**CHOICE
FLOWER
BULBS**

A Darwin Tulip Garden

THE Growers from whom I have reserved the season's choice bulbs have my explicit instructions to ship nothing but the finest grades the crop affords. I pay a premium for these specially picked stocks and my prices are governed by their superior quality. As many of the varieties listed are very scarce it is advisable to order early so as to secure full delivery.

At the time this catalog goes to press crops are as yet undug and markets are not fixed; weather conditions which are beyond my control make it impossible for me to guarantee delivery of grades quoted. I reserve the right in such instances to deliver the best grades available to the sizes quoted at a proportionate reduction in price.

DARWIN TULIPS

It is unnecessary for us to dwell upon the merits of this wonderful class of Tulip. For years they have been acclaimed "Monarchs of the May Garden," and with those other closely allied May Flowering Tulips, viz., the **Cottage and Breeder** classes, should be planted by the thousand in every garden that can accommodate them. Our aim is to supply the finest quality bulbs of all the best varieties now in existence, as listed hereafter.

Our descriptions are concise but accurate, and the approximate garden height of each is given.

We draw particular attention to those varieties in capitals and underlined, as being exceptionally fine varieties, at very reasonable prices.

SPECIAL

Upon request I would be pleased to submit a special list of bulbs for naturalizing at exceptionally low prices.

HARDY LILIES

Lilies have been one of our pet hobbies for years; we have taken great pains and much work in testing out new kinds to ascertain their adaptability or weakness for ordinary garden use. We are now considered leading specialists for the supply of finest grade bulbs of all hardy varieties both old and new, as well as for the finest stocks of forcing Lilies.

HARDY LILIES—(Continued)

Our bulbs have brought remarkable success to private exhibitors at leading Flower Shows all over the states. For two years in succession, prize-winning exhibits at the Great New York International Flower Show were produced from bulbs we supplied. There is no better way of proving "Manda Quality Bulbs" than in open, nation-wide competition.

Lilies are daily becoming more popular as permanent groups in Plant Borders, Shrubberies, etc.; many new and uncommonly handsome species have in recent years been added to the few old timers that used to suffice. The following is a very complete list of the better Lilies in commerce today, quite a few of which are here offered for the first time. Orders are now being booked for Autumn delivery of "new crop" Bulbs, of the largest sizes the season affords.
