any limitations specified below:

AUTHORITY IN SPECIFIED MATTERS

SEC. 3.3 Fiscal Affairs. The Area Manager may take all action on:

(d) Trespass. Determine liability for trespass on the public lands and dispose of resources recovered in trespass cases for not less than the appraised value thereof, when actual damages do not exceed \$1,000.00. Accept payment in full where actual damages do not exceed \$1,000.00.

SEC. 3.7 Range Management. The Area Manager may take all the listed actions on:

(a) Licenses and permits to graze or trail livestock.

(3) Permits or cooperative agreements to construct and/or maintain range improvements and determine the value of such improvements.

(b) Grazing leases.

(d) Soil and moisture conservation.

(e) Controlled brush burning. In accordance with plans and specifications approved by the State Director.

SEC. 3.8. Forest Management. The Area Manager may take all actions on:

(a) Dispose of or permit the use of forest products when authorized by law on lands under the jurisdiction of the Bureau of Land Management under applicable portions of 43 CFR. This authority does not include sales of forest products exceeding 250,000 board feet in volume.

SEC. 3.9 Land Use. The Area Manager may take all actions:

(g) Material other than forest products not exceeding \$1,000.00 in value.

(m) Grant rights-of-way (Tram Road Permits) over public and acquired land pursuant to 43 CFR 2811.

The District Manager may at any time temporarily reserve, restrict, or withhold any portion of the above delegated authority through use of Form 1213-1 District Office Authority and Responsibility Guide.

This order will become effective on July 11, 1975.

The previous redelegation dated May 15, 1975, (40 FR 21055) is hereby revoked.

JOHN F. FIELDS,
 District Manager.

Approved:

HAROLD C. LYND,
 Acting State Director

[FR Doc.75-17123 Filed 6-30-75; 8:45 am]

Office of Hearings and Appeals

[Docket No. M75-118]

ALABAMA BY-PRODUCTS CORP.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), Alabama By-Products Corporation has filed a petition to modify the application of 30 CFR 75.1405 to its Gorgas America No. 7 Mine, Walker County, Alabama.

30 CFR 75.1405 provides:

All haulage equipment acquired by an operator of a coal mine on or after March 30, 1971, shall be equipped with automatic couplers which couple by impact and uncouple without the necessity of persons going between the ends of such equipment. All haulage equipment without automatic couplers in use in a mine on March 30, 1970, shall also be so equipped within 4 years after March 30, 1970.

In support of its petition, Petitioner states:

1. Mining is accomplished by conventional equipment, that is, cutting machines, drills, loaders, shuttle cars, etc., and by continuous mining machines. The mined coal is transported from each section by belt conveyor to a raw coal storage pile on the surface adjacent to the preparation plant.

2. At the subject mine there are approximately ten rail cars of various types used to transport supplies. Normal procedure calls for empty cars to be hoisted up the slope, loaded with required material, and then lowered back down into the mine. From the slope bottom the cars are pulled by trolley locomotive to various operating areas.

3. Practice at this mine dictates that only one supply car, loaded or empty, is hoisted or lowered at a time. On those occasions when a heavier than normal load is to be handled, the dummy or chain car is set aside and the load connected directly to the hoist rope.

4. The need for an alternate coupling arrangement is necessitated by the slope which was designed to accommodate supply cars fitted with link and pin type couplings. The vertical curves at the slope top and bottom have short radii. The use of automatic couplings over these curves would result in added stress to the coupling and possible derailment of cars due to the vertical inflexibility of the coupling relative to the car.

5. *Alternate Method.* Approval of this alternate system as a satisfactory replacement of the standard mandating automatic coupling of mine cars after March 30, 1974, is subject to the following understanding and conditions which are incorporated as parts of the alternate system.

A. All supply cars and the slope dummy car will be fitted with modification shown on drawings G 12-1-002.¹

¹ Drawings G 12-1-002 are available for inspection at the address contained in the last paragraph of the notice.

B. All slope haulage employees at the mine will be trained and instructed in the proper use of the "Chain Setter Rod" and its use will be mandatory. More specifically in this regard:

1. All employees who connect or disconnect supply cars at the slope will be instructed in the use of the chain setter rod.

2. Thereafter, any new employees hired as a haulage or slope man or transferred to such a position shall be instructed in the use of the chain setter.

3. This instruction shall be repeated at six month intervals.

4. The company shall maintain a record of names and dates that each employee receives this instruction and re-instruction.

5. The requirement that the use of the chain setter shall be a mandatory safety rule at this mine shall be posted on the regular company and union bulletin boards at the mine.

6. *Safety Consideration.* The alternate method set forth above will provide no less than the same measure of protection to miners at the Gorgas No. 7 Mine that to be afforded by 30 CFR 75.1405 and 75.1405-1 of the Departmental regulations. The alternate method will actually provide greater protection and thus avoid diminution of safety that has resulted by conversion to automatic couplings. This is because:

1. Automatic couplings inherently lack the flexibility required to permit mine cars to freely negotiate the vertical curves of the slope at this mine.

2. The proposed system meets the primary desired effect of automatic couplings in that employees will not be required to place themselves or any part of their body between cars at any potential pinch point.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before July 31, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: June 24, 1975.

JAMES R. RICHARDS,
Director,
Office of Hearings and Appeals.

[FR Doc.75-17124 Filed 6-30-75;8:45 am]

[Docket No. M75-119]

CF&I STEEL CORP.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), CF&I Steel Corporation has filed a petition to modify the application of 30 CFR 75.1403-10(b) to its Allen Mine, Weston, Colorado.

30 CFR 75.1403-10(b) provides:

Cars on main haulage roads should not be pushed, except where necessary to push cars from side tracks located near the working section to the producing entries and rooms, where necessary to clear switches and side-tracks, and on the approach to cages, slopes, and surface inclines.

In support of its petition, Petitioner states:

1. MESA's interpretation of § 75.1403-10(b) of the Regulations precludes CF&I from pushing mine cars from the last switch or parting in by the loader head at the Allen Mine.

2. The only way to move mine cars from the last switch or parting in by the loader head and back out again, without pushing them, in compliance with MESA's Notice to Provide Safeguards, issued on October 24, 1973, is to place a locomotive at each end of the line of cars and to require the locomotive operator to walk from one locomotive to the other while cars are being loaded.

3. The procedure described in the preceding paragraph is a safety hazard to the locomotive operator who must change cars, is unnecessary because it is not required by the Act or the Departmental regulations. It would be no less safe to allow CF&I to push cars the short distance from the last parting in by the loader head.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before July 31, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Departmental Hearings Branch, U.S. Department of the Interior, 6432 Federal Building, Salt Lake City, Utah 84138. Copies of the petition are available for inspection at that address.

Dated: June 24, 1975.

JAMES R. RICHARDS,
Director,
Office of Hearings and Appeals.

[FR Doc.75-17125 Filed 6-30-75;8:45 am]

[Docket No. M 75-106]

C F & I STEEL CORP.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), C F & I Steel Corporation has filed a petition to modify the application of 30 CFR 75.1710 to its Allen Mine, Weston, Colorado.

30. CFR 75.1710 provides:

An authorized representative of the Secretary may require in any coal mine where the height of the coalbed permits that electric face equipment, including shuttle cars, be provided with substantially constructed canopies, or cabs, to protect the miners operating such equipment from roof falls and from rib and face rolls.

In support of its petition, Petitioner states:

1. Petitioner provides substantially constructed canopies for all operators of all electric face equipment including

roof bolting machines as required by § 75.1710. Petitioner does not provide canopies for miners who are installing roof bolts. Such canopies are unnecessary. These miners are protected by permanent supports consisting of steel beams with wooden legs at each end installed in accordance with the roof control plan. Where steel beams are not required, these miners are protected by steel straps supported by timber jacks. A cab or canopy would afford these miners no greater protection than they now have.

2. MESA has interpreted § 75.1710 through the use of the procedure of § 75.1403, to require Petitioner to provide canopies or cabs for miners installing roof bolts at the subject mine.

3. The use of a canopy as required by MESA would interfere with the installation of roof supports in that these supports could not be installed against the roof with the canopy in place. Once these supports are in place the canopy is redundant, and, there is no period of time when the miners installing supports in accordance with the procedures of C F & I's roof control plan are not protected by supports already installed.

4. The use of the canopy, as required by MESA, during the installation of supports would create a safety hazard by disturbing and impairing the effectiveness of the existing support with which the canopy must come in contact.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before July 31, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Departmental Hearings Branch, U.S. Department of the Interior, 6432 Federal Building, Salt Lake City, Utah 84138. Copies of the petition are available for inspection at that address.

Dated: June 24, 1975.

JAMES R. RICHARDS,
Director,
Office of Hearings and Appeals.

[FR Doc.75-17126 Filed 6-30-75;8:45 am]

[Docket No. M 75-107]

D & R COAL CO., INC.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), D & R Coal Company, Inc., has filed a petition to modify the application of 30 CFR 77.1605(k) to its No. 1 Mine, St. Charles, Virginia.

30 CFR 77.1605(k) provides:

Berms or guards shall be provided on the outer bank of elevated roadways.

In support of its petition, Petitioner states:

1. Petitioner's alternate method will at all times guarantee the miners no less than the same measure of protection as that provided by the mandatory standard.

2. At the switch backs where trucks cannot make a turn without backing up, berms or guard rails will be provided on the outer bank.

3. At all other locations where berms or guard rails are not provided:

(a) A daily inspection of all coal hauling vehicles shall be made and any defects detected shall be corrected before the defective vehicle is put into service. A record of inspection will be kept.

(b) As far as practicable, roadways shall be kept free of debris, excessive water, snow or ice and maintained as practicable.

(c) A traffic system shall be put into use for these roadways requiring that loaded vehicles have the right-of-way on the high wall side of road regardless of their direction of travel.

(d) Warning signs shall be posted designating steep grades where trucks should shift to lower gear. Signs shall be posted designating one lane traffic and passing points.

(e) All operators shall be trained in the use of haulage equipment and safety on the haulage road.

(f) Haulage vehicles shall have:

(1) Original manufactures brakes. (2) Engine or Jacob brakes. (3) Emergency parking brakes.

(g) One lane roads will be posted and a minimum width of 16 ft. shall be maintained with passing points at 500 feet to 1000 feet intervals.

(h) All haulage vehicles are equipped with two-way radios so all operators have radio contact with each other as to their location at all times.

(i) All rules of the road shall be posted on all bulletin boards throughout each mine area, and the rules shall be made part of the training program.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before July 31, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: June 24, 1975.

P. & H. Coal Co.	White Ash Slope..	Locustdale.
Silverbrook Anthracite, Inc.	Twin Slope.....	Dupont.

30 CFR 75.301 provides:

All active workings shall be ventilated by a current of air containing not less than 19.5 volume per centum of oxygen, not more than 0.5 volume per centum of carbon dioxide, and no harmful quantities of other noxious or poisonous gases; and the volume and velocity of the current of air shall be sufficient to dilute, render harmless, and to carry away, flammable, explosive, noxious, and harmful gases, and dust, and smoke and explosive fumes. The minimum quantity of air reaching the last open crosscut in any pair or set of developing entries and the last open crosscut in any pair or set of rooms shall be 9,000 cubic feet a minute, and the minimum quantity of air reaching the intake end of a pillar line shall be 9,000 cubic feet a minute. The minimum quantity of air in any coal mine reaching each working face shall be 3,000 cubic feet a minute. The authorized representative of the Secretary may require in any coal mine a greater quantity and velocity of air when he finds it necessary to protect the health or safety of miners. In robbing areas of anthracite mines, where the air currents cannot be controlled and measurements of the air cannot be obtained, the air shall have perceptible movement.

Petitioners request that § 75.301 be modified for anthracite mines to require that: the minimum quantity of air reaching each working face shall be 1,500 cubic feet a minute, the minimum quantity of air reaching the last open crosscut in any pair or set of developing entries shall be 5,000 cubic feet a minute, and the minimum quantity of air reaching the intake end of a pillar line shall be 5,000 cubic feet a minute, and/or whatever additional quantity of air may be required in any of these areas to maintain a safe and healthful mine atmosphere.

In support of their petition, Petitioners state:

1. Air sample analysis history reveals no harmful quantities of methane in the mines.

2. There have been no ignitions, explosions, or mine fires in the subject mines.

3. There is no history of harmful quantities of carbon dioxide and other noxious or poisonous gases in the mines.

4. Mine dust sampling programs have revealed extremely low concentrations of respirable dust.

5. Extremely high velocities required in friable anthracite veins for control purposes, in small cross sectional areas of airways and manways, particularly in steeply pitching mines, present a very dangerous flying object hazard to the miners.

6. High velocities and large air quantities cause extremely uncomfortable damp and cold conditions in the already uncomfortable, wet mines.

7. Difficulty in keeping miners on the job and securing additional mine help is due primarily to the conditions cited.

Petitioners aver that the proposed alternate method will in no way provide less than the same measure of protection afforded the miners by the mandatory standard.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before July 31, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: June 24, 1975.

JAMES R. RICHARDS,
Director,

Office of Hearings and Appeals.

[Docket No. M75-120]

POCAHONTAS FUEL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of Section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), Pocahontas Fuel Company has filed a petition to modify the application of 30 CFR 75.305 to its Buckeye Mine, Stephenson, West Virginia.

30 CFR 75.305, in pertinent part, provides:

* * * examinations for hazardous conditions * * * shall be made at least once each week by a certified person * * * [in] at least one entry of each * * * return aircourse in its entirety, * * *

In support of its petition, Petitioner states:

(1) The subject mine is ventilated by three fans—the Stephenson Fan, the

Noseman Fan, and 3 Mains Fan. On April 14, 1975 an air analysis was taken at the Stephenson Fan with the following results: volume—164700 cfm; methane—.00; CO₂—.07.

(2) Except for mainline motor craws, trackmen and the men working on the rock grade, the employees portal at the Nosemen Portal by self-propelled man-trip cars using secondary track. This track is used only for mantrips and supplies.

(3) Coal is transported by conveyor belt from the working sections to a car loading point at the mouth of Barker Creek Mains #3 Entry of 4 Mains 2,000 ft. inby 16 Left. Coal is hauled by mine cars a distance of approximately 17,250 feet to the cleaning plant at Stephenson with grades averaging 4.09 percent downhill with two 90° radius curves.

(4) Because the track haulage was old, its maintenance cost excessive, and the existence of a 4.09% grade in some areas, Petitioner undertook a construction program to upgrade the track haulage to make it more safe and efficient. In late 1971, Petitioner, with the approval of MESA and the State Department of Mines, started regrading the Number 3 Entry of 4 Mains. This work was to be done, with approved safeguards, (see Exhibit I)¹ on return air for a distance of 7,800 feet. The work is scheduled for completion in early 1976.

(5) During late 1971 § 75.305 of the Departmental regulations was being complied with in that Number 3 Entry of 4 Mains was traveled and examinations were made and records kept.

(6) After grade work was started on the old track haulage, the air lock doors specified in Exhibit I were installed inby the rock grade. The grade work was put on intake air with the air returning right and left back to the Stephenson Shaft.

(7) On March 19, 1975, a MESA Inspector issued a Notice of Violation at Buckeye based on 330 CFR 75.305 because a return aircourse from the rock grade in Number 4 Mains was not being traveled weekly in its entirety and records kept.

(8) Petitioner immediately explored the possibility of traveling a return aircourse from 16 Left back to the Stephenson Shaft in both 4 Mains and 5 Mains, but because of the adverse physical conditions, i.e. numerous falls of roof, there was no safe method to travel the entire length of these returns.

(9) Intake and return escapeways are maintained from the working sections to the Noseman Portal marked with conspicuous signs. Three escape routes are also available for grade crew motormen and trackmen that perform work in the area of 4 and 5 Mains. Going inby from Rockgrade toward 16 Left the men would be on return air—they could follow the marked escape route to the Noseman Fan and they could enter the intake escape-way to the Noseman Portal. They can also exit to the Stephenson Portal by

way of either 4 Mains track entry or by following the track from 16 Left and out through 5 Mains to the Stephenson Portal.

(10) The Stephenson Fan is used to ventilate the gob areas as indicated on map. It supplies intake air for the coal haulage track and approximately 16,000 to 18,000 CFM returning from the 2nd Left working section. The designated return escapeway for 2nd Left is marked and traveled weekly and exits at the Noseman Fan, no other action section returns any air to this fan. These persons could also follow the intake escape-way to Noseman Portal.

PETITIONER PLANS FOR ALTERNATE SYSTEM

Pocahontas proposes an alternate system to meet the intent of § 75.305 which it believes will be safer than the present requirement as applied to return aircourses from Nos. 4 and 5 Mains to the Stephenson shaft:

1. The certified examiner will enter the No. 1 and No. 2 return aircourses of 4 Mains at the four locations listed below for the purpose of making air measurements, sampling the air and making other tests as specified in § 75.305.

2. At the locations along the No. 1 and No. 2 return aircourses where the certified examiner will make his tests and samples, air locks will be installed and signs posted.

3. The examinations in the Nos. 1 and 2 return aircourses will be made weekly and records will be kept.

4. The left returns of 5 Mains (Nos. 1, 2 and 3 entries) will be entered at the four locations listed below and the actions specified in paragraphs 1, 2 and 3 above will be taken.

5. Air measurements for quantity and quality of air will also be made at the Stephenson shaft.

6. The location of the points of examination for the return aircourses of No. 4 Mains, left return will be as follows:

a. No. 1—At overcast inby Stephenson shaft.

b. No. 2—One hundred feet outby Station No. 2339.

c. No. 3—At Station No. 2818.

d. No. 4—One hundred feet outby Station No. 0671.

7. The location of examinations of the No. 5 Mains, left returns will be as follows:

a. No. 1—Station No. 2019.

b. No. 2—Station No. 2386.

c. No. 3—Station No. 3616.

d. No. 4—At mouth of 16 Left Panel.

Petitioner avers that the alternate method will at all times provide the miners no less than the same measure of protection afforded by the mandatory standard.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before July 31, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: June 24, 1975.

National Park Service

SEQUOIA AND KINGS CANYON NATIONAL PARKS, CALIFORNIA CEDAR GROVE DEVELOPMENT CONCEPT PLANNING ALTERNATIVES

Notice of Intent

Notice is hereby given that the National Park Service will hold two public workshops on August 5 and 6, 1975, to provide for public involvement and citizen participation in the first phase of the development concept planning process for the Cedar Grove area of Sequoia and Kings Canyon National Parks.

The workshops will be held in Visalia, California, August 5, in the Sequoia Room, Visalia Convention Center, 303 East Acequia Street, at 7 p.m., and in Fresno, California, August 6, in the all-purpose room, McLane Junior High School, 2727 North Cedar Avenue, at 7 p.m.

Concurrent with these workshops will be a series of consultations between members of the National Park Service and appropriate Federal, State and local government officials, organizations and individuals.

The purpose of these workshops and consultations is to provide for wide public involvement, including ideas, suggestions and comments from individuals and organizations on the formulation of Cedar Grove Development Concept Plan.

It is the intention of the National Park Service, when the draft Development Concept Plan is completed, to make it available to the public for further review.

Anyone wanting information on the National Park Service planning process, or the Cedar Grove area, or wishing to submit comments on uses of Cedar Grove may write to the Superintendent, Sequoia and Kings Canyon National Parks, Three Rivers, California 93271.

Dated: June 17, 1975.

JOHN H. DAVIS,

Acting Regional Director, Western Region, National Park Service.

NATIONAL REGISTER OF HISTORIC PLACES

Additions, Deletions, and Correction

By notice in the FEDERAL REGISTER of February 4, 1975, Part II, there was published a list of the properties included in the National Register of Historic Places. Further notice is hereby given that certain amendments or revisions in the nature of additions, deletions, or corrections to the previously published list are adopted as set out below.

It is the responsibility of all Federal agencies to take cognizance of the properties included in the National Register as herein amended and revised in accordance with section 106 of the National Historic Preservation Act of 1966, 80 Stat. 915, 16 U.S.C. 470 et seq. (1970 ed.), and the procedures for the Advisory Council on Historic Preservation, 36 CFR Part 800.

¹ Exhibits are available at the address contained in the last paragraph of the notice.

The following properties have been added to the National Register since June 3, 1975. National Historic Landmarks are designated by NHL; properties recorded by Historic American Buildings Survey are designated by HABS; properties recorded by Historic American Engineering Record are designated by HAER:

ALABAMA*Baldwin County*

Fort Morgan vicinity, *U.S.S. Tecumseh*, NW of Fort Morgan in Mobile Bay (5-14-75)

Calhoun County

Anniston, *Crowan Cottage*, 1401 Woodstock Ave. (5-16-75)

Walker County

Townley vicinity, *Boshell's Mill*, N of Townley on AL 124 (5-30-75)

ALASKA*Southeastern District*

Chilkoot Pass vicinity, *Chilkoot Trail*, Mile 0 to U.S./Canada border (4-14-75)

ARIZONA*Apache County*

Window Rock vicinity, *St. Michael's Mission*, N of Window Rock off AZ 264 (5-29-75)

Coconino County

Flagstaff vicinity, *Homestead, The*, 3 mi. N of Flagstaff on U.S. 180 (5-27-75)

Gila County

Globe, *Gila County Courthouse*, Oak and Broad Sts. (5-27-75)

Maricopa County

Mesa, *Park of the Canals*, along Horne Rd. N from Utah Ditch S to Mesa-Consolidated Canal (5-30-75)

Pima County

Greaterville vicinity, *Empire Ranch*, 6 mi. E of Greaterville (5-30-75)

Pinal County

Florence vicinity, *Butte-Cochran Charcoal Ovens*, 16 mi. E of Florence N of Gila River (5-30-75)

Yavapai County

Prescott, *Prescott Public Library*, 125 E. Gurley St. (5-28-75)

ARKANSAS*Arkansas County*

Tichnor vicinity, *Roland Site*, 5 mi. E of Tichnor (5-2-75)

Dallas County

Leola vicinity, *Bird Kiln*, 6 mi. SW of Leola off AR 9 (5-29-75)

Princeton vicinity, *Culbertson Kiln*, E of Princeton on Stark Bland Rd. (5-29-75)

Tulip vicinity, *Welch Pottery Works*, S of Tulip (5-12-75)

Independence County

Batesville, *Glenn House*, 653 Water St. (5-2-75)

Batesville, *Handford, Charles R., House*, 658 E. Boswell St. (5-2-75)

Batesville, *Handford, James S., House*, 659 E. Boswell St. (5-2-75)

Batesville, *Maxfield, Uriah, House*, 410 E. Harrison St. (5-2-75)

Batesville, *Wycough-Jones House*, 683 Water St. (5-2-75)

Mississippi County

Buckeye vicinity, *Zebree Homestead*, 2 mi. NE of Buckeye in Big Lake National Wildlife Refuge (5-2-75)

Ouachita County

Camden, *Leake-Ingham Building*, 926 Washington St. NW. (5-2-75)

Pulaski County

Little Rock, *Choctaw Route Station*, E. 3rd at Rock Island RR. (5-6-75)

Little Rock, *Reichardt House*, 1201 Welch St. (5-2-75)

ing)*

* * * * *

The following is a correction to the Na-
tional Register "Criteria for Evaluation"
previously published in the Federal Regis-
ter, Tuesday, February 4, 1975. The num-
bers in the first section should have been
capital letters:

The quality of significance in American
history, architecture, archeology, and
culture is present in districts, sites, build-
ings, structures, and objects that possess
integrity of location, design, setting, ma-
terials, workmanship, feeling, and as-
sociation, and:

(A) that are associated with events
that have made a significant contribu-
tion to the broad patterns of our history;
or

(B) that are associated with the lives
of persons significant in our past; or

(C) that embody the distinctive char-
acteristics of a type, period, or method
of construction, or that represent the
work of a master, or that possess high
artistic values, or that represent a sig-
nificant and distinguishable entity
whose components may lack individual
distinction; or

(D) that have yielded, or may be likely
to yield, information important in pre-
history or history.

Ordinarily, cemeteries, birthplaces, or
graves of historical figures, properties
owned by religious institutions or used
for religious purposes, structures that
have been moved from their original
locations, reconstructed historic build-
ings, properties primarily commemora-
tive in nature, and properties that have

achieved significance within the past 50
years shall not be considered eligible for
the National Register. However, such
properties will qualify if they are in-
tegral parts of districts that do meet the
criteria or if they fall within the follow-
ing categories:

(A) a religious property deriving
primary significance from architectural
or artistic distinction or historical im-
portance; or

(B) a building or structure removed
from its original location but which is
significant primarily for architectural
value, or which is the surviving struc-
ture most importantly associated with a
historic person or event; or

(C) a birthplace or grave of a his-
torical figure of outstanding importance
if there is no other appropriate site or
building directly associated with his pro-
ductive life; or

(D) a cemetery which derives its pri-
mary significance from graves of per-
sons of transcendent importance, from
age, from distinctive design features, or
from association with historic events;
or

(E) a reconstructed building when
accurately executed in a suitable en-
vironment and presented in a dignified
manner as part of a restoration master
plan, and when no other building or
structure with the same association has
survived; or

(F) a property primarily commemora-
tive in intent if design, age, tradition,
or symbolic value has invested it with its
own historical significance; or

(G) a property achieving significance
within the past 50 years if it is of ex-
ceptional importance.

* * * * *

The following properties have been
determined to be eligible for inclusion
in the National Register. All determina-
tions of eligibility are made at the re-
quest of the concerned Federal Agency
under the authorities in section 2(b) and
1(3) of Executive Order 11593 as imple-
mented by the Advisory Council on His-
toric Preservation, 36 C.F.R. Part 800.
This listing is not complete. Pursuant to
the authorities discussed herein, an
Agency Official shall refer any question-
able actions to the Director, Office of
Archeology and Historic Preservation,
National Park Service, Department of the
Interior, for an opinion respecting a
property's eligibility for inclusion in the
National Register.

Historical properties which are deter-
mined to be eligible for inclusion in the
National Register of Historic Places are
entitled to protection pursuant to the
procedures of the Advisory Council on
Historic Preservation, 36 CFR Part 800.
Agencies are advised that in accord with
the procedures of the Advisory Council
on Historic Preservation, before an
agency of the Federal Government may
undertake any project which may have
an effect on such a property, the Advisory
Council on Historic Preservation shall be
given an opportunity to comment on the
proposal.

GUNNISON VALLEY FOREST GRAZING
ADVISORY BOARD

Meeting

The Gunnison Valley Forest Grazing Advisory Board will hold a business meeting in conjunction with a ride as hosts of the Miguel District Grazing Advisory Board on July 22 and 23, 1975. The business meeting will be held at 7 p.m., July 22, at Old Agency Work Center, Cebolla Ranger District, Gunnison National Forest. The ride will commence from Old Agency Work Center at 8 a.m. on July 22.

The purpose of the meeting is to elect officers for the Gunnison Valley Forest Grazing Advisory Board and to look at range management being practiced in this area.

The meeting will be open to the public. Persons who wish to attend should notify Donald M. Smith, Forester, 216 North Colorado, Gunnison, Colorado 81230, telephone (303) 641-0471. Written statements may be filed with the Board before or after the meeting.

The Board has established the following rule for public participation: To the extent time permits, interested persons may be permitted by the Board Chairman to present oral statements at the meeting.

JIMMY R. WILKINS,
Acting Forest Supervisor.

Dated: June 23, 1975.

[FR Doc.75-17109 Filed 6-30-75;8:45 am]

MIGUEL DISTRICT GRAZING ADVISORY
BOARD

Meeting

This Notice of Meeting supersedes the Notice of Meeting of June 12, 1975 for the Miguel District Grazing Advisory Board.

The Miguel District Grazing Advisory Board will hold a business meeting in conjunction with a ride being hosted by the Gunnison Valley Forest Grazing Advisory Board on July 22 and 23, 1975. The meeting will be held at 7 p.m., July 22, at Old Agency Work Center, Cebolla Ranger District, Gunnison National Forest. The ride will commence from Old Agency Work Center at 8 a.m. on July 22.

The purpose of this meeting is to elect officers for the Miguel District Grazing Advisory Board and to look at range management being practiced in this area.

The meeting will be open to the public. Persons who wish to attend should notify Range Technician Thomas Weldon, 101 North Uncompahgre, P.O. Box 1047, Montrose, Colorado 81401, telephone number 249-3711. Written statements may be filed with the Board before or after the meeting.

Dated: June 23, 1975.

JIMMY R. WILKINS,
Forest Supervisor.

OZONE UNIT PLAN

Availability of Draft Environmental
Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Ozone Unit Plan, Ozark National Forest, Arkansas, USDA-FS-R8-DES (Adm.)—75-19.

The proposed action is to manage the Ozone Unit, on the Pleasant Hill and Bayou Ranger Districts in Johnson County, Arkansas, in accordance with the 10-year management direction contained in the Unit Plan. This unit contains 66,417 acres of National Forest land. It is proposed that this Unit be managed for the full range of multiple-use benefits including water, wildlife, recreation, range, minerals and timber.

This draft environmental statement was transmitted to CEQ on June 24, 1975. Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3230, 12th St. and Independence Ave. SW., Washington, D.C. 20250.
USDA, Forest Service, 1720 Peachtree Rd. NW., Room 804, Atlanta, Ga. 30309.
USDA, Forest Service, Pleasant Hill Ranger District, Clarksville, AR 72830.
USDA, Forest Service, Bayou Ranger District, Hector, AR 72843.

A limited number of single copies are available upon request to Forest Supervisor Larry Henson, Ozark-St. Francis National Forests, P.O. Box 1008, Russellville, AR 72801.

Comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any en-

vironmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor Larry Henson, Ozark-St. Francis National Forests, P.O. Box 1008, Russellville, AR 72801. Comments must be received by August 23, 1975 in order to be considered in the preparation of the final environmental statement.

EDWARD G. ELLENBERG,
Acting Regional
Environmental Coordinator.

[FR Doc.75-17111 Filed 6-30-75;8:45 am]

TCHOUTACABOUFFA UNIT PLAN
Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Tchoutacabouffa Unit Plan, DeSoto National Forest, Jackson, MS, USDA-FS-R8-FES (ADM.) 75-15.

The proposed action is the implementation of a management plan for the Tchoutacabouffa Unit, Biloxi Ranger District, DeSoto National Forest in Harrison, Jackson and Stone Counties, Mississippi. The Unit contains 40,163 acres of National Forest land which is currently managed under the concept of multiple use. The Unit Plan contains management direction for all activities within the Unit and replaces that portion of the Multiple Use Plan pertaining to the Unit.

This final environmental statement was transmitted to CEQ June 23, 1975. Copies are available for inspection during regular working hours at the following locations:

- USDA, Forest Service, South Agriculture Bldg., Rm. 3230, 12th St. and Independence Ave. SW., Washington, DC 20250.
- USDA, Forest Service, 1720 Peachtree Rd. NW., Rm. 804, Atlanta, GA 30309.
- Biloxi Ranger District, Rt. 1, Box 62, McHenry, MS 39561.

A limited number of single copies are available upon request to Forest Super-

visor Leon Cambre, National Forests in Mississippi, Box 1291, Jackson, MS 39205.

Dated: June 23, 1975.

DAVID F. JOLLY,
Regional Environmental Coordinator.

DEPARTMENT OF COMMERCE
Domestic and International Business Administration

EXPORT MONITORING REPORT FOR FERTILIZERS, MARCH 1975

U.S. Exports of Nitrogenous Fertilizers Fall, While Phosphatic Exports Post Sharp Rise

(The following information is disseminated pursuant to section 4(c)(2) of the Export Administration Act of 1969, as amended and extended by the Equal Export Opportunity Act of 1972 and the Export Administration Amendments of 1974. The Secretary of Commerce has determined that there is insufficient information available to justify the publication of weekly reports of data collected under the fertilizer monitoring program and that, consequently, reports shall be published monthly.)

The United States was a net exporter of nitrogenous and phosphatic fertilizers in the first three quarters of the 1975 crop year (which ended March 31, 1975).

However, net exports of nitrogenous fertilizer fell to about 52,000 content tons in the period from 354,000 content tons in the same period a year earlier.

In contrast, net exports of phosphatic fertilizer rose to 1,141,000 tons in the first three quarters of crop year 1975 from 1,015,000 tons in the same period of crop year 1974.

The Department noted that the sharp declines expected in U.S. exports of nitrogenous and phosphatic fertilizers have not occurred. A decline in domestic demand—stemming from high prices, falling markets for U.S. farm products, and bad weather that prevented application of fertilizer to farm acreage—has increased export availabilities.

U.S. exports of nitrogenous fertilizer totaled 846,000 content tons in July 1974–March 1975 while imports in the same period were 794,000 content tons. U.S. ex-

ports were 1,068,000 content tons in July 1973–March 1974 while imports were 714,000 content tons.

Export contracts for nitrogenous fertilizer reported to the Department's Office of Export Administration for April–June 1975 listed a total of 165,000 content tons, which would bring exports for the 1975 crop year to 1,011,451 tons compared with 1,184,000 tons in the 1974 crop year.

U.S. exports of phosphatic fertilizer, July 1974 to March 1975, were 1,345,382 compared with 1,218,083 tons a year earlier. Imports were 182,659 tons in the first three quarters of CY 1975 compared with 203,489 tons in the first three quarters of CY 1974.

In January–March 1975, exports of fertilizer materials were in the main destined for developing countries: 96 percent of the ammonium nitrate was destined for developing countries. Ninety three percent of the ammonium sulfate, 72 percent of the phosphoric acid, 91 percent of the triple superphosphate and 88 percent of the ammonium phosphate materials were shipped to developing countries.

Developed countries received the largest share of the phosphate rock and mixed fertilizers, 72 and 79 percent respectively.

Domestic production of ammonia remained at 1974 levels, while inventories of almost all fertilizer materials were higher. Production of phosphoric acid was almost 13 percent higher than the same period last year.

Prices of fertilizer materials at the producer level have remained stable during the past 4 to 5 months.

Tables on exports, imports, domestic production and inventories follow, along with a new table of export prices compiled from the data submitted by exporters to the Office of Export Administration.

¹ World supply and demand data are not available on a monthly basis. The most recent data on world supply and demand will be included in the Semi-Annual Report to the Congress on operations under the Export Administration Act covering the period ending with the first Quarter 1975.

NUMERICALLY CONTROLLED MACHINE TOOL TECHNICAL ADVISORY COMMITTEE

Partially Closed Meeting

The meeting of the Numerically Controlled Machine Tool Technical Advisory Committee, scheduled for Tuesday, July 15, 1975, at 9:30 a.m. in Room 1851 has been changed to Room 4830 of the Main Commerce Building, 14th and Constitution Avenue, NW., Washington, D.C. The agenda and other information relating to the committee, as published in the FEDERAL REGISTER, 40 FR 24948, on Wednesday, June 11, 1975, remains unchanged.

Date: June 26, 1975.

RAUER H. MEYER,
Director, Office of Export Administration, Bureau of East-West Trade, U.S. Department of Commerce.

Office of the Secretary

NATIONAL ACADEMY FOR FIRE PREVENTION AND CONTROL SITE SELECTION BOARD

Notice of Establishment

In accordance with the provisions of the Federal Advisory Committee Act (5

U.S.C. App. I (Supp. II, 1972)) and as authorized by Sec. 7(g) Federal Fire Prevention and Control Act of 1974 (15 U.S.C. 101 *et seq.*, the Secretary of Commerce will establish the National Academy for Fire Prevention and Control Site Selection Board.

The Committee will advise the Secretary, through the Administrator, National Fire Prevention and Control Administration, as to the site upon which the National Academy should be located. The Site Selection Board shall survey the most suitable sites for the location of the Academy after giving consideration to the training and facility needs of the Academy, environmental effects, the possibility of using a surplus Government facility, and such other factors as are deemed important and relevant.

The Committee will consist of three members, the Academy Superintendent and one member each from the fire services and academic communities in order to insure a balanced representation of interests on the Committee.

The Committee will function solely as an advisory body, and in compliance with the provisions of the Federal Advisory Committee Act. Its charter will be filed under the Act, on or before July 16, 1975.

Interested persons are invited to submit comments regarding the establishment of the National Academy for Fire Prevention and Control Site Selection Board. Such comments, as well as any inquiries, may be addressed to the Ad-

ministrator, National Fire Prevention and Control Administration, U.S. Department of Commerce, Washington, D.C. 20230.

Dated: June 19, 1975.

GUY W. CHAMBERLIN, JR.,
Acting Assistant Secretary
for Administration.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

[Docket No. D-75-338]

ADMINISTRATOR OF THE FEDERAL DISASTER ASSISTANCE ADMINISTRATION

Delegation of Authority

Pursuant to the authority vested in me to exercise certain of the powers and authorities of the President with respect to Federal disaster assistance pursuant to section 1 of the Executive Order entitled, "Delegating Disaster Relief Functions Pursuant to the Disaster Relief Act of 1974" (E.O. 11795, 30 FR 25939, dated July 11, 1974), I hereby delegate to the Administrator of the Federal Disaster Assistance Administration certain of the authorities, functions and powers granted by section 202 of the Disaster Relief Act of 1974 (hereinafter, "the Act," 88 Stat. 143, 42 U.S.C. 5121 Note) with respect to disaster warnings, to wit:

1. The authority to insure that all appropriate Federal agencies are prepared to issue warnings of disasters to State and local officials;
2. The authority to provide general policy guidance and coordination to the Secretary of the Interior, the Secretary of Commerce, and the Secretary of Agriculture with respect to their Delegations of Authority from the Secretary of Housing and Urban Development concerning disaster warnings pursuant to section 202 of the Act;
3. The authority contained in section 202 (b) of the Act to direct appropriate Federal agencies to provide technical assistance to State and local governments to insure that timely and effective disaster warning is provided;
4. The authority to issue such rules and regulations as may be necessary and appropriate to effectuate this delegation; and
5. The authority contained in Section 202(d) of the Act to approve agreements to be entered into between the Secretary of the Interior, the Secretary of Agriculture, or the Secretary of Commerce (pursuant to their above-mentioned Delegations of Authority for Disaster Warnings) and the officers or agents of any private or commercial communications systems who volunteer the use of their systems on a reimbursable basis for the purpose of providing warning to governmental authorities and the civilian population endangered by disasters.

AUTHORITY: Disaster Relief Act of 1974, 42 U.S.C. 5121 Note; Section 7(d) Department of Housing and Urban Development Act, 42 U.S.C. 3535(d); Executive Order 11795, signed July 11, 1974, 39 FR 25939.

Effective Date: This delegation shall be effective July 1, 1975.

CARLA A. HILLS,
Secretary of Housing and
Urban Development.

[Docket No. D-75-340]

**ASSISTANT SECRETARY FOR HOUSING
MANAGEMENT****Redelegation of Authority Delegated by Ad-
ministrator of General Services With Re-
spect to Representation Before Inter-
state Commerce Commission**

SECTION A. Authority redelegated. The Assistant Secretary for Housing Management is authorized to exercise the authority delegated to the Secretary of Housing and Urban Development by the Administrator of General Services to represent the consumer interests of the executive agencies of the Federal Government before the Interstate Commerce Commission involving an application for Motor Carrier Permanent Authority in order to assure adequate transport capability in connection with disaster relief activities. This redelegation is made pursuant to the authority vested in the Administrator of General Services by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)). This authority may only be exercised pursuant to the issuance of a later specific delegation of authority from the Administrator of General Services.

SEC. B. Authority to Redelegate. The Assistant Secretary for Housing Management is authorized to redelegate to employees of the Department the authority set forth in section A.

(Sec. 7(d) Department of HUD Act (42 U.S.C. 3535(d)) and specific authority delegated by the Administrator of General Services)

Effective date. This redelegation of authority is effective as of June 25, 1975.

CARLA A. HILLS,

**DEPARTMENT OF
TRANSPORTATION****National Highway Traffic Safety
Administration****FIRESTONE 500 STEEL BELT TIRES****Rescheduling of Public Proceeding**

Pursuant to section 152 of the National Traffic and Motor Vehicle Safety Act of 1966 as amended (Pub. L. 93-492, 88 Stat. 1470; October 27, 1974), 15 U.S.C. 1412, the Associate Administrator, Motor Vehicle Programs, has made an initial determination that a noncompliance with an applicable Federal motor vehicle safety standard exists with respect to the Firestone 500 Steel Belt Tires.

A public meeting initially set for June 12, 1975 (40 FR 20982), May 14, 1975) was rescheduled for July 2, 1975 (40 FR 25502, June 10, 1975). That public meeting again has been rescheduled at the request of Firestone Tire and Rubber Company and will be held at 10:00 a.m., July 10, 1975, in Room 3200, Department of Transportation Building, 400 Seventh Street, SW, Washington, D.C. 20590. At that meeting, Firestone will be afforded an opportunity to present data, views and arguments to establish that there is no failure to comply in the Steel Belt 500 tires.

Interested persons are invited to participate through written or oral presentations. Persons wishing to make oral presentations are requested to notify Mrs. Gail Willis, Office of Standards Enforcement, National Highway Traffic Safety Administration, Washington, D.C. 20590. Telephone (202) 426-2832, before the close of business (4:15 p.m.) on July 8, 1975.

The agency's investigative file in this matter is available for public inspection during working hours (7:45 a.m.-4:15 p.m.) in the Technical Reference Division, Room 5108, 400 Seventh Street SW, Washington, D.C. 20590.

(Sec. 152, Pub. L. 93-492, 88 Stat. 1470 (15 U.S.C. 1412); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8.)

Issued on June 27, 1975.

ROBERT L. CARTER,
*Associate Administrator,
Motor Vehicle Programs.*

CIVIL AERONAUTICS BOARD

[Docket No. 28001; Order 75-6-126]

AMERICAN AIRLINES, INC.**Order of Suspension and Investigation Re-
garding Surcharges Per Shipment of Re-
stricted Articles**

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 26th day of June 1975.

By tariff revision¹ filed May 28 and marked to become effective June 27, 1975, American Airlines, Inc. (American) proposes to establish a \$3.25 surcharge per shipment of restricted articles as defined in the Restricted Articles Tariff, C.A.B. No. 82.

American asserts, inter alia, that (1) the surcharge is intended to offset in part the additional manpower costs involved in processing such shipments; (2) based on a recent company study, the additional labor burden in handling these shipments over regular bulk freight is 44.58 man-minutes at a cost of \$7.94 per shipment; (3) the surcharge proposed is held to \$3.25 so as not to exceed competition; and (4) the estimated annual revenue impact of the filing is \$28,000, which will be below estimated costs by \$40,500, excluding training and materials costs.

A complaint requesting suspension and investigation was filed against the proposal by Shulman Air Freight, Inc. (Shulman). The complainant contends, inter alia, that (1) a great many commodities commonly moving in air transportation would be subject to this surcharge; (2) no comparable surcharge level was found as a result of Shulman's survey of various motor and ocean freight tariffs; (3) the \$3.25 surcharge would represent 13 percent of Shulman's current door-to-door charge for a typical radioactive restricted-articles shipment, resulting in cost increases to the shipper rising at a disproportionate rate; and (4) the proposal is not sufficiently supported.²

Upon consideration of all relevant matters, the Board finds that American's proposal may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated. The Board further concludes that the proposal should be suspended pending investigation.

The Board has noted the study presented by American in support of its proposal, showing the number of additional man-minutes required for each restricted-articles shipment, the labor

¹ Revision to Airline Tariff Publishing Company, Agent, Tariff C.A.B. No. 96.

² By motion received June 23, American requested leave to file an otherwise unauthorized document, specifically, a late-filed answer to the Shulman complaint. The Board has considered the motion and cannot find that the circumstances set forth therein justify the delay.

cost per man-minute by type of employee, over a month's period which arrives at a total of \$7.936 in additional costs per shipment. The carrier asserts, for example, that fleet service clerks at the ramps spend an average of 12.25 minutes (at \$.10 per minute) on each shipment, totaling \$1.225 of additional cost per shipment. American has furnished, however, no information as to how these figures were derived, what time period was involved, or to what extent the sample adequately covers its system. The figures are presented on a per-shipment basis with no explanation of the basic data and assumptions used, the method of sampling, the services provided by the employees listed, or any justification of the labor-cost-plus benefits rates computed per man-minute. Consequently, we do not believe that American's proposal has been adequately justified.

The suspension action ordered herein is consistent with the Board's action on the identical surcharge of \$3.25 proposed by Trans World Airlines, Inc. in Order 75-5-103, dated May 27, 1975, and in previous orders cited therein.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof:

It is ordered, That:

1. An investigation is instituted to determine whether the provision reading "(Applicable to AA only)" in Rule No. 51 and the charge and provisions in Rule No. 51(c) on 10th Revised Page 18-C of Airline Tariff Publishing Company, Agent, tariff C.A.B. No. 96, and rules, regulations, and practices affecting such provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, or otherwise unlawful, and, if found to be unlawful, to determine and prescribe the lawful provisions, and rules, regulations or practices affecting such provisions;

2. Pending hearing and decision by the Board, the provision reading "(Applicable to AA only)" in Rule No. 51 and the charge and provisions in Rule No. 51(c) on 10th Revised Page 18-C of Airline Tariff Publishing Company, Agent, tariff C.A.B. No. 96, are suspended and their use deferred to and including September 24, 1975, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The proceeding herein designated Docket 28001, be assigned to hearing before an Administrative Law Judge of the Board at a time and place hereafter to be designated;

4. Except to the extent granted herein, the complaint of Shulman Air Freight, Inc. in Docket 27921 is dismissed.

5. The motion of American Airlines, Inc. to file an unauthorized document is denied; and

6. Copies of this order shall be filed with the tariff and served upon American Airlines, Inc. and Shulman Air Freight, Inc., which are hereby made parties to Docket 28001.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[Docket No. 27738]

AVIACION Y COMERCIO

Prehearing Conference and Hearing Regarding Foreign Charter Permit Renewal (Spain-U.S.)

Notice is hereby given that a prehearing conference in this proceeding is assigned to be held on July 14, 1975, at 10:00 a.m. (local time), in Room 503, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., before Administrative Law Judge Richard M. Hartsock.

Notice is also given that the hearing may be held immediately following conclusion of the prehearing conference unless a person objects or shows reason for postponement on or before July 3, 1975.

Ordinary transcript will be adequate for the proper conduct of this proceeding.

Dated at Washington, D.C., June 25, 1975.

[SEAL] ROBERT L. PARK,
Chief Administrative Law Judge.

[Docket No. 27990]

CHICAGO-NEW ORLEANS NONSTOP ROUTE PROCEEDING

Prehearing Conference

Notice is hereby given that a prehearing conference in the above-entitled matter is assigned to be held on August 26, 1975, at 10 a.m. (local time), in Room 911, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., before Administrative Law Judge William H. Dapper.

In order to facilitate the conduct of the conference, parties are instructed to submit one copy to each party and four copies to the Judge of (1) proposed statements of issues; (2) proposed stipulations; (3) requests for information; (4) statement of positions of parties; and (5) proposed procedural dates. The Bureau of Operating Rights will circulate its material on or before August 1, 1975, and the other parties on or before August 15, 1975. The submissions of the other parties shall be limited to points on which they differ with the Bureau of Operating Rights and shall follow the numbering and lettering used by the Bureau to facilitate cross-referencing.

Dated at Washington, D.C., June 25, 1975.

[SEAL] ROBERT L. PARK,
Chief Administrative Law Judge.

[Docket Nos. 28004, 26755, 26881; Order 75-6-131]

CONTINENTAL AIR LINES, INC. ET AL.

Order Instituting Investigation and Terminating Show Cause Proceedings Regarding Youth, Student Standby and Family Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 26th day of June 1975.

By Order 74-11-147, November 27, 1974, the Board dismissed a joint petition filed October 3, 1974, by the Legislature of American Samoa and the Director of Territorial Affairs, Department of the Interior, requesting that the Board reconsider its decision in Order 74-9-43, September 13, 1974, to permit Pan American World Airways, Inc. (Pan American) to increase its fares to Pago Pago, American Samoa. The United States and the Government of American Samoa have filed a petition for judicial review of the Board's order in the U.S. Court of Appeals for the District of Columbia Circuit and have filed a brief in the matter. Upon further consideration of the various pleadings before the Board and the Court, the Board has decided to institute an investigation of overseas air transportation fares to American Samoa.

By Orders 74-5-145 and 74-7-80, the Board tentatively concluded that student, youth, and family fares published by Continental Air Lines, Inc. (Continental), Pan American, and Trans World Airlines, Inc. (TWA) between American Samoa, Guam, the Trust Territory of the Pacific and points in the 50 states may be unjustly discriminatory, particularly in light of the Board's decision in Phase 5 of the "Domestic Passenger-Fare Investigation," and directed the carriers to show cause why these fares should not be canceled. All youth fares were subsequently cancelled by the carriers and only Continental now publishes student fares, which are limited to service between Guam and the Trust Territory, on the one hand, and Hawaii, on the other hand. Only those family fares applicable between U.S. west coast points and Micronesia were canceled subsequent to the show cause order.

Effective July 15, 1975, Pan American proposes to reestablish youth standby fares in the mainland/Hawaii-Guam and Pago Pago markets at a one-third discount from the normal coach fare. Pan American alleges that its proposal is justified by the geographic isolation and dependence upon air transportation of these two Pacific points and is also required for competitive reasons.¹ The carrier also alleges that the lack of surface transportation makes the Guam and Pago Pago situation analogous to the North Atlantic where the Board has permitted reestablishment of youth fares. Pan American believes the fares will be

¹ Although Continental's service is a 5-stop flight, Pan American alleges that it is a diversionary threat, and that the absence of such a fare has cast Pan American as hostile to students.

40 percent generative and result in an incremental profit of slightly over \$100,000 annually. The fares are marked to expire December 31, 1976.

Effective July 6, 1975, Continental proposes to add family fares between Guam and mainland/Hawaii to match existing family fares of Pan American. The discount is 50 percent for the spouse and accompanying children 12 through 21 years of age. The fare for children 2 through 11 years is 25 percent of the full fare.²

Upon consideration of the responses to Shaw Cause Orders 74-5-145 and 74-7-80, the current youth and family fare proposals, and all other relevant data, the Board concludes that it should terminate the earlier show cause proceedings and in lieu thereof institute an investigation of both existing and proposed family and youth fares. We will not, however, suspend the recently filed family and youth fare proposals since they essentially match existing fares of this type.

Accordingly, upon consideration of the foregoing, and all other relevant matters:

It is ordered, That:

1. An investigation of Pacific overseas fares, Docket 28004 be instituted to determine whether (1) the fares between the United States mainland and Hawaii, on the one hand, and Pago Pago, American Samoa, on the other, and (2) youth, student, and family fares between the United States mainland and Hawaii, on the one hand, and Pago Pago, American Samoa, Guam, and the Pacific Trust Territories, on the other, and rules, regulations, or practices affecting such fares, and revisions and reissues thereof, are unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial or otherwise unlawful, and, if found to be unlawful, to determine and prescribe the lawful maximum or minimum, or maximum and minimum fares, and rules, regulations, and practices affecting such fares and provisions;

2. The investigation ordered herein be assigned before an Administrative Law Judge of the Board at a time and place hereafter to be designated;

3. The show cause proceedings in Dockets 26755 and 26881 be and hereby are terminated;

4. Except to the extent granted herein, the complaints of Northwest Airlines, Inc. in Dockets 27941 and 27987 are hereby dismissed; and

5. This order be served upon Continental Air Lines, Inc., Northwest Airlines, Inc., Pan American World Airways, Inc., the Legislature of American Samoa, and the Director of Territorial Affairs, De-

² Northwest Airlines, Inc. (Northwest) has complained against Pan American's youth fare proposal and Continental's family fare proposal, alleging that they are contrary to the Board's findings in Phase 5 of the DPFI. It further alleges that the carriers providing family fares have not provided justification for continuation of these fares as required by the Board's show cause order (74-7-80), issued July 18, 1974.

partment of the Interior, on behalf of the Government of American Samoa, which are hereby made parties to this investigation, and Trans World Airlines, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

[ERDA-1543]

EXPANSION OF THE U.S. URANIUM ENRICHMENT CAPACITY PROGRAM

Availability of Draft Environmental Statement

Notice is hereby given that a Draft Environmental Statement, "Expansion of U.S. Uranium Enrichment Capacity" (ERDA-1543) was issued June 26, 1975, pursuant to the Energy Research and

ment was prepared in support of ERDA's implementation of the National Environmental Policy Act of 1969. The Statement was prepared in support of ERDA's administrative actions related to expansion of the U.S. uranium enrichment capacity and the President's message and legislative proposal sent to Congress on June 26, 1975. This Statement replaces the Gas Centrifuge Program Statement that was announced in the FEDERAL REGISTER on April 23, 1975, as being under preparation. The gas centrifuge technology is covered in this Statement in addition to the currently used gaseous diffusion and other enrichment technologies.

Copies of the Draft Statement have been distributed for review and comment to Federal agencies, States and organizations and individuals that have expressed an interest in the uranium enrichment activity. Copies of the Draft Statement are available for public inspection in the ERDA's Public Document Rooms at 1717 H Street NW., Washington, D.C.; Albuquerque Operations Office, Kirtland Air Force Base East, Albuquerque, New Mexico; Chicago Operations Office, 9800 South Cass Avenue, Argonne, Illinois; Idaho Operations Office, 550 Second Street, Idaho Falls, Idaho; Nevada Operations Office, 2753 South Highland Drive, Las Vegas, Nevada; Oak Ridge Operations Office, Federal Building, Oak Ridge, Tennessee; Richland Operations Office, Federal Building, Richland, Washington; San Francisco Operations Office, 1333 Broadway, Oakland, California; and Savannah River Operations Office, Savannah River Plant, Aiken, South Carolina.

Comments and views concerning the Draft Statement are requested from other interested agencies, organizations and individuals. Single copies of the Draft Environmental Statement will be furnished for review and comment upon request addressed to W. H. Pennington, Office of the Assistant Administrator for Environment and Safety, Mail Station E-201, U.S. Energy Research and Development Administration, Washington, D.C. 20545, (301) 973-4241. Comments should be sent to the same address.

In accordance with guidelines from the Council on Environmental Quality, agencies and members of the public submitting comments on the draft environmental statement should endeavor to make their comments as specific, substantive, and factual as possible without undue attention to matters of form in the impact statement. It would assist in the review of comments if the comments were organized in a manner consistent with the structure of the draft statement. Emphasis should be placed on the assessment of the environmental impacts of the expansion activities, and the acceptability of those impacts on the quality of the environment, particularly as contrasted with the impacts of reasonable alternatives. Commenting entities may recommend modifications and/or new alternatives that will enhance environmental quality and avoid or minimize adverse environmental impacts.

Copies of comments on the Draft Environmental Statement will be placed in the above referenced Document Rooms and will be considered in the preparation of the Final Environmental Statement if received by August 18, 1975.

Dated at Germantown, Maryland, this 24th day of June 1975.

For the Energy Research and Development Administration.

JAMES L. LIVERMAN,
Assistant Administrator
for Environment and Safety.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 391-7; OPP-33000/272]

RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c) (1) (D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street, SW Washington, D.C. 20460.

On or before September 2, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c) (1) (D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street, SW, Washington DC 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according

to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after September 2, 1975.

Dated: June 24, 1975.

JOHN B. RITCH, Jr.,
Director, Registration Division.

[FRL 394-4]

NATIONAL AIR POLLUTION MANPOWER DEVELOPMENT ADVISORY COMMITTEE Meeting

Pursuant to Pub. L. 92-463, notice is hereby given that the National Air Pollution Manpower Development Advisory Committee will be held July 18-19, 1975 in Denver, Colorado. The meeting will be held at the Cosmopolitan, 18th and Broadway, in Meeting Room #341, and will begin at 9 a.m., July 18.

This is the regular quarterly meeting of the Advisory Committee. Primarily the meeting will be devoted to Committee

review of the status of the fellowships, training grants, and direct training programs. There will be a presentation by Region VIII personnel and Colorado State University staff on the Vehicle Emission Control Training Program at Colorado State University.

The meeting will be open to the public. Any member of the public wishing to attend or participate should contact Mr. Ronnie E. Townsend, Executive Secretary, National Air Pollution Manpower Development Advisory Committee, Research Triangle Park, North Carolina, (919) 549-8411, extension 2492.

Dated: June 27, 1975.

ROGER STELON,
Assistant Administrator for
Air and Waste Management.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 20510, File No. BPH-8873; Docket No. 20511, File No. BPH-9015; Docket No. 20512, File No. BPH-9211]

HAROLD SHARP, ET AL.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re Applications of Harold James Sharp, Ocala, Florida, Requests: 92.7 MHz, Channel No. 224, 3 kW(H&V), 290 feet; Greater Ocala Broadcasting Corporation, Ocala, Florida, Requests: 92.7 MHz, Channel No. 224, 3 kW(H&V), 190-92 feet; Hunter-Arnette Broadcasting Co., Ocala, Florida, Requests: 92.7 MHz, Channel No. 224, 3 kW(H&V), 300 feet, For Construction Permits.

1. The Commission, by the Chief of the Broadcast Bureau, acting pursuant to delegated authority, has before it the three above-captioned applications, which are mutually exclusive in that they seek the same channel in Ocala, Florida.

2. Data submitted by the applicants indicate that there would be a significant difference in the size of the area which would receive service from the proposal of Harold James Sharp and the other two applicants. Consequently, for the purposes of comparison, the areas and populations which would receive primary service, together with the availability of other primary aural services (1mV/m of greater in the case of FM) in such areas will be considered under the standard comparative issue, for the purpose of determining whether a comparative preference should accrue to any of the applicants.

3. Greater Ocala will not provide a 3.16 mV/m signal over the entire city of Ocala, as required by § 73.315(a) of the rules. Accordingly, Greater Ocala requests a waiver of this section of the rules and in so doing states that the signal level within the Ocala city limits at the most distant point from the proposed transmitter location will be 66.8 dBu. It also states that the area not served by a 70 dBu signal level is presently inhabited by 519 people within a 1.97 square mile area. This number represents 1.8 percent of the total popula-

tion of the city of Ocala. Greater Ocala indicates that there is no other property available to them closer to the city limits which would allow proper spacing for channel 224A. Additionally, Greater Ocala states that it has selected a tower height which is less than the maximum allowable by the Commission's rules and regulations, in order to comply with existing Federal Aviation Administration obstruction standards applicable for the proposed site. In light of these facts, and since the general coverage of the city will be satisfactory, we find that a waiver of § 73.315(a) of our rules is warranted in this instance.

4. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

5. Accordingly, *It is ordered*, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine which of the proposals would, on a comparative basis, best serve the public interest.

2. To determine, in light of the evidence adduced pursuant to the foregoing issue, which of the applications should be granted.

6. *It is further ordered*, That if the application of Greater Ocala Broadcasting Corporation is preferred, the construction permit shall specify that the provisions of § 73.315(a) of our rules are waived to permit a signal level of less than 3.16 mV/m over the entire city of Ocala, Florida.

7. *It is further ordered*, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

8. *It is further ordered*, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: June 12, 1975.

Released: June 16, 1975.

FEDERAL COMMUNICATIONS
COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[SC-65]

SHIP RADAR**Meeting**

The members of Special Committee No. 65 "SHIP RADAR", will hold the 39th meeting on Wednesday, July 16, 1975—1:30 p.m. at Conference Room 8210, 2025 M Street NW, Washington, D.C.

The agenda for SC-65 Committee Meeting appears below.

Formal meeting schedule for SC-65 working groups, to be held at 2025 M St. NW., Washington, D.C.

Working group	Room	Date	Time
Collision avoidance (all day).	8210	July 15	9:30 a.m.
Small boat specifications.	8210	July 16	Do.

NOTES.—Meeting room location is subject to change. Check at room 8210 first.
If other working group meetings are scheduled, group members will be notified.

AGENDA

1. Call to Order; Chairman's Report; Adoption of Agenda.
2. Acceptance of SC-65 Summary Records; Appointment of Rapporteur. 18 June 1975. Paper 98-75; SC 65-190.
3. Progress Reports of Working Groups on: a. Collision Avoidance Systems; b. Small Boat Specifications.
4. Status Reports on Other Working Groups.
5. Other business.
6. Establishment of next meeting date (Proposed Oct. 15, 1975).
7. Transponder Specifications—Paper 109-74/SC 65-168, Rev. E.

Direct inquiries to Irvin Hurwitz, Chairman, SC-65, Federal Communications Commission, Washington, D.C. 20554, Phone: (202) 632-7197.

**FEDERAL HOME LOAN BANK
BOARD****FEDERAL SAVINGS AND LOAN
ADVISORY COUNCIL****Meeting**

JUNE 26, 1975.

Pursuant to section 10(a) of Pub. L. 92-463, entitled the Federal Advisory Committee Act, notice is hereby given of the meeting of the Federal Savings and Loan Advisory Council on Monday, July 21; Tuesday, July 22; and Wednesday, July 23, 1975. The meeting will commence at 9 a.m. on July 21, 22, 23, at the Madison Hotel, 15th and M Streets, NW., Washington, D.C. in the Arlington Room.

MONDAY, JULY 21

- 9-11 a.m.— General discussion
2:30 pm.— Up-date on Keogh, IRA retirement accounts and trustee liability
Up-date on merger program
Review of reserve requirement study
Duplication of examiners and auditors
Proposed IRS regulation for taxation of associations owned by holding companies
Report of Board study on loan repayment terms on other than one-to-four family
Definition of "general obligations" of municipal securities and timely answers
Associations loaning funds to other associations

TUESDAY, JULY 22

- Easing of limitations on participations and whole loans
Reserve requirements
Accounting treatment of add-on interest on unsecured loans
FHLEBB long term fixed rate advances
Planning for the impact of inflation on savings and loan industry—Part 5
Review of scheduled items and loans to facilitate (as related to punitive action)
Loan repayment terms
Restructuring of the Federal Home Loan Bank System

WEDNESDAY, JULY 23

- 9-11 a.m.— General Discussion

The meeting will be open to the public on July 21 from 9-5, on July 22 from 9-5, and on July 23 from 9-5.

GARTH MARSTON,
Board Member.

FEDERAL MARITIME COMMISSION**ATLANTIC AND GULF—INDONESIA
CONFERENCE ET AL.****Agreements Filed**

Notice is hereby given that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, (46 U.S.C. 814).)

Interested parties may inspect and obtain a copy of the agreements at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreements at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing,

may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before July 21, 1975. Any person desiring a hearing on the proposed agreements shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreements (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreements Filed by:

John R. Mahoney, Esq., Casey, Lane & Mitendorf, 26 Broadway, New York, New York 10004.

The Atlantic and Gulf—Indonesia Conference and the Atlantic and Gulf—Singapore, Malaya and Thailand Conference have filed identical amendments to their conference agreements. These amendments, Agreements Nos. 8080-11 and 8240-9 respectively, would extend the geographic scope of each agreement to include ports, points and places on inland waterways which inland waterways are tributary to the ocean ports and ranges included in the basic conference agreements.

Dated: June 26, 1975.

By Order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.75-17135 Filed 6-30-75;8:45 am]

[Agreement No. T-2879]

CASTLE & COOK TERMINALS LTD., ET AL.**Order Extending Expiration Date**

Agreement No. T-2879, between Castle & Cooke Terminals, Ltd., C. Brewer Corporation d.b.a. Hilo Transportation & Terminal Co., Honolulu Terminals Co., Ltd., Matson Terminals, Inc., McCabe, Hamilton & Renny Co., Ltd., Seatrain Terminals of California and Theo H. Davies & Company, Limited (Employes), establishes a formula and procedures for the continuing allocation among the Employers of the costs of certain fringe benefits payable to their employees under the terms of collective bargaining agreements with the International Longshoremen's and Warehousemen's Union (ILWU).

Agreement No. T-2879 was approved by this Commission on February 27, 1974, and is scheduled to expire by its own terms on June 30, 1975.

Counsel for the Employers has advised us that the Employers and the ILWU have not been able to negotiate new collective bargaining agreements to succeed those agreements expiring June 30, 1975, due in part to delay in the settlement of the West Coast longshore negotiations. Accordingly, counsel for the Employers has requested that we extend Agreement No. T-2879 on an indefinite basis on its present terms and conditions, subject to cancellation upon notice by the parties to the Commission.

In our opinion, an indefinite extension of the subject agreement would operate in the public interest in that it would contribute to waterfront labor peace in Hawaii during the period of negotiation between the Employers and the ILWU. It is noted that all terms, conditions and parties to the agreement will remain unchanged; the agreement's expiration date is the only thing affected by the Employers' request. Since no change in the competitive impact of Agreement No. T-2879 would be created by extending that agreement, we believe that the public interest requires that the request for an extension be granted forthwith.

It is ordered, That Agreement No. T-2879 is hereby extended for an indefinite period on its present terms and conditions subject to cancellation upon notice by the parties to the Commission.

It is further ordered, That a copy of this Order shall be published in the FEDERAL REGISTER.

By the Commission June 24, 1975.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.75-17139 Filed 6-30-75;8:45 am]

**COMPANIA TRAA TLANTIC ESPANOLA S.A.
AND KONINKLIJKE NEDERLANDSCHE
STOOMBOOT-MAATSCHAPPIJ B.V.**

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, (46 U.S.C. 814)).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., San Juan, Puerto Rico and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before July 11, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by

a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

Elliot B. Nixon, Esquire, Burlingham Underwood & Lord, 25 Broadway, New York, New York 10004.

Agreement No. 10162, between Compania Trasatlantica Espanola S.A. (CTE) and Koninklijke Nederlandsche Stoomboot-Maatschappij B.V. (KNSM) would establish a joint service under the trade name of TRAS-ROYAL in the westbound and eastbound trades between, on the one hand, Italian ports and ports on the east and south coasts of Spain, as well as Marseilles and Lisbon, and, on the other hand, ports in Puerto Rico, under terms and conditions set forth in the agreement.

Dated: June 26, 1975.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.75-17138 Filed 6-30-75;8:45 am]

[NO. 73-28; 73-29]

**PUBLICATION OF DISCRIMINATORY
RATES IN THE U.S. WEST COAST/
JAPAN TRADE AND U.S. ATLANTIC AND
GULF/JAPAN TRADE**

Extension of Alternate Procedures

These proceedings were instituted by Commission order directing respondent conferences to show cause why certain rates in the U.S./Japan trades should not be altered or cancelled because they indicated a disparity between inbound and outbound rates. Subsequently, the Commission approved an alternative procedure permitting respondents and Hearing Counsel to resolve the issues informally. The authority for this procedure expires June 26, 1975.

Respondents have now moved for an extension of the alternate procedures until December 31, 1975. Hearing Counsel have advised that they have no objection to extension.

In light of the progress made to date under the alternate procedures it appears that an extension thereof is in order to permit a less expensive means of resolving the issues in this proceeding.

Accordingly, respondents petition for extension of alternate procedures to and including December 31, 1975, is hereby granted.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

[Docket No. 75-23]

**TRANS-PACIFIC FREIGHT CONFERENCE
(HONG KONG) AND NEW YORK
FREIGHT BUREAU (HONG KONG)**

Order To Show Cause

Pursuant to section 15 of the Shipping Act, 1916, the Trans-Pacific Freight

Conference (Hong Kong) has filed Agreement No. 14-42, and the New York Freight Bureau (Hong Kong) has filed Agreement No. 5700-23, with the Commission for approval. These Agreements modify the basic agreement of each conference by adding a new subparagraph to provide for the establishment of a Rate Policy Committee consisting of six (6) members and a Committee Chairman. Each committee would have the authority to consider and establish rates, including changes in rates (exclusive of rules, regulations and accessorial charges), and to delegate authority to the rates committees presently established under each agreement. Unless extended by the respective conference memberships, the authority of each Rate Policy Committee would terminate on October 31, 1975.

Notice of the filing of Agreements Nos. 14-42 and 5700-23 was published in the FEDERAL REGISTER on May 6, 1975. Pursuant to that notice, protests and requests for a hearing were filed by Zim Israel Navigation Co., Ltd. (Zim), Orient Overseas Line (OOL) and Orient Overseas Container Line (OOCL), independent carriers in the trades covered by the Agreements.

The protestants object to the approval of Agreements Nos. 14-42 and 5700-23 on the grounds that the Agreements (1) fail to provide reasonable and equal terms and conditions for admission and readmission to conference membership of other qualified carriers in the trade, in violation of section 15 of the Act; (2) would discriminate against OOL, OOCL, and Zim, in violation of section 15 of the Act; and (3) would subject OOL and OOCL to undue or unreasonable prejudice or disadvantage, in violation of section 16, First of the Act.

A reply to the protests and comments has been filed by the New York Freight Bureau (Hong Kong), the Trans-Pacific Freight Conference (Hong Kong), and the member lines of each, alleging the lawfulness of the Agreements, and asserting that the interest of the protestants is remote; that the protestants' contentions are extremely speculative; and, that the assertions of the protestants are without factual support.

Section 15 of the Shipping Act, 1916, provides:

The Commission shall by order, after notice and hearing, disapprove, cancel or modify any agreement, or any modification or cancellation thereof, whether or not previously approved by it, that it finds to be unjustly discriminatory or unfair as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors, or to operate to the detriment of the commerce of the United States, or to be contrary to the public interest, or to be in violation of this Act, and shall approve all other agreements, modifications, or cancellations.

The Commission has considered the protests and requests for hearing, and the replies thereto. Deeming it just and proper that the protestants should be permitted to support their protest of these agreements, the Commission has determined to afford the parties a hearing in this matter. However, recognizing the desire of the conferences for expedition, and balancing that against the interests of the protestants, the Commission has determined that an evidentiary hearing, at this time, is neither appropriate nor required.

Therefore, *It is ordered*, That pursuant to sections 15 and 22 of the Shipping Act, 1916, Zim Israel Navigation Co., Ltd., Orient Overseas Line, and Orient Overseas Container Line are ordered to show cause why Agreement No. 14-42 and Agreement No. 5700-23 should not be approved pursuant to section 15 of the Shipping Act, 1916.

It is further ordered, That this proceeding shall be limited to the submission of affidavits of fact and memoranda of law, and replies thereto. Should any party feel that an evidentiary hearing is required, that party shall accompany any request for such a hearing with a statement setting forth in detail the facts to be proven in such a hearing, a description of the evidence to be used to prove those facts, the relevance of those facts to the issues in this proceeding, and why such proof cannot be submitted through affidavits. Affidavits of fact, memoranda of law, and requests for an evidentiary hearing shall be filed by Zim Israel Navigation Co., Ltd., Orient Overseas Line, and Orient Overseas Container Line, if at all, on or before July 17, 1975. Reply affidavits, memoranda or requests shall be filed by Hearing Counsel, the New York Freight Bureau (Hong Kong) and its members, the Trans-Pacific Freight Conference (Hong Kong) and its members, if at all, on or before July 31, 1975. The parties herein shall address themselves to, among other things, the desirability of oral argument herein. Unless the Commission shall grant an evidentiary hearing herein, or oral argument, or both, this matter shall be decided upon the written submissions filed herein.

It is further ordered, That this Order shall be served upon Orient Overseas Lines, Orient Overseas Container Line, Zim Israel Navigation Co., Ltd., the New York Freight Bureau (Hong Kong) and its members, the Trans-Pacific Freight Conference (Hong Kong) and its members, and Hearing Counsel.

It is further ordered, That all documents filed by any party herein shall be directed to the Secretary, Federal Maritime Commission, Washington, D.C. 20573 in an original and 15 copies, and shall be served upon all parties herein on the date those documents are filed with the Secretary.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

[FR Doc.75-17142 Filed 6-30-75;8:45 am]

FEDERAL POWER COMMISSION

[Docket No. RP72-110, PGA 75-9]

ALGONQUIN GAS TRANSMISSION CO.**Rate Change Pursuant to Purchased Gas Cost Adjustment Provision**

JUNE 24, 1975.

Take notice that Algonquin Gas Transmission Company ("Algonquin Gas"), on May 29, 1975, tendered for filing Revised Second Substitute Sixth Revised Sheet No. 10 and Second Substitute Sixth Revised Sheet No. 10 to its FPC Gas Tariff, First Revised Volume No. 1.

These sheets are being filed pursuant to Algonquin Gas' Purchased Gas Cost Adjustment Provision set forth in section 17 of the General Terms and Conditions of its FPC Gas Tariff, First Revised Volume No. 1. The rate change is being filed under Algonquin Gas' Revised Second Substitute Sixth Revised Sheet No. 10 to reflect a change in its purchased gas costs (including amounts associated with small producer and emergency purchases in excess of the national rate level established in the Commission's Opinion No. 699-H) to be paid to its supplier, Texas Eastern Transmission Corporation ("Texas Eastern"). In the event the Commission should suspend for one day the underlying tariff page of Texas Eastern, Algonquin Gas also filed Second Substitute Sixth Revised Sheet No. 10 which reflects a change in the cost of purchased gas (exclusive of amounts associated with small producer and emergency purchases in excess of the Commission's Opinion No. 699-H) from its supplier, Texas Eastern. Algonquin Gas requests that the Commission accept for filing the appropriate tariff sheet or sheets to be effective July 1, 1975 which will synchronize its rates with those of Texas Eastern.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8; 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 8, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

CITIES SERVICE OIL CO. AND CONTINENTAL OIL CO.**Extension of Time**

JUNE 24, 1975.

On June 20, 1975, the Associated Gas Distributors filed a motion to extend the

date for filing briefs on exceptions to the initial decision of the Presiding Administrative Law Judge issued May 29, 1975, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the date for filing briefs on exceptions in the above matter is extended to and including August 29, 1975, and the date for briefs opposing exceptions is extended to and including September 18, 1975.

MARY B. KIDD,
Acting Secretary.

[Docket Nos. RP75-86, RP75-83, RP75-85]

COLORADO INTERSTATE GAS CO.**Order Granting Intervention**

JUNE 24, 1975.

On March 31, 1975, the Colorado Interstate Gas Company, a division of Colorado Interstate Corporation (CIG), tendered for filing proposed changes in its FPC Gas Tariff, Second Revised Volume No. 1. Notice of CIG's filing was issued by the Commission on April 7, 1975, with protests and petitions to intervene due on or before April 21, 1975.

An untimely petition to intervene was filed by CF&I Steel Corporation. Having reviewed the above petition to intervene, we believe that the petitioner has sufficient interest in the proceedings to warrant intervention.

The Commission finds. It is desirable and in the public interest to allow the above-named petitioner to intervene.

The Commission orders. (A) The above-named petitioner is hereby permitted to intervene in these proceedings subject to the rules and regulations of the Commission: *Provided, however,* That participation of such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene: *And provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) The intervention granted herein shall not be the basis for delaying or deferring any procedural schedules heretofore established for the orderly and expeditious disposition of this proceeding.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. RP75-112]

COLORADO INTERSTATE GAS CO. AND COLORADO INTERSTATE CORP.**Proposed Changes in FPC Gas Tariff**

JUNE 24, 1975.

Take notice that Colorado Interstate Gas Company, a division of Colorado In-

terstate Corporation (CIG), on June 16, 1975, tendered for filing proposed changes in its FPC Gas Tariff, Second Revised Volume No. 2. CIG states that the proposed changes will make effective Initial Rate Schedule X-54, a Letter Agreement between CIG and Northern Natural Gas Company, operating as Peoples Natural Gas Division (Peoples), which provides charges for increased delivery pressure for gas volumes delivered at the existing Hugo, Colorado, delivery point during the months of June, July, and August.

CIG states that, in order for Peoples to serve its market requirements, from time to time during the period June through August Peoples requires more pressure at the Hugo delivery point than that available under CIG's normal summertime operating conditions. CIG has agreed to provide the necessary pressure up to the maximum under the Service Agreement to Peoples at Hugo on a "best efforts" basis. Peoples has agreed to reimburse CIG for the incremental cost of providing the higher delivery pressure. The proposed charge is \$250 times the number of compressor units placed in service up to a maximum of four units. CIG and Peoples have agreed that the minimum charge on any day when Peoples requests such increased pressure at the Hugo delivery point will be \$250.

An effective date of July 1, 1975, is requested.

CIG states that copies of the filing were mailed to Peoples.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 8, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[Docket No. RP72-89]

COLUMBIA GAS TRANSMISSION CORP.**Amendatory Compliance Filing**

JUNE 24, 1975.

Take notice that on June 13, 1975, Columbia Gas Transmission Corporation (Columbia) tendered for filing Fourth Revised Sheet No. 62A, for the purpose of excluding from the General Terms and Conditions of its FPC Gas Tariff, Original Volume No. 1, a paragraph relating to the compensation features of its curtailment provisions, which paragraph it inadvertently failed to delete from the revised tariff sheets tendered with its compliance filing of May 5, 1975. Columbia requests, in accordance with the Commission's order issued April 25, 1975, in the above captioned proceeding, that said Fourth Revised Sheet No. 62A be permitted to become effective as of May 1, 1975.

Copies of the filing were served upon Columbia's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, Union Center Plaza Building, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before July 3, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene in accordance with the Commission's rules. Persons that have previously filed a Notice or Petition for intervention in this proceeding need not file additional Notices or petitions to become parties with respect to the instant filing. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. RI75-146]

DEMOVA K. FROST AND THE APPLEBY FOUNDATION**Petition for Special Relief**

JUNE 24, 1975.

Take notice that on May 19, 1975, Demova K. Frost and the Appleby Foundation (Petitioner), PO Box 953, Midland, Texas 79701, filed a petition for special relief in Docket No. RI75-146, seeking a rate above the applicable area ceiling pursuant to Order No. 481 and § 2.76 of the Commission's Statements of General Policy and Interpretations under the Natural Gas Act. Petitioner seeks a rate of 45¢ per Mcf, with 1¢ per Mcf escalation each year, for the sale of gas to El Paso Natural Gas Company from the G. E. Allison Lease, North Branch Field,

Sutton County, Texas. Petitioner states that it will not be economically feasible to continue to produce this well at the current rate of 18.5¢ per Mcf.

Any person desiring to be heard or to make any protest with reference to said petition should on or before July 9, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

[Docket No. E-9498]

DUKE POWER CO.**Filing of Supplement to Contract**

JUNE 24, 1975.

Take notice that on June 16, 1975 Duke Power Company (Duke) tendered for filing a supplement to Duke Rate Schedule FPC No. 139. That rate schedule is the contract between Duke and Rutherford Electric Membership Corporation. The supplement provides for changes in designated Kw demand at various delivery points. Duke states that the changes are made at the request of and with the approval of the customer. The proposed effective date is July 21, 1975.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol

Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 16, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. RP75-1]

FLORIDA GAS TRANSMISSION CO.**Further Extension of Procedural Dates**

JUNE 24, 1975.

On May 8, 1975 and June 20, 1975, Sun Oil Company and Florida Gas Transmission Company, respectively, filed motions to extend the procedural dates fixed by order issued July 31, 1974, as most recently modified by notice issued April 2, 1975, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Company Rebuttal, July 30, 1975.
Hearing, August 26, 1975 (10 a.m., e.d.t.).

By direction of the Commission.

MARY B. KIDD,
Acting Secretary.

[FR Doc.75-17039 Filed 6-30-75;8:45 am]

[Docket No. RP75-53]

FLORIDA GAS TRANSMISSION CO.**Proposed Changes in Rates and Charges**

JUNE 24, 1975.

Take notice that on June 10, 1975, Florida Gas Transmission Company (Florida Gas) tendered for filing Substitute Eighth Revised Sheet No. 3-A to its FPC Gas Tariff, Original Volume No. 1, containing changes in rates in its Rate Schedules G and I for effectiveness on July 10, 1975. The changes in rates result from the application of the purchased gas cost adjustment provision in section 15, General Terms and Conditions of the tariff, which was approved by the Commission in Docket No. RP72-136.

The rates proposed by Florida Gas in Docket No. RP75-53 for service under Rate Schedules G and I initially filed January 10, 1975, do not reflect subsequent changes resulting from purchased gas cost adjustments. Accordingly, in Substitute Eighth Revised Sheet No. 3-A, Florida Gas has incorporated these changes in its G and I rates in Docket No. RP75-53 which were filed January 10, 1975 and suspended until July 10, 1975.

A comparison between the Docket No. RP75-53 rates and those to be made effective on July 10, 1975 under this filing is as follows:

	Cents per therm	
	Docket No. RP75-53 as filed Oct. 10, 1975	To become effective July 10, 1975
Rate schedule G---	7.500	7.632
Rate schedule I----	5.959	6.091

The annual effect on the proposed changes is \$978,000 above the Docket No. RP75-53 rates based on sales for the twelve months ended March 31, 1975.

Florida Gas states that a copy of its filing has been served upon all customers purchasing gas under its FPC Gas Tariff, Original Volume No. 1 and the Florida Public Service Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 8, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.75-17040 Filed 6-30-75;8:45 am]

[Docket No. E-9490]

**KANSAS POWER AND LIGHT CO. AND
CENTRAL KANSAS POWER CO., INC.**

Joint Application for Approval of Statutory Merger

JUNE 24, 1975.

Take notice that on June 11, 1975, Kansas Power and Light Company (KP&L) and Central Kansas Power Company (CKP) filed a joint application with the Federal Power Commission, pursuant to the provisions of section 203 of the Federal Power Act, for an order authorizing the statutory merger of the two corporations with the Kansas Power and Light Company remaining as the surviving corporation.

Kansas Power and Light Company is incorporated under the laws of the State of Kansas, with its principal business office at Topeka, Kansas, and is primarily engaged in the business of generation, transaction, distribution and sale of electric energy and the purchase, transmission, distribution and sale of natural gas in the northeastern and central por-

tions of Kansas, aggregating approximately 27,500 square miles or about 33 percent of the area of the State. The population of the territory that KP&L provides with one or more retail or wholesale services is approximately 900,000.

Central Kansas Power Company is incorporated under the laws of the State of Kansas, with its principal business office at Hays, Kansas, and provides electric power to approximately 16,200 customers in 42 communities in northwestern Kansas; provides natural gas to about 8,000 customers located in four communities in said area; and operates a water plant serving about 700 customers.

The merger is to be accounted for under generally accepted accounting principles applicable to this type of transaction. The Uniform System of Accounts of the Kansas Commission and the Federal Power Commission require that the amounts recorded by the company for utility plant in service be the original cost of the property at the time it was first devoted to public service. Original cost is the amount at which the property is carried on the books of CKP and also the amount anticipated to be recovered through rates in the future. The excess of the purchase price over the net book value of assets acquired less liabilities assumed, which it estimated to be \$1,118,000, will be recorded as a Plant Acquisition Adjustment to be amortized over the remaining lives of the related assets.

The application proposes a statutory merger under which all facilities of CKP for the operation of electric, gas and water services will be merged into KP&L and operated thereafter by KP&L, the surviving company, along with the existing electric, gas and steam facilities of that company. All outstanding contracts or other obligations for the purchase, sale or interchange of electric energy between CKP and their parties will be assumed and performed by KP&L as the surviving corporation and the merger will not adversely affect the satisfactory performance of any such contracts.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 18, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

MARY B. KIDD,
Acting Secretary.

[Docket No. CS73-15, etc.]

**LEON L. HOYT, JR. AND
HUGHES SEEWALD ET AL.**

**Applications for "Small Producer"
Certificates¹**

JUNE 24, 1975.

Take notice that each of the Applicants listed herein has filed an application pursuant to section 7(c) of the Natural Gas Act and § 157.40 of the regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before July 23, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

MARY B. KIDD,
Acting Secretary.

MARATHON OIL CO., ET AL.

Rate Change Filings

JUNE 23, 1975.

Take notice that the producers listed in the Appendix attached below have filed proposed increased rates to the applicable new gas national ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 699-H, issued December 4, 1974. Pursuant to Opinion No. 699-H the rates, if accepted, will become effective as of the date of filing.

The information relevant to each of these sales is listed in the Appendix below.

Any person desiring to be heard or to make any protest with reference to said filings should on or before July 7, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure

(18 CFR 1.8 or 1.10). A protest will not serve to make the protestant a party to the proceeding. Any party wishing to become a party to a proceeding must file

a petition to intervene in accordance with the Commission's rules.

[Docket No. CP72-184]

MICHIGAN WISCONSIN PIPE LINE CO.

Petition To Amend

JUNE 23, 1975.

Take notice that on June 16, 1975, Michigan Wisconsin Pipe Line Company (Petitioner), One Woodward Avenue, Detroit, Michigan 48226, filed in Docket No. CP72-184 a petition to amend the order of the Commission issued in said docket on June 1, 1972, as amended on July 26, 1973, pursuant to Section 7(c) of the Natural Gas Act by authorizing an increase in the daily redelivery rate of natural gas stored by Petitioner for Wisconsin Southern Gas Company, Inc. (Wisconsin Southern), from 4,000 Mcf to 6,000 Mcf, all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner states that the Commission authorized by its order of June 1, 1972, as amended July 26, 1973, Petitioner to store natural gas for and to deliver gas to Wisconsin Southern. Petitioner further states that the amended order authorized it to store an annual volume of up to 400,000 Mcf of gas and to redeliver up to 4,000 Mcf of gas per day. The gas is delivered to Petitioner in the summer months for redelivery during the period from November 1 to the next succeeding March 1. Petitioner requests authorization in the instant petition to increase the volume to be redelivered per day by 2,000 Mcf, to a proposed maximum of 6,000 Mcf of gas per day. Petitioner further states that the proposed increase in available daily deliveries is pursuant to an agreement dated March 1, 1975, amending the Storage Agreement to provided for the service requested by Wisconsin Southern to assist Wisconsin Southern in meeting anticipated winter peak requirements. No increase in the annual storage volume is proposed.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before July 10, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the

Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

MARY B. KIDD,
Acting Secretary.

[Docket No. E-9499]

MINNESOTA POWER & LIGHT CO.

Filing of Electric Service Agreement

JUNE 24, 1975.

Take notice that on June 16, 1975, Minnesota Power & Light Company (MP&L) tendered for filing an Electric Service Agreement dated June 11, 1975, between the City of Wadena, Minnesota and MP&L.

MP&L states that this Agreement replaces Federal Power Commission Rate Schedule No. 28 which has expired and that this new Agreement will have no anticipated effect upon revenue.

MP&L states that service has been made upon the City of Wadena in accordance with § 35.2(d) of the Commission's regulations.

MP&L requests the Agreement become effective as soon as possible under the Commission's regulations.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 8, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person

wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Acting Secretary.

[FR Doc.75-17044 Filed 6-30-75;8:45 am]

[Docket No. CP75-357]

NATIONAL FUEL GAS SUPPLY CORP.

Application

JUNE 23, 1975.

Take notice that on June 5, 1975, National Fuel Gas Supply Corporation (Applicant), 308 Seneca Street, Oil City, Pennsylvania 16301, filed in Docket No. CP75-357 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale and transportation of natural gas from supplemental sources to its non-affiliated wholesale customers, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that it is a natural gas company that sells at wholesale to three non-affiliated customers, Mercer Gas Company (Mercer), North East Heat & Light Co. (North East), and the Peoples Natural Gas Co. (Peoples) and to its affiliate, National Fuel Gas Distribution Corporation (Distribution). Sales to the non-affiliated customers together are said to account for 1.33 percent of Applicant's total sales. Applicant alleges that Distribution purchases at \$1.33 per Mcf subject to adjustment, a higher cost than that of natural gas from historic sources, synthetic natural gas (SNG) from Ashland Oil, Inc., and that in the future it will purchase SNG from the Columbia Gas System and other sources. Applicant states that the SNG so purchased becomes part of the total supply of Applicant's system.

Applicant proposes to sell gas to its non-affiliated customers both from historic and supplemental sources. Applicant states that it would not transport any SNG purchased by Distribution, but that the SNG deliveries would be made by displacement. Applicant further states that these supplemental supplies would be on a firm basis and not subject to curtailment except as provided under Applicant's FPC Gas Tariff, Original Volume No. 1, sections 10 and 16 of the General Terms and Conditions. Applicant alleges that Mercer, North East, and Peoples have agreed to purchase the SNG on a *pro rata* basis¹ at the cost to the system. Applicant states that the supplies from traditional sources of natural gas have been declining since 1971 and that the supplemental supply would be used to offset the decline and minimize the curtailments of Applicant's deliveries in the future. Applicant states that it is requesting that this service be authorized by July 1, 1975 and that no facilities would

need to be constructed to implement this proposal. No change in delivery volumes is proposed. The instant proposal is intended, according to Applicant, to permit the non-affiliated customers to bear a share of the higher system costs of purchased gas.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 10, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

	Pro rata basis (percent)	Initial annual supplemental supply (in thousand cubic feet)	
		Reflecting Ashland supply	Reflecting Columbia supply
Mercer Gas Co.....	0.22	38,500	937
North East Heat & Light Co.....	0.42	73,500	1,789
The Peoples Natural Gas Co.....	0.69	120,750	2,940
	1.33	232,750	5,666

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

MARY B. KIDD,
Acting Secretary.

[Docket No. RP71-125, PGA75-12]

NATURAL GAS PIPELINE COMPANY OF AMERICA

PGA Filing To Track a Pipeline Supplier Rate Increase and Elimination of Special One-Time PGA Surcharge

JUNE 25, 1975.

Take notice that on June 16, 1975, Natural Gas Pipeline Company of Amer-

ica (Natural) submitted for filing as part of its FPC Gas Tariff, Third Revised Volume No. 1, Substitute Twenty-Fourth Revised Sheet No. 5, to be effective August 1, 1975.

Natural states the purpose of this filing is:

1. To track the increased cost of gas purchased from Colorado Interstate Gas Company (Colorado) and Great Lakes Gas Transmission Company (Great Lakes) pursuant to the provisions of section 18, Purchased Gas Cost Adjustment, of the General Terms and Conditions of Natural's FPC Gas Tariff. Colorado's filing of June 6, 1975 and Great Lakes' filing of June 13, 1975 were filed to reflect increase from their suppliers due to an increase in the cost of Canadian gas to be effective August 1, 1975.

2. To eliminate the special one-time PGA surcharge of 3.31 cents that became effective February 5, 1975, as provided for in the Commission's Opinion No. 699-G at Docket No. R389-B. This surcharge was designed to be effective for a six month period from February 5, 1975; however, Natural is requesting that the reduction become effective August 1, 1975, to coincide with the effective date of the pipeline increases being tracked herein.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 16, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[Docket No. CS71-6]

NORTHERN NATURAL GAS CO. AND JOHN L. CRAWFORD

Extension of Time for Filing Interventions

JUNE 24, 1975.

On June 23, 1975, Dow Chemical Company and Dan J. Harrison, Jr., et al., jointly filed a motion to extend the time for filing interventions fixed by notice issued May 30, 1975, in the above-designated matter. The motion states Northern Natural Gas Company has been notified and has no objection.

Upon consideration, notice is hereby given that the date for filing petitions to intervene is extended to and including June 30, 1975.

MARY B. KIDD,
Acting Secretary.

[FR Doc.75-17046 Filed 6-30-75;8:45 am]

¹ The resultant annual volumes of supplemental supply are said to be as follows:

[Docket No. CP74-31]

NORTHERN NATURAL GAS CO.**Petition To Amend**

JUNE 25, 1975.

Take notice that on June 16, 1975, Northern Natural Gas Company (Petitioner), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP74-31 a petition to amend the order of the Commission issued pursuant to section 7(c) of the Natural Gas Act in said docket by conforming the authorization granted therein to the facilities constructed in excess of authorized costs, all as more fully set forth in the petition on file with the Commission and open to public inspection.

By order issued October 3, 1973 (50 FPC 1004), Petitioner was authorized to construct unspecified gas purchase facilities within the contemplation of § 157.7(b) of the regulations under the Natural Gas Act (18 CFR 157.7(b)). Said facilities were not to exceed a total cost of \$7,000,000 nor was any individual project to exceed a cost of \$1,000,000.

Petitioner states that it constructed a 2,000 h.p. compressor addition, estimated to cost \$923,000 but actually costing \$1,174,606, at its Hugoton Station and a 2,000 h.p. compressor addition, estimated to cost \$924,000 but actually costing \$1,185,631, at its Hemphill County No. 2 gathering station. Petitioner attributes the excess costs at the Hugoton station to the increased costs of labor and materials and the excess costs at the Hemphill station to increased costs of materials. Total expenditures for all facilities are said to have been \$7,293,856.

Petitioner requests that the order granting the authorization for the subject facilities be amended to conform the certificate to the actual costs.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before July 17, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

MARY B. KIDD,
Acting Secretary.

[Project No. 502]

PACIFIC GAS AND ELECTRIC CO.**Issuance of Annual License**

JUNE 24, 1975.

On October 31, 1963, Pacific Gas and Electric Company, Licensee for Drum-

Spaulding-Summit Transmission Line Project No. 502, located in Nevada County, State of California, filed an application for surrender of license. On the same date, Pacific Gas and Electric Company filed an application for amendment of license for Project No. 2310. The proposed amendment would incorporate the Drum-Spaulding-Summit transmission line as a part of the license for Project No. 2310, to be effective the date of the surrender of the license for Project No. 502.

The license for Project No. 502 was issued effective June 23, 1974, for a period ending June 23, 1974. Since the original date of expiration, the project has been under annual license. In order to authorize the continued operation and maintenance of the project pending Commission action on Licensee's application to surrender or the filing of an application for a new license and Commission action thereon, it is appropriate and in the public interest to issue an annual license to Pacific Gas and Electric Company for continued operation and maintenance of Project No. 502.

Take notice that an annual license is issued to Pacific Gas and Electric Company (Licensee) for the period June 24, 1975, to June 23, 1976, or until amendment of the license for Project No. 2310, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of Drum-Spaulding-Summit Transmission Line Project No. 502, subject to the terms and conditions of its present license.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7777; (Phase II)]

PACIFIC GAS AND ELECTRIC CO.**Further Extension of Procedural Dates; Correction**

JUNE 10, 1975.

In the notice of further extension of procedural dates, issued May 29, 1975, and published in the FEDERAL REGISTER on June 5, 1975, 40 FR 24246, the above notice should be corrected to add the following service date:

Service of Staff Testimony, August 28, 1975.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-17049 Filed 6-30-75;8:45 am]

[Docket No. E-8882]

PUBLIC SERVICE COMPANY OF COLORADO**Filing of Proposed Stipulation and Agreement of Settlement**

JUNE 24, 1975.

Take notice that on June 19, 1975, Public Service Company of Colorado (PSCC) tendered for filing a proposed Stipulation and Agreement of Settlement which, if approved, would dispose of all of the issues in this proceeding with one exception. The Agreement provides that certain matters enumerated therein which

pertain to PSCC's service to Intermountain Rural Electric Association will be resolved before or during PSCC's next general rate increase filing, to be made before December 31, 1975. PSCC states that neither the Public Utilities Commission of Colorado, nor Central Telephone and Utilities Corporation, Southern Colorado Power Division, the only other parties to this proceeding, objects to the proposed Agreement.

Inasmuch as the terms of the Agreement require that the Commission waive the notice requirements of its Regulations, PSCC requests a waiver according to said terms.

PSCC states that copies of the proposed Agreement have been sent to all interested parties.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 7, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.75-17050 Filed 6-30-75;8:45 am]

[Docket No. CP71-273]

SOUTHERN NATURAL GAS CO.**Petition To Amend**

JUNE 24, 1975.

Take notice that on June 12, 1975, Southern Natural Gas Company (Petitioner), PO. Box 2563, Birmingham, Alabama 35202, filed in Docket No. CP71-273 a petition to amend the order of the Commission issued October 8, 1971, pursuant to section 7(c) of the Natural Gas Act by authorizing the construction and operation of 22 additional injection-withdrawal wells, 3 observation wells, 2.9 miles of pipeline, and various appurtenant facilities, in Muldon Field, Monroe County, Mississippi, to increase the storage capacity of that field, all as more fully set forth in the petition on file with the Commission and open to public inspection.

Petitioner requests authorization to construct and operate 22 additional injection-withdrawal wells, 3 observation wells, certain wellhead measuring facilities and other ancillary facilities, dehydration, regulating and measurement facilities at the central plant, and 1.0 mile of 12-inch pipeline, 0.2 mile of 10-inch pipeline, and 1.7 miles of 8-inch pipeline to connect the proposed injection-withdrawal wells with the central plant. Petitioner further requests that the order be amended to authorize cer-

tain alterations in Petitioner's regulating equipment located at its existing North Main Line facilities near Brooksville Junction. Petitioner also requests authorization to increase the active working gas inventory from approximately 42,800,000 Mcf to approximately 52,000,000 Mcf which would be available for withdrawal during winter heating seasons at a maximum daily rate of approximately 750,000 Mcf.

Petitioner alleges that the proposed changes would increase the maximum withdrawal rate from the Muldon Field during peak demand days from approximately 459,000 Mcf to approximately 750,000 Mcf and increase the working gas capacity of the field from approximately 42,800,000 Mcf to approximately 52,000,000 Mcf, and that these increases would be accomplished without increasing the maximum inventory of gas stored in the reservoir or additional compression facilities. Petitioner estimates that the costs of the proposed facilities would be \$15,019,070, which would be paid from cash on hand and from Petitioner's credit sources.

Petitioner alleges that the proposed facilities would further assist Petitioner in serving its Priority 1 and 2 requirements during winter heating seasons.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before July 14, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

MARY B. KIDD,
Acting Secretary.

[FR Doc.75-17051 Filed 6-30-75;8:45 am]

[Docket No. CP75-163]

SOUTHERN NATURAL GAS CO.

Petition To Amend

JUNE 23, 1975.

Take notice that on May 14, 1975, Southern Natural Gas Company (Petitioner), P.O. Box 2563, Birmingham, Alabama 35202, filed in Docket No. CP75-163 a petition to amend its application of November 26, 1974, for a certificate of public convenience and necessity authorizing the construction of certain facilities, to wit approximately 1½ miles of 18-inch pipeline and one 3,600 h.p. compressor in St. Mary Parish near Shady-side, Louisiana, all as more fully set forth in the petition on file with the Commission and open to public inspection.

Petitioner alleges that it has filed a general rate increase pursuant to section 4 of the Natural Gas Act and anticipates that the rate increase will become effective on October 16, 1975. As a result of this increase, Petitioner states that the cost of service for the subject facilities would increase.

The application of November 26, 1974, indicates that the incremental cost of service for the subject facilities for the first three years of operation would be \$597,781, \$572,546 and \$549,584, respectively; and the instant petition indicates that the incremental cost of service after the rate increase for the first three years of operation would be \$953,609, \$905,707 and \$860,176, respectively.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before July 2, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

MARY B. KIDD,
Acting Secretary.

[Docket No. RP74-41, PGA 75-9]

TEXAS EASTERN TRANSMISSION CORP.

Proposed Changes in FPC Gas Tariff

JUNE 24, 1975.

Take notice that Texas Eastern Transmission Corporation on June, 1975 tendered for filing proposed changes in its FPC Gas Tariff, Fourth Revised Volume No. 1, the following sheets:

Thirteenth Revised Sheet No. 14
Thirteenth Revised Sheet No. 14A
Thirteenth Revised Sheet No. 14B
Thirteenth Revised Sheet No. 14C
Thirteenth Revised Sheet No. 14D

These sheets are issued pursuant to the purchased gas cost adjustment provision contained in section 23 of the General Terms and Conditions of Texas Eastern's FPC Gas Tariff, Fourth Revised Volume No. 1. The change in Texas Eastern rates proposed by this filing reflects changes in the cost of gas purchased from two of Texas Eastern's pipeline suppliers, Southern Natural Gas Company and Texas Gas Transmission Corporation. The proposed effective date of the above tariff sheets is August 1, 1975.

Copies of the filing were served upon the company's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal

Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 14, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.75-17053 Filed 6-30-75;8:45 am]

[Docket Nos. RP74-25, RP72-156, PGA75-2, PGA75-2A]

TEXAS GAS TRANSMISSION CORP.

Order Setting Date for Hearing

JUNE 17, 1975.

On June 13, 1974, Texas Gas Transmission Corporation (Texas Gas) tendered for filing a proposed tariff sheet¹ providing for a purchased gas cost adjustment (PGA) rate increase. Commission review of the June 13 filing indicated that Texas Gas was making emergency purchases from eleven producers at rates above the national rate established by Opinion No. 699² at that time. By order of July 31, 1974, Docket No. RP72-156, the Commission found that the claimed increased costs not pertaining to emergency purchases at rates in excess of Opinion No. 699 levels were justified, but that those pertaining to such emergency purchases should be suspended for one day until August 2, 1974.

Texas Gas on December 26, 1974, filed settlement rates approved by order issued December 20, 1974, in Docket No. RP74-25, adjusted to reflect and supersede the cumulative effect of PGA rate increase filings made by it December 16 and 23, 1974.³ By order of January 31, 1975, Docket Nos. RP74-25, RP72-156, PGA75-2, and PGA75-2A, the Commission found that the claimed costs of the December 26 filing other than those associated with emergency purchases at rates in excess of Opinion No. 699-H levels were justified, but that those associated with such emergency purchases should be suspended for one day until February 2, 1975.

Texas Gas' PGA rate increase filings in the instant dockets, discussed above, raise a question as to whether the in-

¹ Tenth Revised Sheet No. 7 to FPC Gas Tariff Third Revised Volume No. 1.

² Opinion No. 699, Docket No. R-389-B, Opinion And Order Prescribing Uniform National Rate For Sales Of Natural Gas Produced From Wells Commenced On Or After January 1, 1973, And New Dedications Of Natural Gas To Interstate Commerce On Or After January 1, 1973, issued June 21, 1974. That opinion was modified by Opinion No. 699-H issued December 4, 1974.

³ Fifth Substitute Tenth Revised Sheet No. 7 to Third Revised Volume No. 1.

creased costs claimed therein relating to emergency gas purchases at rates in excess of Opinion No. 699-H levels are justified.⁴

We indicated in Order No. 491-B issued November 2, 1973, mimeo p. 13, that we would "scrutinize the rates of all 180 day emergency purchases in the review of purchased gas costs in pipeline rate proceedings, including purchased gas adjustment clause increases." We made it clear that we would "permit the pipeline to pass on to the consumer the rates of emergency purchases only when such rates can be shown to have been required by the public interest." Accordingly, we are setting these matters for hearing to give Texas Gas an opportunity to show that the prices paid by it for emergency sales made by producers pursuant to Order No. 491 as amended, which are reflected in its PGA increases, are in the public interest. In this connection we shall also make the producers involved respondents herein so that they may present project cost evidence to show that the rates charged by them are in the public interest.⁵ These producers are listed on the Appendix hereto.

Cost evidence relating to the producer sales under Order No. 491 can clearly provide the basis for "just and reasonable" rate findings. "F.P.C. v. Texaco Inc.", 417 U.S. 380 (1974). It follows then, that the producer should introduce relevant evidence of the cost involved in its sale. Such evidence shall be considered together with all other material evidence which would support a finding of a just and reasonable rate in excess of the national rate.

The cost evidence submitted by the producer should include, *inter alia*, the direct and indirect costs, including the cost of all capital funds reasonably allocated to its sale. In addition, the producer should indicate the price for which the subject gas is now being sold, whether in intrastate or interstate commerce.

The pipeline should submit evidence as to (1) its need for the gas, (2) the availability of other gas supplies, (3) the amount of gas purchased from the producer involved under the emergency provisions of Order No. 491, as amended, (4) the rates of other producer sales under Order No. 491 approved for flow through, and (5) the prevailing prices in the area for both interstate and intrastate sales of gas.

Finally, the parties may submit any other evidence relevant to the Commission's determination of whether the rates paid by the pipeline with respect to sales under Order No. 491, as amended, are in the public interest.

The Commission finds. It is necessary

⁴ There is no need for Texas Gas to present any evidence with respect to those emergency sales reflected in its filing in Docket No. RP72-156, which exceed the rate established in Opinion No. 699 but do not exceed the higher rate prescribed in Opinion No. 699-H to be effective as of June 21, 1974.

⁵ Under Order No. 491-B producers are not required to make any refunds.

and in the public interest that the above-docketed proceeding be set for hearing.

The Commission orders. (A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7, 14 and 16 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), Docket Nos. RP74-25, RP72-156, PGA75-2, and PGA75-2A, are set for the purpose of hearing and disposition with respect to the emergency purchases of Texas Gas discussed in the body of this order.

(B) A public hearing on the issues presented herein shall be held commencing on July 30, 1975, at 10 a.m. (EDT) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

(C) The producers listed on the Appendix hereto are hereby made respondents in this proceeding.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5 (d)) shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

(E) Texas Gas and the producers listed in the Appendix shall file their direct testimony and evidence on or before July 16, 1975. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, the Commission Staff, and all parties.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. E-9385]

UNION ELECTRIC CO.

Compliance Filing

JUNE 23, 1975.

Take notice that on June 16, 1975, the Missouri Utilities Company (Missouri) tendered for filing a Certificate of Concurrence asserting to and concurring with the supplement to its electric service agreement filed by Union Electric Company (Union) in this proceeding on April 17, 1975. This filing is made pursuant to a deficiency letter from the Secretary of the Federal Power Commission, dated May 13, 1975.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All

such petitions or protests should be filed on or before July 3, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RP74-20, RP74-83]

UNITED GAS PIPE LINE CO.

Conference

JUNE 23, 1975.

Take notice that on Tuesday, July 1, 1975, a conference of all interested parties in the above-referenced dockets will be convened at 11 a.m., in Room 5200 at the offices of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

The conference will be held pursuant to § 1.18 (Conferences, Offers of Settlement) of the Commission's rules of practice and procedure (18 CFR 1.8). Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, such attendance at the conference will not be deemed to authorize such intervention as a party in the proceedings.

In accordance with the provisions of Section 1.18 of the Rules, all parties will be expected to come fully prepared to discuss the merits of all issues concerning the lawfulness of United Gas Pipe Line Company's proposed tariff changes, any procedural matters preparatory to a full evidentiary hearing, or to make commitments with respect to such issues and any offers of settlement or stipulations discussed at the conference.

UNITED GAS PIPE LINE CO. ET AL.

Order Reopening Record and Establishing Procedures To Consider Proposed Settlement

JUNE 17, 1975.

Public notice is hereby given that on May 8, 1975, United Gas Pipe Line Company (United) filed with the Commission a motion pursuant to § 1.12 of the Commission's rules of practice and procedure for an order which would reopen the record in the captioned proceeding for the limited purpose of admitting and considering certain proposed settlement agreements, gas purchase contracts, guaranty agreements and releases submitted therewith and collectively designated as "Appendix A". United represents that its motion has the full support

UNITED-NEC AGREEMENT

of Billy J. McCombs, R. James Stillings, d/b/a Gastill Company, David A. Onsgard, Basin Petroleum Corporation, E. I. du Pont de Nemours & Company and Bill Forney (collectively designated as the McCombs Group); Louis H. Haring, Jr. (Haring) and National Exploration Company (NEC), all respondents herein. No answers have been filed although the time for doing so has expired.

United asserts in support of its motion that on October 9, 1973, it filed a complaint in Docket No. CP74-94 against the members of the McCombs Group (except Mr. Forney, who was made a respondent later), Haring and NEC alleging, in substance, that they were violating section 7 of the Natural Gas Act by participating in the sale of natural gas in intrastate commerce from the Butler B lease in Goliad and Karnes Counties, Texas, which acreage had been dedicated to United in interstate commerce under a gas purchase contract dated April 29, 1953 (the 1953 Contract), between United and Mrs. Bee Quin, individually and as independent executrix of the estate of W. R. Quin, pursuant to certificates of public convenience and necessity issued by the Commission in Docket Nos. G-2997 and G-2998. United asserts, further, that it requested that the respondents be ordered to deliver to it all gas produced from or attributable to the Butler B lease, and that they be required to deliver to it volumes equivalent to those previously produced from or attributable to such lease. United asserts, still further, that the respondents denied its claims; that the Commission instituted a proceeding by order dated November 27, 1973, for the purpose of investigating its complaint; that hearings were held before an administrative law judge who issued an initial decision on April 26, 1974; and that exceptions were filed by all parties which are now pending before the Commission.

Additionally, United asserts that nearly two years of settlement efforts by all parties have resulted in the execution of three settlement agreements which are intended to resolve all controversies existing between United and each of the three groups in this proceeding—the McCombs Group, Haring (which is now said to be the Haring Group) and NEC. United asserts, further, that effectiveness of all of the agreements is specifically conditioned on approval in their entirety of the agreements, which cover future sales of gas from the Butler B lease and other acreage, may be summarized as follows:

UNITED-HARING AGREEMENT

United and Haring have agreed to amend certain portions of the 1953 Contract including the minimum volume, measurement, pricing and tax reimbursement provisions thereof. The amended agreement provides for the sale to United of gas produced from that portion of the Butler B lease to which Haring holds title at a price of 60 cents per Mcf through November 1, 1975, with one cent annual escalations thereafter. Such sales will be made by Haring under his existing small producer certificate issued in Docket No. CS72-778.

United and NEC have entered into a new gas purchase contract covering gas produced from and attributable to NEC's interest in the Butler B lease, subject to the reservation by NEC of sufficient gas for development and operation of its Butler B leasehold, the processing, treating or compressing of gas produced from such leasehold, and the supplying of gas to its lessors. The contract calls for a price of 60 cents per Mcf through November 1, 1975, with one cent annual escalations thereafter. NEC intends to make this sale under its small producer certificate issued in Docket No. CS71-484. This new gas purchase contract completely supersedes the 1953 Contract except for any and all obligations of warranty owed to United with respect to gas delivered thereunder.

UNITED-McCOMBS GROUP AGREEMENT

The McCombs Group agrees to make available for delivery to United quantities of gas not to exceed 8.5 Bcf, produced from the following wells: (1) Basin Petroleum Corp. No. 1 Marie Fruge Well, N.W. Chalkley Field, Calcasieu Parish, Louisiana; (2) Basin Petroleum Corp. No. 1 Miami Corp. Well, Bayou Sale Field, St. Marys Parish, Louisiana; (3) Bill Forney No. 1 Wychopen Well, Unnamed Field, Wharton County, Texas; (4) Bill Forney No. 1 Hutchins-Pearson Well, Unnamed Field, Wharton County, Texas; (5) Bill Forney No. 3 B. C. Butler et al Well, McCaskill Field, Karnes County, Texas, only insofar as the gas may be produced from the Wilcox M-1, M-2, and M-2A zones. The Bill Forney No. 3, well is the only McCombs Group well physically located on the Butler B lease. In addition, each member of the McCombs Group severally executed a guaranty that within three years from the date these agreements become effective following Commission approval each shall spend not less than his proportionate share of \$500,000 in the exploration for additional reserves of gas in areas where such gas could be delivered, either directly or by exchange to United. Any such reserves would be sold to United until a total of 8.5 Bcf of gas has been sold and delivered to United by the McCombs Group.

As part of this settlement, United and the McCombs Group has executed gas purchase contracts covering the sale of gas from the above-mentioned wells. Basically, these agreements provide that the McCombs Group will arrange and pay for delivery of gas to United's system from these wells and will charge therefor 60 cents per Mcf through November 1, 1975 with one cent per Mcf annual escalations thereafter. Each of the contracts provides for a reservation of gas by the McCombs Group identical to that contained in the NEC contract. Each member of the McCombs Group proposes to sell gas to United under existing small producer certificates issued in Docket Nos. CS71-1119, CS72-338, CS72-578, CS72-609, and CS72-611.

As conditions precedent to the effectiveness of the United-McCombs Group agreements, the parties would require that the Commission (1) authorize the McCombs Group to make the sales contemplated by the gas purchase agreements under existing small producer certificates, (2) authorize the McCombs Group to increase the rates provided for in the gas purchase agreements on the terms contained therein or state that

such authority otherwise exists, (3) permit pre-granted abandonment of service to United at such time as an aggregate of 8.5 Bcf of gas has been delivered to United under any one or more of the gas purchase agreements, and any other agreement providing for gas to be sold to United as contemplated by the settlement, and (4) amends its regulations to provide that a rate of at least 150 percent of the Commission-determined base ceiling rate applicable to a comparable large producer sale may be charged and received by a small producer and paid by the purchaser, as the lawful, just, and reasonable rate provided by the Commission pursuant to the Natural Gas Act.

While United asserts that further hearings in this matter would not serve any useful purpose, the Commission finds that the record in this proceeding should be reopened for the limited purpose of admitting and considering the documents designated as Appendix A, that a further hearing should be held for the purpose of receiving and considering evidence to support the proposed settlement embraced by Appendix A fully on its merits and that the presiding administrative law judge should thereafter certify to us the proposed settlement together with the record and his initial decision thereon.

Any persons desiring to protest the proposed settlement or to be heard in connection therewith should file protests or petitions to intervene with the Federal Power Commission, Washington, D.C. 20426, in accordance with the requirements of § 1.10 or § 1.8, respectively, of the Commission's rules of practice and procedure, 18 CFR 1.10 or 1.8, respectively, on or before July 16, 1975. All duly filed protests will be considered by the administrative law judge and by the Commission in determining the appropriate action to be taken but will not make the protestants parties to the proceeding. Persons wishing to participate as parties in the further hearing must become parties to the proceeding by filing petitions to intervene in accordance with § 1.8 of the Commission's rules. Appendix A is on file with the Commission and is available for public inspection.

The parties shall file their direct evidence to support the proposed settlement together with their initial comments thereon on or before July 16, 1975. Rebuttal evidence and reply comments, if any, shall be filed by July 30, 1975. The presiding administrative law judge shall establish further procedural dates.

The Commission finds. Good cause exists for reopening the record in this proceeding for the limited purpose of admitting, supporting and considering Appendix A described herein.

The Commission orders. Public notice of the filing of the proposed settlement embraced by Appendix A described herein and of this action shall be given and published forthwith, and the record in this proceeding is reopened for the limited purpose of admitting, supporting and

considering Appendix A in accordance with the procedures established herein.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket Nos. RP73-94, etc.]

**VALLEY GAS TRANSMISSION, INC. AND
TENNESSEE GAS PIPELINE CO.**

Order Prescribing Procedures

JUNE 17, 1975.

The Commission Staff on April 18, 1975, moved the Commission for an order (1) severing the rate proceedings in Docket No. RP73-94 from the other consolidated proceedings, (2) denying withdrawal of a petition to amend filed by Valley Gas Transmission, Inc. (Valley) in Docket No. G-19618, (3) requiring Valley to show cause why it should not be held in violation of the Natural Gas Act for dedicating gas reserves twice over, (4) requiring Tennessee Gas Pipeline Company, a division of Tenneco, Inc., (Tennessee) to show cause why it should not be held in violation of the Natural Gas Act for receiving gas dedicated to Natural Fuel Gas Company (NFG), (5), requiring Tennessee to show cause why it should not be required to pay back to NFG 74.69 Bcf of natural gas wrongly diverted, and (6) vacating hearings previously ordered. Answers opposing the Staff's motion in whole or in part were filed on or about May 5, 1975, by Valley, Tennessee, NFG, Consolidated Gas Supply Corporation, Bay State Gas Company et al., and Columbia Gas Transmission Company.

Docket No. RP73-94 arose from a rate increase filing by Valley and involved a proposed purchased gas cost adjustment provision. Tennessee is authorized by Commission orders in Docket Nos. CP63-247 (29 FPC 1000) and CP75-93 (33 FPC 617) to transport for NFG up to 34,810 Mcf of gas per day (14.73 psia), which gas is purchased by NFG from Valley under Commission orders in Docket Nos. CP63-270 (30 FPC 349) and CP65-123 (33 FPC 617). Various filings were made in these several certificate dockets and in Docket No. CP75-53 to carry out a proposed settlement agreement dated July 8, 1974, relating to the supply and delivery of gas to Tennessee and NFG.

In an order of December 27, 1974, the Commission considered the proposed 1974 settlement. It found that Tennessee's customers in Docket No. RP73-94 were taken somewhat by surprise and that the rate proceeding should be consolidated with the certificate proceedings, and it remanded the settlement and the six certificate filings so that a record could be formed and the public interest determined.

Subsequently on March 6, 1975, the parties entered into a new settlement agreement providing as follows:

(1) All of the Luby and Petronilla Field reserves available to Valley under a contract with Pan American Petroleum

Corporation were dedicated *ab initio* to NFG;

(2) The entire balance of the Luby and Petronilla Field reserves estimated at 40 Bcf is committed by Valley to NFG;

(3) The existing sales contract dated March 27, 1963 between NFG and Valley, which is the basis of the certificate in Docket No. CP63-270, will be terminated;

(4) The sales contract dated October 23, 1964, between NFG and Valley that is the basis of the certificate rate in Docket No. CP65-123 will be amended so that NFG will be entitled to all of the gas produced from the reserves. Further Valley dedicated its reserves and sufficient additional reserves to bring aggregated daily deliveries up to 35,000 Mcf.

(5) Valley will cause its affiliate, HNG Fossil Fuels Company, to sell to NFG all of its interest in gas from certain offshore reserves.

(6) NFG and Tennessee will execute agreements for the transportation of the gas sold by Valley and Fossil Fuels to NFG.

(7) Tennessee will pay back to NFG a total of 29.2 Bcf of Natural Gas, but this will be reduced by deliveries in excess of 35,000 Mcf a day to NFG.

As a result of the proposed settlement, Tennessee withdrew its application of August 23, 1974, in Docket No. CP75-53 and in that docket now requests authorization to sell to NFG 9,946 Mcf of gas per day so as to effect the pay-back deliveries. Tennessee also withdrew its application filed the same date in Docket Nos. CP63-247 and CP65-93 covering the transportation gas and submits a request that the transportation volume be reduced from 34,810 to 14,919 Mcf per day. In addition Valley withdrew its applications filed August 13, 1974, in Docket Nos. G-19618, CP63-270 and CP 65-123. In CP63-270 Valley seeks to abandon sales to NFG of 24,864 Mcf per day and in CP65-123 to consolidate all of its sales to NFG under one certificate.

We can consider the Staff's several requests as follows:

(1) Severing Docket No. RP73-94 from the certificate cases—The Staff contends that the certificate matters are inappropriate for consolidation with the original rate proceedings and should be severed. It says that severance is advisable in view of questions raised by the parties and the Administrative Law Judge concerning the relationship between Valley's purchased gas adjustment sought in Docket No. RP73-94 and the present proceedings. No party except Columbia¹ objects, and we agree with the Staff that the rate case should be severed from the certificate cases.

(2) Denying withdrawal of the petition to amend Valley's certificate in Docket No. G-19618—Valley says that its petition to amend the certificate in Docket

¹In its answer Columbia says that the Staff intends to splinter the present proceedings into a number of proceedings which will require independent determination. The Staff asked only that Docket No. RP73-94 be severed from the other proceedings.

No. G-19618 is designed to carry out the 1974 settlement by shifting gas production from NFG to Tennessee, but under the 1975 settlement the reserves dedicated to NFG will remain dedicated to NFG, so that the Commission should permit Valley to withdraw its petition to amend in Docket No. G-19618. The Staff says, on the other hand, that the petition to clarify the reserve dedications of Valley to Tennessee forms a part of the issues in this docket and should accordingly be retained to permit continued examination of Docket No. G-19618. We agree with this view and deny withdrawal of the petition.

(3) (4) Orders to show cause as to why Valley and Tennessee should not be held in violation of the Natural Gas Act—Staff takes the position that no activities in violation of the Natural Gas Act can be concealed by settlement and that under the present factual situation Staff is unable to enter into any agreement to conceal these activities. Staff says that Valley has apparently made an overlapping dedication in Docket No. G-19618 and CP63-270 between Tennessee and NFG. Also Tennessee with knowledge of Valley's letter dedicating reserves to it nevertheless undertook a transportation agreement in Docket No. CP63-247 to deliver gas to NFG, and continued to deliver the amounts specified in the docket by making up shortages from the Luby and Yeary Fields without certificate authority.

Valley denies Staff's allegations. It says that it made a limited dedication in the Petronilla Field to Tennessee and a specific dedication to NFG and that this did not constitute the dedication of the same reserves twice, nor an overlapping dedication, but assuming an overlapping dedication, it was wholly inadvertent.

Tennessee argues that all of the gas sold to NFG or Tennessee is carried by the Tennessee system in any case, and that if gas should have been sold to NFG but was sold to Tennessee, it would have been used for the benefit of all of Tennessee's customers, including NFG.

While we understand these contentions, the record shows a controversy over the dedication of the Valley reserves and some indication that shifting of reserves between NFG and Tennessee have occurred without Commission approval. We are of the opinion, therefore, that the whole matter should be examined through the issuance of an order to show cause directed to Valley and Tennessee. We think the show cause issues should be heard separately from the issues arising from the certificate applications and the proposed settlement. Therefore we shall designate the proceedings relating to the certificates and settlement as Phase I and the proceedings relating to the show cause issues as Phase II.

(5) Order to show cause why Tennessee should not pay back 74.69 Bcf to NFG—The Staff cites proposed testimony of NFG's witness that through February 1973, Tennessee received upwards of 74.69 Bcf of natural gas from the Petronilla Fields that was dedicated

to NFG. Staff suggests that this testimony be deemed a complaint and that an order be issued directing Tennessee to show cause why it should not be directed to pay back up to 74.69 Bcf of natural gas to NFG.

Valley contends that focusing on the 74.69 Bcf figure overlooks the agreement of Valley's affiliate, HNG Fossil Fuels Company to dedicate to NFG production from seven offshore tracts. Moreover, Valley asserts that the 74.69 Bcf is a figure for which there is no explanation in the record. Tennessee contends that NFG has agreed to accept 29.2 Bcf, and Tennessee's customers should not be forced to give up the 74.69 Bcf.

The Bay State Group contends that the Staff's motion would prejudice the question of pay-back and would put a much heavier burden on Tennessee and its customers than the parties had agreed upon. Consolidated Gas says that it is Tennessee's customers who will suffer the real burden of the pay-back and it is improper to shift the burden to Tennessee to show why 74.69 Bcf of gas should not be diverted from its other customers to NFG. Columbia Gas would not prolong the litigation over liability.

In our opinion the question of how much gas, if any, has been diverted from NFG to Tennessee is a question that should be investigated in Phase I in determining whether the 1975 settlement and any payback associated with that settlement is appropriate and in the public interest. We expect the presiding Judge to address the certificate issues concerning the diversion, including what customers were given an advantage by the diversion and what customers would be injured by payback. Because the payback question is the subject of Phase I as provided below, we shall not include it in our order to show cause. Our action is without prejudice to its renewal in Phase II should Phase I fail to reach a satisfactory resolution of the diversion and payback issues.

(6) Vacating hearings previously ordered—No respondent agreed with this suggestion; Valley and NFG objected to it specifically. Since some of the record already made relates to the reserve dedication, we do not believe it should be wiped out and proceedings begun anew. Rather we believe that the show cause matters, listed above under (3) and (4) should be heard in a separate phase of these proceedings, which we have designated as Phase II. This would leave in Phase I the 1975 settlement, the pay back issue and the other issues raised in the certificate proceedings.

The Commission further finds. It is necessary and appropriate in the administration of the Natural Gas Act that Docket No. RP73-94 be severed from the certificate proceedings, that withdrawal of Valley's petition to amend in Docket No. G-19618 be denied, that Tennessee and Valley be ordered to show cause as provided below, and that Staff's motion to vacate previous hearings be denied, but the show cause proceedings be heard in Phase II of the certificate case.

The Commission orders. (A) Docket No. RP73-94 is severed from the remaining dockets consolidated herein.

(B) Valley's withdrawal of its petition to amend its certificate in Docket No. G-19618 is denied.

(C) Valley shall show cause why it should not be held in violation of the Natural Gas Act with respect to the matters discussed above.

(D) Tennessee shall show cause why it should not be held in violation of the Natural Gas Act with respect to the matters discussed above.

(E) So much of Staff's motion which seeks an order for Tennessee to show cause why it should not be required to pay back to NFG 74.69 Bcf of natural gas diverted to Tennessee's own use is denied without prejudice to its renewal in Phase II of these proceedings.

(F) The matter covered by ordering paragraphs (C) and (D) shall be heard in Phase II of the proceedings in Docket Nos. G-19618, CP63-270, CP65-123, CP63-247, CP65-93, and CP75-53.

(G) A public hearing on the Phase II matters covered by ordering paragraphs (C), (D), and (F) shall be held in a hearing room of the Federal Power Commission, 825 North Capitol St. NE., Washington, D.C. 20426 commencing on September 9, 1975.

(H) The Presiding Administrative Law Judge shall hold such pre-hearing conferences as necessary; and the parties shall file their evidence on dates to be fixed by him.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. E-9500]

VIRGINIA ELECTRIC AND POWER CO.

Contract Supplement

JUNE 24, 1975.

Take notice that on June 17, 1975, Virginia Electric and Power Company (VEPCO) tendered for filing a contract supplement dated April 4, 1975, to its FPC Electric Tariff Original Volume No. 2 for the Greenville Utilities Commission (GUC), Greenville, North Carolina. This supplement supersedes Supplement B dated January 30, 1969. A copy of the revised Supplement B was submitted with this filing.

VEPCO states that this supplement is to allow VEPCO to combine GUC's new 115 KV delivery point with the existing 34.5 KV delivery point by totalized metering, and that after the connection is made GUC will limit its 34.5 KV delivery point load to 100 MVA.

VEPCO states further that no later than April 30, 1980, the Greenville Utilities Commission will have ceased receiving 34.5 KV delivery and will have only a 115 KV delivery point connected, or will pay to VEPCO a Monthly Facilities Charge for Excess Facilities in accordance with Article 15 of VEPCO's FPC Electric Tariff, Original Volume No. 1.

VEPCO requests that the effective date of this Supplement Contract with GUC to be as of the date of connection of the facilities which is expected to occur sometime in September, 1975.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 15, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. E-9420, E-9421]

YANKEE ATOMIC ELECTRIC POWER CO. AND PUBLIC SERVICE COMPANY OF NEW HAMPSHIRE

Order Accepting Proposed Rate Increases for Filing, Suspending Same, Consolidating Dockets, and Establishing Procedures; Correction

JUNE 10, 1975.

In the order accepting proposed rate increases for filing, suspending same, consolidating dockets, and establishing procedures, issued May 30, 1975, add the word "tendered" to the second line of the first paragraph of the Order issued May 30, 1975. The word should appear after the word "(Yankee)", published in the FEDERAL REGISTER on June 5, 1975, 40 FR 24250.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-17059 Filed 6-30-75;8:45 am]

[Docket No. E-9239]

INDIANA & MICHIGAN ELECTRIC CO.

Tariff Change

JUNE 25, 1975.

Take notice that Indiana & Michigan Electric Company (I&M), on June 20, 1975, tendered for filing proposed changes in its FPC Rate Schedule No. 58 applicable to service rendered by I&M to the City of Richmond, Indiana (Richmond). The proposed changes, I&M states, implement the contractual obligations as set forth in the service agreement between I&M and Richmond. The filing of those changes, I&M further asserts, is authorized by the decision of the United States Court of Appeals for the District of Columbia Circuit in "Richmond Power and Light v. FPC," 481 F.2d 490 (D.C. Cir. 1973).

According to I&M, the proposed changes, if accepted for filing, and if they had been in effect for the twelve calendar months for 1974, would have resulted in a decrease in the rates and charges paid to I&M by Richmond in the sum of \$208,392 and would also have resulted in a decrease in the rates and charges to Richmond for the twelve months ending May 1975, in the sum of \$168,528, if the

rates and charges had been in effect for that time period.

I&M states that copies of the filing were served upon Richmond and upon its counsel, as well as upon the Public Service Commission of Indiana.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 8, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

MARY B. KIDD,
Acting Secretary.

[FR Doc.75-17030 Filed 6-30-75;8:45 am]

[Docket No. G-5720, etc.]

**CALIFORNIA CO., DIVISION OF
CHEVRON OIL CO. ET AL.**

**Applications for Certificates, Abandonment
of Service and Petitions To Amend Cer-
tificates¹**

JUNE 10, 1975.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before July 3, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without

further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the

Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

GENERAL SERVICES ADMINISTRATION

[GSA Order PBS 1095]

ENVIRONMENTAL IMPACT STATEMENTS Preparation Procedures

Notice is hereby given that the General Services Administration in accordance with the National Environmental Policy Act of 1969 (Pub. L. 91-190) is proposing procedures to be followed in implementing ADM 1095.1, Environmental consideration in decisionmaking, that are applicable to the Public Buildings Service facility planning programs in acquisition, leasing, design, construction, management and alterations to GSA property.

Any person who wishes to submit written comments pertaining to the proposed procedures may do so by filing them in triplicate with the General Services Administration (PR), Washington, D.C. 20405, on or before August 15, 1975.

Dated: June 10, 1975.

W. A. MEISEN,
*Acting Commissioner,
Public Buildings Service.*

[PBS 1095.]

GSA ORDER

IMPLEMENTATION OF ENVIRONMENTAL POLICY

1. *Purpose.* This order prescribes the procedures to be followed in implementing ADM 1095.1, Environmental considerations in decisionmaking; laws; Executive orders; and directives with respect to major actions which significantly affect the quality of the human environment. These laws, Executive orders, and directives include the National Environmental Policy Act of 1969 (42 U.S.C. 4321, et seq.), hereinafter referred to as NEPA; Executive Order 11514 of March 5, 1970, entitled "Protection and Enhancement of Environmental Quality"; section 106 of the National Historic Preservation Act of 1966 (16 U.S.C. 407f); Executive Order 11593 of May 13, 1971, entitled "Protection and Enhancement of the Cultural Environment"; Executive Order 11752 of December 17, 1973, entitled "Prevention, Control, and Abatement of Environmental Pollution at Federal Facilities"; and the Guidelines issued by the Council on Environmental Quality (CEQ) for preparing environmental impact statements, hereinafter referred to as the Guidelines, published in the Federal Register August 1, 1973, 38 FR 21265 (Appendix A). This order is applicable to PBS facility planning programs in acquisition, leasing, design, construction, management and alterations to GSA property.

2. *Cancellations.* a. PBS 1095.1B is canceled.

b. Chap. 3, Part 3, dated, June 6, 1972, Environmental Considerations in Planning, GSA Order PBS P 7000.6 CHGE 5, subject: Space Requirements and Project Development, is canceled.

c. The letter dated April 9, 1974, from Deputy Administrator for Special Projects to all Regional Administrators, subject: Bureau of Prisons projects, is canceled.

d. The letter dated April 23, 1973, from the Acting Commissioner, PBS to All Regional Commissioners, PBS; All Assistant Commissioners, PBS; the Associate Commissioner for Project Management (PJ), subject: Environmental Impact Statements, is canceled.

e. The letter dated June 19, 1973, from the Acting Commissioner, PBS, to All Re-

gional Commissioners, PBS, and Assistant Commissioner for Operating Programs (PM), subject: Environmental Assessments, is canceled.

f. The letter dated May 30, 1974, from the Deputy Administrator for Special Projects to Heads of Services and Staff Offices and All Regional Administrators, subject: Changes in Environmental Impact Statement Requirements, is canceled.

g. The letter dated October 3, 1974, from the Acting Commissioner, PBS, to All Regional Commissioners, PBS and the Assistant Commissioner for Operating Programs (PM), subject: Advanced Coordination on those projects which Might Affect Environmental and Historic Preservation, is canceled.

3. *Background.* Section 102 of NEPA directed all Federal agencies (a) to utilize a systematic, interdisciplinary approach which will ensure the integrated use of the natural and social sciences and the environmental design arts in planning and in decisionmaking which may have an impact on man's environment; (b) to develop methods and procedures which will ensure that environmental concerns, effects, and values are given appropriate consideration with economic and technical issues in decisionmaking; and (c) to prepare detailed statements on recommendations or reports for legislative proposals and other major Federal actions that may significantly affect the quality of the human environment. Executive Order 11514 effectuates the purpose of NEPA, and the revised Guidelines to implement NEPA have been issued by CEQ.

4. *Responsible officials for determining the course of environmental action.* The Regional Commissioners, PBS, and the Assistant Commissioner for Operating Programs (3M) have the initial responsibility for making the threshold decision for (1) determination whether an action is "a major Federal action significantly affecting the quality of the human environment", and (2) the preparation of environmental assessments and submission of negative declarations or draft and final environmental impact statements. The PBS Assistant Commissioners and the Associate Commissioner for Project Management may request the preparation of environmental assessments, and/or draft and final environmental impact statements from the Regional Commissioners. However, when the proposed action has been designated as a project pursuant to GSA Order ADM 5400.24, Project Management in the Public Buildings Service, such determination shall be made only after consultation with the Project Manager.

a. *Assistant Commissioner for Space Planning and Management (PR).* PR shall be responsible for the overall direction of environmental protection within PBS for those policy and procedure programs listed in par. 1, above, and shall:

(1) Provide professional and technical guidance to Commissioner, PBS, Associate Commissioner and other Assistant Commissioners, PBS, and Regional Commissioners, PBS;

(2) Review, evaluate, and process for final approval by office of General Counsel (L); Director of Environmental Affairs (PWA); and Commissioner, PBS, negative declarations (supported by environmental assessments) and draft and final environmental impact statements (EIS);

(3) Consult with the Director, Environmental Affairs (PWA), and the General Counsel (L) on matters pertaining to environmental protection in PBS;

(4) Develop and coordinate service orders, regulations and guidance on the PBS environmental programs; and

(5) Assist the regional offices in schedul-

ing environmental considerations to preclude delays in completing those actions defined in the Attachment, par. 14.a.

b. *Assistant Commissioner for Operating Programs (3M) and Regional Commissioners, PBS.* Responsible for direction and execution of environmental protection of regional PBS programs as defined in par. 4, above and shall:

(1) Maintain a continuing review of activities which have potential significant environmental impact as outlined in this order;

(2) Make initial decision on necessity for preparing a negative declaration or an EIS following preparation and review of the environmental assessment;

(3) Determine the need and the adequacy of an environmental assessment and justification for the writing and processing a negative declaration through PR, for a final approval of the Deputy Administrator for Special Projects, in timely manner;

(4) Prepare and process through PR, draft and final environmental impact statements, and subsequently, distribute the EIS to Federal, State, and local officials and interested individuals not included on Central Office distribution list;

(5) Conduct public meetings, issue press announcements and maintain files for public review; and

(6) Prepare and monitor schedule for environmental considerations to preclude delays in completing those actions defined in the attachment, par. 14.a. This includes ensuring that, for prospectus projects involving delineated areas, draft EIS are submitted to Central Office concurrently with Project Development Reports, and final EIS are submitted concurrently with or immediately following Site Investigation Reports.

c. *Assistant Commissioners for Buildings Management (PB), Construction Management (PC), and Associate Commissioner, Project Management Office (PJ).* These officials shall be responsible for maintaining program reviews of EIS's to ensure program activities are compatible with environmental protection and in compliance with GSA ORDER ADM 1095.1, and illustrated by their review of the following:

(1) New technology, research and development;

(2) Initiation of new programs;

(3) Development and revisions to orders, handbooks specifications and directives to the field;

(4) Initiation of environmental assessments and environmental impact statement action; and

(5) Establishment of continual liaison and coordination with Office of Space Planning and Management on environmental protection programs.

5. *Procedures.* Environmental assessments and negative declarations prepared by the Regional Commissioners on planning, acquisition, and alteration programs are submitted to the Assistant Commissioner for Space Planning and Management to ensure full compliance with all applicable acts, orders and guidelines related to environmental planning. The Commissioner, PBS, is responsible for approving the draft environmental impact statement or negative declaration and transmitting the signed document to the Deputy Administrator for Special Projects through the Office of General Counsel (L), and the Director of Environmental Affairs (PWA). The Office of General Counsel (L), and the Director of Environmental Affairs (PWA) must concur with the negative declaration before any further administrative action can be taken on the project. Draft and final environmental impact statement shall be signed by the Deputy Administrator for Special Projects for submission to the Council on Environmental

Quality (CEQ), heads of Federal agencies, Governors, Senators, and Congressmen. Preparation of the draft environmental statement by the responsible official shall be with full cooperation and coordination with all other PBS officials as necessary. The draft and final environmental impact statement must be circulated as prescribed in GSA Order ADM 1095.1. After all comments on the draft statement are received, the regional office shall prepare a final environmental statement.

Additional procedures for implementing this order are contained in the attachment to this order.

6. *Reports.* The reports required by this order are exempt from reports control.

ATTACHMENT

IMPLEMENTATION OF ENVIRONMENTAL POLICY

1. *Determination of what is a "major Federal Action significantly affecting the quality of the human environment".* This is in a large part a judgment based on the circumstances of the proposed action, and the determination shall be included as a normal part of the decisionmaking process.

a. Types of actions normally requiring an environmental assessment are:

(1) Recommendations or reports concerning legislation, including requests for appropriations, proposed by GSA or members of Congress resulting in physical action involving, but not limited to proposals for new Federal construction under the Public Buildings Act of 1959 as amended.

(2) Administrative action involving:

(a) Procurement of space through major lease-construction or construction of buildings for Federal agency use;

(b) Extensions, repair and alterations to public buildings;

(c) Use of GSA property through lease, permit, or license resulting in a significant change in usage of the property; and

(d) Proposed exchanges of real property to acquire sites.

(3) Formulation and issuance of regulations, procedures and policies which may have environmental consequences.

b. Actions significantly affecting the human environment are those that:

(1) Impact upon the environment even if on balance beneficial effects outweigh the detrimental ones;

(2) Curtail the range of possible beneficial uses of the environment including irreversible and irretrievable commitments of resources;

(3) Serve short-term uses rather than long-term environmental goals;

(4) May be localized in their effect, but nevertheless, have a harmful environmental impact; and

(5) Are attributable to many small actions, possibly taken over a period of time, that collectively can be defined as a major action with a significant impact (either adverse or beneficial).

2. *Changes having an impact on quality of human environment.* A significant change is any change which significantly alters, disrupts, destroys or transforms any aspect of the physical, social or aesthetic environment. Such a change may have either an adverse or beneficial impact on the quality of the environment.

3. *Application of standards.* In some cases where national, state, or local standards have been developed, the impact level determining significance is defined by the minimum acceptable level of the adopted standards. But, where national standards are involved there still may be geographical differences defined by local priorities which may warrant greater emphasis than is specified by the minimum standard.

4. *Criteria.* Factors having potential and identified impact which may significantly affect the quality of human environment, include, but are not limited to the following:

a. The readily recognizable physical factors; i.e., air and water quality, ambient noise levels, sewage and waste disposal, etc.

b. Changes in land use or zoning.

c. Socio-economic factors; i.e., proximity to low and moderate income residential housing on a nondiscriminatory basis, necessity for relocation of residential properties, changes in traffic patterns causing changes in mode of transportation, traffic congestion or increase in distance and commuting costs to the proposed building occupants; known public controversial aspects of the project, and

d. Cultural, architectural or archeological aspects of a project illustrated by possible infringement on historical properties or disturbance to important archeological artifacts.

5. *Class actions and criteria.* To clarify threshold decisions and to categorize class actions applicable to the environmental protection process, typical PBS actions have been identified as follows:

a. *Category I., Projects which will almost always require EIS*

(1) Master Plan

(2) Construction project

(a) Projects requiring preparation of a prospectus, Federal Construction or Lease Construction.

(b) Projects undertaken for another Federal agency where the assessment process identifies significant known or potential environmental impact(s). An example of a project undertaken which would always require an EIS (paragraph 4.c. above) is development of a Federal correctional center.

(3) All PBS projects where the assessment process identifies known or potential significant environmental impact.

(4) Alteration projects entailing laboratory space which will utilize dangerous or hazardous chemicals, drugs, or radioactive materials.

b. *Category II., Projects which may require EIS or further assessments.* (1) Construction (non-prospectus) projects.

(2) Repair and alteration projects requiring a major change in energy requirement or source.

(3) Repair and alteration projects affecting architectural character of buildings of recognized historical importance.

(4) Major leases for new space in existing buildings where assessments have identified environmental controversy.

(5) Real property acquisitions in which the delineated area, but not the site has been identified. (See paragraph 6, below.)

c. *Category III., Projects not requiring EIS (may require assessment and negative declaration).* (1) Superseding and renewals of lease space.

(2) Projects, any size, which must be undertaken immediately because of inherent fire, public or safety hazard. Regional Counsel is to be notified immediately.

(3) A project in which the Commissioner, PBS, with prior consultation with CEQ has determined that a public or governmental exigency is present. This would be restricted to projects where a limited environmental impact has been identified, but action taken to acquire or renovate property is not irreversible or irretrievable.

(4) Real property acquisitions already covered by EIS for the project or covered by an EIS on the master plan in which the proposed action has been identified and with no change in scope.

(5) Construction project, with no change

in scope, which is an integral part of a master plan for which a final EIS has been filed, and all known environmental impacts are being mitigated.

(6) Upgrading of existing space without change in use or relocation of employees.

6. *Negative declaration.* a. A negative declaration is a report of finding, developed to include a brief summary of environmental considerations analyzed and documented as an environmental assessment. The negative declaration is developed and submitted to the Deputy Administrator for Special Projects from the Commissioner, PBS, stating that an analysis of all environmental factors included in an attached assessment for a specific project has been completed.

b. The declaration must state that a review of all environmental factors has been completed and the determination has been made that the development of the project is not considered a major action significantly affecting the quality of human environment; including its impact on historical and cultural properties.

c. In the planning of a project for which the delineated area, but not the site, has been designated, and the environmental assessment provides full support to the negative declaration, the following additional action must be taken by the Assistant Commissioner for Operating Programs (3M) or the Regional Commissioner, PBS. In view of the possibility of environmental impact on one or more sites within the delineated area, an updated assessment is to be prepared. Should the Assistant Commissioner for Operating Programs (3M), or the Regional Commissioner, PBS, conclude there are no known or potential significant environmental impacts following the site selection stage, he shall prepare and sign a confirmation of the negative declaration and document his project files accordingly. Such negative confirmation must have concurrence by Regional Counsel. The negative declaration need not be forwarded to the Central Office in these cases. However, should the updated assessment identify significant environmental impact, he shall proceed with the preparation of the environmental impact statement and notify the Commissioner, PBS, through the Assistant Commissioner for Space Planning and Management (PR). In such cases, it may be necessary to reissue the Solicitation for Offers or Invitation for Bid, or cancel further acquisition actions until the full EIS process is complete.

7. *Environmental assessments.* a. The environmental assessment is one of the most important documents included in the decisionmaking process. It is the basis for judgment by the "responsible official" in his assessment of the proposed action, and can be entered as evidence in hearings and court actions. Therefore, it is of utmost importance that the assessment be a full disclosure document, giving the reader a clear picture of existing and projected environmental conditions, a complete but concise description of the proposed action, and an in-depth evaluation of possible or probable impacts, both primary and secondary, which may be either beneficial or adverse.

b. Each proposed project or action shall be reviewed and a determination made as to whether it constitutes a "major Federal action." Regional Public Buildings Service officials should bear in mind that the effect of many decisions can be individually limited but cumulatively considerable. This can occur when over a period of years decisions by one or a by a number of different agencies are made concerning certain types of projects or actions that individually are minor but collectively are major, when one decision involving a limited amount of money is a

precedent for action in much larger cases or represents a decision in principle about a future major course of action, or when several Government agencies individually make decisions about partial aspects of a major action. In all such cases, an environmental statement should be prepared if it is reasonable to anticipate a cumulatively significant impact on the environment from the Federal action. The following applies to planning for construction, repair and maintenance of public buildings.

(1) In the planning of projects, an environmental assessment shall be prepared at the Project Development stage. In compliance with OMB Circular A-95 and the CEQ Guidelines, the assessment must include a list of local officials contacted. The assessment will result in preparation of either a negative declaration or a draft environmental impact statement. As the project develops, all environmental considerations will be reevaluated periodically as confirmation of the earlier negative declaration or draft environmental impact statement.

(2) A report of the reassessment of environmental impact will be prepared for major repair and alteration projects and when a site is selected, working drawings and specifications are complete. This reevaluation will require a continuing analysis of GSA-PBS planning, acquisition, and alteration programs and shall be accomplished by the appropriate regional officials.

8. Draft environmental impact statement.

a. Draft environmental impact statements for historic properties shall be written to meet applicable requirements for compliance with section 106 of the National Historic Preservation Act of 1966 and Advisory Council on Historic Preservation Procedures for the Protection of Historic and Cultural Properties (36 CFR Part 800) and published in the Federal Register when the property may be affected by the proposed project or action to such an extent that a statement is required to be filed with the Advisory Council on Historic Preservation pursuant to section 106. Historic properties are defined as properties listed in the National Register of Historic Places or eligible for listing in the National Register. Contact with the State Historic Preservation Officer and the local historical society shall be documented in the statement. For further clarification on historic preservation procedures and how to determine eligibility for listing in the National Register, refer to GSA Order PBS 1022.1.

b. Each statement must reflect that the particular economic and technical benefits of its proposed action have been assessed and weighed against the environmental costs. In the early stages of preparation of the draft environmental statement, the office preparing the statement should consult with those Federal, State, and local agencies possessing expertise on potential impacts of a proposed action. This will assist in providing the necessary data and guidance for the analyses required to be included in environmental impact statements as described below:

(1) *Coordination processes in accordance with OMB Circular A-95.* (a) Projects resulting in construction shall be reviewed for environmental impact. State clearinghouses must be consulted at the earliest practicable time in the planning of the project. In the development of a Project Development Report in the region, the Regional Commissioner is required to contact the appropriate state, regional and local clearinghouses and other appropriate officials in a formal A-95 process.

(b) In addition, a copy of the letter to the State Clearinghouse, issued in accord-

ance with the provisions of this circular shall be forwarded to the Advisory Council on Historic Preservation and the Council on Environmental Quality.

(c) When the A-95 review process of a proposed project or when the consultation with the clearinghouses takes place prior to the filing of a draft environmental impact statement or negative declaration, the comments received represent inputs to the statement or declaration.

(d) Federal agency comments received prior to filing of statement shall be attached to copies of the statement being sent to the agency submitting the substantive comment. The statements being sent to clearinghouses shall include a listing of all agencies from which comments have been received.

(2) *Technical content of draft statement.* The EIS shall include:

(a) A description of the proposed action or a description of reasonable number of alternatives including the information and technical data adequate to permit a careful assessment of the environmental impact of proposed action(s) by commenting agencies. If available, copies of site maps and topographic maps at suitable scales showing the property and the surrounding area shall be provided;

(b) The probable impact of the proposed action(s) on the environment, including impact on ecological systems such as wildlife, fish, and other marine life; and on physical systems such as water runoff rates, quantities, and downstream impact on wetlands or flood plains. Consequences of direct and indirect impacts on the environment shall be included in the analysis. For example, any effect of the action on population distribution or concentration shall be estimated and an assessment made of the effect of any possible change in population patterns upon the resources of the area including land use, water supply, public services, and traffic patterns;

(c) Any probable adverse environmental effects that cannot be avoided, such as water, air, or noise pollution, undesirable land use patterns, damage to life systems, urban congestion, threats to health or other consequences adverse to the environmental goals set out in section 101(b) of NEPA;

(d) A rigorous exploration and objective evaluation of possible alternative actions that might avoid some or all of the adverse environmental effects, including alternatives outside of GSA's authority to implement. Section 102(2)(D) of NEPA requires the responsible agency to "study, develop, and describe appropriate alternatives to recommended courses of action in any proposal which involves unresolved conflicts concerning alternative uses of available resources." Sufficient analysis of such alternatives, their costs, and their impact on the environment shall accompany the proposed action(s) through the agency review process so as not to prematurely foreclose consideration of options which might have less detrimental effects;

(e) The relationship between local short-term uses of man's environment and maintenance and enhancement of long-term productivity. Include a brief discussion of the extent to which the proposed action involves trade-offs between short-term gains at the expense of long-term losses, or vice versa, and a discussion of the extent to which the proposed action forecloses future options. This, in essence, requires assessment of the action(s) from the perspective that each generation is trustee of the environment for succeeding generations;

(f) Any irreversible and irretrievable commitments of resources, i.e.; land, man hours, costs, natural and cultural resources, which

would be involved in the proposed action(s) should it be implemented. Identify from the survey of unavoidable adverse impacts the extent to which the action(s) curtails the range of beneficial uses of the environment; and

(g) The economic costs and benefits of the proposed action with the environmental costs and benefits. Alternate courses of action must be discussed as to their effect upon this cost and benefit balance. If a formal cost benefit analysis on the proposed action(s) is prepared, it shall be submitted with the statement. However, information furnished by property owners, appraisers, or public officials such as site offers, estimated site costs, appraisal reports on subsequent site selection or negotiations to acquire sites, shall not be included in draft or final EIS.

9. *List of draft environmental statements and negative declarations.* a. To provide timely public notice and understanding of PBS projects and actions that may have an environmental impact and to obtain the views of interested parties, Regional Commissioners and Assistant Commissioner for Operating Programs shall establish an early notice system for informing the public of the decision to prepare a draft environmental statement on proposed construction, repair, and improvement projects. A list will be maintained of all projects or actions for which environmental statement will be prepared. This list shall be updated weekly. The list shall be available for public inspection. Regional Commissioners and Assistant Commissioner for Operating Programs shall submit early warning lists to the Assistant Commissioner for Space Planning and Management for compilation and forwarding to PWA, as a basis for agency-wide, quarterly reporting to CEQ. Regional lists are to be submitted to PR normally by c.o.b. March 1, June 1, September 1, and December 1 of each year.

b. If it is decided that an environmental statement is not necessary for a proposed project or action (1) which normally requires the preparation of a statement, (2) which is similar to actions for which a significant number of statements have been prepared, (3) which has previously been announced would be the subject of a statement, or (4) for which a negative declaration has been made in response to a request from CEQ pursuant to § 1500.11(f) of the Guidelines, Regional Commissioners and Assistant Commissioner for Operating Programs shall prepare a publicly available record briefly setting forth the decision and the reasons for the declaration.

c. The list of such negative declarations, and any evaluations made to support the declaration or which conclude that preparation of a statement is not yet timely, shall be prepared and made available to the public on request in the same manner as provided for lists of statements under preparation. (See paragraph 9a, above.)

10. *Public meetings.* a. Each major Federal action having a possible adverse effect on the environment will be evaluated to determine whether a public meeting should be held. Consideration will be given to the following elements in deciding whether a public meeting is appropriate:

(1) The magnitude of the proposal in terms of economic costs, the geographic area involved, and the uniqueness or size of commitments of the resources involved;

(2) The degree of interest or probable opposition to controversial items in the proposal, as evidenced by requests from the public and from Federal, State, and local authorities that a meeting be held;

(3) The complexity of the issue and the likelihood that information will be presented

at the meeting which will be of assistance to the agency in fulfilling its responsibilities under NEPA; and

(4) The extent to which public involvement already has been achieved through other means, such as earlier public meetings, meetings with citizen representatives, and/or written comments on the proposed action.

b. Draft environmental statement will be made available to the public at least 15 calendar days prior to the time of such meetings, unless the meetings are held prior to the preparation of the statement.

11. *Submission and distribution of draft environmental statement.* Initially, draft environmental statements shall be processed as follows:

a. Three copies of the preliminary draft environmental impact statement for construction, repair and alteration projects shall be transmitted to the Assistant Commissioner for Space Planning and Management, (PR). All Central Office comments on the preliminary draft shall be consolidated prior to being returned to the regional office for preparation of the draft environmental impact statement. The draft statement shall be submitted to the Assistant Commissioner for Space Planning and Management, (PR).

b. When the Assistant Commissioner for Space Planning and Management determines that the statement is satisfactory, he shall forward the statement to the Office of General Counsel, Director of Environmental Affairs, and the Commissioner, PBS, for concurrence, approval, and submission to the Deputy Administrator for Special Projects. The Deputy Administrator for Special Projects will sign the transmittal letters soliciting comments on the draft environmental statement to CEQ, heads of Federal agencies, the appropriate Congressmen, Senators, and Governor of the State which is affected by the proposed action.

c. For prospectus projects, the preliminary draft environmental impact statement is to be submitted with the Project Development Report.

d. On the day the Deputy Administrator for Special Projects signs the transmittal letters to CEQ, etc., sufficient copies of the numbered, dated statement shall be sent to the responsible Regional or Assistant Commissioner who shall sign transmittal letters, and distribute copies of the statements to appropriate local officials, to Federal, State, and local agencies, special interest groups, and the public for comments. In addition, the comments of appropriate state, regional, or metropolitan clearinghouses (using the procedures in the Office of Management and Budget Circular No. A-95, Revised) shall be solicited unless the Governor of the state involved has designated some other point for obtaining this review.

e. The Council on Environmental Quality (CEQ) will publish in the Federal Register lists of environmental statements received during the preceding week that are available for public comment. The date establishing minimum period of review and advance availability of draft EIS will be calculated from the second Friday following the filing of the statement with CEQ. Draft environmental statements shall be made available to the public without charge to the extent practicable or at a fee which is not more than the cost of reproduction. EIS will also be made available for public review in PBS Central Office and Regional Commissioners' offices during normal working hours.

f. Regional Commissioners and Assistant Commissioner for Operating Programs shall maintain a list of groups, including relevant conservation commissions, known to be interested in PBS activities. In addition, a

list shall be maintained of individuals and groups who have requested an opportunity to comment on a project or action. A copy of the draft environmental statement shall be distributed to the individual or groups who have expressed an interest in the project or action covered by the statement.

g. Notice of availability of the draft environmental statement shall be published in one or more local newspapers.

h. Federal agencies which have "jurisdiction by law or special expertise with respect to any environmental impact involved" or "which are authorized to develop and enforce environmental standards" shall be asked to comment on draft environmental impact statements. These agencies are listed in appendix II of the CEQ Guidelines. Appendix III of the Guidelines lists offices within Federal agencies and Federal-state agencies that have information regarding the agencies' NEPA activities and receive other agencies environmental statements for which comments are requested. Draft environmental statements shall be submitted for comment to the regional contact points of agencies being consulted when such offices have been established pursuant to section 1500.9(a) of the Guidelines.

i. In implementing the provisions of section 309 of the Clean Air Act, as amended, the responsible official will submit to the appropriate regional office of EPA for review and comment seven (7) copies of all draft environmental impact statements.

12. *Preparation of final environmental statements.* The final environmental impact statement shall incorporate GSA-PBS responses to all substantive comments submitted by other Federal agencies, local and state officials, individuals and groups. The sections of the statement where change has occurred will be marked by a vertical line in the margin, unless the final differs substantially from the draft. Where opposing professional views and responsible opinion have been overlooked in the draft statement and are brought to our attention the action should be reviewed in light of these comments and a meaningful reference made in the final statement to the existence of these responsible opposing views which were not adequately discussed in the draft statement as well as GSA's position on the issues raised. All substantive comments received on the draft (or summaries thereof where comment has been exceptionally voluminous) should be attached to the final statement, whether or not each comment is thought to merit individual discussion in the text of the statement. PWA will coordinate summarization of comments for forwarding to CEQ.

13. *Submission and distribution of final environmental statements.* a. Following Central Office approval of preliminary final EIS (procedure similar to paragraph 11.a., above), the PBS regional office shall transmit the original and three copies of the final environmental statement as soon as practicable to the Assistant Commissioner for Space Planning and Management, (PR), on construction, repair and alteration projects and acquisition of real property. The original copy of the final environmental statement shall include the original copy of all comments received and exhibits on the draft environmental statement. After review and approval, the necessary copies of the final text of the environmental statement and comments received shall be sent to the Office of General Counsel, the Office of the Commissioner, PBS, and the Director of Environmental Affairs. Upon review and concurrence, the final statement will be sent to the Deputy Administrator for Special Projects for Submission to CEQ and appropriate officials.

b. Copies of final statements, with comments attached, shall be sent to all Federal,

State, and local agencies and private organizations, clearinghouses and individuals that made substantive comments on the draft statement and to individuals who requested a copy of the final statement, as well as any applicant whose project is the subject of the statement. Copies of final statements shall in all cases be sent to the Environmental Protection Agency to assist it in carrying out its responsibilities under section 309 of the Clean Air Act. Where the number of comments on a draft statement is such that distribution of the final statement to all commenting entities appears impracticable, the Assistant Commissioner for Space Planning and Management, (PR), will notify PWA and request that CEQ be consulted concerning alternative arrangement for distribution of the statement.

14. *Time requirements for review of draft and final environmental statements.* a. No action is to be taken sooner than 90 calendar days following commencement of the review period for the draft EIS, nor should such action be taken sooner than 30 calendar days after the final environmental statement has been made available to CEQ, commenting agencies, and the public. The term "action", as used in this subparagraph shall mean issuance of a notice to proceed pursuant to a construction or demolition contract, acceptance of offers to sell, vesting of title, relocation and issuance of the 90 day letter required by Section 301(5), Public Law 91-646 and other such activities. Certain procedures are to be excluded from this prohibition (i.e., continuance of design, contracts for appraisal reports, title evidence and surveys, and negotiations for site acquisition). The determination of whether or not another action is an "action" as used in this subparagraph shall be made by the Commissioner, of PBS with the concurrence of the Office of General Counsel and PWA.

b. A time limit of 45 days is provided for comment to the draft statement. If no reply is received from those consulted or a request for an extension of time in which to comment, it will be presumed that the agency or party consulted has no comment to make. When time permits, an extension of the commenting period of up to 15 calendar days may be granted.

c. If the final text of an environmental statement is filed at least 60 calendar days after the notice is published by CEQ in the FEDERAL REGISTER, the 30-day period and 90-day period may run concurrently to the extent that they overlap.

d. Where emergency circumstances make it necessary to take a major Federal action with significant environmental impact without observing the provisions of the Guidelines concerning minimum periods for agency review, the Assistant Commissioner for Space Planning and Management, PR, will advise PWA of the nature of the action and need for requesting an exception to standard procedures. If PWA concurs, he shall obtain the approval of the Commissioner, PBS, and the Deputy Administrator for Special Projects for the exception and consult with CEQ concerning alternative arrangements. Similarly, where there are overriding considerations of expense to the Government or impaired program effectiveness, PWA will consult with CEQ concerning appropriate modifications of the minimum periods.

15. *Amendment of draft or final environmental statement.* Responsible regional PBS officials shall keep abreast of any substantial changes in the proposed action that may develop or significant new information that becomes available concerning its environmental aspects. These circumstances shall be evaluated to determine whether the draft or final environmental impact statement should be supplemented or amended. Sup-

plements or amendments to the statements will be issued, as appropriate. Notice of the development will be given to PWA by the Assistant Commissioner for Space Planning and Management, PR. PWA should consult with CEQ with respect to the possible need for or desirability of recirculation of the statement for the appropriate period.

16. *Responsibility for draft and final environmental impact statement preparation in multi-agency actions.* a. Except as provided in subparagraph (b) below, when GSA and one or more agencies (1) directly sponsor an action, or are directly involved in a group of actions directly related to each other because of their functional interdependence and geographical proximity, a "lead agency" shall be designated to assume supervisory responsibility for preparation of the statement. Factors relevant in determining the appropriate "lead agency," include the time sequence in which the agencies become involved, the magnitude of their respective involvement, and their relative expertise with respect to the environmental effects of the actions. Where there is a question as to the primary responsibility for statement preparation, the matter will be referred to the Deputy Administrator for Special Projects for referral to the CEQ for resolution. However, it is possible for a statement to be submitted jointly by all agencies concerned with the comments being returned to a single designated agency official. In cases where GSA is the "lead agency" and one or more agencies have partial responsibility for the action, the other agencies shall be requested to provide such information to the responsible PBS official as may be necessary to prepare a suitable and complete environmental impact statement. If another agency is designated to be the "lead agency," the criteria for statement preparation for that agency shall apply.

b. The General Services Administration (GSA) will serve as the lead agency in all projects involving construction of buildings by the Public Buildings Service.

17. *Format requirement.* a. Type draft and final environmental impact statement on white paper with clear black type;

b. The statement number will be assigned in Central Office by the Assistant Commissioner for Space Planning and Management, (PR), in accordance with PBS Information System procedures;

c. Prepare a summary sheet in accordance with the format prescribed in appendix I of the CEQ Guidelines and attach to the environmental statement as the second page; and

d. Prepare a cover sheet for each environmental statement.

INTERNATIONAL TRADE COMMISSION

[332-75]

INTERNATIONAL COMMODITY AGREEMENTS

Investigation

In response to a request dated June 17, 1975, by the Subcommittee on Trade of the Senate Committee on Finance, the United States International Trade Commission has instituted an investigation pursuant to section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)) on the experience of the United States with international commodity agreements. The full text of the request is as follows:

I am writing in behalf of the Subcommittee on Trade of the Committee on Finance to request that the Commission prepare a report on the experience of the U.S. with international commodity agreements. We request that this report be completed and made available to the Committee by mid-September, 1975.

As you are aware, the Trade Act of 1974 in a number of instances directs the President in the exercise of his trade agreement authority to negotiate international agreements to assure fair and equitable access to supplies of food, raw materials, and manufactured products. Section 108, for example, provides that:

ACCESS TO SUPPLIES

(a) A principal United States negotiating objective under section 102 shall be to enter into trade agreements with foreign countries and instrumentalities to assure the United States of fair and equitable access at reasonable prices to supplies of articles of commerce which are important to the economic requirements of the United States and for which the United States does not have, or cannot easily develop, the necessary domestic productive capacity to supply its own requirements.

(b) Any agreement entered into under section 102 may include provisions which—

(1) assure to the United States the continued availability of important articles at reasonable prices, and

(2) provide reciprocal concessions or comparable trade obligations, or both, by the United States.

As you may also be aware, the subject of international commodity agreements has received increased attention in recent months in both domestic and international discussions. On a number of occasions, for example, the Secretary of State has spoken of the need to devise a new economic relationship between consuming and producing countries and has suggested that the U.S. may be interested in negotiating a new series of international commodity agreements.

To assist the Subcommittee on Trade in its oversight function and with a view to the possibility of future commodity legislation, the Subcommittee requests that the Commission undertake a study of past international commodity agreements in which the U.S. has been a participating party. Such a study should include among other things:

1. A general summary of the various commodity agreements to which the United States has been or continues to be a party.

2. A description of the reasons such agreements were entered into and the objects sought to be accomplished.

3. An analysis of the market conditions (supply, demand, prices, etc.) which prevailed prior to, during, and subsequent to such agreements with respect to the commodities covered.

4. A statement of the terms of such agreements and the methods of their operation.

5. An evaluation of the success or failure of the agreement from the perspective of the United States.

Should you or your colleagues have any questions regarding this request, I suggest that you direct your inquiries to Mr. Robert A. Best, Chief Economist of the Senate Finance Committee.

With every good wish, I am
Sincerely,

ABRAHAM RIBICOFF,
Chairman,
Subcommittee on International Trade.

By order of the Commission.

[SEAL] KENNETH R. MASON,
Secretary.

JUNE 26, 1975.

[TA-201-3]

WRAPPER TOBACCO

Investigation and Hearing

Investigation instituted. Following receipt of a petition filed by the Cigar Leaf Tobacco Foundation, Inc., Quincy, Florida, the U.S. International Trade Commission, on June 24, 1975, instituted an investigation under section 201(b) of the Trade Act of 1974 to determine whether wrapper tobacco (whether or not mixed with filler tobacco), not stemmed or stemmed, provided for in items 170.10 and 170.15 of the Tariff Schedules of the United States, is being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industry producing an article like or directly competitive with the imported article.

Public hearings ordered. Public hearings in connection with this investigation will be held in Tallahassee, Florida, on Monday, August 11, 1975, at a time and place to be announced in a subsequent notice; in Hartford, Connecticut, on Wednesday, August 13, 1975, at a time and place to be announced in a subsequent notice; and in Washington, D.C., at 10 a.m., e.d.t. on Friday, August 15, 1975, in the Hearing Room, U.S. International Trade Commission, Eighth and E Streets, NW. Requests for appearances at the hearings should be received in writing by the Secretary of the Commission at his offices in Washington not later than noon of the fifth calendar day prior to the hearing.

Inspection of petition. The petition filed in this case is available for public inspection at the Office of the Secretary, U.S. International Trade Commission, and at the New York City office of the U.S. International Trade Commission located at 6 World Trade Center.

By order of the Commission.

KENNETH R. MASON,
Secretary.

NATIONAL ADVISORY COUNCIL ON THE EDUCATION OF DISADVANTAGED CHILDREN

MEETING

Notice is hereby given, pursuant to Pub. L. 92-463, that the next meeting of the National Advisory Council on the Education of Disadvantaged Children will be held on July 18, 1975, at the Marriott Twin Bridges Motel, U.S. 1, Arlington, Virginia, from 9 a.m.—4:30 p.m.; and on July 19, 1975 at 425-13th Street, NW., Suite 1012, Washington, D.C., from 9 a.m.—4 p.m.

The National Advisory Council on the Education of Disadvantaged Children is established under section 148 of the Elementary and Secondary Act (20 U.S.C. 2411) to advise the President and the Congress on the effectiveness of compensatory education to improve the educa-

tional attainment of disadvantaged children.

The meeting of the 18th will include briefings by specialists in Early Childhood Education. The Council will hear Committee reports during the July 19th meeting.

Because of limited space, all persons wishing to attend should call for reservations by July 7, 1975, Area Code 202/382-6945.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the National Advisory Council on the Education of Disadvantaged Children, located at 425-13th Street, NW., Suite 1012, Washington, D.C.

Signed at Washington, D.C. on June 23, 1975.

ROBERTA LOVENHEIM,
Executive Director.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 75-40]

NASA RESEARCH AND TECHNOLOGY AD- VISORY COUNCIL (RTAC) AD HOC PANEL

Notice of Determination

JUNE 26, 1975.

Pursuant to section 9(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), and after consultation with the Office of Management and Budget, the NASA Administrator has determined that continuation of the Ad Hoc Panel on Terminal Configured Vehicles of the RTAC Panel on Aeronautical Operating Systems is in the public interest in connection with the performance of duties imposed upon NASA by law.

The functions of this Ad Hoc Panel are to review and evaluate all phases of terminal configured vehicle research and technology in terms of relevance to current needs and future requirements of the air transportation system industry/user community. The Ad Hoc Panel provides recommendations and advice on the goals, trends, content, and technical balance of these efforts. It is being continued to insure that the programs in this area emphasizes the technologies which are most important and most likely to be used.

DUWARD L. CROW,
Assistant Administrator for
DOD and Interagency Affairs.

NUCLEAR REGULATORY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS' SUBCOMMITTEE ON CLINCH RIVER BREEDER REACTOR

Meeting

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards' Subcommittee on Clinch River Breeder Reactor will hold a meeting on July 17, 1975 in the auditorium of the American Museum of Atomic Energy, South Tulane Avenue, Oak Ridge, Tennessee 37830. The purpose of this meeting will be to develop information for consideration by the ACRS in its review of the combined application of the Tennessee Valley Authority (TVA) and Project Management Corporation (PMC) for a permit to construct this nuclear power plant. The facility will be located in Oak Ridge, Tennessee. The plant is to use a liquid metal fast breeder reactor and is to have a gross capacity of 380 MW(e).

The agenda for the subject meeting shall be as follows:

Thursday, July 17, 1975, 8:30 a.m. until the conclusion of business. The Subcommittee will hear presentations by representatives of the NRC Staff and the TVA and/or PMC and will hold discussions with these groups pertinent to the review of the combined application of the TVA and PMC for a permit to construct the Clinch River Breeder Reactor Plant.

In connection with the above agenda item, the Subcommittee will hold Executive Sessions, not open to the public at 8 a.m. and at the end of the day to consider matters relating to the above application. These sessions will involve an exchange of opinions and discussion of preliminary views and recommendations of Subcommittee members and internal deliberations for the purpose of formulating recommendations to the ACRS.

I have determined, in accordance with subsection 10(d) of Pub. L. 92-463, that the above-noted Executive Sessions will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b). Further, any non-exempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered

practical. It is essential to close such portions of the meeting to protect the free interchange of internal views, to avoid undue interference with agency or Subcommittee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business, including provisions to carry over an incompleting open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda items may do so by mailing 25 copies thereof, post-marked no later than July 10, 1975 to the Executive Secretary, ACRS, NRC, Washington, D.C. 20555, Attn: Mr. T. G. McCreless. Such comments shall be based upon the Preliminary Safety Analysis Report for this facility and related documents on file and available for public inspection at the NRC Public Document Room, 1717 H St., NW., Washington, D.C. 20555, and the Oak Ridge Public Library, Circulation Center, Oak Ridge, Tennessee 37820, and, also, at the Lawson McGhee Public Library, 500 W. Church Street, Knoxville, Tennessee 37902.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee between the hours of 11 a.m. and 2 p.m.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on July 15, 1975 to the Office of the Executive Secretary of the Committee (telephone 202/634-1374, Attn: Mr. T. G. McCreless) between 8:15 a.m. and 5 p.m., e.d.t.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first served basis.

(g) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) A copy of the transcript of the open portion of the meeting will be available for inspection on or after July 22, 1975 at the NRC Public Document Room 1717 H St., NW., Washington, D.C. 20555 and within approximately nine days at the Oak Ridge Public

Library, Circulation Center, Oak Ridge, Tennessee 37830, and at the Lawson McGhee Public Library, 500 W. Church St., Knoxville, Tennessee, 37902. Copies of the transcript may be reproduced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second St., NE., Washington, D.C. 20002 (telephone 202/547-6222) upon payment of appropriate charges.

(i) On request, copies of the minutes of the meeting will be made available for inspection at the NRC Public Document Room, 1717 H St., NW., Washington, D.C. 20555 after October 20, 1975. Copies may be obtained upon payment of appropriate charges.

Dated: June 26, 1975.

JOHN C. HOYLE,
Advisory Committee
Management Officer.

[Docket No. 50-213]

CONNECTICUT YANKEE ATOMIC POWER CO.

Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 3 to Facility Operating License No. DPR-61 issued to Connecticut Yankee Atomic Power Company which revised Technical Specifications for operation of the Haddam Neck Plant, located in Middlesex County, Connecticut. The amendment is effective as of its date of issuance.

This amendment changes the Technical Specifications to reflect the use of Cycle VI fuel. New safety limit curves are provided, limiting linear heat generation rates are specified for Batch 8 fuel and a revised "flyspeck" curve is provided.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Notice of Proposed Issuance of Amendment to Facility Operating License in connection with this action was published in the FEDERAL REGISTER on May 16, 1975 (40 FR 21545). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

For further details with respect to this action, see (1) the application for amendment dated May 12, 1975, (2) Amendment No. 3 to License No. DPR-61, with Change No. 3, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Russell Library, 119 Broad Street, Middletown, Connecticut 06457.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 20th day of June 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,
Chief, Operating Reactors
Branch #1, Division of Reactor
Licensing.

[FR Doc.75-17014 Filed 6-30-75;8:45 am]

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on June 26, 1975 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503 (202-395-4529), or from the reviewer listed.

[Release No. 34-11493]

**INTERNATIONAL FLAVORS &
FRAGRANCES, INC.****Boston Stock Exchange Application for Un-
listed Trading Privileges in Common
Stock; Public Hearing**

JUNE 25, 1975.

The Securities and Exchange Commission announced that it has issued an order for the institution of a public hearing, pursuant to section 12(f) (2) of the Securities Exchange Act of 1934 ("Act.") to consider whether the granting of the Boston Stock Exchange ("BSE") application for unlisted trading privileges in the common stock of International Flavors & Fragrances, Inc. ("IFF") is necessary or appropriate in the public interest or for the protection of investors.

On August 22, 1974 BSE submitted its application, pursuant to Section 12(f) (1) of the Act, for unlisted trading privileges in IFF securities. In its September 11, 1974 letter IFF notified the Commission of its objection to the application.

The Commission announced that the hearing on BSE's application for unlisted trading in the common stock of IFF will be held before Administrative Law Judge Max O. Regensteiner and will convene at 10 a.m. Tuesday, August 5, 1975, at the Commission's headquarters 500 North Capitol Street, NW., Washington, D.C. (Sec. 12(f) (2); 78 Stat. 566; 15 U.S.C. 781(f) (2)).

By the Commission.

[Release No. 34-11492]

LUDLOW CORP.**Boston Stock Exchange Application for Un-
listed Trading Privileges in Common
Stock; Public Hearing**

JUNE 25, 1975.

The Securities and Exchange Commission announced that it has issued an or-

der for the institution of a public hearing pursuant to section 12(f) (2) of the Securities Exchange Act of 1934 ("Act") to consider whether the granting of the Boston Stock Exchange ("BSE") application for unlisted trading privileges in the common stock of Ludlow Corporation ("Ludlow") is necessary or appropriate in the public interest or for the protection of investors.

On April 23, 1974 BSE submitted its application, pursuant to section 12(f) (1) of the Act, for unlisted trading privileges in Ludlow securities. In its May 10, 1974 letter and May 20, 1974 submission Ludlow notified the Commission of its objection to the application and requested a hearing.

The Commission announced that the hearing on BSE's application for unlisted trading in the common stock of Ludlow will be held before Administrative Law Judge Edward B. Wagner and will convene at 10 a.m. Wednesday, August 6, 1975 at the Commission's headquarters, 500 North Capitol Street, NW., Washington, D.C.

(Sec. 12(f) (2); 78 Stat. 566; 15 U.S.C. 781(f) (2))

By the Commission.

[70-5699]

NEW ENGLAND POWER CO.**Amendment to Articles of Organization**

JUNE 24, 1975.

Notice is hereby given that New England Power Company ("NEPCO"), 20 Turnpike Road, Westborough, Massachusetts 01581, an electric utility subsidiary company of New England Electric System ("NEES"), a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a) (2), 7(e), and 12(e) of the Act and Rules 62 and 65 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

NEPCO proposes to amend its Articles of Organization and Articles I, III, IV, and IX of its By-Laws to provide for the authorization of a new additional class of stock to be called Preferred Stock-Cumulative to rank on a parity with and have the same preferences and rights as the existing dividend series preferred stock but with a par value of \$25 rather than \$100. Each series of preferred stock-cumulative would be designated "Cumulative Preferred Stock, \$25 par value, --% Series." Whenever any vote of the preferred stock would affect only dividend series preferred stock, the dividend series would vote as a single class. Whenever any vote of the preferred stock would affect only the preferred stock-cumulative, the preferred stock-cumulative would vote as a single class. In all other cases, the dividend series pre-

ferred stock and the preferred stock-cumulative would vote as a single class. The new preferred stock-cumulative would have one-quarter vote per share.

NEPCO intends to submit the proposed amendments to its Articles of Organization and By-Laws to its stockholders at a special meeting of stockholders to be held on July 25, 1975. In connection therewith, NEPCO proposes to solicit proxies from the holders of its dividend series preferred stock through the use of solicitation material which sets forth the proposals in detail. The declaration states that the proposed amendments require the affirmative vote of two-thirds of the now outstanding 6% cumulative preferred stock and common stock voting as one class and the approval by two-thirds of the outstanding shares of dividend series preferred stock voting as a class. Since NEES, holder of all of the outstanding shares of NEPCO's common stock has indicated that all such shares will be voted in favor of the proposed amendments, NEPCO is not soliciting the votes of the holders of the 6% cumulative preferred stock and common stock.

The fees and expenses to be paid by NEPCO are estimated at \$7,500, including service fees, at cost, of New England Power Service Company, a wholly-owned subsidiary of Nees, of \$2,200. It is stated that the Massachusetts Department of Public Utilities has jurisdiction over the proposed transaction and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given, that any interested person, may, not later than July 21, 1975, request in writing that a hearing be held with respect to the proposed transaction, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

It appearing to the Commission that the declaration, insofar as it proposes the solicitation of the consents of NEPCO's dividend series preferred stock-

holders, should be permitted to become effective forthwith pursuant to Rule 62:

It is ordered That the declaration regarding the proposed solicitation of the consents of NEPCO's dividend series preferred stockholders be, and it hereby is, permitted to become effective forthwith pursuant to Rule 62 and subject to the terms and conditions prescribed in Rule 24 under the Act.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[70-5678]

OHIO ELECTRIC CO.

Proposed Issuance and Sale of First Mortgage Bonds

JUNE 24, 1975.

Notice is hereby given that Ohio Electric Company ("Ohio Electric"), an electric generating subsidiary company of Ohio Power Company ("Ohio"), an electric utility subsidiary company of American Electric Power Company, Inc. ("AEP"), a registered holding company, has filed an application-declaration and amendments thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating sections 6(b), 12(c) of the Act and Rules 42(a) and 42(b) (2) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, as amended, which is summarized below, for a complete statement of the proposed transactions.

Ohio Electric was organized under the laws of the State of Ohio on January 31, 1972 for the purpose of acquiring, completing the construction of, and operating, the General James M. Gavin Plant (Gavin Plant), a fossil-fired steam electric generating station situated in Ohio along the Ohio River near Cheshire, Ohio. The Gavin Plant is to consist of two nominally rated 1,300,000 kilowatt generating units, the first of which was placed in commercial operation on October 20, 1974 and the second of which is scheduled to be placed in commercial operation later in 1975. It is estimated that the total construction costs of the Gavin Plant will equal at least \$600,000,000, an estimated unit cost of not less than \$230 per kilowatt. Construction costs aggregating \$535,085,000 had been incurred through December 31, 1974 and it is estimated that additional construction costs aggregating \$52,700,000 will be incurred in 1975 and not less than \$18,199,000 additional construction costs incurred after 1975. By order issued March 21, 1972 (HCAR No. 17504) the Commission authorized Ohio Electric to acquire the Gavin Plant from Ohio Power. The order of the Commission also authorized Ohio Electric to issue its unsecured promissory notes from time to time to seventeen banks under a Bank Loan Agreement in

an aggregate principal amount up to \$300,000,000 and, in connection therewith, authorized Ohio Electric and Ohio Power to enter into and to perform a Capital Funds Agreement and a Power Agreement. On April 10, 1972, Ohio Power transferred the Gavin Plant to Ohio Electric pursuant to the Capital Funds Agreement in consideration of the issuance and delivery by Ohio Electric to Ohio Power of the securities which the Commission authorized Ohio Electric to issue, and thereafter Ohio Electric effected borrowings under the Bank Loan Agreement until it completed in 1974 the borrowing of the \$300,000,000 thereunder. The notes issued under the Bank Loan Agreement mature by their terms on May 31, 1979 and bear interest at a rate equal to one-half of one percent plus the prime commercial loan rate of Manufacturers Hanover Trust Company from time to time in effect. Ohio is entitled under the Power Agreement to receive all power (and the energy associated therewith) available at Gavin Plant and Ohio Power agrees to pay Ohio Electric in consideration for the right to receive all such power and energy, such amounts from time to time as, when added to amounts received by Ohio Electric from any other source, will be at least sufficient for Ohio Electric to pay when due all of its operating and other expenses, including (i) any amount which Ohio Electric may be required to pay on account of any interest and/or any substitute interest on all indebtedness for borrowed money issued or assumed by Ohio Electric and on account of the stated maturities of, and/or all required sinking fund payments and other regular amortization requirements applicable to, such indebtedness and (ii) such additional amount as is necessary after any required provision for taxes on, or measured by, income to enable Ohio Electric to pay required dividends on any preferred stock which it may issue and such amount as will represent a fair return on the common stock equity of Ohio Electric as may be permitted by governmental regulatory authorities having jurisdiction. Ohio Electric filed the Power Agreement with the Federal Power Commission (FPC) on July 3, 1974 as an initial rate schedule of Ohio Electric and an investigation was instituted, which is currently continuing, under section 206 of the Federal Power Act as to the reasonability of the rates and charges specified in the Power Agreement.

Ohio Electric proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, up to \$75,000,000 principal amount of First Mortgage Bonds, in one initial series, to mature in not less than 5 and not more than 10 years from the date of issuance of such Bonds. The interest rate and the price to be paid to Ohio Electric for the Bonds will be determined by competitive bidding. The terms of the Bonds preclude Ohio Electric from redeeming any such Bonds prior to July 1, 1980, if such redemption is for the purpose of refunding such Bonds with

proceeds of funds borrowed at a lower effective interest cost. The Bonds will be issued under and secured by a Mortgage and Deed of Trust, to be dated as of July 1, 1975, to Chase Manhattan Bank, N.A., ("Trustee"), and an Indenture thereto, to be dated as of the first day of the month in which the Bonds are to be issued.

The Mortgage Indenture is designed to finance 60 percent of the construction costs of the 2 unit Gavin plant plus additions thereto as defined in the Mortgage Indenture. Ohio Electric will not assign its interest or rights to any funds due or to become due under the Capital Funds Agreement or Power Agreement to any person other than the Indenture Trustee. Ohio Electric will not declare or pay any dividend on any class of its capital stock, nor directly or indirectly make any payment on account of the purchase, redemption, acquisition or retirement of any shares of its capital stock, of any class, unless, after giving effect to such declaration, payment, purchase, redemption, acquisition or other retirement, the aggregate amount of the proprietary capital of Ohio Electric, including all of its capital stock and paid in and retained earnings, is at least 53.85 percent of the principal amount of all then outstanding indebtedness of Ohio Electric for borrowed money. The Indenture provides for a cash sinking fund pursuant to which Ohio Electric will be required annually to retire Bonds of the first series issued under the Indenture. The amount of the sinking fund payments for this series will be filed by amendment. It is contemplated that the amount of the annual sinking fund payments for this series and the respective amounts of sinking fund payments in the future for additional series will be sufficient to provide for the retirement of all outstanding Bonds at the expiration of the useful life of the depreciable facilities of the Gavin plant.

The proceeds realized from the sale of the Bonds will be deposited in the construction fund under the Mortgage and will be withdrawn by Ohio Electric on application to the Trustee to pay construction costs of the 2 unit Gavin plant.

The fees and expenses to be incurred in connection with the proposed transactions will be supplied by amendment. The proposed issuance and sale of the Bonds is subject to the jurisdiction of the Public Utilities Commission of Ohio and no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than July 17, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Ex-

change Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date the application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[File No. 500-1]

WESTGATE CALIFORNIA CORP.

Suspension of Trading

JUNE 25, 1975.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock (class A and B), the cumulative preferred stock (5 percent and 6 percent), the 6 percent subordinated debentures due 1979 and the 6½% convertible subordinated debentures due 1987, and all other securities of Westgate California Corporation being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to section 12(k) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended, for the period from June 26, 1975 through July 5, 1975.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[812-3770]

EVEREST FUND, INC. ET AL.

Filing of Application for an Order of Exemption

Notice is hereby given that Everest Fund, Inc. ("Everest") and Fidelity Convertible & Senior Securities Fund, Inc. ("Convertible"), 35 Congress Street, Boston, Massachusetts 02109, open-end diversified, management investment companies registered under the Investment Company Act of 1940 (the "Act"),

and Fidelity Management & Research Company ("Fidelity"), the investment adviser to, and a shareholder of, Everest and Convertible (collectively referred to as "Applicants"), filed an application on February 28, 1975, and amendments thereto on April 21, 1975, and June 18, 1975, pursuant to section 17(b) of the Act, for an order of the Commission exempting from the provisions of section 17(a) of the Act the merger of Convertible into Everest and, pursuant to section 17(d) of the Act and Rule 17d-1 thereunder, for an order of the Commission permitting Fidelity to participate, as a principal, in the merger of Convertible into Everest. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below. Everest was organized in 1965 and, as of January 31, 1975, had 2,317,364 shares outstanding and net assets of \$22,421,968. The present investment objective of Everest is the provision of "modest but growing income . . . combined with capital appreciation * * *." Convertible was organized in 1971 and, as of January 31, 1975, had 1,770,720 shares outstanding and net assets of \$11,030,246. The investment objective of Convertible is capital appreciation with income a secondary objective.

Both Everest and Convertible employ Fidelity as investment adviser and a wholly owned subsidiary of Fidelity, The Crosby Corporation, as principal underwriter. The Board of Directors of Everest and Convertible are identical and their officers are substantially identical. Accordingly, Everest and Convertible may be deemed to be under common control. Section 2(a) (3) of the Act, in pertinent part, defines an affiliated person of another person to include any person under common control with such other person and an affiliated person of a registered investment company to include any investment adviser of such investment company. Fidelity, therefore, is an affiliated person of both Everest and Convertible, and Everest and Convertible may be deemed to be affiliated persons of each other. Fidelity presently owns 22,912 shares of Everest and 11,269 shares of Convertible. These securities had a value, as of January 31, 1975, of approximately \$221,788 and \$70,205 respectively and constituted approximately 0.99 percent and 0.64 percent of the respective outstanding voting securities of Everest and Convertible.

Everest and Convertible propose to enter into an Agreement of Merger pursuant to which Convertible will be merged into Everest in accordance with Massachusetts law. Everest will be the surviving corporation and the separate corporate existence of Convertible will cease. The Agreement of Merger and other matters incidental thereto have been approved by the Boards of Directors of Everest and Convertible and must be further approved by the vote of at least two-thirds of the outstanding voting securities of both Everest and Convertible. Share-

holders of Everest will also be asked to approve a change in the investment objective of Everest. The proposed new investment objective of Everest is to obtain "reasonable income which shall mean a yield for its shareholders which exceeds the yield on the securities comprising the Standard & Poor's Index of 500 Common Stocks" and to obtain "capital appreciation on the overall portfolio consistent with this objective." The merger of Convertible into Everest will be conditioned upon approval by Everest shareholders of the latter proposal.

On or prior to the effective date of the merger, Convertible will distribute to its shareholders a dividend consisting of substantially all of its net taxable investment income. On the effective date of the merger, the outstanding shares of Convertible held by each stockholder of record will be converted into that number of full and fractional shares of Everest having an aggregate net asset value equal to the value of such stockholder's pro rata interest in the net assets of Convertible. The net asset values of Everest and Convertible, for purposes of the exchange, will be determined as of the close of business on the effective date of the merger.

As of January 31, 1975, Everest and Convertible had, respectively, net unrealized losses of \$4,210,670 and \$1,905,900, and tax loss carryforwards of \$15,624,300 and \$4,704,384. Such tax loss carryforwards, or a portion thereof, will be available to offset future taxable gains through January 31, 1980. No adjustments in the aggregate net asset values of Everest and Convertible will be made to compensate shareholders for any potential Federal income tax impact which may result from the differences between Everest and Convertible in the percentage of their unrealized capital losses and tax loss carryforwards to their net assets. Applicants assert that an adjustment is not appropriate because there is no assurance that (1) capital gains will ever be realized which can be offset against the tax loss carryforwards, (2) unrealized losses will ever be realized, or (3) capital gains will be realized against which such losses, if any, may be offset.

SECTION 17(a)

Section 17(a) of the Act, in pertinent part, provides that it shall be unlawful for any affiliated person of a registered investment company, or any affiliated person of such a person, acting as principal, knowingly to sell to or purchase from such registered company any security or other property. Section 17(b) of the Act provides that the Commission, upon application, may exempt a proposed transaction from the provisions of section 17(a) if evidence establishes that the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned and that the proposed transaction is consistent with the policy of each registered investment company concerned and with the general

purpose of the Act. Applicants request an order of the Commission exempting from the provisions of section 17(a) of the Act the proposed merger of Convertible into Everest and the exchange of shares of Convertible for shares of Everest by Fidelity in connection with the merger.

Applicants assert that the terms of the proposed transaction are reasonable and fair and do not involve overreaching on the part of any person concerned. Shares of Everest will be issued to Convertible shareholders on the basis of the respective net asset values of Everest and Convertible determined at the same point in time. Applicants assert that Fidelity will be treated no differently than all other shareholders of Convertible. Applicants believe that the consummation of the proposed merger will result in certain economies of operation through the reduction of certain expenses, such as auditing fees, filing fees, custodial fees and the expenses of preparation of proxy statements and shareholder reports. The aggregate expenses of consummating the merger of Everest and Convertible are estimated to be \$47,700.

Prior to the effective date of the merger, Everest will designate those securities then held by Convertible which are incompatible with the investment objective of Everest or, if delivered to Everest on the effective date of the merger, would be immediately resold by Everest, and such securities will be sold by Convertible. Applicants submit that the proposed merger is consistent with the policies of both Everest and Convertible and the general purposes of the Act. Applicants state that the investment policies and restrictions of Everest and Convertible are substantially identical and that the investment objectives of both Funds are similar.

SECTION 17(d) AND RULE 17d-1

Rule 17d-1, adopted by the Commission pursuant to section 17(d) of the Act, provides, in pertinent part, that no affiliated person of any registered investment company and no affiliated person of such a person, acting as principal, shall participate in, or effect any transaction in connection with, any joint enterprise or other joint arrangement in which such registered company is a participant unless an application regarding such joint enterprise or arrangement has been filed with the Commission and has been granted by an order. A joint enterprise or other joint arrangement as used in this rule is any written or oral plan, contract, authorization or arrangement, or any practice or understanding concerning an enterprise or undertaking whereby a registered investment company and any affiliated person of such registered investment company, or any affiliated person of such a person, have a joint or a joint and several participation, or share in the profits of such enterprise or undertaking. In

passing upon such application, the Commission will consider whether the participation of such registered company in such joint enterprise or joint arrangement on the basis proposed is consistent with the provisions, policies and purposes of the Act and the extent to which such participation is on a basis different from or less advantageous than that of other participants.

Because officers and employees of Fidelity, in their capacity as officers of the Funds, proposed the merger to the directors of Everest and Convertible, and because Fidelity will vote its shares in the Funds in favor of the merger and, if the merger is approved, exchange its shares of Convertible for shares of Everest, Fidelity might be deemed to be a participant in the merger with Everest and Convertible, and thus, subject to the provisions of section 17(d) of the Act and Rule 17d-1 thereunder.

Applicants assert that the proposed merger is consistent with the provisions, policies and purposes of the Act. Applicants further assert that the participation of Fidelity, as a shareholder of Convertible, in the proposed merger will be on the same basis, i.e., net assets value, as all other shareholders of Convertible.

Notice is further given that any interested person may, not later than July 18, 1975 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the Applicants at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule O-5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following July 18, 1975 unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc. 75-17065 Filed 6-30-75; 8:45 am]

[75-5698]

NATIONAL FUEL GAS CO. ET AL.

Proposal To Issue and Sell Notes to Banks by Holding Company and To Issue and Sell Short-Term Notes to Holding Company by Subsidiary Companies

Notice is hereby given that National Fuel Gas Company ("National"), 30 Rockefeller Plaza, New York, New York 10020, a registered holding company, and two of its subsidiary companies, National Fuel Gas Distribution Corporation ("Distribution Corporation"), 10 Lafayette Square, Buffalo, New York 14203 and National Fuel Gas Supply Corporation ("Supply Corporation"), 308 Seneca Street, Oil City, Pennsylvania 16301, have filed an application-declaration, and an amendment thereto, with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 6(b), 7, 9(a), 10, 12(b), and 12(f) of the Act and Rules 42, 43, and 45 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the amended application-declaration, which is summarized below, for a complete statement of the proposed transactions.

National proposes to issue and sell from time to time through December 31, 1975 unsecured short-term notes in an amount not to exceed \$30,000,000 to the following banks:

<i>Bank</i>	<i>Maximum Amount</i>
DuBois National Bank, DuBois Pa. -----	\$500,000
Emporium Trust Co., Emporium, Pa. -----	200,000
McDowell National Bank, Sharon, Pa. -----	1,100,000
Northwest Pennsylvania Bank & Trust Co., Oil City, Pa. -----	1,500,000
Pennsylvania Bank & Trust Co., Titusville, Pa. -----	2,400,000
Producers Bank & Trust Co., Bradford, Pa. -----	100,000
First Seneca Bank & Trust Co., Oil City, Pa. -----	2,250,000
First National Bank of Pennsylvania, Erie, Pa. -----	2,500,000
Marine Midland Chautauqua National Bank, Jamestown, N.Y. ---	1,000,000
Warren National Bank, Warren, Pa. -----	1,000,000
Marine National Bank, Erie, Pa. ---	400,000
Marine Midland Bank-Western, Buffalo, N.Y. -----	6,000,000
Manufacturers & Traders Trust Co., Buffalo, N.Y. -----	6,000,000
The Chase Manhattan Bank, N.A., Buffalo, N.Y. -----	3,000,000
Liberty National Bank & Trust Co., Buffalo, N.Y. -----	1,000,000
The Chase Manhattan Bank, N.A. ("Chase"), New York, N.Y. -----	1,050,000
Total -----	30,000,000

Each note will be dated as of the date of issue, will mature not later than nine months from the date thereof, and will bear interest at the prime commercial rate of interest in effect from time to time at Marine Midland Bank on such date

in the case of banks located in Buffalo and the rate in effect from time to time at Chase in the case of the remaining banks. The notes will be prepayable at any time, in whole or in part, without penalty or premium.

National intends to use the proceeds from the sale of its short-term notes to acquire for cash up to \$30,000,000 principal amount of short-term unsecured notes proposed to be issued by Supply Corporation. Each such note will be dated the same date and bear the same interest rate as the related short-term note of National. Each such note will mature within nine months from its date of issue, with interest payable quarterly until the principal amount is paid in full. Supply Corporation will have the option, after payment of all notes of prior maturity held by National, to prepay any note at any time or from time to time, in whole or in part without premium. Supply Corporation proposes to use the proceeds from the above loans to finance the purchase of up to \$30,000,000 of natural gas and for working capital.

National also proposes to issue and sell from time to time through December 31, 1975, unsecured short-term notes to Chase, pursuant to a credit agreement ("Credit Agreement"), in an aggregate amount not to exceed \$12,000,000 outstanding at any one time. The notes will mature within twelve months from their date of issue, will bear interest at the prime commercial rate in effect from time to time at Chase, and will be prepayable in whole or in part at any time without penalty. National will apply the proceeds to purchase up to \$12,000,000 of Distribution Corporation's unsecured short-term notes, which will have the same maturity and bear the same effective interest rate as the related note issued by National. Distribution Corporation will use the proceeds to finance its construction program and for working capital.

National has agreed with Chase to maintain average balances of 10 percent of the line of credit plus 10 percent on any portion of the line of credit taken down. Assuming an average balance of 20 percent and a prime interest rate of 7 percent, the effective cost of money would be 8.75 percent. There will be no commitment fee or other costs paid in connection with National's borrowings from Chase.

The fees and expenses to be incurred in connection with the proposed transactions are estimated at \$5,000. The filing states that the New York Public Service Commission and the Pennsylvania Public Utility Commission have jurisdiction over the issuance and sale of notes by National pursuant to the Credit Agreement and that no other State or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than July 14, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law

raised by said amended application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.75-17066 Filed 6-30-75;8:45 am]

SMALL BUSINESS ADMINISTRATION

MAXIMUM INTEREST RATES

Guaranteed Loan

Notice is given that the Small Business Administration ("SBA") has established the maximum rates of interest that lending institutions participating with SBA may charge on loans approved by SBA on or after July 1, 1975, under section 7 of the Small Business Act, as amended, and section 502 of the Small Business Investment Act, as amended.

Effective July 1, 1975, the maximum rate of interest acceptable to SBA on a guaranteed loan or guaranteed revolving line of credit shall be ten and one-fourth percent (10¼ percent) a year, and the maximum rate on an immediate participation loan shall be nine and one-fourth percent (9¼ percent) a year. These maximum interest rates are unchanged from those published in the FEDERAL REGISTER on March 17, 1975 (40 FR 12169), and shall remain in effect until notification of a change is issued by SBA.

The "SBA Optional Peg Rate" (formerly called the "Treasury Peg Rate") for the quarter-year beginning July 1, 1975, will be seven and seven-eighths percent (7⅞ percent) a year. This is an optional "peg" rate for use in connection with fluctuating interest rate loans made in cooperation with SBA.

This notice is issued under 13 CFR 120.3(b)(2)(vi).

VETERANS ADMINISTRATION

DEPENDENCY ALLOWANCE FOR SPOUSE TO CERTAIN FEMALE VETERANS CONCERNING PAYMENT OF CERTAIN EDUCATIONAL BENEFITS

Statement of Policy

By virtue of the authority vested in me by section 210(c)(1) of title 38 of the United States Code and pursuant to § 1.551 of Title 38 of the Code of Federal Regulations, I hereby declare the following to be the policy of the Veterans Administration concerning payment of certain educational benefits.

Whereas, the United States District Court for the Northern District of California in a decision, dated April 4, 1973, in the case of "Kathleen C. Greene, et al., plaintiffs vs. Board of Veterans Appeals, et al., defendants," Civil Action No. C-72-643 OJC, held that sections 102(b), 1652(d)(3) and 1682(a) of title 38, United States Code, as they were stated prior to the 1972 amendments to section 102(b) (Pub. L. 92-540), violated plaintiffs' rights of equal protection under the Fifth Amendment to the United States Constitution.

And Whereas; pursuant to the Order of the Court, promulgated May 4, 1973, the Veterans Administration has paid to the plaintiffs the dependency allowance payable to them for their spouses for the appropriate periods of their schooling.

Therefore, in recognition of the decision of the Court in deciding the constitutionality of these sections of title 38 and in order to do equity to all those similarly circumstanced, I hereby declare that the Veterans Administration will pay to any eligible female veteran the dependency allowance properly payable by reason of her having a living spouse for the period of her pursuit of a program of education under the provisions of chapter 34 of title 38 during the period commencing June 1, 1966, and ending October 24, 1972. Payment of this dependency allowance will be made following receipt by the Veterans Administration of a claim supported by acceptable evidence of the marriage. Such claim and supporting evidence should be submitted promptly to the Veterans Administration Regional Office

having jurisdiction over the geographic area in which such female veteran resides. To be considered, a claim must be filed on or before July 1, 1976.

Approved: June 16, 1975.

[SEAL] RICHARD L. ROUDEBUSH,
Administrator.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[V-75-9]

GEORGE A. HORMEL & CO.

Application for Variance and Interim Order, Partial Grant of Interim Order

I. Notice of application. Notice is hereby given that George A. Hormel & Company, P.O. Box 800, 501-16th Avenue NE., Austin, Minn. 55912 has made application pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655) and 29 CFR 1905.11 for a variance and interim order pending a decision on the application for a variance, from the requirement prescribed in 29 CFR 1910.23(c)(1) concerning guarding of open-sided floors, platforms and runways.

The addresses of the places of employment that will be affected by the application are as follows:

George A. Hormel & Co., NE. 6th Place, Austin, Minn. 55912.

George A. Hormel & Co., 160 N. 1st St., Fort Dodge, Iowa 50501.

George A. Hormel & Co., 900 South Platte Avenue, Fremont, Nebr. 68025.

George A. Hormel & Co., East Haven Street, Mitchell, S. Dak. 57301.

George A. Hormel & Co., South H Street, Miami, Okla. 14354.

The applicant certifies that employees who would be affected by the variance have been notified of the application by giving a copy of it to their authorized employee representative, and by posting a copy at all places where notices to employees are normally posted. Employees have also been informed of their right to petition the Assistant Secretary for a hearing.

Applicant originally submitted a request for variance from the above standard's guardrail requirement for the ham-shaving station, pork slaughtering operation, in its facility at Mitchell, South Dakota. On April 7, 1975 applicant amended this request to include all platforms at all work stations in its pork and beef slaughtering operations presently covered by 29 CFR 1910.23(c)(1). On April 24, 1975 applicant submitted extensive supplementary data in support of this amended variance request.

In light of data contained in applicant's submissions and gathered in variance inspections of applicant's Mitchell facility and three other slaughtering facilities not operated by Hormel in the South Dakota-Nebraska area, as well as the observed variation in work stations performing similar operations at these

facilities, sufficient information is presently not available to determine whether the safeguards generally proposed by applicant for its beef- and pork-slaughtering platforms would provide working conditions "as safe as" those afforded by standard guardrails. However, such information is available with respect to the ham-shaving operation covered by applicant's original request and continued in its amended application.

These ham-shaving platforms range in height from 4'2" to 6'4" above the adjacent floor and are used by one or more employees, who shave surface hair from slaughtered carcasses which move past the platform by overhead suspension. Employees use razor-sharp knives to perform this operation, which requires considerable flexibility of movement in the shaver's knee-to-shoulder range. The ham-shaving platforms are not less than 3' wide, and are equipped with non-skid surfaces, standard guardrails on three ("non-work") sides, and a toeboard on the working side to signal the location of the edge. In addition, some protection against falls is afforded by the pork carcasses, which move past the platform in close formation immediately next to the open edge and which employees may and do use to steady themselves while performing the shaving operation.

Applicant asserts that installation of a standard 42" guardrail on this working side would severely limit access to carcasses and cause frequent cuts resulting from knives stubbing or striking against the guardrail in the course of shaving activities. It also points to data indicating no recorded injuries from falls from these or any other platforms in over 900,000 man-hours of work in the past five years, and has represented that no falls of any kind from these platforms have occurred. In addition, it has submitted numerous statements from employees and union stewards at its facilities, which statements support its request. It accordingly requests a variance which would permit it to install guardrails 24" in height on the working side of these ham-shaving platforms, asserting that such a rail in combination with the above-described conditions would provide its ham-shavers a workplace as safe against accidental falls as that furnished by standard guardrails.

A copy of the application will be made available for inspection and copying upon request at the Office of Compliance Programming, U.S. Department of Labor, 200 Constitution Avenue, Room NX 3603, Washington, D.C. 20210, and at the following Regional and Area Offices:

U.S. Department of Labor, Occupational Safety and Health Administration, 32nd Floor, Room 3259, 230 S. Dearborn Street, Chicago, Ill. 60604.

U.S. Department of Labor, Occupational Safety and Health Administration, 110 S. Fourth St., Room 437, Minneapolis, Minn. 55401.

U.S. Department of Labor, Occupational Safety and Health Administration, Room 3000, 911 Walnut St., Kansas City, Mo. 64106.

U.S. Department of Labor, Occupational Safety and Health Administration, 210 Walnut St., Room 643, Des Moines, Iowa 50309.

U.S. Department of Labor, Occupational Safety and Health Administration, Room 803, Harney and 16th St., City National Bank Bldg., Omaha, Nebr. 68102.

U.S. Department of Labor, Occupational Safety and Health Administration, Federal Bldg., Room 15010, 1961 Stout Street, Denver, Colo. 80202.

U.S. Department of Labor, Occupational Safety and Health Administration, Court House Plaza Building, Room 408, 300 North Dakota Avenue, Sioux Falls, S. Dak. 57102.

All interested persons, including employers and employees, who believe they would be affected by the grant or denial of the application for a variance are invited to submit written data, views and arguments relating to the pertinent application no later than July 31, 1975. In addition, employers and employees who believe they would be affected by a grant or denial of the variance may request a hearing on the application no later than July 31, 1975, in conformity with the requirements of 29 CFR 1905.15. Submission of written comments and requests for a hearing should be in quadruplicate, and must be addressed to the Office of Compliance Programming at the above address.

II. Interim Order. It appears from the application for a variance and interim order, information submitted by the applicant, and information obtained in visits to the slaughtering facilities that an interim order is necessary to prevent undue hardship to the applicant and its employees pending a decision on the variance. Therefore, it is ordered, pursuant to authority in section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970, and 29 CFR 1905.11 (c) that George A. Hormel and Company be, and it is hereby, authorized to operate its ham shaving stations without standard guardrails on the working side of the platform in lieu of complying with 29 CFR 1910.23(c)(1), with the following provisions:

(1) A guardrail 24" in height and a toeboard 4" in height shall be installed on the working side of all ham-shaving platforms. These safeguards shall in all other respects comply with the requirements of 29 CFR 1910.23 for standard guardrails and toeboards.

(2) The surface of all platforms shall be of non-skid material, and shall permit swift drainage or provide for other rapid removal of blood, fat particles, and similar material.

(3) All platforms shall be no less than 36" wide for their entire length.

(4) Carcasses passing the platform shall be suspended at centers 25" or less, unless wider suspension will not result in significant gaps in the carcass "wall" on the platform's working side.

George A. Hormel and Company shall give notice of this interim order to employees affected thereby, by the same means required to be used to inform them of the application for a variance.

Effective date. This interim order shall be effective as of July 1, 1975, and shall remain in effect until a decision is rendered on the application for variance.

III. *Remainder of variance request.* Applicant's request for a variance and interim order with respect to other platforms and work stations in the above-listed facilities will be determined as expeditiously as possible.

Signed at Washington, D.C., this 24th day of June 1975.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.75-17089 Filed 6-30-75;8:45 am]

IOWA PLAN

Approval of State Standards

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Assistant Regional Directors for Occupational Safety and Health (hereinafter called the Assistant Regional Director) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On July 20, 1973, notice was published in the FEDERAL REGISTER (38 FR 19368) of the approval of the Iowa plan and the adoption of Subpart J to Part 1952 containing the decision.

The Iowa plan provides for the adoption of Federal Standards as State standards (by reference after comments and public hearing). § 1952.163 of Subpart J sets forth the State's schedule for the adoption of Federal standards. By letter dated April 1, 1975 from Jerry L. Addy, Commissioner of Labor to Joseph A. Reidinger, Assistant Regional Director for the Occupational Safety and Health Administration, and incorporated as part of the plan, the State submitted State standards comparable to 29 CFR 1910.211, 1910.217 (39 FR 41846, December 3, 1974); Part 1910.93(q) (39 FR 41848, December 3, 1974); Part 1910.217 (40 FR 3982, January 27, 1975); Part 1910.106(d)(2) (40 FR 3982, January 27, 1975). These standards, which are contained in Chapter 88 of the Code of Iowa (1973), were promulgated after public comment requested on February 7, 1975, hearings held on March 10, 1975, and resolution adopted by the Iowa Bureau of Labor on March 13, 1975, pursuant to Chapter 17a of the Code. The standards were effective on March 13, 1975, and notice of their adoption was published by the State on March 21, 1975.

2. *Decision.* Having reviewed the State submission in comparison with the Federal standards it has been determined that the State standards are identical to the Federal standards and are hereby approved.

3. *Location of supplement for inspection and copying.* A copy of the standards supplement, along with the approved

plan, may be inspected and copied during normal business hours at the following locations: Office of the Assistant Regional Director, Room 3000, Federal Office Building, 911 Walnut, Kansas City, Missouri; the Iowa Bureau of Labor, East 7th and Court Avenue, 4th Floor, Des Moines, Iowa; and Office of the Associate Assistant Secretary for Regional Programs, Room N3608, 200 Constitution Avenue, NW., Washington, D.C. 20210.

4. *Public participation.* Under § 1953.2 (c) of this chapter, the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Iowa State plan as a proposed change and making the Assistant Regional Director's approval effective upon publication for the following reasons:

1. The standards are identical to the Federal standards and are therefore deemed to be at least as effective.

2. The standards were adopted in accordance with the procedural requirements of State law and further participation would be unnecessary.

This decision is effective July 1, 1975. (Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667)).

Signed at Kansas City, Missouri this 18th day of June, 1975.

J. A. REIDINGER,
Assistant Regional Director.

INTERSTATE COMMERCE COMMISSION

[Notice 801]

ASSIGNMENT OF HEARINGS

JUNE 26, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 75226 Sub 8, DeCarli's Express, Inc., now assigned July 22, 1975 at Hartford, Connecticut; will be held in Room 134 U.S. Courthouse & Federal Office Building, 450 Maine Street.

MC-F-12332, Great Coastal Express, Inc.—Purchase—Shippers Express, Inc., MC 4991 Sub 14, Great Coastal Express, Inc., and MC 4991 Sub 15, Great Coastal Express, Inc., now assigned July 14, 1975, at New York, N.Y., is canceled and transferred to Modified Procedure.

MC 117851 Sub 17, John R. Cheeseman, Application dismissed.

MC-F-12399, Gaines Motor Lines, Inc., and Control—M. & H. Trucking Company, Inc.,

now assigned July 23, 1975 at Washington, D.C., has been postponed indefinitely.

MC 112696 Sub 48, Hartmans, Incorporated and MC 138000 Sub 9, Arthur H. Fulton, now assigned July 22, 1975 at Washington, D.C., is postponed indefinitely.

MC 25708 Sub 25, Laney Tank Lines, Incorporated, and MC 103191 Sub 49, The Goe. A. Rheman Co., Inc., and MC 106119 Sub 22, Associated Petroleum Carriers, now assigned July 28, 1975, at Columbia, S.C., will be held in Room 3, 2nd Floor, Municipal Building, 811 Washington St.

MC 14751 Sub 4, Nelson Transfer & Storage Company, now assigned July 29, 1975 at Charleston, West Virginia; will be held in Room D, Main Lobby, 1900 Washington Street, East.

I&S 9046, Increased Fares on Passengers and Vehicles, Lake Michigan, now assigned July 22, 1975, at Milwaukee, Wis., will be held in Room 301D, City Hall, 200 E. Wells St.

MC-F-12379 Courier-Newsom Express, Inc.—Purchase—Bergund Trucking, Inc., and MC 69901 Sub 30, Courier-Newsom Express, Inc., now assigned July 28, 1975, at Chicago, Ill., will be held in Room 346A, Federal Building, 230 S. Dearborn St.

MC 118848 Sub 18, Domenico Bus Service, Inc., now being assigned September 22, 1975 (1 week) at Newark, New Jersey; in a hearing room to be designated later.

MC 138276 Sub 2, J & G Transport LTD., now assigned July 22, 1975, at Olympia, Wash., will be held in Room A, 4th Floor, Division of Motor Vehicles, Highways-Licenses Building, 12th and Washington St.

MC 59367 Sub 94, Decker Truck Line, Inc., now assigned July 28, 1975 at Amarillo, Texas, is canceled and the application is dismissed.

FREIGHT LOSS AND DAMAGE CLAIMS Location Codes for Quarterly Report; Proposed Revision

This Notice announces proposed alteration of location codes in quarterly reports of freight loss and damage claims to the Interstate Commerce Commission. Motor carriers and railroads filing Form QL&D and Form QL&D-R, shown in 49 CFR Part 1249; 49 CFR Part 1243, are affected. The proposed alteration involves addition of several location codes to Schedule B, and the renumbering of existing location codes.

By providing a greater number of location codes, theft and loss statistics may be compiled for additional high-loss areas participating in the jointly sponsored Department of Justice and Department of Transportation city campaigns to reduce cargo theft and losses. These additional high-loss areas are either defined specifically or provided for generally in 49 CFR Part 1048.

The existing location codes for commercial zones are being renumbered to form a single set of location codes for use by both motor carriers and railroads. This will facilitate comparison of cargo theft and loss between the two modes. A copy of the revised location codes was filed with the Director, Office of the Federal Register. A copy may be obtained by writing the Director, Bureau of Accounts, Interstate Commerce Commission, Washington, D.C. 20423.

Interested persons are invited to participate in the proposed revision by submitting such written data, views, or arguments as they desire. Communications should be submitted in duplicate to: John A. Grady, Director, Bureau of Accounts, Interstate Commerce Commission, 12th Street and Constitution Avenue NW., Room 6133, Washington, D.C. 20423. All communications received on or before July 30, 1975, will be considered before taking action on the proposed revision. The proposal contained in this Notice may be changed in light of comments received. All comments submitted will be available in the Rules Docket for examination by interested persons, both before and after the closing date.

This revision notice is proposed under the authority of section 17 of the Inter-

state Commerce Act, as amended (49 U.S.C. 17).

[SEAL] JOHN A. GRADY, Director, Bureau of Accounts.

[Ex Parte 301]

ENERGY CRISIS AND THE NEED FOR EMERGENCY TRANSPORTATION LEGISLATION

JUNE 25, 1975.

By report and order in the above-entitled proceeding, decided May 9, 1975, and served June 13, 1975, this Commission stated that, "Certain parties, including * * * Houston Chamber of Commerce, * * * assert that we should allow motor carriers to transport as backhaul any traffic they can without the necessity of receiving authority from this Commission." *Energy Crisis and Need for Emergency Transp. Legis.*, 349 I.C.C. 699, 706.

By petition filed June 19, 1975, Houston Chamber of Commerce asserts that this misstates its position and requests that the report be corrected and that the parties to the proceeding be notified thereof. Houston Chamber of Commerce suggests further that its participation in the proceeding herein could be summarized more accurately as follows:

The Freight Traffic Committee of Houston Chamber of Commerce offers certain proposals to effectuate increased fuel utilization, including permissive trip-leasing by common carriers of private carrier equipment, suspension of present prohibitions against intercorporate private carriage and altering present Commission policy that discourages carrier publication of "back-haul" rates at a level below system-wide average costs in that other carriers often protest and seek suspension of such rates.

In order to effect the requested modification, the words "Houston Chamber of Commerce" printed at 349 I.C.C. 706 in the above-entitled report, will be omitted from the bound volume in which that report is to appear.

By the Commission.

[SEAL] ROBERT L. OSWALD, Secretary.

[Notice 16]

MOTOR CARRIER TRANSFER PROCEEDINGS

JULY 1, 1975.

Application filed for temporary authority under section 210a(b) in connection with transfer application under section 212(b) and Transfer Rules, 49 CFR Part 1132:

No. MC-FC-75948. By application filed June 18, 1975, MONROVIA TRANSPORT, INC., 33 East Huntington Drive, Arcadia, Calif. 91006, seeks temporary authority to lease the operating rights of WILEY M. WHITTAKER, 2135 NW. 29th, Portland, Ore. 97210, under section 210a(b). The transfer to MONROVIA TRANSPORT, INC., of the operating rights of WILEY M. WHITTAKER, is presently pending.

By the Commission.

[SEAL] ROBERT L. OSWALD, Secretary.

[FR Doc.75-17156 Filed 6-30-75;8:45 am]

[Notice 17]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

JULY 1, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants

that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before July 21, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75372. By supplemental order entered June 19, 1975, the Motor Carrier Board approved the transfer to Coats Freightlines, Inc., Council Bluffs, Iowa, of the operating rights set forth in Certificate No. MC 133229 (Sub-No. 13), issued February 28, 1975, to Coats Freightways, Inc., Council Bluffs, Iowa, authorizing the transportation of meat, meat products, meat by-products and articles distributed by meat packinghouses, as described in Sections A and C of Appendix 1 to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk, in tank vehicles), from Minden, Nebr., to points in Connecticut, Delaware, Maryland, New Jersey, New York, Pennsylvania, Massachusetts, and the District of Columbia. Donald L. Stern, Suite 530 Univac Building, 7100 West Center Road, Omaha, Nebr. 68106.

No. MC-FC-75694. By order of June 19, 1975, the Motor Carrier Board on reconsideration approved the transfer to Morgan Trucking, Inc., Shelton, Wash., of the operating rights in Certificates Nos. MC 115614 (Sub-No. 1) and MC 115614 (Sub-No. 2) issued April 3, 1967, and January 28, 1972, to Melvin Morgan, doing business as Morgan Brothers, Shelton, Wash., authorizing the transportation of lumber and building board, from the plant site of the Simpson Timber Company at Shelton, Wash., to Aberdeen, Wash., and building materials, between Olympia, Shelton, and McCleary, Wash., on the one hand, and, on the other, Longview, Wash. George Kargianis, 2120 Pacific Building, Third Avenue & Columbia Street, Seattle, Wash. 98104, attorney for applicants.

No. MC-FC-75841. By order of June 23, 1975, the Motor Carrier Board approved the transfer to Reed Truck Line, Inc., Manila, Utah, of Certificate No. MC 59743 Sub-No. 3, issued May 14, 1959, to Levi Riley Reed, Levi Reed, Jr., and Derl W. Reed, a partnership, doing business as L. R. Reed and Sons Truck Line, Manila, Utah, authorizing the transportation of: Cement and lumber from and to specified points in Utah, Wyoming, and Colorado. [Notice 71]

**MOTOR CARRIER TEMPORARY
AUTHORITY APPLICATIONS**

JUNE 25, 1975.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC 67, (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

No. MC 531 (Sub-No. 313TA), filed June 16, 1975. Applicant: YOUNGER BROTHERS, INC., 4904 Griggs Road, Houston, Tex. 77021. Applicant's representative: Wray E. Hughes (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wine*, in bulk, in tank vehicles, from Cutler, Calif., to Laconia, N.H., for 180 days. Supporting shipper: White Mountain Vineyards, Inc., R.F.D. 2, Providence Road, Laconia, N.H. 03246. Send protests to: John Mensing, District Supervisor, Interstate Commerce Commission, 515 Rusk, Room 8610 Federal Bldg., Houston, Tex. 77002.

No. MC 69397 (Sub-No. 16TA), filed June 16, 1975. Applicant: JAMES H.

HARTMAN & SON, INC., P.O. Box 85, Pocomoke City, Md. 21851. Applicant's representative: Wilmer B. Hill, 805 McLachlen Bank Bldg., 666 Eleventh St., NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Treated and untreated piling*, on special equipment, from Bridgeville, Del., and Hollywood, Md., to points in New York, New Jersey, Pennsylvania, Massachusetts, Connecticut, Rhode Island, Delaware, Maryland, and the District of Columbia, for 180 days. Supporting shipper: C. K. Forest Products, Inc., 2938 Hempstead Turnpike, Levittown, N.Y. 11756. Send protests to: W. C. Hersman, District Supervisor, Interstate Commerce Commission, 12th and Constitution Ave., NW., Room 317, Washington, D.C. 20323.

No. MC 99610 (Sub-No. 20TA), filed June 16, 1975. Applicant: ROSS NEELY EXPRESS, INC., 1500 Second St., Pratt City, Birmingham, Ala. 35214. Applicant's representative: Edward G. Villalon, 1032 Pennsylvania Bldg., Pennsylvania Ave. and 13th St., NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, as follows: (1) between Aliceville, Ala., and Columbus, Miss., via Alabama State Highway 14 and Mississippi State Highway 69, serving all intermediate points; (2) between Reform, Ala., and Columbus, Miss., via U.S. Highway 82, serving all intermediate points; (3) between Suligent, Ala., and junction in Mississippi, at U.S. Highway 45 via U.S. Highway 278, serving all intermediate points; (4) between Hamilton, Ala., and Tupelo, Miss., via U.S. Highway 78, serving all intermediate points; (5) between Russellville, Ala., and Tremont, Miss., via Alabama State Highway 24 and Mississippi State Highway 23; (6) between Columbus, Miss., and Tupelo, Miss., via U.S. Highway 45, serving all intermediate points and Columbus Air Force Base, Miss., and Prairie, Miss., as off-route points; (7) between Fulton, Miss., and Aberdeen, Miss., via Mississippi State Highway 25, serving all intermediate points; (8) between Amory, Miss., and Nettleton, Miss., via Mississippi State Highway 6, serving all intermediate points; (9) Junction U.S. Highway 728 and Mississippi State Highway 8 to junction Mississippi State Highway 8 and U.S. Highway 45.

NOTE.—Ross Neely Express, Inc., now holds regular route authority between specific routes in Alabama, Georgia and South Mississippi. Neely intends to interline traffic at all points at which concurrences are maintained for interchanging traffic, including, but not limited to, Birmingham, Mobile, Montgomery, Decatur, Gadsden, Anniston, Florence, and Dothan, Ala., and Atlanta, Ga.

Neely proposed to join this authority with its existing permanent and temporary authority to serve points in Ala-

bama, Georgia and Mississippi, for 180 days. Supporting shippers: There are approximately 109 statements of support attached to the application which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Clifford W. White, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 1616, 2121 Bldg., Birmingham, Ala. 35203.

No. MC 107002 (Sub-No. 472TA), filed June 17, 1975. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, U.S. Highway 80 West, Jackson, Miss. 39205. Applicant's representative: John J. Borth (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bentonite clay*, in bulk, in tank vehicles, from Artesia, Miss., to the sites of the Locks and Dams near Aliceville, Ala., and Columbus, Miss., for 180 days. Supporting shippers: Caisson Corporation, Caisson Drive, Northbrook, Ill. 60062. Inquip Corporation, 2975 Wilshire Blvd., Suite 635, Los Angeles, Calif. 90010. Send protests to: Alan C. Tarrant, District Supervisor, Interstate Commerce Commission, Room 212, 145 East Amite Bldg., Jackson, Miss. 39201.

No. MC 111729 (Sub-No. 551TA), filed June 18, 1975. Applicant: PUROLATOR COURIER CORP., 2 Nevada Drive, Lake Success, N.Y. 11040. Applicant's representative: John M. Delany (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Business papers, records, and audit and accounting media*, (1) between Baltimore, Md., on the one hand, and, on the other, Nashua and Newington, N.J.; Glens Falls, Herkimer, Johnson City, Kingston, Poughkeepsie, and Rome, N.Y.; Rocky Mount, N.C.; Butler, Charleroi, Bubo, Greensburg, Kittanning, Lewiston, Lower Burrell, Meadville, Sunbury, and Uniontown, Pa.; Fredericksburg, Hampton, Norfolk, Portsmouth, and Staunton, Va.; Elkins, Morgantown, and Parkersburg, W. Va.; (2) from North Canton, Ohio to Morgantown, W. Va., for 180 days. Supporting shippers: Montgomery Ward & Company, Inc., 800 Geipe Road, Catonsville, Md. 21228. Danbourne Corporation, 4373 Strausser NW., North Canton, Ohio 44720. Send protests to: Anthony D. Gaiamo, District Supervisor, Interstate Commerce Commission, 26 Federal Plaza, N.Y. 10007.

No. MC 112520 (Sub-No. 308TA), filed June 16, 1975. Applicant: McKENZIE TANK LINES, INC., P.O. Box 1200, Tallahassee, Fla. 32302. Applicant's representative: Sol H. Proctor, 1107 Blackstone Bldg., Jacksonville, Fla. 32202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Propellants explosives (solids)*, Class B explosives, smokeless powder for small arms, water wet, in bulk, in tank vehicles, under provisions

and restrictions of DOT SP 6040, from the plantsite of Olin Corporation in Wakulla County, Fla., to Marion, Ill. and Wolf Lake, Ill., for 180 days. Supporting shipper: Olin Corporation, P.O. Box 222, St. Marks, Fla. Send protests to: G. H. Fauss, Jr., District Supervisor, Interstate Commerce Commission, Bureau of Operations, Box 35008, 400 West Bay St., Jacksonville, Fla. 32202.

No. MC 112822 (Sub-No. 379TA), filed June 16, 1975. Applicant: BRAY LINES INCORPORATED, Box 1911, Cushing, Okla. 74023. Applicant's representative: Charles D. Midkiff (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Laundry bleach*, dry (Item 2480-NMFC 100-A) packed in cardboard cartons, from the plantsite of the Clorox Company at Chicago, Ill., to the facilities of the Clorox Company in Houston, Tex., for 180 days. Supporting shipper: The Clorox Company, Beverly R. Mitchell, 7901 Oakport St., Oakland, Calif. 94621. Send protests to: Marie Spillers, Transportation Assistant, Room 240 Old P.O. Bldg., 215 N.W. Third, Oklahoma City, Okla. 73102.

No. MC 114055 (Sub-No. 5TA) (Correction), filed May 21, 1975, published in the FEDERAL REGISTER issue of June 6, 1975, and republished as corrected this issue. Applicant: RAY KOLNIK, doing business as RAY KOLNIK TRUCKING, Prairie View Road, Sakworth, Wis. 43184. Applicant's representative: Ray Kolnik (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages*, from the plantsite of the G. Heileman Brewing Company, Inc., Newport, Ky., to points in Elgin, Ill., Fox River Grove, Ill., and Waukegan, Ill.; also, from the plantsite of the G. Heileman Brewing Company of Indiana, Inc., Evansville, Ind., to points in Elgin, Ill., Fox River Grove, Ill., and Waukegan, Ill., also, from the plantsite of the G. Heileman Brewing Company, Inc., LaCrosse, Wis., to points in Waukegan, Ill., for 180 days. Supporting shippers: Andro Pucin Distributing Co., Inc., 405 Oakwood Ave., Waukegan, Ill. 60085. Elgin Beverage Company, 1685 Fleetwood Drive, Elgin, Ill. 60120. L & V Distributing, Inc., Route 14, P.O. Box 44, Fox River Grove, Ill. 60012. Send protests to: John E. Ryden, Interstate Commerce Commission, Bureau of Operations, 135 West Wells St., Room 807, Milwaukee, Wis. 53203. The purpose of this republication is to add the Field Representatives address.

No. MC 114118 (Sub-No. 2 TA), filed June 16, 1975. Applicant: MARSHALL McFARLAND, R.F.D. No. 1, Circleville, Ohio 43113. Applicant's representative: John L. Alden, 1396 West 5th Ave., P.O. Box 5241, Columbus, Ohio 43212. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Animal feed*, from Circleville, Ohio, to points in Pennsylvania, under continuing contract with Ralston Purina Company, for 180 days.

Supporting shipper: Ralston Purina Company, 901 South Court St., Circleville, Ohio 43113. Send protests to: Frank L. Calvary, District Supervisor, Interstate Commerce Commission, 220 Federal Bldg. and U.S. Courthouse, 85 Marconi Blvd., Columbus, Ohio 43215.

No. MC 114533 (Sub-No. 323TA), filed June 17, 1975. Applicant: BANKERS DISPATCH CORPORATION, 1106 W. 35th St., Chicago, Ill. 60609. Applicant's representative: Warren W. Wallin (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) (a) *Audit media and other business records*; (b) *graphic arts material*, between Wabash, Ind., on the one hand, and, on the other, Huntley, Ill.; (2) *Human blood and blood products*, between Omaha, Nebr., on the one hand, and, on the other, points in Marshall and Nemha Counties, Kans., for 180 days. Supporting shippers: Meredith Brown, D. P. Manager, Wabash Magnetics, Inc., 810 N. Cass St., Wabash, Ind. 46992. Charles W. Cairns, Administrator, American Red Cross, Regional Blood Center, 432 S. 39 St., Omaha, Nebr. 68131. Send protests to: Robert G. Anderson, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Everett McKinley Dirksen Bldg., 219 S. Dearborn St., Room 1086, Chicago, Ill. 60604.

No. MC 116314 (Sub-No. 30TA), filed June 17, 1975. Applicant: MAX BINSWANGER TRUCKING, 13846 Firestone Blvd., Santa Fe Springs, Calif. 90670. Applicant's representative: Carl H. Fritze, 1545 Wilshire Blvd., Los Angeles, Calif. 90017. IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

JUNE 26, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination Rules* (49 CFR Part 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before July 11, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will *not* operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

Applicant: WARWOOD TRANSFER CO., 2231-41 Warwood Ave., Wheeling,

W. Va. 26003. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials and supplies*, used in the manufacture of paper and paper products, except bulk commodities, from Buffalo, N.Y., to points in Ohio and Marshall Counties, W. Va., Jefferson, Harrison, Monroe, and Belmont Counties, Ohio, Allegheny, Washington, and Green Counties, Pa., and those points in Ohio, Pennsylvania, and W. Va. within 25 miles of Elm Grove, W. Va. The purpose of this filing is to eliminate the gateway of Wellsburg, W. Va.

No. MC 15558 (Sub E15), filed May 16, 1974. Applicant: WARWOOD TRANSFER CO., 2231-41 Warwood Ave., Wheeling, W. Va. 26003. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, between New York, N.Y., on the one hand, and, on the other, points in Ohio and the lower peninsula of Michigan. The purpose of this filing is to eliminate the gateway of Bridgeport, Ohio.

No. MC 45764 (Sub-No. E10) (Correction), filed May 12, 1974, published in the FEDERAL REGISTER, May 27, 1975. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in the District of Columbia, on the one hand, and, on the other, points in New York on and east of a line beginning at the New York-Pennsylvania State line, and extending north over New York Highway 282 to Nichols, N.Y., thence northeast over unnumbered highway to Owego, N.Y., thence northwest over New York Highway 96 to junction New York Highway 96B, thence northwest over New York Highway 96B to Ithaca, N.Y., thence northwest over New York Highway 96 to junction New York Highway 5, thence west over New York Highway 5 to Geneva, N.Y., thence north over New York Highway 14 to junction New York Highway 31, thence west over New York Highway 31 to Rochester, N.Y., thence northeast over New York Highway 18 to Sea Breeze, N.Y., on Lake Ontario, thence east and north along the south shore of Lake Ontario to the United States-Canadian Border at Cape Vincent, and thence northeast along that border to its junction with the New York-Vermont State line. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa. The purpose of this correction is to correct the territorial destination.

No. MC 45764 (Sub-No. E14) (Correction), filed May 12, 1974, published in the FEDERAL REGISTER, May 29, 1975. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size weight require the use of special equipment, between points in New York in and west of Monroe, Livingston, and Steuben Counties, on the one hand, and, on the other, points in Fairfield, New Haven, Middlesex, and New London Counties, Conn. The purpose of this filing is to eliminate the gateway of Paterson, N.J. The purpose of this correction is to complete the territorial destination.

No. MC 45764 (Sub-No. E49) (Correction), filed May 12, 1974, published in the FEDERAL REGISTER, May 29, 1975. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight, require the use of special equipment, between points in Pennsylvania on and south of a line beginning at Erie, Pa., and extending southeast over Pennsylvania Highway 8 to junction U.S. Highway 6, thence east over U.S. Highway 6 to junction U.S. Highway 219, thence south over U.S. Highway 219 to junction Pennsylvania Highway 255, thence southeast over Pennsylvania Highway 255 to junction Pennsylvania Highway 555, thence east over Pennsylvania Highway 555 to junction Pennsylvania Highway 120, thence east over Pennsylvania Highway 120 to junction U.S. Highway 220, thence northeast over U.S. Highway 220 to junction Pennsylvania Highway 442, thence southeast over Pennsylvania Highway 442 to junction Pennsylvania Highway 42, thence south over Pennsylvania Highway 42 to junction Interstate Highway 81, thence east over Interstate Highway 81 to junction Pennsylvania Highway 93, thence southeast over Pennsylvania Highway 93 to junction U.S. Highway 209, thence south and east over U.S. Highway 209 to junction Pennsylvania Highway 248, thence east over Pennsylvania Highway 248 to junction Pennsylvania Highway 145, thence southeast over Pennsylvania Highway 145 to Allentown, thence south over Pennsylvania Highway 309 to junction Pennsylvania Highway 663, thence east over Pennsylvania Highway 663 to Quarkertown, Pa., thence southeast over Pennsylvania Highway 313 to junction U.S. Highway 202, and thence northeast over U.S. Highway 202 to the Pennsylvania-New Jersey State line, on the one hand, and, on the other, points in Rhode Island. The purpose of this filing is to eliminate the gateway of Philadelphia,

Pa. The purpose of this correction is to correct the territorial destination.

No. MC 45764 (Sub-No. E69) (Correction), filed May 12, 1974, published in the FEDERAL REGISTER, May 30, 1975. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (3) Baltimore City, on the one hand, and, on the other, points in Delaware and Pennsylvania. The purpose of this filing is to eliminate the gateways of points in Maryland within 10 miles of Baltimore, Md. The purpose of this correction is to correct the gateway.

No. MC 45764 (Sub-No. E75) (Correction), filed May 12, 1974, published in the FEDERAL REGISTER, May 30, 1975. Applicant: ROBBINS MOTOR TRANSPORTATION, INC., P.O. Box 36, Essington, Pa. 19029. Applicant's representative: Alan Kahn, 2 Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Structural steel and equipment*, used in the erection thereof and moving therewith, the transportation of which because of size or weight require the use of special equipment or special handling, from points in Ohio on and south of a line beginning at the Ohio-West Virginia State line and extending west over U.S. Highway 22 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Ohio-Indiana State line, to points in Vermont and New Hampshire. The purpose of this filing is to eliminate the gateway of the Belmont Iron Works at Eddystone, Pa. The purpose of this correction is to correct the territorial destination.

No. MC 61231 (Sub-No. E30), filed May 15, 1974. Applicant: ACE LINES, INC., 4143 E. 43rd St., Des Moines, Iowa 50317. Applicant's representative: William L. Fairbank, 900 Hubbell Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Structural steel, steel tanks, and steel road building materials*, from Kansas City, Mo., and Kansas City, Kans., to points in Illinois, Iowa, Minnesota, North Dakota, South Dakota, and Wisconsin. The purpose of this filing is to eliminate the gateway of facilities of Armco Steel Corp., at Kansas City, Mo.

No. MC 64808 (Sub-No. E43) (Correction), filed June 4, 1974, published in the FEDERAL REGISTER, April 24, 1975. Applicant: W. S. THOMAS TRANSFER, INC., P.O. Box 507, Fairmont, W. Va. 26554. Applicant's representative: William J. LaVelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission; (2) between points in that part of Pennsylvania bounded by a line

beginning at the Pennsylvania-Maryland State line and extending along U.S. Highway 219 to junction Pennsylvania Highway 28, thence along Pennsylvania Highway 28 to junction Pennsylvania Highway 66, thence along Pennsylvania Highway 66 to junction Interstate Highway 70, thence along Interstate Highway 70 to the Pennsylvania-West Virginia State line, thence along the Pennsylvania-West Virginia State line and the Pennsylvania-Maryland State line, to the point of beginning, on the one hand, and, on the other, points in that part of Indiana on and south of Interstate Highway 74, including points on the above-described highways. The purpose of this filing is to eliminate the gateway of Marion County, W. Va. The purpose of this partial correction is to correct the territorial description. The remainder of this letter-notice will remain as previously published.

No. MC 75840 (Sub-No. E20) (Correction), filed May 6, 1974, published in the FEDERAL REGISTER May 15, 1975, republished in the FEDERAL REGISTER June 5, 1975. Applicant: MALONE FREIGHT LINES, INC., P.O. Box 11103, Birmingham, Ala. 35222. Applicant's representative: Guy H. Postell, 3384 Peachtree Road NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Twine, machinery, plumbing supplies, building materials, bags, bagging, steel, seeds, soap, shortening compounds, cotton linters, and steel tanks* (except commodities in bulk) and those requiring special equipment, from Birmingham, Ala., and points within 65 miles thereof, and Montgomery, Ala., to points in that part of Arkansas on, north and west of a line beginning at the Arkansas-Missouri State line extending along U.S. Highway 67 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 270, thence along U.S. Highway 270 to junction U.S. Highway 67, thence along U.S. Highway 67 to the Arkansas-Texas State line. The purpose of this filing is to eliminate the gateway of points in Mississippi north of U.S. Highway 82 which are east of U.S. Highway 51, and Memphis, Tenn. The purpose of this partial correction is to include the above in the original letter-notice as filed. The remainder of the letter-notice remains as previously published. The purpose of this correction is to correct the commodity description.

No. MC 100666 (Sub-No. E232) (Correction), filed May 25, 1974, published in the FEDERAL REGISTER May 21, 1975. Applicant: MELTON TRUCK LINES, INC., P.O. Box 7666, Shreveport, La. 71107. Applicant's representative: Richard W. May (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition or prepared roofing*, from points in Arkansas (except those points on, north and east of a line beginning at junction U.S. Highway 63 and the Missouri-Arkansas State line,

thence along U.S. Highway 63 to junction U.S. Highway 61, thence along U.S. Highway 61 to the Mississippi River), to points in Tennessee on, west and north of a line beginning at junction U.S. Highway 45W and the Kentucky-Tennessee State line, thence along U.S. Highway 45W to junction Kentucky Highway 54, thence along Kentucky Highway 54 to junction with the Hatchie River, thence along the Hatchie River to junction with the Mississippi River. This purpose of this filing is to eliminate the gateway of West Memphis, Ark. The purpose of this correction is to clarify the territorial destination.

No. MC 100666 (Sub-No. E257) (Correction), filed June 3, 1974, published in the FEDERAL REGISTER June 12, 1975. Applicant: MELTON TRUCK LINES, INC., P.O. Box 7666, Shreveport, La. 71107. Applicant's representative: Paul L. Caplinger (Same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (3) (b) from points in Missouri on, south and west of U.S. Highway 63 from Arkansas-Missouri State line to junction Missouri Highway 14, thence along Missouri Highway 14 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction Interstate Highway 44, thence along Interstate Highway 44 to the Missouri-Oklahoma State line, to points in Kentucky on and east of Interstate Highway 65; (c) from points in Missouri on and west of U.S. Highway 63 from Arkansas-Missouri State line to junction U.S. Highway 60, thence along U.S. Highway 60 to junction Missouri Highway 13, thence along Missouri Highway 13 to the Missouri-Iowa State line, to points in Tennessee on and east of U.S. Highway 79; (4) (b) from points in Missouri except Newton and McDonald Counties, to points in Oklahoma over 250 miles from Texarkana, Tex., except points in and west of Beaver County; (5) *composition or prepared roofing*, including composition shingles or asbestos, siding and sheet iron roofing, * * * etc. The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this partial correction is to correct the territorial destination in (3) (b), (3) (c), and (4) (b) above, and to correct the commodity description in (5) above.

No. MC 102567 (Sub-No. E2) (Correction), filed June 3, 1974, published in the FEDERAL REGISTER May 22, 1975. Applicant: MC NAIR TRANSPORT, INC., 2040 North Loopwest, Houston, Tex. 77018. Applicant's representative: Tom Wright (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such petroleum products as are liquid chemicals* (except liquefied petroleum gases, in bulk, in tank vehicles), from those points in Texas which are within 150 miles of Henderson, Tex., including Henderson, Tex., and which are south of a line beginning at Chilton, Tex., and extended along Texas Highway 7 to junction U.S. Highway 287,

thence along U.S. Highway 287 to the Texas-Louisiana State line, to points in Alabama. The purpose of this filing is to eliminate the gateway of the plant site of American Cyanamid Company at Avondale, La. The purpose of this correction is to clarify the exception in the commodity description.

No. MC 102567 (Sub-No. E3) (Correction), filed June 3, 1974, published in the FEDERAL REGISTER May 22, 1975. Applicant: MC NAIR TRANSPORT, INC., P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such petroleum products as are liquid chemicals* (except liquefied petroleum products, in bulk, in tank vehicles), from Henderson, Tex., and points in Texas within 150 miles of Henderson, to those points in Alabama south of a line beginning at the Alabama-Mississippi State line and extending along Alabama Highway 56 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction Alabama Highway 10, thence along Alabama Highway 10 to the Alabama-Georgia State line. The purpose of this filing is to eliminate the gateway of the plant site of American Cyanamid Company at Avondale, La. The purpose of this correction is to clarify the exception in the commodity description.

No. MC 102567 (Sub-No. E4) (Correction), filed June 3, 1974, published in the FEDERAL REGISTER May 22, 1975. Applicant: MC NAIR TRANSPORT, INC., P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such petroleum products as are liquid chemicals* (except liquefied petroleum gases, in bulk, in tank vehicles), from Henderson, Tex., and points in Texas within 150 miles of Henderson, to points in Florida. The purpose of this filing is to eliminate the gateway of the plant site of American Cyanamid Company at Avondale, La. The purpose of this correction is to clarify the exception in the commodity description.

No. MC 102567 (Sub-No. E6) (Correction), filed June 3, 1974, published in the FEDERAL REGISTER May 22, 1975. Applicant: MC NAIR TRANSPORT, INC., P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, Houston First Saving Bldg., Houston, Tex. 77002. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such petroleum products as are liquid chemicals* (except liquefied petroleum gases, in bulk, in tank vehicles), from those points in Texas which are within 150 miles of Henderson, Tex., including Henderson, and which are south of a line beginning at Denton, Tex., and extending along In-

terstate Highway 35E to junction U.S. Highway 179/69, thence along U.S. Highway 175/69 to junction Texas Highway 63, thence along Texas Highway 63 to the Texas-Louisiana State line, to points in Georgia. The purpose of this filing is to eliminate the gateway of the plant site of American Cyanamid Company at Avondale, La. The purpose of this correction is to clarify the exception in the commodity description.

No. MC 106497 (Sub-No. E1), filed May 14, 1974. Applicant: PARKHILL TRUCK COMPANY, P.O. Box 912, Joplin, Mo. 64801. Applicant's representative: T. M. Tallon (Same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, the transportation of which because of their size or weight requires the use of special equipment or handling; (2) *parts* of commodities described in (1) above which do not require special equipment when moving in the same shipment on the same bill of lading from a single consignor as commodities described in (1) above; and (3) *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools, parts, and supplies moving in connection therewith (restricted to self-propelled articles which are transported on trailers), between points in Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Louisiana, Oklahoma, those in New Mexico on and east of U.S. Highway 85, and those in Texas west of a line beginning at the Texas-New Mexico State line and extending along U.S. Highway 285 to junction U.S. Highway 90, thence along U.S. Highway 90 to junction U.S. Highway 277, thence along U.S. Highway 277 to the United States-Mexico International Boundary line, on the one hand, and, on the other, points in Oregon and Washington. The purpose of this filing is to eliminate the gateway of Wyoming.

No. MC 106497 (Sub E2), filed May 14, 1974. Applicant: PARKHILL TRUCK COMPANY, P.O. Box 912, Joplin, Missouri 64801. Applicant's representative: T. M. Tallon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require the use of special equipment or handling, and *self-propelled articles*, each weighing 15,000 pounds or more, between points in Ohio on the one hand, and, on the other, points in Arkansas, Colorado, Illinois, Iowa, Kansas, Louisiana, Missouri, New Mexico, Oklahoma, Oregon, Texas, and Washington. The purpose of this filing is to eliminate the gateway of Indiana and Wyoming.

No. MC 106497 (Sub-No. E4), filed May 14, 1974. Applicant: PARKHILL TRUCK COMPANY, P.O. Box 912, Joplin, Mo. 64801. Applicant's representative: T. M. Tallon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which because of size or weight require special equipment or han-

dling, and *self-propelled articles*, each weighing 15,000 pounds or more from those points in Kentucky on and east of U.S. Highway 41, to points in Arkansas, Iowa, Kansas, Missouri, Oklahoma, Texas, Louisiana (except Washington and St. Tammany Parishes), and those in Illinois on and south of a line beginning at the Illinois-Indiana State line and extending along Interstate Highway 74 to junction Interstate Highway 72, thence along Interstate Highway 72 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Illinois Highway 125, thence along Illinois Highway 125 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Missouri State line. The purpose of this filing is to eliminate the gateway of Indiana.

No. MC 106497 (Sub-No. E8), filed May 14, 1974. Applicant: PARKHILL TRUCK COMPANY, P.O. Box 912, Joplin, Mo. 64801. Applicant's representative: T. M. Tallon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products, and byproducts, between points in Montana, North Dakota, and South Dakota, on the one hand, and, on the other, points in Arkansas, Louisiana, Texas, those in New Mexico on and south of U.S. Highway 40, and those in Missouri on and south of a line beginning at the Kansas-Missouri State line and extending along Missouri Highway 96 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction U.S. Highway 60, thence along U.S. Highway 60 to the Missouri-Kentucky State line. The purpose of this filing is to eliminate the gateway of Oklahoma.

No. MC 106497 (Sub-No. E9), filed May 14, 1974. Applicant: PARKHILL TRUCK COMPANY, P.O. Box 912, Joplin, Mo. 64801. Applicant's representative: T. M. Tallon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tubing*, other than oilfield, which by reason of size or weight requires special equipment or handling, from those points in Louisiana on and south of U.S. Highway 84, and those points in Texas on and south of a line beginning at the Louisiana-Texas State line and extending along U.S. Highway 84 to junction U.S. Highway 79, thence along U.S. Highway 79 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction U.S. Highway 87, thence along U.S. Highway 87 to the Gulf of Mexico, to points in Arizona, California, Idaho, Nevada, Montana, and Utah. The purpose of this filing is to eliminate the gateway of the plant site of Gulf States Tube Corporation at Rosenberg, Tex.

No. MC 106497 (Sub-No. E10), filed May 14, 1974. Applicant: PARKHILL TRUCK COMPANY, P.O. Box 912, Joplin, Mo. 64801. Applicant's representative: T. M. Tallon (Same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tubing*, other than oilfield, the transportation of which because of their size or weight requires the use of special equipment or handling from those points in Texas on and south of a line beginning at the Texas-New Mexico State line and extending along Texas Highway 18 to junction Texas Highway 302, thence along Texas Highway 302 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction Texas Highway 158, thence along Texas Highway 158 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction Texas Highway 71, thence along Texas Highway 71 to junction U.S. Highway 90, thence along U.S. Highway 90 to junction Interstate Highway 45, thence along Interstate Highway 45 to the Gulf of Mexico, to those points in New York on and east of New York Highway 14, those in Pennsylvania on and east of a line beginning at the New York-Pennsylvania State line and extending along Pennsylvania Highway 14 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction U.S. Highway 220, thence along U.S. Highway 220 to the Pennsylvania-Maryland State line, those in West Virginia on and east of a line beginning at the West Virginia-Pennsylvania State line and extending along Interstate Highway 79 to junction Interstate Highway 77, thence along Interstate Highway 77 to the West Virginia-North Carolina State line, and those in Tennessee on and east of a line beginning at the Tennessee-Virginia State line and extending along Interstate Highway 81 to junction Interstate Highway 75, thence along Interstate Highway 75 to the Tennessee-Georgia State line. The purpose of this filing is to eliminate the gateway of the plant site of Gulf States Tube Corporation at Rosenberg, Tex.

No. MC 106497 (Sub-No. E12), filed May 14, 1974. Applicant: PARKHILL TRUCK COMPANY, P.O. Box 912, Joplin, Mo. 64801. Applicant's representative: T. M. Tallon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *Transformers*, the transportation of which because of size or weight require the use of special equipment or handling, from those points in Texas on and south of a line beginning at the United States-Mexico International Boundary line and extending along U.S. Highway 80 to junction U.S. Highway 385, thence along U.S. Highway 385 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction Texas Highway 218, thence along Texas Highway 218 to junction Texas Highway 22, thence along Texas Highway 22 to junction Texas Highway 31, thence along Texas Highway 31 to junction U.S.

Highway 80, thence along U.S. Highway 80 to junction U.S. Highway 59, thence along U.S. Highway 59 to points in Connecticut, Delaware, Maine, Massachusetts, Michigan, New Hampshire, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, those in Alabama on and north of U.S. Highway 80, those in Florida on and west of a line beginning at the Georgia-Florida State line and extending along Interstate Highway 75 to junction Florida Highway 60, thence along Florida Highway 60 to the Gulf of Mexico, those in Georgia on and north of a line beginning at the Georgia-Alabama State line and extending along U.S. Highway 280 to junction Georgia Highway 55, thence along Georgia Highway 55 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction Interstate Highway 75, thence along Interstate Highway 75 to the Georgia-Florida State line, those in Mississippi on and north of Interstate Highway 20 (except Vicksburg, Miss.), and those in Minnesota on and east of a line beginning at the United States-Canada International Boundary line and extending along U.S. Highway 71 to junction Minnesota Highway 6, thence along Minnesota Highway 6 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Interstate Highway 35, thence along Interstate Highway 35 to the Minnesota-Iowa State line. The purpose of this filing is to eliminate the gateway of the plant site of General Electric Co., at Shreveport, La.

No. MC 106497 (Sub E17), filed June 3, 1974. Applicant: PARKHILL TRUCK COMPANY, P.O. Box 912, Joplin, Mo. 64801. Applicant's representative: T. M. Tallon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Self-propelled machinery and self-propelled contractors' equipment, each weighing 15,000 pounds or more, restricted to commodities which are transported on trailers, (1) between those points in Illinois on and south of United States Highway 24, on the one hand, and, on the other, points in Ohio; (2) between those points in Illinois on and south of United States Highway 24 and on and north of a line beginning at the Indiana-Illinois State line and extending along United States Highway 50 to junction United States Highway 45, to junction Illinois Highway 33, to junction Illinois Highway 16, to junction Illinois Highway 16, to junction Illinois Highway 29, to junction Illinois Highway 104, to Illinois-Missouri State line; and (3) between points in Ohio, on the one hand, and, on the other, those points in Kentucky on and west of a line beginning at the Kentucky-Indiana State line and extending along United States Highway 65 to junction Kentucky Highway 90, to junction United States Highway 31E, to the Kentucky-Tennessee State

line; and *heavy machinery* between those points in Illinois on and north of a line beginning at the Indiana-Illinois State line and extending along United States Highway 50 to junction United States Highway 45, to junction Illinois Highway 33, to junction Illinois Highway 16, to junction Illinois Highway 29, to junction Illinois Highway 104, to the Missouri-Illinois State line, on the one hand, and, on the other, points in Kentucky and Ohio. The purpose of this filing is to eliminate the gateway of Indiana.

No. MC 106603 (Sub-No. E4) (Correction), filed May 10, 1974, published in the FEDERAL REGISTER, May 28, 1975. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8008, Grand Rapids, Mich. 49508. Applicant's representative: Martin Leavitt (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building contractors' materials*, restricted to building materials, as described by the Commission, from points in Indiana to those points in the Upper Peninsula of Michigan on and west of U.S. Highway 41. The purpose of this filing is to eliminate the gateway of Wilmington, Del. The purpose of this correction is to correct the carrier's name.

No. MC 106603 (Sub-No. E5) (Correction), filed May 10, 1974, published in the FEDERAL REGISTER, May 28, 1975. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8008, Grand Rapids, Mich. 49508. Applicant's representative: Martin Leavitt (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building contractors' materials*, restricted to building materials as described by the Commission, from those points in Indiana on and west of Interstate Highway 65 to those points in the Upper Peninsula on and east of U.S. Highway 41. The purpose of this filing is to eliminate the gateway of Wilmington, Ill. The purpose of this correction is to correct the carrier's name.

No. MC 106603 (Sub-No. E6) (Correction), filed May 10, 1974, published in the FEDERAL REGISTER, May 28, 1975. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8008, Grand Rapids, Mich. 49508. Applicant's representative: Martin Leavitt (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building contractors' materials*, restricted to roofing materials, from those points in Illinois south and west of a line beginning at the Illinois-Missouri State line, and extending along Interstate Highway 55/U.S. Highway 66 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Illinois-Missouri State line to those points in the Upper Peninsula of Michigan on and north of U.S. Highway 2. The purpose of this filing is to eliminate the gateway of Whiting, Ind., and Wilmington, Ill. The purpose of this correction is to correct the carrier's name.

No. MC 106603 (Sub-No. E7) (Correction), filed May 10, 1974, published in the FEDERAL REGISTER, May 28, 1975. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8008, Grand Rapids, Mich. 49508. Applicant's representative: Martin Leavitt (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building contractors' materials*, restricted to roofing materials, from those points in Illinois bounded by a line beginning at the Illinois-Missouri State line and extending along U.S. Highway 36 to junction U.S. Highway 66/Interstate Highway 55, thence along Interstate Highway 55 to junction Interstate Highway 74, thence along Interstate Highway 74 to junction U.S. Highway 34, thence along U.S. Highway 34 to the Illinois-Iowa State line, to those points in the Upper Peninsula of Michigan on and east of U.S. Highway 41. The purpose of this filing is to eliminate the gateways of Whiting, Ind., and Wilmington, Ill. The purpose of this correction is to correct the carrier's name.

No. MC 106603 (Sub-No. E8) (Correction), filed May 10, 1974, published in the FEDERAL REGISTER, May 28, 1975. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8008, Grand Rapids, Mich. 49508. Applicant's representative: Martin Leavitt (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building contractor's materials*, restricted to building and roofing materials, from points in Indiana (except the plant site of the Bethlehem Steel Corporation, located at Burns Harbor, Porter County, Ind.), to points in the St. Louis, Mo., commercial zone. The purpose of this filing is to eliminate the gateway of Vandalia, Ill. The purpose of this correction is to correct the carrier's name.

No. MC 106603 (Sub-No. E9) (Correction), filed May 10, 1974, published in the FEDERAL REGISTER, May 28, 1975. Applicant: DIRECT TRANSIT LINES, INC., P.O. Box 8008, Grand Rapids, Mich. 49508. Applicant's representative: Martin Leavitt (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building contractors' materials*, restricted to building and roofing materials, in truckloads, from those points in Ohio on and south of a line beginning at the Ohio-Kentucky State line and extending along Ohio Highway 73 to junction Ohio Highway 725, thence along Ohio Highway 725 to the Ohio-Indiana State line to those points in the Lower Peninsula bounded by a line beginning at the Michigan-Indiana State line and extending along Interstate Highway 94 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction U.S. Highway 10, thence along U.S. Highway 27 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Interstate Highway 10, thence along Interstate Highway 10 to junction Michigan High-

way 32. The purpose of this filing is to eliminate the gateway of Lockland, Ohio. The purpose of this correction is to correct the carrier's name.

No. MC 107295 (Sub-No. E232) (Correction), filed May 9, 1974, published in the FEDERAL REGISTER, May 6, 1975. Applicant: PRE FAB TRANSIT CO., P.O. Box 148, Farmer City, Ill. Applicant's representative: Richard D. Vollmer (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated building*, complete, knocked down, or in sections, (1) from points in Texas to points in Connecticut, Delaware, Rhode Island, South Carolina, Vermont, and the District of Columbia, (2) from points in that part of Texas in and west of Wichita, Archer, Young, Stephens, Eastland, Brown, McCulloch, Menard, Kimble, Edwards, Kinney, and Maverick Counties, to points in that part of Alabama in and east of Lauderdale, Lawrence, Cullman, Blount, St. Clair, Talladega, Clay, Tallapoosa, Macon, Bullock, Barbour, Henry, and Houston Counties, and points in that part of Florida in and east of Jackson, Calhoun, and Gulf Counties and points in Georgia. The purpose of this filing is to eliminate the gateway of Pine Bluff, Ark. The purpose of this correction is to clarify the exception in the commodity description.

No. MC 108449 (Sub E219), filed May 16, 1974. Applicant: INDIANHEAD TRUCK LINE, INC., 1947 West County Road C, St. Paul, Nn. 55113. Applicant's representative: W. A. Myllenbeck, (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from Lemont and Lockport, Ill., to points in North Dakota. The purpose of this filing is to eliminate the gateway of LaCrosse, Wis., and Ramsey County, Minn.

No. MC 109331 (Sub-No. E20), (Correction), filed May 12, 1974, published in the FEDERAL REGISTER April 22, 1975. Applicant: NILSON VAN STORAGE, 707 Security Federal Bldg., Columbia, S.C. 29201. Applicant's representative: Frank A. Graham, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between Greenwood, S.C., on the one hand, and, on the other, Boca Raton, Cocoa, Daytona Beach, Ft. Myers, Gainesville, Key West, Miami, Ocala, Okeechobee, Orlando, St. Petersburg, Sarasota, South Bay, Tampa, West Palm Beach, and Winter Haven, Fla. The purpose of this filing is to eliminate the gateway of Sumter, S.C., and points within 25 miles thereof. The purpose of this correction is to correct the territorial descriptions.

No. MC 109331 (Sub-No. E21) (Correction), filed May 21, 1974, published in the FEDERAL REGISTER April 22, 1975. Applicant: NILSON VAN STORAGE, 707 Security Federal Bldg., Columbia,

S.C. 29201. Applicant's representative: Frank A. Graham, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between Spartanburg, S.C., on the one hand, and, on the other, Boca Raton, Chiefland, Cocoa, Crestview, Daytona Beach, Ft. Myers, Gainesville, Jacksonville, Key West, Lake City, Miami, Ocala, Okeechobee, Orlando, Panama City, Perry, St. Augustine, St. Petersburg, Sarasota, South Bay, Tallahassee, Tampa, West Palm Beach, and Winter Haven, Fla. The purpose of this filing is to eliminate the gateways of Sumter, S.C., and points within 25 miles thereof. The purpose of this correction is to correct the territorial description.

No. MC 109397 (Sub-No. E83), filed May 15, 1974. Applicant: TRI-STATE MOTOR TRANSIT CO., P.O. Box 113, Joplin, Mo. 64801. Applicant's representative: E. S. Gordon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Heavy machinery and articles* which require specialized handling or rigging because of their size or weight, and self-propelled articles, each weighing 15,000 pounds or more, restricted to self-propelled articles which are transported on trailers, and *related machinery, tools, parts, and supplies* moving in connection therewith, between points in that part of the Lower Peninsula of Michigan on and east of a line beginning at Mackinaw City, Mich., and extending along U.S. Highway to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 23, and thence along U.S. Highway 23 to the Michigan-Ohio State line, on the one hand, and, on the other, points in Ohio. The purpose of this filing is to eliminate the gateway of points in Lucas County, Ohio.

No. MC 109462 (Sub E1), filed May 15, 1974. Applicant: LUMBER TRANSPORT, INC., P.O. Box 6181 S. Station, Fort Smith, Ark. 72901. Applicant's representative: Ronald E. Butler, 54 W. Lake St., Madisonville, Ky. 42431. No. MC 120021 (Sub E10), filed June 4, 1974. Applicant: THE COTTER MOVING & STORAGE CO., 265 W. Bowery Street, Akron, Ohio 44308. Applicant's representative: Thomas R. Kingsley, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in New York, on the one hand, and, on the other, points in Arkansas, Illinois, Minnesota, Missouri, Wisconsin, and Nebraska; and, between points in New York in and north of Chautauqua, Cattaraugus, Allegheny, Livingston, Ontario, Yates, Seneca, Cayuga, Onondaga, Madison, Oneida, Herkimer, Hamilton, and Essex Counties on the one hand, and, on the other, points in North Carolina in and west of Mitchell, McDowell, and Rutherford Counties. The purpose of this filing is to eliminate the gateway of Dayton, Ohio, and points within 25 miles thereof.

No. MC 120021 (Sub E13), filed June 4, 1974. Applicant: THE COTTER MOVING & STORAGE CO., 265 Bowery Street, Akron, Ohio 44308. Applicant's representative: Thomas R. Kingsley, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Missouri, on the one hand, and, on the other, points in Maryland, Pennsylvania, New York, Rhode Island, and Washington, D.C.; between points in Missouri, except those east and south of Ripley, Carter, Wayne, Bollinger, and Perry Counties, on the one hand, and, on the other, points in West Virginia; and between points in Missouri in, north and west of Newton, Lawrence, Greene, Dallas, Laclede, Pulaski, Phelps, Gasconade, Franklin, and St. Louis Counties, on the one hand, and, on the other, points in North Carolina (except those in and west of Haywood and

Transylvania Counties). The purpose of this filing is to eliminate the gateway of Dayton, Ohio, and points within 25 miles thereof.

No. MC 120021 (Sub E19), filed June 4, 1974. Applicant: THE COTTER MOVING & STORAGE CO., 265 W. Bowery Street, Akron, Ohio 44308. Applicant's representative: Thomas R. Kingsley, 1819 H St. NW., Washington, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (1) between points in Indiana, on the one hand, and, on the other, points in New York (except points in Chautauqua, Cattaraugus, Erie, and Niagara Counties), Pennsylvania (except points in Lawrence, Butler, Armstrong, Jefferson, Elk, McKean, Warren, Forest, Clarion, Venango, Mercer, Crawford, and Erie Counties), West Virginia (except points in Cabell, Lincoln, Boone, Wyoming, McDowell, Logan, Mingo, and Wayne Counties), Maryland, New Jersey, Rhode Island, and Washington, D.C., and (2) between points in Indiana in and north of Franklin, Decatur, Bartholomew, Brown, Monroe, Owen, Clay, and Vigo Counties, on the one hand, and, on the other, points in North Carolina. The purpose of this filing is to eliminate the gateway of Dayton, Ohio, and points within 25 miles thereof.

No. MC 120021 (Sub E22), filed June 4, 1974. Applicant: THE COTTER MOVING & STORAGE CO., 265 Bowery Street, Akron, Ohio 44308. Applicant's representative: Thomas R. Kingsley, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Delaware, on the one hand, and, on the other, points in Arkansas, Indiana, Illinois, Missouri, Nebraska, Minnesota, Wisconsin and those in Kentucky in and west of McCreary, Pulaski, Rockcastle, Madison, Clark, Bourbon, Nicholas, Robertson, and Mason Counties. The purpose of this filing is to eliminate the gateway of Dayton, Ohio, and points within 25 miles thereof.

No. MC 121338 (Sub-No. E1) (Correction), filed May 16, 1974, published in the FEDERAL REGISTER May 1, 1975. Applicant: PADRE FREIGHT LINES, P.O. Box 6849, Phoenix, Ariz. 85005. Applicant's representative: Robert R. Digby, 2131 West Roosevelt St., Phoenix, Ariz. 85009. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except household goods as defined by the Commission, commodities in bulk, logs, livestock, articles of unusual value, and commodities requiring special equipment between points in the Los Angeles Territory (as described below) on the one hand, and, on the other points on and within 15 miles of U.S. Highway 80 and Interstate Highway 8, extending from the eastern boundary of the San Diego Territory to the California-Arizona

State line.* Los Angeles Territory includes that area embraced by the following boundary: beginning at the intersection of Sunset Boulevard and U.S. Highway 101 Alternate; thence northeasterly on Sunset Boulevard to California Highway 118 through and including the City of San Fernando; continuing northeasterly and southeasterly along California Highway 118 to and including the City of Pasadena; easterly along U.S. Highway 66 to California Highway 19, southerly along California Highway 19 to Lower Azusa Road; easterly on Lower Azusa Road to its intersection with the San Gabriel River; southerly along the west bank of the San Gabriel River to Beverly Boulevard; southeasterly on Beverly Boulevard to Painter Avenue to the City of Whittier; southerly on Painter Avenue to California Highway 26 westerly along California Highway 26 to the west bank of the San Gabriel River; southerly along the west bank of the San Gabriel River to Imperial Highway; westerly on Imperial Highway to California Highway 19; southerly along California Highway 19 to its intersection with U.S. Highway 101. The purpose of this filing is to eliminate the gateway of San Diego, Calif. The purpose of this correction is to correct the MC number.

No. MC 121420 (Sub-No. E6) (Correction), filed June 4, 1974. Published in the FEDERAL REGISTER May 20, 1975. Applicant: DART TRUCKING CO., INC., 61 Railroad Street, Canfield, Ohio 44406. Applicant's representative: Paul F. Beery, 8 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are usually transported in dump truck equipment, between points in Ashtabula County, Ohio, on and north of U.S. Highway 20 and east of Ohio Highway 45, on the one hand, and, on the other, points in those parts of Wayne, Holmes, Coshocton, Tuscarawas, Carroll, Harrison, and Jefferson Counties, Ohio, Hancock, Ohio, and Brooke Counties, W. Va., that are within 50 miles of Toronto, Ohio. The purpose of this filing is to eliminate the gateway of Mercer County, Pa. The purpose of this correction is to extend the territorial description.

No. MC 123407 (Sub-No. E213), filed May 25, 1975. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Stephen H. Loeb (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions of Motor Carrier Certificates*, 61 M.C.C. 209, when used as a building material (except in bulk), from the facilities of Continental Steel Corp., at or near Kokomo, Ind., to points in Nebraska (except Richardson County), and that part of Kansas in and west of Marshall, Washington, Cloud, Lincoln, Russell, Ellis, Rush, Pawnee, Edwards, Pratt, and Bar-

ber Counties, Kans. The purpose of this filing is to eliminate the gateway of those points in Wisconsin that are within the Warren, Ill., commercial zone.

No. MC 123407 (Sub-No. E214), filed May 25, 1975. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Stephen H. Loeb (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, when used as a building material (except in bulk), from East Dubuque, Ill., to points in and south of Wayne, Jones, Covington, Jefferson Davis, Lawrence, Walthall, Pike, and Amite Counties, Miss. The purpose of this filing is to eliminate the gateways of Warren, Ill., and the facilities of Continental Steel Corp., at or near Kokomo, Ind.

No. MC 123407 (Sub-No. E215), filed May 25, 1975. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Stephen H. Loeb (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, when used as a building material (except in bulk), from Clinton, Iowa, to points in Delaware, West Virginia, and points in that part of Kentucky in and east of Boone, Gallatin, Carroll, Trimble, Oldham, Jefferson, Bullitt, Nelson, Larue, Hart, Barren, and Monroe Counties, Ky. The purpose of this filing is to eliminate the gateway of Warren, Ill. and the facilities of Continental Steel Corp., at or near Kokomo, Ind.

No. MC 123407 (Sub-No. E216), filed May 25, 1975. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Stephen H. Loeb (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel article*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, when used as a building material (except in bulk), from International Falls, Minn., to points in Mississippi, Pennsylvania, Delaware, West Virginia, Kentucky, and Louisiana (except Caddo, Bossier, Webster, Claiborne, Union, Lincoln, Jackson, Bienville, De Soto, Red River, Winn, Sabine, and Natchitoches Counties, La.). The purpose of this filing is to eliminate the gateways of Warren, Ill., and the facilities of the Continental Steel Corp., at or near Kokomo, Ind.

No. MC 123407 (Sub-No. E217), filed May 25, 1975. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Stephen H. Loeb (same as above). Authority sought to operate as a

common carrier, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, when used as a building material (except in bulk), from Stephenson County, Ill., to points in that part of Kentucky in and east of Meade, Hardin, Grayson, Butler, and Logan Counties, Ky. The purpose of this filing is to eliminate the gateway of Warren, Ill., and the facilities of Continental Steel Corp., at or near Kokomo, Ind.

No. MC 123407 (Sub-No. E218), filed May 25, 1975. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Stephen H. Loeb (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel roofing and roofing materials* (except in bulk), from Wilmington, Ill., to points in Texas, West Virginia, Louisiana, Pennsylvania, Delaware, and points in that part of Kentucky in and east of Meade, Harin, Hart, Edmonson, Warren, and Simpson Counties, Ky., and points in that part of Mississippi in and south of Monroe, Clay, Webster, Montgomery, Carroll, LeFlore, Sunflower, and Bolivar Counties, Miss. The purpose of this filing is to eliminate the gateway of the facilities of Continental Steel Corp., at or near Kokomo, Ind.

No. MC 123407 (Sub-No. E219), filed May 25, 1975. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Stephen H. Loeb (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron or steel articles* as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, when used as a building material (except in bulk), points in Carroll County, Ill., to points in Terrebonne County, La. The purpose of this filing is to eliminate the gateway of Warren, Ill., and the facilities of Continental Steel Corp., at or near Kokomo, Ind.

No. MC 123407 (Sub-No. E220), filed May 25, 1975. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Stephen H. Loeb (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron or steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, when used as a building material (except in bulk), from Dubuque, Iowa, to points in West Virginia, Delaware, Cameron County, Tex., Lauderdale, Jones, Clarke, Wayne, Greene, Perry, Forrest, Lamar, Marion, Pearl River, Stone, George, Jackson, Harrison, Hancock Counties, Miss.; Washington, St. Tammany, St. John, St. James, St. Charles, Terrebonne, Lafourche, Jefferson, St. Bernard, and Plaquemines Counties, La.; and that part

of Kentucky in and east of Hancock, Ohio, Butler and Logan Counties, Ky. The purpose of this filing is to eliminate the gateways of Warren, Ill., and the facilities of Continental Steel Corp., at or near Kokomo, Ind.

No. MC 123407 (Sub-No. E221), filed May 25, 1975. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Stephen H. Loeb (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel roofing, building, and paving material* (except commodities in bulk, lumber, chemicals, and commodities the transportation of which because of their size or weight require the use of special equipment) from Brookville, Ind., to points in Wisconsin, Minnesota, Texas, North Dakota, South Dakota, and points in that part of Missouri in and west of Clark, Lewis, Marion, Ralls, Audrain, Callaway, Osage, Maries, Phelps, Dent, Shannon, and Oregon Counties, Mo., and points in Michigan (except points in Sanilac, Lapeer, St. Clair, Macomb, Oakland, Wayne, Monroe, Livingston, Ingham, Jackson, Washtenaw, Lenawee, Hillsdale, Cass, St. Joseph, and Branch Counties, Mich.), North Dakota and South Dakota. The purpose of this filing is to eliminate the gateway of the facilities of Continental Steel Corp., at or near Kokomo, Ind.

No. MC 123407 (Sub-No. E222), filed May 25, 1975. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Stephen H. Loeb (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel roofing and roofing materials* (except in bulk); from the plant and warehouse sites of National Gypsum Company, at Niles, Ohio, to points in and west of Wichita, Archer, Young, Palo Pinto, Erath, Bosque, McLennan, Bell, Williamson, Travis, Bastrop, Fayette, Washington, Walker, Harris, and Galveston Counties, Tex. Restriction: The operations authorized herein are restricted to the transportation of traffic originating at the plant and warehouse sites of National Gypsum Co. The purpose of this filing is to eliminate the gateways of Wilmington, Ill., and the facilities of Continental Steel Corp., at or near Kokomo, Ind.

No. MC 123407 (Sub-No. E223), filed May 25, 1975. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Stephen H. Loeb (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles* as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, when used as a building material (except in bulk) from points in Winnebago County, Ill., to points in Bell, Harlan, and Letcher Counties, Ky. The purpose of this filing

is to eliminate the gateway of Warren, Ill., and the facilities of Continental Steel Corp., at or near Kokomo, Ind.

No. MC 123407 (Sub-No. E231), filed May 25, 1975. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Stephen H. Loeb (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, when used as a building material (except in bulk), from Carroll County, Ill., to points in that part of Kentucky in and east of Jefferson, Bullitt, Hardin, Hart, Edmonson, Warren, and Simpson Counties, Ky. The purpose of this filing is to eliminate the gateway of Warren, Ill., and the facilities of Continental Steel Corp., at or near Kokomo, Ind.

No. MC 123407 (Sub-No. E232), filed May 25, 1975. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Stephen H. Loeb (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, when used as a building material (except in bulk), from Joe Davies County, Ill., to points in that part of Kentucky in and east of Daviess, Ohio, Butler, and Logan Counties, Ky. The purpose of this filing is to eliminate the gateway of Warren, Ill., and the facilities of Continental Steel Corp., at or near Kokomo, Ind.

No. MC 127840 (Sub-No. E8), filed June 4, 1974. Applicant: MONTGOMERY TANK LINES, INC., 17730 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N. Dearborn St., Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal fats, animal oils, and vegetable oils, and edible blends and edible products of animal fats, animal oils, and vegetable oils* (except liquid chemicals), in bulk, in tank or hopper type vehicles, from points in Illinois on and north of Interstate Highway 80 and that part of Indiana within the commercial zone of Chicago, Ill., as defined by the Commission, to points in Indiana. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 127840 (Sub-No. E21), filed June 4, 1974. Applicant: MONTGOMERY TANK LINES, INC., 17730 S. Chicago Ave., Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N. Dearborn St., Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal fats, animal oils, and vegetable oils, and edible blends and edible products of animal fats, animal oils, and vegetable oils* (except liquid chemicals), in bulk, in tank or hopper type vehicles, from that part of Illinois between a line on and south of Interstate Highway 80 and on and north of a line beginning at the Illinois-Iowa State line and U.S. Highway 34, thence along U.S. Highway 34 to junction Illinois Highway 167, thence along Illinois Highway 167 to junction Illinois Highway 78, thence along Illinois Highway 78 to junction Illinois Highway 17, thence along Illinois Highway 17 to the Illinois-Indiana State line, to points in Indiana on and east of a line beginning at Gary, Ind., and Interstate Highway 65, thence along Interstate Highway 65 to junction Indiana Highway 14, thence along Indiana Highway 14 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction U.S. Highway 35, thence along U.S. Highway 35 to junction Indiana Highway 3, thence along Indiana Highway 3 to the Indiana-Kentucky State line. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 127840 (Sub-No. E31) (Correction), filed June 4, 1974, published in the FEDERAL REGISTER May 21, 1975. Applicant: MONTGOMERY TANK LINES, INC., 17730 S. Chicago Avenue, Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 Dearborn St., Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) (2) that part of Indiana within the commercial zone of Chicago, Ill., as defined by the Commission, to points in Iowa on and north of U.S. Highway 20; * * * etc. The purpose of this filing is to eliminate the gateways of Bradley and Chicago, Ill. The purpose of this partial correction is to correct the origin territorial.

No. MC 127840 (Sub-No. E45) (Correction), filed June 4, 1974, published in the FEDERAL REGISTER, June 4, 1975. Applicant: MONTGOMERY TANK LINES, INC., 17730 S. Chicago Avenue, Lansing, Ill. 60438. Applicant's representative: William H. Towle, Suite 1133, 127 N.

Dearborn St., Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (2) from points in Michigan (except the Upper Peninsula of Michigan), and those in the United States (except Virginia) on and east of a line beginning at Michigan City, Ind., thence along U.S. Highway 421 to junction Interstate Highway 65, thence along Interstate Highway 65 to the Gulf of Mexico, to points in Nebraska and Iowa on and north of Interstate Highway 80 and those in Illinois on and north of a line beginning at the Illinois-Iowa State line, thence along Interstate Highway 80 to the Illinois-Indiana State line (except points in Cook and Du Page Counties, Ill.), (3) from points in Michigan, West Virginia, Maryland, Delaware, Pennsylvania, New Jersey, New York, Massachusetts, Rhode Island, Connecticut, Vermont, New Hampshire, Maine, and that part of Ohio on and north of U.S. Highway 33 to points in Kansas, that part of Colorado on, north and east of a line beginning at the Colorado-Kansas State line, that part of Iowa and Nebraska on and south of Interstate Highway 80, and that part of Illinois on and within an area beginning at the Illinois-Iowa State line, thence along Interstate Highway 80 to the Illinois-Indiana State line, thence along the Illinois-Indiana State line to junction U.S. Highway 36, thence along U.S. Highway 36 to the east bank of the Mississippi River, thence along the east bank of the Mississippi River to the place of beginning; * * * etc. The purpose of this filing is to eliminate the gateway of Chicago, Ill. The purpose of this partial correction is to correct the highway description in (2) above. The remainder of this letter notice will remain as previously published.

No. MC 136553 (Sub E5), filed June 3, 1974. Applicant: ART PAPE TRANSFER, INC., 1080 East 12th Street, Dubuque, Iowa 52001. Applicant's representative: Arthur Pape (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry fertilizer and dry fertilizer materials*, from Rock Island, Ill., to points in Nebraska (except points south of U.S. Highway 30 and east of U.S. Highway 77). The purpose of this filing is to eliminate the gateway of the warehouse of Etter Bros., Inc., at or near Webster City, Iowa.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

END-STAGE RENAL DISEASE

Conditions for Coverage

**DEPARTMENT OF HEALTH,
EDUCATION, AND WELFARE**

Social Security Administration

[20 CFR Part 405]

[Reg. No. 5]

**FEDERAL HEALTH INSURANCE FOR THE
AGED AND DISABLED**

**Conditions for Coverage of Suppliers of
End-Stage Renal Disease (ESRD) Services**

Notice is hereby given, pursuant to the Administrative Procedure Act (5 U.S.C. 553), that the following amendments to the regulations set forth in tentative form below, are proposed by the Commissioner of Social Security with the approval of the Secretary of Health, Education, and Welfare. The proposed amendments are intended to further implement section 299I of the Social Security Amendments of 1972 (Pub. L. 92-603), which amends section 226 of the Social Security Act (42 U.S.C. 426). Section 299I extends Medicare protection to any individual who has end-stage renal disease requiring dialysis or transplantation, provided that such individual: (1) is fully or currently insured, or entitled to monthly benefits, under title II of the Social Security Act; or (2) is the spouse or dependent child of an individual so insured or entitled to such monthly benefits.

Section 299I authorizes the Secretary to limit Medicare reimbursement for kidney transplant and dialysis services to facilities meeting such requirements as he may by regulation prescribe. Section 299I also provides that such regulation must include requirements for a minimal utilization rate for covered procedures and for a medical review board to screen the appropriateness of patients for the proposed treatment procedures.

The following amendments to the regulations specify the health and safety requirements that facilities furnishing end-stage renal disease (ESRD) services must meet to qualify for Medicare reimbursement. In addition, the amendments require that these facilities be organized into coordinating systems ("networks") for the delivery of ESRD care.

The ESRD program became effective on July 1, 1973, and since then has operated under interim regulations published in the FEDERAL REGISTER of June 29, 1973 (38 FR 17210). The interim regulations provide for reimbursement to those facilities which were furnishing ESRD care on or before June 1, 1973, and describe criteria for allowing reimbursement to additional or expanded ESRD facilities during the interim period. (To give the public a formal opportunity to participate in the development of the criteria used in granting requests for exceptions to the limitations on participation during the interim period, the interim regulations were republished in the FEDERAL REGISTER of October 4, 1974 (39 FR 35814), as a notice of proposed rule-making). The interim regulations, as published and republished, will be superseded on a prospective basis when the "long-term" amendments to the regulations, proposed herein, are adopted in

final form. The interim regulations explain that recognition of a facility on an interim basis is no assurance that it will be approved on a continuing basis for reimbursement under the "long-term" program. Facilities not qualifying under the "long-term" regulations will be phased out in a manner that will minimize any disruption of services to ESRD patients.

The policies for the ESRD program which are incorporated in these amendments are based on the operating experience of the program since publication of the interim regulations as well as on extensive communications with professionals and other persons knowledgeable in the area of nephrology and transplant surgery.

The proposed amendments implement the statutory requirements of section 226(g), title II of the Social Security Act (42 U.S.C. 426(g)) and are intended to accomplish the following objectives:

(1) To assist beneficiaries who have been diagnosed as having end-stage renal disease (ESRD) to receive the care they need;

(2) To encourage proper distribution and effective utilization of ESRD treatment resources while maintaining or improving the quality of care; and

(3) To provide the flexibility necessary for the efficient delivery of appropriate care by physicians and facilities.

The broad array of professional skills and facilities involved in the treatment of persons with end-stage renal disease indicated the need for a system to promote effective coordination. Accordingly, the proposed regulations require ESRD treatment facilities to join together into groups called "networks."

During the past decade, programs conducted by agencies of the Public Health Service and the States have demonstrated that integration of hospitals and other health facilities into organized networks is the most effective way to deliver ESRD care. An organized network tends to assure coordinated patient referral as well as access to resources. It also permits the concentration of equipment and specially trained personnel in centers where they can be used efficiently to treat large numbers of patients. This approach has been advocated by committees of national voluntary health organizations.

The population base of each network should be large enough to permit the delivery of a full range of ESRD diagnostic and therapeutic services needed by all patients within the network area. Accordingly, each of the network areas designated in the Appendix to these proposed regulations serves a minimum population base of 3.5 million (except for four network areas where this minimum would not be feasible). In order to accommodate patient choice, and to allow for sufficient peer review within the network, each network will be required to have at least two transplant centers whenever feasible.

Although the designation of network areas is made by the Secretary, the structure and the administration of each network will be the responsibility of compo-

nent ESRD facilities. The network concept will be found, in many instances, to conform with existing patterns for referral of patients to treatment facilities, these referral patterns in effect constituting informal networks.

The proposed regulations require that, to qualify for reimbursement, an ESRD facility must be a member of a network. The network must organize itself through the establishment of a Network Coordinating Council, with representation from all ESRD facilities in the network. The network and its Coordinating Council will perform a unique role as liaison between the Federal government and available community resources, the Council supplying to the Secretary information upon which the Secretary may make determinations. The Council will also make recommendations to member facilities as needed to achieve the objectives of the network. In addition, each network, through its Network Coordinating Council, will establish a Medical Review Board to review the appropriateness of ESRD patient care and service.

An essential element in the ESRD program is a medical information system. All ESRD facilities participating in the program will be required to supply data to this system. When the medical information pertains to individual patients, it will be treated as confidential and will not be disclosed except as authorized by Department regulations on confidentiality and disclosure (see 45 CFR Part 5 and 20 CFR Parts 401 and 422 (Subpart E)).

For participation in the ESRD program, a facility must also meet the minimal utilization rates for covered procedures published in the proposed regulations. These rates will apply initially to transplantation and dialysis, and may be modified by future amendments to the regulations. A facility which is not in compliance with the applicable minimal utilization rates may be conditionally approved for a limited period to allow it time for attaining compliance. The proposed regulations also provide for special consideration to be granted to a facility in unusual situations if it can be shown that non-participation in the ESRD program would be detrimental to the achievement of program objectives.

Through a Memorandum of Understanding reflecting agreement reached between the Department of Health, Education, and Welfare and the Veterans Administration, specified Veterans Administration Hospitals can qualify for participation in the ESRD program. These specified Veterans Administration Hospitals, when found to meet title XVIII requirements, will be part of a network and will be represented on its Council. They will also be required to comply with the ESRD regulations described herein with respect to the care they furnish to Medicare patients. Similarly, other Federal facilities may participate in the ESRD program provided that they meet the requirements of these regulations.

To conform with Subpart U and ESRD program requirements, these proposed

regulations amend Subpart M (Conditions for Coverage of Services of Independent Laboratories (39 FR 33690)) to include requirements for an independent laboratory performing histocompatibility testing; also, these proposed regulations amend Subparts S (Certification Procedure for Providers and Suppliers of Services); and Subpart J (Conditions of Participation; Hospitals). Subpart O (Providers of Services, Emergency Service Hospitals, Independent Laboratories, and Suppliers of Portable X-ray Services, Determinations and Appeals Procedures) will also be appropriately amended at a later date to accommodate the ESRD program.

Prior to the final adoption of the proposed amendments to the regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare, Social Security Administration, P.O. Box 1585, Baltimore, Maryland 21203, on or before September 1, 1975.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue, SW., Washington, D.C. 20201.

The proposed regulations are to be issued under the authority contained in sections 226(g), 1102, 1861, 1862(a), 1871, 1874, 86 Stat. 1464, 49 Stat. 647, as amended, 79 Stat. 325, 331, 332, and 340 (42 U.S.C. 426(g), 1302, 1395x, 1395y(a), 1395hh, 1395kk).

Dated: May 5, 1975.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: June 19, 1975.

CASPAR W. WEINBERGER,
Secretary of Health, Education,
and Welfare.

Part 405 of Chapter III of title 20 of the Code of Federal Regulations is amended as set forth below:

1. Section 405.1031 is amended by revising the introductory paragraph to read as follows:

§ 405.1031 Condition of participation—complementary departments.

Participation is not limited to hospitals which have surgery, anesthesiology, dental, or rehabilitation departments or services, but if these departments or services are present, there are effective policies and procedures, relating to the staff and the functions of the service(s) in order to assure the health and safety of the patients. If the hospital provides end-stage renal disease services, reimbursement for such services will not be made unless the hospital also meets the Conditions for Coverage of Suppliers of

End-State Renal Disease Services, Subpart U of this Part.

2. In § 405.1317, new paragraphs (b) (2) (iv), (b) (4) (iv), and (b) (4) (v) are added to read as follows:

§ 405.1317 Condition—quality control.

(b) Standard: Quality control system—methodologies. * * *

(iv) A control system and a validation method are employed for the performance of tests required to assure compatibility in organ transplantations:

(A) Controls for all antigen tests are employed to insure reactivity and uniform dosage;

(B) Mixed lymphocyte cultures or other recognized methods to detect cellular defined antigens are performed in accordance with prescribed methods;

(C) HL-A and better defined W antigens are retyped and updated when required; and

(D) Procedures are established regarding the freezing of lymphocytes and to provide for a comprehensive panel of frozen or fresh lymphocytes.

(4) Immuno-hematology. * * *

(iv) Serum screening for the identification and characterization of typical or atypical antibodies is performed on sera using test cells licensed under Part 73, Title 42, CFR, or their equivalent, using techniques by which the antibody was initially detected. The reactivity of cell panels used for antibody detection is tested periodically with appropriate known anti-sera.

(v) A control system and validation methods to cover the following are present for tests performed regarding organ transplants:

(A) Recipient sera is screened for preformed antibodies;

(B) Recipient and donor sera is cross-matched for preformed antibodies by at least two sensitive techniques prior to transplantation; and

(C) Recipients and donors are genotyped when necessary.

3. Section 405.1901 is amended by redesignating paragraph (d) as paragraph (e) and adding a new paragraph (d) to read as follows:

§ 405.1901 The certification process.

(d) A hospital which is a provider of services, or a nonhospital-operated renal dialysis facility as defined in § 405.2102 (e) (2), or a histocompatibility laboratory, which is found to be in compliance with each of the applicable Conditions for Coverage of Suppliers of End-Stage Renal Disease Services prescribed by the Secretary (see Subpart U), may become a supplier of End-Stage Renal Disease services pursuant to section 226(g) of the Social Security Act upon being approved therefor by the Secretary.

4. A new § 405.1912 is added to read as follows:

§ 405.1912 Special procedures for approving end-stage renal disease facilities and the expansion of services in approved facilities.

In addition to the certification by the State agency referred to in § 405.1902, data furnished by network organizations and recommendations of the Public Health Service, concerning the contribution of a facility to the furnishing of end-stage renal disease services in its network and concerning the facility's compliance with professional norms and standards (see Subpart U of this Part), shall be considered by the Secretary in determining whether to approve a facility for coverage or for any expansion of services under the End-Stage Renal Disease Program. The facility will also be required to submit data pertaining to its qualifications for approval or for any expansion of services, for consideration in the Secretary's determination.

5. Part 405 of Title 20, Code of Federal Regulations, is amended by adding a new Subpart U, and an Appendix, reading as follows:

Subpart U—Conditions for Coverage of Suppliers of End-Stage Renal Disease (ESRD) Services

- Secs.
405.2100 Scope of subpart.
405.2101 Objectives of end-stage renal disease (ESRD) Program.
405.2102 Definitions.
405.2110 Composition and functions of an end-stage renal disease (ESRD) network.
405.2111 Designations of network areas; approvals of functioning networks.
405.2120 Minimal utilization rates: general.
405.2121 Basis for determining minimal utilization rates.
405.2122 Compliance with minimal utilization rate(s); types and durations of approvals.
405.2130 Condition: minimal utilization rates.
405.2131 Condition: hospital-operated ESRD facility.
405.2132 Condition: fulfillment of service needs in network.
405.2133 Condition: furnishing data and information for ESRD program administration.
405.2134 Condition: membership in a network.
405.2135 Condition: compliance with federal, State, and local laws and regulations.
405.2136 Condition: governing body and management.
405.2137 Condition: patient care plans.
405.2138 Condition: patients' rights.
405.2139 Condition: medical records.
405.2140 Condition: physical environment.
405.2160 Condition: affiliation agreement or arrangement (ESRD Dialysis facility).
405.2161 Condition: director of an ESRD dialysis facility.
405.2162 Condition: staff of an ESRD dialysis facility.
405.2163 Condition: minimal service requirements for an ESRD dialysis facility.
405.2170 Condition: director of an ESRD Renal Transplantation Center.

Sec.

405.2171 Condition: minimal service requirements for a Renal Transplantation Center.

APPENDIX: End-Stage Renal Disease Network Areas.

Subpart U—Conditions for Coverage of Suppliers of End Stage Renal Disease (ESRD) Services

§ 405.2100 Scope of subpart.

(a) The regulations in this subpart prescribe the role which End-Stage Renal Disease (ESRD) networks will have in the ESRD program, establish the mechanism by which minimal utilization rates pursuant to section 226(g) of the Social Security Act (42 U.S.C. 426(g)) will be promulgated and applied, and describe the health and safety requirements that facilities furnishing ESRD care to beneficiaries must meet. These regulations further prescribe the role of ESRD networks in providing the medical review requirements of section 226(g) prior to and following the establishment of Professional Standards Review Organizations under Part B of Title XI of the Social Security Act (42 U.S.C. 1320c et. seq.).

(b) The general objectives of the ESRD program are contained in § 405.2101, and general definitions are contained in § 405.2102. The provisions of §§ 405.2110–405.2111 discuss the establishment and activities of ESRD Networks, the Network Coordinating Councils, and the Medical Review Boards. Sections 405.2120–405.2122 discuss the establishment of minimal utilization rates and the requirements for approval of facilities with respect to such rates. Sections 405.2130–405.2140 discuss general requirements for, and description of, all facilities furnishing ESRD services. Sections 405.2160–405.2163 discuss specific requirements for facilities which furnish ESRD dialysis services. Sections 405.2170 and 405.2171 discuss specific requirements for facilities which furnish ESRD transplantation services.

(c) The provisions of this subpart are effective (insert date 30 days following date of publication). Notwithstanding such effective date, the provisions of the interim regulations in §§ 405.116(g), 405.231(g) and (h), and the Appendix to Subpart B of this part shall continue in effect for a period not to exceed 12 months following such effective date, for the limited purpose of assuring an orderly transition from such interim regulations to the provisions of this subpart and, in particular, so that facilities approved under the ESRD program pursuant to such interim regulations which do not also qualify for continued approval under the terms of this subpart, may be phased out of the Medicare program in a manner that will minimize disruption of services to ESRD patients. However, beginning 6 months after such effective date: (1) no further exceptions will be granted under §§ 405.116(g), 405.231(g) and (h), and the Appendix to Subpart B of this part; and (2) determinations with respect to a

facility's approval or nonapproval for reimbursement under this subpart will supersede determinations made under such interim regulations.

§ 405.2101 Objectives of the end-stage renal disease (ESRD) program.

The objectives of the end-stage renal disease program are:

(a) To assist beneficiaries who have been diagnosed as having end-stage renal disease (ESRD) to receive the care they need;

(b) To encourage proper distribution and effective utilization of ESRD treatment resources while maintaining or improving the quality of care; and

(c) To provide the flexibility necessary for the efficient delivery of appropriate care by physicians and facilities.

§ 405.2102 Definitions.

As used in this subpart, the following definitions apply:

(a) *Agreement*. The ESRD facility has an agreement whereby another facility assumes responsibility for furnishing certain services to patients and for obtaining reimbursement for such services.

(b) *Arrangement*. The ESRD facility arranges for another facility to furnish certain services to patients but assumes responsibility for such services and for obtaining reimbursement therefor.

(c) *Dialysis*. A process by which dissolved substances are removed from a patient's body by diffusion from one fluid compartment to another across a semi-permeable membrane. The two types of dialysis which are currently in common clinical practice are hemodialysis and peritoneal dialysis.

(1) *Inpatient Dialysis*. Dialysis which, because of medical necessity, is given to an ESRD patient on a temporary, inpatient basis in a hospital.

(2) *Chronic Maintenance Dialysis*. Dialysis which is regularly given to an ESRD patient who receives treatments on an outpatient basis. This process can take place in an ESRD facility or in the home.

(d) *End-Stage Renal Disease (ESRD)*. That stage of renal impairment which is virtually always irreversible and permanent, and requires dialysis or kidney transplantation to ameliorate uremic symptoms and maintain life.

(e) *Facility, ESRD*. A general term which describes any facility that furnishes at least one specific ESRD service (i.e., transplantation, dialysis, self-care dialysis training, organ procurement, or histocompatibility testing). Such facilities are:

(1) *Renal Transplantation Center*. A hospital unit which furnishes directly transplantation, inpatient dialysis, and other medical and surgical specialty services required for the care of the ESRD transplant patients. A Renal Transplantation Center may also be a Renal Dialysis Center.

(2) *Dialysis Facility, ESRD*. A unit which furnishes chronic maintenance dialysis:

(i) *Limited Care Dialysis Facility*. A unit which furnishes chronic maintenance dialysis on an outpatient basis.

(ii) *Self-Care Dialysis Facility*. A unit where chronic maintenance dialysis is performed by a trained patient with appropriate professional supervision and assistance.

(iii) *Self-Care Dialysis Training Facility*. A unit which trains patients or their helpers, or both, to perform self-care dialysis in a self-care dialysis unit or in the home.

(iv) *Renal Dialysis Center*. A facility which directly or through other network facilities furnishes the full spectrum of diagnostic, therapeutic, and rehabilitative services, except renal transplantations, required for the care of ESRD dialysis patients.

(3) *Organ Procurement Facility*. A unit which processes the acquisition of cadaveric donor kidneys.

(4) *Histocompatibility Testing Laboratory*. A laboratory which determines the degree of compatibility between a donor organ and a potential organ transplant recipient.

(f) *Furnishes Directly*. The ESRD facility provides the service through its own staff and employees, or through individuals who are under direct contract to furnish such services personally for the facility (i.e., not through "agreements" or "arrangements").

(g) *Furnishes on the Premises*. The ESRD facility furnishes services on its main premises; or on its other premises that are: (1) contiguous with or in immediate proximity to the main premises; and, (2) under the direction of the same professional staff and governing body as the main premises.

(h) *Medical Care Criteria*. Predetermined elements against which aspects of the quality of a medical service may be compared. They are developed by professionals relying on professional expertise and on the professional literature.

(i) *Medical Care Norms*. Numerical or statistical measures of usual observed performance. Norms are derived from aggregate information related to the health care provided to a large number of patients over a period of time.

(j) *Medical Care Standards*. Professionally developed expressions of the range of acceptable variation from a norm or criterion.

(k) *Network, ESRD*. An organized group of ESRD facilities in a designated geographic area which by their type and location, and because of local referral patterns, collectively furnish the necessary care for ESRD patients in the designated area.

(l) *Network Coordinating Council*. (Also referred to as "Council"). A group of representatives of all the ESRD treatment facilities in a network which acts as an administrative governing body to the network, as a resource to community health planners, and as a liaison to the Federal government.

(m) *Qualified Personnel, ESRD*:—(1) *Dietitian (Qualified)*. A person who:

(i) Is eligible for registration by the American Dietetic Association under its requirements in effect on the publication of these regulations; or

(ii) Has a baccalaureate degree with major studies in food and nutrition or dietetics.

(2) *Medical Record Practitioner (Qualified)*. A person who:

(i) Is eligible for certification as a Registered Record Administrator (RRA), or as an Accredited Record Technician (ART), by the American Medical Record Association under its requirements in effect on the publication of these regulations; or

(ii) Is a graduate of a school of medical record science that is accredited jointly by the Council on Medical Education of the American Medical Association and the American Medical Record Association.

(3) *Nurse Responsible for Nursing Service (Qualified)*. A person who:

(i) Is licensed as a registered nurse by the State in which practicing;

(ii) Has at least 12 months of experience in general nursing; and

(iii) Has at least an additional 6 months of experience in an ESRD facility, including training in and experience with, the dialysis process. (In those areas where a nurse with the additional 6 months of experience in an ESRD facility is not available, the nurse may be qualified with only 3 months of such additional experience subject to the approval of the Secretary.)

If the qualified nurse is in charge of self-care dialysis training, at least 3 months of the total required ESRD experience must be in an ESRD self-care dialysis training facility.

(4) *Physician-Director (Qualified)*. A physician (see section 1861(r) (1) of the Act) who:

(i) Is board eligible or board certified in internal medicine or pediatrics by a professional board, and has had at least 12 months of experience or training in the care of patients at ESRD facilities; or

(ii) During the five-year period prior to the effective date of these regulations, served for at least 12 months as director of an ESRD dialysis facility or an ESRD transplantation facility.

In those areas where a qualified physician is not available to direct a participating dialysis facility, another physician (see section 1861(r) (1) of the Act) may direct the unit subject to the approval of the Secretary.

(5) *Social Worker (Qualified)*. A person who:

(i) Is licensed, if applicable, by the State in which practicing; and

(ii) Is a graduate of a school of social work accredited or approved by the Council on Social Work Education.

(6) *Transplantation Surgeon (Qualified)*. A person who:

(i) Is board eligible or board certified in general surgery or urology by a professional board; and

(ii) Has at least 12 months training or experience in the performance of renal transplantation and the care of patients with renal transplants.

(n) *Transplantation*. A process by which a kidney is excised from a live or cadaveric donor, and surgically implanted in an ESRD patient.

§ 405.2110 Composition and functions of an end-stage renal disease (ESRD) network.

An ESRD network contains facilities which together allow an efficient pattern of referral in accordance with the changing ESRD care needs of individual patients. Each network includes the capability for kidney transplantation, inpatient dialysis, chronic maintenance dialysis, and self-dialysis training. In addition, each Renal Transplantation Center has the capacity to furnish, or preferably has arrangements to furnish, those other services integral to kidney transplantation, e.g., organ procurement and histocompatibility testing. The component facilities of each Network establish a Network Coordinating Council (hereinafter referred to as "Council") which develops operational procedures to insure a continuum of diagnosis, treatment, and follow-up services, and maximum quality care at all levels of ESRD therapy so that patients will have access to any type of care needed. The Council establishes a Medical Review Board to screen the appropriateness of patients for the proposed treatment procedures. Each Council establishes goals for the network and has a written plan for attaining those goals.

(a) *Standard: criteria for approval of network*. The facilities of the network together furnish the full spectrum of ESRD services and these are made available to all ESRD patients by agreements and arrangements among the facilities. Networks are approved on the basis of the criteria in paragraphs (a) (1), (2), and (3) of this section, but these criteria do not in any way preclude patient choice of physicians or of facilities, nor do they preclude patient referral by physicians to a facility in another network.

(1) The network, through its component facilities, furnishes:

(i) Kidney transplantation through at least two Renal Transplantation Centers (except that the Secretary may approve a network having a single Renal Transplantation Center when necessary for the achievement of ESRD program objectives (§ 405.2101));

(ii) Inpatient and outpatient dialysis; and

(iii) Self-dialysis training.

(2) The network has the capability for organ (kidney) procurement and histocompatibility testing, or arranges for the provision of such services by facilities outside the network; and

(3) Membership in a network is open to all ESRD facilities (as defined in § 405.2102(e)) in the designated network area (§ 405.2111).

(b) *Standard: Network Coordinating Council*. The Council carries out the duties, and fulfills the purposes, of the network. Each facility in the network furnishes at least one representative to the Council. If not already included among such representatives, the Council

selects the following additional members from within the network: transplant surgeon; internist-nephrologist; pediatrician (pediatric nephrologist preferable); urologist; psychiatrist; director of a histocompatibility testing laboratory; chief executive officer of an ESRD facility; psychologist; dietitian; vocational rehabilitation counselor; ESRD nurse; social worker; ESRD dialysis technician; and three informed consumers.

(1) The Council develops a written plan which defines the network's objectives and the manner in which each of the objectives is to be implemented. The Council evaluates the progress toward the objectives on an annual basis, and revises the plan each year to take into account such progress and changing needs. The plan contains the following elements:

(i) A statement of the network objectives;

(ii) Specific plans or methods for carrying out the network objectives;

(iii) A description of the mechanisms to be used for evaluation of progress toward meeting the network objectives;

(iv) Network policies and procedures;

(v) Policies and procedures for governance of the Council including, but not limited to, the frequency and type of meetings, quorum, etc.;

(vi) A list of the network's component facilities; the name(s) of the facility representative(s); the ESRD services each facility provides; a quantitative estimate of each facility's capacity to deliver each service.

(2) The Council submits such reports to the Secretary as he may require for effective administration of the ESRD program.

(3) The Council submits to the Secretary within 2 months after each calendar year an annual report which contains the following information:

(i) The ESRD services each facility in the network provides;

(ii) A quantitative estimate of each facility's capacity to deliver each service;

(iii) The actual utilization rate for each ESRD service in each facility for the preceding year;

(iv) The anticipated utilization rate for each ESRD service in each facility for the subsequent three-year period; and

(v) A statement describing the rationale for the participation of a facility reporting utilization rates which do not satisfy the standard(s) for unconditional approval (see § 405.2130).

(4) The Council confers with component facilities to assist each with the formulation of data for the annual report (paragraph (b) (3) of this section).

(5) The Council provides information to the Secretary and, upon request, to health planning agencies, concerning current and projected utilization of network member facilities, thereby assisting the orderly development and utilization of ESRD equipment and personnel to meet present and future needs of patients.

(6) The Council establishes mechanisms to manage the administrative and

financial aspects of the Council's activities.

(7) When the Health Systems Agencies (HSAs) required under P.L. 93-641 have demonstrated to the Secretary their capacity to assume responsibility for the functions described in this section, the Secretary may assign such responsibility to the HSA's. The Network Coordinating Council that had performed these ESRD functions may continue to perform such functions on behalf of the HSAs if they so request.

(c) *Standard: Medical Review Board.* Each network has a Medical Review Board to screen the appropriateness of ESRD care, treatment procedures, and services delivered to ESRD patients.

(1) The Medical Review Board consists of five members; the members (with designated alternates) are appointed by the Council as follows: (i) a transplant surgeon; (ii) an internist actively engaged in ESRD care; (iii) an additional physician actively engaged in other aspects of ESRD patient care (e.g., a urologist; a psychiatrist; or a specialist (physician or nonphysician) in histocompatibility testing); (iv) a registered nurse experienced in ESRD patient care; and (v) a social worker experience in working with ESRD patients. In pediatric cases, one of the physician members of the Board shall be a pediatrician.

(2) The Medical Review Board performs the following functions:

(i) Reviews the adequacy of patient selection of ESRD care, screens the appropriateness of patients for the proposed treatment procedures and reviews the appropriateness of the treatment plans for ESRD patients based on information available from the national ESRD medical information system (§ 405.2133) and the patients' charts as needed;

(ii) Reviews the appropriateness of services provided to patients under the ESRP program, including but not limited to: (1) reviews of aggregate patient outcome data and patterns of care furnished by physicians and facilities, and (2) indepth reviews of individual cases on the basis of samples or selections;

(iii) Reviews the appropriateness of ancillary medical services;

(iv) Reviews issues referred to it by carriers and intermediaries concerning the appropriateness of unusual services; and

(v) Performs studies on the organization and delivery of health care services to ESRD patients, or with respect to other Medical Review Board functions enumerated in this paragraph (c) (2).

(3) In performing the functions enumerated in paragraph (c) (2) of this section, the Board utilizes norms, criteria, and standards (§ 405.2102(h), (i), and (j)) adopted by the Board to select from a large number of cases those requiring indepth review.

(4) On the basis of its reviews under paragraph (c) (2) of this section, the Medical Review Board provides, to facilities in the network and to physicians, written recommendations for improvements in the ESRD care of individual

patients or groups of patients (or both). If there are facilities in the network, or physicians, that continue to deliver care which the Medical Review Board considers inappropriate or of substandard quality, the Medical Review Board provides all facts concerning this care to the Council and to the Secretary.

(5) No person serving on the Medical Review Board has review responsibility for a case in which he has, or had, any professional involvement.

(6) No person serving on the Medical Review Board with a financial interest, direct or indirect, in a facility furnishing ESRD services may review the ESRD services of that facility.

(7) The Medical Review Board coordinates its activities with the Professional Standards Review Organizations (PSRO) in its designated area.

(8) When a PSRO has demonstrated to the Secretary its capacity to assume responsibility for the reviews described in paragraph (c) (2) of this section, the Secretary may assign such responsibility to the PSRO. The Medical Review Board that had performed ESRD care review may continue to perform such review on behalf of the PSRO if the PSRO so requests.

§ 405.2111 Designations of network areas; approvals of functioning networks.

The Secretary will designate ESRD network areas each serving a minimum population base of 3.5 million and preferably a larger population, and will publish notice thereof in the FEDERAL REGISTER, as an Appendix to this subpart. The Secretary may designate network areas of less than 3.5 million population when necessary for the achievement of the ESRD program objectives (§ 405.2101). A network area may cross State and HEW Regional boundaries, but will not divide PSRO areas or Health Service Areas (HSAs) except under unusual circumstances indicating that program objectives would be better served by such divisions.

With respect to each designated ESRD network area, the Secretary will determine whether the requirements for a functioning network (§ 405.2110) have been met. An advance determination may be made, in the case of a network which has not yet become fully established, on the basis of substantial progress toward establishment as evidenced by:

(a) A functioning Network Coordinating Council (e.g., has begun holding meetings pertinent to the discharge of its responsibilities);

(b) A Medical Review Board which is meeting to plan to perform the functions stated in § 405.2110(c) (2);

(c) A written plan (see § 405.2110(b) (1)); and

(d) An agreement executed by each facility desiring to participate in the network (see § 405.2134).

An advance determination thus made will be subject to verification of compliance with § 405.2110 within a reasonable time thereafter, on the basis of requirements for fully established networks.

§ 405.2120 Minimal utilization rates: general.

Section 226(g) of the Social Security Act (42 U.S.C. 426(g)) authorizes the Secretary to limit reimbursement for ESRD care to those facilities which meet such requirements as the Secretary may prescribe, including minimal utilization rates for covered procedures. The minimal utilization rates, which are explained and specified in §§ 405.2121-405.2130, pertain to dialyses and transplantations. These utilization rates may be changed from time to time in accordance with program experience, and such changes will be published as amendments to these regulations.

A facility which is not granted an approval as to its utilization rate(s) for dialyses or transplantations in one of the categories described in § 405.2122(a) (1)-(3), or which has had such approval discontinued, is not eligible for reimbursement under title XVIII for the ESRD services lacking such approval.

§ 405.2121 Basis for determining minimal utilization rates.

In developing minimal utilization rates, the Secretary takes into account the performance of ESRD facilities, the availability of care, the quality of care, and the efficient utilization of equipment and personnel, based on the following evidence:

(a) Information obtained from the Network Coordinating Council (see § 405.2110(b) (3)) and other sources covering current rates of utilization in ESRD facilities;

(b) Information on the geographic distribution of ESRD patients and facilities;

(c) Information on quality of care; and

(d) Information on operational and management efficiency.

§ 405.2122 Compliance with minimal utilization rate(s); types and durations of approvals.

(a) *Based upon the minimal utilization rates specified in § 405.2130, ESRD facilities may be approved for the following periods—(1) Unconditional approval.* If the facility meets the minimal utilization rate(s) for unconditional approval, this status continues until subsequently reported statistics or amended minimal utilization rates require the facility's reclassification;

(2) *Conditional approval.* If the facility meets the minimal utilization rate(s) for conditional approval, this status continues until subsequently reported statistics or amended minimal utilization rates require the facility's reclassification; however, a facility will not be granted conditional approval for more than 2 consecutive years;

(3) *Exception status.* Under unusual circumstances the Secretary may grant a time-limited exception, not exceeding one year, to a facility which is not in compliance with the minimal utilization rate(s) for either unconditional approval or conditional approval. This exception status may be granted where rigid application of minimal utilization rate re-

quirements would adversely affect the achievement of ESRD program objectives. Exception status may be granted for reasons that include, but are not limited to the following:

(i) The facility is helping to overcome inadequate access to ESRD patient care in a large geographic area where there are too few patients to allow the facility to satisfy the minimal utilization rate(s);

(ii) The facility furnishes a necessary specialized ESRD service, e.g., as a major pediatric referral center for Renal Dialysis and Renal Transplantation Centers in a large geographic area;

(iii) The facility is a principal referral ESRD research center, i.e., conducts a substantial proportion of all patient-related ESRD research in a large geographical area; or

(iv) The facility has recently initiated a dialysis or transplantation program, or both, and is proceeding towards meeting minimal utilization rates on the basis of a plan and supporting information submitted to the Secretary.

The determination whether to grant an exception will be based, in part, on the documentation furnished by a facility and its Council in the reports submitted to the Secretary (see paragraphs (b) and (c) of this section).

(b) *Initial classification.* Six months after the effective date of this subpart (see § 405.2100(c)), each Renal Transplantation Center and each dialysis facility will submit to the Secretary through its Network Coordinating Council a report on the number of transplants and dialyses performed, and the number of dialysis stations operated, at the facility during the period from January 1, 1972, through December 31, 1974. Any facility reporting data not satisfying the standards for unconditional approval (§ 405.2130) may also submit with the report a statement which offers rationale for the granting of conditional approval (paragraph (a)(2) of this section) or an exception (paragraph (a)(3) of this section). The statement should be accompanied by comments from the Network Coordinating Council. The Secretary will notify each facility as well as the Network Coordinating Council of the facility's initial classification.

(c) *Subsequent classification.* Each Network Coordinating Council is required to submit an annual report to the Secretary, by the last day of February, showing the utilization rates for the preceding calendar year for each facility in the network (§ 405.2110(b)(3)). The Secretary reviews the approval status of each facility on the basis of a comparison of its utilization rates with the published minimal utilization rates for that year. Each facility as well as the Network Coordinating Council is notified by the Secretary of its subsequent classification.

(d) *For purposes of reporting utilization rates:*

(1) The number of transplants is the number performed at a Renal Transplantation Center (defined in § 405.2102(e)(7));

(2) The number of dialysis stations is (a) the number used for either in-

patient or outpatient ESRD care by a Renal Dialysis Center (defined in § 405.2102(e)(6)), and (b) the number of chronic maintenance dialysis stations in other than Renal Dialysis Centers;

(3) The number of dialyses performed per dialysis station per week in Renal Dialysis Centers includes both outpatient and inpatient dialyses performed on ESRD patients, whereas all other dialysis facilities will report only outpatient dialyses performed on ESRD patients, including self-care patients.

§ 405.2130 Condition: Minimal utilization rates.

The ESRD facility meets the applicable minimal utilization rate(s) indicated below for unconditional or conditional approval, unless granted exception status in accordance with § 405.2122(a)(3):

(a) *Standard: Renal Transplantation Center.*

(1) Unconditional approval: 25 or more transplants performed per year.

(2) Conditional approval: 15 to 24 transplants performed per year.

(b) *Standard: Dialysis facility.*

(1) For any facility located within a standard metropolitan statistical area of 500,000 population or greater:

(i) Unconditional Approval—6 or more dialysis stations with performance of an average of 4.5 or more dialyses per station per week;

(ii) Conditional Approval—6 or more dialysis stations with performance of an average of between 4.0 and 4.5 dialyses per station per week; or 4 or 5 dialysis stations with performance of an average of 4.5 or more dialyses per station per week.

(2) For any facility located in a standard metropolitan statistical area of less than 500,000 population, or in an area not included in a standard metropolitan statistical area:

(i) Unconditional Approval—3 or more dialysis stations with performance of an average of 4.0 or more dialyses per station per week;

(ii) Conditional Approval—2 dialysis stations with performance of an average of 4.0 or more dialyses per station per week.

§ 405.2131 Condition: hospital-operated ESRD facility.

An ESRD facility (§ 405.2102(e)) operated by a hospital may qualify for approval and be reimbursed under the ESRD program only if the hospital is otherwise an approved provider in the Medicare program.

§ 405.2132 Condition: fulfillment of service needs in network.

The facility, or an expansion of the facility's capacity, is needed to increase the available ESRD services which would otherwise be inadequate for the network area. The facility furnishes evidence in support of its request for approval showing that:

(a) There are ESRD patients in the network area for whom the proposed services of the facility are needed;

(b) These patients cannot be expected to receive appropriate therapy from

another ESRD treatment facility in the network area; and

(c) The facility is qualified to furnish the proposed services.

§ 405.2133 Condition: furnishing data and information for ESRD program administration.

The ESRD facility furnishes data and information in the manner and at the intervals specified by the Secretary, pertaining to its ESRD patient care activities and costs, for inclusion in a national ESRD medical information system and in compilations relevant to program administration. Such information is treated as confidential when it pertains to individual patients and is not disclosed except as authorized by Department regulations on confidentiality and disclosure (see 45 CFR Part 5 and 20 CFR Parts 401 and 422 (Subpart E)).

§ 405.2134 Condition: Membership in a network.

Six months after the effective date of this subpart, the ESRD facility must have executed a membership agreement with an approved network and must be providing representation to the Network Council.

(a) *Standard: membership agreement.* The membership agreement is signed by an authorized individual on behalf of the facility, providing for the facility's participation in Council activities.

(b) *Standard: representation.* The facility appoints at least one representative to the Council and more than one representative, when necessary, (§ 405.2110(b)), for proper administration of the Network's general program functions.

§ 405.2135 Condition: compliance with Federal, State and local laws and regulations.

The ESRD facility is in compliance with applicable Federal, State and local laws, and regulations.

(a) *Standard: licensure.* Where State or applicable local law provides for the licensing of ESRD facilities, the facility is:

(1) Licensed pursuant to such law; or

(2) Approved by the agency of such State or locality responsible for such licensing as meeting the standards established for such licensing.

(b) *Standard: licensure or registration of personnel.* Each staff member is currently licensed or registered in accordance with applicable law.

(c) *Standard: conformity with other laws.* The facility is in conformity with applicable laws and regulations pertaining to fire safety, equipment, and other relevant health and safety requirements.

§ 405.2136 Condition: governing body and management.

The ESRD facility is under the control of an identifiable governing body, or designated person(s) so functioning, with full legal authority and responsibility for the governance and operation of the facility. The governing body adopts and enforces rules and regulations relative to its own governance and to the health care and safety of patients, to the

protection of the patients' personal and property rights, and to the general operation of the facility. The governing body receives and acts upon recommendations and communications from the Medical Review Board and the Network Coordinating Council. The governing body appoints a chief executive officer who is responsible for the overall management of the facility.

(a) *Standard: disclosure of ownership.* The ESRD dialysis and/or transplant facility supplies full and complete information to the State survey agency (§ 405.1902(a)) as to the identity of: (1) each person who has any direct or indirect ownership interest of 10 per centum or more in the facility, or who is the owner (in whole or in part) of any mortgage, deed of trust, note, or other obligation secured (in whole or in part) by the facility or any of the property or assets of the facility; (2) each officer and director of the corporation, if the facility is organized as a corporation; and (3) each partner, if the facility is organized as a partnership; and promptly reports to the State survey agency any changes which would affect the current accuracy of the information so required to be supplied.

(b) *Standard: operational objectives.* The operational objectives of the ESRD dialysis and/or transplant facility, including the services that it provides, are established by the governing body and delineated in writing.

The governing body adopts effective administrative rules and regulations that are designed to safeguard the health and safety of patients and to govern the general operations of the facility, in accordance with legal requirements. Such rules and regulations are in writing and dated. The governing body ensures that they are operational, and that they are reviewed at least annually and revised as necessary.

(1) The objectives of the facility are formulated in writing and clearly stated in documents appropriate for distribution to patients, facility personnel, and the public.

(2) A description of the services provided by the facility, together with a categorical listing of the types of diagnostic and therapeutic procedures that may be performed, is readily available upon request to all concerned.

(3) Criteria defining patient eligibility for services are developed by the facility and are readily available to all concerned to ensure equitable access to such service.

(4) The operational objectives and administrative rules and regulations of the facility are reviewed at least annually and revised as necessary by the administrative staff, medical director, and other appropriate personnel of the facility, and are adopted when approved by the governing body.

(5) There is a written requirement that the governing body receive all recommendations and communications from the Medical Review Board and the Network Coordinating Council and appro-

priately act on such recommendations and communications.

(c) *Standard: chief executive officer.* The governing body appoints a qualified chief executive officer who, as the ESRD dialysis and/or transplant facility's administrator: is responsible for the overall management of the facility; enforces the rules and regulations relative to the level of health care and safety of patients, and to the protection of their personal and property rights; and plans, organizes, and directs those responsibilities delegated to him by the governing body. Through meetings and periodic reports, the chief executive officer maintains ongoing liaison among the governing body, medical and nursing personnel, and other professional and supervisory staff of the facility, and acts upon medical recommendations made by the medical staff, the governing body, and the Medical Review Board. In the absence of the chief executive officer, a qualified person is authorized in writing to act on the officer's behalf.

(1) The governing body delineates in writing the responsibilities of the chief executive officer, and ensures that he/she is sufficiently free from other duties to provide effective direction and management of the operations and fiscal affairs of the facility.

(2) The chief executive officer serves on a full-time or part-time basis, in accordance with the scope of the facility's operations and administrative needs, and devotes sufficient time to the conduct of such responsibilities.

(3) The responsibilities of the chief executive officer include but are not limited to:

(i) Implementing the policies of the facility and coordinating the provision of services, in accordance with delegations by the governing body.

(ii) Organizing and coordinating the administrative functions of the facility, redelegating duties as authorized, and establishing formal means of accountability for those involved in patient care.

(iii) Authorizing expenditures in accordance with established policies and procedures.

(iv) Familiarizing the staff with the facility's policies, rules, and regulations, and with applicable Federal, State, and local laws and regulations.

(v) Maintaining and submitting such records and reports, including a chronological record of services provided to patients, as may be required by the facility's internal committees and governing body, the Medical Review Board (§ 405.2110), and governmental agencies.

(vi) Participating in the development, negotiation, and implementation of agreements or contracts into which the facility may enter, including network agreements, (§ 405.2134), subject to approval by the governing body of such agreements or contracts.

(vii) Participating in the development of the organizational plan and ensuring the development and implementation of an accounting and reporting system, including annual development of a de-

tailed budgetary program, maintenance of fiscal records, and quarterly submission to the governing body of reports of expenses and revenues generated through the facility's operation.

(viii) Ensuring that the facility employs the number of qualified personnel needed; that all employees have appropriate orientation to the facility and their work responsibilities upon employment; and that they have an opportunity for continuing education and related development activities.

(d) *Standard: institutional planning.* The ESRD dialysis and/or transplant facility has an institutional plan that:

(1) Is prepared under the direction of the governing body by a committee consisting of representatives of the governing body, the administrative staff, and the professional staff;

(2) Provides for an annual operating budget which includes all anticipated income and expenses related to items which, under generally accepted accounting principles, would be considered income and expense items (except that nothing in this paragraph shall require that there be prepared, in connection with any budget, an item-by-item identification of the components of each type of anticipated expenditure of income);

(3) Provides for a capital expenditures plan for at least a 3-year period (including the year to which the operating budget described in paragraph (d) (2) of this section is applicable) which includes and identifies in detail the anticipated sources of financing for, and the objectives of, each anticipated expenditure in excess of \$100,000 related to the acquisition of land, the improvement of land, buildings, and equipment, and the replacement, modernization, and expansion of the buildings and equipment which under generally accepted accounting principles, would be considered capital items; and

(4) Provides for review and updating of the institutional plan at least annually.

(e) *Standard: personnel policies and procedures.* The governing body, through the chief executive officer of the ESRD dialysis and/or transplant facility, is responsible for maintaining and implementing written personnel policies and procedures that support sound patient care and promote good personnel practices. These policies and procedures ensure that:

(1) All members of the facility's staff are qualified to perform the duties and responsibilities assigned to them and meet such Federal, State, and local professional requirements as may apply.

(2) A safe and sanitary environment for patients and personnel exists, and that incidents and accidents to patients and personnel are reviewed to identify health and safety hazards. Health supervision of personnel is provided, and they are referred for periodic health examinations and treatments as necessary or as required by Federal, State, and local laws.

(3) If the services of trainees are utilized in providing ESRD services, such trainees are under the direct supervision of qualified professional personnel.

(4) Complete personnel records are maintained on all personnel. These include health status reports, resumes of training and experience, and current job descriptions that reflect the employees' responsibilities and work assignments.

(5) Personnel policies are written and made available to all personnel in the facility. The policies provide for an effective mechanism to handle personnel grievances.

(6) All personnel of the facility participate in educational programs on a regular basis. These programs cover initial orientation, and continuing inservice training, including procedures for infection control. Records are maintained showing the content of training sessions and the attendance at such sessions.

(7) Procedures manuals are maintained, periodically updated, and made available to all personnel involved in patient care.

(f) *Standard: use of outside resources.* If the ESRD dialysis and/or transplant facility makes arrangements for the provision of a specific service as authorized in these regulations, the responsibilities, functions, objectives, and the terms of each arrangement, including financial provisions and charges, are delineated in a document signed by an authorized representative of the facility and the person or agency providing the service. Documents pertaining to arrangements for services specify that the facility assumes professional and administrative responsibility for the services rendered. The outside resource, when acting as a consultant, apprises the chief executive officer and attending physician of recommendations, plans for implementation, and continuing assessment through dated, signed reports, which are retained by the chief executive officer for follow-up action and evaluation of performance.

(g) *Standard: patient care policies.* The ESRD dialysis and/or transplant facility has written policies, approved by the governing body, concerning the provision of dialysis and other ESRD services to patients. These policies are developed by the physician responsible for supervising and directing the provision of ESRD services, or the facility's organized medical staff (if there is one), with the advice of (and with provision for review of such policies from time to time, but at least annually, by) a group of professional personnel associated with the facility, including one or more physicians and one or more registered nurses experienced in rendering ESRD care.

(1) The patient care policies cover the following:

(i) Scope of services provided by the facility (either directly or under arrangement).

(ii) Admission and discharge policies (in relation to both in-facility care and self-care or home care).

(iii) Medical supervision and physician services.

(iv) Patient care plans and methods of implementation.

(v) Care of patients in medical and other emergencies.

(vi) Pharmaceutical services.

(vii) Medical records (including those maintained in the ESRD facility and in the patients' homes, to ensure continuity of care).

(viii) Administrative records.

(ix) Use and maintenance of the physical plant and equipment.

(x) Consultant qualifications, functions, and responsibilities.

(xi) Surveillance of home adaptation if the facility has responsibility for home dialysis patients.

(2) The physician-director of the facility is designated in writing to be responsible for the execution of patient care policies. If the responsibility for day-to-day execution of patient care policies has been delegated by a physician director to a registered nurse, the physician-director provides medical guidance to the nurse in such matters.

(3) The facility policy provides that hours for dialysis are scheduled for patient convenience and that, whenever feasible, arrangements are made to accommodate employed patients who wish to be dialyzed during their non-working hours.

(4) The governing body adopts policies to ensure there is evaluation of the progress each patient is making toward the goals stated in the patient's care plan (§ 405.2137). Such evaluations are carried out through regularly scheduled conferences, with participation by the staff involved in the patient's care.

(h) *Standard: medical supervision and emergency coverage.* The governing body of the ESRD dialysis and/or transplant facility ensures that the health care of every patient is under the continuing supervision of a physician and that a physician is available in emergency situations.

(1) The physician responsible for the patient's medical supervision evaluates the patient's immediate and long-term needs and on this basis prescribes a planned regimen of care which covers indicated dialysis and other ESRD treatments, services, medications, diet, special procedures recommended for the health and safety of the patient, and plans for continuing care and discharge.

(2) The governing body ensures that there is 24-hour, 7-day a week medical coverage so that there is always available medical care for emergencies. There is posted at the nursing/monitoring station a roster with the names of the physicians to be called, when they are available for emergencies, and how they can be reached.

(i) *Standard: medical staff.* The governing body of the ESRD dialysis and/or transplant facility designates a qualified physician (see § 405.2102(m)(4)) as director of the ESRD services; the appointment is made upon the recommendation of the facility's organized medical staff, if there is one. The governing body establishes written policies regarding the development, negotiation, consummation,

evaluation, and termination of appointments to the medical staff.

§ 405.2137. **Condition: patient care plans.**

There is a written patient care plan for every patient of the ESRD dialysis and/or transplant facility, based on the nature of the illness, treatment prescribed, long-term and short-term goals and other pertinent information.

(a) *Standard: personalized plans.* The patient care plan is personalized for the individual patient. It indicates what ESRD and other care is needed, how it can best be accomplished, and what modifications are necessary to achieve the best results. The patient is involved in the development of the plan, and due consideration is given to the patient's preferences.

(b) *Standard: physician involvement.* The patient care plan is developed on the basis of the physician's prescribed regimen of treatment, with the involvement of other professional personnel who participate in the patient's care. The patient care plan is reviewed and revised, as necessary, in order to ensure that it provides for the ongoing needs of the patient.

§ 405.2138 **Condition: patients' rights.**

The governing body of the ESRD dialysis and/or transplant facility adopts written policies regarding the rights and responsibilities of patients and, through the chief executive officer, is responsible for development of, and adherence to, procedures implementing such policies. These policies and procedures are made available to patients and any guardians, next of kin, sponsoring agency(ies), representative payees selected pursuant to section 205(j) of the Social Security Act and Subpart Q of Part 404 of this Chapter, and to the public. The staff of the facility is trained and involved in the execution of such policies and procedures. The patients' rights policies and procedures ensure that all patients treated in the facility:

(1) Are fully informed of these rights and responsibilities, and of all rules and regulations governing patient conduct and responsibilities;

(2) Are fully informed of services available in the facility and of related charges including any charges for services not covered under titles XVIII or XIX of the Social Security Act;

(3) Are fully informed by a physician of their medical condition unless medically contraindicated (as documented in their medical records) and are afforded the opportunity to participate in the planning of their medical treatment and to refuse to participate in experimental research;

(4) Are encouraged and assisted to understand and exercise their rights. Grievances and recommended changes in policies and services may be addressed to facility staff, the Council, or any other representatives, free from restraint, interference, coercion, discrimination or reprisal;

(5) Are assured confidential treatment of their personal and medical records, and may approve or refuse release of such

records to any individual outside the facility, except in case of their transfer to another health care institution or as required by law or third-party contract;

(6) Are treated with consideration, respect, and full recognition of their individuality and personal needs, including the need for privacy in treatment. Provision is made for translators where a significant number of patients exhibit language barriers; and

(7) Except in a medical emergency, are not transferred or discharged, nor is treatment altered radically, without consultation with the patient or, if incompetent, without prior notification of next of kin or sponsor.

§ 405.2139 Condition: medical records.

The ESRD dialysis and/or transplant facility maintains complete medical records on all patients (i.e., those receiving care within the facility and those self-care or home dialysis patients for whom the facility has assumed responsibility) in accordance with accepted professional standards and practices. A qualified member of the facility's staff is designated to serve as supervisor of medical records services, and ensures that all records are properly documented, completed, and preserved. The medical records are completely and accurately documented, readily available, and systematically organized to facilitate the compilation and retrieval of information.

(a) *Standard: medical record.* Each patient's medical record contains sufficient information to identify the patient clearly, to justify the diagnosis and treatment, and to document the results accurately. All medical records contain the following general categories of information: Documented evidence of assessment of the needs of the patient, of establishment of an appropriate plan of treatment, and of the care and services provided; identification and social data; signed consent forms; referral information with authentication of diagnosis; medical and nursing history of patient; report(s) of physician examination(s); diagnostic and therapeutic orders, observations, and progress notes; reports of treatments and clinical findings; reports of laboratory and other diagnostic tests and procedures; and discharge summary including final diagnosis and prognosis.

(b) *Standard: protection of medical record information.* The facility safeguards medical record information against loss, destruction, or unauthorized use. The facility has written policies and procedures which govern the use and release of information contained in medical records. Written consent of the patient, or of an authorized person acting in behalf of the patient, is required for release of information not provided by law. Medical records are made available under stipulation of confidentiality for inspection by authorized agents of the Secretary, as required for administration of the ESRD program under Medicare.

(c) *Standard: medical records supervisor.* A qualified member of the facility's staff is designated to serve as supervisor of the facility's medical records service.

The functions of the medical records supervisor include, but are not limited to, the following: Ensuring that the records are documented, completed, and maintained in accordance with accepted professional standards and practices; safeguarding the confidentiality of the records in accordance with established policy and legal requirements; ensuring that the records contain pertinent medical information and are filed for easy retrieval. When necessary, consultation is secured from a qualified medical record practitioner.

(d) *Standard: Completion of medical records and centralization of clinical information.* Current medical records and those of discharged patients are completed promptly. All clinical information pertaining to a patient is centralized in the patient's medical record.

(e) *Standard: retention and preservation of records.* Medical records are retained for a period of time not less than that determined by the State statute governing records retention or statute of limitations, or five years from the date of discharge in the absence of a State statute, or, in the case of a minor, three years after the patient becomes of age under State law, whichever is longest.

(f) *Standard: location and facilities.* The facility maintains adequate facilities, equipment, and space conveniently located, to provide efficient processing of medical records (e.g., reviewing, filing, and prompt retrieval) and statistical medical information (e.g., required abstracts, reports, etc.).

(g) *Standard: transfer of medical information.* The facility provides for the interchange of medical and other information necessary or useful in the care and treatment of patients transferred between treating facilities, or in determining whether such patients can be adequately cared for otherwise than in either of such facilities.

§ 405.2140 Condition: physical environment.

The physical environment in which ESRD services are furnished affords a functional, sanitary, safe, and comfortable setting for patients, staff, and the public.

(a) *Standard: building and equipment.* The physical structure in which ESRD services are furnished is constructed, equipped, and maintained to insure the safety of patients, staff, and the public.

(1) Fire extinguishers are conveniently located on each floor of the facility and in areas of special hazard. Fire regulations and fire management procedures are prominently posted and properly followed.

(2) All electrical and other equipment used in the facility is maintained free of defects which could be a potential hazard to patients or personnel. There is established a planned program of preventive maintenance of equipment used in hemodialysis and related procedures in the facility.

(3) The areas used by patients are maintained in good repair and kept free of hazards such as those created by dam-

aged or defective parts of the building.

(4) An emergency electrical service covers the fire alarm system and the lights at exits and corridors used by patients.

(b) *Standard: favorable environment for patients.* The facility is maintained and equipped to provide a functional, sanitary, and comfortable environment with an adequate amount of well-lighted space for the services provided.

(1) There are written policies and procedures in effect for preventing and controlling hepatitis and other infections. As a minimum, these policies and procedures cover the provisions of appropriate sterile techniques.

(2) Treatment areas are designed and equipped to provide adequate and safe dialysis therapy, as well as privacy and comfort for patients.

(3) There is provided a nursing/monitoring station from which adequate surveillance of patients receiving hemodialysis services can be made.

(4) Heating and ventilation systems are capable of maintaining adequate and comfortable temperatures.

(c) *Standard: emergency preparedness.* Policies and procedures for handling emergencies are in writing and readily available. The emergency preparedness plan is tested periodically and reviewed and revised as necessary, but at least annually. Staff are knowledgeable of their respective roles in emergencies and are trained in emergency life-saving procedures and techniques.

(1) There is an established written plan for dealing with fire and other emergencies which, when necessary, is developed in cooperation with fire and other expert personnel.

(2) All personnel are trained, as part of their employment orientation, in all aspects of preparedness for any emergency or disaster. The emergency preparedness plan provides for orientation and regular training and periodic drills for all personnel in all procedures so that each person promptly and correctly carries out a specified role in case of an emergency.

(3) There is available at all times on the premises a fully equipped emergency tray, including emergency drugs, medical supplies, and equipment, and staff are trained in its use.

(4) The staff is familiar with the use of all dialysis equipment and procedures to handle medical emergencies.

§ 405.2160 Condition: affiliation agreement or arrangement (ESRD facility).

An ESRD dialysis facility has in effect an affiliation agreement or arrangement, in writing, for the provision of inpatient care and other hospital services with: (a) a Medicare approved Renal Dialysis Center (see § 405.2102(e)(6)), and (b) a nearby hospital that can furnish care to the dialysis facility's patients in medical emergencies. (The requirement in (a) of this paragraph does not apply to a facility which is itself a Renal Dialysis Center, nor does the requirement in (b) of this paragraph apply to a facility

which is located in and operated by a Medicare approved hospital.)

The affiliation agreement or arrangement provides the basis for effective working relationships under which in-patient hospital care or other hospital services are available promptly to the dialysis facility's patients when needed. The dialysis facility has in its files documentation from the hospital(s) to the effect that patients from the dialysis facility will be accepted and treated in acute medical emergencies. There are reasonable assurances that:

(a) Transfer or referral of patients will be effected between the hospital and the dialysis facility whenever such transfer or referral is determined as medically appropriate by the attending physician, with timely acceptance and admission;

(b) There will be interchange of medical and other information necessary or useful in the care and treatment of individuals transferred or referred between the facilities, or in determining whether such individual can be adequately cared for otherwise than in either of such facilities; and

(c) Security and accountability for patients' personal effects are provided when the patient is transferred to the hospital.

§ 405.2161 Condition—Director of an ESRD dialysis facility.

Treatment is under the general supervision of a Director who is a physician. The physician-director need not devote full time as Director but is responsible for planning, organizing, conducting, and directing the professional ESRD services and must devote sufficient time to carrying out these responsibilities. The director may also serve as the Chief Executive Officer of the facility.

(a) *Standard: qualifications.* The director of a dialysis facility is a qualified physician-director. (See § 405.2102(m)(4))

(b) *Standard: responsibilities.* The responsibilities of the physician-director include but are not limited to the following:

(1) Participating in the selection of a suitable treatment modality, i.e., transplantation or dialysis, and dialysis setting, for all patients;

(2) Training, or assuring adequate training, of nurses and technicians in dialysis techniques;

(3) Assuring adequate monitoring of the patient and the dialysis process;

(4) Assuring the development and availability of a policy and procedures manual and its implementation. As a minimum, the manual describes the types of dialysis used in the facility and the procedures followed in performance of such dialysis; hepatitis prevention and procedures for handling an individual with hepatitis; and a disaster preparedness plan (e.g., patient emergency, fire, flood); and

(5) When self-dialysis training is offered, assuring that patient teaching materials are available for patient use during training and at times other than during the dialysis procedure.

§ 405.2162 Condition: staff of an ESRD dialysis facility.

Properly trained personnel are present in adequate numbers to meet the needs of the patients, including those arising from medical and nonmedical emergencies.

(a) *Standard: registered nurse.* The dialysis facility employs at least one full time qualified nurse responsible for nursing service. (See § 405.2102(m)(3))

(b) *Standard: on-duty personnel.* Whenever patients are undergoing dialysis, other than self-care dialysis, one currently licensed health professional (e.g., M.D., R.N., or LPN) experienced in rendering ESRD care is on duty to monitor patient vital signs, and an adequate number of personnel are present or readily available to meet medical and nonmedical emergencies.

(c) *Standard: self-dialysis training personnel.* If the facility offers self-care dialysis training, a qualified nurse is in charge of such training (see § 405.2102(m)(3)).

§ 405.2163 Condition: Minimal service requirements for an ESRD dialysis facility.

In addition to chronic maintenance dialysis, the facility provides adequate laboratory, social, and dietetic services as needed to meet the needs of the ESRD patient.

(a) *Standard: laboratory services.* The dialysis facility makes available, directly or by arrangements, laboratory services, (other than the specialty of tissue pathology), which are available to meet the needs of the ESRD patient. Laboratory services are performed either by a Medicare-approved hospital or by a qualified Medicare-approved independent laboratory which, notwithstanding approval pursuant to Subparts J, M, and S, as appropriate, also meets § 405.1314(b)(3) and (5) and § 405.1317.

(b) *Standard: social services.* Social services are furnished by a qualified social worker (§ 405.2102(m)(5)) who has an employment or contractual relationship with the facility. The qualified social worker is responsible for social evaluations, financial advice and counseling, ongoing social services and, when indicated, referrals for vocational rehabilitation.

(c) *Standard: dietetic services.* Each patient is evaluated as to his nutritional needs by the attending physician in consultation with a qualified dietitian (§ 405.2120(m)(1)). Therapeutic diets are prescribed and monitored by the attending physician in consultation with the dietitian. When the need is indicated, the dietitian provides ongoing dietary counseling.

(d) *Standard: self-care dialysis support services.* The self-care dialysis training facility furnishes or arranges for the furnishing of the following upon completion of the training:

(1) Routine medical surveillance of the patient's medical condition and home adaptation, including provisions for visits to the home or the facility when neces-

sary;

(2) Installation and maintenance of equipment;

(3) Testing and appropriate treatment of the water;

(4) Ordering of supplies on an ongoing basis;

(5) Routine consultation for the patient with a qualified social worker and a qualified dietitian; and

(6) A record-keeping system which assures continuity of care.

(e) *Standard: participation in recipient registry.* The dialysis facility participates in a patient registry program for patients who are awaiting cadaveric donor transplantation.

§ 405.2170 Condition: Director of a renal transplantation center.

The renal transplantation center is under the general supervision of a qualified transplantation surgeon (§ 405.2102(m)(6)) or a qualified physician-director (§ 405.2102(m)(4)), who need not serve full time. This physician is responsible for planning, organizing, conducting, and directing the Renal Transplantation Center and devotes sufficient time to carry out these responsibilities, which include but are not limited to the following:

(a) Participating in the selection of a suitable treatment modality for each patient.

(b) Training, or assuring adequate training, of nurses in the care of transplant patients.

(c) Assuring that tissue typing and organ procurement services are available either directly, by arrangements, or by agreements.

(d) Assuring that transplantation surgery is performed under the direct supervision of a qualified transplantation surgeon.

§ 405.2171 Condition: minimal service requirements for a renal transplantation center.

Kidney transplantation is furnished directly by a hospital which is participating as a provider of services in the Medicare program and is approved by the Secretary as a Renal Transplantation Center. The Renal Transplantation Center is under the overall direction of a hospital administrator and medical staff; if operated by an organizational subsidiary, it is under the direction of an administrator and medical staff member (or committee) who are directly responsible to the hospital administrator and medical staff, respectively. Patients are accepted for transplantation only on the order of a physician and their care continues under the supervision of a physician.

(a) *Standard: participation in recipient registry.* The Renal Transplantation Center participates in a patient registry program for patients who are awaiting cadaveric donor transplantation.

(b) *Standard: social services.* Social services are furnished to transplant recipients and donors by a qualified social

federal register

worker who has an employment or contractual relationship with the facility. The qualified social worker is responsible for social evaluations, financial advice and counseling, ongoing social services and, when indicated, referral for vocational rehabilitation.

(c) Standard: laboratory services. The hospital makes available, directly or by arrangements, laboratory services to meet the needs of ESRD patients. Laboratory services, including histocompatibility testing, are performed either by a Medicare-approved independent laboratory or by a Medicare-approved hospital which, notwithstanding approval pursuant to Subparts J, M, and S, as appropriate, also meets § 405.1314(b) (3) and (5), § 405.1317, and (when services are furnished in the specialty of tissue pathology) § 405.1314(b) (8) (i).

(1) The following laboratory services are available on a 24-hour emergency basis:

- (i) ABO blood grouping;
(ii) HL-A and better-defined W antigens with adequately maintained typing reagents and with retyping and updating as needed;
(iii) Recipient sera screening for preformed antibodies with a suitable lymphocyte panel; and
(iv) Cross-matching of recipient and donor sera for preformed antibodies by at least two sensitive techniques.

(2) Available laboratory services also include:

- (i) Suitable maintenance of recipient sera and typing reagents; and
(ii) Genotyping for honors and recipients.

APPENDIX

The designation of network areas has been preceded by extensive consultation with representatives of governmental agencies at all levels and with local ESRD patient care providers who are knowledgeable about existing patient referral patterns. The network areas proposed have been designed to enable network organizations to carry out their required functions and to provide for ESRD patient care referrals, with minimal need for reliance on resources located outside the designated network area. Each network area includes a minimum population of 3.5 million, except for 4 network areas where this minimum would not be feasible. Network areas frequently cross State and HEW regional boundaries, but do not divide proposed Health Service Areas mandated by the new National Health Planning and Resources Development Act of 1974.

The designation of network areas does not imply that the boundaries will remain static. These network areas may be changed based on public comment and the final designation of the Health Service Areas, and from time to time by publication of amendments to these regulations so that the regulations are in accordance with program experience and changing ESRD needs.

Pursuant to § 405.2111 of this Subpart, the following are designated as End-Stage Renal Disease Network Areas:

ESRD NETWORK NO. 1

- American Samoa
Guam
Hawaii
The Trust Territory of the Pacific Islands

ESRD NETWORK NO. 2

- The State of Montana
The State of Oregon
The State of Washington
The State of Idaho
The State of Alaska

ESRD NETWORK NO. 3

The following counties in Northern California:

- Alameda
Alpine
Amador
Butte
Calaveras
Colusa
Contra Costa
Del Norte
El Dorado
Fresno
Glenn
Humboldt
Lake
Lassen
Madera
Marin
Mariposa
Mendocino
Merced
Modoc
Mono
Monterey
Napa
Nevada
Placer
Plumas
Sacramento
San Benito
San Francisco
San Joaquin
San Mateo
Santa Clara
Santa Cruz
Shasta
Sierra
Siskiyou
Solano
Sonoma
Stanislaus
Sutter
Tehama
Trinity
Tuolumne
Yolo
Yuba

The State of Nevada excluding Clark county which is included in Network area 4.

ESRD NETWORK NO. 4

The following counties in Southern California:

- Imperial
Inyo
Kern
Kings
Los Angeles
Orange
Riverside
San Bernardino
San Diego
San Luis Obispo
Santa Barbara
Tulare
Ventura

The following county in Southern Nevada: Clark

ESRD NETWORK NO. 5

Composed of:

- The State of Colorado
The State of Utah
The State of Wyoming

ESRD NETWORK NO. 6

- The State of Arizona
The State of New Mexico

ESRD NETWORK NO. 7

Composed of:

- The State of Minnesota
The State of North Dakota
The State of South Dakota

The following county in the State of Wisconsin:

Douglas

The following counties in the State of Michigan:

- Alger
Baraga
Chippewa
Delta
Dickinson
Gogebic
Houghton
Iron
Keweenaw
Luce
Mackinac
Marquette
Menominee
Ontonagon
Schoolcraft

ESRD NETWORK NO. 8

Composed of:

- The State of Iowa
The State of Nebraska

The following counties in the State of Illinois:

- Henry
Mercer
Rock Island

ESRD NETWORK NO. 9

The State of Kansas

The State of Illinois excluding the following counties which are included in network area number 15 except the 3 which are shown as being in number 8.

- Boone
Bureau
Carroll
Cook
De Kalb
Du Page
Fulton
Grundy
Henderson
*Henry
Jo Daviess
Kane
Kankakee
Kendall
Knox
Lake
La Salle
Lee
Marshall
McDonough
McHenry
*Mercer
Ogle
Peoria
Putnam
*Rock Island
Stark
Stephenson
Tazewell
Warren
Whiteside
Will
Winnebago
Woodford

The State of Missouri

ESRD NETWORK NO. 10

The State of Arkansas
The State of Oklahoma

ESRD NETWORK NO. 11

The State of Texas

ESRD NETWORK NO. 12

The State of Louisiana

ESRD NETWORK NO. 13

The State of Wisconsin excluding the following county which is included in network area number seven.

Douglas

ESRD NETWORK NO. 14

The State of Michigan excluding the following counties which are included in network area number 7.

- Alger
Baraga
Chippewa
Delta
Dickinson
Gogebic
Houghton
Iron
Keweenaw
Luce
Mackinac
Marquette
Menominee
Ontonagon
Schoolcraft

ESRD NETWORK NO. 15

Northern Illinois including the following counties:

- Boone
Bureau
Carroll
Cook
DeKalb
DuPage
Fulton

*Included in network area number 8.

ESRD NETWORK NO. 16

The State of Indiana excluding the following county which is included in network area number 17.

Dearborn

ESRD NETWORK NO. 17

The State of Kentucky

The following counties in the State of

- Adams Ohio:
Brown Greene
Butler Hamilton
Champaign Highland
Clark Miami
Clermont Montgomery
Clinton Preble
Darke Shelby
Warren

The following county in the State of Indiana:

Dearborn

ESRD NETWORK NO. 18

The State of Alabama excluding the following county which is included in network area number 20.

Russell

The State of Mississippi
The State of Tennessee

The following counties in the State of Georgia:

- Catoosa Walker
Dade

The following counties in the State of Virginia:

- Scott Washington

ESRD NETWORK NO. 19

The State of Florida

ESRD NETWORK NO. 20

The State of Georgia excluding the following counties which are included in network area number 18.

- Catossa Walker
Dade

The State of South Carolina

The following county in the State of Alabama:

Russell

ESRD NETWORK NO. 21

The State of North Carolina

ESRD NETWORK NO. 22

Composed of the State of Ohio excluding the following counties which are included in network area number 17.

- Adams Greene
Brown Hamilton
Butler Highland
Champaign Miami
Clark Montgomery
Clermont Preble
Clinton Shelby
Darke Warren

The following counties of Western Pennsylvania:

- Allegheny Forest
Armstrong Greene
Beaver Huntington
Bedford Indiana
Blair Jefferson

[21 CFR Part 310]

[Docket No. 75N-0122]

INTRAUTERINE CONTRACEPTIVE DEVICES
(IUD'S)

Professional and Patient Labeling for
Intrauterine Contraceptive Devices

The Commissioner of Food and Drugs is proposing an amendment to the new drug regulations (21 CFR Part 310) to establish uniform professional and patient labeling for intrauterine devices; comments by September 2, 1975.

The intrauterine contraceptive device (IUD) is a popular method of contraception used by several million women in the United States. Although this method is generally safe and effective, certain complications and side effects may result from its use. A Food and Drug Administration (FDA) review of the labeling of IUD's currently marketed in the United States has disclosed that such information is not uniformly available to either the practitioner or the patient. The Commissioner has concluded that many of these problems can be ameliorated or avoided by dissemination of accurate information concerning the IUD's indications, effectiveness, contraindications, warnings, precautions, and adverse reactions to both the physician and the patient and that this can be accomplished best by the use of special physician and patient labeling for both drug and device IUD's. Therefore, the Commissioner is proposing to amend the new drug regulations to provide for that labeling.

The FDA has been working on IUD-related problems for several years. In 1967, the FDA commissioned the Obstetrics and Gynecology Advisory Committee to analyze the problem and to prepare a report. The report, issued January 1, 1968, noted that complications resulting from the use of IUD's are different from those associated with hormonal contraceptives, but are approximately as common, and that the rates of discontinuance appear to be about equal in the two forms of contraception. It concluded that IUD's are highly effective in preventing pregnancy, but that physicians should be aware of all possible contraindications and complications. The committee noted that the existing legal authority is limited to regulation of marketed devices which demonstrate excessive danger or hazard to health. It further recommended that more research must be done on the IUD's since its findings were not conclusive.

During the early part of 1973, the FDA Office of Medical Devices undertook a survey of IUD manufacturers to gather additional information about the labeling and the safety and effectiveness of IUD's. After reviewing information gathered in the survey and information contained in the scientific literature, an IUD called the "Majzlin Spring" was seized May 29, 1973 on the basis that its

continued use in patients constituted a danger to health.

In May and June 1973, a subcommittee of the Committee on Government Operations, House of Representatives, held hearings on the regulation of medical devices. For the most part the purpose of the oversight hearings was to determine whether the FDA was doing a satisfactory job of enforcing the laws which it administers and whether IUD's were under adequate regulation to assure their safe and effective use. The Acting Commissioner, in testifying at those hearings, stated that IUD's and other contraceptive products, particularly drugs, were a serious concern to the FDA, the medical profession, and the public. He added that while many experts believe intrauterine devices are safer than oral contraceptives and equally effective, the FDA is sensitive to injury and complaint data pertaining to IUD's. The Acting Commissioner assured the subcommittee members that the existing resources and legislative authority of the FDA were being applied to problems associated with the use of IUD's as well as the hundreds of other medical devices in use.

During the remainder of 1973, FDA continued to monitor reports relating to the safety and effectiveness of IUD's. In addition, the Family Planning Evaluation Division of the Center for Disease Control (CDC) in conjunction with the Committee on Maternal and Child Health Care of the American Medical Association (AMA) and the American Osteopathic Association (AOA) undertook a survey of practitioners to determine their experiences with the use of IUD's during the first 6 months of 1973. The survey indicated that deaths and hospitalizations associated with the use of IUD's were being reported.

In December 1973, the A. H. Robins Co., 1407 Cummings Drive, Richmond, VA 23220, manufacturer of the Dalkon Shield IUD, notified FDA that it had received reports about complications of pregnancy associated with the use of this IUD. In February 1974, the firm sponsored an internal conference, and in April 1974, the firm met with representatives of FDA to discuss its intention to issue a letter advising physicians about procedures for the management of pregnancy occurring with the IUD in situ. On May 8, 1974, the firm issued the letter to more than 120,000 physicians.

On June 10-11, 1974 and June 13-14, 1974, two FDA advisory committees (the Panel on Review of Obstetrical and Gynecology Devices, established for the purpose of reviewing and evaluating all available data concerning the safety, effectiveness, and reliability of obstetrical and gynecology devices currently in use, and the Obstetrics and Gynecology Advisory Committee, established for the purpose of advising the Commissioner regarding the safety and effectiveness of drugs employed in obstetrics and gynecology) held meetings at which they concluded that the Dalkon Shield raised sufficient questions of safety to recommend that the device be withdrawn from the market. The conclusion reached by

these two committees was made on the basis of information furnished by A. H. Robins Co., additional material developed by FDA and the report by CDC on the survey undertaken in cooperation with the AMA and the AOA.

On July 5, 1974, the results of the CDC survey were published in *Morbidity and Mortality*, Vol. 23, No. 26. That survey indicated that while the small number of IUD-related deaths demonstrates an increased mortality rate, the overall rate of IUD-related mortality appears to be low compared with the mortality rates associated with pregnancy and with other forms of contraception.

To provide an opportunity for all interested persons to present data, comments, or suggestions relative to the safety issues related to the Dalkon Shield and other IUD's, the Commissioner held a public hearing on August 21, 1974. The hearing particularly considered whether there are any differences in safety between the Dalkon Shield and other IUD's.

At this public hearing, members of both the Panel on Review of Obstetrical and Gynecology Devices and the Obstetrics and Gynecology Advisory Committee, meeting as an Ad Hoc Obstetrics and Gynecology Advisory Committee with John Jennings, M.D., Associate Commissioner for Medical Affairs, serving as Chairman, received and reviewed all of the information presented.

Following the public hearing and after considering all information presented, the Ad Hoc Advisory Committee outlined the issues and appointed a subcommittee charged with the responsibility of reviewing the possible advantages and disadvantages of using the Dalkon Shield. The committee noted that "IUD's have been shown by extensive use and studies to be a safe and reliable means of contraception and they compare favorably with the standard in this field—namely, oral contraceptives."

On October 29-30, 1974, the committee met to prepare a final report on the safety and effectiveness of IUD's in general and the Dalkon Shield in particular. Based on the open hearing, all information presented and available at that time, and the recommendations of the subcommittee, the committee concluded:

Physician and patient product labeling should provide adequate information concerning the potential dangers of sepsis occurring during pregnancy with an IUD in place. Any patient with an IUD in place who suspects pregnancy or misses her normal menstrual period should seek medical advice at the earliest possible time. Because of the increased risk in pregnancy, the IUD should be removed if the string is visible and the IUD can be easily removed. If the IUD cannot be removed, interruption of pregnancy should be considered and offered as an option. If the patient elects to maintain the pregnancy, she should be warned of the increased risk of sepsis and be followed with close vigilance.

FDA advisory committees, like the Ad Hoc Obstetrics and Gynecology Advisory Committee, are created to advise the Commissioner on pending regulatory matters. Recommendations made by the

committees on these matters are intended to result in action consistent with the authority of FDA under the Federal Food, Drug, and Cosmetic Act, and these committees through their advice to the Commissioner greatly assist him in exercising his responsibilities under the act.

Following the recommendations of the advisory committee, the FDA published an FDA Drug Bulletin in December 1974 explaining the current status of the IUD investigation. This bulletin was distributed widely to physicians and other health professionals in the United States. It included language for a patient leaflet which was developed by FDA in cooperation with the American College of Obstetricians and Gynecologists and was to be made available for distribution on a voluntary basis, warning women who wear IUD's of the dangers of pregnancy. Based on the recommendations of the Ad Hoc Obstetrics and Gynecology Advisory Committee with regard to IUD labeling and further evaluation of these recommendations by FDA, the Commissioner concludes that there is a need to establish and require uniform physician and patient labeling for intrauterine contraceptive devices. Thus the patient labeling set forth in the FDA Drug Bulletin has been expanded.

So that interested parties are aware of the data and information including the Obstetrical-Gynecology Committee Reports, on which the Commissioner has based his decision to propose this uniform labeling regulation for IUD's, the following documents have been placed on file for public review in the office of the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852:

1. Clark, Frederick A., Jr., "Statement on Septic Spontaneous Abortion and the Dalkon Shield," (with attachments 1 through 7 and Appendix A) June 11, 1974. (Presented to the Food and Drug Administration, Bureau of Medical Devices and Diagnostic Agents and its OB-GYN Device Panel.)

2. Ostergard, Donald R., M.D., "Intrauterine Contraception in Nulliparas with the Dalkon Shield," *American Journal of Obstetrics and Gynecology*, 116(8): 1088-1091, Aug. 15, 1973.

3. "Report on Intrauterine Contraceptive Devices," Obstetrics and Gynecology Advisory Committee, Food and Drug Administration, January 1968.

4. "Regulation of Medical Devices (Intrauterine Contraceptive Devices)," hearings before a Subcommittee of the Committee on Government Operations, House of Representatives, 93d Congress, First Session, May 30-31, June 1, 12-13, 1973.

5. Summary Minutes, meeting of the Food and Drug Administration Panel on Review of Obstetrical-Gynecological Devices, June 10-11, 1974.

6. Summary Minutes, meeting of the Food and Drug Administration Obstetrics and Gynecology Advisory Committee, June 13-14, 1974.

30. Statement by Alexander M. Schmidt, M.D., Commissioner, Food and Drug Administration, Public Health Service, Department of Health, Education, and Welfare, before the Subcommittee on Health, Committee on Labor and Public Welfare, and Subcommittee on Administrative Practice and Procedure, Committee on the Judiciary, United States Senate, January 28, 1975.

31. A. H. Robins Co., letter directed to physicians, dated May 8, 1974.

The Food and Drug Administration is charged with assuring both physicians and patients that IUD's are safe and effective for their intended uses. The full disclosure of information to physicians concerning such things as the effectiveness, indications, contraindications, warnings, precautions, and adverse reactions is an important element in the discharge of this responsibility. The Commissioner concludes that the physician is the proper person for providing use information for his patients, and the proposed regulation will provide physicians with an objective discussion of the effectiveness and risks attendant upon the use of the IUD to enable them to discuss the IUD with their patients.

Moreover, the patient as well as the physician needs adequate information to use the IUD in a safe and effective manner. A review of IUD's by FDA indicates that the products are used for long periods of time by large numbers of women who, for the most part, are healthy and use them for prevention of pregnancy or for family planning. Nevertheless, there is no present assurance that women who use the IUD are being uniformly provided the necessary information for its safe and effective use or information pertaining to other means of contraception so as to enable them to select the IUD as a matter of choice.

In view of the foregoing, it is necessary for the safe and effective use of the IUD, and to prevent misleading labeling, that there be patient labeling containing information on the nature of the IUD, its side effects, contraindications, and potential hazards, and to

point out the need for continued medical supervision. The proposed regulation provides for such informative patient labeling.

Because of difficult benefit-risk considerations related to the use of IUD's and the fact that they are intended to be used for long periods of time by women who are healthy, and because of the availability of other methods of contraception, it is necessary that the attendant physician, prior to inserting the IUD, inform the patient of the risks and advantages associated with the use of the IUD as well as those associated with other methods of contraception. The proposed regulation provides that prior to the date scheduled for insertion of the IUD the physician must supply the patient with the patient brochure so that she has adequate time to read the labeling. Also, the physician should discuss fully the labeling with her, including an explanation of other methods of contraception, and obtain her consent. If the patient is incompetent to grant an informed consent, the same procedures shall be used to inform her parent or guardian for the purpose of obtaining consent.

Specialized labeling informing the patient about the risks associated with other forms of contraception already may be found in several regulations in Title 21: Oral contraceptives in § 310.501(a); oral postcoital contraceptives in § 310.501(b), published in the FEDERAL REGISTER of February 5, 1975 (40 FR 5351); and injectable contraceptives in § 310.501a, published in the FEDERAL REGISTER of September 12, 1974 (39 FR 32907).

In accordance with § 310.502(a) and (b) (21 CFR 310.502(a) and (b)), IUD's used for the purpose of contraception and incorporating heavy metals, drugs, or other active substances to increase the contraceptive effect, to decrease adverse reactions, or to provide increased medical acceptability are new drugs and may be marketed only on the basis of an approved new drug application. These IUD's are referred to in the proposed labeling as drug IUD's. The labeling proposed in § 310.502 applies to drug IUD's as well as to those that are not considered drugs. The labeling for the drug IUD's requires modification to fit the specific requirements of the active substance. These requirements are included in the proposed labeling. The applicant of an approved new drug application for a drug IUD is required to supplement the approved new drug application, under § 314.8(d) (21 CFR 314.8(d)), to provide for this labeling. Such labeling may be put into use without advance approval of the Food and Drug Administration.

It is proposed that existing IUD's may be shipped in interstate commerce without the physician and patient package labeling for 90 days after the effective date of the final regulation.

The Commissioner does not anticipate that this action will significantly affect the environment; therefore, an environmental impact statement, pursuant to

section 102(c)(2) of the National Environmental Policy Act, will not be required.

Accordingly, to assure the safe and effective use of IUD's, to prevent misleading labeling and to provide both the physician and the patient with information on drug and device IUD's, the Commissioner concludes that § 310.502 should be amended by revising the section heading; by adding a new italicized heading to paragraph (a) and redesignating the text of paragraph (a) as (a)(1); redesignating paragraph (b) as (a)(2); redesignating paragraph (c) as (a)(3); redesignating paragraph (c)(1)(2) and (3) as paragraph (a)(3)(i)(ii) and (iii); and by adding a new paragraph (b).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 201(g), (h), 502, 505, 701(a), 52 Stat. 1040-1042, 1050-1053 as amended, 1055 (21 U.S.C. 321(g), (h), 352, 355, 371(a))) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes that Part 310 be amended by revising § 310.502 to read as follows:

§ 310.502 Intrauterine devices for human use for the purpose of contraception.

(a) *New drug status of certain intrauterine devices for human use for the purpose of contraception.* (1) The Food and Drug Administration has become aware of the increased clinical use for the purpose of contraception of intrauterine devices that incorporate heavy metals, drugs, or other active substances. The amount of local irritation caused by such active materials has been reported as being correlated, in animal studies, to the efficacy of such devices in achieving their contraceptive effect. Several investigators have reported different pregnancy rates which appear to be dependent on the type of metal used and/or the amount of exposed surface of the metal. Drugs have been incorporated with otherwise inert intrauterine devices to increase the contraceptive effect, decrease adverse reactions, or provide increased medical acceptability.

(2) Intrauterine devices used for the purpose of contraception and incorporating heavy metals, drugs, or other active substances to increase the contraceptive effect, to decrease adverse reactions, or to provide increased medical acceptability (drug intrauterine devices) are not generally recognized as safe and effective for contraception and are new drugs within the meaning of section 201(p) of the Federal Food, Drug, and Cosmetic Act. A completed and signed "Notice of Claimed Investigational Exemption for a New Drug" (Form FD-1571 set forth in § 312.1(a)(2) of this chapter) must therefore be submitted to cover clinical investigations to obtain evidence that such preparations are safe and effective for this use. An approved new drug application is required for the marketing of such articles.

(3) Paragraph (a)(1) and (2) of this section does not apply to the following:

(i) Intrauterine devices fabricated solely from inactive materials, e.g., inactive plastics or metals.

(ii) Intrauterine devices with substances added to improve the physical characteristics if such substances do not contribute to contraception through chemical action on or within the body and are not dependent upon being metabolized for the achievement of the contraceptive purpose.

(iii) Intrauterine devices that contain a component, such as barium, added exclusively for the purpose of visualization by x ray.

(b) *Labeling of intrauterine contraceptive devices considered either new drugs (drug IUD's) or devices.* The intrauterine contraceptive device is a popular method of contraception used by several million women in the United States. Although this method of contraception is generally safe and effective, certain complications and side effects may result from its use. A Food and Drug Administration review of the labeling of intrauterine contraceptive devices currently marketed in the United States reveals that information necessary for the safe and effective use of these devices is not uniformly available to either the practitioner or the patient. Based on the review of the labeling and on the recommendations of the Ad Hoc Obstetric-Gynecology Advisory Committee, the Commissioner has concluded that in the interest of safe and effective use, and prevention of misleading labeling, there is a need to establish uniform physician and patient labeling for such devices. Marketing of the devices may be continued only if the devices bear physician and patient labeling substantially as follows:

(1) Labeling accompanying each intrauterine contraceptive device and directed to the physician shall contain the following information, adjusted, where necessary, to the particular requirements for the drug IUD's:

(i) *Description.* Under this section heading the labeling shall contain:

- (a) Major ingredients.
- (b) Model and physical dimensions.
- (c) Description of components in the package.

(d) *Statement of sterility.* If non-sterile, appropriate instructions for sterilization.

(e) *Description as to whether the product incorporates heavy metals, drugs or other active substances.*

(ii) *Indications and usage.* Prevention of pregnancy. The IUD is one of several safe and effective methods of contraception which may be considered for a particular patient.

(a) *Drug IUD's.* Different event rates have been recorded with the use of different intrauterine contraceptive devices. Inasmuch as these rates are usually derived from separate studies conducted by different investigators in several population groups, they cannot be compared with precision. Furthermore, event rates tend to be lower as clinical experience is expanded, possibly due to retention in the clinical study of those patients who

accept the treatment regimen and do not discontinue due to adverse reactions or pregnancy. In clinical trials conducted by (*name of sponsor*) with the (*name of device*), use effectiveness was determined as follows for parous and nulliparous women, as tabulated by the life table method. (Rates are expressed as events per 100 women through 12 and 24 months of use.) This experience is based on (*number*) women/months of use including (*number*) women who completed 12 months of use, and (*number*) women who completed 24 months of use:

	12 Months		24 Months	
	Parous	Nulliparous	Parous	Nulliparous
Pregnancy.....				
Expulsion.....				
Medical removal.....				
Continuation....				

(b) *Device IUD's.* Clinical data should include a range of event rates for pregnancy, expulsion, medical removal and continuation, based on controlled scientific studies. Follow clinical studies format of drug IUD's set forth in paragraph (b) (1) (ii) (a) of this section.

(iii) *Contraindications.* Pregnancy or suspicion of pregnancy; anemia; distortion of the uterine cavity; acute pelvic inflammatory disease or a history of repeated pelvic inflammatory disease; postpartum endometritis or infected abortion in the past 3 months; uterine or cervical malignancy; unexplained genital bleeding until suspicion of cancer is ruled out; acute cervicitis; and, known or suspected allergy to copper (for copper-containing IUD's).

(iv) *Warnings—(a) Pregnancy—(1) Septic abortion.* Recent reports have indicated an increased incidence of septic abortion associated in some instances with septicemia, septic shock and death in patients becoming pregnant with the IUD in place. In some cases, the initial symptoms have been insidious and not easily recognized. If pregnancy should occur with an IUD in situ, the IUD should be removed if the string is visible or, if removal proves to be or would be difficult, interruption of the pregnancy should be considered and offered as an option. If the patient elects to maintain the pregnancy and the IUD remains in situ, she shall be warned of the increased risk of sepsis and be followed with close vigilance.

(2) *Ectopic pregnancy.* A pregnancy which occurs while a patient is wearing an IUD is much more likely to be ectopic in nature. Therefore, such patients in whom pregnancy occurs should be carefully evaluated.

(b) *Severe pelvic infection.* Occasionally serious pelvic infection may occur with an IUD in situ. Under such circumstances the IUD should be removed, appropriate bacteriological studies done, and appropriate antibiotic treatment instituted.

(c) *Perforation.* Perforation of the uterus may occur. If this occurs the device should be removed. Copper-contain-

ing IUD's should be removed as soon as perforation is diagnosed. Local inflammatory reaction with abscess formation is a possibility if an IUD is left in the abdomen.

(d) *Microwave therapy (copper or other metal-containing IUD's).* The use of microwave therapy in patients with metal-containing prostheses may cause heat injury to the surrounding tissue. Therefore, microwave therapy to the abdominal and sacral areas should not be used on patients wearing a metal-containing IUD.

(e) *Copper-containing IUD's.* Additional amounts of copper available to the body from copper IUD's may precipitate symptoms in women with undiagnosed Wilson's disease. The long term effects of copper in the uterus on the offspring are unknown. Minute amounts of copper may cause hemolysis in patients with a deficiency of glucose 6-phosphate dehydrogenase.

(v) *Precautions and routine examinations—(a) Informed consent.* Prior to insertion, the physician must provide the patient with the patient brochure. The patient must be given adequate time to read the labeling in advance of the time scheduled for insertion of the IUD. The physician should discuss fully the information in the patient labeling with the patient, as well as other means of contraception and obtain the patient's consent. If a patient is not competent to give an informed consent, her parent or guardian must be provided with the printed information necessary to decide on behalf of the patient. The consent may be oral or in writing; if oral, a notation to this effect should be made in the patient's record.

(b) *Patient examination.* The physician should make a determination that the patient is not pregnant. The possibility of insertion in the presence of an existing undetermined pregnancy is reduced if insertion is performed during or shortly following a menstrual period. The IUD should not be inserted postpartum or postabortion until involution of the uterus has been completed. Prior to insertion, a pelvic examination, pap smear, and gonorrhea culture should be done. Sound the uterus prior to insertion and exercise care to avoid perforation. Do not use excessive force.

(c) *Requirements for continuation and removal.* (1) The device IUD does not require removal and replacement at any specific interval of time if it is in a satisfactory position, not producing untoward side effects, and the patient wishes to continue the IUD as her method of contraception. On the other hand, copper or other drug IUD's, need to be replaced at (*interval approved for the labeling of the drug pursuant to data submitted in a new drug application under § 314.1 of this chapter*) intervals to maintain their effectiveness.

(2) An IUD should be removed for the following medical reasons: Menorrhagia and/or metrorrhagia producing anemia; uncontrolled pelvic infection; intractable pain, often aggravated by intercourse;

pregnancy, if the string is visible; or uterine or cervical malignancy.

(d) *Continuing care of patients using IUD's.* (1) Patients should be reexamined and evaluated within 3 months after IUD insertion.

(2) Routine annual examination with appropriate medical and laboratory evaluation should be carried out.

(vi) *Adverse reactions.* Reported adverse reactions include: Endometritis, spontaneous abortion, septic abortion, septicemia, perforation of uterus and cervix, pelvic infection, cystic masses in pelvis, abdominal adhesions, intestinal obstruction, cervical erosion, vaginitis, leukorrhea, cystitis, pregnancy, ectopic pregnancy, embedment, difficult removal, complete or partial expulsion of the IUD, intermenstrual spotting, prolongation of menstrual flow, anemia, amenorrhea or delayed menses, pain and cramping, backaches, dyspareunia, leg pain or soreness, weight loss or gain, nervousness.

(vii) *Insertion technique.* Although the technique for insertion varies with the IUD, the following rules are generally applicable.

(a) Bimanual examination should be done to ascertain the size, shape, and position of the uterus.

(b) Pap smear and gonorrhea culture should be taken.

(c) The endocervix should be cleansed with an antiseptic solution.

(d) Paracervical block may be utilized to attempt to reduce insertional pain.

(e) A tenaculum should be applied to the cervix with downward traction for correction of the angulation of the cervix and stabilization of the cervix.

(f) The cervical-uterine canal should be sounded prior to the insertion for depth and direction of the uterine canal. A multipurpose disposable sound which indicates the depth of the cervical canal and the endometrial cavity is useful.

(g) Instruments entering the cervical canal must be sterile.

(h) The IUD must be sterile.

(i) IUD's should preferably be inserted during or shortly after menstruation to insure a nonpregnant state. (This approach may not be practical in certain clinical situations.)

(2) Labeling accompanying each intrauterine contraceptive device and to be made available to the patient shall contain the following information:

PATIENT INFORMATION

INTRAUTERINE DEVICE (IUD)

I. *General Information.* (a) The (name of device) intrauterine device (IUD) is a small device which is put inside your uterus (womb). The purpose of the IUD is to prevent you from becoming pregnant. There are other forms of contraception which may be suitable. These should be discussed with your doctor before deciding which is best for you. Your doctor can explain how the IUD and other forms of contraception prevent you from becoming pregnant and can tell you

about any risks you take in using them.

(b) The (name of device) IUD prevents pregnancy in (range of effectiveness percent) of women.

(c) While you have the IUD in, you may use tampons and take douches, if this is your usual practice. Normally, you may wear the IUD until you wish to become pregnant. However, certain types of IUD's must be replaced periodically. Check with your doctor concerning this. You should return to your doctor if you wish to have the IUD removed.

II. *Checking your IUD.* A tail or thread is attached to the IUD so that you can check to see if it is still in place since the IUD can come out of the uterus without your knowing it. Follow these steps to make sure your IUD is in place:

(a) Wash your hands.

(b) Assume the squatting position or seat yourself on the toilet.

(c) Insert the index or middle finger high in your vagina and locate the cervix (the mouth of the womb). The cervix feels firm like the tip of your nose.

(d) Feel for the thread of the IUD, which should be in the cervix high in your vagina.

(e) If you can feel the thread, you know the IUD is in place and working. You should not pull on the thread. This may displace the IUD.

(f) After each menstrual period, you should check to make sure the thread is in place in the cervix. You may check for the thread more often if you wish.

(g) Within 3 months after your IUD is inserted, you should be checked by your doctor to make sure that the IUD is in the correct position. If you develop any problems that concern you, or think that the IUD has come out, call your doctor right away for an examination. If you think the IUD has come out, use another birth control method, such as vaginal foam and condom (rubber), until you can be checked. Follow the instructions of your doctor for your next check-up.

(h) After the 3 months' examination, you should be checked at least once a year by your doctor.

III. *Important warnings.* If you miss your menstrual period, or if you have a scanty flow during your period, or if you suspect you might be pregnant, call your doctor right away. Some women do become pregnant with the IUD in place, and serious complications can occur when a pregnancy continues with the IUD in place. If you become pregnant, the IUD should be removed by your doctor. If removal proves to be difficult, you should discuss with your doctor the question of continuing the pregnancy.

IV. *What you should tell your doctor.* Before you have an IUD inserted, you should tell your doctor or nurse if you have ever had any of the following:

(a) Pelvic infection (pus tubes).

(b) Heavy menstrual flow.

(c) Bleeding between periods.

(d) Heavy vaginal discharge or infection.

(e) Recent pregnancy, including abortion.

(f) Severe menstrual cramps.

(g) Venereal disease.

(h) Fainting attacks.

V. *Side Effects of the IUD.* The following side effects may occur after the IUD is inserted:

(a) Some bleeding occurs following insertion in most women. Because of this, your doctor may choose to insert your IUD during or at the end of your menstrual period. This also ensures that you are not pregnant at the time the IUD is inserted.

(b) Bleeding between the menstrual periods, usually in the form of spotting, may occur during the first few weeks after insertion. The first few menstrual periods after the insertion may be heavier and longer. If this is extensive, consult your doctor.

(c) Pain, usually in the form of uterine cramps or low backache, may occur at the time of insertion of the IUD and last for a few days. Simple pain medication usually controls the cramping associated with the IUD.

(d) Fainting may occur at the time of insertion of the IUD. This passes quickly and is not usually serious.

VI. *Complications.* Complications are known to occur with the IUD. If any of the following occur, report to your doctor promptly:

(a) Severe or prolonged bleeding. If the flow is heavier and lasts much longer than your usual menstrual flow, you may need to have the IUD removed to prevent the development of anemia.

(b) Severe cramps and pelvic pain. Consult your doctor. This could mean an infection has developed requiring treatment.

(c) Exposure to venereal disease (VD). If exposure to venereal disease is suspected, report for examination and treatment promptly. Failure to do so could result in serious pelvic infection.

(d) Thread disappearance. If the thread coming through the cervix cannot be felt in the vagina, it is possible that the IUD has been expelled or displaced. If expelled, you are no longer protected from becoming pregnant. If displaced, the IUD will have to be removed.

(3) All intrauterine contraceptive devices, whether drugs or devices, which are shipped in interstate commerce for the first time after (insert date 90 days after date of publication of final order in FEDERAL REGISTER) shall be in compliance with paragraph (b) (1) and (2) of this section.

(4) The holder of an approved new drug application for such device, as described in paragraph (a) (2), shall submit a supplement to his application to provide for the labeling described in paragraph (b) (1) and (2). The supplement shall be submitted prior to (insert date 90 days after date of publication of final order in FEDERAL REGISTER) under the provisions of § 314.8 of this chapter which permit it to be put into effect in advance of approval by the Food and Drug Administration.

Interested persons are invited to submit their comments regarding this proposal in writing (in quintuplicate, except that single copies of comments may be submitted by individuals) on or before September 2, 1975. Comments should be addressed to the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852. Comments may be seen in the above office during working hours, Monday through Friday.

Dated: June 20, 1975.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

PART IV

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Public Health Service

CONFIDENTIALITY OF ALCOHOL AND DRUG ABUSE PATIENT RECORDS

General Provisions

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE,
DEPARTMENT OF HEALTH, EDUCATION,
AND WELFARE

SUBCHAPTER A—GENERAL PROVISIONS

PART 2—CONFIDENTIALITY OF ALCOHOL
AND DRUG ABUSE PATIENT RECORDS

On May 9, 1975, the Department of Health, Education, and Welfare and the Special Action Office for Drug Abuse Prevention published in the FEDERAL REGISTER (40 FR 20522) a notice of proposed joint rulemaking setting forth a proposed new Part 2 of Title 42 of the Code of Federal Regulations governing the confidentiality of alcohol and drug abuse patient records.

Interested persons were invited to submit written comments, views, or arguments with respect to the proposed regulations within 30 days of the date of publication of that notice. All comments so submitted were carefully considered, and at various stages in the rulemaking process, the Administrator of Veterans' Affairs and the heads of other Federal departments and agencies substantially affected by the proposed regulations were consulted.

As finally adopted and set forth hereinafter, the regulations contain two major substantive changes from the May 9 proposal. The separate treatment of funding sources and third-party payers (§§ 2.21 and 2.37 of the proposed regulations) was abandoned as unworkable, primarily because the prohibitions which the proposed regulations would have placed on funding sources would have directly conflicted with requirements which have been proposed in implementation of Title XX of the Social Security Act (see proposed 45 CFR 228.63, 40 FR 16802, 16809, April 14, 1975). In lieu of this approach, § 2.37 has been revised to provide that funding sources and third-party payers maintaining drug or alcohol abuse patient records are subject to restrictions upon disclosure to the same extent and in the same manner as any other entity maintaining records which are within the scope of the authorizing legislation and this Part.

The other major change is in the area of criminal justice system referrals, and the grounds for the rules finally adopted are set forth in the basis and purpose section (§ 2.39-1) pertaining thereto. In connection with that change, it must be frankly acknowledged that the arguments set forth in the corresponding basis and purpose section (§ 2.40-1) of the May 9 proposal have merit. The final rule may in certain instances result in a compromise of the treatment process, if judges or other authorities in the criminal justice system overreact to information whose communication is allowed under the final rules but would have been prohibited under the proposed rules.

Against such an adverse effect, however, there must be weighed the very real advantage which genuine cooperation between community social service systems and the criminal justice system can yield for those whose lives are crippled and scarred by the consequences of their own

criminal conduct. Governmental responses based on a pure medical model have not met with noticeably greater success than those based on a purely punitive approach, and it would be tragic if these rules were so constructed as to become a barrier to the development of better ways to deal with those who are caught up in a pattern of seriously anti-social behavior.

In addition to the foregoing major changes, the following minor policy changes were made.

Provisions relating to destruction or other disposition of records were dropped from § 2.21 (§ 2.22 in the May 9 proposal) as unnecessary except in the case of programs discontinuing operations.

The fixed limitation on the permissible duration of written consent for disclosure was dropped from § 2.31 in favor of a limitation to such duration as may be reasonably necessary to effectuate the purpose for which the consent is given.

The specification of crimes in § 2.65 for which a court order may be granted authorizing use of program records in the investigation or prosecution of a patient was broadened to cover any "extremely serious" crime, with those listed in the May 9 notice being retained as examples.

Finally, a number of clarifying, technical, and conforming changes were made in the May 9 proposal, but these are without significant substantive effect.

Accordingly, pursuant to the authority of section 408 of the Drug Abuse Office and Treatment Act of 1972, as amended by Pub. L. 92-282 (21 U.S.C. 1175), and section 333 of the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment, and Rehabilitation Act of 1970, as amended by Pub. L. 93-282 (42 U.S.C. 4582), and under the authority delegated to the General Counsel of the Special Action Office for Drug Abuse Prevention (39 FR 17901, May 21, 1974), Subchapter A of Chapter I, Title 42, Code of Federal Regulations, is amended by inserting immediately after Part 1 thereof a new Part 2 to read as set forth below.

Effective date. These regulations shall be effective on August 1, 1975.

Dated: June 25, 1975.

R. MOURE,
*Acting Assistant Secretary for
Health, Department of
Health, Education, and Wel-
fare.*

Approved: June 26, 1975.

CASPAR W. WEINBERGER,
*Secretary of Health, Education,
and Welfare.*

Dated: June 27, 1975.

GRASTY CREWS II,
*General Counsel, Special Action
Office for Drug Abuse Preven-
tion.*

Dated: June 27, 1975.

ROBERT L. DUPONT,
*Director, Special Action Office
for Drug Abuse Prevention.*

Subpart A—Introductory Statement

§ 2.1 Statutory authority—drug abuse.

(a) *Statutory provisions effective May 14, 1974.* Insofar as the provisions of this part pertain to any program or activity relating to drug abuse education, training, treatment, rehabilitation, or research, such provisions are authorized under section 408 of Pub. L. 92-255, the Drug Abuse Office and Treatment Act of 1972 (21 U.S.C. 1175) as amended by section 303 of Pub. L. 93-282 (88 Stat. 137). That section reads as follows:

§ 408. Confidentiality of patient records.

(a) Records of the identity, diagnosis, prognosis, or treatment of any patient which are maintained in connection with the performance of any drug abuse prevention function conducted, regulated, or directly or indirectly assisted by any department or agency of the United States shall, except as provided in subsection (c), be confidential and be disclosed only for the purposes and under the circumstances expressly authorized under subsection (b) of this section.

(b) (1) The content of any record referred to in subsection (a) may be disclosed in accordance with the prior written consent of the patient with respect to whom such record is maintained, but only to such extent, under such circumstances, and for such purposes as may be allowed under regulations prescribed pursuant to subsection (g).

(2) Whether or not the patient, with respect to whom any given record referred to in subsection (a) of this section is maintained, gives his written consent, the content of such record may be disclosed as follows:

(A) To medical personnel to the extent necessary to meet a bona fide medical emergency.

(B) To qualified personnel for the purpose of conducting scientific research, management audits, financial audits, or program evaluation, but such personnel may not identify, directly or indirectly, any individual patient in any report of such research, audit, or evaluation, or otherwise disclose patient identities in any manner.

(C) If authorized by an appropriate order of a court of competent jurisdiction granted after application showing good cause therefor. In assessing good cause the court shall weigh the public interest and the need for disclosure against the injury to the patient, to the physician-patient relationship, and to the treatment services. Upon the granting of such order, the court, in determining the extent to which any disclosure of all or any part of any record is necessary, shall impose appropriate safeguards against unauthorized disclosure.

(c) Except as authorized by a court order granted under subsection (b) (2) (C) of this section, no record referred to in subsection (a) may be used to initiate or substantiate any criminal charges against a patient or to conduct any investigation of a patient.

(d) The prohibitions of this section continue to apply to records concerning any individual who has been a patient, irrespective of whether or when he ceases to be a patient.

(e) The prohibitions of this section do not apply to any interchange of records—

(1) within the Armed Forces or within those components of the Veterans' Administration furnishing health care to veterans, or

(2) between such components and the Armed Forces.

(f) Any person who violates any provision of this section or any regulation issued pursuant to this section shall be fined not more than \$500 in the case of a first offense, and not more than \$5,000 in the case of each subsequent offense.

(g) The Director of the Special Action Office for Drug Abuse Prevention, after consultation with the Administrator of Veterans' Affairs and the heads of other Federal departments and agencies substantially affected thereby, shall prescribe regulations to carry out the purposes of this section. These regulations may contain such definitions, and may provide for such safeguards and procedures, including procedures and criteria for the issuance and scope of orders under subsection (b) (2) (C), as in the judgment of the Director are necessary or proper to effectuate the purposes of this section, to prevent circumvention or evasion thereof, or to facilitate compliance therewith.

(b) *Amendments effective June 30, 1975.* Effective on the date specified in section 104 of the Drug Abuse Office and Treatment Act of 1972 (June 30, 1975), the first sentence of section 408(g) above, will be amended by striking "Director of the Special Action Office for Drug Abuse Prevention" and inserting in lieu thereof "Secretary of Health, Education, and Welfare", and the second sentence of such section will be amended by striking "Director" and inserting "Secretary" in lieu thereof. Also effective on that date, section 408, above, will be further amended by (1) striking out "The" and inserting in lieu thereof "Except as provided in subsection (h) of this section, the" in the first sentence of subsection (g) of such section; and (2) adding at the end of such section the following new subsection:

(h) The Administrator of Veterans' Affairs, through the Chief Medical Director, shall, to the maximum feasible extent consistent with their responsibilities under title 38, United States Code, prescribe regulations making applicable the regulations established by the Secretary under subsection (g) of this section to records maintained in connection with the provision of hospital care, nursing home care, domiciliary care, and medical services under such title 38 to veterans suffering from drug abuse. In prescribing and implementing regulations pursuant to this subsection, the Administrator shall, from time to time, consult with the Secretary in order to achieve the maximum possible coordination of the regulations, and the implementation thereof, which they each prescribe.

§ 2.2 Statutory authority—alcohol abuse.

Insofar as the provisions of this part pertain to any program or activity relating to alcoholism or alcohol abuse education, training, treatment, rehabilitation, or research, such provisions are authorized under section 333 of Pub. L. 91-616, the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (42 U.S.C. 4582), as amended by section 122(a) of Pub. L. 93-282, the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment, and Rehabilitation Act Amendments of 1974 (88 Stat. 131). As so amended, that section reads as follows:

CONFIDENTIALITY OF RECORDS

SEC. 333. (a) Records of the identity, diagnosis, prognosis, or treatment of any patient which are maintained in connection with the performance of any program or activity relating to alcoholism or alcohol abuse education, training, treatment, rehabilitation, or research, which is conducted, regulated, or directly or indirectly assisted by any department or agency of the United States shall, except as provided in subsection (e), be confidential and be disclosed only for the purposes and under the circumstances expressly authorized under subsection (b) of this section.

(b) (1) The content of any record referred to in subsection (a) may be disclosed in accordance with the prior written consent of the patient with respect to whom such record is maintained, but only to such extent, under such circumstances, and for such purposes as may be allowed under regulations prescribed pursuant to subsection (g).

(2) Whether or not the patient, with respect to whom any given record referred to in subsection (a) of this section is maintained, gives his written consent, the content of such record may be disclosed as follows:

(A) To medical personnel to the extent necessary to meet a bona fide medical emergency.

(B) To qualified personnel for the purpose of conducting scientific research, management audits, financial audits, or program evaluation, but such personnel may not identify, directly or indirectly, any individual patient in any report of such research, audit, or evaluation, or otherwise disclose patient identities in any manner.

(C) If authorized by an appropriate order of a court of competent jurisdiction granted after application showing good cause therefor. In assessing good cause the court shall weigh the public interest and the need for disclosure against the injury to the patient, to the physician-patient relationship, and to the treatment services. Upon the granting of such order, the court, in determining the extent to which any disclosure of all or any part of any record is necessary, shall impose appropriate safeguards against unauthorized disclosure.

(c) Except as authorized by a court order granted under subsection (b) (2) (C) of this section, no record referred to in subsection (a) may be used to initiate or substantiate any criminal charges against a patient or to conduct any investigation of a patient.

(d) The prohibitions of this section continue to apply to records concerning any individual who has been a patient, irrespective of whether or when he ceases to be a patient.

(e) The prohibitions of this section do not apply to any interchange of records—

(1) within the Armed Forces or within those components of the Veterans' Administration furnishing health care to veterans, or

(2) between such components and the Armed Forces.

(f) Any person who violates any provision of this section or any regulation issued pursuant to this section shall be fined not more than \$500 in the case of a first offense, and not more than \$5,000 in the case of each subsequent offense.

(g) Except as provided in subsection (h) of this section, the Secretary shall prescribe regulations to carry out the purposes of this section. These regulations may contain such definitions, and may provide for such safeguards and procedures, including procedures and criteria for the issuance and scope of orders under subsection (b) (2) (C), as in the judgment of the Secretary are necessary or proper to effectuate the purposes of this section, to prevent circumvention or evasion thereof, or to facilitate compliance therewith.

(h) The Administrator of Veterans' Affairs, through the Chief Medical Director, shall, to the maximum feasible extent consistent with their responsibilities under title 38, United States Code, prescribe regulations making applicable the regulations prescribed by the Secretary under subsection (g) of this section to records maintained in connection with the provision of hospital care, nursing home care, domiciliary care, and medical services under such title 38 to veterans suffering from alcohol abuse or alcoholism. In prescribing and implementing regulations pursuant to this subsection, the Administrator shall, from time to time, consult with the Secretary in order to achieve the maximum possible coordination of the regulations, and the implementation thereof, which they each prescribe.

§ 2.3 Previous regulations as controlling authority.

Attention is called to the interpretative regulations, issued by the Special Action Office for Drug Abuse Prevention (37 FR 24636, November 17, 1972, as revised 38 FR 33744, December 6, 1973, referred to hereinafter in this part as the "previous regulations"). Those regulations have been given a special status as controlling authority by the provisions of section 303(d) of Pub. L. 93-282, as well as the references in the legislative history of that act to the precedents established under section 408 of Pub. L. 92-255. Such references appear at page 11 of House Committee Report No. 93-759 and at page H3563 of the Congressional Record for May 6, 1974. The latter citation is to a detailed analysis of the bill in its final form which was submitted for the Record by its floor manager, Chairman Staggers of the Interstate and Foreign Commerce Committee, when the bill was up for final action by the House of Representatives.

§ 2.4 General purposes.

(a) *Policy objectives.* The purpose of the regulations set forth in this part is to implement the authorizing legislation in a manner that, to the extent practicable, takes into account two streams of legal thought and social policy. One has to do with enhancing the quality and attractiveness of treatment systems. The other is concerned with the interests of patients as citizens, most particularly in regard to protecting their rights of privacy. Within each stream there are cross-currents, and it should come as no surprise that areas of turbulence are to be found at their confluence.

(b) *Limited purpose.* The regulations contained in this part are not intended to direct the manner in which substantive functions, such as research, treatment, and evaluation, should be carried out, but rather to define the minimum requirements for the protection of confidentiality of patient records which must be satisfied in connection with the conduct of those functions in order to carry out the purposes of the authorizing legislation. This does not mean that observance of only the minimum legal requirements is always the wisest course, but in framing these regulations, allowance has necessarily been made for a diversity of emphasis and approach in the many different jurisdictions and by the great variety of public and private agencies which must find a way to function within the limits here prescribed.

§ 2.5 Format.

(a) *Basis and purpose sections.* Each section setting forth rules on any given topic in Subparts B through E of this part is followed by a section setting forth their basis and purpose. In many cases, the basis and purpose section is itself an interpretative rule regarding the legal authority of the rulemakers. In other instances, it summarizes historical or

evidentiary material relevant to the validity and interpretation of the section which precedes it.

(b) *Statutory rules fully incorporated.* Although, for convenience of reference, the statutory basis for this part is set out in full in §§ 2.1 and 2.2, the regulations in Subparts B through E of this part are intended to include all of the operative statutory provisions.

§ 2.6 Administration and enforcement in general.

It is not contemplated that any particular agency will be set up specifically to enforce compliance with this part. Programs which receive Federal grants may be monitored for compliance with this and other applicable Federal law as an incident to the grant administration process. Similarly, FDA inspections of methadone programs will include inspection for compliance with this part, which is incorporated by reference in the methadone regulation (21 CFR 310.505).

§ 2.7 Reports of violations.

Any violation may be reported to the United States Attorney for the judicial district in which the violation occurs. Violations on the part of methadone programs may be reported to the regional offices of the Food and Drug Administration. Violations on the part of a Federal grantee or contractor may be reported to the Federal agency monitoring the grant or contract.

Subpart B—General Provisions

§ 2.11 Definitions and usages.—Rules.

(a) *Authorizing legislation.* The term "authorizing legislation" means section 408 of the Drug Abuse Office and Treatment Act of 1972 (21 U.S.C. 1175) and section 333 of the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment, and Rehabilitation Act of 1970 (42 U.S.C. 4582), as such sections may be amended and in effect from time to time.

(b) *Construction of terms.* The definitions and rules of construction set forth in this section are applicable for the purposes of this part. To the extent that they refer to terms used in the authorizing legislation, they are also applicable for the purposes of such legislation.

(c) *Alcohol abuse.* The term "alcohol abuse" includes alcoholism.

(d) *Drug abuse.* The term "drug abuse" includes drug addiction.

(e) *Diagnosis and treatment.* The terms "diagnosis" and "treatment" include interviewing, counselling, and any other services or activities carried on for the purpose of or as an incident to diagnosis, treatment, or rehabilitation with respect to drug abuse or alcohol abuse, whether or not conducted by a member of the medical profession.

(f) *Program.*

(1) The term "program", when referring to an individual or organization, means either an individual or an organization furnishing diagnosis, treatment, or referral for alcohol abuse or drug abuse.

(2) The term "program", when not used in the sense defined in paragraph (f)(1), means a plan or procedure, whether functional or organizational, and whether or not governmental, for dealing with alcohol abuse or drug abuse problems from either an individual or a social standpoint.

(g) *Program evaluation.*

The term "program evaluation" means an evaluation of—

(1) The effectiveness, efficiency, compliance with applicable therapeutic, legal, or other standards, or other aspects of the performance, of a program as defined in paragraph (f)(1) of this section, or

(2) The validity, effectiveness, efficiency, practicability, or other aspects of the utility or success of a program in the sense defined in paragraph (f)(2) of this section.

(h) *Program director.* The term "program director" in the case of a program which is an individual means that individual, and in the case of a program which is an organization, the individual, if any, who is the principal, or, in the case of organizations consisting of partners or under the control of a board of directors, board of trustees or other governing body, the individual designated as program director, managing director, or otherwise vested with executive authority with respect to the organization.

(i) *Patient.* The term "patient" means any individual (whether referred to as a patient, client, or otherwise) who has applied for or been given diagnosis or treatment for drug abuse or alcohol abuse and includes any individual who, after arrest on a criminal charge, is interviewed and/or tested in connection with drug or alcohol abuse preliminary to a determination as to eligibility to participate in a treatment or rehabilitation program.

(j) *Patient identifying information.* The term "patient identifying information" means the name, address, social security number, or similar information by which the identity of a patient can be determined with reasonable accuracy and speed either directly or by reference to other publicly available information. The term does not include a patient identifying number assigned by a program.

(k) *Alcohol abuse or drug abuse prevention function.* The term "alcohol abuse or drug abuse prevention function" means any program or activity relating to alcohol abuse or drug abuse education, training, treatment, rehabilitation, or research, and includes any such function even when performed by an organization whose primary mission is in the field of law enforcement or is unrelated to alcohol or drugs.

(l) The term "person" means an individual, a partnership, a corporation, a trust, a Federal or State governmental agency, or any other legally cognizable entity.

(m) *Service organization.* The term "service organization" means a person which provides services to a program such as data processing, dosage prepara-

tion, laboratory analyses, or legal, medical, accounting, or other professional services.

(n) *Qualified service organization.* The term "qualified service organization" means a service organization which has entered into a written agreement with a program pursuant to which the service organization—

(1) acknowledges that in receiving, storing, processing, or otherwise dealing with any information from the program about patients in the program, it is fully bound by the provisions of this part;

(2) undertakes to institute appropriate procedures for safeguarding such information, with particular reference to patient identifying information; and

(3) undertakes to resist in judicial proceedings any efforts to obtain access to information pertaining to patients otherwise than as expressly provided for in this part.

(o) *Records.* The term "records" includes any information, whether recorded or not, relating to a patient, received or acquired in connection with the performance of any alcohol abuse or drug abuse prevention function, whether such receipt or acquisition is by a program, a qualified service organization, or any other person.

(p) *Communications not constituting disclosure.* The following types of communications do not constitute disclosures of records:

(1) Communications of information within a program between or among personnel having a need for such information in connection with their duties.

(2) Communications between a program and a qualified service organization of information needed by the organization to perform its services to the program.

(3) Communications of information which includes neither patient identifying information nor identifying numbers assigned by the program to patients.

(q) *Previous regulations.* The term "previous regulations" refers to the interpretative regulations issued by the Special Action Office for Drug Abuse Prevention, originally published November 17, 1972, 37 FR 24636, as revised December 6, 1973, 38 FR 33744.

(r) *State law.* The term "State law" refers to the law of a State or other jurisdiction, such as the District of Columbia, as distinguished from Federal law in general. As applied to transactions which do not take place in any State or other similar jurisdiction, the term refers to Federal common law as modified by any applicable Federal statutes and regulations.

(s) *Third party payer.* The term "third party payer" means any organization (or person acting as agent or trustee for an organization or fund) which pays or agrees to pay for diagnosis or treatment, furnished or to be furnished to a particular individual, where such payment or agreement to pay is on the basis of an individual relationship between the payer and the patient (or a member of the patient's family in

the case of self-and-family insurance coverage or similar arrangements) evidenced by a contract, an insurance policy, a certificate of membership or participation, or similar documentation.

(t) *Funding source.* The term "funding source" means any individual or any public or private organization, including any Federal, State, or local governmental agency, which makes payments in support of a program. A funding source is not, as such, a third party payer, even where its payment share based directly or indirectly on the program's patient load with or without respect to specified categories of eligible persons.

(u) *August 22, 1974 draft.* References to the "August 22, 1974 draft" are to the draft regulations set out in the Advance Notice of Proposed Joint Rulemaking published in the FEDERAL REGISTER on August 22, 1974, 39 FR 30426, by the Department of Health, Education, and Welfare and the Special Action Office for Drug Abuse Prevention.

§ 2.11-1 Definitions and usages.—Basis and purpose.

(a) *In general.* The definitions are based upon the legislative history of and experience with the authorizing legislation, and are intended as aids to construing the provisions of this part to carry out the purposes of those statutes.

(b) *Coverage of applicants for treatment.* Section 2.11(i) is intended to make it clear that records of the identity and other information about a person whose application is rejected or withdrawn are fully as much covered by this part as records pertaining to a patient actually accepted for treatment.

(c) *Program terminology for patients not controlling.* While many programs prefer to use "client" or some other term instead of "patient" to describe the recipients of their services, it is believed preferable to use terminology in this part which is consistent with that used in the authorizing legislation. It should be clearly understood, however, that the records of any individual who fits the definition set forth in § 2.11(i) are covered, no matter what terminology the program may use to designate his status.

(d) *Origin of "prevention function" terminology.* The definition of alcohol abuse or drug abuse prevention function in § 2.11(k) is adapted from the definition of drug abuse prevention function in section 103(b) of the Drug Abuse Office and Treatment Act of 1972 (21 U.S.C. 1103(b)). Although there was no corresponding defined term available to the draftsman of the 1974 amendment to section 333 of the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment, and Rehabilitation Act of 1970 (42 U.S.C. 4582), it is clear from the legislative history that the coverage of alcohol abuse patient records was intended to be fully as wide as the coverage of drug abuse patient records, and the definition in § 2.11(k) reflects that intention.

(e) *Ambiguity of the term "program".* It is recognized that it is ordinarily poor drafting technique to use the same term

in senses which are as different, yet related, as those in §§ 2.11(f)(1) and 2.11(f)(2). This part, however, has to be read both in conjunction with the Food and Drug Administration's Methadone Regulation and the Drug Abuse Office and Treatment Act of 1972. The Methadone Regulation (21 CFR 310.505) clearly uses the term "program" in the § 2.11(f)(1) sense. In section 103(b) of the Act (21 U.S.C. 1103(b)), it is clearly used in the § 2.11(f)(2) sense, and the usage in section 408(b)(2)(B) of the Act has from its original enactment been administratively interpreted to include both senses. As used in this part, the context should indicate the intended meanings with sufficient clarity to make this preferable to creating and defining new terminology which would be different from that used in related regulations and the authorizing legislation.

(f) *Construction of disclosures.* Section 2.11(p) is intended to clarify the status of communications which are carried on within a program or between a program and persons or organizations which are assisting it in providing patient care. The authorizing legislation was not intended to prohibit programs from carrying on accepted practices in terms of obtaining specialized services from outside organizations. In conjunction with the definition of qualified service organizations, set forth in § 2.11(n), the provisions of § 2.11(p) should prevent the development of abuses in this area.

§ 2.12 Applicability.—Rules.

(a) *In general.* Except as provided in paragraph (b) of this section, this part applies to records of the identity, diagnosis, prognosis, or treatment of any patient which are maintained in connection with the performance of any alcohol abuse or drug abuse prevention function—

(1) Which is conducted in whole or in part, whether directly or by grant, contract, or otherwise, by any department or agency of the United States,

(2) For the lawful conduct of which in whole or part any license, registration, application, or other authorization is required to be granted or approved by any department or agency of the United States,

(3) Which is assisted by funds supplied by any department or agency of the United States, whether directly through a grant, contract, or otherwise, or indirectly by funds supplied to a State or local government unit through the medium of contracts, grants of any description, general or special revenue sharing, or otherwise, or

(4) Which is assisted by the Internal Revenue Service of the Department of the Treasury through the allowance of income tax deductions for contributions to the program conducting such function, or by a way of a tax-exempt status for such program.

(b) *Armed Forces and Veterans' Administration.*

(1) The provisions of this part do not apply to any interchange, entirely with-

in the Armed Forces, within those components of the Veterans' Administration furnishing health care to veterans, or between such components and the Armed Forces, of records pertaining to a person relating to a period when such person is or was subject to the Uniform Code of Military Justice.

(2) Except as provided in paragraph (b)(1) of this section, this part applies to any communication between any person outside the Armed Forces and any person within the Armed Forces.

(3) Except as provided in paragraph (b)(1) of this section, this part applies, insofar as it pertains to any drug abuse prevention function, to any communication between any person outside those components of the Veterans' Administration furnishing health care to veterans and any person within such components, until such date as the Secretary of Health, Education and Welfare exercises his authority (conferred by an amendment effective June 30, 1975) to prescribe regulations under section 408 of Pub. L. 92-255 (21 U.S.C. 1175). After such date, this part applies thereto to such extent as the Administrator of Veterans' Affairs, through the Chief Medical Director, by regulation makes the provisions of this part applicable thereto.

(4) Except as provided in paragraph (b)(1) of this section, this part applies, insofar as it pertains to any alcohol abuse prevention function, to any communication between any person outside those components of the Veterans' Administration furnishing health care to veterans and any person within such components, to such extent as the Administrator of Veterans' Affairs, through the Chief Medical Director, by regulation makes the provisions of this part applicable thereto.

(c) *Period covered as affecting applicability.* The provisions of this part apply to records of identity, diagnosis, prognosis, or treatment pertaining to any given individual maintained over any period of time which, irrespective of when it begins, does not end before March 21, 1972, in the case of diagnosis or treatment for drug abuse or before May 14, 1974, in the case of diagnosis or treatment for alcohol abuse.

(d) *Applicability determined by nature and purpose of records.* The applicability of the provisions of this part is determined by the nature and purpose of the records in question, and not by the status or primary functional capacity of the recordkeeper.

§ 2.12-1 Applicability.—Basis and purpose.

(a) The broad coverage provided by § 2.12(a) is appropriate in the light of the remedial purposes of the statutes as well as the practical desirability of certainty and uniformity. Sections 2.12(a)(1) and 2.12(a)(2) simply follow the terms of subsection (a) of the statutes, with some explanatory material for the sake of clarity and explicitness.

(b) Sections 2.12(a)(3) and 2.12(a)(4) are based upon the use by Congress of the phrase "directly or indirectly as-

sisted by any department or agency of the United States". In the light of the multiplicity and extent of Federal programs and policies which can be of assistance to drug and alcoholism programs, this wording strongly suggests an intention to provide the broadest coverage consistent with the literal terms of the statutes. Many programs commence with direct Federal assistance, financial, technical, or both, and later continue with State aid and private, tax-deductible contributions. It would be manifestly contrary to the general policy sought to be effectuated by the legislation if the confidential status of a program's records were to terminate, or even be called into question, by the cessation of direct Federal assistance.

(c) With regard to § 2.12(a)(3), it seems clear that whenever a State or local government is assisted by the Federal government by way of revenue sharing or other unrestricted grants, all of the programs and activities of the State or local government are thereby indirectly assisted, and thus meet that aspect of the statutory criteria for coverage.

(d) Section 2.12(a)(4) follows the doctrine established in *McGlotten v. Connally*, 338 F. Supp. 448 (D.C. D.C., 1972), in which it was held that the deductible status of contributions to an organization constitutes "Federal financial assistance" within the meaning of section 601 of the 1964 Civil Rights Act (42 U.S.C. 2000d). The inclusion of the adjective "indirect" as a modifier of the term "assistance" as used in the provisions of law authorizing this part suggests an intention to provide coverage at least as broad, if not broader than, section 601 of the Civil Rights Act in respect of financial assistance. See, also, *Green v. Connally*, 330 F. Supp. 1150 (D.C. D.C., 1971) aff'd sub. nom. *Coit v. Green*, 404 U.S. 997, 92 S. Ct. 564, 30 L. Ed. 2d 550 (1971).

(e) Section 2.12(b) essentially repeats the interpretation given in § 1401.02(b) of the previous regulation except that it takes account of the special provisions inserted in the new law with reference to the Veterans Administration, and makes clear that the exemption for communications within the military-VA system does not generally apply to records pertaining to civilians.

(f) Section 2.12(c), which deals with the question of how the period covered by any given set of records affects the applicability of these regulations to them, restates the principle set forth in § 1401.02(a) of the previous regulations, and applies it to records in the field of alcohol abuse as well as drug abuse. The authorizing legislation contains no effective date provisions. A construction which would apply the statutes to records of completely closed treatment episodes, records necessarily made and maintained prior to the enactment of the legislation, would create serious administrative problems. It seems doubtful, in any case, whether such records have been "maintained," within the meaning of the statutes, during any period of time after their enactment. On the other hand, if

treatment is actually carried on after the enactment of the applicable statute, then all the records should be covered irrespective of when treatment was begun, because such records clearly are being "maintained" after the enactment of the legislation.

(g) Section 2.12(d) has been included to make explicit one of the legal implications of the authorizing legislation, which is cast in terms descriptive of the records which are to be confidential rather than of the recordkeepers on whom a duty is thus imposed. The result is that, for example, where a State agency maintains an individual client record which contains identifying information about a client (i.e., patient) receiving treatment or rehabilitation services for drug abuse, such a record is clearly a record maintained in connection with a drug abuse prevention function, and is subject to the provisions of this part. The fact that the record may also be required by statute or regulations pertaining to eligibility for Federal Financial Participation would in no way exempt the record from the prohibitions and requirements of this part. Thus, it would be unlawful and a violation of these regulations for such a record to be made available to a law enforcement agency, or to determine (without the prior written consent of the client) eligibility for other welfare benefits, or for any other administrative or investigative uses or purposes which would involve or result in an identification of the client to a third party.

§ 2.13 General rules regarding confidentiality.—Rules.

(a) *In general.* Records to which this part applies shall be confidential and may be disclosed only as authorized by this part, and may not otherwise be divulged in any civil, criminal, administrative, or legislative proceeding conducted by any Federal, State, or local authority, whether such proceeding is commenced before or after the effective date of this part.

(b) *Unconditional compliance required.* The prohibition upon unauthorized disclosure applies irrespective of whether the person seeking disclosure already has the information sought, has other means of obtaining it, enjoys official status, has obtained a subpoena, or asserts any other justification or basis for disclosure not expressly authorized under this part.

(c) *Information covered by prohibition.* The prohibition on unauthorized disclosure covers all information about patients, including their attendance or absence, physical whereabouts, or status as patients, whether or not recorded, in the possession of program personnel, except as provided in paragraph (d) of this section.

(d) *Crimes on program premises or against program personnel.* Where a patient commits or threatens to commit a crime on the premises of the program or against personnel of the program, nothing in this part shall be construed as prohibiting personnel of the program from seeking the assistance of, or re-

porting such crime to, a law enforcement agency, but such report shall not identify the suspect as a patient. In any such situation, immediate consideration should be given to seeking an order under Subpart E of this part to permit the disclosure of such limited information about the patient as may be necessary under the circumstances.

(e) *Implicit and negative disclosures prohibited.* The disclosure that a person (whether actual or fictitious) answering to a particular description, name, or other identification is not or has not been attending a program, whether over a period of time or on a particular occasion, is fully as much subject to the prohibitions and conditions of this part as a disclosure that such a person is or has been attending such a program. Any improper or unauthorized request for any disclosure of records or information subject to this part must be met by a non-committal response.

(f) *In-patients and residents.* The presence of any in-patient in a medical facility or resident in a residential facility for the treatment of drug or alcohol abuse may be acknowledged to callers and visitors with his written consent. Without such consent, the presence of any in-patient or resident in a facility for the treatment of a variety of conditions may be acknowledged if done in such a way as not to indicate that the patient is being treated for drug or alcohol abuse.

§ 2.13-1 General rules regarding confidentiality.—Basis and purpose.

(a) Section 2.13(a) enunciates the general principle of the statutory provisions, and is unchanged from § 1401.03 of the previous regulations.

(b) Sections 2.13(b) and 2.13(c) have been added on the basis of written comments on the draft regulations published August 22, 1974, in which there was a documented report that counsel for a program had advised the program that it could furnish information to the FBI about patients without their written consent and without completing a full judicial proceeding in accordance with Subpart E of this part. Sections 2.13(b) and 2.13(c) should clarify the original intent of the statutes and regulations to the extent of precluding such errors in the future.

(c) In the situation described in § 2.13(d), the desirability of the general prophylactic rule prohibiting disclosures by program personnel about patients regardless of whether such disclosures are from a written record must yield to the practical necessity to permit protection from, and prompt reporting of, criminal acts. In the preface to the first set of regulations issued under 21 U.S.C. 1175, it was emphasized that the operation of that section "in no way creates a sanctuary for criminals." (37 FR 24636, November 17, 1972). Section 2.13(d) is consistent with that contemporaneous administrative construction.

(d) Section 2.13(e) is adapted from § 1401.11 of the August 22, 1974 draft. The suggestion that this part be cited when declining to give information has

been deleted on the basis of comments that correctly pointed out that such a citation, if given by an institution or program maintaining some records covered by this part and some not, would serve to identify the records inquired about as pertaining to treatment covered by this part.

Section 2.13(f) merely clarifies the effect of the preceding paragraphs in the special situations to which paragraph (f) relates.

§ 2.14 Penalty for violations.—Rules.

(a) *Penalty provided by law.* Any person who violates any provision of the authorizing legislation or any provision of this part shall be fined not more than \$500 in the case of a first offense, and not more than \$5,000 in the case of each subsequent offense.

(b) *Application to subsequent offenses.* Where a defendant has committed one offense under either section authorizing this part or any provision of this part authorized by that section, any offense thereafter committed under the same section or any provision of this part authorized under that section shall be treated as a subsequent offense.

§ 2.14-1 Penalty for violations.—Basis and purpose.

(a) Section 2.14 states the criminal penalty provided for in subsection (f) of the sections authorizing this part. It is included in this part for convenience and completeness. Some of the comments received on this section when originally proposed suggested that criminal penalties for violation should include imprisonment, but such a change would have to be made by legislation rather than rulemaking.

(b) Section 2.14(b) clarifies the intention that the "subsequent offense" need not be identical to the first offense, as long as it is committed with respect to the same statutory section. For example, a person whose first offense had consisted of improperly releasing the name of a patient in an alcoholism treatment program would be punishable for a "subsequent offense" if he later gives out information from the diagnostic work-up of an alcoholism patient.

§ 2.15 Minor patients.—Rules.

(a) *Definition of minor.* The term "minor" means a person who has not attained the age of 18 years or, in a State where a different age is expressly provided by State law as the age at which a person ceases to be a minor, the age prescribed by the law of such State.

(b) *Consent to disclosure in general.* Except as provided in paragraph (c), where consent is required for any disclosure under this part, such consent in the case of a minor must be given by both the minor and his parent, guardian, or other person authorized under State law to act in his behalf, but any disclosure made after the patient has ceased to be a minor may be consented to only by the patient.

(c) *Rule when State law authorizes treatment without parental consent.* Whenever a patient, acting alone, has the

legal capacity under the applicable State law to apply for and obtain such diagnosis, counselling, administration of medication, or other services as actually are or were provided to him by the program with respect to which he is or was a patient, any consent required for disclosure under this part may be given only by the patient, notwithstanding the fact that the patient may be a minor.

(d) *Initial contacts.* When a minor applies for services under circumstances other than those described in paragraph (c) of this section, the fact of such application may not be disclosed, except as an incident to a communication authorized under paragraph (f) of this section, without consent of the applicant, to the applicant's parent, guardian, or other person authorized under State law to act on behalf of the applicant. When such an applicant refuses consent, it must be explained to the applicant that while he or she has the right (subject to the provisions of paragraph (f) of this section) to withhold such consent, the services applied for cannot be provided without it.

(e) *Collection or attempted collection of payment for services.* Where State law authorizes the furnishing of services to a minor without the consent of the minor's parent or guardian, no inquiry may be made of the parent's or guardian's financial responsibility, and no bill, statement, request for payment, or any other communication in respect of such services may be transmitted directly or indirectly to such parent or guardian, without the express written consent of the patient. Such consent may not be made a condition of the furnishing of services except in the case of a program which is not required by law, and does not in fact hold itself out as willing, to furnish services irrespective of ability to pay.

(f) *Applicant lacking capacity for rational choice.* When, in the judgment of a program director a minor applicant for services, because of extreme youth or mental or physical condition, lacks the capacity to make a rational decision on whether to consent to the notification of a parent or guardian, and the situation of the applicant poses a substantial threat to the life or physical well being of the applicant or any other individual, and such threat might be reduced by communicating the relevant facts to a parent or guardian of the applicant, such facts may be so communicated by the program director or by program personnel authorized by the director to do so.

§ 2.15-1 Minor patients.—Basis and purpose.

(a) The statutes authorizing this part are totally silent on the issue of the capacity of a minor to give consent for disclosures, and there is nothing in the legislative history to suggest that the question was ever considered by Congress. The question is, however, one which arises repeatedly, and it is therefore appropriately addressed under the general rulemaking authority conferred

by subsection (g) of the authorizing legislation.

(b) Perhaps no legal issues are more highly charged than those affecting the relationship of parent and child. Since Congress has not evidenced an intention to affect this relationship, it is clear that local law should govern, and the task of rulemaking is limited to that of insuring, as far as possible, that the results under Federal law are consistent with local policy.

(c) Where a State has authorized the furnishing of treatment or other services of a given type to a minor without notice to or consent by the parent or guardian, it seems clear that a consistent Federal policy with respect to disclosure requires that consent for any disclosure of the treatment record be given by the minor. This policy, moreover, should not be frustrated by attempts to enforce parental financial responsibility in a situation where the State itself has determined that the minor should have a right to obtain services without involving the parent.

(d) A much more difficult problem is presented in the case of a minor who applies for services in a jurisdiction which has not determined that a minor should have the right to obtain them without parental knowledge or consent. The question may arise as to whether the clinician has an ethical or legal duty to notify the parent which conflicts with a duty of nondisclosure. The rules in § 2.15 are based upon the theory that Federal law should not invalidate a State policy which prohibits treatment without parental consent, but that keeping confidential a mere application for treatment is not ordinarily a sufficient transgression of such a State policy as to require an exception to the general Federal policy prohibiting disclosure of an application for services without the consent of the applicant.

(e) Section 2.15(f) deals with the case of the minor applicant who lacks the capacity to make a rational choice about consenting to disclosure. It is based upon the theory that where a person is actually as well as legally incapable of acting in his own interest, disclosures to a person who is legally responsible for him may be made to the extent that the best interests of the patient clearly so require. Any other rule could subject clinicians to an intolerable choice between violating the provisions of this part on the one hand, or failing to take action to avoid a preventable tragedy involving a minor, on the other. The statutes authorizing this part should not be read as requiring such a choice.

§ 2.16 Incompetent and deceased patients.—Rules.

(a) *Incompetent patients other than minors.* Where consent is required for any disclosure under this part, such consent in the case of a patient who has been adjudicated as lacking the capacity, for any reason other than insufficient age, to manage his or her own affairs may be given by the guardian or other person authorized under State law to act in the patient's behalf.

(b) Deceased patients.

(1) *In general.* Except as provided in paragraph (b) (2) of this section, where consent is required for any disclosure of this part, such consent in the case of records of a deceased patient may be given by an executor, administrator, or other personal representative. If there is no appointment of a personal representative, such consent may be given by the patient's spouse, or if none, by any responsible member of the patient's family.

(2) *Vital statistics.* In the case of a deceased patient, disclosures required under Federal or State laws involving the collection of death and other vital statistics may be made without consent.

§ 2.16-1 Incompetent and deceased patients.—Basis and purpose.

Section 2.16 essentially repeats the substance of § 1401.04 of the previous regulations, broadened to reflect the fact that the statutes now allow any consensual disclosures permitted by the regulations, and to cover the situation of deceased patients for whom no formal appointment of an executor, administrator, or other personal representative has been made. Written comments were received to the effect that the power to consent to disclosure in the case of a deceased patient should be limited to a personal representative. The expense of probate or administration in some jurisdictions could cause financial hardship to survivors, and on balance it is believed that where the assets of an estate are insufficient to justify the appointment of a personal representative, the public interest is served by permitting others to consent to disclosure.

§ 2.17 Security precautions.—Rules.

(a) *Precautions required.* Appropriate precautions must be taken for the security of records to which this part applies. Records containing any information pertaining to patients shall be kept in a secure room, or in a locked file cabinet, safe, or other similar container, when not in use.

(b) *Policies and procedures.* Depending upon the type and size of the program, appropriate policies and procedures should be instituted for the further security of records. For example, except where this function is personally performed by the program director, a single member of the program staff should be designated to process inquiries and requests for patient information, and a written procedure should be in effect regulating and controlling access by those members of the staff whose responsibilities require such access, and providing for accountability.

§ 2.17-1 Security precautions.—Basis and purpose.

The enormous variations in both the size and the type of programs to which this part is applicable preclude the formulation of specific requirements with respect to the physical security of records. Almost any requirement which could be laid down would, under some circumstances, either be impracticable or

perverse in its effects. For example, in a facility handling a variety of medical records, all of which are confidential and so marked, a requirement that those pertaining to drug or alcohol treatment be marked in any distinctive way would merely serve to identify such records as pertaining to drug or alcohol treatment—precisely the opposite of the intended result. The purpose of § 2.17, which is based upon § 1401.25 of the previous regulations, is to alert programs to the necessity of exercising due care with respect to the security of patient records.

§ 2.18 Extent of disclosure.—Rule.

Any disclosure made under this part, whether with or without the patient's consent, shall be limited to information necessary in the light of the need or purpose for the disclosure.

§ 2.18-1 Extent of disclosure.—Basis and purpose.

(a) Section 2.18 expresses the general principle, which has application in many different contexts, that any disclosure from records covered by this part should be limited to information necessary in the light of the need or purpose for the disclosure. It is identical to § 1401.06 of the previous regulations.

(b) This section should not be misunderstood as imposing a limitation on the scope of records which may or should be made available to health agencies conducting inspections as described in § 2.55. All of the records maintained by a program may be relevant to such inspection. The Congress has determined that disclosure under such circumstances is not a violation of the statutes authorizing this part; where such disclosure is required by Federal or State law, and the inspecting agency is a qualified State health agency as defined in § 2.55(e)(1), it becomes the responsibility of that agency to protect the confidentiality of information it acquires in the course of its lawful activities.

§ 2.19 Undercover agents and informants.—Rules.

(a) *Definitions.* As used in this section, § 2.19-1, and §§ 2.67 and 2.67-1,—

(1) The term "undercover agent" means a member of any Federal, State, or local law enforcement or investigative agency whose identity as such is concealed from either the patients or personnel of a program in which he enrolls or attempts to enroll.

(2) The term "informant" means a person who, at the request of a Federal, State, or local law enforcement or investigative agency or officer, carries on observation of one or more persons enrolled in or employed by a program in which he is enrolled or employed, for the purpose of reporting to such agency or officer information concerning such persons which he obtains as a result of such observation subsequent to such request.

(b) *General prohibition.* Except as otherwise provided in paragraph (c) of this section, or as specifically author-

ized by a court order granted under § 2.67,—

(1) No undercover agent or informant may be employed by or enrolled in any alcohol or drug abuse treatment program;

(2) No supervisor or other person having authority over an undercover agent may knowingly permit such agent to be or remain employed by or enrolled in any such program; and

(3) No law enforcement or investigative officer may recruit or retain an informant with respect to such a program.

(c) *Exceptions.* The enrollment of a law enforcement officer in a treatment program shall not be deemed a violation of this section if (1) such enrollment is solely for the purpose of enabling the officer to obtain treatment for his own abuse of alcohol or drugs, and (2) his status as a law enforcement officer is known to the program director.

§ 2.19-1 Undercover agents and informants.—Basis and purpose.

(a) In many instances, persons who are patients in treatment programs are making their first tentative efforts toward re-integration into productive society. They may be both vulnerable and suspicious, and the presence in a treatment program of undercover law enforcement agents or informants can have a devastating effect on the program's morale and therapeutic effectiveness. Moreover, it would appear that the purpose of such agents or informants may be to obtain precisely the type of personal information which might be revealed by inspection of counselor notes and other patient records maintained by the program. Thus, the placing of an undercover agent or informant in a program, either as a patient or as an employee, would appear to be contrary to the purposes for which the provisions of law authorizing this part were enacted, and properly subject to prohibition under regulations expressly authorized to carry out those purposes.

(b) From a policy standpoint, § 2.19 is based on the reasoning that while the use of undercover agents and informants in treatment programs is ordinarily to be avoided, there may occasionally arise circumstances where their use may be justified. Accordingly, where a showing is made in an application for an order under § 2.67 that the criteria set forth in that section are satisfied, the court may grant such an order.

(c) When this section of the regulations was proposed, numerous written comments were received urging that there be an absolute prohibition on the use of undercover agents and informants, and most of the witnesses at the hearings who addressed the issue at all testified to the same effect. A number of comments were received to the effect that § 2.19 should be dropped altogether, but this request was always clearly and often explicitly predicated on the assumption that failure to say anything about undercover agents and informants would make their use illegal. Our view is to the contrary: we think that the

statutes, standing alone, do not prohibit the practice, and thus that in the absence of a specific prohibition in these regulations, the use of undercover agents and informants in treatment programs would not be unlawful. Since this is a view which we believe to be shared by the law enforcement and investigative agencies which are affected by § 2.19, there is as a practical matter no alternative to predicating these regulations upon its correctness.

(d) However desirable it may be to limit the use of undercover agents and informants in treatment programs, we think a strong argument can be made against our power to impose an absolute prohibition. To the extent that the practice is susceptible to regulation through the rulemaking process at all, it is on the theory that it opens the way to disclosure of information which is or should be in program records, and thus is contrary to the purposes of the statutes. Since subsection (g) of the statutes confers express rulemaking authority to carry out these purposes, regulation of the use of undercover agents and informants is a proper subject for the exercise of that authority. But even the express statutory prohibition against direct disclosure of the content of patient records is subject to the power of the courts to authorize such disclosure under subsection (b)(2)(C) of the statutes. It seems difficult to argue that Congress intended to confer on rulemaking agencies the authority to impose an absolute prohibition even though its own restrictions (other than those on disclosures of patient identities from secondary records) are subject to being set aside by court order in particular cases. Since we have not attempted to exercise such an authority, it is not necessary to decide at this time whether it was conferred.

(e) A careful reading of the definitions set forth in § 2.19(a) is crucial to an understanding of the prohibitions which are imposed by § 2.19. Objections to the section were made informally but vigorously on behalf of the Drug Enforcement Administration, on the ground that the testimony of informants or undercover agents is frequently if not normally essential to the successful prosecution of cases arising under the Controlled Substances Act. It was said that in the form originally proposed, the section would cut off from treatment those who might agree to cooperate with law enforcement authorities, a result both inhumane and counterproductive. As the definition of an informant is intended to make clear, however, it is his function vis-a-vis personnel and fellow patients in the program in which he is enrolled which is controlling, and not his relationship, *per se*, with an investigative agency.

(f) Finally, the definition of informant is intended to clarify the distinction between an informant and an ordinary witness. It is the element of prearrangement which is crucial. In one of the comments received on § 2.19 as proposed, it was urged that treatment programs should be considered as sanctuaries, but such a result was explicitly disclaimed in the

initial publication of the previous regulations (37 FR 24636). In so saying, we are by no means insensitive to the anxieties repeatedly expressed in both testimony and comments on this section, but we believe that the prohibition contained in § 2.19 and the procedures and criteria set forth in § 2.67 provide a measure of relief which is consistent with the structure and intent of the underlying statutes.

§ 2.20 Identification cards.—Rules.

(a) *Required use prohibited.* No program may require or request any patient to carry in his or her possession, while away from the program premises, an identification card or other form of identification which is issued by the program or which would tend to identify the bearer as a participant in it or any similar program.

(b) *Conditions of voluntary use.* Nothing in this section prohibits a program from issuing an identification card to a patient if the patient's counsellor or other authorized member of the program staff has explained to the patient that acceptance and use of the card is entirely voluntary and that neither an initial rejection nor a subsequent discontinuation of its use will in any way prejudice his or her record or standing in the program. In the case of any patient to whom an identification card or similar device was issued prior to the effective date of this section, or subsequent thereto in violation of this section, a counsellor or other authorized member of the program staff shall explain to the patient his right to turn it in without prejudice at any time.

(c) *On-premises exemption.* Nothing in this section prohibits a program from maintaining and using on its premises cards, photographs, tickets, or other devices, or using passwords or other information, to assure positive identification of patients, correct recording of attendance or medication, or for other proper purposes, as long as no pressure is brought on any patient to carry any such device when away from the program premises.

§ 2.20-1 Identification cards.—Basis and purpose.

Section 2.20 is in furtherance of one of the basic purposes of the statutes authorizing this part, namely, protection of patients from improper disclosure of their status as such. Regrettably, there appear to be areas where possession of a treatment program identification card can be prejudicial to a person under arrest or subjected to a search. In any part of the country, the accidental display or circulation of such a card by reason of its loss or theft could have adverse consequences for a variety of reasons. Since programs have other means of achieving the ends which identification cards are meant to serve, patients who do not wish to assume whatever risks may be involved in carrying such cards should not be compelled to do so.

§ 2.21 Disposition of discontinued program records.—Rules.

(a) *General rule.* When a program discontinues operations or is taken over or acquired by another program, its records to which this part applies with respect to any patient may, with the written consent of that patient, be turned over to the acquiring program or, if none, to any other program specified in the patient's consent. Except as otherwise provided in this section, any records to which this part applies, but for the transfer of which patient consent is not obtained, shall be either completely purged of patient identifying information, or destroyed. If any effort to obtain consent for transfer is made, it shall be by means which minimize the likelihood of accidental or incidental disclosure to any third party of the patient's identity as such.

(b) *Retention period.* Where records are required by law to be kept for a specified period, and such period does not expire until after the discontinuation or acquisition of the program, and patient consent for their transfer is not obtained, such records shall be sealed in envelopes or other containers marked or labelled as follows: "Records of [insert name of program] required to be maintained pursuant to [insert citation to law or regulation requiring that records be kept] until a date not later than December 31, [insert appropriate year]." The same procedure may be followed when it is determined to retain records for the period of any applicable statute of limitations.

(c) *Custodial retention.* Records marked and sealed in accordance with paragraph (b) of this section may be held by any lawful custodian, but may be disclosed by such custodian only under such circumstances and to such extent as would be permissible for the program in which they originated. As soon as practicable after the date specified on the label or legend required to be affixed pursuant to paragraph (b) of this section, the custodian shall destroy the records. In the case of any program terminated by reason of bankruptcy, the expense of compliance with this paragraph shall be an expense of administration of the bankrupt estate.

§ 2.21-1 Disposition of discontinued program records.—Basis and purpose.

While arguments can be made for requiring the destruction of records at the conclusion of their useful clinical life, there is wide disagreement on its span, and there are in addition research considerations which argue for an even longer period of retention. Except in the case of discontinued programs, it therefore seems best to leave this issue for determination by the programs concerned.

§ 2.22 Former employees and others.—Rules.

The prohibitions of this part on disclosure of patient records or information contained therein apply to all individuals

who are personnel of treatment programs, researchers, auditors, evaluators, service organizations, or others having access to such records or information, and continue to apply to such individuals with respect to such records or information after the termination of their employment or other relationship or activity giving rise to such access.

§ 2.22-1 Former employees and others.—Basis and purpose.

The prohibition contained in § 2.22 is arguably an interpretation of the authorizing legislation which would be necessary as a matter of law even in the absence of this part; its validity as an exercise of the rulemaking power conferred by subsection (g) of the authorizing legislation seems beyond dispute.

§ 2.23 Relationship to State laws.—Rules.

The enactment of the provisions of law authorizing this part was not intended to preempt the field of law covered thereby to the exclusion of State laws not in conflict therewith. If a disclosure permitted under the provisions of this part, or under a court order issued pursuant thereto, is prohibited under State law, nothing in this part or in the provisions of law authorizing this part may be construed to authorize any violation of such State law. No State law, however, may either authorize or compel any disclosure prohibited by this part.

§ 2.23-1 Relationship to State laws.—Basis and purpose.

Section 2.23 sets forth publicly an interpretation which, in informal communications, has consistently been given to 21 U.S.C. 1175 since its original enactment, and clearly has equal applicability to 42 U.S.C. 4582.

§ 2.24 Relationship to section 303(a) of Public Health Service Act and section 502(c) of Controlled Substances Act.—Rules.

(a) *Research privilege description.* In some instances, there may be concurrent coverage of a program or activity by the provisions of this part and by a regulation or other administrative action under section 303(a) of the Public Health Service Act (42 U.S.C. 242a(a)) or section 502(c) of the Controlled Substances Act (21 U.S.C. 872(c)). The latter two provisions of law, referred to hereinafter in this section as the research privilege sections, confer on the Secretary of Health, Education, and Welfare, and on the Attorney General, respectively, the power to authorize researchers to withhold from all persons not connected with the research the names and other identifying information concerning individuals who are the subject of such research. The Secretary of Health, Education, and Welfare may grant this privilege with respect to any "research on mental health, including research on the use and effect of alcohol and other psychoactive drugs." The Attorney General's power is conferred as part of a section authorizing

research related to enforcement of laws under his jurisdiction concerning substances which are or may be subject to control under the Controlled Substances Act, but is not expressly limited to such research. Regardless of whether a grant of research privilege is made by the Secretary or by the Attorney General, it is expressly provided that persons who obtain it "may not be compelled in any Federal, State, or local civil, criminal, administrative, legislative, or other proceeding to identify" the subjects of research for which the privilege was obtained.

(b) *Comparison with authority for this part.* Although they deal, in a sense, with the same subject matter, and may on occasion concurrently cover the same transactions, it is important to note the differences between the research privilege sections (21 U.S.C. 872(c) and 42 U.S.C. 242a(a)) and the provisions of law (21 U.S.C. 1175 and 42 U.S.C. 4582) which authorize this part. Briefly, these differences are as follows:

(1) Although they contain broad grants of express rulemaking authority, the provisions of law by which this part is authorized are self-executing in the sense that they are operative irrespective of whether the rulemaking authority is exercised. The protection afforded by the research privilege sections, on the other hand, can only come into existence as a result of affirmative administrative action.

(2) The provisions of law authorizing this part, as well as the provisions of this part itself, impose affirmative duties with respect to the records to which they apply, and the violation of such duties is subject to criminal penalties. To the extent that a privilege is thereby created, it grows out of the duties thus imposed. The research privilege sections, by contrast, impose no duties by their own terms, and if any duties are implied from their existence, they would have to be enforced on the basis of an implicit civil liability for damages or by equitable relief, as there are no criminal or administrative sanctions available.

(3) The exercise of the authority conferred by the research privilege sections is subject to administrative discretion, whereas in the case of the duties imposed under this part there is judicial discretion, within the limits and subject to procedures and criteria prescribed by statute and regulation, to grant relief in particular cases.

(c) *Grant of research privilege not affected by (b) (2) (C) order.* The issuance of an order under subsection (b) (2) (C) of either of the sections authorizing this part (21 U.S.C. 1175 and 42 U.S.C. 4582) in no way affects the continuing effectiveness of any exercise of the authority of the Secretary of Health, Education, and Welfare under 303(a) of the Public Health Service Act (42 U.S.C. 242a(a)) or the Attorney General under section 502(c) of the Controlled Substances Act (21 U.S.C. 872(c)).

§ 2.24-1 Relationship to section 303(a) of Public Health Service Act and section 502(c) of Controlled Substances Act.—Basis and purpose.

(a) In Pub. L. 93-282, the Congress expressly amended (by sections 122(a) and 303(a), 88 Stat. 131 and 137) the provisions of law which authorize this part, expressly amended (by section 122 (b), 88 Stat. 132) the research privilege section under the Secretary's jurisdiction, and made explicit reference (in section 303(d), 88 Stat. 139) to the regulations previously issued by the Special Action Office for Drug Abuse Prevention reconciling the provisions of section 408 of the Drug Abuse Office and Treatment Act of 1972 with the provisions of the research privilege sections. When the bill which became Pub. L. 93-282 was before the House of Representatives for its last Congressional consideration before transmission to the President, its floor manager, Chairman Staggers of the Committee on Interstate and Foreign Commerce, inserted in the Record a detailed analysis of the bill in its final form (Congressional Record, daily edition, May 6, 1974, page H3563). This analysis contained the following paragraph:

The relationship of section 303(a) of the Public Health Service Act, authorizing the administrative grant of absolute confidentiality for research, to section 408 of the Drug Abuse Office and Treatment Act of 1972, requiring that Federally-connected drug abuse patient records generally be kept confidential, has been correctly described in an interpretative regulation, 21 C.F.R. 1401.61 and 1401.62, which was upheld in *People v. Newman*, 32 N.Y. 2d 379, [reversing] 336 N.Y.S. 2d 127, 298 N.E. 2d 651 (1973); *certiorari denied*, [414] U.S. [1163], 94 S. Ct. 927, [39 L. Ed. 2d 116] (1974). For that reason, among others, section 303(d) of the Senate amendment expressly continues the effectiveness of the current regulation promulgated by the Director of the Special Action Office for Drug Abuse Prevention. Thus, although section 502(c) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 is not explicitly referred to in this legislation, the congressional intent is clear that the authority conferred by that section was not modified by Pub. L. 92-255, and is not intended to be modified by the bill now before the House.

(b) Sections 2.24 and 2.61 restate, in substance, the interpretative rules (§§ 1401.61 and 1401.62 of the previous regulations) referred to in the passage quoted in paragraph (a) of this section, modified to reflect the amendment made to section 303(a) of the Public Health Service Act (42 U.S.C. 242(a)) by Pub. L. 93-282.

Subpart C—Disclosures With Patient's Consent

§ 2.31 Written consent required.—Rules.

(a) *Form of consent.* Except as otherwise provided, a consent for a disclosure under this part must be in writing and must contain the following:

(1) The name of the program which is to make the disclosure.

(2) The name or title of the person or organization to which disclosure is to be made.

(3) The name of the patient.

(4) The purpose or need for the disclosure.

(5) The extent or nature of information to be disclosed.

(6) A statement that the consent is subject to revocation at any time except to the extent that action has been taken in reliance thereon, and a specification of the date, event, or condition upon which it will expire without express revocation.

(7) The date on which the consent is signed.

(8) The signature of the patient and, when required under § 2.15, the signature of a person authorized to give consent under that section; or, when required under § 2.16, the signature of a person authorized to sign under that section in lieu of the patient.

(b) *Duration of consent.* Any consent given under this subpart shall have a duration no longer than that reasonably necessary to effectuate the purpose for which it is given.

(c) *Disclosure prohibited with deficient consent.* No program may disclose any information on the basis of a consent form—

(1) which on its face substantially fails to conform to any of the requirements set forth in paragraph (a), of this section, or

(2) which is known, or in the exercise of reasonable care should be known, to the responsible personnel of the program to be materially false in respect to any item required to be contained therein pursuant to paragraph (a) of this section.

(d) *Falsification prohibited.* No person may knowingly make, sign, or furnish to a program any consent form which is materially false with respect to any item required to be contained therein pursuant to paragraph (a) of this section.

§ 2.31-1 Written consent required.—Basis and purpose.

(a) The use of a consent form containing all of the elements specified in § 2.31(a) is necessary to assure compliance with the requirements of this subpart. Under § 1401.21 of the previous regulations, a much more abbreviated form was permissible, because the circumstances under which any consent could be given were very strictly limited. Now that the authorizing legislation permits disclosure with consent "to such extent, under such circumstances, and for such purposes as may be allowed under regulations," the consent form should show on its face information sufficient to indicate compliance with the regulations.

(b) Sections 2.31(b), 2.31(c), and 2.31(d) are an exercise of the general rulemaking authority in subsection (g) of the authorizing legislation. Section 2.31(c) imposes a legal liability on programs and their personnel for disclosure of information on the basis of a materially

deficient consent, and § 2.31(d) imposes liability on any person who submits a falsified consent form to a program.

§ 2.32 Prohibition on redisclosure.—Rules.

(a) *Notice to accompany disclosure.* Whenever a written disclosure is made under authority of this subpart, except a disclosure to a program or other person whose records pertaining to the patient are otherwise subject to this part, the disclosure shall be accompanied by a written statement substantially as follows: "This information has been disclosed to you from records whose confidentiality is protected by Federal law. Federal regulations (42 CFR Part 2) prohibit you from making any further disclosure of it without the specific written consent of the person to whom it pertains, or as otherwise permitted by such regulations. A general authorization for the release of medical or other information is NOT sufficient for this purpose." An oral disclosure may be accompanied or followed by such a notice.

(b) *Consent required for redisclosure.* A person who receives information from patient records and has been notified substantially in accordance with paragraph (a) of this section is prohibited from making any disclosure of such information except with the specific written consent of the person to whom it pertains, or as otherwise permitted under this part.

(c) *Restriction on redisclosure.* Whenever information from patient records is needed by any person, such information must be obtained directly from the program maintaining such records and not from another person to whom disclosure thereof has been made, except where the initial disclosure was intentionally and expressly made for the purpose of redisclosure (as for example in the case of an employment agency), or the information is no longer available from the program and redisclosure is not prohibited by any other provision of this part.

§ 2.32-1 Prohibition on redisclosure.—Basis and purpose.

(a) Section 2.32 is intended to provide a reasonable protection against redisclosure of information disclosed with consent in accordance with this subpart. There is, of course, no problem where the information becomes part of a record which is itself subject to this part because it is maintained in connection with the performance of a covered substance abuse prevention function. The difficulty arises when the disclosure is made to those whose records are not otherwise affected by this part. To attempt to make all of the provisions of this part applicable to such recipients with respect to such information might raise serious problems of legality, administrative feasibility, and fairness, but where they are given actual notice that specific patient consent is normally required for redisclosure, we think they can and should be bound by it.

(b) Oral disclosures are not mandatorily covered because they should rarely be made to any recipient with whom the program does not have a continuing relationship. Where such a relationship exists or the program is otherwise satisfied that the recipient understands and will respect the confidential nature of the information supplied, there seems no need to add to the already heavy load of paperwork with which programs must contend.

§ 2.33 Diagnosis, treatment, and rehabilitation.—Rules.

(a) *Disclosure authorized.* Where consent is given in accordance with § 2.31, disclosure of information subject to this part may be made to medical personnel or to treatment or rehabilitation programs where such disclosure is needed in order to better enable them to furnish services to the patient to whom the information pertains.

(b) *Traveling, incarcerated, or hospitalized patients on medication.* Where a patient on medication is at a distance from his normal residence or treatment program or is incarcerated or hospitalized, or is otherwise unable to deliver a written consent to his treatment program at the time the disclosure is needed, confirmation of the patient's status and information necessary to appropriately continue or modify his medication may be given to medical personnel in a position to provide services to the patient upon the oral representation of such personnel that the patient has requested medication and consented to such disclosure. Any program making a disclosure in accordance with this paragraph shall make a written memorandum showing the name of the patient, or the patient's case number assigned by the program, the date and time the disclosure was made, the information disclosed, and the names of the individuals by whom and to whom it was made.

§ 2.33-1 Diagnosis, treatment, and rehabilitation.—Basis and purpose.

(a) Section 2.33(a) is a restatement of the policy set forth in § 1401.22(a) of the previous regulations, expanded to make explicit reference to nonmedical counselling and other treatment and rehabilitative services.

(b) Section 2.33(b) clarifies the corresponding provision in § 1401.22(a) of the previous regulations by specifying how and through whom oral consent can be given, and limiting the disclosure to that necessary to determine appropriate medication.

§ 2.34 Prevention of certain multiple enrollments.—Rules.

(a) *Definitions.* For the purposes of this section and § 2.55—

(1) The terms "administer", "controlled substance", "dispense", "maintenance treatment", and "detoxification treatment" shall respectively have the meanings defined in paragraphs (2), (6), (10), (27), and (28) of section 102 of the

Controlled Substances Act (21 U.S.C. 802).

(2) The term "program" means a program which offers maintenance treatment or detoxification treatment.

(3) The term "permissible central registry" means a qualified service organization which collects or accepts, from two or more programs (referred to hereinafter as member programs) all of which are located either within a given State or not more than 125 miles from the nearest point on the border of such State, patient identifying information about persons applying for maintenance treatment or detoxification treatment for the purpose of enabling the member programs to prevent any individual from being concurrently enrolled in more than one such program.

(b) *Use of central registries prohibited except as expressly authorized.* The furnishing of patient identifying information by a program to any central registry which fails to meet the definition of a permissible central registry set forth in paragraph (a)(3) of this section is prohibited, and the furnishing of patient identifying information to or by any central registry except as authorized in this section is prohibited. Information pertaining to patients held by a central registry may be furnished or used in accordance with paragraphs (e), (f), and (g) for the purpose of preventing multiple enrollments, but may not be otherwise furnished or used in connection with any legal, administrative, supervisory, or other action with respect to any patient.

(c) *Safeguards and procedures required.* To minimize the likelihood of disclosures of information to impostors or others seeking to bring about unauthorized or improper disclosure, any communications carried on by programs pursuant to this section must be conducted (1) by authorized personnel designated in accordance with § 2.17(b), and (2) in conformity with procedures established in accordance with that section.

(d) *Disclosures with respect to patients in treatment.* A member program may supply patient identifying information and information concerning the type of drug used or to be used in treatment and the dosage thereof, with relevant dates, to a permissible central registry with respect to any patient—

(1) When the patient is accepted for treatment,

(2) When the type or dosage of the drug is changed, and

(3) When the treatment is interrupted, resumed, or terminated.

(e) *Disclosures with respect to applications.* When any person applies to a program for maintenance treatment or detoxification treatment, then for the purpose of inquiring whether such person is currently enrolled in another program for such treatment, the program may furnish patient identifying information with respect to such person—

(1) To any permissible central registry of which the program is a member, and

(2) To any other program which is not more than 200 miles distant and which is not a member of any central registry of which the inquiring program is a member.

(f) *Program procedure in case of apparent concurrent enrollment.* When an inquiry pursuant to paragraph (e) (2) is made of another treatment program and its response is affirmative, the two programs may engage in such further communication as may be necessary to establish whether an error has been made, and if none, the programs should proceed in accordance with sound clinical practice and any applicable regulations pertaining to the type of treatment involved.

(g) *Registry procedure in case of apparent concurrent enrollment.* When an inquiry pursuant to paragraph (e) (1) is made of a permissible central registry and its response is affirmative, it may advise the inquiring program of the name, address, and telephone number of the other program, or it may advise the other program of the identity of the patient and the name, address, and telephone number of the inquiring program, or it may do both, and in any case the two programs may then communicate as provided in paragraph (f) above.

(h) *Advice to patients.* When the policies and procedures of any program involve any disclosures pursuant to this section, before any patient is accepted for or continued in treatment (other than detoxification treatment) after September 30, 1975, written consent in accordance with § 2.31 shall be obtained. Such consent shall set forth a current list of the names and addresses either of any programs or of any central registries to which such disclosures will be made. Notwithstanding the requirement of § 2.31 (a) (2), such consent shall be effective with respect to any other such program thereafter established within 200 miles, or any registry serving such programs, and shall so state. Such consent shall be effective for as long as the patient remains enrolled in the program to which it is given.

§ 2.34-1 Prevention of certain multiple enrollments.—Basis and purpose.

Section 2.34 is based upon § 1401.43 of the previous regulations. It was omitted from the August 22, 1974 draft, but comments on the omission made it clear that in certain areas of the country, central registries are a functional component of the treatment system, and that regulations to guide their operations are needed.

§ 2.35 Legal counsel for patient.—Rules.

When a bona fide attorney-client relationship exists between an attorney-at-law and a patient, disclosure of any information in the patient's records may be made to the attorney upon the written application of the patient endorsed by the attorney. Information so disclosed may not be further disclosed by the attorney.

§ 2.35-1 Legal counsel for patient.—Basis and purpose.

Section 2.35 simplifies and broadens the statement of the policy embodied in

§ 1401.25 of the previous regulations. Its purpose is to assure the availability to the attorney, with his client's consent, of any information needed as a basis for advice and counsel. The purpose of the prohibition on further disclosure by the attorney is to guard against the possibility that the attorney might be forced to serve as a conduit for otherwise prohibited disclosures to third parties. Ordinarily, the attorney-client privilege would suffice, but that privilege is subject to waiver by the client, whereas this prohibition is not. Where there is a need for disclosure to a third party of any given information about any patient, this prohibition in no way affects the availability of other sections of this part to authorize such disclosure by the program.

§ 2.36 Patient's family and others.—Rule§

Where consent is given in accordance with § 2.31, information evaluating his current or past status in a treatment program may be furnished to any person with whom the patient has a personal relationship unless, in the judgment of the person responsible for the patient's treatment, the disclosure of such information would be harmful to the patient.

§ 2.36-1 Patient's family and others.—Basis and purpose.

Section 2.36 expresses the same policy as was embodied in § 1401.27 of the previous regulations, broadened to reflect the expanded authority for consensual disclosure under the authorizing legislation.

§ 2.37 Third-party payers and funding sources.—Rules.

(a) *Acquisition of information.* Disclosure of patient information to third-party payers or funding sources may be made only with the written consent of the patient given in accordance with § 2.31 and any such disclosure must be limited to that information which is reasonably necessary for the discharge of the legal or contractual obligations of the third-party payer or funding source.

(b) *Prohibition on disclosure.* Where a funding source or third-party payer maintains records of the identity of recipients of treatment or rehabilitation services for alcohol or drug abuse such records are, under the authorizing legislation, maintained in connection with the performance of an alcohol or drug abuse prevention function and are subject to the restrictions upon disclosure set forth in this part.

§ 2.37-1 Third-party payers and funding sources.—Basis and purpose.

Section 2.37 is based upon the general authority to prescribe regulations to carry out the purposes of the authorizing legislation. The great diversity of contractual arrangements and legal requirements under which the operations of third-party payers and funding sources are carried on precludes the prescription of detailed records management instructions in these regulations, even if that were otherwise desirable. The general principles set forth in § 2.37, however, should clarify the question of coverage,

and where coverage exists, provide a standard which will minimize the likelihood of violations. See also § 2.12-1(g).

§ 2.38 Employers and employment agencies.—Rules.

(a) *Disclosure permitted.* Where consent is given in accordance with § 2.31, a program may make disclosures in accordance with this section.

(b) *Eligible recipients.* A program may make disclosures under this section to public or private employment agencies, employment services, or employers.

(c) *Scope of disclosure.* Ordinarily, disclosures pursuant to this section should be limited to a verification of the patient's status in treatment or a general evaluation of progress in treatment. More specific information may be furnished where there is a bona fide need for such information to evaluate hazards which the employment may pose to the patient or others, or where such information is otherwise directly relevant to the employment situation.

(d) *Criteria for approval.* A disclosure under this section may be made if, in the judgment of the program director or his authorized representative appointed as provided in § 2.17(b), the following criteria are met:

(1) The program has reason to believe, on the basis of past experience or other credible information (which may in appropriate cases consist of a written statement by the employer), that such information will be used for the purpose of assisting in the rehabilitation of the patient and not for the purpose of identifying the individual as a patient in order to deny him employment or advancement because of his history of drug or alcohol abuse.

(2) The information sought appears to be reasonably necessary in view of the type of employment involved.

§ 2.38-1 Employers and employment agencies.—Basis and purpose.

Section 2.38 is based on the rulemaking power conferred by subsection (b) (1) of the authorizing legislation, and is adapted from § 1401.26 of the previous regulations. Its purpose is to allow disclosures reasonably necessary and appropriate to facilitate the employment of patients and former patients, while protecting patients against unnecessary or excessively broad disclosures. It was urged in a comment received on the August 22, 1974 draft that disclosures to employers be flatly prohibited on the ground that the employer's sole legitimate concern is with on-the-job performance. While we are not unsympathetic to this view, a countervailing consideration is that in the case of an employee or applicant who is known by the employer to have a problem with drugs or alcohol, knowledge by the employer of a genuine effort by the employee to deal with it can make the difference between a job and no job.

§ 2.39 Criminal justice system referrals.—Rules.

(a) *Consent authorized.* Where participation by an individual in a treatment program is made a condition of such in-

dividual's release from confinement, the disposition or status of any criminal proceedings against him or the execution or suspension of any sentence imposed upon him, such individual may consent to unrestricted communication between any program in which he is enrolled in fulfillment of such condition and (1) the court granting probation, or other post-trial or pretrial conditional release, (2) the parole board or other authority granting parole, or (3) probation or parole officers responsible for his supervision.

(b) *Duration of consent.* Where consent is given for disclosures described in paragraph (a) of this section, such consent shall expire sixty days after it is given or when there is a substantial change in such person's status, whichever is later. For the purposes of this section, a substantial change occurs in the status of a person who, at the time such consent is given, has been—

(1) Arrested, when such person is formally charged or unconditionally released from arrest;

(2) Formally charged, when the charges have been dismissed with prejudice, or the trial of such person has been commenced;

(3) Brought to a trial which has commenced, when such person has been acquitted or sentenced;

(4) Sentenced, when the sentence has been fully executed.

(c) *Revocation of consent.* An individual whose release from confinement, probation, or parole is conditioned upon his participation in a treatment program may not revoke a consent given by him in accordance with paragraph (a) of this section until there has been a formal and effective termination or revocation of such release from confinement, probation, or parole.

(d) *Restrictions on redisclosure.* Any information directly or indirectly received pursuant to this section may be used by the recipients thereof only in connection with their official duties with respect to the particular individual with respect to whom it was acquired. Such recipients may not make such information available for general investigative purposes, or otherwise use it in unrelated proceedings or make it available for unrelated purposes.

§ 2.39-1 Criminal justice system referrals.—Basis and purpose.

(a) On the basis of extensive written comment and oral communications received on the subject matter of § 2.39 as proposed in the May 9, 1975 notice (designated as § 2.40 in that notice), we have concluded that the latitude allowed and the conditions imposed in § 2.39 as set forth above are necessary and proper to effectuate the purposes of the authorizing legislation.

(b) From a legal standpoint, it seems highly doubtful whether, in a proceeding to revoke probation or parole, the due process requirements laid down in *Morrissey v. Brewer*, 408 U.S. 471, 92 S.Ct. 2593, 33 L.Ed.2d 484 (1972) and *Gagnon v. Scarpelli*, 411 U.S. 778, 93 S.Ct. 1756, 36 L.Ed.2d 636 (1973) could be met by an unsupported general evaluation by a

treatment program to the effect that a patient's status or progress in treatment was unsatisfactory. Thus, if such an evaluation were all that could be communicated by a program about a particular patient's conduct during the period he was in treatment, a condition requiring satisfactory participation in a treatment program would to all intents and purposes become unenforceable. Moreover, if it were held to be enforceable, the operative decision on the revocation issue would then be made by the program, arguably exacerbating rather than alleviating its role-conflict problem. It may thus be the part of wisdom to confess that some degree of role-conflict is inherent in the situation of any program which accepts criminal justice referrals. If so, the issue then becomes that of finding the most constructive way to handle the conflict, rather than a sterile and futile effort to avoid it altogether.

(c) We are persuaded that in many instances a prohibition on free communication between probation officers and drug abuse program counsellors would have profoundly deleterious effects on the rehabilitative process. Many probation officers bring to their work a high degree of training, professionalism, and experience. They are under no illusion that they are dealing with a clientele which will never stumble or relapse, and if they have the information necessary to intervene at an early stage of such an episode, their intervention can often make the difference between success and failure for the client.

(d) There is, however, nothing in these regulations which precludes treatment programs from entering into agreements or arrangements with agencies or institutions of the criminal justice system to regulate or restrict the subject matter or form of communications of information about patients. For example, such an arrangement might provide for free oral communication between counsellors and probation officers, while restricting formal written reports by the program to specified types of so-called hard data such as attendance and urinalysis results. In view of widely differing conditions and attitudes in various parts of the country, substantial variations in such arrangements are not only expectable but desirable.

(e) A further aspect of this matter, which was not adequately considered or dealt with in the May 9 proposal, is the impact which the rules laid down in § 2.39 have on the bail decision. There is a high correlation between the disposition of the application for bail and the type of sentence which may be meted out upon conviction. The contrast between the recidivism rates for those who receive treatment and supervision, as against those who simply receive the punishment of incarceration, is a powerful argument against restrictions which would tend to narrow the circumstances under which conscientious judges can grant bail.

(f) It must be emphasized that § 2.39 in no way reduces the necessity to obtain written consent from patients, whether

or not referred by the criminal justice system, before disclosures for the purposes here involved can be made by programs. We have been urged to make an exception from the requirement of § 2.31 in the case of parolees and probationers, but such an exception would be wholly unsupported by the authorizing legislation. In fashioning these regulations, it is not our privilege to adorn a tabula rasa according to our own predilections: rather, it is our duty to interlineate a statute with fidelity to its spirit, its terms, and its purposes.

§ 2.40 Situations not otherwise provided for.—Rules.

(a) *Criteria for approval.* In any situation not otherwise specifically provided for in this subpart, where consent is given in accordance with § 2.31, a program may make a disclosure for the benefit of a patient from the records of that patient if, in the judgment of the program director or his authorized representative appointed as provided in § 2.17, all of the following criteria are met:

(1) There is no suggestion in the written consent or the circumstances surrounding it, as known to the program, that the consent was not given freely, voluntarily, and without coercion.

(2) Granting the request for disclosure will not cause substantial harm to the relationship between the patient and the program or to the program's capacity to provide services in general.

(3) Granting the request for disclosure will not be harmful to the patient.

(b) *Circumstances deemed beneficial.* For the purposes of this section, the circumstances under which disclosure may be deemed to be beneficial to a patient include, but are not limited to, those in which the disclosure may assist the patient in connection with any public or private claim, right, privilege, gratuity, grant or other interest accruing to, or for the benefit of, the patient or the patient's immediate family. Examples of the foregoing include welfare, medicare, unemployment, workmen's compensation, accident or medical insurance, public or private pension or other retirement benefits, and any claim or defense asserted or which is an issue in any civil, criminal, administrative or other proceeding in which the patient is a party or is affected.

§ 2.40-1 Situations not otherwise provided for.—Basis and purpose.

(a) Section 2.40 is based upon § 1401.23 of the previous regulations, amended to reflect the expansion made by the change in the law with respect to the permissible scope of consensual disclosures.

(b) A strong case can be made for the proposition that § 2.40 should, in effect if not expressly, require a program to make any disclosure requested by a patient. The discretion vested in the program, it can be argued, is at best an expression of overprotective paternalism; and at worst, an invitation to programs to cover up material potentially embarrassing to themselves. Bearing in

mind, however, that persons who have obtained the type of treatment to which this part applies are more vulnerable to pressures of various kinds than are patients in general, it seems preferable to retain some responsibility on the part of the program to protect the best interests of its patients in this very sensitive area. This, like many other choices which these regulations reflect, is a determination which can be reviewed and revised from time to time in the light of experience.

Subpart D—Disclosures Without Patient Consent

§ 2.51 Medical emergencies.—Rules.

(a) *In general.* Disclosure to medical personnel, either private or governmental, is authorized without the consent of the patient when and to the extent necessary to meet a bona fide medical emergency.

(b) *Food and Drug Administration.* Where treatment involves the use of any drug, and appropriate officials of the Food and Drug Administration determine that the life or health of patients may be endangered by an error in the manufacture or packaging of such drug, disclosure of the identities of the recipients of the drug may be made without their consent to appropriate officials of the Food and Drug Administration to enable them to notify the patients or their physicians of the problem in order that corrective action may be taken.

(c) *Incapacitated persons.* Where a patient is incapacitated and information concerning the treatment being given him by a program is necessary to make a sound determination of appropriate emergency treatment, such information may be given without the patient's consent to personnel providing such emergency treatment.

(d) *Notification of family or others.* When any individual suffering from a serious medical condition resulting from drug or alcohol abuse is receiving treatment at a facility which is within the scope of this Part the treating physician may, in his discretion, give notification of such condition to a member of the individual's family or any other person with whom the individual is known to have a responsible personal relationship. Such notification may not be made without such individual's consent at any time such individual is capable of rational communication.

(e) *Record required.* Any program making an oral disclosure under authority of this section shall make a written memorandum showing the patient's name or case number, the date and time the disclosure was made, some indication of the nature of the emergency, the information disclosed, and the names of the individuals by whom and to whom it was disclosed.

§ 2.51-1 Medical emergencies.—Basis and purpose.

The provisions of § 2.51 are adapted from § 1401.42 of the previous regulations, and are based on subsection (b) (2) (A) of the authorizing legislation. The

provision in the previous regulations with respect to patients who may be incarcerated is now covered in § 2.33 (b).

Paragraph (d) of § 2.51 is based upon the theory that the disclosure there allowed is of the patient's endangered condition, not his identity as a drug or alcohol abuse patient, and that the humanitarian necessity of such notification outweighs its potential for accidental violation of confidentiality.

§ 2.52 Research, audit, and evaluation.—Rules.

(a) *Research, audit, and evaluation.* Subject to any applicable specific provision set forth hereinafter in this subpart, the content of records pertaining to any patient which are maintained in connection with the performance of a function subject to this part may be disclosed, whether or not the patient gives consent, to qualified personnel for the purpose of conducting scientific research, management audits, financial audits, or program evaluation, but such personnel may not identify, directly or indirectly, any individual patient in any report of such research, audit, or evaluation, or otherwise disclose patient identities in any manner. For the purposes of this subpart and for the purposes of subsection (b) (2) (B) of the authorizing legislation, the term "qualified personnel" means persons whose training and experience are appropriate to the nature and level of the work in which they are engaged and who, when working as part of an organization, are performing such work with adequate administrative safeguards against unauthorized disclosures.

(b) *Use of disclosures of patient identifying information.*

(1) Where a disclosure made to any person pursuant to paragraph (a) of this section includes patient identifying information with respect to any patient, such information may not be further disclosed, and may not be used in connection with any legal, administrative, supervisory, or other action whatsoever with respect to such patient, except as provided in paragraphs (b) (2) and (b) (3) of this section.

(2) The inclusion of patient identifying information in any written or oral communication between a person to whom a disclosure has been made pursuant to paragraph (a) and the program making such disclosure does not constitute the identification of a patient in a report or otherwise in violation of paragraph (a).

(3) Where a disclosure is made pursuant to paragraph (a) of this section to a person qualified to determine, on the basis of such disclosure, the presence of a substantial risk to the health and well being, whether physical or psychological, of any patient, and, in the judgment of such person, such a risk exists and the situation cannot be dealt with solely by means of communications as described in paragraph (b) (2) of this section without intensifying or prolonging the risk as compared with other means of dealing with it, then the initial disclosure under paragraph (a) and any subsequent dis-

closure or redisclosure of patient identifying information for the purpose of reducing the risk to the patient involved shall be subject to the provisions of § 2.51.

§ 2.52-1 Research, audit, and evaluation.—Basis and purpose.

(a) *General purpose.* Subsection (a) of this section is adapted directly from subsection (b) (2) (B) of the authorizing legislation. The purpose of each is the same: To facilitate the search for truth, whether in the context of scientific investigation, administrative management, or broad issues of public policy, while at the same time safeguarding the personal privacy of the individuals who are the intended beneficiaries of the process or program under investigation. This subpart in particular, and this part as a whole, are intended to aid in carrying out that purpose.

(b) The succeeding sections of this subpart deal with problems which arise in connection with disclosures made for certain specific purposes which have been interpreted as falling within the general purposes embraced by § 2.52. Those sections will be best understood, however, in the light of some discussion of the underlying premises of the general rule, and its relationship to two other legal concepts: the right of privacy, and the duty to obtain informed consent from research subjects.

(c) *The Right of Privacy.* So far as is relevant to this discussion, we may consider the right of privacy in two aspects. One, a protection against improper governmental activity, is the right to be secure against unreasonable searches and seizures guaranteed by the Fourth Amendment, with some expansion from the penumbras of the Fifth and Sixth Amendments. The protections afforded to patients by the authorizing legislation, not to mention these regulations, go far beyond those which are constitutionally required.

(d) The other aspect of the right of privacy, which has sometimes been described as the right to be left alone, is the notion that an individual has a right not to be hurt by intrusions into his essentially personal concerns, or to have essentially private information exploited for commercial gain, whether or not the intrusion or exploitation is in connection with any possible governmental action against him. The courts have spoken of a right of privacy in a wide variety of contexts, but they have repeatedly and explicitly rejected the notion that anyone has a right to go about his daily affairs encapsulated in an impenetrable bubble of anonymity. The courts have been careful to weigh the competing interests, and the social interest in valid research and evaluation is clearly of sufficient moment to be considered in this process.

(e) In defense of the position that disclosure of patient identifying information even for carefully guarded scientific research should be permitted only on a consensual basis, two dominant lines of argument, somewhat interrelated, have emerged. One is that retrospective

studies are of questionable value in any case, and the other is that a sampling technique involving informed consent on the part of the members of the sample can always be used to develop the information sought. Neither line of argument will withstand careful scrutiny.

(f) It is true, of course, that the efficacy of a given therapeutic agent can often best be evaluated by means of a well-designed prospective study in which special recordkeeping procedures, special criteria for patient selection, and an appropriate control have all been established with a view to the purpose of the study. There are, however, many important investigations which simply do not lend themselves to such a format. Sometimes the desirability or even the possibility of a particular study does not suggest itself except in retrospect. Another important consideration is the fact that knowledge that an investigation is going on may influence the behavior of patients, clinicians, or both. Where such knowledge can influence the make-up of a sample, it will normally do so in the direction of favorable outcomes, but to an unknown degree, thus tending to invalidate the results reported.

(g) While the sample technique has its uses, especially with populations that are unmanageably large, it is often less difficult and expensive, and less likely to interfere with the actual conduct and outcomes of treatment or rehabilitation processes, to use the full population under study. Even more important than economy and administrative convenience in carrying out a study, there may be an overriding advantage in terms of eliminating any question as to the validity of the results of the study on the ground of bias in the selection of the sample.

(h) *Informed Consent.* The duty to obtain informed consent is obvious and compelling in situations where an individual is exposed to the possibility of harm, either physical or psychological, as a consequence of medical procedures, research, or similar activities. Where such a situation exists the person conducting the research or medical procedure violates his duty to the subject or patient if he proceeds without obtaining the voluntary informed consent from the individual or his legally authorized representative. Thus, in conducting an activity which places the subject or patient at risk the practitioner may not give precedence to a hidden agenda, even for so lofty a motive as the advancement of knowledge. In this regard, see the Department of Health, Education and Welfare's Protection of Human Subjects Regulations, 45 CFR Part 46. Those regulations are applicable to all Department of Health, Education and Welfare grants and contracts supporting research, development and related activities involving human subjects.

(1) It is apparent that the foregoing rationale for requiring informed consent does not apply to the same degree in situations involving the disclosure of clinical records for research in the form of follow-up or retrospective studies. Under these circumstances the risk to the

subject is that some disclosure or misuse of information from which he could be identified might result in embarrassment, lost opportunities, or other forms of psychological or social injury. While that possibility of harm could be reduced by requiring consent to every review of clinical records for research purposes, a similar result can be achieved by the less restrictive method of limiting further disclosure of identifying information by the researcher. Given the applicability of this alternative, equally effective means for protecting a patient or subject from the possibility of a harmful public disclosure, it is unreasonable to insist upon informed consent to every review of clinical records for the purposes of conducting legitimate research, particularly since such insistence could lead to the ultimate absurdity of prohibiting efforts to identify the nature and source of an unknown plague simply because the patients or researcher lacked the clairvoyance to have consent forms signed prior to the onset of the affliction.

(j) In sum, there are restraints on certain means of governmental acquisition of information about individuals which are operative irrespective of how the information is used, and there are restraints on the uses of information which are independent of how or by whom it is acquired, but they do not and should not add up to the proposition that the use of information about a person is either morally or legally the absolute prerogative of that person to determine.

(k) For all of these reasons, the authorizing legislation expressly provides that patient consent is not required with respect to disclosures for research, audit, and evaluation, nor does it prohibit individual patient identification in connection with such disclosures. While it is entirely appropriate to impose safeguards and procedures in connection with these activities, it would be wholly inappropriate to use the rulemaking process to impose an absolute requirement of patient consent with respect to activities which by statute may be conducted without it.

(l) *Classification of activities.* It is clear that Congress intended a balancing of the social interest in the validity of the results of inquiry, on the one hand, with the individual interest in anonymity, on the other, all within the limits set by the legislation and the constitution. With that objective in mind, we may now turn to the various categories of activities which come within the purview of this subpart.

(m) These activities may be classified first, in regard to whether participation is voluntary from the standpoint of the program, and second, as to whether the objective is to ascertain compliance with predetermined standards (examinations as defined in § 2.54, and program evaluation as defined in § 2.11(g)(1)), or to ascertain the validity of a given standard or hypothesis (scientific research, and program evaluation as defined in § 2.11(g)(2)). The application of the foregoing classifications logically results in

the creation of four categories of activities. Three of them are specifically dealt with in the succeeding sections of this subpart and need not detain us here; the fourth is discussed below.

(n) *Scientific research and evaluation.* Beyond the bare restatement of the authorizing legislation set forth in § 2.52, these regulations are deliberately silent with respect to purely voluntary scientific research and program evaluation in the sense defined in § 2.11(g)(2). Testimony and written comments received on the August 22, 1974 draft regulations were noteworthy in two respects. First, no instances of abuse on the part of persons acquiring patient identifying information under these circumstances were cited. Second, while there was some well-founded criticism of the attempt in that draft to provide guidelines for determining what is scientific research and who is qualified to do it, no usable alternatives—indeed, almost no alternatives at all—were forthcoming.

(o) In one of the written comments, the writer cautioned against any assumption "that our major remaining problems in drug and alcohol abuse treatment are prevention of illicit diversion and protection of confidentiality," and suggested "that we still have a problem in discovering, testing and evaluating improved treatment techniques. To do this," he continued, "one should place minimal obstacles in the way of bona fide clinical and epidemiologic research!"

(p) The result of leaving the rule as it is in the statute, without attempting to sharpen its outlines or define its terms, will be to leave it for interpretation on a case-by-case basis by those who must apply it in practice: the researchers who seek the information, and the programs which supply it. This does not foreclose the possibility of amending the regulations on the basis of experience if it appears either that clinicians are becoming so cautious that research and evaluation studies are being choked off, or that abuses are occurring in the use of information disclosed. But until a need for more detailed regulation in this area is demonstrated, we think its imposition would do more harm than good.

§ 2.53 Governmental agencies.—Rules.

(a) *In general.* Where research, audit, or evaluation functions are performed by or on behalf of a State or Federal governmental agency, the minimum qualifications of personnel performing such functions may be determined by such agency, subject to the provisions of this part, with particular reference to the organizational requirements and limitations on the categories of records subject to review by different categories of personnel.

(b) *Financial and administrative records.* Where program records are reviewed by personnel who lack either the responsibility for, or appropriate training and supervision for, conducting scientific research, determining adherence to treatment standards, or evaluating treatment as such, such review should be confined as far as practicable to adminis-

trative and financial records. Under no circumstances should such personnel be shown caseworker or counsellor notes, or similar clinical records. Programs should organize their records so that financial and administrative matters can be reviewed without disclosing clinical information and without disclosing patient identifying information except where necessary for audit verification.

(c) *Scientific research and long-term evaluation studies.* No State and no agency or political subdivision of a State may require, as a condition to funding, licensing, or otherwise, that any program furnish patient identifying information for the purpose of conducting scientific research or long-term evaluation studies unless the recipient of such information is legally required to hold such information in confidence, is prohibited from taking any administrative, investigative, or other action with respect to any individual patient on the basis of such information, and is prohibited from identifying, directly or indirectly, any individual patient in any report of such research or evaluation, or otherwise disclosing patient identities in any manner.

(d) *Opinion and description to be furnished program.* Before any patient identifying information is required to be submitted by a program under the circumstances described in paragraph (c), the program shall be furnished—

(1) An opinion by the attorney general or other chief legal officer of the State to the effect that the conditions specified in paragraph (c) are fulfilled with respect to such program or with respect to all programs in such State similarly situated, and

(2) A description of the administrative procedures and physical limitations on access or other measures to provide for the security of the data, but such description shall not be in such detail as to furnish guidance for wrongful attempts to breach such security.

(e) *Exclusiveness of procedures.* No State or local governmental agency may require any treatment program to furnish patient identifying information to itself or any other recipient except in conformity with this section or § 2.54. No Federal agency may require any treatment program to furnish patient identifying information to itself or any other recipient except in conformity with this section (other than paragraph (d) (1) thereof) or § 2.54.

§ 2.53-1 Governmental agencies.—Basis and purpose.

Section 2.53 is an implementation of the authority contained in subsection (g) of the authorizing legislation to provide safeguards and procedures to effectuate the purposes of such legislation. It makes clear that whenever information is required of a program, whether by law or by the terms or conditions of a contract or grant, the procedures and safeguards required under this section are applicable.

§ 2.54 Patient identifying information in connection with examinations.—Rules.

(a) *Definitions.* For the purposes of this section—

(1) The term “examination” means any examination to which this section is made applicable by paragraph (b) of this section.

(2) The term “examiner” means any individual or any public or private organization, including any Federal, State, or local governmental agency, which conducts an examination to which this section applies.

(b) *Applicability.* This section applies to any examination of the records of a treatment program which is carried out for the purpose of or as aid to ascertaining the accuracy or adequacy of its financial or other records, or the efficiency or effectiveness of its financial, administrative, or medical management, or its adherence to financial, legal, medical, administrative, or other standards, regardless of whether such examination is called an audit, an evaluation, an inspection, or by any other name.

(c) *Statement required for disclosure of patient identifying information in connection with examination.* No program may make, and no examiner may require, any disclosure of patient identifying information in connection with an examination unless the examiner furnishes to the program a written statement—

(1) that no record of patient identifying information will be made or retained by or on behalf of the examiner in connection with the examination without notice to the program in accordance with paragraph (c) (2) of this section, or

(2) setting forth the specific purpose for which a record of patient identifying information is being retained by or on behalf of the examiner, the location at which such information will be kept, and the name, official title, address, and telephone number of a responsible individual to whom any inquiries by the program about the disposition of such record should be directed.

(d) *Disposition of record of patient identifying information in connection with examination.* After any record of patient identifying information retained in connection with an examination has served its purpose, or within the time prescribed in paragraph (e) of this section, whichever is earlier, the examiner shall destroy or return to the program all records (including any copies thereof) containing patient identifying information which have been in its possession in connection with such examination.

(e) *Maximum time allowed for disposition.* The action required by paragraph (d) shall be completed—

(1) Except as provided in paragraph (e) (2) of this section not more than two years after the record was acquired by or on behalf of the examiner, or

(2) Where the record is needed in connection with a formal legal proceeding against the program commenced or to be commenced not more than two years after the record was acquired, and writ-

ten notice to this effect is furnished to the program within two years after the record was acquired, not later than the termination of such proceeding.

(f) *Notice of final disposition.* When an examiner disposes of records as required by paragraph (d) of this section, or not later than the time prescribed by paragraph (e) of this section, whichever is earlier, the examiner shall furnish to the program concerned a written statement—

(1) That there has been compliance with this section and with the provisions of this part prohibiting any disclosure of patient identifying information from records held by auditors or evaluators, or

(2) Specifying the particulars in which there has been a failure of compliance.

§ 2.54-1 Patient identifying information in connection with examinations.—Basis and purpose.

Confidence on the part of treatment program personnel in the integrity of auditing and regulatory processes is important to the effective functioning of the treatment system. It is the purpose of § 2.54 to foster practices which will both justify and engender such confidence.

§ 2.55 Supervision and regulation of narcotic maintenance and detoxification programs.—Rules.

(a) *Definition of “registrant”.* For the purposes of this section, the term “registrant” means a person who (1) has pending an application for registration under section 303(g) of the Controlled Substances Act (21 U.S.C. 823(g)), or (2) has been registered under such section and whose registration has not expired or been surrendered or revoked.

(b) *Drug Enforcement Administration.* Duly authorized agents of the Drug Enforcement Administration shall have access to the premises of registrants for the purpose of ascertaining compliance (or ability to comply) with standards established by the Attorney General under section 303(g) (2) of the Controlled Substances Act (21 U.S.C. 823(g) (2)) respecting the security of stocks of narcotic drugs and the maintenance of records (in accordance with section 307 of the Controlled Substances Act, 21 U.S.C. 827) on such drugs. Registrants shall maintain such records separate from and in addition to patients’ clinical records required to be maintained under 21 CFR 310.505 (d) (7) (iii), which shall not be available to such agents except as authorized under a court order in accordance with Subpart E of this part. Records maintained by registrants for the purposes of section 307 of the Controlled Substances Act (21 U.S.C. 827) need not identify patients by name, address, social security number, or otherwise except by an identifying number assigned by the registrant, but where such a system is used, the registrant shall maintain on a current basis a cross-index referencing each identifying number to the name and address of the patient to whom it refers. Upon request at any time and without advance notice, but subject to the pro-

visions of § 2.54, such agents shall be granted immediate access to any such index. Such agents may use names and addresses so obtained strictly for the purposes of auditing or verifying program records, and shall exercise all reasonable precautions to avoid inadvertent disclosure of patient identities to third parties. Names and other identifying information so obtained may not be compiled or used in any registry or personal data bank of any description.

(c) *Food and Drug Administration.* Duly authorized agents of the Food and Drug Administration shall have access to the premises of registrants and to all records maintained by registrants, for the purpose of ascertaining compliance (or ability to comply) with standards established by the Secretary of Health, Education and Welfare under section 4 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (42 U.S.C. 257a), sections 303(g)(1) and 303(g)(3) of the Controlled Substances Act (21 U.S.C. 823(g)(1) and 823(g)(3)), and sections 505 and 701(a) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355 and 371(a)). When necessary in the conduct of their duties, and subject to the provisions of § 2.54, agents may use names and addresses of patients strictly for the purposes of auditing or verifying program records, and shall exercise all reasonable precautions to avoid inadvertent disclosure of patient identities to third parties. Names and other identifying information on patients obtained pursuant to this section or by any other compulsory process may not be compiled or used in any registry or personal data bank of any description. Except as authorized under this paragraph or by a court order granted under Subpart E of this part, (1) such agents may not, either orally or in writing, except in conversation with personnel of the registrant while on the premises of the registrant, identify any patient otherwise than by reference to an identifying number assigned by the registrant, and (2) such agents may not remove from the premises of the registrant any notes, documents, or copies thereof which contain patient identifying information.

(d) *State drug law enforcement agencies.* Duly authorized agents of any State drug law enforcement agency having jurisdiction and specific responsibility by statute or otherwise for the enforcement of criminal laws relating to controlled substances (as defined in the Controlled Substances Act) shall have access to the premises of any registrant for the purposes (with respect to corresponding provisions, if any, of State law) and subject to the restrictions and limitations set forth in paragraph (b) of this section, and subject to § 2.54.

(e) *State health authorities.*

(1) *Definition of "qualified State health agency".* As used in this paragraph, the term "qualified State health agency" means an agency of State government (i) which has express legal responsibility to ascertain that registrants under its jurisdiction comply with appropriate treatment standards; (ii)

which is legally and administratively separate from any agency of State government responsible for investigation of violations of, or enforcement of, criminal law generally or criminal laws relating to controlled substances; (iii) whose personnel are qualified by training or experience to conduct inspections of health care facilities to ascertain compliance with treatment standards; and (iv) whose personnel are by State law, or by published administrative directive enforced by effective sanctions, required to maintain the confidentiality of any information concerning the identity of patients which they may acquire in the course of their official duties.

(2) *Access.* Duly authorized agents of a qualified State health agency shall have access to the premises of registrants and to all records maintained by registrants, for the purpose of ascertaining compliance (or ability to comply) with treatment standards (including those relating to quantities of narcotic drugs which may be provided for unsupervised use by individuals in treatment) established under State law. Such access, and the use of any information thereby obtained, shall be subject to the restrictions and limitations set forth in paragraph (c) of this section, and subject to § 2.54.

§ 2.55-1 Supervision and regulation of narcotic maintenance and detoxification programs.—Basis and purpose.

(a) Section 2.55 is addressed to the general problem described in the following passage from the legislative history of Pub. L. 93-282:

A major element of the task of fashioning new regulations pursuant to the express rulemaking authority conferred by this legislation will be to reconcile the sometimes conflicting interests of research, audit, and evaluation with rights of privacy and the confidentiality of the relationship between patient and clinician. Such a reconciliation becomes particularly crucial where the functions of research, audit, or evaluation are conducted by a governmental agency with regulatory powers and responsibility, and the treatment involves the use of a drug such as methadone which is in a research status or which is readily susceptible of misuse or illicit diversion.

Because of the difficulty and complexity of the task, the rulemaking authority is intentionally cast in terms broad enough to permit the limitation of the scope, content, or circumstances of any disclosure under subsection (b), whether (b)(1) or (b)(2), in the light of the necessary purposes for which it is made or required. (Congressional Record, daily edition, May 6, 1974, page H3563).

(b) It has been the consistent interpretation of the Special Action Office for Drug Abuse Prevention that the only provision of the authorizing legislation which permits disclosures to compliance officers, whether of DEA, FDA, or state agencies, is subsection (b)(2)(B). That subsection strictly prohibits any further disclosure of names or other identifying information concerning patients, and the statutory prohibition has been buttressed by provisions of these regulations, notably § 2.54, providing safe-

guards and procedures to assure that the statutory prohibition is respected.

(c) In testimony and written comment on the August 22, 1974 draft of these regulations, it has been urged that access to patient identifying information by law enforcement personnel, even for the limited purposes allowed by statute and regulation, should be prohibited except pursuant to a court order obtained under 21 U.S.C. 1175(b)(2)(C). We believe that such a prohibition is beyond our power to impose.

(d) Section 307(b) of the Controlled Substances Act (21 U.S.C. 827) provides, in pertinent part, "Every * * * record required under this section * * * shall be kept and be available, for at least two years, for inspection and copying by officers or employees of the United States authorized by the Attorney General." It is a well known principle of statutory construction that amendments and repeals by implication are not favored. In *People v. Newman*, 32 N.Y.2d 379, 345 N.Y.S.2d 502, 298 N.E.2d 651 (1973), cert. denied 414 U.S. 1163, 94 S.Ct. 927, 39 L. Ed. 2d 116 (1974), the United States filed *amicus* briefs with the Court of Appeals of New York and with the United States Supreme Court, arguing that section 408 of Pub. L. 92-255 (21 U.S.C. 1175) did not effect an implied amendment or repeal of the provisions of Pub. L. 91-513 (21 U.S.C. 872(c) and 42 U.S.C. 242a(a)) which confer on the Attorney General and the Secretary of Health, Education, and Welfare the power to grant the so-called research privilege discussed in § 2.24. This position was expressly adopted by the New York court. We cannot now take the inconsistent position that section 408 of Pub. L. 92-255 did indeed amend by implication section 307 of Pub. L. 91-513, particularly in the face of a contrary contemporaneous administrative interpretation by both the Special Action Office for Drug Abuse Prevention and the Department of Justice. In short, if the right of access and copying conferred on Federal agents by 21 U.S.C. 827 is to be amended to provide that it may only be exercised pursuant to a court order in the case of maintenance and detoxification programs, that is a change which must be wrought by the Congress.

(e) In the case of inspections carried out by health supervisory agencies, we think that denial of access to any documents showing patient identifying information may have a serious adverse effect on the validity of the inspection process. Even if a program keeps its own records in terms of patient-identifying numbers assigned by the program, the patient file may contain—may, indeed, be required to contain—documents signed by the patient or originating outside the program. Where signatures, names, and addresses are all obliterated, it is impossible for the inspector to check the file even for apparent internal consistency. We believe that outright forgery is and will remain a rarity, but the temptation to cover improper or inadequate documentation by "accidental misfilings" may be something else again.

(f) From a legal standpoint, the term "audit" has long comprehended the notion of external verification. In a commercial setting, this means that at least some inventory will actually be counted, at least some receivables will be verified by contacting the customers, and so on. To rule that this crucial aspect of the audit process cannot be carried out with respect to a treatment program until after the auditor goes through the procedure of obtaining a specific court order under subsection (b) (2) (C) would seem to contravene the intent of subsection (b) (2) (B).

(g) In all of this, our decisions must be illuminated by a balanced consideration of the best interests of the patient no less than a desire to foster the implementation of cherished values in society at large. If protection of the patient's right to privacy is achieved by means which seriously impair our ability to protect him from exploitation and malpractice, not to mention the diversion of funds intended for his benefit, it would be a hollow victory indeed. We believe that the procedures and safeguards which these regulations impose on the conduct of audits and evaluations will avoid that result, while affording substantial and meaningful new protection to the confidentiality of patient records.

§ 2.56 Prohibition on disclosure of patient identities from research, audit, or evaluation records—Rules.

Where the content of patient records has been disclosed pursuant to this subpart for the purpose of conducting scientific research, management audits, financial audits, or program evaluation, information contained therein which would directly or indirectly identify any patient may not be disclosed by the recipient thereof either voluntarily or in response to any legal process whether Federal or State. This prohibition does not affect the accessibility of the original records under authority of a court order referred to in subpart E.

§ 2.56-1 Prohibition on disclosure of patient identities from research, audit, or evaluation records—Basis and purpose.

Section 2.56 restates the prohibition on further disclosure which is contained in subsection (b) (2) (B) of the authorizing legislation. The relationship of the provisions authorizing court orders to the provisions authorizing disclosure for research, audit, and evaluation, is dealt with in § 2.62.

Subpart E—Court Orders

§ 2.61 Legal effect of order—Rules.

Subsection (b) (2) (C) of the sections which authorize this part (21 U.S.C. 1175 and 42 U.S.C. 4582) empowers the courts, in appropriate circumstances, to authorize disclosures which would otherwise be prohibited by subsection (a) of those sections. Subsection (b) (2) (C) operates only as a mechanism for the relief of the duty imposed by subsection (a) and not as an affirmative grant of jurisdiction to

authorize or compel disclosures prohibited or privileged by other provisions of law, whether Federal or State. An order or provision of an order based on some other authority, or a subpoena, or other appropriate legal process, is required to compel disclosure. To illustrate, if a person who maintains records subject to this part is merely requested, or is even served with a subpoena, to disclose information contained therein in a manner prohibited in the absence of a court order, he must refuse such a request unless, and until, an order is issued under subsection (b) (2) (C). Such an order would remove the prohibition, but could not, of its own force, require disclosure. If there were no subpoena or other compulsory process, or a subpoena had been issued but had expired or been quashed, the custodian of the records would have discretion as to whether to disclose the information sought unless and until disclosure were ordered by means of appropriate legal or administrative process, the authority for which would have to be found in some source other than subsection (b) (2) (C) of the sections authorizing this part.

§ 2.61-1 Legal effect of order—Basis and purpose.

(a) Section 2.61 is a restatement of the interpretative rules embodied in §§ 1401.61 and 1401.62 of the previous regulations. Both the positioning of the authority to issue court orders in S. 2097 as initially passed by the Senate (92nd Congress, 1st Session, December 2, 1971) and the explicit cross-reference in section 408(a) of Pub. L. 92-255 make clear the congressional intent that section 408(b) (2) (C) operate as a mechanism for the relief of the 408(a), strictures and not as an affirmative grant of jurisdiction to authorize disclosures prohibited by other provisions of law, whether Federal or State.

(b) The amendment made by Pub. L. 93-282 to section 333 of the Alcoholism Act (42 U.S.C. 4582) was enacted with the same language and structure as section 408 in this regard in order to make the interpretative rules set forth in § 2.61 applicable to it.

§ 2.62 Inapplicability to secondary records—Rules.

The authority which subsection (b) (2) (C) of the sections which authorize this part (21 U.S.C. 1175 and 42 U.S.C. 4582) confers on courts to issue orders authorizing the disclosure of records applies only to records referred to in subsection (a) of such sections, that is, the records maintained by treatment or research programs which have patients, and not to secondary records generated by the disclosure of the subsection (a) records to researchers, auditors, or evaluators pursuant to subsection (b) (2) (B).

§ 2.62-1 Inapplicability to secondary records—Basis and purpose.

(a) The interpretative rule set forth in § 2.62 is an essential and basic limitation on the scope of (b) (2) (C) orders. It was part of the original regulations under section 408 of Pub. L. 92-255 pub-

lished November 17, 1972 (37 FR 24638), and was carried forward unchanged in the amended regulations published December 6, 1973 (38 FR 33748), the special status of which has already been noted in § 2.3. See, also, § 2.61-1.

(b) Although this rule is well supported by the history and technical structure of the legislation, the policy considerations in its favor are even more compelling. In § 2.52-1, we have discussed the urgent necessity for access, even without patient consent, to patient records on the part of qualified personnel engaged in scientific research and evaluation. Where this access includes patient identifying information, as it sometimes must if vital work is to be done, there must not be any question whatsoever about the legal inviolability of its confidential status in the hands of the researcher. Granted, there may occur rare occasions when the original records are for some reason not available, where a (b) (2) (C) order would lie as to the original records, and where there would seem to be some advantage in the administration of justice for such an order to permit disclosure of identifying information by the researcher. But compared to the damage which the mere potentiality for access does to the whole research enterprise, the advantage in terms of ability to deal with rare and anomalous cases seems almost trivial. Even in those cases, denial of access to the party seeking the information leaves him in no worse position than if the research or evaluation, which was certainly not undertaken for his benefit, had never been done at all.

(c) Where the secondary records are generated under the circumstances described in § 2.54, of course, this argument does not apply. In that situation, if preliminary examination suggests that the records may be needed for compliance or other administrative or judicial proceedings, the person conducting the audit or other examination should promptly seek the authority of a court order to copy the original records. The use of secondary records thus generated under authority of a court order would then be limited by the terms and purposes of the order, rather than subsection (b) (2) (B) of the authorizing legislation, and thus the rule set forth in § 2.62 would not apply.

§ 2.63 Limitation to objective data—Rules.

(a) *Limitation to objective data.* Except as provided in paragraph (b) of this section, the scope of an order issued pursuant to this subpart may not extend to communications by a patient to personnel of the program, but shall be limited to the facts or dates of enrollment, discharge, attendance, medication, and similar objective data, and may include only such objective data as is necessary to fulfill the purposes for which the order is issued.

(b) *Exception.* When a patient in litigation offers testimony or other evidence pertaining to the content of his communications with a program, an order under this subpart may authorize

the submission of testimony or other evidence by the program or its personnel.

§ 2.63-1 Limitation to objective data.—Basis and purpose.

In the three-year period subsequent to the original enactment of 21 U.S.C. 1175, not a single occasion was reported to the Special Action Office for Drug Abuse Prevention on which an attempt was made to secure a (b) (2) (C) order authorizing the disclosure of a confidential communication by a patient to a counsellor or other member of the staff of a treatment program. In all of the comments and testimony received on the draft regulations published August 22, 1974, there was nothing to suggest any circumstances under which a court order authorizing such a disclosure would be either desirable or appropriate. Yet the mere possibility that such an order might be issued is to some a source of anxiety which impairs the effectiveness of treatment. Such an ongoing negative effect clearly outweighs the remote theoretical possibility that some peculiar circumstance might arise in which judicial authorization for such a disclosure might be sought. Accordingly, the limitation imposed by § 2.63 on the scope of (b) (2) (C) orders to preclude that possibility, and hence to eliminate its adverse influence on treatment services, appears to be a proper exercise of rulemaking power.

§ 2.64 Procedures and criteria in general—Rules.

(a) *Identity of patient.* Applications for court orders to authorize disclosure of records pertaining to a known patient shall not use the real name of the patient unless the patient consents thereto voluntarily and intelligently. In the case of an *ex parte* application initiated by the patient, the application should be instituted in the name of a fictitious person, such as Jon Doe, unless the patient requests otherwise. The same procedure should be followed in the case of a separate proceeding held in conjunction with a pending criminal or civil action. Any court order should identify the patient fictitiously, and the disclosure of the patient's real name should be communicated to the program in such manner as to protect the confidentiality of the patient's identity.

(b) *Notice.* In any proceeding not otherwise provided for in this subpart, in which the patient or the program has not been made a party, each shall be given appropriate notice and an opportunity to appear in person or to file a responsive statement, deposition or other form of response consistent with local rules of procedure. The court shall give due consideration to any such statement, deposition or other response in exercising its discretion as to the existence of good cause and, if deemed necessary or desirable, consistent with local rules of procedure, it may order the program director to appear and give direct testimony.

(c) *Hearings.* All hearings and all evidence in connection therewith shall be

held or taken in the judge's chambers, unless the patient requests an open hearing or the court determines that such hearing is consistent with the public interest and the proper administration of justice.

(d) *Good cause.* No order shall be issued unless the record shows that good cause exists, and in assessing good cause, the court shall weigh the public interest and the need for disclosure against the injury to the patient, to the physician-patient relationship, and to the treatment services.

(e) *Need for disclosure.* If other competent evidence or sources of information are available, the court should ordinarily deny the application.

(f) *Adverse effects.* If there is evidence that disclosure would have an adverse effect upon successful treatment or rehabilitation of the patient or would impair the effectiveness of the program, or other programs similarly situated, in the treatment or rehabilitation of other patients, the application should be denied unless the court finds that the adverse effects are outweighed by other factors.

(g) *Content of order.* Any order authorizing disclosure shall—

(1) Limit disclosure to those parts of the patient's record deemed essential to fulfill the objective for which the order was granted;

(2) Limit disclosure to those persons whose need for information is the basis for the order; and

(3) Include any other appropriate measures to keep disclosure to a minimum for the protection of the patient, the physician-patient relationship and the treatment services.

(h) *Applications not otherwise provided for.* In any case not otherwise provided for in this subpart, application for an order authorizing disclosure of records to which this part applies may be made by any person who has a legally cognizable interest in obtaining such disclosure.

§ 2.64-1 Procedures and criteria in general.—Basis and purpose.

Section 2.64, in accordance with subsection (g) of the authorizing legislation, sets out procedures and criteria for the issuance of (b) (2) (C) orders in general, subject to the more specific provisions with respect to particular types of proceedings covered in the succeeding sections of this subpart.

§ 2.65 Investigation and prosecution of patients.—Rules.

(a) *Applicability.* This section applies to any application by an investigative, law enforcement, or prosecutorial agency for an order to permit disclosure of patient records for the purpose of conducting an investigation or prosecution of an individual who is, or who is believed to be, a present or former patient in a program.

(b) *Notice.* Except where an order under § 2.66 is sought in conjunction with an order under this section, any program with respect to whose records an order is sought under this section shall be notified of the application and

afforded an opportunity to appear and be heard thereon.

(c) *Criteria.* A court may authorize disclosure of records pertaining to a patient for the purpose of conducting an investigation of or a prosecution for a crime of which the patient is suspected only if the court finds that all of the following criteria are met:

(1) The crime was extremely serious, such as one involving kidnapping, homicide, assault with a deadly weapon, armed robbery, rape, or other acts causing or directly threatening loss of life or serious bodily injury, or was believed to have been committed on the premises of the program or against personnel of the program.

(2) There is a reasonable likelihood that the records in question will disclose material information or evidence of substantial value in connection with the investigation or prosecution.

(3) There is no other practicable way of obtaining the information or evidence.

(4) The actual or potential injury to the physician-patient relationship in the program affected and in other programs similarly situated, and the actual or potential harm to the ability of such programs to attract and retain patients, is outweighed by the public interest in authorizing the disclosure sought.

(d) *Scope.* Both disclosure and dissemination of any information from the records in question shall be limited under the terms of the order to assure that no information will be unnecessarily disclosed and that dissemination will be no wider than necessary. Under no circumstances may an order under this section authorize a program to turn over patient records in general, pursuant to a subpoena or otherwise, to a grand jury or a law enforcement, investigative, or prosecutorial agency.

(e) *Counsel.* Any application to which this section applies shall be denied unless the court makes an explicit finding to the effect that the program has been afforded the opportunity to be represented by counsel independent of counsel for the applicant, and in the case of any program operated by any department or agency of Federal, State, or local Government, is in fact so represented.

§ 2.65-1 Investigation and prosecution of patients.—Basis and purpose.

(a) The need for objective criteria for the issuance of court orders in connection with investigation or prosecution of patients seems particularly pressing. In the absence of such criteria, the assurance of confidentiality otherwise provided for by the authorizing legislation may be felt to be of little value.

(b) It has not been found possible to frame entirely satisfactory rules for the scope of orders under § 2.65, but an illustration may be helpful. Where a witness to a crime is believed capable of identifying a suspect by appearance, and the criteria set forth in § 2.65(c) are met, and the program has photographs of its patients, the witness alone may be permitted to view the photographs, with no names attached. If the witness failed to identify any photograph as being a pic-

ture of the suspect, that would end the matter. If there was such an identification, the program would be authorized to give any information in its possession as to the suspect's identity and whereabouts to appropriate authorities.

(c) It is not the purpose of this section to substitute a mechanical formula for judicial discretion, but rather to provide criteria which define the area within which discretion is to be exercised. The reason for including all crimes committed on program premises or against program personnel is not any special solicitude for programs as opposed to other victims of crime, but is rather the result of the special difficulties which the broad definition of "records" in § 2.11(o) creates for program personnel as complaining witnesses.

(d) In regard to § 2.65(e), experience has demonstrated that independent counsel may be of crucial importance. The leading case construing 21 U.S.C. 1175, *People v. Newman*, 32 N.Y.2d 379, 345 N.Y.S.2d 502, 298 N.E.2d 651 (1973); certiorari denied, 414 U.S. 1163, 94 S.Ct. 927, 39 L. Ed.2d 116 (1974), would never have been presented to the courts but for the fact that legal counsel for Dr. Newman was furnished on a *pro bono publico* basis by a private law firm. In an entirely different case, a United States District Court appears to have issued a wholly inappropriate order under 21 U.S.C. 1175 in a case in which the treatment program involved was operated by an agency of the United States Government, and either was unrepresented, or was represented by the same attorney who represented the agency seeking the order. It is possible, of course, that the order would have been issued in any event, but it seems clear that there was no adequate presentation to the court of arguments or testimony in opposition. It is difficult to see how the purposes of subsection (b) (2) (C) of the authorizing legislation can be carried out if there is inadequate presentation of the issues to the courts which must decide them.

§ 2.66 Investigation and prosecution of programs.—Rules.

(a) *Applicability.* This section applies to any application by an administrative, regulatory, supervisory, investigative, law enforcement, or prosecutorial agency for an order to permit disclosure of patient records or the making of copies thereof (including patient identifying information) for the purpose of conducting an investigation or an administrative or judicial proceeding with respect to any program or any principal, agent, or employee thereof in his capacity as such.

(b) *Notice.* An application under this section may, in the discretion of the court, be granted without notice, but upon the implementation of any order so granted, the program shall be afforded an opportunity to seek the revocation or amendment of such order.

(c) *Scope.* Both disclosure and dissemination of any information from the

records in question shall be limited under the terms of the order to assure that patient identities will be protected to the maximum practicable extent, and that names and other identifying characteristics of patients are expunged from any documents placed in any public record. No information obtained pursuant to an order under this section may be used to conduct any investigation or prosecution of a patient, or be used as the basis for an application for an order under § 2.65.

§ 2.66-1 Investigation and prosecution of programs—Basis and purpose.

The principal purpose of § 2.66 is to enable a regulatory agency whose inspection or other source of information has disclosed a need for follow-up, or which has been refused access to patient records, to obtain the necessary authorization for access and copying. There may also be rare instances, such as those involving financial fraud, tax evasion, or other offenses where access by other investigative agencies is necessary, subject to the requirements and protections of this part.

§ 2.67 Undercover agents and informants—Rules.

(a) *Applicability.* This section applies to any application by an administrative, regulatory, supervisory, investigative, or law enforcement agency for an order to permit such agency to have an undercover agent or informant in a program under circumstances which would otherwise be prohibited under § 2.19.

(b) *Notice.* An order under this section may be granted without notice where the criminal conduct for the investigation of which it is granted is believed to be carried on by the program director or by any employee or agent of the program with the knowledge of the program director or under such circumstances that in the exercise of reasonable care the program director should know of such conduct. Under any other circumstances, an order under this section may be granted only after the program director has been afforded notice and opportunity for hearing.

(c) *Criteria.* An order under this section may be granted only where there is reason to believe that a program or any principal, agent, or employee thereof is engaged in serious criminal misconduct, and that other means of securing evidence of such criminal misconduct are not available or would not be effective.

(d) *Scope.* An order granted pursuant to this section may authorize the use by the applicant of an undercover agent or informant, either as a patient or as an employee, of the program in question.

(e) *Time periods.* An order under this section may not authorize the use of an undercover agent for an initial period exceeding 60 days. At any time prior to the expiration of such 60-day period, the applicant may apply for an order extending such period for an additional period not to exceed 60 days, but in no event may the use of an undercover agent

in any program be authorized for more than 180 days in any period of 12 consecutive months.

(f) *Duty of agent.* Except to the extent expressly authorized in an order under this section, which shall be limited to disclosure of information directly related to the purpose for which the order is granted, an undercover agent or informant shall for the purposes of this part be deemed an agent of the program within which he is acting as such, and as such shall be subject to all of the prohibitions of this part applicable to disclosures of any information which he may acquire.

§ 2.67-1 Undercover agents and informants—Basis and purpose.

The legal rationale underlying this section has been set forth in § 2.19-1. It is expected that this section will find its principal and perhaps its exclusive application in the area of drug law enforcement. Experience has demonstrated that medical personnel, no matter how credentialed, can engage in the illicit sale of drugs on a large scale, and that the use of undercover agents and informants is normally the only effective means of securing evidence sufficient to support a successful prosecution.

Title 21—Food and Drugs

CHAPTER III—SPECIAL ACTION OFFICE FOR DRUG ABUSE PREVENTION

PART 1401—CONFIDENTIALITY OF DRUG ABUSE PATIENT RECORDS

Revocation of Part

On May 9, 1975, there was published in the FEDERAL REGISTER (40 FR 20542) a notice of proposed rulemaking proposing the revocation of Part 1401 of Title 21 of the Code of Federal Regulations by reason of the proposed incorporation of its subject matter in a new Part 2 of Title 42 of the Code of Federal Regulations.

Interested persons were invited to submit written comments, views, or arguments with respect to the proposed revocation, within 30 days of the date of publication of that notice. None were received, except to the extent that they were implicit in those submitted on the proposed new Part 2 of Title 42 of the Code of Federal Regulations, which were duly considered.

Accordingly, pursuant to the authority of section 408 of the Drug Abuse Office and Treatment Act of 1972, as amended by Pub. L. 93-282 (21 U.S.C. 1175), and under the authority delegated to the General Counsel (39 FR 17901, May 21, 1974), Part 1401 of Title 21 of the Code of Federal Regulations is revoked, effective August 1, 1975.

Dated: June 25, 1975.

GRASTY CREWS, II,
General Counsel, Special Action
Office for Drug Abuse Prevention.

THREATENED OR ENDANGERED FAUNA OR FLORA

Review of Status of Vascular Plants and
Determination of "Critical Habitat"

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

THREATENED OR ENDANGERED FAUNA
OR FLORAReview of Status of Over 3000 Vascular
Plants and Determination of "Critical
Habitat"

Notice hereby is given that the Department of the Interior has received from the Smithsonian Institution a report entitled, "Report on Endangered and Threatened Plant Species of the United States." That report was prepared in accordance with section 12 of the Endangered Species Act of 1973 (Pub. L. 93-205), and has been printed by the U.S. Government Printing Office, Washington, D.C., for the use of the House of Representatives Committee on Merchant Marine and Fisheries as House Document No. 94-51.

The report identifies over 3,000 vascular plants which occur or occurred within the United States and which the Smithsonian Institution considers candidate Endangered or Threatened species as provided for by the Endangered Species Act of 1973. The report includes the following recommendation:

"3. In accordance with section 4 of the Endangered Species Act of 1973, the Secretary of the Interior should review the lists in this report and publish proposed lists of endangered and threatened plants in the FEDERAL REGISTER."

The U.S. Fish and Wildlife Service considers the Smithsonian report to constitute a "petition" in the context of section 4(c)(2) of the Act and that ample justification has been presented to warrant a review to determine whether the

plants identified in the report should be added to the lists of Threatened or Endangered species.

Three lists derived from the Smithsonian Report appear on the following pages:

List "A"—Identifies those floral taxa which occur within the Continental United States. This list is alphabetized by Family within State. Changes received from and recommended by the Smithsonian Institution through May 21, 1975, are indicated after it.

List "B"—Identifies those floral taxa which occur within the State of Hawaii. This list is alphabetized by Family.

List "C"—Identifies floral taxa the authors feel either are or may be Extinct Within the Continental United States. This list is alphabetized by Family.

The notations: Threatened, Endangered, Presumed Extinct, Possibly Extinct, Extinct or their abbreviations represent the views of the authors of the Smithsonian Report.

This notice should be construed as the "notice of consideration" provided for in section 10(b)(1) of the Act. This publication is intended to alert the public, the scientific community, commercial interests or any other person that these plants are being considered for addition to the lists of Threatened or Endangered species and to seek from such persons any data, advice, opinions or other relevant information.

Additional species under review. In addition to the floral taxa identified in this notice, the Service announced a similar review of 4 additional species on page 17612 of Vol. 40, Number 77 of the FEDERAL REGISTER dated April 21, 1975. A variety of one of those species (*Aconitum novaeboracense*) is also listed herein.

Critical Habitat: On April 22, 1975, on page 17764 of Volume 40, Number 78 of the FEDERAL REGISTER, the Service published a notice describing the process of the determination of "Critical Habitat" for Threatened or Endangered Species as provided for by section 7 of the Endangered Species Act of 1973. All interested parties are invited to submit their views concerning the determination of any "Critical Habitat" for any of the plants contained in Lists A, B, C or those published in Volume 40, Number 77 of the FEDERAL REGISTER and referred to above.

When data sufficient to substantiate a determination of whether any plant (or plants) described above is (are) a Threatened or Endangered species as provided for by the Act, such information will be summarized and a formal proposal to add any such plant will be published in the FEDERAL REGISTER in the form of a proposed rulemaking. A period of at least 60 days will be provided for public comment following any such proposed rulemaking.

The Service is seeking the views of the Governors of the States in which these plants are thought to occur.

Other interested parties hereby are invited to submit any factual information, including but not limited to publications and written reports, which is germane to this status review. Such information should be submitted to: Director, U.S. Fish and Wildlife Service (SE), U.S. Department of the Interior, Washington, DC. 20240.

Dated: June 20, 1975.

KEITH M. SCHREINER,
Acting Director, Fish
and Wildlife Service.

<u>Sterculiaceae</u>			
Nephropetalum pringlei	Hidalgo Co., Tex.	1888	PoEx

List C

Species and Varieties	Locality	Date Last Collected	Status*
<u>Theaceae</u>			
Franklinia alatamaha	McIntosh Co., Ga.	1803	Ex, Cult
<u>Valerianaceae</u>			
Valerianella texana	Gillespie Co., Tex.	1936	PoEx

*Ex = Recently extinct or extinct in wild: not collected during extensive search over a number of years; type locality or sites may be destroyed.

PrEx = Probably extinct: not recollected after one or a few visits to the type locality and/or similar sites.

PoEx = Possibly extinct: not recollected or known only from type locality for a number of years; may not have been searched for.

Tax? = Taxonomic status in doubt, perhaps owing to scarcity of material; possible hybrid.

Cult = May be extinct in nature, but the plants are in cultivation or have been transplanted.

Guide to Record Retention Requirements

[Revised as of January 1, 1975]

This useful reference tool is designed to keep businessmen and the general public informed concerning the many published requirements in Federal laws and regulations relating to record retention.

The 87-page "Guide" contains over 1,000 digests which tell the user (1) what type records must be kept, (2) who must keep them, and (3) how long

they must be kept. Each digest carries a reference to the full text of the basic law or regulation providing for such retention.

The booklet's index, numbering over 2,000 items, lists for ready reference the categories of persons, companies, and products affected by Federal record retention requirements.

Price: \$1.45
