DR. MOORE FOR REFORM WORK

ELECTED TO SUCCEED DR. CHOWN IN OFFICE

Other Officers Chosen by Conference—Greetings From Japan and the South

The General Conference yesterday afternoon elected several more of its connexional officers, chief of these being the appointment of Rev. Dr. Moore as head of the temperance and moral reform work of the church, to succeed Rev. Dr. Chown, who on May 15th next will become one of the general superintendents.

Two votes were required to elect a just secretary of Temperance, Prohibition and Moral Reform, in succession to Dr. Chown. The first was indecisive, although Rev. T. Albert Moore, D.D., led. On the second ballot Dr. Moore secured 167 votes out of 279. The others who received votes were: Rev. J. W. Cooley, 36; Rev. J. H. Oliver, 30; Dr. Speer, 19; Rev. F. G. Left, 8; Rev. Mr. Magee, 7; Dr. Hazlewood, 6; Dr. Ros, 4; and a number with one vote each.

Rev. William Briggs, D.D., was re-elected Book Steward of the central district by 248 votes out of 282 and F. W. Mosher, of the Methodist Book Room, Halifax, was unanimously elected Book Steward for the eastern section. As editor of the Christian Guardian Rev. W. B. Creighton, D.D., got 256 votes of the 282 which were cast. Rev. D. W. Johnson, D.D., Halifax, will continue to edit the Wesleyan in that city and Rev. A. C. Crews, D.D., remains editor of Sunday school publications. Rev. S. F. Bartlett, Toronto, was elected secretary of Sunday schools and Epworth Leagues.

The Lord's Day Alliance local branch sent a deputation to the conference consisting of Bishop Perrin and Rev. T. Albert Moore, general secretary of the Alliance, who were presented to the General Superintendent by Rev. T. E. Holling.

The Bishop of Columbia began by saying that the heart had been taken out of him by the news that Dr. Moore had been taken from the work. Of the work he said:

"Unfortunately the government of this province has not seen its way, through its attorney-general, to put in to active force those parts of the Lord's Day Act which would be undoubtedly of immense benefit, boon and blessing to this province. We beg of this province to see that here we want all the health and strength and support you can give to us. I deprecate the idea that we are to be treated differently to the rest of Canada. What is good for the observance of the Lord's Day in the east is good and far more necessary for us here in the far west. The day may come here when we can stop men from going without any work-end at all, in hideous moonlight, in the work which makes life almost like a treadmill. It is for us to implore and plead with our brothers who play golf or croquet or other games on Sunday to deny themselves for the sake of others."

Dr. Moore stated that since the passage of the act the Alliance had been able, not so much by prosecution as by persuasion to liberate more than 112,000 men who had previously to work on Sundays. The railways were not running one-third the number of freight trains that they did in 1907. In Victoria and Vancouver, as those like Rev. Dr. Speer could say, conditions of to-day could not compare with those of five years ago.

On motion of Rev. Dr. Antliff, seconded by Rev. Dr. Curtis, Newfoundland, the conference expressed appreciation of the visit.

Rev. Wm. A. Bracken, Dublin, the fraternal delegate of the Irish Methodist church, was conducted to the platform by Rev. Dr. Antliff to take his farewell of the conference, on behalf of which Dr. Carman told him they had seen him with great joy, heard him with great satisfaction and now wished him God-speed. Mr. Bracken dwelt on the beauty of Canada and the convention city, the business-like methods of the conference and the marvelous capacity and wonderful mental capacity of its president. He likened the two general superintendents as Paul and Barnabas, the son of consolation.

In the evening fraternal greetings were conveyed to the general conference from the United Methodist church of Japan and the Methodist Episcopal church, South, of the United States.

Bishop Honda, Japan, was introduced by Rev. T. E. Shore, foreign missions secretary, as the first native bishop in Asia. Only one-third the size of British Columbia, Bishop Honda said, Japan had a population of 52,000,000. Of its ten million children not one in a hundred came under Christian influence. There are 20 universities and colleges in Japan and 125,000 of their youth are in schools. The Japanese are a deeply religious people. The great number of Buddhist and Shinto temples testify to that. Among the most helpful agencies for enlightenment he named the Woman's Missionary Society. The Bishop paid a warm tribute to the late Dr. Sutherland, to whom they owed so much in Japan. He closed his interesting address by giving a brief account of their first missionary enterprise, which was in Korea.

Rev. H. M. Du Bois, D. D., Nashville, Tenn., an exceedingly eloquent speaker, assured the conference of the sympathy and friendship of the Methodist Episcopal church, South. Methodism, he said, had found a means of expression in the English language and the English heart and

One Pound Makes 200 Cups

Your Grocer Sells It

Yearly Sale Over 20,000,000 Packages

conclusion. It would make any nation greater and it was adapted to every race, not of a school. It was inseparable from English history. Like the Irishman who said he would be ashamed of himself if he hadn't been born an Irishman, so he felt he would be ashamed of himself if he were not a Methodist. The impress of the Old Land was upon the speech and institutions of both his section and this. The church he represented was the second largest Methodist body in the world, and he thought it embodied the spirit and tradition of original Methodism better than any other. They had two million communicants. In closing Dr. Du Bois spoke of the mission of greater Methodism, which he said was the defence and perpetuity of their doctrine, the maintenance of their educational ideals and the relating of Christianity to social and moral problems.

The choir rendered several selections during the evening, and the appreciation of the conference for the musical excellence of their work during the past couple of weeks was expressed by unanimous resolution, conveyed to the choir by Rev. Dr. Chown, chairman.

ROOSEVELT SAYS HE IS READY FOR FIGHT

Will Speak at New York State Convention as Originally Planned

Herkimer, N. Y., Aug. 25.—Colonel Theodore Roosevelt yesterday issued a declaration of war to the "old guard" in the Republican party in New York. Roosevelt's attention was called to a statement of William H. Barnes, leader of the "regulars," that he and his assistants would welcome a fight at the Saratoga convention.

"If they want to fight, all right," said the colonel. "I like fighting. As long as it is going to be a fight I expect they will have all they want."

"I am going to the Saratoga convention only because I feel that the public interest demands that the party be given a chance to stand squarely and uncompromisingly on a clean and decent policy. I am going to the convention and make a speech just exactly as I originally planned. While I hope there will be enough good, honest delegates to prevent the overthrow of the principles for which I shall stand, yet if a certain element feels that it is their duty to oppose them, then it is their affair. As far as I am concerned, the issues will be clean-cut."

"A Dangerous Man."

New York, Aug. 24.—That Theodore Roosevelt is "a dangerous man and a menace to the peace of Wall Street," was the parting shot taken at the colonel by H. C. Duval, former secretary to Senator Chauncey M. Depew, who sailed for Europe yesterday.

Duval said that he believed the chief source of danger was the series of impromptu speeches Roosevelt makes from the rear platforms of railway trains.

SAVED AT ST. WINNIFRED HOSPITAL

(San Francisco Bulletin.)

The physicians in Honolulu could do nothing for U. S. Deputy Marshal Winters and he gave them up in despair and came to San Francisco to see if there was any physician here who could cure an extreme case of chronic Bright's Disease. He had had two uraemic convulsions, was almost bursting with dropsy, and after fighting the disease for two years, was at the end of the way. The physician he consulted in this city told him that chronic Nephritis is now a curable disease and that he would probably recover. He sent the patient to the St. Winnifred Hospital, put him on the treatment for chronic kidney disease, Fulton's Renal Compound, and proceeded to aid it in ways that the skilled practitioner understands. In four months Winters went back to the Islands perfectly well.—San Francisco Bulletin.

SEEK TO IMPEACH WITNESS

Chicago, Aug. 25.—Concentrating all efforts toward breaking down the testimony of Representative Chase, A. White, principal witness for the prosecution in the trial of Lee O'Neill Brown, charged with legislative bribery in connection with the election of William Lorimer to the United States senate, the attorneys for the defence yesterday subjected White to a sharp cross examination.

The grilling cross fire of questions which probed into every action of the witness which the court would allow to be investigated by the defence was concluded at noon. At that time the counsel for the defence announced their belief that White had been effectively impeached. White seemed confused by the ordeal and several times his evasive memory saved him.

FORMER U.S. SENATOR DEAD

Washington, D. C., Aug. 25.—Former United States Senator Wilkinson Call, of Florida, died yesterday of apoplexy. He sustained a slight stroke Sunday and gradually became worse.

Call was adjutant-general in the Confederate army. He has played a prominent part in Democratic politics. He was first elected to the senate in 1885 but was not allowed to take his seat. He afterward served in the senate from 1879 to 1897.

ROSEBERY ON BURNS.

History, remarks an eastern authority, records many instances where trifles or minor incidents have determined great events and swayed the lives of great men.

From scenes like these old Scotia's grandeur springs. That makes her loved at home, revered abroad.

BRITAIN'S FINANCIAL STATUS.

The Asquith government of Great Britain has been subjected to severe, often to scorching, criticism, yet it is a noteworthy fact, that that government has not lost a single bye-election.

in the third; \$5,000,000 in the fourth year. The amount paid off in the year just closed was only 76,000,000, owing to the confusion resulting from the rejection of the budget.

No nation in the world, says the Toronto Star, has made so good a showing. The debts of France, Serbia, and Russia are growing with a rapidity which frightens the patriotic statesmen of those countries.

United States trade returns are again causing perturbation in political circles. The "adverse balance" is once more at the root of the trouble.

The Vancouver News-Advertiser is either ignorant or perverse in saying that the McBride government was the only obstacle to the employment of Oriental labor in the construction of the Grand Trunk Pacific Railway.

An eastern exchange hits the situation off very explicitly and concisely in the following: The London Free Press (Conservative) says the Canadian tariff should be raised to the level of Uncle Sam's customs wall.

The partial failure of the wheat crop in the northwestern province is not likely to affect the prosperity of Canada. In all the provinces of the east the harvest promises to be abundant.

The next great question with which the Methodist Conference will proceed to deal is that of church union.

The loss of life and property, as a result of the devastating forest fires in the states of Oregon, Washington, Idaho and Montana can as yet only be approximately estimated.

Greater London, it is said, uses two hundred and twenty-five million five hundred thousand gallons of water a day.

The faces of the members of the Prime Minister's party are set towards the east. The ministers will return to their arduous administrative and legislative duties with a new appreciation of the possibilities of the west.

TELEPHONE WIRES BY-LAW.

To the Editor:—Of the various by-laws upon which a vote will be taken next week, the one most important, and perhaps the least understood, will be the Underground Telephone by-law.

have from time to time been urged to take steps to deal with the matter. The question, however, proved to be a difficult one, due to the fact that the companies owning said poles had under their franchise a legal right to maintain said poles and lines.

At the close of 1907 the B. C. Telephone Company expressed their willingness to meet the wishes of the city in the removal of poles; providing that a share of the expense would be taken care of by the city.

At the close of 1907 the B. C. Telephone Company expressed their willingness to meet the wishes of the city in the removal of poles; providing that a share of the expense would be taken care of by the city.

(Signed) WM. MABLE, Chairman of Electric Light and Telephone Committee.

ENGLISH CAPITAL TO BE INVESTED HERE

Visiting Editor Says London Financiers Are Interested in British Columbia

Great interest is being taken in British Columbia, and especially Vancouver Island, by financiers in London, England, and the next few months will see exceptionally large investments of English capital in the industries of the province.

Mr. Birchall secured from the Vancouver Island Development League while in the city sufficient maps and pictures for a series of articles on the island.

PERSONAL

Last evening A. C. Futeher, of the Royal Bank of Canada, and H. E. Bailey, of the Bank of Commerce, entertained a large number of their friends at "Fang Scouse" camp, their summer residence at Bowker's beach.

Rev. J. M. Cahne, pastor of the Seattle Methodist Episcopal church, has been securing information and photographs during the week for a series of articles on Victoria and Vancouver Island which he intends to write for various papers and Methodist publications in the United States.

Mrs. Wilbraham-Taylor, accompanied by her son, Archer, arrived in town last evening from Duncan.

Mrs. Thos. H. Jackson, Chilliwack, is visiting this city and is staying at the Driford hotel.

Mr. and Mrs. Joseph Maynard, of Oswego street, have returned from Shawanigan Lake.

Ladies' single—1, Miss Davis; 2, Grace Scott; 3, Somerville.

IMPROVE TRADE WITH CANADA

AUSTRALIAN COMPANY
TO CATER FOR FREIGHT

Banquet Given on Zealandia to Celebrate Amalgamation of Huddart Parker and Union

The amalgamation of the Huddart, Parker Proprietary, Ltd., with the Union Steamship Company, Ltd., of New Zealand, in connection with the Australian-Vancouver mail service, was celebrated just before the departure of the Zealandia for this port by a banquet in the saloon of the Union Steamship Zealandia.

There was a representative gathering of merchandise and shipping people. The chair was occupied by Mr. W. T. Appleton, managing director of the Huddart, Parker Proprietary, Ltd. He had on his right Mr. E. W. Whitson, acting manager of the Union Steamship Company in New South Wales, and on his left Colonel Murray, the head of the firm of Burns, Philip & Company, Ltd. Mr. W. T. Appleton, managing director of the firm of Huddart, Parker, Ltd., in replying to the toast, said there was more than sentiment which had led his company to join hands with the Union Company of New Zealand in this extension of the Canadian-Australian service. When Sir James Mills had told him that the Aorangi was the pride of the Vancouver service, he (Mr. Appleton) replied that he would be glad to co-operate in what was tantamount to an essentially Australian service. His idea was, whilst running under the one flag, to have everything Australian as far as possible. He would have Australian ships if we could build them. There was more than the mercenary side between them. (Hear, hear.) There was the pride of race and the pride of establishing connecting links between two of the brightest jewels in the possession of the Empire. (Applause.)

At this stage Mr. Appleton struck a business note, which met with considerable favor with his audience. "We are now," said he, "in a position that we have not the tenure of service which is requisite to enable us to put the whole of our energy and capital into it at once. If the Commonwealth government and the Dominion of Canada could see eye to eye with us, this fine ship, the Zealandia, would not be large enough for the trade. As a matter of fact, she is not nearly as large as the ship with which we intend to replace her. (Applause.) Now that we are in the service, we are going to continue it, the same as husband and wife—(laughter)—for better or for worse. (Applause.) We intend to go the whole hog. If we get the contract I am disclosing no secret when I say we intend to improve the service even more than this ship will do. (Renewed applause.) We will cater not only for passengers, but for freight also, and we hope to send as much to Canada as she will send to us."

CALGARY'S PAVEMENTS.

Excellence of Asphalt Streets Attracts the Attention of Spokane Board of Trade.

Now that Victoria has decided to follow in the footsteps of Calgary and adopt asphalt as a pavement for many of the streets of the city, the following from the Calgary Daily News of August 20th will be read with interest:

Secretary Charles H. Webster, of the board of trade, has received a communication from the Spokane board of trade asking him for information regarding the different styles of paving used in Calgary, and how they have stood the wear and tear upon them. Mr. Webster has referred the matter to City Engineer Child, who will give the necessary information. The letter to Mr. Webster states that the writer had heard a lot of the well-paved condition of Calgary, and the beautiful state the streets were always in, from several Spokane people who had visited here at different times.

The Warwick people are doing all the asphalt paving at Calgary this season. The company has just about completed a fine pavement on Linden avenue in this city, and have erected a plant capable of handling other large contracts which it has with Victoria.

The refinery for the product of the oil wells of the Amalgamated Development company at the Katalia oil fields is already under construction. Invest now.

YOUR CALL FOR HELP

Will be answered at once if you phone when your water pipes burst or something else happens.

WE'LL FIX THE PLUMBING

So that it will stay fixed until entirely worn out or you wish to change it for more modern service. Then call on us again.

In manner provided for in the Municipal... TAKE NOTICE that the above is a true copy of the proposed by-law...

A BY-LAW

TO RAISE \$20,000 FOR THE ERECTION OF THE PUBLIC CONVENIENCE.

WHEREAS, the Council of the Corporation of the City of Victoria have decided that it is necessary to erect a Public Convenience upon property...

AND, WHEREAS, the whole rateable land and improvements or real property of the said Corporation...

AND, WHEREAS, the total amount required to be raised annually by the rate on the property...

AND, WHEREAS, this by-law may not be altered or repealed except with the consent of the Lieutenant-Governor...

THEREFORE, the Municipal Council of the Corporation of the City of Victoria enacts as follows:

1. It shall be lawful for the Mayor of the Corporation of the City of Victoria to borrow upon the credit of the said Corporation...

2. It shall be lawful for the Mayor to cause any number of debentures to be made, executed and issued for such sum as may be required...

3. The said debentures shall bear date of the day after the final passing of this by-law, and shall be made payable...

4. The said debentures shall bear interest at the rate of four per cent per annum from the date of their issue...

5. It shall be lawful for the Mayor to cause the said debentures and interest to be paid...

6. If deemed advisable by the Mayor there shall be in the said debentures, or in any future consolidation of the debentures...

7. For the purpose of raising annually the required sum for the payment of the interest on the said debentures...

8. This by-law shall, before the final passing thereof, receive the assent of the majority of the electors...

9. This by-law may be cited as the Public Convenience Loan By-Law, 1910.

The Evening Chit-Chat

"Tired, mother?" "Father, dear?" "But why, mother—only four of us and this small house and all the washing and ironing put out, and a woman to do the cleaning—there surely can't be such a great deal to do."

"I seem to keep pretty busy." "Now, mother, do you know what I think? I think you putter. I've been watching you and it seems to me that you do lots of little things you don't really need."

"Oh, for Marjorie, as she followed Duke out into the kitchen and picked up the pan." "Of course, you'd better tend to the bird, too," cried the little mother.

City Clerk's Office, Victoria, B. C., August 24th, 1910.

and came hurrying down to breakfast. "How much time have I got?" she demanded. "Why, what's the matter with the clock! It's stopped, mother."

"Mother," this was from father next day, "there hasn't been any soap in this bathroom for three days. What's the matter?"

PRINCESS MAY MOVED BUT NOT FAR ENOUGH

First Effort to Launch Steamer From Reef at Sentinel Island Failed

Little success has so far attended the efforts of Captain Logan, representing the underwriters of the steamer Princess May, in launching her from her position on the reef at Sentinel Island.

Temporary ways were built around the steamer, and she was lifted off the rock, but the first effort to slide her into the water failed.

Another effort was made early this morning, but so far no word has been received as to the success or otherwise of the work.

Another effort was made early this morning, but so far no word has been received as to the success or otherwise of the work.

Steamer Queen is expected from San Francisco to-night and will discharge 130 tons of freight here before proceeding to Seattle.

MOVEMENT OF VESSELS

ON THE COAST

Seattle—Arrived: Str. Victoria from Nome; sailed: Str. Wasp for Everett; Str. Alameda for Valdez; etc.

Ketchikan—Arrived: Str. Bertha from Seattle; str. Eliza Thompson from Nome.

Yakima—Arrived: Stanley Dollar from Seattle.

San Francisco—Arrived: Str. Daisy Freeman from Gray's Harbor; Daisy from Willapa Harbor; Elizabeth from Bandon.

Los Angeles—Arrived: Str. Yosemite from Columbia River; sailed: Str. Olympia for Bellingham; Lottie Bennett for Winlaw.

Tacoma—Sailed: Str. Hyades for Honolulu.

Yokohama—Arrived: Str. Panama-Mar from Tacoma.

Philadelphia—Cleared: Str. Asteer for San Francisco and Portland.

COAL FOR U. S. NAVY.

Large Quantity Coming to Bremerton in Foreign Bottoms—Americans Secure Recent Contracts.

Seattle, Aug. 25. — Approximately 18,750 tons of shipping is on its way around the Horn from Newport News.

American vessels have been unable to compete with foreign vessels in the coal-carrying trade, but last week when the contracts were let for about \$5,000 tons, the American bottoms, on the higher rate allowed native vessels, were awarded the contract for carrying about 3/4 of the allotment.

GLORY LEAVING.

Captain MacDonald Failed to Secure Men in British Columbia.

Ship Glory of the Seas will leave Friday in command of Captain MacDonald.

Steamer Queen is expected from San Francisco to-night and will discharge 130 tons of freight here before proceeding to Seattle.

BARQUENTINE HELGA IS TOTAL WRECK

Went Ashore at Hawaiian Islands But the Captain and Crew Were Saved

British barquentine Helga is a total wreck off Waikiki, Hawaiian Islands, with the waves breaking over her. She was on her way from Newcastle, Australia to San Francisco laden with 1,780 tons of coal.

As soon as the vessel struck the captain sent up distress rockets and the tug Intrepid went out and took off the whole ship's company including the captain's wife and daughter.

The crew of the Helga complain that they were badly treated on the voyage, and that the food they were given was not fit to eat.

WEATHER BULLETIN

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Aug. 25. 5 a. m.—The western high barometer area is slowly moving to the southeast, its centre now covering the Middle West states.

For 36 hours ending 5 p. m. Friday. Victoria and vicinity—Northerly to easterly winds, fair, with stationary or higher temperature.

Lower-Mainland—Easterly winds, generally fair, but much change in temperature.

Observations at 5 a. m.

Victoria—Barometer, 30.05; temperature, 45; minimum, 43; wind, 4 miles N.; weather, clear.

New Westminster—Barometer, 30.12; temperature, 42; minimum, 40; wind, 4 miles E.; weather, clear.

San Francisco—Barometer, 29.95; temperature, 52; minimum, 52; wind, 6 miles W.; weather, cloudy.

Edmonton—Barometer, 30.05; temperature, 45; minimum, 44; wind, 4 miles S.W.; weather, part cloudy.

Winnipeg—Barometer, 30.18; temperature, 45; minimum, 40; wind, 10 miles W.; weather, cloudy.

Victoria Daily Weather.

Observations taken 5 a. m., noon and 5 p. m., Wednesday.

Highest temperature, 49

Lowest temperature, 45

Average temperature, 46

Bright sunshine, 12 hours 24 minutes.

General state of weather, fair.

Mrs. Rebecca Clark, of Wood Green, England, who recently celebrated her 10th birthday by taking her first motor ride, went haymaking in a field at Green Lane, and used the fork with surprising vigor.

TIDE TABLE

Table with columns: Date, Time H, Time M, Time H, Time M. Rows show tide data for Victoria, August, 1910.

The times used in Pacific Standard, for the 18th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water.

The height is in feet and tenths of a foot, above the average level of the lowest low water in each month of the year. This level is half a foot lower than the datum to which the soundings on the Admiralty chart of Victoria harbor are reduced.

STEAMER PRINCE GEORGE. G. T. P. Boat Had All She Could Do to Stem Tide in Seymour Narrows.

Steamer Prince George arrived from Prince Rupert and way ports last evening, bringing a large number of passengers, many of whom went north with Sir Wilfrid Laurier and took part in the festivities at the new G. T. P. terminal city.

When going north the tide was running so fast in Seymour Narrows that the steamer almost came to a standstill, in spite of the fact that she was supposed to be making sixteen knots.

The Prince George left for Seattle at midnight taking a large number of local passengers, and will be here to-morrow morning on her way north.

WIRELESS ON ROYAL YACHT. Wireless telegraphy has recently been installed on the King's yacht the Victoria and Albert. The yacht has been fitted with the new short-distance installation, which has a range of about one hundred miles. This is quite sufficient for all practical purposes.

It enables his Majesty to keep in communication with London whilst he is in the Solent, if he so desires, and the "gear" has no disturbing effect upon the yacht's appearance. There is only a single wire that can hardly be seen which leads from the masthead receiver to the instrument room—a vastly different affair from the mass of wires and spreaders required for the long-distance installations of battleships and big cruisers.

An iceberg often exists for as long as 200 years.

ARRANGEMENTS FOR OPENING NEW SCHOOLS

Moss Street School Not to Be Available for Further Period of Two Weeks

Contrary to expectation, it will be impossible to open the new Moss street school for the reception of pupils on Monday next. Owing to some unavoidable delays in completing the equipment it will be September 15th before children will be enabled to attend. On that date four class rooms will be available for occupancy—three junior and one intermediate.

In the interim between Monday and September 15th pupils who would have gone to the Moss street school will continue to go to the schools which they were attending before the holidays. In those cases where children have been promoted from the Kingston street to a higher grade, they may attend the South Park school or the Central school.

The George Jay school on Chambers street will, however, be formally opened on Monday next, all the equipment being in readiness. Seven rooms will at once be utilized, the two remaining rooms being held in reserve for growth of attendance as it develops.

THIEF IS WORKING ESQUIMALT DISTRICT

Bold Robber Takes Jewellery Valued at \$200 From Residence During Daytime

Several cases of theft in the Esquimalt district have been reported to the provincial police during the past week, but so far the information received at headquarters has been of a very meagre description and no arrests have been made. At the end of the last week the residence of Mr. Bowden, Admiralty road, was entered while the occupants were away during the day-time and a quantity of jewellery, valued at about \$200, as well as other articles, was taken. The thief has also visited several of the summer camps in the district but none of his victims have yet been able to furnish a description of the robber to the police.

MADRIZ FLEES

Washington, D. C., Aug. 25.—Consular advice from Bluefields and Managua received by the state department indicate that President Madriz of Nicaragua has fled to Costa Rica. With him, the dispatch adds, are his assistants, Iras, Ortiz, Vasquez, Chavarria and Toledo, with seven others of the defeated faction. Estrada yesterday released 200 political prisoners from Canton Island, near Corinto, it is said. He also has ordered sweeping tariff revisions.

MARICOPA OIL COMPANY of Los Angeles, California Under Canadian Control Capital \$1,000,000

This Company owns a lease of 60 acres in section 32, 12-23, in the very heart of the Maricopa Sunset Field, surrounded by gushers and flowing wells for a royalty of 1-7 of the oil produced.

Study this diagram and then see what this Company's prospects are

SWAN & HUNTER WILL BUILD DOCK

George B. Hunter, of Big Firm, Talks to Newspapers in Vancouver on Possibilities

Travelling in company with the Grand Trunk party at present at Prince Rupert is George B. Hunter, of the shipbuilding firm of Swan & Hunter, Tyne shipbuilders, who, although on a holiday trip is keenly interested in the shipbuilding possibilities of this country. Before leaving Vancouver he was interviewed by a representative of the News-Advertiser. He said: "My opinion is that an industry looking to the construction of big ships intended for the Atlantic trade or for naval purposes on that ocean would naturally go to Nova Scotia, but for other vessels it seems equally natural that they should be built on the Pacific coast. As to the cost of construction as between Canada and Great Britain, considering the price of steel in England and the price of steel at Sydney, Nova Scotia, I do not think there would be much difference. Look at it from a navy standpoint, of course, it will depend on whether the Canadian government make up their mind to have the ships built in this country or not. From a labor point of view there would be some difference in favor of the old country and it might reasonably be expected that in the beginning the ships would be better built in England, because the workmen would have to be trained here or brought over to look after the business at the start. I think if the government decide to build ships for the navy in Canada they will probably have some of the smaller vessels that are intended for the west, constructed on this side. The big armored ships could be better built on the Atlantic coast."

The firm of which Mr. Hunter is the representative, Swan, Hunter, Wigham & Richardson, is one of the largest shipbuilding firms in the world. The Princess Victoria and the C. P. R. fleet on this coast was built by the company and they also built the Prince Rupert and Prince George for the G. T. P. coast service, and they have built two vessels, the Cartier and Simcoe, for the Canadian government, the latter being designed for the use of the marine and fisheries department and the former for the hydrographic work on the east coast. "We are," said Mr. Hunter, "also building two war vessels for the British government, and are constructing a large dock of 22,000 tons lifting capacity for the British government. We also have in hand a dock for Burrard Inlet in Vancouver. The dimensions of the latter dock are not yet accurately determined and it has not yet been decided whether it shall be built in sections or whether the material shall be sent out all framed, as is done in the case of bridge construction, and put together here."

In addition to this work the Hunter firm is building two large steamships for the Cunard line and other steamers for trade on the Atlantic and in the Far East. Altogether it was gathered from conversation with Mr. Hunter that the British shipbuilders are holding their own. More than one-half of the tonnage of the world is being built by them. He incidentally mentioned that the Mauretania, the finest steel ship afloat, was built by his firm.

WILL CONTINUE STRIKE.
 Chicago, Aug. 25.—President Moorhead, of the Illinois Miners' Federation, announced yesterday that the coal operators had voted practically unanimous to continue the strike that has been in progress for several months. The coal shortage in Illinois is assuming serious proportions. The demand far exceeds the supply and coal sellers are importing from outside districts. Prices are advancing rapidly.

ACCUSED OF SELLING MILITARY SECRETS

Correspondent Arrested in St. Petersburg Will Be Tried by a Military Tribunal

St. Petersburg, Aug. 25.—It is officially announced that Baron von Ungern-Sternberg, under arrest on a charge of selling Russian military secrets to Austria, will be tried by a military tribunal, and not in a civil court. Death sentence is not within the scope of civil authority and it is believed that the action has been taken to put the baron out of the way. Von Ungern-Sternberg represented the Austrian official news agency in St. Petersburg, besides acting as correspondent of several other continental newspapers and two English journals. He was allowed many privileges on account of his position. It is charged by Russian officials that he made use of this freedom to gain certain knowledge of Russian army plans to which he was not entitled. Later, it is said, he sold them to the military attaché of the Austrian embassy.

Among the plans that the Austrians were discovered to have possession of was one concerning the projected mobilization of the Russian army on the frontier of Austria in event of an attack from that direction. Knowledge of this plan would have frustrated Russian defence.

ECZEMA ON HEAD AND ARM

Four Doctors Failed After Fair Trial—Cure Effected by DR. CHASE'S OINTMENT

The average physician is helpless in the presence of skin diseases such as eczema and salt rheum. Some make the mistake of treating eczema as a blood disease and advise internal treatment. Others think only relief is possible and recommend a lotion to afford relief from the itching.

Whatever the cause may be local treatment is necessary to heal up the sores, which otherwise spread over the body and produce the greatest suffering imaginable.

By far the most successful treatment for eczema is the use of Dr. A. W. Chase's Ointment. You can verify this statement by enclosing a fair sample of what we are receiving about every day:

Mr. Geo. Peterson, South Bay, Ont., writes: "I wish to communicate to you the great benefit I received from using Dr. Chase's Ointment. For years I suffered with a skin disease on my head, a sort of eczema. I tried four doctors, giving each a fair trial, but got no better. In fact, the disease spread to my left arm."

"I saw Dr. Chase's Ointment advertised and began using it. Persistent use of this treatment has entirely cured me and I give you a statement of my case with pleasure as I hope thereby to induce some other sufferer to try the same Dr. Chase's Ointment."

There is a wonderful satisfaction in using Dr. Chase's Ointment for you can see from day to day just what results are being accomplished. Sixty cents a box, all dealers, or Edmanson, Bates & Co., Toronto.

CRITICIZES AUSTRALIA'S MILITARY SYSTEM

Colonel Onslow Does Not Hope Much From Compulsory Training in That Country

Colonel Onslow, responding for the army at the Commercial Travellers' dinner at Sydney, recently said that Australia had no army and no navy, unless they could claim a share in the great Imperial army and navy.

He had been associated with the military forces for twenty years. Since federation these forces had suffered and gone down through the neglect, and worse than neglect, of successive governments. The present government, if earnest about nothing else, were in earnest about defence. (Cheers.) But many had believed that before. (Laughter.) He did not look forward with great hope to compulsory training in that country. It remained to be seen whether the people would be heart and soul with the scheme. In no country in the world was every man a soldier. In Germany a million men were presented annually for the naval and military forces. Less than half were accepted, and of that half more than a quarter were sent into the ultimate reserve. It was well within the mark to say that only one in three received a military or naval training in Germany. But that training was very much more than was even hinted at for our rising youth. (Hear, hear.)

The two great questions were officering and instruction. Within six months they were to make 200 instructors. Yet it took 12 years to make a regimental sergeant in the British army. (Cheers.) There were at present retired non-commissioned officers from distinguished British regiments, who had been through the mill and knew the business from A to Z. These men would probably not obtain employment, because it was a case of Australia for the Australians. It was a good cry in its way, but there were limits. It carried to a logical conclusion, he almost wondered that they brought out Lord Kitchener to make an army. (Cheers.) "I think I have given you something to think about," concluded the colonel.

"But there is another important consideration. The first essential for an army is to have men to put into it. We are at present endeavoring to fill a 1,000-gallon tank when we have only a quart pot. (Laughter.) Before we can defend this country properly we must have men, and to get men we must bring about a steady stream of immigration." (Applause.)

WE HAVE THE OIL!

The Remarkable Progress of The Amalgamated Development Company

Has been unprecedented in the history of the Oil industry. Full title to all of this Company's immense holdings was not completed until the 20th of June—JUST TWO MONTHS AGO.

Since that date the Company has installed machinery for pumping two flowing oil wells. Has commenced and is already far advanced with the construction of a refinery on the ground; and has shipped NINE MILES OF PIPING to convey the product of their Oil Wells to tidewater.

Can This Record of Progress For Two Months Be Beaten?

The present week will see the stock of the Amalgamated Development Co. quoted upon one or more of the local stock exchanges. WATCH IT RISE.

What Other People Think

HIGH SCHOOL BY-LAW.

To the Editor:—In your issue of this evening an item in your news columns referring to the by-laws to be voted on next Monday says: "If the value of the proposed free site at Spring Ridge for the purpose of a high school be computed at, say \$50,000," etc.

So far as this item tends to the impression that the ratepayers are asked to vote on additions, or bonds, and cash to that value, it is misleading. This by-law sanctions an expenditure of \$10,000 only, in addition to the use of certain lots or parcels of land in Spring Ridge. These lots were bought last year for \$10,000, and this vote is to sanction their use as a part of the high school campus. It is not proposed to build the high school upon them, but that they may be used thus. They will be levelled and beautified and will thus become an open space and play ground for the young in that part of the city. This is in line with the recommendation made to the city council recently by our city medical officer, Dr. Hall. The school board is paying \$30,000 toward the cost of the site, so the ratepayers are not asked to vote \$50,000 more, as the item in your news columns this evening would seem to indicate.

Aug. 24.

BEACON HILL PARK.

To the Editor and to the Public:—The following proposed, unlawful agreement only awaits the signature of His Worship the Mayor on the one hand and the representatives of the Beacon Hill Park Bowling Club on the other.

The agreement indicates that the Mayor and aldermen mean to adopt an unlawful and pernicious doctrine, viz., that they have the uncontrolled power to grant at their own will and pleasure permissions or privileges to companies or individuals to occupy and use portions of or indeed the whole of Beacon Hill park.

This is an outrageous and unlawful assumption of illegal, tyrannical power. Citizens, what do you think of it? The park is not the property of a corporation, but of the public, by virtue of a deed from the honorable the Hudson's Bay Company giving the public and their successors Beacon Hill park forever.

Now, the corporation are unlawfully endeavoring to deprive them of it, in fact, to steal and divide it.

It will be remembered that W. J. Taylor, Esq., K. C., the city's barrister, being appealed to by the civic government, gave his learned and official opinion in writing that the privilege given by "resolution" of the parks board to Messrs. Oliphant, McGregor et al., on October 14th, 1908, was unlawful, contrary to the intent and meaning of the deed of trust giving Beacon Hill park to the citizens and their posterity forever.

The Oliphant association called itself the Beacon Hill Bowling Green Association. The word "park" is omitted.

Mr. Taylor's official opinion, together with a public letter, was ordered to be sent to the "legal committee" of the corporation for report, but, after weeks of delay, they did not send a "report," but instead thereof the following "opinion" prepared and sent to the legal committee: "The corporation of the city, through its officers, by plugging the hole, to whom the park belongs, into greater, present as well as future, difficulties and turmoil. The public wanted the restoration of their property untrammelled, instead of which they send a poisonous snake."

There was not, neither is there any, necessity to make a new agreement. On the contrary, the Oliphant agreement being unlawful, and would suppose the deed to be unlawful also, for it is virtually the same, nearly a rehash of the Oliphant resolution, which it purports to make lawful.

A copy of the deed reads as follows: "By this deed we, the Beacon Hill Park Bowling Club, do hereby promise and un-

dertake with the corporation of the city of Victoria and with the persons or corporate body or authority now or at any time hereafter having or exercising jurisdiction over Beacon Hill park (all of which parties are for the sake of brevity hereinafter deemed to be included in the term "The Authorities"), that we, the Beacon Hill Park Bowling Club, and our successors, for ourselves and everyone claiming by, through or under us, will, when and as requested by the authorities, remove from off the lands of Beacon Hill park the club house and appurtenant buildings now or hereafter to be erected with permission of the authorities upon the portion of the park used by us as and with a bowling green and all improvements of every description, and will make good and reimburse at our expense, the lands of the park which may be injured or interfered with by such occupation and removal, and we agree and consent that the authorities may at any time prohibit the use of the site of the park for the playing of bowls, whether requiring removal of such buildings and improvements or not, and that before exercising right of removal of buildings and improvements of our own initiation, or on the requisition of the authorities, we will, at the request of the authorities, pay into the hands of the city treasurer such sum as the city engineer may estimate to be the cost of repairing, restituting and making good the site of the said buildings, improvements and bowling green, with power to the authorities to retain the buildings and improvements if such deposit is not made as a guarantee and security for the due performance of the obligation herein contained to repair, restate and make good the said site. And we, the said Beacon Hill Park Bowling Club, do declare to and with the corporation of the city of Victoria that we enjoy the privilege of using the site of the bowling building and improvements thereon in common with the public and citizens of the city of Victoria, and will submit in all things to the jurisdiction of the authorities in all matters pertaining to the playing and enjoyment of the privileges aforesaid, and that we will not at any time hereafter set up any right, power or privilege adverse to the title, rights and powers of the authorities.

"As witness the hands of the president and officers of the said club this day of July, 1910.

"Signed and sealed in the presence of, etc."

The above agreement is a subtle and cunning attempt to evade the law in order to give the Beacon Hill Park Bowling Green Club possession of the unlawful holding of the Oliphant et al Company, but, mark, it retains the club in a position of subservience to the corporation of the city of Victoria, and speaks of "supervising now or hereafter to be erected" (another club house), as they did not intend to quit their unlawfully acquired privilege for a long time to come. The corporation may, if they deem it advisable, create and maintain portions of the park for games, but in this case the administration thereof must be by their servants, obedient to their instructions and maintain them.

The very beginning of the above "deed" speaks of the "authorities." Presumably it means the trustees of the park and possibly the provincial government, but there is no mention or place made for the "deed" begins with the Beacon Hill Park Bowling Club, a club in this case having no status whatever. The club is registered under the Benevolent Societies Act, B. S. C., 1897, on the 12th of January, 1898. Mark the impudence of it.

The objects for which the association is formed, are for providing means of recreation, exercise and amusement by means of an athletic club, and amongst other things to provide and maintain bowling greens of "course by the title in Beacon Hill park."

Oliphant et al Co. were limited to a piece of the park measuring 140 feet square, about the size of these ordinary tennis courts. It is not to be noted that a private green because the new company being formed expected and wished for other portions of the public park, they having at the time the "pull" of the Mayor and council, the trustees of the club have no status, yet these are the gentlemen or their successors with whom the corporation of Victoria have been "peddling" bargaining in preference shares in the public park, pilfering the

- (c) The point of diversion—On the north side of said lake.
- (d) The quantity of water applied for (in—Dam at south side of said lake and cubic feet per second)—Four.
- (e) The character of the proposed works ditch on north side.
- (f) The premises on which the water is to be used (describe same)—Gravel pit on west of Saanich Inlet, south of Indian Reserve.
- (g) The purposes for which the water is to be used—Washing gravel and industrial purposes generally.
- (h) If for irrigation describe the land intended to be irrigated, giving acreage—Not for irrigation.
- (i) If the water is to be used for power or mining purposes describe the place where the water is to be returned to some natural channel, and the difference in altitude between point of diversion and point of return—Not to be returned for power or mining, but can be returned into John's Creek below lake on north side of Malahat mountain; 750 feet approximate difference in altitude.
- (j) Area of Crown land intended to be occupied by the proposed works—
- (k) This notice was posted on the 25th day of July, 1910, and application will be made to the Commissioner on the 25th day of August, 1910.
- (l) Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet—Esquimalt & Nanaimo Railway Company.
- (m) Attach copy of such parts of the Company's memorandum of association as authorize the proposed application and works.
- (n) To construct and operate works, and to supply and utilize water under the provisions of the Water Act, 1902, and to apply, for, receive, and enjoy all powers and privileges authorized to be conferred on any Company under the provisions of the said Act.

Application for Storing Water. (To be attached to Form 1, 2 or 3 as may be required.)

(a) The place of the proposed reservoir for storing—Lake on the southeast slope of Mount Wood, Malahat District.

(b) The means by which it is proposed to store the water—Dam at south end of lake.

(c) The area of the reservoir site or sites at each foot in depth above the outlet—(1) 27,000 sq. ft. (2) 75,720 sq. ft. (3) 250,000 sq. ft. (4) 500,000 sq. ft. (5) 750,000 sq. ft. (6) 1,000,000 sq. ft. (7) 1,250,000 sq. ft. (8) 1,500,000 sq. ft. (9) 1,750,000 sq. ft. (10) 2,000,000 sq. ft.

(d) How it is proposed to acquire the land necessary for the purpose—By arrangement with owners.

(e) Approximately the number of acre feet intended to be impounded—25.

(f) Whether it is proposed to lower the level of the water—If so, describe the body of water, and, if so, describe the anticipated extent of the lower-

(g) The means proposed to be adopted to lower and re-fill—

(h) The nature and character, in detail, of the works proposed to be constructed to provide for the discharge and penning back of the water—

SOCIAL AND PERSONAL

Mrs. McPhillips is giving a tea this afternoon.
Miss Mildred Gannon has returned from a holiday trip to Vancouver.
The Misses Pooley are giving a young people's dance on to-morrow evening.
Mrs. Carson and Miss Leila Carson, of this city, are the guests of friends in Vancouver.
Mrs. F. B. Warren, Rockland Avenue, was hostess of a charming tea on Wednesday afternoon.
C. P. Allen will leave for his home in Shanghai on the Inabu Maru, sailing from here next Thursday.
Mr. and Mrs. Hall and Miss Flora Mann, who have been spending some time with Mrs. Drainie, Vancouver, returned to town yesterday.
The latest fad in camp entertaining is to issue invitation for a "Watermelon Party." The luscious melon forms the basis of the refreshments, and banjos and coon songs furnish the entertainment.
Miss Stevenson, Victoria, is in Vancouver, the guest of the Misses Spence. The Misses Rowe, Point Douglas, Winnipeg, who have been for some time in Victoria renewing old friendships with former prairie friends, are now en route for home.
At "Brendalbane," yesterday afternoon, Rev. Dr. Campbell celebrated the marriage of Mr. Robert Douglas, manager of the Flumerfelt farm. North Saanich, and Margaret, second daughter of Mr. Andrew Peables, Atwood, Ontario.
W. E. Duperron, local passenger agent of the grand Trunk Pacific, has been confined to his home for several days with a severe cold, but it is expected that he will be able to return to his duties within a few days.

Mrs. A. Wyde, Fort street, and her little daughter, Victoria, who have been spending the summer at Shawigan Lake, are paying a flying visit to their home here, and will return this evening to Shawigan, where they will spend the month of September.

Mr. and Mrs. S. J. Drake, 127 Government street, were in Vancouver yesterday attending the marriage of the former's sister, Miss Mabel Edith Drake, to Mr. John Herbert Reid, also of Vancouver. The ceremony took place in Wesley church at 8.15 a.m., Rev. H. Milliken officiating. The bride, who was given away by her father, Mr. James Drake, wore her travelling costume of navy blue cloth, and a smart hat of the same color, and carried a bouquet of cream roses. She was attended by her cousin, Miss Mildred Boyle, who wore a pretty frock of natural color pongee silk, and a tucan straw hat with rose ribbon trimming. Her flowers were pink roses. Mr. A. McNair was best man. The honeymoon will be spent in New Brunswick, with the groom's parents. On their return Mr. and Mrs. Reid will take up their residence in Vancouver. Bride and groom are both well known to Victorians and have frequently been the guests of Mr. and Mrs. Drake here.

Judge—Why didn't you seize the thief when you found him?
Policeman—How could I? I had my club in one hand and my revolver in the other.—Fulgencio Blaetter.

"Don't you believe the husband is the head of the house and should have the final say?"
"Certainly I do."
"Then why don't you come out in the open and say so?"
"Because my wife won't let me."—Baltimore American.

"Half the world doesn't know how the other half lives."
"Possibly," answered Miss Caustic, "but that isn't the fault of the ladies who got together with their knitting on the piazza at our hotel."—Brooklyn Life.

DR. MARTEL'S FEMALE PILLS
Seventeen Years the Standard Prescribed and recommended for women's ailments, a scientifically prepared remedy of proven worth. The result from their use is quick and permanent. For sale at all drug stores.

Uncle Walt The Poet Philosopher

It was the steenth of August, the day was close and warm; I stepped into a school house to watch the kids perform; and I had sticks of candy and other treasures rare, to hand out to the IGNORANCE children whose showing was most fair. The teacher asked them questions as simple as could be: "What town in Asia Minor is on the Irish Sea?" "A farmer has three horses; of one he is bereft; two others are impounded—how many has he left?" "I forty thousand tigers, in just a half a day, will drink ten tons of water and eat ten stacks of hay, how many one-eyed soldiers would build five miles of fence, when eggs and rotten apples are sold at fifteen cents?" The children, bright and eager, gave answers every time, their energy and brightness, I thought, were most sublime. But there was one exception, a youth with forehead low, who merely scowled and mumbled his answer: "I don't know." His presence cast a shadow upon the cheerful scene; his answers shamed the teacher, and made the school seem mean; and then I spring the candy—a chunk for every one, except the ignoramus—of course that youth got none. And seldom does the candy in this world's battle go to any weary bonehead who answers "I don't know."
Coax Mason

MODISH TRAVELLING SUIT
For an August trip natural tone linen on ponce makes an ideal suit, and the cut here illustrated is stylish and durable. The skirt has a cluster of plaits on each side, otherwise it is perfectly plain. The coat is more or less elaborated, with shaped and stitched bands and outside pockets with stitched flaps. If an early fall suit is desired, follow some model in light-weight serge or cheviot.

BASEBALL TOPIC AT MUNICIPAL COUNCIL

Dispute Regarding Cup Competition Will Be Settled by Arbitration
Vancouver, Aug. 24.—That South Vancouver is growing so fast that the municipal council can not keep pace with it, was the opinion expressed by Reeve Poundrat the regular council meeting. A large number of ratepayers attended and said they would give almost anything if their houses could be connected up with the mains and a supply of water obtained. In almost every case the applicants were told that they were new settlers, therefore, the road upon which they were living had not been specified in the by-law, and that before the council could lay any more pipes they would have to submit another by-law for extension of their system.
It was finally decided that a committee be appointed to go with the waterworks superintendent, visit the districts of the applicants, and see what could be done for them in the way of making temporary connections.
Another matter which took up the bulk of the council's time and which called for a lengthy discussion, was a dispute amongst the various baseball teams of the municipality who are competing for the cup offered by the council. The cause of the trouble was the charge that some of the teams had lately obtained players from

WARD SYSTEM AT PRINCE RUPERT
By-law Introduced at Meeting of Council to Divide City for Electoral Purposes
Prince Rupert, Aug. 24.—AM. Pattullo has introduced a by-law that fore-shadows the election. It is the by-law to divide the city into wards which is a necessary move before the next council is elected according to the municipal clauses act. Of necessity the division now made must be only temporary as the centres of population will change from time to time necessitating amendments to meet the altered conditions.
Aid. Pattullo explained in connection with his by-law at the council meeting that the act required that the assessed value of the property in each ward be approximately similar. If this were not the case the council might be called upon to amend the by-law. He had found it difficult to carry this out on account of the heavy assessment on some of the waterfront blocks. He had considered the matter carefully and thought the system of two wards the best. Fulton street would, roughly speaking, be the dividing line. The line would leave the waterfront in the G. T. P. wharf section, following Sixth street to Second Avenue. It would continue along Second Avenue to Fulton, follow that street to Ninth Avenue and pass along the alley between blocks 42 and 43 in section 2. Ward 1 would be the section westerly of this line, while ward 2 would be that easterly of the line. It was found difficult to make a division that would give equal assessment and yet be divided by a line that could readily be designated without

the city in order to strengthen their forces so that they could have the honor of winning the trophy.
The councillors seemed to have been following very enthusiastically the "ball game" in the municipality. The council, after hearing each side of the question, agreed that it was unparliamentary to get city men to play when the cup was donated for the purpose of encouraging the ball game in the municipality. It was finally decided that the dispute should be settled by arbitration.

WARD SYSTEM AT PRINCE RUPERT
By-law Introduced at Meeting of Council to Divide City for Electoral Purposes

considerable study. The assessment in this division he proposed would be over \$5,000,000 in ward 1 and over \$3,000,000 in ward 2. He proposed that there should be three aldermen elected from ward 1 and five from ward 2. This would be a fair division of the representation.
Ald. McIntyre asked why McBride street was not made the dividing line.
Aid. Pattullo explained that if that were done there would be a wide disparity between the assessments of the wards owing to the waterfront of the G. T. P. being placed so high.
The by-law was considered in committee at some length, after which the committee rose and reported progress.
The Moors of Arabia and Spain were the first to display colored globes in chemist's windows.

METHODISM AND MISSION WORK

(Continued from page 1.)

"A noble man, a purer, truer, more faithful man, more devoted to the interests of the Methodist church, we have not had," declared the chairman. The eastern delegates met at the close of the session and passed a suitable resolution. The following letter to Rev. Dr. Moore from Rev. G. H. Haley, Methodist missionary at Port Simpson, was read and its contents heard with hearty approval.

"One of the features planned for the reception of Sir Wilfrid Laurier at Prince Rupert was a Sunday excursion. When this was mentioned to him he courteously declined the pleasure in terms to this effect, that inasmuch as the Government has a law called the Lord's Day Act it is incumbent upon the members of the Government to observe it. You will be pleased to know that on Sunday morning, despite the numerous duties of the preceding day, Sir Wilfrid wended his way to the home of God."

Rev. P. D. Bovard, B. D., San Francisco, and Hon. R. A. Booth, Portland, Ore., the fraternal delegates from the Methodist Episcopal Church of the United States, took their farewell of the conference. Upon motion of N. W. Howell, K. C., seconded by Dr. Sparling, Chancellor Burwash, of Victoria University, was appointed as fraternal delegate to the Wesleyan Church in England, the Methodist Church in Ireland and such other conferences in England as he may find it convenient to attend. For the election of a ministerial and a lay delegate to the Methodist Episcopal Church of the U. S. the following were nominated: Rev. J. V. Smith, D. D., Hamilton, Ont.; Rev. W. H. Hartz, D. D., Amherst, N. S.; Rev. S. F. Ross, D. D., Toronto; Rev. Howard Sprague, D. D., Sackville, N. B.; Joseph Gibson, Ingersoll, Ont.; J. A. M. Atkins, K. C., Winnipeg; Judge Chesley, Lunenburg, N. S.; G. F. Johnston, Montreal. Mr. Atkins was chosen as lay delegate on the first ballot. Two indecisive ballots for ministerial delegate were taken before adjournment. Dr. Ross led on the first and Dr. Hartz on the second.

This afternoon the report of the commission on rules as to the footnote is being discussed.

OBITUARY RECORD

This afternoon the funeral of the late Janet McTaggart Stewart took place from the family residence, 2519 First street, at 2 o'clock. Services were conducted both at the house and at the grave by Rev. Dr. Campbell. Many friends attended the funeral and numerous flowers covered the casket.

Edwin Herbert George, the infant son of Sgt. and Mrs. George, died last evening at Work Point barracks, at the age of seven months. The funeral took place this morning at 11 o'clock from the family residence, Work Point, where Rev. Baugh Allen conducted services. The remains were interred in the naval cemetery at Esquimalt.

The remains of the late Alma Westwood, who was drowned at Beacon Hill on Tuesday, were forwarded to Nanaimo on the train this morning. A short service was held in the chapel of the B. C. Funeral Company at 8 o'clock conducted by Rev. T. W. Gladstone. A large number of sympathizing friends gathered at the parlors and many flowers were presented.

At an early hour this morning the death occurred at the family residence, 2263 Sayward avenue, of John Wilfred Allen, the son of Mr. and Mrs. Frank Allen. Deceased was born in Edmonton and was a little over three years of age. The body has been removed to the B. C. Funeral Company's parlors where it will repose, awaiting the funeral instructions.

There passed away yesterday at the Royal Jubilee hospital Mrs. Louisa Maylett, the beloved wife of Saul Maylett, Glenford avenue. Deceased had been ill for some time and her death was not wholly unexpected. She had lived in this city for many years. The late Mrs. Maylett was born in Surrey, Eng., and was 55 years of age. The funeral takes place tomorrow afternoon at 2:30 o'clock from the chapel of the B. C. Funeral Company. Rev. Hermon A. Carson will officiate and the remains will be interred in Ross Bay cemetery.

Dennis and Reginald, aged three and six years respectively, sons of Mrs. and Mrs. John Marshall, Carey road, passed away last evening at the Royal Jubilee hospital. The two little boys died within a few hours of one another after a very short illness. The funeral will take place to-morrow afternoon at 1 o'clock from the Hanna undertaking parlors, Yates street. Rev. J. B. Warwick will conduct the services and the bodies will be interred in Ross Bay cemetery. Friends and acquaintances are asked to kindly take notice of the date of the funeral.

KAISER AND CAMERA.

While the Emperor William does not, as a rule, place insuperable obstacles in the way of those who wish to snap him, he naturally, says a Berlin correspondent, objects to having his freedom of movement encroached upon by too aggressive photographers. During his visit to Swinemunde he was taking a walk along the beach one morning, escorted only by a single police official in civilian attire, when a young man planted himself in front of the Sovereign and fixed him with his camera. His Majesty allowed him to take one negative undisturbed, but when the photographer deliberately prepared to secure a second, the monarch's patience broke down, and, turning to the detective, he said, "Take the man's plates away from him." The presumptuous photographer was thereupon arrested, and conducted to the police station, where he proved to be an employee of a Berlin firm, which opens a branch of its business on the beach at Swinemunde during the season.

Right Sort of Bedroom Furniture

Built Right, Finished Right
---It Stays Right for Years
Best Values Here

Matters Not What Your Needs May Be, They Can Best Be Filled Here

See What Two Big Floors Offer You To-day

Leave Nelson, 6 a.m., August 30th.
Arrive Kootenay Landing, 10 a.m., Tuesday, August 30th.
Leave Kootenay Landing, 12 noon, Tuesday, August 30th.

Arrive Cranbrook, 10 p.m., Tuesday, August 30th.
Leave Cranbrook, 17 p.m., Tuesday, August 30th.
Arrive Fernie, 10.25 p.m., Tuesday, August 30th.
Leave Fernie, 20.15 p.m., Tuesday, August 30th.
Arrive Lethbridge, 4 a.m., Wednesday, August 31st.

CAPTURING AN ATOM

To capture the individual atom is an achievement that has been reserved for an instrument the most sensitive in the world. In the competent hands of Rutherford, and in a research which will stand as classical in its refined and accurate experimentation, the instrument which has proved capable of this incredible feat is the electrometer.

Everybody knows that radium gives off rays three types—alpha, beta and gamma rays. The alpha rays alone concern us. On the basis of an enormous amount of knowledge it may positively be taken for granted that these particles are of atomic dimensions. These fly through the air at the rate of about 20,000 miles a second, and they are of atomic dimensions. The feat to be accomplished consists in catching them one by one; it transcends any analogy with which one might attempt to compare it.

Its success depends upon the power these particles have of rendering electrically conductive the air through which they tear their way. This property, by what might be called a trigger arrangement, Rutherford succeeded in magnifying thousands of times, until finally it became adequate, and there, upsetting the electrical equilibrium of the air within their cause, a ballistic jump of the electrometer needle connected with it. One, two, three, four—at the rate of about 30 a minute, as they came one, two, three, four corresponding jumps of the needle. Counting the atoms! It is, indeed, wonderful.—Harper's Magazine.

Arrow Brand Gilsonite Composition

Is for Concrete and Brick Walls, Iron and Wooden Structures of all kinds. For Ships' Hulls and Decks, for all kinds of Roofs, for Tin or Iron Buildings and Bridges. It is especially adapted for insulating purposes. It will stand a high degree of heat, and will not carbonize. It is proof against Acids, Alkalies, Fumes and Gases, and is particularly adapted for use on gas, oil and cyanide tanks, pipes, boilers, smelters, etc. Ask for color card.
