# FINDING LIST OF TEXT-BOOKS.

## Directions for the Use of the Lists.

The books in the library are grouped under four heads, as follows:

- Reports and Digests.
- Legal Periodicals.
- Statutes and Session Laws.
- Text-books.

The text-books are first listed in a classification according to subjects, and again in alphabetical order according to the authors' names. The text-books are numbered numerically from the first book on Admiralty to the last book on Wills. The alphabetical arrangement of text-books in this catalogue gives the number of each book. See page 93. It is thought that a grouping under the following heads will prove sufficiently convenient.
