DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Nara Prefectural Assembly

27 December 1949

Subject: Petition for early repatriation of Japanese Nationals

To : General Douglas MacArthur
Supreme Commander of the Allied Powers
GHQ, SCAP, APO 500

Your excellency,

We, members of Nara Prefectural Assembly, would like to express our heartfelt appreciation and gratitude for the profound sympathy that the Allied Nations have extended to us in the repatriation of Japanese in the occupied areas of the Allied Forces.

We, members of Nara Prefectural Assembly, have been striving in the early repatriation of Japanese nationals keeping step with the Central Government for these five years since we renounced the war. But ..... still there are hundreds of thousands who are waiting to see their beloved land and families once again. Nara Prefecture also have thousands who are suffering untold miseries in frozen land and their families in unimaginable grief.

Undoubtedly there may be various obstacles on your part in the promotion of detainees repatriation, but it breaks our heart to even think of them.

We, members of Nara Prefectural Assembly, would be grateful and honoured if we could approach with a petition for the early repatriation of our beloved ones abroad and also would like to ask you for your favorable consideration on the realization of the resolution of Nara Prefectural Assembly:

1. Repatriation of all detainees in the Soviet areas.
2. Continued repatriation from the Chinese Communist zone.
3. Dispatch delegates to the Chinese Communist zone.
4. Publication of name of detainees and deads and return of ashes.

Yours most respectfully

s/ & t/ Seiritsu Tsujimoto
Chairman
Nara Prefectural Assembly

SUBJECT: Assimilation of Repatriates into Home Communities

TO : Commanding General
I Corps, APO 301
ATTN: Civil Affairs Section

1. For your information.

2. A survey made by all teams of the 871 repatriates who returned to the prefectures of this region in early July revealed that for all prefectures except Osaka 97% returned to homes of immediate family; in Osaka the percentage was 57. Of those who had to accept congregate shelter 30% later moved into private accommodations. All but 5 of the repatriates were employable, and 50% had secured employment, with prospects for the remainder classified as good. The application for and receipt of demobilization and other public benefits proceeded in a smooth and effective manner. Supplementary benefits were available to the men from private sources-most of these being in the nature of comfort items.

3. By and large, the attitudes of the officials towards the repatriates was one of earnest effort and sincerity. After the initial recalcitrant attitudes displayed at the reception ceremonies most of the repatriates exhibited a more relaxed, cooperative and friendly aspect to the officials and others. It is estimated that in the rural areas not more than 10% of the repatriates will remain constant to the Communist Party, and that in the cities the percentage will be less than 30%.

4. The survey was directed towards determining how the repatriates had become assimilated into their home communities, and the evidence, while sketchy, indicates that the rate of assimilation and adjustment has been swift and high.

SUBJECT: Japanese Police at Maizuru Repatriation Center

TO: Commanding General
I Corps
APO 301

1. The Maizuru Repatriation Center is presently furnished twenty-four Japanese policemen from the municipal police forces in the vicinity of Maizuru. During the recent disturbances at the Center incidental to the reception of repatriates, it became apparent that this force was much too small to accomplish its mission. Information obtained from recent repatriates indicates that continuation of the disturbances can be expected. It is believed that unless proper precautions are taken, the incidents at the Center may become aggravated.

2. Since repatriation is a function of the Japanese Government, it appears logical that police activities connected therewith should be the responsibility of the National Rural Police, with local municipal police being used as reserves only. It is believed that one hundred fifty permanently assigned National Rural Policemen is the minimum necessary to maintain order under present conditions and anticipated future conditions. Such a permanent force is considered adequate to handle minor disorders if it can be quickly reinforced in an emergency by one hundred fifty policemen assembled from nearby municipalities.

3. The feasibility of adopting the plan outlined in paragraph 2, above, has been discussed with the Osaka Regional Director of the National Rural Police, who agrees in principle. He has stated that he will cause a study to be made followed by a recommendation to his superior in Tokyo.

4. Request that action be taken to procure a permanent force to be stationed at the Repatriation Center during the processing season; further, that the municipal officials at Maizuru be informed by the proper Japanese authorities that they are responsible to furnish at the Center a minimum of one hundred and fifty police within two hours after request by repatriation officers.

1. This headquarters understands the processing of repatriates returning from the USSR to be the responsibility of the Japanese Government, and further that the process is not completed until the repatriate is returned to his family or locality of origin if he has no family or relatives.

2. Recent events which occurred after the repatriates entrained at Maizuru for their destination indicate a failure on the part of the Japanese adequately to discharge their responsibilities. Following is a summary of a few recently reported incidents:

a. On three occasions since 29 July repatriates have left the train at Ayabe and delayed train departures for periods of 10 to 40 minutes. Their tactics are to parade, sing and block the rail right of way, as well as visit members of the JCP who are awaiting them at the station. Awaiting JCP members came to Ayabe from nearby towns and cities.

b. Forty-four repatriates enroute to Kyoto from Maizuru detrained at Tanbaguchi Station (one stop before Kyoto main station) and broke up into groups. One group addressed the labor union of the Shimazu Mfg. Co., another group went to the headquarters of the Kyoto Prefectural Communist Party and other groups made speeches throughout the business district of Kyoto City.

c. On 7 August a group of repatriates enroute from Kyoto to points north left the train at Otsu and returned to Kyoto City to meet party workers whom they could not meet at the time they were in Kyoto because of strict police control.

d. Also on or about 7 August, 364 repatriates entrained at Maizuru for Aomori and vicinity via Tsuruga (Fukui-ken). Three hundred

fifty-nine were not satisfied with the route, left the train at Tsuruga, and boarded a regularly scheduled Japanese train to Maibara (Shiga-ken), where they changed to another regularly scheduled train and continued to Aomori-ken.

3. The foregoing incidents, together with other known facts, indicate a pre-planned campaign being conducted by the JCP and repatriates for harassment and interference with the process of repatriation. Every effort is made by the JCP and the repatriates to establish contact prior to the repatriate reaching his home.

4. Japanese police and railway officials have been urged to deal firmly and in accordance with Japanese law with the repatriates to insure an uninterrupted completion of the repatriation process, from the time the repatriates leave Maizuru until they reach their destinations.

5. Inasmuch as repatriation is a national problem it is recommended that the Japanese National Rural Police and the Japanese National Railway police and officers be instructed to take the necessary steps to insure that repatriates remain aboard their assigned train except at scheduled points of detraining.
